On April 21, 2006, OAO Tatneft issued the following press release:

OA O Tatneft obtained an extension from the New York Stock Exchange for the filing of the company'

Almetyevsk, 21 April 2006

Edgar Filing: O A O TATNEFT - Form 6-K

OA O Tatneft (the "Company") announced today that it has obtained an extension from the New York Stock Exchange (the "NYSE") for the filing of the Company's Annual Report on Form 20-F for 2004. Under applicable NYSE policy*, if an Annual Report is not filed with the U.S. Securities and Exchange Commission (the "SEC") within nine months after the end of the fiscal year, the SEC's Rule 12b-25 (i.e., by April 15, 2006, in the case of the Company's Annual Report on Form 20-F for 2004), the SEC has its sole discretion whether to permit trading in the company's securities to continue for up to 90 days after the date the suspension commences to commence suspension and delisting proceedings. On April 13, 2006, the NYSE reviewed the Company's request and granted an extension of three months (until July 15, 2006) for the filing of the Company's Annual Report on Form 20-F for 2004.

As has been announced by the Company, the value of its assets on unconsolidated basis in accordance with the Russian Accounting Regulations ("RAR") as of 31 December 2005 was approximately 160 billion Russian Rubles (US\$5.56 billion), compared to approximately 139.5 billion Russian Rubles (US\$5.03 billion) as of 1 January 2005, and the Company's net income was approximately 36.9 billion Russian Rubles (US\$1.28 billion), an increase of 49.75% from approximately 24.5 billion Russian Rubles (US\$887 million) for 2004.** In 2005 the Company produced 25.3 million tons (180.2 million barrels) of crude oil, more than in 2004, when the Company produced 25.1 million tons (178.8 million barrels) of crude oil. The Company's financial statements for 2005 are currently being audited by the Company's independent auditor and will be presented at the Company's annual general shareholders' meeting on 30 June 2006.

In the first quarter of 2006 the Company produced 6,306,127 tons (44.9 million barrels) of crude oil and income before tax for the first quarter of 2006 under RAR to reach 47 billion Russian Rubles (US\$540 million) respectively.**

* - Section 802.01E of the NYSE Listed Company Manual as in effect on July 15, 2005, which was the basis for the Company's Annual Report on Form 20-F for 2004 in accordance with Rule 12b-25 under the Securities Exchange Act of 1934. On January 19, 2006, the SEC approved an amendment to Section 802.01E of the Listed Company Manual to allow for the review of continued trading in listed securities of late filers. Based on its consultations with the Company, the SEC determined that these amendments to Rule 802.01E do not apply to its Annual Report on Form 20-F for 2004.

** - Russian Ruble amounts have been translated into U.S. Dollars at the exchange rates on the last trading day of the reporting period.

*** - Amounts of crude oil have been translated from tons to barrels at the rate of 7.123 barrels per ton, based on the weighted average density of the Company's crude oil reserves.

Forward-looking statements: This press-release may contain certain forward-looking statements of the Company which are not guarantees of occurrence of any events mentioned in such statements as well as term of their occurrence.
