**FOR IMMEDIATE RELEASE**

**Eran Gorev to Join Alvarion® as president and Chief Executive Officer**

*New CEO Brings 20 Years of Global High-Tech Leadership*

**Tel Aviv, Israel, September 2, 2009** Alvarion Ltd. (NASDAQ:ALVR), the world's leading provider of WiMAX and wireless broadband solutions, today announced that its Board of Directors has named Eran Gorev to succeed Tzvika Friedman as president and Chief Executive Officer. The transition will take place during the fourth quarter, with Mr. Gorev assuming full day-to-day responsibility in December.

We are pleased to welcome this highly-regarded executive to the company, said Anthony Maher, Chairman. Eran Gorev brings an impressive track record of success in world-class organizations including NICE Systems, Amdocs, and Digital Equipment Corporation. His global experience, particularly in customer-facing roles with Tier 1 carriers, leading enterprises and governments, and strong corporate leadership skills are ideally suited to build on the achievements of Tzvika and the entire Alvarion team.

Mr. Gorev will join Alvarion after five years at NICE Systems where he has served most recently as Chief Business Officer with operational responsibility for an organization with over half a billion dollars in revenue and more than 1200 employees in dozens of countries. In addition to his strong international background, Mr. Gorev has demonstrated the ability to achieve excellent results in a dynamic high-tech growth environment. During his four-year tenure as President and Chief Executive Officer of NICE Systems Inc., the largest operating unit of the company, revenues tripled and profits grew at an even faster rate.

I am delighted that Eran will be leading the Alvarion team said Tzvika Friedman, departing president and CEO of Alvarion. It is a testimony to our past achievements and to our prospects for the future that we are able to attract someone of his caliber. Eran's experience with some of the world's leading carriers as well as his proven capabilities with large project execution will be important assets. His background brings both continuity and a fresh perspective to the company. I look forward to working with him to effect a seamless transition, and I wish him and the entire organization much continued success in the next phase of Alvarion's growth.

4

---

Eran Gorev said, "This is a unique opportunity to head the leading company in such a dynamic industry. I look forward to working with Alvarion's experienced Board of Directors, outstanding management and team of employees worldwide, as well as its customers, partners and shareholders, to make the most of our exciting future."

#### **Additional background for Eran Gorev**

Mr. Gorev's diverse background includes executive management, sales and marketing, operational and technical positions. Prior to joining NICE Systems in 2005, Mr. Gorev was President of the North America Major Clients division at Amdocs. In this role Mr. Gorev had overall responsibility for Amdocs' business with some of North America's leading communication service providers and media companies. From 2000 to 2002, he served as Corporate Vice President and Head of Worldwide Sales at Amdocs.

He also held various marketing and sales management positions in the information technology industry, including at Digital Equipment Corporation. Early in his career, Mr. Gorev advanced quickly from software engineer to senior project manager, responsible for the development, integration and maintenance of mission critical system for the Israeli Defense Forces.

Mr. Gorev earned a L.L.B. degree from Tel Aviv University and a joint MBA degree from the Kellogg School of Management, Northwestern University, and the Leon Recanati Graduate School of Business Administration, Tel Aviv University.

#### **About Alvarion**

Alvarion (NASDAQ: ALVR) is the largest WiMAX pure-player with the most extensive WiMAX customer base and over 250 commercial deployments around the globe. Committed to growing the WiMAX market, the company offers solutions for a wide range of frequency bands supporting a variety of business cases. Through its OPEN WiMAX strategy, superior IP and OFDMA know-how, and ability to deploy end-to-end turnkey WiMAX projects, Alvarion is shaping the new wireless broadband experience ([www.alvarion.com](http://www.alvarion.com)).
