### **WELLPOINT REPORTS RESULTS FOR THIRD QUARTER 2005**

**Medical enrollment reached approximately 29 million members, increasing by more than 1.5 million members over comparable prior year**

**Net income was \$1.02 per share, an increase of 20 percent over prior year period**

**Operating cash flow reached \$928 million, or 1.4 times net income**

**Board of Directors increased share repurchase authorization from \$1 billion to \$2 billion, upon closing of pending merger with WellChoice, Inc.**

**Indianapolis, IN** October 26, 2005 WellPoint, Inc. (NYSE: WLP) today announced that third quarter 2005 net income reached \$640.7 million, or \$1.02 per share. Net income for the third quarter of 2004 was \$242.1 million, or \$0.85 per share.

Our third quarter results further build upon a very successful year in which we have delivered more products and services to our members than ever before, said Larry C. Glasscock, president and chief executive officer of WellPoint, Inc. We expect that our new Medicare products will be well received in the marketplace as they will offer access to more affordable health and prescription drug plan options than previously available. We are also anticipating good National Accounts growth, having already secured a number of new accounts for the first of the year.

Also as we look forward, we are very excited about our pending merger with WellChoice. The combined company should be ideally positioned to offer our respective customers more innovative and cost effective solutions to help meet their health care needs than either company could accomplish alone, added Glasscock.

## **COMPARABLE BASIS INFORMATION**

*On November 30, 2004, Anthem, Inc. acquired WellPoint Health Networks Inc. and Anthem, Inc. changed its name to WellPoint, Inc. Accordingly, third quarter and year-to-date 2005 financial results include operations of both legacy companies for the entire periods. Third quarter and year-to-date 2004 financial results, however, only include operations of the former Anthem, Inc. Unless otherwise indicated, the analysis in this press release compares reported financial results to historical financial results, as reclassified to conform to current presentation, and does not adjust results for the effects of the acquisition.*

*In certain areas, we have included comparable basis analyses that we believe provide more meaningful comparisons between periods, due to the inclusion of operations for the former WellPoint Health Networks Inc. in the comparable historical results. The comparable, historical information is not calculated in accordance with generally accepted accounting principles ( GAAP ) and is not intended to represent or be indicative of the results that WellPoint, Inc. would have reported had the acquisition been completed as of the dates presented, and should not be taken as representative or indicative of our future results. The methodologies for calculating the comparable, historical information are either described within the text of the press release, or in the tables at the end of the press release where such comparable historical information is reconciled to the historical GAAP information of the former Anthem, Inc. and the former WellPoint Health Networks Inc. Comparable, historical information and reconciliations for the quarterly and year-to-date periods ended March 31, 2004, and June 30, 2004, are available at [www.wellpoint.com](http://www.wellpoint.com) under Investor Info.*

## CONSOLIDATED HIGHLIGHTS

**Membership:** Medical enrollment reached approximately 29 million members at September 30, 2005, an increase of 16.3 million members since September 30, 2004.

On a comparable basis, medical enrollment increased by more than 1.5 million members, or 5.6 percent, compared with 27.4 million members at September 30, 2004. Enrollment growth was realized in every region and across all lines of business, led by the National Accounts and Large Group operations. The Company added 145,000 new members during the third quarter of 2005.

Self-funded membership represented approximately 50 percent of enrollment at September 30, 2005, versus 47 percent of comparable enrollment at September 30, 2004. On July 1, 2005, approximately 140,000 members in the Georgia state HMO account converted from fully-insured to self-funded status.

**Operating Revenue:** Operating revenue approached \$11.2 billion, an increase of 135.6 percent from \$4.7 billion in the third quarter of 2004.

Operating revenue increased by \$592.6 million on a comparable basis, representing growth of 5.6 percent, compared with \$10.6 billion in the third quarter of 2004. The increase was driven primarily by strong membership gains and disciplined pricing in the Individual and Small Group ( ISG ) and National Accounts businesses.

**Benefit Expense Ratio:** The benefit expense ratio was 79.9 percent, a decrease of 280 basis points, compared with 82.7 percent in the third quarter of 2004.

On a comparable basis, the benefit expense ratio declined by 170 basis points, compared with 81.6 percent in the third quarter 2004, reflecting lower than anticipated medical costs in the current year.

**Premium and Cost Trends:** *Trends include Large Group and ISG fully-insured businesses and are calculated on a comparable basis, including the former Anthem, Inc. and the former WellPoint Health Networks Inc. for all applicable periods.*

Medical trend for full year 2005 is now expected to be less than 8.5 percent. For the rolling 12 month period ended September 30, 2005, the highest rate of increase in medical trend was in outpatient services and costs. Commercial premium yield for full year 2005 is expected to be approximately equal to total cost trend, where total cost trend includes medical costs and selling, general and administrative ( SG&A ) expense.

**SG&A Expense Ratio:** The SG&A expense ratio increased by 10 basis points, to 16.6 percent, compared with 16.5 percent in the third quarter of 2004.

On a comparable basis, the SG&A expense ratio increased by 70 basis points, compared with 15.9 percent in the prior year period. The increase reflected higher incentive compensation, including merger-related stay bonuses. Also impacting results were costs associated with the transition of information technology infrastructure services to an external vendor, which is expected to reduce future operating costs. During the third quarter, the Company achieved its targeted merger synergies of at least \$40.0 million, net of the costs incurred to achieve those synergies.

**Operating Cash Flow:** Operating cash flow reached \$928.3 million, or 1.4 times net income.

**Days in Claims Payable:** Days in claims payable as of September 30, 2005, was 46.7 days, unchanged from June 30, 2005.

**Share Repurchase Program:** The Company did not repurchase any shares of its common stock during the third quarter, due to trading restrictions placed on the Company during its merger negotiations with WellChoice, Inc. During the first six months of 2005, the Company repurchased a total of 5.1 million shares.

During the third quarter, the Board of Directors increased the remaining authorization under the share repurchase program from approximately \$367.1 million to \$1.0 billion and eliminated the expiration date on the program. On October 24, 2005, the Board increased the share repurchase authorization by an additional \$1.0 billion, upon closing of the pending merger with WellChoice, Inc. The Company expects to repurchase shares following the close of the transaction.

**Health Care:** Operating gain for the Health Care segment was \$916.6 million, an increase of 166.0 percent, compared with \$344.6 million in the prior year period.

On a comparable basis, operating gain increased by \$157.2 million, or 20.7 percent, compared with \$759.4 million in the prior year period. The improvement resulted from strong membership growth, moderating medical costs in the current year, and merger synergies realized throughout the organization. The Large Group and ISG businesses contributed most significantly to the overall increase in operating gain.

**Specialty:** Operating gain totaled \$89.2 million, an increase of 357.4 percent, compared with \$19.5 million in the third quarter of 2004.

Operating gain increased by \$3.6 million, or 4.2 percent, on a comparable basis, from \$85.6 million in the third quarter of 2004. The increase reflected strong performance in the pharmacy benefit management operation, including continued growth in mail-order prescription volume, which was partially offset by unfavorable mortality experience on certain life insurance contracts.

## OUTLOOK

### Full Year 2005:

Net income is now expected to be \$3.93 per share, an increase of \$0.02 per share from prior expectations of \$3.91 per share. The updated estimate includes expenses of approximately \$0.10 per share related to the multi-district agreement in the second quarter 2005, partially offset by tax benefits of approximately \$0.04 per share due to the favorable resolution of a tax matter in the first quarter 2005.

Operating revenue is expected to total approximately \$44.5 billion.

The benefit expense ratio is expected to be approximately 80.6 percent.

The SG&A expense ratio is expected to be approximately 16.3 percent.

Medical enrollment is expected to increase by approximately 5 percent, including acquisitions.

### Full Year 2006:

The Company remains committed to its goal of achieving 15 percent growth in net income per share, not taking into account additional synergies from the WellPoint Health Networks Inc. merger expected to be realized in 2006, the impact of expensing stock options, or the potential impact of the pending merger with WellChoice, Inc. The Company is in the process of finalizing its 2006 plan and will provide formal guidance for 2006 at its Investor Conference on December 6, 2005. A live webcast of this event will be available at [www.wellpoint.com](http://www.wellpoint.com).

## Basis of Presentation

1. Operating gain is defined as operating revenue less benefit expense, selling expense, general and administrative expense, and cost of drugs. Operating gain is used to analyze profit or loss on a segment basis only and not on a consolidated basis. Consolidated operating gain is a non-GAAP measure.
2. All income per share amounts are on an after-tax, diluted per share basis and reflect the two-for-one stock split on May 31, 2005.

Operating gain is used to analyze profit or loss on a segment basis only and not on a consolidated basis. Consolidated operating gain is a non-GAAP measure.
