VALASSIS COMMUNICATIONS, INC.

Notes to Condensed Consolidated Financial Statements

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (generally accepted accounting principles) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, the information contained herein reflects all adjustments necessary for a fair presentation of the information presented. All such adjustments are of a normal recurring nature. The results of operations for the interim periods are not necessarily indicative of results to be expected for the fiscal year. For further information, refer to the consolidated financial statements and footnotes thereto included in the Valassis Communications, Inc. (Valassis) Annual Report on Form 10-K/A for the year ended December 31, 2004. Certain amounts for 2004 have been reclassified to conform to current period classifications.

2. STOCK-BASED COMPENSATION

The following table reconciles reported net income to pro forma net income as if Valassis accounted for its stock options under the fair value method of SFAS No. 123. Compensation cost will be recognized on and after January 1, 2006 for the unvested portion of outstanding awards based on the grant-date fair value of these awards previously calculated under SFAS 123 for pro-forma disclosures.

	Quarter Ended		Nine Months Ended	
	Sept. 30, 2005	Sept. 30, 2004	Sept. 30, 2005	Sept. 30, 2004
(in thousands of U.S. dollars, except per share data)				
Net earnings, as reported	\$ 21,305	\$ 22,439	\$ 75,071	\$ 73,898
Add: Stock-based employee compensation expense included in reported net income, net of related tax effects	267	122	800	550
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards granted since January 1, 1995, net of related tax effects	(2,623)	(2,698)	(6,791)	(8,053)
Pro forma net earnings	\$ 18,949	\$ 19,863	\$ 69,080	\$ 66,395
Earnings per share:				
Basic - as reported	\$ 0.43	\$ 0.43	\$ 1.50	\$ 1.42
Basic - pro forma	\$ 0.38	\$ 0.38	\$ 1.38	\$ 1.28
Diluted - as reported	\$ 0.42	\$ 0.43	\$ 1.47	\$ 1.41
Diluted - pro forma	\$ 0.38	\$ 0.38	\$ 1.36	\$ 1.27

3. FOREIGN CURRENCY AND DERIVATIVE FINANCIAL INSTRUMENTS

Edgar Filing: VALASSIS COMMUNICATIONS INC - Form 10-Q

The functional currencies for our foreign operations are the applicable local currencies. Accounts of foreign operations are translated into U.S. dollars using the spot rate of the local currency on the balance sheet date for assets and liabilities and average monthly exchange rates for revenues and expenses. Translation adjustments are reflected as an adjustment to equity on a cumulative basis.

Currencies to which Valassis has exposure are the Mexican peso, Canadian dollar, British pound and euro. Currency restrictions are not expected to have a significant effect on our cash flows, liquidity or capital resources. Valassis typically purchases the Mexican peso under three- to twelve-month forward foreign exchange contracts to stabilize the cost of production in Mexico. Under SFAS No. 133, our Mexican peso forward exchange contracts meet the definition of a cash flow hedge. Accordingly, changes in the fair value of the hedge are recorded as a component of other comprehensive income. For the quarter ended and nine months ended September 30, 2005, the recorded unrealized market value gains and losses included in other comprehensive income were immaterial. Actual exchange losses or gains are recorded against production expense when the contracts are executed. As of September 30, 2005, Valassis had a commitment to purchase \$4.8 million in Mexican pesos over the next 12 months.

As of September 30, 2005, our accumulated other comprehensive income was \$1.6 million. The change in accumulated other comprehensive income for the quarter and nine months ended was a loss of \$0.3 million and \$2.2 million, respectively, primarily related to the strengthening U.S. dollar versus the euro. Foreign currency translation is the majority component of accumulated other comprehensive income. The remainder relates to cumulative gains from hedging contracts and unrealized gains on auction-rate securities.

In June 2004, we entered into two interest rate swap agreements with the objective of reducing interest costs. We swapped fixed rates under our 6-5/8% Senior Notes due 2009 (the 2009 Notes) for variable rates equal to three-month average LIBOR, plus the applicable margin of approximately 230 basis points, on \$50.0 million notional value of debt. In September 2005, we cancelled interest rate swap agreements at no cost.

4. GOODWILL AND OTHER INTANGIBLES

Intangible assets as of September 30, 2005 are comprised of:

(in thousands of U.S. dollars)	Intangible Assets, at Cost	Accumulated Amortization at Sept. 30, 2005	Unamortized Balance at Sept. 30, 2005	Weighted Average Useful Life (in years)
Amortizable intangible assets	\$ 3,455	\$ (1,780)	\$ 1,675	5.4
Non-amortizable intangible assets:				
<i>Goodwill:</i>				
Free-standing Inserts (FSI)	65,401	(47,144)	18,257	
Run of Press (ROP)	3,599	(2,260)	1,339	
Neighborhood Targeted (Cluster Targeted)	4,195	(209)	3,986	
Household Targeted (1 to 1)	86,376	(53,733)	32,643	
International & Services	64,864		64,864	
<i>The Valassis name and other</i>	32,100	(20,759)	11,341	
Total non-amortizable intangible assets	256,535	(124,105)	132,430	
Total	\$ 259,990	\$ (125,885)	\$ 134,105	

5. CONTINGENCIES

On November 9, 2004, Valassis received a letter dated November 8, 2004 from the Federal Trade Commission (FTC) informing us that the FTC is conducting a non-public investigation to determine whether Valassis may have engaged in unfair methods of competition or unfair acts and practices in violation of Section 5 of the Federal Trade Commission Act by soliciting an agreement with a competitor to fix prices and to allocate customers. As the FTC pointed out in their letter of November 8, 2004, neither the letter nor the existence of this investigation should be construed to indicate that a violation has occurred or is occurring. Valassis is fully cooperating with the FTC.

The primary relief generally sought by the FTC in these types of cases is equitable in nature in the form of a decree delineating acceptable future conduct. Although we cannot predict the timing or outcome of this investigation, one consequence of an adverse result might be that future

Edgar Filing: VALASSIS COMMUNICATIONS INC - Form 10-Q

public speech regarding changes to Valassis Free-standing Insert (FSI) pricing policies might be subject to restriction. We do not expect any relief to otherwise restrict the operation of our FSI business.

Valassis is involved in various claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on our financial position, results of operations or liquidity.

6. LONG-TERM DEBT

Long-term debt is summarized as follows:

(in thousands of U.S. dollars)	Sept. 30, 2005	Dec. 31, 2004
Revolving Credit Facility	\$	\$
6 5/8% Senior Notes due 2009, net of discount	99,887	99,861
Zero Coupon Senior Convertible Notes due 2021, net of discount	14,155	13,842
Senior Convertible Notes due 2033, net of discount	160,000	160,000
	<u>\$ 274,042</u>	<u>\$ 273,703</u>
Less current portion	14,155	
	<u>\$ 259,887</u>	<u>\$ 273,703</u>

Valassis has an available revolving line of credit of \$125.0 million. This line of credit agreement expires in November 2006.

The holders of the Zero Coupon Senior Convertible Notes due 2021 may require Valassis to purchase all or a portion of their Notes on June 6, 2006. Therefore, the \$14.2 million outstanding balance of this debt has been classified as current as of September 30, 2005.

7. SEGMENT REPORTING

Valassis has five reportable segments: Free-standing Inserts (FSI), Run of Press (ROP), Neighborhood Targeted (Cluster Targeted), Household Targeted (1 to 1) and International & Services. These segments are strategic business units that offer different products and services and are subject to regular review by our chief operating decision-makers. They are managed separately because each business requires different executional strategies and caters to different customer marketing needs.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies. We evaluate performance based on earnings from operations. Assets are not allocated in all cases to reportable segments and are not used to assess the performance of a segment.

(in millions of U.S. dollars)	Quarter Ended September 30,					
	FSI	ROP	Neighborhood Targeted	Household Targeted	International & Services	Total
			(Cluster Targeted)	(1 to 1)

Earnings before income taxes	\$ 266.1	\$ 247.6	\$ 821.8	\$ 741.8

8. EARNINGS PER SHARE

Earnings per common share (EPS) data were computed as follows:

(in thousands of U.S. dollars, except per share data)	Quarter Ended		Nine Months Ended	
	Sept. 30,		Sept. 30,	
	2005	2004	2005	2004
Net Earnings	\$ 21,305	\$ 22,439	\$ 75,071	\$ 73,898
Basic EPS:				
Weighted average common shares outstanding	49,408	51,747	50,047	51,944
Earnings per common share - basic	\$ 0.43	\$ 0.43	\$ 1.50	\$ 1.42
Diluted EPS:				

Edgar Filing: VALASSIS COMMUNICATIONS INC - Form 10-Q

Weighted average common shares outstanding	49,408	51,747	50,047	51,944
Weighted average shares purchased on exercise of dilutive options	6,726	3,212	6,980	4,262
Shares purchased with proceeds of options	(5,754)	(2,988)	(6,177)	(3,943)
Shares contingently issuable	52	65	52	65
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Shares applicable to diluted earnings	50,432	52,036	50,902	52,328
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Earnings per common share - diluted	\$ 0.42	\$ 0.43	\$ 1.47	\$ 1.41
	<u> </u>	<u> </u>	<u> </u>	<u> </u>

Unexercised employee stock options to purchase 355,452 shares and 205,600 shares, of Valassis common stock were not included in the computations of diluted EPS for the three months and nine months ended September 30, 2005, respectively, because the options exercise prices were greater than the average market price of our common stock during the applicable periods.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Certain statements under the caption Management's Discussion and Analysis of Financial Condition and Results of Operations, including specifically statements made in Business Outlook, Overview and elsewhere in this report on Form 10-Q, constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks and uncertainties and other factors which may cause the actual results, performance or achievements of Valassis to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements and to cause future results to differ from our operating results in the past. Such factors include, among others, the following: price competition from our existing competitors; new competitors in any of Valassis' businesses; a shift in customer preference for different promotional materials, promotional strategies or coupon delivery methods; an unforeseen increase in Valassis' paper costs; economic disruptions caused by terrorist activity, armed conflict or changes in general economic conditions; or changes which affect the businesses of our customers and lead to reduced sales promotion spending. Valassis disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Overview

Valassis provides a wide range of marketing products and services to a variety of manufacturers, direct marketers, retailers, franchisees and other advertisers. The products and services provided by Valassis include: newspaper-delivered inserts, samples, polybags and on-page advertisements; direct-to-door promotions and sampling; direct mail promotions and sampling; Internet-delivered marketing; loyalty marketing software; coupon and promotion clearing; and promotion planning and analytic services. Valassis manages its operations through five operating segments: Free-standing Insert (FSI), Run of Press, Neighborhood Targeted, Household Targeted and International & Services.

Valassis achieved revenues of \$266.1 million for the quarter ended September 30, 2005, up 7.4% from the third quarter of 2004. Strong demand for our diversified product portfolio and integrated marketing solutions continued. Valassis also noted that advertising and marketing dollars should continue to shift to the home-delivered promotional media we offer due to continued increases in television fragmentation, the rise of television commercial-blocking products, growth in commercial-free radio programming and iPod usage and greater participation in the National Do Not Call list. Valassis also anticipates that customers will continue to link marketing spending to revenue generation, leading marketers to choose promotional alternatives that provide measurable return on investment.

Regarding the company's largest business segment, the FSI segment, Valassis noted that they began discerning an increase in co-op FSI pricing pressure as of the first week of October 2005 which, if it continues, will negatively affect 2006 and the anticipation of a year-on-year price recovery in 2007. A situation of even greater impact on 2006 pricing arose on October 1, 2005, when Procter & Gamble (P&G), the Company's largest client, closed on its purchase of Gillette. Shortly thereafter, P&G requested that the Valassis contract be renegotiated to extend pricing similar to what Valassis' competitor was providing to Gillette. This renegotiation was completed on October 17, 2005 and we have incorporated these changes in pricing to P&G in our 2006 guidance. Overall, we now anticipate 2006 FSI pricing to be down mid- to high-single digits versus 2005. See Business Outlook below.

Segment Results

FSI

Edgar Filing: VALASSIS COMMUNICATIONS INC - Form 10-Q

In the quarter ended September 30, 2005, FSI revenues were down 2.6% to \$114.0 million compared to the quarter ended September 30, 2004. Decreased revenues are attributable to a reduced amount of direct response content and one less publishing date in the third quarter of 2005 versus the same quarter of 2004. Industry unit growth was flat for the quarter as was co-op FSI pricing. FSI cost of goods sold increased slightly during the quarter ended September 30, 2005 versus the comparable period a year-ago on a cost-per-thousand (CPM) basis as a result of increases in paper cost.

For the nine months ended September 30, 2005, FSI revenue increased 0.9% to \$380.2 million versus the comparable year-ago period. Valassis is maintaining market share and industry volume is up over 3%; however, lower pricing is offsetting most of this growth. Costs were up slightly on a CPM basis due to increases in the cost of paper. A reduction in the width of the FSI book, which took effect in October 2005, will reduce FSI paper consumption by approximately 7%. Because of this, we anticipate our FSI cost of goods sold for 2005 to be flat to up by a low single-digit percentage, on a CPM basis.

In October 2005, we increased our FSI market list circulation from 58.7 million to 59.7 million. In addition, industry unit growth has been higher than anticipated. We now expect 2005 FSI revenue to be flat compared to 2004, versus the previous guidance of down by a percentage in the low single digits.

ROP

Revenues for ROP increased 38.0% to \$29.8 million in the third quarter of 2005 versus the year-ago quarter. For the nine months ended September 30, 2005, ROP revenues were \$87.2 million, an increase of 24.2% over the same period in 2004 due to strong demand year over year from customers in the telecommunications industry and the acquisition of new customers in the retail and consumer packaged-goods industries. Operating profits also increased for both the three-month and nine-month periods ended September 30, 2005.

Neighborhood Targeted (Cluster Targeted)

Our Neighborhood Targeted product revenues increased 20.8% in the quarter ended September 30, 2005 to \$87.8 million versus the quarter ended September 30, 2004. For the nine months ended September 30, 2005, Neighborhood Targeted revenue increased to \$234.2 million, or 28.7% over the year-ago period. Substantial growth in preprints was experienced from telecommunications and specialty retail customers. We now expect revenue growth of approximately 20% in this business segment for the full year of 2005, with slightly improved gross margin.

Household Targeted (1 to 1)

The Household Targeted segment had revenues of \$12.6 million in the quarter ended September 30, 2005, a decrease of 13.7% over the quarter ended September 30, 2004. For the nine-months ended September 30, 2005, revenues from this segment increased by 12.6% to \$48.3 million versus the comparable year-ago period. The decline in revenues for this segment during the quarter is due to a decrease in the volume of direct mail pieces coupled with a decrease in revenue per piece, as a lower percentage of direct mail programs included a product sample in 2005 versus 2004. Revenue per piece with a product sample is approximately 50% higher than revenue per piece without a sample. Because of this trend, we have revised our revenue growth expectations for this segment to be flat for 2005.

International & Services

This segment produced revenues of \$21.9 million in the third quarter of 2005, an increase of 0.9% over the third quarter of 2004. For the nine-months ended September 30, 2005, revenues increased 2.7% to \$71.9 million, with 1.1% or \$0.8 million of the increase due to foreign currency rates. A reduction in spending by retailers and consumer packaged goods (CPG) companies in the United Kingdom and France has negatively affected our international revenue and profitability. We continue, however, to spend against new media products and services in key European markets and are encouraged by the customer interest in these new promotional vehicles.

Selling, General and Administrative Costs

Selling, general and administrative (SG&A) costs increased in the third quarter of 2005 to \$33.5 million versus \$31.9 million in the third quarter of 2004. For the nine months ended September 30, 2005, SG&A costs increased to \$102.4 million from \$95.4 million for the same period of 2004. The increases resulted from investments made in future growth opportunities, increases in performance-based incentive plans, and incremental costs resulting from the acquisition of Direct Marketing Services in September 2004.

Non-operating Items

Interest expense was \$2.8 million in the third quarter of 2005, compared to \$2.4 million in the third quarter of 2004 and \$8.2 million for the nine months ended September 30, 2005, compared to \$8.6 million for the same period of 2004. In September 2005, we cancelled the interest rate swaps initiated in June 2004. As of September 2005, we pay interest on 100% of our borrowings on a fixed rate basis.

Net Earnings

Net earnings were \$21.3 million in the third quarter of 2005, a decrease of \$1.1 million, or 5.1% from the third quarter of 2004. The decrease in earnings was primarily due to increases in paper costs. Diluted earnings per share were \$0.42 in the third quarter of 2005, compared to \$0.43 in the third quarter of 2004.

Net earnings for the nine-months ended September 30, 2005 were \$75.1 million, an increase of \$1.2 million, or 1.6%, from the same period in 2004. Although negatively affected by lower FSI pricing and increased paper costs, growth and improved profitability in other segments more than offset the FSI decline. Diluted earnings per share for the nine-months ended September 30, 2005 was \$1.47, compared to \$1.41 for the first nine months of 2004.

Financial Condition, Liquidity and Sources of Capital

Valassis liquidity requirements arise mainly from its working capital needs, primarily accounts receivable, inventory and debt service requirements. Cooperative FSI customers (except remnant space customers) are billed for 75% of each order eight weeks in advance of the publication date and are billed for the balance immediately prior to the publication date. FSI revenue accounted for 46.3% of Valassis total revenue in the nine months ended September 30, 2005. Valassis records work in progress at cost while it accrues progress billings as a current liability at full sales value. Although Valassis receives considerable payments from its customers prior to the publication of promotions, revenue is recognized only upon publication dates. Therefore, the progress billings on the balance sheet include any future profits in the related receivables.

The majority of the revenue generated by NCH Marketing Services (NCH), a 100% owned subsidiary of Valassis, is from its coupon clearing business. NCH invoices the face value of the coupon, a retailer handling fee (if applicable) as well as NCH's processing fee. The face value and the retailer handling fee are ultimately remitted by NCH to retailers and their agents. NCH records a gross receivable and payable for the coupon face value as well as the retailer handling fees and recognizes revenue only on NCH processing fees.

Sources and Uses of Cash and Cash Equivalents

Cash and cash equivalents totaled \$83.8 million at September 30, 2005 versus \$85.2 million at December 31, 2004. This decrease was the result of cash used in financing activities of \$112.8 million and foreign currency effects of \$2.1 million, offset by cash provided by operations and investing activities of \$84.8 million and \$28.6 million, respectively.

Edgar Filing: VALASSIS COMMUNICATIONS INC - Form 10-Q

Cash used in financing activities for the nine months ended September 30, 2005 was \$112.8 million which comprised of stock repurchases of \$143.7 million, partially offset by proceeds from option exercises. Cash used in the comparable period in 2004 was \$56.6 million. The increase in cash used is due mainly to the additional stock repurchases occurring in the third quarter of 2005 under the enhanced share repurchase program.

Net cash provided by investing activities was \$28.6 million, consisting of net cash proceeds of \$56.3 million from the purchase and sale of auction rate securities off set by \$22.0 million in capital expenditures and \$6.3 million in assets purchased from the settlement of a property insurance claim related to the fire at our Corby, England facility. The increase in capital expenditures year over year is due to the purchase of a new operations facility and the timing of printing press purchases. The remaining change in cash flows from investing activities is due to the timing of the purchases and sales of auction-rate securities.

Cash flow from operating activities was \$84.8 million during the nine months ended September 30, 2005 compared to \$69.8 million during the year-ago period. The prior year period included a significant use of cash due to increased accounts receivable to a more normalized level after unusually high collections at the end of 2003.

Cash and cash equivalents do not include investments in auction-rate securities of \$46.5 million and \$102.9 million at September 30, 2005 and December 31, 2004, respectively. Auction-rate securities are considered highly liquid due to the short duration of their reset periods.

Current and Long-term Debt

As of September 30, 2005, Valassis' debt was \$274.0 million, which consists of \$100.0 million (\$99.9 million, net of discount) of its 6-5/8% Senior Notes due 2009, \$14.0 million of Zero Coupon Senior Convertible Notes due 2021, and \$160.0 million of Senior Convertible Notes due 2033. In addition, we have a revolving line of credit of \$125.0 million with a variable rate of interest calculated on either a euro currency-based rate or a prime rate. During the quarter ended September 30, 2005, there was no outstanding balance under this line of credit. Valassis was in compliance with all debt covenants at September 30, 2005. All of our long-term debt contains cross-default provisions which become applicable if we default under any mortgage, indebtedness or instrument for money borrowed by Valassis and the default results in the acceleration of such indebtedness in excess of \$25 million. Additionally, each of the Senior Convertible Notes contains conversion triggers based upon credit rating downgrades by either Moody's Investor Service, Inc. or Standard & Poor's Rating Group.

The holders of Valassis' Zero Coupon Senior Convertible Notes due in 2021 (the 2021 Notes) may require us to purchase all or a portion of their notes on June 6, 2006, June 6, 2011 and June 6, 2016, at a price of \$639.76, \$742.47 and \$861.67 per note, respectively, payable in cash. Therefore, the \$14.2 million outstanding balance of this debt has been classified as current as of September 30, 2005. Also, each holder may require us to repurchase all or a portion of such holder's notes if a change of control of Valassis occurs on or before June 6, 2006. Valassis, at its option, may redeem all or a portion of the 2021 Notes at their accreted value at any time on or after June 6, 2006, for cash.

The holders of the Senior Convertible Notes due in 2033 (the 2033 Notes) receive cash interest payments of 1-5/8% per year on the original discounted amount, payable semiannually from 2003 through 2008. The holders of the 2033 Notes may require us to purchase all or a portion of their notes on May 22, 2008, May 22, 2013, May 22, 2018, May 22, 2023 and May 22, 2028 at a price of \$667.24, \$723.48, \$784.46, \$850.58 and \$922.27 per Note, respectively, payable in cash or common stock at the option of Valassis. Also, each holder may require us to repurchase all or a portion of such holder's 2033 Notes if a change of control of Valassis occurs. Valassis, at its option, may redeem all or a portion of the 2033 Notes at their accreted value at any time on or after May 22, 2008, for cash.

Future Commitments and Contractual Obligations

Valassis intends to use cash generated by operations to meet interest and principal repayment obligations, for general corporate purposes, to reduce its indebtedness, to make acquisitions and to repurchase common stock through our stock repurchase program.

In August 2005, the Board of Directors authorized an additional share repurchase program of up to 5.0 million shares. As of September 30, 2005, Valassis had Board of Directors authorization to repurchase an 7.0 million shares of its common stock under its existing share repurchase program, and currently plans to use up to \$150 million of existing cash and auction-rate securities and up to 100% of future free cash flow from operations for this purpose.

Management believes Valassis will generate sufficient funds from operations and will have sufficient lines of credit available to meet currently anticipated liquidity needs, including interest and required payments of indebtedness.

Off-balance Sheet Arrangements

As of September 30, 2005, Valassis did not have any off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of SEC Regulation S-K.

Capital Expenditures

Capital expenditures were \$22.0 million (net of \$6.3 million in assets purchased from the settlement of a property insurance claim related to a fire at our Corby, England facility) for the nine months ended September 30, 2005. Management expects future capital expenditure requirements of approximately \$20 to \$25 million for each of the next three to five years to meet the business needs of enhancing technology and replacing equipment as required. It is expected that these expenditures will be made using funds provided by operations.

Business Outlook

The following statements are based on expectations for 2005 as of the October 20, 2005 Third-Quarter earnings call. These statements are forward looking and actual results may differ materially.

Valassis expects earnings per share for **2005** to be between \$1.96 and \$2.08, based upon the following assumptions:

For the full year 2005, we expect revenue to be up by a mid-single digit percentage.

FSI revenues are expected to be flat.

ROP revenues and net operating profits are expected to be up at the high end of the range of 5% to 10% year over year.

Neighborhood Targeted (Cluster Targeted) revenues are expected to be up approximately 20%.

Household Targeted (1 to 1) revenues are expected to be flat.

International & Services revenues are expected to be flat.

SG&A is expected to be up approximately 5%.

Free cash flow (after capital expenditures) is projected to be between \$95 million to \$101 million for the year.

Capital expenditures are expected to be approximately \$25 million in 2005.

For the full-year 2006, the Company expects earnings per share (EPS) to be between \$1.95 and \$2.15 after the expensing of stock options in accordance with SFAS 123R. For comparison purposes, the 2006 EPS guidance range would be between \$2.08 and \$2.28 prior to the expensing of stock options. Capital expenditures will be approximately \$20 million in 2006.

As of the first week of October 2005, Valassis began discerning an increase in co-op FSI pricing pressure which, if it continues, will negatively affect 2006 and the present anticipation of a year-on-year price recovery in 2007. A situation of even greater impact on 2006 pricing arose on October 1, 2005, when Procter & Gamble (P&G), the company's largest client, closed on its purchase of Gillette. Shortly thereafter, P&G requested that the Valassis contract be renegotiated to extend pricing similar to what Valassis' competitor was providing to Gillette. This renegotiation was completed on October 17, 2005 and we have incorporated these changes in pricing to P&G in our 2006 guidance. Overall, Valassis now anticipates 2006 pricing to be down mid- to high-single digits versus 2005.

RECENT ACCOUNTING PRONOUNCEMENTS

In April 2005, the U.S. Securities and Exchange Commission (SEC) approved a new rule that delays the effective date of SFAS 123R

Share-based Payment. Except for this deferral of the effective date, the guidance in SFAS 123R is unchanged. Under the SEC's rule, SFAS 123R is now effective for annual, rather than interim, periods that begin after June 15, 2005. The standard requires that all equity-based compensation be recorded in the financial statements at the grant date fair value. Valassis will apply this Statement to all awards granted on or after January 1, 2006. Compensation cost will be recognized on and after January 1, 2006 for the unvested portion of outstanding awards based on the grant-date fair value of these awards previously calculated under SFAS 123 for pro-forma disclosures. We are evaluating the effect of the adoption of SFAS 123R, but believe it will be consistent with the application disclosed in our pro-forma disclosures.

In November 2004, the FASB issued SFAS No. 151, Inventory Costs. This Statement amends the guidance in ARB No. 43, Chapter 4, Inventory Pricing, to clarify the accounting for abnormal amounts of idle facility expense, freight, handling costs and wasted material (spoilage). SFAS 151 requires that those items be recognized as current-period charges. In addition, this Statement requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. The provisions of SFAS 151 are effective for inventory costs incurred in fiscal years beginning after June 15, 2005. As such, Valassis is required to adopt these provisions at the beginning of fiscal year 2006. We do not believe that its adoption will have a material impact on our financial condition, results of operations and liquidity.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that in certain circumstances affect amounts reported in the accompanying consolidated financial statements. The SEC has defined a company's most critical accounting policies as the ones that are most important to the portrayal of the Company's financial condition and results of operations, and which require the company to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Based on this definition, we have identified the critical accounting policies and estimates addressed below. We also have other key accounting policies, which involve the use of estimates, judgments and assumptions. For additional information see Note 1, Significant Accounting Policies, of our Annual Report on Form 10-K/A for the year ended December 31, 2004. Valassis does not believe there is a great likelihood that materially different amounts would be reported under different conditions or using different assumptions related to the accounting policies described below. However, application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates.

Impairment of Long-lived Assets - Long-lived assets historically have been reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the assets to future net cash flows estimated to be generated by such assets. If such assets are considered to be impaired, the impairment to be recognized is the amount by which the carrying amount of the assets exceeds the fair value of the assets.

Revenue Recognition:

FSI

Revenue for FSIs and custom cooperative FSIs is recognized in the period that the product is distributed in the newspaper. In accordance with industry practice, Valassis generally pre-bills FSI customers (except remnant space) in advance of the related distribution date. However, these billings are reflected as progress billings (liability) until the appropriate distribution period. Provision for rebates or pricing adjustments are

made at the time that the related revenue is recognized.

ROP

ROP revenue is recognized on the date that the advertisement runs in the newspaper. Some customers have contracts whereby Valassis earns a fee and the media costs are pass-through costs to the customer. In such cases, Valassis only recognizes the fee as revenue on the date the advertisement runs in the newspaper. Customer contracts can vary which may lead to material changes in revenue for this segment, while not affecting absolute gross margin dollars.

Neighborhood Targeted (Cluster Targeted)

The majority of Neighborhood Targeted products are newspaper delivered and revenue is recognized in the period that the product is distributed. For non-newspaper-delivered products, revenue is recognized when the product is shipped to the customer or distributed to the consumer via direct to door.

Household Targeted (1 to 1)

Revenue for direct mail products is recognized when the product is accepted by the United States Postal Service mail stream. Revenue from software products is recognized upon installation and over the life of the related contract and revenue from services is recognized on a percent-complete method.

International & Services

Revenue for coupon clearing does not include the face value of the coupons processed or the retailer service fee. However, customers are billed for the face value and retailer fees which are included in both accounts receivable and accounts payable. Once coupon processing has been completed, fee revenues are recognized.

Stock-based Compensation Valassis grants stock options to its employees under various incentive plans. Options are granted with exercise prices at least equal to the fair value on the date of grant. Valassis accounts for all options under APB Opinion No. 25, Accounting for Stock Issued to Employees, and makes various estimates used in calculating the pro forma results as required by SFAS No. 123.

Derivative Financial Instruments Valassis uses derivative financial instruments, including forward foreign exchange and swap contracts, to manage its exposures to fluctuations in foreign exchange rates and interest rates. The use of these financial instruments mitigates our exposure to these risks with the intent of reducing the risks and the variability of our operating results. Valassis is not a party to leveraged derivatives. On the date a derivative contract is entered into, Valassis designates the derivative as either (1) a hedge of a recognized asset or liability or of an unrecognized firm commitment (a fair value hedge), (2) a hedge of a forecasted transaction or of the variability of cash flows to be received or paid related to a recognized asset or liability (a cash flow hedge) or (3) a hedge of a net investment in a foreign operation (a net investment hedge).

For cash flow hedges, the effective portion of the change in the fair value of the derivative is recorded in accumulated other comprehensive loss in the consolidated balance sheet. When the underlying hedged transaction is realized, the gain or loss included in accumulated other comprehensive loss is recorded in earnings and reflected in the consolidated statement of income on the same line as the hedged item. In addition, both changes in the fair value excluded from our effectiveness assessments and the ineffective portion of changes in the fair value are recorded in the consolidated statement of income as other income or expense.

Valassis formally documents its hedge relationships, including the identification of the hedging instruments and the hedged items, as well as its risk management objectives and strategies for undertaking the hedge transaction. This process includes linking derivatives that are designated as hedges to specific assets, liabilities, firm commitments or forecasted transactions. We also formally assess, both at inception and at least quarterly thereafter, whether a derivative used in a hedging transaction is highly effective in offsetting changes in either the fair value or cash

Edgar Filing: VALASSIS COMMUNICATIONS INC - Form 10-Q

flows of the hedged item. When it is determined that a derivative ceases to be a highly effective hedge, we discontinue hedge accounting. Hedge ineffectiveness, determined in accordance with SFAS No. 133, did not have a material impact on operations for quarters ended September 30, 2005 or 2004. No cash flow hedges were re-designated or discontinued during such periods.

Auction-rate Securities - Auction-rate Securities (ARS) are securities that have stated maturities beyond three months but are priced and traded as short-term instruments due to the liquidity provided through the interest rate reset mechanism of 7 to 35 days. In accordance with SFAS No. 115, Accounting for Certain Investments in Debt and Equity Securities these auction-rate securities are classified as available-for-sale and are carried at cost, or par value which approximates the fair market value.

Other Matters Valassis does not have off-balance sheet arrangements, financings, or other relationships with unconsolidated entities or other persons, also known as variable interest entities.

Item 3. Quantitative and Qualitative Disclosure about Market Risk

Valassis' principal market risks are interest rates on various debt instruments and foreign exchange rates at its international subsidiaries.

Interest Rates

Valassis has a revolving line of credit of \$125 million with a variable rate of interest calculated on either a Eurocurrency-based rate or a prime rate. During the three months and nine months ended September 30, 2005, there was no outstanding balance under this line of credit. As of September 30, 2005, we pay interest on 100% of our borrowings on a fixed-rate basis.

Foreign Currency

Currencies to which Valassis has exposure are the Mexican peso, Canadian dollar, British pound, and euro. Currency restrictions are not expected to have a significant effect on our cash flows, liquidity, or capital resources. We typically purchase the Mexican peso under three to twelve-month forward foreign exchange contracts to stabilize the cost of production in Mexico. Under SFAS No. 133, Valassis' Mexican peso forward exchange contracts meet the definition of a cash flow hedge. Accordingly, changes in the fair value of the hedge are recorded as a component of other comprehensive income. For the quarter ended and nine months ended September 30, 2005, the recorded unrealized market value losses included in other comprehensive income were immaterial. Actual exchange losses or gains are recorded against production expense when the contracts are executed. As of September 30, 2005, Valassis had a commitment to purchase \$4.8 million in Mexican pesos over the next 12 months.

Item 4. Controls and Procedures

As of the end of the period covered by this Quarterly Report, the Company carried out an evaluation, under the supervision and with the participation of the Company's Disclosure Committee, including the Chief Executive Officer and Chief Financial Officer, of disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures are effective in ensuring that the information required to be disclosed in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

There has been no change in our internal control over financial reporting during the three months ended September 30, 2005 that has materially affected, or is likely to materially affect, internal control over financial reporting.

Part II Other Information**Item 1. Legal Proceedings**

On November 9, 2004, Valassis received a letter dated November 8, 2004 from the Federal Trade Commission (FTC) informing us that the FTC is conducting a non-public investigation to determine whether Valassis may have engaged in unfair methods of competition or unfair acts and practices in violation of Section 5 of the Federal Trade Commission Act by soliciting an agreement with a competitor to fix prices and to allocate customers. As the FTC pointed out in their letter of November 8, 2004, neither the letter nor the existence of this investigation should be construed to indicate that a violation has occurred or is occurring. Valassis is fully cooperating with the FTC.

The primary relief generally sought by the FTC in these types of cases is equitable in nature in the form of a decree delineating acceptable future conduct. Although we cannot predict the timing or outcome of this investigation, one consequence of an adverse result might be that future public speech regarding changes to Valassis Free-standing Insert (FSI) pricing policies might be subject to restriction. We do not expect any relief to otherwise restrict the operation of our FSI business.

Valassis is involved in various claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on our financial position, results of operations or liquidity.

Item 2. Changes in Securities, Use of Proceeds and Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
July 1 through July 31, 2005	262,800	\$ 39.25	262,800	3,987,825
Aug. 1 through Aug. 31, 2005	1,059,100	\$ 39.96	1,059,100	7,928,725
Sept. 1 through Sept. 30, 2005	935,600	\$ 39.24	935,600	6,993,125
Total	2,257,500	\$ 39.58	2,257,500	6,993,125

Item 6. Exhibits and Reports on Form 8-K

Exhibits

- 31.1 Section 302 Certification from Alan F. Schultz
- 31.2 Section 302 Certification from Robert L. Recchia
- 32.1 Section 906 Certification from Alan F. Schultz
- 32.2 Section 906 Certification from Robert L. Recchia

Form 8-K

- (1) The Company filed a report on Form 8-K dated July 21, 2005 announcing its financial results for the quarter and nine months ended September 30, 2005.
- (2) The Company filed a report on Form 8-K dated August 25, 2005 announcing that its Board of Directors had approved an additional share repurchase program of up to 5.0 million shares of its common stock.

(3) Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
