FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2016

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 001-35004

FleetCor Technologies, Inc.

(Exact name of registrant as specified in its charter)

Delaware	72-1074903
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

5445 Triangle Parkway, Norcross, Georgia 30092
(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code: (770) 449-0479

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒ Accelerated filer ☐
Non-accelerated filer ☐ (Do not check if a smaller reporting company) Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding at July 22, 2016
Common Stock, \$0.001 par value	120,928,888

FleetCor Technologies, Inc. and Subsidiaries
Notes to Unaudited Consolidated Financial Statements
June 30, 2016

1. Summary of Significant Accounting Policies

Basis of Presentation

Throughout this report, the terms “our,” “we,” “us,” and the “Company” refers to FleetCor Technologies, Inc. and its subsidiaries. The Company prepared the accompanying interim consolidated financial statements in accordance with Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States (“GAAP”). The unaudited consolidated financial statements reflect all adjustments considered necessary for fair presentation. These adjustments consist primarily of normal recurring accruals and estimates that impact the carrying value of assets and liabilities. Actual results may differ from these estimates. Operating results for the three and six month periods ended June 30, 2016 are not necessarily indicative of the results that may be expected for the year ending December 31, 2016.

The unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015.

Foreign Currency Translation

Assets and liabilities of foreign subsidiaries are translated into U.S. dollars at the rates of exchange in effect at period-end. The related translation adjustments are made directly to accumulated other comprehensive income. Income and expenses are translated at the average monthly rates of exchange in effect during the period. Gains and losses from foreign currency transactions of these subsidiaries are included in net income. The Company recognized foreign exchange losses of \$0.2 million and \$0.7 million for the three months ended June 30, 2016 and 2015, respectively. The Company recognized foreign exchange losses of \$0.8 million and \$2.6 million for the six months ended June 30, 2016 and 2015, respectively, which are recorded within other expense, net in the Unaudited Consolidated Statements of Income.

Revision of Previously Issued Financial Statements

As discussed in footnote 2 to the Company’s 2015 consolidated financial statements, the Company corrected a misstatement and other comprehensive income to properly reflect the translation of certain acquired intangibles. Other comprehensive income for the three and six months ended June 30, 2015 has been revised from our previously reported gain of \$6.8 million and loss of \$86.2 million, respectively, to be consistent with the presentation in the December 31, 2015 financial statements. The Company does not believe this revision is material to any prior period financial statements.

Adoption of New Accounting Standards

Going Concern

In August 2013, the Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update (“ASU”) 2014-15 “Disclosure of Uncertainties About an Entity’s Ability to Continue as a Going Concern”, which requires entities to perform interim and annual assessments of the entity’s ability to continue as a going concern within one year of the date of issuance of the entity’s financial statements. This ASU is effective for fiscal years ending after December 15, 2016 and interim periods thereafter, with early adoption permitted. The Company’s adoption of this ASU is not expected to have a material impact on the results of operations, financial condition, or cash flows, as it is disclosure based.

Revenue Recognition

In May 2014, the FASB issued Accounting Standards Codification (“ASC”) 606, “Revenue from Contracts with Customers”, which amends the guidance in former ASC 605, Revenue Recognition. This amended guidance requires revenue to be recognized in an amount that reflects the consideration to which the company expects to be entitled for those goods and services when the performance obligation has been satisfied. This amended guidance also requires enhanced disclosures regarding the nature, amount, timing and uncertainty of revenue and related cash flows arising from contracts with customers. In August 2015, the FASB issued ASU 2015-14, “Revenue from Contracts with Customers: Deferral of the Effective Date”, which defers the effective date of the new revenue recognition standard by

one year. In March 2016, the FASB issued ASU 2016-08, "Revenue from Contracts with Customers: Principal versus Agent Considerations (Reporting Revenue Gross versus Net)", which clarifies how an entity should identify the unit of accounting for the principal versus agent evaluation and how it should apply the control principle to certain types of arrangements. In April 2016, the FASB issued ASU 2016-10, "Identifying Performance Obligations and Licensing", which clarifies the accounting for intellectual property licenses and identifying performance obligations. In May 2016, the FASB issued ASU 2016-11, "Rescission of SEC Guidance Because of Accounting

Table of Contents

Standards Updates 2014-09 and 2014-16 Pursuant to Staff Announcements at the March 3, 2016 EITF Meeting", which rescinds certain SEC guidance in response to announcements made by the SEC staff at the EITF's March 3, 2016 meeting and ASU 2016-12, "Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients", which clarifies the guidance on collectibility, non-cash consideration, the presentation of sales and other similar taxes collected from customers and contract modifications and completed contracts at transition. Additionally, ASU 2016-12 clarifies that entities electing the full retrospective transition method would no longer be required to disclose the effect of the change in accounting principle on the period of adoption; however, entities would still be required to disclose the effects on preadoption periods that were retrospectively adjusted. These ASUs are effective for the Company for reporting periods beginning after December 15, 2017, but permit companies the option to adopt as of the original effective date. The Company is currently evaluating the impact of the provisions of ASC 606. The guidance permits the use of either a retrospective or cumulative effect transition method. The Company anticipates selecting the modified retrospective method during transition and is currently evaluating the impact of the provisions of ASC 605 on the results of operations, financial condition, and cash flows.

Simplification of Guidance on Debt Issuance Costs

In April 2015, the FASB issued ASU 2015-3, "Interest—Imputation of Interest", which changes the presentation of debt issuance costs in financial statements as a direct deduction from the related debt liability rather than as an asset. This ASU is effective for us for fiscal years ending after December 15, 2015 and interim periods. Early adoption is permitted. In August 2015, the FASB issued ASU 2015-15, "Interest-Imputation of Interest: Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements", which is effective immediately. The SEC staff clarified that entities may continue presenting unamortized debt issuance costs for line-of-credit arrangements as an asset. The Company adopted this new guidance on January 1, 2016. As a result of the adoption of this ASU, \$0.6 million and \$1.5 million of unamortized debt issuance costs were retrospectively adjusted from prepaid expenses and other current assets to the current portion of notes payable and lines of credit and other assets to notes payable and other obligations, less current portion, respectively, in the Company's Consolidated Balance Sheet as of December 31, 2015.

Simplification of Balance Sheet Classification of Deferred Taxes

In November 2015, the FASB issued ASU 2015-17, "Balance Sheet Classification of Deferred Taxes", which requires entities to present deferred tax assets (DTAs) and deferred tax liabilities (DTLs) as noncurrent in a classified balance sheet. It thus simplifies the current guidance, which requires entities to separately present DTAs and DTLs as current or noncurrent in a classified balance sheet. Netting of DTAs and DTLs by tax jurisdiction is still required under the new guidance. This ASU is effective for the Company for annual reporting periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted. The Company's adoption of this ASU is not expected to have a material impact on the results of operations, financial condition, or cash flows.

Accounting for Leases

In February 2016, the FASB issued ASU 2016-02, "Leases", which requires lessees to recognize a right-of-use asset and a lease liability on the balance sheet for all leases with the exception of short-term leases. This ASU also requires disclosures to provide additional information about the amounts recorded in the financial statements. This ASU is effective for the Company for annual periods beginning after December 15, 2018 and interim periods therein. Early adoption is permitted. The new standard must be adopted using a modified retrospective transition and requires application of the new guidance for leases that exist or are entered into after the beginning of the earliest comparative period presented. The Company is currently evaluating the impact of this ASU on the results of operations, financial condition, or cash flows.

Accounting for Breakage

In March 2016, the FASB issued ASU 2016-04, "Liabilities-Extinguishments of Liabilities: Recognition of Breakage for Certain Prepaid Stored-Value Products", which requires entities that sell prepaid stored value products redeemable for goods, services or cash at third-party merchants to derecognize liabilities related to those products for breakage. This ASU is effective for the Company for reporting periods beginning after December 15, 2017. Early adoption is permitted. The ASU must be adopted using either a modified retrospective approach with a cumulative effect

adjustment to retained earnings as of the beginning of the period of adoption or a full retrospective approach. The Company's adoption of this ASU is not expected to have a material impact on the results of operations, financial condition, or cash flows.

Accounting for Employee Share-Based Payment

In March 2016, the FASB issued ASU 2016-09, "Compensation-Stock Compensation: Improvements to Employee Share-Based Payment Accounting", which requires entities to record all tax effects of share-based awards to employees in the income statement when the awards vest or are settled. The ASU also allows an employer to repurchase more of an employee's shares than currently allowed for tax withholding purposes without triggering liability accounting and to make a policy election to account for forfeitures as they occur. This ASU is effective for the Company for reporting periods beginning after December 15, 2016. Early adoption is permitted, but all of the guidance must be adopted in the same period. The Company expects to early adopt this ASU in the third quarter of 2016, reflecting any adjustments as of January 1, 2016. The adoption of this ASU will result in excess tax benefits being recorded as a reduction of income tax expense and an increase in the number of dilutive

Table of Contents

shares outstanding at the end of each period, which may result in an increase to diluted earnings per share, depending on the volume of share-based payment award activity during the respective period.

2. Accounts Receivable

The Company maintains a \$950 million revolving trade accounts receivable Securitization Facility. Accounts receivable collateralized within our Securitization Facility relate to trade receivables resulting from charge card activity. Pursuant to the terms of the Securitization Facility, the Company transfers certain of its domestic receivables, on a revolving basis, to FleetCor Funding LLC (Funding) a wholly-owned bankruptcy remote subsidiary. In turn, Funding sells, without recourse, on a revolving basis, up to \$950 million of undivided ownership interests in this pool of accounts receivable to a multi-seller, asset-backed commercial paper conduit (Conduit). Funding maintains a subordinated interest, in the form of over-collateralization, in a portion of the receivables sold to the Conduit. Purchases by the Conduit are financed with the sale of highly-rated commercial paper.

The Company utilizes proceeds from the sale of its accounts receivable as an alternative to other forms of financing to reduce its overall borrowing costs. The Company has agreed to continue servicing the sold receivables for the financial institution at market rates, which approximates the Company's cost of servicing. The Company retains a residual interest in the accounts receivable sold as a form of credit enhancement. The residual interest's fair value approximates carrying value due to its short-term nature. Funding determines the level of funding achieved by the sale of trade accounts receivable, subject to a maximum amount.

The Company's consolidated balance sheets and statements of income reflect the activity related to securitized accounts receivable and the corresponding securitized debt, including interest income, fees generated from late payments, provision for losses on accounts receivable and interest expense. The cash flows from borrowings and repayments, associated with the securitized debt, are presented as cash flows from financing activities.

The Company's accounts receivable and securitized accounts receivable include the following at June 30, 2016 and December 31, 2015 (in thousands):

	June 30, 2016	December 31, 2015
Gross domestic accounts receivable	\$531,656	\$338,275
Gross domestic securitized accounts receivable	713,000	614,000
Gross foreign receivables	401,965	322,582
Total gross receivables	1,646,621	1,274,857
Less allowance for doubtful accounts	(25,236)	(21,903)
Net accounts and securitized accounts receivable	\$1,621,385	\$1,252,954

A rollforward of the Company's allowance for doubtful accounts related to accounts receivable for six months ended June 30 is as follows (in thousands):

	2016	2015
Allowance for doubtful accounts beginning of period	\$21,903	\$23,842
Provision for bad debts	13,729	13,022
Write-offs	(10,396)	(14,464)
Allowance for doubtful accounts end of period	\$25,236	\$22,400

Foreign receivables are not included in the Company's accounts receivable securitization program. At June 30, 2016 and December 31, 2015, there was \$713 million and \$614 million, respectively, of short-term debt outstanding under the Company's accounts receivable Securitization Facility.

3. Fair Value Measurements

Fair value is a market-based measurement that reflects assumptions that market participants would use in pricing an asset or liability. GAAP discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). These valuation techniques are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions.

Table of Contents

As the basis for evaluating such inputs, a three-tier value hierarchy prioritizes the inputs used in measuring fair value as follows:

Level 1: Observable inputs such as quoted prices for identical assets or liabilities in active markets.

Level 2: Observable inputs other than quoted prices that are directly or indirectly observable for the asset or liability, including quoted prices for similar assets or liabilities in active markets; quoted prices for similar or identical assets or liabilities in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

- Level 3: Unobservable inputs for which there is little or no market data, which require the reporting entity to develop its own assumptions. The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The following table presents the Company's financial assets and liabilities which are measured at fair values on a recurring basis as of June 30, 2016 and December 31, 2015, (in thousands).

	Fair Value	Level 1	Level 2	Level 3
June 30, 2016				
Assets:

Total cash equivalents	\$ 208,517	\$ —	—\$208,517	\$ —

The Company has highly liquid investments classified as cash equivalents, with original maturities of 90 days or less, included in our Consolidated Balance Sheets. The Company utilizes Level 2 fair value determinations derived from directly or indirectly observable (market based) information to determine the fair value of these highly liquid investments. The Company has certain cash and cash equivalents that are invested on an overnight basis in repurchase agreements, money markets and certificates of deposit. The value of overnight repurchase agreements is determined based upon the quoted market prices for the treasury securities associated with the repurchase agreements. The value of money market instruments is the financial institutions' month-end statement, as these instruments are not tradable and must be settled directly by us with the respective financial institution. Certificates of deposit are valued at cost, plus interest accrued. Given the short term nature of these instruments, the carrying value approximates fair value. The level within the fair value hierarchy and the measurement technique are reviewed quarterly. Transfers between levels are deemed to have occurred at the end of the quarter. There were no transfers between fair value levels during the periods presented for 2016 and 2015.

The Company's nonfinancial assets that are measured at fair value on a nonrecurring basis in connection with periodic testing for impairment include property, plant and equipment, equity method investment, goodwill and other intangible assets. As necessary, the Company generally uses projected cash flows, discounted as appropriate, to estimate the fair values of the assets using key inputs such as management's projections of cash flows on a held-and-used basis (if applicable), management's projections of cash flows upon disposition and discount rates. Accordingly, these fair value measurements are in Level 3 of the fair value hierarchy. These assets and liabilities are recognized at fair value on a nonrecurring basis if an impairment is identified.

The fair value of the Company's cash, accounts receivable, securitized accounts receivable and related facility, prepaid expenses and other current assets, accounts payable, accrued expenses, customer deposits and short-term borrowings

approximate their respective carrying values due to the short-term maturities of the instruments. The carrying value of the Company's debt obligations approximates fair value as the interest rates on the debt are variable market based interest rates that reset on a quarterly basis. These are each Level 2 fair value measurements, except for cash, which is a Level 1 fair value measurement.

Table of Contents

4. Stockholders' Equity

On February 4, 2016, the Company's Board of Directors approved a stock repurchase program (the "Program") under which the Company may begin purchasing up to an aggregate of \$500 million of its common stock over the next 18 months. Any stock repurchases may be made at times and in such amounts as deemed appropriate. The timing and amount of stock repurchases, if any, will depend on a variety of factors including the stock price, market conditions, corporate and regulatory requirements, and any additional constraints related to material inside information that the Company may possess. Any repurchases are expected to be funded by available cash flow from the business and working capital. There were 191,291 shares totaling \$26 million repurchased under the Program during the three and six months ended June 30, 2016.

5. Share Based Compensation

The Company has Stock Incentive Plans (the "Plans") pursuant to which the Company's board of directors may grant stock options or restricted stock to employees. The table below summarizes the expense recognized related to share-based payments recognized for the three and six month periods ended June 30 (in thousands):

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2016	
	2015		2015	
Stock options	\$8,394	\$4,484	\$17,638	\$8,842
Restricted stock	9,041	9,065	14,982	21,658
Stock-based compensation	\$17,435	\$13,549	\$32,620	\$30,500

The tax benefits recorded on stock based compensation were \$11.0 million and \$10.8 million for the six month periods ended June 30, 2016 and 2015, respectively.

The following table summarizes the Company's total unrecognized compensation cost related to stock-based compensation as of June 30, 2016 (cost in thousands):

	Unrecognized Compensation Cost	Weighted Average Period of Expense Recognition (in Years)
Stock options	\$ 55,128	1.46
Restricted stock	16,493	0.83
Total	\$ 71,621	

Stock Options

Stock options are granted with an exercise price estimated to be equal to the fair market value of the Company's stock on the date of grant as authorized by the Company's board of directors. Options granted have vesting provisions ranging from one to six years and vesting of the options is generally based on the passage of time or performance. Stock option grants are subject to forfeiture if employment terminates prior to vesting.

The following summarizes the changes in the number of shares of common stock under option for the six month period ended June 30, 2016 (shares and aggregate intrinsic value in thousands):

	Shares	Weighted Average Exercise Price	Options Exercisable at End of Period	Weighted Average Exercise Price of Exercisable Options	Weighted Average Fair Value of Options Granted During the Period	Aggregate Intrinsic Value
Outstanding at December 31, 2015	5,003	\$ 72.72	2,545	\$ 26.82		\$351,277
Granted	1,281	119.89			\$ 25.50	
Exercised	(154)	51.68				14,095

Edgar Filing: FLEETCOR TECHNOLOGIES INC - Form 10-Q

Forfeited	(94)	143.17			
Outstanding at June 30, 2016	6,036	\$ 82.15	3,144	\$ 45.24	\$ 368,093
Expected to vest as of June 30, 2016	6,036	\$ 82.15			

9

Table of Contents

The aggregate intrinsic value of stock options exercisable at June 30, 2016 was \$307.8 million. The weighted average remaining contractual term of options exercisable at June 30, 2016 was 5.3 years.

The fair value of stock option awards granted was estimated using the Black-Scholes option pricing model during the six months ended June 30, 2016 and 2015, with the following weighted-average assumptions for grants or modifications during the period:

	June 30	
	2016	2015
Risk-free interest rate	1.10 %	1.28 %
Dividend yield	—	—
Expected volatility	27.37 %	28.47 %
Expected life (in years)	3.4	4.0

Restricted Stock

Awards of restricted stock and restricted stock units are independent of stock option grants and are subject to forfeiture if employment terminates prior to vesting. The vesting of shares granted is generally based on the passage of time or performance, or a combination of these. Shares vesting based on the passage of time have vesting provisions of one year.

The following table summarizes the changes in the number of shares of restricted stock and restricted stock units for the six months ended June 30, 2016 (shares in thousands):

	Shares	Weighted Average Grant Date Fair Value
Outstanding at December 31, 2015	497	\$ 149.40
Granted	111	120.41
Vested	(227)	151.68
Cancelled	(38)	147.02
Outstanding at June 30, 2016	343	\$ 138.96

6. Acquisitions**2016 Acquisitions**

On March 14, 2016, the Company signed a definitive agreement to acquire all of the outstanding stock of Serviços e Tecnologia de Pagamentos S.A. ("STP"), from a shareholder group including concessionaires CCR S.A., and Arteris S.A., Raizen Combustíveis S.A. (a joint venture between Shell and Cosan), and others (the "Acquisition"). STP is an electronic toll payments company in Brazil and provides cardless fuel payments at a number of Shell sites throughout Brazil. The purpose of this acquisition is to strengthen the Company's presence in the Brazilian marketplace. The transaction price is denominated in Reals and is stated in the agreement at R\$4.086 billion, which is subject to adjustment through closing. The Company anticipates the price at closing to be approximately R\$4.4 billion, including adjustments, or approximately US\$1.36 billion at exchange rates at June 30, 2016. The Company will finance the acquisition using a combination of existing cash and borrowings under its existing credit facility. The Company received regulatory approvals for the acquisition in August 2016 and expects to close the acquisition in the third quarter of 2016.

During the six months ended June 30, 2016, the Company made additional investments of \$7.9 million related to its equity method investment at Masternaut Group Holdings Limited ("Masternaut"). During the six months ended June 30, 2016, the Company also made deferred payments related to prior acquisitions and acquired Shell portfolios related to our fuel card products in Europe and a small business in Brazil for total payments of \$5.3 million.

During the six months ended June 30, 2016, the Company recorded an approximately \$11 million non-recurring net recovery of purchase price within operating results.

2015 Acquisitions

10

Table of Contents

During 2015, the Company completed acquisitions of Shell portfolios related to its fuel card businesses in Europe, as well as a small acquisition internationally, with an aggregate purchase price of \$46.4 million, made additional investments of \$8.4 million related to Masternaut and deferred payments of \$3.4 million related to acquisitions occurring in prior years.

The following table summarizes the preliminary acquisition accounting for the acquisitions completed during 2015 (in thousands):

Trade and other receivables	\$521
Prepaid expenses and other	996
Property and equipment	197
Goodwill	9,561
Other intangible assets	39,876
Deferred tax liabilities	(2,336)
Liabilities assumed	(2,437)
Aggregate purchase prices	\$46,378

The estimated fair value of intangible assets acquired and the related estimated useful lives consisted of the following (in thousands):

	Useful Lives (in Years)	Value
Customer relationships	14-20	\$39,876
		\$39,876

The 2015 acquisitions were not material individually or in the aggregate to the Company's consolidated financial statements. The accounting for certain of these acquisitions is preliminary pending completing the valuation of intangible assets, income taxes and evaluation of acquired contingencies.

7. Goodwill and Other Intangible Assets

A summary of changes in the Company's goodwill by reportable business segment is as follows (in thousands):

Segment	December 31, 2015	Dispositions	Purchase Price Adjustments	Foreign Currency	June 30, 2016
North America	\$2,640,409	\$ —	\$ —	\$ —	\$2,640,409
International	905,625	(684)	163	11,933	917,037
	\$3,546,034	\$ (684)	\$ 163	\$ 11,933	\$3,557,446

As of June 30, 2016 and December 31, 2015, other intangible assets consisted of the following (in thousands):

Table of Contents

		June 30, 2016			December 31, 2015		
	Weighted-Avg Useful Lives (Years)	Gross Carrying Amounts	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amounts	Accumulated Amortization	Net Carrying Amount
Customer and vendor agreements	18.4	\$2,067,293	\$(380,353)	\$1,686,940	\$2,071,928	\$(329,664)	\$1,742,264

Trade names and trademarks—other	14.6	2,815	(1,947)	868	3,067	(2,058)	1,009
Software	5.1	167,641	(68,953)	98,688	170,085	(54,250)	115,835
Non-compete agreements	5.0	14,003	(9,603)	4,400	15,209	(8,770)	6,439
Total other intangibles		\$2,573,094	\$(460,856)	\$2,112,238	\$2,578,337	\$(394,742)	\$2,183,595
Changes in foreign exchange rates resulted in a \$6.9 million decrease to the carrying values of other intangible assets in the six months ended June 30, 2016. Amortization expense related to intangible assets for the six months ended June 30, 2016 and 2015 was \$66.1 million and \$80.2 million, respectively.							

8. Debt

The Company's debt instruments consist primarily of term notes, revolving lines of credit and a Securitization Facility as follows (in thousands):

	June 30, 2016	December 31, 2015
Term note payable—domestic(a), net of discounts	\$2,106,840	\$2,157,376
Revolving line of credit A Facility—domestic(a)	10,000	160,000
Revolving line of credit A Facility—foreign(a)	—	—
Other debt(c)	2,236	3,624
Total notes payable and other obligations	2,119,076	2,321,000
Securitization Facility(b)	713,000	614,000
Total notes payable, credit agreements and Securitization Facility	\$2,832,076	\$2,935,000
Current portion	\$824,158	\$875,100
Long-term portion	2,007,918	2,059,900
Total notes payable, credit agreements and Securitization Facility	\$2,832,076	\$2,935,000

- On October 24, 2014, the Company entered into a \$3.355 billion Credit Agreement, which provides for senior secured credit facilities consisting of (a) a revolving A credit facility in the amount of \$1.0 billion, with sublimits for letters of credit, swing line loans and multi-currency borrowings, (b) a revolving B facility in the amount of \$35 million for loans in Australian Dollars or New Zealand Dollars, (c) a term loan A facility in the amount of \$2.02 (a) billion and (d) a term loan B facility in the amount of \$300 million. The Credit Agreement also contains an accordion feature for borrowing an additional \$500 million in term A or revolver A and term B. The stated maturity dates for the term loan A, revolving loans, and letters of credit under the New Credit Agreement is November 14, 2019 and November 14, 2021 for the term loan B. The Company has unamortized debt discounts of \$5.0 million related to the term A facility and \$1.1 million related to the term B facility at June 30, 2016.
- (b) The Company is party to a \$950 million receivables purchase agreement ("Securitization Facility") that was amended and restated on December 1, 2015. There is a program fee equal to one month LIBOR and the Commercial Paper Rate of 0.51% plus 0.90% and 0.43% plus 0.90% as of June 30, 2016 and December 31, 2015, respectively. The unused facility fee is payable at a rate of 0.40% per annum as of June 30, 2016 and December 31,

2015.

(c) Other debt includes the long-term portion of contingent consideration and deferred payments associated with certain of our businesses.

The Company was in compliance with all financial and non-financial covenants at June 30, 2016.

Table of Contents

9. Income Taxes

The provision for income taxes differs from amounts computed by applying the U.S. federal tax rate of 35% to income before income taxes for the three months ended June 30, 2016 and 2015 due to the following (in thousands):

	2016		2015	
Computed “expected” tax expense	\$56,822	35.0 %	\$50,852	35.0 %
Changes resulting from:				
Foreign income tax differential	(4,424)	(2.7)%	(5,747)	(4.0)%
State taxes net of federal benefits	1,909	1.2 %	2,022	1.4 %
Foreign-sourced nontaxable income	(2,020)	(1.2)%	(4,061)	(2.8)%
Other	(4,124)	(2.6)%	3,547	2.5 %
Provision for income taxes	\$48,163	29.7 %	\$46,613	32.1 %

10. Earnings Per Share

The Company reports basic and diluted earnings per share. Basic earnings per share is computed by dividing net income attributable to shareholders of the Company by the weighted average number of common shares outstanding during the reported period. Diluted earnings per share reflect the potential dilution related to equity-based incentives using the treasury stock method. The calculation and reconciliation of basic and diluted earnings per share for the three and six months ended June 30 (in thousands, except per share data) follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
Net income	\$114,185	\$98,678	\$224,157	\$192,831
Denominator for basic earnings per share	92,665	91,904	92,591	91,828
Dilutive securities	1,884	2,146	1,846	2,164
Denominator for diluted earnings per share	94,549	94,050	94,437	93,992
Basic earnings per share	\$1.23	\$1.07	\$2.42	\$2.10
Diluted earnings per share	\$1.21	\$1.05	\$2.37	\$2.05

Diluted earnings per share for the three month period ended June 30, 2016 and 2015, respectively, excludes the effect of 1.5 million and 31 thousand shares of common stock that may be issued upon the exercise of employee stock options because such effect would be antidilutive. Diluted earnings per share also excludes the effect of 0.3 million and 0.5 million shares of performance based restricted stock for which the performance criteria have not yet been achieved for the three month period ended June 30, 2016 and 2015, respectively.

11. Segments

The Company reports information about its operating segments in accordance with the authoritative guidance related to segments. The Company’s reportable segments represent components of the business for which separate financial information is evaluated regularly by the chief operating decision maker in determining how to allocate resources and in assessing performance. The Company operates in two reportable segments, North America and International. There were no inter-segment sales.

The Company’s segment results are as follows for the three and six month periods ended June 30 (in thousands):

Table of Contents

	Three Months Ended June 30,		Six Months Ended June 30,

Table of Contents

12. Commitments and Contingencies

In the ordinary course of business, the Company is involved in various pending or threatened legal actions. The Company has recorded reserves for certain legal proceedings. The amounts recorded are estimated and as additional information becomes available, the Company will reassess the potential liability related to legal actions and revise its estimate in the period that information becomes known. In the opinion of management, the amount of ultimate liability, if any, with respect to these actions will not have a material adverse effect on the Company's consolidated financial position, results of operations, or liquidity.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the unaudited consolidated financial statements and related notes appearing elsewhere in this report. In addition to historical information, this discussion contains forward-looking statements that involve risks, uncertainties and assumptions that could cause actual results to differ materially from management's expectations. See "Special Cautionary Notice Regarding Forward-Looking Statements". All foreign currency amounts that have been converted into U.S. dollars in this discussion are based on the exchange rate as reported by OANDA for the applicable periods.

This management's discussion and analysis should also be read in conjunction with the management's discussion and analysis and consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2015.

General Business

FleetCor is a leading independent global provider of fuel cards, commercial payment and data solutions, stored value solutions, and workforce payment products and services to businesses, retailers, commercial fleets, major oil companies, petroleum marketers and government entities in countries throughout North America, South America, Europe, Australia and New Zealand. Our payment programs enable our customers to better manage and control their commercial payments, card programs, and employee spending and provide card-accepting merchants with a high volume customer base that can increase their sales and customer loyalty. We also provide a suite of fleet related and workforce payment solution products, including a mobile telematics service, fleet maintenance management and employee benefit and transportation related payments. In 2015, we processed approximately 1.9 billion transactions on our proprietary networks and third-party networks (which includes approximately 1.3 billion transactions related to our Stored Value Solutions ("SVS") product, acquired with Comdata). We believe that our size and scale, geographic reach, advanced technology and our expansive suite of products, services, brands and proprietary networks contribute to our leading industry position.

We provide our payment products and services in a variety of combinations to create customized payment solutions for our customers and partners. We collectively refer to our suite of product offerings as workforce productivity enhancement products for commercial businesses. We sell a range of customized fleet and lodging payment programs directly and indirectly to our customers through partners, such as major oil companies, leasing companies and petroleum marketers. We refer to these major oil companies, leasing companies, petroleum marketers, value-added resellers (VARs) and other referral partners with whom we have strategic relationships as our "partners." We provide our customers with various card products that typically function like a charge card to purchase fuel, lodging, food, toll, transportation and related products and services at participating locations.

We support our products with specialized issuing, processing and information services that enable us to manage card accounts, facilitate the routing, authorization, clearing and settlement of transactions, and provide value-added functionality and data, including customizable card-level controls and productivity analysis tools. In order to deliver our payment programs and services and process transactions, we own and operate proprietary "closed-loop" networks through which we electronically connect to merchants and capture, analyze and report customized information in North America and internationally. We also use third-party networks to deliver our payment programs and services in order to broaden our card acceptance and use. To support our payment products, we also provide a range of services, such as issuing and processing, as well as specialized information services that provide our customers with value-added functionality and data. Our customers can use this data to track important business productivity metrics, combat fraud and employee misuse, streamline expense administration and lower overall workforce and fleet operating costs. Depending on our customer's and partner's needs, we provide these services in a variety of outsourced solutions ranging from a comprehensive "end-to-end" solution (encompassing issuing, processing and network services) to limited back office processing services.

Executive Overview

Segments

We operate in two segments, which we refer to as our North America and International segments. Our revenue is reported net of the wholesale cost for underlying products and services. In this report, we refer to this net revenue as

“revenue.” See “Results of Operations” for additional segment information.

Table of Contents

For the three and six months ended June 30, 2016 and 2015, our North America and International segments generated the following revenue:

	Three Months Ended June 30,			Six Months Ended June 30,		
	2016	% of	2015	2016	% of	2015
(dollars in millions)	Revenue, net	% of total revenues, net	Revenue, net	Revenue, net	% of total revenues, net	Revenue, net
North America	\$301.1	72.1 %	\$284.6	\$604.7	72.7 %	\$583.4
International	116.8	27.9 %	120.0	227.5	27.3 %	237.4
	\$417.9	100.0 %	\$404.6	\$832.2	100.0 %	\$820.8

Revenues, net, Net Income and Net Income Per Diluted Share. Set forth below are revenues, net, net income and net income per diluted share for the three and six months ended June 30, 2016 and 2015.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
(in thousands, except per share amounts)				
Revenues, net	\$417,905	\$404,605	\$832,167	\$820,771
Net income	\$114,185	\$98,678	\$224,157	\$192,831
Net income per diluted share	\$1.21	\$1.05	\$2.37	\$2.05

Sources of Revenue

Transactions. In both of our segments, we derive revenue from transactions. As illustrated in the diagram below, a transaction is defined as a purchase by a customer. Our customers include holders of our card products and those of our partners, for whom we manage card programs, members of our proprietary networks who are provided access to our products and services and commercial businesses to whom we provide workforce payment productivity solutions. Revenue from transactions is derived from our merchant and network relationships, as well as our customers and partners. Through our merchant and network relationships we primarily offer fuel cards, corporate cards, virtual cards, purchasing cards, T&E cards, gift cards, stored value payroll cards, vehicle maintenance, food, fuel, toll and transportation cards and vouchers and lodging services to our customers.

The following diagram illustrates a typical card transaction flow, but may also be applied to our vehicle maintenance, lodging and food, fuel, toll and transportation card and voucher products, substituting transactions for gallons. This representative model may not include all of our businesses.

Illustrative Transaction Flow

From our customers and partners, we derive revenue from a variety of program fees, including transaction fees, card fees, network fees and charges, which can be fixed fees, cost plus a mark-up or based on a percentage discount from retail prices. Our programs include other fees and charges associated with late payments and based on customer credit risk.

Table of Contents

From our merchant and network relationships, we derive revenue mostly from the difference between the price charged to a customer for a transaction and the price paid to the merchant or network for the same transaction, as well as network fees and charges in certain businesses. As illustrated in the table below, the price paid to a merchant or network may be calculated as (i) the merchant's wholesale cost of the product plus a markup; (ii) the transaction purchase price less a percentage discount; or (iii) the transaction purchase price less a fixed fee per unit.

The following table presents an illustrative revenue model for transactions with the merchant, which is primarily applicable to fuel based product transactions, but may also be applied to our vehicle maintenance, lodging and food, fuel, toll and transportation card and voucher products, substituting transactions for gallons. This representative model may not include all of our businesses.

Illustrative Revenue Model for Fuel Purchases

(unit of one gallon)

Illustrative

Revenue Model		Merchant Payment Methods			
Retail Price	\$3.00	i) Cost Plus Mark-up:	ii) Percentage Discount:	iii) Fixed Fee:	
Wholesale Cost	(2.86)	Wholesale Cost	\$2.86	Retail Price	\$3.00
		Mark-up	0.05	Discount (3%)	(0.09)
FleetCor Revenue	\$0.14			Fixed Fee	(0.09)
Merchant Commission	\$(0.05)	Price Paid to Merchant	\$2.91	Price Paid to Merchant	\$2.91
Price Paid to Merchant	\$2.91			Price Paid to Merchant	\$2.91

Set forth below are our sources of revenue for the three and six months ended June 30, 2016 and 2015, expressed as a percentage of consolidated revenues:

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2015	
Revenue from customers and partners	54.2 %	52.7 %	54.4 %	52.1 %
Revenue from merchants and networks	45.8 %	47.3 %	45.6 %	47.9 %
	100.0%	100.0%	100.0%	100.0%
Revenue directly tied to fuel-price spreads ¹	9.8 %	10.3 %	11.2 %	12.0 %
Revenue directly influenced by the absolute price of fuel ¹	15.0 %	16.5 %	14.4 %	15.6 %
Revenue from program fees, late fees, interest and other	75.2 %	73.2 %	74.4 %	72.4 %
	100.0%	100.0%	100.0%	100.0%

¹ Although we cannot precisely calculate the absolute impact of fuel price spreads and the absolute price of fuel on our consolidated revenues, we believe these percentages approximate their relative impacts.

Revenue per transaction. Set forth below is revenue per transaction information for the three and six months ended June 30, 2016 and 2015:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
Transactions (in millions) ²

Table of Contents

SVS, Stored Value Solutions, is our global provider of gift card and stored value solutions, which is part of the Comdata business acquired in November 2014, and has a low revenue per transaction product. Transactions in the three month periods ended June 30, 2016 and 2015 include approximately 313 million and 296 million transactions, respectively, and approximately 655 million and 597 million transactions in the six months ended June 30, 2016 and 2015, respectively.

Adjusted revenues is a non-GAAP financial measure defined as revenues, net less merchant commissions. We believe this measure is a more effective way to evaluate our revenue performance. We use adjusted revenues as a basis to evaluate our revenues, net of the commissions that are paid to merchants to participate in our card programs. Adjusted revenues is a supplemental non-GAAP financial measure of operating performance. See the heading entitled “Management’s Use of Non-GAAP Financial Measures.”

Revenue per transaction is derived from the various revenue types as discussed above and can vary based on geography, the relevant merchant relationship, the payment product utilized and the types of products or services purchased, the mix of which would be influenced by our acquisitions, organic growth in our business, and the overall macroeconomic environment, including fluctuations in foreign currency exchange rates. Revenue per transaction per customer changes as the level of services we provide to a customer increases or decreases, as macroeconomic factors change and as adjustments are made to merchant and customer rates. See “Results of Operations” for further discussion of transaction volumes and revenue per transaction.

For the three months ended June 30, 2016, transaction volumes increased 6.9% to 465.0 million transactions from 435.1 million transactions in the comparable period of 2015. For the six months ended June 30, 2016, transaction volumes increased 9.9% to 952.0 million from 866.6 million transactions in the comparable period of 2015. North American segment transactions grew 5.7% and 9.3% in the three and six months ended June 30, 2016, respectively, over the comparable periods in 2015, primarily due to growth in our MasterCard, SVS and corporate payments businesses. Transaction volumes in our international segment increased by 16.9% and 14.6% in the three and six months ended June 30, 2016, respectively, over the comparable periods in 2015, primarily due to the addition of new Shell markets in 2015 and 2016 and additional transactions from a small acquisition in Brazil in the first quarter of 2016.

Sources of Expenses

We incur expenses in the following categories:

Merchant commissions—In certain of our card programs, we incur merchant commissions expense when we reimburse merchants with whom we have direct, contractual relationships for specific transactions where a customer purchases products or services from the merchant. In the card programs where it is paid, merchant commissions equal the difference between the price paid by us to the merchant and the merchant’s wholesale cost of the underlying products or services.

Processing—Our processing expense consists of expenses related to processing transactions, servicing our customers and merchants, bad debt expense and cost of goods sold related to our hardware sales in certain businesses.

Selling—Our selling expenses consist primarily of wages, benefits, sales commissions (other than merchant commissions) and related expenses for our sales, marketing and account management personnel and activities.

General and administrative—Our general and administrative expenses include compensation and related expenses (including stock-based compensation) for our executives, finance and accounting, information technology, human resources, legal and other administrative personnel. Also included are facilities expenses, third-party professional services fees, travel and entertainment expenses, and other corporate-level expenses.

Depreciation and amortization—Our depreciation expenses include depreciation of property and equipment, consisting of computer hardware and software (including proprietary software development amortization expense), card-reading equipment, furniture, fixtures, vehicles and buildings and leasehold improvements related to office space. Our amortization expenses include amortization of intangible assets related to customer and vendor relationships, trade names and trademarks, software and non-compete agreements. We are amortizing intangible assets related to business

acquisitions and certain private label contracts associated with the purchase of accounts receivable.

- Other operating, net—Our other operating, net includes other operating expenses and income items unusual to the period and presented separately.

Equity method investment (income) loss—Our equity method investment results relate to our minority interest in Masternaut, a provider of telematics solutions to commercial fleets in Europe, which we account for using the equity method.

- Other expense, net—Our other (income) expense, net includes foreign currency transaction gains or losses, proceeds/costs from the sale of assets and other miscellaneous operating costs and revenue.

Table of Contents

Interest expense, net—Our interest expense, net includes interest income on our cash balances and interest expense on our outstanding debt and on our Securitization Facility. We have historically invested our cash primarily in short-term money market funds.

Provision for income taxes—Our provision for income taxes consists primarily of corporate income taxes related to profits resulting from the sale of our products and services in the United States and internationally. Our worldwide effective tax rate is lower than the U.S. statutory rate of 35%, due primarily to lower rates in foreign jurisdictions and foreign-sourced non-taxable income.

Adjusted Revenues, Adjusted Net Income and Adjusted Net Income Per Diluted Share. Set forth below are adjusted revenues, adjusted net income and adjusted net income per diluted share for the three and six months ended June 30, 2016 and 2015.

	Three Months Ended June 30,		Six Months Ended June 30,	
(in thousands, except per share amounts)	2016	2015	2016	2015
Adjusted revenues	\$395,597	\$382,880	\$781,626	\$771,720
Adjusted net income	\$147,101	\$138,898	\$291,354	\$274,854
Adjusted net income per diluted share	\$1.56	\$1.48	\$3.09	\$2.92

We use adjusted revenues as a basis to evaluate our revenues, net of the commissions that are paid to merchants that participate in certain of our card programs. The commissions paid to merchants can vary when market spreads fluctuate in much the same way as revenues are impacted when market spreads fluctuate. Thus, we believe this is a more effective way to evaluate our revenue performance on a consistent basis. We use adjusted net income and adjusted net income per diluted share to eliminate the effect of items that we do not consider indicative of our core operating performance on a consistent basis. Adjusted revenues, adjusted net income and adjusted net income per diluted share are supplemental non-GAAP financial measures of operating performance. See the heading entitled “Management’s Use of Non-GAAP Financial Measures.”

Factors and Trends Impacting our Business

We believe that the following factors and trends are important in understanding our financial performance:

Fuel prices—Our fleet customers use our products and services primarily in connection with the purchase of fuel. Accordingly, our revenue is affected by fuel prices, which are subject to significant volatility. A change in retail fuel prices could cause a decrease or increase in our revenue from several sources, including fees paid to us based on a percentage of each customer’s total purchase. Changes in the absolute price of fuel may also impact unpaid account balances and the late fees and charges based on these amounts. See “Sources of Revenue” above for further information related to the absolute price of fuel.

Fuel-price spread volatility—A portion of our revenue involves transactions where we derive revenue from fuel-price spreads, which is the difference between the price charged to a fleet customer for a transaction and the price paid to the merchant for the same transaction. In these transactions, the price paid to the merchant is based on the wholesale cost of fuel. The merchant’s wholesale cost of fuel is dependent on several factors including, among others, the factors described above affecting fuel prices. The fuel price that we charge to our customer is dependent on several factors including, among others, the fuel price paid to the merchant, posted retail fuel prices and competitive fuel prices. We experience fuel-price spread contraction when the merchant’s wholesale cost of fuel increases at a faster rate than the fuel price we charge to our customers, or the fuel price we charge to our customers decreases at a faster rate than the merchant’s wholesale cost of fuel. See “Sources of Revenue” above for further information related to fuel-price spreads.

Acquisitions—Since 2002, we have completed over 65 acquisitions of companies and commercial account portfolios. Acquisitions have been an important part of our growth strategy, and it is our intention to continue to seek opportunities to increase our customer base and diversify our service offering through further strategic acquisitions. The impact of acquisitions has, and may continue to have, a significant impact on our results of operations and may make it difficult to compare our results between periods.

Interest rates—Our results of operations are affected by interest rates. We are exposed to market risk to changes in interest rates on our cash investments and debt.

Global economic environment—Our results of operations are materially affected by conditions in the economy generally, both in North America and internationally. Factors affected by the economy include our transaction volumes and the credit risk of our customers. These factors affected our businesses in both our North America and International segments.

Foreign currency changes—Our results of operations are significantly impacted by changes in foreign currency rates; namely, by movements of the Australian dollar, Brazilian real, British pound, Canadian dollar, Czech koruna, Euro,

Table of Contents

Mexican peso, New Zealand dollar and Russian ruble, relative to the U.S. dollar. Approximately 73% and 71% of our revenue in the six months ended June 30, 2016 and 2015, respectively, was derived in U.S. dollars and was not affected by foreign currency exchange rates. See “Results of Operations” for information related to foreign currency impact on our total revenue, net.

Expenses— Over the long term, we expect that our general and administrative expense will decrease as a percentage of revenue as our revenue increases. To support our expected revenue growth, we plan to continue to incur additional sales and marketing expense by investing in our direct marketing, third-party agents, internet marketing, telemarketing and field sales force.

The sum of the columns and rows may not calculate due to rounding.

Revenues and revenue per transaction

Our consolidated revenues increased from \$404.6 million in the three months ended June 30, 2015 to \$417.9 million in the three months ended June 30, 2016, an increase of \$13.3 million, or 3.3%. The increase in our consolidated revenue was primarily due to:

• Organic growth in certain of our payment programs driven by increases in both volume and revenue.

Partially offsetting the organic growth was the negative impact of the macroeconomic environment. Although we cannot precisely measure the impact of the macroeconomic environment, in total we believe it had a negative impact on our consolidated segment revenue for the three months ended June 30, 2016 over the comparable period in 2015 by approximately \$25 million. We believe the impact of lower fuel prices, primarily in the U.S., and lower fuel spread margins, had an unfavorable impact on consolidated revenues of approximately \$15 million. Additionally, changes in

Table of Contents

foreign exchange rates had an unfavorable impact on consolidated revenues of approximately \$10 million due to unfavorable fluctuations in rates in most geographies in the three months ended June 30, 2016 compared to 2015.

Excluding the negative impact of the macroeconomic environment of approximately \$25 million, consolidated revenue growth was approximately 9% in the three months ended June 30, 2016 compared to 2015.

Consolidated revenue per transaction decreased from \$0.93 in the three months ended June 30, 2015 to \$0.90 in the three months ended June 30, 2016, a decrease of \$0.03 or 3.4%. Excluding the impact of the SVS business, which has a lower revenue per transaction product and had approximately 313 million and 296 million transactions in the second quarter of 2016 and 2015, respectively, revenue per transaction for the second quarter of 2016 decreased 6.9% to \$2.50 from \$2.68 in the second quarter of 2015. Excluding the negative impact of the macroeconomic environment of approximately \$25 million, the impact of SVS and a small international acquisition, revenue per transaction increased to approximately \$2.78 in the second quarter of 2016 compared to \$2.68 in 2015. Revenue per transaction can vary based on the geography, the relevant merchant and customer relationship, the payment product utilized, and the types of products or services purchased. The revenue mix was influenced by our acquisitions, organic growth in the business, and fluctuations in the macroeconomic environment, including fuel prices, fuel spread margins and foreign exchange rates.

North America segment revenues and revenue per transaction

North America revenues increased from \$284.6 million in the three months ended June 30, 2015 to \$301.1 million in the three months ended June 30, 2016, an increase of \$16.6 million, or 5.8%. The increase in our North America segment revenue was primarily due to:

Organic growth in certain of our payment programs driven by increases in both volume and revenue.

Partially offsetting the organic growth was the negative impact of the macroeconomic environment. Although we cannot precisely measure the impact of the macroeconomic environment, in total we believe it had a negative impact on our North America segment revenue for the three months ended June 30, 2016 over the comparable period in 2015 by approximately \$14 million, primarily due to the impact of lower fuel prices in the U.S. and lower fuel spread margins.

Excluding the negative impact of the macroeconomic environment of approximately \$14 million, North America revenue growth was approximately 11% in the three months ended June 30, 2016 compared to 2015.

North America segment revenue per transaction remained constant at \$0.73 in the three months ended June 30, 2016 and 2015, respectively. Revenue per transaction remained flat due to the impact of organic growth offset by the impact of lower fuel prices and lower fuel spread margins during the quarter versus the prior year quarter, as well as the impact of SVS. Excluding the impact of the SVS business, which had approximately 313 million and 296 million transactions in the second quarter of 2016 and 2015, respectively, revenue per transaction in our North America segment for the second quarter of 2016 decreased 1.5% to \$2.67 from \$2.71 in the second quarter of 2015. Excluding the negative impact of the macroeconomic environment of approximately \$14 million and the impact of SVS, revenue per transaction increased to approximately \$2.82 in the second quarter of 2016 compared to \$2.71 in 2015.

International segment revenues and revenue per transaction

International segment revenues decreased from \$120.0 million in the three months ended June 30, 2015 to \$116.8 million in the three months ended June 30, 2016, a decrease of \$3.3 million, or 2.7%. The decrease in our International segment revenue was primarily due to:

The impact of the macroeconomic environment. Although we cannot precisely measure the impact of the macroeconomic environment, in total we believe it had a negative impact on our International segment revenue for the three months ended June 30, 2016 over the comparable period in 2015, primarily due to unfavorable fluctuations in foreign exchange rates in most geographies where we do business of approximately \$10 million, as well as slightly lower fuel prices internationally.

The negative impact of the macroeconomic environment was partially offset by organic growth in certain of our payment programs driven by increases in both volume and revenue.

Excluding the negative impact of the macroeconomic environment of approximately \$10 million, International revenue growth was approximately 5% in the three months ended June 30, 2016 compared to 2015.

International segment revenue per transaction decreased from \$2.63 in the three months ended June 30, 2015 to \$2.19 in the three months ended June 30, 2016, a decrease of \$0.44 per transaction or 16.8%, due primarily to the unfavorable impact of foreign exchange rates across most of our geographies and the impact of a small tuck-in acquisition, which has a lower revenue per transaction than our other products. Excluding these negative impacts of the macroeconomic environment of approximately \$10 million, and the small acquisition, our International revenue per transaction increased to approximately \$2.71 in the second quarter of 2016 compared to \$2.63 in 2015.

Table of Contents

Consolidated operating expenses

Merchant commissions. Merchant commissions increased from \$21.7 million in the three months ended June 30, 2015 to \$22.3 million in the three months ended June 30, 2016, an increase of \$0.6 million, or 2.7%. This increase was due primarily to the fluctuation of the margin between the wholesale cost and retail price of fuel, which impacted merchant commissions in certain card programs, partially offset by decreases due to the impact of fluctuations in foreign exchange rates.

Processing. Processing expenses increased from \$74.6 million in the three months ended June 30, 2015 to \$80.7 million in the three months ended June 30, 2016, an increase of \$6.1 million, or 8.2%. Increases in processing expenses are primarily due to increased revenues and transactions, as well increased spending related to our SVS, Shell Europe and Comdata products, partially offset by the impact of fluctuations in foreign exchange rates.

Selling. Selling expenses increased from \$27.3 million in the three months ended June 30, 2015 to \$31.9 million in the three months ended June 30, 2016, an increase of \$4.7 million, or 17.0%. Increases in spending in certain markets, including in our Shell Europe business, were partially offset by the impact of fluctuations in foreign exchange rates.

General and administrative. General and administrative expenses of \$63.4 million in the three months ended June 30, 2015 were relatively flat compared to \$63.6 million in the three months ended June 30, 2016. Increases in stock based compensation expense of \$3.6 million were offset by the impact of fluctuations in foreign exchange rates and other cost savings.

Depreciation and amortization. Depreciation and amortization decreased slightly from \$48.8 million in the three months ended June 30, 2015 to \$48.4 million in the three months ended June 30, 2016, a decrease of \$0.4 million. Increases due to additional capital spending were offset by the impact of fluctuations in foreign exchange rates.

Equity method investment (income) loss. Equity method investment income increased to \$7.2 million in the three months ended June 30, 2016 as compared to a loss of \$5.1 million in the three months ended June 30, 2015 due primarily to a non-recurring net recovery of purchase price of approximately \$11 million during the second quarter of 2016.

Interest expense, net. Interest expense decreased from \$18.1 million in the three months ended June 30, 2015 to \$15.9 million in the three months ended June 30, 2016, a decrease of \$2.2 million, or 12.1%. The decrease in interest expense is primarily due to the impact of delevering from the first quarter of 2015 through the second quarter of 2016 and overall lower interest rates. The following table sets forth the average interest rates paid on borrowings under our Credit Facility, excluding the relevant unused credit facility fees.

	Three Months Ended June 30,	
	2016	2015
Term loan A	1.94 %	1.93 %
Term loan B	3.75 %	3.75 %
Domestic Revolver A	2.00 %	1.93 %
Foreign Revolver A	— %	2.25 %
Foreign swing line	— %	2.23 %

The average unused credit facility fee for Domestic Revolver A was 0.30% and 0.35% in the three month period ending June 30, 2016 and 2015, respectively.

Provision for income taxes. The provision for income taxes increased from \$46.6 million in the three months ended June 30, 2015 to \$48.2 million in the three months ended June 30, 2016, an increase of \$1.6 million, or 3.3%. We provide for income taxes during interim periods based on an estimate of our effective tax rate for the year. Discrete items and changes in the estimate of the annual tax rate are recorded in the period they occur. Our effective tax rate decreased from 32.1% for three months ended June 30, 2015 to 29.7% for the three months ended June 30, 2016. The

decrease in the effective tax rate was due primarily to a one-time net gain recorded by our equity method investment, which favorably impacted pre-tax earnings but was not subject to U.S. income taxes. In addition, the impact of U.S. tax planning initiatives that were implemented in the third and fourth quarters of 2015, favorably impacted our tax rate.

We pay taxes in many different taxing jurisdictions, including the U.S., most U.S. states and many non-U.S. jurisdictions. The tax rates in certain non-U.S. taxing jurisdictions are lower than the U.S. tax rate. Consequently, as our earnings fluctuate between taxing jurisdictions, our effective tax rate fluctuates.

Table of Contents

Net income. For the reasons discussed above, our net income increased from \$98.7 million in the three months ended June 30, 2015 to \$114.2 million in the three months ended June 30, 2016, an increase of \$15.5 million, or 15.7%.

Operating income and operating margin

Consolidated operating income. Operating income increased from \$169.2 million in the three months ended June 30, 2015 to \$171.2 million in the three months ended June 30, 2016, an increase of \$2.0 million, or 1.2%. Our operating margin was 41.8% and 41.0% for the three months ended June 30, 2015 and 2016, respectively. The increase in operating income was primarily due to organic growth in the business, partially offset by the negative impact of the macroeconomic environment of approximately \$19 million, driven by lower fuel prices and spreads and unfavorable fluctuations in the foreign exchange rates.

For the purpose of segment operating results, we calculate segment operating income by subtracting segment operating expenses from segment revenue. Segment operating margin is calculated by dividing segment operating income by segment revenue.

North America segment operating income. North America operating income increased from \$109.6 million in the three months ended June 30, 2015 to \$117.6 million in the three months ended June 30, 2016, an increase of \$8.0 million, or 7.3%. North America operating margin was 38.5% and 39.1% for the three months ended June 30, 2015 and 2016, respectively. The increase in operating income was due primarily to organic growth in the business, partially offset by the negative impact of the macroeconomic environment of approximately \$14 million, driven by lower fuel prices and spreads.

International segment operating income. International operating income decreased from \$59.6 million in the three months ended June 30, 2015 to \$53.6 million in the three months ended June 30, 2016, a decrease of \$6.0 million, or 10.1%. International operating margin was 49.6% and 45.9% for the three months ended June 30, 2015 and 2016, respectively. The decrease in operating income was due primarily to the negative impact of the macroeconomic environment of approximately \$5 million.

Table of Contents

Six months ended June 30, 2016 compared to the six months ended June 30, 2015

The following table sets forth selected consolidated statement of income data for the six months ended June 30, 2016 and 2015 (in thousands).

	Six Months Ended June 30, 2016			Six Months Ended June 30, 2015			Increase (decrease)	% Change

Revenues and revenue per transaction

Our consolidated revenues increased from \$820.8 million in the six months ended June 30, 2015 to \$832.2 million in the six months ended June 30, 2016, an increase of \$11.4 million, or 1.4%. The increase in our consolidated revenue was primarily due to:

• Organic growth in certain of our payment programs driven by increases in both volume and revenue.

Organic growth of our consolidated revenues was partially offset by the negative impact of the macroeconomic environment. Although we cannot precisely measure the impact of the macroeconomic environment, in total we believe it had a negative impact on our consolidated segment revenue for the six months ended June 30, 2016 over the comparable period in 2015 of approximately \$62 million. We believe the impact of lower fuel prices, primarily in the U.S., and lower fuel spread margins, had an unfavorable impact on consolidated revenues of approximately \$40 million.

Table of Contents

Additionally, changes in foreign exchange rates had an unfavorable impact on consolidated revenues of approximately \$23 million due to unfavorable fluctuations in rates in most geographies in the six months ended June 30, 2016 compared to 2015.

Consolidated revenue per transaction decreased from \$0.95 in the six months ended June 30, 2015 to \$0.87 in the six months ended June 30, 2016, a decrease of \$0.07 or 7.7%. Excluding the impact of the SVS business, which had approximately 655 million and 597 million transactions in the first half of 2016 and 2015, respectively, revenue per transaction for the first half of 2016 decreased 8.6% to \$2.53 from \$2.77 in the first half of 2015. Excluding the negative impact of the macroeconomic environment of approximately \$62 million, the impact of SVS and a small international acquisition, revenue per transaction increased to approximately \$2.87 in the first half of 2016 compared to \$2.77 in 2015.

North America segment revenues and revenue per transaction

North America revenues increased from \$583.4 million in the six months ended June 30, 2015 to \$604.7 million in the six months ended June 30, 2016, an increase of \$21.3 million, or 3.6%. The increase in our North America segment revenue was primarily due to:

• Organic growth in certain of our payment programs driven by increases in both volume and revenue.

• The impact of the macroeconomic environment. Although we cannot precisely measure the impact of the macroeconomic environment, in total we believe it had a negative impact on our North America segment revenue for the six months ended June 30, 2016 over the comparable period in 2015 by approximately \$39 million, primarily due to the impact of lower fuel prices in the U.S. and lower fuel spread margins.

• Excluding the negative impact of the macroeconomic environment of approximately \$39 million, North America revenue growth was approximately 10% in the six months ended June 30, 2016 compared to 2015.

North America segment revenue per transaction decreased from \$0.75 in the six months ended June 30, 2015 to \$0.71 in the six months ended June 30, 2016, a decrease of \$0.04 or 5.2%. Revenue per transaction decreased primarily due to lower fuel prices and lower fuel spread margins during the first half of 2016 versus the first half of 2015, as well as the impact of SVS. Excluding the impact of the SVS business, which had approximately 655 million and 597 million transactions in the first half of 2016 and 2015, respectively, revenue per transaction in our North America segment for the first half of 2016 decreased 4.6% to \$2.74 from \$2.88 in the first half of 2015. Excluding the negative impact of the macroeconomic environment of approximately \$39 million and the impact of SVS, revenue per transaction increased to approximately \$2.95 in the first half of 2016 compared to \$2.88 in 2015.

International segment revenues and revenue per transaction

International segment revenues decreased from \$237.4 million in the six months ended June 30, 2015 to \$227.5 million in the six months ended June 30, 2016, a decrease of \$9.9 million, or 4.2%. The decrease in our International segment revenue was primarily due to:

• The impact of the macroeconomic environment. Although we cannot precisely measure the impact of the macroeconomic environment, in total we believe it had a negative impact on our International segment revenue for the six months ended June 30, 2016 over the comparable period in 2015, primarily due to unfavorable fluctuations in foreign exchange rates in most geographies where we do business of approximately \$24 million, as well as slightly lower fuel prices internationally.

• The negative impact of the macroeconomic environment was partially offset by organic growth in certain of our payment programs driven by increases in both volume and revenue.

• Excluding the negative impact of the macroeconomic environment of approximately \$24 million, International revenue growth was approximately 6% in the six months ended June 30, 2016 compared to 2015.

International segment revenue per transaction decreased from \$2.57 in the six months ended June 30, 2015 to \$2.15 in the six months ended June 30, 2016, a decrease of \$0.42 per transaction or 16.4%, due primarily to the unfavorable impact of foreign exchange rates across most of our geographies and the impact of a small tuck-in acquisition, which has a lower revenue per transaction than our other products. Excluding these negative impacts of the macroeconomic

environment of approximately \$24 million, as well as the small acquisition, our International revenue per transaction increased to approximately \$2.72 in the first half of 2016 compared to \$2.57 in 2015.

Consolidated operating expenses

Merchant commissions. Merchant commissions increased from \$49.1 million in the six months ended June 30, 2015 to \$50.5 million in the six months ended June 30, 2016, an increase of \$1.5 million, or 3.0%. This increase was due primarily to the

Table of Contents

fluctuation of the margin between the wholesale cost and retail price of fuel, which impacted merchant commissions in certain card programs, partially offset by decreases due to the impact of fluctuations in foreign exchange rates. Processing. Processing expenses increased from \$155.9 million in the six months ended June 30, 2015 to \$160.5 million in the six months ended June 30, 2016, an increase of \$4.6 million, or 2.9%. Increases in processing expenses are primarily due to increased revenues and transactions, as well increased spending related to our SVS, Shell Europe and Comdata products, partially offset by the impact of fluctuations in foreign exchange rates.

Selling. Selling expenses increased from \$53.6 million in the six months ended June 30, 2015 to \$58.5 million in the six months ended June 30, 2016, an increase of \$4.9 million, or 9.1%. Increases in spending in certain markets, including in our Shell Europe business, were partially offset by the impact of fluctuations in foreign exchange rates. General and administrative. General and administrative expenses decreased slightly from \$133.1 million in the six months ended June 30, 2015 to \$131.2 million in the six months ended June 30, 2016, a decrease of \$1.9 million, or 1.4%, primarily due to the impact of fluctuations in foreign exchange rates. These decreases were partially offset by increased stock based compensation of \$1.7 million over the comparable period in 2015.

Depreciation and amortization. Depreciation and amortization decreased from \$96.9 million in the six months ended June 30, 2015 to \$84.8 million in the six months ended June 30, 2016, a decrease of \$12.1 million, or 12.5%. The decrease was due to movements in and adjustments from changes in foreign exchange rates of approximately \$13.5 million.

Equity method investment (income) loss. Equity method investment income increased to \$5.0 million in the six months ended June 30, 2016 as compared to a loss of \$7.8 million in the six months ended June 30, 2015 due primarily to a non-recurring net recovery of purchase price of approximately \$11 million during the second quarter of 2016.

Interest expense, net. Interest expense decreased from \$37.7 million in the six months ended June 30, 2015 to \$32.1 million in the six months ended June 30, 2016, a decrease of \$5.6 million, or 14.8%. The decrease in interest expense is primarily due to the impact of delevering from the first quarter of 2015 through the second quarter of 2016 and overall lower interest rates. The following table sets forth the average interest rates paid on borrowings under our Credit Facility, excluding the relevant unused credit facility fees.

	Six Months Ended June 30,	
	2016	2015
Term loan A	1.94%	2.01%
Term loan B	3.75%	3.75%
Domestic Revolver A	1.96%	2.01%
Foreign Revolver A	— %	2.36%
Foreign swing line	— %	2.31%

The average unused credit facility fee for Domestic Revolver A was 0.30% and 0.37% in the six month period ending June 30, 2016 and 2015, respectively.

Provision for income taxes. The provision for income taxes increased from \$92.1 million in the six months ended June 30, 2015 to \$95.1 million in the six months ended June 30, 2016, an increase of \$3.0 million, or 3.3%. We provide for income taxes during interim periods based on an estimate of our effective tax rate for the year. Discrete items and changes in the estimate of the annual tax rate are recorded in the period they occur. Our effective tax rate decreased from 32.3% for six months ended June 30, 2015 to 29.8% for the six months ended June 30, 2016. The decrease in the effective tax rate was due primarily to a one-time net gain recorded by our equity method investment, which favorably impacted pre-tax earnings but was not subject to U.S. income taxes. In addition, the impact of U.S. tax planning initiatives that were implemented in the third and fourth quarters of 2015, favorably impacted our tax

rate.

We pay taxes in many different taxing jurisdictions, including the U.S., most U.S. states and many non-U.S. jurisdictions. The tax rates in certain non-U.S. taxing jurisdictions are lower than the U.S. tax rate. Consequently, as our earnings fluctuate between taxing jurisdictions, our effective tax rate fluctuates.

Net income. For the reasons discussed above, our net income increased from \$192.8 million in the six months ended June 30, 2015 to \$224.2 million in the six months ended June 30, 2016, an increase of \$31.3 million, or 16.2%.

28

Table of Contents

Operating income and operating margin

Consolidated operating income. Operating income increased from \$332.9 million in the six months ended June 30, 2015 to \$347.1 million in the six months ended June 30, 2016, an increase of \$14.2 million, or 4.3%. Our operating margin was 40.6% and 41.7% for the six months ended June 30, 2015 and 2016, respectively. The increase in operating income was primarily due to organic growth in the business, partially offset by the negative impact of the macroeconomic environment of approximately \$49 million, driven by lower fuel prices and spreads and unfavorable fluctuations in foreign exchange rates.

For the purpose of segment operating results, we calculate segment operating income by subtracting segment operating expenses from segment revenue. Segment operating margin is calculated by dividing segment operating income by segment revenue.

North America segment operating income. North America operating income increased from \$219.4 million in the six months ended June 30, 2015 to \$231.5 million in the six months ended June 30, 2016, an increase of \$12.1 million, or 5.5%. North America operating margin was 37.6% and 38.3% for the six months ended June 30, 2015 and 2016, respectively. The increase in operating income was due primarily to organic growth in the business, partially offset by the negative impact of the macroeconomic environment of approximately \$39 million, driven by lower fuel prices and spreads.

International segment operating income. International operating income increased from \$113.6 million in the six months ended June 30, 2015 to \$115.7 million in the six months ended June 30, 2016, an increase of \$2.1 million, or 1.8%. International operating margin was 47.8% and 50.8% for the six months ended June 30, 2015 and 2016, respectively. The decrease in operating income was due primarily to the negative impact of the macroeconomic environment of approximately \$10 million.

Liquidity and capital resources

Our principal liquidity requirements are to service and repay our indebtedness, make acquisitions of businesses and commercial account portfolios, repurchase shares of our common stock and meet working capital needs, tax and capital expenditure needs.

Sources of liquidity

At June 30, 2016, our cash balances totaled \$649.1 million, with approximately \$156.0 million restricted. Restricted cash represents customer deposits in the Czech Republic and in our Comdata business in the U.S., which we are restricted from using other than to repay customer deposits.

At June 30, 2016, cash and cash equivalents held in foreign subsidiaries where we have determined we are permanently reinvested is \$339.9 million. All of the cash and cash equivalents held by our foreign subsidiaries, excluding restricted cash, are available for general corporate purposes. Our current intent is to permanently reinvest these funds outside of the U.S. Our current expectation for funds held in our foreign subsidiaries is to use the funds to finance foreign organic growth, to pay for potential future foreign acquisitions and to repay any foreign borrowings that may arise from time to time. We currently believe that funds generated from our U.S. operations, along with available borrowing capacity in the U.S. will be sufficient to fund our U.S. operations for the foreseeable future, and therefore do not foresee a need to repatriate cash held by our foreign subsidiaries in a taxable transaction to fund our U.S. operations. However, if at a future date or time these funds are needed for our operations in the U.S. or we otherwise believe it is in our best interests to repatriate all or a portion of such funds, we may be required to accrue and pay U.S. taxes to repatriate these funds. No assurances can be provided as to the amount or timing thereof, the tax consequences related thereto or the ultimate impact any such action may have on our results of operations or financial condition.

We utilize an accounts receivable Securitization Facility to finance a majority of our domestic fuel card receivables, to lower our cost of borrowing and more efficiently use capital. We generate and record accounts receivable when a customer makes a purchase from a merchant using one of our charge card products and generally pay merchants within seven days of receiving the merchant billing. As a result, we utilize the Securitization Facility as a source of

liquidity to provide the cash flow required to fund merchant payments while we collect customer balances. These balances are primarily composed of charge balances, which are typically billed to the customer on a weekly, semimonthly or monthly basis, and are generally required to be paid within 14 days of billing. We also consider the undrawn amounts under our Securitization Facility and Credit Facility as funds available for working capital purposes and acquisitions. At June 30, 2016, we had the ability to generate approximately \$8 million of additional liquidity under our Securitization Facility. At June 30, 2016, we had approximately \$1,025 million available under our Credit Facility.

Based on our current forecasts and anticipated market conditions, we believe that our current cash balances, our available borrowing capacity and our ability to generate cash from operations, will be sufficient to fund our liquidity needs for at least the next twelve months. However, we regularly evaluate our cash requirements for current operations, commitments, capital

Table of Contents

requirements and acquisitions, and we may elect to raise additional funds for these purposes in the future, either through the issuance of debt or equity securities. We may not be able to obtain additional financing on terms favorable to us, if at all.

Cash flows

The following table summarizes our cash flows for the six months ended June 30, 2016 and 2015.

	Six Months	
	Ended June 30,	
(in millions)	2016	2015
Net cash provided by operating activities	\$208.9	\$198.4
Net cash used in investing activities	(37.9)	(24.2)
Net cash used in financing activities	(118.3)	(253.3)

Operating activities. Net cash provided by operating activities increased from \$198.4 million in the six months ended June 30, 2015 to \$208.9 million in the six months ended June 30, 2016. The increase is primarily due to additional net income of \$31.3 million during the six months ended June 30, 2016 over the comparable period in 2015, a one-time nonrecurring net gain recorded by our equity method investment of approximately \$11 million, partially offset by changes in working capital. Fluctuations in receivables and payables, which affect working capital the most significantly, are largely due to timing of month end transactions and volume.

Investing activities. Net cash used in investing activities increased from \$24.2 million in the six months ended June 30, 2015 to \$37.9 million in the six months ended June 30, 2016. This increase is primarily due to cash used for capital expenditures and acquisitions, including equity method investments, in the six months ended June 30, 2016 over the comparable period in 2015.

Financing activities. Net cash used in financing activities decreased from \$253.3 million in the six months ended June 30, 2015 to \$118.3 million in the six months ended June 30, 2016. The decrease is primarily due to a reduction in net payments of \$117 million on our Credit Facility, a reduction in payments on contingent consideration arrangements of \$39.8 million and an increase in borrowings on our Securitization Facility of \$10 million, each in the six months ended June 30, 2016 over the comparable period in 2015. The decrease was partially offset by repurchases of our common stock of \$26 million during the second quarter of 2016 under our stock repurchase program.

Capital spending summary

Our capital expenditures increased from \$16.2 million in the six months ended June 30, 2015 to \$24.8 million in the six months ended June 30, 2016, an increase of \$8.5 million, or 52.5%. This increase is primarily due to increased spending on strategic projects, including continued investment in our GFN application.

Credit Facility

We are party to a \$3.355 billion Credit Agreement (the “Credit Facility”) with a syndicate of banks, which we originally entered into on October 24, 2014. The Credit Facility provides for (a) a revolving A credit facility in the amount of \$1.0 billion, with sublimits for letters of credit, swing line loans and multicurrency borrowings, (b) a revolving B facility in the amount of \$35 million for loans in Australian Dollars or New Zealand Dollars, (c) a term loan A facility in the amount of \$2.02 billion and (d) a term loan B facility in the amount \$300 million. The Credit Facility also contains an accordion feature for borrowing an additional \$500 million in term A or revolver A and term B. The Credit Facility contains representations, warranties and events of default, as well as certain affirmative and negative covenants, customary for financings of this nature. These covenants include limitations on our ability to pay dividends and make other restricted payments under certain circumstances and compliance with certain financial ratios. As of June 30, 2016, we were in compliance with each of the covenants under the Credit Facility.

The stated maturity dates for our term loan A, revolving loans, and letters of credit under the New Credit Agreement is November 14, 2019 and November 14, 2021 for our term loan B. The term loans are payable in quarterly installments and are due on the last business day of each March, June, September, and December with the final principal payment due on the respective maturity date. Borrowings on the revolving line of credit are repayable at our option of one, two, three or nine months after borrowing, depending on the term of the borrowing on the facility. Borrowings on the foreign swing line of credit are due no later than ten business days after such loan is made.

At June 30, 2016, we had \$1,868.5 million in borrowings outstanding on term loan A, \$246.3 million in borrowings outstanding on term loan B and \$10.0 million in borrowings outstanding on the domestic revolving A facility. Unamortized debt discounts

Table of Contents

are \$6.1 million at June 30, 2016. During the six months ended June 30, 2016, we made principal payments of \$50.5 million on the term loan A, \$1.3 million on the term loan B and \$290 million on the domestic revolving A facility.

Securitization Facility

We are a party to a receivables purchase agreement among FleetCor Funding LLC, as seller, PNC Bank, National Association as administrator, and various purchaser agents, conduit purchasers and related committed purchasers parties thereto, which was amended and restated as of December 1, 2015. We refer to this arrangement as the Securitization Facility. The current purchase limit under the Securitization Facility is \$950 million. There is a program fee equal to one month LIBOR and the Commercial Paper Rate of 0.51% plus 0.90% and 0.43% plus 0.90% as of June 30, 2016 and December 31, 2015, respectively. The unused facility fee is payable at a rate of 0.40% per annum as of June 30, 2016 and December 31, 2015, respectively.

The Securitization Facility provides for certain termination events, which includes nonpayment, upon the occurrence of which the administrator may declare the facility termination date to have occurred, may exercise certain enforcement rights with respect to the receivables, and may appoint a successor servicer, among other things. We were in compliance with the financial covenant requirements related to our Securitization Facility as of June 30, 2016.

Other Liabilities

In connection with our acquisition of certain businesses, we owe final payments of \$5.2 million, which are payable in the next twelve months.

Acquisition of STP Expected to Close Third Quarter of 2016

On March 14, 2016, we signed a definitive agreement to acquire all of the outstanding stock of Serviços e Tecnologia de Pagamentos S.A. ("STP"), from a shareholder group including concessionaires CCR S.A., and Arteris S.A., Raizen Combustíveis S.A. (a joint venture between Shell and Cosan), and others (the "Acquisition"). STP is an electronic toll payments company in Brazil and provides cardless fuel payments at a number of Shell sites throughout Brazil. The purpose of this acquisition is to strengthen our presence in the Brazilian marketplace. The transaction price is denominated in Reals and is stated in the agreement at R\$4.086 billion, which is subject to adjustment through closing. We anticipate the price at closing to be approximately R\$4.4 billion, including adjustments, or approximately US\$1.36 billion at exchange rates at June 30, 2016. We plan to finance the acquisition using a combination of existing cash and borrowings under our existing Credit Facility. We received regulatory approvals for the acquisition in August 2016 and expect to close the acquisition in the third quarter of 2016.

Stock Repurchase Program

On February 4, 2016, our Board of Directors approved a stock repurchase program under which we may begin purchasing up to an aggregate of \$500 million of the Company's common stock over the next 18 months. Any stock repurchases may be made at times and in such amounts as we deem appropriate. The timing and amount of stock repurchases, if any, will depend on a variety of factors including the stock price, market conditions, corporate and regulatory requirements, and any additional constraints related to material inside information we may possess. Any repurchases are expected to be funded by available cash flow from the business and working capital. There were 191,291 shares totaling \$26.0 million repurchased under the Program during the three months ended June 30, 2016.

Critical accounting policies and estimates

In applying the accounting policies that we use to prepare our consolidated financial statements, we necessarily make accounting estimates that affect our reported amounts of assets, liabilities, revenue and expenses. Some of these estimates require us to make assumptions about matters that are highly uncertain at the time we make the accounting estimates. We base these assumptions and the resulting estimates on historical information and other factors that we believe to be reasonable under the circumstances, and we evaluate these assumptions and estimates on an ongoing basis. In many instances, however, we reasonably could have used different accounting estimates and, in other instances, changes in our accounting estimates could occur from period to period, with the result in each case being a

material change in the financial statement presentation of our financial condition or results of operations. We refer to estimates of this type as critical accounting estimates.

Accounting estimates necessarily require subjective determinations about future events and conditions. During the three months ended June 30, 2016, we have not adopted any new critical accounting policies that had a significant impact upon our consolidated financial statements, have not changed any critical accounting policies and have not changed the application of any critical accounting policies from the year ended December 31, 2015. For critical accounting policies, refer to the Critical Accounting Estimates in Item 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

Table of Contents

included in our Annual Report on Form 10-K for the year ended December 31, 2015 and our summary of significant accounting policies in Note 1 of our notes to the unaudited consolidated financial statements in this Form 10-Q.

Management's Use of Non-GAAP Financial Measures

We have included in the discussion above certain financial measures that were not prepared in accordance with GAAP. Any analysis of non-GAAP financial measures should be used only in conjunction with results presented in accordance with GAAP. Below, we define the non-GAAP financial measures, provide a reconciliation of the non-GAAP financial measure to the most directly comparable financial measure calculated in accordance with GAAP, and discuss the reasons that we believe this information is useful to management and may be useful to investors.

Adjusted revenues

We have defined the non-GAAP measure adjusted revenues as revenues, net less merchant commissions as reflected in our income statement.

We use adjusted revenues as a basis to evaluate our revenues, net of the commissions that are paid to merchants to participate in our card programs. The commissions paid to merchants can vary when market spreads fluctuate in much the same way as revenues are impacted when market spreads fluctuate. We believe that adjusted revenue is an appropriate supplemental measure of financial performance and may be useful to investors to understanding our revenue performance on a consistent basis. Adjusted revenues are not intended to be a substitute for GAAP financial measures and should not be used as such.

Set forth below is a reconciliation of adjusted revenues to the most directly comparable GAAP measure, revenues, net (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2016	2015	2016	2015
Revenues, net	\$417,905	\$404,605	\$832,167	\$820,771
Merchant commissions	(22,308)	(21,725)	(50,541)	(49,051)
Total adjusted revenues	\$395,597	\$382,880	\$781,626	\$771,720

Adjusted net income and adjusted net income per diluted share

We have defined the non-GAAP measure adjusted net income as net income as reflected in our statement of income, adjusted to eliminate (a) non-cash stock-based compensation expense related to share-based compensation awards, (b) amortization of deferred financing costs, discounts and intangible assets, (c) amortization of the premium recognized on the purchase of receivables, (d) our proportionate share of amortization of intangible assets at our equity method investment, and (e) a non-recurring net gain at our equity method investment.

We have defined the non-GAAP measure adjusted net income per diluted share as the calculation previously noted divided by the weighted average diluted shares outstanding as reflected in our statement of income.

We use adjusted net income to eliminate the effect of items that we do not consider indicative of our core operating performance. We believe it is useful to exclude non-cash stock based compensation expense from adjusted net income because non-cash equity grants made at a certain price and point in time do not necessarily reflect how our business is performing at any particular time and stock based compensation expense is not a key measure of our core operating performance. We also believe that amortization expense can vary substantially from company to company and from period to period depending upon their financing and accounting methods, the fair value and average expected life of their acquired intangible assets, their capital structures and the method by which their assets were acquired. Therefore, we have excluded amortization expense from adjusted net income. We believe that adjusted net income and adjusted net income per diluted share are appropriate supplemental measures of financial performance and may be useful to investors to understanding our operating performance on a consistent basis. Adjusted net income and adjusted net income per diluted share are not intended to be a substitute for GAAP financial measures and should not be used as such.

Table of Contents

Set forth below is a reconciliation of adjusted net income and adjusted net income per diluted share to the most directly comparable GAAP measure, net income and net income per diluted share (in thousands, except per share amounts):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
Net income	\$114,185	\$98,678	\$224,157	\$192,831
Net income per diluted share	1.21	1.05	2.37	2.05
Stock based compensation	17,434	13,549	32,620	30,500
Amortization of intangible assets	38,752	40,415	66,114	80,186
Amortization of premium on receivables	1,349	814	2,339	1,627
Amortization of deferred financing costs and discounts	1,829	1,773	3,651	3,517
Amortization of intangibles at equity method investment	2,824	2,667	5,127	5,372
Non-recurring net gain at equity method investment	(10,845)	—	(10,845)	—
Total pre-tax adjustments	51,343	59,218	99,006	121,202
Income tax impact of pre-tax adjustments at the effective tax rate ¹	(18,427)	(18,999)	(31,809)	(39,179)
Adjusted net income	\$147,101	\$138,898	\$291,354	\$274,854
Adjusted net income per diluted share	\$1.56	\$1.48	\$3.09	\$2.92
Diluted shares	94,549	94,050	94,437	93,992

¹Excludes the results of our equity method investment on our effective tax rate, as results from our equity method investment are reported within the Consolidated Income Statements on a post-tax basis and no tax-over-book outside basis differences related to our equity method investment reversed during 2016.

Special Cautionary Notice Regarding Forward-Looking Statements

This report contains forward-looking statements within the meaning of the federal securities laws. Statements that are not historical facts, including statements about our beliefs, expectations and future performance, are forward-looking statements. Forward-looking statements can be identified by the use of words such as “anticipate,” “intend,” “believe,” “estimate,” “plan,” “seek,” “project” or “expect,” “may,” “will,” “would,” “could” or “should,” the negative of these terms or comparable terminology.

These forward-looking statements are not a guarantee of performance, and you should not place undue reliance on such statements. We have based these forward-looking statements largely on our current expectations and projections about future events. Forward-looking statements are subject to many uncertainties and other variable circumstances, such as delays or failures associated with implementation; fuel price and spread volatility; changes in credit risk of customers and associated losses; the actions of regulators relating to payment cards or investigations; failure to maintain or renew key business relationships; failure to maintain competitive offerings; failure to maintain or renew sources of financing; failure to complete, or delays in completing, anticipated new partnership arrangements or acquisitions and the failure to successfully integrate or otherwise achieve anticipated benefits from such partnerships or acquired businesses; failure to successfully expand business internationally; other risks related to our international operations, including the potential impact to our business as a result of the United Kingdom's recent referendum to leave the European Union; the impact of foreign exchange rates on operations, revenue and income; the effects of general economic conditions on fueling patterns and the commercial activity of fleets, as well as the other risks and uncertainties identified under the caption “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2015. These factors could cause our actual results and experience to differ materially from any forward-looking statement. Given these risks and uncertainties, you are cautioned not to place undue reliance on these forward-looking statements. The forward-looking statements included in this report are made only as of the date hereof. We do not undertake, and specifically disclaim, any obligation to update any such statements or to publicly announce the results of any revisions to any of such statements to reflect future events or developments.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Table of Contents

As of June 30, 2016, there have been no material changes to our market risk from that disclosed in our Annual Report on Form 10-K for the year ended December 31, 2015.

Item 4. Controls and Procedures

As of June 30, 2016, management carried out, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934).

Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2016, our disclosure controls and procedures were effective in ensuring that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in applicable rules and forms and are designed to ensure that information required to be disclosed in those reports is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting during the quarter ended June 30, 2016, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

As of the date of this filing, we are not currently party to any legal proceedings or governmental inquiries or investigations that we consider to be material and we were not involved in any material legal proceedings that terminated during the second quarter. We are and may become, however, subject to lawsuits from time to time in the ordinary course of our business.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2015, which could materially affect our business, financial condition or future results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On February 4, 2016, our Board of Directors approved a stock repurchase program (the "Program") under which we may begin purchasing up to an aggregate of \$500 million of the Company's common stock over the next 18 months. The following table presents information with respect to purchases of common stock of the Company made during the three months ended June 30, 2016 by the Company as defined in Rule 10b-18(a)(3) under the Exchange Act:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of the Publicly Announced Plan	Maximum Value that May Yet be Purchased Under the Publicly Announced Plan (in thousands)
June 1, 2016 through June 30, 2016	191,291	\$ 136.09	191,291	\$ 473,967

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Not applicable.
