CHINA DIRECT, INC. AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS MARCH 31, 2007

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS

THE COMPANY

China Direct, Inc., a Delaware corporation formerly known as Evolve One, Inc., and its subsidiaries are referred to in this report as the "Company," or "China Direct". China Direct Investments, Inc., a Florida corporation and a wholly owned subsidiary of China Direct, Inc. is referred to in this report as China Direct Consulting. CDI China, Inc., a Florida corporation and a wholly owned subsidiary of China Direct, Inc. is referred to in this report as CDI China.

Evolve One, Inc., ("Evolve One") a Delaware corporation acquired 100% of China Direct Consulting on August 16, 2006 (the "Transaction") in exchange for 10,000,000 shares of Evolve One common stock, after which the shareholders of China Direct Consulting owned approximately 95% of the existing shares of Evolve One. As a result of the August 16, 2006 Transaction, China Direct Consulting became a wholly owned subsidiary of Evolve One. For financial accounting purposes, the Transaction was treated as a recapitalization of Evolve One with the former stockholders of the Evolve One retaining approximately 5% of the outstanding stock. This Transaction has been accounted for as a reverse acquisition under the purchase method for business combinations, and accordingly the Transaction has been treated as a recapitalization of China Direct Consulting, with China Direct Consulting as the acquirer. The shares issued in the Transaction are treated as being issued for cash and are shown as outstanding for all periods presented in the same manner as for a stock split. In September 2006 Evolve One changed their name to China Direct, Inc.

China Direct is a diversified management and consulting company.

Our purpose is twofold; (i) offer turn key consulting services to Chinese entities and (ii) acquire controlling interest in companies operating within the Chinese economy. China Direct seeks to provide an infrastructure for development.

China Direct operates two wholly owned entities; China Direct Consulting and CDI China. China Direct Consulting serves as a full service consulting and advisory firm offering a suite of services.

CDI China operates as a management company for Chinese entities. CDI China seeks to acquire a controlling interest in entities operating in China. CDI China was incorporated under the laws of the State of Florida on August 25, 2006. The goal of CDI China is to acquire a majority interest in a variety of Chinese entities engaged in operations which we believe will benefit from the continued growth of the Chinese economy. Examples of industries in which we will focus our efforts include manufacturing, technology, mining, healthcare, packaging, food and beverage, as well as companies involved in importing and exporting activities.

ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates in 2007 and 2006 include the allowance for doubtful accounts of accounts receivable, stock-based compensation, and the useful life of property, plant and equipment.

CASH AND CASH EQUIVALENTS

For purposes of the consolidated statements of cash flows, the Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents.

CONCENTRATION OF CREDIT RISKS

CONCENTRATION OF CREDIT RISKS (CONTINUED)

To reduce its risk, the Company periodically evaluates the credit quality of the financial institutions at which it holds deposits.

China Direct Consulting receives securities which include common stock and common stock purchase warrants from companies as part of its compensation for services. These securities are stated at fair value in accordance with SFAS #115 "Accounting for certain investments in debt and equity securities" and EITF 00-8 "Accounting by a grantee for an equity instrument to be received in conjunction with providing goods or services". Primarily all of the securities are received from small public companies. The securities received are typically restricted as to resale. The policy of China Direct Consulting is to sell securities it receives as compensation when permitted, rather than hold on to these securities as long term investments, regardless of market conditions in an effort to satisfy our current obligations. As these securities are often restricted, we are unable to liquidate these securities until the restriction is removed. The Company recognizes revenue for such common stock based on the fair value at the time common stock is granted and for stock purchase warrants based on the Black-Scholes valuation model. Unrealized gains or losses on marketable securities, held for sale and unrealized gains or losses on marketable securities, held for sale-related party are recognized as an element of comprehensive income in our consolidated statement of operations on a monthly basis based on changes in the fair value of the security as quoted on national or inter-dealer stock exchanges. Once liquidated, the realized gain or loss on the sale will be reflected in our net income for the period in which the security was liquidated.

The Company categorizes securities as investment in marketable securities, held for sale and investment in marketable securities, held for sale-related party. One client, Dragon Capital Group Corp., a related party, accounted for all of our investment in marketable securities, held for sale-related party at March 31, 2007 of \$1,410,800. These securities were issued to us by Dragon Capital Group Corp., a related party, which is a non reporting company whose securities are quoted on the Pink Sheets. Under Federal securities laws these securities cannot be readily resold by us generally absent a registration of those

Edgar Filing: China Direct, Inc - Form 10QSB

securities under the Securities Act of 1933. Dragon Capital Group Corp., the related party, does not intend to register the securities. Accordingly, while under generally accepted accounting principles we are required to reflect the fair value of these securities on our consolidated balance sheet, they are not readily convertible into cash and we may never realize the carrying value of these securities.

We provide consulting services to Dragon Capital Group Corp., a related party. Mr. Lisheng (Lawrence) Wang the CEO and Chairman of the Board of Dragon Capital Group Corp. is the brother of Dr. James Wang, our CEO and Chairman.

INCOME TAXES

Income taxes are accounted for in accordance with SFAS No. 109, Accounting for Income Taxes. SFAS No. 109 requires the recognition of deferred tax assets and liabilities to reflect the future tax consequences of events that have been recognized in the Company's financial statements or tax returns. In the event the future consequences of differences between financial reporting bases and tax bases of the Company's assets and liabilities result in a deferred tax asset, SFAS No. 109 requires an evaluation of the probability of being able to realize the future benefits indicated by such assets. A valuation allowance related to a deferred tax asset is recorded when it is more likely than not that some or the entire deferred tax asset will not be realized.

Revenues from the sale of products are recorded when the goods are shipped, title passes, and collectibility is reasonably assured.

STOCK BASED COMPENSATION

In December 2004, the FASB issued SFAS No. 123(R), "Share-Based Payment", which replaces SFAS No. 123 and supersedes APB Opinion No. 25. Under SFAS No. 123(R), companies are required to measure the compensation costs of share based compensation arrangements based on the grant date fair value and recognize the costs in the financial statements over the period during which employees are required to provide services. Share based compensation arrangements include stock options, restricted share plans, performance based awards, share appreciation rights and employee share purchase plans. In March 2005 the SEC issued Staff Accounting Bulletin No. 107, or "SAB 107". SAB 107 expresses views of the staff regarding the interaction between SFAS No. 123(R) and certain SEC rules and regulations and provides the staff's views regarding the valuation of share based payment arrangements for public companies. SFAS No. 123(R) permits public companies to adopt its requirements using one of two methods. On April 14, 2005, the SEC adopted a new rule amending the compliance dates for SFAS 123R. Companies may elect to apply this statement either prospectively, or on a modified version of retrospective application under which financial statements for prior periods are adjusted on a basis consistent with the pro forma disclosures required for those periods under SFAS 123. Effective January 1, 2006, the Company has fully adopted the provisions of SFAS No. 123R and related interpretations as provided by SAB 107. As such, compensation cost is measured on the date of grant as the excess of the current market price of the underlying stock over the exercise price. Such compensation amounts, if any, are amortized over the respective vesting periods of the option grant.

RECENT PRONOUNCEMENTS

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" ("FAS 157"). This Statement defines fair value as used in numerous accounting pronouncements, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosure related to the use of fair value measures in financial statements. The Statement is to be effective for the Company's financial statements issued in 2008; however, earlier application is encouraged. The Company is currently evaluating the timing of adoption and the impact that adoption might have on its financial position or results of operations.

In September 2006, the Staff of the SEC issued SAB No. 108: "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements". SAB No. 108 provides guidance on the consideration of the effects of prior year misstatements in quantifying current year misstatements for the purpose of determining whether the current year's financial statements are materially misstated. The SEC staff believes registrants must quantify errors using both a balance sheet and income statement approach and evaluate whether either approach results in quantifying a misstatement that, when all relevant quantitative and qualitative factors are considered, is material. This Statement is effective for fiscal years ending after November 15, 2006. The adoption of SAB No. 108 did not have a significant impact on the company's consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities—including an amendment of FAS 115" (Statement 159). Statement 159 allows entities to choose, at specified election dates, to measure eligible financial assets and liabilities at fair value that are not otherwise required to be measured at fair value. If a company elects the fair value option for an eligible item, changes in that item's fair value in subsequent reporting periods must be recognized in current earnings. Statement 159 is effective for fiscal years beginning after November 15, 2007. We are currently evaluating the potential impact of Statement 159 on our financial statements. The Company is currently evaluating the timing of adoption and the impact that adoption might have on its financial position or results of operations.

NOTE 14 - OPERATING RISK

(a) Country risk

The majority of the Company's revenues will be derived from the sale of magnesium and chemical products in the Peoples Republic of China (PRC). The Company hopes to expand its operations to countries outside the PRC, however, such expansion has not been commenced and there are no assurances that the Company will be able to achieve such an expansion successfully. Therefore, a downturn or stagnation in the economic environment of the PRC could have a material adverse effect on the Company's financial condition.

(b) Products risk

In addition to competing with other companies, the Company could have to compete with larger US companies who have greater funds available for expansion, marketing, research and development and the ability to attract more qualified personnel if access is allowed into the PRC market. If US companies do gain access to the PRC markets, they may be able to offer products at a lower price. There can be no assurance that the Company will remain competitive should this occur.

CHINA DIRECT, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2007

NOTE 14 - OPERATING RISK (CONTINUED)

(c) Exchange risk

The Company can not guarantee that the current exchange rate will remain steady, therefore there is a possibility that the Company could post the same amount of profit for two comparable periods and because of a fluctuating exchange rate actually post higher or lower profit depending on exchange rate of Chinese Renminbi converted to US dollars on that date. The exchange rate could fluctuate depending on changes in the political and economic environments without notice.

(d) Political risk

Currently, PRC is in a period of growth and is openly promoting business development in order to bring more business into PRC. Additionally PRC allows a Chinese corporation to be owned by a United States corporation. If the laws or regulations are changed by the PRC government, the Company's ability to operate the PRC subsidiaries could be affected.

(e) Key personnel risk

The Company's future success depends on the continued services of executive management in China and the United States. The loss of any of their services would be detrimental to the Company and could have an adverse effect on business development. The Company maintains key-man insurance on the lives of the executive management. Future success is also dependent on the ability to identify, hire, train and retain other qualified managerial and other employees. Competition for these individuals is intense and increasing.

(f) Performance of subsidiaries risk

The majority of the Company's revenues will be derived via the operations of the

Edgar Filing: China Direct, Inc - Form 10QSB

Company's majority owned Chinese subsidiaries. Economic, governmental, political, industry and internal company factors outside of the Company's control affect each of the subsidiaries. If the subsidiaries do not succeed, the value of the assets and the price of our common stock could decline.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

The following discussion and analysis of our consolidated financial condition and results of operations for the three months ended March 31, 2007 and 2006 should be read in conjunction with the unaudited consolidated financial statements, including footnotes, and other information presented elsewhere in this Form 10-QSB.

OVERVIEW

Edgar Filing: China Direct, Inc - Form 10QSB

On August 16, 2006 we acquired 100% of the issued and outstanding stock of China Direct Consulting in exchange for 10,000,000 shares of our common stock which, at closing, represented approximately 95% of our issued and outstanding shares of our common stock. Prior to the transaction we were a shell company for a limited period of time immediately prior to the acquisition, and previously had conducted various business operations. As a result, China Direct Consulting became a wholly owned subsidiary of our company. For financial accounting purposes, the transaction was treated as a recapitalization of our company with the former stockholders of our company retaining approximately 5% of the outstanding stock. As such, our consolidated financial statements have been prepared as if China Direct Consulting was the acquiror. As a result, the business of China Direct Consulting became the business of our company.

China Direct Consulting

China Direct Consulting was organized in January 2005 and provides specialized business consulting services exclusively to Chinese entities seeking access to the U.S. capital markets. China Direct Consulting enters into agreements with clients to provide services for a fixed consulting fee. The amount of the consulting fee varies based upon the scope of the services to be rendered. Historically, a significant portion of the fees earned by China Direct Consulting have been paid in shares of its client's securities which are valued at fair market value for the purposes of our revenue recognition. Depending upon the particular client, China Direct Consulting may receive either unregistered securities with registration rights or a client may issue securities directly to our employees. The policy of China Direct Consulting is to sell securities it receives as compensation when permitted, rather than hold on to these securities as long term investments, regardless of market conditions, in an effort to satisfy our current obligations.

China Direct Consulting currently has five client companies, including one client which is a related party. Accordingly China Direct Consulting is dependent on revenues generated from these five clients. For the three months ended March 31, 2007, four of the clients represented approximately 87% of the revenues of China Direct Consulting. Revenues from China Direct Consulting represented approximately 6.8% of our consolidated revenues for the three months ended March 31, 2007.

The fees due under the contracts with our consulting clients are amortized over the term of the agreement. Our consolidated balance sheet at March 31, 2007 appearing elsewhere herein reflects both deferred revenues short term, which will be recognized by us during the next 12 months, and deferred revenues - long term which will be recognized beyond the 12 month period. In instances where the securities accepted for payment are issued directly to employees, we recognize the revenue represented by those securities consistent with our revenue recognition policy and the net value of those securities, after deduction of any costs of those revenues, are then deemed compensation paid to the particular employee.

-40-

Our cost of revenues include direct costs we incur in rendering the services to our client companies, which include fees paid to professional resources including but not limited to marketing, legal and accounting services directly related to each particular client. In addition, we may engage certain third party professionals to assist in providing the contracted services to a client company. The costs associated with these third party professionals are included in our cost of revenues.

Our arrangements with our consulting clients generally provide that

Edgar Filing: China Direct, Inc - Form 10QSB

fees paid to China Direct Consulting will cover the costs of various professional resources including but not limited to attorneys, accounting personnel and auditors providing services on behalf of the client company. As these professionals generally will not provide services on a fixed fee basis, and the scope of the services necessary for a particular client company can vary from project to project, our cost of revenues can ultimately be significantly higher than initially projected which can adversely impact our gross profit margins. Furthermore fees for professional services cannot be satisfied with securities. As such the policy of China Direct Consulting is to sell securities it receives as compensation when permitted, rather than hold on to these securities as long term investments, regardless of market conditions, in an effort to satisfy our current obligations, due in part, to these professional resources.

While it is not our policy to hold securities we accept as payment for services as long term investments, we are not always able to immediately liquidate such securities as a result of either market conditions or restrictions on resale imposed by Federal securities laws. Primarily all of the securities are received from small public companies. The securities received are typically restricted as to resale. The policy of China Direct Consulting is to sell securities it receives as compensation when permitted, rather than hold on to these securities as long term investments, regardless of market conditions in an effort to satisfy our current obligations. As these securities are often restricted, we are unable to liquidate these securities until the restriction is removed. China Direct Consulting recognizes revenue for such common stock based on the fair value at the time common stock is granted and for stock purchase warrants based on the Black-Scholes valuation model. China Direct Consulting receives securities from clients as compensation for consulting services, which are typically restricted as to resale. Unrealized gains or losses on marketable securities held for sale as well as unrealized gains or losses on marketable securities held for sale-related party are recognized as an element of comprehensive income in our consolidated statement of operations on a monthly basis based on changes in the fair value of the security as quoted on national or inter-dealer stock exchanges. Once liquidated, we will include the realized gain or loss on the sale in our net income for the period in which the security was liquidated. Fluctuations in the value of securities can significantly increase or decrease our comprehensive income, if the price of the securities increases from the original value assigned to it at the time the related revenue was recognized. Conversely, if the price were to decline, such decreases could negatively impact our comprehensive income.

Based upon both the experiences of its management during its first year of operation as well as the professional experience of its principals, during the third quarter of fiscal 2006 we expanded the scope of our company through the establishment of an additional operating division known as CDI China. The primary focus of our operations is CDI China.

-41-

CDI China

CDI China operates as a management company for Chinese entities. CDI China seeks to acquire a majority, controlling interest in entities operating within China which are engaged in businesses that we believe could benefit from the continuing growth of the Chinese economy. Examples of industries in which are focusing our efforts include manufacturing, technology, mining, healthcare, packaging, food and beverage, as well as companies involved in importing and exporting activities. We have initially targeted medium sized entities, generally including companies with less than \$100 million in annual revenue, which we believe offer the greatest opportunities for growth.

Edgar Filing: China Direct, Inc - Form 10QSB

The business model for CDI China is to acquire a majority interest in Chinese entities, thereby creating a diversified portfolio of subsidiaries operating within the Chinese economy. CDI China utilizes resources available to us by virtue of our public company status to provide working capital and financial and operation support to augment our subsidiaries' growth. The acquisition of a majority interest of a Chinese entity will be achieved either via a share exchange or a purchase of stock or a combination of both. The consideration for the acquisition will be directly related to the shareholder equity of the acquisition target. We then utilize resources available to us by virtue of our public company status to provide working capital enabling our portfolio companies to grow its business and operations. In order to increase the likelihood that we can raise capital as necessary, in January 2007 we engaged Roth Capital Partners, LLC, a broker-dealer and member of the National Association of Securities Dealers, Inc., to serve as our exclusive financial advisor and investment banker.

During fiscal 2006 we closed the acquisitions of Lang Chemical and Chang Magnesium. Lang Chemical specializes in the sale and distribution of industrial grade synthetic chemicals. Chang Magnesium was formed by Taiyuan YiWei Magnesium Co. Ltd. to operate a newly constructed magnesium plant that processes and manufactures a variety of magnesium by-products, including magnesium powder, magnesium scrap and various grades of magnesium slabs. Taiyuan YiWei Magnesium is a diversified magnesium organization which owns interests in seven subsidiary magnesium factories, a magnesium alloy factory and a magnesium powder desulphurization reagent factory, all located in China. Following our acquisition of Chang Magnesium, Mr. Yuwei Huang, Taiyuan YiWei Magnesium's Chairman, now also serves as Chang Magnesium's CEO and an Executive Vice President for CDI Shanghai Management. In June 2006, prior to our acquisition of Chang Magnesium, it acquired 100% of Changxin Trading, an exporter of magnesium products which was formed in November 2003.

During fiscal 2006 we also formed several companies, including:

- o In October 2006 we formed Luma Logistic in which CDI China holds a 60% interest. Mr. Yonghua Cai is the minority holder of Luma Logistic.

- o In November 2006 we formed CDI Shanghai Management and it commenced operations in January 2007. CDI Shanghai Management serves as the management company for our subsidiaries based in China, providing operational support and infrastructure as well as supervising and monitoring the operations of those subsidiaries. CDI Shanghai Management also markets the services of both China Direct Consulting and CDI China in China.

- o In November 2006 we formed Big Tree in which CDI China holds a 60% interest. Ms. Guihong Zheng, vice president of Big Tree, holds the remaining 40% interest. Big Tree intends to enter into the toy and entertainment industry within China. Initially Big Tree intends to be a reseller and distributor of toys and related entertainment products within China. Big Tree will attempt to focus its efforts towards smaller manufacturers who lack a proprietary sales or distribution network.

-42-

In February 2007, as amended CDI China acquired a 60% interest in Jieyang Big Tree, a Sino-American joint venture which was formed in January 2007. Jieyang Big Tree, which is located in Shantou City, China, will seek to operate in two business segments within the toy and related entertainment products industry in China; including the distribution of toys and related entertainment products and as an agent of third party OEM manufacturing of toys and related entertainment products. Jieyang Big Tree expects to commence operations in June 2007.

Edgar Filing: China Direct, Inc - Form 10QSB

During the first quarter of fiscal 2007, we have further expanded CDI China's operations through the following transactions:

o In January 2007 we formed Jinan. In February 2007 CDI China acquired 51% of CDI Wanda. CDI Wanda, organized in 1996 and located in Jinan, the capital city of Shandong Province, PRC, is engaged in the alternative energy and recycling industry. The current management of CDI Wanda, Messrs. Dai Feng and Zhou Zaigen, continue to operate the company following this transaction. Our consolidated statement of operations for the three months ended March 31, 2007 include the operations of CDI Wanda for the period of February 12, 2007, the date of acquisition, through March 31, 2007 (the CDI Wanda Reporting Period").

In April 2007 Jinan entered into an oral agreement to form a new entity in coordination with Guangdong Qingyuan Changxin Waste Material Renewable Processing Co., Ltd. Pursuant to a joint venture agreement, Jinan has the option to contribute capital up to \$1,310,000 to acquire a 51% ownership interest in a new entity to be created by Guangdong Qingyuan Changxin Waste Material Renewable Processing Co., Ltd. Jinan is currently reviewing the opportunity and has not made the determination to exercise its option, nor have the terms of the investment been determined.

o In February 2007 CDI Shanghai Management formed Capital One which will serve as a marketing arm for our company in the greater Asia region outside of China. Capital One will seek to market to Hong Kong and Southeast Asia, leveraging relationships of CDI Shanghai Management within local business communities as well as with local provincial government officials to assist in identifying business opportunities. Mr. Xiaowen (Robert) Zhuang, general manager of CDI Shanghai Management, will supervise and monitor the operations of Capital One. Mr. Zhuang is the brother of Dr. James Wang, our CEO and Chairman.

o In February 2007, CDI China acquired a 60% majority interest in CDI Magnesium, a company incorporated in Brunei in February 2007 by Shanxi Jinyang Coal and Coke Group Co., Ltd. CDI Magnesium was formed to operate a newly constructed magnesium alloy plant in Taiyuan, China. It is expected that the plant will process and manufacture a variety of magnesium alloy products. CDI Magnesium expects to commence operations in July 2007.

o In February 2007 Chang Magnesium formed Excel Rise as a wholly owned subsidiary. Excel Rise operates as an exporter of magnesium products to Europe, Australia and Canada. The major suppliers will be Taiyuan Tongxiang Magnesium Co. Ltd, Taiyuan Qingchen YiWei Magnesium Industry Co. Ltd., Taiyuan YiWei Magnesium Factory, Taiyuan YiWei Magnesium Co. Ltd. and Shanxi Nichimen YiWei Magnesium Industry Co., Ltd., all related parties.

As a result of the foregoing, during the three months ended March 31, 2007 our consolidated revenues including revenues from Lang Chemical, Chang Magnesium, and CDI Wanda. In the aggregate, revenues from CDI China, as the majority owner of Lang Chemical, Chang Magnesium, and CDI Wanda, represented approximately 93.2% of our consolidated revenues. We did not report any revenues related to Luma Logistics, Big Tree, Jieyang Big Tree, or CDI Magnesium during the first quarter of fiscal 2007.

-43-

As described later in this section, during the first three months of fiscal 2007 China Direct Consulting, Lang Chemical, Chang Magnesium and CDI Wanda have all significantly increased their revenues from the comparable periods in fiscal 2006. Since our acquisitions of Lang Chemical and Chang Magnesium during the fourth quarter of fiscal 2006 through March 31, 2007 we have provided those companies with approximately \$2 million of additional

Edgar Filing: China Direct, Inc - Form 10QSB

working capital. In order to support those revenue increases, as well as to further increase their market shares, we expect to provide additional working capital to each entity by the end of fiscal 2008, including approximately \$1,350,000 to CDI Wanda and approximately \$1,250,000 to Chang Magnesium. We also continue our efforts to expand our professional staff at China Direct Consulting to support growth at that division. We believe we can bring a more Western-style business acumen and bring efficiencies to each of our subsidiaries, which may reduce unnecessary operating expenses and increase our profits from these operations. Finally, subject to the availability of sufficient working capital, during fiscal 2007 we hope to further expand our operations through revenues from Big Tree, Jieyang Big Tree and CDI Magnesium.

During the balance of fiscal 2007 and beyond we also face a number of challenges in growing our business, including continuing the integrating the operations of our subsidiaries based in China, as well as developing the operations of our newly formed subsidiaries. We will need to secure additional working capital to provide funds for our subsidiaries to enable each to grow its business and operations. During fiscal 2007 we will also work with the management of the recent acquisitions to identify strategies to maximize the potential of the subsidiaries. These strategies may take the form of an investment for a new factory, increase in manufacturing capacity, upgrading of existing facilities, marketing, hiring and training of additional workforce personnel, or acquiring assets complimentary to these companies. As a result of the rapid growth of our company since the third quarter of fiscal 2006, we also face challenges related to hiring and training the necessary personnel to manage these operations.

Even though we are a U.S. company, many of our subsidiaries and their operations are located in China. As such we face certain risks associated with doing business in that country. These risks include risks associated with the ongoing transition from state business ownership to privatization, operating in a cash-based economy, dealing with inconsistent government policies, unexpected changes in regulatory requirements, export restrictions, tariffs and other trade barriers, challenges in staffing and managing operations in a communist country, differences in technology standards, employment laws and business practices, longer payment cycles and problems in collecting accounts receivable, changes in currency exchange rates and currency exchange controls. We are unable to control the vast majority of these risks associated both with our operations and the country in which they are located and these risks could result in significant declines in our revenues and adversely affect our ability to continue as a going concern.

REVENUES

Our revenues for the three months ended March 31, 2007 were \$30,938,940 as compared to revenues of \$206,415 for the three months ended March 31, 2006. Included in revenues for the three months ended March 31, 2007 were revenues of \$2,109,130 attributable to China Direct Consulting (approximately 6.8% of total revenues), revenues of \$12,394,612 attributable to Lang Chemical (approximately 40.1% of total revenues), revenues of \$14,416,451 attributable to Chang Magnesium (approximately 46.6% of total revenues), and revenues of \$2,018,748 attributable to CDI Wanda (approximately 6.5% of total revenues). For the period ending March 31, 2006 our revenues were solely from the operations of China Direct Consulting.

China Direct Consulting generates revenues from the provision of consulting services to its client companies. China Direct Consulting's revenues for the first quarter of fiscal 2007 increased \$1,902,715, or approximately 922%, from the first quarter of fiscal 2006. This increase is primarily attributable to revenues from new consulting contracts or additional services rendered to existing clients.

Included in China Direct Consulting's revenues for March 31, 2007 are cash revenues of \$536,205 and revenues attributable to the value of marketable securities received as compensation for its services of \$1,572,925. Of the \$1,572,925 in revenues attributable to the value of marketable securities received as compensation, \$1,132,925 is related to compensation for services from non-affiliated third party clients and \$440,000 is related to the value of marketable securities received by a client company which is a related party. Included in China Direct Consulting's revenues for March 31, 2006 are cash revenues of \$14,840 and cash revenues from a related party of \$100,000 and revenues attributable to the value of marketable securities received as

Edgar Filing: China Direct, Inc - Form 10QSB

compensation for its services of \$91,575.

For the three months ended March 31, 2007 China Direct Consulting generated revenues of \$440,000 from Dragon Capital Group Corp., a related party, which represents the value of marketable securities received as compensation. For the three months ended March 31, 2006, we received cash fees of \$100,000 from Dragon Capital Group Corp.

Management expects revenues for China Direct Consulting will continue to increase during the balance of fiscal 2007. Following our capital raise in the fourth quarter of fiscal 2006 we began expanding our infrastructure to support the addition of more consulting clients. To date, we have added personnel in the areas of business representation, accounting, legal and administration and we are actively marketing China Direct Consulting's services to potential new clients. In addition, China Direct Consulting will record deferred revenue in each of fiscal 2007 and fiscal 2008 which represents revenues China Direct Consulting has received for services which are being amortized over the term of the consulting agreements. We anticipate that \$779,900 will be recognized over the next 12 months, and the remaining \$584,925 will be recognized prior to December 31, 2008.

Lang Chemical generated revenues of \$12,394,612 for the three months ended March 31, 2007 from the sale and distribution of industrial grade synthetic chemicals. The majority of Lang Chemical's customers are industrial manufacturing facilities and trading companies. As described in Note 7-Pro Forma Financial Information (unaudited) to the consolidated financial statements appearing elsewhere in this quarterly report, for the three months ended March 31, 2006 Lang Chemical had total sales of \$6,678,140. The increase in revenues from the three months ended March 31, 2006 and the fiscal 2007 period is primarily attributable to the expansion of products offered by Lang Chemical. Based upon information known to us at this time, we anticipate that Lang Chemical's revenues will continue to increase in the remaining periods of fiscal 2007.

-46-

Chang Magnesium generated revenues of \$14,416,451 for the three months ended March 31, 2007. Chang Magnesium and its wholly owned subsidiary Changxin Trading process and distribute various forms of magnesium including magnesium powder, magnesium scrap, magnesium alloy and various grades of ordinary magnesium slabs. As set forth in Note 7-Pro Forma Financial Information (unaudited) to the consolidated financial statements appearing elsewhere in this quarterly report, for the three months ended March 31, 2006 Chang Magnesium had total revenues of \$5,315,805. The increase in revenues from the three months ended March 31, 2006 and the fiscal 2007 period is attributable to the commencement of operations of the refinery as well as the addition of Excel Rise. During the three months ended March 31, 2006 Chang Magnesium's operations were limited to its Changxin Trading subsidiary. Based upon information known to us at this time, we also reasonably believe it will report increasing revenues for the remaining periods of fiscal 2007.

For the CDI Wanda Reporting Period, CDI Wanda generated revenues of \$2,018,748 from the sale of environmentally safe recycling technological applications. As set forth in Note 7-Pro Forma Financial Information (unaudited) to the consolidated financial statements appearing elsewhere in this quarterly report, for the three months ended March 31, 2006 CDI Wanda had total sales of \$20,265. The increase in revenues from the fiscal 2006 period to the fiscal 2007 period is attributable to increased market acceptance of our environmentally friendly technological applications. In the first quarter of 2007 CDI Wanda generated non-recurring revenues of \$1,240,000 from Evermore Energy Company, located in Australia, and revenues of \$415,000 from Russian Aurora Energy

Edgar Filing: China Direct, Inc - Form 10QSB

Company located in Russia. Based upon information known to us at this time, we also reasonably believe it will report increasing revenues for the remaining periods of fiscal 2007.

COST OF REVENUES AND GROSS PROFIT

For the three months ended March 31, 2007, our total cost of revenues was \$27,467,014, as compared to \$15,260 for the three months ended March 31, 2006, an increase of \$27,451,754 or approximately 179,893%. Of the total cost of revenues of \$27,467,014, \$12,098,500 is attributable to Lang Chemical, \$13,496,206 is attributable to Chang Magnesium, \$1,591,140 is attributable to CDI Wanda for the CDI Wanda Reporting Period only, and \$281,168 is attributable to China Direct Consulting.

Cost of revenues for China Direct Consulting includes direct costs it incurs in rendering the services to its client companies, which include marketing, business development, legal, auditing and accounting fees directly related to the particular client. In addition, it may engage certain third party consultants to assist in providing the contracted services to the client company and the costs of those third party consultants are included in its cost of revenues. China Direct Consulting's arrangements with its consulting clients generally provide that its fee will cover the costs of attorneys, accounting personnel, and auditors working on behalf of the client company. As these professionals generally will not provide services on a fixed fee basis, and the scope of the services necessary for a particular client company can vary from project to project, China Direct Consulting's cost of revenues can ultimately be significantly higher than it initially projected, which can adversely impact our gross profit margins. China Direct Consulting's cost of revenues was approximately 13% for the three months ended March 31, 2007 as compared to approximately 7% for the three months ended March 31, 2006. These costs of revenues in future periods are expensed as incurred and, accordingly, while the revenues from contracts will be recognized ratably over the term of the agreement, the gross profit margin on revenues from these deferred revenues can vary from period to period, as evidenced by the change from the three months ended March 31, 2007 to 2006.

-47-

Lang Chemical's cost of revenues includes the cost of goods it sells. For the three months ended March 31, 2007, Lang Chemical's cost of revenues was \$12,098,500 or approximately 97.6% of its revenues, which is consistent with its historical operations. As set forth in Note 7 Pro Forma Financial Information (unaudited) to the consolidated financial statements appearing elsewhere in this quarterly report, for the three months ended March 31, 2006, its cost of revenues was approximately 98.5% of its total sales. We estimate gross margins for Lang Chemical could potentially improve with the application of more Western-style cash management.

Chang Magnesium's cost of revenues includes the cost of goods it sells. For the three months ended March 31, 2007, Chang Magnesium's cost of revenues was \$13,496,206 or approximately 93.6% of its revenues. As set forth in Note 7- Pro Forma Financial Information (unaudited) to the consolidated financial statements appearing elsewhere in this quarterly report, for the three months ended March 31, 2006 cost of revenues for Chang Magnesium was approximately 99.5% of its total sales. This reduction in cost of revenues as a percentage of revenues and improvement in gross margin for the three months ended March 31, 2007 is attributable to reduced cost of goods on inventory levels maintained at December 31, 2006. We anticipate that Chang Magnesium will continue to report gross profit margins ranging from 5% to 6% during the balance of fiscal 2007.

CDI Wanda's cost of revenues includes the cost of goods it sells. For

Edgar Filing: China Direct, Inc - Form 10QSB

the CDI Wanda Reporting Period, cost of revenues for CDI Wanda was approximately 79% of its revenues. As set forth in Note 7-Pro Forma Financial Information (unaudited) to the consolidated financial statements appearing elsewhere in this annual report, for the three months ended March 31, 2006 cost of revenues for CDI Wanda was approximately 58% of its total sales. This increase in cost of revenues as a percentage of revenue and reduction in gross margin for the three months ended March 31, 2007 is attributable to increased cost of raw materials related to sales to two foreign sources who requested specific qualifications which increased the cost of goods sold on these orders. We expect CDI Wanda will generate gross margins of 10% to 15% in during the balance of fiscal 2007.

TOTAL OPERATING EXPENSES

Our total operating expenses for the three months ended March 31, 2007 were \$837,509 as compared to \$344,140 for the three months ended March 31, 2006, an increase of \$493,369, or approximately 143%. Of our total operating expenses for the three months ended March 31, 2007, \$427,144 is attributable to our parent company and China Direct Consulting which includes CDI Shanghai Management and its wholly owned subsidiary Capital One, \$36,118 is attributable to Lang Chemical, \$84,406 is attributable to Chang Magnesium, and \$289,841 is attributable to CDI Wanda.

The parent company and China Direct Consulting's operating expenses increased \$83,004, or approximately 24% the three months ended March 31 from 2007 to 2006. These operating expenses generally consist of selling, general and administrative expenses, including officers' and employees' compensation, professional fees, such as legal, accounting, and third party consultants, and travel expenses. The increase in the fiscal 2007 period reflects our recent increase in infrastructure. We anticipate that the operating expenses for the parent company and China Direct Consulting will continue to increase as we continue to expand our operations and implement our business model. Included in these anticipated increases are salaries and benefits for additional employees, increased marketing and advertising expenses as well as increased professional fees. In addition, unless there are further postponements by the Securities and Exchange Commission of the enactment of Section 404 of the Sarbanes-Oxley Act of 2002 as it relates to small business issuers such as our company, in connection with our annual report for our fiscal year ending December 31, 2007 our management will be required to provide an assessment of the effectiveness of our internal control over financial reporting, including a statement as to whether or not internal control over financial reporting is effective. In order to

-48-

comply with this requirement we will need to engage a consulting firm to undertake an analysis of our internal controls as we do not have the expertise to conduct the necessary evaluation. While we have yet to engage such a consulting firm, as a result of the diversity of our operations and the number of subsidiaries located outside the U.S. we expect the costs associated with the development of the necessary documentation and testing procedures required will be significant.

Lang Chemical's operating expenses include selling expenses as well as general and administrative expenses. Operating expenses for the first quarter of fiscal 2007 were \$36,118, and included selling expenses of \$101,662 and general and administrative expenses of \$37,397 which was offset by a bad debt recovery of \$102,942. As set forth in Note 7-Pro Forma Financial Information (unaudited) to the consolidated financial statements appearing elsewhere in this quarterly report, for the three months ended March 31, 2006 Lang Chemical had total operating expenses of \$92,226. We anticipate that Lang Chemical's operating expenses for the balance of fiscal 2007 will be consistent with those recognized for the 12 months ended December 31, 2006.

Edgar Filing: China Direct, Inc - Form 10QSB

Chang Magnesium's operating expenses of \$84,406 for the three months ended March 31, 2007 generally consists of selling expenses of \$45,962, and general and administrative expenses of \$38,444. As set forth in Note 7-Pro Forma Financial Information (unaudited) to the consolidated financial statements appearing elsewhere in this quarterly report, for the three months ended March 31, 2006 Chang Magnesium had total operating expenses of \$78,090 which represented approximately 1.5% of its sales for fiscal 2006 as compared to \$84,406, or approximately 0.6%, for the three months ended March 31, 2007. For the three months ended March 31, 2006 operating expenses for Chang Magnesium included shipping expenses, while for the three months ended March 31, 2007, Chang Magnesium passed the shipping expenses along to its customers. We anticipate that Chang Magnesium's operating expenses for fiscal 2007 will be consistent with those recognized for the 12 months ended December 31, 2006 and 2005, subject to any impact of shipping costs.

OTHER INCOME (EXPENSE)

Our total other income for the three months ended March 31, 2007 was \$23,129, as compared to \$411,675 for the three months ended March 31, 2006, a decrease of \$388,546 or approximately 94%. The decrease is primarily the result of an unrealized loss on trading securities of \$0 for the three months ended March 31, 2007 as compared to unrealized gain on trading securities of \$411,675 for the three months ended March 31, 2006, and a realized loss on the sale of marketable securities of \$15,973 for the three months ended March 31, 2007 as compared to realized gain on the sale of marketable securities of \$0 for the three months ended March 31, 2006. For the three months ended March 31, 2007 we reclassified investment in trading securities to investment in marketable securities held for sale; accordingly unrealized gains or losses on marketable securities held for sale are included as a component of comprehensive income. These decreases were offset by Lang Chemical's rental income of \$7,229 and Chang Magnesium's interest income \$12,990. CDI Wanda had an interest expense of \$1,374. As described elsewhere herein, the gain or loss is a result of fluctuations in the market price of the underlying security and these non cash gains or losses can have a significant impact, positive or negative, on our results of operations.

INCOME TAX BENEFIT (EXPENSE)

For the three months ended March 31, 2007 we recorded an income tax expense of \$232,572 as compared to an income tax expense of \$102,441 for the three months ended March 31, 2006, an increase of \$130,131, or approximately 127%. As we report profitable operations we are required to record income tax expenses on those operations. However, as the majority of revenues related to China Direct Consulting are paid in the form of securities, some of which are restricted from sale at the time received, our revenue model creates a risk that

-49-

we will not have sufficient cash resources to satisfy our tax obligations as they become due. China Direct Consulting provides its services pursuant to written agreements which may vary in duration. Revenues are recognized over the terms of the agreements. China Direct Consulting recognized revenues of \$1,572,925 and \$91,575 in connection with the receipt of securities based on the terms of the consulting contracts for the three months ended March 31, 2007 and 2006, respectively. China Direct Consulting recorded deferred revenues of \$1,364,825 in connection with the receipt of securities based on the terms of the consulting contracts at March 31, 2007. At March 31, 2007 our consolidated balance sheet reflects a deferred income tax liability for income tax of \$0. The recognition of these revenues, however, will not provide offsetting cash to us for the payment of current taxes.

Edgar Filing: China Direct, Inc - Form 10QSB

NET (LOSS) INCOME

For the three months ended March 31, 2007 we reported net income of \$1,870,869 as compared to net income of \$156,249 for the three months ended March 31, 2006, an increase of \$1,714,620 or approximately 1,097%. This increase for the three months ended March 31, 2007 is primarily attributable to net income of \$171,235 from Lang Chemical, adjusted for our 51% ownership interest, \$432,903 from Chang Magnesium, adjusted for our 51% ownership interest, \$69,560 from CDI Wanda, adjusted for our 51% ownership interest, and \$1,197,171 from China Direct Consulting.

UNREALIZED GAIN ON MARKETABLE SECURITIES HELD FOR SALE, NET OF INCOME TAX

As described elsewhere herein, if we are unable to liquidate securities received as compensation these securities are classified on our consolidated balance sheet as marketable securities held for sale. The unrealized gain on marketable securities held for sale, net of income tax, represents the change in the fair value of these securities as of the end of the financial reporting period. For the three months ended March 31, 2007, we recognized an unrealized loss of \$607,539 on marketable securities, held for sale, net of income tax, and \$341,458 on marketable securities held for sale-related party, net of income tax, for a total loss of \$948,997 as compared to an unrealized gain of \$1,141,560 for the three months ended March 31, 2006, a decrease of \$2,090,557 or 183%. Unrealized gains or losses on marketable securities held for sale and unrealized gains or losses on marketable securities, held for sale-related party are recognized as an element of comprehensive income in our consolidated statement of operations on a monthly basis based on changes in the fair value of the security as quoted on national or inter-dealer stock exchanges. Once liquidated, the realized gain or loss on the sale on marketable securities will be reflected in our net income for the period in which the security is liquidated. At March 31, 2007 and March 31, 2006 the total amount on marketable securities, held for sale reflect securities of Dragon Capital Group Corp., a related party, and this figure represents the value of securities we received as compensation. As described elsewhere herein, we may never be able to liquidate these securities.

COMPREHENSIVE INCOME

We reported comprehensive income of \$1,002,030 for the three months ended March 31, 2007 as compared to \$1,297,809 for the three months ended March 31, 2006, a decrease of \$295,779, or 23%. Comprehensive income includes the gain or loss of on all marketable securities, held for sale, including related party securities. These securities are valued based on changes in the fair value of the security as quoted on national or inter-dealer stock exchanges. Once liquidated, the realized gain or loss on the sale on marketable securities will be reflected in our net income for the period in which the security was liquidated. As mentioned earlier we reported a net income of \$1,870,869, foreign currency translation gain of \$80,158. These two figures when combined with the unrealized loss of \$948,997 as described in the section above amounts to \$1,002,030 of comprehensive income for the year ended March 31, 2007.

Edgar Filing: China Direct, Inc - Form 10QSB

- o a loan of \$438,421 due from Shantou Dashu to Jieyang Big Tree. This loan was made prior to our acquisition of control of Jieyang Big Tree.

- o an increase of \$1,081,907 in property and equipment, net of accumulated depreciation of \$226,250. This increase is attributable to the recent acquisitions of CDI Wanda, CDI Magnesium, and Jieyang Big Tree which represent increases of \$985,800, \$3,100 and \$100,000 respectively. These increases were offset by decreases of \$4,050, \$2,523, and \$420 in Lang Chemical, Chang Magnesium and China Direct Consulting, respectively, which reflect reductions in the carrying value as a result of depreciation.

- o an increase of \$66,666 in property use rights, net of accumulated amortization. In connection with the acquisition of CDI Magnesium, the Company acquired property use rights valued at \$66,666, whereby the Company has rights to use certain properties until February 12, 2010. The Company will begin amortizing this property use right over the three years beginning April 1, 2007.

- o an increase of \$2,191,400 in investment in marketable securities, held for sale. Investment in marketable securities, held for sale represents the value of securities held by China Direct Consulting which are restricted from sale. \$1,445,400 of the increase is related to marketable securities received during the three months ended March 31, 2007 and \$746,000 is related to the change in the value of marketable securities held at December 31, 2006. This represents the value of marketable securities held by China Direct Consulting at March 31, 2007 which were received as compensation for services rendered. This asset represents securities of Linkwell Corporation (OTCBB: LWLL), Dragon International Group Corp. (OTCBB: DRGG), Sunwin International Neutraceuticals, Inc. (OTCBB: SUWN) and Sense Holdings, Inc. (OTCBB: SEHO), all of which have fairly liquid trading markets. However, as these shares are all traded in the over the counter market which is generally not considered as liquid a market as an exchange such as NASDAQ, we may be unable to liquidate these securities at their current carrying value at such time as we are able to sell the securities,

- o an increase of \$85,400 in investment in marketable securities, held for sale-related party. This amount consists of securities of Dragon Capital Group Corp., a related party, received as compensation for services. \$340,000 of the increase is related to marketable securities received during the three months ended March 31, 2007, which was offset by a decrease of \$254,600 in the value of marketable securities held at March 31, 2007 from the carrying value at December 31, 2006. - o a decrease of \$98,820 in prepaid expenses-long term. At March 31, 2007 we reflect prepaid expenses-long term of \$222,728 as compared to \$321,548 at December 31, 2006. o a decrease of \$440,861 in deferred income tax payable. Deferred income tax will be due on deferred revenues when recognized. Ltd., a related party, advances from customers of \$5,907,531 and income taxes payable of \$371,543. At March 31, 2007 \$1,835,136 of our total liabilities relate to Lang Chemical and primarily consist of accounts payable and accrued expenses of \$1,142,817, loans payable-short term of \$330,422, and advances from customers of \$217,586. by operating activities, \$55,835 of cash provided by financing activities, \$506,231 of cash provided by investing activities, and the effect of prevailing exchange rate on cash of \$52,752.

-56-

Net cash provided by operating activities for the three months ended March 31, 2007 was \$1,763,463 as compared to net cash used in operating activities of \$(174,565) for the three months ended March 31, 2006, an increase of \$1,938,028. For the three months ended March 31, 2007, our operating subsidiaries used cash in operating activities to primarily fund increases in inventory of \$3,444,443 and advance from customers of \$3,561,494, accounts payable-related party of \$1,208,879, and other payable of \$1,675,498. This change is primarily attributable to an increase of \$125,638 received from the sale of marketable securities, \$55,777 of cash acquired in acquisitions which was offset primarily by a decrease of \$447,713 in restricted cash as well as a decrease of \$897,366 in notes receivable, an increase of \$996,783 in amounts due from a related party and the purchase of \$23,480 in property and equipment.

These decreases were offset by \$1,425,000 of proceeds from exercises of warrants and/or options.

Our capital commitments for fiscal 2007 include capital to construct a manufacturing facility for our Lang Chemical segment. The anticipated cost of completing this facility is approximately \$3,000,000 and we will need to secure additional working capital to complete construction of the facility. We also desire to expand our capabilities to create an additional manufacturing facility for our subsidiary, Chang Magnesium, which is expected to cost between \$3,400,000 and \$3,600,000. In addition, Chang Magnesium has the option to invest up to \$3,650,000 to construct an additional manufacturing facility. We will need to secure investment capital to commit resources to these projects. In addition, we have certain other obligations for fiscal 2007 which include:

- o At March 31, 2007 Lang Chemical had short term obligations to a bank totaling \$136,646 due January 4, 2008 which is secured by Lang Chemical property. In addition, Lang Chemical has a loan payable to Shanghai WuJin Chemical Co., Ltd., a customer and client, in the amount of \$193,776. This loan payable, in the form of a trade acceptance guaranteed by a financial institution in China, was on April 30, 2007, was for the purchase of finished goods for resale by Lang Chemical. This amount was satisfied on April 30, 2007. At March 31, 2007 CDI Wanda had short term obligations to a bank totaling \$64,592 due August 3, 2007. We intend to satisfy these obligations from cash on hand;

- o Under the terms of various agreements related to our operating subsidiaries we have agreed to provide capital up to \$3,170,000, including

Edgar Filing: China Direct, Inc - Form 10QSB

\$1,250,000 to Chang Magnesium, \$820,000 to CDI Wanda, \$1,000,000 to Jieyang Big Tree (subject to the satisfaction of certain milestones) and \$100,000 to CDI Magnesium. These commitments will be satisfied either from our working capital or cash generated by operations; and

o pursuant to a joint venture agreement entered on April 24, 2007, Jinan has the option to contribute capital to acquire an ownership interest in a new entity to be created by Guangdong Qingyuan Changxin Waste Material Renewable Processing Co., Ltd. Under the terms of the agreement Jinan has the right to invest up to \$1,310,000 to acquire a 51% equity ownership of the new entity to be formed. As of the date of this report Jinan has not conducted an analysis of the investment and has not made the determination to exercise its option.

While we have recently sold securities which provide us with additional working capital, in order to satisfy these obligations, fund our existing operations and fully pursue the expansion of our business plan, we will be required to raise additional working capital. As described elsewhere herein, during the first quarter of fiscal 2007 we engaged Roth Capital Partners as our exclusive investment banker to provide assistance to us at such time as we seek to enter the capital markets. While we would prefer to raise capital through the sale of equity, we could also engage in a debt offering. If we raise additional working capital through the issuance of equity securities, existing stockholders will in all likelihood experience significant dilution. If we raise additional working capital through the issuance of debt, our interest expense will increase and adversely affect our ability to report profitable operations in future periods. Furthermore, notwithstanding the engagement of a banking firm, we may not be able to obtain additional financing when needed or on terms favorable to us. Since we have no commitment for additional capital, we cannot guarantee that we will be successful in securing such additional funds. If we are unable to generate sufficient cash when and as needed, we would not only be unable to fully implement our business model to expand our operations and acquire additional companies, but as well we could be unable to satisfy our current obligations and operating expenses. In this event, we could be forced to curtail our plans to acquire additional companies and be required to restructure our obligations for capital contributions to these majority owned subsidiaries. Without the additional capital, those companies will be unable to expand their existing operations, in the case of Lang Chemical, CDI Wanda and Chang Magnesium, or otherwise operate, in the cases of Jieyang Big Tree and CDI Magnesium. Any inability on our part to raise capital during fiscal 2007 as needed, will be materially adverse to our results of operations and liquidity.

CRITICAL ACCOUNTING POLICIES

The discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

A summary of significant accounting policies is included in Note 1 to the audited consolidated financial statements included in this annual report. Management believes that the application of these policies on a consistent basis

Edgar Filing: China Direct, Inc - Form 10QSB

enables us to provide useful and reliable financial information about the company's operating results and financial condition.

We record property and equipment at cost. Depreciation and amortization are provided using the straight-line method over the estimated economic lives of the assets, which are from five to forty years. Expenditures for major renewals and improvements which extend the useful lives of property and equipment are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred. We review the carrying value of long-lived assets for impairment at

-58-

least annually or whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of long-lived assets is measured by a comparison of its carrying amount to the undiscounted cash flows that the asset or asset group is expected to generate. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the property, if any, exceeds its fair market value.

The Company classifies its existing investments in trading securities, investments in marketable securities held for sale-related party in accordance with SFAS No. 115. Investments in trading securities, investments in marketable securities held for sale-related party, consisting of marketable equity securities, are stated at fair value. Unrealized gains or losses are recognized in the consolidated statement of operations on a monthly basis based on fluctuations in the fair value of the security as quoted on national or inter-dealer stock exchanges. Realized gains or losses are recognized in the consolidated statement of operations as trading profits when the securities are sold.

As mentioned above, the Company receives securities which include stock purchase warrants and common and preferred stock from companies as part of its compensation for services. These securities are stated at fair value in accordance with SFAS #115 "Accounting for certain investments in debt and equity securities" and EITF 00-8 "Accounting by a grantee for an equity instrument to be received in conjunction with providing goods or services". Primarily all of the securities are received from small public companies. The stock and the stock purchase warrants received are typically restricted as to resale. The policy of China Direct Consulting is to sell securities it receives as compensation rather than hold on to these securities as long term investments, regardless of market conditions in an effort to satisfy our current obligations. The Company recognizes revenue for such common stock based on the fair value at the time common stock is granted and for stock purchase warrants based on the Black-Scholes valuation model. Unrealized gains or losses are recognized in the consolidated statement of operations on a monthly basis based on changes in the fair value of the security as quoted on national or inter-dealer stock exchanges. Unrealized gains or losses on marketable securities held for sale-related party are recognized as an element of comprehensive income in our consolidated statement of operations on a monthly basis based on changes in the fair value of the security as quoted on national or inter dealer stock exchanges.

Net unrealized (loss) or gains related to investments in trading securities for the three months ended March 31, 2007 and 2006 are \$ 0 and \$411,675, respectively. Net realized (loss) or gain related to investments in marketable securities for the three months ended March 31, 2007 and 2006 are \$(15,973) and \$0, respectively.

Unrealized (loss) or gains on marketable securities held for sale-related party, net of tax for the three months ended March 31, 2007 and

Edgar Filing: China Direct, Inc - Form 10QSB

March 31, 2006 were \$(948,997) and \$1,141,560 respectively.

Stock Based Compensation

In December 2004, the FASB issued SFAS No. 123(R), "Share-Based Payment", which replaces SFAS No. 123 and supersedes APB Opinion No. 25. Under SFAS No. 123(R), companies are required to measure the compensation costs of share based compensation arrangements based on the grant date fair value and recognize the costs in the financial statements over the period during which employees are required to provide services. Share based compensation arrangements include stock options, restricted share plans, performance based awards, share appreciation rights and employee share purchase plans. In March 2005 the SEC issued Staff Accounting Bulletin No. 107, or "SAB 107". SAB 107 expresses views of the staff regarding the interaction between SFAS No. 123(R)

-59-

and certain SEC rules and regulations and provides the staff's views regarding the valuation of share based payment arrangements for public companies. SFAS No. 123(R) permits public companies to adopt its requirements using one of two methods. On April 14, 2005, the SEC adopted a new rule amending the compliance dates for SFAS 123R. Companies may elect to apply this statement either prospectively, or on a modified version of retrospective application under which financial statements for prior periods are adjusted on a basis consistent with the pro forma disclosures required for those periods under SFAS 123. Effective January 1, 2006, the Company has fully adopted the provisions of SFAS No. 123R and related interpretations as provided by SAB 107. As such, compensation cost is measured on the date of grant as the excess of the current market price of the underlying stock over the exercise price. Such compensation amounts, if any, are amortized over the respective vesting periods of the option grant.

We account for stock options issued to employees in accordance with the provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees", and related interpretations. As such, compensation cost is measured on the date of grant as the excess of the current market price of the underlying stock over the exercise price. Such compensation amounts, if any, are amortized over the respective vesting periods of the option grant. We adopted the disclosure provisions of SFAS No. 123, "Accounting for Stock-Based Compensation" and SFAS 148, "Accounting for Stock-Based Compensation- Transition and Disclosure", which permits entities to provide pro forma net income (loss) and pro forma earnings (loss) per share disclosures for employee stock option grants as if the fair-valued based method defined in SFAS No. 123 had been applied. We account for stock options and stock issued to non-employees for goods or services in accordance with the fair value method of SFAS 123. In December 2004, the FASB issued FASB Statement No. 123R, "Share-Based Payment, an Amendment of FASB Statement No. 123" ("FAS No. 123R"). FAS No. 123R requires companies to recognize in the statement of operations the grant-date fair value of stock options and other equity-based compensation issued to employees. We adopted FAS No.123R in the first quarter of fiscal year 2006.

Primarily all of the equity instruments are received from small public companies.

The securities received, whether in the form of stock, or stock purchase warrants, are typically restricted as to resale. The policy of China Direct Consulting is to sell securities it receives as compensation rather than hold on to these securities as long term investments, regardless of market conditions in an effort to satisfy our current obligations. China Direct Consulting recognizes revenue for such stock purchase warrants when received

-60-

based on the Black-Scholes valuation model. China Direct Consulting recognizes unrealized gains or losses in the consolidated statement of operations based on fluctuations in value of the stock purchase warrants as determined by the Black-Scholes valuation model. Realized gains or losses are recognized in the consolidated statement of operations when the related stock purchase warrant is exercised and sold. RECENT ACCOUNTING PRONOUNCEMENTS

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" ("FAS 157"). This Statement defines fair value as used in numerous accounting pronouncements, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosure related to the use of fair value measures in financial statements. The Statement is to be effective for the Company's financial statements issued in 2008; however, earlier application is encouraged. The Company is currently evaluating the timing of adoption and the impact that adoption might have on its financial position or results of operations.

-61-

In September 2006, the Staff of the SEC issued SAB No. 108: "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements". SAB No. 108 provides guidance on the consideration of the effects of prior year misstatements in quantifying current year misstatements for the purpose of determining whether the current year's financial statements are materially misstated. The SEC staff believes registrants must quantify errors using both a balance sheet and income statement approach and evaluate whether either approach results in quantifying a misstatement that, when all relevant quantitative and qualitative factors are considered, is material. This Statement is effective for fiscal years ending after November 15, 2006. The adoption of SAB No. 108 did not have a significant impact on the company's consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities-including an amendment of FAS 115" (Statement 159). Statement 159 allows entities to choose, at specified election dates, to measure eligible financial assets and liabilities at fair value that are not otherwise required to be measured at fair value. If a company elects the fair value option for an eligible item, changes in that item's fair value in subsequent reporting periods must be recognized in current earnings. Statement 159 is effective for fiscal years beginning after November 15, 2007. We are currently evaluating the potential impact of Statement 159 on our financial statements. The Company is currently evaluating the timing of adoption and the impact that adoption might have on its financial position or results of operations.

ITEM 3. CONTROLS AND PROCEDURES

Our management, which includes our CEO and our Vice President of Finance, have conducted an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-14(c) promulgated under the Securities and Exchange Act of 1934, as amended) as of a date (the "Evaluation Date") as of the end of the period covered by this report. Our management does not expect that our disclosure controls and procedures will prevent all error

Edgar Filing: China Direct, Inc - Form 10QSB

and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. The design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Based upon that evaluation, our management has concluded that our disclosure controls and procedures are effective for timely gathering, analyzing and disclosing the information we are required to disclose in our reports filed under the Securities Exchange Act of 1934, as amended.

There have been no changes in our internal control over financial reporting identified in connection with the evaluation that occurred during the last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
