### FORWARD LOOKING STATEMENTS

This Annual Report on Form 10-KSB contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements involve known and unknown risks and uncertainties, many of which are beyond the Company s control, including adverse changes in economic, political and market conditions, losses from the Company s market-making and trading activities arising from counter-party failures and changes in market conditions, the possible loss of key personnel, the impact of increasing competition, the impact of changes in government regulation, the possibility of liabilities arising from violations of federal and state securities laws and the impact of changes in technology in the securities and commodities brokerage industries. Although the Company believes that its forward-looking statements are based upon reasonable assumptions regarding its business, future market conditions, there can be no assurances that the Company s actual results will not differ materially from any results expressed or implied by the Company s forward-looking statements. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Readers are cautioned that any forward-looking statements are not guarantees of future performance.

### **ITEM 1. DESCRIPTION OF BUSINESS**

#### Overview

International Assets Holding Corporation and its subsidiaries (the Company ) form a financial services group focused on select international securities and commodities markets. The Company uses its capital and expertise to facilitate wholesale cross-border financial flows through market making and trading of international equity and debt securities and commodities. The Company s activities are currently divided into three functional areas international equities market-making, international debt capital markets and commodities/foreign exchange trading.

The Company was formed in October 1987 and has three wholly-owned subsidiaries INTL Trading, Inc. (INTL Trading), INTL Assets, Inc. (INTL Assets) and IAHC (Bermuda), Ltd. (IAHC Bermuda). Most of the Company s activities are conducted through INTL Trading, a broker-dealer registered with the Securities and Exchange Commission (the SEC) and a member of the National Association of Securities Dealers, Inc. (the NASD).

In December 2001, the Company exited from retail securities activities and sold certain related assets and re-focused the business on wholesale equity market-making. As part of this re-focusing during the 2003 fiscal year, the Company completed a series of transactions designed to enhance the Company s financial condition and management expertise and expand the scope of its operations. These transactions involved the Company s sale of 2,187,500 shares of Series A preferred stock to three investors. The Company received gross proceeds of \$3,718,750 from these transactions. These shares were subsequently converted into an equal number of shares of the Company s common stock, which represented 47.6% of the total shares of common stock then outstanding. These transactions are described in greater detail in Note 4 to the Company s Consolidated Financial Statements included in this report. As part of these transactions, the Company elected three of the investors to the Company s Board of Directors, and appointed one of them as the President and one of them as the Chief Executive Officer of the Company.

The Company s internet address is *www.intlassets.com*. The Company s annual reports on Form 10-KSB, quarterly reports on Form 10-QSB, current reports on Form 8-K, statements of changes in beneficial ownership and press releases are available in the Investor Relations section of this website. The Company s website also includes the Company s Code of Ethics, which governs the Company s directors, officers and employees, and other information regarding the Company s corporate governance.

### **Business Strategy**

The Company s management believes that its current capital and expertise can be exploited in financial market activities that exhibit some or all of the following characteristics:

Niche market segments and customers not adequately covered by major brokerage firms and financial institutions

Significant international component

Trading oriented activities

Markets requiring specialized expertise

Markets primarily serving wholesale clients such as securities broker-dealers and banks

The Company currently operates in three business segments that fulfill the goals of its business strategy international equities market-making, international debt capital markets and commodities/foreign exchange trading. The Company continues to evaluate other market niches for expansion opportunities.

#### **International Equities Market-Making**

The Company is a leading U.S. market maker in select foreign securities, including unlisted American Depositary Receipts ( ADRs ) and foreign ordinary shares. The Company conducts these activities through INTL Trading, which provides execution services and liquidity to national broker dealers, regional broker-dealers and institutional investors. The Company focuses on those international equities where its expertise allows the Company to provide its clients with competitive execution and superior service. The Company utilizes its proprietary technology, including internet technology, to reliably and efficiently implement this strategy.

The Company makes markets in approximately 200 ADRs and foreign ordinary shares traded in the over the counter market (the OTC). In addition, the Company will, on request, make prices in more than 8,000 additional ADRs and foreign ordinary shares. As a market-marker, the Company provides trade execution services by offering to buy shares from, or sell shares to, broker-dealers and institutions. The Company displays the prices at which it is willing to buy and sell these securities and adjust its prices in response to market conditions. When acting as principal, the Company commits its own capital and derives revenue from the difference between the prices at which the Company buys and sells shares. The Company also earns commissions by executing trades on an agency basis.

### **International Debt Capital Markets**

The Company actively trades in a wide variety of international debt instruments. The Company also invests in international debt instruments on a proprietary basis and arranges international debt transactions. These activities commenced in the second quarter of 2003 and have grown steadily since that time.

The Company trades and invests in international bonds, including both investment grade and higher yielding emerging market bonds. The Company generally focuses on smaller issues, such as emerging market sovereign, corporate and bank bonds that trade worldwide on an OTC basis.

The Company provides efficient execution in these bonds to smaller institutional and private banking clients. The Company s staff has substantial experience in this market, which allows the Company to offer customers superior execution capability. When acting as a principal, the Company commits its own capital to buy and sell bonds. The Company derives revenue from the difference between the purchase and sale prices. The Company also earns commissions by executing trades on an agency basis.

The Company periodically invests its own capital in select international bonds. The Company derives revenue from interest received and the difference between the purchase and sale prices.

### **Table of Contents**

The Company periodically identifies opportunities to arrange, purchase or sell debt transactions. These transactions generally involve negotiable emerging market debt instruments that have limited liquidity and exhibit one or more of the following characteristics:

Related to a specific commercial transaction

Initially payable to a specific lender or creditor (sometimes the Company)

Absence of published pricing

Absence of standard documentation

Absence of established settlement procedures

The transactions are generally evidenced by promissory notes, bills of exchange, loan agreements, accounts receivable and other types of debt instruments.

The Company may use its capital to purchase these instruments from emerging market debtors or their creditors. Due to the limited liquidity of these instruments, the Company may hold them for an indeterminate period of time before selling them. The transactions are typically sold to international banks and financial institutions. The Company derives revenue from interest received and the difference between the purchase and sale prices.

In other transactions, the Company may earn a fee for introducing borrowers and lenders or advising borrowers on capital raising transactions.

**Commodities/Foreign Exchange Trading** 

### **Precious Metals Trading**

In the fourth quarter of fiscal 2003, the Company established a precious metals trading business. The Company currently has relationships with a number of small and medium-sized precious metals producers and provides them with a full range of precious metals trading and hedging capabilities. The Company plans to expand its relationships to include consumers, recyclers and investors.

When acting as a principal, the Company commits its own capital to buy and sell precious metals on a spot and forward basis. The Company derives revenue from the difference between the purchase and sale prices.

The Company assists its clients in protecting the value of their future production by selling them put options on an OTC basis. The Company also provides clients with sophisticated option products, including combinations of buying and selling puts and calls. The Company mitigates its risk by effecting offsetting OTC options with market counterparties or through the purchase or sale of commodities futures traded through the COMEX division of the New York Mercantile Exchange.

The Company also takes periodic proprietary positions by buying precious metals or related options. However, the Company does not sell uncovered precious metals options. The Company derives revenue from these proprietary activities through the difference between the purchase and sale prices or between premiums received and paid.

### Foreign Exchange Trading

In the fourth quarter of fiscal 2003, the Company established a foreign exchange trading business. The Company s goal is to develop trading opportunities based on the foreign currency flows inherent in the Company s existing international securities activities. In addition, the Company seeks to trade in select illiquid currencies of developing countries. The Company s target clients are financial institutions, multi-national corporations, governmental and charitable organizations operating in these developing countries.

The Company primarily acts as a principal in buying and selling foreign currencies on a spot basis. The Company derives revenue from the difference between the purchase and sale prices.

The Company periodically holds foreign currency positions for longer periods to create liquidity for clients or generate proprietary earnings potential.

### Competition

The international financial markets are highly competitive and rapidly evolving. In addition, these markets are dominated by firms with significant capital and personnel resources which are not currently available to the Company. The Company expects these competitive conditions to continue in the future. The Company s strategy is to focus on smaller niche markets requiring specialized expertise that may be less attractive to its larger competitors. The Company believes that it can compete successfully with other financial intermediaries in these niches based on the Company s expertise and quality of service.

The Company s activities are impacted, and will continue to be impacted, by investor interest in the international financial markets served by the Company. International securities in these markets compete with a wide range of alternative investment instruments. The Company seeks to counterbalance changes in demand in specified markets by undertaking activities in multiple uncorrelated markets.

Technology has increased competitive pressures on intermediaries in international financial markets by improving dissemination of information and facilitating the development of alternative execution mechanisms. In the equity markets, electronic communication networks (ECNs) compete with market-makers like the Company. ECNs provide a neutral forum in which third parties display and match their orders, but do not commit capital or provide liquidity to the marketplace. ECNs and similar alternative execution mechanisms provide the greatest benefit for markets in highly liquid securities. The Company competes by focusing on niche markets for less liquid instruments and using its capital to enhance liquidity for clients.

#### **Administration and Operations**

The Company employs operations personnel to supervise, and, for certain products, execute the clearing and settlement of transactions.

INTL Trading s securities transactions are cleared through Pershing LLC, a wholly owned subsidiary of The Bank of New York. INTL Trading does not hold client funds or directly clear or settle securities transactions.

The Company s administrative staff manages the Company s internal financial controls, accounting functions, office services and compliance with regulatory requirements.

# **Governmental Regulation**

The Company s activities, particularly in the securities market, are subject to significant governmental regulation. The regulatory environment in which the Company operates is subject to frequent change and these changes directly impact the Company s business and operating results. The U.S. Patriot Act of 2001 and the Sarbanes-Oxley Act of 2002 have placed additional regulatory burdens and compliance costs on the Company.

The securities industry in the United States is subject to extensive regulation under federal and state securities laws. The Company is required to comply with a wide range of requirements imposed by the SEC, state securities commissions and the NASD. These regulatory bodies are charged with safeguarding the integrity of the financial markets and with protecting the interests of investors in these markets.

Broker-dealers such as INTL Trading are subject to regulation covering all aspects of their activities, including trade practices, capital structure, record retention and the conduct of its officers, supervisors and

registered employees. Failure to comply with any of these requirements could result in administrative or court proceedings, censure, fines, issuance of cease-and-desist orders, the suspension or disqualification of a broker-dealer, its officers, supervisors and registered representatives.

### **Net Capital Requirements**

The Company s broker-dealer subsidiary, INTL Trading, is subject to the net capital requirements imposed by SEC Rule 15c3-1 under the Securities Exchange Act of 1934. These requirements are intended to ensure the financial integrity and liquidity of broker-dealers. They establish both minimum levels of capital and liquid assets. The net capital requirements prohibit the payments of dividends, redemption of stock, the prepayment of subordinated indebtedness and the making of any unsecured advance of loan to a stockholder, employee or affiliate, if such payment would reduce the broker-dealer s net capital below required levels.

The net capital requirements restrict the ability of INTL Trading to make distribution to the Company. They also restrict the ability of INTL Trading to expand its business.

During the 2003 fiscal year, INTL Trading maintained net capital which exceeded the minimum levels required by SEC Rule 15c3-1.

#### **Risks Affecting the Company s Business**

The Company faces a variety of risks that could adversely impact its financial condition and results of operations. These include, but are not limited to, the following:

Adverse changes in economic, political and market conditions

Unexpected losses from market making and trading losses (including counterparty failures)

Loss of key personnel

Increased competition

Regulatory changes

Liability for violations of federal and state securities laws

Technological change

The Company seeks to mitigate the market and credit risks arising from its financial trading activities through an active risk management program. The principal objective of this program is to limit trading risk to an acceptable level while maximizing the return generated on the risk assumed. The Company has a risk committee which is responsible for developing and implementing the Company s risk management policies. The risk committee establishes limits for each product area based on the estimated value at risk and monitors compliance with these limits. The risk committee reports to the Audit Committee of the Board of Directors.

### Employees

At September 30, 2003, the Company had 28 employees, all of whom were full time employees. Six of these employees had managerial responsibilities, 14 were traders and 8 had administrative and operational duties, in such areas as accounting, operations, compliance and technology.

### **ITEM 2. DESCRIPTION OF PROPERTY**

The Company leases approximately 5,100 square feet of office space for its corporate headquarters at 220 E. Central Parkway in Altamonte Springs, Florida. This lease commenced on February 1, 2002, and expires on July 31, 2009. The Company leases approximately 3,700 square feet of office space at 708 Third Avenue, New York,

New York. This lease commenced on December 13, 2002, and expires on September 29, 2006. The Company leases approximately 310 square feet of office space at 1111 Brickell Avenue, Miami, Florida. This lease commenced on December 18, 2002, and expires on January 31, 2004.

### ITEM 3. LEGAL PROCEEDINGS.

On January 4, 2001, the Company commenced an arbitration proceeding with the NASD related to the departure, on December 19, 2000, of the head of the Company s foreign trading desk and his recruitment of the Company s entire trading staff. The Company filed this arbitration proceeding against the broker-dealer who had hired the recruited employees (the hiring broker-dealer ), two principals of the hiring broker-dealer and two principals of the affiliated firms. The Company alleged that these parties had engaged in raiding, unfair competition, misappropriation of trade secrets, and other wrongful actions. The other parties filed counterclaims against the Company. Effective September 30, 2002, the Company agreed to settle its claims against the two affiliated securities firms and the two principals of those firms. Under the settlement, the Company received \$200,000. On September 22, 2003, the Company agreed to settle its remaining claims against the hiring broker-dealer and the two principals of the hiring broker-dealer. Under the settlement, the Company received \$100,000.

### ITEM 6. MANAGEMENT S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION.

#### **Results of Operations**

The Company s principal activities include market-making and trading in international financial instruments and commodities. The markets in which the Company operates are highly competitive and volatile. The Company has little or no control over many of the factors which affect its operations. As a result, the Company s earnings are subject to potentially wide fluctuations. The Company seeks to counteract many of these influences by focusing on niche, uncorrelated markets and, when possible, linking the Company s expenses to revenues.

The Company s activities have changed significantly over the past two fiscal years due to the following developments.

In the first quarter of fiscal 2002, the Company sold its retail brokerage and money management businesses. As a result, the Company operated solely as a wholesale market maker in select international equities for the remainder of fiscal 2002.

In the first quarter of fiscal 2003, the Company appointed new management and raised additional capital.

In the second quarter of fiscal 2003, the Company began trading and related activities in international debt capital markets.

In the fourth quarter of fiscal 2003, the Company began trading precious metals and foreign exchange.

The Company s activities are currently divided into international equities market-making, international debt capital markets and commodities/foreign exchange trading. Most of the Company s revenue over the past two fiscal years was generated from international equity market-making. In fiscal 2003, international debt capital markets also made a positive contribution to revenues. Given the early stage of development, international debt trading and commodity/foreign exchange trading represented a minority of the Company s revenues in fiscal 2003.

#### 2003 Compared to 2002

The following table reflects the principal components of the Company s revenue and expenses as a percentage of total revenue for fiscal 2003 and 2002.

Net Income. The Company had net income of 1,264,000 for fiscal 2003, which equates to 0.33 per diluted share. This compares to a net loss of (271,000), or (0.11) cents per diluted share, for fiscal 2002.

**Total Revenue.** The Company s total revenue increased 108% to \$10,755,000 for fiscal 2003 compared to \$5,167,000 for fiscal 2002. Equity market-making revenue grew from \$4,572,000 in fiscal 2002 to \$7,675,000 in fiscal 2003. The growth in equity market-making revenue was due to improved equity market conditions worldwide, increased marketing of the Company s market-making capabilities to institutional and other clients and improved management of the Company s equity market-making personnel. Equity market-making revenue fell from 92% of total revenue in fiscal 2003 due to additional revenue from new activities. The Company began international debt capital markets in the second quarter of fiscal 2003. These activities generated revenue of \$1,933,000 (18% of total revenue) in fiscal 2003. The Company s revenues from these activities was supported by the attractive market conditions for international debt securities which prevailed in 2003 and a steadily increasing number of wholesale customers establishing relationships with the Company. The Company began trading in foreign exchange and precious metals in the fourth quarter of fiscal 2003. These activities generated revenue of \$1,017,000 (10% of total revenue) in fiscal 2003 are supported by the other trading businesses.

**Trading Revenue (Net Dealer Inventory and Investment Gains)**. The Company had trading income of \$9,537,000 in fiscal 2003, compared to \$4,511,000 for fiscal 2002. The increase in trading revenue reflected improved market conditions and demand for securities traded by the Company, the successful development of new wholesale equity client relationships and the introduction and expansion into international debt capital

markets and commodities/foreign exchange trading. The change in revenue composition reflects the re-focusing of the Company s business from retail brokerage to wholesale trading. The Company sold its retail brokerage business in December 2001.

**Commission Revenue**. The Company generated commission revenue of \$1,125,000 in fiscal 2003, compared to commission revenue of \$408,000 in fiscal 2002. All commissions in fiscal 2003 were generated from brokerage of securities at the wholesale level, while fiscal 2002 commissions were from retail brokerage. Revenues in fiscal 2002 also included investment advisory fees of \$6,000. The Company did not generate any revenue from retail brokerage or investment advisory activities in fiscal 2003 because the Company sold these businesses in the first quarter of fiscal 2002.

**Interest Income (Expense)** The Company s fiscal 2003 interest income (expense), net was \$9,000 compared to \$14,000 in fiscal 2002. The decrease was due to higher interest expense arising from securities sold but not purchased held with the Company s clearing firm.

**Dividend Income (Expense)**. The Company s fiscal 2003 dividend income (expense), net was (\$22,000) compared to (\$4,000) for fiscal 2002. Dividend income (expense) is generated when the Company holds long (short) equity positions over a dividend declaration date.

**Other Revenues**. The Company recognized \$106,000 in other income in fiscal 2003, compared to \$232,000 in 2002. Other revenues include a payment of \$100,000 received in 2003 under settlement of an arbitration, and a payment of \$200,000 received in 2002 under settlement of the same arbitration.

**Total Expenses**. The Company s total expenses increased by approximately 59% to \$9,279,000 in fiscal 2003, compared to \$5,851,000 in fiscal 2002. This increase was directly attributable to the expansion of the Company s business, which resulted in higher personnel, clearing and business development costs.

**Compensation and Benefits**. The Company s compensation and benefit expense increased from \$2,216,000 in fiscal 2002 to \$4,321,000 in fiscal 2003. The increase was a result of both higher staff levels and higher performance based compensation due to increased revenues and profitability.

**Clearing Expenses**. Clearing and related expenses grew from \$1,708,000 in fiscal 2002 to \$2,405,000 in fiscal 2003. The increase was primarily due to the growth in trading activity and the number of trades processed, increased foreign settlement fees and the transition of equity clearing to a new clearing firm. The increased foreign settlement fees related to changes in the composition of the equity trading activities.

**Wholesale Commissions**. The Company incurs commission expense from wholesale debt transactions. Wholesale commissions in fiscal 2003 were \$438,000. The Company did not conclude any debt transactions in fiscal 2002.

**Occupancy and Equipment Rental**. Occupancy and equipment rental expense increased from \$387,000 in fiscal 2002 to \$438,000 in fiscal 2003. This expense increased due to the opening of the Company s New York office in December 2002, which was partially offset by cost reductions arising from the relocation of the Company s Altamonte Springs, Florida office in February 2002.

**Professional Fees**. Professional fees principally consist of legal and accounting fees. They were \$454,000 in fiscal 2002, compared to \$438,000 in fiscal 2003. Fiscal 2003 professional fees decreased by approximately 4% due to lower costs associated with on-going arbitration and legal proceedings.

**Depreciation and Amortization**. Depreciation and amortization was \$377,000 in fiscal 2002, compared to \$362,000 in fiscal 2003. The decrease was due to the disposition of fixed assets related to the sale of the Company s retail brokerage business in December 2001, as well as the full amortization of certain software costs. These decreases were partially offset by additional depreciation arising from the purchase of fixed assets for the Company s New York and Altamonte Springs offices.

**Business Development Expense**. Business development expense increased from \$230,000 in fiscal 2002 to \$263,000 in fiscal 2003. This expense increased due to a higher level of sales and recruitment activities undertaken to support the Company s expanded operations.

**Insurance Expense**. Insurance expense was \$120,000 in fiscal 2002, compared to \$233,000 in fiscal 2003. Insurance expense consists primarily of health insurance costs. The increase in fiscal 2003 was primarily due to increases in the cost of health insurance caused by higher staff levels and increased cost per employee.

**Other Operating Expenses**. Other operating expenses were \$359,000 in fiscal 2002, compared to \$380,000 in 2003. The increase was principally due to NASDAQ additional listing fees arising from the conversion of Series A preferred shares to common shares in February 2003.

**Gain on Sale**. The Company recorded a gain of \$413,000 in fiscal 2002 from the sale of its retail brokerage business. This sale is described in Note 2 to the Company s Consolidated Financial Statements appearing elsewhere in this report.

**Tax Expense**. The Company recognized total income tax expense of \$211,000 in fiscal 2003. As a result of improved performance, the Company elected to recognize the full potential value of its existing deferred tax asset. The reversal of the deferred tax asset valuation allowance resulted in a tax benefit of \$363,000. The calculated federal and state tax expense before this benefit was \$575,000 (39% of income before income tax). The Company did not recognize any income tax expense in fiscal 2002 due to the loss incurred during this period.

### Liquidity and Capital Resources

A substantial portion of the Company s assets are liquid. The majority of the assets consist of securities inventories, which fluctuate depending on the levels of customer business. At September 30, 2003, approximately 90% of the Company s assets consisted of cash, cash equivalents, receivables from clearing organizations and marketable securities. All assets are financed by the Company s equity capital, short-term borrowings from securities sold, not yet purchased and other payables.

The Company s ability to receive distributions from INTL Trading, the Company s broker-dealer subsidiary, is restricted by regulations of the SEC and the NASD. The Company s right to receive distributions from its subsidiaries are also subject to the rights of the subsidiaries creditors, including customers of INTL Trading.

INTL Trading is subject to the net capital requirements of the SEC and the NASD relating to liquidity and net capital levels. At September 30, 2003, INTL Trading had net capital of \$1,386,000, which was \$992,000 in excess of its minimum net capital requirement on that date. INTL Trading s net capital at September 30, 2003 included a \$500,000 subordinated loan made by the Company to INTL Trading on January 31, 2003. This loan has a scheduled maturity date of February 28, 2004 and an interest rate of 3%. INTL Trading is not obligated to repay the loan at scheduled maturity if repayment would cause INTL Trading to violate its net capital requirements. If this occurs, INTL Trading s obligation to repay the loan is deferred until these requirements can be satisfied. This inter-company loan has been eliminated from the consolidated balance sheet of the Company as of September 30, 2003.

The Company s assets and liabilities may vary significantly from period to period because of changes relating to customer needs and economic and market conditions and customer requirements. The Company s total assets at September 30, 2003 and September 30, 2002, were \$17,336,000 and \$11,572,000, respectively. The Company s operating activities generate or utilize cash resulting from net income or loss earned during each period and fluctuations in its assets and liabilities. The most significant fluctuations arise from changes in the level of customer activity and securities inventory changes resulting from proprietary arbitrage trading strategies dictated by prevailing market conditions.

### **Table of Contents**

In addition to normal operating requirements, capital is required to satisfy financing and regulatory requirements. The Company s overall capital needs are continually reviewed to ensure that its capital base can appropriately support the anticipated capital needs of its operating subsidiaries. The excess regulatory net capital of the Company s broker-dealer subsidiary may fluctuate throughout the year reflecting changes in inventory levels and/or composition and balance sheet components.

The Company is currently planning to raise additional capital during fiscal 2004 in order to support the expansion of the Company s business. In this connection, the Company is considering whether to issue equity securities, debt securities or a combination of both.

#### **Cash Flows**

The Company s cash and cash equivalents increased by \$2,583,000 from \$4,484,000 at September 30, 2003 to \$7,067,000 at September 30, 2003.

The major sources of cash were:

The Company s financing activities generated \$3,740,000 in cash. Most of this amount was comprised of the net proceeds from the sale of 2,187,500 shares of Series A preferred stock in December 2002 (which was subsequently converted into an equal number of shares of common stock). The Company received \$3,511,000 in cash from the sale, after deducting transaction costs of \$208,000 paid in cash. The Company also paid an additional \$75,000 in transaction costs through the issuance of 44,117 shares of the Company s common stock.

The Company received \$237,000 from the exercise of employee stock options.

The Company generated net income of \$1,264,000.

Significant non-cash expenses included depreciation and amortization of \$362,000 and deferred income taxes of \$211,000.

\$938,000 increase in accrued employee compensation and benefits resulting from improved performance.

\$318,000 net change in securities positions (securities owned, foreign currency sold, not yet purchased and securities owned, not yet purchased).

The major uses of cash were:

The Company used \$3,381,000 in cash as a result of changes in the Company s net receivables from brokers, dealers and clearing organization. At September 30, 2002, the Company owed these organizations \$1,025,000. By September 30, 2003, these organizations owed the Company \$2,356,000.

The Company used \$500,000 to establish a deposit as required by its new clearing organization.

The Company s investing activities used \$273,000 in cash. Most of the amount was due to the purchase of \$299,000 in leasehold improvements and equipment, primarily for the Company s office in New York City which opened in December 2002. This was partially offset by the receipt of \$5,000 from the sale of assets and the receipt of \$21,000 from the repayment of a prior loan made to an officer.

### **Critical Accounting Policies**

The Company s Consolidated Financial Statements are prepared in accordance with accounting principles generally accepted in the U.S. (see Summary of Significant Accounting Policies in the Consolidated Financial Statements). The Company believes that of its significant accounting policies, those described below involve a high degree of judgment and complexity. These critical accounting policies require estimates and assumptions

that affect the amounts of assets, liabilities, revenues and expenses reported in the Consolidated Financial Statements. Due to their nature, estimates involve judgment based upon available information. Actual results or amounts could differ from estimates and the difference could have a material impact on the Consolidated Financial Statements. Therefore, understanding these policies is important in understanding the reported results of operations and the financial position of the Company.

Valuation of Securities and Other Assets. Substantially all financial instruments are reflected in the Consolidated Financial Statements at fair value or amounts that approximate fair value, these include: cash, cash equivalents, and securities purchased under agreements to resell; deposits with clearing organizations; securities owned; and securities sold but not yet purchased. Unrealized gains and losses related to these financial instruments are reflected in net earnings. Where available, the Company uses prices from independent sources such as listed market prices, or broker or dealer price quotations. Fair values for certain derivative contracts are derived from pricing models that consider current market and contractual prices for the underlying financial instruments or commodities, as well as time value and yield curve or volatility factors underlying the positions. In addition, even where the value of a security is derived from an independent market price or broker or dealer quote, certain assumptions may be required to determine the fair value. However, these assumptions may be incorrect and the actual value realized upon disposition could be different from the current carrying value.

**Deferred Tax Asset and Liability.** The Company recognizes deferred tax assets and liabilities for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company also establishes valuation allowances when necessary to reduce deferred tax assets to an amount that, in the opinion of management, is more likely than not to be realized. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income or the reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. As of September 30, 2003, based upon the projections for future taxable income, management believes it is more likely than not that the Company will realize the full benefits of these deductible differences and net operating loss carryforward.

#### **Off Balance Sheet Arrangements**

The Company s material off balance sheet arrangements are discussed in Note 10 to the Company s Consolidated Financial Statements.

#### **Effects of Inflation**

Because the Company s assets are, to a large extent, liquid in nature, they are not significantly affected by inflation. Increases in the Company s expenses, such as compensation and benefits, clearing and related expenses, occupancy and equipment rental, due to inflation, may not be readily recoverable from increasing the prices of services offered by the Company. In addition, to the extent that inflation results in rising interest rates or has other adverse effects on the securities markets and on the value of the securities held in inventory, it may adversely affect the Company s financial position and results of operations.

### ITEM 7. FINANCIAL STATEMENTS

The Company s consolidated financial statements are set forth on pages F-1 through F-25.

# ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

### ITEM 8A CONTROLS AND PROCEDURES

The Company maintains disclosure controls and procedures designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934, is recorded, processed, summarized and reported within the time period specified in the rules and forms of the Securities and Exchange Commission. Based upon their evaluation of those controls and procedures as of September 30, 2003, the Chief Executive Officer and Chief Financial Officer of the Company concluded that the Company s disclosure controls and procedures were adequate.

### **Stock Options Plans**

The International Assets Holding Corporation 2003 Stock Option Plan (the 2003 Plan ) was adopted by the Board of Directors of the Company on December 19, 2002 and approved by the Company s stockholders on February 28, 2003. The 2003 Plan expires on December 19, 2012. The International Assets Holding Corporation Stock Option Plan (the 1993 Plan ) was adopted by the Board of Directors of the Company and approved by the Company s stockholders on January 23, 1993 and expired on January 23, 2003. The 1993 Plan and the 2003 Plan (collectively the Plans ) permit the granting of stock options to employees, directors and consultants of the Company. Stock options granted under the Plans may be incentive stock options meeting the requirements of Section 422 of the Internal Revenue Code of 1986, as amended, or nonqualified stock options, which do not meet the requirements of Section 422. The Company is authorized to issue up to 750,000 shares of the Company s common stock under the 2003 Plan. As of September 30, 2003, options covering 445,000 shares of the Company s common stock under the 1993 Plan. As of September 30, 2003, the options covering 883,159 shares were outstanding under the 1993 Plan.

The Plans are administered by the Company s Board of Directors or a committee thereof. The Plans give broad powers to the Board of Directors to administer and interpret the Plans, including the authority to select the

individuals to be granted options and to prescribe the particular form and conditions of each option. The Plans require that all options be granted at an exercise price equal to the fair market value or 110% of the fair market value of the Company s common stock on the date of the grant. Awards may be granted pursuant to the 2003 Plan through December 19, 2012, unless the Board of Directors at its sole discretion elects to terminate the 2003 Plan earlier. The Company is not authorized to grant additional options under the 1993 Plan because it expired on January 23, 2003.

As of September 30, 2003, the Company had granted options for 822,500 shares of common stock which will become fully vested and non-forfeitable upon the occurrence of a change in control of the Company.

The employment agreements for Mr. O Connor and Mr. Branch each have an effective date of October 22, 2002 and terminate on October 21, 2005. The employment agreement for Mr. Cofrancesco has an effective date of October 1, 2002 and terminates on September 30, 2005. Under the terms of the employment agreements, each officer will receive specified annual compensation and other compensation. In particular, Mr. O Connor is entitled to an initial annual salary of \$175,000; Mr. Branch is entitled to an initial annual salary of \$175,000; and Mr. Cofrancesco is entitled to an initial annual salary of \$175,000. The annual salaries will be increased based on any percentage increase in the consumer price index or such greater amount as may be approved by the Board of Directors. The executives are also entitled to receive bonuses, stock options and other companyable to those provided by comparable companies to their senior executive officers. In the event of termination of the agreements by the Company other than for cause, or if the executive resigns as a result of a breach by the Company, each agreement provides for payments to the relevant officer in an amount equal to 100% of his total compensation for the longer of the remaining term of the agreement or 6 months.

The Company has entered into an employment agreement with Diego Veitia, the Company s Executive Chairman. The agreement commenced on October 1, 2002 and terminates on September 30, 2005. Under the agreement, Mr. Veitia receives an annual salary of \$12,000. He is also entitled to receive bonuses, stock options or other compensation as may be awarded by the Board of Directors, as well as life insurance, medical insurance, disability insurance, retirement and other benefits comparable to those provided by comparable companies to their senior executive officers. In the event of termination of the agreement by the Company other than for cause, or if Mr. Veitia resigns as a result of a breach by the Company, the agreement provides for payments to Mr. Veitia in an amount equal to 100% of his total compensation for the longer of remaining term of the agreement or 6 months.

### **Consulting Agreement with Veitia and Associates**

#### Independent Auditors Report

The Board of Directors

International Assets Holding Corporation and Subsidiaries:

We have audited the accompanying consolidated balance sheets of International Assets Holding Corporation and Subsidiaries (the Company) as of September 30, 2003 and 2002, and the related consolidated statements of operations, changes in stockholders equity and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of International Assets Holding Corporation and Subsidiaries at September 30, 2003 and 2002, and the results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

#### INTERNATIONAL ASSETS HOLDING CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

September 30, 2003 and 2002

(1) Summary of Significant Accounting Policies

(a) Principles of Consolidation

The consolidated financial statements include the accounts of International Assets Holding Corporation and its three wholly owned subsidiaries, INTL Trading, Inc. (INTL Trading), INTL Assets, Inc. and IAHC (Bermuda) Ltd (the Company).

All significant intercompany balances and transactions have been eliminated in consolidation.

INTL Trading, Inc. is registered as a broker/dealer under the Securities Act of 1934. Its securities transactions are cleared through Pershing LLC on a fully disclosed basis.

INTL Assets, Inc. is involved in international debt transactions and holds the physical assets of the Company.

IAHC (Bermuda) Ltd. maintains a proprietary international fixed income securities portfolio managed by the Company s fixed income traders.

International Assets Holding Corporation is engaged in precious metals trading and foreign exchange trading.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the period. Actual results could differ from those estimates.

#### (c) Cash and Cash Equivalents

Cash and cash equivalents consist of cash and cash deposits with brokers, dealers and clearing organization. Cash deposits with clearing organization consist of cash, foreign currency and money market funds stated at cost, which approximate market. The money market funds earn interest at varying rates on a daily basis. For purposes of the consolidated statements of cash flows, the Company considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents. The Company is subject to concentration of credit risk as a substantial portion of its cash and cash equivalents are maintained at a single financial institution.

#### (d) Foreign Currency

The value of a foreign currency, including a foreign currency sold, not yet purchased, is converted into its U.S. dollar equivalent at the foreign exchange rate in effect at the close of business for foreign currency held by the Company as of September 30, 2003 and 2002. For foreign currency transactions completed during the fiscal year, the foreign exchange rate in effect at the time of the transaction is utilized.

#### INTERNATIONAL ASSETS HOLDING CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements (Continued)

September 30, 2003 and 2002

(e) Financial Instruments

As of September 30, 2003 and 2002, the carrying value of the Company s financial instruments including cash, cash equivalents and cash deposits with clearing organization, receivables, accounts payable and accrued expenses approximate their fair values, based on the short-term maturities of these instruments. Additionally, the carrying value of securities owned and any securities and foreign currency sold, not yet purchased, approximate their fair values at September 30, 2003 and 2002 because they are based on market prices.

#### (f) Valuation of Securities

Each listed security is valued at the last reported sale price on that day. Listed securities not traded on an exchange that day, and other securities, which are traded in the over-the-counter market, are valued at the market s current bid price for securities owned and current asked price for securities sold, not yet purchased. The value of a foreign security is determined in the national currency of the principal exchange on which the security is traded, which value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect following the close of such exchange.

Limited partnership ownership interest is recorded at fair value, which has been determined by management. This limited partnership ownership interest is held for the Company s investing purposes and is not held for sale to the Company s customers.

#### (g) Revenue Recognition

The revenues of the Company are derived principally from realized and unrealized trading income in securities purchased or sold for the Company s account. Prior to December 13, 2001, revenues were also derived from commissions earned on the sale of securities and from management and investment advisory fees. Realized and unrealized trading income (net dealer inventory and investment gains) are recorded on a trade date basis. Commissions and related clearing expenses are recorded on a trade-date basis as securities transactions occur. Securities owned and securities sold, not yet purchased are stated at market value with related changes in unrealized appreciation or depreciation reflected in net dealer inventory and investment gains. Interest income is recorded on the accrual basis and dividend income is recognized on the ex-dividend date.

Included in other receivables and other revenue is \$100,000 and \$200,000 as of September 30, 2003 and 2002, respectively, related to the settlement of legal matters. The \$200,000 as of September 30, 2002 was collected in October 2002 and the \$100,000 as of September 30, 2003 was collected in October 2003.

#### (h) Depreciation and Amortization

Depreciation on property and equipment is calculated using the straight-line method over the estimated useful lives of the assets, which range from three to seven years. Leasehold improvements are amortized using the straight-line method over the estimated period of benefit to be received from the assets, which ranges from three to seven years.

Software development costs for internally developed software are capitalized, in accordance with the American Institute of Certified Public Accountants Statement of Position 98-1: *Accounting for the Costs of Computer Software Developed or Obtained for Internal Use*, and when management authorizes and commits to funding the project and it is probable that the project will be completed and the software will be used to perform its intended functions. Costs of software that have reached that stage of functionality are amortized using the straight-line method over the estimated period of benefit to be received from these costs, which ranges from two to three years.

#### INTERNATIONAL ASSETS HOLDING CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements (Continued)

September 30, 2003 and 2002

The Company assesses the recoverability of its capitalized software development costs on an ongoing basis in accordance with SFAS No. 144. The Company adopted SFAS No. 144 on October 1, 2002. The adoption of SFAS No. 144 did not have a material effect on the Company s financial statements.

In accordance with SFAS No. 144, long-lived assets, such as software development costs, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated or amortized. The assets and liabilities of a disposed group classified as held for sale would be presented separately in the appropriate asset and liability sections of the balance sheet.

Prior to the adoption of SFAS No. 144, the Company accounted for long-lived assets in accordance with SFAS No. 121, Accounting for Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of.

#### (i) Advertising

The Company expenses costs of advertising as incurred and have included these expenses in business development expenses in the accompanying consolidated statements of operations. Advertising costs for the years ended September 30, 2003 and 2002 were \$5,062 and \$11,139, respectively.

#### (j) Income Taxes

The Company files consolidated Federal and state income tax returns.

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Valuation allowances are established when necessary to reduce deferred tax assets to an amount that, in the opinion of management, is more likely than not to be realized.

#### (k) Stock-Based Employee Compensation

In October 1995, the Financial Accounting Standards Board (FASB) issued SFAS No. 123, *Accounting for Stock-Based Compensation*, which permits entities to recognize as expense over the vesting period the fair value of all stock-based awards calculated on the date of grant. Alternatively, SFAS No. 123 also allows entities to continue to apply the provisions of APB Opinion No. 25 which provides that compensation expense would be recorded on the date of grant only if the current market price of the underlying stock exceeded the exercise price and pro forma disclosures as if the fair-value-based method defined in SFAS No. 123 had been applied. The Company has elected to continue to apply the provisions of APB Opinion No. 25 and provide the pro forma disclosure provisions of SFAS No. 123.

```

#### INTERNATIONAL ASSETS HOLDING CORPORATION AND SUBSIDIARIES

#### Notes to the Consolidated Financial Statements (Continued)

#### September 30, 2003 and 2002

If the Company had determined compensation cost based on the fair value at the grant date for its stock options under SFAS No. 123, the Company s net income (loss) and earnings (loss) per share would be reflected in the pro forma amounts indicated below:

			2003	2002
Net income (loss)	As reported	\$ 1,2	264,385	(270,987)
	Pro forma	\$ 1,	028,068	(253,295)
Basic earnings (loss) per share	As reported	\$	0.34	(0.11)
	Pro forma	\$	0.28	(0.11)
Diluted earnings (loss) per share	As reported	\$	0.33	(0.11)
	Pro forma	\$	0.27	(0.11)

Pro forma net income (loss) reflects only options granted from 1996 to 2003. Therefore, the full impact of calculating compensation cost for stock options under SFAS No. 123 is not reflected in the pro forma net loss amounts presented above because compensation cost is reflected over the options expected life ranging from immediate vesting to 8.5 years and compensation cost for options granted prior to October 1, 1995 is not considered.

Pro forma net loss is less than the net loss reported for 2002 due to the net pro forma compensation benefit of \$292,857 arising from the cumulative adjustment for the cancellation of 311,686 options during 2002.

#### (1) Basic and Diluted Earnings (Loss) Per Share

Basic earnings (loss) per share have been computed by dividing net income (loss) by the weighted average number of common shares outstanding.

Options to purchase 879,284 shares of common stock were excluded from the calculation of diluted earnings per share for year ended September 30, 2003, because the exercise prices of these options exceeded the average market price of the common stock for the period (anti-dilutive).

Diluted loss per share is the same as basic loss per share because of the anti-dilutive impact of the potential common shares, due to the net loss for the year ended September 30, 2002. No options to purchase shares of common stock were considered in the calculation of diluted loss per share because of the anti-dilutive impact of the potential common shares, due to the net loss for the period.

Notes to the Consolidated Financial Statements (Continued)

September 30, 2003 and 2002

(m) Effects of Recently Issued Accounting Standards

In November 2002, the FASB issued Interpretation No. 45, *Guarantor s Accounting and Disclosure Requirement for Guarantees, Including Indirect Guarantees for Others.* The Interpretation addresses the disclosure to be made by a guarantor in its interim and annual financial statements about its obligations under guarantees. These disclosure requirements are included in the Commitments and Contingencies disclosure within the notes to the consolidated financial statements. The Interpretation also requires the recognition of a liability by a guarantor at the inception of certain guarantees. The Interpretation requires the guarantor to recognize a liability for the non-contingent component of the guarantee, which is the obligation to stand ready to perform in the event that specified triggering events or conditions occur. The initial measurement of this liability is the fair value of the guarantee at inception. The recognition of the liability is required even if it is not probable that payments will be required under the guarantee or if the guarantee was issued with a premium payment or as part of a transaction with multiple elements.

The Company has evaluated the provisions of Interpretation No. 45 and determined it has one disclosure item. In December 2001, as part of the sale described in Note 2, the Company assumed responsibility for any liabilities related to the institutional trading activity conducted by International Assets Advisory, LLC prior to the sale. The Company agreed to assume these liabilities as it transferred this activity to another subsidiary prior to the time of the sale. Accordingly, the buyer of the subsidiary did not acquire the institutional trading activity and did not receive any benefits from it.

In January 2003, the FASB issued Interpretation No. 46, *Consolidation of Variable Interest Entities*. The Interpretation addresses the consolidation of variable interest entities which are interests that are not required to be consolidated under existing accounting rules. Variable interest entities are identified by reviewing the Company s equity investment at risk within an entity, the Company s ability to make decisions about the activities of an entity, and the Company s obligation to absorb the losses or the right to receive expected residual returns of an entity. The Interpretation is effective for all new variable interest entities created or acquired after January 31, 2003. For variable interest entities created or acquired prior to February 1, 2003, the provisions of the Interpretation must be applied for the first interim or annual period beginning after June 15, 2003. Effective July 1, 2003, the Company adopted the Interpretation with no material impact on its consolidated financial statements.

In December 2002, the FASB issued SFAS No. 148, *Accounting for Stock-Based Compensation* Transition and Disclosure. This Statement amends SFAS No. 123, *Accounting for Stock-Based Compensation*, to provide alternative methods of transition for entities electing the fair value based method of accounting for stock-based employee compensation. This SFAS also requires additional and more prominent disclosure related to accounting methods used for stock-based employee compensation and pro forma amounts related to any period accounted for under the intrinsic method of Accounting Principle Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*. The Company has elected to continue to apply the provisions of APB Opinion No. 25 and provide pro forma information disclosure provisions of SFAS No. 123.

On April 30, 2003, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 149, *Amendments of Statement 133 on Derivative Instruments and Hedging Activities*. SFAS No. 149 amends and clarifies accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under SFAS No. 133. The new guidance amends SFAS No. 133 for decisions made as part of the Derivative Implementation Group (DIG) process that effectively required amendments by SFAS No. 133 and decisions made in connection with other FASB projects dealing with financial instruments and in connection with implementation issues raised in relation to the application of the

definition of a derivative and characteristics of a derivative that contains financing components. In addition, it clarifies when a derivative contains a financing component that warrants special reporting in the statement of cash flows. SFAS No. 149 is effective for contracts entered into or modified after June 30, 2003 and for hedging relationships designated after June 30, 2003. The adoption of this statement did not have a material impact on the Company s consolidated financial statements.

On May 15, 2003, the FASB issued SFAS No. 150, *Accounting for Certain Financial Instruments With Characteristics of Both Liabilities and Equity*. The statement requires issuers to classify as liabilities (or assets in some circumstances) three classes of freestanding financial instruments that embody obligations for the issuer. Generally, the statement is effective for financial instruments entered into or modified after May 31, 2003 and is otherwise effective as the beginning of the first interim period beginning after June 15, 2003. The Company adopted the provisions of the statement on June 28, 2003. The Company did not enter into any financial instruments within the scope of the statement during June 2003. Additionally, the Company had no existing financial instruments that were entered into on or before May 31, 2003 that fell under the provisions of the statement. As a result the adoption of this statement did not have a material impact on the Company's consolidated financial statements.

#### (n) Reclassification

Certain amounts in the 2002 financial statements have been reclassified to conform with the 2003 presentation.

#### (2) Sale of Certain Operations

On December 13, 2001 the Company sold all of its interests in two wholly owned subsidiaries, International Assets Advisory, LLC (IAA) and Global Assets Advisors, LLC (GAA), and its 50% interest in International Assets New York, LLC (IANY). These entities were engaged in retail securities brokerage and investment management. In connection with this transaction, the Company issued 80,000 shares of the Company s common stock to the buyer. The Company received \$907,240 from these transactions. The Company allocated \$827,240 of this amount to the sale of its interests in IAA, GAA and IANY. The Company allocated the remaining \$80,000 to the sale of its common stock based on its fair market value at the date of issuance. The Company had a book basis of \$414,231 related to the sale of its interests in IAA, GAA and IANY. The Company recorded a gain of \$413,009 from the sale during 2002, which was determined by deducting the book basis of \$414,231 from the proceeds of \$827,240.

The book value of the assets sold on December 13, 2001 are as follows:

Other receivables	\$ 64,060
Other assets	211,146
Property and equipment	139,025
Total	\$ 414,231

The December 2001 sale included the Company s retail brokerage activity. Commission revenues from this retail activity were \$393,646 for the year ended September 30, 2002. Management did not operate, monitor or specifically allocate expenses to, this activity in a manner which would allow the Company to determine the profitability of this activity.

#### September 30, 2003 and 2002

The December 2001 sale included the Company s investment management activity. Revenues from this activity were \$6,292 for the year ended September 30, 2002. The investment management activity was directly related to the retail brokerage activity, and utilized substantially the same sales staff, facilities, operations and research support. It was separated from the retail brokerage activity for purposes of securities licensing and regulation.

#### (3) Commission Revenue and Wholesale Commission Expense

Commission revenues of \$1,124,513 reported for the year ended September 30, 2003, were primarily related to introducing broker fees that the Company received in connection with its wholesale debt trading activities.

#### (4) Agreements for Sale of Preferred Stock and Change in Management

On October 22, 2002, the Company entered into three Share Subscription Agreements (the Subscription Agreements) with three individual investors for the sale of common shares and preferred shares. On December 6, 2002, the Company and three investors amended the Subscription Agreements to provide for the purchase of only shares of Series A preferred stock and the parties completed the transaction on the same date. Under the terms of the amended agreements, the Company sold 2,187,500 Series A preferred shares at a price of \$1.70 per share, or an aggregate price of \$3,718,750. The Company received \$3,510,571 in cash from the transaction, after deducting transaction costs of \$208,179 paid in cash. The Company also paid an additional \$75,000 in transaction costs through the issuance of 44,117 shares of the Company s common stock. The

Subscription Agreements provided that the Series A preferred shares would be converted into shares of the Company s common stock upon the approval of the Company s shareholders. The Company s shareholders approved the conversion on February 28, 2003. On the same day, the 2,187,500 Series A preferred shares were converted into common shares on a one-for-one basis.

Pursuant to the Subscription Agreements, the Company agreed to appoint each of the new investors to its Board of Directors and the Company also agreed to appoint one of the new investors as Chief Executive Officer and another as President. The Company has entered into employment agreements with both of these individuals. In connection with the transactions contemplated by the Subscription Agreements, the shareholders also approved a new stock option plan and an amendment of the Company s Certificate of Incorporation to require the vote of at least 75% of the Company s shareholders to remove or change the Company s Chairman of the Board.

#### (6) Related Party Transactions

On August 28, 2000 the Company made a loan to a Vice President of the Company evidenced by a \$66,000 promissory note. The note was initially due on August 27, 2001, and was subsequently extended. The promissory note includes interest of 6.27 percent per annum. On March 31, 2003, the then remaining loan balance was paid in full.

On February 1, 2002, the Company executed a six-month contract for investor relations services from an outside firm that is owned and managed by a cousin of the Executive Chairman of the Company. The contract provided for fees of \$5,000 per month plus reimbursement for reasonable expenses related to the performance of the service contract. This contract terminated on July 31, 2002 at the end of its the six-month term.

On August 9, 2002, the Board of Directors of the Company agreed to execute a list broker agreement between Veitia & Associates (V&A) and the Company regarding the management and leasing of the Company s list rental access, for the period October 1, 2002 to December 13, 2004. V&A will receive 90% of any proceeds generated by V&A from this agreement. V&A is a company solely owned and controlled by the Executive Chairman of the Company. During the year ended September 30, 2003, V&A received \$7,030 under this agreement.

On August 9, 2002, the Board of Directors of the Company decided to terminate the Company s efforts to create a proprietary hedge fund. The legal fees for this project up to August 9, 2002, were approximately \$15,000. The Board of Directors has granted V&A access to a copy of the hedge fund legal work for this project.

In November 2002, the Company made a \$20,000 contribution to a not-for-profit foundation established by the Executive Chairman of the Company. The sole purpose of the foundation is making charitable contributions, mostly in the form of education scholarships.

The Company has paid V&A a travel lodging per diem to reimburse the Chairman for corporate related travel to New York City. The Executive Chairman personally maintains a part-time residence in New York City. This per diem offsets the cost that the Company would have been incurred for hotel expense. The total amount paid to V&A was \$0 and \$4,000 for the years ended September 30, 2003 and 2002, respectively.
