Proposal - Amendment to the Articles of Incorporation

Management is requesting approval of an amendment to the Company's Articles of Incorporation to increase the authorized number of shares of Common Stock from 30,000,000 to 100,000,000 and to create a new preferred class of stock with 50,000,000 shares authorized.

The increase in authorized Common Stock is requested to give the Company options in the future for either stock splits and/or the raising of additional capital.

The preferred class of stock proposed will be Blank Check preferred stock granting the Board of Directors authority to issue the shares with terms and conditions to be determined. The purpose of the preferred stock could be used for raising additional capital. **At the time of this notice, there are no commitments for preferred stock.**

If this amendment is approved, Shareholders should be aware that additional stock, either common or preferred, could be issued without their approval. If additional stock is issued, anti-takeover provisions could be included in the terms of issuance.

It should be noted that any additional issuance of Common Stock or the issuance of preferred shares as described above would be dilutive in nature to current shareholders with respect to voting rights. The additional issuances might also be dilutive with respect to economic value. The effect of the dilution is not determinable at this time.
