WALTHAM, Mass.--(BUSINESS WIRE)--November 5, 2009--Global Partners LP (NYSE:GLP) today reported financial results for the quarter ended September 30, 2009.

Net income for the third quarter of 2009 was \$2.1 million, or \$0.15 per diluted limited partner unit, compared with net income of \$1.0 million, or \$0.07 per diluted limited partner unit, for the same period in 2008. Distributable cash flow for the third quarter of 2009 increased 20% to \$5.0 million, compared with \$4.2 million for the comparable quarter in 2008.

Sales for the third quarter of 2009 decreased to \$1.3 billion from \$2.3 billion for the same period in 2008 due to lower refined petroleum product prices this year compared with last year. Commercial segment volume increased 22% to 46.7 million gallons from 38.4 million gallons for the same period last year.

“Although we experienced slightly lower wholesale volumes year-over-year in the third quarter, we were pleased with the strong performance from our commercial business,” Slifka said.

The distribution will be paid November 13, 2009 to unitholders of record as of the close of business November 4, 2009.
- The Partnership has filed a definitive proxy statement with the Securities Exchange Commission ("SEC") in connection with a proposal to amend its partnership agreement. The definitive proxy materials will be mailed to unitholders of record as of November 5, 2009. **BEFORE MAKING ANY VOTING DECISION WITH RESPECT TO SUCH PROPOSAL, UNITHOLDERS ARE ADVISED TO READ THE PROXY STATEMENT BECAUSE IT CONTAINS IMPORTANT INFORMATION.** Unitholders may obtain a free-of-charge copy of the proxy statement and other relevant documents filed with the SEC from the SEC's web site at www.sec.gov.

- The Federal Trade Commission (FTC) has initiated a review of Global Partners' planned purchase of three refined petroleum terminals from Warex Terminals Corp. As a result of the FTC review, the transaction will not be completed in 2009. The transaction remains subject to the FTC review, receipt of certain regulatory approvals and various other customary closing conditions.

- Global Partners received BQ-9000 marketer certification from the National Biodiesel Board. BQ-9000 certification, which followed an independent audit, is a quality assurance program that evaluates biodiesel standards as well as a company's storage, sampling, testing, blending, shipping, distribution, and fuel management practices. The designation ensures Global's control standards have passed the National Biodiesel Accreditation Program's rigorous review and inspections process.

Business Outlook

“Through the first nine months of 2009, we have delivered solid results for unitholders across all of our key earnings metrics, and we have positioned the company for a strong year,” Slifka said. “The margin growth we have seen in both our wholesale and commercial businesses underscores our ability to enhance the value of our terminal assets as we further broaden our product mix. We are optimistic about our ability to build on that financial and operational success in the quarters ahead.”

Use of Non-GAAP Financial Measures

EBITDA

EBITDA is a non-GAAP financial measure used as a supplemental financial measure by management and external users of Global Partners’ consolidated financial statements, such as investors, commercial banks and research analysts, to assess the Partnership’s:

- compliance with certain financial covenants included in its debt agreements;
- financial performance without regard to financing methods, capital structure, income taxes or historical cost basis;
- ability to generate cash sufficient to pay interest on its indebtedness and to make distributions to its partners;
- operating performance and return on invested capital as compared to those of other companies in the wholesale, marketing and distribution of refined petroleum products, without regard to financing methods and capital structure; and
- the viability of acquisitions and capital expenditure projects and the overall rates of return of alternative investment opportunities.

EBITDA should not be considered as an alternative to net income, operating income, cash flow from operating activities or any other measure of financial performance or liquidity presented in accordance with GAAP. EBITDA excludes some, but not all, items that affect net income, and this measure may vary among other companies. Therefore, EBITDA may not be comparable to similarly titled measures of other companies.

Distributable Cash Flow

Distributable cash flow is an important non-GAAP financial measure for Global Partners’ limited partners since it serves as an indicator of the Partnership’s success in providing a cash return on their investment. Distributable cash flow means the Partnership’s net income plus depreciation and amortization less its maintenance capital expenditures.

Specifically, this financial measure indicates to investors whether or not the Partnership has generated sufficient earnings on a current or historic level that can sustain or support an increase in its quarterly cash distribution. Distributable cash flow is a quantitative standard used by the investment community with respect to publicly traded partnerships. Distributable cash flow should not be considered as an alternative to net income, cash flow from operations, or any other measure of financial performance presented in accordance with GAAP. In addition, Global Partners' distributable cash flow may not be comparable to distributable cash flow or similarly titled measures of other companies.

(1) On January 1, 2009, the Partnership adopted guidance issued by the Financial Accounting Standards Board to the calculation of earnings per unit. This guidance provides that net income for the current period is to be reduced by the amount of available cash that will be distributed with respect to that period for purposes of calculating net income per unit. Any residual amount representing undistributed net income (or losses) is assumed to be allocated to the ownership interests in accordance with the contractual provisions of the partnership agreement. Under the Partnership's partnership agreement, for any quarterly period, the incentive distribution rights ("IDRs") participate in net income only to the extent of the amount of cash distributions actually declared, thereby excluding the IDRs from participating in the Partnership's undistributed net income or loss. Accordingly, the Partnership's undistributed net income is assumed to be allocated to the limited partners' interest and to the general partner's interest. The Partnership adopted this guidance on a retroactive basis which had an immaterial impact on the limited partners' interest in net income and net income per limited partner unit (basic and diluted) for the three and nine months ended September 30, 2008.
