NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2005 AND 2004

NOTE 1 - NATURE OF OPERATIONS

City Network, Inc., formerly Investment Agents, Inc., was incorporated on August 8, 1996 under the laws of the State of Nevada. City Network Technology, Inc., formerly Gelcrest Investments Limited, was incorporated under the laws of the British Virgin Islands on March 1, 2002. City Network, Inc. - Taiwan, formerly City Engineering, Inc., was incorporated under the laws of Republic of China on September 6, 1994. City Construction was incorporated under the laws of Republic of China on October, 10, 2003. City Network, Inc. owns 100% of the capital stock of City Network Technology, Inc., and City Network Technology, Inc. owns 100% of the capital stock of City Network, Inc. - Taiwan, and City Construction. Collectively, the four corporations are referred to herein as the "Company".

On November 14, 2002, City Network Technology, Inc. became a wholly-owned subsidiary of City Network, Inc. through an Exchange Agreement, dated November 14, 2004 and was amended on December 4, 2002 whereby City Network, Inc. acquired all of the issued and outstanding capital stock of City Network Technology, Inc. in exchange for 12,000,000 shares of City Network, Inc.

The Company designs, manufactures and markets a comprehensive line of broadband communication and wireless Internet access product and solutions. The Company's product lines are used in residential building and hospitality markets and include the simple DSL bridge/modem for the home and small business user. The Company is also pursuing work in the building construction field.

On December 16, 2004, the Company changed its fiscal year end from February 28 to December 31.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Unaudited Interim Financial Information - The accompanying financial statements have been prepared by City Network, Inc., pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC") Form 10-QSB and Item 310 of Regulation S-B and generally accepted accounting principles for interim financial reporting. These financial statements are unaudited and, in the opinion of management, include all adjustments (consisting of normal recurring adjustments and accruals) necessary for a fair presentation of the statement of financial position, operations, and cash flows for the periods presented. Operating results for the three months ended March 31, 2005 and 2004 are not necessarily indicative of the results that may be expected for the year ended December 31, 2005, or any future period, due to seasonal and other factors. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting policies have been omitted in accordance with the rules and regulations of the SEC. These financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes, included in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2004.

CITY NETWORK, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2005 AND 2004

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Consolidation - The consolidated financial statements for 2004 include the accounts of City Network, Inc., it's wholly owned subsidiary City Network Technology, Inc. and its wholly-owned subsidiaries, City Network, Inc. - Taiwan and City Construction Co., Ltd. All material intercompany accounts, transactions and profits have been eliminated in consolidation.

Revenue Recognition - Revenue from sales of products to customers is recognized upon shipment or when title passes to customers based on the terms of the sales and is recorded net of returns, discounts, and allowances.

Cash and Cash Equivalents - Cash equivalents are stated at cost. Cash equivalents are highly liquid investments readily convertible into cash with an original maturity of three months or less and consist of time deposits with commercial banks.

Allowance for Doubtful Accounts - The Company establishes an allowance for doubtful accounts on a case-by-case basis when it believes the required payment of specific amounts owed is unlikely to occur after a review of historical collection experience, subsequent collections, and management's evaluation of existing economic conditions.

Fixed Assets - Property and equipment are stated at cost less accumulated depreciation. Expenditures for major additions and improvements are capitalized and minor replacements; maintenance and repairs are expensed as incurred. Whenever an asset is retired or disposed of, its cost and accumulated depreciation or amortization are removed from the respective accounts and the resulting gain or loss is credited or charged to income.

Depreciation is computed using the straight-line and declining-balance methods over the following estimated useful lives:

Furniture and Fixtures	5 years
Equipment	5 years
Computer Hardware and Software	3 years
Building and Improvements	50 years

Intangible Assets - Effective July 2002, the Company adopted Statement of Financial Accounting Standards ("SFAS") No. 142, "Goodwill and Other Intangible Assets." The adoption of SFAS No. 142 required an initial impairment assessment involving a comparison of the fair value of trademarks, patents and other intangible assets to current carrying value. No impairment loss was recognized for the period ended March 31, 2005.

Trademarks and other intangible assets determined to have indefinite useful lives are not amortized. The Company tests such trademarks and other intangible assets with indefinite useful lives for impairment annually, or more frequently if events or circumstances indicate that an asset might be impaired. Trademarks and other intangible assets determined to have definite lives are amortized over their useful lives or the life of the trademark and other intangible asset, whichever is less.

RESTATED
CITY NETWORK, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2005 AND 2004

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Inventory - Inventory is valued at the lower of cost or market; cost is determined on the weighted average method. As of March 31, 2005, inventory consisted only of finished goods.

Contingencies - Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Company but which will only be resolved when one or more future events occur or fail to occur. The Company's management and legal counsel assess such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or unasserted claims that may result in such proceedings, the Company's legal counsel evaluates the perceived merits of any legal proceedings or unasserted claims, as well as the perceived merits of the amount of relief sought or expected to be sought.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's financial statements. If the assessment indicates that a potential material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, together with an estimate of the range of possible loss, if determinable and material, would be disclosed.

Loss contingencies considered to be remote by management are generally not disclosed unless they involve guarantees, in which case the guarantee would be disclosed. As of March 31, 2005, there are no matters that warrant disclosure in the financial statements.

Advertising - Advertising costs are expensed in the period incurred.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include collectibility of accounts receivable, accounts payable, sales returns, and recoverability of long-term assets.

Concentration of Credit Risk - Financial instruments, which subject the Company to credit risk, consist primarily of cash equivalents and trade accounts receivable arising from its normal business activities. The Company places its cash in what it believes to be credit-worthy financial institutions. Concentration of credit risk with respect to trade accounts receivable is primarily from customers located in Asia. The Company actively evaluates the creditworthiness of the customers with which it conducts business through credit approvals, credit limits and monitoring procedures.

MARCH 31, 2005 AND 2004

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of Long-Lived Assets - On January 1, 2002 the Company adopted SFAS No. 144 "Accounting for the Impairment or Disposal of Long-Lived Assets". The Company evaluates long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. If the estimated future cash flows (undiscounted and without interest charges) from the use of an asset are less than the carrying value, a write-down would be recorded to reduce the related asset to its estimated fair value. There have been no such impairments to date.

Earnings Per Share - Earnings per share are based on the weighted average number of shares of common stock and common stock equivalents outstanding during each period. Earnings per share are computed using the treasury stock method. The options to purchase common shares are considered to be outstanding for all periods presented, but are not calculated as part of the earnings per share.

Income Taxes - Income taxes have been provided based upon the tax laws and rates in the countries in which operations are conducted and income is earned. The income tax rates imposed by the taxing authorities vary. Taxable income may vary from pre-tax income for financial accounting purposes. There is no expected relationship between the provision for income taxes and income before income taxes, because the countries have different taxation rules, which vary not only to nominal rates but also in terms of available deductions, credits and other benefits. Deferred tax assets and liabilities are recognized for the anticipated future tax effects of temporary differences between the financial statement basis and the tax basis of the Company's assets and liabilities using the applicable tax rates in effect at year end as prescribed by SFAS No. 109 "Accounting for Income Taxes".

Exchange Gain (Loss) - As of March 31, 2005 and 2004, the transactions of City Network, Inc. - Taiwan and City Construction Co., Ltd. were denominated in a foreign currency and are recorded in New Taiwan Dollars ("NTD") at the rates of exchange in effect when the transactions occur. Exchange gains and losses are recognized for the different foreign exchange rates applied when the foreign currency assets and liabilities are settled.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Translation Adjustment - As of March 31, 2005 and 2004, the accounts of City Network, Inc. - Taiwan and City Construction Co., Ltd. were maintained, and their financial statements were expressed, in NTD. Such financial statements were translated into U.S. Dollars (USD) in accordance with SFAS No. 52, "Foreign Currency Translation", with the NTD as the functional currency. According to SFAS No. 52, all assets and liabilities were translated at the current exchange rate, stockholder's equity are translated at the historical rates and income

Edgar Filing: CITY NETWORK INC - Form 10QSB/A

statement items are translated at the weighted average exchange rate for the period. The resulting translation adjustments are reported under other comprehensive income in accordance with SFAS No. 130, "Reporting Comprehensive Income".

As of March 31, 2005 and 2004 the exchange rates between NTD and the USD was NTD\$1=USD\$0.03149 and NTD\$1=USD\$0.03149, respectively. The weighted-average rate of exchange between NTD and USD was NTD\$1 = USD\$0.02979 and NTD\$1=USD\$0.03149, respectively. Total translation adjustment recognized for the period ended March 31, 2005 is \$194,658.

New Accounting Pronouncements - In January 2003, FASB issued FASB Interpretation No. 46, "Consolidation of Variable Interest Entities" ("FIN46"). This interpretation of Accounting Research Bulletin No. 51, requires companies to consolidate the operations of all variable interest entities ("VIE's") for which they are the primary beneficiary. The term "primary beneficiary" is defined as the entity that will absorb a majority of expected losses, receive a majority of the expected residual returns, or both. This interpretation was later revised by the issuance of Interpretation No. 46R ("FIN 46R"). The revision was issued to address certain implementation issues that had arisen since the issuance of the original interpretation and to provide companies with the ability to defer the adoption of FIN46 to period after March 15, 2004. The implementation of FIN46 and FIN 46R had no material impact on the Company's financial statements.

On July 16, 2004 the FASB ratified the Emerging Issues Task Force ("EITF") consensus of Issue 02-14, "Whether the Equity Method of Accounting Applies when an Investor Does Not Have an Investment in Voting Stock of an Investee but Exercises Significant Influence through Other Means" ("EITF 02-14"). The consensus concluded that an investor should apply the equity method of accounting when it can exercise significant influence over an entity through a means other than holding voting rights. The consensus is effective for reporting periods beginning after September 2004. The adoption of EITF 02-14 did not have a material impact on the Company's financial statements.

BACKGROUND OF THE COMPANY

City Network, Inc. ("City Network," "we," "our" or "us") was incorporated on August 8, 1996 as Investment Agents, Inc. under the laws of the State of Nevada. City Network Technology, Inc. ("CNT") was incorporated under the laws of

15

the British Virgin Islands on March 1, 2002. On November 14, 2002, CNT became a wholly owned subsidiary of our company through an Exchange Agreement, dated November 14, 2002 and amended on December 11, 2002, whereby our company acquired all of the issued and outstanding capital stock of CNT in exchange for 12,000,000 shares of common stock of our company, which represented 49% of our issued and outstanding stock at that time. In connection with the exchange and change in control, the name of our company was changed from Investment Agents, Inc. to City Network, Inc. the officers and directors of City Network resigned and new officers and directors were appointed. Upon the effective date of the exchange and change in control, we ceased our relationship with the company for whom we previously acted as referral agent.

CNT owns all of the issued and outstanding common stock of City Network, Inc.-Taiwan, which was incorporated under the laws of the Republic of China on September 6, 1994, and all of the issued and outstanding common stock of company of City Construction Co., Ltd., which was incorporated under the laws of Republic of China on October, 10, 2003.

On December 16, 2004, our board of directors determined to change our fiscal year end from February 28 to December 31.

CRITICAL ACCOUNTING POLICIES

The discussion and analysis of our financial conditions and results of operations is based upon our financial statements, which have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP"). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. See "Summary of Significant Accounting Policies" in the Notes to Consolidated Financial Statements in Item to this Report for our critical accounting policies. No significant changes in our critical accounting policies have occurred since December 31, 2004.

RESULTS OF OPERATIONS

THREE MONTHS ENDED MARCH 31, 2005 COMPARED WITH THREE MONTHS ENDED MARCH 31, 2004

NET SALES. Net sales for the three months ended March 31, 2005 were \$1,293,350 compared to \$6,287,093 for the three months ended March 31, 2004. The decrease in net sales for the three months ended March 31, 2005 was due to a decrease in demand for our old products. Our new products, introduced in 2004, are in the early stages of selling.

We design, manufacture and market a comprehensive line of broadband communication and wireless Internet access solutions, including home PNA and xDSL broadband access equipment and related accessories, which comprise our older, established products. In 2004 we introduced new products such as VoIP,

Edgar Filing: CITY NETWORK INC - Form 10QSB/A

GSP and wireless Internet access products.

We believe that an increase in competition over the market for our older products has contributed to a decline in the unit price of those products. Additionally, we believe that the introduction of more technologically advanced products to the marketplace have diminished consumer demand for our older products. We intend to continue upgrading our older products to meet customer expectations.

We believe that sales for our new products, such as VoIP and GSP products, can increase with improved brand name recognition and increased sales channels. We intend to promote and market our new products to improve brand name recognition as well as work on increasing sales channels.

16

COST OF SALES. Cost of sales for the three months ended March 31, 2005 was \$1,255,040 or 97.0% of net sales, as compared to \$5,697,879 or 90.6% of net sales, during the three months ended March 31, 2004. The decrease in cost of sales is associated with the decrease in sales. The decrease in our cost of sales as a percentage of net sales is attributable to a decrease in the sale price of our old products, which we believe is due to an increase in competitors selling the old products, while the cost of producing such products has remained constant.

GENERAL AND ADMINISTRATIVE EXPENSES. General and administrative expenses were \$323,145, or 25.0% of net sales, for the three months ended March 31, 2005, as compared to \$382,440 or 6.1% of net sales, for the three months ended March 31, 2004. The decrease was due to the decrease in sales and an associated decrease in related expenses. The decrease in general and administrative expenses as a percentage of net sales is attributable to fixed overhead costs which remain constant for all levels of sales.

INCOME (LOSS) FROM OPERATIONS. Loss from operations for the three months ended March 31, 2005 was \$(284,835), compared to income from operations for the three months ended March 31, 2004 of \$206,774. The loss from operations for the three months ended March 31, 2005 compared with income from operations for the three months ended March 31, 2004 was due to a decrease in sales without a proportionate decrease in the cost of sales and general and administrative expenses.

OTHER (INCOME) EXPENSE. Other (income) expense was \$739,051 for the three months ended March 31, 2005, as compared to \$14,197 for the three months ended March 31, 2004. This increase in other expense was the result of additional reserves made on accounts receivable and losses we incurred on the sale of fixed assets in the three months ended March 31, 2005.

NET INCOME (LOSS). Net income (loss) for three months ended March 31, 2005 was \$(1,023,886) compared to income of \$192,577 for the three months ended March 31, 2004. The net loss for the three months ended March 31, 2005 compared with income for the three months ended March 31, 2004 was due to the reasons described above, including the additional reserves made on accounts receivable.

LIQUIDITY AND CAPITAL RESOURCES

At March 31, 2005 and December 31, 2004, we had cash and cash equivalents of \$1,319,326 and \$2,010,644, respectively. Our current assets totaled \$5,390,306 at March 31, 2005 as compared to \$6,186,420 at December 31, 2004. Our total current liabilities were \$6,637,206 at March 31, 2005 as compared to \$6,656,116 at December 31, 2004. Working capital at March 31, 2005 was \$(1,246,900) and \$(469,696) at December 31, 2004. For the three months ended March 31, 2005, total cash used in operations was \$(969,775) as compared to net

Edgar Filing: CITY NETWORK INC - Form 10QSB/A

cash provided by operations of \$300,434 during the same period in 2004. Net cash used in financing activities was \$(90,585), which consisted of the payment on notes payable and issuance of short-term debt, as compared with net cash used in financing activities of \$(282,489) during the three months ended March 31, 2004.

We deployed a large amount of cash in the three months ended March 31, 2005 for developing new products. Therefore there is a deficiency in working capital at the end of such period. We have, however, begun selling our new products on a large scale since March 31, 2005.

Our operations and short term financing does not currently meet our cash needs. We believe we will be able to generate revenues from sales and raise capital through private placement offerings of its equity securities to provide the necessary cash flow to meet anticipated working capital requirements. Our actual working capital needs for the long and short term will depend upon numerous factors, including our operating results, competition, and the availability of credit facilities, none of which can be predicted with

17

certainty. Our future expansion will depend on operating results and will be limited by its ability to enter into financings and raise capital.

We currently are engaged in discussions with a number of companies regarding strategic acquisitions or investments. Although these discussions are ongoing, there can be no assurance that any of these discussions will result in actual acquisitions or investment. Several potential investors have already shown their interest to invest in our company. As of March 31, 2005, the amount of committed funds was \$2,400,000. An additional \$1,800,000 is still required.

Our liquidity is currently dependent on our ability to strengthen our accounts receivable collection time period and our ability to continue to raise cash from financing sources to fund our expansion. Our short-term and long-term liquidity may be influenced by uncollected accounts receivables. If the amount of bad debt is high, it will severely affect our ability to continue operations. Therefore, we are taking precautions to manage this risk, including diversifying its customer base and controlling credit risk through credit approvals, credit limits and monitoring procedures. There can be no assurance that these measures will prove successful. Our inability to manage this risk will have a material adverse effect upon its business, financial condition and results of operations.

CAPITAL EXPENDITURES. Total capital expenditures during the three months ended March 31, 2005 were \$0 compared to \$22,093 for the three months ended March 31, 2004.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have any off-balance sheet arrangements.

ITEM 3. CONTROLS AND PROCEDURES

We maintain "disclosure controls and procedures," as such term is defined under Exchange Act Rule 13a-15(e), that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and in reaching a reasonable level of assurance our management

Edgar Filing: CITY NETWORK INC - Form 10QSB/A

necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. We have carried out an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2005. Based upon their evaluation and subject to the foregoing, the Chief Executive Officer and Chief Financial Officer concluded that as of March 31, 2005 our disclosure controls and procedures were effective at the reasonable assurance level in ensuring that material information relating to us, is made known to the Chief Executive Officer and Chief Financial Officer by others within our company during the period in which this report was being prepared.

There were no changes in our internal controls or in other factors during the most recent quarter that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.
