**ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934**

For the fiscal year ended December 31, 2005

Commission File No. 1-5998

Marsh & McLennan Companies, Inc.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

36-2668272
(I.R.S. Employer Identification No.)

**1166 Avenue of the Americas
New York, New York 10036-2774**

(Address of principal executive offices; Zip Code)

(212) 345-5000

Registrant's telephone number, including area code

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Name of Each Exchange on Which registered</u>
Common Stock, par value \$1.00 per share	New York Stock Exchange
Preferred Stock Purchase Rights	Chicago Stock Exchange
	Pacific Exchange
	London Stock Exchange

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No .

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No .

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No .

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. .

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No .

As of June 30, 2005, the aggregate market value of the registrant's common stock held by non-affiliates of the registrant was approximately \$14,869,956,895 based on the average of the high and low prices as reported on the New York Stock Exchange.

As of February 17, 2006, there were outstanding 547,001,162 shares of common stock, par value \$1.00 per share, of the registrant.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of Marsh & McLennan Companies, Inc.'s Notice of Annual Meeting and Proxy Statement for the 2006 Annual Meeting of Stockholders are incorporated by reference in Part III of this Form 10-K.

INFORMATION CONCERNING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains forward-looking statements, as defined in the Private Securities Litigation Reform Act of 1995. These statements, which use words like anticipate, believe, estimate, expect, intend, plan, project, should and similar terms, express management's current views concerning future events or results. For example, we may use forward-looking statements when addressing topics such as: future actions by our management or regulators; the outcome of contingencies; changes in our business strategy; changes in our business practices and methods of generating revenue; the development and performance of our services and products; market and industry conditions, including competitive and pricing trends; changes in the composition or level of MMC's revenues; our cost structure; the impact of acquisitions and dispositions; and MMC's cash flow and liquidity.

Forward-looking statements are subject to inherent risks and uncertainties. Factors that could cause actual results to differ materially from those expressed or implied in our forward-looking statements include:

the economic and reputational impact of: litigation and regulatory proceedings brought by federal and state regulators and law enforcement authorities concerning our insurance and reinsurance brokerage operations and our investment management operations (including the complaint filed in October 2004 by the New York Attorney General's office relating to market service agreements and other matters, and proceedings relating to market-timing matters at Putnam); and class actions, derivative actions and individual suits filed by policyholders and shareholders in connection with the foregoing;

the extent to which we are able to replace the revenues we previously derived from contingent commissions, which we eliminated in late 2004;

our ability to retain existing clients and attract new business, particularly in our Risk and Insurance Services segment, and our ability to continue employment of key revenue producers and managers;

period-to-period revenue fluctuations relating to the net effect of new and lost business production and the timing of policy inception dates;

the impact on our commission revenues of changes in the availability of, and the premiums carriers charge for, insurance and reinsurance products, including the degree and timing of the impact on reinsurance premium rates of 2005 hurricanes;

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

the actual and relative investment performance of Putnam's mutual funds and institutional and other advisory accounts, and the extent to which Putnam reverses its recent net redemption experience, increases assets under management and maintains management and administrative fees at historical levels;

our ability to implement our restructuring initiatives and otherwise reduce expenses;

the impact of competition, including with respect to pricing and the emergence of new competitors;

the impact of increasing focus by regulators, clients and others on potential conflicts of interest;

changes in the value of MMC's investments in individual companies and investment funds;

our ability to make strategic acquisitions and to integrate, and realize expected synergies, savings or strategic benefits from, acquired businesses;

i

our ability to meet our financing needs by generating cash from operations and accessing external financing sources, including the potential impact of rating agency actions on our cost of financing or ability to borrow;

the impact on our operating results of foreign exchange fluctuations; and

changes in the tax or accounting treatment of our operations, and the impact of other legislation and regulation in the jurisdictions in which we operate.

Forward-looking statements speak only as of the date on which they are made, and MMC undertakes no obligation to update any such statement to reflect events or circumstances after the date on which it is made.

MARSH & McLENNAN COMPANIES, INC.

ANNUAL REPORT ON FORM 10-K
FOR THE YEAR ENDED DECEMBER 31, 2005

PART I

ITEM 1. BUSINESS.

References in this report to we, us and our are to Marsh & McLennan Companies, Inc. (MMC) and one or more of its subsidiaries, as the context requires.

GENERAL

MMC is a global professional services firm. Through our subsidiaries, we provide clients with analysis, advice and transactional capabilities across four operating segments:

Risk and Insurance Services, which includes risk management and insurance and reinsurance broking and services;

Risk Consulting and Technology, which includes risk consulting and related investigative, intelligence, financial, security and technology services;

Consulting, which includes human resource consulting and related services, and specialized management and economic consulting services; and

Investment Management, which includes investment management for both individual and institutional investors.

Our approximately 55,000 employees service a diverse range of clients in more than 100 countries. In our Risk and Insurance Services, Risk Consulting and Technology and Consulting segments, our worldwide client base includes corporations in numerous industries, small and mid-size businesses, governments and other public entities, not-for-profit organizations and individuals. Our investment management business serves both institutional and individual investors, primarily in the United States. We provide financial information about our segments in our consolidated financial statements included under Item 8 of this report.

OUR BUSINESSES

Risk and Insurance Services

Risk and insurance services is MMC's largest business segment, generating 47% of total operating segments revenue in 2005 and employing approximately 29,000 colleagues worldwide. In this segment, our subsidiaries and other affiliated entities act as brokers, agents or consultants for insureds, insurance underwriters and other brokers in the areas of:

risk management, insurance broking and insurance program management services, primarily under the name of *Marsh*; and

reinsurance broking, catastrophe and financial modeling services and related advisory functions, primarily under the name of *Guy Carpenter*.

1

Historically, this business segment also has included claims management and productivity services, wholesale broking services and private equity management. In 2005 and January 2006 we exited or were in the process of exiting many of these businesses, as described below under Recent Dispositions.

Marsh

Marsh and its subsidiaries, primarily organized under Marsh Inc. and Marsh USA Inc., operate out of a global network of more than 400 offices in over 100 countries. Through our Marsh subsidiaries, we provide risk management and insurance broking services to businesses, government entities and professional service organizations around the world. Marsh subsidiaries also manage insurance product programs for affinity groups, offer standard insurance programs to small business clients and provide risk and financial planning services to high-net-worth individuals and family offices.

In its main risk consulting and insurance broking practice, Marsh employs a team approach to address its clients' individual risk management and insurance needs. Each client relationship is coordinated by a client executive who assembles the resources needed to analyze, measure and manage the client's various risks. The client executive draws from colleagues who specialize in specific industries and/or risk specialty areas. For example, Marsh team members might specialize in individual commercial insurance product lines, or in specific risk areas such as property, casualty, workers compensation, environmental, aviation, marine and energy, political risk or financial and professional liability.

In servicing their clients, Marsh's risk and insurance professionals identify, analyze and estimate risks that arise from client operations and assets. These client risks relate to physical damage to property, various liability exposures, and other factors that could result in financial loss, as well as large and complex risks that require access to world insurance and financial markets. Marsh professionals address traditional property and liability risks and a widening range of financial, strategic and operating exposures, including those relating to employment practices, the launch and operation of rockets and spacecraft, the development and operation of technology resources, intellectual property, the remediation of environmental pollution, mergers and acquisitions, the interruption of revenue streams derived from leasing and credit operations and political risks.

Once risks are identified, Marsh advises clients on how to address their exposures, helping them structure programs for retaining, mitigating, financing, and transferring risk in combinations that vary according to the client's particular circumstances. In addition to insurance programs, Marsh might help a client develop risk management strategies that include loss-control services (such as business continuity planning, ergonomic and workplace safety programs and loss information management), or alternative risk financing (such as the securitization of risk, the placement of risk with the capital markets and self-insured programs). Marsh's professionals help clients implement their risk management and mitigation strategies by negotiating and executing transactions with the worldwide insurance and capital markets, establishing and managing specialized insurance companies owned by clients (sometimes known as captive insurance companies) and implementing various loss-control programs.

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

In addition to its main risk management and broking practice described above, Marsh maintains a separate Consumer & Commercial practice, whose professionals provide advice, broking and program management services to corporate and association clients globally and to individual and small business clients in the United States. Marsh professionals in this practice design, market and administer a variety of insurance and insurance-related products and services, such as consumer property and casualty programs and life insurance, purchased by an association or professional

2

group's members or provided to employees of corporate clients as part of a voluntary payroll deduction program. Other areas of the Consumer & Commercial practice include: Private Client Services, which provides specialized risk and insurance programs to high-net-worth individuals and family offices; Marsh Financial Services, which offers key-person and executive benefit programs, as well as planning and wealth preservation solutions to affluent individuals; and the Small Commercial practice, which offers standardized insurance programs to small businesses and franchise operations.

Marsh subsidiaries also provide insurance support services such as claims collection, claims advocacy, injury management, claims administration, and other insurance- and risk-related services.

Subsidiaries in the Risk and Insurance Services segment, under various names apart from Marsh, also provide underwriting management services to insurers in the United States, Canada and the United Kingdom, primarily for professional liability coverages.

Guy Carpenter

Reinsurance is a form of insurance that an insurance company or other risk assumption entity (such as a captive insurer or a governmental entity) purchases in order to reduce its exposure to liability on the insurance policies it has written. The purchaser of reinsurance spreads its risk by transferring (or ceding) a portion of its underwriting liability to another insurance provider, which is known as the reinsurer. Reinsurance enables the ceding entity, among other things, to expand its underwriting capacity, stabilize its underwriting results, secure protection against large or unexpected losses, or withdraw from (run-off) a class or line of business in an orderly fashion.

Guy Carpenter & Company, Inc. and its subsidiaries and affiliates provide reinsurance services for insurance and reinsurance companies and other risk assumption entities. Guy Carpenter's approximately 2,600 professionals around the world provide their clients with reinsurance solutions that include risk management advice; the placement of reinsurance coverage with reinsurance markets worldwide; risk-transfer financing in the capital markets; contract and claims management; and run-off services administration.

Acting as a broker or intermediary on all classes of reinsurance, Guy Carpenter places two main types of property and casualty reinsurance. Treaty reinsurance involves the transfer of a portfolio of risks. Facultative reinsurance entails the transfer of part or all of the coverage provided by a single insurance policy.

Guy Carpenter also provides reinsurance services in a broad range of specialty practice areas, including accident and health, agriculture, alternative risk transfer, environmental, general casualty, investment banking, life and annuity, marine and energy, professional liability, program manager solutions, property, retrocessional reinsurance (reinsurance between reinsurers), structured risk, surety, terror risk, and workers compensation. In addition, Guy Carpenter provides its clients with numerous reinsurance-related services, such as actuarial, financial and regulatory consulting and portfolio analysis. Guy Carpenter's Instrat® unit delivers advanced risk assessment analytics, catastrophe modeling and exposure management tools to assist clients in the reinsurance decision-making process.

Guy Carpenter offers run-off services for inactive clients in North America and elsewhere through Reinsurance Solutions International, LLC and ReSolutions International Limited, respectively. These subsidiaries also offer reinsurance and insurance administration solutions on a fee basis.

3

Recent Dispositions

MMC Capital. In May 2005, MMC sold the assets of its wholly-owned subsidiary MMC Capital to Stone Point Capital LLC, a company controlled by the former managers of MMC Capital. MMC Capital was a private equity firm that managed investments and committed capital of

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

more than \$2 billion, primarily in the insurance and financial services industries. MMC Capital acted as the investment manager of the Trident Funds, which consist of the Trident, Trident II and Trident III partnerships, formed in 1994, 1999 and 2003, respectively. MMC is an investor in each of the Trident funds. Upon the asset sale in May 2005, Stone Point assumed responsibility for management of the Trident funds and other private equity funds previously managed by MMC Capital. MMC does not participate in the investment decisions or management of Stone Point or the private equity funds managed by Stone Point. MMC, through its subsidiary Marsh & McLennan Risk Capital Holdings (Risk Capital Holdings), continues to own investments in the Trident funds and other funds managed by Stone Point, as well as direct investments in certain insurance and financial services companies, including Ace Ltd, XL Capital Ltd and Axis Capital Holdings Ltd.

Sedgwick Claims Management Services. SCMS was a majority-owned subsidiary of Marsh until its sale in January 2006. SCMS provides claims administration and related services in North America, principally for workers compensation, employers liability, general liability, automobile liability, and short- and long-term disability claims. MMC agreed to sell its majority stake in SCMS on December 23, 2005. The closing of the sale occurred on January 31, 2006.

Wholesale Broking. The Risk and Insurance Services business segment historically has included wholesale broking services performed for a wide range of clients under various names, including Crump. In October 2005, MMC exited a significant portion of this business when it completed the sale of Crump Group, Inc., its U.S.-based wholesale broking operation.

Compensation for Services

Marsh and Guy Carpenter are compensated for brokerage and consulting services primarily through fees paid by clients and commissions paid out of premiums charged by insurance and reinsurance companies. Commission rates vary in amount depending upon the type of insurance or reinsurance coverage provided, the particular insurer or reinsurer, the capacity in which the broker acts and negotiations with clients. (As described elsewhere in this report, effective October 1, 2004, Marsh eliminated contingent compensation or market services agreements with insurers.) For billing and other administrative services, Marsh and Guy Carpenter receive interest income on certain funds (such as premiums and claims proceeds) held in a fiduciary capacity for others. We also receive certain investment-related revenues from Risk Capital Holdings. For a more detailed discussion of revenue sources and factors affecting revenue in our Risk and Insurance Services segment, see Item 7 (Management s Discussion and Analysis of Financial Condition and Results of Operations) of this report.

Risk Consulting & Technology

MMC s Risk Consulting and Technology segment generated 8% of total operating segments revenue in 2005. This segment consists of **Kroll, Inc.** and its subsidiaries, acquired by MMC in July 2004. Since January 1, 2005, it also includes portions of the risk consulting business previously managed by Marsh under the Risk and Insurance Services segment. The services previously managed by Marsh include forensic accounting, insurance claims accounting, and preparation and crisis consulting.

4

Kroll has approximately 3,500 colleagues in 28 countries, and also uses a worldwide network of consultants with specialized expertise. Kroll provides a broad range of investigative, intelligence, financial, security and technology services to corporate, government, institutional and individual clients. Kroll develops, markets and delivers its services through four business groups:

Consulting Services;

Corporate Advisory & Restructuring;

Security; and

Technology Services.

Kroll s Consulting Services Group provides a wide range of services to help clients mitigate business, financial and physical risks and achieve their legal, operational and financial objectives. This group consists of two primary businesses which operate globally. Business Intelligence & Investigations gathers and analyzes information to help clients identify business risks and make informed decisions; conducts investigations to help clients to uncover wrongdoing; supports litigation; locates misappropriated assets; and manages programs to protect intellectual property, prevent money laundering and ensure the integrity of vendors. Financial Advisory Services provides a full range of forensic accounting,

litigation consulting, and valuation services to help clients uncover fraud, comply with securities and corporate governance regulations and assess financial damages for insurance claims and litigation.

The Corporate Advisory & Restructuring Group provides domestic and cross-border professional services with the objective of maximizing the value of financially-troubled companies for the benefit of their stakeholders. Working on behalf of companies or creditors in North America and Europe, this group provides interim and crisis management, operational turnaround, strategic advisory, corporate finance, recovery and restructuring, and liquidation services.

The Security Group serves clients operating in high risk areas of the world, such as multinational corporations, government agencies, high-net-worth individuals, architectural firms, and private and public sector organizations. Services include security consulting; architectural security engineering; outsourced security operations and management; executive protection; high risk environment intelligence and protective services; crisis and kidnap response; travel safety training programs; and training programs for executives, security professionals and military personnel. The Security Group also includes Kroll's U.S. government services business, which conducts security clearance investigations of government personnel and monitors law enforcement agencies and other public and private entities' compliance with federal consent decrees and other government mandates.

The Technology Services Group is comprised of Kroll's four non-consulting businesses. Kroll Background America provides employee and vendor background investigations and identity theft services to a wide range of business and non-profit clients worldwide. Kroll Factual Data provides information services to mortgage and consumer lending businesses, landlords, employers and other business customers in the United States. Kroll Laboratory Specialists provides substance abuse testing services to corporate, institutional and government clients in the United States and Canada. Kroll Ontrack offers data recovery services in North America, Europe and Asia-Pacific, and legal technologies services in the United States and the United Kingdom.

5

Compensation for Services

Kroll receives compensation for its risk consulting and technology services in the form of fees paid by clients. These fees are typically earned on an hourly, project, fixed fee or per unit basis. For a more detailed discussion of revenue sources and factors affecting revenue in our Risk Consulting and Technology segment, see Item 7 (Management's Discussion and Analysis of Financial Condition and Results of Operations) of this report.

Consulting

MMC conducts business in its Consulting segment through Mercer Inc. and its subsidiaries and affiliates. Consulting is MMC's second-largest business segment, generating 32% of total operating segments revenue in 2005 and employing approximately 18,900 colleagues worldwide. Mercer operates through two main business groups, each divided into lines of business, as follows:

Mercer Human Resource Consulting, consisting of the following lines of business:

- Retirement & Investment Consulting
- Human Resource (HR) Services & Investments
- Health & Benefits
- Human Capital

Mercer Specialty Consulting, consisting of the following lines of business:

- Management Consulting
- Organizational Design and Change Management
- Economic Consulting

Mercer Human Resource Consulting

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

Mercer Human Resource Consulting is the world's largest human resources consulting organization, with more than 16,000 colleagues working in 41 countries and territories. Mercer Human Resource Consulting professionals help clients understand, design, implement and quantify the effectiveness of their human resource programs and policies. Mercer provides specialized expertise in all areas of human resource consulting, including retirement and investment strategies and programs, compensation, employee benefits, employee communication, mergers and acquisitions and human capital strategy.

Retirement & Investment Consulting

Mercer Human Resource Consulting professionals provide consulting advice to corporate, government and institutional clients to help them design, execute and measure their retirement programs, policies and strategies. Mercer consultants offer consulting expertise in many retirement-related areas, such as defined benefit and defined contribution plans, executive retirement plans, retiree medical benefits and the retiree benefits aspects of mergers and acquisitions.

Under the Mercer Investment Consulting name, Mercer advises clients on various aspects of institutional investing, including selection of investment strategies and structures, risk management, asset manager selection and monitoring, and a wide range of special projects. Clients include fiduciaries of pension funds, foundations, endowments, and other investors in more than 35 countries. In certain locations outside the United States, Mercer consultants advise individual clients in the investment and disposition of lump sum retirement benefits and other retirement

6

savings under the Mercer Wealth Solutions name. Mercer Investment Consulting also advises Mercer's multi-manager business (Mercer Global Investments, described below) on the selection of third-party managers for the investment of client assets.

HR Services & Investments

Under the Mercer HR Services name, Mercer provides outsourced administration of retirement, group benefits and other human resource programs. Depending on the type of benefit plan or HR program, services may include enrollment, calculations, payment authorization, investment administration, forms processing, recordkeeping, responding to plan participant questions, participant communications, management reporting, and other business process outsourcing relating to HR activities.

Effective January 1, 2005, Mercer's U.S. defined benefit plan and human resource administration business was combined with the administrative and trustee (or custodial) services previously conducted by Putnam Fiduciary Trust Company, or PFTC, a sister company. The services previously provided by PFTC include participant accounting and plan administration services for 401(k) and other qualified defined contribution employee benefit plans, cash-balance defined benefit plans, employee stock purchase plans and certain non-qualified plans. (A non-qualified plan is a pension or employee benefit plan which does not meet certain federal government criteria and is therefore ineligible for certain tax advantages.) Investment options in defined contribution employee benefit plans are usually selected by the plan sponsors and may include Putnam mutual funds and other Putnam-managed products, as well as employer stock and other non-Putnam investments. In the future, investment options may also include investment products offered by Mercer Global Investments (described below).

In certain countries, principally Australia, under the Mercer Super Trust name, we offer a retirement master trust service which incorporates plan administration, trustee services and investment manager selection. As part of this service, Mercer has operated a multi-manager investment business, in which we select multiple third-party investment managers to invest retirement plan participant assets. Building on our experience in Australia, in 2005 we launched Mercer Global Investments in the United States (and also adopted this name for Australia's multi-manager investment operation). Mercer Global Investments currently services institutional investors (principally retirement plan sponsors and trustees) and individual investors (in Australia, and prospectively in other countries), principally for investment of their retirement plan assets. As of December 31, 2005, Mercer Global Investments had assets under management of approximately \$1.4 billion in the United States and US\$8.1 billion in Australia. During 2006, Mercer plans to expand the Mercer Global Investments business to selected new markets, primarily in Europe.

Also during 2005, Mercer launched Mercer Retirement Solution, which integrates Mercer's services in the areas of retirement plan administration, plan participant services, investment management and consulting/actuarial support, with the objective of simplifying for plan sponsors and trustees the job of operating a retirement program. Mercer Retirement Solutions is currently offered in the United States, Brazil, the United Kingdom and Ireland. Mercer plans to expand this business to additional countries in 2006.

Health & Benefits

Mercer's Health & Benefits professionals help employers design, operate and measure employee health care and insured group benefit programs. This business includes consulting and the provision of brokerage services in connection with the selection of insurance companies and healthcare providers. Effective October 1, 2005, we transferred Marsh's U.S. employee benefits business, which

had provided similar services to a different client base, to Mercer Health & Benefits. Marsh's U.K. employee benefits business was also combined with Mercer and plans are underway for similar combinations in certain other countries.

Human Capital

Mercer's Human Capital consultants help clients to understand their human capital, or workforce, practices in a systematic way, and to develop strategies and programs to use their human capital to competitive advantage. Our consultants help clients design, understand, calibrate and align their compensation and performance management systems, including both executive compensation and broad-based employee compensation programs, and other employee practices in order to optimize business performance. Mercer's Human Capital business also provides data, software and compensation administration services to help companies manage and operate their compensation and total rewards programs. In addition, consultants advise HR executives on how to improve the efficiency, effectiveness and business focus of their companies' HR functions.

Mercer Specialty Consulting

The Mercer Specialty Consulting companies have more than 2,700 colleagues serving clients in 20 countries. The businesses operate as a portfolio of focused management and economic consulting practices that assist corporate enterprises in the areas of strategy development, operational improvement, risk management, organizational and leadership development, regulatory economics and litigation support.

Mercer Management Consulting professionals advise on issues of business strategy and operational excellence, primarily serving large corporations in North America, Europe, Asia and Australia. Mercer Management consultants help clients anticipate and realize future sources of value growth based on insights into rapidly changing customer priorities, economics and markets.

Mercer Oliver Wyman consultants provide strategy and risk management consulting, primarily to clients in the financial services sector. Mercer Oliver Wyman also provides actuarial consulting services to insurance companies, government entities and other organizations. Mercer Oliver Wyman has more than 800 colleagues throughout North America, Europe and the Asia Pacific region.

Lippincott Mercer consultants advise leading corporations around the world on corporate branding, identity and image, and have helped create some of the world's most recognized brands.

Mercer Delta Organizational Consulting consists of over 200 colleagues working from offices in North America and Western Europe. Mercer Delta's primary clients are CEOs, senior executives and boards of directors of major global corporations, government agencies and private institutions. Mercer Delta provides advisory services related to organization change, leadership development, strategic communications, organization research and corporate governance. Specific issues on which we have consulted include CEO succession, board and senior leadership effectiveness, organizational design and culture, and change management.

National Economic Research Associates, or NERA, is a team of more than 500 colleagues operating worldwide. NERA consultants provide independent research and analysis to achieve practical solutions to highly complex business and legal issues relating to competition, regulation, public policy, strategy, finance and litigation. NERA's clients include corporations, governments, law firms, regulatory agencies, trade associations, and international agencies. Practice areas include the communications industry, where NERA has been involved in nearly every spectrum auction on behalf of the sponsor or a bidder, and transfer pricing, in which NERA professionals advise multinational

corporations on the pricing of goods, services and intangible properties that move across different operating units or geographical boundaries.

Compensation for Services

The major component of Mercer's revenue, in both Mercer Human Resource Consulting and the Mercer Specialty Consulting Businesses, is fees paid by clients for advice and services. Mercer Human Resource Consulting, principally through its Health & Benefits line of business, also earns significant revenue in the form of commissions from insurance companies for the placement of group (and occasionally individual) insurance contracts. Revenue for Mercer Global Investment's discretionary investment management business and certain of Mercer HR Services & Investment's defined contribution administration services consists principally of fees based on assets under management. For a more detailed discussion of revenue sources and factors affecting revenue in the Consulting segment, see Item 7 (Management's Discussion and Analysis of Financial Condition and Results of Operations) of this report.

Investment Management

MMC conducts business in its Investment Management segment through **Putnam Investments Trust** and its subsidiaries. Investment Management generated 13% of total operating segments revenue in 2005 and employs approximately 3,000 colleagues. Primarily through its office in Boston, Massachusetts, Putnam provides investment management and related services through a broad range of investment products, including its own family of mutual funds, which are offered to individual and institutional investors. Putnam has been engaged in the investment management business since 1937 and is one of the largest mutual fund managers in the United States. In addition to its Boston headquarters, Putnam has offices in London and Tokyo.

Investment Management Services

Putnam provides investment management and related services through a broad range of investment products that are offered directly or through intermediaries to both individual and institutional investors. Products that Putnam sponsors for individual retail investors include a family of open-end and closed-end mutual funds (the Putnam Funds), college savings plans, annuity products and offshore products. Putnam also provides investment management services on a separately managed or commingled basis to individuals, corporate profit-sharing and pension funds, state and other governmental and public employee retirement funds, university endowment funds, charitable foundations, collective investment vehicles (both U.S. and non-U.S.) and other domestic and foreign institutional accounts. Putnam also provides investment management services in the capacity of sub-advisor for investment products sponsored or co-sponsored by other institutions.

Putnam manages its mutual funds, institutional client accounts and other portfolios in order to meet varying investment objectives, and to afford investors in the Putnam Funds and other clients the opportunity to allocate their investments among various investment products as their changing needs and worldwide economic and market conditions warrant. The investment process used by Putnam in managing its assets is based upon both fundamental and quantitative research. Fundamental research includes valuation analysis, economic, political, industry and company research, company visits, and the utilization of such sources as company public records and activities, management interviews, company-prepared information, and other publicly available information, as well as analyses of suppliers, customers and competitors. Quantitative analysis includes the analysis of past trends and the use of sophisticated financial modeling to gauge how particular securities may

perform. Putnam also incorporates a risk-management capability that analyzes securities across all the Putnam Funds and other portfolios to identify areas of over-concentration and potential risks.

Putnam's assets under management consisted of the following levels and composition at December 31, 2005 and 2004 (in \$ billions):

	<u>December 31, 2005</u>	<u>December 31, 2004</u>
Mutual Funds:

Markets for Putnam's Services and Products

Retail. Putnam generally markets its investment products for individual investors to intermediaries such as broker-dealers, financial planners, and registered investment advisers, who use them to meet the investment needs and objectives of their clients' overall investment programs. These products consist of:

the Putnam Funds;

insurance products, such as variable annuities and variable life insurance policies, that use mutual funds as the underlying funding vehicles; and

separately managed accounts and other platforms sponsored by broker-dealers, financial planners and registered investment advisers.

The Putnam Funds are publicly-held investment companies registered under the Investment Company Act of 1940. These retail mutual funds cover a broad range of domestic and international equity, fixed-income, blended and money market investment portfolios. As of December 31, 2005, the Putnam Funds included 96 open-end investment companies

(mutual funds), which are available for investments and withdrawals on most business days; and 12 closed-end funds, which are not available for investments or withdrawals but the shares of which are traded on various major domestic stock exchanges.

Institutional. Putnam provides investment management services and products to institutional customers, consisting of defined benefit and defined contribution retirement plans sponsored by corporations, state, municipal and other governmental authorities, retirement plans sponsored by unions under the Taft-Hartley Act, endowments, foundations and other institutional customers. Putnam provides its products and services to defined contribution plans in various ways, including through financial intermediaries, on a bundled basis in conjunction with its affiliate Mercer Human Resources Services, or on an investment only basis typically for larger plans. In the employee benefit plan market, investment options

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

are usually selected by the plan sponsors and may include Putnam mutual funds and other Putnam-managed products, as well as employer stock and other investments that are not managed by Putnam. In addition, Putnam offers its investment services directly to employee benefit plans, endowments, foundations and other institutional investors, either as separate accounts or in the form of collective trusts and other pooled vehicles that are made available solely to institutional investors.

International. Putnam provides investment management products and services in a number of international markets, including Europe, Japan, Australia, Canada and several other countries. Putnam markets its products and services to both retail and institutional clients in most of these countries, through direct sales and marketing activities, joint ventures and independent distributors.

Private Equity. Putnam offers private equity and alternative investment funds to institutional and high-net-worth individual investors in conjunction with Thomas H. Lee Partners, L.P., or THL, a private equity firm. Putnam has a joint venture arrangement with THL and THL's partners in connection with which it owns a minority interest in THL for purposes of participating in THL's traditional business of managing private equity and leveraged buyout funds. Putnam and certain of its employees also are investors in certain of these private equity and other funds.

Related Financial and Administrative Services

In support of Putnam's primary investment management business, Putnam subsidiaries provide other related services, including transfer agency, underwriting, distribution, shareholder services, custodial, trustee and other fiduciary services. PFTC, a Massachusetts trust company, serves as transfer agent, dividend disbursing agent, registrar and custodian for the Putnam Funds and provides custody services to certain commingled and other accounts. Through December 31, 2004, PFTC also provided administrative and trustee/custodial services for certain qualified and non-qualified defined contribution plans and employee stock purchase plans. Effective January 1, 2005, this defined contribution plan servicing business was consolidated with the defined benefit plan and human resource administration business of Mercer Human Resource Consulting and is now part of the Mercer HR Services & Investments line of business. Putnam Retail Management Limited Partnership, or PRM, a Putnam subsidiary and a registered broker-dealer and member of the National Association of Securities Dealers, or NASD, acts as principal underwriter of the shares of the open-end Putnam Funds, selling primarily through independent broker-dealers, financial planners and financial institutions, including banks, and directly to certain large 401(k) plans and other institutional accounts.

Compensation for Services

Putnam's revenue is derived primarily from investment management and 12b-1 fees received from the Putnam Funds and investment management fees for institutional accounts. Putnam also receives fees from the Putnam Funds for administrative services performed by PFTC. For a more

11

detailed discussion of revenue sources and factors affecting revenue in our Investment Management segment, see Item 7 (Management's Discussion and Analysis of Financial Condition and Results of Operations) of this report.

Regulation

MMC's activities are subject to licensing requirements and extensive regulation under United States federal and state laws, as well as laws of other countries in which MMC's subsidiaries operate. See Item 1A (Risk Factors) below for a discussion of how actions by regulatory authorities or changes in legislation and regulation in the jurisdictions in which we operate may have an adverse effect on our businesses.

Risk and Insurance Services. While laws and regulations vary from location to location, every state of the United States and most foreign jurisdictions require insurance market intermediaries and related service providers (such as insurance brokers, agents and consultants, reinsurance brokers, managing general agents and third party administrators) to hold an individual and/or company license from a governmental agency or self-regulatory organization. Some jurisdictions issue licenses only to individual residents or locally-owned business entities; in this case, if MMC has no licensed subsidiary, we may maintain arrangements with residents or business entities licensed to act in such jurisdiction.

Beginning in January 2005, all European Union member states were required to implement the Insurance Mediation Directive. This Directive aims to apply consistent minimum professional standards to insurance intermediaries, including a licensing system based on an assessment of factors such as professional competence, financial capacity and professional indemnity insurance. As member states of the European Union adopt regulations to comply with the Directive, our insurance intermediary operations in the European Union have become or will become subject to enhanced regulatory requirements. In January 2005, as part of the implementation of the Directive in the United Kingdom, the power

and responsibilities of the Financial Services Authority, or FSA, were expanded to include regulation of insurance and reinsurance intermediaries in the United Kingdom.

Insurance authorities in the United States and certain other jurisdictions in which MMC's subsidiaries do business, including the FSA in the United Kingdom, also have enacted laws and regulations governing the investment of funds, such as premiums and claims proceeds, held in a fiduciary capacity for others. These laws and regulations typically provide for segregation of these fiduciary funds and limit the types of investments that may be made with them.

Certain of MMC's risk and insurance services activities are governed by other regulatory bodies, such as investment, securities and futures licensing authorities. In the United States, Marsh and Guy Carpenter use the services of MMC Securities Corp., an NASD-registered broker dealer and an indirect, wholly-owned subsidiary of MMC, primarily in connection with investment banking-related services and advising on alternative risk financing transactions. In the European Union, these businesses receive securities transfer services from another MMC subsidiary, Marsh Advance Risk Solutions Ltd., which is regulated by the FSA for the conduct of investment business in the United Kingdom.

In some jurisdictions, insurance-related taxes may be due either from clients directly or from the insurance broker. In the latter case, the broker customarily looks to the client for payment.

Risk Consulting and Technology. Certain of Kroll's risk consulting and investigative activities are licensed and regulated at the federal, state and local level in the United States and abroad. Many of these activities also involve the use of data from outside sources, including third party vendors and governmental records. As a result, changes in existing, or the implementation of new, laws and

12

regulations, particularly relating to privacy, could interfere with Kroll's historical access to and use of such data. Substance abuse testing laboratories operated by a Kroll subsidiary are certified on the federal level and licensed in a number of states.

Consulting. Certain of Mercer's retirement-related consulting services are subject to pension law and financial regulation in many countries, including by the Securities and Exchange Commission, or SEC, in the United States and the FSA in the United Kingdom. In addition, the trustee services, investment services (including advice to individuals on the investment of personal pension assets and assumption of discretionary investment management responsibilities) and retirement and employee benefit program administrative services provided by Mercer Human Resource Consulting and its subsidiaries and affiliates are subject to investment and securities regulations in various jurisdictions. The benefits insurance consulting and brokerage services provided by Mercer Human Resource Consulting and its subsidiaries and affiliates are subject to the same licensing requirements and regulatory oversight as the insurance market intermediaries described above regarding our Risk and Insurance Services businesses. In the United States, Mercer Human Resource Consulting and Mercer Management Consulting use the services of MMC Securities Corp. primarily in connection with retirement and employee benefit plans, and investment banking services, respectively.

Investment Management. Virtually all aspects of Putnam's investment management business are subject to extensive regulation and supervision by various federal, state, and foreign regulatory authorities. Putnam's activities are subject to regulation by the SEC and other federal, state and self-regulatory authorities in the United States, by the FSA in the United Kingdom, by the Financial Services Agency in Japan, and by the respective national securities regulatory authorities in certain other countries in which it does business. The Investment Advisers Act of 1940 (the Advisers Act) imposes numerous obligations on certain of Putnam's subsidiaries which are registered in the United States as investment advisers, including record-keeping, operating and marketing requirements, disclosure obligations and prohibitions on fraudulent activities. The Investment Company Act of 1940 (the 1940 Act) imposes similar obligations on the investment companies that are advised by Putnam. The SEC is authorized to institute proceedings and impose sanctions for violations of the Advisers Act and the 1940 Act, ranging from fines and censure to termination of an investment adviser's registration. Investment advisers, such as Putnam, with mutual fund and institutional clients are subject to extensive new SEC regulations, and may become subject to additional SEC regulations in the future, which might entail substantial new administrative obligations and associated costs and compliance risks for Putnam.

Competitive Conditions

MMC faces strong competition in all of its business segments from providers of similar products and services. MMC also encounters strong competition throughout its businesses from both public corporations and private firms in attracting and retaining qualified employees.

Risk and Insurance Services. MMC's combined insurance and reinsurance broking services business is the world's largest of its kind. The principal bases upon which our insurance and reinsurance businesses compete include the range, quality and cost of the services and products provided to clients. MMC encounters strong competition in the risk and insurance services business from other insurance and reinsurance

brokerage firms that operate on a nationwide or worldwide basis, from a large number of regional and local firms in the United States, the European Union and elsewhere, from insurance and reinsurance companies that market and service their insurance products without the assistance of brokers or agents and from other businesses, including

commercial and investment banks, accounting firms and consultants, that provide risk-related services and products.

Certain insureds and groups of insureds have established programs of self insurance (including captive insurance companies) as a supplement or alternative to third-party insurance, thereby reducing in some cases their need for insurance placements. There are also many other providers of affinity group and private client services, including specialized firms, insurance companies and other institutions.

In 2005, Marsh and Guy Carpenter's competitive positions were adversely affected, and may continue to be adversely affected in the future, by the impact of legal and regulatory proceedings brought by regulators and law enforcement authorities, and related publicity, concerning their insurance and reinsurance brokerage operations. These proceedings and the settlement thereof are discussed in more detail in note 16 to the consolidated financial statements included under Item 8 of this report. Please also read our discussion of the risks associated with these proceedings and their impact under Item 1A (Risk Factors) below.

Risk Consulting and Technology. In risk consulting and technology, we face competition from local, regional, national and international firms that provide similar services in the fields of accounting, corporate advisory and restructuring services, investigative and security services, consulting and technology services. Kroll's Consulting Services Group faces competition from local, regional, national and international accounting firms and forensic accounting, litigation support, investigative and other specialist and consulting firms. Kroll's Corporate Advisory & Restructuring Group faces competition from national and international accounting firms and specialist recovery firms. Kroll's Security Group faces competition from international and local security firms, government security contractors, and architectural engineering firms. Kroll's Technology Services Group faces competition from small, independent service providers and technology companies.

Consulting. MMC's consulting and HR outsourcing businesses face strong competition from other privately and publicly held worldwide and national companies, as well as regional and local firms. These businesses compete generally on the basis of the range, quality and cost of the services and products provided to clients. Competitors include independent consulting and outsourcing firms, as well as consulting and outsourcing operations affiliated with accounting, information systems, technology and financial services firms. The employee benefit plan administrative and trustee business of PFTC that was recently combined with Mercer's HR outsourcing business was adversely affected in 2004 and 2005 by the market-timing related issues and other events that gave rise to the administrative proceedings brought by the SEC and the Massachusetts Secretary of the Commonwealth in the fourth quarter of 2003. These events may continue to adversely affect the combined HR outsourcing businesses in the future. See our discussion of the risks associated with these proceedings and their impact under Item 1A (Risk Factors) below.

Mercer's investment service business faces competition from many sources, including multi-manager services offered by other investment consulting firms and financial institutions. Mercer's recently established multi-manager business, in particular, faces significant competition from better-established rivals with greater experience in that market. For many of the services provided by Mercer, clients also have the option of handling these issues internally without assistance from outside advisors.

Investment Management. Putnam's investment management business is highly competitive. Putnam competes with other providers of investment products and services primarily on the basis of the range of investment products offered, investment performance, distribution, scope and quality of shareholder and other services, and general reputation in the marketplace. Sales of Putnam Fund

shares are also influenced by general securities market conditions, government regulations, global economic conditions and advertising and sales promotional efforts. Putnam competes with other mutual fund firms and institutional asset managers that offer investment products similar to Putnam's as well as products which Putnam does not offer, including passively managed funds such as index funds. Putnam also experiences competition from a number of mutual fund sponsors that offer their funds to the general public without sales charges, which Putnam does not do.

In addition to competition from firms already in the investment management business, including public and private firms, commercial banks, stock brokerage and investment banking firms and insurance companies, Putnam experiences competition from other firms offering financial services and other investment alternatives. Although Putnam has expanded its marketing and distribution outside the United States, it competes in non-U.S. markets with local and global firms, many of which have much larger investment management businesses than Putnam in their respective non-U.S. markets. Putnam's competitive position continued to be adversely affected in 2005, and may continue to be adversely affected in the future, by the underperformance in prior years of certain Putnam Funds relative to competing products in the mutual fund marketplace.

Many securities dealers, whose large retail distribution systems play an important role in the sale of shares in the Putnam Funds, also sponsor competing proprietary mutual funds. To the extent that such securities dealers value the ability to offer customers a broad selection of investment alternatives, they will continue to sell independent funds, such as Putnam's, notwithstanding the availability of proprietary products. However, to the extent that these firms limit or restrict the sale of Putnam Fund shares through their brokerage systems in favor of their proprietary mutual funds, Putnam's assets under management, and thus Putnam's revenues, might decline.

In 2004 and 2005, Putnam's competitive position was adversely affected, and may continue to be adversely affected in the future, by the market-timing related issues and other events that gave rise to the administrative proceedings brought by the SEC and the Massachusetts state authorities in the fourth quarter of 2003. These proceedings and the settlement thereof are discussed in more detail in note 16 to the consolidated financial statements included under Item 8 of this report. Please also read our discussion of the risks associated with these proceedings and their impact below under Item 1A (Risk Factors).

Segmentation of Activity by Type of Service and Geographic Area of Operation.

Financial information relating to the types of services provided by MMC and the geographic areas of its operations is incorporated herein by reference to note 17 to the consolidated financial statements included under Item 8 of this report.

Employees

As of February 1, 2006, MMC and its consolidated subsidiaries employed about 55,000 people worldwide, including approximately 29,000 in risk and insurance services, approximately 3,500 in risk consulting and technology, approximately 18,900 in consulting and approximately 3,000 in investment management. Approximately 600 individuals are employed by MMC at the parent-company level.

EXECUTIVE OFFICERS OF MMC

The executive officers of MMC are elected annually. As of February 28, 2006, the following individuals were executive officers of MMC or were chosen to become executive officers of MMC:

Michael A. Beber, age 46, is senior vice president and chief strategic development officer of MMC, a position he has held since January 2005. From February 1999 through January 2005, Mr. Beber was executive vice president for strategic development of Kroll Inc. From July 2004 through January 2005 he was also president of Kroll's Background Screening Group. From August 1991 to January 1999, Mr. Beber was a principal with Kroll Lindquist Avey, which Kroll acquired in June 1998. Prior to joining Lindquist Avey, Mr. Beber was a partner with BDO LLP, a senior manager with KPMG Peat Marwick, and a senior accountant with PriceWaterhouse.

Peter J. Beshar, age 44, is executive vice president and general counsel of MMC. Before joining MMC in November 2004, Mr. Beshar was a litigation partner in the law firm of Gibson, Dunn & Crutcher LLP. Mr. Beshar joined Gibson, Dunn & Crutcher in 1995 after serving as an Assistant Attorney General in the New York Attorney General's office.

M. Michele Burns, age 48, joined MMC as executive vice president on March 1, 2006. She will also assume the position of chief financial officer of MMC by March 31, 2006. Prior to joining MMC, Ms. Burns was executive vice president and chief financial officer since May 2004, and chief restructuring officer since August 2004, of Mirant Corporation, an energy company. Prior to joining Mirant, she was executive vice president and chief financial officer of Delta Air Lines, Inc. from August 2000 to April 2004. She held various other positions in the finance and tax departments of Delta beginning in January 1999. Delta filed for protection under Chapter 11 of the United States Bankruptcy Code in September 2005.

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

Mathis Cabiallavetta, age 61, is vice chairman, office of the CEO of MMC, chairman of MMC International and a member of MMC's International Advisory Board. He is chairman of Marsh AG, Switzerland and a member of the board of directors of Kessler & Co, Switzerland. Prior to joining MMC in 1999, Mr. Cabiallavetta was chairman of the board of UBS A.G., a company he joined in 1971.

E. Michael Caulfield, age 59, is president of Mercer Human Resource Consulting, a position he assumed in September 2005. Mr. Caulfield joined Mercer as chief operating officer in July 2005. He was a director of UnumProvident Corporation from August 2004 through July 2005. Mr. Caulfield retired as executive vice president of Financial Management at Prudential Insurance Company of America in 2000, a position he had held since 1998. He joined Prudential in 1989, serving in several executive positions there including as chief executive officer of Prudential Investments from 1995 to 1998. Prior to joining Prudential, Mr. Caulfield was a partner of Greenwich Associates, and held various executive positions at Mellon National Corp.

Michael G. Cherkasky, age 56, is president and chief executive officer of MMC, a position he has held since October 2004. He also served as chairman and chief executive officer of Marsh Inc. from October 2004 until September 2005. Before its business combination with MMC in July 2004, Mr. Cherkasky was president and chief executive officer of Kroll Inc. Mr. Cherkasky joined Kroll in 1994, becoming president and chief executive officer in 2001. Prior to joining Kroll, Mr. Cherkasky spent 16 years in the criminal justice system, including serving as chief of the Investigations Division for the New York County District Attorney's Office.

Simon Freakley, age 44, is president and chief executive officer of Kroll Inc., a position he has held since October 2004. Mr. Freakley was previously a director of Kroll Inc. since June 2003 and head of Kroll's Consulting Group since April 2004. He was president of Kroll's Corporate Advisory & Restructuring Group from September 2002 until its consolidation with Kroll's Consulting

16

Services Group in April 2004. From 1996 until his appointment as Kroll's CEO, Mr. Freakley was also managing partner of Kroll Ltd. (previously Kroll Buchler Phillips and Buchler Phillips), Kroll's U.K.-based corporate advisory and restructuring subsidiary. Mr. Freakley joined Buchler Phillips in 1992, and in 1999, the firm was acquired by Kroll.

E. Scott Gilbert, age 50, is senior vice president and chief compliance officer of MMC. Prior to joining MMC in January 2005, he was the chief compliance counsel of the General Electric Company since September 2004. Prior thereto, he was counsel, litigation and legal policy at GE. Between 1986 and 1992, when he joined GE, he served as an Assistant United States Attorney for the Southern District of New York.

Charles E. Haldeman Jr., age 57, is president and chief executive officer of Putnam Investments. Mr. Haldeman joined Putnam in October 2002 as senior managing director and co-head of Investments. He was named president and chief executive officer in November 2003. Before joining Putnam, Mr. Haldeman was president and chief executive officer of Delaware Investments from 2000 to 2002, president and chief operating officer of United Asset Management Corporation from 1998 to 2000, and a partner and director of Cooke & Bieler, Inc. from 1974 to 1998.

David J. Morrison, age 58, is president and chief executive officer of Mercer Management Consulting (Mercer MC), in which position he oversees the operations of all of the Mercer Specialty Consulting businesses. He has been a co-president of Mercer, Inc. since February 2005, and a member of the Mercer, Inc. board of directors since January 2000. Prior to assuming his current position with Mercer MC in November 2002, he was vice chairman of Mercer MC since January 2000. From July 1998 to December 1999 he served as head of Mercer MC's Strategic Capabilities Group. Mr. Morrison joined Mercer MC as vice president in December 1997 when Mercer acquired Corporate Decisions, Inc., of which he was the president and a significant shareholder.

Michael A. Petrullo, age 37, is senior vice president and chief administrative officer of MMC. After MMC's acquisition of Kroll in July 2004, Mr. Petrullo became chief financial officer for the risk consulting businesses of Marsh and Kroll until assuming his current position with MMC in January 2005. Mr. Petrullo was chief operating officer and executive vice president of Kroll Inc. from December 2002 to July 2004. Prior thereto, he was deputy chief operating officer of Kroll from June through December of 2002, the acting chief financial officer of Kroll from November 2001 to June 2002, and vice president and controller of Kroll from August 2001 to November 2001. He was vice president finance of Kroll's Investigations and Intelligence Group from February 1999 until August 2001. He joined Kroll Associates in 1995, serving as assistant controller through February 1998.

John T. Sinnott, age 66, is vice chairman, office of the CEO of MMC. He has held this position since July 1, 2005, when he re-joined MMC after a period of retirement. Mr. Sinnott was also a director of Marsh Inc. from June 2005 through December 2005. Mr. Sinnott was chairman and chief executive officer of Marsh Inc. from 1999 to December 2002 and chairman of Marsh until his retirement in July 2003. He also was a member of the MMC board of directors from 1992 through May 2003. Mr. Sinnott joined MMC's predecessor company, Marsh & McLennan, Incorporated, in 1963, and held various executive positions with the Company including vice chairman and CEO of J&H Marsh & McLennan,

Inc. and president and chief executive office of Marsh & McLennan, Incorporated.

Brian M. Storms, age 51, is chairman and chief executive officer of Marsh Inc. Prior to assuming his current position in September 2005, Mr. Storms was president and chief executive officer of Mercer Human Resource Consulting, which he joined in August of 2004 as vice chairman. Prior to joining Mercer, he served as president since 2001 and then as chief executive officer since July 2002 of UBS Global Asset Management, Americas. Prior thereto, he was president of Mitchell Hutchins,

17

the asset management subsidiary of Paine Webber, from 1999 until UBS AG's acquisition of Paine Webber Group Inc. in November 2000. From 1996 through 1999 Mr. Storms was president of Prudential Investments.

Sandra S. Wijnberg, age 49, is senior vice president and chief financial officer of MMC, a position she has held since joining MMC in January 2000. From 1997 through 1999, Ms. Wijnberg was senior vice president and treasurer of Yum! Brands, Inc. (formerly Tricon Global Restaurants, Inc.). Prior thereto, Ms. Wijnberg spent three years with PepsiCo, Inc., last serving as senior vice president and chief financial officer of its KFC Corporation division. As announced by MMC on August 22, 2005, Ms. Wijnberg will resign from MMC in March 2006.

Salvatore D. Zaffino, age 61, is chairman and chief executive officer of Guy Carpenter & Company, Inc. Prior to becoming chairman in 1999, Mr. Zaffino served as chairman and chief executive officer of Sedgwick Re North America from 1993 to 1998, when Sedgwick Group plc, its parent company, was acquired by MMC. From 1985 to 1993, he was chairman of Crump Re, an organization he founded and continued to manage until its merger with Sedgwick Re.

AVAILABLE INFORMATION

MMC is subject to the informational reporting requirements of the Securities Exchange Act of 1934. In accordance with the Exchange Act, MMC files annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K with the SEC. MMC makes these reports available free of charge through its website, www.mmc.com, as soon as reasonably practicable after they are filed with the SEC. The public may read and copy such materials at the SEC's Public Reference Room at 450 Fifth Street, NW, Washington, DC, 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains an Internet site that contains reports, proxy and information statements and other information regarding issuers that file electronically with the SEC, such as MMC; the address of that site is <http://www.sec.gov>.

MMC also posts on its website the following documents with respect to corporate governance:

Guidelines for Corporate Governance;

Code of Business Conduct and Ethics;

Procedures for addressing complaints and concerns of employees and others; and

the charters of the Audit Committee, Compensation Committee and Directors and Governance Committee of MMC's Board of Directors.

All of the above documents are available in printed form to any MMC stockholder upon request.

18

Item 1A. Risk Factors.

In addition to the other information in this report and our other filings with the SEC, the following risk factors should be carefully considered in evaluating MMC and its businesses. The risks and uncertainties described below are not the only ones facing MMC and its subsidiaries.

Additional risks and uncertainties, not presently known to us or otherwise, may also impair our business operations. If any of the risks described below or such other risks actually occur, our business, financial condition or results of operations could be materially and adversely affected.

Legal and regulatory proceedings by federal and state regulators and law enforcement authorities concerning MMC and certain of its subsidiaries, particularly our insurance and reinsurance brokerage operations, as well as class actions, derivative actions and individual suits brought by policyholders and shareholders, may have a material adverse effect on our business, financial condition and results of operations.

In October 2004, the Office of the New York State Attorney General (the NYAG) filed a civil complaint in New York State court against MMC and Marsh Inc. asserting claims under New York law for fraudulent business practices, antitrust violations, securities fraud, unjust enrichment, and common law fraud relating to Marsh's broker compensation arrangements, including in particular Marsh's compensation under market services agreements. Also in October 2004, the New York State Insurance Department (the NYSID) issued a citation ordering MMC and a number of its subsidiaries and affiliates that hold New York insurance licenses to appear at a hearing and show cause why regulatory action should not be taken against them. This citation, which also related to Marsh's broker compensation arrangements, charged the respondents with the use of fraudulent, coercive and dishonest practices; violations of the New York General Business Law relating to contracts or agreements for monopoly or in restraint of trade; and violations of the New York Insurance Law that resulted from unfair methods of competition and unfair or deceptive acts or practices. On January 30, 2005, MMC and Marsh entered into an agreement with the NYAG and the NYSID to settle the NYAG lawsuit and the NYSID citation (the Settlement Agreement). Pursuant to the Settlement Agreement, we agreed to establish a fund of \$850 million, payable over four years, for eligible policyholder clients. In 2004, we recorded a charge for the full amount of this fund and on June 1, 2005 we made our first payment into the fund, in the amount of \$255 million. Our next payment, also in the amount of \$255 million, is due on June 1, 2006. Approximately 70,000 eligible policyholders across the United States have elected to receive a distribution from the fund, and will receive approximately \$750 million of the \$850 million made available thereunder.

The Settlement Agreement does not resolve any investigation, proceeding or action commenced by the NYAG or the NYSID against any of our former or current employees. Since the filing of the NYAG lawsuit, ten former Marsh employees have pleaded guilty to criminal charges relating to the matters under investigation. On September 15, 2005, eight former Marsh employees (including one individual who has since pleaded guilty) were indicted on various counts relating to these same matters. The NYAG has indicated that its investigation of the insurance industry is continuing.

Notwithstanding the Settlement Agreement, numerous other lawsuits have been commenced against us, one or more of our subsidiaries, and our current and former directors and officers, relating to matters alleged in the NYAG lawsuit. Numerous putative class action suits purportedly brought on behalf of policyholders and our shareholders against us, certain of our subsidiaries and certain of our current and former officers and directors are pending in various federal and state courts and in Canada. Shareholder derivative suits have been filed in various jurisdictions. There are also several actions brought by individual policyholders and additional suits may be filed by other policyholders. The myriad claims asserted in these suits include alleged violations of federal

securities and antitrust laws, ERISA, RICO, and other statutory and common law claims, and seek significant damages. In addition, the State of Connecticut has commenced a lawsuit against Marsh challenging Marsh's conduct in connection with the placement of a loss portfolio transfer of workers' compensation claims for the State of Connecticut's Department of Administrative Services. Following the announcement of the NYAG lawsuit and the related actions taken by MMC, MMC's stock price dropped from approximately \$45 per share to a low of approximately \$22.75 per share.

In addition, following the filing of the NYAG lawsuit, MMC and certain of its subsidiaries received notices of investigations and inquiries, together with requests for documents and information, from attorneys general, departments of insurance and other governmental entities in a significant number of jurisdictions (other than New York) that relate to the allegations in the NYAG lawsuit. Offices of attorneys general in 22 jurisdictions have issued one or more requests for information or subpoenas calling for the production of documents or for witnesses to provide testimony. Subpoenas, letters of inquiry and other information requests have been received from departments of insurance or other state agencies in 38 jurisdictions. Given the number of pending investigations, there is a significant possibility that MMC or its subsidiaries could face administrative proceedings or other regulatory actions, fines or penalties, including, without limitation, actions to revoke or suspend insurance broking licenses. MMC also has been contacted by certain state attorneys general and commissioners of insurance indicating that they may seek additional monetary or other remedies from MMC.

An adverse outcome under any of the lawsuits and regulatory actions involving MMC and its subsidiaries could have a material adverse effect on our business, financial condition and results of operations. In addition, the lawsuits and regulatory actions could result in negative publicity, reputational damage and harm to our client and employee relationships. Any of these developments could negatively affect revenues in our

insurance and reinsurance brokerage and other businesses.

For further information about the above and other legal and regulatory matters involving MMC and its subsidiaries, see note 16 to our consolidated financial statements included under Item 8 of this report.

We may not be successful in implementing our new business model and restructuring plans.

Since 2004, MMC has made significant changes to its business model, including the elimination of contingent compensation, or market services, agreements with insurers. The elimination of market services revenue has negatively affected our financial results. We recognized market services revenue of \$124 million in 2005, relating to insurance placements made before October 1, 2004. This was a decrease of \$417 million from 2004, and we expect that market services revenue in 2006 will be lower than in 2005. MMC's new business model includes an initiative whereby Marsh seeks to increase revenue through higher commissions and fees that are disclosed to its clients. While we expect that this incremental revenue will affect MMC's results in 2006, Marsh's revenue initiative is subject to competitive challenges and has been progressing more slowly than anticipated. As a result, we cannot be sure of the timing or amount of the incremental revenue to be achieved.

In light of our new business environment, we have examined our cost structure to identify areas where expenses can be reduced. As a result of this examination, in the fourth quarter of 2004 we initiated a restructuring plan including, among other features, the reduction of headcount and the consolidation of facilities. In 2005 we began further restructuring initiatives in response to our business environment. As discussed more fully below under Item 7 (Management's Discussion and Analysis of Financial Condition and Results of Operations), we expect our 2004 and 2005 restructuring initiatives to result in annual cost savings of \$775 million. We cannot assure you,

20

however, that we will achieve this level of cost savings, in which case our restructuring efforts would not affect our profitability as positively as we expect.

We may not be able to collect our remaining accounts receivable for market services revenue earned before October 1, 2004.

Effective October 1, 2004, Marsh agreed to eliminate contingent compensation agreements with insurers. As of December 31, 2005, we had \$130 million of accounts receivable recorded in our financial statements related to market services revenue earned prior to October 1, 2004. While we intend to collect this outstanding market services revenue, we cannot assure you that we will be successful in collecting all amounts due. To the extent the accrued amounts are not collected, a charge to our earnings would result.

We may experience loss of key personnel and clients.

Across all of our businesses, we must preserve our capabilities to serve clients and the capacity to support staff development. Retention of our employees therefore is critical to us, and the loss of key managerial personnel or significant revenue producers could have a material adverse effect on our business and results of operations. Since late 2004 we have developed compensation programs to retain, motivate, and reward certain key employees, but we cannot be certain of our ability to retain our key employees or attract similar new employees in the future.

In addition, as a result of the recent legal and regulatory matters referred to above, we may lose important clients, or experience difficulty in generating new business, in our insurance brokerage or other businesses. In this event, our revenues and results of operations could be materially adversely affected.

Regulatory investigations and lawsuits arising from market-timing and other issues at Putnam may have a material adverse effect on our business, financial condition and results of operations.

In 2003 and 2004 Putnam entered into settlements with the SEC and the Commonwealth of Massachusetts (the Massachusetts Securities Division), with respect to excessive short-term trading by certain former Putnam employees in shares of the Putnam Funds. Also, in late 2003 and continuing through Spring 2005, Putnam received document subpoenas and/or requests for information from various other federal and state enforcement authorities inquiring into, among other things, the matters that were the subject of the proceedings by the SEC and the Massachusetts Securities Division.

Various offices of the SEC, the Massachusetts Securities Division and the Department of Labor are investigating Putnam with respect to, among other things, plan expense reimbursements with certain multi-employer deferred compensation plans that are Putnam clients, Putnam Research

Funds investment management fee, the ERISA aspects of certain investments by the Putnam Profit Sharing Retirement Plan and certain other ERISA issues, and issues relating to the notices accompanying certain closed-end distributions.

During the course of the SEC's investigation of certain matters that arose in the defined contribution plan administration business formerly conducted by PFTC, issues arose relating to the calculation of certain cost reimbursements paid in previous years by the Putnam Funds to Putnam for transfer agent services relating to defined contribution operations. These issues are being reviewed by Putnam and the trustees of the Putnam Funds and, pending the completion of this review, Putnam has recorded charges totaling \$37 million for the estimated cost that it believes will be necessary to address these issues. Putnam has briefed the SEC, the Federal Deposit Insurance Corporation and other governmental authorities on this matter.

In addition, MMC and Putnam have received complaints in over 70 civil actions based on allegations of market-timing and, in some cases, late trading activities. These actions were filed in courts in various states, with all actions filed in federal court now having been transferred to the United States District Court for the District of Maryland. Certain Putnam entities have also been sued in the United States District Court for the District of Massachusetts for alleged violations of the Investment Company Act of 1940 in connection with the receipt of purportedly excessive advisory and distribution fees paid by the mutual funds in which plaintiffs purportedly owned shares. Putnam is also a defendant in a lawsuit by a former institutional client alleging that Putnam breached its investment management agreement and did not make appropriate disclosures to the client at the time the investment management agreement was executed, and Putnam also is awaiting the conclusion of an arbitration process involving similar issues with another former institutional client.

An adverse outcome under, or reputational damage caused by, any of the legal and regulatory matters involving Putnam could have a material adverse effect on our business, financial condition and results of operations.

For further information about the above and other legal and regulatory matters involving MMC and its subsidiaries, see note 16 to our consolidated financial statements appearing under Item 8 of this report.

Putnam may not be able to maintain its investment management and administrative fee revenues at current levels.

Putnam's revenue is derived primarily from investment management and 12b-1 fees received from the Putnam Funds and investment management fees received from institutional clients. Investment management revenues depend largely on the total value and composition of assets under management. Among the particular factors affecting assets under management are the levels of investments and withdrawals by current and new mutual fund shareholders and institutional clients. In 2005, assets under Putnam's management were adversely affected, and may continue to be adversely affected in the future, by redemptions in response to the underperformance in prior years of certain Putnam Funds relative to competing products in the mutual fund marketplace, as well as by the market-timing and short-term trading issues referred to above. Continued declines in Putnam's assets under management would negatively affect results of operations in our investment management segment.

The advisory contracts pursuant to which Putnam receives fees for investment management services provided to the Putnam Funds continue in effect only so long as approved, at least annually, by the funds' shareholders or trustees, including a majority who are not affiliated with Putnam. Putnam's management and the fund trustees regularly review the fund fee structure in light of fund performance, the level and range of services provided, industry conditions and other relevant factors. Effective January 1, 2006, pursuant to discussions held with the trustees during the annual management contract review, Putnam reduced the management fees it receives with respect to nine of its 12 closed-end mutual funds. Further reductions in management fees payable under these contracts and/or the termination of one or more of these contracts could have a material adverse effect on results of operations in our investment management segment.

Also, as discussed under Item 7 (Management's Discussion and Analysis of Financial Condition and Results of Operations), most of the open-end Putnam Funds have adopted 12b-1 plans pursuant to which the mutual funds make payments to PRM to cover costs for various distribution and related services. Each of these 12b-1 plans, and payments made by the respective Putnam mutual funds thereunder, is subject to annual renewal by the fund's trustees and to termination by vote of the fund's shareholders or by vote of a majority of the fund trustees who are not affiliated with

Putnam. Actions by the trustees to reduce the level of 12b-1 fees paid by a fund or to make other changes that would reduce the amount of 12b-1 fees received by Putnam, or the failure of the trustees to approve continuation of the 12b-1 plans for Class B (deferred sales charge) shares, would have a material adverse effect on the results of operations in our investment management segment.

We are subject to significant uninsured exposures arising from errors and omissions claims.

MMC's operating companies provide numerous services for clients around the world. For example, Marsh advises on and places insurance coverage, and sometimes provides related services such as risk management advice and claims management and collections. Guy Carpenter performs similar services in its role as a reinsurance broker. Mercer renders a variety of consulting and investment management services. As a result of these and other activities, MMC operating companies are potentially subject to errors and omissions, or E&O, claims by clients and third parties who may allege that they were damaged as a result of MMC's failure to perform its duties as expected. MMC works hard to minimize its potential E&O exposures by, among other things, prevention and remediation efforts and employee education/training, but it is not possible to prevent E&O exposures completely. When E&O claims do arise, claimants often seek monetary damages. In the case of Marsh and Guy Carpenter, claimants may allege losses representing the value of insurance or reinsurance coverage lost due to broker negligence. In the case of Mercer, claimants may allege losses due to negligent investment or consulting advice.

E&O claims in any given case can be significant and may subject MMC, in addition to potential liability for monetary damages, to reputational harm and diversion of personnel and management resources. Since 2001, the worldwide market for professional liability insurance for E&O claims in the financial services industry has contracted significantly, which has caused MMC to assume increasing levels of self-insurance for its potential E&O exposures. MMC uses internal actuarial and other estimates, and case-level reviews by inside and outside counsel, to establish loss reserves which it believes are adequate to provide for this self-insured retention. These reserves are reviewed quarterly and adjusted as developments warrant. Nevertheless, given the unpredictability of E&O claims and of litigation which could flow from them, it is possible that an adverse outcome in a particular matter could have a material adverse effect on MMC's results of operations or financial condition in a given quarterly or annual period. For further information about our E&O exposure and related insurance coverage, including self-insurance, see note 16 to our consolidated financial statements appearing under Item 8 of this report.

Declines in premium rate levels in the insurance and reinsurance markets could adversely affect our Risk and Insurance Services segment revenues.

We derive most of our revenues in the risk and insurance services segment, which comprised 47% of our 2005 operating segments revenue, from fees paid by clients and commissions paid out of premiums charged by insurance and reinsurance companies. This compensation is frequently based on premiums paid by insureds, which we do not determine and which vary widely based on market conditions, which may differ by market cycles, by location and by type of coverage. Factors that may cause market premium levels to decline include expanded underwriting capacity of insurance carriers, increased competition among insurance carriers and consolidation in the insurance markets. Declines in premium levels generally or in any particular insurance market would adversely affect revenues derived from our insurance and reinsurance broking activities.

We operate in a highly competitive environment.

We generally face strong competition across all of our business segments from providers of similar products and services. In particular, we have encountered competitive pressures in our Risk

and Insurance Services segment as a result of the recent legal and regulatory matters referred to above. In our investment management segment, Putnam's competitive position has been adversely affected, and may continue to be adversely affected in the future, by the underperformance in prior years of certain Putnam funds relative to competing products in the mutual fund marketplace. Mercer's consulting and administration businesses face increasing competitive pressures, due in part to an increasing focus by regulators, clients and others on potential conflicts of interest.

Our cost of financing has been negatively affected by our recent legal and regulatory issues and credit rating downgrades since October 2004.

We may need to raise additional financing in the future in order to fund maturing debt obligations and, possibly, to fund acquisitions or other growth in our business. Largely as a result of the legal and regulatory matters referred to above, our cost of financing has been, and may

continue to be, negatively affected.

Following the filing of the NYAG lawsuit in October 2004, uncertainty regarding changes in our business model, the impact of eliminating contingent compensation agreements and potential fines and/or penalties resulted in credit rating downgrades by Moody's and Standard & Poor's. Further credit rating downgrades could negatively affect our access to and cost of financing sources.

We are exposed to various risks associated with the global nature of our operations.

We have significant worldwide operations, which subjects us to associated legal, economic, operational and market risks. These risks include, among others:

the economic and political conditions in foreign countries;

the imposition of local investment or other restrictions by foreign governments;

the imposition of controls or limitations on the conversion of foreign currencies or remittance of dividends and other payments from foreign subsidiaries;

the imposition of withholding and other taxes on remittances and other payments from subsidiaries;

difficulties in monitoring employees in geographically dispersed locations; and

costs and difficulties in complying with a wide variety of foreign laws.

Some of our brokerage subsidiaries in foreign countries receive revenue that differs from their functional currencies. Also, we generally must translate the financial results of our foreign subsidiaries into U.S. dollars. Although we periodically use derivative financial instruments to help protect against adverse effects due to exchange rate fluctuations, we cannot eliminate these risks, and significant changes in exchange rates may have an adverse effect on our financial results.

Actions by regulatory authorities or changes in legislation and regulation in the jurisdictions in which we operate may have an adverse effect on our business.

Our activities are subject to licensing requirements and extensive regulation under the laws of the United States and its various states, the European Union and the laws of the many other countries in which our subsidiaries operate. Our four business segments depend on the validity of, and continued good standing under, the licenses and approvals pursuant to which they operate, as well as compliance with applicable regulations.

In all jurisdictions, applicable laws and regulations are subject to amendment or interpretation by regulatory authorities. Generally, such authorities are vested with relatively broad discretion to grant, renew and revoke licenses and approvals, and to implement regulations. Licenses may be denied or

revoked for various reasons, including the violation of such regulations, conviction of crimes and similar matters. Possible sanctions that may be imposed include the suspension of individual employees, limitations on engaging in a particular business for specified periods of time, revocation of licenses, censures, redress to clients and fines. In some instances, we follow practices based on our interpretations, or those generally followed by the industry, of laws or regulations, which may prove to be different from those of regulatory authorities. Accordingly, the possibility exists that we may be precluded or temporarily suspended from carrying on some or all of our activities or otherwise fined or penalized in a given jurisdiction.

We cannot assure you that our risk and insurance services, risk consulting and technology, investment management or consulting activities will continue to be conducted in any given jurisdiction as they have been in the past. Any significant impairment of our ability to conduct our

business as we historically have done could have a material adverse effect on our business, financial condition or results of operations. For further information about regulatory conditions affecting our business segments, see Item 1 (Business).

We may not be able to successfully integrate the businesses that we acquire.

We have a history of numerous acquisitions, including our \$1.9 billion acquisition of Kroll in July 2004 and nine acquisitions in 2005 for total consideration of \$68 million, and we expect that acquisitions will continue to be a part of our growth strategy. Acquired businesses may not achieve the levels of revenue, profit or productivity we anticipate or otherwise perform as we expect. Acquisitions involve special risks, including the potential assumption of unanticipated liabilities and contingencies and difficulties in integrating acquired businesses. While we intend that our acquisitions will improve our competitiveness and profitability, we cannot assure you that our past or future acquisitions will be accretive to earnings or otherwise meet our operational or strategic expectations.

Item 1B. Unresolved Staff Comments.

There are no unresolved comments to be reported pursuant to Item 1B.

Item 2. Properties.

MMC and its subsidiaries have major office locations in and around New York, London and Boston. We also maintain other offices around the world.

MMC and certain of its subsidiaries, including Marsh USA Inc., Mercer Human Resource Consulting, Inc. and Mercer Management Consulting, Inc., own, directly and indirectly through special-purpose subsidiaries, a 69% condominium interest covering approximately 1,120,000 square feet in a 44-story building in midtown Manhattan in New York City, which serves as MMC's worldwide headquarters. In September 2005, MMC refinanced the existing \$200 million mortgage relating to this condominium interest with a new, \$475 million loan bearing interest at 5.7% and maturing in 2035. The new loan is non-recourse to MMC (except in the event of certain prohibited actions) and secured by a first mortgage lien on the condominium interests in 22 floors of the property and a first priority assignment of leases and rents. In the event of a default in the payment of the loan and certain credit rating downgrade events, MMC would be obligated to pay rent for the entire occupancy of the mortgaged property. MMC leases an additional 315,000 square feet of space in its headquarters building. MMC and its subsidiaries lease an additional 735,000 square feet in various locations around New York City in support of its operations, including a lease covering approximately 420,000 rentable square feet in a building in Hoboken, New Jersey.

The principal offices of the Marsh and Mercer subsidiaries in the United Kingdom currently are located in the City of London, comprising 354,000 square feet under a long term lease. Marsh

subsidiaries lease an additional 136,000 square feet of office space in and around London in support of their operations. The Mercer subsidiaries in and around London lease an additional 162,000 square feet of space. Mercer also leases 147,000 square feet in a new building in the City of London, of which it has subleased 95,000 square feet to third parties.

The principal executive offices of the Putnam subsidiaries comprise approximately 300,000 square feet of leased space located in the financial district of Boston, Massachusetts. Putnam also leases approximately 887,000 square feet (including 231,000 square feet transferred to Mercer HR Services on January 1, 2005) in various locations in the Boston area for investor services and other activities in support of its operations.

The remaining business activities of MMC and its subsidiaries are conducted principally in leased office space in cities throughout the world. In general, no difficulty is anticipated in negotiating renewals as leases expire or in finding other satisfactory space if the premises become unavailable. From time to time, MMC and its subsidiaries may have unused space and may seek to sublet such space to third parties, depending upon the demands for office space in the locations involved.

Item 3. Legal Proceedings.

Information regarding legal proceedings is set forth in note 16 to the consolidated financial statements appearing under Item 8 (Financial Statements and Other Supplementary Data) of this report.

Item 4. Submission of Matters to a Vote of Security Holders.

None.

PART II

Item 5. Market for MMC s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

For information regarding dividends paid and the number of holders of MMC s common stock, see the table entitled Selected Quarterly Financial Data and Supplemental Information (Unaudited) below on the last page of Item 8 (Financial Statements and Other Supplementary Data) of this report.

MMC s common stock is listed on the New York, Chicago, Pacific and London stock exchanges. The high and low stock prices (NYSE composite quotations) for our common stock for each quarterly period in 2005 and 2004 are as follows:

	2005 Stock Price Range		2004 Stock Price Range	
	High	Low	High	Low
First Quarter	\$34.25	27.00	\$49.69	45.67
Second Quarter	\$30.90	26.87	\$47.51	42.05
Third Quarter	\$30.50	26.67	\$46.66	42.10
Fourth Quarter	\$33.42	26.79	\$47.35	22.75
	\$34.25	26.67	\$49.69	22.75

On February 27, 2006 the closing price of MMC s common stock was \$30.81.

The following table sets forth information regarding MMC s purchases of its common stock on a monthly basis during the fourth quarter of 2005. Share repurchases are recorded on a trade date basis.

Issuer Repurchases of Equity Securities

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	(d) Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
October 1, 2005				
October 31, 2005	0		0	49,904,636

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	(d) Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
November 1, 2005				
November 30, 2005	0		0	49,904,636
December 1, 2005				
December 31, 2005	0		0	49,904,636
Total	0		0	49,904,636

- (1) On March 18, 1999, MMC's board of directors authorized the repurchase of up to 40 million shares of MMC's common stock, and on May 18, 2000 the board further authorized the repurchase of up to an additional 88 million shares. There is no expiration date specified under either of these authorizations. While MMC made no share repurchases in 2005, in previous years MMC has repurchased, and in the future may repurchase, shares of its common stock, in the open market or otherwise, for treasury and to meet requirements for the issuance of shares relating to MMC's various stock compensation and benefit programs. The timing and level of MMC's share repurchase activity may be affected by MMC's priorities relating to the use of its cash flows for a variety of purposes. These purposes may include, in addition to share repurchases, the funding of dividends, investments, pension contributions and debt reduction.

Item 6. Selected Financial Data.

Marsh & McLennan Companies, Inc. and Subsidiaries FIVE-YEAR STATISTICAL SUMMARY OF OPERATIONS

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

General

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

Marsh & McLennan Companies, Inc. and Subsidiaries (MMC) is a global professional services firm. MMC 's subsidiaries include Marsh Inc. (Marsh), the world 's leading risk and insurance services firm; Kroll Inc. (Kroll), the world 's leading risk consulting company; Mercer Inc. (Mercer), a major global provider of human resource and specialty consulting services; and Putnam Investments (Putnam), one of the largest investment management companies in the United States. MMC 's approximately 55,000 employees worldwide provide analysis, advice and transactional capabilities to clients in over 100 countries.

MMC operates in four principal business segments based on the services provided. Risk and Insurance Services includes risk management and insurance and reinsurance broking and services, provided primarily by Marsh and Guy Carpenter. Risk Consulting and Technology, conducted through Kroll, includes risk consulting and related investigative, intelligence, financial, security and technology services. Consulting, which comprises the activities of Mercer Human Resource Consulting and Mercer 's Specialty Consulting Businesses, includes human resource consulting and related services, and specialized management and economic consulting services. We conduct Investment Management through Putnam. A fuller description of our segments ' business activities is included in Part I, Item 1 of this report.

We describe the primary sources of revenue and categories of expense for each segment below, in our discussion of segment financial results. Management evaluates performance based on segment operating income, which is after deductions for directly related expenses, but not MMC corporate-level expenses. A reconciliation of segment operating income to total operating income is included in Note 17 to the consolidated financial statements included elsewhere in this report. The accounting policies used for each segment are the same as those used for the consolidated financial statements.

This MD&A contains forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995. See Information Concerning Forward-Looking Statements at the outset of this report.

Significant Developments in 2005

2005 was a year of transition for MMC. MMC 's historical financial information should be viewed in light of the significant developments discussed below.

New Business Model in Risk and Insurance Services

Since 2004, MMC has made significant changes to its business model. Our new business model has three main aspects: a commitment to make all fees and other remuneration earned by MMC for the placement of insurance coverage fully transparent to our clients in the U.S. and in major markets around the world; the elimination of contingent compensation or market services agreements with insurers; and an initiative to offset, to the extent possible, lost market services revenue by increasing brokerage commissions and fees.

29

During 2005, MMC made significant progress implementing the requirements of the settlement agreement with the Office of the New York State Attorney General (NYAG) and the New York State Insurance Department (NYSID). We developed and rolled-out compliance infrastructure and governance processes; developed and rolled-out transparency standards and related policies and procedures; trained employees in core and certain specialty business lines; and established compliance monitoring groups to measure compliance. While Marsh is the MMC subsidiary most directly affected by these settlement-related activities, Guy Carpenter and Mercer 's health and benefits practices are also affected.

MMC 's revenue in 2005 was impacted by a \$417 million decrease in market services revenue. In 2005, market services revenue of \$124 million, related to insurance placements made prior to October 1, 2004, was recognized in the financial statements. It is expected that market services revenue recognized in 2006 will be significantly lower than in 2005.

As discussed above, our new business model includes an initiative whereby Marsh seeks to increase revenue through higher commissions and fees that are disclosed to its clients. Management expects that this incremental revenue will affect MMC 's results in 2006. Given the relatively recent launch of Marsh 's compensation initiative and the competitive challenges we currently face in the insurance brokerage market, it is difficult to predict the specific timing and amount of this revenue impact.

In addition to the impact on revenue of the elimination of market services agreements (MSA), revenues in the risk and insurance services segment were affected by declining commercial insurance premium rates during most of 2005. Premium rate decreases began to abate in the fourth quarter of 2005 due to the initial effects of the major storms that hit the United States. A more significant impact on reinsurance premium rates as a result of the storms is expected in the first quarter of 2006.

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

At December 31, 2005, the balance of accounts receivable related to accrued market services revenue earned prior to October 1, 2004 was approximately \$130 million. MMC intends to collect outstanding MSA revenue earned prior to October 1, 2004, and is enforcing its contractual rights to collect amounts due. In December 2005, MMC initiated arbitration proceedings against certain insurance carriers for this purpose. However, there is no assurance that MMC will collect all amounts due. To the extent MMC does not collect accrued amounts, a charge to earnings would result.

As discussed in Note 16 to the consolidated financial statements, in connection with the January 2005 settlement agreement with the NYAG and NYSID, MMC established an \$850 million policyholder fund. Policyholders representing 88% of the value of the fund, or approximately \$750 million, opted to participate and have signed a release related to all matters alleged in the NYAG lawsuit and NYSID amended citation, except for claims which are based on, arise out of, or relate to the purchase or sale of MMC securities.

Also as discussed in Note 16 to the consolidated financial statements, on September 21, 2005, working with the National Association of Insurance Commissioners (the NAIC), MMC reached a multi-state regulatory settlement. The NAIC settlement agreement adopts the business reforms and the \$850 million fund for policyholder clients provided by MMC's previous settlement with the NYAG and NYSID. The NAIC agreement has been executed by MMC and Marsh, and as of February 17, 2006, has been adopted by insurance commissioners in 33 states and the District of Columbia and Guam.

30

Restructuring

In response to MMC's changed business environment, we initiated restructuring activities in the fourth quarter of 2004 and first quarter of 2005. The restructuring plans are described in more detail in Note 13 to the consolidated financial statements.

During 2005, net restructuring expenses were \$317 million, primarily related to the 2005 restructuring plan. These charges comprise severance and other termination benefits of \$196 million related to the elimination of approximately 2,600 employee positions, future rent under non-cancelable leases of \$116 million and other costs of \$41 million, partially offset by a \$36 million gain from the sale of certain small commercial accounts and other dispositions. In addition, in 2005 MMC incurred incremental expense related to the accelerated amortization of leasehold improvements of \$12 million. Additional charges of approximately \$50 million are expected to be incurred in 2006, largely in the first half of the year, as the remaining actions contemplated under the 2005 restructuring plan are completed.

Annual savings of \$375 million are expected when the 2005 plan is fully implemented. Results in 2005 reflect approximately \$160 million of savings realized from the 2005 plan, with the remaining savings of approximately \$215 million expected in 2006. All of the savings from the 2005 restructuring plan relate to the risk and insurance services segment. Results in 2005 also reflect savings of approximately \$400 million resulting from the 2004 restructuring plan.

Employee Retention Initiatives

In late 2004, and in 2005, MMC initiated a number of actions designed to retain and motivate employees throughout our businesses. Retention awards were granted, primarily in risk and insurance services and consulting, resulting in additional costs of \$115 million in 2005. In addition, stock option exchange programs were offered to employees who held deeply underwater MMC or Putnam options. The option exchange programs are discussed in more detail later in this MD&A. MMC also implemented new or expanded long-term incentive programs in several of its businesses.

Businesses Exited in 2005

In October 2005, Marsh completed the sale of Crump Group, Inc., its U.S.-based wholesale insurance broker. The gain on the sale of \$14 million, net of tax, was recognized in the fourth quarter. In December 2005 MMC agreed to sell its majority interest in Sedgwick CMS Holdings. The sale was completed on January 31, 2006, and we will recognize the associated gain on the sale in the first quarter of 2006. In the fourth quarter of 2005, MMC determined that the Crump and SCMS businesses met the criteria to be classified as discontinued operations. All previously reported financial information has been reclassified to conform with the current presentation. See Note 5 to the consolidated financial statements for further information regarding these dispositions.

In May 2005, MMC sold the assets of MMC Capital, which had been MMC's private equity management subsidiary, to Stone Point Capital LLC (Stone Point), an entity controlled by the former managers of MMC Capital for approximately \$3 million. At the time of the asset sale, Stone Point assumed responsibility for management of the Trident Funds and other private equity funds previously managed by MMC Capital. MMC does not participate in the investment decisions or management of Stone Point or the private equity funds managed by Stone Point. MMC,

through its subsidiary Risk Capital Holdings, continues to own investments in firms such as Ace Ltd., XL Capital Ltd. and Axis Capital Holdings, Ltd., as well as its investments in the Trident Funds and other funds managed by Stone Point, which have a total recorded value at December 31, 2005 of approximately \$397 million. MMC no longer receives management fees or origination fees related to Stone Point's asset management business, but may receive performance fees from Trident Funds II and III based on each fund's aggregate rate of return. MMC continues to receive dividends and to recognize capital

appreciation or depreciation on the investments held by Risk Capital Holdings and has approximately \$190 million of remaining capital commitments to funds managed by Stone Point.

Long-Term Financings

In December 2005, MMC and certain of its foreign subsidiaries entered into a new five-year \$1.2 billion multi-currency revolving credit facility. Subsidiary borrowings under the facility are unconditionally guaranteed by MMC. The new facility, which will expire in 2010, replaced MMC's \$1.0 billion and \$700 million revolving credit facilities which were scheduled to expire in 2007 and 2009, respectively. In December 2005, certain of MMC's foreign subsidiaries borrowed approximately \$510 million under the new facility, primarily to fund the repatriation of accumulated earnings pursuant to the American Jobs Creation Act of 2004. In connection with the termination of its previous revolving credit facilities, MMC recorded as interest expense a \$7 million write-off of unamortized deferred financing costs.

In September 2005, MMC completed two financings to enhance liquidity. MMC returned to the public capital markets, issuing \$550 million of 5.15% Senior Notes due 2010 and \$750 million of 5.75% Senior Notes due 2015. The proceeds from these notes were used to pay down outstanding bank borrowings that were scheduled to mature in December 2006.

Also in September 2005, MMC refinanced its headquarters building in New York by entering into a 30-year, \$475 million mortgage loan agreement at a fixed annual rate of 5.7%. This replaced the existing \$200 million, 9.8% mortgage due in 2009. The incremental proceeds, net of a \$34 million prepayment charge, were used to pay down outstanding short-term debt.

Consolidated Results of Operations

(In millions, except per share figures)

	2005	2004	2003

Consolidated operating income in 2005 increased 43% to \$856 million, reflecting significantly lower costs related to regulatory settlements at Marsh and Putnam and savings from restructuring initiatives partly offset by lower revenues in risk and insurance services and investment management, employee retention costs and incremental costs from the implementation of SFAS 123(R). Risk and insurance services results in 2005 include the impact of a \$402 million decrease in MSA revenue. The segment's 2004 results were impacted by an \$850 million charge relating to the settlement agreement reached with the NYAG and NYSID. Investment management results in 2005 reflect reduced costs for regulatory settlements and related charges, partly offset by a decline in revenue resulting from lower assets under management. Results for Consulting reflect a 4% increase in revenue and lower costs for restructuring and restructuring-related charges. Results for Risk Consulting and Technology in 2005 reflect a full year of operations for Kroll, which was acquired in July 2004. Corporate results in 2005 include restructuring charges of \$59 million, incremental compensation expense of \$64 million, primarily related to stock options resulting from the adoption of SFAS 123(R) as of July 1, 2005, and \$30 million of settlement and other costs. In 2004, corporate expenses included a credit of \$105 million for insurance recoveries related to World Trade Center losses.

Consolidated Revenues and Expenses

Consolidated revenue for the year ended December 31, 2005 of \$11.7 billion was 1% lower than in 2004. Reduced revenue in the risk and insurance services and investment management segments was offset by increases in the risk consulting & technology, and consulting segments. Revenue

33

decreased 6% on an underlying basis, which measures the change in revenue before the impact of acquisitions and dispositions and using constant currency rates. Excluding the impact of the elimination of MSAs, underlying revenue decreased 3%.

The impact of foreign currency translation, acquisitions and dispositions on MMC's operating revenue by segments is as follows:

	Twelve Months Ended		Components of Revenue Change			
	December 31,		% Change GAAP Revenue	Currency Impact	Acquisitions/ Dispositions Impact	Underlying Revenue(a)

- (a) Underlying revenue measures the change in revenue before the impact of acquisitions and dispositions, using constant currency exchange rates. Underlying revenue for Insurance Services in 2005 decreased 13% in the twelve months, including a 7% decline related to market services agreements, and for the Risk and Insurance Services segment underlying revenue decreased 11% in the twelve months, including a 6% decline related to market services agreements.
- (b) Risk Capital Holdings owns MMC's investments in insurance and financial services firms such as Ace Ltd., XL Capital Ltd., and Axis Capital Holdings Ltd., as well as the Trident funds.
- (c) Certain reclassifications have been made to prior year amounts to conform with current presentation. The data presented above excludes the results of the U.S. wholesale broking and claims management businesses, which are classified as discontinued operations.

During 2005, revenue in the risk and insurance services segment decreased 10% from 2004. Underlying revenue declined 11%, resulting from a \$402 million decline in market services revenue, lower levels of new business and renewals and the impact of lower insurance premium rates. These declines were partly offset by the impact of foreign currency exchange rates. Risk consulting & technology revenue increased \$541 million. Due to the acquisition of Kroll in July 2004, results in 2005 include, for the first time, a full year of revenue for Kroll, compared with six months of revenue in 2004. Underlying growth in risk consulting & technology was 21%, due to growth in Kroll's technology services,

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

corporate advisory and restructuring, and background screening businesses. Consulting revenue increased 4%, resulting from a 17% increase in Mercer's specialty consulting businesses. Investment management revenue declined 12% as a result of the decrease in assets under management and lower investment income.

Consolidated operating expenses decreased 3% from 2004 to 2005. This was primarily due to savings from restructuring initiatives and lower regulatory and other settlement expenses, partly offset by employee retention costs, the impact of acquisitions, higher benefits costs, and incremental costs, primarily related to stock options, resulting from the implementation of SFAS 123 (R). In addition, Putnam's expenses in 2005 include a charge of \$37 million for the estimated cost necessary to address issues relating to the calculation of certain amounts previously paid to Putnam by the Putnam mutual funds in the form of cost reimbursements to Putnam for transfer agency services relating to defined contribution operations. Expenses in 2004 include an \$850 million charge related to the NYAG/NYSID settlement, costs of \$224 million related to Putnam's settlement and agreements with the SEC and Office of the Secretary of the Commonwealth of Massachusetts and restructuring costs of \$337 million, partly offset by a \$105 million credit from the final insurance settlement related to World Trade Center losses.

Consolidated revenue in 2004 increased 5% from 2003. The increase in revenue was primarily due to the impact of acquisitions and foreign exchange. Revenue decreased 3% on an underlying basis, primarily driven by a decrease in investment management revenue due to a decline in average assets under management and a decrease in risk and insurance services revenue resulting from a decision to no longer accept MSA revenue for placements made after September 30, 2004. These revenue declines were partially offset by an increase in underlying revenues in consulting due to higher demand for strategic advice.

Consolidated operating expenses increased 27% in 2004 over 2003, of which 10% was due to the effects of acquisitions and foreign exchange. Expenses in 2004 also include an \$850 million charge related to the settlement agreement with the NYAG and the NYSID, charges of \$224 million related to Putnam's settlement agreements, costs of \$337 million related to restructuring MMC's businesses, severance of \$108 million incurred prior to implementation of the restructuring plan in the fourth quarter and increased pension costs of \$93 million. These costs were partially offset by a decrease in amortization expense for prepaid dealer commissions, a credit to compensation expense related to the settlement with Putnam's former chief executive officer and a credit of \$105 million from the final settlement with insurers for claims related to the September 11, 2001 attacks on the World Trade Center.

Risk and Insurance Services

In the Risk and Insurance Services segment, MMC's subsidiaries and other affiliated entities act as brokers, agents or consultants for insureds, insurance underwriters and other brokers in the areas of risk management, insurance broking and insurance program management services, primarily under the name of Marsh; and engage in reinsurance broking, catastrophe and financial modeling services and related advisory functions, primarily under the name of Guy Carpenter.

35

Marsh and Guy Carpenter are compensated for brokerage and consulting services primarily through fees paid by clients and commissions paid out of premiums charged by insurance and reinsurance companies. Commission rates vary in amount depending upon the type of insurance or reinsurance coverage provided, the particular insurer or reinsurer, the capacity in which the broker acts and negotiations with clients. Revenues are affected by premium rate levels in the insurance markets, since compensation is frequently related to the premiums paid by insureds. In many cases, compensation may be negotiated in advance on the basis of the estimated value of the services to be performed. Revenue is also affected by fluctuations in the amount of risk retained by insurance and reinsurance clients themselves and by increases or decreases in the value of the risks that have been insured, new and lost business, and the volume of business from new and existing clients.

Effective October 1, 2004, Marsh eliminated contingent compensation, or market services agreements with insurers, under which it had earned revenues based upon such factors as the overall volume, growth and, in some cases, profitability, of the total business placed by Marsh with a given insurer. The circumstances under which we terminated our market services agreements, and the related revenue impact in our Risk and Insurance Services segment, are discussed above under **Significant Developments in 2005** **New Business Model in Risk and Insurance Services**.

For billing and other administrative services, Marsh and Guy Carpenter receive interest income on certain funds (such as premiums and claims proceeds) held in a fiduciary capacity for others. The investment of fiduciary funds is regulated by state and other insurance authorities. These regulations typically provide for segregation of fiduciary funds and limit the types of investments that may be made with them. Interest income from these investments varies depending on the amount of funds invested and applicable interest rates, both of which vary from time to time.

Following the sale of MMC Capital's business in May 2005, discussed above under **Significant Developments in 2005** **Businesses Exited in 2005**, we no longer receive fees in connection with the private equity investments previously managed by MMC Capital, nor do we receive management fees or origination fees related to this business. We continue to receive dividends and to recognize capital appreciation or

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

depreciation on the investments held by Risk Capital Holdings, as well as revenue on Risk Capital Holding's sales of investments from time to time.

The results of operations for the risk and insurance services segment are presented below:

<i>(In millions of dollars)</i>	2005	2004	2003
Revenue	\$5,592	\$6,205	\$6,133
Expense	5,287	6,121	4,526
Operating Income	\$ 305	\$ 84	\$1,607
Operating Income Margin	5.5%	1.4%	26.2%

Revenue

Revenue in the risk and insurance services segment decreased 10% in 2005 compared with 2004, reflecting decreases in both insurance services and reinsurance services revenue.

In insurance services, underlying revenue decreased 13%. Excluding the impact of decreased market services revenue, underlying revenue decreased 6%, reflecting lower new business volume and lower commercial premium rates. The decrease in underlying revenue was most significant in the United States; however, the percentage decline improved in the fourth quarter compared with earlier quarters in 2005 despite continued premium rate declines in the commercial insurance marketplace.

Market services revenue declined from \$521 million in 2004 to \$119 million in 2005. Effective October 1, 2004, Marsh agreed to eliminate contingent compensation agreements with insurers. The

36

market services revenue recognized in 2005 relates to placements made prior to October 1, 2004. Marsh did not accrue a portion of market services revenue earned on those placements because it could not complete its normal process to determine that collection of these amounts was reasonably assured for certain contracts. Any such revenue earned prior to but not accrued at September 30, 2004 is recognized when collected or when confirmation of the amount of payment is received from the carriers. This resulted in the recognition of market services revenue of \$119 million in 2005. It is expected that market services revenue in 2006 will be significantly lower than in 2005.

Reinsurance premium rates in the U.S. property catastrophe and certain specialty lines appear to be increasing due to the effects of the recent hurricanes on insurance marketplace conditions, and have affected revenue in the first quarter of 2006. However, revenue from sales of investments by Risk Capital Holdings is expected to decline in 2006, and it remains difficult to estimate the amount and timing of the incremental revenue to be generated by Marsh's commission and fee initiative described above.

Revenue for the risk and insurance services segment grew 1% in 2004 over 2003. Underlying revenue declined 3%. In insurance services underlying revenue decreased 6% primarily due to a reduction in MSA revenue from \$820 million in 2003 to \$521 million in 2004. This excludes the market services revenue of \$20 million in 2004 and \$25 million in 2003 related to the employee benefits business transferred to Consulting effective April 1, 2005. Client revenue increased approximately 1%, reflecting 3% growth in Europe and 4% growth in other international markets, partially offset by a 2% decline in North America. Underlying revenue in reinsurance broking remained unchanged.

Expense

Expenses in the risk and insurance services segment decreased 14% in 2005, compared with the prior year. Expenses in 2004 included a \$850 million charge related to the settlement with the NYAG and NYSID.

Expenses in 2005 include restructuring costs of \$255 million related to the restructuring activities we initiated in 2005 (the 2005 Plan), discussed below, as well as \$78 million of costs related to employee retention programs, \$88 million related to incremental regulatory and compliance costs, and higher benefit costs due to higher pension expense. Expenses in 2005 also include costs of approximately \$2 million related to restructuring activities that began in the fourth quarter of 2004. The expense increases described above more than offset expense savings

resulting from the restructuring activities undertaken in 2004 and 2005.

In 2005 charges of \$255 million related to the 2005 Plan were incurred, primarily for severance and benefits related to staff reductions affecting approximately 2,600 employees and for future rent under non-cancelable leases. Annualized savings of approximately \$375 million are expected in the risk and insurance services segment when the 2005 Plan is fully implemented in the first half of 2006. Of this amount, \$160 million was realized in 2005 and the remaining \$215 million of expected savings should be realized in 2006. Additional restructuring charges related to the 2005 plan of \$50 million are expected to be incurred in 2006, largely in the first half of the year.

In 2004, risk and insurance services expenses increased 35% over 2003. Approximately 20% of the increase was due to an \$850 million charge for the settlement agreement with the NYAG and the NYSID and legal and other costs of \$31 million related to this matter. Expenses in 2004 included restructuring charges of \$231 million, including severance and other termination benefits, future rent under non-cancelable leases and lease termination costs and incremental amortization of \$7 million related to accelerated amortization or abandonment of leasehold improvements. Expenses in 2004

37

also included \$8 million for employee retention programs. In connection with accounting guidance issued by the Institute of Chartered Accountants in the U.K., MMC reassessed its obligation to provide future claims handling and certain administrative services for brokerage clients in the European marketplace. MMC determined that under certain circumstances it is obligated to provide such services based on its current business practices and recorded a pre-tax charge of approximately \$65 million to reflect the change in estimated cost to provide these services. The effects of acquisitions and foreign exchange increased expenses by 6%. On an underlying basis, and excluding the items previously discussed, expenses increased 4%.

Risk Consulting and Technology

MMC's Risk Consulting and Technology segment consists of Kroll and its subsidiaries, acquired by MMC in July 2004. The segment also includes portions of the risk consulting business previously managed by Marsh under the Risk and Insurance Services segment. The services previously managed by Marsh include forensic accounting, insurance claims accounting, and preparation and crisis consulting. Kroll delivers its services through four business groups: consulting services; corporate advisory & restructuring; security; and technology services.

Kroll receives compensation for its risk consulting and technology services in the form of fees paid by clients. These fees are typically earned on an hourly, project, fixed fee or per unit basis. Kroll's revenue is subject to changes in international economic and regulatory conditions. Some of Kroll's revenue sources are counter-cyclical to the performance of the economy in general. These sources may include, for example, fees from restructuring, turnaround and forensic engagements relating to commercial bankruptcies and bond defaults. Kroll is also subject to normal competitive forces such as pricing pressures, demand for professional staff and new product development on the part of competitors, particularly in technology services.

The results of operations for the risk consulting and technology segment are presented below:

<i>(In millions of dollars)</i>	2005	2004	2003
Revenue	\$ 946	\$ 405	\$ 19
Expense	822	357	27
Operating Income	\$ 124	\$ 48	\$ (8)
Operating Income Margin	13.1%	11.9%	(42.1)%

Results of Operations

The year-to-year comparisons of the segment's revenue, expense and operating income are significantly impacted by the fact that we acquired Kroll in July 2004. As a result, 2004 results include only six months of Kroll's operations. Underlying revenue growth in 2005 was 21% due to growth in the technology services, corporate advisory and restructuring and background screening practices. Expenses include amortization of identified intangible assets of \$58 million and \$24 million in 2005 and 2004, respectively.

Consulting

MMC conducts business in its Consulting segment through Mercer Inc. and its subsidiaries and affiliates. Mercer operates through two main business groups. Mercer Human Resource Consulting includes practice groups specializing in retirement and investment consulting, human resource services and investments, health and benefits and human capital. The Mercer Specialty Consulting Businesses focus on management consulting, organizational design and change management, and economic consulting.

38

The major component of Mercer's revenue, in both Mercer Human Resource Consulting and the Mercer Specialty Consulting Businesses, is fees paid by clients for advice and services. Mercer Human Resource Consulting, principally through its Health & Benefits line of business, also earns significant revenue in the form of commissions received from insurance companies for the placement of group (and occasionally individual) insurance contracts, primarily life, health and accident coverages. Revenue for Mercer Global Investment's discretionary investment management business and certain of Mercer HR Services and Investment's defined contribution administration services consists principally of fees based on assets under administration.

Revenue in the consulting business is affected by, among other things, global economic conditions, including changes in clients' particular industries and markets. Revenue is also subject to competition due to the introduction of new products and services, broad trends in employee demographics, the effect of government policies and regulations, and fluctuations in interest and foreign exchange rates. Revenues from the provision of discretionary investment management services and retirement trust and administrative services are significantly affected by securities market performance.

The results of operations for the consulting segment are presented below:

<i>(In millions of dollars)</i>	2005	2004	2003
Revenue	\$3,802	\$3,637	\$3,290
Expense	3,351	3,228	2,829
Operating Income	\$ 451	\$ 409	\$ 461
Operating Income Margin	11.9%	11.2%	14.0%

Revenue

Consulting revenue in 2005 increased 4% compared with 2004. On an underlying basis, revenue increased 3%, due to a 16% increase in Mercer's specialty consulting businesses, partly offset by a 1% decline in human resources consulting. The increase in underlying revenue in specialty consulting reflects increases of 24% in management consulting, reflecting a 25% increase in Mercer Oliver Wyman, and 6% in economic consulting. Within the human resources consulting businesses, underlying revenue decreased 1%, reflecting a decline in the revenue associated with defined contribution plan assets previously administered by Putnam and transferred to Mercer effective January 1, 2005, increased pricing competition on traditional actuarial valuation services, and a decline in the employee benefits business transferred from Marsh to Mercer. These declines were partly offset by strong growth in human capital consulting.

Consulting revenue in 2004 increased 11% over 2003. Acquisitions, which accounted for 4% of the revenue growth in 2004, include Synhrgy HR Technologies which closed in January, 2004, and Oliver, Wyman & Company (OWC) which closed on April 1, 2003. On an underlying basis, revenue increased 3%. In Mercer HR Consulting, underlying revenue was flat. In Mercer's specialty consulting businesses, underlying revenue increased 13%.

Expense

Consulting expenses increased 4% in 2005 compared with 2004. On an underlying basis, expenses increased 3%, as savings from restructuring activity and lower costs for restructuring were offset by employee retention costs, increased benefits costs and higher expenses in specialty consulting due to a higher volume of business.

Consulting expenses increased 14% in 2004 compared with 2003. Expenses in 2004 included restructuring charges of \$62 million, including severance and other termination benefits and future

rent under non-cancelable leases and lease termination costs as well as incremental expense of \$7 million related to accelerated amortization or abandonment of leasehold improvements and other assets. Expenses in 2004 also included \$4 million for employee retention programs. In addition, the impact of acquisitions and foreign exchange increased expense by 9%. On an underlying basis, and excluding the items discussed above, expenses increased 2%, primarily due to higher employee compensation and benefit costs.

Investment Management

MMC conducts business in its Investment Management segment through Putnam. Putnam provides investment management and related services through a broad range of investment products, including the Putnam Funds, its own family of mutual funds which are offered to individual and institutional investors. In support of the primary investment management business, Putnam subsidiaries provide other related services including transfer agency, underwriting, distribution, shareholder services, custodial, trustee and other fiduciary services. PFTC serves as transfer agent, dividend disbursing agent, registrar and custodian for the Putnam Funds and provides custody services to several external clients.

Putnam's revenue is derived primarily from investment management and 12b-1 fees (described more fully below) received from the Putnam Funds and investment management fees for institutional accounts. Putnam also receives fees from the Putnam Funds for administrative services performed by PFTC.

Putnam companies receive fees for the investment management services provided to the Putnam Funds and institutional accounts pursuant to investment advisory contracts under which the mutual fund or institutional investor pays fees to the Putnam company that manages the fund or account. The amount of the fees varies depending on the individual mutual fund or institutional account. Fees are usually based on a sliding scale in relation to assets under management, and, in some cases are also based on investment performance. These advisory contracts generally may be terminated by either party without penalty, and contracts with the Putnam Funds must be approved annually by the fund's shareholders or trustees, including a majority who are not affiliated with Putnam. Putnam management and the fund trustees regularly review the Putnam Fund contract fee structures in light of fund performance, the level and range of services provided, and current industry conditions.

Investment management revenues depend largely on the total value and composition of Putnam's assets under management. Assets under management are particularly affected by fluctuations in domestic and international stock and bond market prices, and the net level of investments and withdrawals by current and new mutual fund shareholders and institutional clients. Items affecting revenue also include, but are not limited to, actual and relative investment performance, service to clients, the development and marketing of new investment products, the relative attractiveness of Putnam's investment styles under prevailing market conditions, changes in the investment patterns of fund shareholders and institutional clients and Putnam's ability to maintain investment management and administrative fees at current levels.

All open-end Putnam funds other than money market funds have adopted distribution plans pursuant to Rule 12b-1 under the Investment Company Act of 1940, commonly referred to as 12b-1 plans. Pursuant to these 12b-1 plans, the Putnam Funds make payments to PRM to cover costs relating to distribution of the Putnam Funds and services provided to shareholders, at rates that differ by class of fund shares. These payments, known as Rule 12b-1 fees, enable PRM to pay service fees and other continuing compensation to firms that distribute shares of the Putnam Funds and provide services to fund shareholders. PRM retains some Rule 12b-1 fees as compensation for the costs of distribution and other services provided by Putnam and its affiliates to shareholders and for commissions advanced by Putnam at the point of sale (and recovered through fees received over

time) to firms that distribute shares of the Putnam Funds. These 12b-1 plans, and Rule 12b-1 fees paid by the Putnam Funds thereunder, are subject to annual renewal by the fund trustees and to termination by vote of the fund shareholders or by vote of a majority of the trustees who are not affiliated with Putnam.

PFTC receives compensation from the Putnam Funds for its administrative (transfer agency and shareholder services) and custodial services pursuant to, respectively, investor servicing agreements which may be terminated by either party on 90 days' notice, and pursuant to written custody agreements which may be terminated by either party on 30 days' notice. These contracts generally provide for compensation on the basis of several factors which vary with the type of service being provided. The transfer agent servicing fee received by PFTC is a fixed rate per

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

account for retail shareholders and a fixed rate service fee based on assets under management for mutual fund defined contribution shareholders.

The results of operations for the investment management segment are presented below:

<i>(In millions of dollars)</i>	2005	2004	2003
Revenue	\$ 1,506	\$ 1,710	\$ 1,955
Expense	1,243	1,612	1,452
Operating Income	\$ 263	\$ 98	\$ 503
Operating Income Margin	17.5%	5.7%	25.7%

Revenue

Putnam's revenue decreased 12% in 2005, reflecting a decrease in fees due to a decline in assets under management, lower 12b-1 fee revenue, and decreased investment gains. Assets under management averaged \$196 billion in 2005, a 10% decline from the \$217 billion managed in 2004. Assets under management aggregated \$189 billion at December 31, 2005, compared with \$213 billion at December 31, 2004. The change in assets under management from December 31, 2004 results primarily from net redemptions of \$31 billion, partly offset by the positive impact of market performance. We expect average assets under management to decline in 2006.

Putnam receives service fees from the Putnam mutual funds for transfer agent, custody, and other administrative services, as contracted by the Trustees of the Putnam mutual funds. Effective January 2005, the transfer agent service fee agreement was converted to a fixed rate per retail shareholder account and a fixed rate service fee based on average assets under management for mutual fund assets in defined contribution plans. For the first six months of 2004, the transfer agent service fee agreement was based on the reimbursement of the cost of service. For the third and fourth quarters of 2004, transfer agent service fees were based on a fixed fee and recorded as revenue. The change in the service fee agreement resulted in an increase in both service fee revenue and expense of approximately \$32 million in 2005 compared with 2004. The change in the service fee contract is expected to have an immaterial impact on operating income in future quarters.

At the end of 2005, assets held in equity securities represented 68% of assets under management, compared with 69% in 2004 and 72% in 2003, while investments in fixed income products represented 32%, compared with 31% in 2004 and 28% in 2003.

Putnam's revenue decreased 13% in 2004, reflecting a decrease in fees due to a decline in average assets under management, partially offset by higher investment gains, higher equity income resulting from THL transaction fees related to private equity investments and increased transfer agent fees. Assets under management averaged \$217 billion for the year ended December 31, 2004, a 16% decline from the \$258 billion managed in 2003. Assets under management aggregated \$213 billion at

41

December 31, 2004 compared with \$240 billion at December 31, 2003. The change from December 31, 2003 primarily resulted from net redemptions of \$51 billion, partly offset by increases due to market appreciation of \$16 billion and the consolidation of PanAgora's \$8 billion of assets under management as of July 2004.

The change in the service fee calculation mentioned above resulted in an increase in both service fee revenue and expenses of approximately \$41 million during the second half of 2004.

Year-end and average assets under management are presented below:

<i>(In billions of dollars)</i>	2005	2004	2003
Mutual Funds:			
Growth Equity	\$ 31	\$ 38	\$ 46
Value Equity	37	41	43
Blend Equity	26	28	32

The categories of mutual fund assets reflect style designations aligned with each fund's prospectus.

Expense

Expenses for 2005 decreased 23% from 2004. Expenses in 2005 include a \$37 million charge for the estimated costs necessary to address issues relating to the calculation of certain amounts previously paid to Putnam by the Putnam mutual funds in the form of cost reimbursements to Putnam for transfer agency services relating to defined contribution operations. Expenses in 2004 include a charge of \$224 million related to Putnam's regulatory settlements with the SEC and the Secretary of the Commonwealth of Massachusetts on market-timing issues. Other expense reductions in 2005 include lower compensation and severance costs, reduced costs related to regulatory issues, a decrease in amortization expense for prepaid dealer commissions and a decrease in restructuring charges. These reductions were partially offset by an increase in expenses previously borne by the funds under the prior transfer agent service agreement. Putnam's expenses in 2004 include a \$25 million credit to compensation expense associated with the settlement with Putnam's former chief executive officer. Equity awards granted in September 2005 are expected to increase Putnam's expenses by approximately \$26 million in 2006.

Expenses in 2004, which increased 11% from 2003, included \$224 million for Putnam's regulatory settlements with the SEC and the Commonwealth of Massachusetts. Restructuring costs totaled

42

\$26 million, including \$10 million related to a start-up hedge fund management business at MMC that was subsequently discontinued. Other significant items recorded in 2004 were severance of \$57 million incurred prior to the fourth quarter restructuring, as well as incremental costs related to regulatory issues and repositioning Putnam, including legal and audit costs of \$45 million and communications costs of \$16 million. In 2004, Putnam discontinued the practice of directing brokerage commissions and virtually eliminated the use of soft dollars, causing expenses to increase by approximately \$40 million. These increases were partially offset by a decrease in amortization expense for prepaid dealer commissions and a \$25 million credit to compensation expense associated with the settlement with Putnam's former chief executive officer.

Corporate Items

Corporate Expenses

Corporate expenses were \$287 million in 2005 compared to \$39 million in 2004. Expenses in 2005 include \$64 million of incremental expenses, primarily related to stock options, resulting from the adoption of SFAS 123 (R) effective July 1, 2005. The incremental cost related to the implementation of SFAS 123 (R) is being charged to corporate and not to the operating segments in 2005 because this expense is excluded from the operating company results reviewed by MMC's chief operating decision maker for performance measurement. In addition, \$6 million was recorded for severance and other termination benefits related to the 2005 Plan, and a charge of \$49 million was recorded in the first quarter

related to the consolidation of office space in London. Because the office consolidation was initiated by MMC to benefit its London operations as a whole, the related charge was recorded in corporate. Corporate expenses also reflect \$30 million of charges in connection with the resolution of certain litigation and related matters which are discussed in Note 16 to the consolidated financial statements.

Corporate expenses in 2004 included \$18 million of restructuring costs, including severance and other termination benefits, future rent under non-cancelable leases and lease termination costs. The impact of the final settlement for insured losses related to the WTC reduced Corporate expenses in 2004. The replacement value of the assets exceeded their book value by \$105 million which was recorded as a reduction of other operating expenses.

Integration and Restructuring Charges

Note 13 to the consolidated financial statements discusses integration and restructuring costs. The following chart summarizes the costs incurred and the savings realized and projected for MMC's restructuring activities.

(In millions of dollars)	Costs Incurred		Savings Realized	Incremental Savings Expected
	2004	2005	2005	2006
2004 Plan	\$337	\$ 3	\$400	
2005 Plan		310	160	215

Restructuring activities under the 2005 plan, which we initiated in the first quarter of 2005 are nearing completion. In 2005, MMC incurred expenses in connection with the 2005 plan of \$310 million (approximately two-thirds of which was severance cost). Additional expenses of \$50 million are expected to be incurred primarily in the first half of 2006. Once the 2005 plan is fully implemented, MMC expects to achieve annualized cost savings of \$375 million, all of which is in the Risk and Insurance Services segment. Results in 2005 reflect approximately \$160 million of the savings

expected under the 2005 plan with the remaining \$215 million of savings expected to be realized in 2006. Savings under the 2004 plan were \$400 million, substantially all of which was realized in 2005.

Restructuring costs in 2005 also include a \$4 million increase to the estimated liability for future rent under non-cancellable leases related to the Johnson and Higgins and Sedgwick acquisitions.

Stock Option Exchanges

At the May 2005 Annual Meeting, MMC's shareholders approved a stock option exchange offer for MMC options. Under the exchange offer, eligible employees could exchange certain deeply underwater options for new options with an estimated fair value equal to 90% of the value of options surrendered in exchange, calculated using the Black-Scholes pricing model. Effective July 1, 2005, employees elected to exchange 42 million options for 16 million new options. The exchange resulted in the retirement of 26 million options and no incremental compensation expense was incurred in connection with the new option grants. The exercise price of the new options of \$27.86 is equal to the market price of MMC's common stock as of the new grant date. The new options were unvested when granted and will vest on the later of the second anniversary of the new option grant or the vesting date of the tendered option. The other terms and conditions of the new options are substantially similar to those of the tendered options they replaced.

On September 29, 2005, certain eligible participants in the Putnam Investments Trust Equity Partnership Plan participated in a voluntary option exchange pursuant to the terms of the *Offer to Exchange Certain Outstanding Options* (the Offer to Exchange), dated August 30, 2005. Under the Offer to Exchange, holders of options on Class B shares meeting certain eligibility requirements could elect to exchange those options for restricted shares with the equivalent value of the exchanged options, as determined using the Black-Scholes valuation model. As a result of the Offer to Exchange, a total of 2,201,850 options were retired and 139,388 restricted shares were issued at a grant price of \$28.26 per share.

Interest

Interest income was \$47 million for 2005, an increase of \$26 million from 2004. The increase in interest income reflected the combination of higher average corporate cash balances and generally higher average interest rates in 2005 compared with 2004. Interest expense was \$332 million in 2005 compared to \$219 million in 2004. The increase in interest expense is due to an increase in the amount of average outstanding debt resulting from the acquisition of Kroll and a \$34 million charge in 2005 for the prepayment of the \$200 million mortgage on MMC's corporate headquarters in New York. In addition, interest expense in 2005 includes a write-off of \$7 million of unamortized deferred financing costs related to MMC's prior revolving credit agreements which were refinanced in December 2005.

Interest income earned on corporate funds was \$21 million in 2004 compared with \$24 million in 2003. Interest expense increased from \$185 million in 2003 to \$219 million in 2004. The increase in interest expense was due primarily to an increase in the amount of average outstanding debt, primarily due to the acquisition of Kroll.

Income Taxes

MMC's consolidated effective tax rate was 33.6% in 2005, a decrease from 59.4% in 2004. The decrease in the rate was primarily due to the impact in 2004 of the non-deductibility of Putnam's \$224 million in regulatory settlements and of a lower benefit related to Marsh's \$850 million settlement of the NYAG lawsuit; partially offset in 2005 by an increase in valuation allowances

44

provided on net operating losses in certain state and foreign jurisdictions. In 2003 the effective tax rate was 32.8%. The increase in the effective rate in 2004 compared with 2003 results primarily from the tax impact of the aforementioned settlements, and a partially offsetting benefit for foreign earnings taxed at lower rates.

The effective tax rate is sensitive to the geographic mix of MMC's earnings, which may have a favorable or unfavorable impact on the rate. Furthermore, losses in certain jurisdictions cannot be offset by earnings from other operations, and may require valuation allowances affecting the rate, depending on estimates of their realizability.

MMC establishes allowances for potential liabilities that may arise out of tax audits and litigation to the extent that such liabilities are probable and can be estimated in accordance with SFAS No. 5. Once established, allowances are evaluated based on the facts and circumstances that exist at each reporting period. Adjustments may result, for example, upon resolution of an issue with the taxing authorities, or expiration of a statute of limitations barring an assessment for an issue for which an allowance had previously been recorded. Such adjustments could have a material impact on MMC's effective tax rate, net income, and cash flows for a particular future period.

Liquidity and Capital Resources

MMC's routine liquidity needs are primarily for servicing debt and paying dividends on outstanding stock. Our primary source for meeting these requirements is cash flows from our operations.

Cash on our consolidated balance sheets includes funds available for general corporate purposes. Funds held on behalf of clients in a fiduciary capacity are segregated and shown separately in the consolidated balance sheet as an offset to fiduciary liabilities.

Operating Cash Flows

MMC generated \$399 million of cash from operations in 2005 compared with \$2.1 billion in 2004. These amounts reflect the net income earned by MMC during those periods adjusted for non-cash charges and changes in working capital which relate primarily to the timing of payments for accrued liabilities or receipts of assets. In addition to the routine timing of payments and receipts, MMC had several significant events which impacted its cash flow over the past two years, due to differences between when the items are recognized in net income and when they are paid. These include payments in 2005 of approximately \$308 million for regulatory settlements accrued in 2004, payment of restructuring costs and discretionary contributions of \$235 million to the pension plans in the U.K.

As previously discussed, in January 2005 MMC reached a settlement with the NYAG and NYSID that resolved the actions commenced by them against MMC and Marsh. As a result of this agreement, MMC recorded a charge in 2004 for an \$850 million policyholder fund. MMC paid the first \$255 million to the fund on June 1, 2005. An additional \$255 million must be paid on or before June 1, 2006, and \$170 million will be paid

to the fund on or before each of June 1, 2007 and 2008, respectively. These amounts are included in Regulatory Settlements in the consolidated balance sheets.

At December 31, 2005, the balance of accounts receivable related to accrued market services revenue earned prior to October 1, 2004 was \$130 million. Following the announcement of the settlement with the NYAG and NYSID, MMC reaffirmed its intention to collect outstanding MSA revenue earned prior to October 1, 2004, and will seek to enforce its rights under the relevant contracts. In December 2005, MMC initiated arbitration proceedings against certain insurance carriers for this purpose. However, there is no assurance that MMC will be successful in collecting all amounts due. To the extent such accrued amounts are not collected, a charge to earnings would result.

45

MMC has funding requirements for the U.S. non-qualified and U.K. plans in 2005 of approximately \$19 million and \$94 million, respectively. MMC's policy for funding its tax qualified defined benefit retirement plans is to contribute amounts at least sufficient to meet the funding requirements set forth in U.S. and applicable foreign law. There currently is no ERISA funding requirement for the U.S. qualified plan in 2005 or in 2006. Funding requirements for non-U.S. plans vary country by country.

During 2005, MMC contributed approximately \$229 million to the U.S. pension plans and \$498 million to the significant non-U.S. pension plans, compared with \$44 million for U.S. plans and \$239 million for significant non-U.S. plans in 2004. The contributions in 2005 include discretionary contributions of 8 million unregistered shares of MMC stock valued at \$205 million to the U.S. qualified plan and \$235 million of cash to the U.K. plans. These contributions resulted in an increase in prepaid pension expense for certain plans. The minimum pension liability related to any plan is recorded as part of the Pension, postretirement and post-employment liability in the consolidated balance sheets.

During 2005, the net funded status of the U.S. and significant non-U.S. pension plans increased by \$299 million and \$303 million, respectively, due primarily to the discretionary contributions mentioned previously. In addition, changes made to the U.S. pension plan, discussed below under Management's Discussion of Critical Accounting Policies - Retirement Benefits, reduced the benefit obligation of that plan by \$138 million and a plan curtailment in the U.K. reduced the benefit obligations of non-U.S. plans by \$40 million. Benefit obligations of the U.S. and significant non-U.S. pension plans exceeded the fair value of plan assets by \$79 million and \$818 million, respectively, at December 31, 2005. Contribution rates are determined by the local foreign actuaries based on local funding practices and requirements. Funding amounts may be influenced by future asset performance, discount rates and other variables impacting the assets and/or liabilities of the plan. In addition, amounts funded in the future, to the extent not required under regulatory requirements, may be affected by alternative uses of MMC's cash flows, including dividends, investments, and share repurchases.

Under generally accepted accounting principles, if the accumulated benefit obligation of a plan exceeds the fair value of that plan's assets (an ABO deficit), an additional minimum liability is recorded for the amount of the ABO deficit. The additional minimum liability, plus the amount of prepaid pension cost recognized for that plan is charged to other comprehensive income (equity), net of applicable taxes. At December 31, 2005, MMC has prepaid pension costs of approximately \$1.6 billion, which relate primarily to the U.S. qualified plan and two U.K. plans, as well as some smaller plans in various countries.

Financing Cash Flows

Net cash provided by financing activities was \$128 million in 2005 compared with \$1.2 billion in 2004.

In December 2005, MMC and certain of its foreign subsidiaries entered into a new \$1.2 billion multi-currency revolving credit facility. Subsidiary borrowings under the facility are unconditionally guaranteed by MMC. The facility, which will expire in December 2010, replaces MMC's \$1.0 billion and \$700 million revolving credit facilities which were scheduled to expire in 2007 and 2009, respectively. Certain of MMC's foreign subsidiaries borrowed approximately \$510 million under the new facility, primarily to fund the repatriation of accumulated earnings pursuant to the American Jobs Creation Act of 2004.

In September 2005, MMC returned to the public capital markets, issuing \$550 million of 5.15% Senior Notes due 2010 and \$750 million of 5.75% Senior Notes due 2015 (the 2005 Notes). The net proceeds from the 2005 Notes were used to pay down the \$1.3 billion term loan facility, discussed below.

46

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

Also in September 2005, MMC refinanced its headquarters building in New York city by entering into a 30-year, \$475 million mortgage loan agreement at a fixed annual rate of 5.7%. This replaced the existing \$200 million, 9.8% mortgage due in 2009. The incremental proceeds, net of a \$34 million prepayment charge, were used to pay down outstanding short-term debt.

In December 2004, MMC completed financing with respect to a \$1.3 billion term loan facility and the amendment of its existing \$1 billion revolving credit facility which was scheduled to expire in June 2007 and \$700 million revolving credit facility which was scheduled to expire in June 2009. The term loan facility, which was repaid with proceeds from the issuance of the 2005 Notes, was scheduled to mature on December 31, 2006 and replaced revolving credit facilities of \$700 million and \$355 million, which were scheduled to expire in 2005.

MMC's senior debt is currently rated Baa2 by Moody's and BBB by Standard & Poor's. MMC's short-term debt is currently rated P-2 by Moody's and A-2 by Standard & Poor's. MMC carries a negative outlook from both Moody's and Standard & Poor's.

In July 2004, MMC issued \$650 million of 5.375% Senior Notes due 2014 and \$500 million of Floating Rate Notes due 2007. The proceeds from these notes were used to repay the commercial paper borrowings that were used to purchase Kroll.

MMC paid total dividends of \$363 million in 2005 (\$0.68 per share) and \$681 million (\$1.30 per share) in 2004. MMC made no share repurchases in 2005. In 2004, MMC repurchased 11.4 million shares for \$524 million, substantially all of which was purchased in the first and second quarters.

MMC also maintains other credit facilities, guarantees and letters of credit with various banks, primarily related to operations located outside the United States, aggregating \$354 million at December 31, 2005 and \$331 million at December 31, 2004. There was \$83 million outstanding under these facilities at December 31, 2005.

Investing Cash Flows

Cash provided by investing activities amounted to \$153 million in 2005 compared with cash used for investing activities of \$2.6 billion in 2004. Cash used for acquisitions decreased to \$74 million from \$2.4 billion in 2004. Acquisitions in 2004 included Kroll, Inc., Synhrgy HR Technologies, Corporate Systems, and the Australia and New Zealand operations of Heath Lambert. Remaining deferred cash payments of approximately \$48 million related to acquisitions completed in 2005 and prior years are recorded in Accounts payable and accrued liabilities or in Other liabilities in the consolidated balance sheets at December 31, 2005. In addition, cash generated by the sale of securities totaled \$333 million in 2005 versus \$199 million for 2004.

MMC's additions to fixed assets and capitalized software, which amounted to \$345 million in 2005 and \$376 million in 2004, primarily relate to computer equipment purchases, the refurbishing and modernizing of office facilities and software development costs.

MMC has committed to potential future investments of approximately \$295 million in connection with various private equity funds and other MMC investments. Commitments of \$112 million relate to Trident III, a private equity fund managed by Stone Point. MMC's funding commitment to Trident III decreased by approximately \$98 million upon the sale of the business of MMC Capital to the management team of Stone Point on May 31, 2005. MMC's remaining commitments relate to other funds managed by Stone Point (approximately \$82 million) and by Putnam through THL and THLPC (approximately \$101 million). Trident III closed in December 2003, and has an investment period of six years. MMC does not control or know the timing of capital calls that Stone Point will make on Trident III's investors. Typically, the investment period for funds of this type has been about four

years, which would indicate an expected capital call of approximately \$35-\$50 million per year. Actual capital calls may occur more quickly. The majority of MMC's other investment commitments for funds managed by Stone Point are related to Trident II, the investment period for which is now closed for new investments. Any remaining capital calls for Trident II would relate to follow-on investments in existing portfolio companies or for management fees or other partnership expenses. Significant future capital calls related to Trident II are not expected. Although it is anticipated that Trident II will be harvesting its remaining portfolio in 2006 and thereafter, the timing of any portfolio company sales and capital distributions is unknown and not controlled by MMC.

Putnam has investment commitments of \$101 million for three active THL funds, of which Putnam believes approximately \$50 million will not be called. Putnam is authorized to commit to invest up to \$187 million in future THL investment funds, but is not required to do so. At December 31, 2005 none of that additional \$187 million is committed.

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

Approximately \$77 million was invested in 2005 related to all of the commitments discussed above.

Commitments and Obligations

MMC's contractual obligations were comprised of the following as of December 31, 2005 (dollars in millions):

Contractual Obligations	Payment due by Period				
	Total	Within 1 Year	1 - 3 Years	4 - 5 Years	After 5 Years
Bank Borrowings-International	\$ 597	\$ 429	\$ 168	\$	\$
Current portion of long-term debt	69	69			
Long-term debt	4,874		1,271	965	2,638
NYAG/NYSID settlement	595	255	340		
Net operating leases	3,349	466	763	542	1,578
Service agreements	181	65	70	44	2
Other long-term obligations	66	38	28		
Total	\$9,731	\$1,322	\$2,640	\$1,551	\$4,218

Market Risk

Certain of MMC's revenues, expenses, assets and liabilities are exposed to the impact of interest rate changes and fluctuations in foreign currency exchange rates and equity markets.

Interest Rate Risk

MMC manages its net exposure to interest rate changes by utilizing a mixture of variable and fixed rate borrowings to finance MMC's asset base. MMC uses interest rate swaps on a limited basis to manage exposure to interest rate movements on its cash and investments as well as interest expense on borrowings. Rate swaps are only executed with highly creditworthy counterparties.

MMC had the following investments and debt instruments subject to variable interest rates:

<i>(In millions of dollars)</i>	December 31, 2005
Cash and cash equivalents invested in certificates of deposit and time deposits (Note 1)	\$2,020
Fiduciary cash and investments (Note 1)	\$3,795
Variable rate debt outstanding (Note 11)	\$1,076

These investments and debt instruments are discussed more fully in the above-indicated notes to the consolidated financial statements.

Based on the above balances, if short-term interest rates increase by 10% or 40 basis points over the course of the year, annual interest income, including interest earned on fiduciary funds, would increase by approximately \$14 million. However, this would be partially offset by a \$3 million increase in interest expense resulting in a net increase to income before income taxes and minority interest of \$11 million.

Foreign Currency Risk

The translated values of revenue and expense from MMC's international risk and insurance services and consulting operations are subject to fluctuations due to changes in currency exchange rates. We periodically use forward contracts and options to limit foreign currency exchange rate exposure on net income and cash flows for specific, clearly defined transactions arising in the ordinary course of business.

Equity Price Risk

MMC holds investments in public and private companies, as well as in certain private equity funds managed by Stone Point, including Trident II and Trident III. Publicly traded investments of \$143 million are classified as available for sale under SFAS No. 115. Non-publicly traded investments of \$54 million and \$365 million are accounted for under APB Opinion No. 18, The Equity Method of Accounting for Investments in Common Stock, using the cost method and the equity method, respectively. Changes in value of trading securities are recognized in income when they occur. The investments that are classified as available for sale or that are not publicly traded are subject to risk of changes in market value, which if determined to be other than temporary, could result in realized impairment losses. MMC periodically reviews the carrying value of such investments to determine if any valuation adjustments are appropriate under the applicable accounting pronouncements.

Other

A significant number of lawsuits and regulatory proceedings are pending. See Note 16 to the consolidated financial statements.

Management's Discussion of Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States (GAAP) requires management to make estimates and judgments that affect reported amounts of assets, liabilities, revenue and expenses, and disclosure of contingent assets and liabilities. Management considers the policies discussed below to be critical to understanding MMC's financial statements because their application places the most significant demands on management's judgment, and requires management to make estimates about the effect of matters that are inherently uncertain. Actual results may differ from those estimates.

Legal and Other Loss Contingencies

MMC and its subsidiaries are subject to numerous claims, lawsuits and proceedings. GAAP requires that liabilities for contingencies be recorded when it is probable that a liability has been incurred before the balance sheet date and the amount can be reasonably estimated. Significant management judgment is required to comply with this guidance. MMC analyzes its litigation exposure based on available information, including consultation with outside counsel handling the defense of these matters, to assess its potential liability.

49

In addition, to the extent that insurance coverage is available, significant management judgment is required to determine the amount of recoveries that are expected under MMC's various insurance programs.

Retirement Benefits

MMC maintains qualified and non-qualified defined benefit pension plans for its U.S. and a variety of defined benefit and defined contribution plans for eligible non-U.S. employees. MMC's policy for funding its tax qualified defined benefit retirement plans is to contribute amounts at least sufficient to meet the funding requirements set forth in U.S. and applicable foreign laws.

The determination of net periodic pension cost is based on a number of actuarial assumptions, including an expected long-term rate of return on plan assets, the discount rate and assumed rate of salary increase. Significant assumptions used in the calculation of net periodic pension costs and pension liabilities are disclosed in Note 8 to the consolidated financial statements. MMC believes the assumptions for each plan are reasonable and appropriate and will continue to evaluate actuarial assumptions at least annually and adjust them as appropriate. Pension expense in 2005 increased by \$130 million compared with 2004. Based on its current assumptions, MMC expects pension expense to decrease by approximately \$12 million in 2006 and currently expects to contribute approximately \$145 million to the plans during the year.

During 2005 MMC made changes to the U.S. pension plan that were designed to reduce MMC's benefits costs going forward. The changes, which are effective January 1, 2006, include changing the benefit formula from a final average salary to a career average salary as well as a change in the calculation for early retirement benefits. These changes do not affect pension benefits earned as of December 31, 2005.

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

Future pension expense or credits will depend on plan provisions, future investment performance, future assumptions, and various other factors related to the populations participating in the pension plans. Holding all other assumptions constant, a half-percentage point change in the rate of return and discount rate assumptions would affect net periodic pension cost for the U.S. and U.K. plans, which comprise approximately 90% of total pension plan liabilities, as follows:

<i>(In millions of dollars)</i>	0.5 Percentage Point Increase		0.5 Percentage Point Decrease	
	U.S.	U.K.	U.S.	U.K.
Assumed Rate of Return	\$(13.2)	\$(21.1)	\$13.2	\$21.1
Discount Rate	\$(29.1)	\$(54.3)	\$31.2	\$57.3

Changing the discount rate and leaving the other assumptions constant may not be representative of the impact on expense, because the long-term rates of inflation and salary increases are correlated with the discount rate.

MMC contributes to certain health care and life insurance benefits provided to its retired employees. The cost of these postretirement benefits for employees in the United States is accrued during the period up to the date employees are eligible to retire, but is funded by MMC as incurred. This postretirement liability is included in Other liabilities in the consolidated balance sheets. The key assumptions and sensitivity to changes in the assumed health care cost trend rate are discussed in Note 8 to the consolidated financial statements.

50

Income Taxes

MMC's tax rate reflects its income, statutory tax rates and tax planning in the various jurisdictions in which it operates. Significant judgment is required in determining the annual tax rate and in evaluating tax positions. Tax allowances are established when, despite the belief that the tax return positions are fully supportable, there is the potential that they may be successfully challenged. These allowances, as well as the related interest, are adjusted to reflect changing facts and circumstances.

Tax law requires items be included in MMC's tax returns at different times than the items are reflected in the financial statements. As a result, the annual tax expense reflected in the consolidated statements of income is different than that reported in the tax returns. Some of these differences are permanent, such as expenses that are not deductible in the returns, and some differences are temporary and reverse over time, such as depreciation expense. Temporary differences create deferred tax assets and liabilities. Deferred tax assets generally represent items that can be used as a tax deduction or credit in tax returns in future years for which benefit has already been recorded in the financial statements. Valuation allowances are established for deferred tax assets when it is estimated that future taxable income will be insufficient to use a deduction or credit in that jurisdiction. Deferred tax liabilities generally represent tax expense recognized in the financial statements for which payment has been deferred, or expense for which a deduction has been taken already in the tax return but the expense has not yet been recognized in the financial statements.

Share-based Payment

Effective July 1, 2005, MMC adopted SFAS 123(R) *Share-based Payment*, which requires, among other things, that the estimated fair value of stock options be charged to earnings. Significant management judgment is required to determine the appropriate assumptions for inputs such as volatility and expected term necessary to estimate option values. In addition, management judgment is required to analyze the terms of the plans and awards granted thereunder to determine if awards will be treated as equity awards or liability awards, as defined by SFAS 123(R).

SFAS 123(R) requires that cost resulting from all share-based transactions be recognized in the financial statements. Although the required effective date of adoption for SFAS 123(R) is the first annual reporting period that begins after June 15, 2005, MMC elected to adopt early. MMC adopted SFAS 123(R) using a modified prospective method of adoption, as permitted. Accordingly, prior period amounts have not been restated. Under this method, MMC is required to record compensation expense for all awards granted after the date of adoption and for the unvested portion of previously granted awards that remain outstanding at the date of adoption. The compensation cost recognized for awards granted prior to July 1, 2005 is based on the estimated grant date fair value and expense attribution methodology originally determined under SFAS 123.

Prior to the adoption of SFAS 123(R), MMC applied Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB 25), to account for its stock-based awards. Under APB 25, MMC generally only recorded stock-based compensation expense related to restricted stock, restricted stock units, and deferred stock units. Under the provisions of APB 25, MMC was not required to recognize compensation expense for the cost of stock options or shares issued under the Company's Employee Stock Purchase Plan (ESPP). With the adoption of SFAS 123(R), MMC will record stock-based compensation expense for the cost of stock options and, as described below, shares issued under the ESPP pertaining to the third quarter 2005. In 2005 MMC incurred incremental compensation costs of \$64 million, primarily related to stock options as a result of the early adoption of SFAS 123(R) effective July 1, 2005. This incremental cost was recorded as part of corporate expenses.

As of December 31, 2005, there was \$152 million of unrecognized compensation cost related to MMC's option awards and \$19 million of unrecognized compensation cost related to Putnam's option awards. The weighted-average periods over which the costs are expected to be recognized are 1.5 years for MMC and 3.5 years for Putnam. Also as of December 31, 2005, there was \$219 million of unrecognized compensation cost related to MMC's restricted stock, restricted stock unit and deferred stock unit awards and \$110 million of unrecognized compensation cost related to Putnam's restricted stock awards.

Effective October 1, 2005, certain features in the MMC ESPP were changed so that shares of MMC common stock will be purchased at a price that is 95% of the average market price of the stock on each quarterly purchase date. In accordance with SFAS 123 (R), the ESPP is no longer compensatory beginning October 1, 2005.

See Note 9 to the consolidated financial statements for additional information regarding the adoption of SFAS 123(R).

Investment Valuation

MMC holds investments in both public and private companies, as well as certain private equity funds managed by Stone Point and T.H. Lee. The majority of the public investments are accounted for as available for sale securities under SFAS No. 115. Where applicable, certain investments are accounted for under APB Opinion No. 18. MMC periodically reviews the carrying value of its investments to determine if any valuation adjustments are appropriate under the applicable accounting pronouncements. MMC bases its review on the facts and circumstances as they relate to each investment. Fair value of private equity investments is determined by the Funds' investment managers. Factors considered in determining the fair value of private equity investments include: implied valuation of recently completed financing rounds that included sophisticated outside investors; performance multiples of comparable public companies; restrictions on the sale or disposal of the investments; trading characteristics of the securities; and the relative size of the holdings in comparison to other private investors and the public market float. In those instances where quoted market prices are not available, particularly for equity holdings in private companies, or formal restrictions limit the sale of securities, significant management judgment is required to determine the appropriate value of MMC's investments. MMC reviews the appropriateness of valuation results for significant private equity investments with the fund manager.

New Accounting Pronouncements

New accounting pronouncements are discussed in Note 1 to MMC's consolidated financial statements.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

See the information set forth under the heading "Market Risk" above under Item 7 ("Management's Discussion and Analysis of Financial Condition and Results of Operations").

Item 8. Financial Statements and Supplementary Data.

Marsh & McLennan Companies, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

1. Summary of Significant Accounting Policies

Nature of Operations: Marsh & McLennan Companies, Inc. (MMC), a global professional services firm, is organized based on the different services that it offers. Under this organizational structure, MMC operates in four principal business segments: risk and insurance services, risk consulting and technology, consulting and investment management. Marsh's U.S. and U.K. employee benefits business has been combined with Mercer's health and benefits business and is now managed by Mercer. The segment data and related disclosures throughout the Notes to MMC's consolidated financial statements have been amended to reflect these organizational changes.

As discussed in Note 5, MMC sold its U.S.-based wholesale insurance broker, Crump Group, Inc., during the fourth quarter of 2005 and its interest in Sedgwick CMS Holdings, a provider of claims management and associated productivity services, on January 31, 2006. In connection with these dispositions, the account balances and activities of these entities were segregated and reported as discontinued operations in the accompanying consolidated financial statements of MMC at December 31, 2005 and 2004 and for each of the three years ended December 31, 2003 through 2005.

The risk and insurance services segment provides risk management and insurance broking, reinsurance broking and insurance program management services for businesses, public entities, insurance companies, associations, professional services organizations, and private clients. Prior to the sale of MMC Capital's business to Stone Point Capital, LLC (Stone Point) on May 31, 2005, the risk and insurance services segment also provided services principally in connection with originating, structuring and managing investments, primarily in the insurance and financial services industries. MMC no longer participates in the investment decisions or management of Stone Point or the Trident funds. However, MMC continues to own investments in the funds managed by Stone Point and directly owns investments in certain insurance and financial services entities through its subsidiary Marsh and McLennan Risk Capital Holdings (Risk Capital Holdings).

The risk consulting and technology segment provides various risk consulting and related risk mitigation services to corporate, government, institutional and individual clients. These risk consulting services fall into four main business groups: corporate advisory and restructuring services; consulting services; security; and technology services.

The consulting segment provides advice and services to the managements of organizations in the areas of Human Resource Consulting, comprising retirement and investment consulting, HR services and investments, health and benefits and human capital; and Specialty Consulting, comprising management consulting, organization change, and economic consulting.

The investment management segment primarily provides securities investment advisory, distribution, and administrative services for institutional accounts and a group of publicly held investment companies.

Principles of Consolidation: The accompanying consolidated financial statements include all wholly-owned and majority-owned subsidiaries. All significant intercompany transactions and balances have been eliminated.

Fiduciary Assets and Liabilities: In its capacity as an insurance broker or agent, MMC collects premiums from insureds and, after deducting its commissions, remits the premiums to the respective insurance underwriters. MMC also collects claims or refunds from underwriters on behalf of insureds.

Unremitted insurance premiums and claims are held in a fiduciary capacity. Interest income on these fiduciary funds, included in service revenue, amounted to \$151 million in 2005, \$130 million in 2004, and \$114 million in 2003. Since fiduciary assets are not available for corporate use, they are shown in the balance sheet as an offset to fiduciary liabilities. At December 31, 2005, Putnam managed the investment of approximately \$1.3 billion of the fiduciary assets.

Net uncollected premiums and claims and the related payables were \$10.4 billion and \$11.1 billion at December 31, 2005 and 2004, respectively. MMC is not a principal to the contracts under which the right to receive premiums or the right to receive reimbursement of insured losses arises. Net uncollected premiums and claims and the related payables are, therefore, not assets and liabilities of MMC and are not

included in the accompanying consolidated balance sheets.

In certain instances, MMC advances premiums, refunds or claims to insurance underwriters or insureds prior to collection. These advances are made from corporate funds and are reflected in the accompanying consolidated balance sheets as receivables.

Revenue: Risk and Insurance Services revenue includes insurance commissions, fees for services rendered, interest income on certain fiduciary funds and market service fees from insurers earned on placements made prior to October 2004. Effective October 1, 2004 Marsh agreed to eliminate contingent compensation agreements with insurers. Insurance commissions and fees for risk transfer services generally are recorded as of the effective date of the applicable policies or, in certain cases (primarily in MMC's reinsurance and London market operations), as of the effective date or billing date, whichever is later. Commissions are net of policy cancellation reserves, which are estimated based on historic and current data on cancellations. Fees for non-risk transfer services provided to clients are recognized over the period in which the services are provided, using a proportional performance model. Fees resulting from achievement of certain performance thresholds are recorded when such levels are attained and such fees are not subject to forfeiture. Revenue also includes compensation for services provided in connection with the organization, structuring and management of insurance, financial and other industry-focused investments, as well as appreciation or depreciation that has been recognized on holdings in such investments. Although MMC no longer receives management fees or origination fees related to Stone Point's business, it will continue to receive dividends and to recognize capital appreciation or depreciation on these investment holdings. In addition, Crump Group, Inc. and Sedgwick CMS Holdings were part of this segment.

Risk Consulting and Technology compensation consists of fees paid by clients. Such fees are typically charged on an hourly, project, or fixed fee basis, and sometimes on a per service or per unit basis. Revenue is recognized as the services are performed pursuant to the applicable contractual arrangements. Revenue related to time and materials arrangements is recognized in the period in which the services are performed. Revenue from hourly or daily rate engagements is recognized as hours are expended at the agreed-upon billing amounts. Revenue related to fixed price arrangements is recognized based upon a proportional performance model. Revenue provided from credit services is recognized when the information is delivered to the customer, either electronically or by other means. The impact of any revisions in estimated total revenue and direct contract costs is recognized in the period in which they become known. Expenses incurred by professional staff in the generation of revenue are billed to the client and included in revenue. Kroll records either billed or unbilled accounts receivable based on case-by-case invoicing determinations. Software revenue is recognized when shipped, with the exception of royalty-based products, for which revenue is recognized as applicable royalty reports are received. Software revenue is stated net of estimated customer returns and allowances. Contingent fees are recognized as earned and upon satisfaction of all conditions to their payment.

Consulting revenue includes fees paid by clients for advice and services and commissions from insurance companies for the placement of individual and group contracts. Fee revenue for engagements where Mercer is remunerated based on time plus out-of-pocket expenses is recognized based on the amount of time consulting professionals expend on the engagement. For fixed fee engagements, revenue is recognized using a proportional performance model. Insurance commissions are recorded as of the effective date of the applicable policies.

Investment Management revenue is derived primarily from investment management fees and 12b-1 fees. Investment management fees are recognized as services are provided. Such fees are based on the net assets of the funds and are collected directly from the applicable funds. Mutual fund distribution fees are recognized over the period in which the fees can be charged to the related funds, or when a contingent deferred sales charge is triggered by a redemption. Sales of mutual fund shares are recorded on a settlement date basis and commissions thereon are recorded on a trade date basis. Fees resulting from achievement of specified performance thresholds are recorded when such levels are attained and such fees are not subject to forfeiture.

MMC has deferred the recognition of performance fee revenue in connection with the management of certain private equity funds of \$113 million at December 31, 2005. This revenue is based on the investment performance over the life of each private equity fund, and future underperformance may result in the forfeiture of such revenue. As note above, MMC only recognizes performance fee revenue when such fees are no longer subject to forfeiture, which for the \$113 million noted above, may take a number of years to resolve.

Cash and Cash Equivalents: Cash and cash equivalents primarily consist of certificates of deposit and time deposits, generally with original maturities of three months or less.

Fixed Assets: Fixed assets are stated at cost less accumulated depreciation and amortization. Expenditures for improvements are capitalized. Upon sale or retirement, the cost and related accumulated depreciation and amortization are removed from the accounts and any gain or loss is reflected in income. Expenditures for maintenance and repairs are charged to operations as incurred.

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

Depreciation of buildings, building improvements, furniture, and equipment is provided on a straight-line basis over the estimated useful lives of these assets. Leasehold improvements are amortized on a straight-line basis over the periods covered by the applicable leases or the estimated useful life of the improvement, whichever is less. MMC periodically reviews long-lived assets for impairment whenever events or changes indicate that the carrying value of assets may not be recoverable.

The components of fixed assets are as follows:

December 31, (In millions of dollars)	2005	2004
Furniture and equipment	\$ 1,557	\$ 1,612
Land and buildings	457	457
Leasehold and building improvements	888	897
	2,902	2,966
Less accumulated depreciation and amortization	(1,724)	(1,603)
	\$ 1,178	\$ 1,363

Investment Securities: MMC holds investments in both public and private companies, as well as certain private equity funds (managed by Stone Point and T.H. Lee) and seed shares for mutual funds. Publicly traded investments are classified as available for sale or trading securities in accordance with SFAS No. 115, Accounting for Certain Investments in Debt and Equity Securities (SFAS 115), and carried at market value. Non-publicly traded investments are carried at cost in

60

accordance with APB Opinion No. 18 (APB 18). Changes in the fair value of trading securities are recorded in earnings when they occur. Changes in the fair value of available for sale securities are recorded in stockholders' equity, net of applicable taxes, until realized. Securities classified as trading or available for sale under SFAS 115, or carried at cost under APB 18, are included in Long-term investments in the consolidated balance sheets.

Certain investments, primarily investments in private equity funds, are accounted for using the equity method under APB 18. The underlying private equity funds follow investment company accounting, where securities within the fund are carried at fair value. MMC records its proportionate share of the change in fair value of the funds in earnings. Securities recorded using the equity method are included in Other assets in the consolidated balance sheets.

Gains or losses recognized in earnings from the investment securities described above are included in Investment income (loss) in the consolidated statements of income. Costs related to management of MMC's investments, including incentive compensation partially derived from investment income and loss, are recorded in operating expenses.

Goodwill and Other Intangible Assets: Goodwill represents acquisition costs in excess of the fair value of net assets acquired. Goodwill is reviewed at least annually for impairment. MMC performs an annual impairment test for each of its reporting units during the third quarter of each year. Fair values of the reporting units are estimated using a market approach or a discounted cash flow model. Carrying values for the reporting units are based on balances from the prior quarter end and include directly identified assets and liabilities as well as an allocation of those assets and liabilities not recorded at the reporting unit level. Other intangible assets that are not deemed to have an indefinite life are amortized over their estimated lives and reviewed for impairment upon the occurrence of certain triggering events in accordance with applicable accounting literature.

Capitalized Software Costs: MMC capitalizes certain costs to develop, purchase, or modify software for the internal use of MMC. These costs are amortized on a straight-line basis over periods ranging from three to ten years. Costs incurred during the preliminary project stage and post implementation stage are expensed as incurred. Costs incurred during the application development stage are capitalized. Costs related to updates and enhancements are only capitalized if they will result in additional functionality. Computer software costs of \$284 million and \$281 million, net of accumulated amortization of \$524 million and \$413 million at December 31, 2005 and 2004, respectively, are included in Other assets in the consolidated balance sheets.

Legal and Other Loss Contingencies: MMC and its subsidiaries are subject to a significant number of claims, lawsuits and proceedings. MMC records liabilities for contingencies including legal costs when it is probable that a liability has been incurred before the balance sheet date and the amount can be reasonably estimated. To the extent such losses can be recovered under MMC's insurance programs, estimated recoveries are recorded when losses for insured events are recognized. Significant management judgment is required to estimate the amounts of such contingent liabilities and the related insurance recoveries. MMC analyzes its litigation exposure based on available information, including consultation with outside counsel handling the defense of these matters, to assess its potential liability. Contingent liabilities are not discounted.

Income Taxes: MMC's tax rate reflects its income, statutory tax rates and tax planning in the various jurisdictions in which it operates. Significant judgment is required in determining the annual tax rate and in evaluating tax positions. Tax allowances are established for uncertain tax positions when, despite the belief that the tax return positions are consistent with applicable law, there is the potential that they may be successfully challenged. The allowances are established for all identified liabilities, and related interest, that are probable and can be estimated in accordance with SFAS

No. 5. The possibility that a taxing authority may not assert an issue is not taken into account. It is assumed that the taxing authority will become fully aware of all facts relating to an issue and propose adjustments as appropriate. Allowances are evaluated based upon the facts and circumstances that exist at each reporting period. Allowances for issues that have been asserted by tax authorities and resolved by agreement are adjusted in the quarter when agreement is reached. If the statute of limitations operates to bar assessment of an issue that has not been asserted by a taxing authority, the related allowance is reversed at that time.

Tax law requires items to be included in MMC's tax returns at different times than the items are reflected in the consolidated statements of income. As a result, the annual tax expense reflected in the consolidated statements of income is different than that reported in the tax returns. Some of these differences are permanent, such as expenses that are not deductible in the returns, and some differences are temporary and reverse over time, such as depreciation expense. Temporary differences create deferred tax assets and liabilities. Deferred tax assets generally represent items that can be used as a tax deduction or credit in tax returns in future years for which benefit has already been recorded in the financial statements. Valuation allowances are established for deferred tax assets when it is estimated that it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax liabilities generally represent tax expense recognized in the financial statements for which payment has been deferred, or expense for which a deduction has been taken already in the tax return but the expense has not yet been recognized in the financial statements.

U.S. Federal income taxes are provided on unremitted foreign earnings except those that are considered permanently reinvested, which at December 31, 2005 amounted to approximately \$1.4 billion. However, if these earnings were not considered permanently reinvested, the incremental tax liability which otherwise might be due upon distribution, net of foreign tax credits, would be approximately \$40 million.

Derivative Instruments: All derivatives, whether designated in hedging relationships or not, are recorded on the balance sheet at fair value. If the derivative is designated as a fair value hedge, the changes in the fair value of the derivative and of the hedged item attributable to the hedged risk are recognized in earnings. If the derivative is designated as a cash flow hedge, the effective portions of changes in the fair value of the derivative are recorded in other comprehensive income and are recognized in the income statement when the hedged item affects earnings. Ineffective portions of changes in the fair value of cash flow hedges are recognized in earnings.

Variable Interest Entities: MMC through Putnam, manages \$3.4 billion in the form of Collateralized Debt Obligations (CDO) and Collateralized Bond Obligations (CBO). Separate limited liability companies were established to issue the notes and to hold the underlying collateral, which consists of high-yield bonds and other securities. Putnam serves as the collateral manager for the CDOs and CBOs. The maximum loss exposure related to the CDOs and CBOs is limited to Putnam's investment totaling \$7.3 million, reflected in Long-term investments in the consolidated balance sheets at December 31, 2005. MMC has concluded it is not the primary beneficiary of these structures under FIN 46 Consolidation of Variable Interest Entities.

Concentrations of Credit Risk: Financial instruments which potentially subject MMC to concentrations of credit risk consist primarily of cash and cash equivalents, commissions and fees receivable and insurance recoverables. MMC maintains a policy providing for the diversification of cash and cash equivalent investments and places its investments in an extensive number of high quality financial institutions to limit the amount of credit risk exposure. Concentrations of credit risk with respect to receivables are generally limited due to the large number of clients and markets in which MMC does business, as well as the dispersion across many geographic areas.

Per Share Data: Basic net income per share is calculated by dividing net income by the weighted average number of shares of MMC's common stock outstanding, excluding unvested restricted stock. Diluted net income per share is calculated by reducing net income for the potential minority interest expense associated with unvested shares under the Putnam Equity Partnership Plan, discussed further in Note 9, and adding back dividend equivalent expense related to common stock equivalents, to the extent recognized in earnings. This result is then divided by the weighted average common shares outstanding, which have been adjusted for the dilutive effect of potentially issuable common shares. The following reconciles income from continuing operations to income from continuing operations for diluted earnings per share and basic weighted average common shares outstanding to diluted weighted average common shares outstanding:

For the Years Ended December 31, (In millions)	2005	2004	2003
Income from continuing operations	\$ 369	\$ 154	\$ 1,516
Less: Potential minority interest expense associated with Putnam Class B Common Shares	(5)		(1)
Add: Dividend equivalent expense related to common stock equivalents	1	2	2
Income from continuing operations for diluted earnings per share	\$ 365	\$ 156	\$ 1,517
Basic weighted average common shares outstanding	538	526	533
Dilutive effect of potentially issuable common shares	5	9	15
Diluted weighted average common shares outstanding	543	535	548
Average stock price used to calculate common stock equivalents	\$29.65	\$42.12	\$46.99

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results may vary from those estimates.

New Accounting Pronouncements: On February 3, 2006, the FASB released FASB Staff Position No. FSP 123(R)-4, Classification of Options and Similar Instruments Issued as Employee Compensation that Allow for Cash Settlement upon the Occurrence of a Contingent Event (FSP 123(R)-4). The guidance in FSP 123(R)-4 changes the classification of certain options issued by a subsidiary of MMC from liability awards to equity awards unless a contingent settlement feature in the award becomes probable of occurring. Transition provisions of FSP 123(R)-4 require retrospective application of the guidance to prior periods where SFAS 123(R) had been adopted prior to the issuance of FSP 123(R)-4. As a result, a charge of \$6 million taken by MMC in the third quarter of 2005 when SFAS 123(R) was initially adopted was reversed by reflecting such adjustment in the third quarter 2005 amounts in MMC's Selected Quarterly Financial Data and Supplemental Information in MMC's 2005 annual report.

In June 2005, the FASB ratified its consensus EITF Issue 04-05, Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When

the Limited Partners Have Certain Rights (Issue 04-05). The effective date for Issue 04-05 is June 29, 2005 for all new or modified partnerships and January 1, 2006 for all remaining partnerships for the applicable provisions. MMC is currently evaluating the impact of the adoption of the provisions of EITF 04-05 on its financial position and results of operations; however, the adoption of EITF 04-05 is not expected to have a material impact on MMC's financial statements.

Reclassifications: Certain reclassifications have been made to the prior year amounts to conform with current year presentation, in particular with regard to segment reclassification resulting from changes in MMC's organizational structure, discontinued operations classification for Crump and SCMS, the income statement classification of severance related restructuring charges, and the balance sheet classification of certain

MMC deferred compensation balances.

2. Supplemental Disclosures

The following schedule provides additional information concerning acquisitions, interest and income taxes paid:

For the Years Ended December 31, <i>(In millions of dollars)</i>	2005	2004	2003
Purchase acquisitions:			
Assets acquired, excluding cash	\$ 68	\$2,353	\$ 408
Liabilities assumed		(17)	(9)
Issuance of debt and other obligations	(8)	(33)	(115)
Deferred purchase consideration	80	61	
Shares issuable	(66)		(106)
Net cash outflow for acquisitions	\$ 74	\$2,364	\$ 178
Interest paid	\$307	\$ 198	\$ 172
Income taxes paid	\$156	\$ 383	\$ 542

An analysis of the allowance for doubtful accounts for the three years ended December 31, follows:

<i>(In millions of dollars)</i>	2005	2004	2003
Balance at beginning of year	\$142	\$115	\$122
Provision charged to operations	49	30	18
Accounts written-off, net of recoveries	(25)	(10)	(35)
Effect of exchange rate changes	(9)	7	10
Balance at end of year	\$157	\$142	\$115

In September 2005, the Company contributed 8 million unregistered shares of MMC stock valued at \$205 million, to the U.S. qualified retirement plan.

3. Other Comprehensive Income (Loss)

The components of other comprehensive income (loss) are as follows:

For the Years Ended December 31, <i>(In millions of dollars)</i>	2005	2004	2003
Foreign currency translation adjustments	\$(271)	\$ 234	\$ 302
Unrealized investment holding gains, net of income tax liability of \$10, \$3 and \$54 in 2005, 2004 and 2003, respectively	18	8	98
Less: Reclassification adjustment for realized gains included in net income, net of income tax liability of \$55, \$36 and \$12 in 2005, 2004 and 2003, respectively	(103)	(66)	(22)
Minimum pension liability adjustment, net of income tax benefit of \$3 in 2005, \$123 in 2004 and \$77 in 2003	(30)	(266)	(201)
Deferred loss on cash flow hedges, net of income tax benefit of \$0, \$(1) and \$(2) in 2005, 2004 and 2003, respectively		(1)	(4)

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

For the Years Ended December 31,
(In millions of dollars)

	2005	2004	2003
	\$ (386)	\$ (91)	\$ 173

The components of accumulated other comprehensive loss, net of taxes, are as follows:

December 31,
(In millions of dollars)

	2005	2004
Foreign currency translation adjustments	\$ (27)	\$ 244
Net unrealized investment gains	53	138
Minimum pension liability adjustment	(782)	(752)
	\$ (756)	\$ (370)

4. Acquisitions and Dispositions

During 2005, MMC made nine acquisitions, for total purchase consideration of \$68 million. The allocation of purchase consideration resulted in acquired goodwill of \$45 million as of December 31, 2005. Estimated fair values of assets acquired and liabilities assumed are subject to adjustment when purchase accounting is finalized.

In May 2005, MMC sold the assets of MMC Capital, its private equity manager, to Stone Point Capital LLC, a company controlled by the former managers of MMC Capital for approximately \$3 million. Stone Point has assumed responsibility for management of the Trident Funds and other private equity funds previously managed by MMC Capital. MMC does not participate in the investment decisions or management of Stone Point or the private equity funds managed by Stone Point. MMC continues to own direct investments in insurance and financial services companies, including Ace Ltd., XL Capital Ltd and Axis Capital Holdings Ltd., as well as its investments in the Trident Funds and other funds managed by Stone Point.

In July 2004, MMC acquired Kroll, the world's leading risk mitigation services firm in an all-cash \$1.9 billion transaction in which Kroll shareholders received \$37 for each outstanding share of Kroll common stock owned. The estimated fair values of assets and liabilities recorded in the financial statements are as follows: net tangible assets of \$46 million, identified intangible assets of \$336 million, and goodwill of \$1.6 billion.

65

In addition, MMC acquired Synhrgy HR Technologies, a leading provider of human resource technology and outsourcing services, for a total cost of \$115 million in 2004. Substantially all employees of Synhrgy became employees of MMC. Approximately \$7 million of the purchase consideration is subject to continued employment of the selling shareholders and is being recorded as compensation expense over three years. MMC also acquired the Australia and New Zealand operations of Heath Lambert for \$53 million in March of 2004, Prentis Donegan for \$63 million in cash in July of 2004, an additional 30% of the voting stock of PanAgora Asset Management, Inc. (bringing its total to an 80% voting majority) for \$3 million in cash in July of 2004, Centerlink for \$36 million in September 2004 and Corporate Systems for \$72 million in cash in October 2004.

5. Discontinued Operations

MMC sold Crump Group, Inc., its U.S.-based wholesale insurance broker, during the fourth quarter of 2005, and its majority interest in Sedgwick CMS Holdings, a provider of claims management and associated productivity services, on January 31, 2006. As previously discussed, the account balances and activities of these entities were segregated and reported as discontinued operations in the accompanying consolidated financial statements at December 31, 2005 and 2004 and for each of the three years in the period ended December 31, 2005. Both of these entities were part of MMC's Risk and Insurance Services segment.

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

Summarized Statements of Income data for discontinued operations is as follows:

For the Years Ended December 31, (In millions of dollars)	2005	2004	2003
Total Revenue	\$457	\$399	\$344
Income before provision for income tax	\$ 41	\$ 41	\$ 43
Provision for income tax	20	19	19
Income from discontinued operations, net of tax	21	22	24
Gain on disposal of discontinued operations	55		
Provision for income tax	41		
Gain on disposal of discontinued operations, net of tax	14		
Discontinued operations, net of tax	\$ 35	\$ 22	\$ 24

Summarized Balance Sheet data for discontinued operations is as follows:

For the Years Ended December 31, (In millions of dollars)	2005	2004
Assets of discontinued operations:		
Current assets	\$ 40	\$ 62
Fixed assets, net	31	24
Goodwill and intangible assets	78	83
Other assets	4	4
Total assets of discontinued operations	\$ 153	\$ 173
Liabilities of discontinued operations	\$ 89	\$ 46

6. Goodwill and Other Intangibles

MMC is required to assess goodwill and any indefinite-lived intangible assets for impairment annually or more frequently if circumstances indicate impairment may have occurred. In connection with MMC's annual impairment tests in the third quarter of 2005, it was determined that such assets were not impaired.

66

Changes in the carrying amount of goodwill are as follows:

<i>(In millions of dollars)</i>	
Balance as of January 1, 2005	\$7,459
Goodwill acquired	45
Disposals	(95)
Transfer to identified intangible asset (purchase accounting adjustment)	(38)
Other adjustments ^(a)	(125)
Balance as of December 31, 2005	\$7,246

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

(a) Primarily includes foreign exchange.

Goodwill allocable to each of MMC's reportable segments is as follows: Risk and Insurance Services \$3.7 billion; Risk Consulting and Technology \$1.7 billion; Consulting \$1.7 billion; and Investment Management \$125 million.

The goodwill balance at December 31, 2005 and 2004 includes approximately \$121 million and \$119 million, respectively, of equity method goodwill.

Amortized intangible assets consist of the cost of client lists, client relationships and trade names acquired, and the rights to future revenue streams from certain existing private equity funds. The gross cost and accumulated amortization by major intangible asset class is as follows:

December 31, (In millions of dollars)	2005			2004		
	Gross Cost	Accumulated Amortization	Net Carrying Amount	Gross Cost	Accumulated Amortization	Net Carrying Amount
Customer and marketing related	\$ 638	\$ 191	\$ 447	\$ 613	\$ 115	\$ 498
Future revenue streams related to existing private equity funds	200	125	75	199	108	91
Total amortized intangibles	\$ 838	\$ 316	\$ 522	\$ 812	\$ 223	\$ 589

Aggregate amortization expense for the years ended December 31, 2005 and 2004, was \$99 million and \$64 million, respectively, and the estimated future aggregate amortization expense is as follows:

For the Years Ending December 31, (In millions of dollars)	Estimated Expense
2006	\$ 92
2007	\$ 74
2008	\$ 64
2009	\$ 56
2010	\$ 41

67

7. Income Taxes

Income before income taxes and minority interest shown below is based on the geographic location to which such income is attributable. Although income taxes related to such income may be assessed in more than one jurisdiction, the income tax provision corresponds to the geographic location of the income.

For the Years Ended December 31, (In millions of dollars)	2005	2004	2003
Income before income taxes and minority interest:			
U.S.	\$ 142	\$ (111)	\$ 1,386
Other	429	513	901
	\$ 571	\$ 402	\$ 2,287
Income taxes:			
Current			

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

For the Years Ended December 31,
(In millions of dollars)

	2005	2004	2003
U.S. Federal	\$ (22)	\$ 187	\$ 419
Other national governments	125	80	159

	36	(71)	90
Total income taxes	\$ 192	\$ 240	\$ 751

68

The significant components of deferred income tax assets and liabilities and their balance sheet classifications are as follows:

December 31,
(In millions of dollars)

	2005	2004
Deferred tax assets:		
Accrued expenses not currently deductible ^(a)	\$ 793	\$ 807
Differences related to non-U.S. operations	215	242
Net operating losses ^(b)	31	9
Other	62	54
	\$ 1,101	\$ 1,112
Deferred tax liabilities:		
Unrealized investment holding gains	\$ 29	\$ 74
Differences related to non-U.S. operations	91	123
Depreciation and amortization	282	277
Accrued retirement benefits	107	34
Other	24	28
	\$ 533	\$ 536

^(a) Net of valuation allowance of \$9 million and \$10 million, respectively.

^(b) Net of valuation allowance of \$68 million and \$41 million, respectively.

Balance sheet classifications:

Current assets	\$ 153	\$ 282
Other assets	\$ 415	\$ 294

A reconciliation from the U.S. Federal statutory income tax rate to MMC's effective income tax rate is shown below.

For the Years Ended December 31,	2005	2004	2003
----------------------------------	------	------	------

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

For the Years Ended December 31,	2005	2004	2003
	%	%	%
U.S. Federal statutory rate	35.0	35.0	35.0
U.S. state and local income taxes net of U.S. Federal income tax benefit	5.1	1.6	1.9
Differences related to non-U.S. operations	(5.1)	(8.2)	(4.2)
NYAG lawsuit, including state taxes		12.9	
Putnam regulatory settlements		19.4	
Meals and entertainment	1.5	2.9	.5
Dividends paid to employees	(1.4)	(3.3)	(.6)
Other	(1.5)	(.9)	.2
Effective tax rate	33.6	59.4	32.8

MMC is routinely examined by the Internal Revenue Service and tax authorities in the United Kingdom, as well as states in which it has significant business operations, such as California, Massachusetts and New York. The tax years under examination vary by jurisdiction. MMC regularly considers the likelihood of assessments in each of the taxing jurisdictions resulting from examinations. MMC has established tax allowances which it believes are adequate in relation to the potential assessments. MMC believes the resolution of tax matters will not have a material effect on the consolidated financial condition of MMC, although a resolution could have a material impact on MMC's net income or cash flows and on its effective tax rate in a particular future period.

69

The net changes in the valuation allowances for the years ended December 31, 2005 and 2004 were increases of \$26 million and \$19 million respectively. Approximately \$22 million of the cumulative valuation allowances relates to amounts which if realized would reduce goodwill or increase contributed capital in the future. Approximately 70% of the Company's net operating loss carryforwards expire over various periods from 2006 through 2025, and others are unlimited. In assessing the realizability of deferred tax assets, the Company considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized and adjusts the valuation allowance accordingly. MMC evaluates all significant available positive and negative evidence, including the existence of losses in recent years and its forecast of future taxable income, in assessing the need for a valuation allowance. The underlying assumptions the Company uses in forecasting future taxable income require significant judgment and take into account the Company's recent performance. The ultimate realization of deferred tax assets is dependent on the generation of future taxable income during the periods in which temporary differences are deductible. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, MMC believes it is more likely than not that it will realize the benefits of the deferred tax assets, net of existing valuation allowances at December 31, 2005. The amount of the deferred tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carryforward period are reduced.

The American Jobs Creation Act (the Act), adopted on October 22, 2004, provided for a special one-time tax deduction, or dividend received deduction, of 85% of qualifying foreign earnings that are repatriated in either a company's last tax year that began before the enactment date or the first tax year that begins during the one-year period beginning on the enactment date. In the fourth quarter of 2005, MMC recorded an income tax benefit of \$8 million, attributable to the repatriation of approximately \$585 million of qualifying earnings under the provisions of the Act. The \$8 million tax benefit resulted from the reversal of deferred tax liabilities previously provided under SFAS No. 109, which were in excess of the tax liabilities from repatriation of these qualifying earnings.

8. Retirement Benefits

MMC maintains qualified and non-qualified defined benefit pension plans for its eligible U.S. employees and a variety of defined benefit and defined contribution plans for eligible non-U.S. employees. MMC's policy for funding its tax qualified defined benefit pension plans is to contribute amounts at least sufficient to meet the funding requirements set forth in U.S. and applicable foreign law.

The weighted average actuarial assumptions utilized for the U.S. and significant non-U.S. defined benefit plans as of the end of the year are as follows:

	Pension Benefits		Postretirement Benefits	
	2005	2004	2005	2004
Weighted average assumptions:				
Discount rate (for expense)	5.5%	5.8%	5.9%	6.3%
Expected return on plan assets	8.4%	8.4%		
Rate of compensation increase (for expense)	3.6%	3.7%		
Discount rate (for benefit obligation)	5.1%	5.5%	5.6%	5.9%
Rate of compensation increase (for benefit obligation)	3.8%	3.6%		

70

The long-term rate of return assumption is selected for each plan based on the facts and circumstances that exist as of the measurement date, and the specific portfolio mix of each plan's assets. MMC uses Mercer actuaries to perform the valuations of its pension plans. MMC utilizes a model developed by its actuaries to assist in the setting of this assumption. The model takes into account several factors including: actual and target portfolio allocation; investment, administrative and trading expenses incurred directly by the plan trust; historical portfolio performance; relevant forward-looking economic analysis; and expected returns, variances, and correlations for different asset classes. All returns utilized and produced by the model are geometric averages. These measures are used to determine probabilities using standard statistical techniques to calculate a range of expected returns on the portfolio. MMC generally does not adjust the rate of return assumption from year to year if, at the measurement date, it is within the best estimate range, defined as between the 25th and 75th percentile of the expected long-term annual returns in accordance with the American Academy of Actuaries Pension Practice Council Note May 2001 Selecting and Documenting Investment Return Assumptions and consistent with Actuarial Standards of Practice No. 27. The historical five and ten-year average asset returns of each plan are also reviewed to ensure they are consistent and reasonable compared with the best estimate range. The expected return on plan assets is determined by applying the assumed long-term rate of return to the market-related value of plan assets as defined by SFAS No. 87. This market-related value recognizes investment gains or losses over a five-year period from the year in which they occur. Investment gains or losses for this purpose are the difference between the expected return calculated using the market-related value of assets and the actual return based on the market value of assets. Since the market-related value of assets recognizes gains or losses over a five-year period, the future market-related value of the assets will be impacted as previously deferred gains or losses are recorded.

The target asset allocation for the U.S. plans is 70% equities and 30% fixed income, and for the U.K. plans, which comprise approximately 85% of non-U.S. plan assets, is 58% equities and 42% fixed income. As of the measurement date, the actual allocation of assets for the U.S. plan was 74% to equities and 26% to fixed income, and for the U.K. plans was 57% to equities and 43% to fixed income. The assets of the company's defined benefit plans are well-diversified and are managed in accordance with applicable laws and with the goal of maximizing the plans' real return within acceptable risk parameters. MMC uses threshold based portfolio rebalancing to ensure the actual portfolio remains consistent with target allocations.

The discount rate selected for each U.S. plan is based on a model bond portfolio with durations that match the expected payment patterns of the plan. Discount rates for non-U.S. plans are based on appropriate bond indices such as the IBoxx £ Corporates 15-year index in the U.K. Projected compensation increases reflect current expectations as to future levels of inflation.

The components of the net periodic benefit cost (income) for combined U.S. and significant non-U.S. defined benefit and other postretirement plans are as follows:

For the Years Ended December 31, (In millions of dollars)	Pension Benefits			Postretirement Benefits		
	2005	2004	2003	2005	2004	2003
Service cost	\$ 245	\$ 232	\$ 190	\$ 9	\$ 11	\$ 9
Interest cost	472	422	363	18	20	20
Expected return on plan assets	(640)	(618)	(545)			

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

For the Years Ended December 31,	Pension Benefits			Postretirement Benefits		
Amortization of prior service credit	(41)	(38)	(38)	(3)	(2)	(2)
Amortization of transition asset		(5)	(5)			
Recognized actuarial loss	177	90	26	1	3	5
Net Periodic Benefit Cost (Income)	\$ 213	\$ 83	\$ (9)	\$25	\$32	\$ 32

71

The following schedules provide information concerning MMC's U.S. defined benefit pension plans and postretirement benefit plans:

December 31, (In millions of dollars)	U.S. Pension Benefits		U.S. Postretirement Benefits	
	2005	2004	2005	2004
Change in benefit obligation:				
Benefit obligation at beginning of year	\$ 3,013	\$2,538	\$ 309	\$ 290
Service cost	88	78	8	10
Interest cost	176	164	15	17
Amendments	(138)		(92)	
Actuarial loss	80	347	(27)	3
Benefits paid	(125)	(114)	(19)	(11)
Benefit obligation at end of year	\$ 3,094	\$3,013	\$ 194	\$ 309
Change in plan assets:				
Fair value of plan assets at beginning of year	\$ 2,635	\$2,407	\$	\$
Actual return on plan assets	276	298		
Employer contributions	229	44	19	11
Benefits paid	(125)	(114)	(19)	(11)
Fair value of plan assets at end of year	\$ 3,015	\$2,635	\$	\$
Funded status	\$ (79)	\$ (378)	\$ (194)	\$ (309)
Unrecognized net actuarial loss	858	899	38	66
Unrecognized prior service credit	(282)	(185)	(93)	(5)
Unrecognized transition asset				
Net asset (liability) recognized	\$ 497	\$ 336	\$ (249)	\$ (248)
Amounts recognized in the Consolidated Balance sheets consist of:				
Prepaid benefit cost	\$ 746	\$ 580	\$	\$
Accrued benefit liability	(314)	(316)	(249)	(248)
Accumulated other comprehensive loss	65	72		
Net asset (liability) recognized	\$ 497	\$ 336	\$ (249)	\$ (248)
Accumulated benefit obligation at December 31	\$ 3,021	\$2,846	\$	\$

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

The weighted average actuarial assumptions utilized in determining the above amounts for the U.S. defined benefit and other U.S. postretirement plans as of the end of the year are as follows:

	U.S. Pension Benefits		U.S. Postretirement Benefits	
	2005	2004	2005	2004
Weighted average assumptions:				
Discount rate (for expense)	6.0%	6.4%	6.0%	6.4%
Expected return on plan assets	8.75%	8.75%		
Rate of compensation increase (for expense)	3.0%	3.15%		
Discount rate (for benefit obligation)	5.9%	6.0%	5.9%	6.0%
Rate of compensation increase (for benefit obligation)	3.4%	2.85%		

72

In September 2005 the Company contributed 8 million unregistered shares of MMC stock, valued at \$205 million, to the U.S. qualified plan. Prior to this contribution, the U.S. qualified plan held no MMC securities. Plan assets of approximately \$2.0 billion and \$1.9 billion at December 31, 2005 and 2004, respectively, were managed by Putnam, which includes both separately managed and publicly available investment funds.

The assets and liabilities of the U.S. defined benefit pension plans were re-measured at October 31, 2005 to reflect a change in substantive plan as defined by SFAS No. 87, Employer's Accounting for Pensions. The changes include changing the benefit formula from a final average salary to a career average salary as well as a change in the calculation for early retirement benefits. The change in substantive plans reduced the projected benefit obligation by approximately \$138 million.

The projected benefit obligation, accumulated benefit obligation, and fair value of plan assets for the U.S. pension plans with accumulated benefit obligations in excess of plan assets were \$326 million, \$315 million and \$0, respectively, as of December 31, 2005 and \$340 million, \$315 million and \$0, respectively, as of December 31, 2004.

The components of the net periodic benefit cost (income) for the U.S. defined benefit and other postretirement benefit plans are as follows:

For the Years Ended December 31, (In millions of dollars)	U.S. Pension Benefits			U.S. Postretirement Benefits		
	2005	2004	2003	2005	2004	2003
Service cost	\$ 88	\$ 78	\$ 66	\$ 8	\$ 10	\$ 8
Interest cost	176	164	153	15	17	17
Expected return on plan assets	(233)	(230)	(228)			
Amortization of prior service credit	(40)	(38)	(38)	(3)	(2)	(2)
Amortization of transition asset		(5)	(5)			
Recognized actuarial loss	78	46	18	1	3	5
Net Periodic Benefit Cost (Income)	\$ 69	\$ 15	\$ (34)	\$ 21	\$ 28	\$ 28
Curtailment (Gain)/loss				(1)		
Total Expense	\$ 69	\$ 15	\$ (34)	\$ 20	\$ 28	\$ 28

In December 2003, the Medicare Prescription Drug, Improvement and Modernization Act of 2003 became law. The net periodic benefit cost for 2005 shown above includes the subsidy.

Edgar Filing: MARSH & MCLENNAN COMPANIES, INC. - Form 10-K

The assumed health care cost trend rate for Medicare eligibles was approximately 11.5% in 2005 gradually declining to 5% in the year 2019, and the rate for non-Medicare eligibles was 10.5% in 2005 gradually declining to 5.0% in 2017. Assumed health care cost trend rates have a significant effect on the amounts reported for the U.S. health care plans. A one percentage point change in assumed health care cost trend rates would have the following effects:

<i>(In millions of dollars)</i>	1 Percentage Point Increase	1 Percentage Point Decrease
Effect on total of service and interest cost components	\$ 4	\$ (3)
Effect on postretirement benefit obligation	\$ 2	\$ (8)

73

The following schedules provide information concerning MMC's significant non-U.S. defined benefit pension plans and non-U.S. postretirement benefit plans:

December 31, <i>(In millions of dollars)</i>	Non-U.S. Pension Benefits		Non-U.S. Postretirement Benefits	
	2005	2004	2005	2004
Change in benefit obligation:				
Benefit obligation at beginning of year	\$5,936	\$ 4,666	\$ 62	\$ 55
Service cost	157	154	1	1
Interest cost	296	258	3	3
Employee contributions	37	36		
Actuarial loss (gain)	648	591	9	1
Effect of settlement	(14)	(11)		
Effect of Curtailment	(40)			
Special termination benefits	17	6		
Benefits paid	(210)	(162)	(3)	(3)
Foreign currency changes	(539)	429	(2)	5
Plan amendments		(31)		
Benefit obligation at end of year	\$6,288	\$ 5,936	\$ 70	\$ 62
Change in plan assets:				
Fair value of plan assets at beginning of year	\$4,815	\$ 3,934	\$	\$
Actual return on plan assets	785	427		
Effect of settlement	(12)	(11)
