**AMARC'S FOCUSED SEARCH CONTINUES FOR
MAJOR NEW GRASSROOT DISCOVERIES IN BC**

December 16, 2004, Vancouver, BC - Ronald W. Thiessen, President and CEO of Amarc Resources Ltd. (TSX Venture: AHR; OTCBB: AXREF) announces that Amarc is continuing to operate an aggressive grassroots exploration program to explore for new, major gold and copper-gold deposits in British Columbia.

To date, Amarc has acquired by option and staking 21 separate properties located throughout British Columbia, totaling 3,189 claim units covering 797 square kilometres. Currently, five separate geophysical crews are conducting induced polarization (IP) and magnetic surveys to define drill targets on a number of these prospective properties. Three diamond drill rigs have been mobilized to test the targets that have been developed. The program is being directed by Amarc's qualified person, C.M. Rebagliati, P.Eng., as well as other members of Hunter Dickinson's management and senior staff, a team with a track record of making significant mineral deposit discoveries.

After a short Christmas break, exploration work is expected to continue through 2005 as Amarc advances its focused effort to discover major new mineral deposits in British Columbia.

For further details on Amarc and its properties visit the Company's website at www.amarcresources.com or contact Investor Services at (604)684-6365 or within North America call 1-800-667-2114.

ON BEHALF OF THE BOARD

/s/ Ronald W. Thiessen

No regulatory authority has approved or disapproved the information contained in this news release.

This release includes certain statements that may be deemed "forward-looking statements". All statements in this release, other than statements of historical facts, that address future production, reserve potential, exploration drilling, exploitation activities and events or developments that the Company expects are forward-looking statements. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. Factors that could cause actual results to differ materially from those in forward-looking statements include market prices, exploitation and exploration successes, continued availability of capital and financing, and general economic, market or business conditions. Investors are cautioned that any such statements are not guarantees of future performance and that actual results or developments may differ materially from those projected in the forward-looking statements. For more information on the Company, Investors should review the Company's annual Form 20-F filing with the United States Securities Commission.
