FEMSA Announces Fourth Quarter

and Full Year 2014 Results

Monterrey, Mexico, February 26, 2015 — Fomento Económico Mexicano, S.A.B. de C.V. (“FEMSA”) announced today its operational and financial results for the fourth quarter and full year 2014.

Given current operating conditions in Venezuela, and in order to more accurately reflect the contribution of this operation to Coca-Cola FEMSA and FEMSA’s consolidated financial results, we are now using the previously denominated SICAD II exchange rate of 50 bolivars per US dollar to translate this operation’s fourth quarter and full year 2014 results into our reporting currency, the Mexican peso, compared to an exchange rate of 6.30 bolivars per US dollar used for the comparable quarter of 2013. Consequently, Venezuela’s contribution to our reported results adjusted importantly. Despite the difficult operating environment in Venezuela, Coca-Cola FEMSA remains committed to the market and will continue producing, selling and distributing the products that its Venezuelan consumers enjoy on a daily basis.

Fourth Quarter 2014 Highlights:

FEMSA consolidated total revenues decreased 0.5% and income from operations grew 0.8% compared to the fourth quarter of 2013.

Coca-Cola FEMSA total revenues decreased 8.5% and income from operations decreased by 3.6% compared to the fourth quarter of 2013.

FEMSA Comercio total revenues grew 12.0% and income from operations increased 6.2%, each as compared to the fourth quarter of 2013, reflecting new store openings and 3.3% growth in same-store sales.

2014 Full Year Highlights:

FEMSA consolidated total revenues increased 2.1% and income from operations grew 0.4% compared to 2013.

Coca-Cola FEMSA total revenues decreased 5.6% and income from operations decreased 3.3% compared to 2013.

FEMSA Comercio continued its pace of strong floor space growth by opening 1,132 net new stores in 2014. Same-store sales rose 2.7% and income from operations increased 9.8%, each as compared to 2013.

Ordinary dividend of Ps. 7.350 billion proposed by FEMSA's Board of Directors, to be paid in 2015 subject to approval at the annual shareholders meeting in March 2015.

Carlos Salazar Lomelín, FEMSA CEO, commented: “During the fourth quarter, we saw some positive signs that show promise in our key Mexican market but they are still not conclusive. At FEMSA Comercio, the quarter marked a continuation of the gradually improving top-line trends that we saw throughout 2014; as the challenging year progressed, there was a slight uptick in the comparable sales figures at OXXO. However, at Coca-Cola FEMSA the recovery in Mexico has been less consistent, with the growth in transactions and solid profitability being bright spots in what is still a soft consumer environment. Beyond Mexico, Brazil delivered encouraging organic growth and improved margins, and we had a good performance in most markets during the period. All in all, our team did an excellent job navigating through a complex year.

As you have seen, we have changed our exchange rate criteria to report Coca-Cola FEMSA’s results in Venezuela, and while we believe this is the appropriate thing to do at this time, our numbers will be significantly impacted by this measure for several quarters.

In spite of the tough operating conditions across markets, we reached some important milestones. At FEMSA Comercio, we set a new benchmark for the opening of new stores reaching 1,132 net new OXXO units for the year, in addition to 90 new drugstores, bringing our store totals to 12,853 OXXOs and 605 drugstores as of the end of 2014. We also announced the acquisition of Farmacon, another strong regional drugstore chain that will allow us to keep gaining scale and advance in our strategy once the transaction closes. At Coca-Cola FEMSA, we made great progress in the integration of our recent acquisitions in Mexico and Brazil, and we completed our new state-of-the-art bottling plant in Itabirito, in the state of Minas Gerais in Brazil. This new plant is already allowing us to serve this key territory much better, with a broader portfolio and higher efficiency.

As we look to 2015 we still face some headwinds, including a volatile and adverse foreign exchange environment, but there are also encouraging signs that give us reason to be cautiously optimistic about the year that begins, particularly in Mexico but also in several other important markets. And remember that regardless of the environment or what the macroeconomic winds may be doing in one market or another, we will continue to work hard every day to execute our long-term strategy and deliver value for all our stakeholders.”

FEMSA Consolidated

Total revenues decreased 0.5% compared to 4Q13, to Ps. 70.156 billion in 4Q14, reflecting Coca-Cola FEMSA’s negative effect from using the SICAD II exchange rate to translate its results in Venezuela. On an organic basis¹, total revenues decreased 2.2%.

For the full year of 2014, consolidated total revenues increased 2.1% compared to 2013, to Ps. 263.449 billion. On an organic basis¹, total revenues decreased 3.6%.

Gross profit increased 0.2% compared to 4Q13, to Ps. 30.416 billion in 4Q14, reflecting the previously mentioned negative translation effect from Coca-Cola FEMSA's Venezuelan operations. Gross margin in 4Q14 increased 30 basis points compared to the same period in 2013 to 43.4% of total revenues, driven by margin expansion at Coca-Cola FEMSA and FEMSA Comercio.

For the full year of 2014, gross profit increased 0.5% compared to 2013, to Ps. 110.171 billion. Gross margin decreased 70 basis points compared to 2013 to 41.8% of total revenues, reflecting margin contraction at Coca-Cola FEMSA.

Income from operations increased 0.8% compared to 4Q13, to Ps. 9.782 billion in 4Q14. On an organic basis¹, income from operations decreased 0.8% in 4Q14 compared to the same period in 2013, reflecting the previously mentioned negative translation effect from Coca-Cola FEMSA's Venezuelan operations. Consolidated operating margin increased 10 basis points compared to 4Q13, to 13.9% of total revenues.

¹ Excludes non-comparable results from Coca-Cola FEMSA and FEMSA Comercio acquisitions in the last twelve months.

2February 26, 2015

For the full year of 2014, income from operations increased 0.4% compared to 2013, to Ps. 29.983 billion. On an organic basis¹, income from operations decreased 3.7% compared to 2013. Our consolidated operating margin in 2014 decreased 20 basis points compared to 2013, to 11.4% of total revenues.

Our effective income tax rate was 23.2% in 4Q14 compared to 26.5% in 4Q13.

Net consolidated income increased 26.4% compared to 4Q13, to Ps. 8.536 billion in 4Q14, mainly reflecting an increase in FEMSA's 20% participation in Heineken's results.

For the full year of 2014, net consolidated income increased 2.1% compared to 2013, to Ps. 22.630 billion, resulting from a lower tax rate combined with an increase in FEMSA's 20% participation in Heineken's results, which offset higher financing expenses related to bonds issued by Coca-Cola FEMSA and FEMSA.

Net majority income for 4Q14 resulted in Ps. 2.03 per FEMSA Unit². Net majority income per FEMSA ADS was US\$ 1.37 for the fourth quarter of 2014. For the full year of 2014, net majority income per FEMSA Unit² was Ps. 4.67 (US\$ 3.16 per ADS).

Capital expenditures amounted to Ps. 6.528 billion in 4Q14. For the full year of 2014, capital expenditures increased to Ps. 18.163 billion.

Our consolidated balance sheet as of December 31, 2014 recorded a cash balance of Ps. 35.641 billion (US\$ 2.416 billion), a Ps. 8.256 billion (US\$ 559.7 million) increase compared to December 31, 2013. Short-term debt was Ps. 1.553 billion (US\$ 105.3 million), while long-term debt was Ps. 80.998 billion (US\$ 5.491 billion). Our consolidated net debt balance was Ps. 46.910 billion (US\$ 3.180 billion).

Soft Drinks – Coca-Cola FEMSA

Coca-Cola FEMSA's financial results and discussion thereof are incorporated by reference from Coca-Cola FEMSA's press release, which is attached to this press release or may be accessed by visiting

www.coca-colafemsa.com.

FEMSA Comercio

Total revenues increased 12.0% compared to 4Q13, to Ps. 28.812 billion in 4Q14, mainly driven by the opening of 458 net new stores in the quarter, reaching 1,132 total net new store openings for the year. On an organic basis³, total revenues increased 11.7% compared to 4Q13. As of December 31, 2014, FEMSA Comercio had a total of 12,853 convenience stores. Same-store sales increased an average of 3.3% for the quarter compared to 4Q13, reflecting a 2.8% increase in average customer ticket and a 0.5% increase in store traffic.

For the full year of 2014, total revenues increased 12.4% compared to 2013, to Ps. 109.624 billion. On an organic basis³, total revenues for 2014 increased 10.9% compared to 2013. FEMSA Comercio's same-store sales increased an average of 2.7% compared to 2013, driven by a 2.7% increase in average customer ticket while traffic remained stable.

Gross profit increased 14.2% in 4Q14 compared to 4Q13, resulting in an 80 basis point gross margin expansion to 39.2% of total revenues. This increase reflects a more effective collaboration and execution with some of our key supplier partners, including higher and more efficient joint use of promotion-related marketing resources, as well as objective-based incentives. For the full year of 2014, gross margin expanded by 50 basis points to 35.9% of total revenues.

¹ Excludes non-comparable results from Coca-Cola FEMSA and FEMSA Comercio acquisitions in the last twelve months.

² FEMSA Units consist of FEMSA BD Units and FEMSA B Units. Each FEMSA BD Unit is comprised of one Series B Share, two Series D-B Shares and two Series D-L Shares. Each FEMSA B Unit is comprised of five Series B Shares. The number of FEMSA Units outstanding as of December 31, 2014 was 3,578,226,270, equivalent to the total number of FEMSA Shares outstanding as of the same date, divided by 5.

³ Excludes non-comparable results from FEMSA Comercio acquisitions in the last twelve months.

3February 26, 2015

Income from operations increased 6.2% compared to 4Q13, to Ps. 3.179 billion in 4Q14. On an organic basis³, income from operations increased 6.3% in 4Q14 compared to the same period in 2013. Operating expenses increased 17.6% compared to 4Q13, to Ps. 8.112 billion, above revenue growth, lapping a tough comparison base and reflecting among several factors: i) the strong growth in new stores, ii) expenses related to the incorporation of the new quick-service restaurant operation, iii) the strengthening of FEMSA Comercio's business and organizational structure in preparation for the growth of new operations, particularly drugstores, and iv) certain one-off charges including those related to losses caused by hurricane Odile. As a result, operating margin contracted 60 basis points compared to 4Q13, to 11.0% of total revenues in 4Q14.

For the full year of 2014, income from operations increased 9.8% compared to 2013, to Ps. 8.680 billion, resulting in an operating margin of 7.9%, representing a 20 basis point contraction from the prior year. On an organic basis³, income from operations increased 9.7% compared to 2013.

Recent Developments

We are now using the previously denominated SICAD II exchange rate of 50 bolivars per US dollar to translate our Venezuelan operation's fourth quarter and full year 2014 results into our reporting currency, the Mexican peso. We recognized in our consolidated financial statements as of December 31, 2014, a reduction in total equity of Ps. 12,370 million as a result of the translation effect of our net investment in Venezuela to Mexican Pesos.

On December 1st, 2014, FEMSA announced that its retail subsidiary, FEMSA Comercio, agreed to acquire 100% of Farmacias Farmacon, a drugstore operator in the western Mexican states of Sinaloa, Sonora, Baja California and Baja California Sur. Headquartered in the city of Culiacan, Sinaloa, Farmacias Farmacon currently operates over two hundred stores. This transaction represents an important step as FEMSA Comercio advances in its strategy to establish a relevant position in this attractive small-box retail segment. The transaction is pending customary regulatory approvals, including the authorization of the Mexican Federal Economic Competition Commission ("Comisión Federal de Competencia Económica") and is expected to close during 1Q15.

FEMSA Comercio to Pursue Growth in the Operation of Gasoline Stations.

Since 1995, FEMSA Comercio has been providing services and assets for the operation of gasoline service stations through agreements with third parties that own Petroleos Mexicanos ("PEMEX") franchises, using the commercial brand OXXO Gas. Over time, this brand has become synonymous with quality service among our customers, and revenues per gas pump have consistently grown above the industry. As of December 31st 2014 there were 227 OXXO

Gas stations, most of them adjacent to OXXO stores, and they generated Ps. 16,178 million in revenues from the sale of gasoline and related products during 2014.

Historically, Mexican legislation precluded FEMSA Comercio from participating in the retail of gasoline and therefore from owning PEMEX franchises given FEMSA's foreign institutional investor base. In light of recent changes to the legal framework as part of Mexico's energy reform, FEMSA Comercio is no longer precluded from owning PEMEX franchises and participating in the retail of gasoline and has decided to pursue an aggressive growth strategy for this business. In order to enable this, FEMSA Comercio has agreed to acquire the related PEMEX franchises from the aforementioned third parties and plans to lease, acquire or open more gasoline service stations in the future. FEMSA Comercio already had the required assets in place to operate these 227 gas stations, so the capital implications for the acquired PEMEX franchises, are low.

We expect that FEMSA Comercio's gasoline retail business will have modest margins but attractive returns, and the potential for further improvement as we gain more scale. As with all recent acquisitions, upon closing we will include its results in FEMSA Comercio's reported financials, and we will also provide the relevant organic figures.

We are excited to be participating in this high-growth, high-return business, and we believe we are in a unique position to pursue and capture this compelling opportunity.

³ Excludes non-comparable results from FEMSA Comercio acquisitions in the last twelve months.

⁴ February 26, 2015

CONFERENCE CALL INFORMATION:

Our Fourth Quarter and Full Year 2014 Conference Call will be held on: Thursday February 26, 2015, 11:00 AM Eastern Time (10:00 AM Mexico City Time). To participate in the conference call, please dial: Domestic US: (888) 428-9473; International: (719) 325-2491; Conference ID 6386016. The conference call will be webcast live through streaming audio. For details please visit www.femsa.com/investor.

If you are unable to participate live, the conference call audio will be available at <http://ir.FEMSA.com/results.cfm>.

FEMSA is a leading company that participates in the beverage industry through Coca-Cola FEMSA, the largest franchise bottler of Coca-Cola products in the world; and in the beer industry, through its ownership of the second largest equity stake in Heineken, one of the world's leading brewers with operations in over 70 countries. In the retail industry it participates with FEMSA Comercio, operating various small-format chain stores, including OXXO, the largest and fastest-growing chain of stores in Latin America. All of which is supported by a Strategic Business unit.

The translations of Mexican pesos into US dollars are included solely for the convenience of the reader, using the noon day buying rate for Mexican Pesos as published by the Federal Reserve Bank of New York on December 31, 2014, which was 14.7500 Mexican pesos per US dollar.

FORWARD-LOOKING STATEMENTS

This report may contain certain forward-looking statements concerning our future performance that should be considered as good faith estimates made by us. These forward-looking statements reflect management's expectations and are based upon currently available data. Actual results are subject to future events and uncertainties, which could materially impact our actual performance.

Five pages of tables and Coca-Cola FEMSA's press release to follow.

2014 FOURTH - QUARTER AND FULL YEAR RESULTS

Mexico City February 25, 2015, Coca-Cola FEMSA, S.A.B. de C.V. (BMV: KOFL, NYSE: KOF) (“Coca-Cola FEMSA” or the “Company”), the largest franchise bottler in the world, announces results for the fourth quarter of 2014:

Comparable, currency neutral revenues grew 23.3% for the fourth quarter of 2014 and 24.7% for the full year.

Comparable operating cash flow margin expanded 80 basis points to 20.6% for the fourth quarter of 2014 and 170 basis points to 20.0% for the full year.

Reported Earnings per Share remained flat, reaching Ps. 1.48 in the fourth quarter of 2014. For the full year, reported Earnings per Share reached Ps. 5.09.

Given current operating and macroeconomic conditions in Venezuela, Coca-Cola FEMSA decided to use the previously denominated SICAD II exchange rate of 50 bolivars per US dollar to translate this operation’s fourth quarter and full year 2014 results into our reporting currency, the Mexican peso. Consequently, Venezuela’s contribution to our consolidated results reduced importantly and now represents 7% of volumes and 6% of both revenues and operative cash flow. Government authorities have clearly stated that the applicable exchange rate for the majority of the total imports of the country including food, medicines and other basic goods such as raw materials, will continue to be the 6.30 bolivars per U.S. dollar rate. Coca-Cola FEMSA continues to have access to this rate for raw material purchases. Coca-Cola FEMSA remains committed to the market and we will continue producing, selling and distributing the products that our Venezuelan consumers enjoy on a daily basis.

	Fourth Quarter		Excluding		Full Year		Reported Δ%

Expressed in millions of Mexican pesos.

⁽¹⁾ Earnings / outstanding shares. Outstanding shares for 4Q'14 and 4Q'13 were 2,072.9 million. Outstanding shares for 2014 were 2,072.9 and weighted average outstanding shares for 2013 were 2,056.0 million.

⁽²⁾ Operative cash flow = operating income + depreciation + amortization & other operative non-cash charges.

⁽³⁾ Net debt = total debt - cash

⁽⁴⁾ Total debt / (long-term debt + shareholders' equity)

Excluding M&A effects means, with respect to a year over year comparison, the increase in a given measure excluding the effects of mergers, acquisitions and divestitures.

⁽⁵⁾ We believe this measure allows us to provide investors and other market participants with a better representation of the performance of our business.

In preparing this measure, management has used its best judgment, estimates and assumptions in order to maintain comparability.

Message from the Chief Executive Officer

“In 2014, each of our operations performed positively, maximizing the full potential of our business and delivering comparable, currency neutral revenue growth of 25% and a margin expansion of 170 basis points at the consolidated level. In Mexico, our impeccable market execution and competitive portfolio strategy compensated for the effects of a large excise tax-related price increase designed to pass along this cost to the consumer. In Brazil, we advanced our affordable packaging strategy, enabling us to offer a very compelling value proposition—driving volume growth in a tough economic and consumer environment. Notably, on top of our successful integration of Spaipa and Fluminense, we started production at our new Itabirito plant and opened a new mega-distribution center in São Paulo, unlocking enormous potential to satisfy current and future demand, while positioning Coca-Cola FEMSA as a benchmark in the Brazilian Coca-Cola system. Together with our partner The Coca-Cola Company, we continued our successful acceleration plan in Colombia and expanded it to Central America, implementing a winning strategy in countries with low per capita consumption. In Argentina and Venezuela, we operated and thrived in complex environments to deliver solid bottom-line results for the year. In the Philippines, we demonstrated the effectiveness of our strategy as we continued to implement portfolio, route-to-market, and supply chain initiatives with positive results. Overall, our actions and our innovative and robust portfolio allowed us to generate a substantial amount of transactions with our consumers, successfully overcoming major challenges for the year, including beverage taxes in Mexico, a general economic slowdown in many countries, and a volatile currency environment across our operations.

Today, Coca-Cola FEMSA is evolving to capture the next wave of growth. We ignited an organizational transformation to create a leaner, more agile, and efficient company, while focusing on our core strategic capabilities through centers of excellence in the areas of commercial, supply chain, and IT innovation. Despite the challenges that we face going forward, we are confident that each of our operations will continue delivering solid results, enabling us

to create sustained economic, social, and environmental value for all of our stakeholders,” said John Santa Maria Otazua, Chief Executive Officer of the Company.

February 26, 2015 Page 11

Consolidated Results

All the financial information presented in this report was prepared under International Financial Reporting Standards (IFRS).

Starting on February 2013, we are incorporating our stake of the results of Coca-Cola Bottlers Philippines, Inc. through the equity method on an estimated basis.

The fourth quarter 2014 results of our Venezuelan operation were translated using the SICAD II alternate exchange rate of 50 bolivars per U.S. dollar. The results of 2013 were translated using an exchange rate of 6.30 bolivars per U.S. dollar.

Our reported total revenues decreased 8.5% to Ps. 39,567 million in the fourth quarter of 2014, driven by the negative translation effect resulting from using the SICAD II exchange rate to translate the results of our Venezuelan operation. Excluding the recently integrated territory in Brazil⁽¹⁾, total revenues reached Ps. 38,443 million in the fourth quarter. On a currency neutral basis and excluding the non-comparable effect of Spaipa in Brazil,⁽¹⁾ total revenues grew 23.3%, driven by average price per unit case growth across our territories and volume growth in Brazil, Venezuela, Colombia and Central America.

Reported total sales volume increased 1.8% to 897.4 million unit cases in the fourth quarter of 2014 as compared to the same period in 2013. Excluding the integration of Spaipa in Brazil⁽¹⁾, volumes decreased 0.4% to 878.6 million unit cases. On the same basis, our sparkling beverage portfolio remained flat, as growth of brand *Coca-Cola* in Brazil, Venezuela, Central America and Colombia, and increases in flavored sparkling beverages in Venezuela, Colombia, Argentina and Central America, were compensated by a volume contraction in Mexico, originated by the price increases that were implemented due to the excise tax in this country. Our bottled water portfolio grew 4.8% driven by *Crystal* in Brazil and *Bonaqua* and *Aquarius* in Argentina. Our bulk water portfolio decreased 5.6% and our still beverage category declined 2.1%. The total number of transactions reached close to 5.5 billion, in line with volume growth.

Our reported gross profit decreased 7.1% to Ps. 18,508 million in the fourth quarter of 2014. Reported gross margin expanded 70 basis points to reach 46.8% in the fourth quarter of 2014. This decline was driven by the negative translation effect resulting from using the SICAD II exchange rate to translate the results of our Venezuelan operation. In local currency, the benefit of lower sweetener and PET prices in most of our territories was partially offset by the depreciation of the average exchange rate of most of the currencies in our South America division and the Mexican peso⁽²⁾ as applied to our U.S. dollar-denominated raw material costs.

Our reported operating income decreased 3.6% to Ps. 6,374 million in the fourth quarter of 2014 and our reported operating margin expanded 80 basis points to 16.1%. This decline was driven by the negative translation effect resulting from using the SICAD II exchange rate to translate the results of our Venezuelan operation. Excluding the integration of Spaipa in Brazil,⁽¹⁾ operating income reached Ps. 6,211 million and our operating margin expanded 90 basis points to 16.2%.

During the fourth quarter of 2014, the other operative expenses, net line recorded an expense of Ps. 248 million, mainly due to restructuring charges in our operations and operative currency fluctuation effects in most of our subsidiaries.

The share of the profits of associates and joint ventures line recorded a gain of Ps. 142 million in the fourth quarter of 2014, mainly due to equity method gains from our participation in Mexico's and Brazil's non-carbonated beverage joint-ventures and our stake in Coca-Cola Bottlers Philippines, Inc.

Reported operative cash flow decreased 5.3% to Ps. 8,099 million in the fourth quarter of 2014 as compared to the same period in 2013. This decline was driven by the negative translation effect resulting from using the SICAD II exchange rate to translate the results of our Venezuelan operation. Our reported operative cash flow margin expanded 70 basis points to reach 20.5% in the fourth quarter of 2014. Excluding the non-comparable effect of Spaipa in Brazil,⁽¹⁾ operative cash flow reached Ps. 7,916 million and operating cash flow margin expanded 80 basis points to 20.6%.

Our comprehensive financing result in the fourth quarter of 2014 recorded an expense of Ps. 2,069 million, as compared to an expense of Ps. 1,902 million in the same period of 2013. During the quarter we registered a foreign exchange loss as a result of the quarterly depreciation of the Mexican peso⁽²⁾ as applied to our US dollar-denominated net debt position.

During the fourth quarter of 2014, income tax, as a percentage of income before taxes, was 27.6% as compared to 32.8% in the same period of 2013. The lower effective tax rate registered during the fourth quarter of 2014 was mainly driven by a smaller contribution from our Venezuela subsidiary which carries a higher effective tax rate.

Our reported consolidated net controlling interest income remained flat at Ps. 3,075 million in the fourth quarter of 2014, driven by the negative translation effect resulting from using the SICAD II exchange rate to translate the results of our Venezuelan operation. Reported earnings per share (EPS) in the fourth quarter of 2014 were Ps. 1.48 (Ps. 14.83 per ADS) computed on the basis of 2,072.9 million shares (each ADS represents 10 local shares).

⁽¹⁾ The Company's South America division's operating results include the non-comparable effect of Spaipa's results for the month of October, 2014.

- (2) See page 13 for average and end of period exchange rates for the fourth quarter and full year of 2014.

February 26, 2015 Page 12

Balance Sheet

As of December 31, 2014, we had a cash balance of Ps. 12,958 million, including US\$506 million denominated in U.S. dollars, a decrease of Ps. 2,348 million compared to December 31, 2013, This difference was mainly driven by the negative translation effect resulting from using the SICAD II exchange rate to translate the cash balance of our Venezuelan operation.

As of December 31, 2014, total short-term debt was Ps. 1,206 million and long-term debt was Ps. 64,821 million. Total debt increased by Ps. 5,566 million, compared to year end 2013 mainly due to the negative translation effect resulting from the depreciation of the end of period exchange rate of the Mexican peso⁽¹⁾ as applied to our U.S. dollar denominated debt position. Net debt increased Ps. 7,914 million compared to year end 2013, as a result of the lower cash position that resulted from the negative translation effect resulting from using the SICAD II exchange rate to translate the cash balance of our Venezuelan operation.

The weighted average cost of debt for the quarter was 7.90%. The following charts set forth the Company's debt profile by currency and interest rate type and by maturity date as of December 31, 2014.

Currency	% Total Debt ⁽¹⁾	% Interest Rate Floating ⁽¹⁾⁽²⁾
Mexican pesos	29.30%	24.90%
U.S. dollars	28.30%	0.00%
Colombian pesos	1.20%	100.00%
Brazilian reals	39.90%	96.80%
Argentine pesos	1.30%	34.60%

February 26, 2015 Page 13

Mexico & Central America Division

(Mexico, Guatemala, Nicaragua, Costa Rica and Panama)

For reporting purposes, all corporate expenses, including the equity method recorded from our stake of the results of Coca-Cola Bottlers Philippines, Inc., are included in the results of the Mexico and Central America division.

Reported total revenues from our Mexico and Central America division decreased 1.4% to Ps. 18,078 million in the fourth quarter of 2014, as compared to the same period in 2013, driven by volume contraction in our Mexico operation as a result of the price increase implemented in the country due to the excise tax on sugary beverages. Our average price per unit case, which is presented net of taxes, grew 4.2%, reaching Ps. 38.08, mainly supported by a price adjustment implemented in Mexico during the first quarter of 2014. On a currency neutral basis, total revenues in the division decreased 1.9%.

Reported total sales volume decreased 5.2% to 473.5 million unit cases in the fourth quarter of 2014, as compared to the fourth quarter of 2013. The 6.0% volume contraction in Mexico was partially compensated by the 2.7% volume increase in Central America, which was mainly driven by growth in Nicaragua and Guatemala. Our sparkling beverage category decreased 5.5%. Our water portfolio, including bulk water, decreased 3.4% and our still beverage category decreased 8.9%. Transactions for the Mexico and Central America division outpaced volume performance and totaled 2.5 billion in the fourth quarter of 2014.

Our reported gross profit increased 0.6% to Ps. 9,137 million in the fourth quarter of 2014 as compared to the same period in 2013. Lower sweetener and PET prices in the division were partially offset by the depreciation of the average exchange rate of most of our division's currencies¹⁾ as applied to our U.S. dollar-denominated raw material costs. Reported gross margin reached 50.5% in the fourth quarter of 2014, an expansion of 100 basis points as compared to the same period of the previous year.

Reported operating income²⁾ increased 2.0% to Ps. 3,117 million in the fourth quarter of 2014. Our reported operating margin expanded 50 basis points to reach 17.2% in the fourth quarter of 2014. Our operating expenses in the division declined 0.9% as compared with the fourth quarter of 2013.

Reported operative cash flow grew 2.6% to Ps. 4,255 million in the fourth quarter of 2014 as compared to the same period in 2013. Our reported operative cash flow margin was 23.5%, an expansion of 90 basis points.

(1) See page 13 for average and end of period exchange rates for the fourth quarter and full year of 2014.

(2) For reporting purposes, all corporate expenses, including the equity method recorded from our stake of the results of Coca-Cola Bottlers Philippines, Inc., are included in the results of the Mexico and Central America division.

February 26, 2015 Page 14

South America Division

Colombia, Venezuela, Brazil and Argentina)

The fourth quarter 2014 results of our Venezuelan operation were translated using the SICAD II alternate exchange rate of 50 bolivars per U.S. dollar. The results of 2013 were translated using an exchange rate of 6.30 bolivars per U.S. dollar.

Volume and average price per unit case exclude beer results.

Reported total revenues decreased 13.7% to Ps. 21,489 million in the fourth quarter of 2014. This decline was driven by the negative translation effect resulting from using the SICAD II exchange rate to translate the results of our Venezuelan operation. Excluding beer, which accounted for Ps. 2,261 million during the quarter, revenues reached Ps. 19,228 million. Excluding the non-comparable effect of Spaipa in Brazil⁽¹⁾, total revenues reached Ps. 20,365 million in the fourth quarter. On a currency neutral basis and excluding the non-comparable effect of Spaipa in Brazil,⁽¹⁾ total revenues grew 41.7%, due to average price per unit case increases and volume growth in all of our operations.

Reported total sales volume in our South America division increased 11.0% to 423.9 million unit cases in the fourth quarter of 2014 as compared to the same period of 2013, as a result of the integration of Spaipa in Brazil⁽¹⁾ and volume growth in Brazil organic, Colombia, Venezuela and Argentina. Excluding the non-comparable effect of the acquisition in Brazil,⁽¹⁾ volume increased 6.0% to 405.1 million unit cases. On the same basis, our sparkling beverage category grew 6.5% driven by the *Coca-Cola* brand in Brazil, Venezuela and Colombia. The still beverage category grew 5.5% driven by the *Jugos del Valle* line of business in the division, including growth of *del Valle Fresh* in Colombia, and *Powerade* in Argentina. Our water category, including jug water, grew 3.7% driven by *Crystal* in Brazil and *Aquarius* and *Bonaqua* in Argentina. Volume performance outpaced transactions, which totaled closed to 3 billion in the fourth quarter of 2014.

Reported gross profit decreased 13.5% to reach Ps. 9,372 million in the fourth quarter of 2014. Reported gross margin expanded 10 basis points to 43.6% in the fourth quarter of 2014. In local currency, lower sweetener and PET prices in most of our territories were partially compensated by the depreciation of the average exchange rate of most of the currencies in our South America division⁽²⁾ as applied to our U.S. dollar-denominated raw material costs.

Our reported operating income declined 8.3% to Ps. 3,258 million in the fourth quarter of 2014. This decline was driven by the negative translation effect resulting from using the SICAD II exchange rate to translate the results of our Venezuelan operation. In local currency, reported operating income grew as a result of the non-comparable effect of

integration of Spaipa in Brazil,⁽¹⁾ and operating income growth in Brazil organic, Venezuela and Argentina. Our reported and organic operating margin expanded 90 basis points to 15.2% in the fourth quarter of 2014.

Reported operative cash flow decreased 12.8% to Ps. 3,844 million in the fourth quarter of 2014, driven by the negative translation effect resulting from using the SICAD II exchange rate to translate the results of our Venezuelan operation. Our reported operative cash flow margin expanded 20 basis points to 17.9% and our organic operating cash flow margin expanded 30 basis points to 18.0%.

(1) The Company's South America division's operating results include the non-comparable effect of Spaipa's results for the month of October, 2014.

(2) See page 13 for average and end of period exchange rates for the fourth quarter and full year of 2014.

Summary of full year results

The Company's Mexico & Central America divisions' operating results include the non-comparable effect of Grupo Yoli's results for the months of January, 2014 through May, 2014.

The Company's South America divisions' operating results include the non-comparable effect of Fluminense's results for the months of January, 2014 through August, 2014 and Spaipa's results for the months of January, 2014 through October, 2014.

As of February 2013, we are incorporating our stake of the results of Coca-Cola Bottlers Philippines, Inc. through the equity method on an estimated basis.

The 2014 results of our Venezuelan operation were translated using the SICAD II alternate exchange rate of 50 bolivars per U.S. dollar. The results of 2013 were translated using an exchange rate of 6.30 bolivars per U.S. dollar.

Our reported consolidated total revenues decreased 5.6% to Ps. 147,298 million in 2014 driven by the negative translation effect resulting from using the SICAD II exchange rate to translate the results of our Venezuelan operation. Excluding the recently integrated territories in Brazil and Mexico,⁽¹⁾⁽²⁾ total revenues were Ps. 134,088. On a currency neutral basis and excluding the non-comparable effect of Fluminense and Spaipa in Brazil, and Yoli in Mexico,⁽¹⁾⁽²⁾ total revenues grew 24.7%, driven by average price per unit case growth in most operations and volume growth in Brazil, Colombia, Venezuela and Central America.

Reported total sales volume increased 6.6% to 3,417.3 million unit cases in 2014, as compared to 2013. Excluding the integration of Fluminense and Spaipa in Brazil, and Yoli in Mexico,⁽¹⁾⁽²⁾ volumes declined 0.7% to 3,182.8 million unit cases, mainly due to the volume contraction originated by the price increases that were implemented due to the excise tax in Mexico. On the same basis, the bottled water portfolio grew 5.0%, driven by *Crystal* in Brazil, *Aquarius* and *Bonaqua* in Argentina, *Nevada* in Venezuela and *Manantial* in Colombia. The still beverage category grew 1.6%, mainly driven by the performance of the *Jugos del Valle* line of business in Colombia, Venezuela and Brazil, and *Powerade* across most of our territories. Our sparkling beverage category declined 0.8% driven by the volume contraction in Mexico. These increases partially compensated for a 4.1% volume decline in our bulk water business. As a result of our portfolio initiatives to connect with consumers, total transactions outpaced volume performance totaling close to 21 billion across our operations in 2014.

Our reported gross profit decreased 6.2% to Ps. 68,382 million in 2014. This decline was driven by the previously mentioned negative translation effect. In local currency, lower sweetener and PET prices in most of our operations were offset by the depreciation of the average exchange rate of the Argentine peso,⁽³⁾ the Brazilian real,⁽³⁾ the Colombian peso⁽³⁾ and the Mexican peso⁽³⁾ as applied to our U.S. dollar-denominated raw material costs. Reported gross margin reached 46.4% in 2014.

Our reported operating income declined 3.3% to Ps. 20,743 million in 2014 driven by the previously mentioned negative translation effect. Our reported operating margin expanded 40 basis points to 14.1%. Excluding the integration of the new territories in Brazil and Mexico,⁽¹⁾⁽²⁾ operating income reached Ps. 19,535 million and expanded 90 basis points to reach an operating margin of 14.6%.

During 2014, the other operative expenses, net line recorded an expense of Ps. 548 million, mainly due to (i) an operative currency fluctuation effect in Venezuela recorded during the second quarter of 2014, (ii) operative currency fluctuation effects across the operations in the fourth quarter of 2014, (iii) restructuring charges mainly in our Mexican operation and (iv) the loss on sale of certain fixed assets.

The share of the profits of associates and joint ventures line recorded an expense of Ps. 241 million in 2014, mainly due to an equity method loss from our participation in Coca-Cola Bottlers Philippines, Inc., which was partially compensated by equity method gains from the non-carbonated joint-ventures in Brazil and Mexico.

Despite the negative translation effect resulting from using the SICAD II exchange rate to translate the results of our Venezuelan operation, reported operative cash flow declined only 0.7% to Ps. 28,385 million in 2014. Our reported operative cash flow margin expanded 100 basis points to 19.3%. Excluding the recently integrated territories in Brazil and Mexico,⁽¹⁾⁽²⁾ operating cash flow margin expanded 170 basis points to 20.0%.

During 2014, income tax, as a percentage of income before taxes, was 26.0% as compared to 32.7% in 2013. The lower effective tax rate registered during 2014 is mainly related to a one-time benefit resulting from the settlement of certain contingent tax liabilities under the tax amnesty program offered by the Brazilian tax authorities, which was registered during the third quarter of 2014.

Our reported consolidated net controlling interest income declined 8.7% to Ps. 10.542 million in 2014, driven by the negative translation effect resulting from using the SICAD II exchange rate to translate the results of our Venezuelan operation. Reported earnings per share (EPS) in 2014 were Ps. 5.09 (Ps. 50.86 per ADS) computed on the basis of 2,072.9 million shares (each ADS represents 10 local shares).

The Company's South America division's operating results include the non-comparable effect of Fluminense's (1) results for the months of January, 2014 through August, 2014 and Spaipa's results for the months of January, 2014 through October, 2014.

(2) The Company's Mexico & Central America division's operating results include the non-comparable effect of Grupo Yoli's results for the months of January, 2014 through May, 2014.

(3) See page 13 for average and end of period exchange rates for the fourth quarter and full year of 2014.

February 26, 2015 Page 16

Philippines Operation

Volume in the fourth quarter of 2014 declined close to 2% as compared to the same period of 2013. Excluding powders, fourth quarter volume grew 6%, supported by our core sparkling beverage portfolio, which grew more than 12%, mainly driven by the expansion of our one-way single-serve packages. During 2014, we continued with the expansion of our route-to-market model, covering now more than 60% of the country's volume with a team of more than 2,400 pre-sellers. During the year, volume in the Greater Manila Area, where the new model has been fully deployed, increased more than 16%. Also, during 2014, we increased our installed PET capacity by more than 220% with the installation of 4 dedicated PET lines, including two of the fastest production lines of sparkling beverages in the world.

Recent developments

Coca-Cola FEMSA has decided to use the previously denominated SICAD II exchange rate of 50 bolivars per US dollar to translate this operation's fourth quarter and full year 2014 results into our reporting currency, the Mexican peso. We recognized in the total controlling interest line item in our consolidated financial statements as of December 31, 2014, a reduction in equity of Ps. 11,453 million as a result of the valuation of our net investment in Venezuela using the SICAD II exchange rate of 50 bolivars per U.S. dollar. Consequently, as of December 31, 2014, our foreign direct investment in Venezuela was Ps. 3,808 million (at the SICAD II exchange rate of 50 bolivars per U.S. dollar).

As of February 12, 2015 the Venezuelan government announced changes to its exchange rate system, maintaining both the official 6.30 bolivars per US dollar rate and the SICAD rate at 12.00 bolivars per USD. Furthermore, the SICAD II rate was eliminated and an additional system called Sistema Marginal de Divisas (SIMADI) started operating as of February 12, 2015. As per the most recent auction held on February 18, 2015, the exchange rate of the SIMADI was 171.63 bolivars per U.S. dollar. Despite of these changes, the government authorities have clearly stated that the applicable exchange rate for the majority of the total imports of the country including food, medicines and other basic goods such as raw materials, will continue to be the 6.30 bolivars per U.S. dollar rate. Coca-Cola FEMSA continues to have access to this rate for raw material purchases.

On February 24, 2015, Coca-Cola FEMSA Board of Directors agreed to propose, for approval at the Annual Shareholders meeting to be held on March 12, 2015, an ordinary dividend of Ps. 6,405 million, representing Ps. 3.09 per each share (calculated on a basis of 2,072.9 million shares), to be paid in two installments during May and November of 2015.

On January 22, 2015 Coca-Cola FEMSA was granted with the 2015 Industry Mover award for its excellent performance in sustainability. This recognition stands out as it is the first time that a Mexican company participates as a member of The Sustainability Yearbook and also the first time that a Mexican corporate receives RobecoSAM's Industry Mover Sustainability Award.

Conference call information

Our fourth quarter 2014 conference call will be held on February 25, 2015, at 11:00 A.M. Eastern Time (10:00 A.M. Mexico City Time). To participate in the conference call, please dial: Domestic U.S.: 888-401-4668 or International: 719-325-2354. Participant code: 7297053. We invite investors to listen to the live audiocast of the conference call on the Company's website, www.coca-colafemsa.com. If you are unable to participate live, the conference call audio will be available at www.coca-colafemsa.com.

(1) Except volume and average price per unit case figures.

(2) Sales volume and average price per unit case exclude beer results.

(3) Includes total revenues of Ps. 15,671 million from our Mexican operation and Ps. 12,847 million from our Brazilian operation.

(4) Includes equity method in Jugos del Valle, Coca-Cola Bottlers Philippines, Inc., Leao Alimentos and Estrella Azul, among others.

(5) As of February 2013, we are incorporating our stake of the results of Coca-Cola Bottlers Philippines, Inc. through the equity method on an estimated basis in this line.

(6) The operating income and operative cash flow lines are presented as non-gaap measures for the convenience of the reader.

(7) Includes equity method in PIASA, IEQSA, Beta San Miguel, IMER and KSP Participacoes.

(8) Operative cash flow = operating income + depreciation, amortization & other operative non-cash charges.

Excluding M&A effects means, with respect to a year over year comparison, the increase in a given measure excluding the effects of mergers, acquisitions and divestitures. We believe this measure allows us to provide investors and other market participants with a better representation of the performance of our business. In preparing this measure, management has used its best judgment, estimates and assumptions in order to maintain comparability.

(9) As of June 2013, we integrated Grupo Yoli in our Mexican operation.

As of September 2013, we integrated Fluminense in our Brazilian operation.

As of November 2013, we integrated Spaipa in our Brazilian operation.
