On May 13, 2003, ENGlobal Corporation issued a press release, a copy of which is set forth below. In accordance with General Instructions B.2. Form 8-K, the following information shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, except as shall be expressly set forth by specific reference in such a filing.

ENGlobal Reports Record First Quarter Results; EPS Doubles From Same Period 2002

HOUSTON--(BUSINESS WIRE)--May 13, 2003--ENGlobal Corporation's (Amex: ENG) first quarter 2003 results show consolidated revenues of approximately \$24 million and net income of two cents per common share. The level of both revenues and profits set a record for the Company's first quarter, with net income per common share being approximately double when compared to the prior year results.

The Company's improved profitability is primarily due to a nearly two percentage point improvement in its consolidated gross profit margin. In addition, all of ENGlobal's reporting segments participated

in achieving these quarterly records, as each segment recorded increases in both revenue and operating income for the comparison periods.

### CEO'S COMMENTS

Commenting on these results, Chairman and CEO, Mike Burrow stated, "Our press release on January 29th provided details of ENGlobal's three-year strategic plan and our financial expectations for 2003. The Company remains comfortable with our previously stated earnings projection of 10 to 14 cents per share for the year, and we believe that our revenues from current operations will be approximately in the middle of the \$100 to \$129 million range previously forecast. Our expectation is that our improved performance for the balance of this year will be driven primarily by ongoing projects."

### OPERATIONS UPDATE

"We have recently implemented various organizational and cost cutting measures designed to improve results at our weaker performing operations, and we should begin to see benefits in the second quarter," stated William Coskey, President and COO. "The utilization of available manpower is a key metric in an engineering services business, and we are pleased that our utilization trend has been positive since the beginning of the year."
