Item 1.01. Entry into a Material Definitive Agreement.

In 1999, the Board of Directors of Vintage Petroleum, Inc. (the Company) established the Vintage Petroleum, Inc. Discretionary Performance Bonus Program (as amended, the Program). The purpose of the Program is to enhance stockholder value by providing eligible employees of the Company, including executive officers, with an added incentive to achieve specific annual targets and goals. The Program also allows the Company to remain competitive with its peers in attracting and retaining qualified personnel. The targets and goals are approved by the Board of Directors. In 2005, the Company's executive officers and all other U.S. employees are eligible for cash incentive awards under the Program. Each executive officer of the Company is eligible to earn an individual award expressed as a percentage of base salary paid during the Program year. Executive officer cash incentive award opportunities vary by level of responsibility. There is no minimum incentive award. The maximum percentage of base salary payable as a cash incentive award is 75%, 105% or 150%, depending on the executive officer's position. Awards may be granted if specified Company financial and operating performance targets and individual performance levels are achieved and the Board of Directors determines to grant such bonuses.

On March 16, 2005, the Board of Directors established the targets and goals for 2005 under the Program. During 2005, Company financial and operating performance targets are based on the Company's production, production replacement, lease operating costs, and reserve additions through acquisitions. The individual performance levels are based on the Company's performance evaluation system. The weighting between the Company targets and the individual performance levels vary depending on the executive officer's position.
