President and Representative
Director

This report on Form 6-K contains the following:

1. The English translation version of 58th Semiannual Business Report for the six-month period ended September 30, 2003.

(TRANSLATION)

THE 58TH SEMIANNUAL BUSINESS REPORT
For the Six Months Ended September 30, 2003

This is a translation of the original Semiannual Business Report written in the Japanese language, prepared primarily for the benefit and information of shareholders of the Company's common stock.

PIONEER CORPORATION

Tokyo, Japan

TO OUR SHAREHOLDERS

In the first half of the 58th accounting period, which ended September 30, 2003, consolidated operating revenue of Pioneer Corporation came to 321,090 million yen, about the same as last year.

Operating income increased 33.5% from the same period of the previous year to 17,591 million yen, due mainly to the lower cost of sales ratio, reductions in selling, general and administrative expenses, and higher profits from Patent Licensing as a result of increased revenue from royalties. Net income for the six-month period was 12,475 million yen, up significantly from 5,664 million yen a year earlier, boosted by the growth in operating income, a decrease in foreign exchange loss, a decline in equity in losses of affiliated companies, and income from discontinued operations associated with the sale of our audio/video software subsidiaries.

On a parent-only basis, net sales for the April-September period fell 2.9% to 215,803 million yen, while a net loss of 1,066 million yen was posted, compared with a net income of 1,311 million yen for the same period last year, due to losses from the sale of audio/video software subsidiaries and losses on business

Edgar Filing: PIONEER CORP - Form 6-K

reorganization programs.

Interim dividend payments were raised 5.0 yen this year to 12.5 yen per share of common stock.

We continue to face a severe business environment, including uncertainty regarding the economic direction of our major markets - Japan, North America and Europe - and growing price competition for our main products, as well as the rapid appreciation of the yen. Under these circumstances, we are continuing to implement our "select and focus" policy to further expand profitability and improve

1

management efficiency. Pioneer is actively investing management resources in strategic businesses to achieve the group's medium-term business plan. Examples of this include converting optical disc production lines to plasma display lines and the recent transfer of two audio/video software subsidiaries in Japan and the United States to a third party.

To meet the rapid growth in demand for plasma displays, we are continuing to build an efficient production system. We are currently expanding the production line at Pioneer Display Products Corporation, a plasma display production subsidiary, to boost Pioneer's production capacity to more than 500,000 units per year by spring 2005. And to differentiate our products from those of our competitors, we are developing panels that consume less power and offer greater picture quality, while also working to cut costs.

In the DVD business, demand for recordable DVD drives for personal computer (PC) use has seen strong growth. We are actively expanding this business as we strengthen our production capacity in China. Our home-use DVD recorders, especially those offering higher added value with hard disk drives (HDDs) have also been selling very well, and we aim to expand our range of models. We will continue to boost sales in both the PC and home audio/video markets.

Regarding the car electronics business, we will continue to make aggressive promotions and lead the market. In our car navigation systems, HDD models with advanced features are performing well, as are DVD models offering ease of use and affordability. We also maintain a strong position in the car audio market. To satisfy the increasingly diversified needs of consumers, we have been releasing a

2

number of advanced products, such as CD players with organic electroluminescent (OEL) displays that effectively differentiate themselves from the products of other manufacturers. We are striving to increase our dominance even further.

Pioneer is continuing its drive to minimize operating costs and expenses throughout the group. As well as cutting manufacturing costs by expanding production in China, we are implementing a system that places strict controls on expenses and working on improving ratio in selling, general and administrative expenses. Last April, we launched full operation of a group-wide supply chain management system for some of our products - the result of a project to thoroughly control consolidated inventories. The combination of these efforts should improve our cash flows and further boost profitability.

We sincerely hope that you, our shareholders, will continue in your

Edgar Filing: PIONEER CORP - Form 6-K

understanding and support of Pioneer.

December 2003

Kaneo Ito
President and Representative Director

CONSOLIDATED OPERATING REVENUE BY BUSINESS SEGMENT

PERCENT OF OPERATING REVENUE

	Six Months Ended September 30		
	2001	2002	2003
Home Electronics	31.1%	30.3%	25.0%
Car Electronics	43.2%	45.3%	44.2%
Patent Licencing	3.6%	1.9%	2.6%
Others	22.1%	22.5%	28.2%
	-----	-----	-----
	100.0%	100.0%	100.0%
	=====	=====	=====

As a result of the sale of audio/video software subsidiaries in the first half of the 58th accounting period, figures for the corresponding period last year in the "Others" segment have been reclassified.

HOME ELECTRONICS

THIS SEGMENT INCLUDES DVD PLAYERS, DVD RECORDERS, PLASMA DISPLAYS, PROJECTION TVS, STEREO SYSTEMS, INDIVIDUAL STEREO COMPONENTS, EQUIPMENT FOR CABLE-TV SYSTEMS, DIGITAL BROADCAST SET-TOP BOXES AND TELEPHONES.

Sales in the Home Electronics segment amounted to 80,149 million yen, a decline of 17.2% from the same period last year.

In Japan, while sales of DVD recorders showed strong gains, sales of plasma displays for home use and DVD players fell, resulting in total domestic sales of 27,025 million yen, down 8.3% from the same period last year.

Overseas, sales of plasma displays for home use grew in North

4

America, while sales declined for DVD players in Europe and Asia, for audio

Edgar Filing: PIONEER CORP - Form 6-K

products and digital cable-TV set-top boxes in North America, and for digital broadcast set-top boxes in Europe. Total overseas sales thus came to 53,124 million yen, a decline of 21.1% compared to the same period last year.

CAR ELECTRONICS

THIS SEGMENT INCLUDES CAR STEREOs, CAR AV (AUDIO/VIDEO) SYSTEMS, CAR SPEAKERS AND CAR NAVIGATION SYSTEMS.

Sales in the Car Electronics segment decreased 2.0% from the same period last year, to 141,840 million yen.

In Japan, sales of car navigation systems in the consumer market, both HDD and DVD models, showed healthy growth, as did car audio products sold to automobile manufacturers, resulting in total domestic sales of 57,110 million yen, up 8.2% over the previous year.

Overseas, while sales of car audio products in the Asian consumer markets, particularly China, grew, sales of car audio products in North America both to consumers and automobile manufacturers declined. Total overseas sales in this segment amounted to 84,730 million yen, a drop of 7.9% from the corresponding period last year.

5

PATENT LICENSING

THIS SEGMENT INCLUDES THE LICENSING OF PATENTS RELATED TO OPTICAL DISC TECHNOLOGIES.

Though patents related to optical discs have expired in some regions, royalty revenue from Patent Licensing rose to 8,404 million yen, up 39.0% over the same period last year, due to a revenue from a renewed contract with a licensee.

OTHERS

THIS SEGMENT INCLUDES RECORDABLE DVD DRIVES, DVD-ROM DRIVES, BUSINESS-USE PLASMA DISPLAYS, ORGANIC ELECTROLUMINESCENT (OEL) DISPLAY PANELS, FACTORY AUTOMATION SYSTEMS AND ELECTRONIC DEVICES.

Sales in this segment increased 26.1% over the same period last year, to 90,697 million yen.

In Japan, while sales of devices related to cellular phones such as OEL displays rose, sales of karaoke products for commercial use declined as a result of the sale of karaoke-related subsidiaries, and sales of DVD-ROM drives for PCs also declined, resulting in total domestic sales of 34,263 million yen, down 4.3% from the same period last year.

Overseas, strong growth in sales of recordable DVD drives for PCs, and higher sales of plasma displays for business use in Europe and optical disc manufacturing systems in Asia, resulted in total overseas sales of 56,434 million yen, up 56.1% over the corresponding period last year.

Notes:

1. The Company's consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America.

2. The consolidated financial statements include the accounts of the parent company and 134 subsidiaries and the investments in 5 affiliated companies accounted for on an equity basis.

3. Effective from the fiscal 2003 year-end presentation, the Company classified

Edgar Filing: PIONEER CORP - Form 6-K

gains and losses on sale and disposal of fixed assets, which were previously included in "Others, net" in "Other income (expenses)," into "Selling, general and administrative expenses." Previously reported amounts have been reclassified accordingly.

4. As a result of the sale of subsidiaries in audio/video software business in the second quarter of the fiscal 2004, the gain on such sale, as well as the business results of discontinued operations, are presented as a separate line item in the consolidated statements of income in accordance with Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." Previously reported amounts have been reclassified accordingly.
