Item 9. Regulation FD Disclosure

On August 19, 2003, ENGlobal Corporation issued a press release, a copy of which is set forth below. In accordance with General Instructions B.2. Form 8-K, the following information shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, except as shall be expressly set forth by specific reference in such a filing.

ENGlobal Exercises Conversion Rights on Preferred Stock And Provides  
Details Concerning This Action

HOUSTON--(BUSINESS WIRE)--Aug. 19, 2003--ENGlobal Corporation (AMEX:ENG), a leading provider of engineering services and engineered systems, today reported that it exercised its right to convert all of its outstanding Series A Preferred Stock, par value \$.001 per share ("Preferred Stock"), into Common Stock, par value \$.001 per share ("Common Stock"). The Preferred Stock was originally issued in conjunction with the December 2001 merger of Petrocon Engineering, Inc. with an ENGlobal subsidiary, and is held exclusively by a significant ENGlobal lender and stockholder.

All of the 2,690,000 shares of ENGlobal's Preferred Stock currently outstanding, together with accrued but unpaid dividends of approximately \$45 thousand, will be converted into approximately

## Edgar Filing: ENGLOBAL CORP - Form 8-K

1,149,000 shares of Common Stock. Since the Company's publicly traded Common Stock closed above \$3.00 per share for 20 consecutive trading days, the Company was permitted by terms of the Preferred Stock to require its conversion at the rate of \$2.38 per share. While the shares of Common Stock to be issued on the conversion will not be registered shares, they will be tradeable under the provisions of Rule 144, subject to the volume limitations and other provisions of that rule.

The conversion of the Company's Preferred Stock to Common Stock is significant in a number of respects. The conversion will result in an increase of approximately 5% in the number of shares of Common Stock outstanding, which could negatively impact future earnings per share. However, the Company will save in future dividend payments that are paid after-tax and accrue at the rate of 8% annually, resulting in future annual savings of approximately \$215 thousand based on the number of shares of Preferred Stock currently outstanding. Also, with this action, the Company is relieved from terms that provide for the future mandatory redemption of all outstanding Preferred Stock in cash at \$1 per share. Finally, the Company believes its balance sheet will be positively impacted with the removal of the outstanding Preferred Stock and with an increase in Stockholders' Equity of approximately \$2,735,000.

Mike Burrow, Chairman and CEO, stated, "The conversion of ENGlobal's Preferred Stock to Common Stock eliminates a future repayment obligation in excess of \$2.7 million and simplifies and strengthens our balance sheet. These facts, along with the elimination of the 8% preferred dividend, will be helpful, especially given our plans for future growth. In summary, I believe that the combined results of this action will far outweigh the impact of the dilution to our existing common shareholders."

In an additional and unrelated recent action, the Company and Pivot Group, LLC have agreed to terminate the previously announced Asset Purchase Agreement for the purchase of substantially all of the assets of Thermal Corporation. The Company and Pivot have also mutually agreed to cancel the management contract that was originally in place until year-end. The Company is currently reviewing alternatives pertaining to this subsidiary, which represented approximately 2.3% of the Company's revenues for the first six months of 2003.

### About ENGlobal Corporation ("ENGlobal")

ENGlobal Corporation provides engineering services and engineered systems principally to the petroleum refining, petrochemical, and pipeline and process industries throughout the United States and across the globe. ENGlobal's multi-disciplinary engineering and design staff develops projects from the initial planning stage through detailed design, procurement, and construction management. The Engineered Systems Group develops, manufactures, installs, and services control and instrumentation systems utilized in various energy and processing related industries while its Technologies Division provides services and products that support the advanced automation and environmental technology fields. The Constant Power Division fabricates industrial grade uninterruptible electrical power systems and battery chargers. Further information about the Company and its subsidiaries is available at [www.englobal.com](http://www.englobal.com).

### Safe Harbor for Forward-Looking Statements

Certain matters discussed in this press release may constitute forward-looking statements within the meaning of the federal securities laws and are subject to risks and uncertainties including,
