Particular

Matters reported:

1. Report on the Business Report, Consolidated Balance Sheets, Consolidated Statements of Income, Unconsolidated Balance Sheets and Unconsolidated Statements of Income for the 81st Fiscal Year (from April 1, 2004 to March 31, 2005)
2. Report on the results of the audit of the consolidated financial statements for the 81st Fiscal Year (from April 1, 2004 to March 31, 2005) by the independent auditors and the Board of Corporate Auditors
3. Report on the purchase of its own shares pursuant to resolutions of the Board of Directors based on the authorization under the Articles of Incorporation of the Company.

The contents of these documents were reported.

Matters resolved:

Proposal 1: Approval of Proposal for Appropriation of Retained Earnings for the 81st Fiscal Year

The proposal was approved in its original form, and a year-end dividend for the fiscal year under review shall be ¥37 per share.

Proposal 2: Partial Amendments to the Articles of Incorporation

The proposal was approved in its original form, and the contents of the amendments are as follows:

Prior to Change

Chapter II. Shares

(Total number of shares authorized to be issued by the Company)

Article 5. The total number of shares authorized to be issued by the Company shall be 3,600,000,000 shares; provided,

however, that in case any retirement of shares is made, the number of authorized shares shall be decreased correspondingly by the number of shares so retired.

Post-Change

Chapter II. Shares

(Total number of shares authorized to be issued by the Company)

Article 5. The total number of shares authorized to be issued by the Company shall be 3,554,000,000 shares; provided, however, that in case any retirement of shares is made, the number of authorized shares shall be decreased correspondingly by the number of shares so retired.

Chapter IV. Directors and Board of Directors
(Number of Directors)

Article 18. Directors of the Company shall be not more than forty-five in number.

Chapter IV. Directors and Board of Directors
(Number of Directors)

Article 18. Directors of the Company shall be not more than thirty in number.

Table of Contents

Proposal 3: Election of twenty one (21) Directors

The proposal was approved in its original form, and 21 directors, Mr. Takeo Fukui, Mr. Michiyoshi Hagino, Mr. Minoru Harada, Mr. Motoatsu Shiraishi, Mr. Satoshi Aoki, Mr. Satoshi Dobashi, Mr. Atsuyoshi Hyogo, Mr. Satoshi Toshida, Mr. Koki Hirashima, Mr. Koichi Kondo, Mr. Toru Onda, Mr. Akira Takano, Mr. Mikio Yoshimi, Mr. Shigeru Takagi, Mr. Hiroshi Kuroda, Mr. Satoru Kishi, Mr. Hiroyuki Yoshino, Mr. Tetsuo Iwamura, Mr. Tatsuhiro Oyama and Mr. Fumihiko Ike, were all re-elected and they have assumed their posts. In addition, Mr. Kensaku Hogen was newly elected and he has assumed his post.

Proposal 4: Election of One (1) Corporate Auditor

The proposal was approved in its original form, and a Corporate Auditor, Mr. Shinichi Sakamoto was newly elected, and he has assumed his post.

Proposal 5: Election of Independent Auditor

The proposal was approved in its original form, and Independent Auditor, KPMG AZSA & Co. was newly elected and they have assumed their post.

Proposal 6: Revision of Amount of Remuneration Payable to Directors

It was approved, in its original form, that the amount of remuneration to the Directors was revised to sixty million yen (¥60,000,000) or less per month.

Proposal 7: Payment of Bonus to Directors and Corporate Auditors for the 81st Fiscal Year

It was approved, in its original form, that the total amount of bonus to be paid to the 36 Directors as of March 31, 2005 shall be six hundreds and sixty-eight million yen (¥668,000,000) and the total amount of bonus to be paid to the five Corporate Auditors as of March 31, 2005 shall be fifty-two million yen (¥52,000,000) and that the amount of bonus payable to each of the Directors will be determined by the Board of Directors and the amount of bonus payable to each of the Corporate Auditors will be determined by the consultation among the Corporate Auditors.

Table of Contents

Proposal 8: Presentation of Retirement Allowance to Retiring Directors and Corporate Auditors for Their Respective Services.

It was approved, in its original form, that monetary rewards be given to the Directors, Mr. Koichi Amemiya, Mr. Yasuo Ikenoya, Mr. Takanobu Ito, Mr. Masaaki Kato, Mr. Akio Hamada, Mr. Teruo Kowashi, Mr. Takashi Yamamoto, Mr. Masaru Takabayashi, Mr. Suguru Kanazawa, Mr. Manabu Nishimae, Mr. Masaya Yamashita, Mr. Hiroshi Kobayashi, Mr. Kazuo Sagawa, Mr. Kazuto Iiyama, Mr. Hiroshi Oshima, and Mr. Sho Minekawa, who are to resign from office at the close of this meeting, for the meritorious services that they have rendered to the Company, pursuant to the past practice of the Company and in accordance with the Company's bylaws on the retirement allowance of Directors and that decisions on the amount of money, time and method of payment of such monetary rewards be entrusted to the Board of Directors as to the retiring Directors.

At the meeting of the Board of Directors following the Ordinary General Meeting of Stockholders, Representative Directors and Directors were re-elected, and they have assumed their posts.

**Honda FCX Becomes Japan's First Fuel Cell Vehicle to Receive
Motor Vehicle Type Certification from
the Japanese Ministry of Land, Infrastructure and Transport**

June 17, 2005 Honda Motor Co., Ltd. announced today that the FCX has become one of the first fuel cell vehicles in Japan to receive motor vehicle type certification from the Japanese Ministry of Land, Infrastructure and Transport. On March 31, 2005 the Japanese Ministry of Land, Infrastructure and Transport became the world's first government body to enact safety and environmental standards for vehicles powered by pressurized hydrogen, and the FCX received prompt certification. Until now, certification by the Minister of Land, Infrastructure and Transport was granted to individual fuel cell vehicles for the purpose of testing on public roads. By obtaining this certification, which is for vehicles intended for public sale, the FCX has moved one step closer to the mass production stage.

Honda has delivered a total of 19 FCX fuel cell vehicles to customers in the US and Japan since December 2002, when they delivered FCX vehicles both to the Japanese Cabinet Office and the City of Los Angeles on the same day. Honda has also leased vehicles to the State of New York, the Hokkaido Prefectural Government in northern Japan, customers in regions that experience sub-freezing winter temperatures, attesting to the practicality of the FCX in an expanding range of environments.

The FCX is the world's only fuel cell vehicle to have received both EPA (Environmental Protection Agency) and CARB (California Air Resources Board) certification in July 2002, which are prerequisites for commercial use in the U.S. Honda plans to make the FCX available for lease to private individuals in the U.S. sometime this year.

FCX Fuel Cell Vehicle

Honda and Nagoya University Jointly Isolate Rice Gene;

Research Effort Will Greatly Increase Crop Yields

Tokyo, June 23, 2005 Honda Research Institute Japan Co., Ltd. (HRI-JP), a subsidiary of Honda R&D Co., Ltd., and Nagoya University became the first in the world to successfully isolate a gene which dramatically increases the crop yield of a rice plant.

The gene, named Gnl1a, is one of the genes involved in cytokinin degradation, which has an important role in the growth of plants. Cytokinin is a bioactive substance that triggers anthogenesis and facilitates growth of the flower bud. Enzymes produced by the Gnl1a gene degrade cytokinin. The joint research determined that when this enzyme activity is low the number of rice grains increases, thus increasing crop yield. This is the first time in the world a gene that directly controls rice crop yields has been identified, and the findings will be published through an online version of *Science*, an American scientific journal, June 23, 2005, as well as in the original journal in the following weeks.

In 2002, Honda and Nagoya University successfully isolated a semi-dwarfing gene called sd1 which reduces the height of rice plants and contributes to the effort to increase the yields. For the latest research, HRI-JP and Nagoya University cultivated Koshihikari, the most popular type of rice in Japan, bred to have both sd1 and Gnl1a genes. Crop yields of this plant increased 23%, and higher resistance against plants falling over was demonstrated as well. Utilizing the effects of these genes, in the future it may no longer be a dream to achieve a substantial increase in crop yields for all breeds of rice plants cultivated around the world.

Experts say that crop yields of all cereals including rice must be increased over 50% in order to circumvent a potential global food crisis in the near future. Rice is an important crop serving as a food staple for approximately half of the world's population. Increasing rice crop yields can lead the way to avoid a global food shortage. As other major cereal crops such as corn and wheat also have a similar genetic structure, the latest findings by HRI-JP and Nagoya University may be applicable to other crops.

Honda has been committed to addressing issues of environmental protection and energy conservation and has been conducting multidimensional efforts leading to the development of technologies for improvement of fuel efficiency evolved from Honda's VTEC technology, hybrid engine technology and fuel-cell technology. As part of its Commitment for the Future, Honda is pursuing its R&D efforts in a new area of science technology of this century genome science by building a foundation in the research of rice, which is a model plant for plant genetic research.

Honda Automobile (China) Co., Ltd. Begins Auto Exports

Guangzhou, June 24, 2005 Honda Automobile (China) Co., Ltd. (CHAC), an export automobile production joint venture of Honda Motor Co., Ltd., Honda Motor (China) Investment Co., Ltd., Guangzhou Auto Group Co., Ltd. and Dongfeng Motor Group Co., Ltd. today began exports to Europe of the compact passenger car Jazz.

Ceremonies to commemorate the start of export operations were held today at Xinsa Port in Guangzhou. A number of dignitaries and guests attended the ceremonies including Mr. Lin Shusen, the Secretary of the CPC Guangzhou City Committee; Mr. Lin Yuanhe, the Executive Vice Mayor of Guangzhou City; Mr. Ling Weixian, the director of GETDD (Guangzhou Economic and Technological Development District) administrative committee; Mr. Xue Xiao Feng, the secretary-general of the CPC Guangzhou City Committee; as well as Mr. Atsuyoshi Hyogo, Senior Managing Director and COO of China Regional Operations for Honda Motor Co., Ltd.; Mr. Zhang Fangyou, Chairman of Guangzhou Auto Group Co., Ltd. Attendees observed the first shipment of 150 units of the Jazz manufactured by CHAC loaded onto a car carrier ship.

CHAC began mass production of the Jazz in April 2005, as the first auto production plant in China dedicated exclusively to exports. CHAC expects to manufacture approximately 10,000 units of the Jazz in 2005. Every vehicle produced by CHAC will be exported to European markets, including Germany, and marketed through local Honda subsidiaries.

CHAC is leveraging the production know-how and parts procurement network established by Honda's existing automobile production joint ventures Guangzhou Honda Automobile Co., Ltd. and Dongfeng Honda Engine Co., Ltd. and increases competitiveness in the areas of quality and cost by leveraging economies of scale achieved through the relationship with them. CHAC is the first passenger car maker in China to begin full-scale exports to European markets.

I About Honda Automobile (China) Co., Ltd. (CHAC)

Established:	September 2003
Capital Investment:	US\$ 82 million
Capitalization Ratio:	55% Honda Motor Co., Ltd. 10% Honda Motor (China) Investment Co., Ltd. 25% Guangzhou Auto Group Co., Ltd. 10% Dongfeng Motor Group Co., Ltd.
Location:	Export Processing Zone in the Guangzhou Economic & Technological Development District
Representative:	Atsuyoshi HYOGO, Chairman Hironori KANAYAMA, President CHEN Maoshan, Vice President
Employment:	Approximately 600 associates
Start of Production:	April 2005
Production Model:	Jazz (for export to European markets)

Edgar Filing: HONDA MOTOR CO LTD - Form 6-K

Annual Capacity: 50,000 units (2005 production plan: approximately 10,000 units)

Domestic Sales & Production on Rise; Worldwide Production Sets May Record

Tokyo, June 29, 2005 Honda Motor Co., Ltd. today announced production, domestic sales and export results for the month of May 2005. In addition to increased domestic sales and production in May, Honda achieved all-time May records for overseas and worldwide production.

Domestic production in May increased 11.8% compared to the same month a year ago due to strong domestic sales and exports. It is the seventh consecutive month that domestic production exceeded the monthly total from a year ago. Overseas production increased 15.6% compared to the same month a year ago, exceeding the total from the previous year for the 16th consecutive month. Production in Asia remains strong, increasing 25.9% in May compared to a year ago, while production in the U.S. also increased 20.1% compared to last year. With the continued increase in domestic production and the Asia and North America regions setting all-time May production records, Honda established a new record for overseas and worldwide production for the month.

Total domestic sales for the month of May increased 9.1% compared to the same month a year ago, due mainly to strong sales of mini-vehicles including the Life and That's models. Sales of mini-vehicles increased 23.5% compared to the same month last year. Life was Honda's best-selling car for the month on sales of 13,009 units. The Fit and Step WGN, with sales of 8,775 and 5,983 units, respectively, were Honda's second and third best-selling models. Honda's all-new Airwave compact station wagon introduced in April was the fourth best selling model in May with sales of 4,671 units.

Total exports in May increased 14.3% compared to the same month a year ago, exceeding the previous year's record for the ninth consecutive month. Continued strong sales of the Jazz in Europe (Fit in Japan) as well as the Accord Hybrid and Acura RL in North America contributed to the overall increase in exports.
