This report will not be deemed an admission as to the materiality of any information in the report that is required to be disclosed solely by Regulation FD.

This Current Report on Form 8-K includes certain statements that may be deemed forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, all of which are based upon various estimates and assumptions that the company believes to be reasonable as of the date hereof. Such risks and uncertainties include, but are not limited to the company's ability to meet debt service obligations and related financial and other covenants particularly as relates to the shutdown company projects, and the possible resulting material default under the company's credit agreements which is not waived or amended; limitations on the availability and the increased costs of surety bonds required for certain projects; risk associated with failure to provide surety bonds on jobs where the company has commenced work or are otherwise contractually obligated to provide surety bonds; the inherent uncertainties relating to estimating future operating results and the company's ability to generate sales, operating income, or cash flow; potential difficulty in addressing material weaknesses in the inventory and control environment at one business unit that has been identified by the company and its independent auditors; fluctuations in operating results because of downturns in levels of construction; inaccurate estimates used in entering into and executing contracts; inaccuracies in estimating revenue and percentage of completion on contracts; difficulty in managing the operation of existing entities; the high level of competition in the construction industry both from third parties and ex-employees; increases in costs or limitations on availability of labor, especially qualified electricians, increase in costs of commodities used in the our industry of steel, copper and gasoline; accidents resulting from the numerous physical hazards associated with the company's work; loss of key personnel particularly presidents of business units; business disruption and costs associated with the Securities and Exchange Commission investigation or class action now pending; litigation risks and uncertainties, including in connection with the ongoing SEC investigation; unexpected liabilities or losses associated with warranties or other liabilities attributable to the retention of the legal structure or retained liabilities of business units where the company has sold substantially all of the assets; difficulties in integrating new types of work into existing subsidiaries; inability of the company to incorporate new accounting, control and operating procedures; the loss of productivity, either at the corporate office or operating level resulting from change procedures or management personnel; disruptions or inability to effectively manage consolidations; the residual effect with customers and vendors from the bankruptcy process leading to less work or less favorable delivery or credit terms; the delayed effect of fewer or different new projects awarded to the company during the bankruptcy and its effect on future financial results; the lowered efficiency and higher costs associated with projects at subsidiaries that the company has determined to wind down or close; the loss of employees during the bankruptcy process and the winding down of subsidiaries; and distraction of management time in winding down and closing subsidiaries.
