Item 2. Acquisition or Disposition of Assets

On April 16, 2004, World Fuel Services Corporation (the Company or World Fuel) filed a Current Report on Form 8-K with the Securities and Exchange Commission and reported the April 2, 2004 purchase of all of the outstanding shares of Tramp Holdings Limited (THL), a United Kingdom corporation, and shares of Tramp Group Limited (TGL), a United Kingdom corporation and subsidiary of THL, which were not otherwise held by THL prior to the Company's purchase of THL. In addition, the Company issued approximately 19 thousand shares of its stock to one of the sellers of THL as restricted stock, which vest after 5 years. The fair value of these restricted shares was based on the market value of the Company's stock at acquisition date and represented additional purchase price. The aggregate purchase price of these acquisitions was approximately \$86.2 million, including \$1.1 million in acquisition costs. On a preliminary basis, we identified intangible assets of approximately \$7.6 million relating to customer relations. Also on a preliminary basis, goodwill, representing the cost in excess of net assets acquired, totaled approximately \$6.0 million.

This report amends Item 7 Financial Statements and Exhibits filed on April 16, 2004, to include the Financial Statements of the Business Acquired and the Pro Forma Financial Information required by Item 7.

FINANCIAL STATEMENTS

The directors present their report and financial statements for the year ended 31st January 2004.

DIRECTORS RESPONSIBILITIES

Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and the group and of the profit or loss of the group for that period. In preparing those financial statements, the directors are required to:

select suitable accounting policies and then apply them consistently;

make judgements and estimates that are reasonable and prudent;

state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and

prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for maintaining proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

FINANCIAL RESULTS AND DIVIDENDS

The results of the group for the year and amounts transferred to reserves are set out on page 4.

An amount of £2,294,026 (2003: £2,085,478) has been charged in respect of dividends on the 10% cumulative preference shares of £1 each. The directors do not recommend payment of any dividends this year (2003: £nil) and accordingly the liability to pay these dividends has been included in a redemption reserve.

PRINCIPAL ACTIVITY

The principal activities of the group during the year were those of oil trading and distribution, ship chartering and agency and ship owning.

The principal activity of the company for the year remained that of providing administration and financial services for its subsidiary undertakings.

TRAMP HOLDINGS LIMITED**DIRECTORS REPORT****for the year ended 31st January 2004****REVIEW OF THE BUSINESS AND FUTURE DEVELOPMENTS**

The consolidated results show a good recovery over the previous year notwithstanding the continuing decline in the value of the US dollar. Forward sales of the dollar during the year offset the sharp decline seen in the second half of the year. Margins continued to be under pressure but an increase in the volume of oil supplied by the principal trading companies more than compensated for these difficult conditions.

Looking to the future, the directors believe that the group's strong presence in the Far East will enable it to participate in the positive impact on shipping caused by the growth of Chinese related trade and the recent increase in physical supply activities in the UK will enhance both the profitability of its UK operations and the overall profile of the group in international shipping. While the bunker markets remain competitive, the group is well placed to continue its growth and has put in place internal arrangements which should ensure a focused approach in the current year.

More detailed comments on individual company results and developments are dealt with in the directors' reports of those companies.

DIRECTORS

The interests of the directors, who both served throughout the year, in the share capital of the company were as follows:

	31st January 2003 and 2004
10% cumulative preference shares of £1 each	
C C Carlsen	4,980,000
J R Cole	
Ordinary shares of £1 each	
C C Carlsen	620,000
J R Cole	80,000

Basis of translation of foreign currencies

At the year end all foreign currency assets and liabilities of the group and company are translated at the applicable rates of exchange ruling on that date. The results of overseas subsidiary undertakings are translated into sterling at the year end rates. Exchange differences which arise from the translation at rates different from those used in the previous year's financial statements of the share capital and reserves of overseas subsidiary undertakings are dealt with through reserves. Exchange profits and losses on trading transactions are included in the group's trading profits.

Turnover

Turnover is the amount derived from the provision of goods and services falling within the group's ordinary activities after deduction of trade discounts and value added tax.

Deferred taxation

Deferred tax liabilities are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date. Deferred tax assets are recognised to the extent they are considered recoverable. Deferred tax balances are not discounted.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation and any provision for impairment. All repairs are written off as incurred. Depreciation is provided on a straight-line basis over the estimated useful lives of the assets.

The estimated useful lives are:

The 10% cumulative preference shares were issued on the terms that the preference dividend entitlement shall be calculated from 28 December 1986. The resultant cumulative entitlement from that date, net of dividends already paid, £80,000 (2003: £80,000) amounts to £20,254,284 (2003: £17,960,258). The company's articles of association do not require that this entitlement be settled at any time, other than in a winding up or reduction of capital, and if no preference dividend is determined by the directors, the company remains able to declare dividends on its ordinary shares of £1 each.

On a winding up assets available to members will be applied first in repaying the nominal amount paid up on the preference shares along with the arrears of preference dividends.

DIRECTORS REPORT

for the year ended 31st January 2003

DIRECTORS

C C Carlsen (Chairman)

FINANCIAL STATEMENTS

The directors present their report and financial statements for the year ended 31st January 2003.

DIRECTORS RESPONSIBILITIES

Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and the group and of the profit or loss of the group for that period. In preparing those financial statements, the directors are required to:

select suitable accounting policies and then apply them consistently;

make judgements and estimates that are reasonable and prudent;

state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and

prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for maintaining proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

FINANCIAL RESULTS AND DIVIDENDS

The results of the group for the year and amounts transferred to reserves are set out on page 4.

An amount of £2,085,478 (2002: £1,895,889) has been charged in respect of dividends on the 10% cumulative preference shares of £1 each. The directors do not recommend payment of any dividends this year (2002: £nil) and accordingly the liability to pay these dividends has been included in a redemption reserve.

PRINCIPAL ACTIVITY

The principal activities of the group during the year were those of oil trading and distribution, ship chartering and agency and ship owning.

The principal activity of the company for the year remained that of providing administration and financial services for its subsidiary undertakings.

TRAMP HOLDINGS LIMITED**DIRECTORS REPORT****for the year ended 31st January 2003****REVIEW OF THE BUSINESS AND FUTURE DEVELOPMENTS**

The consolidated results show a fall in profits over the previous record year but in the context of difficult trading conditions, very competitive markets and a significant fall in the value of the US dollar, the group's main trading currency, the performance demonstrated the underlying strength of the group. Volume of oil supplied was only marginally down on the previous year which, in a contracting market, indicates an increased market share. Margins were squeezed by currency weakness and lack of demand for bunkers.

As the year progressed trading conditions became more favourable and this improvement has carried over into the current year.

During the year the group made some important moves in establishing new offices which should begin to contribute towards profits in the current year. While conditions remain challenging, the directors believe that changes implemented during the year will enhance opportunities for future profits growth and are confident that the current year will see a resumption in growth of both volume of oil supplied and profits.

DIRECTORS

The interests of the directors, who both served throughout the year, in the share capital of the company were as follows:

	31st January 2002 and 2003
10% cumulative preference shares of £1 each	
C C Carlsen	4,980,000
J R Cole	
Ordinary shares of £1 each

NOTES TO THE FINANCIAL STATEMENTS

1 ACCOUNTING POLICIES

Basis of accounting

The financial statements are prepared under the historical cost convention and are in accordance with applicable accounting standards.

Basis of consolidation

All group companies are consolidated. Tramp Oil Schiffahrts und Handels GmbH, Tramp Oil Schiffahrts und Handels GmbH & Co KG and Tramp Oil (Brasil) Ltda have been consolidated based on the accounts for the year ended 31st December 2002.

Basis of translation of foreign currencies

At the year end all foreign currency assets and liabilities of the group and company are translated at the applicable rates of exchange ruling on that date. The results of overseas subsidiary undertakings are translated into sterling at the year end rates. Exchange differences which arise from the translation at rates different from those used in the previous year's financial statements of the share capital and reserves of overseas subsidiary undertakings are dealt with through reserves. Exchange profits and losses on trading transactions are included in the group's trading profits.

Turnover

Turnover is the amount derived from the provision of goods and services falling within the group's ordinary activities after deduction of trade discounts and value added tax.

Deferred taxation

Deferred tax liabilities are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date. Deferred tax assets are recognised to the extent they are considered recoverable. Deferred tax balances are not discounted.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation and any provision for impairment. All repairs are written off as incurred. Depreciation is provided on a straight-line basis over the estimated useful lives of the assets.

The estimated useful lives are:

Fixtures, fittings and equipment	-	3-5 years
Plant and machinery	-	4-5 years
Short leasehold	-	10 years
Freehold property	-	10 years

NOTES TO THE FINANCIAL STATEMENTS

1 ACCOUNTING POLICIES *continued*

Investments

(i) Fixed assets

Fixed asset investments are stated at cost less provision for impairment. The investments in ships are written off at rates of 5% to 14% of cost per annum in accordance with the taxation laws of Denmark.

(ii) Current assets

Current asset investments are stated at the lower of cost and net realisable value.

Stock

Stock, consisting of oil products in hand and contracted for under irrevocable purchase orders, is valued at the lower of cost, on a first in first out basis, and net realisable value.

Pension costs

The group continues to operate a group personal pension plan and a death benefit scheme for which contributions are charged to the profit and loss account in the period for which they are paid. The liability of the group is limited to the contributions paid in the year.

2 TURNOVER AND OPERATING PROFIT

Turnover and operating profit information has not been disclosed as in the opinion of the directors the disclosure of turnover and operating profit by class of business and geographical area would be prejudicial to the interests of the group.
