(Exact Name of Registrant as Specified in Its Charter)

China Eastern Airlines Corporation Limited
(Translation of Registrant's Name Into English)

The People's Republic of China
(Jurisdiction of Incorporation or Organization)

2550 Hong Qiao Road
Hong Qiao International Airport
Shanghai 200335
The People's Republic of China
(8621) 6268-6268

(Address and Telephone Number of Principal Executive Offices)

Securities registered or to be registered pursuant to Section 12(b) of the Act:

Title of Each Class	Name of Each Exchange on Which Registered
American Depositary Shares Ordinary H Shares, par value RMB1.00 per share	The New York Stock Exchange The New York Stock Exchange*

* Not for trading, but only in connection with the registration of American Depositary Shares. The Ordinary H Shares are also listed and traded on The Stock Exchange of Hong Kong Limited.

Securities registered or to be registered pursuant to Section 12(g) of the Act:

None

(Title of Class)

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:

None

(Title of Class)

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report.

As of December 31, 2005, 3,300,000,000 Ordinary Domestic Shares, par value RMB1.00 per share, were issued and outstanding, and 1,566,950,000 Ordinary H Shares par value RMB1.00 per share, were issued and outstanding. H Shares are Ordinary Shares of the Company listed on The Stock Exchange of Hong Kong Limited.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934. Yes No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer Accelerated Filer Non-Accelerated Filer

Indicate by check mark which financial statement item the registrant has elected to follow. Item 17 Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

SUPPLEMENTAL INFORMATION AND EXCHANGE RATES

In this annual report, unless otherwise specified, the term dollars , U.S. dollars or US\$ refers to United States dollars, the legal tender currency of the United States of America, or the United States or the U.S.; the term Renminbi or RMB refers to Renminbi, the legal tender currency of The People's Republic of China, or China or the PRC; and the term Hong Kong dollars or HK\$ refers to Hong Kong dollars, the legal tender currency of the Hong Kong Special Administrative Region of China, or Hong Kong.

In this annual report, the term we , us , our , our company or China Eastern refers to China Eastern Airlines Corporation Limited, a joint stock limited company incorporated under the laws of the PRC on April 14, 1995, and, unless the context otherwise requires, its subsidiaries, or, in respect of references to any time prior to the incorporation of China Eastern Airlines Corporation Limited, the core airline business carried on by its predecessor, China Eastern Airlines, which was assumed by China Eastern Airlines Corporation Limited pursuant to the restructuring described in this annual report. The term CEA Holding refers our parent, China Eastern Air Holding Company, which was established on October 11, 2002 as a result of the merger of our former controlling shareholder, Eastern Air Group Company, or EA Group, with China Northwest Airlines Company and Yunnan Airlines Company.

For purpose of this annual report, references to The People's Republic of China, China and the PRC do not include Hong Kong, the Macau Special Administrative Region of China, or Macau, or Taiwan.

CAUTIONARY STATEMENT WITH RESPECT TO FORWARD-LOOKING STATEMENTS

This annual report contains certain forward-looking statements that are, by their nature, subject to significant risks and uncertainties. These forward-looking statements include, without limitation, statements relating to:

our fleet development plans, including, without limitation, related financing, schedule, intended use and planned disposition;

the planned expansion of our cargo operations;

the impact of changes in the policies of the Civil Aviation Administration of China, or the CAAC, regarding route rights;

the impact of the CAAC policies regarding the restructuring of the airline industry in China;

our expansion plans, including acquisition of other airlines;

our marketing plans, including the establishment of additional sales offices;

our plan to add new pilots; and

the impact of unusual events on our business and operations.

The words anticipate , plan , believe , estimate , expect , intend and similar expressions, as they relate to our or its management, are intended to identify some of these forward-looking statements. These forward-looking statements reflect our current view with respect to future events. Actual events or results may differ materially from information contained in these forward-looking statements as a result of a number of factors, including, without limitation:

any changes in regulatory policies of the CAAC;

Table of Contents

the effects of competition on the demand for and price of our services;

the availability of qualified flight personnel and airport facilities;

any significant depreciation of Renminbi or Hong Kong dollars against U.S. dollars, Japanese yen or Euro, the currencies in which the majority of our borrowings are denominated;

the availability and cost of the aviation fuel;

changes in political, economic, legal and social conditions in China;

the fluctuation of interest rates;

our ability to obtain adequate financing, including any required external debt and acceptable bank guarantees;
and

general economic conditions in markets where our company operates.

Table of Contents

GLOSSARY OF TECHNICAL TERMS

Capacity measurements

ATK (available tonne kilometers) the number of tonnes of capacity available for the carriage of revenue load (passengers and cargo) multiplied by the distance flown

ASK (available seat kilometers) the number of seats made available for sale multiplied by the distance flown

AFTK (available freight tonne-kilometers) the number of tonnes of capacity available for the carriage of cargo and mail multiplied by the distance flown

Traffic measurements

revenue passenger-kilometers or RPK the number of passengers carried multiplied by the distance flown

revenue freight tonne-kilometers or RFTK cargo and mail load in tonnes multiplied by the distance flown

revenue passenger tonne-kilometers or RPTK passenger load in tonnes multiplied by the distance flown

revenue tonne-kilometers or RTK load (passenger and cargo) in tonnes multiplied by the distance flown

Load factors

overall load factor tonne-kilometers expressed as a percentage of ATK

passenger load factor passenger-kilometers expressed as a percentage of ASK

break-even load factor the load factor required to equate traffic revenue with our operating costs assuming that our total operating surplus is attributable to scheduled traffic operations

Yield and cost measurements

passenger yield (revenue per passenger-kilometer) revenue from passenger operations divided by passenger-kilometers

cargo yield (revenue per cargo tonne-kilometer) revenue from cargo operations divided by cargo tonne-kilometers

average yield (revenue per total tonne-kilometer) revenue from airline operations divided by tonne-kilometers

unit cost operating expenses divided by ATK

tonne a metric ton, equivalent to 2,204.6 lbs

Table of Contents

PART I

Item 1. Identity of Directors, Senior Management and Advisers.

Not applicable.

Item 2. Offer Statistics and Expected Timetable.

Not applicable.

Item 3. Key Information.

A. Selected Financial Data

The selected financial data of the consolidated statements of operations for the years ended December 31, 2001, 2002, 2003, 2004 and 2005 and the selected financial data of the balance sheets as of December 31, 2001, 2002, 2003, 2004 and 2005 have been derived from our audited consolidated financial statements, which have been prepared in accordance with the International Financial Reporting Standards, or IFRS, and audited by PricewaterhouseCoopers, an independent registered public accounting firm in Hong Kong. PricewaterhouseCoopers reports in respect of the consolidated statements of operations for the years ended December 31, 2003, 2004 and 2005 and the consolidated balance sheets as of December 31, 2004 and 2005 and the related footnotes are included in this annual report. PricewaterhouseCoopers reports in respect of the consolidated statements of operations for the years ended December 31, 2001 and 2002 and the consolidated balance sheets as of December 31, 2001, 2002 and 2003 and the related footnotes are not included in this annual report.

As required under IFRS, the acquisition accounting method was applied to account for our acquisitions of certain assets and liabilities relating to the aviation businesses of CEA Northwest (as defined below) and CEA Yunnan (as defined below) in 2005, as described in Item 4. Information on the Company The History and Development of the Company , such that as of June 30, 2005, only the acquired assets and liabilities were included in the consolidated financial statements. The results of the acquired operations and their related cash flows were included in the consolidated financial statements of the Company beginning July 1, 2005. In contrast, under the generally accepted accounting principles in the United States, or U.S. GAAP, such transactions are considered to be combination of entities under common control since we and the aviation businesses of CEA Northwest and CEA Yunnan were under the common control of CEA Holding. Such transactions were accounted for in a manner similar to pooling-of-interests , retroactively restating all years presented on a combined basis as if the acquisitions had been in effect since inception, whereby related assets and liabilities of the acquired aviation businesses would be accounted for at historical cost and the related results of operations would be included in the consolidated financial statements from the earliest year presented. For a summary of significant differences between IFRS and U.S. GAAP as they relate to us and the effects of such differences on net profit (loss) attributable to equity holders and net assets for all years presented, see Note 43 to our audited consolidated financial statements included in this annual report. Our condensed consolidated financial statements prepared and presented in accordance with U.S. GAAP to reflect the effect of the acquisitions of CEA Northwest s and CEA Yunnan s aviation businesses under common control for the relevant periods are set forth in Note 44 to our audited consolidated financial statements included in this annual report.

We omitted the selected U.S. GAAP selected financial data as of, and for the year ended December 31, 2001 because no reliable financial information as of, and for the year ended December 31, 2001 with respect to the acquired aviation businesses of CEA Yunnan and CEA Northwest can be produced without unreasonable expenses or efforts.

Table of Contents

The following information should be read in conjunction with, and is qualified in its entirety by our audited consolidated financial statements included in this annual report.

	Year Ended December 31,

Owner s equity		5,934	4,543	5,028	6,100	750

(1) Certain incomes and expenses for the years ended December 31, 2001, 2002, 2003 and 2004 have been reclassified under the IFRS. Such reclassifications have no effect on the profit (loss) attributable to equity holders for each of those affected years.

(2) Certain expenses for the years ended December 31, 2001, 2002, 2003 and 2004 have been restated as a result of the retrospective application of changes to our accounting policy relating to the costs of overhaul of owned and finance leased aircraft and engines. Such adjustments resulted in a 2.8% increase in

the profit attributable to equity holders for the year ended December 31, 2001, a 25.6% decrease in the profit attributable to equity holders for the year ended December 31, 2002, a 15.5% increase in the loss attributable to equity holders for the year ended December 31, 2003 and a 37.5% decrease in the profit attributable to equity holders for the year ended December 31, 2004 . See Note 2(a) to our audited consolidated financial statements included in this annual report.

Table of Contents

- (3) The calculation of earnings (loss) per share is based on the consolidated profit (loss) attributable to equity holders and 4,866,950,000 shares in issue.

- (4) Selected U.S. GAAP financial data for the years ended December 31, 2002, 2003 and 2004 have been restated to reflect our acquisitions of the assets and liabilities relating to the aviation businesses of CEA Northwest and CEA Yunnan in 2005. See Note 44 to our audited consolidated financial statements included in this annual report.

- (5) Selected balance sheet data for the years ended December 31, 2001, 2002, 2003 and 2004 have been restated as a result of the retrospective application of

changes to our accounting policy relating to the costs of overhaul of owned and finance leased aircraft and engines. See Note 2(a) to our audited consolidated financial statements included in this annual report.

Exchange Rate Information

This annual report contains translations of certain amounts into U.S. dollars solely for your convenience. Except where otherwise specified, translations of amounts from Renminbi to U.S. dollars have been made at the noon buying rate, or the Noon Buying Rate, in New York City for cable transfers in foreign currencies as certified for customs purposes by the Federal Reserve Bank of New York on December 31, 2005 of US\$1.00 = RMB8.0702. You should not construe the translations as representations that the Renminbi amounts could have been, or could be, converted into U.S. dollars at that rate or at any other rate.

The noon buying rate in New York City for cable transfers as certified for customs purposes by the Federal Reserve Bank of New York was RMB7.9943 = US\$1.00, on June 30, 2006. The following tables set forth certain information concerning exchange rates between Renminbi and U.S. dollars for the periods indicated:

Period	Average ⁽¹⁾ Noon Buying Rate ⁽²⁾ (RMB per US\$)	Noon Buying Rate (RMB per US\$)		
		Period	High	Low
2005	8.1826	January 2006	8.0596	8.0702
2004	8.2768	February 2006	8.0616	8.0415
2003	8.2771	March 2006	8.0505	8.0167
2002	8.2772	April 2006	8.0248	8.0040
2001	8.2772	May 2006	8.0300	8.0005
		June 2006	8.0225	7.9943

(1) Determined by averaging the rates on the last business day of each month during the relevant period.

(2) Noon Buying Rate in New York City for cable transfers payable in foreign

currencies as certified for customs purpose by the Federal Reserve Bank of New York.

Selected Operating Data

The following table sets forth certain operating data of our company for the five years ended December 31, 2005, which have been derived from financial information prepared in accordance with IFRS and other data provided by us and are not audited. All references in this annual report to our cargo operations, cargo statistics or cargo revenues include figures for cargo and mail.

	Year Ended December 31,

B. Capitalization and Indebtedness

Not applicable.

C. Reasons for the Offer and Use of Proceeds

Not applicable.

D. Risk Factors

An investment in our company involves a number of risks, some of which may be special or significantly different from risks that are normally associated with an investment in a U.S. company. You should carefully consider the following information about the risks in investing in our company, along with the other information presented in this annual report.

Fuel supply and costs

The availability and costs of the aviation fuel has a significant impact on our financial condition and results of operations. In the past, jet fuel shortages have occurred in China and, on limited occasions, required us to delay or cancel flights. Although jet fuel shortages have not occurred since the end of 1993, we cannot assure you that jet fuel shortages will not occur in the future. Fuel prices continue to be susceptible to, among other factors, political unrest in various parts of the world, Organization of Petroleum Exporting Countries policy, the rapid growth of economies in China and India, the levels of inventory carried by industries, the amounts of reserves built by governments, disruptions to production and refining facilities and weather. These and other factors that impact the global supply and demand for aircraft fuel may affect our financial performance due to its sensitivity to fuel prices. Our financial performance may be especially susceptible to recent trends of escalating fuel prices worldwide. Between May 31, 2005 and May 31, 2006, the official domestic fuel price in China increased by 19.9%. This increase is consistent with other incidents of rising fuel prices that we have seen during the past few years, and there can be no assurance that fuel prices will remain constant or decline in the future.

Fuel costs constitute a significant portion of our operating costs and, in 2005, accounted for approximately 32.1% of our operating expenses. Between 2004 and 2005, our expenses for fuel rose by 63.7%, partially as a result of increased weighted average domestic and international fuel prices, and partially as a result of the expansion of our fleet. Between 2004 and 2005, the weighted average domestic and international fuel prices that we paid increased by approximately 24.5% and 39.8%, respectively. Due to the highly competitive nature of the airline industry and government regulation on airfare pricing, we may be unable to fully or effectively pass on to our customers any increased fuel costs we may encounter in the future. Any jet fuel shortages or any increase in domestic or international jet fuel price may materially and adversely affect our financial condition and results of operations. From time to time, we may hedge some of our future fuel purchases to protect against potential spikes in price. However, these hedging

strategies may not always be effective and can result in losses depending on price changes.

Competition

We face intense competition in each of the domestic, Hong Kong regional and international markets that we serve. In our domestic markets, we compete against smaller domestic airline companies that operate with costs that are lower than ours. We also increasingly face competition from entrants to our domestic markets, as new investments into China's civil aviation industry are made following the CAAC's relaxation of certain private-sector investment rules in July 2005. See the section headed "Item 4. Information on the Company Business Overview Competition" for more details. In our Hong Kong regional and international markets, we compete against international airline companies that have significantly longer operating history, greater name recognition, more resources or larger sales networks than our company, or participate in reservation systems that are more convenient than ours. The public's perception of the safety records of Chinese airlines also materially and adversely affects our ability to compete against our international competitors. In response to competition, we have, from time to time in the past, lowered our airfares for certain of our routes, and we may be required to do the same in the future. Increased competition and pricing pressures from competition may have a material adverse effect on our financial condition and results of operations.

Government regulation

The Chinese civil aviation industry is subject to a high degree of regulation by the CAAC. Regulatory policies issued or implemented by the CAAC encompass virtually every aspect of airline operations, including, among other things:

route allocation;

pricing of domestic airfare;

the administration of air traffic control systems and certain airports; and

aircraft registration and aircraft airworthiness certification.

As a result, we may face significant constraints on our flexibility and ability to expand our business operations or to maximize our profitability.

Government ownership and control of our company

Most of the major airline companies in China are currently majority owned either by the central government of China or by provincial or municipal governments in China. CEA Holding currently holds approximately 61.64% of our company's equity interests on behalf of the Chinese government. As a result, CEA Holding will be able to elect our entire board of directors and otherwise be able to control us. CEA Holding will also have sufficient voting control to effect transactions without the concurrence of our minority shareholders. The interests of the Chinese government as the ultimate controlling person of our company and most of other major Chinese airlines could conflict with the interests of our minority shareholders. Although

Table of Contents

the CAAC currently has a policy of equal treatment for all Chinese airlines, we cannot assure you that the CAAC will not favor other Chinese airlines over our company.

Insurance coverage and cost

As a result of the events of September 11, 2001, aviation insurers have significantly reduced the maximum amount of insurance coverage available to commercial air carriers for liability to persons other than employees or passengers for claims resulting from acts of terrorism, war or similar events, or war-risk coverage. At the same time, they have significantly increased the premiums for such coverage, as well as for aviation insurance in general. Also, Our company has further extended our insurance coverage purchased prior to the September 11 events to November 30, 2006. However, if the insurance carriers reduce further the amount of insurance coverage available or increase the premium for such coverage when we renew our insurance coverage, our financial condition and results of operations may be materially and adversely affected.

Direct air link between China's mainland and Taiwan

Currently, our operations on the Hong Kong regional routes benefit from traffic between Hong Kong and mainland China ultimately originating in Taiwan. During the Lunar Chinese New Year peak travel season in 2003, from late-January to mid-February, the Chinese government allowed special chartered flights between Shanghai and Taiwan for the first time. During the Lunar Chinese New Year peak travel seasons in 2005 and 2006, from late-January to mid-February, airlines from both mainland China and Taiwan (including our company) operated 48 and 72, respectively, non-stop direct chartered flights between selected cities of mainland China and Taiwan. Although regular direct flights between Taiwan and mainland China are still not permitted, our Hong Kong regional routes may be materially and adversely affected if such regular direct flights are permitted in the future. We cannot assure you that we will obtain sufficient Taiwan-mainland China routes, or that the yields on these routes will be adequate, to offset any material adverse effect on our revenues derived from our Hong Kong regional routes.

Chinese aviation infrastructure limitations and safety

The rapid increase in air traffic volume in China in recent years has put pressure on many components of the Chinese airline industry, including air traffic control systems, the availability of qualified flight personnel and airport facilities. Our ability to provide safe air transportation depends on the availability of qualified and experienced pilots in China and the improvement of maintenance services, national air traffic

Table of Contents

control and navigational systems and ground control operations at Chinese airports. If any of these is not available or is inadequate, our ability to provide safe air transportation will be compromised and our financial condition and results of operations may be materially and adversely affected.

Operating leverage

The airline industry is characterized by a high degree of operating leverage. Due to high fixed costs, including payments made in connection with aircraft leases, the expenses relating to the operation of any given flight do not vary proportionately with the number of passengers carried, while revenues generated from a particular flight are directly related to the number of passengers carried and the fare structure of the flight. Accordingly, a decrease in revenues may result in a proportionately higher decrease in profits.

Liquidity

We have substantial debts, and will continue to have substantial debts in the future. In addition, we have recently entered into contractual commitments to acquire a number of new aircraft for delivery over the next few years. See the section headed "Item 4. Information on the Company Description of Property Fleet". As of December 31, 2005, our total outstanding debt was RMB52,403 million, and our long-term debt to equity ratio was 3.4. As of the same date, our current liabilities exceeded our current assets by RMB25,598 million. Short-term bank loans outstanding totaled RMB13,711 million as of December 31, 2005.

We largely rely on cash flow generated from our operations and external financing (including short-term bank loans) to meet our debt repayment obligations and working capital requirements. If our

Table of Contents

operating cash flow is materially and adversely affected by factors such as increased competition, significant decrease in demand for our services, or significant increase in jet fuel price, our liquidity would be materially and adversely affected. We have arranged financing with domestic and foreign-funded banks in China as necessary to meet our working capital requirements. We have also tried to ensure our liquidity by structuring a substantial portion of our short-term bank loans to be rolled over upon maturity. These efforts, however, may ultimately prove insufficient. Our ability to obtain financing may be affected by our financial position and leverage and our credit rating, as well as by prevailing economic conditions and the cost of financing in general. If we are unable to obtain adequate financing for our capital requirements, our liquidity and operations would be materially and adversely affected.

Future financing requirements

We require significant amounts of external financing to meet our capital commitments for adding and upgrading aircraft and flight equipment and for other business expansion needs. In the past, we have obtained, sometimes with the assistance of the CAAC, guarantees from Bank of China and other Chinese banks in respect of payments under our foreign loan and capital lease obligations. However, we cannot assure you that we will be able to continue to obtain bank guarantees in the future. The unavailability of guarantees from Bank of China or other acceptable banks or the increased cost of such guarantees may materially and adversely affect our ability to borrow internationally or enter into international aircraft lease financings on acceptable terms. The ability of our company to obtain financing may also be affected by our financial position and leverage and our credit rating as well as by prevailing economic conditions and the cost of financing generally. If we were unable to obtain financing for a significant portion of our capital requirements, our ability to acquire new aircraft or expand our operations may be impaired. We have and in the future will likely continue to have substantial debts. As a result, the interest cost associated with these debts might impair our future profitability and cause our earnings to be subject to a higher degree of volatility.

Related party transactions; conflict of interests

We have engaged in, from time to time, and may continue to engage in, in the future, a variety of transactions with CEA Holding and its various members, from whom we receive a number of important services, including support for in-flight catering and assistance with importation of aircraft, flight equipment and spare parts. Our transactions with CEA Holding and its members are conducted through a series of arm's length contracts, which we have entered into with CEA Holding and its members in the ordinary course of business. However, because we are controlled by CEA Holding and CEA Holding may have interests that are different from our interests, we cannot assure you that CEA Holding will not take actions that will serve its interests or the interests of its members over our interests.

Acquisitions

We may expand our business through acquisition of airline companies or airline-related businesses. Such acquisitions involve uncertainties and risks, including the following:

difficulty with integrating the assets and operations of the acquired airline companies or airline-related businesses, including their employees, corporate cultures, managerial systems, processes and procedures and management information systems and services;

failure to achieve the anticipated synergies, cost savings or revenue-enhancing opportunities resulting from the acquisition of such airline companies or airline-related businesses;

difficulty with exercising control and supervision over the newly acquired operations; and

Table of Contents

increased financial pressure resulting from the assumption of recorded and unrecorded liabilities of the acquired airline companies or airline-related businesses.

If we are unable to manage or integrate the newly acquired airlines or airline-related businesses successfully without substantial expense, delay or other operational or financial problems, we may be unable to achieve the objectives or anticipated synergies of such acquisitions and such acquisitions may adversely impact the operations and financial results of our existing businesses.

Limitation on foreign ownership

The current CAAC policies limit foreign ownership in Chinese airlines. Under these limits, non-Chinese residents and Hong Kong, Macau or Taiwan residents cannot hold majority equity interest in a Chinese airline company. At present, approximately 32.2% of our total outstanding shares are held by non-Chinese residents and Hong Kong, Macau or Taiwan residents (excluding the qualified foreign institutional investors that are approved to invest in the A-share market of the PRC). As a result, our access to international equity capital markets may be limited. This restriction may also limit the opportunities available to our company to obtain funding or other benefits through the creation of equity-based strategic alliances with foreign carriers. We cannot assure you that the CAAC will increase these limits in the near future or at all.

Adverse public health epidemics or pandemics

Adverse public health epidemics or pandemics could disrupt businesses and the national economy of China and other countries where we do business. From December 2002 to June 2003, China and other countries experienced an outbreak of a new and highly contagious form of atypical pneumonia now known as severe acute respiratory syndrome, or SARS. On July 5, 2003, the World Health Organization declared that the SARS outbreak had been contained. However, a number of isolated new cases of SARS were subsequently reported, most recently in central China in April 2004. During May and June of 2003, many businesses in China were closed by the PRC government to prevent transmission of SARS. Moreover, some Asian countries, including China, have recently encountered incidents of the H5N1 strain of bird flu, or avian flu. We are unable to predict the effect, if any, that avian flu may have on our business. Any future outbreak of SARS, avian flu or similar adverse public health developments may, among other things, severely restrict the level of economic activity in the affected areas, which may in turn significantly reduce demand for our services and have a material adverse effect on our financial condition and results of operations.

Changes in the economic policies of the Chinese government

Since the late 1970s, the Chinese government has been reforming the Chinese economic system. These reforms have resulted in significant economic growth and social progress. These policies and measures, however, may from time to time be modified or revised. Adverse changes in economic and social conditions in China, in the policies of the Chinese government or in the laws and regulations in China, if any, may have a material adverse effect on the overall economic growth of China and investments in the airline industry in China. These developments, in turn, may have material adverse effects on our business operations and may also materially and adversely affect our financial condition and results of operations.

Convertibility of Renminbi

A significant portion of our revenue and operating expenses are denominated in Renminbi, while a portion of our revenue, capital expenditures and debts are denominated in U.S. dollars and other foreign currencies. Renminbi is currently freely convertible under the current account, which includes dividends, trade and service-related foreign currency transactions, but not under the capital account, which includes foreign direct investment, unless the prior approval of the State Administration of Foreign Exchange, or

Table of Contents

SAFE, is obtained. As a foreign invested enterprise approved by the PRC Ministry of Commerce, or MOC, we can purchase foreign currency without the approval of SAFE for settlement of current account transactions, including payment of dividends, by providing commercial documents evidencing these transactions. We can also retain foreign exchange in our current accounts, subject to a maximum amount approved by SAFE, to satisfy foreign currency liabilities or to pay dividends. However, the relevant Chinese government authorities may limit or eliminate our ability to purchase and retain foreign currencies in the future. Foreign currency transactions under the capital account are still subject to limitations and require approvals from SAFE. This may affect our ability to obtain foreign exchange through debt or equity financing, including by means of loans or capital contributions. We cannot assure you that we will be able to obtain sufficient foreign exchange to pay dividends or satisfy our foreign exchange liabilities.

Fluctuations in exchange rates

The value of Renminbi fluctuates and is subject to significant changes in China's political and economic conditions. Any revaluation of Renminbi may materially and adversely affect the value of dividends, if any, payable on our H shares in foreign currency terms. We use currency forward contracts to reduce risks of changes in currency exchange rates in respect of ticket sales and expenses denominated in foreign currencies. These currency forward contracts will expire between 2007 and 2010. Since we may not be able to fully hedge against Renminbi devaluations, future movements in the exchange rate of Renminbi and other currencies may have a material adverse effect on our financial condition and results of operations.

Uncertainties embodied in the Chinese legal system

The Chinese legal system is a civil law system based on written statutes. Unlike common law systems, it is a system in which decided legal cases have little precedential value. In 1979, the Chinese government began to promulgate a comprehensive system of laws and regulations governing economic matters in general. Legislation over the past 20 years has significantly enhanced the protection afforded to foreign investment in China. However, the interpretation and enforcement of some of these laws, regulations and other legal requirements involve uncertainties that may limit the legal protection available to you.

Compliance with requirements under Section 404 of the Sarbanes-Oxley Act of 2002

Our company will become subject to Section 404 of the Sarbanes-Oxley Act of 2002 in the fiscal year ending December 31, 2006, and will need to evaluate and test our abilities to comply with the statute as well as take such remedial actions that may be necessary to ensure our compliance. We cannot be certain that evaluations, tests and remedial actions will all be timely completed. We also do not know how compliance with Section 404 of the Sarbanes-Oxley Act of 2002 will affect our operations.

Our efforts to comply with Section 404 of the Sarbanes-Oxley Act of 2002 may present us with significant challenges. In connection with their audit of our consolidated financial statements as of and for the year ended December 31, 2005, our independent auditors, PricewaterhouseCoopers, identified to our management and audit committee certain internal control deficiencies in our internal control over financial reporting that they considered to constitute material weakness in our internal control over financial reporting. See the section headed "Item 15 Controls and Procedures". If during the fiscal year ending December 31, 2006, we are unable to effectively implement the measures necessary for our compliance with Section 404 of the Sarbanes-Oxley Act of 2002, including any remedial actions that are required to address any internal control weakness already detected by our independent auditors, our independent auditors may not be able to provide us with a written attestation regarding the effectiveness of our internal control over financial reporting, which we will need for the filling of our annual report next year. Even if our management concludes that our internal control over financial reporting is effective, our independent auditors may disagree. In addition, if our independent auditors are not satisfied with our internal control over financial reporting or the level at which our controls are documented, designed, operated, reviewed or evaluated, or if our independent auditors interpret the relevant requirements, rules or regulations differently from us, then they may decline to attest to our management's assessment or may issue an adverse opinion.

Any of these possible outcomes may result in an adverse reaction in the financial marketplace and/or a loss of investor confidence in the reliability of our consolidated financial statements. We could also become subject to regulatory investigations and sanctions by regulators such as the Securities and Exchange Commission. We may also be required to incur greater than expected costs to improve our internal control processes. All of these factors could

materially and adversely affect the market prices of our shares and ADSs.

Item 4. Information on the Company.

History and Development of the Company

Our registered office is located at 66 Airport Street, Pudong International Airport, Shanghai, China, 201202. Our principal executive office is located at 2550 Hong Qiao Road, Hong Qiao International Airport, Shanghai, China, 200335. The telephone number of our principal executive office is (86-21) 6268-6268. We currently do not have an agent for service of process in the United States.

Our company was established on April 14, 1995 under the laws of China as a company limited by shares in connection with the restructuring of our predecessor and our initial public offering. Our predecessor was one of the six original airlines established in 1988 as part of the decentralization of the airline industry in China undertaken in connection with China's overall economic reform efforts. Prior to 1988, the CAAC was responsible for all aspects of civil aviation in China, including the regulation and operation of China's airlines and airports. In connection with our initial public offering, our predecessor was restructured into two separate legal entities, our company and EA Group. According to the restructuring arrangement, by operation of law, our company succeeded to substantially all of the assets and liabilities relating to the airline business of our predecessor. EA Group succeeded to our predecessor's assets and liabilities that do not directly relate to the airline operations and do not compete with our businesses. Assets transferred to EA Group included our predecessor's equity interests

-12-

Table of Contents

in companies engaged in import and export, real estate, advertising, in-flight catering, tourism and certain other businesses. In connection with the restructuring, we entered into various agreements with EA Group and its subsidiaries for the provision of certain services to our company. CEA Holding assumed the rights and liabilities of EA Group under these agreements after it was formed by merging EA Group, Yunnan Airlines Company and China Northwest Airlines Company in October 2002. See Item 7. Major Shareholders and Related Party Transactions for more details. In 2005, our company's total revenue accounted for approximately 87.8 % of CEA Holding's total revenue. The following chart sets forth the organizational structure of our company and our significant subsidiaries, all of which were incorporated in China, as of June 30, 2006.

China Eastern Airlines Corporation Limited 99% 63% 95% 86% 70%

In February 1997, we completed our initial public offering of 1,566,950,000 ordinary H shares, par value RMB1.00 per share, and listed our ordinary H shares on The Stock Exchange of Hong Kong Limited, or the Hong Kong Stock Exchange, and American Depositary Shares, or ADSs, representing our H shares, on the New York Stock Exchange. Prior to our initial public offering, all of the issued and outstanding shares of our capital stock, consisting of 3,000,000,000 ordinary domestic shares, par value RMB1.00 per share, were owned by EA Group, which exercises, on behalf of the Chinese government and under the supervision and direction of the CAAC, the shareholder rights in our company. In October 1997, we completed a public offering of 300,000,000 new ordinary domestic shares in the form of A shares to public shareholders in China and listed such new shares on the Shanghai Stock Exchange. Following the A share offering, EA Group continued to own 3,000,000,000 ordinary domestic shares, which represent 90.91% of our total ordinary domestic shares and 61.64% of our issued and outstanding share capital as of December 31, 2005. H shares are our ordinary shares listed on the Hong Kong Stock Exchange, and A shares are our ordinary shares listed on the Shanghai Stock Exchange. Our H shares and A shares are identical in respect of all rights and preferences, except that the listed A shares may only be held by Chinese domestic investors and certain qualified foreign institutional investors. In addition, dividends on the A shares are payable in Renminbi.

Since our initial public offering, we have expanded our operations through acquisitions and joint ventures. In July 1998, our company and China Ocean Shipping (Group) Company jointly established China Cargo Airlines Co., Ltd., which specializes in the air freight business. Our total investment in this joint venture was approximately RMB350 million, representing 70% of the equity interest of China Cargo Airlines Co., Ltd. In addition, we purchased from EA Group the assets and liabilities relating to airline operations of China General Aviation Company, for approximately RMB88 million in November 1999. China General

Table of Contents

Aviation Company was based in Shanxi Province in China and served primarily the northern region of China. Moreover, we completed our acquisition of Air Great Wall in June 2001 and established our Ningbo Branch following the acquisition. Air Great Wall was based in Ningbo, Zhejiang Province in China and served primarily the southeastern region of China.

In May 2002, our company, jointly with Shanghai Civil Aviation Eastern China Kaiya System Integration Co., Ltd., established Shanghai Eastern Airlines Investment Co., Ltd., or SEAI. We hold a 99% equity interest in SEAI. The joint venture serves as one of the investment vehicles of our company for our investments in other industrial projects and provides consulting services. In August 2002, our company, jointly with Wuhan Municipal State-owned Assets Management Committee Office and two other independent third parties, established China Eastern Airlines Wuhan Limited, or CEA Wuhan, in which our company held a 40% equity interest. In March, 2006, we completed our acquisition of a 38% equity interest and a 18% equity interest in CEA Wuhan from Wuhan Municipal State-owned Assets Supervision and Administration Committee and Shanghai Junyao Aviation Investment Company Limited, respectively, for an aggregate consideration of approximately RMB418 million. As a result, our equity interest in CEA Wuhan has increased to 96%. CEA Wuhan serves primarily the market in Hubei Province. We also entered into an agreement with Rockwell Collins International Inc. of the United States to establish a joint venture avionics maintenance service company in China in September 2002. Moreover, in November 2002, our company, jointly with China Aircraft Services Limited, established Shanghai Eastern Aircraft Maintenance Limited, in which our company holds a 60% equity interest. In order to expand our company's operations in Jiangsu Province of China, we increased our investment in China Eastern Airlines Jiangsu Co., Ltd., or Eastern Jiangsu, in December 2002, together with other shareholders of Eastern Jiangsu. In 2004, our company contributed additional capital of approximately RMB408 million to Eastern Jiangsu. As a result, our equity interest in Eastern Jiangsu increased from 55% to 63%.

In April 2003, we entered into a share transfer agreement with CEA Holding, pursuant to which we have acquired from CEA Holding a 45% equity interest in China Eastern Aviation Import and Export Company, or CEAIEC, for a consideration of approximately RMB44 million. CEAIEC was a wholly-owned subsidiary of CEA Holding prior to the transaction. Under the share transfer agreement, our company and CEA Holding each undertakes to the other party that it will not establish any other entity engaging in any business similar in nature or scope to the business conducted by CEAIEC. We believe that the acquisition of 45% equity interest in CEAIEC could reduce our company's cost of importing aviation raw materials and enhance our company's profitability.

In December 2003, we also entered into a joint venture agreement with CEA Holding to establish China Eastern Air Catering Investment Company Ltd., or CEA Catering. The registered capital of CEA Catering is RMB350 million. Pursuant to the joint venture agreement, CEA Holding and our company made capital contributions of approximately RMB192.5 million and RMB157.5 million, respectively. As a result, CEA Holding and our company hold a 55% and a 45% equity interest in CEA Catering, respectively. CEA Catering is primarily engaged in the business of providing air and ground catering services, food and beverage supplies and other related services. Our board believes that our investment in CEA Catering is beneficial to our company and its shareholders, and expects it to reduce the cost incurred by our company in providing catering services and to enhance our profitability and competitiveness in the domestic aviation industry.

In addition, also in December 2003, we entered into an equity transfer and capital increase agreement with CEA Holding and Shanghai Eastern Development Corporation Limited, or SEDC, pursuant to which our company acquired 10% of SEDC's then equity interest and 35% of CEA Holding's then equity interest in Shanghai Dong Mei Aviation Travel Corporation Limited, a company that is primarily engaged in the business of selling air tickets, hotel reservation, travel agency and other related services. After the transaction, our company holds a 45% equity interest in Shanghai Dong Mei. Our aggregate investment in Shanghai Dong Mei was approximately RMB14.9 million.

Table of Contents

On February 18, 2004, we entered into a joint venture agreement with CEA Holding to establish China Eastern Real Estate Investment Co. Ltd., or CEA Real Estate, a limited liability company established under the laws of the PRC. The registered capital of CEA Real Estate is RMB100 million. Pursuant to the joint venture agreement, our company has made its capital contribution of RMB5 million in cash. As a result, our company owns a 5% equity interest in CEA Real Estate. CEA Real Estate is primarily engaged in the real estate business, including the development and sales of commercial premises and property leasing in Shanghai, China.

On March 10, 2003, we entered into a joint venture agreement with Singapore Technologies Aerospace Ltd. to establish Shanghai Technologies Aerospace Company Limited, or STAC, a Sino-foreign joint venture limited liability company established under the laws of the PRC. The registered capital of STAC is US\$73 million with a total investment of US\$98 million. Pursuant to the joint venture agreement, our company shall make an in-kind capital contribution of US\$37.23 million (which includes but not limited to flight equipment and land use right) in installments to STAC. Our company owns a 51% equity interest in STAC. STAC is primarily engaged in the provision of commercial aircraft maintenance, repair and overhaul services. STAC started operation in late 2004.

On August 18, 2004, we entered into a joint venture agreement with China Ocean Shipping (Group) Company and China Cargo Airlines Co., Ltd. to establish Shanghai Eastern Logistics Co., Ltd., or Eastern Logistics, a limited liability company established under the laws of the PRC. The registered capital of Eastern Logistics is RMB200 million. Pursuant to the joint venture agreement, our company has made its capital contribution of RMB138.6 million in cash to Eastern Logistica. Our company, directly and indirectly, owns a 70% equity interest in Eastern Logistics. Eastern Logistics is primarily engaged in the provision of cargo logistics services. Eastern Logistics started operation after it obtained its business license from the relevant government authority on August 23, 2004.

On March 2, 2005, we entered into an agreement with United Technologies Far East Limited, or UTFEL, to establish Hamilton Sundstrand (Shanghai) Aerospace Technology Limited, or HSSATL, a jointly controlled entity which will be principally engaged in the provision of repair and maintenance services for auxiliary power units of aircraft in the PRC. The registered capital of HSSATL is US\$8.9 million, which is to be contributed by us and UTFEL in proportion of 51% and 49%, respectively.

Pursuant to the CAAC's airline industry restructuring plan, EA Group merged with Yunnan Airlines Company and China Northwest Airlines Company and formed CEA Holding in October 2002. Yunnan Airlines Company and China Northwest Airlines Company were restructured as wholly-owned subsidiaries of CEA Holding after the merger and renamed as China Eastern Air Yunnan Company, or CEA Yunnan, and China Eastern Air Northwest Company, or CEA Northwest, respectively. CEA Northwest is based in Xi'an, Shannxi Province in China with approximately 30 jet aircraft and serves primarily the western region of China. CEA Yunnan is based in Kunming, Yunnan Province in China with approximately 26 jet aircraft and serves primarily the southwestern region of China. The airline operations conducted by CEA Yunnan and CEA Northwest previously competed with our company, in particular, on the Shanghai-Wenzhou route, Shanghai-Harbin route, Shanghai-Qingdao route, Shanghai-Changsha route, Changchun-Kunming route, Changsha-Ningbo route, Changsha-Kunming route and Changsha-Nanjing route.

In order to further expand our business and enhance our market competitiveness, we acquired from CEA Holding certain assets and liabilities relating to the aviation businesses of CEA Yunnan and CEA Northwest pursuant to a conditional assets transfer agreement, or Acquisition Agreement, entered into by our company, CEA Holding, CEA Yunnan and CEA Northwest on May 12, 2005. The assets acquired by our company included aircraft, engines and aviation equipment and facilities, certain employees and operating contracts, and other fixed and current assets (whether owned or leased assets). We also assumed aggregate debts of RMB9,421 million. Following the completion of the acquisitions of these assets and liabilities in June 2005, our company assumed and took over the aviation operations and businesses previously carried out

Table of Contents

by CEA Yunnan and CEA Northwest in accordance with the Acquisition Agreement. The air routes of CEA Yunnan and CEA Northwest were also injected into our company with such assets and liabilities. The total consideration paid by our company under the Acquisition Agreement was approximately RMB640 million in cash.

Under the Acquisition Agreement, each of CEA Holding, CEA Northwest and CEA Yunnan has undertaken that at any time after completion of the Acquisition Agreement, it will not, and will procure its respective subsidiaries and associated companies (including members of CEA Holding) not to, carry out, engage in or otherwise become involved or interested in any business which competes or may compete, either directly or indirectly, with our company's aviation business. The undertaking is not made for any definite period.

As part of our continuing effort to upgrade our fleet, we disposed old aircraft and added new aircraft to our fleet. Our aircraft dispositions have reduced the average age of our fleet. All of our aircraft are registered with the CAAC. The table below sets forth our significant aircraft dispositions and additions since December 31, 2002 (including the 60 aircraft for which we acquired ownership in or lease as part of our acquisition of the aviation businesses of CEA Yunnan and CEA Northwest in 2005):

	2002	2003	2004	2005	2006

Business Overview

Our company is one of the three largest air carriers in China in terms of tonne-kilometers and number of passengers carried in 2005, and is the primary air carrier serving Shanghai, China's eastern gateway. We

Table of Contents

accounted for approximately 21.7% of the total commercial air traffic (as measured in tonne-kilometers) handled by Chinese airlines in 2005. We operate primarily from Shanghai's Hong Qiao International Airport and Pudong International Airport. In 2005, we accounted for 41.0% and 32.5% of all the flight traffic at Hong Qiao International Airport and Pudong International Airport, respectively. In 2005, we accounted for approximately 34.6% of the total passenger traffic volume and 22.1% of the total freight volume on routes to and from Shanghai. We have been consistently ranked as one of the best Chinese airlines in terms of service quality in each of the past six years according to a poll conducted by the China Civil Aviation Association.

Compared to 2004, our traffic volume increased by approximately 24.3% in 2005. Our passenger traffic volume increase from 27,580.8 million passenger-kilometers in 2004 to 36,380.6 million passenger-kilometers in 2005, or 31.9%. Our cargo and mail traffic volume increase by 14.8% from 1,874.7 million tonne-kilometers in 2004 to 2,151.5 million tonne-kilometers in 2005. In 2005, our average on-time performance rate was approximately 82.9%, which was slightly higher than the industry average rate of 80.0% in China.

Airline Operations and Route Network

The following table sets forth our traffic revenues by activity for each of the five years ended December 31, 2005:

	2001	2002	2003	2004	2005	2005 (millions of US\$)
	(millions of RMB)	(millions of RMB)	(millions of RMB)	(millions of RMB)	(millions of RMB)	
Traffic Revenues						
Passengers	9,586	10,038	10,375	15,534	20,853	2,584
Cargo and mail	2,092	2,445	3,187	4,428	4,967	615
Total Traffic Revenues	11,678	12,483	13,562	19,962	25,820	3,199

Passenger Operations

The following table sets forth certain passenger operating statistics of our company by geographic region for each of the five years ended December 31, 2005:

Table of Contents

	2001	2002	2003	2004	2005
Passenger Traffic (millions of passenger kilometers)	15,911	18,206	18,003	27,581	36,381

International	68.68	68.93	56.66	62.35	65.16

The primary focus of our business is the provision of domestic, Hong Kong regional and international passenger airline services. In 2005, our passenger operations generated revenues of approximately RMB20,853 million (approximately US\$2,584 million), or approximately 76.0% of our revenues. We operated approximately 4,860 scheduled flights per week (excluding charter flights), serving a route network that covers 118 cities within China and abroad. In 2005, we operated approximately 380 routes.

In 2005, we operated approximately 3,749 domestic flights per week on 257 routes. Our domestic routes generated approximately 54.9% of our passenger revenues. Our most heavily traveled domestic routes generally link Shanghai to the large commercial and business centers of China, such as Beijing, Guangzhou and Shenzhen.

In 2005, we also operated approximately 670 flights per week on 16 routes to and from Hong Kong, originating from Shanghai and 15 other major cities in eastern, northern and western China. Our Hong Kong regional routes accounted for approximately 12.0% of our passenger revenues in 2005.

In 2005, we operated approximately 441 international flights per week on 107 routes, serving 41 cities in 18 countries, primarily linking Shanghai to major cities in Asian and Southeast Asian countries (such as Japan, Korea, India, Singapore, Thailand and Bangladesh) and certain strategic locations in Europe, the United States and Australia. In 2005, we successfully introduced three new international routes including Shanghai-Bombay, Shanghai-Moscow and Shanghai-Dhaka to further enhance the function of Shanghai as our passenger hub. In addition, we plan to launch new international routes of Shanghai-Frankfurt and Shanghai-New York in 2006. Revenues derived from our operations on international routes accounted for approximately 33.2% of our passenger revenues. Revenues derived from our operations on our 21 routes to and from Japan accounted for approximately 9.6% of our passenger revenues and approximately 29.0% of our international passenger revenues in 2005.

Most of our international and Hong Kong regional flights and a substantial portion of our domestic flights either originate or terminate in Shanghai, the central hub of our route network. Our operations in Shanghai are conducted primarily at Hong Qiao International Airport and Pudong International Airport. All of our international flights to or from Shanghai originate or terminate at Pudong International Airport. Pudong

Table of Contents

International Airport is a newly constructed airport and is relatively further away from the central business district of Shanghai.

In addition to our core Shanghai-based operations, we currently also have 11 provincial hubs in eastern, northern and western China, each of which primarily serves, and is located in a principal commercial center of, one of the following provinces: Anhui, Jiangsu, Jiangxi, Shandong, Shanxi, Hebei, Zhejiang, Hubei, Shannxi and Yunnan. Jiangsu, Zhejiang and Shandong are among the most economically developed provinces in China. We believe that we will benefit from the level of development and growth opportunities in eastern, northern and western China as a whole by providing direct services between various cities in those regions and between those regions and other major cities in China. The provincial hubs also enable us to provide convenient connections for passengers on certain flights to and from Shanghai. Aircraft used for regional operations are mainly maintained by us on site at the hubs, and our sales offices are also based at each provincial hub. We are also in the process of developing our operations in Beijing and Guangzhou as our principal bases for northern China and southern China, respectively.

Cargo and Mail Operations

The following table sets forth certain cargo and mail operating statistics of our company by geographic region for each of the five years ended December 31, 2005:

	Year Ended December 31,				
	2001	2002	2003	2004	2005
Cargo and Mail Tonne-Kilometers (millions)	950	1,023	1,297	1,875	2,152
Domestic	176	206	258	328	410
Hong Kong	48	53	81	124	135
International	726	764	958	1,423	1,607
Weight of Cargo and Mail Carried (millions of kilograms)	302	345	460	664	776
Domestic	146	170	205	262	316
Hong Kong	33	39	57	85	92
International	116	136	198	317	348
Cargo and Mail Yield (cargo and mail revenues/cargo and mail tonne-kilometers, in RMB)	2.20	2.39	2.46	2.36	2.31

Our cargo and mail business generated revenues of approximately RMB4,967 million (approximately US\$615 million) in 2005, representing approximately 19.2% of our traffic revenues for the year.

We must obtain from the CAAC the right to carry passengers or cargo on any domestic or international route. Our cargo and mail business generally utilizes the same route network used by our passenger airline business. China Cargo Airlines Co., Ltd. also maintains 14 cargo routes. We carry cargo and mail on our freight aircraft as well as in available cargo space on our passenger aircraft. Our most significant cargo and mail routes are international routes. Revenues derived from our operations on international cargo and mail routes accounted for approximately 80.1% of our total cargo and mail revenues in 2005. Revenues derived from our operations on routes to and from Japan accounted for approximately 12.6% of our international cargo and mail revenues in 2005.

The development of cargo operations is an important part of our company's growth strategy. We have six MD-11 freight aircraft for cargo and mail operations, three of which were converted from passenger aircraft after the establishment of China Cargo Airlines Co., Ltd. We also wet-leased two Airbus A300F and two Boeing 747F freighters on a short-term for our cargo operations in 2005.

Table of Contents

Regulation

The PRC Civil Aviation Law provides the framework for regulation of many important aspects of civil aviation activities in China, including:

the administration of airports and air traffic control systems;

aircraft registration and aircraft airworthiness certification;

operational safety standards; and

the liabilities of carriers.

The Chinese airline industry is also subject to a high degree of regulation by the CAAC. Regulations issued or implemented by the CAAC encompass virtually every aspect of airline operations, including route allocation, domestic airfare, licensing of pilots, operational safety standards, aircraft acquisition, aircraft airworthiness certification, fuel prices, standards for aircraft maintenance and air traffic control and standards for airport operations. Although China's airlines operate under the supervision and regulation of the CAAC, they are accorded a significant degree of operational autonomy. These areas of operational autonomy include:

whether to apply for any route;

the allocation of aircraft among routes;

the airfare pricing for the international and Hong Kong passenger routes;

the airfare pricing within the limit provided by the CAAC for the domestic passenger routes;

the training and supervision of personnel; and

many other areas of day-to-day operations.

Although we have generally been allocated adequate routes in the past to accommodate our expansion plans and other changes in our operations, those routes are subject to allocation and re-allocation in response to changes in governmental policies or otherwise at the discretion of the CAAC. Consequently, we cannot assure you that our route structure will be adequate to satisfy our expansion plans.

The CAAC has established regulatory policies intended to promote controlled growth of the Chinese airline industry. We believe those policies would be beneficial to the development of and prospects for the Chinese airline industry as a whole. Nevertheless, those regulatory policies could limit our flexibility to respond to changes in market conditions, competition or our cost structure. Moreover, while our company generally benefits from regulatory policies that are beneficial to the airline industry in China as a whole, the implementation of specific regulatory policies may from time to time materially and adversely affect our business operations.

Because our company provides services on international routes, we are also subject to a variety of bilateral civil air transport agreements between China and other countries. In addition, China is a contracting state as well as a permanent member of the International Civil Aviation Organization, an agency of the United Nations established in 1947 to assist in the planning and development of the international air transportation. International Civil Aviation Organization establishes technical standards for the international airline industry. China is also a party to a number of other international aviation conventions. The business operations of our company are subject to those international aviation conventions as well.

Table of Contents

Domestic Route Rights. Chinese airlines must obtain from the CAAC the right to carry passengers or cargo on any domestic route. The CAAC's policy on domestic route rights is to assign routes to the airline or airlines suitable for a particular route. The CAAC will take into account whether an applicant for a route is based at the point of origin or termination of a particular route. This policy benefits airlines, such as our company, that have a hub located at each of the active air traffic centers in China. The CAAC also considers other factors that will make a particular airline suitable for an additional route, including the applicant's safety record, previous on-time performance and level of service and availability of aircraft and pilots. The CAAC will consider the market conditions applicable to any given route before such route is allocated to one or more airlines. Generally, the CAAC will permit additional airlines to service a route that is already being serviced only when there is strong demand for a particular route relative to the available supply. The CAAC's current general policy is to require the passenger load factor of one or two airlines on a particular route to reach a certain level before another carrier is permitted to commence operations on such route.

Hong Kong Route Rights. Hong Kong routes and the corresponding landing rights were formerly derived from the Sino-British air services agreement. In February 2000, the Chinese central government, acting through the CAAC, and Hong Kong signed the Air Transportation Arrangement between mainland China and Hong Kong. The Air Transportation Arrangement provides for equal opportunity for airlines based in Hong Kong and mainland China. Competition from airlines based in Hong Kong increased after the execution of the Air Transportation Arrangement. The CAAC allocates route and landing rights among the 8 Chinese airlines currently permitted to fly to Hong Kong. The CAAC normally will not allocate an international route or a Hong Kong route to more than one domestic airline unless certain criteria, including minimum load factors on existing flights, are met. There are more than one Chinese airline company on certain of our Hong Kong routes.

The CAAC and the Economic Development and Labor Bureau of Hong Kong recently announced that they have reached an agreement to further expand the Air Transaction Arrangement. This agreement will increase the routes between Hong Kong and mainland China to expand coverage to most major cities in mainland China. The capacity limits for passenger and/or cargo services on most routes will also be gradually lifted. Starting from the winter in 2007, each side can designate three airline companies to operate passenger and/or cargo flights and another airline company to operate all-cargo flights on the majority of the routes between Hong Kong and mainland China.

International Route Rights. International route rights, along with the corresponding landing rights, are derived from air services agreements negotiated between the Chinese central government, acting through the CAAC, and the government of the relevant foreign country. Each government grants to the other the right to designate one or more domestic airlines to operate scheduled services between certain points within each country. Upon entering into an air services agreement, the CAAC seeks applications from the eight Chinese airlines currently approved to fly international passenger routes. The CAAC awards the relevant route to an airline based on various criteria, including:

- availability of appropriate aircraft and flight personnel;

- safety record;

- on-time performance; and

- hub location.

Although hub location is an important criterion, an airline may be awarded a route which does not originate from an airport where it has a hub. The route rights awarded do not have a fixed expiry date and can be terminated at the discretion of the CAAC.

Airfare Pricing Policy. The PRC Civil Aviation Law provides that airfare for domestic routes are determined jointly by the CAAC and the agency of the State Council responsible for price control, primarily based upon average airline operating costs and market conditions. From February 1999 to March 2001, all domestic airlines were required to adhere to unified domestic airfare published by the CAAC from time to time and discounted sales were prohibited. In 2001, the CAAC gradually relaxed its control over domestic airfare pricing and, effective March 1, 2001, domestic airlines were permitted to offer discounts on several major domestic routes.

Table of Contents

On March 17, 2004, China's State Council approved the Pricing Reform Plan for the Domestic Civil Aviation Industry, or the Pricing Reform Plan, effective April 20, 2004. Pursuant to the Pricing Reform Plan, the governmental authorities responsible for price control no longer directly set the airfare for domestic routes, but indirectly control the airfare for domestic routes by setting basic airfare levels and permitted ranges within which the actual airfare of Chinese airlines can deviate from such basic airfare levels. Chinese airlines are able to set their own airfare for their domestic routes within the permitted ranges and adopt more flexible sales policies to promote their services.

The CAAC and the National Development and Reform Commission jointly publish the pricing guidelines from time to time, which set forth the basic airfare levels and permitted ranges. Pursuant to the current pricing guidelines, the basic airfares for domestic routes are the published airfares implemented by Chinese airlines immediately prior to the approval of the Pricing Reform Plan (the average basic airfare for domestic routes is RMB0.75 per passenger-kilometer). Except for certain domestic routes, the actual airfare set by each Chinese airline for its domestic routes cannot be 25% higher and 45% lower than the basic airfare. Domestic routes that are not subject to the deviation range restrictions include short-haul routes between cities in the same province or autonomous region, or between a municipality and adjacent provinces, autonomous regions or another municipality. Certain tourist routes and routes served by only one Chinese airline are not subject to the bottom range restriction. The CAAC and the National Development and Reform Commission will announce the routes that are not subject to the deviation range restrictions through the airfare information system known as Airtis.net. Chinese airlines may apply to the CAAC and the National Development and Reform Commission for exemption from the bottom range restriction for a particular route. Chinese airlines are also required to file the actual airfare they set for their domestic routes within the ranges through Airtis.net 30 days prior to its implementation.

The CAAC and the National Development and Reform Commission will regularly review the average operating costs of Chinese airlines, and may adjust the basic airfare for particular domestic routes which, in their view, is not at a reasonable level. We expect that, as reforms continue in 2006, we will have more flexibility in operating our aviation business in the future. The promotion by Chinese regulators of a regulated and orderly market and a fair and positive competition mechanism will also provide a favorable environment for the growth of our business.

Under the PRC Civil Aviation Law, maximum airfare on Hong Kong and international routes is set in accordance with the terms of the air services agreements pursuant to which these routes are operated. In the absence of an air services agreement, the airfare is set by the airlines themselves or by the CAAC with reference to comparable market prices, taking into account the international airfare standards established through the coordination of the International Air Transport Association, which organizes periodic air traffic conferences for the purpose of coordinating international airfare. Discount is permitted on Hong Kong and international routes. For the airline industry in China as a whole, airfare per kilometer is substantially higher for Hong Kong and international routes than for domestic routes.

Acquisition of Aircraft and Spare Parts. Most Chinese airlines are required to purchase their aircraft, aircraft spare parts and other aviation equipment through the China Aviation Supplies Corporation, or the CASC, an entity controlled by the CAAC. However, our company is permitted to import aircraft, aircraft spare parts and other equipment for our own use from manufacturers through CEAIEC, which is 55% owned by CEA Holding and 45% owned by our company. This gives us freedom in rationalizing our maintenance practices by allowing us to maintain a relatively lower overall inventory level of aircraft parts and equipment than we otherwise would have to maintain. We are still required to obtain an approval from the National Development and Reform Commission for any import of aircraft. We generally pay a commission to CEAIEC in connection with these imports.

Domestic Fuel Supply and Pricing. The Civil Aviation Oil Supply Company, or CAOSC, which is controlled by the CAAC, is currently the dominant civil aviation fuel supply company in China. We currently

Table of Contents

purchase a significant portion of our domestic fuel supply from CAOSC. The Chinese government determines the fuel price at which the CAOSC acquires fuel from domestic suppliers and the CAAC issues guidance price and the retail price at which the CAOSC resells fuel to airline customers will be set within a specified range of such guidance price.

Safety. The CAAC has made the improvement of air traffic safety in China a high priority. The CAAC is responsible for the establishment of operational safety, maintenance and training standards for all Chinese airlines, which have been formulated based on international standards. Each Chinese airline is required to provide flight safety reports to the CAAC, including reports of flight incidents or accidents involving its aircraft occurred during the relevant reporting period and other safety related problems. The CAAC conducts safety inspections on each airline periodically.

The CAAC oversees the training of most Chinese airline pilots through its operation of the pilot training college. The CAAC implements a unified pilot certification process applicable to all Chinese airline pilots and is responsible for the issuance, renewal, suspension and cancellation of pilot licenses. Each pilot is required to pass the CAAC-administered examinations before obtaining a pilot license and is subject to an annual examination in order to have such certification renewed.

All aircraft operated by Chinese airlines, other than a limited number of leased aircraft registered in foreign countries, are required to be registered with the CAAC. All of our aircraft are registered with the CAAC. All aircraft operated by Chinese airlines must have a valid certificate of airworthiness issued and annually renewed by the CAAC. In addition, maintenance permits are issued to a Chinese airline only after the maintenance capabilities of that Chinese airline have been examined and assessed by the CAAC. These maintenance permits are renewed annually. All aircraft operated by Chinese airlines may be maintained and repaired only by the CAAC certified maintenance facilities, whether located within or outside China. Aircraft maintenance personnel must be certified by the CAAC before assuming aircraft maintenance posts.

Security. The CAAC establishes and oversees the implementation of security standards and regulations based on the PRC laws and standards established by international civil aviation organizations. Each airline is required to submit to the CAAC an aviation security handbook describing specific security procedures established by the airline for the day-to-day operations of the civil aviation and security training for staff of such airline. Such security procedures must be formulated based on the relevant CAAC regulations. Chinese airlines that operate international routes must also adopt security measures in accordance with the requirements of the relevant international agreements. We believe that our company is in compliance with all applicable security regulations.

Noise and Environmental Regulation. All airlines and airports in China are required to comply with noise and environmental regulations of the State Environmental Protection Agency that are modeled after international standards. The CAAC regulations allow Chinese airports to refuse take-off and landing rights to any aircraft that does not comply with state noise regulations. We believe that our company is in compliance with all applicable noise and environmental regulations.

Chinese Airport Policy. Prior to September 2003, all civilian airports in China were operated directly by the CAAC or by provincial or municipal governments. In September 2003, as part of the restructuring of the aviation industry in China, the CAAC handed over 93 civilian airports to provincial or municipal governments. The CAAC retained the authority to determine the take-off and landing charges, as well as charges on airlines for the use of airports and airport services. Prior to 2004, Chinese airlines were generally required to collect from their passengers on behalf of the CAAC a levy for contribution to the civil aviation infrastructure fund, which was used for improving China's civilian airport facilities. Our revenue for the previous years is shown net of this levy. In 2003, the levy was 5% of domestic airfare for domestic routes and 2% of international airfare for international routes. The levy was waived by the CAAC from May 1, 2003 to December 31, 2003. We were officially notified by the CAAC that effective from January 1, 2004, the CAAC

Table of Contents

no longer charges such levy. However, we cannot be sure that the CAAC will not charge other similar levies in the future.

Limitation on Foreign Ownership. The CAAC's present policies limit foreign ownership in Chinese airlines. Under these limits, non-Chinese residents and Hong Kong, Macau or Taiwan residents cannot hold a majority of our total outstanding shares. Currently, approximately 32.2% of our total outstanding shares are held by non-Chinese residents and Hong Kong, Macau or Taiwan residents (excluding the qualified foreign institutional investors that are approved to invest in the A-share market of the PRC).

Competition

Domestic. Domestic competition from other Chinese airlines has been increasing recently as our competitors have increased capacity and expanded operations by adding new routes or additional flights to existing routes and acquiring other airlines. We expect that competition in the future from other Chinese airlines on our routes will further increase as the CAAC promotes controlled competition in order to advance the growth of the domestic airline industry as a whole. Our company competes against our domestic competitors primarily on the basis of safety, quality of service and frequency of scheduled flights. With the combination of our dominant position in Shanghai, our route network and our continued commitment to safety and service quality, we believe that our company is well-positioned to compete against our domestic competitors in the growing airline industry in China.

There are currently approximately 14 Chinese passenger airlines operating in China, and our company competes with many of them on various domestic routes. All of these airlines operate under the regulatory supervision of the CAAC. In July 2005, the CAAC introduced new rules to further open the civil aviation industry to domestic investors, including private-sector investors, which may result in the establishment of more new Chinese airlines and create more competition. Our company, Air China Limited, or Air China, which is based in Beijing and listed on the Hong Kong Stock Exchange and the London Stock Exchange, and China Southern Airlines Company Limited, or China Southern, which is based in Guangzhou and listed on the Hong Kong Stock Exchange and the New York Stock Exchange, are the three leading air carriers in China, both in terms of revenue tonne-kilometers and size of operations. Each of these three airlines operates at least 100 routes and has a fleet of at least 60 jet aircraft. As of December 31, 2005, our company, Air China and China Southern accounted for approximately 72.2% of the total commercial air traffic (as measured in tonne-kilometers) handled by Chinese airlines.

Each of the domestic airlines competes against other airlines operating the same routes or flying indirect routes to the same destinations. Our principal competitors in the domestic market are China Southern and Air China, which provide transportation services on some of our routes as well, principally routes originating from the major air transportation hubs in China, such as Shanghai, Guangzhou and Beijing. Some of these routes are among our most heavily traveled routes. Since most of the major domestic airlines operate routes from their respective hubs to Shanghai, our company also competes against virtually all of the major domestic airlines on these routes. The number of airlines operating flights to and from Shanghai has increased significantly in recent years. We also face domestic competition from Shanghai Airlines, an airline based in Shanghai which is smaller than our company. Competition between Shanghai Airlines and us has increased as Shanghai Airlines expands its long-haul capacity and operates routes to more cities served by our company.

Hong Kong. Our high yielding Hong Kong routes are highly competitive. The primary competitor on our Hong Kong routes is Hong Kong Dragon Airlines Limited, or Dragon Air. We currently operate approximately 670 flights per week on routes between 16 Chinese cities and Hong Kong. Dragon Air competes with us on several of these routes. Moreover, in April 2003, Cathay Pacific Airways Limited, or Cathay, obtained the licenses to fly to Beijing, Shanghai and Xiamen in China. Cathay commenced its services on the routes of Hong Kong-Beijing, Hong Kong-Shanghai and Hong Kong-Xiamen in December 2003, January 2005 and February 2005, respectively. With Cathay commencing its operations on

Table of Contents

the Hong Kong-Shanghai route, we face more intensified competition on our Hong Kong-Shanghai route. In addition to the frequency and convenience of our flights and the number of routes offered, our company's competitive strategy for the Hong Kong routes also stresses safety and service quality. The new Air Transportation Arrangement signed between the Chinese central government and the administrative government of Hong Kong in February 2000 provides for equal opportunity for airlines based in Hong Kong and mainland China. As a result, Dragon Air has increased the frequency of its flights on several of our Hong Kong routes and intensified the competition.

On June 8, 2006, Cathay, which owns approximately 17.79% of Dragon Air, offered to acquire from all other shareholders of Dragon Air their ownership interests in Dragon Air with a view to converting Dragon Air into a wholly-owned operating subsidiary of Cathay. In connection with this proposed acquisition, Cathay has agreed to increase its shareholding in Air China to 20% and Air China has agreed to acquire approximately 10% equity interest in Cathay. Cathay and Air China also entered into an agreement to enhance cooperation between them in a number of operational areas, including operating all the passenger services of Cathay and Air China between Hong Kong and mainland China as joint venture routes under code-share and revenue and cost pooling arrangements. Cathay's proposed acquisition of Dragon Air and enhanced cooperation with Air China may further intensify the competition on the routes between Hong Kong and mainland China and imposed a greater competition pressure on the other airline companies operating on these routes.

At present, our Hong Kong routes benefit from traffic between Hong Kong and mainland China ultimately originating in Taiwan. During the Lunar Chinese New Year peak travel season in 2003, from late-January to mid-February, the Chinese government allowed special chartered flights between Shanghai and Taiwan for the first time. During the Lunar Chinese New Year peak travel seasons in 2005 and 2006, from late-January to mid-February, airlines from both mainland China and Taiwan (including our company) operated 48 and 72, respectively, non-stop direct chartered flights between selected cities of mainland China and Taiwan. Although regular direct flights between Taiwan and mainland China are still not permitted, our results of operation on Hong Kong routes could be materially and adversely affected if direct flights between Taiwan and mainland China are permitted in the future. We cannot assure you that our company can obtain sufficient Taiwan-mainland China routes or that the yields on these routes would be adequate to offset any material adverse effect on our revenues derived from operation on our Hong Kong routes. Our company also faces competition from Dragon Air in our Hong Kong cargo operations.

In 1995, China National Aviation Corporation, or CNAC, which is controlled by Air China, acquired an interest in Air Macau. Air Macau started to operate routes in 1996 between Macau and mainland China, including routes to cities in mainland China such as Beijing, Shanghai, Xiamen and Wuhan. Air Macau also operates routes between Macau and Taiwan, including flights which allow passengers to travel between mainland China and Taiwan through Macau without changing planes in Macau. Air Macau's routes provide an alternative to our Hong Kong routes for passengers traveling between Taiwan and mainland China. The airfare on some of Air Macau's routes is significantly lower than airfare on our company's comparable routes.

International. We compete with Air China, China Southern, United Airlines and many other well-established foreign carriers on our international routes. Most of our international competitors are very well known international carriers and are substantially larger and have substantially greater financial resources than us. Many of our international competitors also have significantly longer operating history and greater name recognition than our company. Some international passengers, who may perceive these airlines to be safer than Chinese airlines in general, may prefer to travel on these airlines. In addition, many of our international competitors have more extensive sales networks and participate in reservation systems that are more convenient than those of ours, or engage in promotional activities, such as frequent flyer programs, that may be more popular than those of ours and effectively enhance their ability to attract international passengers. We also face significant competition in our international cargo operations. For instance, we compete with All Nippon Airways and Japan Airlines System in cargo operations on our Japan routes. Moreover, China and the United States entered into an air service agreement on July 24, 2004. Pursuant to this agreement, five additional airlines from each country are allowed to serve the China-U.S. market over the next few years. It is expected that there will be a significant increase in China-U.S. air services over the next few years due to this agreement, which would further intensify competition in this market.

Air China operates the largest number of international routes among all Chinese airlines. Beijing, the hub of Air China's operations, is the destination for most international flights to China. We compete with Air China, All Nippon Airways, Japan Airlines System and Northwest Airlines, Inc. on our passenger routes to Japan. Our primary competition on our flights to southeast Asia comes from Thai Airways International, Singapore Airlines and China Southern. On our passenger flights to the United States, our principal

-25-

Table of Contents

competitors include Northwest Airlines, Inc., United Airlines, Air China and China Southern. On our European routes, our competitors include Air China, the Air France-KLM Group, and Lufthansa German Airlines. We compete with Air China and Qantas Airways Ltd. on our Australian routes. In September 1997, Shanghai Airlines was awarded limited international route rights by the CAAC. Our company competes in the international market on the basis of price, service quality, frequency of scheduled flights and convenient sales arrangements. To improve our competitive position in international markets, we have established additional dedicated overseas sales offices, launched our own frequent flyer program, participated in the Asia Miles frequent flyer program which is popular in Asia, and entered into code-sharing arrangements with a number of foreign airlines. We have also improved our online reservation and payment system.

Maintenance and Safety

The rapid increase in air traffic volume in China in recent years has put pressure on many components of the Chinese airline industry, including air traffic control systems, the availability of qualified flight personnel and airport facilities. In recent years, the CAAC has placed increasing emphasis on the safety of Chinese airline operations and has implemented a number of measures aimed at improving the safety record of the airlines. Our company's ability to provide safe air transportation in the future depends on the availability of qualified and experienced pilots in China and the improvement of maintenance services, national air traffic control and navigational systems and ground control operations at Chinese airports. Our company has a good safety record and regards the safety of our flights as the most important component of our operations.

Maintenance Capability. We currently perform regular repair and maintenance checks for all of our aircraft. We are able to perform D1 checks on our Boeing 737 aircraft and C check on MD-82, Airbus A320, A340-300 and A300-600 aircraft. We also perform certain maintenance services for other Chinese airlines. Our primary aircraft maintenance base is at Hong Qiao International Airport. We have additional maintenance bases at Pudong International Airport and each of our provincial hubs. Our maintenance staff in Shanghai supervises the operation of our regional maintenance facilities. Our company currently employs approximately 4,480 workers as maintenance and engineering personnel. Some of our aircraft maintenance personnel participated in the manufacturer training and support programs sponsored by Airbus Industries G.I.E., or Airbus, and Boeing Corporation, or Boeing. In order to enhance our maintenance capabilities and to reduce our maintenance costs, we have, over the past few years, acquired additional maintenance equipment, tools and fixtures and other assets, such as airborne testing and aircraft data recovery and analysis equipment. Our company's avionics electronic equipment is primarily maintained and repaired at our electronic maintenance equipment center located in Shanghai, which was set up in cooperation with Honeywell, Inc. and is one of the largest and most advanced avionic electronic facilities in China.

In July 1996, we established a joint venture with Allied Signal Inc. in Shanghai for the purpose of performing maintenance and repairs on aircraft wheel assemblies and brakes. In 1997, our company entered into an agreement with Singapore Aviation Services Company, or SASCO, for the provision of additional maintenance services by SASCO to our company. In October 1997, we completed the construction of a maintenance hangar at Hong Qiao International Airport which has the capacity to house two widebody aircraft. In September 2002, our company and Rockwell Collins International Inc. of the United States entered into a joint venture agreement to establish Collins Aviation Maintenance Service Shanghai Limited, a joint venture that is primarily engaged in the provision of repair and maintenance services for avionics and aircraft entertaining facilities in China. Our company and Rockwell Collins International Inc. hold 35% and 65% of the equity interests in the joint venture, respectively. Moreover, in November 2002, our company, jointly with China Aircraft Services Limited, established Shanghai Eastern Aircraft Maintenance Limited, in which our company holds 60% of the equity interests, to provide supplemental avionics and other maintenance services to our company. STAC, a joint venture company that was established in 2004 between our company and Singapore Technologies Aerospace Ltd, also provides us with aircraft maintenance, repair and overhaul services.

Table of Contents

The enhancement of our maintenance capabilities allows our company to perform various maintenance operations in-house and continue to maintain lower spare parts inventory levels.

Safety. The provision of safe and reliable air services for all of our customers is one of our primary operational objectives. Our company implements uniform safety standards and safety-related training programs in all operations. Our flight safety management division monitors and supervises our company's flight safety. We have had a flight safety committee since the commencement of our business, comprised of members of our senior management, to formulate policies and implement routine safety checks at our Shanghai headquarters and all provincial hubs. The flight safety committee meets monthly to review our overall operation safety record during the most recent quarter and to adopt measures to improve flight safety based upon these reviews. We have also implemented an employee incentive program, using a system of monetary rewards and discipline, to encourage compliance with the CAAC safety standards and our safety procedures. We periodically evaluate the skills, experience and safety records of our pilots in order to maintain strict control over the quality of our pilot crews.

The management of each of our provincial hub operations is responsible for the flight safety operations at that hub under the supervision of our flight safety management division. We prepare monthly safety bulletins detailing recent developments in safety practices and procedures and distribute them to each of our flight crew, the maintenance department and the flight safety management department. The CAAC also requires our company to prepare and submit semi-annual and annual flight safety reports.

All of our jet passenger aircraft pilots participated in the manufacturer training and support programs sponsored by Airbus and Boeing and are required to undergo recurrent flight simulator training and to participate in a flight theory course periodically. Our company maintains an MD-82 flight simulator at our training facility located at the Pudong district in Shanghai, which is used for both initial and recurrent training of all of our MD-82 aircraft pilots. We also use other flight simulators (including A300-600R flight simulator, A320 flight simulator and A340 flight simulator) for training of our pilots for the corresponding types of aircraft. At present, we send all other jet passenger aircraft pilots to the training center of the CAAC or abroad for flight simulator training.

Fuel Supplies

Fuel costs represented approximately 32.1% of our operating expenses in 2005. We currently purchase a significant portion of the aviation fuel for our domestic routes from regional branches of the CAOSC. Fuel costs in China are affected by costs at domestic refineries and limitations in the transportation infrastructure, as well as by insufficient storage facilities for aviation fuel in certain regions of China. We purchase a portion of the aviation fuel for our international routes from foreign fuel suppliers located at the destinations of these routes, generally at international market prices.

In 2005, our fuel expenses increased 63.7% as a result of increased weighted average domestic and international fuel prices and the expansion of our fleet. In particular, in 2005, the weighted average domestic and international fuel prices paid by our company increased by approximately 24.5% and 39.8%, respectively.

Ground Facilities and Services

The center of our operations is Shanghai, one of China's principal air transportation hubs. Our Shanghai operations are based at Hong Qiao International Airport and Pudong International Airport. We currently also operate from various other airports in China, including Yaoqiang Airport in Jinan, Lukou Airport in Nanjing, Liuting Airport in Qingdao, Luogang Airport in Hefei, Xiangtang Airport in Nanchang, Wushu Airport in Taiyuan, Zhengding Airport in Shijiazhuang, Lishe Airport in Ningbo, Tianhe Airport in Wuhan, Wujiaba Airport in Kunming and Xianyang Airport in Xi'an. We own hangars, aircraft parking and

Table of Contents

other airport service facilities at Hong Qiao International Airport and Pudong International Airport and lease from CEA Holding certain buildings at Hong Qiao International Airport where our principal executive offices are located.

We have our own ground services and other operational services, such as aircraft cleaning and refueling and the handling of passengers and cargo for our operations at Hong Qiao International Airport and Pudong International Airport. We also provide ground services for many other airlines that operate to and from Hong Qiao International Airport and Pudong International Airport. At other airports served by our company, we generally contract for ground services with these airports or the principal airlines based at these airports for fees and other charges which are typically based on passenger or cargo volume or aircraft tonnage.

In-flight meals and other catering services for our Shanghai-originated flights are provided primarily by Shanghai Eastern Air Catering Limited Liability Company, a joint venture company affiliated with CEA Holding. We generally contract with local catering companies for flights originating from other airports. We have improved the quality of our in-flight meal service in recent years.

We incur certain airport usage fees and other charges for services performed by the airports where our company operates, such as air traffic control charges, take-off and landing fees, aircraft parking fees and fees payable in connection with the use of passenger waiting rooms and check-in counter space. At domestic airports, such fees are generally charged at rates prescribed by the CAAC, which are lower than rates generally in effect at airports outside China.

Marketing and Sales

Passenger Operations. Our marketing strategy with respect to passenger operations is primarily aimed at increasing our market share for all categories of air travelers. With respect to our Hong Kong and international routes, we are permitted to market our services on the basis of price. We also have limited flexibility in setting our airfare for domestic routes after the implementation of the Pricing Reform Plan in April 2004, and therefore are able to adjust our airfare in response to the market demand on our domestic routes. As part of our overall marketing strategy, we emphasize our commitment to safety and service quality. We believe that emphasis on safety is a critical component of our ability to compete successfully. In order to improve our customer services, we participated in joint cabin crew training and exchange programs with foreign airlines, including Asiana Airlines and Japan Airlines System.

We have also adopted customized strategies to market our services to particular travelers. We seek to establish long-term customer relationships with business entities that have significant air travel requirements. In order to attract and retain business travelers, we focus on frequency of flights between major business centers, convenient transit services and extensive sales network. We launched our Golden Swallow frequent flyer program in 1998 and joined the Asia Miles frequent flyer program in April 2001 to attract and retain travelers. In August 2003, we changed the name of our frequent flyer program to Eastern Miles and introduced a series of new services, including, among others, instant registration of membership and mileage, online registration of mileage, and accumulation of mileage on expenses at certain hotels and restaurants that are our strategic partners. Under our continual effort to carry out the Eastern Miles program, the number of frequent flyers surpassed 5.2 million in 2005, with a flight-taking rate of 7.4%, bringing the influence of our products into full play. The special services hotline 95108 call-centre was established and came into operation in 2004.

In 2000, we launched the China Eastern Airlines-Great Wall co-branded credit card jointly with the Bank of China, which provides to our customers benefits such as airfare discounts, hotel room reservation packages and increased baggage allowances. In 2004, working with partner hotels, we launched our Eastern Holiday product series to attract more leisure travelers. In addition, we continued to promote our China Eastern Express services on our Shanghai Hong Kong and Shanghai Beijing routes and our China Shuttle

Table of Contents

transit services. Our China Eastern Express services (including BTBT and Shanghai Beijing Express) provide more scheduled flights on some of our heavily traveled routes, such as Shanghai-Hong Kong and Shanghai-Beijing, compared with our other routes. Our China Shuttle services provide expedite transit services at Hong Qiao International Airport and Pudong International Airport for transit travelers on domestic routes and certain international routes, significantly enhancing our customer service. We streamlined the transfer and connection procedures, rationally allocated flights, and also introduced different fares for connection flights to meet the needs of different travelers. In 2005, we launched international routes originating from Shenyang, Dalian, Shenzhen, Chongqing, Chengdu and Harbin under internal code sharing arrangements. We also introduced the Single Check-in for Transit Passengers and Luggages service in 23 cities including Shantou and Xiamen. All these efforts improved our transit services quality and, as a result, the number of passengers who used our transit services exceeded 300,000 and 850,000 persons/time in 2004 and 2005, respectively. In June 2004, we officially introduced our China Eastern Service Scheme to the public at large. Under this scheme, we will devote efforts to flight scheduling, assurance and maintenance and enhance our non-regular services.

We have entered into code-sharing arrangements with American Airlines, Japan Airlines System, Korean Airlines, Asiana Airlines, Qantas Airways, Air France, Thai Airways and Air Europa. We are also contemplating more code-sharing arrangements with other airlines and plan to continue to strengthen our existing cooperation with other international airlines.

Our advertising, marketing and other promotional activities include the use of radio, television and print advertisements. We plan to continue to use advertising and promotional campaigns to increase sales on new routes and competitive routes.

In 2002, we upgraded our online ticket booking and payment system to facilitate customer purchases of tickets via the Internet. We continue to encourage our customers to book and purchase tickets via the Internet. We also maintain an extensive domestic network of sales agents and representatives in order to promote in-person ticket sales and to assist customers. The majority of our airline tickets are sold by domestic and international sales agents. Our tickets are sold throughout China through approximately 4,000 sales agents and travel agents who have contractual relationships with us. Currently, our direct domestic ticket sales are handled primarily through employees based at our ticket counters located at Hong Qiao International Airport, Pudong International Airport, in downtown Shanghai and at our provincial hubs in Anhui, Jiangsu, Zhejiang, Jiangxi, Shandong, Shanxi, Hebei, Hubei, Yunnan and Shannxi provinces, as well as at the airports in Beijing, Chengdu, Fuzhou, Guangzhou, Hangzhou, Ningbo, Shenzhen, Xiamen and Yantai. Direct sales are also promoted by the availability of our telephone reservation and confirmation services. In addition to our domestic sales agents, we maintain overseas representative offices in Chicago, Los Angeles, Seattle, Madrid, Paris, Sydney, Tokyo, Osaka, Nagasaki, Fukuoka, Nagoya, Okayama, Singapore, Bangkok, Seoul, Delhi and Hong Kong, which facilitate the sale of international and Hong Kong air tickets and provide reservation confirmation and other services. The establishment of our Hong Kong operation division in 2005 will also facilitate our marketing and sales in Hong Kong. In order to promote international ticket sales, we intend to increase our international sales force by expanding our overseas network of commissioned independent sales agents.

All of our direct passenger ticket sales are recorded on our computer systems. All Chinese airlines, including us, are required to use the passenger reservation service system provided by the CAAC's computer information management center, which is linked with the computer systems of approximately 13 domestic airlines. We have also entered into membership agreements with several international reservation systems, including ABACUS, the largest computer reservation system in southeast Asia, TOPAS of Korea, SABRE, GALILEO and WORLDSPAN of the United States, AMADEUS of Europe, and INFINI and AXESS of Japan, which have made it easier for customers and sales agents to make reservations and purchase tickets for our international flights.

Table of Contents

Cargo Operations. We maintain a network of cargo sales agents domestically and internationally. We established domestic cargo sales offices in Dalian, Beijing, Shanghai, Xiamen and other major transportation hubs in China, and international cargo sales offices in Hong Kong, Los Angeles, Paris and our other overseas flight destinations. In 2005, we established our northern China, southern China, southeastern China and overseas sales management centers to improve coordination among our sales offices. We are also improving our cargo sales on passenger flights through full utilization of our existing passenger sales network.

Ancillary Airline Activities

In addition to our airline operations, we also generate commission revenues from tickets sold on behalf of other airlines. Commission rates for these sales are determined by the CAAC and are based on the price of the tickets sold.

Moreover, we derive revenues from the provision of airport ground services for airlines operating to or from Hong Qiao International Airport and Pudong International Airport, including aircraft cleaning, loading, unloading, storage and ground transportation of cargo and passenger luggage. At present we are the principal provider of these services at Hong Qiao International Airport and Pudong International Airport. We provide these services to foreign carriers generally pursuant to one-year renewable contracts. In 2005, we generated revenues of approximately RMB993 million (approximately US\$123 million) from our airport ground services and ticket handling services.

Patents and Trademarks

We own or have obtained licenses to use various domestic and foreign patents, patent applications and trademarks related to our business. While patents, patent applications and trademarks are important to our competitive position, no single one is material to us as a whole.

We own various trademarks related to our business. The most important trademark is the service trademark of China Eastern Airlines Corporation Limited. All of our trademarks are registered in China.

Insurance

The CAAC purchases fleet insurance from PICC Property and Casualty Company Limited, or PICC, and China Pacific Property Insurance Company Ltd, on behalf of all Chinese airlines. PICC has reinsured a substantial portion of its aircraft insurance business through Lloyd's of London. The fleet insurance is subject to certain amount of deductibles. The premium payable in connection with these insurance is allocated among all Chinese airlines based on the aircraft owned or leased by these airlines. Under the relevant PRC laws, the maximum civil liability of Chinese airlines for injuries to passengers traveling on domestic flights has been increased to RMB400,000 (approximately US\$49,565) per passenger in March 2006, for which our company also purchases insurance. As of July 31, 2006, the Convention for the Unification of Certain Rules for International Carriage by Air of 1999, or Montreal Convention, became effective in China. Under the Montreal Convention, carriers of international flights are strictly liable for proven damages up to 100,000 Special Drawing Rights (approximately US\$149,809 as of June 5, 2006) and beyond that, carriers are only able to exclude liability if they can prove that the damage was not due to negligence or other wrongful act of the carrier (and its agents) or if the damage solely arose from the negligence or other wrongful act of a third party. We believe that we maintain adequate insurance coverage for the civil liability that can be imposed due to injuries to passengers under Chinese law, the Montreal Convention and any agreement we are subject to. We also maintain hull all risk, hull war risk and aircraft legal liability insurance, including third party liability insurance, of the types and in amounts customary for Chinese airlines. See also Item 3. Key Information Risk Factors Insurance coverage and cost for more information on our company's insurance coverage.

Table of Contents**Description of Property****Fleet**

In 2005, as part of our acquisition of certain assets and liabilities relating to the aviation businesses of CEA Northwest and CEA Yunnan, we acquired or assumed the ownership of or the leases for 60 additional aircraft, 50 of which we continued to operate as of December 31, 2005. We also added 27 aircraft to our fleet through other transactions, including the purchase of two Airbus A321 aircraft and three ERJ145 aircraft, the finance lease of five Airbus A320 aircraft, the operating lease of four Airbus A320 aircraft, seven B737-700 aircraft and three B737-800 aircraft, and the wet lease of one Airbus A300F freighter and two B747F freighters. Moreover, in 2005, we entered into agreements to purchase five A319 aircraft (with engines), five ERJ145 aircraft, 15 A320 series aircraft, two Boeing 747-400 freight aircraft, four Boeing 737 aircraft and 15 Boeing 787 aircraft, respectively. In 2006, we also contracted to purchase 16 Boeing 737 NG series aircraft (with engines) and 30 Airbus A320 series aircraft (with engines).

As of May 31, 2006, we had a fleet of 195 aircraft, including 177 jet passenger aircraft that have more than 100 seats and 9 jet freighters. The following table sets forth the details of our fleet as of May 31, 2006:

	Total Number of Aircraft	Number of Aircraft Owned	Number of Aircraft under Operating Lease	Number of Aircraft under Finance Lease	Average Number of Seats	Average age (in years) ⁽¹⁾

Total Fleet	195	61	57	77
-------------	-----	----	----	----

(1) The average aircraft age is weighted by the number of available seats.

In 2005, our average daily aircraft utilization rate decreased by 0.3 hours to 9.4 hours per day, primarily due to a decrease in the aircraft daily utilization rate of certain older aircraft. The table below sets forth the daily average utilization rates of our jet passenger aircraft for each of the three years ended December 31, 2005.

-31-

Table of Contents

	2003	2004 (in hours)	2005
Wide-body:			
A340-600	9.9	12.6	13.8

Boeing 737-300	8.6	10.0	9.0
ERJ145			7.7
CRJ-200			5.1

Most of our jet passenger aircraft were manufactured by either Airbus or Boeing. Our Airbus A340-300 and A340-600 aircraft are primarily used for our routes to the United States, Europe, Hong Kong, Japan and other international destinations, including Bangkok, Seoul, Singapore and Sydney, and on major domestic routes to cities such as Beijing and Guangzhou. Our Airbus A330 aircraft are primarily used for the routes of Beijing-Shanghai and Shanghai-Hong Kong and Singapore, Japan and Korea routes. Our Airbus A320, MD-90 and Boeing B737 aircraft are suitable for middle and short distance flights and are primarily used for our domestic routes. MD-82 aircraft are primarily used for shorter distance domestic routes on which it is not possible to achieve high load factors with wide-body aircraft and on routes connecting to certain domestic airports which cannot accommodate the landing of wide-body aircraft. Our ERJ145 and CRJ-200 aircraft are mainly used on our regional short-distance routes.

Our MD-11F, A300F and B747F aircraft are used for our cargo operations and carry cargo to Japan, Europe and the United States. Our general aviation services customers include provincial authorities in charge of agriculture, forestry and geology.

Future Fleet Development. Our aircraft acquisition program focuses on aircraft that will modernize and rationalize our fleet to better meet the anticipated requirements of our route structure, taking into account aircraft size and fuel efficiency. Our aircraft acquisition program, however, is subject to the approval of the CAAC and the National Development and Reform Commission. The following table summarizes our currently anticipated jet aircraft deliveries from 2006 to 2007 as of December 31, 2005:

Table of Contents

	2006	2007	Total
Aircraft			
A330-300	7	5	12
A330-200	3	1	4
A321	2	4	6

B737-700	7	0	7
ERJ145	4	3	7
B747F	1	1	2
Total	27	20	47

The actual acquisition of any of these aircraft or any additional aircraft may depend on such factors as the general economic conditions, our operating results and other capital requirements. We believe that our aircraft acquisition plan will help us accomplish our expansion plans while maintaining an efficient fleet and ensuring alternative sources of supply.

Fleet Financing Arrangements. We generally acquire aircraft through either long-term capital leases or operating leases. To take advantage of the low interest rate for long-term loans in 2002, we also purchased certain number of aircraft and financed it by borrowing long-term loans from banks in China. Under the terms of most capital leases, we generally are obligated to make lease payments that finance most of the purchase price of the aircraft over the lease term. Upon the expiration of the lease term, we must either purchase the aircraft at a specified price or pay any amount by which such price exceeds the proceeds from the disposition of the aircraft to third parties. Alternatively, some capital leases provide for ownership of the aircraft to pass to us upon satisfaction of the final lease payment. Under capital leases, aircraft are generally leased for approximately the whole of their estimated working life, and the leases are either non-cancelable or cancelable only on a payment of a major penalty by the lessee. As a result, we bear substantially all of the economic risks and rewards of ownership of the aircraft held under capital leases. Operating leases, however, are customarily cancelable by the lessee on short notice and without major penalty. Under operating leases, substantially all the risks and rewards of ownership of the aircraft remain with the lessor.

We intend to increase the use of operating leases to improve the flexibility of our operations. However, each decision on our financing alternatives will depend on an evaluation of the following factors:

our aircraft requirements and anticipated future deliveries;

capital structure and cash flow situation;

prevailing interest rates; and

other market conditions in effect at the time of any such acquisition or financing.

All of our payment obligations under current aircraft leases have been guaranteed by banks in China.

Operating Facilities.

Our corporate headquarters, base maintenance center and other primary airport facilities in Shanghai, occupying an area of approximately 412,422 square meters of land, are located at Hong Qiao International Airport. We also own office buildings, cargo operating buildings and a maintenance center at Pudong International Airport. The total gross floor area of all of our buildings and facilities is approximately 341,000 square meters.

Table of Contents

We own all of the buildings and facilities located at Hong Qiao International Airport, with the exception of the office buildings where our corporate headquarters are located. We lease from CEA Holding our corporate headquarter office buildings and the land on which our corporate headquarters are located. We have acquired buildings and ancillary facilities at Pudong International Airport with a total gross floor area of approximately 158,400 square meters.

Our operations in the 11 provincial hubs in Jiangsu, Shandong, Shanxi, Hebei, Anhui, Jiangxi, Zhejiang, Hubei, Yunnan and Shannxi are located in the airports in Nanjing, Qingdao, Jinan, Taiyuan, Shijiazhuang, Hefei, Nanchang, Ningbo, Wuhan, Kunming and Xi'an, respectively. In Nanjing, we lease all the buildings and facilities our company occupies from the airport authority. In Qingdao, Hefei and Nanchang, we have the right to use such buildings and facilities constructed and maintained by our company. However, the right to use such buildings and facilities cannot be transferred or leased to third parties. In Taiyuan and Shijiazhuang, we own our maintenance facilities and lease office building from CEA Holding and other facilities from the local airport authorities. In Kunming and Xi'an, we leased from CEA Holding operating facilities including office buildings, warehouses and workshops.

Item 4A. Unresolved Staff Comments

None.

Item 5. Operating and Financial Review and Prospects.

You should read the following discussion in conjunction with our audited consolidated financial statements, together with the related notes, included elsewhere in this annual report. Our consolidated financial statements have been prepared in accordance with IFRS. For a discussion of certain differences between IFRS and U.S. GAAP as they relate to us, see Note 43 to our audited consolidated financial statements included in this annual report. The condensed consolidated financial statements, prepared in accordance with U.S. GAAP, are also presented in this annual report. We acquired from CEA Holding certain assets and liabilities relating to the aviation businesses of CEA Yunnan and CEA Northwest in June 2005. Our consolidated financial statements as of and for the year ended December 31, 2005 reflect the results of operations of those acquired assets and liabilities from the effective date of the acquisition, June 30, 2005. Under U.S. GAAP, the acquisitions would have been accounted for as combination of entities under common control since our company and the aviation businesses of CEA Northwest and CEA Yunnan were under the common control of CEA Holding. Under this method, the acquired assets and liabilities would have been accounted for at their historical cost under U.S. GAAP and the consolidated financial statements for all years presented would have been retroactively restated as if the acquired entities had always been part of our company. This method is reflected in the significant differences between IFRS and U.S. GAAP provided in Note 43 to our audited consolidated financial statements included in this annual report. Our condensed consolidated financial statements prepared and presented in accordance with U.S. GAAP to reflect the effect of the acquisitions of CEA Northwest and CEA Yunnan aviation businesses under common control for the relevant periods are also set forth in Note 44 to our audited consolidated financial statements included in this annual report.

Overview

Our primary business is the provision of domestic, Hong Kong regional and international passenger and cargo airline services. Our overall capacity on an available tonne kilometer, or ATK, basis increase by 23.7%, from 7,071.2 million ATKs in 2004 to 8,751.5 ATKs in 2005, and our passenger capacity on an available seat kilometer, or ASK, basis increase by 26.0%, from 41,599.1 million ASKs in 2004 to 52,427.9 million ASKs in 2005. Total traffic on a revenue tonne kilometer, or RTK, basis increase by 24.3%, from 4,340.7 million RTKs in 2004 to 5,395.2 PTKs in 2005.

In addition to our acquisition from CEA Holding certain assets and liabilities relating to the aviation businesses of CEA Yunnan and CEA Northwest in June 2005, we increased our equity interest in CEA Wuhan from 40% to 96% through an acquisition of interest held by other shareholders of CEA Wuhan early 2006. See the section headed

Item 4. Information on the Company History and Development of the

Table of Contents

Company for more details. Those acquisitions have resulted in the expansion of our operation and increase in our traffic revenue. For example, the operation relating to the assets and liabilities we acquired relating to the aviation businesses of CEA Yunnan and CEA Northwest contributed revenues of RMB4,270 million to our company in the second half of 2005 and had a material impact on our overall results of operation for the year ended December 31, 2005. See Note 38 to our audited consolidated financial statements for details. With the integration of those acquired assets or entity to our existing operations, we expect to achieve improvement of our service quality and enhancement of our overall strength and market competitiveness by rationalizing our route network and fleet, centralizing our procurement of aircraft and aircraft components, integrating our maintenance resources as well as streamlining our sales channels.

As required under IFRS, we applied the acquisition accounting method to account for the acquisitions of certain assets and liabilities relating to the aviation businesses of CEA Yunnan and CEA Northwest. Under U.S. GAAP, such transactions are considered combinations of entities under common control since our company and the aviation businesses of CEA Northwest and CEA Yunnan were under the common control of CEA Holding. Such transactions are accounted for in a manner similar to pooling-of-interests, retroactively restating all years presented on a combined basis as if the acquisitions had been in effect since inception, whereby related assets and liabilities of the aviation businesses would be accounted for at historical cost and the related results of operations would be included in the consolidated financial statements for the earliest year presented.

The historical results of operations discussed in this annual report may not be indicative of our future operating performance. Like those of other airlines, our operations substantially depend on overall passenger and cargo traffic volume and are subject to seasonal and other variations that may influence passenger travel demand and cargo volume and may not be under our control, including unusual political events and other unforeseen events. Our operations will be affected by, among other things, fluctuation of the aviation fuel price, aircraft acquisition and leasing costs, maintenance expenses, take-off and landing charges, wages, salaries and benefits, other operating expenses and the rates of income taxes paid. We expect the aviation fuel price to continue to remain high and have a material adverse effect on our profitability. We expect depreciation expenses and operating lease expenses to increase as new aircraft and related flight equipment are acquired. Maintenance expenses may also increase as a result of acquisitions of new aircraft, although we expect to benefit from certain maintenance and fuel cost savings as older aircraft are retired and replaced.

Our financial performance is also significantly affected by factors associated with operating in a highly regulated industry, as well as a number of other external variables, including political and economic conditions in China, competition, foreign exchange fluctuations and public perceptions of the safety of air travel with Chinese airlines. Because nearly every aspect of our airline operations is subject to the regulation of the CAAC, our operating revenues and expenses are directly affected by the CAAC regulations with respect to, among other things, domestic airfare, level of commissions paid to sales agents, aviation fuel price, take-off and landing charges and route allocations. The nature and extent of airline competition and the ability of Chinese airlines to expand are also significantly affected by various CAAC regulations and policies. Changes in the CAAC's regulatory policies, or in the implementation of such policies, are therefore likely to have a significant impact on our future operations.

Certain Financial Information by Geographic Region

The following table sets forth passenger revenues, passenger traffic and passenger yield by geographic region for the years ended December 31, 2003, 2004 and 2005.

-35-

Table of Contents

	Year Ended December 31,		
	2003	2004	2005

(1) Certain revenues for the years ended December 31, 2003 and 2004 have been restated due to reclassification.

Operating Results

Certain incomes and expenses for the years ended December 31, 2003 and 2004 have been reclassified under IFRS. Such reclassifications have no effect on the profit (loss) attributable to equity holders; Certain expenses have been adjusted for the years ended December 31, 2003 and 2004 as a result of the retrospective application of changes to our accounting policy relating to the costs of overhaul of owned and finance leased aircraft and engines. Such adjustments resulted in a 15.5% increase in the loss attributable to equity holders for the year ended December 31, 2003 and a 37.5% decrease in the profit attributable to equity holders for the year ended December 31, 2004. See Note 2(a) to our consolidated financial statements included in this annual report.

2005 Compared to 2004

Revenues. Our revenues increased 28.4% from RMB21,387 million in 2004 to RMB27,454 million in 2005 (net of the applicable PRC business tax). This increase was primarily due to an increase in our capacity resulting from our acquisition of the assets and liabilities relating to the aviation businesses of CEA Northwest and CEA Yunnan and our acquisitions of other aircraft.

Traffic revenues increased 29.3% from RMB19,962 million in 2004 to RMB25,820 million in 2005, primarily due to a 34.2% increase in our passenger revenues. Compared to 2004, the average aircraft daily utilization rate decreased by 0.3 hours to 9.4 hours in 2005 partially due to a decrease in the aircraft daily utilization rate of certain older aircraft.

Passenger revenues, which accounted for 80.8% of our total traffic revenues in 2005, increased 34.2% from RMB15,534 million in 2004 to RMB20,853 million in 2005 primarily due to the expansion of our operations.

Our domestic passenger revenues (excluding Hong Kong passenger revenues), which accounted for 54.8% of our total passenger revenues in 2005, increased 38.1% from RMB8,284 million in 2004 to

-36-

Table of Contents

RMB11,439 million in 2005. This increase was primarily due to an increase of our domestic passenger traffic following increases in our capacity and in our domestic passenger load factor. Compared to 2004, our domestic passenger traffic increased (as measured in revenue passenger-kilometers, or RPKs) by 39.9% in 2005. As a result of the completion of our acquisition of certain assets and liabilities relating to the aviation businesses of CEA Northwest and CEA Yunnan in the second half of 2005 and our acquisition of other aircraft in 2005, the capacity of our domestic routes increased by 33.1% in 2005. Our domestic passenger load factor increased from 70.3% in 2004 to 73.8% in 2005 primarily due to an increase in market demands. Our domestic passenger yield decreased from RMB0.57 in 2004 to RMB0.56 in 2005 per passenger-kilometer primarily as a result of the escalating pricing competition in the domestic traffic market.

Hong Kong passenger revenues, which accounted for 12.0% of our total passenger revenues in 2005, increased 11.4% from RMB2,240 million in 2004 to RMB2,495 million in 2005. This increase was primarily due to an increase in our Hong Kong passenger traffic resulting from an increase of our capacity. We increased the passenger capacity on our Hong Kong routes by 8.9% in 2005. An increase in the passenger yield on Hong Kong routes also contributed to the increase of our Hong Kong passenger revenues. Hong Kong passenger traffic (as measured in RPKs) increased by 8.1% in 2005, compared to 2004. Our Hong Kong passenger yield increased from RMB0.74 in 2004 to RMB0.76 in 2005 per passenger-kilometer, reflecting increases in air fares. Our Hong Kong passenger load factor decreased from 62.6% in 2004 to 62.1% in 2005 primarily due to intensified competition.

International passenger revenues, which accounted for 33.2% of our total passenger revenues in 2005, increased 38.1% from RMB5,010 million in 2004 to RMB6,920 million in 2005. This increase was primarily due to an increase in our international passenger traffic resulting from increases in our capacity and in our international passenger load factor. An increase of our international passenger yield also contributed to the increase of our international passenger revenues. Our International passenger traffic (as measured in RPKs) increased by 27.6% in 2005, compared to 2004. Our international passenger capacity increased by 22.1% in 2005, compared to 2004. Our international passenger load factor increased from 62.4% in 2004 to 65.2% in 2005. Our international passenger yield increased from RMB0.50 in 2004 to RMB0.54 in 2005 per passenger-kilometer, reflecting increases in air fares.

We generate cargo and mail revenues from the transportation of cargo and mail on our designated cargo aircraft as well as from the carriage of cargo and mail on our passenger aircraft. Revenues from cargo and mail operations, which accounted for 19.2% of our total traffic revenues in 2005, increased 12.2% from RMB4,428 million in 2004 to RMB4,967 million in 2005 primarily due to an increase in our cargo and mail traffic following an increase in our capacity. Our cargo and mail traffic (as measured in revenue freight tonne-kilometers, or RFTKs) increased 14.8% from 1,875 million RFTKs in 2004 to 2,152 million RFTKs in 2005. Our cargo and mail capacity (as measure in available freight tonne-kilometers, or AFTKs) increased 21.2% from 3,327 million AFTKs in 2004 to 4,033 million AFTKs in 2005. Cargo yield decreased from RMB2.36 in 2004 to RMB2.31 in 2005 per cargo tonne-kilometer primarily due to fare decreases resulting from intensified market competition.

Our other revenues are primarily generated from airport ground services and ticket handling services. Airport ground services include loading and unloading of aircraft, aircraft cleaning and ground transportation of cargo and passenger luggage for airlines flying to or from Hong Qiao International Airport and Pudong International Airport. We are currently the principal provider of airport ground services at both Hong Qiao International Airport and Pudong International Airport. Our other revenues increased 14.7% from RMB1,424 million in 2004 to RMB1,634 million in 2005 primarily due to the increased revenue from our airport ground services and other services from RMB692 million and RMB95 million, respectively, in 2004 to RMB795 million, and RMB189 million, respectively, in 2005.

Operating Expenses. Our total operating expenses increased 36.8% from RMB20,239 million in 2004 to RMB27,685 million in 2005 primarily due to our business expansion and a significant increase in

Table of Contents

aviation fuel expenses resulting from increased fuel prices. Our total operating expenses as a percentage of our revenues increased from 94.6% in 2004 to 100.8% in 2005.

Aviation fuel expenses increased 63.7% from RMB5,430 million in 2004 to RMB8,889 million in 2005. This increase was primarily a result of rising fuel prices and our business expansion in 2005. In 2005, we consumed a total of 1,893,700 tonnes of aviation fuel, representing an increase of 30.2% compared to 2004. Compared to 2004, the weighted average domestic and international fuel prices paid by our company in 2005 increased by approximately 24.5% and 39.8%, respectively. Aviation fuel expense accounted for 32.1% of our total operating expenses in 2005, as compared to 26.8% in 2004.

Aircraft depreciation and operating lease rentals increased 17.6% from RMB4,467 million in 2004 to RMB5,255 million in 2005 primarily due to an expansion of our fleet size, while partially offset by the termination of certain operating leases between CEA Northwest and us. The number of the aircraft operated by us increased from 103 as of December 31, 2004 to 180 as of December 31, 2005.

Other depreciation, amortization and operating lease rentals increased 37.1% from RMB496 million in 2004 to RMB680 million in 2005 primarily due to our acquisition of certain assets and liabilities relating to the aviation businesses of CEA Northwest and CEA Yunnan.

Wages, salaries and benefits increased 26.4% from RMB1,866 million in 2004 to RMB2,359 million in 2005 primarily due to a significant increase in the number of our employees following our acquisition of certain assets and liabilities relating to aviation businesses of CEA Northwest and CEA Yunnan. The total number of our employees increased by 40.8% from 20,817 as of December 31, 2004 to 29,301 as of December 31, 2005.

Take-off and landing charges, which accounted for 13.4% of our total operating expenses in 2005, increased 23.1% from RMB3,020 million in 2004 to RMB3,719 million in 2005 primarily due to an increase in the number of our flights, while partially offset by a decrease in the average take-off and landing charges resulting from increased deployment of smaller aircraft. The number of our flights increased from approximately 169 thousand in 2004 to approximately 211 thousand in 2005.

Aircraft maintenance expenses increased 60.9% from RMB860 million in 2004 to RMB1,384 million in 2005 primarily due to an expansion of our fleet size in 2005.

Commission expenses increased 25.6% from RMB772 million in 2004 to RMB970 million in 2005 primarily due to an increase in tickets sales by agents.

Food and beverage expenses increased 28.9% from RMB758 million in 2004 to RMB977 million in 2005. This increase was primarily due to a 37.2% increase in the number of passengers carried from approximately 17.71 million in 2004 to approximately 24.29 million in 2005.

Office, administrative and other expenses increased 30.1% from RMB1,858 million in 2004 to RMB2,430 million in 2005 primarily due to our acquisition of certain assets and liabilities relating to the aviation businesses of CEA Northwest and CEA Yunnan. Particularly, office expenses and other expenses increased from RMB472 million and RMB428 million, respectively, in 2004 to RMB673 million and RMB610 million, respectively, in 2005.

Ticket reservation fees increased 39.0% from RMB210 million in 2004 to RMB292 million in 2005 primarily due to an increase in the number of passengers we carried.

Table of Contents

Civil aviation infrastructure levies payable to the CAAC increased 85.6% from RMB251 million in 2004 to RMB466 million in 2005 primarily due to the expansion of our routes network and an increase in our flights.

Insurance costs slightly decreased 2.5% from RMB152 million in 2004 to RMB149 million in 2005.

Ground services and other charges increased 16.3% from RMB99 million in 2004 to RMB116 million in 2005 primarily due to an increase in our flights.

Other Operating Income. Our other operating income was primarily generated from government subsidies and fair value gains on financial instruments held by us. The net amount of our other operating income increased from RMB85 million in 2004 to RMB245 million in 2005 primarily due to an increase in government subsidies from RMB74 million in 2004 to RMB193 million in 2005, see Note 6 to our audited consolidated financial statements.

Finance Costs. Our finance costs decreased 8.2% from RMB770 million in 2004 to RMB707 million primarily due to the recognition of a net exchange gain of RMB415 million in 2005, while partially offset by an increase in interest expenses of RMB251 million. In 2004, we received a waiver of amount due to CEA Northwest in a value of RMB133 million under certain aircraft operating leases between CEA Northwest and us.

Net Loss. As a result of the foregoing operating results, net loss attributable to equity holders was RMB467 million in 2005, as compared to a net profit of RMB321 million in 2004.

Fixed Assets. Our company had approximately RMB38,348 million of fixed assets as of December 31, 2005, including aircraft, engines and flight equipment with a value of approximately RMB34,740 million. Fixed assets are initially recognized at cost and are subsequently stated at revalued amount, being its fair value at the date of revaluation less any subsequent accumulated depreciation.

Valuation of fixed assets is affected by market conditions and global economic factors that are not within our control. The determination of fair value requires significant judgment, including judgment on valuations by our management and/or by independent professional appraisers. Our directors have reviewed the carrying value of our fixed assets as of December 31, 2005 and are of the opinion that the carrying amount is not materially different from the fair value of such fixed assets.

2004 Compared to 2003

Revenues. Our revenues increased 47.8 % from RMB14,470 million in 2003 to RMB21,387 million in 2004. This increase was primarily due to an increase of our passenger and cargo revenues, which were net of the applicable PRC business tax.

Traffic revenues increased 47.2% from RMB13,562 million in 2003 to RMB19,962 million in 2004. Compared to 2003, the average aircraft daily utilization increased by 1.7 hours to 9.7 hours in 2004.

Passenger revenues, which accounted for 77.8% of our total traffic revenues in 2004, increased 49.7% from RMB10,375 million in 2003 to RMB15,534 million in 2004. This increase was primarily due to the market recovery following the end of severe acute respiratory syndrome (SARS) and the increase of our transportation capacity.

Our domestic passenger revenues, which accounted for 53.3% of our total passenger revenues, increased 48.1% from RMB5,592 million in 2003 to RMB8,284 million in 2004. This increase was principally a result of the growing market demand following the end of SARS and the expansion of our

Table of Contents

transportation capacity, including the launch of new routes and increase in the number of flights. Compared to 2003, our domestic passenger traffic increased by 40.8% in 2004, and our domestic passenger load factor increased from 64.8% in 2003 to 70.3% in 2004. As a result of the favorable condition in the domestic passenger market since the end of 2003, we increased capacity on our domestic routes by 29.7% in 2004. Our domestic passenger yield increased from RMB0.54 in 2003 to RMB0.57 in 2004 per passenger-kilometer. This increase was principally a result of the increased pricing level due to strong demand in the domestic transportation.

Hong Kong passenger revenues, which accounted for 14.4% of our total passenger revenues, increased 34.4% from RMB1,667 million in 2003 to RMB2,240 million in 2004. This increase was primarily due to the market recovery following the end of SARS and the increase in the number of business and leisure travelers. Hong Kong passenger traffic increased by 57.1% in 2004 over that of 2003. In order to meet market demand, we increased the passenger capacity on our Hong Kong routes by 31.6% in 2004. Our Hong Kong passenger load factor increased from 52.4% in 2003 to 62.6% in 2004, and our Hong Kong passenger yield decreased from RMB0.84 in 2003 to RMB0.74 in 2004 per passenger-kilometer. The decrease in passenger yield on Hong Kong routes was primarily due to (1) an increase in the number of leisure travelers, (2) various promotions offered by us and (3) competition from other airlines.

International passenger revenues, which accounted for 32.3% of our total passenger revenues, increased 60.8% from RMB3,116 million in 2003 to RMB5,010 million in 2004. This increase was mainly due to the market recovery following the end of SARS and the increasing demand as a result of the recovering global economy in 2004. As a result, international passenger traffic increased by 74.1% in 2004 compared to 2003. Our international passenger capacity increased by 58.2% in 2004 compared to 2003. Our international passenger load factor increased from 56.7% in 2003 to 62.4% in 2004. Our international passenger yield decreased from RMB0.53 in 2003 to RMB0.50 in 2004 per passenger-kilometer. This decrease was primarily due to the increase in the number of leisure travelers and competition.

We generate cargo and mail revenues from the transportation of cargo and mail on our designated cargo aircraft as well as from the carriage of cargo and mail on passenger aircraft. Revenues from cargo and mail operations, which accounted for 22.2% of our total transportation revenues in 2004, increased 39.0% from RMB3,187 million in 2003 to RMB4,428 million in 2004. This increase was primarily due to the increasing demand for cargo transportation driven by the continuing rapid growth of China's economy following its accession to the World Trade Organization, the increase of our transportation capacity as well as the increase of our market share. Our cargo and mail traffic (as measured in revenue freight tonne-kilometers, or RFTKs) increased 44.6% from 1,297 million RFTKs in 2003 to 1,875 million RFTKs in 2004. This increase was primarily due to a significant increase in the capacity of our cargo transportation which resulted from the completion of the remodeling of MD-11 passenger aircraft into freighters, launch of new routes as well as an increase in the number of passenger flights which also carry cargo. Cargo yield decreased from RMB2.46 in 2003 to RMB2.36 in 2004 per cargo tonne-kilometer. This decrease was primarily due to intensified competition.

Other revenues are primarily generated from airport ground services and ticket handling services. Airport ground services include loading and unloading, aircraft cleaning, fueling and ground transportation of cargo and passenger luggage for airlines operating to or from Hong Qiao International Airport and Pudong International Airport. We were the principal provider of airport ground services at both Hong Qiao International Airport and Pudong International Airport. Other revenues increased 56.8% from RMB908 million in 2003 to RMB1,424 million in 2004, which is higher than the 39.0% growth rate achieved in 2003. This increase was mainly due to the increase in the number of flights following the end of SARS and the enhancement of our capability in carriage, storage and handling of cargo with the establishment of Shanghai Eastern Logistics Co., Ltd.

Table of Contents

Operating Expenses. Our total operating expenses increased 40.0% from RMB14,454 million in 2003 to RMB20,239 million in 2004. This increase was primarily due to increases in aviation fuel expenses, aircraft depreciation and operating lease expenses, take-off and landing charges, food and beverage expenses, salary costs, commission expenses and other expenses. Our total operating expenses as a percentage of our revenues decreased from 99.9% in 2003 to 94.6% in 2004.

Aviation fuel expenses increased 78.3% from RMB3,045 million in 2003 to RMB5,430 million in 2004. This increase was principally a result of our business expansion in 2004 and the increased international aviation fuel prices in 2004. In 2004, we consumed a total of 1,454,500 tonnes of aviation fuel, representing an increase of 42.1% compared to 2003. In 2004, the weighted average domestic and international fuel prices paid by our company compared to 2003 increased by approximately 24.4% and 30.6%, respectively.

Aircraft depreciation and operating lease expenses increased 26.7% from RMB3,525 million in 2003 to RMB4,467 million in 2004. This increase was primarily due to our fleet expansion.

Other depreciation, amortization and operating lease expenses slightly increased from RMB495 million in 2003 to RMB496 million in 2004.

The wages, salaries and benefits increased 28.8% from RMB1,449 million in 2003 to RMB1,866 million in 2004. This increase was primarily due to a 26.7% increase in the number of staff resulting from the expansion of our company and our main operations as well as an increase in staff's average salaries with the introduction of an incentive compensation plan that is linked to profit and various factors. The increase was also partially attributable to the introduction of an incentive plan for our pilots that links allowances to flying hours.

Take-off and landing charges increased 34.0% from RMB2,254 million in 2003 to RMB3,020 million in 2004, which accounted for 14.9% of our total operating expenses in 2004. This increase was primarily due to the expansion of our business and the increased number of flights.

Aircraft maintenance expenses were RMB860 million in 2004, compared to RMB817 million in 2003, an increase of 5.3%. This increase was mainly due to the increased aircraft maintenance performed as a result of the increase in the number of our flights in 2004.

Commission expenses increased 66.0% from RMB465 million in 2003 to RMB772 million in 2004. This increase was primarily due to the increase in the revenues of our domestic and international businesses.

Food and beverage expenses increased 39.9% from RMB542 million in 2003 to RMB758 million in 2004. This increase was primarily due to a 47.1% increase in the number of passengers which was partially offset by a 5% decrease of the average cost of food and beverage as a result of our cost-control initiatives.

Office, administrative and other expenses increased 26% from RMB1,473 million in 2003 to RMB1,858 million in 2004 primarily due to a 122.6% increase in office expenses from RMB212 million in 2003 to RMB472 million in 2004 and a 48.8% increase in pilot and aircrew training expenses from RMB98 million in 2003 to RMB146 million in 2004, while partially offset by a 28.5% decrease in other expenses from RMB550 million in 2003 to RMB428 million in 2004.

Ticket reservation fees increased 30.3% from RMB161 million in 2003 to RMB210 million in 2004 primarily due to a 47.1% increase in the number of passengers we carried.

Civil aviation infrastructure levies payable to the CAAC were RMB251 million in 2004, compared to nil in 2003.

Table of Contents

Insurance costs slightly decreased 7.6% from RMB164 million in 2003 to RMB152 million in 2004.

Ground services and other charges increased 53.6% from RMB65 million in 2003 to RMB99 million in 2004 primarily due to an increase in our flights.

Other Operating Income. Other operating income was primarily generated from government subsidies and fair value gains on financial instruments held by us. The net amount of our other operating income increased from RMB50 million in 2003 to RMB85 million in 2004 primarily due to a net fair value gain of RMB11 million on currency swaps in 2004, compared to a net fair value loss of RMB8 million in 2003, and an increase in government subsidies from RMB58 million in 2003 to RMB74 million in 2004.

Non-operating Income. Non-operating income was RMB133 million in 2004, which was due to the rescission of certain related party lease arrangements between CEA Northwest and us.

Net Profits. As a result of the foregoing, net profit attributable to equity holders was RMB321 million in 2004 compared to a loss of RMB1,097 million in 2003.

Fixed Assets. Our company had approximately RMB29,744 million of fixed assets as of December 31, 2004, including aircraft and flight equipment with a value of approximately RMB26,692 million. Fixed assets are initially recognized at cost and are subsequently stated at revalued amount, being its fair value at the date of revaluation less any subsequent accumulated depreciation.

Valuation of fixed assets is based on market conditions and global economic factors that we may not control. The determination of fair value requires significant judgment, including judgment on valuations by our management and/or by independent professional appraisers. Our directors have reviewed the carrying value of our fixed assets as of December 31, 2004 and are of the opinion that the carrying amount is not materially different from the fair value of our fixed assets.

Impact of Differences between IFRS and U.S. GAAP

In addition to the above management discussion and analysis of our results of the operation under the IFRS between the years ended December 31, 2004 and 2003 and between the years ended December 31, 2005 and 2004, in connection with the preparation and reconciliation of our consolidated financial statements in accordance with U.S. GAAP, we believe the following major material accounting difference between the IFRS and U.S. GAAP would have a significant impact on our management discussion and analysis of the results of our operation between the years ended December 31, 2004 and 2003 and between the years ended December 31, 2005 and 2004, under U.S. GAAP. See also Note 43 to the consolidated financial statements for a more detailed summary of all significant accounting differences between the IFRS and U.S. GAAP that are relevant to us.

Under IFRS, the acquisitions of certain assets and liabilities relating to the aviation businesses of CEA Yunnan and CEA Northwest in June 2005 have been accounted for by applying the acquisition accounting method. Accordingly, the results of the acquired operations were incorporated into our operating results only from July 1, 2005. In contrast, under U.S. GAAP, such transactions are considered to be combination of entities under common control . A combination of entities under common control is accounted for in a manner similar to a pooling-of-interests . Consequently, the acquired assets and liabilities would be reflected at their U.S. GAAP carrying values and the U.S. GAAP consolidated financial statements would be restated to include the acquired assets and liabilities, and their results of operations and cash flows for all years presented.

Other than the above, there are no major material differences between the IFRS and U.S. GAAP that would have a significant impact on the discussion and analysis of our results of operations between the years

Table of Contents

ended December 31, 2004 and 2003 and between the years ended December 31, 2005 and 2004. Taking into account the operating results of the acquired businesses, our revenue under U.S. GAAP increased from RMB19,554 million in 2003 to RMB28,208 million in 2004, representing an increase of 44.3%, and from RMB28,208 million in 2004 to RMB30,895 million in 2005, representing an increase of 9.5%. Our profit (loss) attributable to equity holders under U.S. GAAP increased from RMB1,391 million in loss in 2003 to RMB459 million in profit in 2004, and decreased from RMB459 million in profit in 2004 to RMB1,383 million in loss in 2005.

Liquidity and Capital Resources

We typically finance our working capital requirements through a combination of funds generated from operations and short-term bank loans. As a result, our liquidity could be materially and adversely affected to the extent there is a significant decrease in demand for our services or if there is any delay in obtaining bank loans. As of December 31, 2004 and 2005, we had cash and cash equivalents of RMB2,114 million and RMB1,864 million, respectively. In 2004 and 2005, our net cash inflows generated from operating activities were RMB3,266 million and RMB1,952 million, respectively, while our net cash outflows used in investment activities were RMB2,433 million and RMB10,369 million, respectively. In the past two years, our primary cash requirements for investment activities were related to our acquisitions and upgrades of aircraft and flight equipment, debt repayments and our acquisitions of certain assets and liabilities relating to the aviation businesses of CEA Northwest and CEA Yunnan.

In 2004 and 2005, payment of advances on aircraft and flight equipment were RMB2,679 million and RMB9,073 million, respectively, while additions of aircraft and flight equipment were RMB1,997 million and RMB7,751 million, respectively. We financed the additions to our aircraft and flight equipment primarily through lease arrangements, bank loans and funds generated from operations. Funds generated from disposal of old aircraft and flight equipment and other fixed assets and equipment (including by way of exchange) totaled RMB668 million and RMB33 million in 2004 and 2005, respectively. Our net cash inflow generated from financing activities was RMB8,186 million in 2005, primarily from proceeds from bank loans and the issue of short-term debentures.

Pursuant to certain of our finance or operating leases, we are required to indemnify the lessors against any withholding or similar taxes that may be imposed on the lessors by taxing authorities in China with regard to payments made under such leases. Pursuant to a regulation issued in 2000 by the State Tax Bureau of China, lease payments made by Chinese airlines to foreign enterprises in respect of lease arrangements entered into prior to September 1, 1999 are exempt from the payment of any withholding tax. Withholding tax payable in respect of the lease arrangements entered into on or after September 1, 1999 are charged to our income statement as incurred.

We generally operate with a working capital deficit. As of December 31, 2005, our current liabilities exceeded our current assets by RMB25,598 million. In comparison, our current liabilities exceeded our current assets by RMB12,491 million as of December 31, 2004. The increase in our current liabilities in 2005 was primarily due to an increase in borrowings for payment of advances on aircraft and flight equipment. Short-term loans outstanding totaled RMB6,189 million and RMB13,711 million as of December 31, 2004 and 2005, respectively. Long-term bank loans outstanding totaled RMB10,736 million and RMB12,659 million as of December 31, 2004 and 2005, respectively. Long-term loans payable within two years, from three to five years and beyond five years were RMB2,663 million, RMB5,518 million and RMB1,609 million, respectively, as of December 31, 2005, as compared to RMB2,387 million, RMB3,216 million and RMB1,940 million, respectively, as of December 31, 2004. The total lease obligations outstanding under our finance leases as of December 31, 2004 and 2005 were RMB8,662 million and RMB10,608 million, respectively. Our lease obligations payable within two years, from three to five years and beyond five years were RMB2,570 million, RMB3,014 million and RMB2,596 million, respectively, as of December 31, 2005,

Table of Contents

as compared to RMB1,700 million, RMB3,756 million and RMB2,017 million, respectively, as of December 31, 2004.

We have, and in the future may continue to have, substantial debts. As of December 31, 2004 and 2005, our long-term debt to equity ratio was 2.6 and 3.4, respectively. The interest expenses associated with these debts might impair our future profitability. We expect that cash from operations and bank borrowings will be sufficient to meet our operating cash flow requirements, although events that materially and adversely affect our operating results can also have a negative impact on liquidity. We have entered into credit facility agreements with certain Chinese banks to meet our future working capital needs. We have arranged, and we believe that we will continue to be able to arrange, short-term bank loans with domestic and foreign-funded banks in China as necessary to meet our working capital requirements. However, our ability to obtain financing may be affected by our financial position and leverage and credit ratings, as well as by prevailing economic conditions and the cost of financing generally. If we are unable to obtain financing for a significant portion of our capital requirements, our ability to acquire new aircraft and to expand our operations may be materially and adversely affected.

Capital Expenditures

Our aircraft orders as of December 31, 2005 included commitments to acquire 47 aircraft to be delivered in 2006 and 2007. We expect our capital expenditures for aircraft and related equipment, including deposits, through 2010 to be in aggregate approximately RMB57,332 million, including RMB19,080 million in 2006 and RMB12,704 million in 2007, in each case subject to contractually stipulated increases or any increase relating to inflation. We generally finance our purchase of aircraft through operating leases and bank loans secured by our assets. As of December 31, 2005, the total value of our mortgaged assets increased by 1.1%, from RMB9,737 million as of December 31, 2004 to RMB9,844 million as of December 31, 2005. Construction of our facilities at the Pudong International Airport and the purchase of maintenance equipment and other property and equipment will continue to require additional capital expenditures in 2006. We paid an amount of RMB418 million as the consideration for the increase of our equity interest in CEA Wuhan to 96% early 2006. We plan to finance our other capital commitments through a combination of funds generated from operations, existing credit facilities, bank loans, leasing arrangements and other external financing arrangements.

Contractual Obligations and Commercial Commitments

The following tables set forth our outstanding contractual and commercial commitments as of December 31, 2005.

Table of Contents

Contractual Obligations	Total	Payments Due by Period (RMB millions)			After 5 Years
		Less Than 1 Year	1-3 Years	4-5 Years	
Long-Term Debt	12,659	2,869	3,874	4,307	1,609
Capital Leases	12,176	2,885	4,756	1,601	2,934
Operating Leases	9,452	1,702	3,102	2,629	2,019
Unconditional Purchase Obligations	47,746	9,494	26,227	12,025	
Other Long-term Obligations	82	30	52		
Pension Liabilities					
Post-retirement Benefit Obligations	1,239	36	86	85	1,032
Deferred Tax Liabilities	601		30	21	550
Long-term Portions of Other Payables ⁽¹⁾	155				
Short-term Bank Loans	13,711	13,711			
Interest Obligations	3,538	1,303	1,190	558	487
Under Finance Lease	1,568	457	505	268	338
Under Bank Loans	1,970	846	685	290	149
Fixed Rate	828	442	298	69	19
Variable Rate ⁽²⁾	1,142	404	387	221	130
Total	101,359	32,030	39,317	21,226	8,631

(1) Figures of payments due by period are not available.

(2) For our variable rate loans, interest rates range from 3 months LIBOR + 0.25% to 6 months LIBOR + 0.6%. Interest obligations relating to variable rate loans are calculated based on the relevant LIBOR rates as of December 31, 2005. A 1% increase or

decrease in the interest rate would increase or decrease the interest obligations by RMB278 million in total with RMB97 million in year 1, RMB95 million in years 2 and 3, RMB55 million in years 4 and 5 and RMB31 million for subsequent years.

Other Commercial Commitments	Total Amounts Committed (RMB millions)	Amount of Commitment Expiration Per Period (RMB millions)			
		Less Than 1 Year	1-3 Years	4-5 Years	After 5 Years
Line of Credit	65,500	25,500	40,000		
Standby Letters of Credit					
Guarantees					
Standby Repurchase Obligations					
Other Commercial Commitments					
Total	65,500	25,500	40,000		

Critical Accounting Policies

Critical accounting policies are defined as those that are reflective of significant judgments and uncertainties and potentially result in materially different results under different assumptions and conditions.

Our audited consolidated financial statements have been prepared in accordance with IFRS. Our principal accounting policies are set forth in Note 2 to our audited consolidated financial statements. IFRS requires that we adopt the accounting policies and make estimates that our directors believe are most appropriate in the circumstances for the purposes of giving a true and fair view of our results and financial

Table of Contents

condition. However, different policies, estimates and assumptions in critical areas could lead to materially different results. The critical accounting policies adopted and estimates made in the preparation of these financial statements are identified as follows:

Estimated impairment of goodwill We test annually whether goodwill has been impaired in accordance with the accounting policy stated in Note 2(l) to our audited consolidated financial statements. The recoverable amounts of cash generating units have been determined based on value-in-use calculations. These calculations require the use of estimates (see Note 18 to our audited consolidated financial statements). In 2005, after reviewing the business environment as well as our objectives and past performance, management concluded that there was no material impairment loss for goodwill.

Estimated impairment of property, plant and equipment We have made substantial investments in tangible long-lived assets. We conduct impairment reviews of these assets whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

Determining whether an asset is impaired requires significant judgment, including our estimates of the future cash flows attributable to the asset and the appropriate discount rate. If different judgments or estimates had been utilized, material differences could have resulted in the amount and timing of the impairment charge, if any.

Property, plant and equipment We had approximately RMB38,348 million of fixed assets as of December 31, 2005, including aircraft, engines and flight equipment with a value of approximately RMB34,740 million. As discussed in Note 2(j) to our audited consolidated financial statements, property, plant and equipment are initially recognized at cost and are subsequently stated at revalued amount less accumulated depreciation. Under U.S. GAAP, our fixed assets are initially recognized at cost less accumulated depreciation and impairment charges, if any. Independent valuations are conducted at least every five years or sooner if considered necessary by our directors. In the intervening years, our directors would review the carrying value of the fixed assets from time to time and make adjustments if the carrying value is materially different from the fair value. Their recorded value is impacted by management judgment, including valuations performed by the management and/or independent professional valuers, estimates of useful lives, residual value and impairment charges. If different judgments or estimates had been utilized, material differences could have resulted in the amount of revaluation and related depreciation charges. We revalued our fixed assets on December 31, 2002 based on a market value basis. Our directors reviewed the carrying value of our company's fixed assets as of December 31, 2005 and are of the opinion that the carrying amount of the fixed assets is not materially different from the estimated fair value and no impairment or changes in estimates of useful lives are necessary.

Fair value estimation The carrying amounts of our current financial assets, including cash and cash equivalents, trade receivables, prepayments, other receivables, amounts due from related companies and current financial liabilities including trade payables and note payables, other payables and accrued expenses and amounts due to related companies, approximate their fair values due to their short maturities.

Revenue recognition As discussed in Note 2(d), passenger, cargo and mail revenues are recognised as traffic revenues when the transportation services are provided. The value of unused passenger tickets is included in current liabilities as sales in advance of carriage. Unused tickets are recognised in traffic revenues based on current estimates. Management periodically evaluate the balance in sales in advance of carriage and record any adjustments, which can be material, in the period the evaluation is completed. These adjustments result from differences between the estimates of certain revenue transactions, the timing of recognising revenue for any unused air tickets and the related sales price, and are impacted by various factors, including a complex pricing structure and interline agreements throughout the industry, which affect the timing of revenue recognition.

Table of Contents

Maintenance and overhaul costs In respect of aircraft and engines under operating leases, we have the responsibility to fulfill certain return conditions under relevant leases. In order to fulfill these return conditions, major overhauls are required to be conducted on a regular basis. Accordingly, the present value of estimated costs of major overhauls for aircraft and engines under operating leases are provided at each balance sheet date. The provision in each period is estimated using historical major overhaul costs incurred during each overhaul and the estimated period between overhauls using the ratios of actual flying hours/cycles and estimated flying hours/cycles between overhauls. The costs of major overhauls comprise mainly labor and materials. Differences between the estimated cost and the actual cost of the overhaul are included in the income statement in the period of overhaul.

In respect of aircraft and engines owned by our company or held under finance leases, costs of overhaul are capitalized as a component of property, plant and equipment and are depreciated over the appropriate maintenance cycles. When each overhaul is performed, its cost is recognized in the carrying amount of the item of property, plant and equipment and is depreciated over the estimated period between overhauls, on a straight-line basis. Upon completion of an overhaul, any remaining carrying amount of the cost of the previous overhaul is derecognized and charged to the income statement.

Retirement benefits We participate in defined contribution retirement schemes organized by the municipal governments of respective provinces. We also operate and maintain defined retirement benefit plans which provides retirees with benefits including transportation subsidies, social activity subsidies as well as other welfare. As discussed in Note 2(f) to our audited consolidated financial statements, the cost of providing the aforementioned benefits in the defined retirement benefit plan is actuarially determined and recognized over the employees' service period by utilizing various actuarial assumptions and using the projected unit credit method. These assumptions include, without limitation, the selection of discount rate, annual rate of increase of per capita benefit payment and employees' turnover rate. The discount rate is based on management's review of local high quality corporate bonds. The annual rate of increase of benefit payment is based on the general local economic conditions. The employees' turnover rate is based on historical trends of our company. See Note 33 to our audited consolidated financial statements for additional information regarding the retirement benefit plans.

Deferred taxation While deferred tax liabilities are provided in full on all taxable temporary differences, deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. In assessing the amount of deferred tax assets that need to be recognized, we consider future taxable income and ongoing prudent and feasible tax planning strategies. In the event that our estimates of projected future taxable income and benefits from available tax strategies are changed, or changes in current tax regulations are enacted that would impact the timing or extent of our ability to utilize the tax benefits of net operating loss carryforwards in the future, adjustments to the recorded amount of net deferred tax assets and taxation expense would be made.

Current tax We make provision for current tax based on the estimated income tax liabilities. The estimated income tax liabilities are primarily computed based on the tax filings as prepared by our company and based on management's interpretation of relevant tax rulings. From time to time, there may be disagreements with the tax authorities on the tax treatments of certain items included in the tax computations.

Foreign Currency Transactions

We have debts denominated in U.S. dollars, Japanese yen or Euro in addition to our debts denominated in Renminbi. We generate a significant amount of foreign currency revenues, including U.S. dollar, Japanese yen, Euro, Korean won, Hong Kong dollar, Singapore dollar, Australian dollar, and Thailand baht revenues, from ticket sales made in overseas offices. Pursuant to current foreign exchange regulations in China, we may retain our foreign currency earnings subject to the approval of SAFE. We have also designated certain personnel to manage the foreign currency risks through derivative financial products such as forward

Table of Contents

foreign exchange contracts and interest rate swaps. We use interest rate swaps to reduce risks related to changes in market interest rates. As of December 31, 2005, the notional amount of the outstanding interest rate swap agreements was approximately US\$661 million, compared to US\$437 million as of December 31, 2004. These interest rate swap agreements will expire between 2006 and 2016. In addition, we use currency forward contracts to reduce risks related to changes in currency exchange rates in respect of ticket sales and expenses denominated in foreign currencies. As of December 31, 2005, the notional amount of the outstanding currency forward contracts was approximately US\$92 million, compared to US\$226 million as of December 31, 2004. This decrease in the notional amount of the outstanding currency forward contracts was primarily due to the cancellation or early termination of certain currency forward contracts in 2005. These currency forward contracts will expire between 2007 and 2010.

Pursuant to IFRS, our monetary assets and liabilities denominated in foreign currencies are required to be translated into Renminbi at the year end at exchange rates announced by the People's Bank of China. The net exchange gains or losses are recognized and reflected in the income statement for the relevant year. Any fluctuation of the exchange rates between Renminbi and foreign currencies may materially and adversely affect our financial condition and results of operations. Primarily due to an appreciation of Renminbi against certain foreign currencies (including U.S. dollar, Japanese yen and Euro) following the measures introduced by the PRC government in July 2005 to reform the Renminbi exchange rate regime, we recognized a net exchange gain of RMB415 million in 2005, compared to a net exchange loss of RMB32 million in 2004.

Taxation

Since we changed our registered address to Pudong district in Shanghai on July 1, 2001, we are subject to income tax at the rate of 15%. Our effective tax rate, however, may be higher than the rate of 15% because some of our subsidiaries were incorporated in jurisdictions where the applicable income tax rate is 33% rather than 15%. We had carried forward tax losses of approximately RMB2,330 million and RMB3,011 million as of December 31, 2004 and 2005, which can be used to set off against future taxable income and will expire between 2006 and 2010.

Inflation

In recent years, China has not experienced significant inflation. In 2005, inflation did not have a significant effect on our business. According to the National Bureau of Statistics of China, China's overall national inflation rate, as represented by the general consumer price index, was approximately 3.9% and 1.8% in 2004 and 2005, respectively. Although neither the inflation nor the deflation in the past had any material adverse impact on our results of operations, we cannot assure you that the deflation or inflation of the Chinese economy in the future would not materially and adversely affect our financial condition and results of operations.

U.S. GAAP Reconciliation

Our audited consolidated financial statements are prepared in accordance with IFRS, which differs in certain material respects from U.S. GAAP. Note 43 to our audited consolidated financial statements provides a description of the principal differences between IFRS and U.S. GAAP as they relate to our company, and a reconciliation to U.S. GAAP of profit attributable to equity holders for the years ended December 31, 2003, 2004 and 2005 and owners equity as of December 31, 2004 and 2005. Our condensed consolidated financial statements prepared and presented in accordance with U.S. GAAP to reflect the effect of the acquisitions of the aviation businesses of CEA Northwest and CEA Yunnan under common control for the relevant periods are set forth in Note 44 to our audited consolidated financial statements included in this annual report.

Table of Contents**New Pronouncements****IFRS***Standards, interpretations and amendments to published standards that are not yet effective*

Certain new standards, amendments and interpretations to existing standards, which are relevant to our operations, have been published that are mandatory for our accounting periods beginning on or after January 1, 2006 or later periods, but which we have not early adopted, as follows:

IAS 19 (Amendment) introduces the option of an alternative recognition approach for actuarial gains and losses. It may impose additional recognition requirements for multi-employer plans where insufficient information is available to apply defined benefit accounting. It also adds new disclosure requirements. As we do not intend to change the accounting policy adopted for recognition of actuarial gains and losses and does not participate in any multi-employer plans, adoption of this amendment will only impact the format and extent of disclosures presented in the financial statements. We will apply this amendment from 1 January 2006.

IAS 39 (Amendment) changes the definition of financial instruments classified at fair value through profit or loss and restricts the ability to designate financial instruments as part of this category. We believe that this amendment should not have a significant impact on the classification of financial instruments, as we should be able to comply with the amended criteria for the designation of financial instruments at fair value through profit and loss. We will apply this amendment from January 1, 2006.

U.S. GAAP*FAS 123*

In December 2004, the FASB revised Statement No. 123, or FAS 123R, *Share-Based Payment*, requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values. Pro forma disclosure is no longer an alternative to financial statement recognition. FAS 123R is effective for fiscal periods beginning after June 15, 2005. Our company is evaluating the transition provisions allowed by FAS 123R. Our company does not expect the adoption of FAS 123R to have a material impact on our company's financial position or operational results.

FAS 151

On November 24, 2004, the FASB issued Statement No. 151, *Inventory Costs*, an amendment of ARB No. 43, Chapter 4, or FAS 151. FAS 151 requires that abnormal amounts of idle capacity and spoilage costs be excluded from the cost of inventory and expensed when incurred. The provisions of FAS 151 are applicable to inventory costs incurred during fiscal years beginning after June 15, 2005. Our company does not expect the adoption of FAS 151 to have a material impact on our company's financial position or result of operation.

FAS 153

On December 15, 2004, the FASB issued Statement No. 153, *Exchanges of Nonmonetary Assets*, an amendment of APB Option No. 29, FAS 153. FAS 153 requires exchanges of productive assets to be accounted for at fair value, rather than at carryover basis, unless (1) neither the asset received nor the asset surrendered has a fair value that is determinable within reasonable limits or (2) the transactions lack commercial substance. FAS 153 is effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. Our company does not expect the adoption of FAS 153 to have a material impact on our company's financial position or results of operation.

SAB 107

On March 29, 2005, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 107, *Share-Based Payment*, or SAB 107. This bulletin provides guidance related to share-based payment transactions with non-employees, the transition from nonpublic to public entity status, valuation methods (including assumptions such as expected volatility and expected term), the accounting for certain redeemable financial instruments issued under share-based payment arrangements, the classification of compensation expense, non-GAAP financial measures, first-time adoption of FAS 123 R in an interim period, capitalization of compensation cost related to share-based payment arrangements, the accounting for income tax effects of share-based payment arrangements upon adoption of FAS 123 R, the modification of employee share options prior to adoption of FAS 123 R and disclosures in Management's Discussion and Analysis subsequent to adoption of FAS 123 R. SAB 107 will be effective when a registrant adopts FAS 123 R. Our company does not expect the adoption of SAB 107 to have a material impact on our

company's financial position or operation results.

FAS 154

In May 2005, FASB issued Statement No. 154, *Accounting Changes and Error Corrections*, or FAS 154, which replaces APB Opinions No. 20 *Accounting Changes*, and FASB Statement No. 3, *Reporting Accounting changes in Interim Financial Statements*, and changes the requirements for the accounting for and reporting of a change in accounting principle. This Statement establishes, unless impracticable, retrospective application as the required method for reporting a change in accounting principle in the absence of explicit transition requirements specific to the newly adopted accounting principle. The reporting of a correction of an error by restating previously issued financial statements is also addressed by this Statement. FAS. 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. Our company does not expect the adoption of FAS 154 to have a material impact on our financial position or operational results.

(1) Mr. Luo served as a director of our company as of June 30, 2005.

(2) Mr. Li served as a vice president of our company as of October 28, 2005.

Directors and Executive Officers

Mr. Li Fenghua is the incumbent chairman of our board of director, president and deputy party secretary of CEA Holding. Mr. Li joined the civil aviation industry in 1968 and was deputy head, and subsequently became head, of the 26th Fleet of the CAAC from 1987 to 1992. From 1992 to 1996, Mr. Li served as vice-president, and then became president, of the Hubei branch of China Southern Airlines (Group).

Table of Contents

Since 1996, he became vice-president of China Southern Airlines Company Limited and vice-president of China Southern Airlines (Group). In 2000, Mr. Li became party secretary and vice-president of China Southern Airlines Company Limited. From October 2002 to September 2004, he served as the President of our company and vice-president of CEA Holding. In September 2004, he became president and deputy party secretary of CEA Holding. Mr. Li graduated from the China Civil Aviation Senior Aviation School and holds the title of First Class Pilot.

Mr. Luo Chaogeng is currently a director, as well as president and deputy party secretary of our company. Mr. Luo joined the civil aviation industry in 1970. Mr. Luo was a flight mechanic of the instructing team of the Lanzhou Civil Aviation Administration Bureau from August 1970 to August 1972. From August 1972 to March 1989, he was the flight mechanic of the 8th Civil Aviation Flight Team. From March 1989 to August 1994, he was the deputy commissar, commissar and party secretary of the Xian Flight Team of China Northwest Airlines. From August 1994 to October 1997, he was the party secretary of the aircraft maintenance plant of China Northwest Airlines. From October 1997 to March 1997, he was the party secretary and deputy general manager of the aircraft maintenance base of China Northwest Airlines. From March 1997 to December 2000, he was the deputy director of the Civil Aviation Administration Bureau of China Northwest Airlines. From December 2000 to November 2001, Mr. Luo was the general manager of Yunnan Airlines and the director and deputy party secretary of Civil Aviation Administration Bureau of Yunan. From November 2001 to September 2001, he was the general manager and deputy party secretary of Yunnan Airlines. From September 2002 to September 2004, he has also been serving concurrently as the general manager of Yunan Airlines. From September 2004 to the present, he has been the party constitution member and vice president of China Airlines Group Company, President and deputy party secretary of China Airlines Corporation Limited. From 1998 to June 2001, Mr. Luo has been studying the postgraduate course for incumbent leading cadres in professional economics and management at the Central Party School of Shaanxi. Mr. Luo has obtained first class competency in flight mechanics.

Mr. Cao Jianxiong is currently a non-executive director of our company. Mr. Cao joined the civil aviation industry in 1982. From 1992, he served as president of Shanghai Eastern Airlines Development Company and in 1994 he became president of Eastern Airlines Futures Brokerage Company. In early 1996 he served as assistant president of our company. From 1997, he served as vice president and chief financial officer of our company. Since December 1999, he has served as vice president of EA Group. Since October 2002, he served as vice president of CEA Holding, and he also was the party secretary of China Eastern Air Northwest Company from December 2002 to September 2004. Mr. Cao graduated from the Civil Aviation Management Institute with a major in labour economics. Mr. Cao also received a Master's degree in global economics from Eastern China Normal University's Department of International Finance. Mr. Cao holds the title of Economist.

Mr. Wan Mingwu is currently an executive director as well as our company's party secretary and vice president. Mr. Wan joined the civil aviation industry in 1968. From 1983 to 1990 he was deputy section chief and section chief of the cadre section of the political department of the CAAC Shenyang Bureau. From 1990 to 1992 he was section chief of the personnel section of China Northern Airlines. From 1992 to 1995 he was deputy party secretary of China Northern Airlines and from 1995 to 2000 he was party secretary of China Northern Airlines. Since December 2000 he has been party secretary and vice president of our company. Mr. Wan graduated from Civil Aviation Mechanics Vocational School. Mr. Wan is a college graduate and holds the title of Senior Political Work Instructor.

Mr. Zhong Xiong is currently a non-executive director of our company. Mr. Zhong joined the civil aviation industry in 1970. From 1986 to 1988, he was vice president of Transportation Services Company of the CAAC Shanghai Bureau and was president of the sales and transportation department of China Eastern Airlines from 1988 to 1992. From 1992 to April 1995, he was vice president of our company. From May 1995 to April 2002, Mr. Zhong has been vice president of our company, and has become the Chairman of the

Table of Contents

workers union of CEA Holding since April 2002. He graduated in 1970 from the English Department of Liaoning Teacher's College and holds the title of Economist.

Mr. Luo Zhuping is an executive director of our company, the secretary of our board of director and the head of the secretariat of our board of director. Mr. Luo joined CEA in 1988. He was deputy chief and then chief of the enterprise management department of China Eastern Airlines from 1992 to 1997. He was deputy head of the share system office from 1993 to 1996. In 1997, he became the secretary of our board of director and the head of the secretariat of our board of director. He became a director of our company in June 2004. Mr. Luo graduated from the Faculty of Philosophy and the Faculty of Law of Anhui University in 1979 and 1985, respectively. In 1994, Mr. Luo received a Master's degree from the Economics Department of Eastern China Normal University, majoring in global economics. In 1998, he participated in the training programme for senior managers of large state-owned enterprises organised in the U.S.A. by the State Economic and Trade Commission and Morgan Stanley.

Mr. Hu Honggao is currently an independent non-executive director of our company. He is the vice-dean and professor of law at Fu Dan University School of Law as well as the head of the Civil and Commercial Law Research Centre of Fu Dan University, supervising doctoral students majoring in civil and commercial law at Fu Dan University. He is also a senior lawyer at the Shanghai Shen Yang Law Office. Mr. Hu is a managing director of China Commercial Law Research Society, a managing director of China Economic Law Research Society, a member of the Legislative Consultation Committee of the Shanghai Municipal Government, a member of the Legislative Profession Consultation Committee of the Shanghai Standing Committee of the People's Congress, vice-chairman of the Shanghai Economic Law Research Society and an arbitrator of the Shanghai Arbitration Committee.

Mr. Peter Lok is currently an independent non-executive director of our company. Mr. Lok went to the College of Air Traffic Control in England for further studies after joining the Hong Kong Civil Aviation Department in December 1956. He studied air transport, air accident investigation and administration and management of civil aviation in England from 1968 to 1973. In 1982, he became assistant director of the Hong Kong Civil Aviation Department. From 1985, during his time in office at the air services division of the Hong Kong Civil Aviation Department, he participated in negotiations with various countries regarding air traffic rights. He became deputy director in 1988, and subsequently became director in 1990 of the Hong Kong Civil Aviation Department. Mr. Lok retired in 1996 and has served as a consultant at the Flights Standards Department of the CAAC. Mr. Lok is the first Chinese director of the Hong Kong Civil Aviation Department and was at one time an instructor of the College of Air Traffic Control of Hong Kong.

Mr. Wu Baiwang is currently an independent non-executive director of our company. Mr. Wu joined the civil aviation industry in 1959 and was deputy fleet leader and subsequently became fleet leader of the 12th Fleet of the CAAC from 1976 to 1984. From 1984 to 1992, Mr. Wu was deputy head and subsequently became head of the CAAC Jilin Bureau. From 1992 to 1995, Mr. Wu was head and party secretary of the CAAC Northeastern Bureau. From September 1995 to 1998, he became president of China General Aviation Corporation. He was the party secretary and vice-president of Guangzhou Baiyun International Airport Group Company and the Chairman of the board of directors of Guangzhou Baiyun International Airport Company Limited from 1998 to September 2003. Mr. Wu graduated from Chinese Civil Aviation School in 1965 and holds the title of First Class Pilot.

Mr. Zhou Ruijin is currently an independent non-executive director of our company. Mr. Zhou was deputy editor-in-chief and the East China regional director of the People's Daily. From 1988 to 1993 Mr. Zhou was party secretary and deputy editor-in-chief of the Liberation Daily. From April 1993 to 1996 he was deputy editor-in-chief of the People's Daily and from 1996 to 2000 he was deputy editor-in-chief and the East China regional director of the People's Daily. After retired, he became vice-chairman of the China Productivity Council and Chairman of the Shanghai Productivity Council. Mr. Zhou graduated from the journalism department of Fudan University in 1962.

Table of Contents

Mr. Xie Rong is currently an independent director of our company and a certified accountant in the People's Republic of China. Mr. Xie is the deputy head of Shanghai National Accounting Institute. He taught at the faculty of accounting of Shanghai University of Finance and Economics from December, 1985 to March, 1997, and had been an assistant professor, a professor, a doctorate-tutor and the deputy dean of the faculty. Since 2000 he has been chief financial officer of our company. Mr. Luo graduated from the Sino-European International Business School in 1999 with a Master's degree in business administration. He holds the titles of Senior Accountant and Senior Economist.

Supervisory Committee

As required by the PRC Company Law and our articles of association, our company has a supervisory committee, or the Supervisory Committee, whose primary duty is the supervision of our senior management, including our board of directors, managers and senior officers. The Supervisory Committee consists of five supervisors.

Mr. Li Wenxin is currently Chairman of our company's supervisory committee. Mr. Li joined the civil aviation industry in 1970. From 1992 to 1995 he was secretary of the disciplinary committee of China General Aviation Company. From 1995 to 1996 he was deputy party secretary of China General Aviation Corporation. From 1996 to 1998 he was deputy president of China General Aviation Corporation and from February 1998 to June 2000, he assumed the post of party secretary and executive deputy president of the Shanxi branch of our company. From June 2000 to September 2002, he served as deputy party secretary and secretary of the disciplinary committee of CEA Holding. Since October 2002, he served as party secretary and vice president of CEA Holding. He has been the Chairman of the supervisory committee of our company since June 2000. Mr. Li received university education and is a qualified Senior Political Work Instructor.

Mr. Ba Shengji is currently a supervisor. Mr. Ba joined the civil aviation industry in 1978. From 1980, Mr. Ba was an accountant at the Department of Finance of the CAAC Shanghai Bureau. From 1988, he served as the section head of the Department of Finance of China Eastern Airlines. In 1993, Mr. Ba became the deputy head of the Department of Finance of China Eastern Airlines. In March 1997, Mr. Ba became the chief officer of the auditing office of our company. From December 1997 to September 2002, he served as the head of EA Group's auditing department. Since October 2002, he became the head of CEA Holding's

Table of Contents

auditing department. Since January 2003, he concurrently served as chief of CEA Holding's disciplinary committee's administrative office. Mr. Ba received university education and is a qualified auditor.

Mr. Yang Xingen is currently a supervisor. Mr. Yang was the deputy political committee member of the 1st flying battalion and political committee member of the 2nd battalion of 105th Regiment, 35th Division from July 1980 to July 1986. From July 1986 to October 1997, he was the party branch secretary and manager of China Eastern Airlines Advertisement Service Company respectively. From October 1997 to April 2000, he was the party deputy secretary, secretary for the disciplinary committee and political director of the Shanghai flying squadron of our company. From April 2000 to August 2002, he was the deputy secretary for the disciplinary committee cum director of the office for discipline committee and director of the supervision office. From August 2002 to now, he has been the deputy secretary for the disciplinary committee of our company. Mr. Yang has been educated to the tertiary level. He was graduated from the faculty of mechanics of the Second Aviation Mechanics School of the air force.

Ms. Yang Jie is currently a supervisor. Ms. Yang joined the civil aviation industry in 1992. From 1996 to 1998 she was electronic technology supervisor of the technology office and Communist Youth League secretary of the overhaul department at the aircraft maintenance base of our company. From 1998 to September 2000 she was Communist Youth League deputy secretary of the aircraft maintenance base of our company. She was the deputy secretary of our company's Communist Youth League from September 2000 to July 2002, and the secretary of our company's Communist Youth League from August 2002 to January 2003. Since January 2003, she has been the secretary of the Communist Youth League of CEA Holding, as well as the secretary of the Communist Youth League of our company. Ms. Yang graduated with a major in aviation electronics from the China Civil Aviation Academy and a major in Business Administration from Sunny Management Academy at Donghua University and she received a master degree in Business Administration. She is also a qualified engineer.

Mr. Liu Jiashun is currently a supervisor. From 1993 to 1999 Mr. Liu was party secretary, deputy president and secretary of the disciplinary committee secretary of China Aviation Fuel Hainan Company, as well as chairman of the board and president of Hainan Nanyang Air Transport Co., Ltd. From 1997 to 1999 he was also in charge of fuel supply engineering at Haikou's Meilan Airport and served as director of Meilan Airport Co., Ltd. and vice chairman of the board and president of Meilan Industrial Co., Ltd. From 1999 to 2000 he was deputy party secretary of China Aviation Fuel East China Company and he is currently deputy party secretary and secretary of the disciplinary committee of the East China branch of China Aviation Fuel Company. Mr. Liu is a former graduate student and has qualifications as a political work instructor.

B. Compensation

The aggregate amount of cash compensation paid by us to our directors, supervisors and the senior management during 2005 for services performed as directors, supervisors and officers or employees of our company was approximately RMB2,244,000. In addition, directors and supervisors who are also officers or employees of our company receive certain other in-kind benefits which are provided to all of our employees. Our company does not have any bonus or profit sharing plan or any stock option plan.

C. Board Practices

All directors and supervisors serve a term of three years or until such later date as their successors are elected or appointed. The directors and supervisors may serve consecutive terms. Two of the supervisors are employee representatives appointed by our employees, and the rest are appointed by the shareholders. The following table sets forth the number of years our directors, executive officers and supervisors have held their position and the expiration of their current term.

Table of Contents

Name	Held Position Since	Expiration of Term
Li Fenghua	June 20, 2003	June 18, 2007
Luo Chaogeng	June 30, 2005	June 18, 2007
Wan Mingwu	June 30, 2001	June 18, 2007
Cao Jianxiong	June 30, 2001	June 18, 2007
Zhong Xiong	June 30, 2001	June 18, 2007
Luo Zhuping	June 18, 2004	June 18, 2007
Hu Honggao	June 30, 2001	June 18, 2007
Peter Lok	June 30, 2001	June 18, 2007
Wu Baiwang	June 30, 2001	June 18, 2007
Zhou Ruijin	June 30, 2001	June 18, 2007
Xie Rong	June 20, 2003	June 18, 2007
Li Wenxin	June 30, 2001	June 18, 2007
Ba Shengji	June 30, 2001	June 18, 2007
Yang Xingen	June 18, 2004	June 18, 2007
Yang Jie	June 30, 2001	June 18, 2007
Liu Jiashun	June 30, 2001	June 18, 2007
Wu Jiuhong	April 4, 2002	June 18, 2007
Zhou Liguo	April 5, 2004	June 18, 2007
Zhang Jianzhong	June 18, 2004	June 18, 2007
Tang Guozhao	April 1, 2005	June 18, 2007
Li Yangmin	October 28, 2005	June 18, 2007
Luo Weide	June 30, 2001	June 18, 2007

None of our directors, supervisors or members of our senior management has entered into any agreement or reached any understanding with us requiring our company to pay any benefits as a result of termination of their services.

Our board of directors established the audit committee in August 2000 in accordance with the listing rules of the Hong Kong Stock Exchange. The audit committee currently consists of Mr. Xie Rong, an independent non-executive director and the chairman of the audit committee, Mr. Hu Honggao, an independent non-executive director of our company, and Mr. Wu Baiwang, an independent non-executive director of our company. The audit committee is authorized to, among other things, examine our internal control system and review auditing procedures and financial reports with our auditors. Subject to the approval of the shareholders' meeting, the audit committee of our company is also directly responsible for the appointment, compensation, retention and oversight of our outside auditors, including resolving disagreements between management and the auditor regarding financial reporting. The outside auditors report directly to the audit committee. The audit committee holds at least four meetings each year. The audit committee has established procedures for the receipt, retention and treatment of complaints received by our company regarding accounting, internal accounting controls or auditing matters, and procedures for the confidential, anonymous submission by employees of concerns regarding questionable accounting or auditing matters. The audit committee has the authority to engage independent counsel and other advisors, as it determines necessary to carry out its duties. Our company provides appropriate funding, as determined by the audit committee, for payment of compensation to the outside auditors, advisors employed by the audit committee, if any, and ordinary administrative expenses of the audit committee that are necessary or appropriate in carrying out its duties.

Our remuneration and review committee, established by our board of directors in April 2002, consists of Mr. Zhou Ruijin, an independent non-executive director and the chairman of the remuneration and review

Table of Contents

committee, Mr. Hu Hongao, an independent non-executive director and Mr. Peter Lok, an independent non-executive director. The remuneration and review committee is authorized to review the performance of our directors, supervisors and management as well as determine their annual compensation level. The remuneration and review committee shall submit to our board of directors or shareholders meeting for approval compensation plans and oversee the implementation of approved compensation plans. The remuneration and review committee may consult financial, legal or other outside professional firms in carrying out its duties. The remuneration and review committee shall meet once year, within twenty days after the announcement of annual results.

D. Employees

Through arrangements with CEA Holding and others, we provide certain benefits to our employees, including housing, retirement benefits and hospital, maternity, disability and dependent medical care benefits. Our company does not have any bonus or profit sharing plan or any stock option plan. See Notes 33 and 34 to our audited consolidated financial statements. Our employees are members of a labor association which represents employees with respect to labor disputes and certain other employee matters. We believe that we maintain good relations with our employees and with their labor association. The table below sets forth the number of our employees as of December 31, 2003, 2004 and 2005, respectively:

		As of December 31,	
	2003	2004	2005
Pilots	1,516	1,699	2,154
Flight attendants	1,817	2,732	3,752
Maintenance personal	2,696	3,283	4,480
Sales and marketing	2,172	2,546	3,658
Other	8,234	10,557	15,257
Total	16,435	20,817	29,301

E. Share Ownership

See Item 6.A and Item 6.B above.

Item 7. Major Shareholders and Related Party Transactions.**A. Major Shareholders**

The following table sets forth certain information regarding ownership of our capital stock as of December 31, 2005 by all persons who were known to us to be the beneficial owners of 5% or more of our capital stock:

Title of Class	Identity of Person or Group	Amount Owned	Percent of Class	Percent of Total Shares
Domestic Shares	CEA Holding	3,000,000,000	90.91%	61.64%
H Shares	HKSCC Nominees Limited ⁽¹⁾	1,487,931,163	94.96%	30.57%

(1) As custodian of the Depository for American Depository Shares representing H Shares.

CEA Holding has held 61.64% of our issued and outstanding capital stock since its establishment in October 2002, and neither it nor HKSCC Nominees Limited has any voting rights different from those of other shareholders. We are not aware of any arrangement which may at a subsequent date result in a change of control of our company.

-57-

Table of Contents

As of December 31, 2005 and June 30, 2006, there were 1,566,950,000 H shares issued and outstanding. As of December 31, 2005 and June 30, 2006, there were, respectively, 39 and 36 registered holders of American depository receipts evidencing 1,495,400 and 1,542,960 ADSs. Since certain of the ADSs are held by nominees, the above number may not be representative of actual number of U.S. beneficial holders of ADSs or the number of ADSs beneficially held by U.S. persons.

Our company is currently a majority-owned subsidiary of CEA Holding. CEA Holding itself is a wholly state-owned enterprise under the administrative control of China State-owned Assets Supervisions and Administration Commission, or CSASAC. CEA Holding's shareholding in our company is in the form of ordinary domestic shares, through which it, under the supervision of the CSASAC, enjoys the shareholders' rights and benefits on behalf of the Chinese government.

B. Related Party Transactions

Relationship with CEA Holding and Associated Companies

We enter into transactions from time to time with CEA Holding and its subsidiaries. For a description of such transactions, see Note 39 to our audited consolidated financial statements.

(A) De-merger Agreement

EA Group and our company entered into a de-merger agreement on April 14, 1995, or the De-merger Agreement, for the purpose of defining and allocating the assets and liabilities between EA Group and our company. To give effect to the intent and provisions of the De-merger Agreement, EA Group and our company have entered into a Supplemental Agreement to the De-merger Agreement, dated December 5, 1996, whereby the parties agreed to indemnify each other in respect of all claims arising from or in respect of the assets and liabilities which they have respectively assumed pursuant to the restructuring and by reference to the division of assets and liabilities determined as of January 1, 1994. After the establishment of CEA Holding in October 2002, CEA Holding has assumed the rights and liabilities of EA Group under the De-merger Agreement.

(B) Acquisition of Assets from CEA Holding

We have acquired from CEA certain assets and liabilities from CEA Holding relating to the aviation businesses of CEA Northwest and CEA Yunnan. See the section headed Item 4. Information on the Company History and Development of the Company.

(C) Related Business Transactions

As our company and EA Group and its subsidiaries were a single group prior to the restructuring in 2002, certain arrangements among us have continued after the restructuring and the establishment of CEA Holding. Each of these arrangements is non-exclusive, although we do not currently intend to enter into any equivalent contracts with third parties.

(i) China Eastern Aviation Import and Export Corporation, or CEAIEC, a 55% owned subsidiary of CEA Holding.

Our company and CEAIEC have entered into an import/export agency agreement, dated May 12, 2005, to supercede our agreement, dated January 7, 1997, regarding the import and export of aircraft-related accessories, machinery and equipment for a term of three years commencing from July 1, 1999, subject to renewal. For the year ended December 31, 2005, the amounts paid by us to CEAIEC for the import and export of aircraft-related accessories, machinery and equipment were approximately RMB7,228 million,

Table of Contents

inclusive of handling charges of 0.1% to 2% above the contract prices paid to CEAIEC which were approximately RMB41 million in total.

We have certain balances with CEAIEC, which are unsecured, interest-free and have no fixed term of repayment. See Note 39(b) to our audited consolidated financial statements for more details.

(ii) Eastern Aviation Advertising Service Co., Ltd., or Eastern Advertising, a 55% owned subsidiary of CEA Holding.

Our company and Eastern Advertising have entered into an advertising service agreement, dated May 12, 2005, to supercede our agreement, dated December 30, 1996, regarding the provision of advertising services for a term of three years commencing from July 1, 2005, subject to renewal. For the year ended December 31, 2005, the amounts paid by us to Eastern Advertising for advertising services were approximately RMB9 million.

(iii) China Eastern Air Catering Investment Co. Ltd., or CEA Catering, a 55% subsidiary of CEA Holding. The remaining 45% is owned by our company.

On May 12, 2005, our company entered into certain catering service agreements with a number of subsidiaries of CEA Catering (including Shanghai Eastern Air Catering Co., Ltd) regarding the provision of in-flight catering services (including the supply of in-flight meals and beverages, cutlery and tableware) and related storage and complementary services required in our company's daily airline operations and civil aviation business. For the year ended December 31, 2005, the amounts paid by us to those subsidiaries of CEA Catering for the supply of in-flight meals and other services were approximately RMB232 million.

(iv) Eastern Air Group Finance Co. Ltd., or Eastern Finance, which is 75% owned and controlled by CEA Holding and other subsidiaries of CEA Holding.

Our company and Eastern Finance have entered into a financial services agreement, dated May 12, 2005, to supercede our agreement with Eastern Finance, dated January 8, 1997, regarding the provision of deposit services, loan and financing services and certain other financial services such as the provision of trust loans, financial guarantees and credit facilities and credit references for a term of three years commencing from July 1, 2005, subject to renewal. Pursuant to this agreement, we may place deposits with, and obtain loans from, Eastern Finance. We had short-term deposits placed with Eastern Finance as of December 31, 2005 amounting to RMB475 million, which paid interest at 0.7% per annum. In addition, our company had short-term loans of RMB214 million from Eastern Finance. During the year ended December 31, 2005, the weighted average interest rate on the loan was 4.5% per annum.

Pursuant to the financial services agreement, Eastern Finance shall deposit all moneys deposited by our company under the agreement with commercial bank(s) in China, including, for example, Industrial and Commercial Bank of China, Bank of China, China Construction Bank, Bank of Agriculture and Bank of Communications. The Eastern Finance has also undertaken under the financial services agreement that all outstanding loans it provides to CEA Holding and its subsidiaries (other than our company) will not at any time and from time to time exceed the aggregate amount of its equity capital, surplus reserves and deposits received from other parties.

(v) TravelSky Technology Ltd., which is 33% owned by CEA Holding.

We pay ticket reservation service charges to TravelSky, which is 33% owned by CEA Holding, in connection with our use of its computer reservation system. For the year ended December 31, 2005, we paid ticket reservation service charges to TravelSky of approximately RMB125 million.

Table of Contents

(vi) Shanghai Eastern Aviation Equipment Manufacturing Corporation, or SEAEMC, a wholly-owned subsidiary of CEA Holding.

Our company and SEAEMC have entered into an advertising service agreement, dated May 12, 2005, to supercede our agreement dated, December 31, 1996, regarding the provision of comprehensive services in relation to maintenance, repair and overhaul of aircraft and aviation equipment, and procurement of related equipment and materials required in our company's daily operations for a term of three years commencing from July 1, 2005, subject to renewal. SEAEMC was established in 1996. SEAEMC's predecessor was Shanghai Civil Aviation Maintenance and Engineering Company. For the year ended December 31, 2005, the amounts paid by us to SEAEMC for the maintenance and related services were approximately RMB1 million. In addition, we also paid RMB9 million and RMB5 million to SEAEMC for the purchase by our company of certain aviation equipment from SEAEMC and the lease of buildings and equipment, respectively, in 2005.

(vii) Ticket Sales

On May 12, 2005, our company entered into certain sales agency services agreements with several subsidiaries of CEA Holdings regarding the sales of our air tickets by such subsidiaries of CEA Holding as our sales agents and the provision of complementary services for a term of three years commencing from July 1, 2005, subject to renewal. Under such agreements, the sales agents charge commissions at rates with reference to those prescribed by the CAAC and the International Aviation Transportation Association, as determined following arm's length negotiations. Such commissions are payable monthly in arrears. The parties will perform an annual review of the then prevailing commission rate before the 31st of December in each calendar year, and agree on any required adjustments to such commission rate in respect of the next calendar year. For the year ended December 31, 2005, the aggregate amount of commissions we paid to those sales agents for the sales agency services was approximately RMB81 million.

(C) Property Leases

Our company and EA Group had entered into an office lease agreement dated January 7, 1997 in respect of office premises located at 2550 Hong Qiao Road, Shanghai, China. The lease term is one year and renewable by the parties, subject to mutual agreement with respect to rental terms. The total rental payment is approximately RMB158,342 per month. In addition, our company and EA Group had entered into a staff dormitory lease agreement dated December 31, 1996, pursuant to which EA Group had agreed to enter into lease arrangements with our employees for dormitories in Shanghai, Anhui Province, Shandong Province and Jiangxi Province. The term of the lease and the rental payments are set in accordance with Chinese regulations and the rate prescribed by the Shanghai Municipal Government. CEA Holding has assumed EA Group's rights and liabilities under those lease agreements after its establishment.

On May 12, 2005, we entered into a property leasing agreement with CEA Holding, CEA Northwest and CEA Yunnan for a term of three years, subject to renewal of another three years. Pursuant to this property leasing agreement, we leased from CEA Holding, for our use in daily airlines and other business operations: (i) a maximum of altogether 33 land properties owned by CEA Holding through, and registered in the name of, CEA Northwest, covering an aggregate site area of approximately 692,539 square meters located primarily in Xi'an, Xianyang and Yongdeng, together with a total of 225 building properties and related construction, infrastructure and facilities occupying an aggregate floor area of approximately 269,148 square metres; and (ii) a maximum of altogether seven land properties owned by CEA Holding through, and registered in the name of, CEA Yunnan, covering an aggregate site area of approximately 420,768 square meters primarily located in Kunming, together with a total of 81 building properties and related construction, infrastructure and facilities occupying an aggregate floor area of approximately 457,722 square meters. Under the property leasing agreement, our company shall pay annual rentals in an aggregate amount of approximately RMB55 million to CEA Holding. The rentals are payable half-yearly in advance, and are subject to review and adjustments provided that the adjustments shall not exceed the applicable inflation rates

Table of Contents

published by the relevant local PRC authorities. During 2005, we have paid a rental of RMB 28 million under this property leasing agreement.

(D) Aircraft Leases

During the year ended December 31, 2005, our company received from CEA Wuhan RMB41 million under an aircraft operating lease arrangement relating to two B737-300 aircraft.

(E) Guarantee by CEA Holding

As at December 31, 2005, unsecured long-term bank loans of our company with aggregate amount of RMB2,123 million are guaranteed by CEA Holding (see Note 29 to our audited consolidated financial statements.)

C. Interests of Experts & Counsel

Not applicable.

Item 8. Financial Information.

A. Financial Statements

You should read Item 18-Financial Statements for information regarding our audited consolidated financial statements and other financial information.

B. Legal Proceedings

We are involved in routine litigation and other proceedings in the ordinary course of our business. We do not believe that any of these proceedings are likely to be material to our business operations, financial condition or results of operations. In 2005, family members of certain victims in the air crash of an aircraft of CEA Yunnan that occurred on November 21, 2004 in Baotou, Neimougu, the PRC, instituted a legal action against us in a court in the United States to seek unspecified damages. We have engaged legal counsel to vigorously defend the proceedings. The proceedings are still at an early stage and we believe, based on professional advice, it is unlikely that there will be any material adverse effect on our financial position. We are not aware of any other material proceedings currently pending against our company.

C. Dividends and Dividend Policy

For the fiscal year ended December 31, 2003, our board of directors recommended no dividend. For the fiscal year ended December 31, 2004, our shareholder's meeting approved the payment of a cash dividend of RMB0.02 per share. For the fiscal year ended December 31, 2005, our board of directors recommended no dividend. The declaration and payment of dividends for years following 2005 will depend upon our financial results, our shareholders' interests, general business conditions and strategies, our capital requirements, contractual restrictions on the payment of dividends by us to our shareholders, and other factors our directors may deem relevant. Holders of our H shares will receive the equivalent amount of cash dividend declared in Renminbi, if any, based on the foreign exchange conversion rate published by the People's Bank of China, or PBOC, on the date of the distribution of the cash dividend.

D. Significant Post Financial Statements Events

For information relating to the increase of our equity interest in CEA Wuhan, see section headed Item 4. Information on the Company History and Development of the Company .

Table of Contents

In addition, since January 1, 2006, we have contracted to purchase 16 Boeing 737 NG series aircraft (with engines) and 30 Airbus A320 series aircraft(with engines), for delivery over the next few years.

Item 9. The Offer and Listing.

The principal trading market for our H shares is the Hong Kong Stock Exchange. The ADSs, each representing 100 H shares, have been issued by The Bank of New York as the Depositary and are listed on the New York Stock Exchange under the symbol CEA. Prior to our initial public offering and subsequent listings on the New York Stock Exchange and the Hong Kong Stock Exchange on February 4 and 5, 1997, respectively, there was no market for our H shares or ADSs.

The table below sets forth certain market information relating to our H shares and ADSs in respect of the period from 2001 to June 30, 2006.

	Price per H Share (HK\$)		Price per ADS (US\$)	
	High	Low	High	Low
2001	1.41	0.66	17.75	8.75
2002	1.48	0.80	18.50	11.00
2003	1.39	0.88	18.33	9.6
First Quarter 2004	1.84	1.28	23.22	17.03
Second Quarter 2004	1.64	1.28	21.27	16.74
Third Quarter 2004	1.65	1.49	20.90	18.81
Fourth Quarter 2004	1.79	1.40	23.30	18.20
2004	1.85	1.28	23.70	16.60
First Quarter 2005	1.70	1.34	22.48	17.23
Second Quarter 2005	1.51	1.28	19.30	16.56
Third Quarter 2005	1.42	1.18	18.65	15.14
Fourth Quarter 2005	1.30	0.95	16.45	12.52
December 2005	1.30	1.21	16.45	15.61
January 2006	1.33	1.19	16.96	15.50
February 2006	1.38	1.20	17.18	15.64
March 2006	1.44	1.24	18.24	16.00
April 2006	1.29	1.12	16.88	14.80
May 2006	1.18	1.08	15.15	13.98
June 2006	1.16	1.04	14.68	13.10

As of December 31, 2005 and June 30, 2006, there were 1,566,950,000 H shares issued and outstanding. As of December 31, 2005 and June 30, 2006, there were, respectively, 39 and 36 registered holders of American depositary receipts evidencing 1,495,400 and 1,542,960 ADSs. Since certain of the ADSs are held by nominees, the above number may not be representative of actual number of U.S. beneficial holders of ADSs or the number of ADSs beneficially held by U.S. persons. The depositary for the ADSs is The Bank of New York. A total of 3,300,000,000 domestic ordinary shares were also outstanding as of June 30, 2006.

Item 10. Additional Information.

A. Share Capital

Not applicable.

B. Memorandum and Articles of Association

The section entitled Description of Capital Stock contained in our registration statement on Form F-1 (File No. 333-6260) filed with the Securities and Exchange Commission is hereby incorporated by reference.

C. Material Contracts

For a summary of any material contract entered into by our company or any of its consolidated subsidiaries outside of the ordinary course of business during the last two years, see Item 4. Information on the Company, Item 5. Operating and Financial Review and Prospects and Item 7. Major shareholders and Related Party Transactions.

In addition, we entered into the following agreements to purchase aircraft, which are filed with this annual report as exhibits:

an aircraft purchase agreement, dated as of October 9, 2004, between our company and Airbus SAS regarding the purchase of 20 Airbus A330-300 aircraft;

an amendment to an aircraft purchase agreement, dated as of April 21, 2005, between our company and Airbus SAS regarding the purchase of 15 Airbus A320 series aircraft;

an aircraft purchase agreement, dated as of August 8, 2005, between our company and The Boeing Company regarding the purchase of 15 Boeing 787 aircraft (with engines);

an aircraft purchase agreement, dated as of December 20, 2005, as amended by a supplemental agreement dated as of April 10, 2006, between our company and The Boeing Company regarding the purchase of 20 Boeing 737 NG series aircraft (with engines); and

an amendment to an aircraft purchase agreement, dated as of June 26, 2006, between our company and Airbus SAS regarding the purchase of 30 Airbus A320 aircraft (with engines).

D. Exchange Controls

Renminbi currently is not a freely convertible currency. SAFE, under the authority of PBOC, controls the conversion of Renminbi into foreign currency. Prior to January 1, 1994, Renminbi could be converted to foreign currency through the Bank of China or other authorized institutions at official rates fixed daily by SAFE. Renminbi could also be converted at swap centers open to Chinese enterprises and foreign invested enterprises, or FIEs, subject to SAFE approval of each foreign currency trade, at exchange rates negotiated by the parties for each transaction. Effective January 1, 1994, a unitary exchange rate system was introduced in China, replacing the dual-rate system previously in effect. In connection with the creation of a unitary exchange rate, the Chinese government announced the establishment of an inter-bank foreign exchange market, the China Foreign Exchange Trading System, or CFETS, and the phasing out of the swap centers. Effective December 1, 1998, the swap centers were abolished by the Chinese government.

Table of Contents

On July 21, 2005, the PRC government changed its decade-old policy of pegging the value of Renminbi to the U.S. dollar. Under the new policy, Renminbi is permitted to fluctuate within a narrow and managed band against a basket of certain foreign currencies. This change in policy has resulted in a significant appreciation of Renminbi against the U.S. dollar. While the international reaction to Renminbi revaluation has generally been positive, there remains significant international pressure on the PRC government to adopt an even more flexible currency policy, which could result in a further and more significant appreciation of Renminbi against the U.S. dollar.

In general, under existing foreign exchange regulations, domestic enterprises operating in China must price and sell their goods and services in China in Renminbi. Any foreign exchange received by such enterprises must be sold to authorized foreign exchange banks in China. A significant portion of our revenue and operating expenses are denominated in Renminbi, while a portion of our revenue, capital expenditures and debts are denominated in U.S. dollars and other foreign currencies. Renminbi is currently freely convertible under the current account, which includes dividends, trade and service-related foreign currency transactions, but not under the capital account, which includes foreign direct investment, unless the prior approval of the SAFE, is obtained. As a foreign investment enterprise approved by the MOC, we can purchase foreign currency without the approval of SAFE for settlement of current account transactions, including payment of dividends, by providing commercial documents evidencing these transactions. We can also retain foreign exchange in our current accounts, subject to a maximum amount approved by SAFE, to satisfy foreign currency liabilities or to pay dividends. However, the relevant Chinese government authorities may limit or eliminate our ability to purchase and retain foreign currencies in the future. Foreign currency transactions under the capital account are still subject to limitations and require approvals from SAFE. This may affect our ability to obtain foreign exchange through debt or equity financing, including by means of loans or capital contributions. We cannot assure you that we will be able to obtain sufficient foreign exchange to pay dividends or satisfy our foreign exchange liabilities.

E. Taxation

The taxation of income and capital gains of holders of H shares or ADSs is subject to the laws and practices of China and of jurisdictions in which holders of H shares or ADSs are resident or otherwise subject to tax. The following summary of certain relevant taxation provisions is based on current law and practice, is subject to change and does not constitute legal or tax advice. The discussion does not deal with all possible tax consequences relating to an investment in the H shares or ADSs. In particular, the discussion does not address the tax consequences under state, local and other laws, such as non-U.S. federal laws. Accordingly, you should consult your own tax adviser regarding the tax consequences of an investment in the H shares and ADSs. The discussion is based upon laws and relevant interpretations in effect as of the date of this annual report, all of which are subject to change.

Taxation Hong Kong

The taxation of income and capital gains of holders of ordinary shares or ADSs is subject to the laws and practices of Hong Kong and of jurisdictions in which holders of ordinary shares or ADSs are resident or otherwise subject to tax. The following summary of certain relevant taxation provisions under Hong Kong law is based on current law and practice, is subject to changes therein and does not constitute legal or tax advice. The discussion does not deal with all possible tax consequences relating to an investment in the ordinary shares or ADSs. Accordingly, each prospective investor (particularly those subject to special tax rules, such as banks, dealers, insurance companies, tax-exempt entities and holders of 10% or more of our voting capital stock) should consult its own tax advisor regarding the tax consequences of an investment in the ordinary shares and ADSs. The discussion is based upon laws and relevant interpretations thereof in effect as of the date of this annual report, all of which are subject to change.

Table of Contents

Tax on Dividends

Under the current practices of the Hong Kong Inland Revenue Department, no tax is payable in Hong Kong in respect of dividends received by the recipient.

Profits Tax

No tax is imposed in Hong Kong in respect of capital gains from the sale of property (such as the H shares and ADSs). Trading gains from the sale of property by persons carrying on a trade, profession or business in Hong Kong where such gains are derived from or arise in Hong Kong from such trade, profession or business will be chargeable to Hong Kong profits tax which is currently imposed at the rate of 17.5% on corporations and on individuals at a maximum rate of 16.0% with effect from April 1, 2004. Gains from sales of the ordinary shares effected on the Hong Kong Stock Exchange may be considered to be derived from or arise in Hong Kong. Liability for Hong Kong profits tax may thus arise in respect of trading gains from sales of ordinary shares or ADSs realized by persons carrying on a business of trading or dealing in securities in Hong Kong.

Stamp Duty

Hong Kong stamp duty, currently charged at the rate of HK\$1 per HK\$1,000 or part thereof on the higher of the consideration for or the value of the ordinary shares, will be payable by the purchaser on every purchase and by the seller on every sale of ordinary shares (i.e., a total of HK\$2 per HK\$1,000 or part thereof is currently payable on a typical sale and purchase transaction involving ordinary shares). In addition, a fixed duty of HK\$5 is currently payable on any instrument of transfer of ordinary shares. The withdrawal of ordinary shares upon the surrender of ADSs, and the issuance of ADSs upon the deposit of ordinary shares, will also attract stamp duty at the rate described above for sale and purchase transactions unless the withdrawal or deposit does not result in a change in the beneficial ownership of the ordinary shares under Hong Kong law, in which case only a fixed duty of HK\$5 is payable on the transfer. The issuance of the ADSs upon the deposit of ordinary shares issued directly to the depository or for the account of the depository does not attract stamp duty. No Hong Kong stamp duty is payable upon the transfer of ADSs outside Hong Kong.

Estate Duty

The ordinary shares are Hong Kong property under Hong Kong law, and accordingly such ordinary shares may be subject to estate duty on the death of the beneficial owner of the ordinary shares (regardless of the place of the owner's residence, citizenship or domicile). Hong Kong estate duty is imposed on a progressive scale from 5% to 15%. The rate of and the threshold for estate duty has, in the past, been adjusted on a fairly regular basis. No estate duty is payable when the aggregate value of the dutiable estate does not exceed HK\$7.5 million, and the maximum rate of duty of 15% applies when the aggregate value of the dutiable estate exceeds HK\$10.5 million.

Estate duty was abolished effective February 11, 2006. Estates of persons who passed away on or after February 11, 2006 are not subject to estate duty. The estate duty chargeable in respect of deaths occurring between the period from July 15, 2005 to February 10, 2006 with the taxable estate value exceeding HK\$7.5 million is reduced to a nominal duty of HK\$100.

Taxation China

The following is a general summary of certain Chinese tax consequences of the acquisition, ownership and disposition of the H Shares and ADSs. This summary does not purport to address all material tax consequences of the ownership of Shares or ADSs, and does not take into account the specific circumstances of any particular investors. This summary is based on the tax laws of China as in effect on the

Table of Contents

date of this annual report, as well as on the U.S.-China Treaty, all of which are subject to change (or changes in interpretation), possibly with retroactive effect.

In general, and taking into account the earlier assumptions, for Chinese tax purposes, holders of ADRs evidencing ADSs will be treated as the owners of the H Shares represented by those ADSs, and exchanges of H Shares for ADSs, and ADSs for H Shares, will not be subject to Chinese tax.

Taxation of Dividends by China

Individual Investors. The Provisional Regulations of China Concerning Questions of Taxation on Enterprises Experimenting with the Share System, or the Provisional Regulations, provide that dividends from Chinese companies are ordinarily subject to a Chinese withholding tax levied at a flat rate of 20%. However, the Chinese State Tax Bureau issued, on July 21, 1993, a Notice Concerning the Taxation of Gains on Transfer and Dividends from Shares (Equities) Received by Foreign Investment Enterprises, Foreign Enterprises and Foreign Individuals, or the Tax Notice, which provides that dividends from a Chinese company on shares listed on an overseas stock exchange, or Overseas Shares, such as H Shares (including H Shares represented by ADSs), would not be subject to Chinese withholding tax. The relevant tax authority has not collected withholding tax on dividend payments on Overseas Shares.

Amendments to the individual Income Tax Law of the PRC, or the Amendments, were promulgated on October 31, 1993 and became effective on January 1, 1994. The Amendments provide that any provisions of prior administrative regulations concerning individual income tax which contradict the Amendments are superseded by the Amendments. The Amendments and the amended Individual Income Tax Law can be interpreted to mean that foreign individuals are subject to a withholding tax on dividends received from a Chinese company at a rate of 20% unless such income is specifically exempted from individual income tax by the financial authority of the State Council. However, in a letter dated July 26, 1994 to the State Commission for Restructuring the Economic System, the State Securities Commission and the China Securities Regulatory Commission, the State Tax Bureau confirmed the temporary tax exemption set forth in the Tax Notice for dividends received from a Chinese company listed overseas. In the event this letter is withdrawn, a 20% tax may be withheld on dividends in accordance with the Provisional Regulations, the Amendments, and the Individual Income Tax law of China. Such withholding tax may be reduced pursuant to an applicable double taxation treaty.

Enterprises. The Provisional Regulations provide that dividends from Chinese companies are ordinarily subject to a Chinese withholding tax levied at a flat rate of 20%. However, according to the Tax Notice, a foreign enterprise with no permanent establishment in China receiving dividends paid on a Chinese company's Overseas Shares temporarily will not be subject to the 20% withholding tax. If such withholding tax becomes applicable in the future, the rate could be reduced or eliminated pursuant to an applicable double taxation treaty.

Tax Treaties. Non-Chinese investors resident in countries which have entered into double-taxation treaties with China may be entitled to a reduction of the withholding tax imposed on the payment of dividends to non-Chinese investors of our company. China currently has double-taxation treaties with a number of other countries, including Australia, Canada, France, Germany, Japan, Malaysia, the Netherlands, Singapore, the United Kingdom and the United States.

Under the U.S.-China Treaty, China may tax a dividend paid by our company to a U.S. holder of H shares or ADSs only up to a maximum of 10% of the gross amount of such dividend.

Table of Contents

Taxation of Capital Gains by China

The Tax Notice provides that gains realized upon the sale of Overseas Shares are not subject to taxes on capital gains. Although the Ministry of Finance has been empowered to collect a tax of 20% on gains derived from the sale of equity shares, a joint notice issued in March 1996 by the Ministry of Finance and the State Tax Bureau indicated that no capital gains tax would be imposed on gains from the sale of shares until the Ministry of Finance and the State Tax Bureau promulgate new rules. Therefore, during 1996 to 2001, holders of H Shares or ADSs were not subject to taxation on gains realized upon the sale or disposition of such shares. After 2001, holders of H Shares or ADSs could become subject to a 20% capital gains tax, unless reduced or eliminated pursuant to an applicable double taxation treaty.

Under the U.S.-China Treaty, China may only tax gains from the sale or disposition by a U.S. holder of H shares or ADSs representing an interest in the company of 25% or more.

Chinese Stamp Tax

Chinese stamp tax imposed on the transfer of shares of Chinese publicly traded companies under the Share System Tax Regulations should not apply to the acquisition or disposition by non-Chinese investors of H Shares or ADSs outside of China by virtue of the Provisional Regulations of The People's Republic of China Concerning Stamp Tax, which provides that Chinese stamp tax is imposed only on documents executed or received within China or that should be considered as having been executed or received within China.

United States Federal Income Taxation.

United States Federal Income Taxation

This section describes the material United States federal income tax consequences of the ownership and disposition of H shares or ADSs. This section applies to you only if you are a U.S. holder, as defined below, and you hold your H shares or ADSs as capital assets for United States federal income tax purposes. This section does not apply to you if you are a member of a special class of holders subject to special rules, including:

a dealer in securities;

a trader in securities that elects to use a mark-to-market method of accounting for your securities holdings;

a tax-exempt organization;

a life insurance company;

a person liable for alternative minimum tax;

a person that actually or constructively owns 10% or more of our voting stock;

a person that holds H shares or ADSs as part of a straddle or a hedging or conversion transaction; or

a person whose functional currency is not the U.S. dollar.

This section is based on the Internal Revenue Code of 1986, as amended, its legislative history, existing and proposed regulations, published rulings and court decisions, all as currently in effect. These laws

Table of Contents

are subject to change, possibly on a retroactive basis. In addition, this section is based in part upon the representations of the Depositary and the assumption that each obligation in the Deposit Agreement and any related agreement will be performed in accordance with its terms.

You are a U.S. holder if you are a beneficial owner of H shares or ADSs and you are:
a citizen or resident of the United States;

a domestic corporation;

an estate whose income is subject to United States federal income tax regardless of its source; or

a trust if a United States court can exercise primary supervision over the trust's administration and one or more United States persons are authorized to control all substantial decisions of the trust.

You should consult your own tax advisor regarding the United States federal, state and local and other tax consequences of owning and disposing of H shares or ADSs in your particular circumstances.

In general, and taking into account the earlier assumptions, for United States federal income tax purposes, if you hold ADRs evidencing ADSs, you will be treated as the owner of the H shares represented by those ADRs. Exchanges of H shares for ADRs, and ADRs for H shares, generally will not be subject to the United States federal income tax.

Taxation of Dividends

Under the United States federal income tax laws, and subject to the passive foreign investment company, or PFIC, rules discussed below, if you are a U.S. holder, the gross amount of any dividend we pay out of our current or accumulated earnings and profits (as determined for United States federal income tax purposes) is subject to United States federal taxation. If you are a noncorporate U.S. holder, dividends paid to you in taxable years beginning before January 1, 2011 that constitute qualified dividend income will be taxable to you at a maximum tax rate of 15% provided that you hold the H shares or ADSs for more than 60 days during the 121-day period beginning 60 days before the ex-dividend date and meet other holding period requirements.

The dividend is taxable to you when you, in the case of H shares, or the Depositary, in the case of ADSs, receive the dividend, actually or constructively. The dividend will not be eligible for the dividends-received deduction generally allowed to United States corporations in respect of dividends received from other United States corporations. The amount of the dividend distribution that you must include in your income will be the U.S. dollar value of the Hong Kong dollar payments made, determined at the spot Hong Kong dollar/U.S. dollar rate on the date the dividend distribution is includible in your income, regardless of whether the payment is in fact converted into U.S. dollars. Generally, any gain or loss resulting from currency exchange fluctuations during the period from the date you include the dividend payment in income to the date you convert the payment into U.S. dollars will be treated as ordinary income or loss and will not be eligible for the special tax rate applicable to qualified dividend income. This gain or loss generally will be from sources within the United States for foreign tax credit limitation purposes. Distributions in excess of current and accumulated earnings and profits (as determined for United States federal income tax purposes) will be treated as a non-taxable return of capital to the extent of your basis in the H shares or ADSs and thereafter as capital gain. Dividends will be income from sources outside the United States, but dividends paid in taxable years beginning before January 1, 2007 generally will be passive or financial services income, and dividends paid in taxable years beginning after December 31, 2006 will, depending on your

Table of Contents

circumstances, be passive or general income which, in either case, is treated separately from other types of income for purposes of computing the foreign tax credit allowable to you.

Taxation of Capital Gains

Subject to the PFIC rules discussed below, if you are a U.S. holder and you sell or otherwise dispose of your H shares or ADSs, you will recognize capital gain or loss for United States federal income tax purposes equal to the difference between the U.S. dollar value of the amount that you realize and your tax basis, determined in U.S. dollars, in your H shares or ADSs. Capital gain of a noncorporate U.S. holder that is recognized in taxable years beginning before January 1, 2011 is generally taxed at a maximum rate of 15% where the property is held more than one year. The deductibility of capital losses is subject to limitations. The gain or loss will generally be from sources within the United States for foreign tax credit limitation purposes.

PFIC Rules

We believe that H shares or ADSs should not be treated as stock of a PFIC for United States federal income tax purposes, but this conclusion is a factual determination that is made annually and thus may be subject to change. In general, if you are a U.S. holder, we will be a PFIC with respect to you if for any taxable year in which you held our H shares or ADSs:

at least 75% of our gross income for the taxable year is passive income; or

at least 50% of the value, determined on the basis of a quarterly average, of our assets is attributable to assets that produce or are held for the production of passive income.

Passive income generally includes dividends, interest, royalties, rents (other than certain rents and royalties derived in the active conduct of a trade or business), annuities and gains from assets that produce passive income. If a foreign corporation owns at least 25% by value of the stock of another corporation, the foreign corporation is treated for purposes of the PFIC tests as owning its proportionate share of the assets of the other corporation, and as receiving directly its proportionate share of the other corporation's income.

If we are treated as a PFIC, and you are a U.S. holder that did not make a mark-to-market election, as described below, you will be subject to special rules with respect to:

any gain you realize on the sale or other disposition of your H shares or ADSs; and

any excess distribution that we make to you (generally, any distributions to you during a single taxable year that are greater than 125% of the average annual distributions received by you in respect of the H shares or ADSs during the three preceding taxable years or, if shorter, your holding period for the H shares or ADSs).

Under these rules:

the gain or excess distribution will be allocated ratably over your holding period for the H shares or ADSs;

the amount allocated to the taxable year in which you realized the gain or excess distribution will be taxed as ordinary income;

the amount allocated to each prior year, with certain exceptions, will be taxed at the highest tax rate in effect for that year; and

Table of Contents

the interest charge generally applicable to underpayments of tax will be imposed in respect of the tax attributable to each such year.

If you own H shares or ADSs in a PFIC that are treated as marketable stock, you may make a mark-to-market election. If you make this election, you will not be subject to the PFIC rules described above. Instead, in general, you will include as ordinary income each year the excess, if any, of the fair market value of your H shares or ADSs at the end of the taxable year over your adjusted basis in your H shares or ADSs. These amounts of ordinary income will not be eligible for the favorable tax rates applicable to qualified dividend income on long-term capital gains. You will also be allowed to take an ordinary loss in respect of the excess, if any, of the adjusted basis of your H shares or ADSs over their fair market value at the end of the taxable year (but only to the extent of the net amount of previously included income as a result of the mark-to-market election). Your basis in the H shares or ADSs will be adjusted to reflect any such income or loss amounts.

In addition, notwithstanding any election you make with regard to the H shares or ADSs, dividends that you receive from us will not constitute qualified dividend income to you if we are a PFIC either in the taxable year of the distribution or the preceding taxable year. Moreover, your H shares or ADSs will be treated as stock in a PFIC if we were a PFIC at any time during your holding period in your H shares or ADSs, even if we are not currently a PFIC. For purposes of this rule, if you make a mark-to-market election with respect to your H shares or ADSs, you will be treated as having a new holding period in your H shares or ADSs beginning on the first day of the first taxable year beginning after the last taxable year for which the mark-to-market election applies. Dividends that you receive that do not constitute qualified dividend income are not eligible for taxation at the 15% maximum rate applicable to qualified dividend income. Instead, you must include the gross amount of any such dividend paid by us out of our accumulated earnings and profits (as determined for United States federal income tax purposes) in your gross income, and it will be subject to tax at rates applicable to ordinary income.

If you own H shares or ADSs during any year that we are a PFIC, you must file Internal Revenue Service Form 8621.

Item 11. Quantitative and Qualitative Disclosures About Market Risk.**Interest Rate Risk**

Our debts include both fixed-rate and variable-rate long-term loans and other loans. As a result, we are subject to the market risk of fluctuation of interest rates which may affect the estimated fair value of our debt liabilities or result in losses in cash flow. We use interest rate swaps to reduce risks related to changes in market interest rates. As of December 31, 2005, the notional amount of the outstanding interest rate swap agreements was approximately US\$661 million. These interest rate swap agreements will expire between 2006 and 2016. The carrying amounts, the estimated fair value and the effect as a result of the change of the average interest rate on our long-term and other loans as of December 31, 2005 are set forth as follows:

	RMB 000
Carrying amounts	12,611,920
Estimated fair value	12,044,271
Decrease in the estimated fair value resulting from an increase of the average interest rate by 1%	295,917
Increase in the estimated fair value resulting from a decrease of the average interest rate by 1%	267,635

Foreign Currency Exchange Rate Risk

Although we derive most of our income from China in Renminbi, our financial lease obligations as well as certain bank loans are denominated in US dollars, Japanese yen or Euro. Pursuant to current foreign exchange regulations in China, we may retain our foreign currency earnings generated from ticket sales made in our overseas offices subject to the approval of SAFE. We use forward contracts to reduce risks related to changes in currency exchange rates in respect of ticket sales and expenses denominated in foreign currencies. These currency forward contracts will expire between 2007 and 2010.

Pursuant to IFRS, our monetary assets and liabilities denominated in foreign currencies are required to be translated into Renminbi at the year end at exchange rates announced by PBOC. Any fluctuation of the exchange rates between Renminbi and foreign currencies may materially and adversely affect our financial condition and results of operations. Following the measures introduced by the PRC government in July 2005 to reform the Renminbi exchange rate regime, Renminbi has appreciated significantly against certain foreign currencies, including U.S. dollar, Japanese yen and Euro. The following table shows the effect on our profit and loss account as a result of the impact on our non-Renminbi denominated monetary assets and liabilities as of December 31, 2005 as a consequence of a fluctuation in value of the following major foreign currencies.

	Profit and Loss Account Decrease/increase by RMB 000
US dollar appreciates/ (depreciates) by 1%	21,552
Japanese yen appreciates/ (depreciates) by 1%	6,699
Euro appreciates/ (depreciates) by 1%	240

PART II

Item 13. Defaults, Dividend Arrearages and Delinquencies.

None.

Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds.

Material Modifications to the Rights of Security Holders

Our shareholders have approved certain amendments to our articles of association at the annual general meeting for the year of 2004 held on June 30, 2005 in Shanghai, China. Set forth below is a summary of those amendments that involve modification to the rights of our shareholders.

Amendments to Article 52. Pursuant to the amendments, a controlling shareholder or an actual controlling person of our company owes fiduciary duties to our public shareholders. A controlling shareholder may not: (1) prejudice the legal rights and interests of our public shareholders by means of, among other things, any connected transaction, distribution of profits, restructuring of assets, external investment, appropriation of funds or loan guarantee; or (2) otherwise prejudice the interests and rights of our public shareholders by abusing its controlling position.

Amendments to Article 60. Pursuant to the amendments, a proposal for consideration at a shareholders' general meeting must meet the following requirements: (1) its content does not contravene the laws, administrative regulations and the articles of association and falls within the scope of the duties and responsibilities of the shareholders' general meeting; (2) there is definite topic(s) and specific matter(s) for resolution; and (3) it is submitted or delivered to the board of directors in writing. The board of directors shall examine each proposal for consideration at a shareholders' general meeting in the best interests of our company and shareholders.

New Article 64(A). This new article provides that the board of directors shall determine the record date with respect to a shareholder's general meeting. The shareholders recorded on our register of shareholders as of the record date are entitled to attend the relevant shareholder's general meeting. The shareholders who intend to attend a shareholders' general meeting must properly register by such date and at such venue as designated in the relevant notice.

Amendments to Article 72. Pursuant to the amendments, the shareholders' general meeting shall take a vote on each of the matters for its consideration.

Amendments to Article 73. Pursuant to the amendments, our company shall increase the attendance of public shareholders at the shareholders' general meetings by various means, including the use of modern information technologies (for example, online voting facilities), provided that (1) it is permissible under all applicable laws, rules and administrative regulations and/or is acceptable to relevant regulatory authorities; and (2) the legality and validity of a shareholders' general meeting is assured. Moreover, the board of directors, independent directors and qualified shareholders may solicit proxies from shareholders to vote at a shareholders' general meeting. Adequate information should be furnished to the shareholders whose proxies are solicited. Information so furnished must be previously published information which remains accurate and is not misleading at the time it is quoted.

New Article 78(A). This new article provides that, for certain matters, an approval by votes constituting more than 50% of the voting rights held by public shareholders at the shareholders' general meeting shall be required. Such matters include: (1) any follow-on public offering; (2) any restructuring of material assets where the total consideration for the assets acquired is equal to or exceeds 120% of the audited

Table of Contents

book value of such assets; (3) any repayment of debts owed by a shareholder to our company with our equity shares; (4) any overseas listing of a subsidiary of our company that has a material effect on our company; and (5) any matters relating to the development of our company that have a material effect on the interests and rights of the public shareholders. If a shareholders' general meeting is convened in connection with any of the above matters, our company shall provide the shareholders with online voting facilities.

New Article 78(B). This new article provides that, under any of the circumstances enumerated in Article 78(A), after giving a notice of a meeting of shareholders, our company shall publish such notice within three days after the relevant record date.

Amendments to Article 81. Pursuant to the amendments, public announcements shall be made with respect to the resolutions of the shareholders' general meeting in accordance with relevant regulations.

New Article 97(A). This new article provides that any provision of guarantee by our company for the benefits of any other person requires, among other things, approval by the shareholders' general meeting.

New Article 106(A). This new article provides that our board of directors must have at least three independent directors and that independent directors must otherwise represent at least one-third of all directors.

New Article 106(B). This new article provides that shareholder(s) individually or jointly holding more than 1% of the outstanding shares of our company may nominate candidates for election at a shareholders' general meeting as independent directors.

Amendments to Article 108. Pursuant to the amendments, our company shall have a department of investor relations that is specially responsible for strengthening the communications with shareholders, especially public shareholders.

A copy of the amended articles of association is attached as an exhibit to this annual report.

Item 15. Controls and Procedures.

In June 2006, in connection with their audit of our consolidated financial statements as of and for the year ended December 31, 2005, our independent auditors, PricewaterhouseCoopers, identified to our management and audit committee certain internal control deficiencies in our internal control over financial reporting that they considered to constitute material weaknesses in our internal control over financial reporting.

The internal control deficiencies that were identified as material weaknesses include: (1) lack of sufficient accounting personnel with sufficient U.S. GAAP and IFRS technical expertise, including insufficient complement of financial reporting personnel commensurate with the company's financial reporting requirements and insufficient formalized and consistent finance and accounting policies and procedures to detect instances of non-compliance with such existing policies and procedures; and (2) ineffective implementation of certain procedures for the accounting, approval and disclosure of related party transactions.

PricewaterhouseCoopers further advised the audit committee that the internal control deficiencies it identified did not affect PricewaterhouseCoopers' report on our consolidated financial statements as of December 31, 2005 and for the year then ended included in this annual report.

Our management, including our president and our chief financial officer, acknowledged that our company's internal controls suffered from the internal control deficiencies identified by PricewaterhouseCoopers. Our management are committed to remedy these deficiencies to our company's internal controls and has been implementing a series of remedial measures, including, among other things: (1) providing our accounting personnel with further training on the requirements of U.S. GAAP and IFRS to increase their familiarity with those standards; and (2) enhancing the implementation of our procedures for the accounting, approval and disclosure of related party transactions. In addition, our company established (i) a cash flow forecasting system and a cash needs budgeting system, and (ii) a designated fund management department to monitor the liquidity and financing management. We will also be generally allocating more human resources to the accounting and finance functions. Our company has engaged a special consultant to provide advice in respect of U.S. GAAP and IFRS. We will continue to consult with external consultants and our independent auditors for ways to make further improvements to our company's internal controls.

Our management, however, believes that none of these internal control deficiencies has had a material effect on our financial condition or results of operations or caused our financial statements as of and for the year ended December 31, 2005 to contain a material misstatement.

As required by Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, our company's management, including our president and our chief financial officer, is responsible for establishing and maintaining effective disclosure controls and procedures, as defined under Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934. As of December 31, 2005, an evaluation was performed under the supervision and with the participation of management, including our president and our chief financial officer, of the effectiveness of our company's disclosure controls and procedures. Based on that evaluation, our president and our chief financial officer concluded that our company's disclosure controls and procedures as of December 31, 2005 were effective to ensure that material information required to be disclosed in this annual report would be made known to our company's management, including our president and our chief financial officer, on a timely basis.

Section 404 of the Sarbanes-Oxley Act of 2002 will require us to include a management's internal control report with our annual report on Form 20-F for the fiscal year ending December 31, 2006. Since 2004, in preparation for compliance with Section 404 of the Sarbanes-Oxley Act of 2002, and under the supervision and with the participation of our management, including our president and our chief financial officer, we have been conducting evaluations of, and designing and implementing processes to improve, our internal controls. We are currently still reviewing our efforts to improve our internal controls and may in the future identify additional deficiencies to our internal controls. Should we discover any additional deficiencies, we will take appropriate measures to correct or improve of our internal controls. See the section headed "Item 3. Key Information Risk Factors Compliance with requirements under Section 404 of the Sarbanes-Oxley Act of 2002".

Item 16A. Audit Committee Financial Expert.

Our board of directors has determined that Mr. Xie Rong, the chairman of our audit committee, is an independent financial expert serving on our audit committee.

Item 16B. Code of Ethics

We have adopted a code of ethics that applies to our directors, supervisors, president, chief financial officer and other senior managers of our company. We have filed this code of ethics as an exhibit to this annual report by way of incorporation by reference.

Item 16C. Principal Accountant Fees and Services

The following table sets forth the aggregate audit fees, audit-related fees and tax fees of our principal accountants and all other fees billed for products and services provided by our principal accountants other than the audit fees, audit-related fees and tax fees for each of the two years ended December 31, 2005:

	Audit Fees (RMB)	Audit-Related Fees (RMB)	Tax Fees (RMB)	Other Fees (RMB)
2004	6,093,550	1,000,000	0	0
2005	9,684,240	5,859,670	0	0

Before our principal accountants were engaged by our company or our subsidiaries to render audit or non-audit services, the engagement was approved by our audit committee.

Item 16D. Exemptions from the Listing Standards for Audit Committees.

Not applicable.

Item 16E. Purchase of Equity Securities by the Issuer and Affiliated Purchasers.

Not applicable.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

**To the Board of Directors and Shareholders of
China Eastern Airlines Corporation Limited:**

We have audited the accompanying consolidated balance sheets of China Eastern Airlines Corporation Limited (the Company) and its subsidiaries as of December 31, 2004 and 2005, and the related consolidated statements of operations, changes in owners' equity and cash flows for each of the three years in the period ended December 31, 2005. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of China Eastern Airlines Corporation Limited and its subsidiaries at December 31, 2004 and 2005, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2005, in conformity with International Financial Reporting Standards.

International Financial Reporting Standards vary in certain significant respects from accounting principles generally accepted in the United States of America. Application of generally accepted accounting principles in the United States of America would have affected the results of the operations for each of the three years in the period ended December 31, 2005 and the determination of consolidated owners' equity as of December 31, 2004 and 2005, to the extent summarized in Notes 43 and 44 to the consolidated financial statements.

**CHINA EASTERN AIRLINES CORPORATION LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

1 CORPORATE INFORMATION

China Eastern Airlines Corporation Limited (the Company), a joint stock company limited by shares was incorporated in the People's Republic of China (PRC) on April 14, 1995. The address of its registered office is 66 Airport Street, Pudong International Airport, Shanghai, PRC. The Company and its subsidiaries (the Group) are principally engaged in the operation of civil aviation, including the provision of passenger, cargo, and mail delivery and other extended transportation services.

The Company is majority owned by China Eastern Air Holding Company (CEA Holding), a state-owned enterprise incorporated in the PRC.

During the year ended December 31, 2005, the Company acquired certain assets and liabilities relating to the aviation businesses of China Eastern Air Northwest Company (CEA Northwest) and China Eastern Air Yunnan Company (CEA Yunnan). Further details of the acquisitions are set out in Note 38.

2 PRINCIPAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been constantly applied to all the years presented, unless otherwise stated.

(a) Basis of Preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and the disclosure requirements of the Hong Kong Companies Ordinance. This basis of accounting differs in certain material respects from that used in the preparation of the Group's statutory accounts in the PRC. The statutory accounts of the Group have been prepared in accordance with the accounting principles and the relevant regulations applicable to PRC joint stock limited companies (PRC Accounting Regulations). In preparing these financial statements in accordance with IFRS, appropriate adjustments have been made to the Group's statutory accounts to conform with IFRS.

This basis of accounting under IFRS differs from generally accepted accounting principles in the United States of America (U.S. GAAP). Differences between IFRS and U.S. GAAP and their effect on profit attributable to equity holders for each of the three years ended December 31, 2005, and on owners' equity at December 31, 2004 and 2005, are set out in note 43. The consolidated financial statements incorporate additional disclosures customary in filings with the Securities and Exchange Commission of the United States of America (the SEC).

The consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of property, plant and equipment and financial assets.

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(a) Basis of Preparation (Continued)

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 4. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Although these estimates are based on management's best knowledge of current event and actions, actual results ultimately may differ from those estimates.

Standards, interpretations & amendments to published standards effective in 2005

In 2005, the Group adopted the new and revised IFRS as described below, which are relevant to its operations. The 2004 comparatives have been adjusted as required, in accordance with the relevant requirements of the new/revised IFRS.

IAS 1 and 27 (both revised in 2003) have affected the presentation of minority interest. IAS 1 (revised in 2003) also has affected the presentation of share of profit of associates and other disclosures.

IAS 2, 8, 10, 17, 21, 28, 32, 33 (all revised in 2003), 39 (revised in 2004) and IFRS 2 had no material effect on the Group's policies.

IAS 16 (amended 2004) replaces IAS 16 (revised 1998). The Group has adopted the revised IAS 16 and has amended the accounting policy applied to the costs of overhaul of owned and finance leased aircraft and engines. Under the Group's revised policy, these costs are capitalized as a component of property, plant and equipment, and are depreciated over the appropriate maintenance cycles. When each overhaul is performed, its cost is recognized in the carrying amount of the item of property, plant and equipment and is depreciated over the estimated period between overhauls on a straight-line basis. Upon completion of an overhaul, any remaining carrying amount of the cost of the previous overhaul is derecognized and charged to the income statement. In prior years, the costs of overhauls were expensed in the income statement as incurred. The adoption of the revised treatment of IAS 16 (amended 2004) has been accounted for retrospectively.

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)****(a) Basis of Preparation (Continued)**

The adoption of revised IAS 16 resulted in:

	2003	2004	2005
Increase/(decrease)	RMB 000	RMB 000	RMB 000
Decrease in aircraft maintenance expenses	(526,592)	(536,099)	(710,824)
Increase in aircraft depreciation	673,836	794,390	820,555
Decrease in taxation	(3,954)	(50,479)	(19,658)
Increase/(decrease) in profit for the year attributable to minority interest	4,055	(14,428)	30,271
Decrease in the profit attributable to equity holders of the Company	(147,345)	(193,384)	(120,344)
Decrease in aircraft, engines and flight equipment	(218,142)	(476,433)	(586,163)
Decrease in deferred tax liabilities	(14,588)	(65,067)	(84,725)
Increase/(decrease) in minority interest	4,055	(10,373)	19,898
Decrease in beginning retained profits	(60,264)	(207,609)	(400,993)
Decrease in basic and diluted earnings per share	RMB(0.03)	RMB(0.04)	RMB(0.02)

IAS 24 (revised in 2003) has extended the identification and disclosure of related parties to include state-owned enterprises. Related parties include CEA Holding and its subsidiaries, Civil Aviation Administration of China (CAAC), a regulatory authority of the civil aviation industry in the PRC) and its affiliates, and other state-controlled enterprises and their subsidiaries, directly or indirectly controlled by the PRC government, corporations in which the Company is able to control or exercise significant influence, and key management personnel of the Company, CEA Holding, CAAC and other state-controlled enterprises, and their close family members.

IFRS 3, IAS 36 (revised in 2004) and IAS 38 (revised in 2004) have resulted in a change in the accounting policy relating to the accounting for goodwill and negative goodwill. The Group ceased amortization of goodwill and negative goodwill from January 1, 2005. Accumulated amortization as at December 31, 2004 has been eliminated with a corresponding decrease in the costs of goodwill and negative goodwill. From January 1, 2005 onwards, positive goodwill arising from all acquisitions is no longer subject to amortization but is tested annually for impairment, as well as when there are indications of impairment. The balance of negative goodwill as at January 1, 2005 is derecognized with a corresponding adjustment to the opening balance of retained profits. Negative goodwill amounted RMB42,873,000 has been derecognized to the opening balance of retained profits as at January 1, 2005. From January 1, 2005 onwards, IFRS 3 requires, the Group to recognize immediately in the income statement the excess of the net fair value of those items acquired over the cost of the acquisition.

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)****(a) Basis of Preparation (Continued)**

The adoption of IFRS 3, IAS 36 and IAS 38 resulted in:

	2005 RMB '000
Increase in intangible assets	42,873
Increase in retained profits	42,873

IAS 32 (revised in 2003) has added the requirements to disclose information about the use of valuation techniques, including the sensitivities of fair value estimates, to significant valuation assumptions.

IFRS 5 has resulted in a change in the accounting policy relating to the recognition of assets held for sale or discontinued operations, which did not have any material impact on the results and financial positions of the Group as the Group did not hold material assets in this category during the periods presented.

Standards, interpretations and amendments to published standards that are not yet effective

Certain new standards, amendments and interpretations to existing standards, which are relevant to the Group's operations, have been published that are mandatory for the Group's accounting periods beginning on or after January 1, 2006 or later periods, but the Group has not early adopted are, as follows:

IAS 19 (Amendment) introduces the option of an alternative recognition approach for actuarial gains and losses. It may impose additional recognition requirements for multi-employer plans where insufficient information is available to apply defined benefit accounting. It also adds new disclosure requirements. As the Group does not intend to change the accounting policy adopted for recognition of actuarial gains and losses and does not participate in any multi-employer plans, adoption of this amendment will only impact the format and extent of disclosures presented in the financial statements. The Group will apply this amendment from January 1, 2006.

IAS 39 (Amendment) changes the definition of financial instruments classified at fair value through profit or loss and restricts the ability to designate financial instruments as part of this category. The Group believes that this amendment should not have a significant impact on the classification of financial instruments, as the Group should be able to comply with the amended criteria for the designation of financial instruments at fair value through profit and loss. The Group will apply this amendment from January 1, 2006.

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(a) Basis of Preparation (Continued)

IFRS 7 introduces new disclosures to improve the information about financial instruments. It requires the disclosure of qualitative and quantitative information about exposure to risks arising from financial instruments, including specified minimum disclosures about credit risk, liquidity risk and market risk, including sensitivity analysis to market risk. It replaces IAS 30, Disclosures in the Financial Statements of Banks and Similar Financial Institutions, and disclosure requirements in IAS 32, Financial Instruments: Disclosure and Presentation. It is applicable to all entities that report under IFRS. The amendment to IAS 1 introduces disclosures about the level of an entity's capital and how it manages capital. The Group assessed the impact of IFRS 7 and the amendment to IAS 1 and concluded that the main additional disclosures will be the sensitivity analysis to market risk and the capital disclosures required by the amendment of IAS 1. The Group will apply IFRS 7 and the amendment to IAS 1 from January 1, 2007.

IFRIC 4 requires the determination of whether an arrangement is or contains a lease to be based on the substance of the arrangement. It requires an assessment of whether: (a) fulfillment of the arrangement is dependent on the use of a specific asset or assets (the asset); and (b) the arrangement conveys a right to use the asset. Management is currently assessing the impact of IFRIC 4 on the Group's operations.

The financial information has been prepared in Renminbi (RMB), the national currency of the PRC. Solely for the convenience of the reader, the December 31, 2005 financial statements have been translated into United States dollars (US\$) at the rate of US\$1.00 = RMB8.0702, being the noon buying rate in New York City for cable transfers in foreign currencies as certified for customs purposes by the Federal Reserve Bank of New York on December 31, 2005. No representation is made that the RMB amounts could have been, or could be, converted into United States dollars at that rate or at any other certain rate on December 31, 2005 or at any other certain date.

(b) Group accounting

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to December 31.

(i) Subsidiaries

Subsidiaries are all entities (including special purpose entities) over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(b) Group accounting (CONTINUED)

(i) Subsidiaries (Continued)

The purchase method of accounting is used to account for the acquisition of subsidiaries by the Group. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the income statement (see Note 2(k)).

Inter-company transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated but considered an impairment indicator of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Minority interest represents the interests of outside members in the operating results and net assets of subsidiaries. The Group applies a policy of treating transactions with minority interest as transactions with parties external to the Group. Disposals to minority interest result in gains and losses for the Group that are recorded in the income statement. Purchases from minority interest result in goodwill, being the difference between any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary.

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(b) Group accounting (CONTINUED)

(ii) Associates

Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting and are initially recognized at cost. The Group's investments in associates includes goodwill (net of any accumulated impairment loss) identified on acquisition (see Note 2(k)).

The Group's share of its associates' post-acquisition profits or losses is recognized in the income statement, and its share of post-acquisition movements in reserves is recognized in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the associate.

Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

(iii) Jointly Controlled Entities

A jointly controlled entity is an entity in which the Group has joint control over its economic activity established under a contractual arrangement. The Group's investments in jointly controlled entities includes goodwill (net of any accumulated impairment loss) identified on acquisition (see note 2(k)).

The Group's interests in jointly controlled entities are accounted for by the equity method of accounting based on the audited financial statements or management accounts of the jointly controlled entities. The Group's share of its jointly controlled entities' post-acquisition profits or losses is recognized in the income statement, and its share of post-acquisition movements is adjusted against the carrying amount of the investment. When the Group's share of losses in a jointly controlled entities equals or exceeds its interest in the jointly controlled entities, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the jointly controlled entities.

Unrealized gains on transactions between the Group and its jointly controlled entities are eliminated to the extent of the Group's interest in the jointly controlled entities. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of jointly controlled entities have been changed where necessary to ensure consistency with the policies adopted by the Group.

(iv) Common Control Transactions

The Group adopts acquisition accounting for common control transactions.

F-15

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(c) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The financial statements are presented in Chinese Renminbi (RMB), which is the Company's functional and presentation currency.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the income statement, except when deferred in equity as qualifying cash flow hedges.

Translation differences on non-monetary financial assets and liabilities are reported as part of the fair value gain or loss. When a gain or loss on a non-monetary item is recognized directly in equity, any exchange component of that gain or losses is recognized directly in equity. Conversely, when a gain or loss on a non-monetary item is recognized in the income statement, any exchange component of that gain or loss is recognized in the income statement.

(d) Revenue recognition and sales in advance of carriage

Passenger, cargo and mail revenues are recognized as traffic revenues when the transportation services are provided. The value of sold but unused tickets is included in current liabilities as sales in advance of carriage.

Commission income represents amounts earned from other carriers in respect of sales made by the Group's agents on their behalf, and is recognized in the income statement upon ticket sales. Commission expense represents amounts payable to other carriers in respect of sales made by the other carriers for the Group, and is recognized in the income statement when the related revenue is recognized.

Revenues from other operating businesses, including income derived from the provision of ground services and cargo handling services, are recognized when the services are rendered.

Rental income from subleases of aircraft is recognized on a straight-line basis over the terms of the respective leases. Rental income from leasing office premises and cargo warehouses is recognized on a straight-line basis over the lease term.

Interest income is recognized on a time-proportionate basis using the effective interest method.

Revenues are presented net of business tax.

(e) Segment reporting

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. A geographical segment is engaged in providing products or services within a particular economic environment that is subject to risks and returns that are different from those of segments operating in other economic environments.

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(e) Segment reporting (Continued)

In accordance with the Group's internal financial reporting, the Group has determined that business segments be presented as the primary reporting format and geographical as the secondary reporting format.

In respect of the geographical segment, the analysis of turnover and operating profit by geographical segment is based on the following criteria:

- (i) Traffic revenue from services within the PRC (excluding Hong Kong Special Administrative Region (Hong Kong)) is classified as domestic operation. Traffic revenue from inbound and outbound services between the PRC and Hong Kong or overseas markets is classified under Hong Kong or the relevant overseas locations.
- (ii) Revenues from ticket handling services, airport ground services and other miscellaneous services are classified on the basis of where the services are performed.

(f) Retirement benefits

The Group participates in defined contribution retirement schemes regarding pension and medical benefits for employees organized by the municipal governments of the relevant provinces. The contributions to the schemes are charged to the income statement as and when incurred.

In addition, the Group provides retirees with post-retirement benefits including retirement subsidies, transportation subsidies, social function activity subsidies as well as other welfare. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The defined benefit obligation is calculated annually using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions in excess of the greater of 10% of the value of plan assets or 10% of the defined benefit obligation are charged or credited to income over the employees' expected average remaining working lives.

Past-service costs are recognized immediately in income, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past-service costs are amortized on a straight-line basis over the vesting period.

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(g) Maintenance and overhaul costs

In respect of aircraft and engines under operating leases, the Group has the responsibility to fulfill certain return conditions under relevant leases. In order to fulfill these return conditions, major overhauls are required to be conducted on a regular basis. Accordingly, the present value of estimated costs of major overhauls for aircraft and engines under operating leases are provided at each balance sheet date. The provision in each period is estimated using historical major overhaul costs incurred during each overhaul and the estimated period between overhauls using the ratios of actual flying hours/cycles and estimated flying hours/cycles between overhauls. The costs of major overhauls comprise mainly labor and materials. Differences between the estimated cost and the actual cost of the overhaul are included in the income statement in the period of overhaul.

In respect of aircraft and engines owned by the Group or held under finance leases, costs of overhaul are capitalized as a component of property, plant and equipment and are depreciated over the appropriate maintenance cycles. When each overhaul is performed, its cost is recognized in the carrying amount of the item of property, plant and equipment and is depreciated over the estimated period between overhauls, on a straight-line basis. Upon completion of an overhaul, any remaining carrying amount of the cost of the previous overhaul is derecognized and charged to the income statement.

All other routine repairs and maintenance costs incurred in restoring such assets to their normal working condition are charged to the income statement as and when incurred.

Improvements are capitalized and depreciated over their expected useful lives to the Group.

(h) Government grant

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to costs are deducted from the related cost in the income statement as a reduction of the related cost.

Government grants relating to the property, plant and equipment are recognized as a reduction of carrying amount of the asset. The grant is recognized as income over the life of a depreciable asset by way of a reduced depreciation charge.

(i) Taxation

The Group provides for income tax based on the results for the year as adjusted for items which are not assessable or deductible for income tax purposes. Taxation of the Group is determined in accordance with the relevant tax rules and regulations applicable in the jurisdictions where the group companies operate.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other

than a business combination. Deferred tax is measured using tax rates enacted, or substantively enacted at the balance sheet date.

F-18

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(i) Taxation (Continued)

Deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, associates and jointly controlled entities, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

(j) Property, plant and equipment

Property, plant and equipment are recognized initially at cost which comprises purchase price, costs transferred from construction in progress and advance payments on acquisition, and any directly attributable costs of bringing the assets to the condition for their intended use.

Subsequent to the initial recognition, property, plant and equipment are stated at revalued amount less accumulated depreciation and accumulated impairment losses, if any. Independent valuations are performed at least once every five years, or sooner if considered necessary by the directors. In the intervening years, the directors review the carrying values of the property, plant and equipment and adjustment is made where they are materially different from fair value. Increases in the carrying amount arising on revaluation are credited to the revaluation reserve. Decreases in valuation of property, plant and equipment are first offset against increases from earlier valuations of the same asset and are thereafter charged to the income statement. All other decreases in valuation are charged to the income statement. Any subsequent increases are credited to the income statement up to the amount previously charged. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset, and the net amount is restated to the revalued amount of the asset.

Costs of overhaul for aircraft and engines owned by the Group or held under finance leases are capitalized as a component of property, plant and equipment when incurred (see Note 2(g)).

Depreciation of property, plant and equipment is calculated on a straight-line basis to write off the cost or revalued amount of each asset to their residual value over their estimated useful lives. The estimated useful lives used for the calculation of annual depreciation charges are as follows:

Aircraft, engines and flight equipment	
- Components related to overhaul costs	2 to 8 years
- Others	20 years
Buildings	15 to 35 years
Other property, plant and equipment	5 to 20 years

The residual values and useful lives of each property, plant and equipment are reviewed, and adjusted if appropriate at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated revalued amount (Note 2(1)).

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(j) Property, plant and equipment (Continued)

Gains and losses on disposals are determined by comparing proceeds with carrying amounts and are included in operating profit. When revalued assets are sold, the relevant amounts included in the revaluation reserve are transferred from revaluation reserve to retained profits.

(k) Intangible assets

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets of the acquired subsidiary, associate, jointly controlled entity or business at the date of acquisition. Goodwill on acquisition of subsidiaries and businesses is included in intangible assets. Goodwill on acquisition of associates and jointly controlled entities is included in investments in associates and investments in jointly controlled entities. Recognized goodwill is tested annually for impairment and carried at cost less accumulated impairment losses, if any. Impairment losses on goodwill are not reversed. Gains and losses on the disposals of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose.

(l) Impairment of non-financial assets

Assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment. Assets that are subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units).

Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

(m) Construction in progress

Construction in progress represents buildings under construction and plant and equipment pending installation. This includes the costs of construction and acquisition and interest capitalized (Note 2(p)). No depreciation is provided on construction in progress until the asset is completed and ready to use.

(n) Lease prepayments

Lease prepayments represent acquisition costs of land use rights less accumulated amortization. Amortization is provided over the lease period of land use rights on a straight-line basis.

(o) Advanced payments on acquisition of aircraft

Advanced payments on acquisition of aircraft represents payments to aircraft manufacturers to secure deliveries of aircraft in future years and the related interest capitalized (Note 2(p)). The balance is transferred to property, plant and equipment upon delivery of the aircraft.

F-20

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(p) Borrowing costs

Interest attributable to loans for advance payments used to finance the acquisition of aircraft and other qualifying assets is capitalized as an additional cost of the related asset. Interest is capitalized at the Group's weighted average interest rate on borrowings or, where applicable, the interest rate related to specific borrowings during the period of time that is required to complete and prepare the asset for its intended use.

All other borrowing costs are charged to the income statement in the period in which they are incurred.

(q) Long-term bank deposits

Long-term bank deposits placed to secure future lease obligations are classified as held-to-maturity financial assets. Held-to-maturity financial assets are initially recognized in the balance sheet at fair value plus transaction costs. Subsequently, they are stated in the balance sheet at amortized cost less impairment losses.

(r) Flight equipment spare parts

Flight equipment spare parts are stated at the lower of cost and net realizable value. Cost is determined using the weighted average method. The cost of flight equipment spare parts comprises the purchase price (net of discounts), freight charges, duty and value added tax and other miscellaneous charges. The net realizable value is the estimated replacement cost of the flight equipment spare parts.

(s) Trade receivables

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganization, and default or delinquency in payments are considered indicators that the trade receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. The amount of the provision is recognized in the income statement.

(t) Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of three months or less.

(u) Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any differences between the proceeds (net of transaction costs) and the redemption value is recognized in the income statement over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

F-21

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(v) Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation, and the amount can be reliably estimated. Where the Group expects a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense.

(w) Leases

(i) A Group company is the lessee

Leases of assets where the Group has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the inception of the lease at the lower of the fair value of the leased asset or the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The interest element of the finance cost is charged to the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. Leased assets are depreciated using a straight-line basis over their expected useful lives to residual values.

Leases of assets under which a significant portion of the lease risks and rewards of ownership are retained by the lessor are classified as operating leases. Lease payments made under operating leases are charged to the income statement on a straight-line basis over the period of the lease.

(ii) A Group company is the lessor

When assets are leased out under a finance lease, the present value of the lease payments is recognized as a receivable. The difference between the gross receivable and the present value of the receivable is recognized as unearned finance income. Lease income is recognized over the term of the lease using the net investment method, which reflects a constant periodic rate of return.

Assets leased out under operating leases are included in property, plant and equipment in the balance sheet. They are depreciated over their expected useful lives on a basis consistent with similar property, plant and equipment. Rental income is recognized on a straight-line basis over the lease term.

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(x) Derivative financial instruments

Derivative financial instruments are initially recognized in the balance sheet at fair value and are subsequently remeasured at their fair value. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

The Group documents at the inception of the transaction the relationship between hedging instruments and hedged items, as well as its risk management objectives and strategy for undertaking various hedge transactions. The Group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items.

Derivative financial instrument that does not qualify for hedge accounting are accounted for as trading instruments and any unrealized gains or losses, being changes in fair value of the derivative, are recognized in the income statement immediately.

Changes in the fair value of derivatives that are designated and qualify as fair value hedges and that are highly effective, are recorded in the income statement, along with any changes in the fair value of the hedged assets or liabilities that are attributable to the hedged risk.

Derivative financial instrument that qualifies for hedge accounting and is designated as a specific hedge of the variability in cashflows of a highly probable forecast transaction, is accounted for as follows:

(i) the effective portions of any change in fair value on the derivative financial instrument is recognized directly in equity. Where the forecasted transaction or firm commitment results in the recognition of an asset or a liability, the gains and losses previously deferred in equity are included in the initial measurement of the cost of the asset or liability. Otherwise, the cumulative gain or loss on the derivative financial instrument is removed from equity and recognized in the income statement in the same period during which the hedged forecast transaction affects net profit or loss.

(ii) the ineffective portions of any change in fair value is recognized in the income statement immediately. When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognized in the income statement when the committed or forecasted transaction ultimately occurs. When a committed or forecasted transaction is no longer expected to occur, the cumulative gain or loss that was recorded in equity is immediately transferred to the income statement.

(y) Dividend

Dividend distribution to the Company's shareholders is recognized as a liability in the financial statements in the period in which the dividends are approved by the Company's equity holders.

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(z) Available-for-sale financial assets

Investments in securities other than subsidiaries, associates and jointly controlled entities, being held for non-trading purposes, are classified as available-for-sale financial assets and are initially recognized at fair value plus transaction costs. At each balance sheet date, the fair value is remeasured, with any resulting gain or loss being recognized directly in equity in the fair value reserve, except for impairment losses. When these investments are derecognized, the cumulative gain or loss previously recognized directly in equity is recognized in the income statement.

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset is impaired. In the case of equity securities classified as available for sale, a significant or prolonged decline in the fair value of the securities below its cost is considered an indicator that the securities are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss, measured as the difference between the acquisition cost and the current fair value less any impairment loss on that financial asset previously recognized in the income statement, is removed from equity and recognized in the income statement. Impairment losses recognized in the income statement on equity instruments are not reversed through the income statement.

(aa) Comparatives

Where necessary, prior year amounts have been reclassified to conform with changes in presentation in the current year. The major reclassifications for the 2004 comparative figures include reclassification of certain items from other payables and accrued expenses to trade and notes payables, and certain items from prepayments, deposits and other receivables to trade receivables.

3. FINANCIAL RISK MANAGEMENT

(a) *Financial risk factors*

Financial assets of the Group mainly includes bank deposits and balances, amounts due from related companies, trade receivables, long-term receivables, short-term investments and derivative assets. Financial liabilities of the Group include bank and other loans, obligations under finance leases, amounts due to related companies, trade payables, notes payables, derivative liabilities and other payables.

(i) Business risk

The operations of the air transportation industry are substantially influenced by global political and economic development. Accidents, wars, natural disasters, etc. may have material impact on the Group's operations or the industry as a whole. In addition, the Group conducts its principal operations in the PRC and accordingly is subject to special considerations and significant risks not typically associated with companies in Western countries. These include risks associated with, among others, the political, economic and legal environment, competition and the influence of CAAC in the PRC civil aviation industry.

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

(a) Financial risk factors (Continued)

(ii) Price risk

The Group's results of operations may be significantly affected by the fluctuation in fuel prices which is a significant expense for the Group. While the international fuel prices are determined by worldwide market demand and supply, domestic fuel prices are regulated by CAAC. The Group has entered into certain financial derivatives to hedge against the fuel prices risk (Note 35(c)).

(iii) Interest rate risk

The Group has significant bank borrowings at floating variable rates and is exposed to risk arising from changes in market interest rates. To hedge against the variability in the cashflow arising from a change in market interest rates, the Group has entered into certain interest rate swaps to swap variable rates into fixed rates. The interest rates and terms of repayment of borrowings made to the Group are disclosed in Note 29. Details of interest rate swaps are disclosed in Note 35(a).

(iv) Credit risk

The Group has no significant concentrations of credit risk. The Group has policies in place to ensure that blank tickets are made to sales agents with an appropriate credit history. A major portion of sales are conducted through sales agents and the majority of these agents are connected to various settlement plans and/or clearing systems which have tight requirements on the credit standing of these agents.

Transactions in relation to derivative financial instruments are only carried out with financial institutions of high reputation. The Group has policies that limit the amount of credit exposure to any one financial institution.

(v) Liquidity risk

The Group's primary cash requirements have been for additions of and upgrades to aircraft, engines and flight equipment and payments on related borrowings/debts. The Group finances its working capital requirements through a combination of funds generated from operations and short-term bank loans. The Group generally acquires aircraft through long-term finance leases and long-term loans.

The Group operates with a working capital deficit. As at December 31, 2005, the Group's net current liabilities amounted to RMB25,598 million (2004: RMB12,491 million). For the year ended December 31, 2005, the Group recorded a net cash inflow from operating activities of RMB1,952 million (2004: RMB3,266 million), a net cash outflow from investing activities and financing activities of RMB2,183 million (2004: RMB2,745 million), and a decrease in cash and cash equivalents of RMB231 million (2004: increase of RMB521 million).

The directors of Company believe that cash from operations and short-term bank borrowings will be sufficient to meet the Group's operating cashflow. Due to the dynamic nature of the underlying businesses, the Group's treasury policy aims at maintaining flexibility in funding by keeping credit lines available. The

directors of the Company believe that the Group has obtained sufficient general credit facilities from PRC banks for financing future capital commitments and for working capital purposes.

F-25

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

(a) *Financial risk factors (Continued)*

(vi) Foreign currency risk

The Group's finance lease obligation as well as certain bank and other loans are denominated in US dollars, Japanese Yen and Euro, and certain expenses of the Group are denominated in currencies other than RMB. The Group generates foreign currency revenues from ticket sales made in overseas offices and would normally generate sufficient foreign currencies after payment of foreign currency expenses, to meet its foreign currency liabilities repayable within one year. The Group also enters into certain foreign currency forward contracts to hedge against foreign currency risk (Note 35(b)).

(b) *Fair value estimation*

The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the balance sheet date. The quoted market price used for financial assets held by the Group is the current bid price; the appropriate quoted market price for financial liabilities is the current ask price.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance sheet date. Quoted market prices or dealer quotes for similar instruments are used for long-term debt. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments. The fair value of interest-rate swaps is calculated as the present value of the estimated future cash flows. The fair value of forward foreign exchange contracts is determined using forward exchange market rates at the balance sheet date. The fair value of fuel option contracts is determined using quoted market values.

The nominal value less impairment provision of trade receivables and payables are assumed to approximate their fair values. The fair values of other long-term receivables are based on cash flow discounted using a rate based on the borrowing rate. The fair value of financial liabilities for disclosure purpose is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements used in preparing the financial statements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(a) Estimated impairment of goodwill

The Group tests annually whether goodwill has been impaired in accordance with the accounting policy stated in Note 2(l). The recoverable amounts of cash generating units have been determined based on value-in-use calculations. These calculations require the use of estimates (see Note 18). In 2005, after reviewing the business environment as well as the Group's objectives and past performance, management concluded that there was no material impairment loss for goodwill.

(b) Estimated impairment of property, plant and equipment

The Group has made substantial investments in tangible long-lived assets. The Group conducts impairment reviews of these assets whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

Determining whether an asset is impaired requires significant judgment, including the Group's estimates of the future cash flows attributable to the asset and the appropriate discount rate. If different judgments or estimates had been utilized, material differences could have resulted in the amount and timing of the impairment charge, if any.

(c) Property, plant and equipment

The Group had approximately RMB38,000 million of property, plant and equipment as at December 31, 2005, including aircraft, engines and flight equipment with a value of approximately RMB34,740 million. As discussed in Note 2(j), property, plant and equipment are initially recognized at cost and are subsequently stated at revalued amount less accumulated depreciation. Their recorded value is impacted by management judgment, including valuations performed by the management and/or independent professional valuers, estimates of useful lives, residual value and impairment charges. If different judgements or estimates had been utilized, material differences could have resulted in the amount of revaluation and related depreciation charges.

Management reviewed the carrying value of the Group's property, plant and equipment as at December 31, 2005 and are of the opinion that the carrying amount of the property, plant and equipment is not materially different from the estimated fair value and no impairment or changes in estimates of useful lives are necessary.

(d) Fair value estimation

The carrying amounts of the Group's current financial assets, including cash and cash equivalents, trade receivables, prepayments, other receivables, amounts due from related companies and current financial liabilities including trade payables and note payables, other payables and accrued expenses and amounts due to related companies, approximate their fair values due to their short maturities.

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)****(e) Revenue recognition**

As discussed in Note 2(d), passenger, cargo and mail revenues are recognized as traffic revenues when the transportation services are provided. The value of unused passenger tickets is included in current liabilities as sales in advance of carriage. Unused tickets are recognized in traffic revenues based on current estimates. Management periodically evaluate the balance in sales in advance of carriage and record any adjustments, which can be material, in the period the evaluation is completed. These adjustments result from differences between the estimates of certain revenue transactions, the timing of recognizing revenue for any unused air tickets and the related sales price, and are impacted by various factors, including a complex pricing structure and interline agreements throughout the industry, which affect the timing of revenue recognition.

(f) Overhaul costs

The amount of overhaul costs charged/amortized to operating profits is impacted by management's estimates of the expected flying hours/cycles and overhaul costs, which are largely based on past experience of overhauls of the same or similar models of aircraft and engines. Different judgements or estimates could significantly affect the estimated overhaul provision and materially impact the results of operations.

(g) Retirement benefits

The Group operates and maintains defined retirement benefit plans which provides retirees with benefits including transportation subsidies, social activity subsidies as well as other welfare. As discussed in Note 2(f), the cost of providing the aforementioned benefits in the defined retirement benefit plan is actuarially determined and recognized over the employees' service period by utilizing various actuarial assumptions and using the projected unit credit method. These assumptions include, without limitation, the selection of discount rate, annual rate of increase of per capita benefit payment and employees' turnover rate. The discount rate is based on management's review of local high quality corporate bonds. The annual rate of increase of benefit payments is based on the general local economic conditions. The employees' turnover rate is based on historical trends of the Group. Additional information regarding the retirement benefit plans is discussed in Note 33.

(h) Deferred taxation

While deferred tax liabilities are provided in full on all taxable temporary differences, deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. In assessing the amount of deferred tax assets that need to be recognized, the Group considers future taxable income and ongoing prudent and feasible tax planning strategies. In the event that the Group's estimates of projected future taxable income and benefits from available tax strategies are changed, or changes in current tax regulations are enacted that would impact the timing or extent of the Group's ability to utilize the tax benefits of net operating loss carry forwards in the future, adjustments to the recorded amount of net deferred tax assets and taxation expense would be made.

(i) Current tax

The Group makes provision for current tax based on the estimated income tax liabilities. The estimated income tax liabilities are primarily computed based on the tax filings as prepared by the Group and based on management's interpretation of relevant tax rulings. From time to time, there may be disagreements with the tax authorities on the tax treatments of certain items included in the tax computations.

F-28

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****5 REVENUES**

The Group is principally engaged in the operation of civil aviation, including the provision of passenger, cargo, mail delivery and other extended transportation services.

	Year ended December 31,		
	2003 RMB 000	2004 RMB 000	2005 RMB 000
Revenues			
Traffic revenues (a)			
Passenger	10,389,701	15,925,933	21,367,747
Cargo and mail	3,226,949	4,540,463	5,087,244
Commission income	157,784	292,991	185,827
Ground service income	471,338	695,433	806,755
Cargo handling income	163,450	227,806	292,488
Rental income from operating subleases of aircraft	31,209	121,480	183,260
Others	198,417	110,615	198,175
	14,638,848	21,914,721	28,121,496
Less: Business tax (b)	(168,639)	(528,168)	(667,053)
	14,470,209	21,386,553	27,454,443

Notes:

- (a) Since the terrorist attacks on the World Trade Centre in New York in September 2001, many airlines introduced insurance and security surcharges on passenger air tickets (collectively the Surcharges). Such Surcharges are generally recognized as revenue, together with the other components of the ticket price, when the transportation services are provided.

For tickets that are issued by the Group but where the transportation services are provided by another carrier, there was (i) industry guidance which permitted the billing of such Surcharges on a negotiated basis and (ii) diversity in practice among the carriers on the billing of the Surcharges. Accordingly, the Company deferred recognition of the Surcharges as revenue. Management believes such Surcharges will no longer be payable based on general industry acceptance of non billing and industry guidance issued by the Accounting Centre of China Aviation, the sole agent for interline billing of PRC airlines, in December 2005. Accordingly, the Surcharges related to tickets uplifted between 2002 and 2004 in the amount of RMB131,023,000 were released from other payables and recognized as revenue in 2005.

From January 1, 2005, the above insurance and security surcharges together with other surcharges are recognized as revenue once the transportation services are provided, or once the ticket price has been billed through interline billing in the case where transportation services are provided by another carrier.

- (b) Except for traffic revenues derived from inbound international and regional flights, which are not subject to PRC business tax, the Group's traffic revenues, commission income, ground service income, cargo handling income and other revenues are subject to PRC business tax levied at rates ranging from 3% to 5%, pursuant to PRC

business tax rules and regulations.

The major revenue-earning assets of the Group are its aircraft, all of which are registered in the PRC. Since the Group's aircraft is deployed flexibly across its route network, there is no suitable basis of allocating such assets and the related liabilities to geographical segments and hence segment assets and capital expenditure by segment have not been presented.

F-33

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****11 TAXATION**

(a) Taxation (credited)/charged to the consolidated statements of operations is as follows:

	Year ended December 31,		
	2003	2004	2005
	RMB 000	RMB 000	RMB 000
Provision for PRC income tax, net of reversal	124,530	160,502	(81,734)
Deferred taxation	114,843	(30,901)	(56,970)
	239,373	129,601	(138,704)

The Company is subject to PRC income tax at a reduced rate of 15%, pursuant to the Circular Hu Shui Er Cai (2001) No. 104 issued by the Shanghai Municipal State Tax Bureau. Two of the major subsidiaries of the Group, namely China Cargo Airlines Co. Ltd., and Shanghai Eastern Flight Training Co., Ltd, are subject to PRC income tax at a reduced rate of 15%, pursuant to the preferential tax policy in Pudong, Shanghai. Shanghai Eastern Logistics Co., Ltd. is exempted from PRC income tax in 2005 pursuant to the circular Hu Di Shui Er Shui (2004) No.68 issued by Shanghai Municipal State Tax Bureau. Other subsidiaries of the Group are subject to PRC corporate income tax at the standard rate of 33%.

The tax on the Group's consolidated statements of operations differs from the theoretical amount that would arise using the taxation rate of the home country of the Company as follows:

	Year ended December 31,		
	2003	2004	2005
	RMB 000	RMB 000	RMB 000
(Loss)/profit before taxation	(741,302)	585,972	(577,432)

Net deferred tax liabilities	(292,385)	56,970	(24,103)	93,017	(166,501)

In accordance with the PRC tax law, tax losses can be carried forward to off set against future taxable income for a period of five years. As of December 31, 2004 and 2005, the Group had tax losses carried forward of approximately RMB2,330,000,000 and RMB3,011,000,000 respectively which will expire between 2006 and 2010, available to off set against the Group's future taxable income. As of December 31, 2004 and 2005, the Group did not recognize RMB252,120,000 and RMB338,194,000 of deferred tax assets arising from the tax losses available as management did not consider it probable that such tax losses would be realized before they expire.

12 DIVIDENDS

Dividend of RMB97,339,000 (RMB0.02 per share) in respect of the year ended December 31, 2004 were paid in 2005.

The Board of Directors of the Company has recommended not to pay any dividend in respect of the year ended December 31, 2005.

13 (LOSS)/EARNINGS PER SHARE

The calculation of basic (loss)/earnings per share is based on the loss attributable to equity holders of RMB1,097,161,000, profit of RMB 320,691,000 and loss of RMB467,307,000 for the year ended December 31, 2003, 2004 and 2005, respectively and 4,866,950,000 weighted average number of shares in issue during the years ended December 31, 2003, 2004 and 2005. The Company has no potential dilutive ordinary shares.

- (a) In January 2004, the Company exercised its right to terminate a finance lease arrangement and purchased an aircraft at a consideration equal to the present value of the remaining minimum lease payments on the date of the purchase. In this connection, the Company was entitled to a rebate of RMB98,921,000, as it had met certain conditions as defined in the original lease arrangement. Such a rebate was recognized as a reduction in the cost of the aircraft.
- (b) The Group's property, plant and equipment is stated at fair value. The latest independent valuation was performed on June 30, 2001.

Had the property, plant and equipment of the Group and the Company been stated at cost less accumulated depreciation and impairment losses, the carrying amounts of property, plant and equipment would have been as follows:

	2004	2005
	RMB 000	RMB 000
At December 31,	29,262,326	37,943,085

(c) As at December 31, 2005, aircraft owned by the Group with an aggregate net book amount of approximately RMB9,843,773,000 (2004: RMB9,737,032,000) were pledged as collateral under certain loan arrangements (see Note 29).

Lease prepayments represent unamortized prepayments for land use rights.

The Group's land use rights are located in the PRC and the majority of these land use rights have terms of 50 years from the date of grant. As at December 31, 2005, the majority of these land use rights had remaining terms ranging from 41 to 49 years (2004: from 42 to 48 years).

Certificates of certain land use rights owned by the Group, with nil carrying value, are currently registered under the name of CEA Holding and held by CEA Holding on behalf of the Group. The Group is entitled to lawfully and validly occupy and use these lands for its daily operations. The procedures to change the registration of the land use rights certificates with the relevant municipal land bureaus are currently being addressed by CEA Holding. Until the completion of these transfer procedures, the Group is unable to assign or pledge these land use rights. The Company's directors do not believe the lack of certificates of certain land use rights has any material impact on the financial position of the Group.

The directors do not believe the lack of certificates of certain land use rights has any material impact on the financial position of the Group

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

18 INTANGIBLE ASSETS (CONTINUED)

Impairment tests for goodwill

The Company operates in one cash-generating unit (CGU) which is the carriage of passenger, cargo and mail over various routes.

The recoverable amount of a CGU is determined based on value-in-use calculations. These calculations use cash flow projections based on financial budgets approved by management covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated growth rates stated below. The growth rate does not exceed the long-term average growth rate for the aviation business in which the CGU operates.

Key assumptions used for value-in-use calculations are:

Gross margin	20%
Growth rate	10%
Discount rate	5%

Management determined budgeted gross margin based on past performance and its expectations for market development. The weighted average growth rate used is consistent with the forecasts included in industry reports. The discount rate used is pre-tax and reflects specific risks relating to the Company's business.

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****21 OTHER LONG-TERM ASSETS**

	December 31,	
	2004	2005
	RMB 000	RMB 000
Long-term bank deposits (a)	1,908,398	2,026,220
Deposits relating to aircraft under operating leases (b)	133,159	446,323
Prepaid customs duty and value added tax	21,083	4,756
Rental and renovation deposits	18,558	34,777
Prepaid staff benefits (c)	28,439	62,096
Other long-term receivables	92,969	131,386
	2,202,606	2,705,558

(a) The long-term bank deposits are pledged as collateral under certain finance lease arrangements (see Note 28). As at December 31, 2004 and 2005, the effective interest rate on the long-term bank deposits was 5.0% and 3.6% per annum respectively. The deposits have average maturities of 4.4 years. The fair value of long-term bank deposit of the Group is RMB1,991 million and RMB2,114 million as at December 31, 2004 and 2005 respectively, which are determined

using the expected future payments discounted at market interest rates prevailing at the year end of 2.5% to 6.5% (2004: 2.5% to 7.0%).

- (b) The fair value of deposits relating to aircraft under operating leases of the Group is RMB133 million and RMB446 million as at December 31, 2004 and 2005 respectively, which are determined using the expected future payments discounted at market interest rates prevailing at the year end of 4.4% (2004: 2.4%).

- (c) This represents subsidies to certain employees as an encouragement to purchase motor vehicles. The employees are required to serve the Group for six years from the date of receipt of the subsidies in order not to be required to repay the Group for the subsidy. If the employee leaves before the end of the six-year period, a refund by the employee is

required calculated
on a pro-rata basis.
These subsidies are
amortized over six
years on the
straight-line basis.

27 PROVISION FOR AIRCRAFT OVERHAUL EXPENSES

	December 31,	
	2004	2005
	RMB 000	RMB 000
At January 1,	266,093	254,009
Additions through business acquisitions (Note 38)		196,122
Additional provisions	75,897	64,700
Reversal resulting from change in estimate (a)	(20,814)	(58,577)
Utilization	(67,167)	(52,255)
At December 31,	254,009	403,999
Less: current portion	(52,798)	(15,589)
Long-term portion	201,211	388,410

Provision of aircraft overhaul expenses represents the present value of estimated costs of major overhauls for aircraft and engines under operating leases as the Group has the responsibility to fulfill certain return conditions under relevant leases.

- (a) Prior to 2005, the overhauls for Company's certain aircraft models under operating leases were performed by overseas service providers. In 2005, the Company identified domestic facilities to carry out overhauls for certain aircraft models. The cost of the overhauls carried out domestically was lower than that in overseas. Accordingly, the Company changed its estimate for provision for aircraft overhauls as related those aircraft models.

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****28 OBLIGATIONS UNDER FINANCE LEASES**

At December 31, 2004 and 2005, Group had 22 and 26 aircraft, respectively under finance leases. Under the terms of the leases, Group has the option to purchase, at or near the end of the lease terms, certain aircraft at fair market value and others at either fair market value or a percentage of the respective lessors' defined costs of the aircraft. The obligations under finance leases are principally denominated in US Dollars.

The future minimum lease payments (including interests), and the present value of the minimum lease payments under finance leases are as follows:

	December 31, 2004			December 31, 2005		
	Minimum lease payments RMB 000	Interest RMB 000	Present value of Minimum Lease Payments RMB 000	Minimum lease payments RMB 000	Interest RMB 000	Present value of minimum lease payments RMB 000
Within one year	1,526,981	337,333	1,189,648	2,885,047	457,010	2,428,037
In the second year	1,962,208	262,372	1,699,836	2,870,162	300,106	2,570,056
In the third to fifth year	3,924,600	168,346	3,756,254	3,487,110	472,914	3,014,196
After the fifth year	2,401,578	385,030	2,016,548	2,934,000	337,792	2,596,208
Total	9,815,367	1,153,081	8,662,286	12,176,319	1,567,822	10,608,497
Less: amount repayable within one year	(1,526,981)	(337,333)	(1,189,648)	(2,885,047)	(457,010)	(2,428,037)
Long-term portion	8,288,386	815,748	7,472,638	9,291,272	1,110,812	8,180,460

The fair value of obligations under finance leases is RMB8,382 and RMB10,432 million as at December 31, 2004 and 2005 respectively, which is determined using the expected future payments discounted at market interest rates prevailing at the year end of 2.5% to 7.0% (2004: 2.5% to 7.0%).

At December 31, 2004 and 2005, the Group had long-term bank deposits totaling RMB 1,908,398,000 and RMB2,026,220,000 respectively pledged as collateral under certain finance lease arrangements (Note 21). In addition, the finance lease obligations are secured by the related aircraft, assignments of all benefits of the relevant insurance policies relating to the aircraft together with guarantees provided by certain banks in the PRC.

Interest rate and final maturities		2004 RMB 000	2005 RMB 000
U.S. dollar denominated bank loans:			
Loans for the purchases of aircraft	Fixed interest rates ranging from 4.01% to 6.86% per annum 2 to 10-year loans with final maturities through to 2013		296,120
Loans for the purchases of aircraft	Floating interest rates ranging from 3 months LIBOR+0.25% to 6 months LIBOR+0.75% as at December 31, 2005; 2 to 10-year loans with final maturities through to 2015	7,703,037	7,295,480
Loan for the purchase of an aircraft simulator	Floating interest rates of 6 months LIBOR +0.6% as at December 31, 2005; 3-year loans with final maturity in 2007	30,623	111,820
Loan for finance* leases of aircraft	Fixed interest rates ranging from 6.46% to 8.62% per annum, repayable by instalments up to 2008		47,426
Total long-term bank loans		10,736,260	12,659,346

* These loans are secured by the related aircraft.

Short-term borrowings of the Group and the Company are repayable within one year with interest charged at the prevailing market rates based on the rates quoted by the People's Bank of China. As at December 31, 2005, the interest rates relating to such borrowings were ranging from 2.22% to 5.04% per annum (2004: 2.06% to 5.04% per annum). During the year ended December 31, 2005, the weighted average interest rate on short-term bank loans was 4.62% per annum (2004: 3.34% per annum).

On August 5, 2005, the Company issued debentures with a face value of RMB1,000,000,000 at an issue price of RMB971,600,000, being 97.16% of the face value, and repayable on August 4, 2006. On August 23, 2005, the Company issued additional debentures with face value of RMB1,000,000,000 at an issue price of RMB980,000,000, being 98% of the face value, and repayable on May 22, 2006.

The zero coupon debentures are accounted for in the balance sheets of the Group and the Company as follows:

Nominal value	2005 RMB 000 2,000,000
Less: Unamortized discount	(25,456)
	1,974,544

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****29 BORROWINGS (CONTINUED)**

The carrying amounts of the borrowings are denominated in the following currencies:

	2004 RMB 000	2005 RMB 000
Renminbi	7,295,601	13,112,485
US Dollars	9,430,325	15,232,261
Japanese Yen	199,253	
	16,925,179	28,344,746

As at December 31, 2004 and 2005, the secured bank borrowings of the Group for the purchases of aircraft was secured by the related aircraft with an aggregate net book amount of RMB9,737,032,000 and RMB9,843,773,000 respectively (Note 14). Certain secured bank borrowings with aggregate amount of RMB1,162,186,000 and RMB2,899,386,000 were also guaranteed by Export-Import Bank of the United States, China Industrial and Commercial Bank and China Construction Bank as at December 31, 2004 and 2005 respectively.

Certain unsecured bank borrowings of the Group totalling of RMB2,122,600,000 and RMB2,122,600,000 were guaranteed by CEA Holding as at December 31, 2004 and 2005 respectively (Note 39)

(a) Statutory and Discretionary Reserves

	December 31,	
	2004	2005
	RMB 000	RMB 000
Statutory common reserve fund	178,797	196,746

Statutory common welfare fund	174,385	183,107
Discretionary common reserve fund	27,989	27,989
	381,171	407,842

Pursuant to the PRC regulations and the Group companies' Articles of Association, each of the Group companies is required to transfer 10% of its profit for the year, as determined under the PRC Accounting Regulations, to a statutory common reserve fund until the fund balance exceeds 50% of the Group's company's registered capital. The statutory common reserve fund can be used to make good previous years' losses, if any, and to issue new shares to shareholders in proportion to their existing shareholdings or to increase the par value of the shares currently held by them, provided that the balance after such issue is not less than 25% of the registered capital.

F-54

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****31 RESERVES (CONTINUED)**

Pursuant to the PRC regulations and the Group companies' Articles of Association, each of the companies is required to transfer 5% to 10% of its profit for the year, as determined under the PRC Accounting Regulations, to the statutory common welfare fund. This fund can only be used to provide staff welfare facilities and other collective benefits to the Group companies' employees. This fund is non-distributable other than in liquidation.

Each of the Group company is allowed to transfer 5% of its profit for the year as determined under the PRC Accounting Regulations, to a discretionary common reserve fund. The transfer to this reserve is subject to approval at shareholders' meetings.

For the year ended December 31, 2005, under the PRC Accounting Regulations, the Company recorded a loss for the year. Accordingly, no profit appropriation of the Company to reserves has been made for the year ended December 31, 2005 (2004: nil). The transfer from retained profits to reserves for the year represents the profit appropriation to reserves of certain subsidiaries of the Company.

(b) Capital reserve

Capital reserve represents the difference between the fair value of the net assets injected and the nominal amount of the Company's share capital issued in respect of a group restructuring in June 1996.

32 OTHER LONG-TERM LIABILITIES

	December 31,	
	2004	2005
	RMB 000	RMB 000
Deferred credit on aircraft operating lease rental (a)		43,645

Less: Current portion (Note 26)	(30,000)	(66,029)
Long-term portion	100,204	155,229

- (a) Deferred credit on aircraft operating lease rental represents the unamortized portion of lease incentives from lessors.
- (b) Deferred credit on government grants represents government grants received for construction and acquisition of safety and security facilities. As at December 31, 2005, the related facilities have not been constructed or purchased.
- (c) The balance is unsecured, bearing interest at an effective rate of 6.21% per annum and is repayable by annual instalments of RMB30,000,000 (before taking into account of time value) up to year 2009.

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****33 RETIREMENT BENEFIT PLANS AND POST-RETIREMENT BENEFITS****(a) Defined contribution retirement schemes****(i) Pension**

The Group companies participate in defined contribution retirement schemes organized by municipal governments of the various provinces in which the Group companies operate, and substantially all of the Group's PRC employees are eligible to participate in the Group companies' retirement schemes. The Group companies are required to make annual contributions to the schemes at rates ranging from 20% to 22% on the employees' prior year salary and allowances. Employees are required to contribute to the schemes at rates ranging from 7% to 8% of their basic salaries. The Group has no other material obligation for the payment of retirement benefits beyond the annual contributions under these schemes. For the year ended December 31, 2003, 2004 and 2005, the Group's pension cost charged to the consolidated income statements amounted to RMB 121,200,000, RMB146,500,000 and RMB228,264,000 respectively.

(ii) Medical insurance

The majority of the Group's PRC employees participate in the medical insurance schemes organized by the municipal governments, under which the Group and its employees are required to contribute to the scheme approximately 12% and 2%, respectively, of the employee's basic salaries. For those employees who participate in these schemes, the Group has no other obligation for the payment of medical expense beyond the annual contributions. For the year ended December 31, 2003, 2004 and 2005, the Group's medical insurance contribution charged to the statements of operations amounted to RMB36,424,000, RMB47,700,000 and RMB51,954,000 respectively.

(b) Post-retirement benefits

In addition to the above retirement schemes, the Group provides retirees with other post-retirement benefits including transportation subsidies, social function activities subsidies and others. The expected cost of providing these post-retirement benefits is actuarially determined and recognized by using the projected unit credit method, which involves a number of assumptions and estimates, including inflation rate, discount rate and employees' turnover ratio.

The post-retirement benefit obligations recognized in the balance sheets are as follows:

	2004	2005
	RMB '000	RMB '000
Present value of unfunded post-retirement benefit obligations	731,077	1,970,292
Unrecognized actuarial gain	(85,345)	(731,590)
Post-retirement benefit obligations	645,732	1,238,702
Less: current portion (Note 26)	(27,500)	(35,825)
Long-term portion	618,232	1,202,877

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****33 RETIREMENT BENEFIT PLANS AND POST-RETIREMENT BENEFITS (CONTINUED)**

The costs of post-retirement benefits are recognized under wages, salaries and benefits in the statements of operations as follows:

	2003	2004	2005
	RMB 000	RMB 000	RMB 000
Current service cost	13,064	20,849	56,436
Interest cost	27,235	29,857	45,200
Actuarial losses recognized		998	823
Total (Note 8)	40,299	51,704	102,459

Principal actuarial assumptions at the balance sheet date are as follows:

	2003	2004	2005
Discount rate	5.0%	5.0%	3.5%
Annual rate of increase of per capita benefit payment	1.5%	1.5%	1.5%
Employees turnover rate	3.0%	3.0%	3.0%

34 STAFF HOUSING BENEFITS**(a) Staff housing fund**

In accordance with the PRC housing reform regulations, the Group is required to contribute to the State-sponsored housing fund at rates ranging from 1% to 15% (2004: 1% to 15%) of the specified salary amount of its PRC employees. At the same time, the employees are required to contribute an amount equal to the Group's contribution. The employees are entitled to claim the entire sum of the fund contributed under certain specified withdrawal circumstances. For the year ended December 31, 2003, 2004 and 2005, the Group's contributions to the housing funds amounted to RMB 65,300,000, RMB94,200,000 and RMB102,472,000 respectively which has been charged to the statements of operations. The staff housing fund payable as at December 31, 2004 and 2005 amounted to RMB75,364,000 and RMB136,510,000 respectively (Note 26). The Group has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

(b) Staff housing allowances

The Group also provides staff housing allowances to eligible employees who joined in the Group prior to 1998 according to the Group's staff housing allowance policy introduced in October 2003 (the Staff Housing Allowance Policy).

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****34 STAFF HOUSING BENEFITS (CONTINUED)****(b) Staff housing allowances (CONTINUED)**

Under the Staff Housing Allowance Policy, employees who have not been allocated with any housing quarters or who have not been allocated with a quarter above the minimum area as set out in the Staff Housing Allowance Policy, are entitled to a cash allowance based on the area of quarter entitled and the unit price as set out in the Staff Housing Allowance Policy. The total entitlement is principally vested over a period of 20 years. Upon an employee's resignation, his or her entitlement will cease and any unpaid entitlement related to past service up to the date of resignation will be paid. Upon the establishment of the Staff Housing Allowance Policy, employees are entitled to a portion of the total entitlement already accrued based on his or her past service period. Such entitlement would be paid over a period of 4 to 5 years. As at December 31, 2005, the present obligation of the provision for the employee's staff housing entitlement is RMB457,466,000 (2004: RMB369,675,000), of which RMB13,270,000 (2004: RMB93,427,000) is classified as current portion in other payables and accrued expenses.

For the year ended December 31, 2004 and 2005, the staff housing benefit provided under the Staff Housing Allowance Policy amounted to RMB29,253,000 and RMB36,231,000 respectively which has been charged to the statements of operations.

Current portion		53,036		34,844

(a) Interest rate swaps

The Group uses interest rate swaps to reduce the risk of changes in market interest rates (Note 3(a)(iii)). The interest rate swaps entered into by the Group are generally for swapping variable rates, usually reference to LIBOR, into fixed rates. The Group's interest rate swaps qualify for hedge accounting and are accounted for as cashflow hedge. As at December 31, 2004 and 2005, the notional amount of the outstanding interest rate swap

agreements was approximately US\$437 million and US\$661 million respectively: These agreements will expire between 2006 and 2016. For the year ended December 31, 2004 and 2005, a net gain of RMB29,700,000 and RMB78,546,000 respectively arising from changes in the fair value of the interest rate swaps subsequent to initial recognition was recognized directly in the hedging reserve (Note 31).

F-58

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
35 DERIVATIVE FINANCIAL INSTRUMENTS (CONTINUED)**

(b) Forward foreign exchange contracts

The Group uses currency forward contracts to reduce risk of changes in currency exchange rates in respect of ticket sales and expenses denominated in foreign currencies (Note 3(a)(vi)). These contracts are generally for selling of Japanese Yen and purchasing of U.S. dollars at fixed exchange rates. On July 21, 2005, the People's Bank of China revalued the RMB with reference to an undisclosed basket of currencies. Prior to the revaluation, the Group's currency forward contracts qualified for hedge accounting and were accounted for as cashflow hedge of firm commitments. After the revaluation, the Group discontinued the hedge relationship and did not apply hedge accounting on forward foreign exchange contracts from July 1, 2005. As at December 31, 2004 and 2005, the notional amount of the outstanding currency forward contracts was approximately US\$226 million and US\$92 million respectively, which will expire between 2006 and 2010. For the years ended December 31, 2003, 2004 and 2005, a net loss of 58,102,000, a net loss of RMB 46,149,000 and a net gain of RMB82,144,000 respectively arising from changes in the fair value of these foreign currency forwards between the initial recognition up to June 30, 2005 was recognized directly in the hedging reserve (Note 31). The change in the fair value between July 1, 2005 and December 31, 2005 of RMB13,299,000 was recognized in the statements of operations.

(c) Fuel option contracts

The Group uses fuel option contracts to reduce the risk of changes in market oil/petroleum prices in connection with aircraft fuel costs. As at December 31, 2005, the Group had outstanding fuel option contracts to buy approximately 2,600,000 barrels of crude oil at prices which ranging from US\$ 41 to US\$ 70 per barrel and sell approximately 6,840,000 barrels of crude oil at prices which ranging from US\$ 33.5 to US\$ 87.25 per barrel, all of which will expire between 2006 and 2007. Management did not designate these fuel option contracts for hedge accounting and changes in fair values have been recognized directly in the statements of operations.

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****38 BUSINESS ACQUISITIONS**

On June 30, 2005, pursuant to an acquisition agreement entered into between the Company, CEA Holding, China Eastern Air Northwest Company (CEA Northwest; a wholly owned subsidiary of CEA Holding) and China Eastern Air Yunnan Company (CEA Yunnan; a wholly owned subsidiary of CEA Holding), and upon approval by the Company's shareholders in a General Meeting, the Company acquired certain assets and liabilities relating to the aviation businesses of CEA Northwest and CEA Yunnan. The aggregate acquisition price paid and payable by the Company is RMB639,749,000.

The goodwill is attributable to an increase in the Company's competitiveness as a result of its increased size and the extension of the business scope geographically to the north-western and southern-western regions of the PRC.

The acquired businesses contributed revenues of RMB4,269,745,000 and profit after taxation of RMB23,552,000 to the Group for the period from July 1, 2005 to December 31, 2005. If the acquisition had occurred on January 1, 2005, the acquired businesses would have contributed revenues of RMB7,740,744,000, and net loss of RMB510,870,000 to the Group for the year ended December 31, 2005.

Details of net assets acquired and related goodwill are as follows:

	RMB '000
Purchase consideration:	
Cash	639,749
Direct costs relating to the acquisition	29,968
Total purchase consideration	669,717
Fair value of net assets acquired shown as below	(60,582)
Goodwill (Note 18)	609,135

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****38 BUSINESS ACQUISITIONS (CONTINUED)**

The assets and liabilities arising from the acquisition are as follows:

	Fair value of net assets acquired RMB 000
Property, plant and equipment	7,302,833
Construction in progress	13,577
Lease prepayments	74,339
Investments in associates	5,564
Other long-term assets	777,644
Deferred tax assets	93,017
Flight equipment spare parts	385,971
Trade receivables	124,645
Prepayment, deposits and other receivables	74,993
Cash and cash equivalents	629,013
Trade payables and notes payables	(263,748)
Sales in advance of carriage	(1,702)
Other payables and accrued expenses	(2,600,738)
Borrowings, current portion	(2,163,898)
Borrowings, long-term portion	(814,220)
Taxation	(26,319)
Derivative Liabilities	(16,151)
Obligations under finance leases	(2,515,423)
Provision for aircraft overhaul expenses	(196,122)
Post retirement benefit obligations	(519,881)
Staff housing allowance	(150,023)
Other long-term liabilities	(152,789)
Net assets acquired	60,582
Purchase consideration settled in cash	669,717
Cash and cash equivalents in businesses acquired	(629,013)
Cash outflow on business acquisition	40,704

See Note 42 for details regarding a business acquisition completed after the balance sheet but before the approval of these consolidated financial statements.

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****39 RELATED PARTY TRANSACTIONS**

The Group is controlled by CEA Holding, which owns approximately 61.64% of the Company's shares as at December 31, 2005. The aviation industry in the PRC is administrated by the CAAC. CEA Holding and the Group is ultimately controlled by the PRC government, which also controls a significant portion of the productive assets and entities in the PRC (collectively referred as the state-controlled enterprises).

(a) Related party transactions

The Group sells air tickets through sales agents and is therefore likely to have extensive transactions with other state-controlled enterprises, and the employees of state-controlled enterprises while such employees are on corporate business as well as their close family members. These transactions are carried out on normal commercial terms that are consistently applied to all of the Group's customers. Due to the large volume and the pervasiveness of these transactions, the management is unable to determine the aggregate amount of the transactions for disclosure. Therefore, retail transactions with these related parties are not disclosed herein. Management believes that meaningful related party disclosures on these retail transactions have been adequately made.

The other related party transactions are:

40 ULTIMATE HOLDING COMPANY

The directors regard CEA Holding, a company established in the PRC, as being the ultimate holding company.

41 CONTINGENT LIABILITIES

In 2005, the Company received a legal claim in the United States of America for unspecified damages by family members of certain victims in the air crash of an aircraft of CEA Yunnan that occurred on November 21, 2004 in Baotou, Neimonggol, the PRC.

Management has engaged legal representatives to vigorously contest the proceedings. The proceedings is still in an early stage and in the opinion of the Directors, based on professional advice, it is unlikely that there will be any significant adverse effect to the financial position of the Group.

**CHINA EASTERN AIRLINES CORPORATION LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
42 POST BALANCE SHEET EVENT**

On December 8, 2005, the Company entered into agreements with each of Wuhan Municipality State-owned Assets Supervision and Administration Commission (Wuhan SASAC) and Shanghai Junyao Aviation Investment Company Limited (Shanghai Junyao) to acquire (i) a 38% equity interest in CEA Wuhan from Wuhan SASAC for a consideration of RMB278,000,000, and (ii) a 18% equity interest in CEA Wuhan from Shanghai Junyao for a consideration of RMB140,000,000, respectively, totaling RMB418,000,000,. Based on an independent valuation conducted on December 31, 2005, a 56% share of the fair value of the net assets acquired amounted to approximately RMB214,159,000. The acquisitions were conditional upon approvals of the agreements from relevant governmental and regulatory authorities. On January 4, 2006, all the necessary approvals were obtained and the acquisitions were completed.

Pursuant to the acquisition agreement between the Company and Wuhan SASAC, after receipt of the purchase consideration from the Company, Wuhan SASAC would settle RMB 152,000,000 for an amount it owed to CEA Wuhan. On March 23, 2006, Wuhan SASAC paid the aforesaid amount to CEA Wuhan.

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

43 SIGNIFICANT DIFFERENCES BETWEEN IFRS AND U.S. GAAP (CONTINUED)

NOTES:

(a) CEA Northwest and CEA Yunnan Acquisitions

As disclosed in Note 38, the Group acquired certain assets and liabilities of the aviation businesses of CEA Northwest and CEA Yunnan effective June 30, 2005. Under IFRS, acquisition accounting was applied to these business combinations such that the businesses are consolidated by the Group from June 30, 2005.

Under U.S. GAAP, these transactions are considered to be combinations of businesses under common control which are accounted for in a manner similar to pooling-of-interests. Consequently, the acquired assets and liabilities of CEA Northwest and CEA Yunnan and their results of operations and cash flows have been included in the condensed consolidated financial statements of the Group at their U.S. GAAP carrying values for all years presented.

Our condensed consolidated financial statements prepared and presented in accordance with U.S. GAAP to reflect the effect of the acquisitions of CEA Northwest's and CEA Yunnan's aviation businesses under common control for the relevant periods are set forth in Note 44 to our audited consolidated financial statements included in this annual report.

(b) Revaluation of fixed assets

Under IFRS, the Group's fixed assets are initially recorded at cost and are subsequently restated at revalued amounts less accumulated depreciation. The excess depreciation charge arising from the revaluation surplus was approximately RMB63,895,000, RMB57,568,000 and RMB73,803,000 for the year ended December 31, 2003, 2004 and 2005, respectively. The additional gain (loss) arising from the revaluation surplus on disposals of revalued fixed assets was approximately loss of RMB10,083,000, gain of RMB7,099,000 and RMB861,000 for the years ended December 31, 2003, 2004 and 2005, respectively.

Under U.S. GAAP, fixed assets are stated at cost less accumulated depreciation. Accordingly, the revaluation surplus, the related differences in depreciation charges and gain (loss) on disposals are reversed.

(c) Rescission of related party lease arrangements

The Company entered into certain lease arrangements with CEA Northwest and its subsidiary to lease three A310 aircraft and three Bae146 aircraft in 2004 that were subsequently terminated and retroactively rescinded. The impact of the retroactive rescission of the lease arrangements with CEA Northwest was an aggregate settlement by CEA Northwest in the amount of RMB133 million (the Settlement Amount), which represented the operating losses incurred on the operation of the CEA Northwest leased aircraft during 2004, to the Group through the reduction of the Group's inter-company payable accounts with CEA Northwest.

Under IFRS, the Settlement Amount was recognised as non-operating income for the year ended December 31, 2004 and was in effect an extinguishment of a financial liability through a reduction of the Group's inter-company payable accounts with CEA Northwest.

Under U.S. GAAP, the Settlement Amount, through reduction of the Group's intercompany payable account of CEA Holding's wholly owned subsidiary, was deemed as the principal shareholder incurring costs on behalf of the Company and was recognized as a capital contribution in accordance with Staff Accounting Bulletin Topic 5-T (SAB Topic 5-T). Any cost incurred by the principal shareholder on behalf of its subsidiary are required to be reflected in the subsidiary's financial statements as an expense and a corresponding capital contribution unless the principal shareholders' actions are completely unrelated to its position as a shareholder under SAB Topic 5-T.

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

43 SIGNIFICANT DIFFERENCES BETWEEN IFRS AND U.S. GAAP (CONTINUED)

(d) Retroactive application of the new overhaul accounting policy adopted in 2005

Prior to the adoption of the revised IAS 16 (Note 2), the Group expensed overhaul costs on owned and finance leased aircraft as incurred. Upon the adoption of the revised IAS 16 effective January 1, 2005, the Group capitalized overhaul costs as a separate component of the fixed assets carrying value to be depreciated over the estimated period between overhauls on a straight line basis. Upon the completion of an overhaul, any remaining balance of the previous overhaul will be derecognised and charged to the consolidated statements of operations. The adoption of the revised IAS 16 has been applied retrospectively to all years presented.

Under U.S. GAAP, the capitalization of overhaul costs incurred as a separate component of fixed assets is an acceptable alternative. Therefore, the Group also changed its accounting policy on overhaul costs for owned and financed lease aircrafts in the U.S. GAAP condensed consolidated financial statements as such policy was considered to be preferable. Under U.S. GAAP, the effect of a change in accounting policy is recognized in the period of the change by including the cumulative effect of the change to the new accounting policy.

(e) Recognition of negative goodwill

Under U.S. GAAP, in a business combination in which the fair value of the identifiable net assets acquired exceeds the cost of the acquired business, the excess over cost should reduce, on a pro rata basis, amounts assigned to all of the acquired assets, including purchased research and development assets required to be written off, with the exception of financial assets (other than investments accounted for by the equity method), assets to be disposed of by sale, deferred tax assets, prepaid assets related to pension or other post-retirement benefit plans, and any other current assets. Any remaining negative goodwill is recognised as an extraordinary gain.

As the result of the adoption of IFRS 3, the Group's negative goodwill balance of RMB42,873,000 at January 1, 2005 is derecognized with a corresponding adjustment to the opening balance of retained earnings. From January 1, 2005 onwards, IFRS 3 requires the Group to recognize immediately in the statements of operations the excess of the net fair value of those items acquired over the cost of the acquisition.

(f) Other U.S. GAAP adjustments

The application of U.S. GAAP differs in certain other respects from IFRS. Under U.S. GAAP: i) recognition of gain on sale and leaseback transactions is deferred and amortized, ii) transitional obligations for post retirement benefits are amortized over the average remaining service period of active plan participants, and iii) amortization of goodwill ceased on December 31, 2003.

(g) Minority interest

Under IFRS, minority interest is classified in the equity section of the consolidated balance sheets and included in the consolidated statements of changes in owners' equity. Profit (loss) attributable to

the minority interest is presented as a component of the Group's total profit (loss) for the year. U.S. GAAP does not classify minority interest in the equity section of the consolidated balance sheets, and consequently does not include minority interest in the consolidated statement of changes in owners' equity. Under U.S. GAAP, profit (loss) attributable to minority interest is presented as a separate item before net income (loss).

F-73

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

43 SIGNIFICANT DIFFERENCES BETWEEN IFRS AND U.S. GAAP (CONTINUED)

(h) Deferred tax effect

These represent the corresponding deferred tax effect as a result of the adjustments stated in (b) to (f) above.

Under IFRS, deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Under U.S. GAAP, a valuation allowance is provided to reduce the amount of deferred tax assets if it is considered more likely than not that some portion of, or, all of, the deferred tax assets will not be realised. More likely than not is defined as a likelihood of more than 50%. In determining whether a valuation allowance is necessary, a company may not generally consider future anticipated income in measuring the valuation allowance if that company has a history of losses. However, as confirmed by the IASB as part of the convergence project with FAS 109, the Group believes that more likely than not under U.S. GAAP and probable under IFRS have the same meaning for the application of IAS 12 and SFAS 109. Therefore this difference in the wording of U.S. GAAP and IFRS does not have any impact on the Group's net assets or net income (loss), and the Group has therefore not included a reconciling item for this difference.

(i) Consolidation based on variable interest model

IFRS focuses on the concept of control to determine whether an entity should be consolidated. Under U.S. GAAP, a dual consolidation decision model exists. Under this model, consolidation decisions are evaluated first based on the variable interest model then the traditional consolidation model. Therefore, under U.S. GAAP, an entity will consolidate a variable interest entity (VIE) which it does not control but absorbs the majority of the VIE's expected losses or returns. FIN 46, Consolidation of Variable Interest Entities requires certain VIEs to be consolidated by the primary beneficiary of the entity if the equity investors in the entity do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. The primary beneficiary has a variable interest in the entity that will cause it to absorb a majority of the VIE's expected losses, receive a majority of the VIE's expected residual returns, or both.

The Group completed its FIN 46 assessment, including the review of arrangements with associates as part of the preparation of its consolidated financial statements and concluded that there were no variable interest entities for which the Group absorbs the majority of losses or returns that would have any material impact on its financial position or results of operations.

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

43 SIGNIFICANT DIFFERENCES BETWEEN IFRS AND U.S. GAAP (CONTINUED)

(j) CEA Yunnan air crash

In November 2004, an aircraft of CEA Yunnan crashed in Baotau, Neimonggol, China. As the result of this air crash, CEA Yunnan was subject to exposures including the loss of aircraft, claims filed by the families of the deceased passengers and crew, other third party liabilities including damage to park facilities, injuries and auxiliary costs. When the Company acquired CEA Yunnan in May 2005, the air crash related exposures were not transferred with other assets and liabilities of the aviation businesses. Rather, such exposures were transferred to CEA Holding.

Under IFRS, insurance recovery is not recognized until virtually certain and the air crash has no impact on the Group's consolidated financial statements as acquisition accounting was applied (Note 38). However, under U.S. GAAP, outstanding claims are accrued net of insurance recovery that are equally probable and determinable. In addition, any costs to be incurred by CEA Holding for claims in excess of insurance recovery will be deemed as the principal shareholder incurring costs on behalf of the Company and will be recognized as expenses and a capital contribution in accordance with SAB Topic 5-T. There are no such capital contribution recorded to date.

(k) New accounting pronouncements

In December 2004, the FASB revised Statement No. 123 (FAS 123 R). FAS 123 R, *Share-Based Payment*, requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values. Pro forma disclosure is no longer an alternative to financial statement recognition. FAS 123 R is effective for fiscal periods beginning after June 15, 2005. The Group is evaluating the transition provisions allowed by FAS 123 R. The Group does not expect the adoption of FAS 123 R to have a material impact on the Group's financial position or operational results.

On November 24, 2004, the FASB issued Statement No. 151, *Inventory Costs*, an amendment of ARB No. 43, Chapter 4 (FAS 151). FAS 151 requires that abnormal amounts of idle capacity and spoilage costs be excluded from the cost of inventory and expensed when incurred. The provisions of FAS 151 are applicable to inventory costs incurred during fiscal years beginning after June 15, 2005. The Group does not expect the adoption of FAS 151 to have a material impact on the Group's financial position or results of operation.

On December 15, 2004, the FASB issued Statement No. 153, *Exchanges of Nonmonetary Assets*, an amendment of APB Opinion No. 29 (FAS 153). FAS 153 requires exchanges of productive assets to be accounted for at fair value, rather than at carryover basis, unless (1) neither the asset received nor the asset surrendered has a fair value that is determinable within reasonable limits or (2) the transactions lack commercial substance. FAS 153 is effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The Group does not expect the adoption of FAS 153 to have a material impact on the Group's financial position or results of operation.

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

43 SIGNIFICANT DIFFERENCES BETWEEN IFRS AND U.S. GAAP (CONTINUED)

(k) New accounting pronouncements (Continued)

On March 29, 2005, the U.S. Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin No. 107, Share-Based Payment (SAB 107). This bulletin provides guidance related to share-based payment transactions with non-employees, the transition from nonpublic to public entity status, valuation methods (including assumptions such as expected volatility and expected term), the accounting for certain redeemable financial instruments issued under share-based payment arrangements, the classification of compensation expense, non-GAAP financial measures, first-time adoption of FAS 123 R in an interim period, capitalization of compensation cost related to share-based payment arrangements, the accounting for income tax effects of share-based payment arrangements upon adoption of FAS 123 R, the modification of employee share options prior to adoption of FAS 123 R and disclosures in Management's Discussion and Analysis subsequent to adoption of FAS 123 R. SAB 107 will be effective when a registrant adopts FAS 123 R. The Group does not expect the adoption of SAB 107 to have a material impact on the Group's financial position or operation results.

In May 2005, the FASB issued Statement No.154, Accounting Changes and Error Corrections (FAS 154), which replaces APB Opinions No. 20 Accounting Changes, and FASB Statement No. 3, Reporting Accounting changes in Interim Financial Statements, and changes the requirements for the accounting for and reporting of a change in accounting principle. This Statement establishes, unless impracticable, retrospective application as the required method for reporting a change in accounting principle in the absence of explicit transition requirements specific to the newly adopted accounting principle. The reporting of a correction of an error by restating previously issued financial statements is also addressed by this Statement. FAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The Group does not expect the adoption of FAS 154 to have a material impact on the Group's financial position or operational results.

Notes:

- (i) In connection with the aforementioned CEA Northwest and the CEA Yunnan Acquisitions as described in Note 43(a), certain assets and liabilities of CEA Northwest

and CEA Yunnan not acquired by the Group were transferred to CEA Holding. Also, as a result of the CEA Northwest and the CEA Yunnan Acquisitions, the tax losses attributable to the aviation operations of CEA Northwest and CEA Yunnan are no longer available for utilization against future taxable income of such operations. Accordingly, the net assets not acquired and the deferred tax assets arising from such tax losses and related valuation allowance was eliminated as a reduction against equity.

- (ii) In connection with the CEA Northwest and the CEA Yunnan Acquisitions, the property, plant and equipment of CEA Northwest and CEA Yunnan were revalued as of

December 31, 2004 according to the relevant PRC rules and regulations. The revalued amount serves as the tax base for future years. Such revaluations are not recorded under U.S. GAAP.

However, a deferred tax asset is recognized for the tax deductibility of the resulting net revaluation surplus with a corresponding credit to equity under U.S. GAAP.

(c) Income tax (Continued)

The net deferred tax assets (liabilities) as of December 31, 2004 and 2005 were made up of the following taxation effects:

	December 31,	
	2004	2005
	RMB 000	RMB 000
Deferred tax assets:		
Tax losses carried forward	349,562	451,659
Provision for obsolete flight equipment spare parts	54,014	33,192
Repair cost on flight equipment	119,039	64,454
Provision for post-retirement benefits	95,252	185,102
Other accrued expenses and derivative financial instruments	120,704	139,949
	738,571	874,356
Less: Valuation allowance	(252,120)	(338,194)
Total deferred tax assets	486,451	536,162
Deferred tax liabilities:		
Provision for aircraft overhauls	(106,128)	(143,517)
Depreciation and amortization	(723,527)	(511,305)
Total deferred tax liabilities	(829,655)	(654,822)
Net deferred tax liabilities	(343,204)	(118,660)
Representing:		
Net deferred tax assets current portion		
Net deferred tax assets non-current portion	395,465	499,544
Net deferred tax liabilities current portion		
Net deferred tax liabilities non-current portion	(738,669)	(618,204)
	(343,204)	(118,660)

In accordance with the PRC tax law, tax losses can be carried forward to offset against future taxable income for a period of five years. As of December 31, 2004 and 2005 the Group had tax losses carried forward of approximately RMB 2.3 billion and RMB3.0 billion, respectively, which will expire between 2006 and 2010.

In assessing the realizability of net deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences

become deductible and tax losses utilized. Management considers the scheduled reversal of deferred tax liabilities and projected future taxable profits in making this assessment. Based upon the projections for future taxable profits over the periods in which the deferred tax assets are deductible, management believes it is more likely than not that the Group will realized the benefits of these deductible differences and tax losses.

During the years ended December 31, 2004 and 2005, the valuation allowance (decreased) increased by RMB(6,395,000) and RMB86,074,000, respectively.
