- Return on equity of 22.3 per cent for the year ended 31 December 2008, compared with 27.6 per cent in 2007.

- Capital adequacy ratio, on a Basel II basis, of 11.0 per cent compared with 10.3 per cent in 2007.

Commentary

HSBC Bank Malta and its subsidiaries delivered a profit before tax in 2008 of €96.1 million

While this represents a decline of 16.

2

**per cent compared to 2007,
it was
a solid result achieved
after taking into account**

**the introduction of the euro and the volatility of world financial markets. Overall
, profitability was still
strong with a return on equity of 22.3 per cent.**

Net interest income of €123.0 million

in 2008

was down
2.5 per cent

,

from
€126.2 million
in 2007

.

Increases in
loans and advances
generated
steady growth
in interest receivable. This was off-set by the increase in interest payable on retail
deposits

,

and m
argin pressure
from
a combination of increased
competition
and

the
lower
ing of
base rates

by
the

ECB in the last quarter of 2008.

Net f
ees and commission income of €
31.8
million
in 2008, compared to €31.0 million

in

2007

,
was achieved
despite reduced levels of business activity during the first quarter of 2008

following

Malta

,
s adoption of the euro on 1 January 2008 and the general elections. Adopting the euro also affected foreign exchange
dealing income
which

,
at €
7.9
million, was significantly lower than the €
16.7
million earned
in the previous
year.

Strong organic growth in sales of regular premium term life and investment products, and flat costs contributed to the
life insurance business generating a profit before tax of €16.4 million in 2008, up 25.0 per cent on 2007.

The

loss
of €29.4
million
in

n
et income from insurance financial instrum
ents designated at fair value

was
offset
by a
corresponding increase

in
o
ther operating income

,

a
reduction in

n
et insurance claims incurred and movement in policyholders

,

liabilities.

During the year,
gains from property disposals and a revaluation gain on investment property

generated €3.5
million
in other operating income.

Operating expenses of €
90.4
million

in 2008 were

€6.7 million

,
or
8
.1
per cent

,
higher compared to the
previous year

,
with a cost efficiency ratio of
48.0

per cent compared to
42.1
per cent in 2007.

Employee compensation and benefits increased by €5.6 million
in 2008

primarily due to an exceptional charge to support
a voluntary early retirement scheme.

General and administrative e
xpense growth
of €1.0 million

was driven
primarily
by non-recurring costs related to the euro co
nversion and
information technology investment

,
as well as utility and communications expenditure

.
S
tripping out
the costs incurred by the
e
uro conversion and

voluntary retirement scheme

,

operating expenses

remained flat

year-

on

-

year

.

The n

et impai

ment charge of €1.9 million

was six

basis points

of loans and

advances to customers. The

year-

on

-

year increase

was

mainly

due to

the non-recurrence of the high levels of recoveries experienced during 2007

.

L

oans and advances to customers

increased

by

€

289.9

million

in 2008

to €3,112.2 million

,

from €

2,822.3 million

in 2007

,

with

growth

across

both the personal and commercial sectors

.

The quality of the overall loan book remains good with non-performing loans at the 2008 year end representing 2.3 per cent of gross loans,

an improvement from 2.7 per cent at the end of 2007.

Short-term liquid money market placements in the form of loans and advances to banks increased by €441.3 million to €1,072.3 million as more

new funds and maturing liquidity were placed with HSBC

as a result of increasing market risks.

In these challenging times, the available-for-sale investments portfolio was marked down by €9.7 million during the year. HSBC Malta believe

that the credit quality of these assets remains strong and that this deficit will reverse over the long-term. The mark-down was charged to revaluation reserves, net of tax.

The capital adequacy ratio, on a Basel II basis, remained strong at 11.0 per cent.

In September 2008, the bank issued a €30.0 million

**,
5.9 per cent**

**,
subordinated bond
to
further
strengthen**

its

**funding base and
to
support
future business growth.**

Alan Richards,

**d
irector and**

**c
hief**

**e
xecutive**

**o
fficer**

**of
HSBC Bank**

Malta

, said:

"

It

**will be a particularly challenging year
in 2009**

**as many parts of the world head into a recession
which**

will leave its mark on

Malta

**. Profitability will be under pressure as the economy slows, margins contract
further**

in a low interest rate environment and impairments are likely to increase as the credit cycle

continues to weaken

.

"

While

st

some of the challenges we face may be unprecedented

,
we are in
good

shape.

I am confident that with our track record, the backing of
the

HSBC Group, our enduring commitment to liquidity, strong capital and a conservative approach to risk management,
we are well positioned to build

on
our strengths and support
our customers to drive
future growth

.

"

The
financial

result for 2008

is
a testimony to the hard work and professionalism of our staff during these trying times.

"

T
he Board is declaring a final
gross dividend of
€0.
096
per share
(
€0.
062

net of tax). This will be paid on
20 April 2009
to shareholders who are on the bank

,

s register of
shareholders
at 4
March
2009

. This, together with the gross interim ordinary dividend of
€0.
119 per share

,

results in a total gross dividend for the year of

€0.
215
.
