August 08, 2017

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

☐ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: **0-22196**

INNODATA INC.

(Exact name of registrant as specified in its charter)

Delaware	13-3475943
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

55 Challenger Road	07660
Ridgefield Park, New Jersey	(Zip Code)
(Address of principal executive offices)	

(201) 371-8000

(Registrant's telephone number, including area code)

[None]

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The number of outstanding shares of the registrant's common stock, \$.01 par value, as of August 1, 2017 was 25,877,454.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

SIX MONTHS ENDED JUNE 30, 2017 AND 2016

(Unaudited)

1. Description of Business and Summary of Significant Accounting Policies

Description of Business - Innodata Inc. and Subsidiaries (the “Company”) is a global digital services and solutions company. Our technology and services power leading information products and online retail destinations around the world. Our solutions help prestigious enterprises harness the power of digital data to re-imagine how they operate and drive performance. We serve publishers, media and information companies, digital retailers, banks, insurance companies, government agencies and many other industries. Founded in 1988, we comprise a team of over 4,000 diverse people in eight countries who are dedicated to delivering services and solutions that help the world embrace digital data as a means of enhancing our lives and transforming our businesses.

The Company operates in three reporting segments: Digital Data Solutions (DDS), Innodata Advanced Data Solutions (IADS) and Media Intelligence Solutions (MIS).

The Company’s DDS segment provides solutions to digital retailers, information services companies, publishers and enterprises that have one or more of the following broad business requirements: development of digital content (including e-books); development of new digital information products; and operational support of existing digital information products and systems.

The Company’s IADS segment designs and develops new capabilities to enable clients in the financial services, insurance and healthcare sectors to improve decision-support through digital technologies. IADS operates through two subsidiaries. Synodex offers a range of services for healthcare and insurance companies, and docGenix provides services to financial services institutions. As of June 30, 2017, Innodata owned 91% of Synodex and 94% of docGenix, both limited liability companies.

The Company’s MIS segment operates through our Agility PR Solutions and Bulldog Reporter subsidiaries. In December 2016, the Company rebranded the MediaMiser and Agility PR Solutions products under the name Agility PR Solutions, and in March 2017 MediaMiser Ltd. in Canada changed its name to Agility PR Solutions Canada Limited.

Agility PR Solutions offers full and self-service solutions, consisting of Agility Enterprise, Agility and Agility Plus, that address the entire communications life cycle – from identifying influencers, amplifying messages, monitoring coverage, to measuring impact. Agility PR Solutions, through its Agility Enterprise product, provides media monitoring and analysis solutions and professional services to several Fortune 500 companies and Canadian government institutions, as well as small- and medium-sized businesses. Agility Enterprise enables companies to reduce the time and effort required to extract, analyze and share valuable business intelligence from traditional and online media sources. Agility is a global media contact database and email distribution platform and Agility Plus provides additional self-service media monitoring and analytics capabilities. The solution is offered as software-as-a-service (SaaS).

Bulldog Reporter is a news aggregation service for the public relations and corporate communications professionals. Bulldog Reporter publishes a well-known daily e-newsletter, the Daily Dog. Bulldog Reporter also manages a PR industry awards program—the Bulldog Awards—which recognizes PR and communications professionals in categories including corporate social responsibility, media relations, digital and social marketing, not-for-profit activity and overall outstanding PR performance.

INNODATA INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

SIX MONTHS ENDED JUNE 30, 2017 AND 2016

(Unaudited)

Basis of Presentation - The condensed consolidated financial statements for the interim periods included herein are unaudited; however, they contain all adjustments (consisting of only normal recurring adjustments) which, in the opinion of management, are necessary to present fairly the consolidated financial position of the Company as of June 30, 2017, the results of its operations and comprehensive loss for the three and six months ended June 30, 2017 and 2016, and cash flows and stockholders' equity for the six months ended June 30, 2017 and 2016. The results of operations for the interim periods are not necessarily indicative of results that may be expected for any other interim period or for the full year.

These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 31, 2016, included in the Company's Annual Report on Form 10-K. Unless otherwise noted, the accounting policies used in preparing these condensed consolidated financial statements are the same as those described in the December 31, 2016 consolidated financial statements.

Principles of Consolidation - The consolidated financial statements include the accounts of Innodata Inc. and its wholly-owned subsidiaries, Agility Canada, a corporation in which the Company owns substantially all of the economic interest, and the Synodex and docGenix limited liability companies that are majority-owned by the Company. The non-controlling interests in the Synodex and docGenix limited liability companies are accounted for in accordance with Financial Accounting Standards Board (FASB) non-controlling interest guidance. All significant intercompany transactions and balances have been eliminated in consolidation.

Use of Estimates - In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include those related to revenue recognition, allowance for doubtful accounts and billing adjustments, long-lived assets, intangible assets, goodwill, valuation of deferred tax assets, valuation of securities underlying stock-based compensation, litigation accruals, pension benefits, purchase price allocation of the net assets acquired in the acquisition of Agility, valuation of derivative instruments and estimated accruals for various tax exposures.

Foreign Currency Translation - The functional currency of our production operations located in the Philippines, India, Sri Lanka and Israel is the U.S. dollar. Transactions denominated in Philippine pesos, Indian and Sri Lankan rupees or Israeli shekels are translated to U.S. dollars at rates which approximate those in effect on the transaction dates.

The functional currency for our subsidiaries in Germany, the United Kingdom and Canada are the Euro, the Pound Sterling and the Canadian dollar, respectively. The financial statements of these subsidiaries are reported in these respective currencies. Financial information is translated from the applicable functional currency to the U.S. dollar (the reporting currency) for inclusion in our consolidated financial statements. Income, expenses and cash flows are translated at weighted average exchange rates prevailing during the fiscal period, and assets and liabilities are translated at fiscal period-end exchange rates. Resulting translation adjustments are included as a component of accumulated other comprehensive loss in stockholders' equity. Foreign exchange transaction gains or losses are included in direct operating costs in the accompanying consolidated statements of operations and comprehensive loss.

INNODATA INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

SIX MONTHS ENDED JUNE 30, 2017 AND 2016

(Unaudited)

Revenue Recognition - For the DDS segment, revenue is recognized based on the quantity delivered or resources utilized and in the period in which services are performed and delivery has occurred. Revenues for contracts billed on a time-and-materials basis are recognized as services are performed. Revenues under fixed-fee contracts, which are not significant to the overall revenues, are recognized on the percentage of completion method of accounting, as services are performed or milestones are achieved.

For the IADS segment, revenue is recognized primarily based on the quantity delivered and the period in which services are performed and deliverables are made as per contracts. A portion of our IADS segment revenue is derived from licensing our software and providing access to our hosted software platform. Revenue from such services are recognized monthly when access to the service is provided to the end user and there are no significant remaining obligations, persuasive evidence of an arrangement exists, the fees are fixed or determinable and collection is reasonably assured.

The MIS segment derives its revenues primarily from subscription arrangements and provision of enriched media analysis services. Revenue from subscriptions is recognized monthly when access to the service is provided to the end user and there are no significant remaining obligations, persuasive evidence of an arrangement exists, the fees are fixed or determinable and collection is reasonably assured. Revenue from enriched media analysis services is recognized when the services are performed and delivered to the client.

Revenues include reimbursement of out-of-pocket expenses, with the corresponding out-of-pocket expenses included in direct operating costs.

Recent Accounting Pronouncements - In May 2014, the FASB issued guidance on revenue from contracts with clients. This update is a comprehensive new revenue recognition model that requires a company to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. It also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. This accounting guidance is effective prospectively for annual reporting periods, and interim periods within those periods, beginning

after December 15, 2017 and early adoption is permitted starting from the first quarter of 2017. Companies may use either a full retrospective or a modified retrospective approach to adopt the new standard when it takes effect. The Company will adopt the standard on January 1, 2018, and currently anticipates adopting the standard using the modified retrospective method, which would result in a cumulative effect adjustment as of the date of adoption. The Company has established a team that is continuing to assess the potential impact of the standard on the timing of revenue recognition, and its contracts with customers, and to determine the effect the guidance will have on its condensed consolidated financial statements and footnote disclosures.

In February 2016, the FASB issued guidance related to leases. This new guidance requires lessees to recognize on the balance sheet a right-of-use asset, representing its right to use the underlying asset for the lease term, and a lease liability for all leases with terms greater than 12 months. The guidance also requires qualitative and quantitative disclosures designed to assess the amount, timing, and uncertainty of cash flows arising from leases. The standard requires the use of a modified retrospective transition approach, which includes a number of optional practical expedients that entities may elect to apply. This new guidance is effective for annual periods beginning after December 15, 2018. Early application is permitted. The Company is in the process of evaluating the effect the guidance will have on its existing accounting policies and condensed consolidated financial statements, but expects there will be an increase in assets and liabilities on the condensed consolidated balance sheets at adoption due to the recording of right-of-use assets and corresponding lease liabilities, which may be material.

INNODATA INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

SIX MONTHS ENDED JUNE 30, 2017 AND 2016

(Unaudited)

In March 2016, the FASB issued guidance relating to share-based compensation. This new guidance is intended to simplify several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The new guidance is effective for annual periods beginning after December 15, 2016. We adopted this standard in 2017 and there was no material impact on its condensed consolidated financial statements.

In March 2017, the FASB issued guidance on Compensation - Retirement Benefits relating to improvements in the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. Under existing GAAP, an entity is required to present all components of net periodic pension cost and net periodic postretirement benefit cost aggregated as a net amount in the income statement, and this net amount may be capitalized as part of an asset where appropriate. The amendments in the guidance require that an employer report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period, and requires the other components of net periodic pension cost and net periodic postretirement benefit cost to be presented in the income statement separately from the service cost component and outside a subtotal of income from operations, if one is presented. Additionally, only the service cost component is eligible for capitalization, when applicable. The amendments in the guidance will be applied retrospectively for the presentation of the service cost component and the other components of net periodic pension cost and net periodic postretirement benefit cost in the income statement and prospectively, for the capitalization of the service cost component of net periodic pension cost and net periodic postretirement benefit in assets. Early adoption is permitted. The Company does not anticipate that the adoption of this standard will have a material impact on its consolidated financial statements.

In January 2017, the FASB issued guidance simplifying the accounting for goodwill impairment by removing Step 2 of the goodwill impairment test. Under current guidance, Step 2 of the goodwill impairment test requires entities to calculate the implied fair value of goodwill in the same manner as the amount of goodwill recognized in a business combination by assigning the fair value of a reporting unit to all of the assets and liabilities of the reporting unit. The carrying value in excess of the implied fair value is recognized as goodwill impairment. Under the new standard, goodwill impairment is recognized based on Step 1 of the current guidance, which calculates the carrying value in excess of the reporting unit's fair value. The new standard is effective beginning in January 2020, with early adoption permitted. The Company does not anticipate that the adoption of this guidance will have a material impact on its condensed consolidated financial statements.

INNODATA INC. AND SUBSIDIARIES**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****SIX MONTHS ENDED JUNE 30, 2017 AND 2016****(Unaudited)****2. Property and Equipment**

Property and equipment are stated at cost less accumulated depreciation and amortization (in thousands), and consist of the following:

	June 30, 2017	December 31, 2016
Equipment	\$15,138	\$ 14,558
Software	6,470	5,685
Furniture and equipment	2,504	2,119
Leasehold improvements	5,461	4,929
Total	29,573	27,291
Less: accumulated depreciation and amortization	(22,311)	(21,894)
	\$7,262	\$ 5,397

Depreciation and amortization expense of property and equipment was approximately \$0.6 million and \$0.5 million for the three months ended June 30, 2017 and 2016, respectively. Depreciation and amortization expense of property and equipment was approximately \$1.2 million and \$0.9 million for the six months ended June 30, 2017 and 2016, respectively.

3. Acquisitions

On July 14, 2016, Innodata's MediaMiser subsidiary completed the acquisition of the Agility business from PR Newswire under an asset purchase agreement for cash consideration of \$4.2 million.

The Agility business consists of two products – Agility, a global media contact database and email distribution platform and Agility Plus that provides additional self-service media monitoring and analytics capabilities. The acquisition helped the MIS segment to foster growth in North America and Europe by bolstering MediaMiser's media intelligence

solutions and media databases, improving its media outreach capabilities, and delivering stronger, more data-powered media intelligence to clients. With this acquisition, Agility PR Solutions can now offer self and full-service solutions that address the entire communications life cycle – from identifying influencers, amplifying messages, monitoring coverage, to measuring impact.

As this acquisition was effective on July 14, 2016, the results of operations of Agility are not included in the condensed consolidated financial statements for the three months ended June 30, 2016. The transaction has been accounted for using the acquisition method of accounting. This method requires that assets acquired and liabilities assumed in a business combination be recognized at their fair values as of the acquisition date. The excess of the purchase price over the net assets acquired was recorded as goodwill.

INNODATA INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

SIX MONTHS ENDED JUNE 30, 2017 AND 2016

(Unaudited)

The Company has obtained third party valuations of certain intangible assets. The following table summarizes (in thousands) the final purchase price allocation for the acquisition:

	Amount
Accounts receivable	\$ 771
Media contact database	3,610
Developed technology	994
Tradenames and trademarks	310
Total identifiable assets acquired	5,685
Accrued salaries, wages and related benefits	63
Deferred revenues	2,560
Income and other taxes	97
Total liabilities assumed	2,720
Net identifiable assets acquired	2,965
Goodwill	1,263
Net assets acquired	\$ 4,228

The estimated fair value of the media contacts database and tradenames and trademarks intangible assets was determined using the “relief from royalty method” under the income approach, which is a valuation technique that provides an estimate of the fair value of an asset based on the cost savings that are available through ownership of the asset by the avoidance of paying royalties to license the use of the asset from another owner. The estimated fair value of the developed technology was determined based on the cost approach, which measures the value by the cost to reconstruct or replace the platform with another of like utility. Some of the more significant assumptions inherent in the development of these asset valuations include the projected revenue associated with the asset, the appropriate discount rate to select in order to measure the risk inherent in each future cash flow stream, the assessment of each asset’s life cycle, as well as other factors. The discount rate used to arrive at the present value of the media contact database and tradenames and trademarks at the acquisition date, was 13.5%. The remaining useful lives of the media contact database, developed technology, and tradenames and trademarks were based on historical product development cycles, the projected rate of technology migration, a market participant’s use of these intangible assets and the pattern of projected economic benefit of these intangible assets.

The amounts assigned to the media contact database, developed technology, tradenames and trademarks are amortized over the estimated useful life of 10 years.

The Company funded the purchase price from its available cash on hand. Transaction expenses amounted to \$0.1 million and have been expensed.

The following unaudited pro forma summary presents consolidated information of the Company as if the business combination had occurred on January 1, 2016 (amounts in thousands, except per share amounts). The pro forma information is presented for informational purposes only and is not necessarily indicative of the results of operations that would have been achieved had the acquisition been consummated as of that time or that may result in the future.

5.

Income Taxes

The Company had unrecognized tax benefits of approximately \$1.3 million and \$1.2 million as of June 30, 2017 and December 31, 2016, respectively. The portion of unrecognized tax benefits relating to interest and penalties was approximately \$0.6 million and \$0.5 million at June 30, 2017 and December 31, 2016, respectively. The unrecognized tax benefits as of June 30, 2017 and December 31, 2016, if recognized, would have an impact on the Company's effective tax rate.

INNODATA INC. AND SUBSIDIARIES**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****SIX MONTHS ENDED JUNE 30, 2017 AND 2016****(Unaudited)**

The following presents a roll-forward of the Company's unrecognized tax benefits and associated interest for the six months ended June 30, 2017 (amounts in thousands):

	Unrecognized tax benefits
Balance - January 1, 2017	\$ 1,184
Interest accrual	21
Foreign currency revaluation	62
Balance - June 30, 2017	\$ 1,267

The Company is subject to Federal income tax, as well as income tax in various states and foreign jurisdictions. The Company is no longer subject to examination by Federal tax authorities for years prior to 2006 and by New Jersey tax authorities for years prior to 2012. Various foreign subsidiaries currently have open tax years from 2003 through 2016.

Pursuant to an income tax audit by the Indian Bureau of Taxation in 2009, the Company's Indian subsidiaries received a tax assessment approximating \$335,000 including interest, through June 30, 2017 for the fiscal year ended June 30, 2006. Management disagrees with the basis of these tax assessments, has filed an appeal against the assessments and is contesting them vigorously. In January 2012, the Indian subsidiary received a final tax assessment of approximately \$1.0 million, including interest, for the fiscal year ended June 30, 2008, from the Indian Bureau of Taxation. Management disagrees with the basis of this tax assessment, and has filed an appeal against it. Due to this assessment, the Company recorded a tax provision amounting to \$536,000 including interest through June 30, 2017. In April 2015, the Company received a favorable judgment whereby the Appeal Officer reduced the tax assessment to \$0.3 million. Under the Indian Income Tax Act, however, the income tax assessing officer has the right to appeal against the judgment passed by the Appeal Officer. In the third quarter of 2015, the income tax assessing officer exercised this right and filed an appeal. Based on recent experience, management believes that the tax provision of \$536,000 including interest is adequate. As the Company is continually subject to tax audits by the Indian Bureau of Taxation, the Company continuously assesses the likelihood of an unfavorable assessment for all fiscal years for which the Company has not been audited and, as of June 30, 2017, the Company recorded a tax provision amounting to \$211,000 including interest, through June 30, 2017.

In 2015, the Company's Indian subsidiary was subject to an inquiry by the Service Tax Bureau in India regarding the classification of services provided by this subsidiary, asserting that the services provided by this subsidiary fall under the category of online information and database access or retrieval services (OID Services), and not under the category of business support services (BS Services) that are exempt from service tax as historically indicated in the subsidiary's service tax filings. In the event the Service Tax Bureau is successful in proving that the services fall under the category of OID Services the revenues earned by the Company's Indian subsidiary would be subject to a service tax of approximately 14.5% of the subsidiary's revenues and this would increase the operating costs of the Company by an equivalent amount. The revenues of the Company's Indian subsidiary for the year ended December 31, 2016 were \$16.8 million. The Company disagrees with the Service Tax Bureau's position and is vigorously contesting these assertions.

In 2017, the U.S. entity deferred \$4.7 million in payments due to its Asian operating subsidiaries. The deferral in payments resulted in a deemed dividend that is taxable income to the U.S. entity and is set off against its net operating loss carryforwards. The Company projects that during the balance of 2017 through 2018 the U.S. entity will not have sufficient cash to pay in full amounts that will be payable by it to the Company's Asian operating subsidiaries and that the cash deficit will amount to approximately \$7.0 million. The resulting deferral in payments would similarly result in a deemed dividend that would be taxable income to the U.S. entity and would be set off against its net operating loss carryforwards. The Company adjusted its deferred tax assets and the corresponding valuation allowance as of June 30, 2017 to reflect the projected deferral in payments.

INNODATA INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

SIX MONTHS ENDED JUNE 30, 2017 AND 2016

(Unaudited)

The Company from time to time is also subject to various other tax proceedings and claims for its Philippines subsidiaries. The Company has recorded a tax provision amounting to \$185,000 including interest through June 30, 2017, for several ongoing tax proceedings in the Philippines. Although the ultimate outcome cannot be determined at this time, the Company continues to contest these claims vigorously.

6. Commitments and Contingencies

Litigation – In 2008, the Supreme Court of the Republic of the Philippines refused to review a decision of the Court of Appeals in Manila against a Philippines subsidiary of the Company that is inactive and has no material assets, and purportedly also against Innodata Inc., that orders the reinstatement of certain former employees of the subsidiary to their former positions and also orders the payment of back wages and benefits that aggregate approximately \$7.0 million. The payment ordered by the Philippine courts accrued legal interest at the rate of 12% per annum from August 13, 2008 to June 30, 2013, and has thereafter accrued and continues to accrue legal interest at the rate of 6% per annum. The amount of the payment as expressed in US dollars varies with the Philippine peso to U.S. dollar exchange rate. Based on consultation with legal counsel, the Company believes that financial recovery against the Company is unlikely.

The Company is also subject to various legal proceedings and claims which arise in the ordinary course of business.

While management currently believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Company's consolidated financial position or overall trends in consolidated results of operations, litigation is subject to inherent uncertainties. Substantial recovery against the Company in the above-referenced Philippines action could have a material adverse impact on the Company, and unfavorable rulings or recoveries in the other proceedings could have a material adverse impact on the operating results of the period in which the ruling or recovery occurs. In addition, the Company's estimate of potential impact on the Company's consolidated financial position or overall consolidated results of operations for the above legal proceedings could change in the future.

The Company's legal reserves related to legal proceedings and claims are based on a determination of whether or not a loss is probable. The Company reviews outstanding proceedings and claims with external counsel to assess probability and estimates of loss. The reserves are adjusted if necessary. While the Company intends to defend these matters vigorously, adverse outcomes that it estimates could reach approximately \$0.3 million in the aggregate beyond recorded amounts are reasonably possible. If circumstances change, the Company may be required to record adjustments that could be material to its reported consolidated financial condition and results of operations.

Foreign Currency - To the extent that the currencies of the Company's production facilities located in the Philippines, India, Sri Lanka and Israel fluctuate, the Company is subject to risks of changing costs of production after pricing is established for certain client projects. In addition, the Company is exposed to the risk on foreign currency fluctuation on the non-U.S. dollar denominated revenues, and on the monetary assets and liabilities held by its foreign subsidiaries that are denominated in local currency.

INNODATA INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

SIX MONTHS ENDED JUNE 30, 2017 AND 2016

(Unaudited)

Indemnifications - The Company is obligated under certain circumstances to indemnify directors, certain officers and employees against costs and liabilities incurred in actions or threatened actions brought against such individuals because such individuals acted in the capacity of director and/or officer or fiduciary of the Company. In addition, the Company has contracts with certain clients pursuant to whom the Company has agreed to indemnify the client for certain specified and limited claims. These indemnification obligations occur in the ordinary course of business and, in many cases, do not include a limit on potential maximum future payments. As of June 30, 2017, the Company has not recorded a liability for any obligations arising as a result of these indemnifications.

Liens - In connection with the procurement of tax incentives at one of the Company's foreign subsidiaries, the foreign zoning authority was granted a first lien on the subsidiary's property and equipment. As of June 30, 2017, the net book value of the property and equipment was \$0.4 million.

7.

Stock Options

On June 7, 2016, stockholders of the Company approved amendments to the Innodata Inc. 2013 Stock Plan. The Innodata Inc. 2013 Stock Plan as amended and restated effective June 7, 2016 is referred to herein as the "Plan." The number of shares of common stock of Innodata Inc. ("Stock") that may be delivered, purchased or used for reference purposes (with respect to stock appreciation rights or stock units) for awards granted under the Plan after June 7, 2016 is 5,858,892 (the "Share Reserve"). Shares subject to an option or stock appreciation right granted under the Plan after June 7, 2016 shall count against the Share Reserve as one share for every share granted, and shares subject to any other type of award granted under the Plan after June 7, 2016 shall count against the Share Reserve as two shares for every share granted. Any award, or portion of an award, under the Plan or under the 2009 Stock Plan (as amended and restated (the "Prior Plan")) that expires or terminates unexercised, becomes unexercisable or is forfeited or otherwise terminated, surrendered or canceled as to any shares without delivery of shares or other consideration shall be added back to the Share Reserve as one share for each such share that was subject to an option or stock appreciation right granted under the Plan or the Prior Plan, and two shares for each such share that was subject to an award other than an option or stock appreciation right granted under the Plan or the Prior Plan. If any shares are withheld, tendered or exchanged by a participant in the Plan as full or partial payment to Innodata of the exercise price under an option under the Plan or the Prior Plan or in satisfaction of a participant's tax withholding obligations with respect to any award under the Plan or the Prior Plan, there shall be added back to the Share Reserve one share for each such share that was withheld, tendered or exchanged in respect of an option or stock appreciation right granted under the Plan or the Prior Plan, and two shares for each such share that was withheld, tendered or exchanged in respect of an award

other than an option or stock appreciation right granted under the Plan or the Prior Plan.

8. Long term obligations

Total long-term obligations as of June 30, 2017 and December 31, 2016 consist of the following (in thousands):

	June 30, 2017	December 31, 2016
Capital lease obligations	\$ 769	\$ 224
Deferred lease payments ⁽¹⁾	764	705
Microsoft licenses ⁽²⁾	751	-
Acquisition related liability ⁽³⁾	769	1,492
Lease incentive liability ⁽⁴⁾	678	-
Pension obligations - accrued pension liability	2,833	2,616
	6,564	5,037
Less: Current portion of long-term obligations	1,997	1,120
Totals	\$ 4,567	\$ 3,917

⁽¹⁾ Deferred lease payments represent the effect of straight-lining operating lease payments over the respective lease terms.

⁽²⁾ In March 2017, the Company renewed a vendor agreement to acquire certain additional software licenses and to receive support and subsequent software upgrades on these and other currently owned software licenses through February 2020. Pursuant to this agreement, the Company is obligated to pay approximately \$0.4 million annually over the term of the agreement. The total cost, net of deferred interest (in thousands), was allocated to the following asset accounts in 2017:

Prepaid expenses and other current assets	\$404
Other assets	809
	\$1,213

(3) On September 30, 2016 the Company and the other parties to the transaction in which the Company acquired MediaMiser amended the terms on which a subsidiary of the Company is required to make a supplemental purchase price payment for MediaMiser. Prior to the amendment, the amount of the supplemental purchase price payment was to be determined by the achievement of certain financial thresholds and was in no event to exceed \$3.8 million (C\$5 million). The amendment fixed the amount of the supplemental purchase price payment at \$1.5 million (C\$2 million) payable in two equal installments on March 31, 2017 and 2018 to designated recipients, except that no payments will be made to designated recipients who fail to satisfy specified conditions. The Company has the option to pay up to 70% of the supplemental amount in shares of Innodata Inc. stock. In March 2017, the Company paid 70% of the first installment by issuing 253,622 shares of Innodata Inc.'s common stock and paid 30% of the first installment in cash in April 2017.

(4) In the second quarter of 2017, the Company moved both its U.S. and Canadian headquarters to new premises. As an incentive for the Company to lease in their respective office spaces, the lessors for each of the properties offered to partially defray the construction cost by offering a tenant improvement allowance. Under the terms of the lease contracts the Company is liable to refund any unamortized portion of this allowance should it decide to terminate the lease before the expiry of the specified lock-in period. This amount will be amortized based on the contractual liability and recognized as a reduction in rent expense for the period covered.

All reclassifications out of accumulated other comprehensive income (loss) had an impact on direct operating costs in the condensed consolidated statements of operations and comprehensive loss.

10. Segment Reporting and Concentrations

The Company's operations are classified into three reportable segments: Digital Data Solutions (DDS), Innodata Advanced Data Solutions (IADS) and Media Intelligence Solutions (MIS).

The DDS segment provides solutions to digital retailers, information services companies, publishers and enterprises that have one or more of the following broad business requirements: development of digital content (including e-books); development of new digital information products; and operational support of existing digital information products and systems.

The IADS segment performs advanced data analysis. IADS operates through two subsidiaries: Synodex and docGenix. Synodex offers a range of data analysis services in the healthcare, medical and insurance areas. docGenix provides services to certain financial services institutions.

The Company's MIS segment operates through its Agility PR Solutions and Bulldog Reporter subsidiaries. In December 2016, the Company rebranded the MediaMiser and Agility PR Solutions products under the name Agility PR Solutions and in March 2017 MediaMiser Ltd. in Canada changed its name to Agility PR Solutions Canada Ltd. Agility PR Solutions offers self and full-service solutions that address the entire communications life cycle – from identifying influencers, amplifying messages, monitoring coverage, to measuring impact.

A significant portion of the Company's revenues is generated from its production facilities in the Philippines, India, Sri Lanka, Canada, Germany, the United Kingdom and Israel.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

SIX MONTHS ENDED JUNE 30, 2017 AND 2016

(Unaudited)

Long-lived assets as of June 30, 2017 and December 31, 2016, respectively, by geographic region, are comprised of (in thousands):

	June 30, 2017	December 31, 2016
United States	\$5,419	\$ 4,669
Foreign countries:		
Canada	6,325	5,085
United Kingdom	2,397	2,376
Philippines	1,822	1,940
India	1,300	1,520
Sri Lanka	628	683
Israel	42	47
Germany	2	2
Total foreign	12,516	11,653
	\$17,935	\$ 16,322

Two clients in the DDS segment generated approximately 28% of the Company's total revenues for the three months ended June 30, 2017 and 33% of the Company's total revenues for the three months ended June 30, 2016. Another client in the DDS segment accounted for 10% of the Company's total revenues for the three months ended June 30, 2017 but accounted for less than 10% of the Company's total revenues for the three months ended June 30, 2016. No other client accounted for 10% or more of total revenues during these periods. Further, for the three months ended June 30, 2017 and 2016, revenues from non-U.S. clients accounted for 45% and 48%, respectively, of the Company's total revenues.

Two clients in the DDS segment generated approximately 29% of the Company's total revenues for the six months ended June 30, 2017 and 32% of the Company's total revenues for the six months ended June 30, 2016. Another client in the DDS segment accounted for less than 10% of the Company's total revenues for the six months ended June 30, 2017 but accounted for 10% of the Company's total revenues for the six months ended June 30, 2016. No other client

accounted for 10% or more of total revenues during these periods. Further, for the six months ended June 30, 2017 and 2016, revenues from non-U.S. clients accounted for 50% and 48%, respectively, of the Company's total revenues.

As of June 30, 2017, approximately 63% of the Company's accounts receivable was from foreign (principally European) clients and 50% of accounts receivable was due from three clients. As of December 31, 2016, approximately 73% of the Company's accounts receivable was from foreign (principally European) clients and 52% of accounts receivable was due from three clients.

INNODATA INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

SIX MONTHS ENDED JUNE 30, 2017 AND 2016

(Unaudited)

11. Loss Per Share

	Three months ended June 30, 2017		Six months ended June 30, 2016	
	(in thousands)		(in thousands)	
Net loss attributable to Innodata Inc. and Subsidiaries	\$ (166)	\$ (1,778)	\$ (1,896)	\$ (1,775)
Weighted average common shares outstanding	25,877	25,445	25,753	25,445
Dilutive effect of outstanding options	-	-	-	-
Adjusted for dilutive computation	25,877	25,445	25,753	25,445

Basic net loss per share is computed using the weighted-average number of common shares outstanding during the period. Diluted net loss per share is computed by considering the impact of the potential issuance of common shares, using the treasury stock method, on the weighted average number of shares outstanding. For those securities that are not convertible into a class of common stock, the “two-class” method of computing income (loss) per share is used.

Options to purchase 5.1 million shares and 4.6 million shares of common stock for the three months ended June 30, 2017 and 2016, respectively, were outstanding but not included in the computation of diluted net loss per share, because the options exercise price was greater than the average market price of the common shares and, therefore, the effect would have been anti-dilutive.

Options to purchase 5.1 million shares and 4.3 million shares of common stock for the six months ended June 30, 2017 and 2016, respectively, were outstanding but not included in the computation of diluted net loss per share, because the options exercise price was greater than the average market price of the common shares and, therefore, the effect would have been anti-dilutive. In addition, diluted net loss per share for the six months ended June 30, 2016 does not include 0.3 million potential shares of common stock derived from the exercise of stock options, because as a result of the Company’s incurring losses, their effect would have been anti-dilutive.

12.

Derivatives

The Company conducts a large portion of its operations in international markets that subject it to foreign currency fluctuations. The most significant foreign currency exposures occur when revenue and associated accounts receivable are collected in one currency and expenses to generate that revenue are incurred in another currency. The Company's primary exchange rate exposure relates to payroll, other payroll costs and operating expenses in the Philippines, India, Sri Lanka and Israel.

In addition, although most of the Company's revenues are denominated in U.S. dollars, a significant portion of the total revenues is denominated in Canadian dollars, Pound Sterling and Euros.

To manage its exposure to fluctuations in foreign currency exchange rates, the Company entered into foreign currency forward contracts, authorized under Company policies, with counterparties that were highly rated financial institutions. The Company utilized non-deliverable forward contracts expiring within twelve months to reduce its foreign currency risk.

The Company formally documents all relationships between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking hedge transactions. The Company does not hold or issue derivatives for trading purposes. All derivatives are recognized at their fair value and classified based on the instrument's maturity date. The total notional amount for outstanding derivatives as of June 30, 2017 and December 31, 2016 was \$24.8 million and \$19.3 million, respectively, which is comprised of cash flow hedges denominated in U.S. dollars.

INNODATA INC. AND SUBSIDIARIES**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****SIX MONTHS ENDED JUNE 30, 2017 AND 2016****(Unaudited)**

The following table presents the fair value of derivative instruments included within the consolidated balance sheets as of June 30, 2017 and December 31, 2016 (in thousands):

	Balance Sheet Location	Fair Value	
		2017	2016
Derivatives designated as hedging instruments:			
Foreign currency forward contracts	Accrued expenses	\$182	\$318

The effects of foreign currency forward contracts designated as cash flow hedges on the Company's condensed consolidated statements of operations and comprehensive loss for the three and six months ended June 30, 2017 and 2016, respectively, were as follows (in thousands):

	Three Months Ended		Six Months Ended	
	June 30, 2017	2016	June 30, 2017	2016
Net gain (loss) recognized in OCI ⁽¹⁾	\$ (72)	\$ (152)	\$ 161	\$ 234
Net gain (loss) reclassified from accumulated OCI into income ⁽²⁾	\$ 103	\$ 41	\$ 25	\$ (12)
Net gain recognized in income ⁽³⁾	\$ -	\$ -	\$ -	\$ -

⁽¹⁾Net change in fair value of the effective portion classified into other comprehensive income ("OCI")

⁽²⁾Effective portion classified within direct operating costs

⁽³⁾There were no ineffective portions for the period presented.

The carrying amounts of financial instruments, including cash and cash equivalents, accounts receivable and accounts payable approximated their fair value as of June 30, 2017 and December 31, 2016, because of the relative short maturity of these instruments.

“*Fair Value Measurements and Disclosures*” defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

The accounting standard establishes a fair value hierarchy that prioritizes the inputs used to measure fair value into three levels. The three levels are defined as follows:

- *Level 1*: Unadjusted quoted price in active market for identical assets and liabilities.

- *Level 2*: Observable inputs other than those included in Level 1.

- *Level 3*: Unobservable inputs reflecting management’s own assumptions about the inputs used in pricing the asset or liability.

INNODATA INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

SIX MONTHS ENDED JUNE 30, 2017 AND 2016

(Unaudited)

The following tables set forth the assets and liabilities as of June 30, 2017 and December 31, 2016 that the Company measured at fair value, on a recurring basis by level, within the fair value hierarchy (in thousands). As required by the standard, assets and liabilities measured at fair value are classified in their entirety based on the lowest level of input that is significant to their fair value measurement.

	Level 1	Level 2	Level 3
June 30, 2017			
Liabilities			
Derivatives	\$-	\$ 182	\$ -
December 31, 2016	Level 1	Level 2	Level 3
Liabilities			
Derivatives	\$-	\$ 318	\$ -

The Level 2 liabilities contain foreign currency forward contracts. Fair value is determined based on the observable market transactions of spot and forward rates. The fair value of these contracts as of June 30, 2017 and December 31, 2016 are included in accrued expenses in the accompanying condensed consolidated balance sheets.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Disclosures in this Form 10-Q contain certain forward-looking statements, including without limitation, statements concerning our operations, economic performance, and financial condition. These forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. The words "project," "head start," "believe," "expect," "should," "anticipate," "indicate," "point to," "forecast," "likely," "goals," "optimistic," "foster," "estimate" and other similar expressions generally identify forward-looking statements, which speak only as of their dates.

These forward-looking statements are based largely on our current expectations and are subject to a number of risks and uncertainties, including without limitation, that contracts may be terminated by clients; projected or committed volumes of work may not materialize; our Innodata Advanced Data Solutions ("IADS") segment is a venture formed in 2011 that has incurred losses since inception and has recorded impairment charges for all of its fixed assets; we currently intend to continue to invest in IADS; the primarily at-will nature of contracts with our Digital Data Solutions clients and the ability of these clients to reduce, delay or cancel projects; continuing Digital Data Solutions segment revenue concentration in a limited number of clients; continuing Digital Data Solutions segment reliance on project-based work; inability to replace projects that are completed, canceled or reduced; our dependency on content providers in our Media Intelligence Solutions segment; difficulty in integrating and deriving synergies from acquisitions, joint venture and strategic investments; potential undiscovered liabilities of companies and businesses that we may acquire; depressed market conditions; changes in external market factors; the ability and willingness of our clients and prospective clients to execute business plans which give rise to requirements for our services; changes in our business or growth strategy; the emergence of new or growing competitors; various other competitive and technological factors; and other risks and uncertainties indicated from time to time in our filings with the Securities and Exchange Commission.

Our actual results could differ materially from the results referred to in the forward-looking statements. In light of these risks and uncertainties, there can be no assurance that the results referred to in the forward-looking statements contained in this Form 10-Q will occur.

We undertake no obligation to update or review any guidance or other forward-looking information, whether as a result of new information, future developments or otherwise.

Business Overview

Innodata (NASDAQ: INOD) is a global digital services and solutions company. Our technology and services power leading information products and online retail destinations around the world. Our solutions help prestigious enterprises harness the power of digital data to re-imagine how they operate and drive performance. We serve publishers, media and information companies, digital retailers, banks, insurance companies, government agencies and many other industries. Founded in 1988, we comprise a team of 4,400 diverse people in eight countries who are dedicated to delivering services and solutions that help the world embrace digital data as a means of enhancing our lives and transforming our businesses.

The Company operates in three reporting segments: Digital Data Solutions (DDS), Innodata Advanced Data Solutions (IADS) and Media Intelligence Solutions (MIS).

Our DDS segment provides solutions to digital retailers, information services companies, publishers and enterprises that have one or more of the following broad business requirements: development of digital content (including e-books); development of new digital information products; and operational support of existing digital information products and systems.

Many of our clients are driving or are responding to rapid and fundamental changes in the way end users discover, consume and create published information. For some of our publishing and information services clients, this means transforming information products from print to digital; for others, it means migrating already-digital products from web-only distribution to multiple-channel distribution that includes mobile and tablet devices and incorporates mobility, social platform and semantic search; and for others still, it means re-tooling pure search-based information products into workflow-embedded analytical tools that combine content with software to enable context-aware decision-making; and for a select number of our information services clients, it means embracing the content-as-a-service model to integrate content with other tools, applications and data. Each of these transformations requires shifts in products, as well as the technology and the operations that support them.

For our enterprise publishing clients, changes in the way end users discover, consume and create published information often necessitates replacing old processes and technologies that generated static, whole documents with new processes and technologies that enable content to reside as modular components which are re-combined dynamically to create up-to-date, product-specific assembly guides, engineering diagrams/schematics, compliance documentation, field operations guides and clinical documentation destined for simultaneous access on the web, from PCs, tablets and smartphones.

By blending consulting, technology and operations sourcing with deep domain expertise, we provide measurable outcomes for publishing companies, information services companies and enterprises through business transformation, accelerating innovation and efficient operations.

We help our clients develop high-value information products. Our clients include four of the ten largest information industry companies in the world, spanning financial, legal, healthcare and scientific information.

We work with clients at a strategic business and technology level to address business process and technology challenges related to digital content supply chain optimization and strategy. By aligning operations and technology with business goals, we help businesses accelerate new product development and introduction; control cost; consolidate and leverage technology investment; and obtain benefits of scale.

Many enterprises are embracing new digital information technologies and workflow processes within their operations in order to improve internal decision-support systems. We formed our IADS segment in mid-2011 to design and develop new capabilities to enable clients in the financial services, insurance and healthcare sectors to improve decision-support through digital technologies. We believe that by creating and commercializing innovative business strategies and technology solutions we will be able to accelerate our growth and reduce our revenue volatility.

Our IADS segment operates through our Synodex and docGenix subsidiaries. As of June 30, 2017 we owned 91% of Synodex and 94% of docGenix.

The main focus of the Synodex business is the extraction and classification of data from unstructured medical records in an innovative way to provide improved data service capabilities for insurance underwriting, insurance claims, medical records management and clinical trial support services. Synodex has developed and deployed its APS.Extract® product for specific use with life insurance underwriting and claims.

The main focus of the docGenix business is the extraction and classification of data from unstructured legal documents in order to improve an organization's ability to analyze documentation and feed actionable data to downstream applications.

The IADS subsidiaries have incurred losses since their inception in 2011. Our investment net of revenues in these subsidiaries in the second quarter of 2017 was approximately \$0.1 million (consisting mainly of operating expenses). We wrote off all of the fixed assets of IADS in the third quarter of 2013 and have expensed all investments in IADS since that time. In the immediate future we intend to continue to invest in these subsidiaries net of revenues at the combined rate of \$0.1 to \$0.4 million per quarter.

Our MIS segment operates through our Agility PR Solutions and Bulldog Reporter subsidiaries. In December 2016, we rebranded the MediaMiser and Agility PR Solutions products under the name Agility PR Solutions, and in March 2017 MediaMiser Ltd. in Canada changed its name to Agility PR Solutions Canada Limited.

Agility PR Solutions offers full and self-service solutions, consisting of Agility Enterprise, Agility and Agility Plus, that address the entire communications life cycle – from identifying influencers, amplifying messages, monitoring coverage, to measuring impact. Agility PR Solutions, through its Agility Enterprise product, provides media monitoring and analysis solutions and professional services to several Fortune 500 companies and Canadian government institutions, as well as small- and medium-sized businesses. Agility Enterprise enables companies to reduce the time and effort required to extract, analyze and share valuable business intelligence from traditional and online media sources.

Agility Enterprise's proprietary technology platform monitors, aggregates, analyzes and distributes summaries of coverage from more than 200,000 content sources including traditional and digital media. The platform includes a powerful sentiment analysis engine that identifies whether opinions expressed in a particular document are positive, negative or neutral.

Increasingly, organizations seek to quantify the impact of public relations (PR) and communications activities and to understand what is being said about them across traditional and digital media. Social media has also dramatically changed how organizations manage and respond to crisis. Organizations need to respond quickly to negative customer feedback or coverage and track ongoing conversations to protect their brand and reputation. Agility Enterprise, with its powerful analytics and human augmented analysis and reporting, is designed to fit these needs.

Agility is a global media contact database and email distribution platform and Agility Plus provides additional self-service media monitoring and analytics capabilities. The solution is offered as software-as-a-service (SaaS).

Bulldog Reporter is a news aggregation service for the PR and corporate communications professionals. Bulldog Reporter publishes a well-known daily e-newsletter, the Daily Dog. In addition, it offers a paid subscription service focused specifically on the health industry, a daily e-newsletter—Inside Health Media—that provides a health-related media list and media intelligence services by leveraging the data from the Agility platform. Bulldog Reporter also manages a PR industry awards program—the Bulldog Awards—which recognizes PR and communications professionals in categories including corporate social responsibility, media relations, digital and social marketing, not-for-profit activity and overall outstanding PR performance.

Our services are organized and managed around three vectors: a vertical industry focus, a horizontal service/process focus, and a supportive operations focus.

The vertically-aligned groups understand our clients' businesses and strategic initiatives. The vertical group for each particular industry includes experts hired from that industry.

Our service/process-aligned groups include engineering personnel and delivery personnel. Our engineering teams are responsible for creating secure and efficient custom workflows and integrating proprietary and third-party technologies to automate manual processes and improve the consistency and quality of our work product. These tools include categorization engines that utilize pattern recognition algorithms based on comprehensive rule sets and related heuristics, data extraction tools that automatically retrieve specific types of information from large data sources, and workflow systems that enable various tasks and activities to be performed across our multiple facilities.

Our globally distributed delivery personnel are responsible for executing our client engagements in accordance with service-level agreements. We deliver services from facilities in the United States, the Philippines, India, Sri Lanka, Israel, the United Kingdom, Germany and Canada.

Other support groups are responsible for managing diverse enabling functions including human resources, organizational development, network and communications technology infrastructure support and physical infrastructure and facilities management.

Our sales staff, program managers and consultants operate primarily from our North American and European locations, as well as from client sites.

Revenues

In our DDS segment, we recognize revenues based on the quantity delivered or resources utilized and in the period in which the services are performed and delivery has occurred. Revenues for contracts billed on a time-and-materials basis are recognized as services are performed. Revenues under fixed-fee contracts, which are not significant to the overall revenues, are recognized on the percentage of completion method of accounting, as services are performed or milestones are achieved.

In our IADS segment we recognize revenues primarily based on the quantity delivered, and the period in which services are performed and deliverables are made as per contracts. A portion of our IADS segment revenue is derived from licensing our software and providing access to our hosted software platform. Revenue from such services are recognized monthly when access to the service is provided to the end user and there are no significant remaining obligations, persuasive evidence of an arrangement exists, the fees are fixed or determinable and collection is reasonably assured.

Our MIS segment derives its revenues primarily from subscription arrangements and provision of enriched media analysis services. Revenue from subscriptions are recognized monthly when access to the service is provided to the end user and there are no significant remaining obligations, persuasive evidence of an arrangement exists, the fees are fixed or determinable, and collection is reasonably assured. Revenues from enriched media analysis services are recognized when the services are performed and delivered to the client.

We consider U.S. GAAP criteria for determining whether to report revenue gross as a principal versus net as an agent. Factors considered include whether we are the primary obligor, have risks and rewards of ownership, and bear the risk that a client may not pay for the services performed. If there are circumstances where the above criteria are not met and therefore we are not the principal in providing services, amounts received from clients are presented net of payments in the condensed consolidated statements of operations and comprehensive loss.

Revenues include reimbursement of out-of-pocket expenses, with the corresponding out-of-pocket expenses included in direct operating costs.

Direct Operating Costs

Direct operating costs consist of direct payroll, occupancy costs, data center hosting fees, content acquisition costs, depreciation and amortization, travel, telecommunications, computer services and supplies, realized gain (loss) on forward contracts, foreign currency revaluation gain (loss), and other direct expenses that are incurred in providing services to our clients.

Selling and Administrative Expenses

Selling and administrative expenses consist of management and administrative salaries, sales and marketing costs including commissions, new services research and related software development, third-party software, advertising and trade conferences, professional fees and consultant costs, and other administrative overhead costs.

Adjusted EBITDA Performance Metric

In addition to measures of financial performance presented in our consolidated financial statements, we monitor “Adjusted EBITDA” to help us evaluate our ongoing operating performance including our ability to operate the business effectively.

We define Adjusted EBITDA as net income (loss) attributable to Innodata Inc. and subsidiaries in accordance with U.S. GAAP before income taxes, depreciation, amortization of intangible assets, impairment charges, changes in fair value of contingent consideration, stock-based compensation, loss attributable to non-controlling interests and interest income (expense).

We believe Adjusted EBITDA is useful to our management and investors in evaluating our operating performance and for financial and operational decision-making purposes. In particular, it facilitates comparisons of the core operating performance of our Company from period to period on a consistent basis and helps us to identify underlying trends in our business. We believe it provides useful information about our operating results, enhances the overall

understanding of our past performance and future prospects and allows for greater transparency with respect to key metrics used by the management in our financial and operational decision-making. We use this measure to establish operational goals for managing our business and evaluating our performance.

Adjusted EBITDA has limitations as an analytical tool and should not be considered in isolation or as a substitute for results reported under U.S. GAAP. Some of these limitations are:

- Adjusted EBITDA does not reflect tax payments, and such payments reflect a reduction in cash available to us;
- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs and for our cash expenditures or future requirements for capital expenditures or contractual commitments;
- Adjusted EBITDA excludes the potential dilutive impact of stock-based compensation expense related to our workforce, interest income (expense) and net loss attributable to non-controlling interests, and these items may represent a reduction or increase in cash available to us;

Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future, and Adjusted EBITDA does not reflect cash capital expenditure requirements for such replacements or for new capital expenditure requirements; and Other companies, including companies in our own industry, may calculate Adjusted EBITDA differently from our calculation, limiting its usefulness as a comparative measure.

Adjusted EBITDA should be considered as a supplement to, and not as a substitute for or superior to, U.S. GAAP net income.

The following table reconciles net income (loss) to Adjusted EBITDA for the periods presented (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,

Results of Operations

Three Months Ended June 30, 2017 and 2016

Revenues

Total revenues were \$15.3 million for the three months ended June 30, 2017 compared to \$15.6 million for the three months ended June 30, 2016, a decrease of approximately \$0.3 million or approximately 2%.

Revenues from the DDS segment were \$11.8 million and \$13.2 million for the three months ended June 30, 2017 and 2016, respectively, a decrease of approximately \$1.4 million or approximately 11%. The decline was primarily on account of reduced volume from a key e-book client amounting to \$1.8 million and lower volume from other clients. Revenues for the three months ended June 30, 2017 include \$1.6 million for one client, of which \$1.1 million constitute revenues that we had previously deferred starting September of 2016, to be recognized on a cash basis. In the fourth quarter of 2016 we established a reserve of \$0.1 million in accounts receivable from this client. The client paid its entire outstanding balance in the quarter ended June 30, 2017.

Revenues from the IADS segment were \$1.2 million in each of the three months ended June 30, 2017 and June 30, 2016.

Revenues from the MIS segment were \$2.3 million and \$1.2 million for the three months ended June 30, 2017 and 2016, respectively, an increase of \$1.1 million or approximately 92%. The increase is attributable to the acquisition of the Agility business in July 2016.

Two clients in the DDS segment generated approximately 28% of the Company's total revenues for the three months ended June 30, 2017 and 33% of the Company's total revenues for the three months ended June 30, 2016. Another client in the DDS segment accounted for 10% of the Company's total revenues for the three months ended June 30, 2017 but accounted for less than 10% of the Company's total revenues for the three months ended June 30, 2016. No other client accounted for 10% or more of the Company's total revenues during these periods. Further, for the three months ended June 30, 2017 and 2016, revenues from non-U.S. clients accounted for 45% and 48%, respectively, of the Company's total revenues.

Direct Operating Costs

Direct operating costs were \$11.4 million and \$11.7 million for the three months ended June 30, 2017 and 2016, respectively, a decrease of \$0.3 million or 3%. Direct operating costs as a percentage of total revenues decreased to 74% for the three months ended June 30, 2017 compared to 75% for the three months ended June 30, 2016.

Direct operating costs for the DDS segment were approximately \$8.8 million and \$9.7 million for the three months ended June 30, 2017 and 2016, respectively, a decrease of \$0.9 million or 9%. The decline in direct operating costs is due to a decline in revenues excluding revenues that were previously deferred as referred to under "Revenues". Direct operating costs for the DDS segment as a percentage of DDS segment revenues were 75% (82% excluding revenues previously deferred) and 73% for the three months ended June 30, 2017 and 2016, respectively. The increase in direct operating costs as a percentage of DDS segment revenues primarily reflects a decline in DDS segment direct operating costs that was proportionately less than the decline in revenues.

Direct operating costs for the IADS segment were \$1 million for the three months ended June 30, 2017 and \$1.2 million for the three months ended June 30, 2016, net of intersegment profits. The decline in direct operating costs reflects efficiencies in the production headcount. Direct operating costs for the IADS segment as a percentage of IADS segment revenues were 83% and 103% for the three months ended June 30, 2017 and 2016, respectively.

Direct operating costs for the MIS segment were \$1.6 million and \$0.8 million for the three months ended June 30, 2017 and 2016, respectively. The increase in direct operating costs was primarily on account of the acquisition of the Agility business in July 2016. Direct operating costs for the MIS segment as a percentage of MIS segment revenues were 70% and 62% for the three months ended June 30, 2017 and 2016, respectively.

Selling and Administrative Expenses

Selling and administrative expenses were \$4.0 million for the three months ended June 30, 2017 compared to \$5.6 million for the three months ended June 30, 2016, a decrease of \$1.6 million or approximately 29%. Selling and administrative expenses as a percentage of total revenues decreased to 27% for the three months ended June 30, 2017 from 36% for the three months ended June 30, 2016.

Selling and administrative expenses for the DDS segment were \$2.5 million and \$4.2 million for the three months ended June 30, 2017 and June 30, 2016, respectively, a decline of \$1.7 million or 40%. For the three months ended June 30, 2016, the DDS segment incurred \$1.25 million of legal, professional and other costs in connection with an internal investigation. Also, for the three months ended June 30, 2017, DDS selling and administrative expenses were reduced by the recovery of the approximately \$140,000 receivable referred to under "Revenues" and the recovery of \$110,000 from another client. As a percentage of DDS revenues, DDS selling and administrative expenses were 21% for the three months ended June 30, 2017 and 31% for the three months ended June 30, 2016. This decline as a percentage of revenues was primarily caused by decline in selling and administrative expenses.

Selling and administrative expenses for the IADS segment were \$0.3 million for each of the three months ended June 30, 2017 and 2016, respectively. Selling and administrative expenses for the IADS segment as a percentage of IADS segment revenues were 25% for both the three months ended June 30, 2017 and 2016.

Selling and administrative expenses for the MIS segment were \$1.2 million and \$1.1 million for the three months ended June 30, 2017 and 2016, respectively, an increase of \$0.1 million or 9%. The increase in selling and administrative costs was primarily on account of the acquisition of the Agility business in July 2016. Selling and administrative expenses for the MIS segment as a percentage of MIS segment revenues was 52% for the three months ended June 30, 2017 and 83% for the three months ended June 30, 2016.

Income Taxes

We recorded a provision for income taxes of \$0.1 million and \$0.3 million for the three months ended June 30, 2017 and 2016, respectively. Taxes primarily consist of a provision for foreign taxes recorded in accordance with the local tax regulations by our foreign subsidiaries. Effective income tax rates are disproportionate due to the losses incurred by our U.S. entity and our Canadian subsidiary and a valuation allowance recorded on deferred taxes on these entities. Some of our foreign subsidiaries are subject to tax holidays or preferential tax rates which reduce our overall effective tax rate when compared to the U.S. statutory tax rate. In addition, the earnings of our foreign subsidiaries are not subject to tax in the U.S. unless the earnings are repatriated.

We have a valuation allowance on all of our U.S. deferred tax assets on account of continuing losses incurred by our U.S. entity. In addition, we also have a valuation allowance on deferred tax assets of our Canadian subsidiary on account of continuing losses.

Net Loss

We incurred a net loss of \$0.2 million during the three months ended June 30, 2017 compared to net loss of \$1.8 million during the three months ended June 30, 2016.

Net income for the DDS segment was \$0.4 million for the three months ended June 30, 2017, compared to net loss of \$0.8 million for the three months ended June 30, 2016, net of intersegment profits. Net loss for the IADS segment was \$0.1 million for the three months ended June 30, 2017 compared to net loss of \$0.4 million for the three months ended June 30, 2016, net of intersegment profits. Net loss for the MIS segment was \$0.5 million for the three months ended June 30, 2017 compared to net loss of \$0.6 million for the three months ended June 30, 2016.

Adjusted EBITDA

Adjusted EBITDA for the three months ended June 30, 2017 was \$1.0 million compared to a loss of \$0.7 million for the three months ended June 30, 2016. Adjusted EBITDA for the DDS segment was \$1.3 million compared to \$0.1 million for the three months ended June 30, 2017 and 2016, respectively. Adjusted EBITDA was a loss of \$0.1 million and a loss of \$0.4 million for the IADS segment for the three months ended June 30, 2017 and 2016, respectively. Adjusted EBITDA was a loss of \$0.2 million for the three months ended June 30, 2017 compared to a loss of \$0.4 million for the three months ended June 30, 2016 for the MIS segment.

Six Months Ended June 30, 2017 and 2016

Revenues

Total revenues were \$30.3 million for the six months ended June 30, 2017 compared to \$31.3 million for the six months ended June 30, 2016, a decline of approximately \$1.0 million or 3%.

Revenues from the DDS segment were \$23.2 million and \$26.9 million for the six months ended June 30, 2017 and 2016, respectively, a decrease of \$3.7 million or 14%. The decline was primarily on account of reduced volume from a key e-book client amounting to \$2.8 million and lower volume from other clients. The decline was partially offset by an increase in revenue primarily attributable to a ramp-up for one new customer for whom services began in the fourth quarter of 2016.

Revenues from the IADS segment were \$2.2 million and \$2.1 million for the six months ended June 30, 2017 and 2016, respectively, a decrease of \$0.1 million or 5%. The increase primarily reflects additional volume from docGenix clients.

Revenues from the MIS segment were \$4.9 million for the six months ended June 30, 2017 and \$2.3 million for the six months ended June 30, 2016. The increase is attributable to the acquisition of the Agility business in July 2016.

Two clients in the DDS segment generated approximately 29% of the Company's total revenues for the six months ended June 30, 2017 and 32% of the Company's total revenues for the six months ended June 30, 2016. Another client in the DDS segment accounted for less than 10% of the Company's total revenues for the six months ended June 30, 2017 but accounted for 10% of the Company's total revenues for the six months ended June 30, 2016. No other client accounted for 10% or more of the Company's total revenues during these periods. Further, for the six months ended June 30, 2017 and 2016, revenues from non-U.S. clients accounted for 50% and 48%, respectively, of the Company's total revenues.

Direct Operating Costs

Direct operating costs were \$23.1 million and \$23.2 million for the six months ended June 30, 2017 and 2016, respectively, a decrease of \$0.1 million. Direct operating costs as a percentage of total revenues increased to 76% for the six months ended June 30, 2016 compared to 74% for the six months ended June 30, 2015.

Direct operating costs for the DDS segment were \$18.0 million and \$19.2 million for the six months ended June 30, 2017 and 2016, respectively, a decrease of \$1.2 million or approximately 6%. The decline in direct operating costs is due to a decline in revenues excluding revenues that were previously deferred as referred to under "Revenues". Direct operating costs for the DDS segment as a percentage of DDS segment revenues were 78% (82% excluding revenues previously deferred) and 71% for the six months ended June 30, 2017 and 2016, respectively. The increase in direct operating costs as a percentage of DDS segment revenues primarily reflects a decline in DDS segment direct operating costs relative to a decline in revenues.

Direct operating costs for the IADS segment were \$2.1 million for the six months ended June 30, 2017 and \$2.4 million for the six months ended June 30, 2016, net of intersegment profits. The decline in direct operating costs reflects efficiencies in the production headcount. Direct operating costs for the IADS segment as a percentage of IADS segment revenues were 95% and 116% for the six months ended June 30, 2017 and 2016, respectively.

Direct operating costs for the MIS segment were \$3.0 million and \$1.6 million for the six months ended June 30, 2017 and 2016, respectively. The increase in direct operating costs was primarily on account of the acquisition of the Agility business in July 2016. Direct operating costs for the MIS segment as a percentage of MIS segment revenues were 61% and 66% for the six months ended June 30, 2017 and 2016, respectively.

Selling and Administrative Expenses

Selling and administrative expenses were \$8.7 million for the six months ended June 30, 2017 compared to \$9.4 million for the six months ended June 30, 2016, a decrease of \$0.7 million or approximately 7%. Selling and administrative expenses as a percentage of total revenues were 29% for the six months ended June 30, 2017 and 30% for the six months ended June 30, 2016.

Selling and administrative expenses for the DDS segment were \$5.5 million and \$6.8 million for the six months ended June 30, 2017 and June 30, 2016, respectively, a decrease of \$1.3 million or 19%. For the six months ended June 30,

2016, the DDS segment incurred \$1.25 million of legal, professional and other costs in connection with an internal investigation. Also, for the six months ended June 30, 2017, DDS selling and administrative expenses were reduced by the recovery of the approximately \$140,000 receivable referred to under “Revenues” and the recovery of \$110,000 from another client. Selling and administrative expenses for the DDS segment as a percentage of DDS segment revenues decreased to 24% for the six months ended June 30, 2017 compared to 26% for the six months ended June 30, 2016. The decline as a percentage of revenues was primarily caused by the decline in selling and administrative expenses.

Selling and administrative expenses for the IADS segment were \$0.6 million and \$0.7 million for each of the six months ended June 30, 2017 and 2016, respectively. Selling and administrative expenses for the IADS segment as a percentage of IADS segment revenues decreased to 27% for the six months ended June 30, 2017 compared to 35% for the six months ended June 30, 2016.

Selling and administrative costs for the MIS segment were \$2.6 million and \$1.9 million for the six months ended June 30, 2017 and 2016, respectively, an increase of \$0.7 million or 37%. The increase in selling and administrative costs was primarily on account of the acquisition of the Agility business in July 2016. Selling and administrative expenses for the MIS segment as a percentage of MIS segment revenues declined to 53% for the six months ended June 30, 2017 from 78% for the six months ended June 30, 2016.

Income Taxes

We recorded a provision for income taxes of \$0.5 million and \$0.8 million for the six months ended June 30, 2017 and 2016, respectively. Taxes primarily consist of a provision for foreign taxes recorded in accordance with the local tax regulations by our foreign subsidiaries. Effective income tax rates are disproportionate due to the losses incurred by our U.S. entity and our Canadian subsidiary and a valuation allowance recorded on deferred taxes on these entities. Some of our foreign subsidiaries are subject to tax holidays or preferential tax rates which reduce our overall effective tax rate when compared to the U.S. statutory tax rate. In addition, the earnings of our foreign subsidiaries are not subject to tax in the U.S. unless the earnings are repatriated.

We have a valuation allowance on all of our U.S. deferred tax assets on account of continuing losses incurred by our U.S. entity. In addition, we also have a valuation allowance on deferred tax assets of our Canadian subsidiary on account of continuing losses.

Net Loss

We incurred a net loss of \$1.9 million during the six months ended June 30, 2017 compared to net loss of \$1.8 million during the six months ended June 30, 2016.

Net loss for the DDS segment was \$0.7 million for the six months ended June 30, 2017, compared to net income of \$0.3 million for the six months ended June 30, 2016, net of intersegment profits. Net loss for the IADS segment was \$0.5 million for the six months ended June 30, 2017 compared to net loss of \$1.0 million for the six months ended

June 30, 2016, net of intersegment profits. Net loss for the MIS segment was \$0.7 million for the six months ended June 30, 2017 compared to net loss of \$1.1 million for the six months ended June 30, 2016.

Adjusted EBITDA

Adjusted EBITDA for the six months ended June 30, 2017 was \$0.8 million compared to \$0.7 million for the six months ended June 30, 2016, an increase of \$0.1 million. Adjusted EBITDA for the DDS segment was \$1.3 million and \$2.5 million for the six months ended June 30, 2017 and 2016, respectively, a decrease of \$1.2 million or approximately 48%. Adjusted EBITDA was a loss of \$0.5 million and a loss of \$1.1 million for the IADS segment for the six months ended June 30, 2017 and 2016, respectively. Adjusted EBITDA was a loss of \$30,000 and a loss of \$0.7 million for the MIS segment for the six months ended June 30, 2017 and 2016, respectively.

Liquidity and Capital Resources

Selected measures of liquidity and capital resources, expressed in thousands, are as follows:

	June 30, 2017	December 31, 2016
Cash and cash equivalents	\$ 15,275	\$ 14,172
Working capital	11,562	14,407

At June 30, 2017, we had cash and cash equivalents of \$15.3 million, of which \$11.8 million was held by our foreign subsidiaries, and the \$3.4 million balance was held in the United States. If needed, amounts held by foreign subsidiaries could be repatriated to the United States to satisfy working capital needs of the U.S. entity, but under current law, they would be subject to United States federal income taxes. As of June 30, 2017, our intent is to permanently reinvest these funds outside the United States, except for \$7.0 million in projected deemed dividends described below.

We have used, and plan to use, our cash and cash equivalents for (i) investments in IADS which are expected to be at the rate of \$0.1-0.4 million per quarter in the immediate future; (ii) the expansion of our other operations; (iii) general corporate purposes, including working capital; and (iv) possible business acquisitions. As of June 30, 2017, we had working capital of approximately \$11.6 million, as compared to working capital of approximately \$14.4 million as of December 31, 2016.

We believe that our existing cash and cash equivalents and internally generated funds will provide sufficient sources of liquidity to satisfy our financial needs for the next 12 months. However, we have no bank facilities or lines of credit, and continuing material reductions in our cash and cash equivalents from operating losses, capital expenditures, acquisitions or otherwise could materially and adversely affect the Company. See the risk factor entitled "Our liquidity could be affected if our losses continue." in our Report on Form 10K for the year ended December 31, 2016.

During the six months ended June 30, 2017, our U.S. entity deferred \$4.7 million in payments due to its Asian operating subsidiaries. The deferral in payments resulted in a deemed dividend that is taxable income to the U.S. entity and is set off against its net operating loss carryforwards. We project that during the balance of 2017 through 2018 our U.S. entity will not have sufficient cash to pay in full amounts that will be payable by it to its Asian operating subsidiaries and that the cash deficit will amount to approximately \$7.0 million. The resulting deferral in payments would similarly result in a deemed dividend that would be taxable income to the U.S. entity and would be set off against its net operating loss carryforwards. We adjusted our deferred tax assets and the corresponding valuation allowance as of June 30, 2017 to reflect the projected deferral in payments.

In October 2015, we filed a shelf registration statement on Form S-3, which will give us the ability to offer from time to time up to an aggregate of \$70 million of securities, which may consist of common stock, preferred stock, debt securities, warrants, or units consisting of any of the foregoing. The registration is intended to give us flexibility should financing opportunities arise.

Net Cash Provided By Operating Activities

Cash provided by our operating activities for the six months ended June 30, 2017 was \$3.7 million, resulting from a net loss of \$2.1 million and adjustments for non-cash items of \$2.3 million and \$3.5 million from working capital. Adjustments for non-cash items primarily consisted of \$1.9 million for depreciation and amortization, stock option expense of \$0.5 million and a reduction in tax provisions of \$0.3 million. Working capital activities primarily consisted of a source of cash of \$1.8 million due to an increase in accounts payable and accrued expenses, a \$1.0 million decrease in accounts receivable and \$0.7 million increase in other working capital accounts.

Cash provided by our operating activities for the six months ended June 30, 2016 was \$1.2 million, resulting from a net loss of \$2.0 million and adjustments for non-cash items of \$1.7 million and \$1.5 million provided by working capital changes. Adjustments for non-cash items primarily consisted of \$1.3 million for depreciation and amortization, stock option expense of \$0.5 million and a reduction in tax provisions of \$0.2 million. Working capital activities primarily consisted of a source of cash of \$1.3 million due to an increase in accounts payable and accrued expenses and a source of cash of \$0.5 million for an increase in accrued salaries, wages and related benefits.

Our days' sales outstanding (DSO) for the six months ended June 30, 2017 and for the year ended December 31, 2016 was approximately 55 days. We calculate DSO for a reported period by first dividing the total revenues for the period by the average net accounts receivable for the period (which is the sum of the net accounts receivable at the beginning of the period and the net accounts receivable at the end of the period, divided by two), to yield an amount we refer to as the "accounts receivable turnover." Then we divide the total number of days within the reported period by the accounts receivable turnover to yield DSO expressed in number of days.

Net Cash Used in Investing Activities

For the six months ended June 30, 2017 and 2016, cash used in our investing activities was \$2.3 million and \$0.9 million, respectively. These expenditures principally consisted of construction costs related to the relocation of our new corporate offices in the US and Canada, purchase of technology equipment including servers, network infrastructure and workstations. We continue to expense all capital expenditures for the IADS segment.

During the next twelve months, we anticipate that capital expenditures for ongoing technology, equipment, infrastructure upgrades and development of our proprietary software platform, tools and technologies will approximate \$2.0 to \$3.0 million, a portion of which we may finance.

Net Cash Used in Financing Activities

For the six months ended June 30, 2017, cash used in financing activities were comprised of proceeds from equipment financing of \$0.6 million and total payments of long-term obligations of \$0.8 million. For the six months ended June 30, 2016, cash used in financing activities comprised of total payments of long term obligations of \$0.3 million.

Contractual Obligations

The table below summarizes our contractual obligations (in thousands) at June 30, 2017 and the effects that those obligations are expected to have on our liquidity and cash flows in future periods.

Contractual Obligations	Payments Due by Period				
	Total	Less than 1 year	1-3 years	4-5 years	After 5 years
Capital lease	\$769	\$ 346	\$ 423	\$ –	\$ –
Vendor obligations	751	416	335		
Non cancellable operating leases	3,433	789	1,350	762	532
Total contractual cash obligations	\$4,953	\$ 1,551	\$ 2,108	\$ 762	\$ 532

Future expected obligations under our pension benefit plan have not been included in the contractual cash obligations in the table above.

Inflation, Seasonality and Prevailing Economic Conditions

Our most significant costs are the salaries and related benefits of our employees in Asia. We are exposed to higher inflation in wage rates in the countries in which we operate. We generally perform work for our clients under project-specific contracts, requirements-based contracts or long-term contracts. We must adequately anticipate wage increases, particularly on our fixed-price contracts. There can be no assurance that we will be able to recover cost increases through increases in the prices that we charge for our services to our clients.

Our quarterly operating results are subject to certain fluctuations. We experience fluctuations in our revenue and earnings as we replace and begin new projects, which may have some normal start-up delays, or we may be unable to replace a project entirely. These and other factors may contribute to fluctuations in our operating results from quarter to quarter. In addition, as some of our Asian facilities are closed during holidays in the fourth quarter, we typically incur higher wages, due to overtime, that reduce our margins.

Our Synodex subsidiary experiences seasonal fluctuations in revenues. Typically, revenue is lowest in the third quarter of the calendar year and highest in the fourth quarter of the calendar year. The seasonality is directly linked to the number of life insurance applications received by the insurance companies.

Critical Accounting Policies and Estimates

Our discussion and analysis of our results of operations, liquidity and capital resources is based on our condensed consolidated financial statements which have been prepared in conformity with accounting principles generally accepted in the United States of America. The preparation of these condensed consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates and judgments, including those related to revenue recognition, allowance for doubtful accounts and billing adjustments, long-lived assets, intangible assets, goodwill, valuation of deferred tax assets, value of securities underlying stock-based compensation, litigation accruals, pension benefits, purchase price allocation of Agility, valuation of derivative instruments and estimated accruals for various tax exposures. We base our estimates on historical and anticipated results and trends and on various other assumptions that we believe are reasonable under the circumstances, including assumptions as to future events. These estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. By their nature, estimates are subject to an inherent degree of uncertainty. Actual results may differ from our estimates and could have a significant, adverse effect on our results of operations and financial position. For a discussion of our critical accounting policies see Part II, Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2016. There have been no material changes to our critical accounting policies during the six months ended June 30, 2017.

Recent Accounting Pronouncements

In May 2014, the FASB issued guidance on revenue from contracts with customers. This update is a comprehensive new revenue recognition model that requires a company to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. It also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. This accounting guidance is effective prospectively for annual reporting periods, and interim periods within that period, beginning after December 15, 2017, and early adoption is permitted in the first quarter of 2017. Companies may use either a full retrospective or a modified retrospective approach to adopt the new standard when it takes effect. We will adopt the standard on January 1, 2018, and currently anticipate adopting the standard using the modified retrospective method, which would result in a cumulative effect adjustment as of the date of adoption. We have established a team that is continuing to assess the potential impact of the standard on the timing of revenue recognition, and our contracts with customers, and to determine the effect the guidance will have on our condensed consolidated financial statements and footnote disclosures.

In February 2016, the FASB issued guidance related to leases. This new guidance requires lessees to recognize on the balance sheet a right-of-use asset, representing its right to use the underlying asset for the lease term, and a lease liability for all leases with terms greater than 12 months. The guidance also requires qualitative and quantitative disclosures designed to assess the amount, timing, and uncertainty of cash flows arising from leases. The standard requires the use of a modified retrospective transition approach, which includes a number of optional practical expedients that entities may elect to apply. This new standard is effective for annual periods beginning after December 15, 2018. Early application is permitted. We are in the process of evaluating the effect the guidance will have on our existing accounting policies and condensed consolidated financial statements, but expect there will be an increase in assets and liabilities on the condensed consolidated balance sheets at adoption due to the recording of right-of-use assets and corresponding lease liabilities, which may be material.

In March 2016, the FASB issued guidance relating to share-based compensation. This new guidance is intended to simplify several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The new guidance is effective for annual periods beginning after December 15, 2016. Early application is permitted. We adopted this standard and there was no material impact on our condensed consolidated financial statements.

In March 2017, the FASB issued guidance on Compensation - Retirement Benefits relating to improvements in the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. Under existing GAAP, an entity is required to present all components of net periodic pension cost and net periodic postretirement benefit cost aggregated as a net amount in the income statement, and this net amount may be capitalized as part of an asset where

appropriate. The amendments in the guidance require that an employer report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period, and requires the other components of net periodic pension cost and net periodic postretirement benefit cost to be presented in the income statement separately from the service cost component and outside a subtotal of income from operations, if one is presented. Additionally, only the service cost component is eligible for capitalization, when applicable. The amendments in the guidance will be applied retrospectively for the presentation of the service cost component and the other components of net periodic pension cost and net periodic postretirement benefit cost in the income statement and prospectively, for the capitalization of the service cost component of net periodic pension cost and net periodic postretirement benefit in assets. Early adoption is permitted. We do not anticipate that adoption of this standard will have a material impact on our condensed consolidated financial statements.

In January 2017, the FASB issued guidance simplifying the accounting for goodwill impairment by removing Step 2 of the goodwill impairment test. Under current guidance, Step 2 of the goodwill impairment test requires entities to calculate the implied fair value of goodwill in the same manner as the amount of goodwill recognized in a business combination by assigning the fair value of a reporting unit to all of the assets and liabilities of the reporting unit. The carrying value in excess of the implied fair value is recognized as goodwill impairment. Under the new standard, goodwill impairment is recognized based on Step 1 of the current guidance, which calculates the carrying value in excess of the reporting unit's fair value. The new standard is effective beginning in January 2020, with early adoption permitted. We do not believe the adoption of this guidance will have a material impact on our condensed consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest rate risk

Our equipment sales leaseback financing and capital lease transactions carry a fixed interest rate. Thus, as of June 30, 2017 we are not exposed to any market risk due to interest rate fluctuations.

Foreign currency risk

Although the majority of our revenues is denominated in U.S. dollars, a significant portion of our revenues is denominated in Canadian dollars, Pound Sterling and Euros. In addition, a significant portion of our expenses, primarily labor expenses in the Philippines, India, Sri Lanka, the United Kingdom, Germany, Canada and Israel, is incurred in the local currencies of the countries in which we operate. For financial reporting purposes, we translate all non-U.S. denominated transactions into U.S. dollars in accordance with accounting principles generally accepted in the United States. As a result, we are exposed to the risk that fluctuations in the value of these currencies relative to the U.S. dollar could have a direct impact on our revenues and our results of operations.

To mitigate the exposure of fluctuating future cash flows due to changes in foreign exchange rates, we entered into foreign currency forward contracts. These foreign currency forward contracts were entered into with a maximum term of twelve months and have an aggregate notional amount of approximately \$24.8 million as of June 30, 2017. The total unrealized loss on the outstanding hedges was \$0.2 million as of June 30, 2017.

The impact of foreign currency fluctuations will continue to present economic challenges to us and could negatively impact our overall results of operations. A 10% appreciation in the U.S. dollar's value relating to hedged currencies would decrease the forward contracts' fair value by approximately \$2.2 million as of June 30, 2017. Similarly, a 10% depreciation in the U.S. dollar's value relative to hedged currencies would increase the forward contracts' fair value by approximately \$2.8 million. Any increase or decrease in the fair value of our currency exchange-rate-sensitive forward contracts, if utilized, would be substantially offset by a corresponding decrease or increase in the fair value of the hedged underlying cash flows.

We may continue to enter into these, or other such instruments, in the future to reduce foreign currency exposure to appreciation or depreciation in the value of these foreign currencies.

Other than the aforementioned forward contracts, we have not engaged in any hedging activities nor have we entered into off-balance-sheet transactions or arrangements. In addition, as of June 30, 2017, our foreign locations held cash and cash equivalents totaling approximately \$11.8 million. These assets are exposed to foreign exchange risk arising from changes in foreign exchange rates. At present, we do not enter into any hedging instruments to mitigate foreign exchange risk on such assets; however, we may do so in the future.

Item 4. Controls and Procedures

As of the end of the period covered by this report, we performed an evaluation under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934 (the Exchange Act)). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this Quarterly Report, our disclosure controls and procedures were effective.

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) or 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The following information replaces the disclosure under “Legal Proceedings” in Part I, Item 3. in our Annual Report on Form 10-K for the year ended December 31, 2016:

In 2008, the Supreme Court of the Republic of the Philippines refused to review a decision of the Court of Appeals in Manila against a Philippines subsidiary of the Company that is inactive and has no material assets, and purportedly also against Innodata Inc., that orders the reinstatement of certain former employees of the subsidiary to their former positions and also orders the payment of back wages and benefits that aggregate approximately \$7.0 million. The payment ordered by the Philippine courts accrued legal interest at the rate of 12% per annum from August 13, 2008 to June 30, 2013, and has thereafter accrued and continues to accrue legal interest at the rate of 6% per annum. The amount of the payment as expressed in US dollars varies with the Philippine peso to U.S. dollar exchange rate. Based on consultation with legal counsel, the Company believes that financial recovery against the Company is unlikely.

The Court of Appeals decision was rendered in Case Nos. CA-G.R. SP No. 93295 Innodata Employees Association (IDEA), Eleanor Tolentino, et al. vs. Innodata Philippines, Inc., et al., and CA-G.R. SP No. 90538 Innodata Philippines, Inc. vs. Honorable Acting Secretary Manuel G. Imson, et al. (28 June 2007). Matters relating to execution of this decision are on file with the Department of Labor and Employment National Labor Relations Commission, Republic of the Philippines (NLRC-NCR-Case No.07-04713-2002, et al., Innodata Employees Association (IDEA) and Eleanor A. Tolentino, et al. vs. Innodata Philippines, Inc., et al), and the Department of Labor and Employment Office of the Secretary of Labor and Employment, Republic of the Philippines (Case No. OS-AJ-0015-2001, In Re: Labor Dispute at Innodata Philippines, Inc.).

We are also subject to various other legal proceedings and claims which arise in the ordinary course of business.

While management currently believes that the ultimate outcome of these proceedings will not have a material adverse effect on our financial position or overall trends in results of operations, litigation is subject to inherent uncertainties. Substantial recovery against us in the above referenced Philippines action could have a material adverse impact on us, and unfavorable rulings or recoveries in the other proceedings could have a material adverse impact on the operating results of the period in which the ruling or recovery occurs.

Item 1A. Risk Factors

The information in Item 1. above also replaces the disclosure under “We are the subject of continuing litigation, including litigation by certain of our former employees” in Part I, Item 1A. “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2016. There were no material changes from the other risk factors disclosed in Part I, Item 1A. “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

There were no sales of unregistered equity securities during the three months ended June 30, 2017.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

None.

Item 5. Other Information

None.

44

Item 6. Exhibits

31.1 Certificate of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

31.2 Certificate of Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

32.1 Certification Pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

32.2 Certification Pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
