incorporation or organization)

46-0510685
(I.R.S. Employer
Identification No.)

6075 Longbow Drive, Suite 200
Boulder, Colorado 80301
(303) 444-7755

(Address, including zip code and telephone number, including area code, of registrant's of principal executive office)

Securities registered pursuant to Section 12(b) of the Act:

None

Securities registered pursuant to Section 12(g) of the Act:

Title of each class:
Common Stock, par value \$0.001 per share

Name of each exchange on which registered:
OTCQB

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes o No y

Edgar Filing: AeroGrow International, Inc. - Form 10-K

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of the Form 10-K or any amendment to the Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of the voting common stock held by non-affiliates of the registrant as of September 30, 2013 was \$11,514,510, the last day of our most recent second quarter. For the purpose of the foregoing calculation only, all directors and executive officers of the registrant and owners of more than 5% of the registrant's common stock are assumed to be affiliates of the registrant. This determination of affiliate status is not necessarily conclusive for any other purpose.

The number of shares of the registrant's common stock outstanding as of June 20, 2014 is 6,130,026.

NOTE REGARDING FORWARD LOOKING STATEMENTS

This Annual Report on Form 10-K (“Annual Report”) for AeroGrow International, Inc. (“AeroGrow,” the “Company,” “we,” “our” or “us”), including the “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” contains forward-looking statements regarding future events and our future results that are based on current expectations, estimates, forecasts, and projections about the industry in which we operate and the beliefs and assumptions of our management. Words such as “expects,” “anticipates,” “targets,” “goals,” “projects,” “may,” “will,” “would,” “intends,” “plans,” “believes,” “seeks,” and “estimates,” as well as variations of such words and similar expressions, are intended to identify such forward-looking statements. These forward looking statements may include, among others, statements concerning our expectations regarding our business, growth prospects, revenue trends, operating costs, working capital requirements, access to funding, competition, results of operations and other statements of expectations, beliefs, future plans and strategies, anticipated events or trends, and similar expressions concerning matters that are not historical facts. These forward-looking statements are subject to risks, uncertainties, and assumptions that are difficult to predict. Therefore, actual results may differ materially and adversely from expectations expressed or

implied in forward-looking statements. Factors that might cause or contribute to such differences include, but are not limited to, those discussed under the section entitled “Risk Factors” in Part I Item 1A of and elsewhere in this Report, and in other reports we file with the SEC, including the most recent quarterly reports on Form 10-Q and current reports on Form 8-K. While forward-looking statements are based on reasonable expectations of our management at the time that they are made, you should not rely on them. We undertake no obligation to revise or update publicly any forward-looking statements for any reason.

PART I

ITEM 1. BUSINESS

Our Business

AeroGrow International, Inc. (“AeroGrow”) is a developer, marketer, direct-seller, and wholesaler of advanced indoor garden systems designed for consumer use and priced to appeal to the gardening, cooking, healthy eating, and home and office décor markets. To date, we have launched multiple lines of proprietary indoor gardens, grow lights, a patented nutrient formula, more than 40 corresponding proprietary seed pod kits, and various cooking, gardening and décor accessories, primarily in the United States and Canada, as well as selected countries in Europe, Asia and Australia.

As of March 31, 2014, we have manufactured and shipped approximately 1.2 million AeroGarden® units and approximately 2.8 million seed pod kits to consumers and retailers worldwide. We commenced initial marketing and distribution of our products in March 2006, with an emphasis on retail distribution. Beginning in the fiscal year ended March 31, 2011 (“Fiscal 2011”), and continuing through the fiscal year ended March 31, 2013 (“Fiscal 2013”), we shifted our sales and marketing efforts away from retail distribution, which generated lower margins and required much higher investments in inventory, in order to focus on higher margin “direct-to-consumer” sales channels. During this three-year period, we emphasized our direct-to-consumer channels which are principally comprised of our own in-house direct mail catalogue, e-mail marketing, and internet marketing, and continued to sell to a limited number of international customers.

During the fiscal year ended March 31, 2014 (“Fiscal 2014”), we began to re-emphasize the retail channel sales due to the improving economic conditions and the April 2013 strategic alliance with a subsidiary of The Scotts Miracle-Gro Company (“Scotts Miracle-Gro”), which has strong retail presence and international name recognition. In addition to a working capital infusion of approximately \$4.5 million from Scotts Miracle-Gro, the strategic alliance affords AeroGrow the use of the globally recognized and highly trusted Miracle-Gro brand name. We believe that the strategic alliance also gives Scotts Miracle-Gro an entry into the burgeoning indoor gardening market, while providing AeroGrow a broad base of support in marketing, distribution, supply chain logistics, R&D, and sourcing. See “April 2013 Scotts Miracle-Gro Strategic Alliance” below.

Our principal products are indoor gardens and proprietary seed pod kits that allow consumers, with or without gardening experience, to grow: (i) vegetables, such as tomatoes, chili peppers and salad greens; (ii) fresh herbs, including cilantro, chives, basil, dill, oregano, and mint; and (iii) flowers, such as petunias, snapdragons, geraniums and vinca. Consumers can also plant and grow their own seeds using our proprietary “grow anything” kits, or use their AeroGardens as seed starters for their outdoor gardens with our “seed starting” systems.

Our indoor gardens are designed to be simple, consistently successful, and affordable. We believe that our products enable almost anyone, from consumers who have no gardening experience to professional gardeners, to produce year-round harvests of a variety of herbs, vegetables, and flowers, regardless of season, weather, or availability of natural light. We believe that our indoor gardening products’ unique and attractive designs make them appropriate for use in almost any location, including kitchens, living areas, and offices.

Our indoor gardening units are sold through different channels designed to match customer needs and interests with the appropriate garden unit features and benefits at list prices ranging from approximately \$80 to \$350, depending on size, design elements, light intensity and other automated features. As is customary in the direct-to-consumer channels and select retail channels, we sometimes offer temporary discounts and targeted promotions that are designed to generate higher sales volume.

Corporate History

AeroGrow was formed as a Nevada corporation on March 25, 2002. After more than three years of initial research and product development, we began sales activities in March 2006. Since that time, we have expanded our operations and currently distribute our products through multiple sales channels. We have developed direct sales channels, including web sales and a direct mail catalogue business, with approximately 1.2 million catalogues mailed in Fiscal 2014. In prior years, we have also utilized direct television sales, including infomercials and 60 and 120 second television commercials, mall kiosks, and print and radio advertisement to generate consumer sales. We also sell through approximately 210 retail storefronts in North America, and in five countries internationally. We have expanded our product lines, and now offer seven different indoor garden models, with each model available in different colors and trim styles, more than 40 seed pod kits, and various gardening and kitchen accessories.

Table of Contents

April 2013 Scotts Miracle-Gro Strategic Alliance

In April 2013 (the first month of Fiscal 2014), we entered into a Securities Purchase Agreement and strategic alliance with a wholly owned subsidiary of Scotts Miracle-Gro. In conjunction with this transaction, we entered into several other agreements, including: (i) an Intellectual Property Sale Agreement; (ii) a Technology Licensing Agreement; (iii) a Brand Licensing Agreement; and (iv) a Supply Chain Management Agreement. For further information on the strategic alliance with Scotts Miracle-Gro, please see Note 3 “Scotts Miracle-Gro Transactions – Convertible Preferred Stock, Warrants and Other Transactions” to our financial statements.

Intellectual Property Sale Agreement. Pursuant to the Intellectual Property Sale Agreement, we agreed to sell all intellectual property associated with our hydroponic products (the “Hydroponic IP”), other than the AeroGrow and AeroGarden trademarks, free and clear of all encumbrances, to Scotts Miracle-Gro for \$500,000. Scotts Miracle-Gro has the right to use the AeroGrow and AeroGarden trademarks in connection with the sale of products incorporating the Hydroponic IP.

Technology Licensing Agreement. Under the Technology Licensing Agreement, Scotts Miracle-Gro granted us an exclusive license to use the Hydroponic IP in North America and certain European Countries (collectively, the “AeroGrow Markets”) in return for a royalty of 2% of annual net sales, as determined at the end of each fiscal year and will be paid in common stock for the first four years. The initial term of the Technology Licensing Agreement is five years, and we may renew the Technology License for additional five-year terms by providing notice to Scotts Miracle-Gro at least six months in advance of the expiration of each five-year term.

Brand Licensing Agreement. Under the Brand Licensing Agreement, we may use certain of Scotts Miracle-Gro trade names, trademarks and/or service marks to rebrand the AeroGarden, and, with written consent of Scotts Miracle-Gro, other products in the AeroGrow Markets in exchange for our payment to Scotts Miracle-Gro of an amount equal to 5% of incremental growth in net sales, as compared to net sales during the fiscal year ended March 31, 2013. The initial term of the Brand Licensing Agreement is five years, and we may renew the Brand Licensing Agreement for additional five-year terms by providing notice to Scotts Miracle-Gro at least six months in advance of the expiration of each five-year term.

Supply Chain Services Agreement. Under the Supply Chain Services Agreement, Scotts Miracle-Gro will pay AeroGrow an annual fee equal to 7% of the cost of goods of all products and services requested by Scotts Miracle-Gro during the term of the Technology Licensing Agreement (referenced above), thereby assisting AeroGrow in exploiting the Hydroponic IP internationally (outside of the AeroGrow Markets).

Hydroponics and Aeroponics Industry - Background

Hydroponics is the science of growing plants using nutrients suspended in water instead of soil. Used commercially worldwide, hydroponics is considered an advanced and often preferred crop production method. Hydroponics is typically used inside greenhouses to give growers the ability to better regulate and control nutrient delivery, light, air, water, humidity, pests, and temperature. Hydroponic growers benefit by producing crops faster and with higher crop yields per acre than traditional soil-based growers.

Aeroponic technology is derived from hydroponics and occurs when plant roots are suspended in an air chamber and bathed with a nutrient solution. We believe that the aeroponic technology used in our indoor gardening products is a technological advance over most hydroponic growing systems because plant roots are partially suspended in air and allowed direct access to oxygen, while being bathed in a highly oxygenated, nutrient rich solution. For these reasons, we believe the use of a well-designed and maintained aeroponic system can yield increases in growth rates and plant survival when compared to most hydroponic or soil-based systems.

Until the development of our indoor gardening products, certain barriers prevented hydroponic or aeroponic technology from being incorporated into mainstream, mass-marketed consumer products, including:

- Consumers generally lack the specialized knowledge required to select, set up, operate, and maintain the various components for a typical hydroponic or aeroponic system, including growing trays, irrigation channels, growing media, nutrient reservoirs, and nutrient delivery systems consisting of electronic timers, pumps, motors, tubing, and nozzles;
- In the absence of adequate natural light, consumers generally do not possess the specific knowledge required to select, set up, operate, and maintain the varied indoor lighting systems that are necessary to grow plants indoors;
- Consumers are often unable to properly mix and measure complex hydroponic nutrient formulas, which change depending on the plant variety and the stage of plant growth;

Table of Contents

- Consumers are unable to deal with the problem of nutrient spoilage; and
- Federally mandated water quality reports show that the water in many large cities is not suitable for hydroponic or aeroponic growing and requires treatments in order to sustain growth.

Our research leads us to believe that these complexities have been accepted in existing hydroponic market channels because these manufacturers have generally focused their product development and marketing efforts on satisfying the needs of the commercial greenhouse and dedicated hobbyist markets. These users are motivated to gain the specialized knowledge, equipment and experience currently required to successfully grow plants with these products. Our research also indicates that the hydroponic growing equipment currently available in these markets is bulky, expensive and comprised of many, often unintegrated, parts.

We believe that the complexities of currently available commercial hydroponic and aeroponic products fail to address the needs and wants of the mass consumer market, leaving that market underserved. We further believe that our patented and patent-pending inventions, companion technologies, and trade secrets have simplified and improved hydroponic and aeroponic technologies and have enabled us to create an indoor hydroponic and aeroponic gardening system appropriate for the mass consumer market.

Proprietary Technology and Intellectual Property

Since our inception in 2002, we have been innovating, simplifying, and integrating proprietary technologies and inventions into a family of “plug and grow” indoor gardening products and related seed pod kits specifically designed and priced for the mass consumer market. We have used this technology platform to develop seven different models of indoor gardens, each with different features and technology groupings, with list prices ranging from approximately \$80 to \$350. Multiple patent applications have been filed in the United States and internationally to protect the inventions that are exclusively used in our indoor garden system and seed pod kits, and seven patents have been issued (four in the United States and three internationally). We have also obtained access to, both domestically and internationally, trademarks and certain domain names, including AeroGrow.com, AeroGarden.com, AeroGarden.net, AeroGarden.tv, AeroGarden.biz, and Getthegarden.com, among others.

Our success and ability to compete are substantially dependent upon our exclusive access to technology and expertise. While we rely on patent, copyright, trade secret, and trademark law to protect the use of such technology, we also believe that factors such as the technological and creative skills of our personnel, new product developments, product enhancements, and reliable product maintenance are essential to establishing and maintaining a technology leadership position. There can be no assurance, however, that others will not develop technologies that are similar or superior to the technology used by AeroGrow. Each of our employees, independent contractors, interns, and consultants has executed assignment of rights to intellectual property agreements and nondisclosure agreements. The assignment of application rights to intellectual property agreements grant us the right to own inventions and related patents which may be granted in the United States and throughout the world. The nondisclosure agreements generally provide that these people will not disclose our confidential information to any other person without our prior written consent.

Following is a description of the proprietary technologies, all of which were sold to Scott Miracle-Gro, and inventions that are exclusively used in our indoor garden system and seed pod kits.

Rainforest Nutrient Delivery System. The “rainforest” nutrient delivery system combines technologies with features from several hydroponic and aeroponic methodologies into a proprietary system that leaves plant roots suspended in an air gap. Plant roots take oxygen directly out of the air and, in testing of aeroponic systems by multiple different sources, including lettuce studies by NASA Small Business Innovation Research, plants grow faster as a result.

Advanced Growing System. The Advanced Growing System (“AGS”) is available on several of our indoor gardens and combines features from the rainforest delivery system with technologies that deliver increased nutrient oxygenation, faster and healthier root growth, decreased consumer maintenance requirements, and increased product reliability. With AGS, plant roots are suspended in air in a 100% humid aeroponic chamber and then grow into a continuously oxygenated nutrient bath.

Pre-Seeded Bio-Grow Seed Pods. The proprietary bio-grow seed pods include specially selected, pre-implanted seeds, a growing medium, removable bio-dome covers, and a grow basket.

Table of Contents

Microprocessor-Based Control Panel and Nutrient Cycle Delivery System. The microprocessor-based controls include automated grow lights to ensure that plants receive the proper amount of lighting, and feature nutrient and water reminder systems that alert consumers to add water and nutrients when needed. In addition, some systems allow consumers to select from multiple plant types (for example, lettuce, herbs, tomatoes, or flowers) and the system then automatically adjusts the nutrient, water and lighting cycles to optimize growth. In addition, some systems take into account stage of growth of the specific plants when optimizing these factors. Our most recent ULTRA gardens include a display screen that walks consumers step-by-step through planting, tending and harvest, and allows for complete customization of all aspects of the grow cycle, including photo period, pump cycle and nutrient cycle.

Custom Nutrients and Automatic pH Adjustment. The patented nutrient solutions have been designed specifically to deliver the proper nutrients to plants, while offering consumers a user-friendly application methodology. Plant specific nutrients are included with each seed pod kit, and consumers simply add them when instructed by the microprocessor-based nutrient reminder. The pre-measured and mixed nutrients eliminate the need for mixing multi-part nutrient formulas and storing various nutrients in separate containers. A proprietary buffer has been formulated and included into the nutrients that automatically adjusts tap water from around the country to the right pH ranges for plant growth. Without this adjustment, tap water from many areas in the country will severely limit or inhibit plant growth in most aeroponic and hydroponic systems.

Integrated and Automated Lighting System. Hydroponic systems typically do not incorporate built-in lighting systems. Our indoor gardening products include built-in adjustable grow lights with ballast, reflector hood, grow bulbs and an electronic timer. The integrated lighting systems include proprietary high-output compact fluorescent light LED bulbs that deliver a spectrum and intensity of light designed to optimize plant growth without supplemental sunlight needed. In addition, the lighting system is fully automated and controlled by a microprocessor-based control panel described above. Variations in lighting are a differentiator in our product lines, and we have several gardens on the market with “50% more light and twice the height” of our initial gardens, allowing consumers to grow larger plants such as full-sized tomatoes in our indoor gardens, and deliver higher yields.

New Technologies in Development. We continue to develop improvements in lights, nutrients, oxygenation, seed variety selection, and style and design innovations, each of which are applied to our products on an ongoing basis.

Markets

Based on our sales experience to date and our existing channels of distribution, and supplemented by our own formal and informal market research consisting of individual consumer interviews, focus groups, blog monitoring, customer modeling, and Internet survey responses, we believe that our indoor gardening products appeal to a broad spectrum of consumers across multiple areas of interest. We believe that our products appeal to at least four major market segments:

Gardener Market. A recent study conducted by the National Gardening Association states that gardening is America’s number one hobby with more than 81 million households active in gardening. Based upon this survey, there were estimated to be 36 million households participating in food gardening and 13 million households participating in fresh herb gardening. We believe that our indoor gardening products and related products offer both expert and novice gardeners several major benefits not readily available through traditional gardening methods, including:

- the ability to grow fresh herbs, lettuces, vegetables, tomatoes, and flowers year-round, regardless of indoor light levels or seasonal weather conditions;
- the ability to easily start plants indoors during colder months and then transplant them outdoors at the onset of the outdoor growing season;

- the ability to use stem cuttings to propagate multiple reproductions of the desired plants in our indoor gardening products; and
- the ease of growing in our indoor gardens, in contrast to the toil associated with traditional gardening, including preparing the soil, planting, thinning, weeding, watering, and removing pests.

“Want-to-be” Gardener Market. We believe that many people have an interest in gardening but lack the knowledge, confidence, available space, equipment, or time to garden. We have observed the following barriers that often prevent people from gardening:

- gardening requires an ongoing time commitment;
- apartment, high-rise, and condominium dwellers often lack the land needed for a traditional garden;
- gardening requires physical work, which can be a significant barrier to people with limited mobility or health issues;

Table of Contents

- buying the necessary equipment to garden can be expensive; and
 - gardening requires knowledge and expertise.

We believe that our indoor gardening products overcome many of these barriers and provide a simple, convenient way for many current non-gardeners to begin to garden.

Cooking and Healthy Eating Market. Many customers enjoy cooking as a hobby, including those who:

- are interested in cooking who would appreciate the convenience and satisfaction of having a readily available supply of fresh-cut herbs to flavor soups, salads, and other dishes,
- prefer the distinctive texture and taste of freshly picked, vine-ripened tomatoes, basil, lettuces, and other vegetables over days-old supermarket produce, and
- are interested in healthy, pesticide-free foods for themselves and their families, reflecting both the rapidly growing interest in naturally and organically grown foods and the increasing number of people who, for health or weight concerns, include salads and fresh vegetables as part of their families' diets.

We believe that our indoor gardening products are embraced in this market by people who understand the value of having an ongoing supply of fresh herbs and fresh produce throughout the year.

Home and Office Décor Market. Flowers are frequently used to brighten homes and offices worldwide. It is difficult to readily grow flowers indoors due to a lack of sufficient light and growing knowledge. As a result, people often use cut flowers, which are expensive, short-lived, and require ongoing maintenance. Our indoor gardening products enable colorful and fragrant flowers to be easily grown indoors year round and at a lower cost. Flowers grown with our indoor gardening products will last for months with minimal care and maintenance. Flowers can be grown in a wide variety of indoor locations, including kitchen and bathroom countertops, living rooms, bedrooms, family rooms, offices, work stations, waiting rooms, and lobbies.

Products

AeroGarden Indoor Gardens. We currently offer four different indoor garden models with list prices ranging from approximately \$80 to \$350 and differentiated based on size, design, light intensity, degree of automation, inclusion of Adaptive Growth Technology or Advanced Growing Systems, height potential of light hoods, and inclusion of plant support systems.

Currently, our AeroGarden product line is divided into five main categories:

- AeroGarden 3 Series – The AeroGarden 3 series features the Advanced Growing System, grow lights, a smaller footprint, and an attractive, stylish design that makes it suitable for use as a decorative feature throughout the home or office. AeroGarden 3s fit easily on kitchen counters, night stands, and end tables. Some models include upgraded trim and designs such as the “Ladybug” garden targeted at all-family usage. List prices start at \$79.95.
- AeroGarden 6 Series – The AeroGarden 6 series has a compact, triangular shape that is a perfect fit for kitchen counter-top corners. It has a smaller footprint than the AeroGarden 7 and as a result features 6-pods for planting. List price is \$129.95.
-

AeroGarden 7 Series – Includes our original products which feature the rainforest nutrient delivery system, automated lights, and reminder systems. List price is \$149.95.

- AeroGarden Extra Series – A 7 pod garden with extended lamp arms and greater light output for growing larger vegetables. Some models also include stainless steel trim. Additionally, this garden offers a model with an LED light that delivers faster growth with higher yields but uses less energy. List prices start at \$199.95.
- AeroGarden ULTRA Series - The ULTRA features the new MyGarden control panel – an automated garden “brain” that makes gardening easier than ever for beginners and offers complete customization for experts. It also includes a redesigned lighting system featuring new MaxGrow Grow Lights and aluminum reflectors, the widest, easiest range of Grow Light adjustment from small to tall, an improved trellis system, 20% larger reservoir, and a “QuickPlant” button that walks users step-by-step through the planting process. Additionally, this garden offers a model with an LED light that delivers faster growth with higher yields but uses less energy. List prices start at \$249.95.

Table of Contents

AeroGarden Seed Pod Kits. We currently offer more than 40 seed pod kits for use in our indoor gardening products. These seed pod kits include pre-seeded bio-grow seed pods and a three-to-six-month supply of nutrients, including our patented formula for adjusting water quality. Our seed pod kits have list prices ranging from \$13 to \$30, and include:

- Vegetable Gardens: tomato, pepper, and salsa garden.
- Herb Gardens: gourmet herbs, Italian herbs, and pesto basil.
- Flower Gardens: cascading petunias, English cottage, scented blooms, and mountain meadow.
- Salad Gardens: salad greens, romaine lettuce.

Our seed pod kits are sold to consumers for use with our indoor gardening products. Individual seed pod kits are grown by consumers for three to six months and then new seed pod kits may be purchased for replanting.

AeroGarden Seed-Starting Kits. Our line of Garden Starter Systems and Grow Anything Kits are designed to allow consumers to plant and grow their own seeds in the AeroGarden. With our Garden Starter Systems, consumers can start up to 66 seedlings in our indoor gardens for transplant into their outdoor gardens when weather allows. With the Grow Anything Kits, consumers can grow their own seeds to maturity in the AeroGarden, or transplant seeds outdoors when weather allows, including plant nutrients, nutrient dispensers, and other products.

Other Accessories. To complement and expand the functionality of our indoor gardening products, we have developed a variety of accessory products.

Future Products. The core technology platform can be leveraged by bundling different components into new products with a wide variety of features and price points that then can be sold through a variety of direct and retail channels for use in different settings around the home or office. Examples include a side light system or expansion into LED lighting to further increase yields.

Integrated Marketing and Sales Channel Strategy

We consider our products to be an entirely new product category. A primary objective since launch has been to maximize the exposure of the product and educate consumers on the benefits of indoor gardening through an integrated marketing and distribution strategy. We launched with a nationwide public relations campaign in 2006, and received extensive media exposure, with multiple features on national talk shows as well as local television coverage, local and national print articles and blog and Internet pieces. We combined the public relations launch with a retail and direct strategy focusing on high visibility partners and media, including product sales through retailers, national cataloguers, home shopping channels, direct television commercials, our own in-house direct-to-consumer catalogue, internet sales, and inbound and outbound telemarketing.

Shift in Channel Strategy. For the three years prior to Fiscal 2014, we reduced our presence in the retail channel due to the downturn in the economy, capital shortages, and the high cost of maintaining inventory levels sufficient for retail customers. During this time period, we decreased the number of storefronts offering our products from 575 in Fiscal 2011 to approximately 72 as of March 31, 2013. However, beginning in Fiscal 2014 with the April 2013 strategic alliance with Scotts Miracle-Gro, we have once again begun to selectively increase our retail presence. As of March 31, 2014, our products were offered in approximately 210 storefronts in North America, as well as through select online retailers such as Amazon.com, Costco.com, Target.com and Home Depot.com.

We believe that the alliance will allow us to continue to expand our retail presence during the coming fiscal year. For further information on the strategic alliance with Scotts Miracle-Gro, please see Note 3 “Scotts Miracle-Gro Transactions – Convertible Preferred Stock, Warrants and Other Transactions” to our financial statements.

Direct-to-Consumer Sales. In 2007, we produced and began mailing our own in-house, direct mail product catalogue, which tested successfully with a mailing of approximately 60,000 catalogues. In Fiscal 2014, we mailed approximately 1.2 million catalogues. With our catalogue sales we focus on remarketing to current customers and also prospecting for new customers using database marketing techniques.

We established our first consumer product website in the fall of 2006 and supplemented this website in late 2007 with search engine advertising, banner advertising, email campaigns and web affiliate programs. In the fall of 2008 we took on in-house management of many of these programs from third-party providers and have seen resulting increases in efficiency.

A key focus of our web and catalogue marketing is to maximize the lifetime value of AeroGrow customers through repeat sales of our seed pod kits, light bulbs and accessories. During Fiscal 2014, direct-to-consumer sales represented 59.3% of our total net sales.

Table of Contents

Retail Sales. Initial shipments to retailers commenced in March 2006. Over the next several years, we rapidly grew our retail distribution and as of March 31, 2009 our products were being sold through approximately 7,500 stores in North America. In Fiscal 2010 through Fiscal 2013, we reduced our sales to retailers as discussed above, and as of March 31, 2013 our products were being sold through approximately 72 stores in North America. During Fiscal 2014, we renewed our focus in the retail markets and were being sold in approximately 210 stores and sales to retailers represented 38.6% of our total net sales.

During Fiscal 2014, approximately 79.6% of our total sales to retailers represented sales to Amazon.com, Inc. As discussed above, we plan to continue expansion of our retail sales efforts during the coming fiscal year as a result of our strategic alliance with Scotts Miracle-Gro.

International Sales. We began testing international sales opportunities in the UK and Japan in late 2007, and have since expanded internationally into Australia, South Korea, Mexico, France and several other countries. During Fiscal 2014, we sold products to third-party distributors in five international markets, and international sales represented 2.1% of our total net sales. International efforts in Fiscal 2014 were limited to supporting distribution in existing markets.

Competition

Aeroponic and hydroponic technologies have historically been limited to ardent hobbyists and commercial growing facilities. We believe that we are the first company to develop and offer a simple dirt-free indoor growing system for the mass consumer market.

Typical hydroponic manufacturers offer a range of equipment and accessories through distributors or small independent “hydro-shops” in a trade-oriented manner similar to plumbing or electrical suppliers. Purchasers typically mix and match equipment from various suppliers in an “a la carte” fashion to individually customize a large system that they then assemble on their premises. We believe that these products are substantially more expensive than our products.

We believe that our simplified and complete indoor gardening products and current and planned methods of distribution offer significant benefits from these traditional hydroponic industry practices. To date, we have discovered a few kitchen design firms that have tried to introduce an indoor growing system into the market but don't have a significant presence in the market. In our laboratory tests, these systems have performed at levels far below our own systems in terms of germination success, longevity, speed-of-growth and overall yields. However, we recognize that there are other companies that are better funded and have greater experience in producing hydroponic products in commercial markets, or that have been more successful in manufacturing or selling consumer products or soil-based gardening products.

Manufacturing and Operations

We source our AeroGarden products and accessory items from contract manufacturing companies that manufacture products using tooling we own, in accordance with our specifications, and subject to our intellectual property rights provided by the Technology Licensing Agreement with Scott's Miracle-Gro. We have four Chinese manufacturers of our garden products. Several are capable of manufacturing multiple garden models. We believe the existing production capacity of these manufacturers is more than sufficient to meet our garden requirements for the short-to-medium term. In addition, capacity expansion is available in a reasonable period of time with a nominal tooling investment. We also try to have multiple, dual-sourced manufacturers of our many component parts and accessories.

In July 2008 we opened a company-operated distribution center in Indianapolis, Indiana where we also produced and assembled our seed pod kits. In May 2011, we closed this facility and moved all our North American distribution and seed pod kit assembly operations to a third-party logistics facility in Mexico, Missouri. Indoor gardening products are shipped from China to the third-party fulfillment center in Missouri, as well as to third-party distribution facilities in countries outside North America.

Product Returns and Warranties

To date, product returns have been within our expectations for both retail and direct-to-consumer sales. At retail, we generally use a “destroy in field” methodology as the cost of shipping a used product back to us often does not justify the value of the recovered unit. We record warranty liabilities at the time of sale for the estimated costs that may be incurred under our basic warranty program. The specific warranty terms and conditions vary depending upon the product sold but generally include technical support, repair parts, and labor for periods up to one year. Factors that affect our warranty liability include the number of installed units currently under warranty, historical and anticipated rates of warranty claims on those units, and cost per claim to satisfy our warranty obligation.

Table of Contents

Governmental Regulation and Certification

We believe that we are in compliance with regulations in the United States and Canada concerning the shipping and labeling of seeds and nutrients. Currently, the components for the indoor garden system are ETL certified. These certifications confirm that the products have been tested and conform to a recognized level of fire and other safety standards for consumers. Such independent third-party certification is required for sales of products through many major retailers.

We believe that our costs of compliance with environmental laws will not be material.

Personnel

As of March 31, 2014, AeroGrow employed 23 full-time employees. In addition, we contract the services of part-time and project consultants on an “as needed” basis. We believe that our employee relations are good. Historically, our outsourced business also included manufacturing, some telemarketing, infomercial production, fulfillment and shipping. Additional employees and/or consultants may be hired in the future as our operations merit.

ITEM 1A. RISK FACTORS

Our business, future performance and forward-looking statements are affected by general industry and market conditions and growth rates, general economic and political conditions in the United States, Canada and worldwide, competition, interest rate and currency exchange rate fluctuations and other events. The following items are representative of the risks, uncertainties and other conditions that may impact our business.

Risks Related to our Business, Products and Markets

We have incurred substantial net losses since inception and may never achieve profitability.

Since we commenced operations in 2002, and through March 31, 2014, we incurred substantial losses, including a net loss of \$2.4 million for the twelve month period ended March 31, 2014. As of March 31, 2014, our losses have resulted in an accumulated deficit of \$80.1 million. The future success of our business will depend on the success of the Scotts Miracle-Gro partnership, our ability to profitably expand sales of our AeroGarden indoor garden systems, seed pod kits and accessory products, and develop new product extensions and applications.

Our financial condition may limit our ability to borrow funds or to raise additional equity as may be required to fund our future operations.

Our ability to borrow funds or raise additional equity may be limited by our financial condition. In addition, a failure to obtain additional funding to support our working capital and operating requirements could prevent us from making expenditures that are needed to allow us to grow our operations. In the event we have working capital needs and cannot raise this additional funding, we will have to scale back on our operating plans for the current and future fiscal years. There can be no assurance that we will be able to secure the additional capital in an amount and in time to support all of our operating plans.

As we grow our sales into the retail channel and increase sales through individual retailers, the loss or significant reductions in orders from our top retail customers could have a material adverse impact on our business.

In Fiscal 2014, our net sales to one retail customer totaled 79.6% of our total net sales to retailers. The loss of this significant customer, or a significant decline in orders could materially affect our sales of indoor garden systems, seed

pod kits and accessories, and could therefore have a material adverse effect on our business, prospects, results of operations, and financial condition.

We do not have long-term sales agreements with, or other contractual assurances as to future sales to, any of our current or planned major retail customers. In addition, our business may be negatively affected by changes in the policies of our retailers, such as payment terms, limitation to shelf space, price demands and other conditions.

Our inability to invest in the growth of our database of direct-to-consumer names may limit our ability to maintain or grow this sales channel.

Our direct-to-consumer sales represented 59.3% of our total net sales during Fiscal 2014. Our marketing activities via email and catalogs focus on maximizing the lifetime value of AeroGrow customers through repeat sales of our seed pod kits, light bulbs and accessories. Our capital-constrained lack of investment in growing the database of potential customers could materially affect our sales of indoor garden systems, seed pod kits and accessories, and therefore have a material adverse effect on our business, prospects, results of operations, and financial condition.

Table of Contents

Our future success is completely dependent on our ability to market our indoor garden systems, seed pod kits and accessory products and generate consumer acceptance on a broader scale.

We have introduced our indoor garden systems and seed pod kits as new products to consumer markets unfamiliar with their use and benefits. Although we believe that we have penetrated only a small portion of the potential market for our products, our marketing efforts may not generate widespread consumer adoption. If our marketing strategies fail to attract customers, our product sales may not produce future revenue sufficient to meet our operating expenses or fund our future operations. Our business, prospects, results of operations, and financial condition will be materially and adversely affected.

If we are unable to recruit, train and retain key personnel necessary to operate our business, our ability to successfully manage our business and develop and market our products may be harmed.

To maintain our business position, we will need to attract, retain, and motivate highly skilled design, development, management, accounting, sales, merchandising, marketing, and customer service personnel. Competition for many of these types of personnel can be intense, depending on general economic conditions, alternative employment options, and job location. As a result, we may be unable to successfully attract or retain qualified personnel. Additionally, any of our officers or employees can terminate their employment with us at any time. The loss of any key employee, or our inability to attract or retain other qualified employees, could have a material adverse effect on our business, prospects, results of operations, and financial condition.

A worsening of the economy, particularly in the United States and Canada, could materially adversely affect our business.

The success of our business operations depends significantly on consumer confidence and spending, which deteriorated during the recent worldwide economic downturn. A re-occurrence of the economic downturn and the consequent impact on consumer spending, particularly in the United States and Canada, could adversely impact our revenue, ability to market our products, build customer loyalty, or otherwise implement our business strategy. In such a scenario, we would experience a material adverse effect on our business, prospects, results of operations, and financial condition.

Our revenue and level of business activity are highly seasonal, requiring us to staff our operations, incur overhead and marketing costs, purchase and manufacture inventory, and incur other operating costs in advance of having firm customer orders for our products. A material variance in actual orders relative to anticipated orders could have an adverse impact on our business.

For the fiscal year ended March 31, 2014, approximately 60.9% of our total net sales occurred during four consecutive calendar months (October through January). We must therefore estimate sales in advance of the anticipated peak months and operate our business during the balance of the year in such a way as to insure that we can meet the demand for our products during the peak months. This requires us to incur significant operating, marketing, and overhead expenses, and to utilize cash and other capital resources to invest in inventory in advance of having certainty as to the ultimate level of demand for our product during the peak months. Shortfalls in the supply of our products could result in a significant loss of revenue due to lack of adequate product inventory. For example, the cobranding of our product with the “Miracle-Gro AeroGarden” trade name caused a delay in available inventory during the first six months of Fiscal 2014. Additionally, during the third and fourth quarters of Fiscal 2013, a labor strike in the ports of Los Angeles and Long Beach delayed the delivery of AeroGarden inventory during the critical pre-Christmas season and caused a decline in sales during that time period. Alternatively, a shortfall in actual demand for our products, relative to forecast, during peak months could cause us to liquidate excess inventory at a loss or at substantially lower margins. In any of these cases, we may not generate enough revenue to cover expenses incurred throughout the

balance of the year. Our business prospects, results of operations and financial condition would be materially and adversely affected.

Our current or future manufacturers could fail to fulfill our orders for indoor garden systems, which would disrupt our business, increase our costs, and could potentially cause us to lose our market.

We currently depend on four contract manufacturers in China to produce our indoor garden systems. These manufacturers could fail to produce the indoor garden system to our specifications or in a workmanlike manner and may not deliver the systems on a timely basis. Our manufacturers must also obtain inventories of the necessary parts and tools for production. Although we own the tools and dies used by our manufacturers, our manufacturers operate in China. As a result, our manufacturers may be subject to business risks that fall outside our control, including but not limited to, political, currency, and regulatory risks, each of which may affect the manufacturer's ability to fulfill our orders for indoor garden systems. For example, a December 2012 labor strike in the ports of Los Angeles and Long Beach delayed the delivery of AeroGarden inventory during the critical pre-Christmas season and caused a decline in sales during the third and fourth quarters of Fiscal 2013. In addition, weather or natural disasters in China could disrupt our supply of product. Any change in manufacturers could disrupt or delay our ability to fulfill orders for indoor garden systems while we search for alternative supply sources, provide specifications, and test initial production. Our business prospects, results of operations and financial condition would be materially and adversely affected.

Table of Contents

We are highly reliant upon a single distribution and assembly facility. Any material disruption to the operation of this facility could adversely affect our business.

All of our North American fulfillment and distribution operations, and the entirety of our seed pod kit assembly operations are located in a third-party-managed facility based in Mexico, Missouri. Any material disruption to the operation of this facility, whether caused by internal or external factors could have a material adverse effect on our business prospects, results of operations and financial condition.

We rely on third-party providers in our manufacturing, warehouse, distribution, order processing, and fulfillment operations. If these parties are unwilling to continue providing services to us, or are unable to adequately perform such services for us on a cost effective basis, our business could be materially harmed.

We engage third parties to perform certain critical functions supporting our business operations. Any disruption in our relationship with any of our vendors could cause significant disruption to our business and we may not be able to locate another party that can provide comparable services in a manner that is timely, consistent with our business plan, or on acceptable commercial terms. Our business prospects, results of operations and financial condition would be materially and adversely affected.

We may face significant competition, and if we are unable to compete effectively, our sales may be adversely affected.

We believe that our complete indoor garden systems offer significant benefits over traditional hydroponic industry products. However, there are companies in a variety of related markets, including but not limited to, consumer electronics, commercial hydroponics, gardening wholesale, and soil-based gardening that are larger, better funded, and have experience in our channels of distribution. These companies could potentially decide to develop products to compete with our products. These companies could use hydroponic technologies, and could achieve better consumer acceptance. The success of any competing products may have a material adverse effect on our business prospects, results of operations and financial condition.

Increases in energy prices, resulting from general economic conditions, or other factors, may raise our cost of goods sold and adversely affect our business, results of operations and financial condition.

Energy costs, especially gasoline and fuel costs, are significant expenses in the delivery of our products. Increased costs resulting from general economic conditions, war, acts of nature, or other factors, may result in declining margins and operating results if market conditions prevent us from passing these increased costs on to our customers through timely price increases on our products. Our business prospects, results of operations and financial condition would be materially and adversely affected.

Our current AeroGarden manufacturers are located in China and therefore our product costs may be subject to fluctuations in the value of the dollar against the Chinese currency and increases in Chinese labor rates.

Although we purchase our AeroGarden products in U.S. dollars, the prices charged by our factories are predicated upon their cost for components, labor and overhead. Therefore, changes in the valuation of the U.S. dollar in relation to the Chinese currency may cause our manufacturers to raise prices of our products, which could reduce our profit margins and have a material adverse effect on our business prospects, results of operations and financial condition.

If our indoor garden systems fail to perform properly, our business could incur increased warranty-related costs and reduced income.

From our inception through March 31, 2014, we have sold approximately 1.2 million AeroGardens and have provided a limited warranty with each garden sold. In addition, our indoor garden systems are “guaranteed to grow.” We therefore may be required to replace or repair products or refund the purchase price to consumers. Failure of our products to meet expectations could damage our reputation, decrease sales, increase costs related to returns and repairs, delay market acceptance of our products, result in unpaid accounts receivable, and divert our resources to remedy the malfunctions. The occurrence of any of these events would have a material adverse effect on our business prospects, results of operations and financial condition.

From time to time, we may be subject to litigation that, if decided adversely to us, could have a material adverse impact on our financial condition.

From time to time, we are a party to various litigation matters, in most cases involving ordinary and routine claims incidental to our business. We cannot estimate with certainty our ultimate legal and financial liability with respect to such litigation. Although we do not believe that any current litigation poses a material threat to our business, defense of any lawsuits or proceedings, even if successful, may require management to spend a substantial time and attention on the part of our management personnel that otherwise would be spent on other aspects of our business, and may require the expenditure of significant amounts for legal fees and other related costs. Settlement of lawsuits also may result in significant payments and modifications to our operations. In addition, we also may be subject to adverse publicity as a result of litigation. Any of these events could have a material adverse effect on our business, prospects, results of operations, and financial condition.

Table of Contents

Risks Related to the Market for our Securities

The market price of our shares may fluctuate greatly. Investors in AeroGrow bear the risk that they will not recover their investment.

Currently, trading in our common stock is limited, and the price per share is likely to be influenced by the price at which and the amount of shares that selling security holders are attempting to sell at any time. This could cause our stock price to decline. Common stock such as ours may be subject to the activities of persons engaged in short selling securities, which generally has the effect of driving the price down. In addition, the common stock of emerging growth companies is typically subject to high price and volume volatility. Therefore, the price of our common stock has fluctuated, and may continue to fluctuate, widely. A full and stable trading market for our common stock may never develop and, as a result, stockholders may not be able to sell their shares at the time they elect, if at all.

There may be substantial sales of our common stock by existing security holders which could cause the price of our stock to decline.

Future sales of substantial amounts of our common stock in the public market or the perception that such sales might occur, could cause the market price of our common stock to decline and could impair the value of an investment in our common stock and our ability to raise equity capital in the future.

As of March 31, 2014, we had 6,129,326, common shares issued and outstanding.

On April 22, 2013 (during the first quarter of the fiscal year 2014), we entered into a Securities Purchase Agreement with SMG Growing Media, Inc. (“SMG”), a wholly owned subsidiary of The Scotts Miracle-Gro Company. Pursuant to the Securities Purchase Agreement, Scotts Miracle-Gro acquired 2,649,007 shares of the Company’s Series B Convertible Preferred Stock and a warrant to purchase shares of the Company’s common stock (for further information on the strategic alliance with Scotts Miracle-Gro, please see Note 3 “Scotts Miracle-Gro Transactions – Convertible Preferred Stock, Warrants and Other Transactions” to our financial statements).

Sales of our common stock by security holders, or even the appearance that such holders may make such sales, may limit the market for our common stock or depress any trading market volume and price before other investors are able to sell the common stock. Moreover, a number of shareholders have held their investment for a substantial period of time and may desire to sell their shares, which could drive down the price of our common stock.

We can issue debt securities and shares of preferred stock without approval of common stockholders, which could adversely affect your rights and undermine the value of your shares.

Our Articles of Incorporation allow our Board of Directors to approve the terms and conditions of debt securities and preferred stock for issuance by the Company, including but not limited to voting rights, conversion privileges and liquidation preferences, without the approval of common stockholders. The rights of the holders of our common stock may be adversely impacted as a result of the rights that could potentially be granted to holders of debt securities or preferred stock that we may issue in the future. As a result, the price of our common stock may be adversely affected by future issuances of debt or preferred stock.

For example, on April 22, 2013 (during the first quarter of fiscal year 2014), we entered into a Securities Purchase Agreement with SMG, a wholly owned subsidiary of Scotts Miracle-Gro. Pursuant to the Securities Purchase Agreement, SMG acquired 2,649,007 shares of the Company’s Series B Convertible Preferred Stock, par value \$0.001 per share (the “Series B Preferred Stock”), and (ii) a warrant to purchase shares of the Company’s common stock (the “Warrant”). The Series B Preferred Stock is convertible into 2,649,007 shares of common stock (\$4.0 million divided

by a conversion price of \$1.51 per share). The Warrant entitles, but does not obligate, Scotts Miracle-Gro to purchase a number of shares of common stock that, on a “fully diluted basis,” constitute 80% of the Company’s outstanding capital stock (when added to all other shares owned), as calculated as of the date or dates of exercise. The Warrant can be exercised at any time and from time to time for a period of five years between April 22, 2016 and April 22, 2021 (for further information on the strategic alliance with Scotts Miracle-Gro, please see Note 3 “Scotts Miracle-Gro Transactions – Convertible Preferred Stock, Warrants and Other Transactions” to our financial statements). The exercise price of the Warrant shall be equal to the quotient obtained by dividing:

(a) an amount equal to (i) 1.34 times the trailing twelve months “Net Sales” (which includes sales of the Company’s products by Scotts Miracle-Gro and its affiliates) minus (ii) “Debt Outstanding” net of cash (as such terms are defined in the Warrant,

by

(b) the total shares of capital stock outstanding, including outstanding in-the-money options and warrants, but not the Warrant contemplated in this Private Offering.

Table of Contents

The Warrant contains customary anti-dilution rights (for stock splits, stock dividends and sales of substantially all the Company's assets).

Under the Securities Purchase Agreement, our Board of Directors is required to consist of five members. While the Warrant is outstanding, SMG is entitled to elect one director and have one additional Board observer. Please see Note 3 "Scotts Miracle-Gro Transactions – Convertible Preferred Stock, Warrants and Other Transactions" to our financial statements for more detailed disclosure. As a result of this transaction, your rights as a common stockholder could be adversely affected. Because the holder of Series B Preferred Stock is entitled to vote on an "as-converted" basis with the common stock, SMG controls approximately 31% of the voting power of our outstanding equity. If SMG exercises the Warrant, its voting power will increase. As a result, SMG may be deemed to have effective control over all matters requiring action by our stockholders, including the election of our entire Board. It is unlikely that a change of control of our company could be effected without SMG's approval.

Our outstanding warrants, options and any additional future obligations to issue our securities to various parties may dilute the value of an investment in AeroGrow. In addition, the terms and conditions of these securities could significantly impact the price of our common shares, and could adversely impact our ability to raise additional equity capital.

As of March 31, 2014, we had reserved for issuance up to approximately 3.6 million additional shares of common stock under the terms of warrants, options, conversion of Series B Convertible Preferred and other arrangements.

For the length of time the warrants, options and Series B Convertible Preferred Stock are outstanding, the holders will have an opportunity to profit from a rise in the market price of our common stock without assuming all the risks of common share ownership. This may adversely affect the terms upon which we can obtain additional capital. The holders of such derivative securities would likely exercise or convert them at a time when we would be able to obtain equity capital on terms more favorable than the exercise or conversion prices provided by the notes, warrants or options.

Further, issuances of equity and/of debt securities, or the perception that such issuances may occur, could cause the market price of our common stock to decline and impair our ability to raise capital in the future.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. DESCRIPTION OF PROPERTY

We lease a 9,868 square foot office space in, Boulder, Colorado, with a current monthly rent of \$9,000, which is subject to 3.5% annual increases. We also pay our proportionate share of building taxes, insurance and operating expenses. The lease term continues until September 30, 2014, unless modified under specified circumstances. As of April 14, 2014 the lease term was extended to September 30, 2016. The agreement contains other standard office lease provisions.

While our facilities appear adequate for the foreseeable future, we may add space to meet future growth as needed. Upon expiration of our current leases, we believe that we will be able to either renew our existing leases or arrange new leases in nearby locations on acceptable terms. We believe that these properties are adequately covered by insurance.

ITEM 3. LEGAL PROCEEDINGS

From time to time, we are party to various litigation matters, in most cases involving ordinary and routine claims incidental to our business. We cannot estimate with certainty our ultimate legal and financial liability with respect to any such pending litigation matters. However, based on our examination, we believe of such matters, that our ultimate liability, if any, will not have a material adverse effect on our financial position, results of operations or cash flows.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

Table of Contents

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Our common stock is listed on the OTCQB market tier under the symbol "AERO."

Price Range of Common Stock

The following table sets forth, for the periods indicated, the high and low daily closing prices of our common stock for the two most recently completed fiscal years while trading on the markets noted above.

	Fiscal Year Ended 3/31/14		Fiscal Year Ended 3/31/13	
	High	Low	High	Low
1st Quarter - Ended June 30	\$ 2.10	\$ 1.00	\$ 2.00	\$ 1.00
2nd Quarter - Ended Sept 30	\$ 2.20	\$ 1.41	\$ 2.00	\$ 1.00
3rd Quarter - Ended Dec 31	\$ 2.60	\$ 1.90	\$ 1.20	\$ 0.51
4th Quarter - Ended Mar 31	\$ 9.66	\$ 2.28	\$ 1.30	\$ 0.82

Stock prices for the period April 1, 2011 through October 16, 2012 have been adjusted to reflect a 1-for-100 reverse stock split that became effective on October 17, 2012, as previously reported in a Current Report on Form 8-K filed with the SEC on October 16, 2012.

Holders

As of June 13, 2014, we had approximately 517 holders of record of our common stock. A substantially greater number of stockholders are "street name" or beneficial holders, whose shares are held of record by banks, brokers and other financial institutions. See "Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters," for additional information about holders of our common stock.

Dividends

We have never declared or paid cash dividends on our common stock. We currently intend to retain all available funds and any future earnings for use in the operation of our business and do not anticipate paying any cash dividends in the foreseeable future. Any future determination to declare cash dividends will be made at the discretion of our Board of Directors, subject to compliance with covenants under any existing financing agreements, which may restrict or limit our ability to declare or pay dividends, and will depend on our financial condition, results of operations, capital requirements, general business conditions, and other factors that our board of directors may deem relevant.

Equity Compensation Plan Information

The equity compensation plan information called for by Item 201(d) of Regulation S-K is set forth in Item 12 "Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters" of Part III of this Annual Report under the heading "Equity Compensation Plan Information."

Issuer Purchases of Equity Securities

We did not repurchase any shares of our common stock during the year ended March 31, 2014.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Annual Report on Form 10-K ("Annual Report"), including the "Management's Discussion and Analysis of Financial Condition and Results of Operations," contains forward-looking statements regarding future events and our future results that are based on current expectations, estimates, forecasts, and projections about the industry in which we operate and the beliefs and assumptions of our management. Words such as "expects," "anticipates," "targets," "goals," "projects," "may," "will," "would," "could," "intends," "plans," "believes," "seeks," "estimates," variations of such words, and expressions are intended to identify such forward-looking statements. These forward looking statements may include, among others, statements concerning our expectations regarding our business, growth prospects, revenue trends, operating costs, results of operations, working capital requirements, access to funding, competition and other statements of expectations, beliefs, future plans and strategies, anticipated events or trends, and similar expressions concerning matters that are not historical facts. These forward-looking statements are subject to risks, uncertainties,

and assumptions that are difficult to predict. Therefore, actual results may differ materially and adversely from expectations expressed or implied in forward-looking statements. Factors that might cause or contribute to such differences include, but are not limited to, those discussed in this Report under the section entitled “Risk Factors” in Item 1A of Part I and elsewhere, and in other reports we file with the SEC, specifically the most recent reports on Form 10-Q. While forward-looking statements are based on reasonable expectations of our management at the time that they are made, you should not rely on them. We undertake no obligation to revise or update publicly any forward-looking statements for any reason.

Executive Overview

We are in the business of developing, marketing, and distributing advanced indoor aeroponic and hydroponic garden systems. After several years of initial research and product development, we began sales activities in March 2006. Since that time we have expanded our operations and currently offer four different indoor garden models, more than 40 seed pod kits, and various gardening and kitchen accessories. Although our business is focused on the United States and Canada, our products are available in five other countries.

Table of Contents

Background – Fiscal Years 2010 – 2013

Beginning in the fiscal year ended March 31, 2010 (“Fiscal 2010”), and continuing through the fiscal year ended March 31, 2013 (“Fiscal 2013”), we scaled back our operations, particularly in the retail channel, as a result of the general economic downturn and the resulting decline in consumer confidence and spending. As of March 31, 2013, our products were offered in approximately 72 stores in North America, as compared to approximately 500 as of March 31, 2012, 575 as of March 31, 2011 and 1,290 as of March 31, 2010. We also re-focused our efforts towards building our direct-to-consumer business, which carries higher margin opportunity and lower upfront inventory costs. To position our business for the future, we increased the depth and breadth of our direct sales distribution channels to include a direct mail catalogue business with approximately 1.3 million catalogues mailed in Fiscal 2013, significantly increased our web-selling presence and developed a robust e-mail marketing program. In addition, we have tested print ads in national magazines, infomercials, mall kiosks, and long-form and short-form infomercials, and may increase our use of these marketing vehicles in the future. In Fiscal 2013, approximately 86.0% of our total sales were to direct customers and approximately 14.0% of our total sales were to retail customers. Amazon.com, Inc., our largest retailer customer, comprised approximately 71.8% of our sales to retailers and 8.7% of our total sales during Fiscal 2013.

In the fiscal year ended March 31, 2012 (“Fiscal 2012”), we recapitalized our balance sheet. Specifically, we restructured the amounts and payment timing of certain of our accounts payable, issued \$1.6 million in short-term working capital debt, restructured the payment schedule for a \$2.1 million note payable to a supplier, and received approval from our shareholders and affected creditors to convert our Series A Preferred Stock and Subordinated Secured Convertible Notes into common stock (see additional detail on these transactions below under the caption “Liquidity and Capital Resources” and in Note 8 “Stockholder’s Equity” to our financial statements). The conversions of our convertible securities were completed in April 2012, during the first quarter of Fiscal 2013. In addition, also during the first quarter of Fiscal 2013, we offered our warrant holders the opportunity to exercise their warrants at a reduced price, resulting in \$1.59 million of new common equity capital from warrant exercises.

Fiscal Year 2014

As disclosed above under the caption “Item 1. Business,” we entered into a Securities Purchase Agreement and strategic alliance in April 2013 with a wholly owned subsidiary of Scotts Miracle-Gro. Pursuant to the Securities Purchase Agreement, we issued (i) 2,649,007 shares of Series B Convertible Preferred Stock, par value \$0.001 per share (the “Series B Preferred Stock); and (ii) a warrant to purchase shares of our common stock for an aggregate purchase price of \$4.0 million. In addition, as part of the strategic alliance, we entered into several other agreements with Scotts Miracle-Gro, including: (i) an Intellectual Property Sale Agreement; (ii) a Technology Licensing Agreement; (iii) a Brand License Agreement; and (iv) a Supply Chain Management Agreement.

In the Intellectual Property Sale Agreement, we agreed to sell all intellectual property associated with our hydroponic products (the “Hydroponic IP”), other than the AeroGrow and AeroGarden trademarks, free and clear of all encumbrances, to Scotts Miracle-Gro for \$500,000. Scotts Miracle-Gro has the right to use the AeroGrow and AeroGarden trademarks in connection with the sale of products incorporating the Hydroponic IP. In addition to the working capital infusion of approximately \$4.5 million from the Securities Purchase Agreement and Intellectual Property Sale Agreement, the strategic alliance affords us the use of the globally recognized and highly trusted Miracle-Gro brand name. We believe that the strategic alliance also gives Scotts Miracle-Gro an entry into the burgeoning indoor gardening market, while providing AeroGrow a broad base of support in marketing, distribution, supply chain logistics, R&D, and sourcing. We intend to use our strategic alliance with Scotts Miracle-Gro to re-establish our presence in the retail and international sales channels.

As a result of these efforts, we cobranded our products with the Miracle-Gro AeroGarden trade name during the first six months of the fiscal year. We renewed our focus in retail markets by selling to a limited number of retailers as we grow awareness of our newly cobranded product. As of March 31, 2014 our products had been offered in

approximately 210 stores in North America. During Fiscal 2014, we enhanced the depth and breadth of our direct sales distribution channels by distributing approximately 1.2 million direct mail catalogues, significantly increasing our web-selling presence and developing a robust e-mail marketing program. In Fiscal 2014, approximately 59.3% of our total sales were to direct customers and approximately 40.7% of our total sales were to retail customers. Amazon.com, Inc., our largest retailer customer, comprised approximately 79.6% of our sales to retailers and 30.7% of our total sales during Fiscal 2014.

Based on the efforts during Fiscal 2014 and our growing product awareness, we believe we can meet our cash requirements for the next twelve months. We may need to seek additional capital, however, to provide a cash reserve against contingencies, address the seasonal nature of our working capital needs, and to enable us to invest further in trying to increase the scale of our business. There can be no assurance we will be able to raise this additional capital, that we will be able to increase the scale of our business, or that our existing resources will be sufficient to meet all of our cash requirements. In such an event, we would reduce the scale of our operations and take such actions as are available to us to reduce our cash requirements. However, there can be no assurance that such actions would be successful.

Table of Contents

Our Critical Accounting Policies

Inventory

Inventories are valued at the lower of cost, as determined by standard pricing which approximates the first-in, first-out method, or market. Where we are the manufacturer, we include raw materials, labor and manufacturing overhead in inventory costs. We record the raw materials at delivered cost. Standard labor and manufacturing overhead costs are applied to the finished goods based on normal production capacity. A majority of our products are manufactured overseas and are recorded at cost.

(in thousands)	March 31, 2014	March 31, 2013
Finished goods	\$ 784	\$ 606
Raw materials	527	623
	\$ 1,311	\$ 1,229

The Company determines an inventory obsolescence reserve based on management's historical experience and establishes reserves against inventory according to the age of the product. As of March 31, 2014 and 2013, the Company had reserved \$332,000 and \$94,000, respectively, for inventory obsolescence. The increase is due to \$237,000 in consignment inventory held by Main Power that was fully reserved for during the fiscal first quarter of 2014 along with the debt settlement discussed further in Note 2 and Note 3 to the financial statements.

Revenue Recognition

The Company recognizes revenue from product sales, net of estimated returns, when persuasive evidence of a sale exists: that is, a product is shipped under an agreement with a customer; risk of loss and title has passed to the customer; the fee is fixed or determinable; and collection of the resulting receivable is reasonably assured.

The Company records estimated reductions to revenue for customer and distributor programs and incentive offerings, including promotions and other volume-based incentives. Certain incentive programs require the Company to estimate based on industry experience the number of customers who will actually redeem the incentive. At March 31, 2014 and March 31, 2013, the Company had accrued \$42,000 and \$43,000 respectively, as its estimate for the foregoing deductions and allowances.

Warranty and Return Reserves

The Company records warranty liabilities at the time of sale for the estimated costs that may be incurred under its basic warranty program. The specific warranty terms and conditions vary depending upon the product sold but generally include technical support, repair parts and labor for periods up to one year. Factors that affect our warranty liability include the number of installed units currently under warranty, historical and anticipated rates of warranty claims on those units, and cost per claim to satisfy our warranty obligation. Based upon the foregoing, the Company has recorded a provision for potential future warranty costs of \$11,000 and \$10,000, as of March 31, 2014 and March 31, 2013, respectively.

The Company reserves for known and potential returns and associated refunds or credits related to such returns based upon historical experience. In certain cases, customers are provided a fixed allowance, usually in the 1% to 2% range, to cover returned goods. This allowance is deducted from payments made to us by such retailers. As of March 31, 2014 and March 31, 2013, the Company has recorded a reserve for customer returns of \$61,000 and \$27,000, respectively.

Shipping and Handling Costs

Shipping and handling costs associated with inbound freight are recorded in cost of revenue. Shipping and handling costs associated with freight out to customers are also included in cost of revenue. Shipping and handling charges paid by customers are included in product sales.

Stock Based Compensation

The Company accounts for share-based payments in accordance with FASB Accounting Standards Codification (“ASC”) 718-10-55 Share-Based Payment. The Company uses the Black-Scholes option valuation model to estimate the fair value of stock option awards issued. For the years ended March 31, 2014, and 2013, equity compensation in the form of stock options and grants of restricted stock that vested totaled \$257,000 and \$177,000, respectively, and is included in the accompanying Statements of Operations in the following categories:

(in thousands)	Fiscal Years Ended March 31,	
	(in thousands)	
	2014	2013
General and administrative	\$ 200	\$ 136
Sales and marketing	57	41
Total	\$ 257	\$ 177

Table of Contents**Advertising and Production Costs**

The Company expenses all production costs related to advertising, including, print, television, and radio advertisements when the advertisement has been broadcast or otherwise distributed. We record media costs related to its direct-to-consumer advertisements, inclusive of postage and printing costs incurred in conjunction with mailings of direct response catalogues, and related direct response advertising costs, in accordance with ASC 340-20-25 Reporting on Advertising Costs. As prescribed by ASC 340-20-25, direct response advertising costs incurred should be reported as assets and should be amortized over the estimated period of the benefits, based on the proportion of current period revenue from the advertisement to probable future revenue.

As the Company has re-entered the retail distribution channel, it has expanded advertising into online gateway and portal advertising, as well as placement in third party catalogues.

Advertising expenses for the years ended March 31, 2014 and March 31, 2013, were as follows:

	Fiscal Year Ended March 31, (in thousands)	
	2014	2013
Direct-to-consumer	\$ 786	\$ 1,055
Retail	404	1
Total advertising expense	\$ 1,190	\$ 1,056

As of March 31, 2014 and March 31, 2013, the Company had deferred \$16,000 and \$4,000, respectively, related to such media costs.

Research and Development

Research, development, and engineering costs are expensed as incurred. Research, development, and engineering expenses primarily include payroll and headcount related costs, contractor fees, infrastructure costs, and administrative expenses directly related to research and development support.

Deferred Debt Issuance Costs

We capitalize debt issuance costs that are directly attributable to realizing the proceeds of the debt issued and these costs are amortized over the contractual life of the debt using the effective interest method.

Fair Value Measurements

In evaluating the fair value of derivative financial instruments, there are numerous assumptions which management must make that may influence the valuation of the derivatives as included in the financial statements. We revalue our financial instruments at fair value on a case by case basis and recognize the change in the fair value of the instrument at each reporting period.

Intellectual Property Sale Agreement

The Intellectual Property Sale Agreement constitutes an agreement of sales of future revenues. Since the Company received cash from Scotts Miracle-Gro and agreed to pay for a defined period a specified percentage of revenue, and because the Company has significant involvement in the generation of its revenue, the excess paid over net book value is classified as debt and is being amortized under the effective interest method.

New Accounting Pronouncements

In July 2013, the FASB issued ASU 2013-11, "Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists," which among other things, requires an

unrecognized tax benefit, or a portion of an unrecognized tax benefit, to be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except as denoted within the ASU. The amendments in this ASU are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. This new guidance will not have a material impact on our financial statements.

Table of Contents

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers," which amended revenue recognition guidance to clarify the principles for recognizing revenue from contracts with customers. The guidance requires an entity to recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which an entity expects to be entitled in exchange for those goods or services. The guidance also requires expanded disclosures relating to the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. Additionally, qualitative and quantitative disclosures are required about customer contracts, significant judgments and changes in judgments, and assets recognized from the costs to obtain or fulfill a contract. This accounting guidance is effective for the Company beginning in the first quarter of fiscal year 2018 using one of two prescribed retrospective methods. Early adoption is not permitted. We have not yet selected a transition method nor have we determined the effect of the standard on our ongoing financial reporting.

Inflation, Seasonality and Currency Fluctuations

The Company does not currently expect inflation to have a significant effect on our operations. Because our garden systems are designed for indoor gardening use, we experience slower sales in the United States and Canada during the late spring and summer months when our consumers may tend to garden outdoors. In addition, we have experienced increased sales during the pre-holiday season lasting from October through December of each year. We sell to our international distributors in U.S. Dollars thereby minimizing effects from currency fluctuations. We purchase our gardens and other accessory products from Chinese manufacturers, and these purchases are denominated in U.S. Dollars. However, over time, the cost of the products we procure from China may be affected by changes in the value of the U.S. Dollar relative to the Chinese currency and/or by labor and material cost increases faced by our Chinese manufacturers.

Results of Operations

The following table sets forth, as a percentage of sales, our financial results for the last two fiscal years:

	Fiscal Years Ended March 31,	
	2014	2013
Net revenue		
Direct-to-consumer	59.3%	86.0%
Retail	38.6%	12.1%
International	2.1%	1.9%
Total net revenue	100.0%	100.0%
Cost of revenue	59.7%	54.6%
Gross profit	40.3%	45.4%
Operating expenses		
Research and development	1.0%	4.0%
Sales and marketing	31.2%	31.7%
General and administrative	17.5%	24.8%
Total operating expenses	49.7%	60.5%
Loss from operations	-9.4%	-15.1%
Total other (income)/expense, net	16.4%	97.5%
Net loss	-25.7%	-112.6%

Fiscal Years Ended March 31, 2014 and March 31, 2013

Summary Overview

Our net revenues in Fiscal 2014 totaled \$9.4 million, an increase of 27.6% from Fiscal 2013 revenues. This increase was primarily attributable to increased retail sales and our strategic alliance with Scotts Miracle-Gro, the introduction of the high-end AeroGarden ULTRA LED and EXTRA LED products, partially offset by lower direct-to-consumer sales during the first six months of Fiscal 2014 as we rebranded our product line with the Miracle-Gro trade name.

Table of Contents

Our sales to retailer customers increased by 307.0% to \$3.6 million during Fiscal 2014. The increase in sales to retailers reflected increased sales to existing customers such as Amazon.com and the addition of newly acquired retail accounts as well as a promotional program at select Home Depot stores. As of March 31, 2014, our products were being carried in approximately 210 retail storefronts, as compared to approximately 72 a year earlier. Our direct-to-consumer sales declined, by 12.1% to \$5.5 million, principally caused by the aging of our direct-to-consumer customer file, a decrease in direct-to-consumer advertising, our renewed focus on the retail marketing channel after we entered the strategic alliance with Scotts Miracle-Gro, and lower inventory levels during the first six months of Fiscal 2014 as we began the process of cobranding our products with the Scotts Miracle-Gro trade name.

On a product line basis, we saw a year-over-year increase in the mix of AeroGardens as a percent of total revenue. For the fiscal year ended March 31, 2014, AeroGarden sales increased by 90.2% and represented 71.6% of total revenue, as compared to 48.1% in the prior year period, principally because: (i) the increase in sales to retailers in the fiscal third and fourth quarters, (ii) the increase in direct-to-consumer prospecting activity which tends to generate a higher mix of AeroGarden sales, (iii) the launch of the new high-end AeroGarden ULTRA LED and EXTRA LED models, and (iv) the cobranding of our products with the Miracle-Gro AeroGarden name. Seed pod kit and accessory sales decreased as a percent of the total to 28.4% from 51.9% in the prior year period.

For the Fiscal 2014, we incurred \$1.2 million in advertising expenditures to support our direct-to-consumer and retail channels, a 12.7% year-over-year increase compared to the Fiscal Year ended 2013. These expenditures were divided as follows:

- Direct-to-consumer advertising decreased to \$786,000 from \$1,055,000 for the year ended March 31, 2014 and March 31, 2013, respectively. Efficiency, as measure by dollars of direct-to-consumer sales per dollar of related advertising expense, increased to \$7.05 or 14.2% for the fiscal year ended March 31, 2014, as compared to \$5.97 for Fiscal 2013.
- Retail advertising increased to \$404,000 from \$1,000 for the year ended March 31, 2014 and March 31, 2013, respectively, as the Company focused on driving product awareness on behalf of our retail partners.

Sales to international distributors increased in Fiscal 2014 by 43.3% to \$199,000. This increase is exclusively attributable to reorders from our existing customers. The combination of all of the factors cited above resulted in a year-over-year increase in total net revenues of 27.6% to \$9.4 million in Fiscal 2014.

Our gross margin for Fiscal 2014 was 40.3%, down from 45.4% in the prior year, as efficiency gains in our assembly, fulfillment, and distribution operations were offset by the increased percentage of sales to lower margin retailers, primarily Amazon.com and Costco, expenses associated with inventory cobranding and intellectual property royalty fees associated with our strategic alliance with Scotts Miracle-Gro, and increased international sales.

Operating expenses for Fiscal 2014 totaled \$4.6 million, an increase of 4.7% or \$210,000 over the prior fiscal year. Sales and marketing costs increased by 25.6% to \$2.9 million, made up of an increase in our media expenditures and an increase in personnel related expenses to support growth in the retail sales channel. Additionally, as part of the re-introduction into the retail channel, the Company incurred increased public relations, travel and other related expenses. General and administrative expense totaled \$1.6 million during Fiscal 2014, down 10.1%, or \$184,000 from Fiscal 2013. The lower general and administrative expenses decreased principally because we did not replace our Chief Financial Officer who resigned in April 2013 and spending reductions in all areas, including legal, administration, facility and office-related expenses offset partially by increased non-cash compensation and investor relations expenses. Research and development costs also decreased 68.0% year-over-year or \$201,000 in Fiscal 2014, primarily reflecting development of the AeroGarden ULTRA in the prior year as we leveraged that design work in development of the AeroGarden ULTRA LED.

Our loss from operations totaled \$876,000 for Fiscal 2014, as compared to a loss of \$1.1 million in the prior year. The decreased loss reflected higher sales, partially offset by decreased retail-related margins during Fiscal 2014.

Other expense for Fiscal 2014 totaled \$1.5 million, as compared to other expense of \$7.1 million in the prior year. The net other expense in the current year period included \$1.9 million of change in fair value of the Scotts Miracle-Gro warrant valuation and \$489,000 of income attributable to the repayment and settlement of the Main Power note. The net other expense in the prior year included \$6.6 million in non-recurring, non-cash debt conversion costs, \$80,000 in non-recurring gains relating to adjustments in estimates of certain accounts payable accounts, and \$131,000 in non-cash amortization expense related to short-term promissory notes issued in September 2012.

Our net loss for Fiscal 2014 totaled \$2.4 million comprised mostly of the \$1.9 million of change in fair value of the Scotts Miracle-Gro warrant valuation, down \$5.9 million from the prior year. The decreased net loss is principally because of the gain on the settlement on the Main Power Note, and non-cash charges resulting from conversion of all our outstanding convertible debt into common stock during the prior period, partially offset by higher inventory cobranding expenses in the current year period and the change in the fair value of the Scotts Miracle-Gro warrant.

Table of Contents

Revenue

The table set forth below shows quarterly revenues by sales channel for the fiscal years ended March 31, 2014, and March 31, 2013:

(in thousands)	Quarters ended				Year ended
	30-Jun-12	30-Sep-12	31-Dec-12	31-Mar-13	31-Mar-13
Sales – direct-to-consumer	\$ 1,332	\$ 1,113	\$ 2,323	1,536	\$ 6,304
Sales – retail	44	6	626	211	887
Sales – international	41	25	23	50	139
	\$ 1,417	\$ 1,144	\$ 2,972	\$ 1,797	\$ 7,330

(in thousands)	Quarters ended				Year ended
	30-Jun-13	30-Sep-13	31-Dec-13	31-Mar-14	31-Mar-14
Sales – direct-to-consumer	\$ 788	\$ 521	\$ 2,514	1,721	\$ 5,544
Sales – retail	169	148	2,437	858	3,612
Sales – international	166	7	17	9	199
	\$ 1,123	\$ 676	\$ 4,968	\$ 2,588	\$ 9,355

In Fiscal 2014, revenue totaled \$9.4 million, an increase of \$2.0 million, or 27.6%, from Fiscal 2013. The overall sales increase in Fiscal 2014 resulted from a \$2.7 million, or 307.0%, year-over-year increase in retail sales, to \$3.6 million, from \$887,000 in Fiscal 2013, which more than offset the 12.1% decrease in direct-to-consumer sales. The decrease in direct sales principally reflected lower sales in the first six months as we cobranded our product line with the Miracle-Gro trade name and the lower sales of seed pod kits and accessory items.

During the Fiscal 2014, direct-to-consumer sales per dollar of advertising expense totaled \$7.05 as compared to \$5.97 in the prior year period, with much of the increase reflecting a shift in advertising expenses from direct-to-consumer to retail with our renewed focus into the retail market, the cobranding of our product, use of more efficient advertising medium, and the release of our new ULTRA LED and EXTRA LED products. These were partially offset as we continued the utilization of catalogue mailings and other marketing methods to prospect for new customers, which tend to generate lower immediate returns on marketing investment relative to marketing efforts focused on existing customers. Finally, on a comparative year-to-date basis, our advertising spending in the prior year was constrained by liquidity issues for much of the time period.

Sales to retailer customers for Fiscal 2014 totaled \$3.6 million, up \$2.7 million, or 307.0%, from the same period a year earlier, principally reflecting sales to newly acquired retail accounts such as Costco, Frontgate, The Home Depot and Home Shopping Network, as well as growth in the existing Amazon.com account.

International sales for Fiscal 2014 totaled \$199,000, up \$60,000 from Fiscal 2013. This increase reflects the timing of reorders from existing international distributors, as we were not attempting to develop our international markets in Fiscal 2014. As of March 31, 2014, our products were being sold in five countries outside the United States and Canada, principally in Europe, Asia and Australia.

Table of Contents

The following table presents our quarterly sales by product category, in U.S. Dollars and as a percent of total net revenue, for Fiscal 2014 and Fiscal 2013.

(in thousands)	Quarters ended				Year ended
	30-Jun-12	30-Sep-12	31-Dec-12	31-Mar-13	31-Mar-13
Product Revenue					
AeroGardens	\$ 519	\$ 411	\$ 1,847	\$ 747	\$ 3,524
Seed pod kits and accessories	897	733	1,126	1,050	3,806
Total	\$ 1,416	\$ 1,144	\$ 2,973	\$ 1,797	\$ 7,330
% of Revenue					
AeroGardens	36.7%	35.9%	62.1%	41.6%	48.1%
Seed pod kits and accessories	63.3%	64.1%	37.9%	58.4%	51.9%
Total	100.0%	100.0%	100.0%	100.0%	100.0%

(in thousands)	Quarters ended				Year ended
	30-Jun-13	30-Sep-13	31-Dec-13	31-Mar-14	31-Mar-14
Product Revenue					
AeroGardens	\$ 747	\$ 144	\$ 4,165	\$ 1,646	\$ 6,702
Seed pod kits and accessories	376	532	803	942	2,653
Total	\$ 1,123	\$ 676	\$ 4,968	\$ 2,588	\$ 9,355
% of Revenue					
AeroGardens	66.6%	21.3%	83.8%	63.6%	71.6%
Seed pod kits and accessories	33.4%	78.7%	16.2%	36.4%	28.4%
Total	100.0%	100.0%	100.0%	100.0%	100.0%

AeroGarden sales totaled \$6.7 million in Fiscal 2014, up \$3.2 million or 90.2%, from the year earlier, principally because: (i) the increase in sales to retailers in the fiscal third quarter, (ii) the increase in direct-to-consumer prospecting activity which tends to generate a higher mix of AeroGarden sales, (iii) the launch of the new AeroGarden ULTRA LED and EXTRA LED models, and (iv) the cobranding of our products with the Miracle-Gro AeroGarden name. Sales of seed pod kits and accessories declined, by \$1.2 million, or 30.3%, principally reflecting the overall decline in direct-to-consumer sales and the shift in marketing mix to new customer acquisition activity. On a cumulative basis, we have sold approximately 2.8 million after-market seed pod kits to-date. In Fiscal 2014, sales of seed pod kits and accessories represented 28.4% of our total net revenue, down from 51.9% in the prior fiscal year.

Cost of Revenue

Cost of revenue for Fiscal 2014 totaled \$5.6 million, a 39.5% increase from the prior fiscal year. Cost of revenue includes product costs for purchased and manufactured products, freight costs for inbound freight from manufacturers and outbound freight to customers, costs related to warehousing, credit card processing fees for direct sales, and duties and customs applicable to imported products. The dollar amount of cost of revenue increased because of the increase in total sales, as well as fees associated with our strategic alliance with Scotts Miracle-Gro. As a percent of total revenue, cost of revenue totaled 59.7% in Fiscal 2014, as compared to 54.6% in the year earlier period. The increase in costs as a percent of revenue reflected brand and intellectual property royalty fees associated with our strategic alliance with Scotts Miracle-Gro, the shift of our revenue mix from higher margin direct-to-consumer customers and seed pod kit sales to lower margin retailers, international distributors and AeroGarden sales.

Gross Margin

Our gross margin varies based upon the factors affecting net revenue and cost of revenue as discussed above, as well as the mix of our revenue that comes from the retail, direct-to-consumer, and international channels. In a direct-to-consumer sale, we recognize as revenue the full consumer purchase price for the product. In retail and

international sales, by comparison, we recognize as revenue the wholesale price for the product which we charge to the retailer or international distributor. Media costs associated with direct sales are included in sales and marketing costs. For international sales, margins are based on the distributor purchasing products by letter of credit or cash-in-advance terms with the distributors bearing all of the marketing and distribution costs within their territories. As a result, international sales generally have lower margins than domestic retail sales. Overall, the gross margin for Fiscal 2014 was 40.3% as compared to 45.4% in the prior year.

Table of Contents

Sales and Marketing

Sales and marketing costs for Fiscal 2014 totaled \$2.9 million, an increase of \$595,000, or 25.6%, from the prior fiscal year. Sales and marketing costs include all costs associated with the marketing, sales, operations, customer support, and sales order processing for our products. The following table breaks down the components of our sales and marketing costs for Fiscal 2014 and Fiscal 2013:

(in thousands)	Fiscal Years Ended March 31,	
	2014	2013
Advertising	\$ 1,190	\$ 1,055
Salaries and related expenses	1,238	1,004
Sales commissions	33	42
Trade shows	14	9
Other	445	215
	\$ 2,920	\$ 2,325

Advertising is principally composed of the costs of developing and airing our infomercials, the costs of development, production, printing, and postage for our catalogues, and mailing and web media costs for search and affiliate web marketing programs. Each of these are key components of our integrated marketing strategy because they generate direct-to-consumer sales and help build awareness of, and consumer demand for, our products in all our channels of distribution. Advertising expense totaled \$1.2 million for Fiscal 2014, a year-over-year increase of 12.7%, or \$134,000, primarily because of our increased focus in retail advertising, partially offset by lower catalogue mailing expenses during the current year period.

Sales and marketing personnel costs include salaries, payroll taxes, employee benefits and other payroll costs for our sales, operations, customer service, graphics and marketing departments. Personnel costs for sales and marketing in Fiscal 2014 were \$1.2 million, up 23.3% from Fiscal 2013.

Sales commissions, generally 5% of cash collections from our retailer customers, are paid to third-party sales representatives that assist us in developing and maintaining relationships with retailers. Sales commission expense totaled \$33,000 for the fiscal year ended March 31, 2014, down 21.6% from the prior fiscal year. The year-over-year decrease in sales commission expense resulted from reduced sales to customers represented by third-party sales representatives. Additionally, sales made directly by our internal sales agents qualify for commission and as the direct-to-consumer sales were down year over year this contributes to the overall decrease in commission expense.

Other marketing expenses increased year-over-year because as part of the reintroduction into the retail channel a variety of other increases occurred including a public relations program, increased travel, promotion programs and order processing costs.

General and Administrative

General and administrative expense for the fiscal year ended March 31, 2014 totaled \$1.6 million, down \$184,000, or 10.1% from the prior fiscal year. The decrease reflected a reduction in depreciation and amortization expense, the result of not replacing the Chief Financial Officer who resigned in April 2013, as well as decreased legal, administration, facility and office-related expenses, partially offset by increased non-cash compensation and investor relations expenses

Research and Development

Research and development costs totaled \$95,000 for Fiscal 2014, a decrease of \$201,000, or 68.0%, from the prior fiscal year.

Research and development costs are comprised of payroll and other costs associated with (i) development of new AeroGarden models and technologies; (ii) our plant laboratories that research new plant varieties; and (iii) new technologies, such as improved lighting and nutrient formulation and delivery to enhance the performance of our products. The decrease principally resulted from higher prior year associated with the development and launch of the new AeroGarden ULTRA LED as we leveraged that design work in development of the AeroGarden ULTRA LED.

Operating Loss

The loss from operations totaled \$876,000 in Fiscal 2014, a decrease of \$233,000, or 21.0%, over the prior year, primarily as a result of higher sales and overall decreases in general and administrative expenses and product development costs.

Table of Contents

As a non-U.S. GAAP measure of our operating performance, we track earnings before interest, taxes, depreciation and amortization (“EBITDA”) as an indicator of our ability to generate cash, which we define as Operating Profit or Loss excluding the non-cash depreciation, amortization, Scott’s Miracle-Gro IP royalty and branding, common stock warrant expense and stock based compensation expense incurred during the period (“Adjusted EBITDA”). As calculated in the table below, our Adjusted EBITDA loss for Fiscal 2014 totaled \$189,000, \$569,000 more favorable than the \$758,000 Adjusted EBITDA loss recognized during the prior year.

(in thousands)	Fiscal Years Ended March 31,	
	2014	2013
Loss from Operations	\$ (876)	\$ (1,109)
Add Back Non-Cash Items:		
Depreciation	156	160
Amortization	-	14
Stock based compensation	257	177
Common stock warrant expense	36	-
Scott’s Miracle-Gro IP royalty and branding license	238	-
Total Non-Cash Items	687	351
Adjusted EBITDA	\$ (189)	\$ (758)

The U.S. GAAP measure most directly comparable to Adjusted EBITDA is net earnings. The non-U.S. GAAP financial measure of Adjusted EBITDA should not be considered as an alternative to net earnings. Adjusted EBITDA is not a presentation made in accordance with U.S. GAAP and has important limitations as an analytical tool. Adjusted EBITDA should not be considered in isolation or as a substitute for analysis of our results as reported under U.S. GAAP. Because Adjusted EBITDA excludes some, but not all, items that affect net earnings and is defined differently by different companies, our definition of Adjusted EBITDA may not be comparable to similarly titled measures of other companies.

Other Income and Expense

Other expense for Fiscal 2014 totaled \$1.5 million, as compared to other expense of \$7.1 million in the prior year. The net other expense in the current year period included \$489,000 of income attributable to the repayment and settlement of the Main Power note and \$1.9 million related the fair value of the Scotts Miracle-Gro warrant. Net other expense for Fiscal 2013 included \$6.6 million in non-recurring, non-cash debt conversion costs, \$80,000 in non-recurring gains relating to adjustments in estimates of certain accounts payable accounts, and \$131,000 in non-cash amortization expense related to short-term promissory notes issued in September 2012.

Net Loss

The net loss for Fiscal 2014 was \$2.4 million comprised mostly of the \$1.9 million of change in fair value of the Scotts Miracle-Gro warrant valuation, \$5.9 million lower than in Fiscal 2013. The decrease in the loss is due primarily to higher sales, the gain on the settlement on the Main Power Note partially offset by higher inventory cobranding expenses in the current year period and the fair value of the Scotts Miracle-Gro warrant. Additionally, during the prior period the loss included non-cash charges that resulted from the conversion of all our outstanding convertible debt into common stock.

Liquidity and Capital Resources

After adjusting the net loss for non-cash items and changes in operating assets and liabilities, the net cash used by operating activities totaled \$1.3 million in Fiscal 2014 as compared to net cash used by operating activities of \$342,000 in the prior fiscal year.

Non-cash items, consisting of depreciation, amortization, bad debt allowances, issuances of common stock and options, fair value remeasurement of warrant liability and the gain on the forgiveness of debt, totaled a net loss of \$2.1 million in Fiscal 2014, as compared to a net loss of \$7.3 million in the prior fiscal year.

Changes in current assets used cash of \$843,000 during Fiscal 2014, principally from increases in accounts receivable, inventory and other current assets. In Fiscal 2013, changes in these assets contributed \$470,000, reflecting reductions in accounts receivable, inventory and other receivables. As of March 31, 2014, the inventory balance was \$1.3 million, representing approximately 86 days of sales activity during Fiscal 2014. Net accounts receivable totaled \$573,000 as of March 31, 2014, representing approximately 58 days of net retail sales activity at the average daily rate of sales recognized during Fiscal 2014. The days of sales in receivables and inventory calculations can fluctuate, and are greatly impacted, by our seasonality and the timing of sales and inventory receipts during the period.

Table of Contents

Current operating liabilities decreased \$150,000 during Fiscal 2014, principally because of an \$8,000 increase in accounts payable and accrued liabilities, partially offset by \$157,000 of reductions in customer deposits. In the prior year period, current operating liabilities increased \$190,000 principally because of a \$323,000 increase in accrued interest and customer deposits and a \$68,000 increase in accrued expenses, partially offset by a \$229,000 reduction in accounts payable. Accounts payable as of March 31, 2014 totaled \$553,000, representing approximately 20 days of daily expense activity at the average daily rate of expenses incurred during Fiscal 2014.

Net investment activity provided \$339,000 of cash, principally because of the sale of our patent portfolio to Scotts Miracle-Gro, as compared to cash used of \$303,000 in the prior year. Net financing activity, including the sale of convertible preferred stock and a net reduction in total debt obligations, provided cash of \$2.1 million during Fiscal 2014, as compared to cash provided of \$668,000 in the prior year.

As of March 31, 2014, we had a cash balance of \$1.7 million, of which \$15,000 was restricted as collateral for our various corporate obligations. This compares to a cash balance of \$567,000 as of March 31, 2013, of which \$42,000 was restricted.

As of March 31, 2014 and March 31, 2013, the outstanding balance of our note payable and debt, including accrued interest, is as follows:

(in thousands)	For the Fiscal Years Ended March	
	2014	2013
Main Power Promissory Note	\$ -	\$ 1,704
First Western Trust Term Loan	-	323
Notes Payable – Credit Card	-	-
Receipts-Backed Notes	-	640
Pawnee Promissory Note	-	42
Total Debt	-	2,709
Less current portion	-	1,540
Long Term Debt	\$ -	\$ 1,169

As of the fiscal year ended March 31, 2014, we have no debt due requiring any cash payments. The debt in the current liability is related to the Scotts Miracle-Gro transaction, for further information see Note 3 to our financial statements.

We use, or have used, a variety of debt funding sources to meet our liquidity requirements, including the following:

Main Power Promissory Note

On June 30, 2009, we entered into a Letter Agreement (“Letter Agreement”) with Main Power Electrical Factory, Ltd. (“Main Power”) and executed a Promissory Note. Pursuant to the terms of the Letter Agreement, Main Power agreed to release AeroGrow from \$1.4 million of existing obligations owed to Main Power in return for the execution of the Promissory Note for the same amount. In addition, the Letter Agreement included other provisions relating to the terms and conditions under which we purchase AeroGarden products from Main Power.

Effective as of December 31, 2010 and again as of December 31, 2011, AeroGrow and Main Power entered into an agreement to amend various obligations owed by AeroGrow to Main Power, restructured the amortization schedule for the Main Power Note and ultimately extended the final maturity to December 15, 2015. In addition, Main Power agreed to waive any existing defaults under the Revised Main Power Note. The agreed revisions to the amortization

schedule provided for monthly interest payments through the final maturity and principal payments totaling \$159,000 during Fiscal 2013, \$555,000 during the fiscal year ending March 31, 2014, \$725,000 during the fiscal year ending March 31, 2015, and \$665,000 during the period April 2015 through December 2015. On April 23, 2013, we repaid the Main Power Promissory Note in full including the principal balance and all accrued interest, for \$950,000, resulting in a net gain of \$489,000.

First Western Trust Term Loan

On May 21, 2010, the Company, First Western Trust Bank (“FWTB”) and Jack J. Walker, our Chairman, as guarantor, executed a business loan agreement and related promissory note (the “FWTB Term Loan”) for a four-year loan in an initial principal amount of \$1 million. The FWTB Term Loan was secured by a lien on our assets. The FWTB Term Loan bore interest at a fixed rate of 7.25% per annum. We made equal monthly payments of principal and interest on the FWTB Term Loan, which had a final maturity date of May 21, 2014. As of March 21, 2014, we repaid the FWTB Loan in full, including the principal balance and all accrued interest.

Table of Contents

Subordinated Secured Convertible Notes

Between May and September 2010, we completed a private offering of \$7.0 million in Subordinated Secured Convertible Notes (the “Subordinated Secured Convertible Notes”) and warrants to purchase 70,200 shares of our common stock (the “Warrants”). We used the proceeds from the private offering to invest in advertising and marketing programs to support our direct-to-consumer business, provide general working capital, pay commissions and expenses related to the private offering, and repay certain outstanding obligations.

On April 11, 2012, Subordinated Secured Convertible Notes totaling \$7.4 million, inclusive of accrued interest of \$648,000, were converted into 2,977,815 shares of our common stock, reflecting a conversion price of \$2.50 per share of common stock. The Subordinated Secured Convertible Notes holders agreed to convert the Subordinated Secured Convertible Notes into common stock in exchange for our agreement to reduce the conversion price from \$10.00 per share of common stock to \$2.50 per share of common stock. As a result of the conversion of the Subordinated Secured Convertible Notes into common equity, we recognized a total of \$6.6 million in non-cash expense comprising \$3.4 million of debt conversion costs on the exchange and \$3.2 million on the accelerated recognition of the debt discount and deferred debt issuance costs during Fiscal 2013.

As of March 31, 2013, there were no Subordinated Secured Convertible Notes or accrued interest outstanding.

Notes Payable – 2011 Credit Card Receipts-Backed Notes

During the three months ended December 31, 2011, we closed on the private sale of \$1.6 million in 17% secured promissory notes backed by a portion of our prospective credit card receipts, (the “2011 Credit Card Notes”) and a 1% share of our prospective monthly sales into the network marketing channel for a period of three years following our first sale into the network marketing channel (the “MLM Revenue Share”) (collectively, the “2011 Credit Card Offering”). Consideration for the 2011 Credit Card Offering consisted of \$1.5 million in cash and the conversion of \$156,000 in other obligations of the Company, including \$61,000 of deferred compensation owed to executive officers of AeroGrow. After deducting \$47,000 of placement agent sales commissions and expenses, net cash proceeds to AeroGrow totaled \$1.4 million. In addition, we paid a deferred sales commission to the placement agent equal to 10% of the MLM Revenue Share paid to investors in the 2011 Credit Card Offering (with the deferred sales commission reduced to 6% for payments to company-referred investors and 0% on payments to officers and directors), concurrently with the payment of the MLM Revenue Share. We used the proceeds from the 2011 Credit Card Offering to invest in advertising and marketing programs to support our direct-to-consumer business, purchase inventory, provide other general working capital, and pay commissions and expenses related to the private offering.

As of September 13, 2012, we repaid the remaining principal balance and accrued interest on the 2011 Credit Card Notes in full.

Notes Payable – 2012 Credit Card Receipts-Backed Notes

On September 14, 2012, we closed on the private sale of \$1.3 million in Series 2012CC 15% secured promissory notes backed by a portion of our prospective credit card receipts, (the “2012 Credit Card Notes”) and 128,573 shares of common stock (collectively, the “2012 Credit Card Offering”). Consideration for the 2012 Credit Card Offering comprised \$1.3 million in cash. After deducting \$47,000 of placement agent sales commissions (5% on third-party investors, 3% on company-referred investors and 0% on investments by our officers and directors) and expenses, net cash proceeds to AeroGrow totaled \$1.2 million. In addition, we issued 12,858 shares of common stock to the placement agent as additional sales compensation, representing one share of common stock for every 10 shares issued to investors in the 2012 Credit Card Offering.

We used the proceeds from the 2012 Credit Card Offering to invest in advertising and marketing programs to support its direct-to-consumer business, purchase inventory, provide other general working capital, repay \$198,000 of the 2011 Credit Card Notes (including accrued interest) and pay commissions and expenses related to the private offering. Our directors and officers invested \$245,000 in the 2012 Credit Card Offering and were issued 2012 Credit Card Notes with a face amount of \$245,000 and 24,500 shares of common stock. Investors having a beneficial ownership in AeroGrow of more than 5% who are not also directors or officers invested \$350,000 in the 2012 Credit Card Offering and were issued 2012 Credit Card Notes with a face amount of \$350,000 and 35,000 shares of common stock. The investments by the directors, officers, and investors having a beneficial ownership in AeroGrow of more than 5% were on the same terms and conditions as all other investors in the 2012 Credit Card Offering.

The 2012 Credit Card Notes bore interest at 15% per annum and had a final maturity of November 1, 2013. As of October 30, 2013, the 2012 Credit Card Notes final maturity was extended to January 31, 2014, by all the investors.

However, on December 17, 2013 we repaid the 2012 Credit Card Notes in full, including the principal balance and accrued interest.

Table of Contents

Pawnee Lease Promissory Note

On November 30, 2011, we executed a promissory note (the “Lease Promissory Note”) in the principal amount of \$116,000 in favor of Pawnee Properties, LLC (“Pawnee”). The Lease Promissory Note details the terms and conditions pursuant to which we will pay to Pawnee past due rent and building operating expenses related to our headquarters lease. The Lease Promissory Note carries an interest rate of 6% per annum for the first twelve months, and 8% per annum thereafter. As of February 24, 2014, the outstanding balance of the Lease Promissory Note, including accrued interest, was repaid in full.

Series B Convertible Preferred Stock

On April 22, 2013, the Company entered into a Securities Purchase Agreement with SMG Growing Media, Inc. (the “Investor”), a wholly owned subsidiary of Scotts Miracle-Gro (NYSE: “SMG”), a worldwide marketer of branded consumer lawn and garden products. Pursuant to the Securities Purchase Agreement, Scotts Miracle-Gro acquired 2,649,007 shares of the Company’s Series B Convertible Preferred Stock, par value \$0.001 per share (the “Series B Preferred Stock”), and (ii) a warrant to purchase shares of the Company’s common stock (the “Warrant,” as described in greater detail below) for an aggregate purchase price of \$4.0 million. The Securities Purchase Agreement, Certificates of Designations for the Series B Preferred Stock, Form of Warrant, Indemnification Agreement, Investor’s Rights Agreement and Voting Agreement have been filed as exhibits to a Current Report on Form 8-K that was filed with the SEC on April 23, 2013. After deducting offering expenses, including commissions and expenses paid to the Company’s advisor, net cash proceeds to the Company totaled to \$3.8 million. The Company used \$950,000 of the net proceeds to repay “in full” (with concessions) the Promissory Note due to Main Power Electrical Factory, Ltd. The Company plans to use the remaining net proceeds for working capital and general corporate purposes.

The Company also issued a warrant to purchase 125,000 shares of the Company’s common stock to the placement agent. This warrant has an exercise price of \$1.54 per share (125% of the average closing price of the Company’s common stock during the five-day period prior to the April 22, 2013 closing date). The value of this warrant was estimated at \$108,000, based on the Black-Scholes model with a stock price of \$1.30, calculated exercise price of \$1.54, expected life of three years, annualized volatility of 117.2% and a discount rate of 0.39%. The value of the warrant was recorded as stock issuance costs.

The Series B Preferred Stock is convertible into 2,649,007 shares of common stock (\$4.0 million divided by a conversion price of \$1.51 per share). The Series B Preferred Stock bears a cumulative annual dividend of 8.0%, payable in shares of the Company’s common stock at a conversion price of \$1.51 per share (subject to customary anti-dilution rights, as described in the Series B Preferred Stock Certificates of Designations). The Series B Preferred Stock does not have a liquidation preference and is entitled to vote on an “as-converted” basis with the common stock. The Series B Preferred Stock automatically converts into the Company’s common stock: (i) upon the affirmative election of the holders of at least a majority of the then outstanding shares of the Series B Preferred Stock voting together as a single class on an as-if-converted to common stock basis; or (ii) if, at the date of exercise in whole or in part of the Warrant, the holder (or holders) of the Series B Preferred Stock own 50.1% of the issued and then-outstanding common stock of the Company, giving effect to the issuance of shares of common stock in connection with the conversion of the Series B Preferred Stock and such exercise of the Warrant.

The Warrant entitles, but does not obligate, Scotts Miracle-Gro to purchase a number of shares of common stock that, on a “fully diluted basis” (as defined in the Securities Purchase Agreement), constitute 80% of the Company’s outstanding capital stock (when added to all other shares owned by Scotts Miracle-Gro), as calculated as of the date or dates of exercise. The Warrant can be exercised at any time and from time to time for a period of five years between April 22, 2016 and April 22, 2021 (the third and eighth anniversary of the closing date). In addition, the Warrant can be exercised in any increment; there is no obligation to exercise the entire Warrant at one time. The exercise price of

the Warrant shall be equal to the quotient obtained by dividing:

(a) an amount equal to (i) 1.34 times the trailing twelve months “Net Sales” (which includes sales of the Company’s products by Scotts Miracle-Gro and its affiliates) minus (ii) “Debt Outstanding” net of cash (as such terms are defined in the Warrant,

by

(b) the total shares of capital stock outstanding, including outstanding in-the-money options and warrants, but not the Warrant contemplated in this Private Offering.

The Warrant expires on April 22, 2021, the eighth anniversary of the closing date. The Warrant contains customary anti-dilution rights (for stock splits, stock dividends and sales of substantially all the Company’s assets). Scotts Miracle-Gro also has the right to participate pro rata, based on Scotts Miracle-Gro’s percentage equity ownership in the Company (assuming the exercise of Scotts Miracle-Gro’s Warrant, but not the exercise of any options outstanding under the Company’s equity compensation plans) in future issuance of equity securities by the Company. Upon exercise of the Warrants and demand by Scotts Miracle-Gro, the Company must use its best efforts to file a Registration Statement on Form S-3, or, if the Company is not eligible for Form S-3, on Form S-1 (collectively, the “Registration Statement”), covering the shares of the Company’s common stock covered by the Preferred Stock and the Warrant, within 120 calendar days after receipt of Scotts Miracle-Gro’s demand for registration and shall use its best efforts to cause the Registration Statement to become effective as soon as possible thereafter.

Table of Contents

The Private Offering and sale of the Series B Preferred Stock and Warrant was conducted in reliance upon exemptions from registration requirements under the Securities Act, including, without limitation, those under Regulation D promulgated under the Securities Act. Scotts Miracle-Gro is an “accredited investor,” as defined in Rule 501 of Regulation D under the Securities Act. Because the Series B Preferred Stock and the Warrant have not been registered under the Securities Act, they may not be reoffered or resold in the United States absent registration or an applicable exemption from registration.

Cash Requirements

We generally require cash to:

- fund our operations and working capital requirements,
- develop and execute our product development and market introduction plans,
 - execute our sales and marketing plans,
 - fund research and development efforts, and
 - pay debt obligations as they come due.

At this time, we do not expect to enter into additional capital leases to finance major purchases. In addition, we do not currently have any binding commitments with third parties to obtain any material amount of equity or debt financing other than the financing arrangements described in this report.

Assessment of Future Liquidity and Results of Operations

Liquidity

To assess our ability to fund ongoing operating requirements, we developed assumptions regarding operating cash flow. Critical sources of funding, and key assumptions and areas of uncertainty include:

- our cash of \$1.7 million (\$15,000 of which is restricted as collateral for our various corporate obligations) as of March 31, 2014;
- our cash of \$1.3 million, (\$15,000 of which is restricted as collateral for our various corporate obligations) as of June 19, 2014;
 - continued support of, and extensions of credit by, our suppliers and previous lenders;
- our historical pattern of increased sales between September and March, and lower sales volume from April through August;
 - the level of spending necessary to support our planned initiatives; and
- our sales to consumers, retailers, and international distributors, and the resulting cash flow from operations, which will depend in great measure on acceptance of our products by retail distribution customers and the success of planned direct-to-consumer sales initiatives.

During Fiscal 2013 and Fiscal 2014 we took a number of actions to address our liquidity issues. Specifically, we re-focused our efforts on building our direct-to-consumer business, which we believe carries higher margin opportunities than our retailer business and expansion of our retail business through our strategic alliance with Scotts Miracle-Gro. We have strategically limited the number of retailers that carry our products in order to focus on those retailers that have proven to be the best and most profitable business partners.

In Fiscal 2013, we offered our warrant holders the opportunity to exercise their warrants at a reduced price, and raised \$1.59 million in common equity capital.

In the first quarter of Fiscal 2014, we entered into a Securities Purchase Agreement with a wholly owned subsidiary of Scotts Miracle-Gro. Pursuant to the Securities Purchase Agreement, Scotts Miracle-Gro acquired the following securities for an aggregate purchase price of \$4.0 million; (i) 2.6 million shares of our Series B Convertible Preferred Stock, par value \$0.001 per share, and (ii) a warrant to purchase shares of our common stock. After deducting offering expenses, including commissions and expenses paid to the Company's advisor, net cash proceeds to the Company totaled to \$3.8 million. In addition, we also agreed to sell all intellectual property associated with our Hydroponic IP, other than the AeroGrow and AeroGarden trademarks, to Scotts Miracle-Gro for \$500,000. Finally, we repaid the \$1.7 million outstanding balance on the MainPower Promissory Note, in full for \$950,000, combined with the inventory reserve of \$237,000 resulting in a gain of approximately \$489,000.

Based on these facts and assumptions, we believe our existing cash and cash equivalents, along with the cash generated by our anticipated results from operations, will be sufficient to meet our needs for the next twelve months. However, we may need to seek additional debt or equity capital to provide a cash reserve against contingencies, address the seasonal nature of our working capital needs, and to purchase inventory and incur other expenses in an attempt to increase the scale of our business. There can be no assurance we will be able to raise this additional capital.

Table of Contents

Results of Operations

There are several factors that could affect our future results of operations. These factors include, but are not limited to, the following:

- the effectiveness of our consumer marketing efforts in generating both direct-to-consumer sales, and sales to consumers by our retailer customers,
 - uncertainty regarding the impact of macroeconomic conditions on consumer spending,
- uncertainty regarding the capital markets and our access to sufficient capital to support our current and projected scale of operations,
- the seasonality of our business, in which we have historically experienced higher sales volume during the fall and winter months (September through March),
 - a continued, uninterrupted supply of product from our third-party manufacturing suppliers in China, and
 - the success of the Scotts Miracle-Gro relationship.

Off-Balance Sheet Arrangements

We do not have current commitments under capital leases and have not entered into any contracts for financial derivative such as futures, swaps, and options other than those disclosed in this Annual Report.

Obligations and Commitments

As part of our ongoing operations, we enter into arrangements that obligate us to make future payments under contracts, such as leases and the timing and effect that such commitments are expected to have on our liquidity and cash flow in future periods. The following is a summary of these obligations as of March 31, 2014.

(in thousands)	Less than 1 year	1 -3 years	More than 3 years	Total
Operating leases	\$ 236	\$ 299	\$ -	\$ 535
Notes payable and long-term debt	-	-	-	-
Totals:	\$ 236	\$ 299	\$ -	\$ 535

See Note 2, Note 3 and Note 7 to our financial statements for additional information related to our notes payable and long term debt and operating leases, respectively.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

Our interest income is most sensitive to fluctuations in the general level of U.S. interest rates. As such, changes in U.S. interest rates affect the interest earned on our cash, cash equivalents, and the value of those. Due to the short-term nature of our cash equivalents, we have concluded that a change in interest rates does not pose a material market risk to us with respect to our interest income. As discussed above, if we acquire additional debt changes in the general level of market interest rates could impact our interest expense during the terms of future debt arrangements.

Foreign Currency Exchange Risk

We transact business in primarily in U.S. currency. Although we purchase our products in U.S. dollars, the prices charged by our suppliers in Asia are predicated upon their cost for components, labor and overhead. Therefore, changes in the valuation of the U.S. dollar in relation to the Asian currencies may cause our manufacturers to raise prices of our products which could reduce our profit margins.

In future periods, it is possible that we could be exposed to fluctuations in foreign currency exchange rates on accounts receivable from sales and net monetary assets denominated in foreign currencies and liabilities. To date, however, virtually all of our transactions have been denominated in U.S. dollars.

Table of Contents

ITEM 8. FINANCIAL STATEMENTS

Our financial statements appear in a separate section at the end of this Annual Report. Such information is incorporated herein by reference.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

We conducted an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and Vice President, Accounting, of the effectiveness of the design and operation of our disclosure controls and procedures. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by the company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission’s rules and forms. Disclosure controls and procedures also include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based on our assessment, management has concluded that, as of March 31, 2014, our disclosure controls and procedures were effective.

Management’s Report on Internal Control Over Financial Reporting

Management assessed the effectiveness of our internal control over financial reporting as of March 31, 2014. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations (“COSO”) of the Treadway Commission’s Internal Control-Integrated Framework (1992).

Based on our assessment, management has concluded that, as of March 31, 2014, our internal control over financial reporting was effective based on those criteria.

Management is responsible for establishing and maintaining adequate internal controls over financial reporting. Internal control over financial reporting is defined in Rule 13a-15(f) and 15d-15(f), promulgated under the Securities Exchange Act of 1934, as a process designed by, or under the supervision of, our principal executive and principal financial officers and effected by our board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- o Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect transactions and dispositions of the assets;
- o Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures are being made only in accordance with authorizations of our management and directors; and

- o Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Table of Contents

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failure. Internal control over financial reporting can also be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

Attestation Report of the Independent Registered Public Accounting Firm

This Annual Report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our independent registered public accounting firm pursuant to rules of the SEC that permit us to provide only management's report in this Annual Report.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during the fourth quarter of fiscal year ended March 31, 2014 that have or are reasonably likely to materially affect our internal control over financial reporting identified in connection with the previously mentioned evaluation.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Executive Officers

The following sets forth certain information with respect to our executive officers and significant employees, as of the filing date of this report. The executive officers have employment contracts with the Company as discussed in Item 11 below. All other employees are considered at-will.

Name	Age	Position with AeroGrow
J. Michael Wolfe	55	President, Chief Executive Officer and Director
Grey H. Gibbs	47	Vice President - Accounting SVP, Sales & Marketing and Secretary
John K. Thompson	53	Secretary

J. Michael Wolfe, age 55, has been a director since February 2011. Mr. Wolfe became our Chief Operating Officer in January 2010, our President on February 9, 2011, and our Chief Executive Officer on March 31, 2011. He previously served as Vice President of Operations since April 2006. Prior to joining AeroGrow, Mr. Wolfe was an independent consultant. From 1992 to 2002, he was President and Chief Operating Officer of Concepts Direct and was its Chief Executive Officer from 2000 to 2001. At Concepts Direct, Mr. Wolfe oversaw the development, launch and operations of seven independent catalogs. From 1987 to 1992, Mr. Wolfe served as Vice President of Wiland Services, Inc, a database management company where he oversaw the redesign of the company's product line, its sales and investor relations. Mr. Wolfe's leadership experience, combined with his extensive direct-to-consumer marketing background, his executive experience at a variety of direct-to-consumer companies, and his knowledge of AeroGrow's history and business, led the Board to conclude that he should serve as a director.

Grey H. Gibbs, age 47, has been with AeroGrow since November of 2007. He was named Vice President – Accounting in February 2011. From 2006 to 2011, Mr. Gibbs was Director of Sarbanes-Oxley Compliance, and from 2004 to 2006, Assistant Corporate Controller, of Swift & Company, an animal protein processor. From 2003 to 2004, Mr. Gibbs was the Chief Financial Officer of JCIT International, an educational and consulting firm in lean manufacturing. From 1994 to 2002, Mr. Gibbs served in a range of strategic and financial roles for Agilent Technologies and Hewlett Packard, including New Product Introduction Program Manager, Outsourcing Program Manager, Site Finance Manager, Planning and Reporting Analyst and Senior Internal Auditor. Mr. Gibbs was also an Audit Supervising Senior for KPMG LLP from 1991 to 1994.

John K. Thompson, age 53, became Senior Vice President of Sales and Marketing on January 14, 2010. Mr. Thompson joined AeroGrow in 2002 and has served in a variety of senior management positions at AeroGrow, including his most recent position as Vice President of Marketing, which he assumed in October 2009. Mr. Thompson also served as the Company's International Division General Manager and Vice President of Investor Relations, and was instrumental in the research activities leading to the development and launch of the Company's AeroGarden product line. Prior to joining AeroGrow, Mr. Thompson was Director of Marketing for Productivity Point International, a direct marketing and direct sales company, and Sales and Marketing Manager for CareerTrack, a direct marketing company that sold personal and professional growth products to the consumer and commercial markets.

Table of Contents

Board of Directors

Our Board of Directors oversees the management of AeroGrow on your behalf. Among other things, the Board reviews our long-term strategic plans and exercises direct decision-making authority on key issues, including the appointment of our executive officers and setting the scope of their authority in managing AeroGrow's day-to-day operations. Our Board is currently comprised of Jack J. Walker (Chairman), Michael S. Barish, Wayne E. Harding III, Chris Hagedorn and J. Michael Wolfe. Biographical information about Messrs. Wolfe is contained above under the caption heading "Executive Officers." Biographical information for Messrs. Barish, Hagedorn, Harding and Walker is presented below.

Jack J. Walker, age 79, has been a director since February 2006, and became Chairman of the Board in July 2008. Mr. Walker served as President from January 2010 until February 9, 2011 and as our Chief Executive Officer from January 2010 until March 31, 2011. Mr. Walker has been the Managing Member of Walker Enterprises LLLP, and its predecessors, a real estate investment and development company, since 1980. During that time he has developed in excess of \$500 million of commercial real estate in California, Colorado, Arizona and Texas. He serves on the Board of Pathogen Systems, Inc. and is an advisor to several start-up companies. Mr. Walker is an English Solicitor and began his career in 1956 in London, England. In 1968, Mr. Walker founded English & Continental Property Company, and served as Joint Managing Director of this commercial property development company, which operated in Europe with over 200 staff, until its sale to the Post Office Pension Fund in 1973. From 1973, Mr. Walker controlled several English listed companies, including Charles Spreckly Industries, Town & Commercial Properties and Associated Development Holdings, with worldwide interests and over 3,500 employees. Mr. Walker served as a director of supermarket group Megafoods Stores, Inc. from 1987 to 1993, and was Chief Financial Officer for part of that time. Mr. Walker serves as a director of and advisor to various civic and charitable organizations. Mr. Walker's extensive executive leadership experience, combined with his international and entrepreneurial business background and broad range of knowledge of AeroGrow's history and business, among other factors, led the Board to conclude that he should serve as a Director and Chairman of the Board.

Michael S. Barish, age 74, has been a director since July 2009. Mr. Barish co-founded Lazarus Investment Partners LLLP, a private investment partnership focused on microcap stocks, in 2003, and served as the fund's Chief Investment Officer until his retirement in June 2009. In 1973, Mr. Barish founded Cambiar Investors and grew the firm's assets from less than \$1 million in 1973 to over \$2.3 billion upon his retirement in 2001. Mr. Barish's experience as a chief investment officer, particularly his specialized focus on microcap stocks, led the Board to conclude that he should serve as a director.

Chris J. Hagedorn, age 29, has been a director since April 2013. Mr. Hagedorn was appointed the Director of Indoor Gardening at Scotts Miracle-Gro in May of 2013. From 2011 to 2013, Mr. Hagedorn served as a Marketing Manager for the North Region at Scotts Miracle-Gro. Between 2007 and 2010, Mr. Hagedorn served as a Copywriter at ML Rogers Agency after graduation with a bachelor's degree from Bowdoin College. Mr. Hagedorn was appointed to the Board by Scotts Miracle-Gro pursuant to a condition to the Securities Purchase Agreement between AeroGrow and Scotts Miracle-Gro which allows Scotts Miracle-Gro, as holder of the Series B Preferred Convertible Stock, to appoint one member to the Board of Directors for so long as the Warrant remains outstanding. For more details regarding the Securities Purchase Agreement, the Series B Preferred Stock, the Warrant, and related agreements, refer to Note 3. "Scotts Miracle-Gro Transactions – Convertible Preferred Stock, Warrants and Other Transactions" to our financial statements. Mr. Hagedorn's business experience and ties to Scotts Miracle-Gro, particularly in light of AeroGrow's strategic alliance with Scotts Miracle-Gro, led the Board to conclude that he should serve as a director. Mr. Hagedorn is the son of James Hagedorn, the Chief Executive Officer and Chairman of the Board of The Scotts Miracle-Gro Company (NYSE: "SMG").

Wayne E. Harding III, age 59, has been the Chief Financial Officer of Two Rivers Water & Farming Company (“Two Rivers”), a publicly traded company (OTC QB: TURV) that acquires and develops high yield irrigated farmland and the associated water rights in the western United States, since September 2009, and previously served as the controller of Two Rivers, beginning in July 2008. Prior to joining Two Rivers, Mr. Harding served as vice president business development of Rivet Software since December 2004. Mr. Harding was the principal of Wayne Harding & Company P.C., a financial consulting organization, from August 2000 to December 2004 and also served from 2000 until August 2002 as the director-business development of CPA2Biz. Mr. Harding also served on the Board, and was chair of the Governance, Compensation and Nominating Committee and the Audit Committee, for AeroGrow from 2005 – 2007. Mr. Harding holds an active CPA license in Colorado and a CGMA (Charter Global Management Accountant) designation. He received his BS and MBA degrees from the University of Denver. He previously served on the American Institute of CPAs (AICPA) Council, is a past-President of the Colorado Society of CPAs, and was the recipient of the prestigious AICPA Special Recognition Award for his early involvement in developing the AICPA XBRL project. Mr. Harding also teaches accounting in the University of Denver MBA program. Mr. Harding’s experience as a Chief Financial Officer of a public company, as a CPA, and as a former Board member of AeroGrow led the Board to conclude that he should serve as a director.

Board Committees and Meetings

We have established two standing committees so that certain matters can be addressed in more depth than may be possible in a full Board meeting: an Audit Committee and a Governance, Compensation and Nominating Committee. The two committees each operate under a written charter.

Table of Contents

Audit Committee. The current members of our Audit Committee are Mr. Harding (chairman), Mr. Barish, Mr. Hagedorn and Mr. Walker. The members were elected to the committee, and the chairman was appointed by the Board. The Board has determined that Messrs. Harding and Barish are considered “audit committee financial experts,” as defined by Item 407(d)(5)(ii) of Regulation S-K, due to their extensive financial background and experience (as summarized in the biographical information for Messrs. Harding and Barish disclosed above). The Board has affirmatively determined that Mr. Harding is an independent director as defined by applicable securities law and NASDAQ corporate governance guidelines. Due to their positions as significant stockholders of AeroGrow, Mr. Walker and Mr. Barish are not independent directors. The Audit Committee’s charter provides that the committee shall:

- oversee the accounting and financial reporting processes and audits of the financial statements;
- assist the Board with oversight of the integrity of our financial statements, our compliance with legal and regulatory requirements, our independent auditors’ qualifications and independence, and the performance of the independent auditors; and
 - provide the Board with the results of its monitoring.

Governance, Compensation and Nominating Committee. The current members of the Governance, Compensation and Nominating Committee are Mr. Walker (chairman), Mr. Barish and Mr. Hagedorn. The members were elected to the committee, and the chairman was appointed, by the Board. The Governance, Compensation and Nominating Committee’s charter provides that the committee shall:

- recommend to the Board the corporate governance guidelines to be followed;
 - review and recommend the nomination of Board members;
- set the compensation for the chief executive officer and other officers; and
- administer the equity-based performance compensation plans of AeroGrow.

The Governance, Compensation and Nominating Committee does not have a formal policy concerning stockholder recommendations to the Board of Directors and we did not receive any recommendations from stockholders requesting that the Board consider a candidate for inclusion as a nominee. The Committee has determined that it is appropriate to not have such a policy given the infrequency of such recommendations. The absence of such a policy does not mean, however, that a recommendation would not have been considered had one been received. The Committee would consider any candidate proposed in good faith by a stockholder on the same basis as a candidate proposed directly by the Board. To do so, a stockholder should send the candidate’s name, credentials, contact information, and the candidate’s consent to be considered to the Governance, Compensation and Nominating Committee, c/o Corporate Secretary, AeroGrow International, Inc., 6075 Longbow Drive, Boulder, Colorado, 80301. The proposal should be received by the due date for a stockholder proposal, as set forth below under the caption heading “Submission of Stockholder Proposals,” in order to be considered timely for consideration by the Committee prior to the Annual Meeting of Stockholders or, in lieu of an annual meeting, for an action by written consent of the stockholders. The proposing stockholder should also include his or her contact information and a statement of his or her share ownership (how many shares owned and for how long).

In evaluating director nominees, the Governance, Compensation and Nominating Committee considers the appropriate skills and personal characteristics needed in light of the makeup of the current Board, including considerations of character, background, professional experience, education, skill, qualifications for committee membership,

independence, race, gender, national origin, differences in viewpoint, and other individual qualities and attributes. Other than the foregoing, there are no stated minimum criteria for director nominees, although the Committee may also consider such other factors as it may deem are in the best interests of the AeroGrow and its stockholders. The Committee does, however, believe it is appropriate for a member or members of AeroGrow's management to participate as members of the Committee.

The Governance, Compensation and Nominating Committee identify nominees by first evaluating the current members of the Board willing to continue in service. Current members of the Board with skills and experience that are relevant to our business and who are willing to continue in service are considered for re-nomination. If any member of the Board does not wish to continue in service or if the Board decides not to re-nominate a member for re-election, the Committee then identifies the desired skills and experience of a new nominee in light of the criteria above. Current members of the Board would be polled for suggestions as to individuals meeting the criteria described above. The Committee may also engage in research to identify qualified individuals. To date, we have not engaged third parties to identify or evaluate or assist in identifying potential nominees, although we reserve the right in the future to retain a third-party search firm, if appropriate.

Table of Contents

Meetings. During the fiscal year ended March 31, 2014 the Board held five meetings. Each director attended all of the meetings held by the Board during the period that he served as a director of AeroGrow. Also during the fiscal year ended March 31, 2014, the Audit Committee held four meetings and the Governance, Compensation and Nominating Committee held two meetings. Each committee member attended all of the committee meetings held during the period that he served as a committee member.

The Company encourages all incumbent directors, as well as all nominees for election as director, to attend the annual stockholder meetings, but they are not required to do so. We did not hold an annual meeting last year.

Code of Ethics

The Board of Directors has adopted a Code of Ethics to provide guidance to all of our directors, officers and employees, including our principal executive officer, principal financial and accounting officers, and persons performing similar functions. The Code of Ethics is posted on our website at www.aerogrow.com, and may be found by linking to “Investors” and then “Code of Ethics.” We intend to satisfy the disclosure requirement under Item 5.05 of Form 8-K regarding an amendment to, or waiver from, a provision of this code of ethics by posting such information on our Website.

Board Structure and Risk Oversight

Jack J. Walker serves as the Chairman of the Board and J. Michael Wolfe serves as President, Chief Executive Officer and a director. Mr. Walker is one of the largest investors in AeroGrow and his financial support has been instrumental in allowing AeroGrow to persevere through a very difficult economic period. He is involved in setting the strategic direction for the Company. Mr. Wolfe has responsibility for our day-to-day operations, as well as for helping set our strategic directions.

Our Board has overall responsibility for risk oversight. Throughout the year, the Board dedicates a portion of their meetings to review and discuss specific risk topics in greater detail. Strategic and operational risks are presented and discussed in the context of the President’s report on operations to the Board at regularly scheduled board meetings and at presentations to the Board by our other employees and consultants. The Boards’ risk oversight process builds upon management’s risk assessment and mitigation processes. The small size of AeroGrow allows our Board to develop in-depth knowledge of different facets of the business. This in-depth knowledge, coupled with exposure to and frequent communication with our management, assists the Board in performing its oversight responsibilities, including risk management, in an effective manner.

Communications with the Board of Directors

Stockholders and other interested parties may communicate with the Board or any individual director, by writing to:

AeroGrow International, Inc.
Attention: Board of Directors
c/o Corporate Secretary
6075 Longbow Drive, Suite 200
Boulder, Colorado 80301

If the letter is from a stockholder, the letter should state that the sender is a stockholder. Under a process approved by the Board, depending on the subject matter, management will:

- forward the letter to the director or directors to whom it is addressed; or

- attempt to handle the matter directly (as where information about our business or our stock is requested); or
- not forward the letter if it is primarily commercial in nature or relates to an improper or irrelevant topic.

A summary of all relevant communications that are received after the last meeting of the full Board and which are not forwarded will be presented at each Board meeting along with any specific communication requested by a director.

All communications will be handled in a confidential manner, to the degree the law allows. Communications may be made on an anonymous basis; however, in these cases the reporting individual must provide sufficient details for the matter to be reviewed and resolved. The Company will not tolerate any retaliation against an employee who makes a good faith report.

Table of Contents

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 (the “Exchange Act”) requires our executive officers and directors, and persons who own more than 10% of our common stock (herein collectively, our “Section 16 insiders”) to file with the SEC certain forms reporting their ownership and changes in beneficial ownership of our common stock and other equity with the SEC, and to furnish us with copies of these filings.

To our knowledge, based solely upon a review of the copies of such forms furnished to us and written representations that no other reports were required, we believe that, during the fiscal year ended March 31, 2014, all such filings required to be made by our Section 16 insiders were timely filed in accordance with the requirements of the Exchange Act except for the following: (i) reports filed on behalf of Messrs. Harding, Walker, Barish, Thompson, and Wolfe, each relating to a stock option grant on Wednesday, October 9, 2013, were filed late on Friday, May 16, 2014 and (ii) one report filed by Lazarus Investment Partners LLLP relating to purchases of our common stock on October 21 and October 23 was filed late on Tuesday, March 4, 2014

ITEM 11. EXECUTIVE COMPENSATION

Compensation Philosophy

The Governance, Compensation and Nominating Committee of our Board is responsible for guiding and overseeing the formulation and application of the compensation and benefit programs for our executive officers and our directors. A description of compensation for our non-employee directors is included below under the caption “Director Compensation.” The Committee acts pursuant to a charter that has been approved by our Board.

The Governance, Compensation and Nominating Committee believes that the most effective compensation program is one that is designed to reward the achievement of specific annual, long-term, and strategic goals by AeroGrow, and which aligns executives’ interests with those of the stockholders by rewarding performance above established goals, with the ultimate objective of increasing stockholder value. The Governance, Compensation and Nominating Committee evaluates both performance and compensation to ensure that AeroGrow maintains its ability to attract and retain superior employees in key positions and that compensation provided to key employees remains competitive relative to the compensation paid to similarly situated executives of our peer companies. Accordingly, the Governance, Compensation and Nominating Committee believes executive compensation packages provided by AeroGrow to its executives, including the executive officers, should include salary compensation, annual cash incentives based on fundamental measures of financial performance, and longer-term stock-based compensation.

We compensate our executives through a mix of base salary, bonus, and equity compensation designed to be competitive with comparable employers and to align management’s incentives with the long-term interests of our stockholders. In making compensation decisions, the Governance, Compensation and Nominating Committee, may compare certain elements of total compensation against other comparable publicly traded and privately held companies that compete in our markets. However, the Committee did not use any peer group or benchmarking data in determining executive compensation during Fiscal 2014. Rather, the Committee’s primary focus was on our liquidity issues and the compensation amounts that we could reasonably afford to pay. A significant percentage of total compensation is allocated to incentive compensation as a result of the philosophy mentioned above. There is no pre-established policy or target for the allocation between either cash and non-cash or short-term and long-term incentive compensation. Rather, the Governance, Compensation and Nominating Committee reviews information such as that referenced above with respect to the Compensation Peers to determine the appropriate level and mix of incentive compensation. Income from such incentive compensation is realized as a result of the performance of AeroGrow or the individual, depending on the type of award.

Compensation Process

Generally, base salaries and annual incentive awards will be reviewed at the end of each fiscal year with changes made to the base salaries effective April 1 of the following fiscal year. Whether an individual's salary and incentive awards are increased or decreased depends on the individual's performance as well as the overall performance of AeroGrow.

Stock options and other stock grants are reviewed and approved at meetings of the Governance, Compensation and Nominating Committee and the full Board. By establishing the meeting schedule and agenda for these grants in advance, AeroGrow diminishes any opportunity for manipulation of exercise prices on option grants to the extent any recipients are in possession of non-public information at the time of the meetings. Approval of grants for any newly hired or promoted executives during the course of the year generally occurs at the Governance, Compensation and Nominating Committee's meeting immediately following the hiring or promotion.

Table of Contents

Role of Executive Officers in Compensation Decisions

The Governance, Compensation and Nominating Committee make all compensation decisions for the executive officers and approve recommendations regarding equity awards to all elected officers. The Chief Executive Officer annually reviews the performance of each Named Executive Officer (other than the Chief Executive Officer, whose performance is reviewed by disinterested members of the Governance, Compensation and Nominating Committee). “Named Executive Officers” include our (i) Chief Executive Officer; (ii) Chief Financial Officer; and (iii) other two most highly compensated executive officers based on SEC regulations. Compensation ranges for our Named Executive Officers are based on the individual’s experience and prior performance, as well as AeroGrow’s operating performance. The conclusions reached and recommendations based on these reviews, including with respect to salary adjustments and annual award amounts, are presented to the Governance, Compensation and Nominating Committee. The Governance, Compensation and Nominating Committee can exercise its discretion in modifying any recommended adjustments or awards to executives.

Components of Total Compensation

In Fiscal 2014, the principal components of compensation for executive officers were:

- base salary;
- stock options; and
- benefits and other perquisites.

Each component is designed to achieve a specific purpose and to contribute to a total package that is competitive, appropriately performance-based, and valued by AeroGrow’s executives.

Base Salaries

We provide executive officers and other employees with base salary to compensate them for services rendered during the fiscal year. Base salary ranges for executive officers are determined for each executive based on his or her position and responsibility. During its review of base salaries for executives, the Governance, Compensation and Nominating Committee primarily considers:

- individual scope of responsibility;
- years of experience;
- market data, such as that obtained from a review of other similarly situated companies;
- internal review of the executive’s compensation, both individually and relative to other officers; and
- individual performance of the executive.

Salary levels are typically considered annually as part of our performance review process as well as upon a promotion or other change in job responsibility.

Performance-Based Annual Incentive Compensation

Though markets dictate that base salaries must be competitive, we are moving toward basing a greater proportion of our executive compensation on the achievement of measurable individual and company results through the award of annual incentive bonuses. These bonuses are often tied to performance against AeroGrow's EBITDA objectives. By increasing variable pay as a percentage of total compensation, the Governance, Compensation and Nominating Committee believes that executive compensation will be more aligned with value delivered to our stockholders. This limits fixed costs and also results in higher pay occurring only in years when merited by high performance. Due to cash constraints, we paid an aggregate of less than \$1,000 in discretionary cash bonuses to our Named Executive Officers in Fiscal 2014. We accrued \$0 in performance-based bonuses during Fiscal 2014 for payments that are to be paid to our Named Executive Officers during Fiscal 2015.

Table of Contents

Long Term Stock-Based Compensation

This category of awards covers options granted to executives out of our 2005 Equity Compensation Plan (the “2005 Plan”), and that vest over time, at different rates for different executives. Because these awards vest over time and become more valuable to the recipient only as our stock price increases, the Governance, Compensation and Nominating Committee believes these are a useful form of long-term incentive compensation, with the potential to directly align the interests of shareholders and management. During Fiscal 2014, we granted options to purchase 330,608 shares of common stock under the 2005 Plan. For more details about outstanding stock options held by our Named Executive Officers, please refer to the table below entitled “Outstanding Equity Awards at Fiscal Year End.”

At March 31, 2014, options to purchase 191,000 shares of our common stock were unvested. These options will result in up to \$235,000 of compensation expense as they vest over the next 18 months.

Executives and Employment Arrangements

The following discussion and table relate to compensation arrangements on behalf of, and compensation paid by us during Fiscal 2014, to our Named Executive Officers who were employed by AeroGrow as of March 31, 2014.

Employment Contracts

We have employment agreements with J. Michael Wolfe and John K. Thompson.

J. Michael Wolfe

Effective as of March 4, 2012, AeroGrow and J. Michael Wolfe entered into an employment agreement (the “Wolfe Agreement”) that provides that he will be employed as the Chief Executive Officer and must devote substantially all of his working time and efforts to our business. The Wolfe Agreement superseded and replaced a previous agreement between the parties dated as of February 9, 2009. The Wolfe Agreement has an initial one year term, with automatic one year renewals unless advance notice is given by either party. Pursuant to the Wolfe Agreement, Mr. Wolfe’s annual base salary was set at \$200,000 until September 2, 2012, at which time his annual base salary increased to \$226,923. Beginning on April 1, 2013, and each April 1 thereafter, Mr. Wolfe’s annual base salary will be increased by 3%, or such higher percentage as may be determined by our Board of Directors. In addition, Mr. Wolfe will receive an automobile allowance of \$750 per month during the term of the Wolfe Agreement. Mr. Wolfe is eligible to participate in our annual cash incentive compensation plan for senior managers, and in our 2005 Equity Compensation Plan, each as determined by the Board of Directors from time to time. The Wolfe Agreement also provides for medical, vacation, and other benefits commensurate with the policies and programs adopted by the Board of Directors for our senior executives. In the event that we terminate the employment of Mr. Wolfe without cause (as determined under the Wolfe Agreement), Mr. Wolfe will be entitled to receive his base salary for 12 months following the date of termination, plus a prorated portion of his annual cash bonus. In the event that we breach any term of the Wolfe Agreement and such breach is not cured within thirty days of notice being given, then Mr. Wolfe can terminate his employment and be entitled to receive his base salary for 12 months following the date of termination, plus a prorated portion of his annual cash bonus. The Wolfe Agreement also requires Mr. Wolfe to comply with certain restrictive covenants including but not limited to a covenant not to compete during the term of the Wolfe Agreement and for a period of twelve months following the termination of the Wolfe Agreement.

John K. Thompson

Effective as of March 4, 2012, AeroGrow and John K. Thompson entered into an employment agreement (the “Thompson Agreement”) that provides that he will be employed as the Senior Vice President, Sales and Marketing and

must devote substantially all of his working time and efforts to our business. The Thompson Agreement superseded and replaced a previous agreement between the parties dated as of January 26, 2009. The Thompson Agreement has an initial one year term, with automatic one year renewals unless advance notice is given by either party. Pursuant to the Thompson Agreement, Mr. Thompson's annual base salary was set at \$150,000 until September 2, 2012, at which time his annual base salary increased to \$167,307. Beginning on April 1, 2013, and each April 1 thereafter, Mr. Thompson's annual base salary will be increased by 3%, or such higher percentage as may be determined by our Board of Directors. Mr. Thompson is eligible to participate in our annual cash incentive compensation plan for senior managers, and in our 2005 Equity Compensation Plan, each as determined by the Board of Directors from time to time. The Thompson Agreement also provides for medical, vacation, and other benefits commensurate with the policies and programs adopted by the Board of Directors for our senior executives. In the event that we terminate the employment of Mr. Thompson without cause (as determined under the Thompson Agreement), then Mr. Thompson will be entitled to receive his base salary for 12 months following the date of termination, plus a prorated portion of his annual cash bonus. In the event that we breach any term of the Thompson Agreement and such breach is not cured within thirty days of notice being given, then Mr. Thompson can terminate his employment and be entitled to receive his base salary for 12 months following the date of termination, plus a prorated portion of his annual cash bonus. The Thompson Agreement also requires Mr. Thompson to comply with certain restrictive covenants including but not limited to a covenant not to compete during the term of the Thompson Agreement and for a period of twelve months following the termination of the Thompson Agreement.

Table of Contents

Other Company officers who do not qualify as Named Executive Officers are employed on an “at will” basis, subject to varying lengths of employment agreements and severance agreements.

Summary Compensation Table

The following table sets forth information regarding all forms of compensation received by the Named Executive Officers during Fiscal 2014 and Fiscal 2013:

Name and Principal Position	Fiscal Year	Salary Paid	Bonus	Stock Awards	Option Awards (1)	All Other Compensation	Total
J. Michael Wolfe, Director, President and CEO (2)	2014	\$ 233,469(3)	\$ 146	\$ -	101,222 (6)	\$ 9,000(4)	\$ 343,837
	2013	\$ 228,710(3)	\$ 4,795	\$ -	61,116 (5)	\$ 7,500(4)	\$ 302,121
H. MacGregor Clarke, former Director and former CFO (10)(2)	2014	\$ 2,618(3)	\$ -	\$ -	-	\$ -(4)	\$ 2,618
	2013	\$ 210,871(3)	\$ 4,795	\$ -	61,116 (7)	\$ 9,000(4)	\$ 285,782
John K. Thompson, SVP, Sales and Marketing	2014	\$ 172,133(3)	\$ 146	\$ -	76,500 (9)	\$ -	\$ 248,779
	2013	\$ 156,522(3)	\$ 3,596	\$ -	40,744 (8)	\$ -	\$ 200,862
Grey Gibbs, VP of Accounting (11)	2014	\$ 130,769(3)	\$ 146	\$ -	15,300(12)	\$ -	\$ 146,215

(1) Represents the aggregate grant date fair value of stock option awards, as computed in accordance with FASB ASC Topic 718.

(2) Mr. Wolfe and Mr. Clarke did not receive compensation for their service on the Board of Directors.

(3) Salaries are computed and disclosed on a cash basis. The executive officers did receive a pay increase in Fiscal 2014 as determined by their employment agreement.

(4) Beginning in March 2012, Mr. Wolfe was paid \$750 per month in accordance with his employment agreement. In accordance with Mr. Clarke’s employment agreement, he was paid \$750 per month (\$9,000 per year) for auto expenses.

(5) On February 8, 2013, Mr. Wolfe was granted options to purchase 88,574 shares of our common stock at an exercise price of \$1.01 per share. These options vest quarterly over a two year period and have a five-year term.

(6) On October 9, 2013, Mr. Wolfe was granted options to purchase 66,158 shares of our common stock at an exercise price of \$2.20 per share. These options vest quarterly over a two year period

and have a five-year term.

- (7) On February 8 2013, Mr. Clarke was granted options to purchase 88,574 shares of our common stock at an exercise price of \$1.01 per share. These options vest quarterly over a two year period and have a five-year term. Upon his resignation, all of these options were unvested and expired.
- (8) February 8, 2013, Mr. Thompson was granted options to purchase 59,049 shared of our common stock at an exercise price of \$1.01 per share, which vest quarterly over a two-year period and have a five-year term.
- (9) October 9, 2013, Mr. Thompson was granted options to purchase 50,000 shared of our common stock at an exercise price of \$2.20 per share, which vest quarterly over a two-year period and have a five-year term.
- (10) Mr. Clarke resigned effective April 5, 2013.
- (11) Mr. Gibbs is acting in the capacity of the principal financial officer for the Company after the resignation of Mr. Clarke.
- (12) On October 9, 2013, Mr. Gibbs was granted options to purchase 10,000 shares of our common stock at an exercise price of \$2.20 per share. These options vest quarterly over a two year period and have a five-year term.

Table of Contents

The following table provides information with respect to the Named Executive Officers concerning unexercised stock options held by them at March 31, 2014. During the year ended March 31, 2014, some options granted to the Named Executive Officers were exercised.

Outstanding Equity Awards at Fiscal Year End

Name	Number of Securities Underlying Unexercised Options (Exercisable)	Number of Securities Underlying Unexercised Options (Unexercisable)	Exercise Price per Share	Expiration Date
J. Michael Wolfe	175	-	\$ 2.20	31-Oct-2018
J. Michael Wolfe	50	-	\$ 2.20	31-Oct-2018
J. Michael Wolfe	100	-	\$ 2.20	31-Oct-2018
J. Michael Wolfe	2,500	-	\$ 2.20	31-Oct-2018

Director Compensation

The following table provides information on AeroGrow’s compensation practices during the fiscal year ended March 31, 2014 for non-employee directors:

Non-Employee Director Meeting Fee and Retainer Information

Annual retainer for all non-employee directors	\$ 5,000
Additional annual retainer for Board Chairman	\$ 5,000
Additional annual retainer for Audit Committee Chairman	\$ 5,000
	\$ 5,000

Additional annual retainer for Governance, Compensation, and Nominating Committee Chairman		
Stock options granted for annual service on the Board by non-employee directors (1)		180,000
Stock options granted for annual service on the Audit Committee (1)		-
Stock options granted for annual service on the Governance, Compensation, and Nominating Committee (1)		-
Additional stock options granted for annual service as Board Chairman (1)		-
Reimbursement for expenses attendant to Board membership		Yes
Payment for Board meetings attended in person	\$	1,000
Payment for Board meetings attended in person by the Board Chairman	\$	2,000

(1) The options vest pro-rata monthly (one-twelfth per month) on the last day of each month throughout the term of service. If a director is unable to finish his or her term of service by reason of death or disability, the director options vest immediately.

Table of Contents

Only Messrs. Barish, Harding, and Walker received non-employee director compensation during the fiscal year ended March 31, 2014. J. Michael Wolfe served as an employee during the fiscal year ended March 31, 2014 and therefore, was not eligible to receive cash and equity compensation as non-employee directors. Chris J. Hagedorn, a full-time employee of The Scotts Miracle-Gro Company, was appointed to the Board and to both committees of the Board in April 2013. Under the terms of the Scotts Miracle-Gro transaction, Mr. Hagedorn is not entitled to receive non-employee Board compensation. We maintain \$10 million of director and officer liability insurance and we have entered into indemnification agreements with each director.

Summary of Board and Committee Composition

Current Directors	Board	Audit	Governance, Compensation, and Nominating
Jack J. Walker, Chairman and Director	X	X	X
Michael S. Barish, Director	X	X	X
Chris J. Hagedorn (1)	X	X	X
Wayne E. Harding III, Director	X	X	
J. Michael Wolfe, Director	X		

(1) Chris J. Hagedorn was appointed to the Board and to both committees of the Board in April 2013.

Director Compensation Table during Fiscal 2014

The following table sets forth information regarding all forms of compensation received by members of our Board of Directors during Fiscal 2014:

Director	Director Fees Earned or Paid in Cash	Stock Awards	Option Awards (1)	Warrant Awards	All Other Compensation	Total
Jack J. Walker, Chairman	\$ 25,000	\$ -	\$ 53,300	\$ -	\$ -	\$ 78,300
Michael S. Barish, Director	\$ 10,000	\$ -	\$ 53,300	\$ -	\$ -	\$ 63,300
Wayne E. Harding, III, Director (2)	\$ 15,000	\$ -	\$ 53,300	\$ -	\$ -	\$ 68,300
J. Michael Wolfe, President, CEO and Director (3)	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
Chris J. Hagedorn (4)	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -

(1) Represents the aggregate grant date fair value of stock option awards, as computed in accordance with FASB ASC Topic 718.

(2) Wayne E. Harding, III was appointed to the Board of Directors and named the Audit Committee Chairman on December 9, 2011.

(3) As an employee of the Company, Messrs. Wolfe did not receive compensation for his service on the Board of Directors. Their compensation as officers of AeroGrow is included in the Executive Compensation Table.

(4) As an employee of The Scotts Miracle-Gro Company, Mr. Hagedorn did not receive compensation for his service on the Board of Directors.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Stock Ownership

The following table sets forth certain information as of June 13, 2014 regarding our common stock owned of record or known by the Company to be owned beneficially by: (i) each director, (ii) each executive officer named in the Summary Compensation Table (the "Named Executive Officers"), (iii) all those known by the Company to beneficially own more than 5% of the Company's common stock, and (iv) all directors and Named Executive Officers as a group.

Table of Contents

In general, a person is deemed to be a “beneficial owner” of a security under SEC Rule 13d-3 if that person has or shares the power to vote or direct the voting of such security, or the power to dispose or to direct the disposition of such security. A person is also deemed to be a beneficial owner of any securities of which the person has the right to acquire beneficial ownership within 60 days. To the best of our knowledge, subject to community and marital property laws, all persons named have sole voting and investment power with respect to such shares except as otherwise noted. For purposes of calculating percent of class ownership, the table below assumes a total of 6,130,026 shares of common stock outstanding. However, shares of our common stock subject to convertible preferred stock, warrants and stock options that are convertible or exercisable within 60 days of June 13, 2014 are deemed outstanding for purposes of computing the percentage ownership of the person holding such convertible preferred stock, warrants and stock options, but are not deemed outstanding for computing the percentage of any other person.

Name of Beneficial Owner	Number of Common Shares Beneficially Owned (1)	Number of Common Shares Acquirable Within 60 Days (2)	Percent Beneficial Ownership
5% Stockholders			
The Peierls Foundation, Inc. and Related Parties (3)	930,408	-	10.60 %
Jack J. Walker (4), (5)	816,840	1,667	13.32 %
Lazarus Investment Partners LLLP (6)	588,240	-	6.70 %
SMG Growing Media, Inc. (7)	-	2,649,007	30.17 %
Michael S. Barish (5), (8)	350,359	1,667	5.71 %

Directors

Jack J. Walker (4), (5)	816,840	1,667	13.32 %
Michael S. Barish (5), (8)	350,359	1,667	5.17 %
Chris J. Hagedorn (9)	-	-	*
Wayne E. Harding III (5)	2,650	1,667	*
J. Michael Wolfe (5) (7)	120,906	12,894	1.97 %

Named Executive Officers

J. Michael Wolfe (5) (10)	120,906	12,894	1.97%
H. MacGregor Clarke	6,002	-	*
John K. Thompson (5)	48,688	4,921	*

All AeroGrow Named Executive Officers and Directors as a Group (6 Persons)	1,345,445	26,982	21.85%
--	-----------	--------	--------

* Represents less than 1% of our outstanding common stock as of June 13, 2014.

- (1) Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission, which include holding voting and investment power with respect to the securities. Shares of common stock that are acquirable within 60 days, though conversion of preferred stock or exercise of options or warrants, are deemed outstanding for computing the

percentage of the total number of shares beneficially owned by the designated person, but are not deemed outstanding for computing the percentage for any other person. Beneficial ownership is based on holdings known to the Company and may not include all shares of common stock beneficially owned but held in street name or reflect recent sales or purchases of securities that have not been made known to the Company.

- (2) The number of shares acquirable within 60 days includes any shares issuable upon conversion of convertible preferred stock or upon exercise of options or warrants that are currently exercisable or exercisable within the next 60 days. This number is included in the number of shares beneficially owned.

Table of Contents

- (3) Beneficial ownership is based on holdings known to the Company and includes information provided in a Schedule 13G filed with the SEC on April 23, 2012 and Form 4s filed on March 11, 2014. The Peierls Foundation, Inc. and Related Parties address is c/o US Trust Company of N.Y. 114 W. 47th Street, New York, NY 10036. The beneficial ownership includes common stock and warrants held by Brian Eliot Peierls, E. Jeffrey Peierls, The Peierls By-Pass Trust, The Peierls Foundation, Inc., UD E.F. Peierls for B.E. Peierls, UD E.F. Peierls for E.J. Peierls, UD E.S. Peierls for E.F. Peierls Et al, UD Ethel F. Peierls Charitable Lead Trust, UD J.N. Peierls for B.E. Peierls, UD J.N. Peierls for E.J. Peierls, UW E.S. Peierls for BEP Art VI-Accum, UW E.S. Peierls for EJP Art VI-Accum, UW J.N. Peierls E.J. Peierls, UW J.N. Peierls for B.E. Peierls.
- (4) Mr. Walker’s beneficial ownership includes 88,890 shares of common stock and 39,501 warrants to purchase common stock that are held of record by M&J Walker Charitable Remainder Trust, of which Mr. Walker is a controlling person. In addition, Mr. Walker's beneficial ownership includes 70,031 shares of common stock held of record by his spouse.
- (5) The address of the beneficial owner is 6075 Longbow Dr., Suite 200, Boulder, CO 80301.
- (6) Beneficial ownership is based on holdings known to the Company and includes information provided in a Form 4 filed with the SEC on March 20, 2014. Lazarus Investment Partners LLLP’s address is 3200 Cherry Creek Drive South, #670 Denver, CO 80209-3267.
- (7) Beneficial ownership is based on holdings known to the Company and includes information provided in a Schedule 13D filed with the SEC on May 2, 2013. SMG Growing Media, Inc. is a wholly-owned subsidiary of The Scotts Miracle-Gro. The address of SMG Growing Media, Inc. and The Scotts Miracle-Gro is 14111 Scottslawn Road, Marysville, Ohio 43041. The shares beneficially owned by SMG Growing Media, Inc. include shares of common stock issuable upon conversion of Series B Convertible Preferred Stock issued on April 22, 2013. The ownership does not include the number of shares issuable upon exercise of the warrant as the number of shares are unknown. For further information refer to Note 3, “Scotts Miracle-Gro Transactions – Convertible Preferred Stock, Warrants and Other Transactions” to our financial statements.
- (8) Mr. Barish's beneficial ownership includes 4,334 common shares held by his wife Joyce F. Barish, and 2,501 shares held by Joyce F. Barish Irrevocable Children's trust, of which Mr. Barish is a controlling person.
- (9) Mr. Hagedorn was elected to the Board by representative of SMG Growing Media, Inc. Mr. Hagedorn does not hold voting or investment power over the shares owned by SMG Growing Media, Inc. and therefore disclaims beneficial ownership over such shares.
- (10) Mr. Wolfe's beneficial ownership includes 23,221 shares of common stock that are held jointly with his spouse.

Equity Compensation Plan Information

The following table summarizes information about our equity compensation plans as of March 31, 2014.

Plan category	Number of securities to be issued upon	Weighted average exercise price	Number of securities remaining
---------------	--	---------------------------------	--------------------------------

Edgar Filing: AeroGrow International, Inc. - Form 10-K

	exercise of outstanding options, warrants and rights	of outstanding options, warrants and rights	available for future issuance
Equity compensation plans	396,742	\$ 1.63	13,043,162
Equity compensation plans not approved by security holders	-	\$ -	-
Total	396,742	\$ 1.63	13,043,162

At March 31, 2014 the Company has granted options for 191,000 shares of the Company's common stock that are unvested that will result in \$235,000 of compensation expense if and when they vest over the next 18 months.

Table of Contents

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Certain Relationships and Related Transactions

Review, Approval or Ratification of Transactions with Related Parties

Since April 1, 2012, the beginning of Fiscal 2013, our Board of Directors reviewed and did not object to any of the related party transactions reported in this Annual Report on Form 10-K. Our Board recognizes that related party transactions present a heightened risk of conflicts of interest and/or improper valuation (or the perception thereof) and therefore follows the procedures as described below to address such risks.

Our Board of Directors is required to review all related party transactions. AeroGrow is prohibited from entering or continuing a material related party transaction that has not been reviewed and approved or ratified by the Board. Additionally, in transactions where an executive officer is considered to be a related party of any provider of our goods or services, the board of directors must approve the transaction. In reviewing a related party transaction, the board of directors considers all of the relevant factors surrounding the transaction including:

- whether there is a valid business reason for us to enter into the related party transaction consistent with the best interests of AeroGrow and its stockholders;
 - whether the transaction is negotiated on an arm's length basis on terms comparable to those provided to unrelated third parties or on terms comparable to those provided to employees generally;
- whether the board of directors determines that it has been duly apprised of all significant conflicts that may exist or may otherwise arise on account of the transaction, and it believes, nonetheless, that we are warranted in entering into the related party transaction and have developed an appropriate plan to manage the potential conflicts of interest;
- whether the rates or charges involved in the transaction are determined by competitive bids, or the transaction involves rates or charges fixed in conformity with law or governmental authority; and/or
- whether the interest of the related party or that of a member of the immediate family of the related party arises solely from the ownership of our class of equity securities and all holders of our equity securities received the same benefit on a pro-rata basis.

During the fiscal year ended March 31, 2014, subsequent to year end, and in prior years, we relied upon a variety of debt funding sources to meet our liquidity requirements, including transactions that: (i) involved members of our Board, management team and certain stockholders that beneficially own more than five percent of our outstanding voting securities and (ii) are required to be disclosed pursuant to Item 404 of Regulation S-K. In each case, these related parties received the same terms and conditions as other third-party investors. These transactions are disclosed above under the heading "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operation— Liquidity and Capital Resources" and in Note 2, "Notes Payable and Long Term Debt," Note 6 "Related Party Transactions, and " Note 8 "Stockholders' Equity," to our financial statements.

Board Independence

Our common stock trades on the OTCQB market tier and we are considered to be a "smaller reporting company" under applicable SEC rules. As such, we are not currently subject to corporate governance standards of other listed

companies, which require, among other things, that the majority of the board of directors be independent. Because we are not currently subject to corporate governance standards defining the independence of our directors, we have chosen to define an “independent” director in accordance with the NASDAQ Global Market’s requirements for independent directors. Under the NASDAQ definition, an independent director is a person who is not an executive officer or employee of the Company and who does not have a relationship with the Company that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. Our Board has determined that Mr. Harding is the only independent member of our Board of Directors during Fiscal 2014. Mr. Harding currently serves as the Chairman of the Audit Committee.

Chris J. Hagedorn was appointed to the Board by Scotts Miracle-Gro pursuant to a condition to the Securities Purchase Agreement between AeroGrow and Scotts Miracle-Gro which allows Scotts Miracle-Gro, as holder of the Series B Preferred Stock, to appoint one member to the Board of Directors for so long as the Warrant remains outstanding. For more details regarding the Securities Purchase Agreement, the Series B Preferred Stock, the Warrant, and related agreements, refer to Note 3, “Scotts Miracle-Gro Transactions – Convertible Preferred Stock, Warrants and Other Transactions” to our financial statements.

Table of Contents

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Fees of the Independent Registered Public Accountants

Aggregate fees billed by EKS&H LLLP for the fiscal years ended March 31, 2014 and 2013 are as follows:

(in thousands)	For the Fiscal Years Ended March	
	2014	2013
EKS&H		
Audit Fees	89	87
Audit Related Fees	21	2
Tax Fees	-	-
All Other Fees	-	-
Total EKS&H	110	89
Grand Total	\$ 110	\$ 90

Audit Fees: This category includes the audit of our annual financial statements included in our Annual Report on Form 10-K, review of quarterly financial statements included in our Quarterly Reports on Form 10-Q, and if and when required or requested, the audit of the effectiveness of our internal controls.

Audit-related fees: This category consists of assurance and related services provided by the independent registered public accounting firm that are reasonably related to the performance of the audit or review of our financial statements and are not reported above under "Audit Fees."

Tax fees: This category consists of professional services rendered primarily in connection with our tax planning and compliance activities, including the preparation of tax returns. Although we did incur \$9,000 and \$14,000 in tax fees during Fiscal 2014 and 2013, respectively, we did not engage EKS&H for any tax services.

All other fees: This category consists of fees for other corporate services, primarily the review of SEC reports other than annual and quarterly reports.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services

The primary purpose of the Audit Committee is to assist the Board in monitoring (i) the integrity of our financial statements and disclosures, including oversight of the accounting and financial reporting processes and the audits of our financial statements, (ii) compliance with our legal, ethical, and regulatory requirements, and (iii) the independence and performance of our independent registered public accounting firm.

The Audit Committee's policy is to pre-approve all audit and non-audit services, other than de minimis non-audit services, provided by the independent registered public accounting firm. In this regard, all fees incurred in Fiscal 2013 and Fiscal 2014, as disclosed above under the caption "Fees of the Independent Registered Public Accountants," were pre-approved by the Audit Committee. These services may include, among others, audit services, audit-related services, tax services, and other services. Pre-approval is generally provided for up to one year and any pre-approval is detailed as to particular services or categories of services and is generally subject to a specific budget. The independent registered public accounting firm and management are required to periodically report to the full Board regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval, and the fees for the services performed to date.

The Audit Committee considers the provision of non-audit services by our independent registered public accounting firm compatible with its independence. The Audit Committee will continue to approve all audit and permissible non-audit services provided by our independent registered public accounting firm.

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Audit Committee, Board of Directors and Stockholders
AeroGrow International, Inc.
Boulder, Colorado

We have audited the accompanying balance sheets of AeroGrow International, Inc. (the “Company”) as of March 31, 2014 and 2013, and the related statements of operations, changes in stockholders’ equity (deficit) and cash flows for the years then ended. These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of AeroGrow International, Inc. as of March 31, 2014 and 2013, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

AEROGROW INTERNATIONAL, INC.
NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of the Business and Summary of Significant Accounting Policies

Organization and Description of the Business

AeroGrow International, Inc. (the "Company," "we," "AeroGrow," or "our ") was incorporated in the State of Nevada on March 25, 2002. The Company's principal business is developing, marketing, and distributing advanced indoor aeroponic garden systems designed and priced to appeal to the consumer gardening, cooking and small indoor appliance markets worldwide. The Company's principal activities from its formation through March 2006, consisted of product research and development, market research, business planning, and raising the capital necessary to fund these activities. In December 2005, the Company commenced pilot production of its AeroGarden system and, in March 2006, began shipping these systems to retail and catalogue customers. The Company manufactures, distributes and markets seven different models of its AeroGarden systems in multiple colors, as well as over 40 varieties of seed pod kits and a full line of accessory products through multiple channels including retail distribution, catalogue and direct-to-consumer sales in the United States and Canada as well as selected countries in Europe, Asia and Australia.

Liquidity and Basis of Presentation

As shown in the accompanying financial statements, we have incurred net losses of \$2.4 million and \$8.3 million for the years ended March 31, 2014 and 2013, respectively, and have an accumulated deficit of \$80.1 million as of March 31, 2014. As more fully discussed in the Liquidity and Capital Resources section of Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, the Company has developed sources of funding that management believes are sufficient to support the Company's operating plan for the fiscal year ending March 31, 2015. The Company's operating plan is predicated on a variety of assumptions including, but not limited to, the level of customer and consumer demand, the effect of cost reduction programs, and the state of the general economic environment in which the Company operates. There can be no assurance that these assumptions will prove to be accurate in all material respects, or that the Company will be able to successfully execute its operating plan.

We may seek additional debt or equity capital during the fiscal year ending March 31, 2015 to address the seasonal nature of our working capital needs, and to enable us to increase the scale of our business. Sources of funding to meet prospective cash requirements include the Company's existing cash balances, and cash flow from operations. There can be no assurance we will be able to raise additional capital. As part of our efforts to seek additional funding of our operations, in April 2013, we entered into a Securities Purchase Agreement with SMG Growing Media, Inc, a wholly owned subsidiary of Scotts Miracle-Gro Company, a worldwide marketer of branded consumer lawn and garden products ("Scotts Miracle-Gro"). Pursuant to the Securities Purchase Agreement, Scotts acquired 2,649,007 shares of the Company's Series B Convertible Preferred Stock and a warrant to purchase shares of the Company's common stock for an aggregate purchase price of \$4.0 million. (For further information on the strategic alliance with Scotts Miracle-Gro, please see Note 3 "Scotts Miracle-Gro Transactions – Convertible Preferred Stock, Warrants and Other Transactions" to our financial statements).

Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those

estimates. It is reasonably possible that a change in the Company's estimates will occur in the near term and such change could be material.

Net Income (Loss) per Share of Common Stock

The Company computes net income (loss) per share of common stock in accordance with Accounting Standards Codification ("ASC") 260. ASC 260 requires companies with complex capital structures to present basic and diluted Earnings per Share ("EPS"). Basic EPS is measured as the income or loss available to common shareholders divided by the weighted average shares of common stock outstanding for the period. Diluted EPS is similar to basic EPS but presents the dilutive effect on a per share basis of potential common stock (e.g., convertible securities, options, and warrants) as if they had been converted at the beginning of the periods presented. Potential shares of common stock that have an anti-dilutive effect (i.e., those that increase income per share or decrease loss per share) are excluded from the calculation of diluted EPS. For the years ended March 31, 2014 and 2013, the Company had 3.6 million (including preferred stock), and 3.5 million, respectively, of securities that could potentially dilute basic EPS in the future that were not included in the computation of diluted EPS because to do so would have been anti-dilutive for the periods presented.

Table of Contents

The following table presents the computation of basic and diluted net income per share for the year ended March 31, 2014 (in thousands, except per share amounts):

	Fiscal Year Ended March 31,	
	2014	2013
Net loss available to common shareholders	\$ (4,130)	(8,259)
Basic and diluted:		
Weighted-average shares outstanding	5,408	5,344
Basic and diluted net loss per share	\$ (0.76)	(1.55)

As of March 31, 2014, employee stock options to purchase approximately 397,000 shares of common stock and warrants to purchase approximately 575,000 shares of common stock were outstanding but were not included in the computation of diluted net income per share because the effect of including such shares would have been anti-dilutive in the periods presented.

Reclassifications

Certain prior year amounts have been reclassified to conform to current year presentation.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. There were no cash equivalents at March 31, 2014 and 2013.

Restricted Cash

The Company has secured activity related to its corporate credit card purchase account with a restricted money market account. In addition, as discussed in Note 2– Notes Payable and Long Term Debt, 20% of the Company’s daily credit card receipts were held in a restricted escrow account in accordance with the 2011 Credit Card Receipts-Backed Notes which were paid in full during the year ended March 31, 2014. The balance in this account as of March 31, 2014 and March 31, 2013 was \$15,000 and \$42,000, respectively.

Concentrations of Risk

ASC 825-10-50-20 requires disclosure of significant concentrations of credit risk regardless of the degree of such risk. Financial instruments with significant credit risk include cash deposits. The amount on deposit with one financial institution exceeded the \$250,000 federally insured limit as of March 31, 2014. However, management believes that the financial institution is financially sound and the risk of loss is minimal.

Customers:

For the years ended March 31, 2014 and 2013, the Company had one customer, Amazon.com, who represented 30.7%, and 10.9%, respectively, of the Company’s net revenue.

Suppliers:

For the year ended March 31, 2014, the Company purchased inventories and other inventory related items from four suppliers totaling \$1.5 million, \$1.4 million, \$315,000, and \$300,000 representing 26.0%, 24.3%, 5.6% and 5.4% of cost of revenue, respectively. For the year ended March 31, 2013, the Company purchased inventories and other inventory related items from four suppliers totaling \$587,000, \$543,000, \$469,000, and \$360,000 representing 14.6%, 13.5%, 11.7% and 9.0% of cost of revenue, respectively.

The Company’s primary contract manufacturers are located in China. As a result, the Company may be subject to political, currency, regulatory, shipping, labor and weather/natural disaster risks. Although the Company believes

alternate sources of manufacturing could be obtained, these risks and any potential loss of supply could have an adverse impact on operations.

Account Receivables:

As of March 31, 2014, the Company had three customers, Amazon.com, Costco.com and The Home Depot, that represented 44.1%, 24.5% and 11.1%, respectively, of outstanding accounts receivable. As of March 31, 2013, the Company had one customer, Amazon.com, that represented 61.2% of outstanding accounts receivable. Management believes that all receivables from these customers are collectible.

Table of Contents

Fair Value of Financial Instruments

The Company follows the guidance in ASC 820, Fair Value Measurements and Disclosures (“ASC 820”), as it relates to the fair value of its financial assets and liabilities. This guidance requires disclosure of fair value information about certain financial instruments (insurance contracts, real estate, goodwill and taxes are excluded) for which it is practicable to estimate such values, whether or not these instruments are included in the balance sheet at fair value. The fair values presented for certain financial instruments are estimates which, in many cases, may differ significantly from the amounts that could be realized upon immediate liquidation.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability, i.e., exit price, in an orderly transaction between market participants. ASC 820 also provides a hierarchy for determining fair value, which emphasizes the use of observable market data whenever available. The three broad levels defined by the hierarchy are as follows, with the highest priority given to Level 1 as these are the most reliable, and the lowest priority given to Level 3. The three levels of the fair value hierarchy are described below:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs, other than quoted prices in active markets for identical assets or liabilities.

Level 3: Unobservable inputs.

The carrying value of financial instruments, including cash, receivables, accounts payable and accrued expenses, approximates their fair value at March 31, 2014 and March 31, 2013 due to the relatively short-term nature of these instruments. As of March 31, 2014 and March 31, 2013, the fair value of the Company's debt, notes payable, and sale of intellectual property liability, using Level 3 inputs was estimated using the discounted cash flow method, which is based on the future expected cash flows, discounted to their present values, using a discount rate of 15%.

In conjunction with a Securities Purchase Agreement and strategic alliance with Scotts Miracle-Gro on April 22, 2013, the Company issued a warrant that entitles, but does not obligate, Scotts Miracle-Gro to purchase a number of shares of common stock that, on a fully diluted basis, constitute 80% of the Company's outstanding capital stock together with existing stock owned. This warrant was accounted for as a liability at its estimated fair value and is classified as a Level 3 fair value measurement. The Company calculated the fair value of the warrant during the fiscal year ended March 31, 2014 using Level 3 inputs in a Monte Carlo simulation model. As of March 31, 2014, the Company measured the warrant at fair value and will continue to do so on a quarterly basis. As of March 31, 2013, the Company did not have any financial assets or liabilities that were measured at fair value on a recurring basis subsequent to initial recognition.

(in thousands)	March 31, 2014		March 31, 2013	
	Fair Value	Carry Value	Fair Value	Carry Value
Liabilities				
Notes payable	\$ -	\$ -	\$ 610	\$ 641
Sale of intellectual property liability	171	258	-	-
Derivative warrant liability	2,530	2,530	-	-
Long-term debt	-	-	1,726	2,068
Total	\$ 2,701	\$ 2,788	\$ 2,336	\$ 2,709

Property and Equipment

Property and equipment are stated at cost. Depreciation for financial accounting purposes is computed using the straight-line method over the estimated lives of the respective assets. Office equipment and computer hardware are

depreciated over five years. Tooling is depreciated over three years. Leasehold improvements are being amortized over the life of the lease.

Property and equipment consist of the following:

(in thousands)	March 31, 2014	March 31, 2013
Manufacturing equipment and tooling	\$ 2,423	\$ 2,269
Computer equipment and software	435	406
Leasehold improvements	116	112
Other equipment	348	348
	3,322	3,135
Less: accumulated depreciation	(3,024)	(2,869)
Property and equipment, net	\$ 298	\$ 266

Table of Contents

Depreciation expense for the years ended March 31, 2014 and 2013, was \$156,000, and \$161,000, respectively.

Intangible Assets

Intangible assets consist of the direct costs incurred for application fees and legal expenses associated with patents and trademarks on the Company's products. The Company periodically reviews the value of the intangible assets. To the extent carrying values exceed estimated fair values, the Company records a reduction in the carrying value to the determined fair value. The Company amortizes its patent and trademark costs on a straight line basis over their estimated useful life of 17 years.

Intangible assets consist of the following:

(in thousands)	March 31, 2014	March 31, 2013
Patents	\$ -	\$ 286
Trademarks	2	44
	2	330
Less: accumulated amortization
