this information is available in the public domain, Grupo Financiero HSBC, S.A. de C.V. has elected to file this release.

Results are prepared in accordance with Mexican GAAP (generally accepted accounting principles), with figures denominated in Mexican pesos (MXN). Comparative figures are presented on an actual basis, indexed to constant MXN as at 31 March 2006.

Grupo Financiero HSBC, S.A. de C.V. is a 99.74 per cent owned subsidiary of HSBC Holdings plc (HSBC).

Commentary by Sandy Flockhart, CEO & Group General Manager

"HSBC is off to a good start in Mexico in 2006, with strong growth across our key business and product areas.

"Alongside growing our business we are also continuing to deepen our roots in Mexico and, recently, we inaugurated our new corporate headquarters, Torre HSBC, which is located on Paseo de la Reforma, one of Mexico City's most important avenues. The building is the first environmentally friendly construction of its type in Latin America and HSBC expects to receive a Leadership in Energy and Environmental Design certification from the U.S. Green Building Council. I am also pleased to announce that we remain committed to Corporate and Social Responsibility (CSR), and in 2006 we were recognised as a 'Socially Responsible Company' by the Mexican Center for Philanthropy.

"In March, HSBC reached an agreement to acquire a 19.99 per cent stake in Financiera Independencia S.A. de C.V., a highly successful niche player in the Mexican consumer loans market.

"HSBC continues to work towards being the leading financial services institution in Mexico in the eyes of our customers. We are driving product innovation and service standards. Based on the combination of the knowledge, network and brand of the HSBC Group along with the experience and capabilities of our Mexican colleagues, we have established a strong foundation in Mexico and are poised for continued growth through the remainder of 2006."

### Overview

Grupo Financiero HSBC reported strong results in the first quarter of 2006, with net income amounting to 1,430 million pesos, representing an increase of 19.9 per cent over the same period in 2005. Indeed, we saw broad based revenue growth across all product categories. Net interest income, fees and trading all reached record levels during the first quarter. This was coupled with strong performances in our Insurance, pension funds management (Afore), and Panama Bank subsidiaries.

Net interest income growth of 14.8 per cent versus the same period in 2005 was a result of a more profitable balance sheet composition despite a lower interest rate environment. This improved mix reflects robust growth in loans, especially among higher yielding consumer and small and medium-sized business products, coupled with continued growth in low-cost customer deposits.

Fees and commissions performed well, increasing by 19.0 per cent versus the same period in 2005 due to growth in credit cards, membership programmes, mortgages, commercial lending, mutual funds, ATMs and Payments and Cash Management. Trading results were very strong, up 139 per cent over the same period in 2005, benefiting from successful strategic positioning, higher customer volumes and the launching of new products on the back of enhanced treasury systems.

Administrative expenses grew 16.4 per cent versus the same period in 2005, as HSBC continues to invest in training staff and upgrading technology in order to

## Edgar Filing: HSBC HOLDINGS PLC - Form 6-K

enhance our competitive position within the Mexican market. Personnel costs increased due to additional headcount and variable compensation to support revenue growth and to improve customer service. Operating costs were driven by significant investment in systems and higher marketing expenses. Three years of organic investment have created a robust platform for future growth, while enabling current revenue growth.

Loan impairment charges increased to MXN 617m for the first quarter of 2006, in line with robust consumer lending growth, particularly in credit cards and mortgages. The sale of a legacy portfolio of impaired loans helped to improve the ratio of impaired loans to total loans to 2.2 per cent versus 2.8 per cent at 31 March 2005 and the reserve coverage on non performing loans improved from 31 December 2005 to 176 per cent. The bank's capital adequacy ratio remains solid and in line with the competition.

By customer segment

The personal financial services division reported a strong performance driven by growth in low cost deposits, credit card and mortgage lending and higher transaction-based fee income. Fixed rate mortgage balances increased by 80 per cent versus 31 March 2005, due to improved processing and product innovation. HSBC is the first bank in Mexico to offer pre-approved mortgage loans via the internet. In credit cards, targeted Customer Relationship Management campaigns drove record growth, with balances increasing by 95 per cent and cards in circulation growing by 91 per cent to over 1.2 million cards, compared to 31 March 2005.

Tu Cuenta, our integrated package of financial services for a flat monthly fee, continued its strong performance, with 129,000 packages sold to new customers in 1Q06. This has contributed to strong fee income and low cost funding. Mutual fund balances were up 59 per cent from 31 March 2005, benefiting from an expanded product offering and increased cross sales to our extensive customer base. The HSBC D-2 fund is the largest mutual fund for individual investors in Mexico, and the new HSBC E-3 Capital Protection fund was launched in March.

In commercial banking, there was strong lending and deposit growth concentrated among small and medium-sized businesses and solid fee income from Payments and Cash Management and Estimulo, the combined loan and overdraft product for small businesses.

The corporate, investment banking and markets division continued to strengthen its market position benefiting in part from HSBC's extensive international network for multinational companies. Leveraging the new Group treasury systems installed in 2005, Global Markets revenues performed well, especially among derivatives and debt trading.
