Dear Shareholder:

On October 13, 2005, we entered into a definitive asset purchase agreement (the "Asset Purchase Agreement") with Delta Products Corporation ("Delta") to acquire the assets that relate to Delta's Telecom Power Division, consisting of the exclusive rights to business supply agreements with wireline and wireless communications providers and related inventory and to assume the liabilities associated therewith of Delta's U.S. and Canadian service provider business. In exchange, we will issue 4,740,375 shares of our common stock without par value (the "Primary Shares") to Delta and a warrant (the "Warrant") to purchase up to approximately 12.9 million shares of our common stock, or such other number of shares that, when aggregated with the Primary Shares, will represent 45% of our issued and outstanding shares of capital stock measured as of five business days before the exercise of the Warrant (the "Warrant Shares"), at an exercise price of \$2.00 per share, exercisable immediately upon issuance and for a period of 30 months thereafter.

We will hold a Special Meeting of Shareholders of PECO II, Inc. ("PECO II") at St. Joseph's Activity Center, 135 North Liberty Street, Galion, Ohio on Tuesday, March 21, 2006 at 9:00 a.m. local time. At the special meeting, we will ask you to approve the issuance of both the Primary Shares, and the issuance of the Warrant and the Warrant Shares to be issued in connection with the exercise of the Warrant. In addition, we will ask you to vote on an amendment to our Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act and a proposal to allow us to adjourn the special meeting, if necessary, to solicit additional proxies to gain approval of all the proposals.

You are not being asked to approve the Asset Purchase Agreement. Our Board of Directors has approved the Asset Purchase Agreement and the transactions contemplated thereby. You are only being asked to approve: (i) an amendment to our Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act, (ii) the issuance of the Primary Shares, (iii) the issuance of the Warrant and the underlying Warrant Shares, and (iv) a proposal allowing us to adjourn the special meeting, if necessary, to solicit additional proxies to gain approval of all the proposals.

Completion of the transactions contemplated by the Asset Purchase Agreement is subject to a number of conditions, including approval at the special meeting by our shareholders of: (i) the amendment to our Amended and Restated Code of Regulations, (ii) the issuance of the Primary Shares, and (iii) the issuance of the Warrant and the underlying Warrant Shares. Approval of the amendment to our Amended and Restated Code of Regulations requires the affirmative vote of a majority of the outstanding shares of our common stock. Approval of the other proposals requires the affirmative vote of a majority of the shares of our common stock voting in person or by proxy at the special meeting.

Your vote is important. We cannot complete the transactions contemplated by the Asset Purchase Agreement unless these proposals are approved. Whether or not you plan to attend the special meeting in person, please submit your proxy without delay. We encourage you to read the accompanying proxy statement carefully because it explains the proposed purchase of assets and assumption of liabilities, the documents related to the Asset Purchase Agreement and the proposals which require your favorable vote.

Our Board of Directors has carefully reviewed and considered the terms of the Asset Purchase Agreement and has determined that the Asset Purchase Agreement and the transactions contemplated thereby are in the best interests of PECO II and our shareholders. **Accordingly, the**

Edgar Filing: PECO II INC - Form DEF 14A

This proxy statement is dated February 13, 2006 and is first being mailed to shareholders on or about February 14, 2006.

Sincerely,

James L. Green
Chairman of the Board

Questions and Answers About the Special Meeting

Q. What am I being asked to vote on?

A. You are being asked to vote on four proposals:

1. To approve and adopt an amendment to our Amended and Restated Code of Regulations providing that the Ohio Control Share Acquisition Act will not apply to acquisitions of our equity securities.
2. To approve the issuance of 4,740,375 shares of our common stock without par value (the Primary Shares) to Delta Products Corporation (Delta), pursuant to an asset purchase agreement between PECO II, Inc. (PECO II) and Delta, dated October 13, 2005 (the Asset Purchase Agreement), pursuant to which PECO II will acquire the assets that relate to Delta s Telecom Power Division, consisting of the exclusive rights to business supply agreements with wireline and wireless communications providers and related inventory and will assume the liabilities associated therewith of Delta s U.S. and Canadian service provider business.
3. To approve the issuance of a warrant (the Warrant) to permit Delta to purchase approximately 12.9 million shares of our common stock without par value or such other number of shares that, when aggregated with the Primary Shares, will represent 45% of our outstanding capital stock measured of the date that is five business days from the date of exercise of the Warrant (the Warrant Shares), at an exercise price of \$2.00 per share, exercisable immediately upon issuance and until the date that is 30 months following the closing date of the transactions contemplated by the Asset Purchase Agreement.
4. To approve a proposal allowing the Board of Directors to adjourn the special meeting, if necessary, to solicit additional proxies in the event that there are not sufficient votes at the time of the special meeting to approve and adopt the proposals.

Q. Why has PECO II entered into the Asset Purchase Agreement?

A. We have entered into the Asset Purchase Agreement because we believe that the transactions contemplated thereby will provide us with access to Delta s manufacturing capabilities and supply agreements, which are expected to reduce our cost of goods sold. Also, we will gain access to new customers and new markets with existing customers. We will be able to improve our future product development capabilities. We will obtain standardized components for manufacturing. Finally, we will be able to streamline manufacturing toward standardized products, which is also expected to lower our cost of goods sold.

Q. Do the transactions contemplated by the Asset Purchase Agreement constitute a change of control of PECO II?

A. No. The issuance of the Primary Shares will result in Delta owning approximately 18% of our outstanding capital stock as of the closing. If Delta exercises all of its rights to acquire the Warrant Shares from the date of issuance for a period of 30 months thereafter, Delta will own 45% of our outstanding capital stock. Although such ownership will permit Delta to exercise significant influence over PECO II, our Board of Directors has determined that the ownership by Delta does not constitute a change of control of PECO II.

Q. What shareholder approvals are needed?

A. The affirmative vote of the holders of a majority of our outstanding shares of common stock is required to approve the amendment to our Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act. Approval of the other proposals requires the affirmative vote of the holders of a majority of the shares of our common stock voting in person or by proxy

at the special meeting.

Q. What is the recommendation of the PECO II Board of Directors as to the four proposals described in this proxy statement?

- A. At its meetings held on September 30, 2005 and October 13, 2005, our Board of Directors considered all of the facts and circumstances important to recommending whether to vote in favor of or against the four proposals. At its meeting held on December 13, 2005, our Board of Directors considered whether the approval of the four proposals remained in the best interests of PECO II and its shareholders after taking into account the recent

Table of Contents

increase in the price at which our common stock had been trading and other new facts and circumstances about the assets being acquired from Delta. After discussion with our legal counsel concerning its fiduciary duties under Ohio law and consideration of such recent developments, our Board of Directors established a special committee to coordinate with our financial adviser, GBQ Consulting, LLC (GBQ), to consider the impact of these recent developments to the value of the ranges set forth in GBQ 's fairness opinion dated October 13, 2005. On January 17, 2006, the special committee reviewed the updated fairness opinion and recommended that our Board of Directors also review it. On January 17, 2006, our Board of Directors reviewed the updated fairness opinion, which stated that the consideration to be received as a result of the consummation of the transactions contemplated by the Asset Purchase Agreement was fair, from a financial point of view, to our shareholders. After carefully considering this information and the advice of its counsel, and after extensive discussion, our Board of Directors concluded that it would unanimously recommend that the PECO II shareholders vote in favor of the proposals set forth in this proxy statement.

Q. What do I need to do now?

- A. After carefully reading and considering the information contained in this proxy statement, please respond by completing, signing and dating your proxy card and returning it in the enclosed postage paid envelope.

Q. What if I do not vote?

- A. If you fail to respond, your shares will not count toward a quorum necessary to conduct the vote at the special meeting, and will not be counted as either a vote for or against any of the four proposals. Because the proposal to amend our Amended and Restated Code of Regulations requires that affirmative vote of the holders of a majority of the outstanding shares of our common stock, your failure to vote will have the effect of voting against this proposal.

If you respond and do not indicate how you want to vote, your proxy will be counted as a vote in favor of each of the four proposals.

Q. Can I change my vote after I have delivered my proxy?

- A. Yes. You can change your vote at any time before your proxy is voted at the special meeting. You can do this by revoking your proxy or submitting a new proxy. If you choose either of these two methods and you are a shareholder of record, you must submit your notice of revocation or your new proxy to the Secretary of PECO II before the special meeting. If your shares are held in an account at a brokerage firm or bank, you should contact your brokerage firm or bank to change your vote.

If you are a shareholder of record, you can also attend the special meeting and vote in person, which will automatically revoke any previously submitted proxy.

Q. When do you expect the transactions contemplated by the Asset Purchase Agreement to close and the Primary Shares and Warrant to be issued?

- A. We are working to close the transactions contemplated by the Asset Purchase Agreement, including the issuance to Delta of the Primary Shares and the Warrant, as soon as possible after our special meeting. We expect to close the transactions by March 31, 2006.

Q. Who can help answer my questions?

Edgar Filing: PECO II INC - Form DEF 14A

Summary

This summary highlights selected information from this proxy statement about the proposals and may not contain all of the information that is important to you as a PECO II shareholder. Accordingly, we encourage you to read carefully this entire document, including the appendices, and the other documents to which we refer you.

Ohio Control Share Acquisition Act Opt Out (page 65)

Our Board of Directors has unanimously approved a resolution to amend our Amended and Restated Code of Regulations, which, if adopted, would make an Ohio anti-takeover statute, referred to herein as the Ohio Control Share Acquisition Act, inapplicable to the acquisition of our equity securities. The full text of the proposed amendment is contained in Article X of PECO II's proposed Second Amended and Restated Code of Regulations, attached hereto as Appendix A. The various sections of the Ohio Revised Code comprising the Ohio Control Share Acquisition Act are attached hereto as Appendix B.

Simultaneous with the execution of the Asset Purchase Agreement, Messrs. Matthew P. Smith and James L. Green, and their respective affiliates, executed a support agreement and irrevocable proxy (the Support Agreement), under which each such person agreed, severally and not jointly, to vote all of the shares of our common stock beneficially owned by such persons at any PECO II shareholders meeting or by any consensual action:

in favor of the proposal to opt out of the Ohio Control Share Acquisition Act,

in favor of the issuance of the Primary Shares (as defined below) and the Warrant (as defined below),

in favor of the other transactions contemplated by the Asset Purchase Agreement and in favor of any other matter that could reasonably be expected to facilitate consummation of the transactions contemplated by the Asset Purchase Agreement,

against any change in a majority of the members of our Board of Directors, and

against any other action that would impede, interfere with, delay, postpone or materially adversely affect the closing of the transactions contemplated by the Asset Purchase Agreement.

In addition, Messrs. Smith and Green, and their respective affiliates, granted an irrevocable proxy to two of Delta's designees to vote all of the shares of our common stock beneficially owned by such persons in accordance with the five bullet points above.

Currently, the Ohio Control Share Acquisition Act is applicable to the acquisition of our equity securities, and, therefore, the shares beneficially owned by Mr. Green (because he is an officer of PECO II) are deemed to be interested shares under the Ohio Control Share Acquisition Act and ineligible for purposes of voting in favor of the proposals at the special meeting. The proposed amendment to our Amended and Restated Code of Regulations will permit the voting of the shares of our common stock beneficially owned by Mr. Green, and his affiliates, in favor of approving the proposals to be included in the vote to be held at the special meeting.

Edgar Filing: PECO II INC - Form DEF 14A

Although shareholder rights advocates often express the view that state takeover statutes, such as the Ohio Control Share Acquisition Act, are contrary to shareholder interests, there may be reasons why shareholders may not want to opt out the Ohio Control Share Acquisition Act, including the fact such act requires shareholder approval prior to certain large acquisitions of our securities. See the discussion under the heading Proposal 1 Amendment to the Amended and Restated Code of Regulations of PECO II, Inc. to Opt-Out of the Ohio Control Share Acquisition Act Potential Benefits of the Ohio Control Share Acquisition Act on page 67 for more information.

Table of Contents

Our Board of Directors Unanimously Recommends that Shareholders Vote FOR the Amendment to the Amended and Restated Code of Regulations (page 67)

Our Board of Directors has determined, by unanimous vote, that the proposed amendment to our Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act is in the best interest of PECO II and its shareholders. Our Board of Directors unanimously recommends that you vote FOR the proposed amendment to our Amended and Restated Code of Regulations.

Issuance of the Primary Shares (page 67)

Subject to the terms and conditions of the Asset Purchase Agreement, we will acquire the assets that relate to Delta's Telecom Power Division from Delta. At the closing, we will issue to Delta 4,740,375 shares of our common stock without par value (the Primary Shares). As a result, Delta will own approximately 18% of the issued and outstanding shares of our common stock following the issuance of the Primary Shares. On October 13, 2005, the date we entered into the Asset Purchase Agreement, the value of the Primary Shares to be issued to Delta at the closing was approximately \$5,498,835, based on a closing stock price of our common stock of \$1.16 per share. On January 11, 2006, the value of the Primary Shares to be issued to Delta at the closing was approximately \$8,674,886, based on a closing stock price of \$1.83 per share.

Our Board of Directors Unanimously Recommends that Shareholders Vote FOR the Issuance of the Primary Shares (page 68)

Our Board of Directors has determined, by a unanimous vote, that the issuance of the Primary Shares as contemplated by the Asset Purchase Agreement is in the best interest of PECO II and its shareholders. Our Board of Directors unanimously recommends that you vote FOR the issuance of the Primary Shares to Delta at the special meeting.

Issuance of the Warrant and the Underlying Warrant Shares (page 68)

Subject to the terms and conditions of the Asset Purchase Agreement and a warrant to be issued to Delta at the closing of the transactions contemplated by the Asset Purchase Agreement (the Warrant), Delta will have the right to purchase up to approximately 12.9 million shares of our common stock, or such other number of shares that, when aggregated with the Primary Shares, will represent 45% of the issued and outstanding shares of our capital stock measured as of five business days prior to the date of exercise of the Warrant (the Warrant Shares), at an exercise price of \$2.00 per share, exercisable immediately upon issuance and for a period of 30 months following the closing of the transactions contemplated by the Asset Purchase Agreement. On October 13, 2005, the date we entered into the Asset Purchase Agreement, the value of the Warrant to be issued to Delta at the closing was \$4,783,470 using a Black-Scholes valuation model. On January 11, 2006, the value of the Warrant was to be issued to Delta at the closing was approximately \$8,144,827 using the Black-Scholes valuation model.

By way of example, if on the date that is five business days prior to the exercise date, we had 26,335,418 shares of our capital stock issued and outstanding, the number of Warrant Shares would be calculated as follows: (i) the quotient of (A) the issued and outstanding shares (*i.e.*, 26,335,418) minus the shares of common stock issued at closing (*i.e.*, 4,740,375), divided by (B) 0.55, minus (ii) the outstanding shares of Common Stock (*i.e.*, 26,335,418) and (iii) rounded to the nearest whole number of shares. In this example, the number of Warrant Shares would be 12,928,297 representing, when aggregated with the Primary Shares, 45% of our issued and outstanding capital stock.

Table of Contents

Our Board of Directors Unanimously Recommends that Shareholders Vote FOR the Issuance of the Warrant and the Underlying Warrant Shares (page 69)

Our Board of Directors has determined, by unanimous vote, that the issuance of the Warrant and the issuance of the underlying Warrant Shares are in the best interest of PECO II and its shareholders. Our Board of Directors unanimously recommends that you vote FOR the issuance to Delta of the Warrant and the underlying Warrant Shares.

Value of the Primary Shares and Warrant

On October 13, 2005, the date we entered into the Asset Purchase Agreement, the aggregate value of the Primary Shares and the Warrant constituting the consideration to be paid to Delta for the business assets was \$10,282,305. On January 11, 2006, the value of the Primary Shares and Warrant was approximately \$16,819,713.

Permission to Adjourn the Special Meeting (page 69)

In order to consummate the transactions contemplated by the Asset Purchase Agreement, the proposals to adopt an amendment to the Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act, approve the issuance of the Primary Shares, and approve the issuance of the Warrant and the underlying Warrant Shares, must first be approved by our shareholders. If there are insufficient votes at the time of the special meeting to approve each of the proposals, our Board of Directors believes it is appropriate and in the best interest of PECO II and its shareholders to adjourn the meeting and solicit additional proxies.

Our Board of Directors Unanimously Recommends that Shareholders Vote FOR the Proposal to Adjourn the Special Meeting (page 69)

Our Board of Directors unanimously recommends that you vote FOR the proposal to allow the Board of Directors to adjourn the special meeting, if necessary, to solicit additional proxies in the event that there are not sufficient votes at the time of the special meeting to approve the proposals.

Description of the Assets To Be Purchased (page 67)

The assets we will acquire from Delta under the Asset Purchase Agreement relate to Delta's Telecom Power Division, consisting of rights to and under business supply agreements with wireline and wireless communications providers, inventory related to such business supply agreements comprised of raw materials, work in process, and finished products relating to Delta's U.S. and Canadian service provider business, rights to and under related business records, all rights, claims and causes of action against third parties exclusively relating to the purchased assets, and all rights of indemnity, warranty rights, rights of contribution, rights to refunds and other rights of recovery exclusively relating to the purchased assets. In addition, we will assume and agree to pay, perform or discharge all liabilities and obligations under the business supply agreements arising on or after the closing date, and other obligations and liabilities set forth in the Asset Purchase Agreement.

Financial Advisor Opinion (page 43)

Edgar Filing: PECO II INC - Form DEF 14A

GBQ Consulting, LLC (GBQ), our financial adviser, has told our Board of Directors that the consideration to be received as a result of the consummation of the transactions contemplated by the Asset Purchase Agreement is fair, from a financial standpoint, to our shareholders.

Table of Contents

Conditions to the Transactions Contemplated by the Asset Purchase Agreement and Expected Timing (page 59)

The completion of the transactions contemplated by the Asset Purchase Agreement depends on a number of conditions being satisfied or waived, including approval by our shareholders of the amendment of our Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act, the issuance of the Primary Shares to Delta, the issuance of the Warrant and the underlying Warrant Shares, the appointment of Delta's designee as a Class II member of our Board of Directors, as well as the receipt of third party consents to the assignment and assumption of the business supply agreements.

We expect to consummate the transactions contemplated by the Asset Purchase Agreement by March 31, 2006, but we cannot be certain when or if the conditions to closing will be satisfied or waived. We may adjourn the special meeting, if necessary, to solicit additional proxies in the event there are not sufficient votes at the time of the special meeting to approve and adopt the proposals, or we may recirculate a new proxy statement and resolicit the vote if material conditions to the consummation of the transactions contemplated by the Asset Purchase Agreement are waived.

Our shareholders must approve EACH of Proposals 1, 2 and 3 for the transactions contemplated by the Asset Purchase Agreement to close.

The Asset Purchase Agreement may be Terminated under Certain Circumstances (page 60)

The Asset Purchase Agreement provides that we or Delta may terminate the agreement before the closing of the transactions contemplated thereby in a number of circumstances.

Either Delta or we may terminate the Asset Purchase Agreement if:

the two parties mutually agree in writing to terminate;

the closing has not occurred by March 31, 2006;

a governmental entity issues an order, decree, or ruling, or takes any other action (including failure to take a necessary action), that permanently restrains, enjoins, or otherwise prohibits the transactions contemplated by the Asset Purchase Agreement; or

we fail to receive shareholder approval of the proposals described in this proxy statement.

In addition, we may terminate the Asset Purchase Agreement if:

Delta materially breaches any representation, warranty, or covenant contained in the Asset Purchase Agreement and such breach is not cured;

Edgar Filing: PECO II INC - Form DEF 14A

we receive a superior offer and, after we give notice to Delta, Delta has a reasonable opportunity to make a revised offer and has not done so; or

Delta's financial statements to be delivered prior to the closing reflect information that was not previously made available to us and would cause a Material Adverse Effect on the Business (as defined below).

Finally, Delta may terminate the Asset Purchase Agreement if:

we materially breach any representation, warranty, or covenant contained in the Asset Purchase Agreement and such breach is not cured; or

any time before our shareholders' approval of the proposal to issue the Primary Shares, the Warrant and the underlying Warrant Shares, a "Triggering Event" with respect to us occurs. Such a "Triggering Event" shall be deemed to have occurred if:

our Board of Directors or any committee thereof shall for any reason have withdrawn or shall have amended or modified in a manner adverse to Delta, its unanimous recommendation to the shareholders to vote in favor of the proposals set forth in this proxy statement (the "Recommendation"),

we shall have failed to include the Recommendation in this proxy statement,

our Board of Directors or any committee thereof shall have approved or recommended any Acquisition Proposal (as defined below), or

a tender or exchange offer relating to our securities shall have been commenced by a person unaffiliated with us and we shall not have timely sent to our shareholders a statement disclosing that our Board of Directors recommends rejection of such tender or exchange offer.

We May be Obligated to Reimburse Delta for its Expenses Relating to the Asset Purchase Agreement and to Pay a Termination Fee Under Certain Circumstances (page 60)

In the event that we terminate the Asset Purchase Agreement because we received a superior offer or Delta terminates the Asset Purchase Agreement because our Board withdraws, amends or modifies its Recommendation, we must pay Delta a fee of \$500,000 simultaneously with delivery of the notice to terminate.

In the event the transactions contemplated by the Asset Purchase Agreement are consummated, we must pay up to \$100,000 of the fees and expenses incurred by Delta (including attorneys' fees and accountant fees) in connection with the negotiation, execution and delivery of the Asset Purchase Agreement, plus one-half of the fees and expenses incurred by Delta (including fees incurred by Delta's auditor) in connection with the preparation and delivery of Delta's financial statements prior to closing. These fees must be paid within 10 business days following Delta's delivery to us of a certificate setting forth the amount of such fees and expenses incurred.

Dilution to Our Shareholders; Ownership of PECO II after the Acquisition (page 61)

If the transactions contemplated by the Asset Purchase Agreement are consummated, you will incur immediate and substantial dilution. Currently, 21,954,741 shares of our common stock are issued and outstanding. We will issue the Primary Shares to Delta, representing 4,740,375 shares of common stock without par value, at the closing pursuant to the Asset Purchase Agreement. Pursuant to the Warrant to be issued to Delta at the closing, Delta will have the right to purchase Warrant Shares, at an exercise price of \$2.00 per share and exercisable immediately upon issuance and for a period of 30 months after the closing, that will allow Delta to purchase that number of additional shares of our common stock without par value that, when aggregated with the Primary Shares, will represent 45% of our issued and outstanding capital stock measured as of five business days prior to the exercise date of the Warrant. By way of example, assuming we had 26,335,418 shares of common stock issued and outstanding after the issuance of the Primary Shares, the number of Warrant Shares eligible for purchase by Delta would be 12,928,297. As a result, we would have 39,263,715 issued and outstanding shares of common stock, resulting in Delta owning 45% of our issued and outstanding capital stock.

Amendment (page 61)

Edgar Filing: PECO II INC - Form DEF 14A

Subject to applicable law, the Asset Purchase Agreement may be amended by Delta and us at any time before or after approval of the various proposals by our shareholders at the special meeting; provided,

Table of Contents

after any such approval by our shareholders, no amendment shall be made which by law or in accordance with the rules of any relevant stock exchange requires further approval by our shareholders, without such further shareholder approval.

Supply Agreement (page 63)

As a condition to the consummation of the transactions contemplated by the Asset Purchase Agreement, at the closing, we will enter into a supply agreement (the *Supply Agreement*) with Delta Electronics, Inc. (*DEI*), an affiliate of Delta, pursuant to which DEI will grant to us the right to purchase and incorporate DEI modules into our systems and to market, promote, sell and distribute DEI modules, PECO II systems and/or DEI systems to our customers in the U.S. and Canadian markets. The rights described above shall be exclusive to us for a period of 24 months from the effective date of the Supply Agreement. The term of the Supply Agreement is 30 months.

Voting Agreement; Change in Board Composition (page 61)

Concurrent with the execution of the Asset Purchase Agreement, we, together with certain of our Board members and executive officers who are significant holders of our capital stock, and Delta entered into a voting agreement (the *Voting Agreement*), which is attached hereto as Appendix D, pursuant to which, effective at the closing, our Board of Directors will appoint a designee of Delta to our Board of Directors to fill our existing Class II director vacancy. As long as Delta or an affiliate holds or has the right to acquire at least 5% of our capital stock, Delta has the right to choose a designee for election to our Board of Directors as part of our management slate of nominees for inclusion in our proxy materials relating to the election of directors. In addition, each significant holder agrees to vote his or her shares of our capital stock to elect Delta's designee as a member of our Board of Directors and Delta agrees to vote all of its shares of our capital stock to elect our designees as members of our Board of Directors. Pursuant to the terms of the Voting Agreement, Delta has the right to designate a board observer to attend all of our Board of Directors meetings in a non-voting capacity. The Voting Agreement terminates on the earlier of:

the written agreement of Delta and us;

the date Delta, or any of its affiliates (other than PECO II), no longer holds or has the right to acquire at least 5% of our outstanding voting stock;

the date Delta, alone or together with any of its affiliates (other than PECO II), holds 45% or more of our issued and outstanding voting capital stock;

the consummation of a business transaction the result of which is that our shareholders (other than Delta and its affiliates) immediately preceding such transaction hold less than 50% of the equity interests of the surviving or resulting entity of such transaction; or

the sale of all or substantially all of our assets.

Support Agreement and Irrevocable Proxy (page 63)

Edgar Filing: PECO II INC - Form DEF 14A

Simultaneous with the execution of the Asset Purchase Agreement, Messrs. Matthew P. Smith and James L. Green, and their respective affiliates, executed a support agreement and irrevocable proxy (the Support Agreement), under which each such person agreed, severally and not jointly, to vote all of the shares of our common stock beneficially owned by such persons at any PECO II shareholders meeting or by any consensual action:

in favor of the proposal to opt out of the Ohio Control Share Acquisition Act;

in favor of the issuance of the Primary Shares and the Warrant;

Table of Contents

in favor of the other transactions contemplated by the Asset Purchase Agreement and in favor of any other matter that could reasonably be expected to facilitate consummation of the transactions contemplated by the Asset Purchase Agreement;

against any change in a majority of the members of our Board of Directors; and

against any other action that would impede, interfere with, delay, postpone or materially adversely affect the closing of the transactions contemplated by the Asset Purchase Agreement.

Messrs. Smith and Green, and their respective affiliates, also granted an irrevocable proxy to two of Delta's designees to vote all of the shares of our common stock beneficially owned by such persons in accordance with the five bullet points above.

Interests of Certain Persons in Matters to be Voted On (page 36)

Our directors, except for Mr. John G. Heindel, our President and Chief Executive Officer, and certain of our executive officers may have interests different from our shareholders resulting from them being parties to certain transactional documents in connection with the asset purchase. Our directors may benefit from the execution of the Voting Agreement with Delta by virtue of Delta's agreement to vote in favor of our Board of Directors' designees to the management slate of nominees for election to our Board of Directors and to not bring any proposal that would result in the removal from our Board of our Board designees without cause. Our directors have agreed to appoint a Delta designee to fill our existing Class II director vacancy as of the closing. Our directors and executive officers who are parties to the Voting Agreement have also agreed to vote their shares of our capital stock in favor of Delta's designee to our Board of Directors, and we will include such designee on our management slate of nominees for election to our Board of Directors.

We have entered into a Support Agreement with Delta, Messrs. Smith and Green, and certain affiliates of Messrs. Smith and Green, pursuant to which Messrs. Smith and Green and their affiliates have granted to two of Delta's designees an irrevocable proxy to vote for the amendment to our Amended and Restated Code of Regulation, to vote in favor of the issuance of the Primary Shares to Delta, to vote in favor of the Warrant and the issuance of the Warrant Shares pursuant to Delta's purchase rights thereunder, and to vote in favor of any other matter that could be reasonably expected to facilitate the consummation of the transactions contemplated by the Asset Purchase Agreement.

In the absence of the approval by our shareholders of the proposed amendment to our Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act, the shares of our capital stock beneficially owned by James L. Green would be deemed interested shares under such act and would not be counted in the vote to approve the various proposals with respect to the asset purchase set forth in this proxy statement. In such an event, it may be more difficult to obtain the necessary vote to approve the various proposals and meet all of the various conditions to closing of the transactions contemplated by the Asset Purchase Agreement.

Table of Contents**PECO II, Inc.****Note to Unaudited Pro Forma Condensed Consolidated Financial Information****With Delta Business Assets****1. Description of Transaction and Basis of Presentation**

On October 13, 2005, the Company entered into an Asset Purchase Agreement with Delta to acquire the assets that relate to Delta's Telecom Power Division, consisting of the exclusive rights to business supply agreements with wireline and wireless communications providers, the related inventory, comprised of raw materials, work in process and finished products (the Inventory), and the business records of Delta's U.S. and Canadian service provider business (the Delta Business Assets). The Company will also assume the associated liabilities of the Delta Business Assets after the closing. In consideration of the purchase of the Delta Business Assets, at closing the Company will issue 4,740,375 shares of common stock (the Primary shares) to Delta. Also at closing, the Company will issue to Delta a warrant to purchase up to approximately 12.9 million shares of its common stock (the Warrant Shares) at an exercise price of \$2.00 per share (the Warrant). The Warrant is immediately exercisable upon issuance and for a period of 30 months thereafter. As a result of the issuance of the Primary Shares and the exercise of the purchase rights under the Warrant for the Warrant Shares, Delta will have the right to acquire, when aggregated with the Primary Shares, up to 45% of the issued and outstanding capital stock of the Company measured as of the date that is five business days prior to the date of exercise.

2. Purchase Price

The reader should be advised that the pro forma information is preliminary and unaudited. The transaction cost is determined by PECO II's market value per share based on EITF-99-12 guidance and the final price will be determined upon shareholder approval of the issuance of the Primary Shares and Warrant. Due to market uncertainty, the transactions reflected in the pro forma balance sheet and statement of operations will change based on changes in market value.

A preliminary estimate of the purchase price is as follows (table in thousands):

Estimated market value of Primary Shares issued	\$ 6,352
Estimated fair value of Warrant issued	4,783
	<hr/>
Subtotal	11,135
Estimated transaction costs incurred per agreement	100
	<hr/>
Estimated purchase price	<u>\$ 11,235</u>

For pro forma purposes, the fair value of the shares used in determining the purchase price was \$1.34 which was based on the average closing price of PECO II common stock for the five business days prior to, the date of, and the five days after the public announcement of the execution of the Asset Purchase Agreement. The fair value of the Warrant was also determined using the Black-Scholes option pricing model with the following assumption: stock price of \$1.34; volatility of 60%; risk-free interest rate of 3.96%; and an expected life of 2.5 years.

Edgar Filing: PECO II INC - Form DEF 14A

For pro forma purposes, the estimated purchase price has been allocated per the Asset Purchase Agreement (table in thousands):

Current assets	
Inventory	\$ 2,000
Other assets	
Customer relationships	2,820
Supply agreement	2,820
Goodwill	3,595

	<hr/>

Table of Contents

The allocation of the purchase price is a preliminary estimate. The final purchase price allocation will not be completed until after our receipt of shareholder approval at the special meeting of the proposals set forth in this proxy statement. Our decision to obtain the final purchase price allocation after the special meeting is based on our reliance on FAS141, B183, which states that the allocation period should not exceed one year from the consummation date. As a result, we believe it appropriate to delay the final purchase price allocation until after the special meeting, at which meeting we anticipate obtaining the approval of our shareholders to consummate the transactions contemplated by the Asset Purchase Agreement.

Management believes that its preliminary allocation among the specific intangibles of the consideration in the amount of \$11.235 million to be paid in exchange for the Delta Business Assets is reasonable. The specific intangibles identified in our preliminary allocation are customer relationships, the Supply Agreement and Goodwill, estimated to comprise 31%, 31% and 38%, respectively, of the total consideration of \$11.235 million to be paid for the Delta Business Assets, less \$2.0 million of tangible inventory.

We expect very little attrition with the customer relationships that comprise a portion of the intangible assets and we anticipate that the Supply Agreement will be renewed. As an estimate of useful life of the customer relationships and the Supply Agreement prior to the completion of the final purchase price allocation, we anticipate their useful life to be 6 years and 9 years, respectively. The useful lives were used to calculate our pro forma amortization. When the purchase price allocation is completed, we anticipate using the midpoint of future cash flows or possibly other means to determine the useful life of each of the customer relationships and the Supply Agreement, based on further contract or cash flow review.

We have concluded that the proposed acquisition of the Delta Business Assets represents the acquisition of a business based on guidance in Rule 11-01(d) of Regulation S-X and EITF 98-3. As a result, there will be intangible assets and possible goodwill depending on the purchase price allocation. The allocation will be performed upon the approval and completion of the purchase transaction.

Delta Management's Discussion and Analysis Financial Results of Delta Business Assets

The Delta Business Assets to be acquired by PECO II from Delta relate to Delta's Telecom Power Division, which is one segment of Delta's business. Delta is a sales and distribution channel for operations in the Americas of its parent, Delta Group. Sales orders are taken by Delta through customer requests and existing supply arrangements with various parties, and such orders are communicated to various manufacturing plants of Delta Group that are located worldwide. The Telecom Power Division of Delta coordinates customer orders and supply contracts and manages the inventory relating to such orders with respect to telecommunications power products for Delta. The Telecom Power Division of Delta does not maintain a separate bank account or operate as a financially distinct entity from Delta as a whole. Accordingly, specific discussions on liquidity and capital resources are not applicable to this business unit, or to the Delta Business Assets being acquired. However, to the extent relevant, the following is a discussion of trends that affected the overall results of operations of the Telecom Power Division of Delta and certain events and economic changes in the market during recent years that affected the market pertaining to the Delta Business Assets being acquired.

Generally, participants in the telecommunications power supply industry, including the Telecom Power Division, experience increased activity and realize higher revenues during spring through late fall of each year due to the ability of their customers to access and install telecommunications power sites during these periods, particularly with respect to mountainous regions and other areas subject to extreme winter conditions. This period is referred to in the industry as the build season. Consistent with the rest of the industry, the Delta Business Assets being acquired are subject to the build season trend of higher revenues during the second and third quarters of each year, and a corresponding decrease in revenues during the first and fourth quarters of each year. The fiscal year 2003 Delta Business Assets quarterly results are indicative of this seasonality.

In fiscal 2004, two factors led to a reduction in the overall revenues associated with the Delta Business Assets. The first was an erosion of the Telecom Power Division's market share resulting from inroads made by new market entrants like Valere Power, Inc., and the other was a change in the purchasing activities of certain of Delta's key customers. These trends had a negative affect on the financial performance of the Delta Business Assets.

In addition, one of Delta's large customers purchased significantly less inventory than the amount anticipated by Delta, resulting in decreased revenues and management's decision to increase the amount of inventory reserve from \$1.1 million to \$2.02 million beginning the second quarter of 2004. The decrease in revenues led to a loss in income for the Delta Business Assets during the last quarter of 2004 and increased inventory in 2005.

The following condensed financial information for the service provider portion of Delta Products Corporation's Telecom Power Division (which service provider portion is referred to in this proxy statement as the Delta Business Assets) for the 12-month period ended December 31, 2004 is derived from audited financial statements and the condensed financial information for the Delta Business Assets as of and for the nine-month period ended September 30, 2005, as well as for the 12-month periods ended December 31, 2002 and 2003 is derived from unaudited financial statements, all of which we believe reflect all adjustments necessary for a fair presentation of the results for the respective periods.

For periods ending September 30, 2005, December 31, 2004, December 31, 2003 and December 31, 2002

The condensed financial information for the 12-month period ended December 31, 2004 is derived from audited financial statements. For the nine-month period ended September 30, 2005, the 12-month period ended December 31, 2003 and December 31, 2002, management believes the notes reflect a fair presentation of the results for the respective periods.

NOTE 1 THE DIVISION

The Telecom Power Division is owned and operated by Delta Products Corporation (DPC). DPC markets and distributes electronic parts and components to providers of wireless communication service throughout the United States of America. These carve-out financial statements include only the service provider portion of DPC s Telecom Power Division (the Division). The Division was started by DPC in 1996.

The Division distributes power units for cell phone towers and provides service related to these units. The Division has inventory in DPC-owned warehouses in Raleigh, North Carolina and Fremont, California, and in third party owned warehouse in Durham, North Carolina.

The Division has extensive transactions with Delta Electronics Inc. (DEI), a Taiwanese company and minority shareholder of Delta America Ltd, the parent of DPC (see Note 3).

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Inventories

Inventory, which consists solely of finished goods, is stated at the lower of cost (determined by the first in, first out method) or market value. The Division maintains a finished goods valuation allowance, which is based upon the age of inventory held. It is reasonably possible that the estimated finished goods reserve will change by a material amount within one year due to events in the industry, including consolidation of customers and new technology.

Revenue Recognition and Accounts Receivable

Revenues from product sales are recognized upon shipment to customer, provided that the Division has received an executed purchased order, the sales price is fixed, title has transferred, collection of the resulting receivable is probable and there is no customer acceptance requirement. The Division records an estimated allowance for returns at the time revenue is recognized based on historical experience. The Division maintains an allowance for doubtful accounts based upon the expected collection of its outstanding receivable balance. Trade accounts receivable are considered past due when they are outstanding in excess of 30 days. Accounts are charged off through the allowance when they are deemed to be uncollectible.

Table of Contents**Advertising**

Advertising costs are charged to operations as incurred. Advertising costs related to the Division amounted to:

<u>Unaudited</u>	<u>Audited</u>	<u>Unaudited</u>	<u>Unaudited</u>
September 30, 2005	December 31, 2004	December 31, 2003	December 31, 2002
\$23,787	\$55,811	\$71,308	\$97,553

Expense Allocations

DPC allocates certain corporate expenses to the Division. These are the administrative expense portion of selling and administrative expense reported in the Statement of Income. Administrative expenses are the allocation of DPC's administrative expense, which includes the salaries and benefits, travel expenses, professional fees and other expenses incurred by DPC's administration on behalf of the Division.

Selling expenses include direct expenses of the service provider portion of the Division, including salaries and benefits, occupancy charges to DPC, which owns the property and equipment of the Division, fuel and delivery expenses, travel and entertainment, sales and promotion expenses, and other direct costs not included in cost of revenue.

The Statement of Income also includes an allocated interest charge for the use of DPC's bank line of credit. Because of the complexity of the line of credit use, no debt can be reasonably allocated to the Division by DPC. Management believes that all of the expense allocation methods are reasonable.

It is reasonably possible that the results of operations would have been different if the Division had operated on a stand alone basis; however, it is not practicable to estimate what expenses would have been had the Division operated on a stand alone basis.

Income Tax

The Division recognizes deferred tax assets and liabilities for expected future tax consequences of temporary differences between financial and tax reporting (see Note 5). The Division is part of DPC, which is consolidated with Delta America Ltd. for federal income tax reporting purposes. However, any income tax accrual, representing the Division's estimated portion of the consolidated federal income tax recovery or liability, is included in the Balance Sheet as part of the amount due from DPC (since DPC is ultimately responsible for its portion of the consolidated income tax liability).

The Division does not have its own checking account. All of the Division's expenditures are made by DPC; therefore, the Receivable from DPC row above represents the Division's allocation of cash held by DPC.

In excess of 95% of the Division's cost of revenues is related to purchases from DEI.

NOTE 6 CONCENTRATION OF CREDIT RISK AND SIGNIFICANT CUSTOMERS

Financial instruments that potentially subject the Division to significant concentrations of credit risk consist primarily of trade accounts receivable. With respect to trade accounts receivable, the Division performs ongoing credit evaluations and maintains reserves for potential credit losses; historically, such losses have been immaterial.

NOTE 8 SUBSEQUENT EVENTS

On October 13, 2005, DPC entered into an *Asset Purchase Agreement* with PECO II, an Ohio Corporation, whereby PECO II agreed to purchase certain business assets of DPC's Telecom Power Division in exchange for shares of stock in PECO II.

When this transaction closes, DPC will transfer to PECO II its business assets ((a) inventory, rights to and under business contracts, (b) rights to and under business records, (c) all rights, claims and causes of action against third parties exclusively relating to the business assets and (d) all rights of indemnity, warranty rights, rights of contribution, rights to refunds and other rights of recovery exclusively related to the business assets) in exchange for (1) 4,740,375 shares of PECO II common stock, (2) a warrant to purchase a certain number of PECO II common stock and (3) the assumption of certain DPC liabilities related to the assets transferred. The agreement provides for an inventory adjustment if its value at the closing date is other than \$2,000,000.

Concurrent with the execution of this agreement, DPC, PECO II and PECO II's significant shareholders executed a *Voting Agreement*, which states that there will be no restrictions on the voting rights associated with the shares received by DPC. Immediately following the execution of this agreement, they were to enter into a *Support Agreement*. In connection with the closing, DPC and PECO II will enter into various other agreements, including a *Transition Services Agreement and Registration Rights Agreement*, and in addition, an affiliate of DPC will enter into a *Supply Agreement* with PECO II.

If the transactions set forth in the *Asset Purchase Agreement* are consummated, PECO II will reimburse DPC for up to \$100,000 of fees and expenses incurred related to the agreement plus one-half of the fees and expenses incurred relating to the preparation and delivery of DPC's financial statements as required by the Agreement. In the event that the Agreement is terminated prior to closing by DPC due to a Triggering Event (as defined in the Agreement), or by PECO II if it receives a superior offer (under the terms of the Agreement), PECO II will pay DPC a \$500,000 termination fee.

The Special Meeting

The Proposals

This proxy statement is being furnished to our shareholders in connection with the solicitation of proxies by our Board of Directors for use at a Special Meeting of Shareholders to be held at St. Joseph's Activity Center, 135 North Liberty Street, Galion, Ohio, on Tuesday, March 21, 2006 at 9:00 a.m. local time. The purpose of the special meeting is for you to consider and vote upon the following proposals:

1. To consider and vote on a proposal to approve and adopt an amendment to our Amended and Restated Code of Regulations providing that the Ohio Control Share Acquisition Act shall not apply to acquisitions of PECO II's equity securities.
2. To consider and vote on a proposal to approve the issuance of 4,740,375 shares of PECO II common stock without par value (the Primary Shares) to Delta Products Corporation (Delta), pursuant to an asset purchase agreement between PECO II and Delta, dated October 13, 2005 (the Asset Purchase Agreement), whereby PECO II will acquire the assets that relate to Delta's Telecom Power Division, consisting of the exclusive rights to business supply agreements with wireline and wireless communications providers and related inventory and will assume the liabilities associated therewith of Delta's U.S. and Canadian service provider business.
3. To consider and vote on a proposal to issue a warrant (the Warrant) to permit Delta to purchase approximately 12.9 million shares of PECO II common stock without par value or such other number of shares that, when aggregated with the Primary Shares, will represent 45% of the issued and outstanding shares of PECO II capital stock measured as of the date five business days prior to the exercise date of the Warrant (the Warrant Shares), at an exercise price of \$2.00 per share, exercisable immediately upon issuance and until a date that is 30 months following the closing date of the transactions contemplated by the Asset Purchase Agreement.
4. To consider and vote on a proposal to allow the Board of Directors to adjourn the special meeting, if necessary, to solicit additional proxies in the event that there are not sufficient votes at the time of the special meeting to approve and adopt the proposals.
5. To transact any other business that may properly come before the special meeting or any adjournment or postponement thereof.

A copy of the Asset Purchase Agreement is attached as Appendix C to this proxy statement. This proxy statement and the enclosed form of proxy are first being mailed to our shareholders on or about February 14, 2006.

Record Date and Voting

The holders of record of our common stock as of the close of business on the record date, which was February 7, 2006 are entitled to receive notice of, and to vote at, the special meeting. On the record date, there were 21,954,741 shares of our common stock outstanding.

The holders of a majority of our shares of common stock that were outstanding on the record date, represented in person or by proxy, will constitute a quorum for purposes of the special meeting. A quorum is necessary to hold the special meeting. Any shares of our common stock held in treasury by us are not considered to be outstanding for purposes of determining a quorum. In accordance with Ohio law, abstentions and

Edgar Filing: PECO II INC - Form DEF 14A

properly executed broker non-votes will be counted as shares present and entitled to vote for the purposes of determining a quorum. Broker non-votes result when the beneficial owners of shares of common stock do not provide specific voting instructions to their brokers. Under applicable rules, brokers are precluded from exercising their voting discretion with respect to the approval of non-routine matters such as the proposals described in this proxy statement, and, thus, absent specific instructions from the beneficial owner of those shares, brokers are not empowered to vote the shares with respect to the approval of these proposals.

Table of Contents

Required Vote

Each share of our common stock that was outstanding on the record date entitles the holder to one vote at the special meeting. Completion of the transactions contemplated by the Asset Purchase Agreement, such as the issuance of the Primary Shares, the issuance of the Warrant and the underlying Warrant Shares, and the proposal to permit the Board of Directors to adjourn the special meeting requires the affirmative vote of the holders of a majority of our shares of common stock voting in person or by proxy at the special meeting. The affirmative vote of a majority of the shares of our common stock is required to approve the amendment to our Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act. Because the vote for the proposal to amend our Amended and Restated Code of Regulations is based on the number of shares of our common stock outstanding rather than on the number of votes cast, failure to vote your shares (including as a result of broker non-votes), and votes to abstain, are effectively votes against this proposal. Record holders may vote their shares of our common stock:

by completing and returning the enclosed proxy card by mail; or

by appearing and voting in person by ballot at the special meeting.

Regardless of whether you plan to attend the special meeting, you should vote your shares by proxy as described above as promptly as possible.

If you hold your shares through a bank, brokerage firm or nominee, you must vote in accordance with the instructions on the voting instruction card that your bank, brokerage firm or nominee provides to you. You should instruct your bank, brokerage firm or nominee as to how to vote your shares, following the directions contained in such voting instruction card.

As of the record date, our executive officers and directors owned an aggregate of approximately 6,050,112 shares of our common stock, entitling them to exercise approximately 27.6% of the voting power of our common stock entitled to vote at the special meeting. These executive officers and directors have indicated that they intend to vote in favor of the proposals.

In addition, simultaneous with the execution of the Asset Purchase Agreement, Messrs. Matthew P. Smith and James L. Green, and their respective affiliates, executed a support agreement and irrevocable proxy (the "Support Agreement"), under which each such person agreed, severally and not jointly, to vote all of the shares of our common stock beneficially owned by such persons at any PECO II shareholders meeting or by any consensual action:

in favor of the proposal to opt out of the Ohio Control Share Acquisition Act;

in favor of the issuance of the Primary Shares and the Warrant;

in favor of the other transactions contemplated by the Asset Purchase Agreement and in favor of any other matter that could reasonably be expected to facilitate consummation of the transactions contemplated by the Asset Purchase Agreement;

against any change in a majority of the members of our Board of Directors; and

against any other action that would impede, interfere with, delay, postpone or materially adversely affect the closing of the transactions contemplated by the Asset Purchase Agreement.

In addition, Messrs. Smith and Green, and their respective affiliates, granted an irrevocable proxy to two of Delta's designees to vote all of the shares of our common stock beneficially owned by such persons in accordance with the five bullet points above.

Proxies; Revocation

If you vote your shares of our common stock by signing a proxy, your shares will be voted at the special meeting as you indicate on your proxy card. If no instructions are indicated on your signed proxy card, your

Table of Contents

shares of our common stock will be voted **FOR** the approval and adoption of the amendment to our Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act, **FOR** the approval of the issuance of the Primary Shares, **FOR** the issuance of the Warrant and the underlying Warrant Shares and **FOR** the proposal to allow the Board of Directors to adjourn the special meeting, if necessary, to solicit additional proxies in the event that there are not sufficient votes at the time of the special meeting to approve the proposals before the special meeting.

You may revoke your proxy at any time before the proxy is voted at the special meeting. A proxy may be revoked prior to the vote at the special meeting in any of three ways:

by delivering a written revocation, dated after the date of the proxy that is being revoked, to the Secretary of PECO II at 1376 State Route 598, Galion, OH 44833;

by delivering a later-dated proxy relating to the same shares to the Secretary of PECO II; or

by attending the special meeting and voting in person by ballot.

Attendance at the special meeting will not, in itself, constitute revocation of a previously granted proxy. If you do not hold your shares of our common stock in your own name, you may revoke or change a previously given proxy by following the instructions provided by the bank, brokerage firm, nominee or other party that is the registered owner of the shares.

We will pay the costs of soliciting proxies for the special meeting. Our officers, directors and employees may solicit proxies by telephone, mail, the Internet or in person; however, they will not be paid any additional amounts for soliciting proxies. We will also request that individuals and entities holding shares in their names, or in the names of their nominees, that are beneficially owned by others, send proxy materials to and obtain proxies from those beneficial owners, and will reimburse those holders for their reasonable expenses in performing those services. We have retained Georgeson Shareholder Communications, Inc. to assist us in the solicitation of proxies, and will pay fees of up to \$15,000, plus reimbursement of out-of-pocket expenses.

Interests of Certain Persons in Matters to be Acted Upon

Our directors and certain of our executive officers may have interests different from our shareholders resulting from them being parties to certain transactional documents.

The Voting Agreement

Each director (except for Mr. Heindel), Ms. Frankhouse and Mr. McIntosh are parties to the Voting Agreement. Our directors may benefit from the execution of the Voting Agreement with Delta, which states that Delta agrees to vote in favor of our Board of Directors' designees to the management slate of nominees for election to our Board of Directors. In addition, under the terms of the Voting Agreement, Delta has agreed not to bring any proposal that would result in the removal from our Board of our Board's designees without cause. Our directors and executive

Edgar Filing: PECO II INC - Form DEF 14A

officers who are parties to the Voting Agreement have agreed to appoint a Delta designee to fill our existing Class II director vacancy as of the closing and to vote their shares of our capital stock in favor of Delta's designee to our Board of Directors, and we will include such designee on our management slate of nominees for election to our Board of Directors. Therefore, it would be unlikely that our shareholders could elect any nominee for director outside of those designated by our Board of Directors to the management slate of nominees pursuant to the Voting Agreement because the parties to the Voting Agreement will also vote in favor of such nominees. Our directors (except for Mr. Heindel), Ms. Frankhouse and Mr. McIntosh, who are parties to the Voting Agreement, beneficially owned in the aggregate 6,750,358 shares, or 30.2% of our capital stock as of September 30, 2005.

Table of Contents

The Support Agreement and Irrevocable Proxy

Two of our directors may have interests different from our shareholders and which may constitute a conflict of interest. Messrs. Smith and Green are parties to the Support Agreement, pursuant to which they have agreed with us and Delta, at our special meeting of shareholders, to vote the shares of our capital stock beneficially owned by them in favor of the proposal to amend our Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act, to vote in favor of the issuance of the Primary Shares to Delta, to vote in favor of the Warrant and the issuance of the Warrant Shares pursuant to Delta's purchase rights thereunder, and to vote in favor of any other matter that could be reasonably expected to facilitate the consummation of the transactions contemplated by the Asset Purchase Agreement. Messrs. Smith and Green irrevocably appointed Delta, through its designees, as its proxy and sole attorney-in-fact to vote at the special shareholders meeting in favor of the above proposals. Mr. Smith beneficially owned 3,000,857 shares or 13.8% of our capital stock and Mr. Green beneficially owned 2,504,344 shares or 11.5% of our capital stock as of September 30, 2005.

Ohio Control Share Acquisition Act

In the absence of the approval by our shareholders of the proposed amendment to our Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act, the shares of our capital stock beneficially owned by James L. Green, our Chairman, would be deemed to be interested shares and would be ineligible for purposes of voting in favor of the proposals at the special meeting. In such an event, it may be more difficult for us to obtain the necessary vote to approve the proposals set forth in this proxy statement and meet all of the conditions to close the various transactions contemplated by the Asset Purchase Agreement.

The Asset Purchase

Background of the Transactions Contemplated by the Asset Purchase Agreement

During late March 2005, Mr. Trygve Ivesdal, one of our Board members, and James L. Green, our current Chairman of the Board, were contacted by Mr. Lanford Liu, Director of Corporate Development, of Delta Electronics, Inc. ("DEI"), an affiliate of Delta, who expressed interest in a possible transaction with us. In April 2005, Mr. Green and other representatives of PECO II engaged in further discussions with Mr. Liu, Mr. Bruce Chen, Chairman, Mr. Albert Chang, General Manager of Telcom Power Systems, Mr. Austin Tseng, Telecom Product Sales Manager of DEI, and other representatives of DEI, concerning DEI's interest in a possible transaction with us. On May 3, 2005, PECO II and DEI entered into a Mutual Non-Disclosure Agreement pursuant to which the parties agreed to keep discussions confidential.

On May 20, 2005, Mr. Liu and other representatives of DEI, including its legal advisor, met with Mr. Green, Ms. Sandra Frankhouse, our Chief Financial Officer, Mr. John G. Heindel, who at that time was serving as a consultant to PECO II, and our legal advisor in Columbus, Ohio. Elements of DEI's proposal were discussed, including the proposal for PECO II to purchase the assets associated with Delta's U.S. and Canadian service provider business in exchange for the issuance of common stock and the issuance of a warrant. PECO II requested additional information from Delta concerning the financial condition of the Delta Business Assets proposed to be sold to PECO II as well an evaluation by PECO II of the proposed consideration to be paid in exchange for the Delta Business Assets.

On July 8, 2005, DEI sent to us a draft preliminary term sheet, which provided the terms for the proposed transaction, along with a draft amendment to the Mutual Non-Disclosure Agreement. The terms of the proposed transaction included the execution of an asset purchase agreement, and various other transactional documents, including a voting agreement dealing with certain corporate governance matters, a support agreement pursuant to which certain significant shareholders would agree to vote in favor of the proposals, a supply agreement between DEI and us pursuant to which we would acquire certain exclusive rights to distribute DEI products in the United States and Canada, and a registration rights agreement to cover any resales by Delta of the Primary Shares and the Warrant Shares. The amendment to the Mutual Non-Disclosure Agreement, dealing with the non-disclosure of the proposed transaction, was executed by PECO II and Delta on July 11, 2005.

During the week of August 1, 2005, Mr. Heindel and our legal advisor met with Mr. Liu, other DEI representatives and DEI's legal advisor in Palo Alto, California to discuss the proposed transaction and proposed transaction documents. During the remainder of August and continuing through September 2005, the parties negotiated the material terms and conditions of the Asset Purchase Agreement and the ancillary agreements thereto, including a voting agreement (the "Voting Agreement"), a support agreement and irrevocable proxy (the "Support Agreement") and a supply agreement (the "Supply Agreement").

The negotiations relating to the Voting Agreement and the Supply Agreement dealt primarily with Delta's concern that we contractually evidence our support of the transaction to our shareholders. By virtue of entering into the Voting Agreement, Delta would acquire the right, as of the closing, to have its designee appointed by our Board of Directors to fill our current Class II director vacancy and to have its designee appointed by our Board of Directors as a board observer at our Board of Directors meetings in a non-voting capacity. In addition, the Voting Agreement provided that we would not remove Delta's designee to our Board of Directors without cause. The Support Agreement is intended to provide Delta a greater assurance that the transactions contemplated by the Asset Purchase Agreement would be supported by our directors, except for Mr. Heindel, and two of our executive officers who are significant shareholders, and that they would agree to vote the shares of our capital stock beneficially owned by them in favor of the proposals to issue the Primary Shares, to issue the Warrant and the purchase rights thereunder to acquire the Warrant Shares and to adopt the amendment to our Code of Regulations to opt out of the Ohio Control Share Acquisition Act.

Table of Contents

The negotiations between Delta and us concerning the Supply Agreement were primarily designed to provide that, after the closing, we obtained the exclusive rights to purchase and incorporate DEI's modules into our systems and to market, promote and sell the modules, our systems and/or DEI's systems in the United States and Canada during the term of the Supply Agreement, including on an exclusive basis during the first 24 months of the agreement (the Exclusivity Period). In addition, we negotiated to obtain during the Exclusivity Period additional preferential rights, such as the right to obtain more favorable prices for a product if such prices were offered by DEI to another person in the United States or Canada, and to engage in joint exploration and discussions with respect to system-level design and component-design.

On September 30, 2005, our Board of Directors held a meeting to analyze and review, with the advice and assistance of our legal and financial advisors, among other things, certain strategic, financial and legal considerations concerning a possible transaction with Delta, the terms of the most recent drafts of the Asset Purchase Agreement and ancillary agreements, and the potential impact to our shareholders. At this meeting, GBQ Consulting, LLC (GBQ), our financial advisor, discussed the methods, factors, and analyses used in preparing its fairness opinion with respect to the fairness of the consideration to be received by our shareholders in connection with the proposed transaction. While no decision was reached at this meeting by our Board of Directors with respect to DEI's proposal, it was the consensus of our Board of Directors that Mr. Heindel, other representatives of our management, and our legal advisor should continue to negotiate the material terms and conditions of the Asset Purchase Agreement and the ancillary agreements.

Messrs. Green and Heindel, other representatives of PECO II management, and our legal advisor continued to finalize the proposed Asset Purchase Agreement and related ancillary agreements from September 30, 2005 through October 13, 2005. At a special meeting of our Board of Directors on October 13, 2005, Mr. Heindel and our legal advisor reported that the parties had satisfactorily resolved all open issues with respect to the material terms and conditions of the Asset Purchase Agreement and ancillary agreements. GBQ then rendered its oral opinion (which was subsequently confirmed in writing) to the effect that, as of October 13, 2005, the consideration to be received by our shareholders pursuant to the Asset Purchase Agreement was fair to our shareholders from a financial point of view. Our Board of Directors unanimously approved the Asset Purchase Agreement and the ancillary agreements, authorized the execution and delivery of the Asset Purchase Agreement and the Voting Agreement, unanimously determined that the issuance of the Primary Shares, the issuance of the Warrant and the underlying Warrant Shares and the proposed amendment to the Amended and Restated Code of Regulations were fair to and in the best interest of PECO II and its shareholders, and unanimously resolved to recommend that our shareholders approve the issuance of the Primary Shares, the issuance of the Warrant and the underlying Warrant Shares and the proposed amendment to our Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act.

Concurrently with the execution of the Asset Purchase Agreement, we also entered into the Voting Agreement with Delta and certain of our significant shareholders (who are the only shareholders whose consent we solicited), consisting of: each member of our Board of Directors (except for Mr. Heindel); certain affiliates of our Chairman of the Board, Mr. Green; certain affiliates of our Board member Mr. Smith; Ms. Frankhouse, our Chief Financial Officer, Treasurer and Secretary; and Mr. McIntosh, our Vice President of Power Systems, to be effective as of closing, whereby Delta and each such shareholder (collectively, the Voting Agreement Shareholders) have agreed to vote all of the shares of our common stock beneficially owned by such Voting Agreement Shareholder at any PECO II shareholder meeting or by any consensual action:

in favor of electing, in the case of Delta, the individual designated by Delta to stand for election to serve on our Board of Directors;
and

in favor of electing, in the case of PECO II, the individuals nominated by our Board of Directors to stand for election to serve on our Board of Directors.

As of September 30, 2005, the Voting Agreement Shareholders beneficially owned 6,750,358 shares, or 30.2%, of our common stock.

On October 13, 2005, we issued a press release announcing the execution of the Asset Purchase Agreement. On October 19, 2005, we filed with the Securities and Exchange Commission Form 8-K describing the material terms of the transactions contemplated by the Asset Purchase Agreement.

Recent Developments

During the week of November 21, 2005, Mr. Heindel met with Delta representatives to discuss various business and transitional matters associated with the Delta Business Assets. As a result of those meetings, we determined that several of the forecasting assumptions utilized by PECO II management in evaluating the value of the Delta Business Assets and relied upon by GBQ in connection with its determination of the fair range of consideration to be paid by PECO II in exchange for the value of the Delta Business Assets as set forth in its fairness opinion needed to be modified. Specifically, we determined that Delta's updated 2006 business plan was adjusted to reflect projected revenue of \$14 million, due in part to Delta's delay in the implementation of a new product line and an anticipated decrease in the revenues to be generated under the Supply Agreement. In addition, since the announcement of the transaction, PECO II's common stock price had substantially increased, impacting the value of the consideration to be paid to Delta for the Delta Business Assets through the issuance of the Primary Shares and the Warrant.

Additionally, in late November and December 2005, Mr. Heindel and PECO II management conferred with its legal counsel to discuss whether the transactions contemplated by the Asset Purchase Agreement remained in the best interest of PECO II and its shareholders considering the changes in the forecasting assumptions for the valuation of the Delta Business Assets and the recent increase in the trading range of PECO II's common stock, which increases the value of the consideration being paid to Delta for the Delta Business Assets.

On October 13, 2005, when GBQ rendered its fairness opinion, the closing price of PECO II's common stock on Nasdaq was \$1.16 per share. Subsequent to October 13, 2005, PECO II's stock price increased significantly. From October 14, 2005 through December 12, 2005, PECO II's stock generally traded on Nasdaq at prices between \$1.38 and \$1.92 per share, on significantly higher volume.

In view of these recent developments, at a meeting on December 13, 2005, our Board of Directors conferred with our management and our independent legal counsel to determine whether the transactions contemplated by the Asset Purchase Agreement remained in the best interest of PECO II and its shareholders.

At its December 13, 2005 meeting, management confirmed the percentage of capital stock of PECO II to be owned by Delta through the issuance of Primary Shares (i.e., 4,740,375 shares of our common stock) and the Warrant to purchase such number of shares that, when aggregated with the Primary Shares, will represent 45% of our issued and outstanding shares of capital stock measured as of five business days before the exercise of the Warrant. Thus, as our stock price increases, the value of the Primary Shares and the Warrant also increases. As a result, the Board discussed whether the value of the Primary Shares and the Warrant currently exceeded the valuation range of the Delta Business Assets set by GBQ and whether the Board may still rely on such valuation range in light of the recent developments with respect to forecasting the value of the Delta Business Assets. In view of these developments and after consultation with its legal counsel regarding its fiduciary duties under Ohio law, our Board of Directors established a special committee to consult with GBQ to determine whether the valuation range in its fairness opinion had changed materially since GBQ had rendered its fairness opinion in October 2005 and, if so, whether the consideration to be received by our shareholders would be fair, from a financial point of view, at the time of our Board's recommendation to our shareholders.

Edgar Filing: PECO II INC - Form DEF 14A

On January 17, 2006, GBQ advised the special committee that it had updated its fairness opinion to take into account the recent developments impacting the consideration to be received by our shareholders. GBQ expressed to the special committee its opinion that, even as a result of a modification to the valuation range set forth in its original opinion due to the impact of these recent developments, the consideration to be received by PECO II s shareholders was fair to them, from a financial point of view. As a result, the special committee recommended

Table of Contents

that our Board review the updated fairness opinion and determine whether its recommendation to our shareholders should be affirmed, modified or withdrawn.

At its January 17, 2006 meeting, our Board reviewed GBQ's updated fairness opinion. After carefully considering the information included in the fairness opinion, including the new valuation range resulting from the recent developments, and the advice of its independent legal counsel, and after extensive discussion, our Board of Directors concluded to unanimously recommend that our shareholders vote in favor of the proposals set forth in this proxy statement. See "Update of Fairness Opinion of our Financial Advisor" on page 48.

Our Reasons for the Transactions Contemplated by the Asset Purchase Agreement; Recommendation of Our Board of Directors

Our Board of Directors reviewed and discussed the various proposals with our management and its financial and legal advisor in determining that the transactions contemplated by the Asset Purchase Agreement are fair to, and in the best interests of, our Company and our shareholders. In reaching its conclusion to approve and adopt the Asset Purchase Agreement and to seek the approval of the shareholders of the proposals described in this proxy statement, our Board of Directors considered a number of factors, including the following positive factors that supported the Board's decision to approve and adopt the Asset Purchase Agreement:

that the transactions contemplated by the Asset Purchase Agreement will provide us with access to Delta's low-cost manufacturing capabilities and business supply agreements, which is expected to reduce our cost of goods sold while expanding our customer base and allowing us to be more successful in the marketplace;

that we will acquire access to new customers in addition to new markets with existing customers, enabling us to better compete in the marketplace;

that the transactions contemplated by the Asset Purchase Agreement will enable us to streamline manufacturing toward standardized products, which is expected to lower our cost of goods sold and thereby increase our operating profit margin, making us more competitive in the marketplace;

that the transactions contemplated by the Asset Purchase Agreement will improve our future product development capabilities;

that we will partner with Delta, an affiliate of a large, publicly-traded company (on the Taiwan Stock Exchange), with more funding and access to public markets, which may add value to our Company because Delta will have the ability to fund new opportunities for our Company that may arise from time to time through the exercise of its Warrant;

our Board of Directors' belief that, based on its understanding of, and the presentations of our management regarding our business, operations, management, financial condition, earnings and prospects, by entering into the transactions contemplated by the Asset Purchase Agreement, we would improve our ability to compete in the telecommunications industry through increased operating margins, access to a larger customer base, and diversification of our product offering;

our Board of Directors' belief that, based on its knowledge of the current and prospective environment in which we operate, including national and local economic conditions, the competitive environment, and the likely effect of these factors on our potential growth, development, productivity, profitability and strategic options, our Company, on a stand-alone basis, may be viewed at a competitive disadvantage in the marketplace because many of our competitors have acquired and/or partnered with other complementary entities to

Edgar Filing: PECO II INC - Form DEF 14A

diversify their product offerings and customer base and to increase their operating margins, and our Company would be better positioned as a result of the transactions contemplated by the Asset Purchase Agreement than as a stand-alone company;

our Board of Directors belief that that our Company would be able to diversify our product offering, increase our customer base and have low-cost manufacturing capabilities by entering into the Asset

Table of Contents

Purchase Agreement that otherwise would be more difficult to achieve on an organic basis in the current global telecommunications market;

the review by our Board of Directors with its legal advisor of the structure of the acquisition and the financial and other terms of the Asset Purchase Agreement and ancillary agreements, which allows our Company to acquire the Delta Business Assets using our capital stock and not cash;

the current and historical market prices of our common stock, and the current and historical market prices of our common stock relative to those of other industry participants and general market indices;

the likelihood that the transactions contemplated by the Asset Purchase Agreement will be completed, including the likelihood that the shareholder approvals needed to complete the transactions will be obtained;

management's view that the transactions contemplated by the Asset Purchase Agreement and the relationships to be obtained by virtue of entering into the ancillary agreements will allow for enhanced products and opportunities for our clients and customers; and

the presentation made to the special committee of our Board of Directors by GBQ, including the updated written opinion of GBQ that, as of January 17, 2006, based upon and subject to the matters stated in such opinion, the value of the consideration to be received by our shareholders in connection with the Asset Purchase Agreement was fair from a financial point of view. GBQ's presentation involved various valuation analyses performed by GBQ that are described under "Opinions of Our Financial Advisor Update of Opinion of Our Financial Advisor" and the full text of its updated written opinion, which sets forth the revised assumptions made and the new matters considered and limitations on the review undertaken in connection with the opinion, is attached as Appendix G.

Our Board of Directors also considered potential risks relating to the transactions contemplated by the Asset Purchase Agreement or the failure by us to consummate such transactions, including the following:

the fact that the transactions contemplated by the Asset Purchase Agreement would dilute our current shareholders' ownership of our common stock as a result of the issuance of the Primary Shares and any Warrant Shares exercised pursuant to the Warrant;

our management's belief that our business plan must change in order to combat sustained operating losses, and the failure to modify our manufacturing capabilities by not entering into the transactions contemplated by the Asset Purchase Agreement to meet changing customer demands and pricing may result in sustaining such operating losses;

our opportunities to achieve success in the future without partnering with Delta may be limited as most of our competitors have already aligned themselves with complementary businesses to better position themselves to accelerate the development of their business initiatives and opportunities;

the Supply Agreement restricts our use of Delta products to North America;

the Supply Agreement restricts our ability to do business with certain potential customers without the consent of DEI;

the possibility that the failure to consummate the transactions contemplated by the Asset Purchase Agreement will result in a missed opportunity for our stock price to increase;

Edgar Filing: PECO II INC - Form DEF 14A

absent the consummation of the transactions contemplated by the Asset Purchase Agreement, a significant reduction in size or even liquidation is possible given historical losses and our current book value of \$1.60 per share; and

if we do not consummate the transactions contemplated by the Asset Purchase Agreement, our Company may not be able to partner in the future with a larger, diversified industry participant such as Delta, and also retain some autonomy while eliminating costs and adding volume.

Table of Contents

The discussion of the information and factors considered by our Board of Directors is not exhaustive, but includes all material factors considered by our Board. In view of the wide variety of factors considered by our Board in connection with its evaluation of the transactions contemplated by the Asset Purchase Agreement and the complexity of these matters, our Board of Directors did not consider it practical to, nor did it attempt to, quantify, rank or otherwise assign relative weights to the specific factors that it considered in reaching its decision. Our Board evaluated the factors described above, including asking questions of our management and our legal advisor, and reached the unanimous decision that the transactions contemplated by the Asset Purchase Agreement were in the best interests of our Company and our shareholders. In considering the factors described above, individual members of our Board of Directors may have given different weights to different factors. Our Board of Directors considered these factors as a whole, and overall considered them to be favorable to, and to support, its determination. It should be noted that this explanation of our Board's reasoning and all other information presented in this section is forward-looking in nature and, therefore, should be read in light of the factors discussed under the heading "Forward Looking Statements."

Our Board of Directors determined that the proposed amendment to the Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act, the issuance of the Primary Shares, the issuance of the Warrant and the Warrant Shares, and the proposal to allow our Board of Directors to adjourn the special meeting to solicit additional proxies if there are not sufficient votes at the time of the special meeting to approve the proposals, are advisable, fair to and in the best interests of PECO II and its shareholders. Accordingly, our Board of Directors unanimously approved and adopted the Asset Purchase Agreement and unanimously recommends that you vote "FOR" the approval and adoption of amendment to the Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act, the issuance of the Primary Shares, the issuance of the Warrant and the issuance of Warrant Shares, and the proposal to allow our Board of Directors to adjourn the special meeting to solicit additional proxies if there are not sufficient votes at the special meeting to approve the proposals.

Opinions of Our Financial Advisor

We engaged GBQ to render its opinion with respect to the fairness or inadequacy, from a financial point of view, to our shareholders, of the transactions contemplated by the Asset Purchase Agreement. On September 30, 2005, GBQ rendered its oral opinion to our board of directors that as of that date, and based upon and subject to certain matters stated in that opinion, from a financial point of view, the transactions contemplated by the Asset Purchase Agreement were fair to our shareholders. GBQ subsequently orally confirmed its opinion on October 13, 2005 and by subsequent oral confirmation on and delivery of its written opinion dated October 13, 2005 (the "October Opinion"). GBQ has consented to our use of its October Opinion in this proxy statement.

The full text of GBQ's October Opinion is attached as Appendix F to this proxy statement. The October Opinion outlines the procedures followed, assumptions made, matters considered and qualifications and limitations on the review undertaken by GBQ in rendering its October Opinion. The description of the October Opinion set forth below is qualified in its entirety by reference to the October Opinion. We urge you to read the entire October Opinion carefully in connection with their consideration of the four proposals, as qualified by the update to the October Opinion as described in "Recent Development" beginning on page 40 and "Updated Opinion of Our Financial Advisor" beginning on page 48.

The October Opinion was provided for the information and assistance of our Board of Directors in connection with its consideration of the fairness of the transactions contemplated by the Asset Purchase Agreement. The October Opinion does not address any other aspect of the transaction and is not intended to be and does not constitute a recommendation to any shareholder of our Company as to how that shareholder should vote with respect to the proposed amendment to the Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act, the issuance of the Primary Shares, the issuance of the Warrant or the Warrant Shares or the proposal to allow our Board of Directors to adjourn the special meeting to solicit additional proxies if there are not sufficient votes at the special meeting to approve the proposals. GBQ was not

Table of Contents

requested to opine as to, and the October Opinion does not address, our underlying business decision to proceed with or effect the transactions contemplated by the Asset Purchase Agreement, nor does the October Opinion address the relative merits of the transactions contemplated by the Asset Purchase Agreement compared to any other business strategies or alternatives that might be available to us.

In arriving at its opinion, GBQ reviewed and analyzed the following primary sources of information publicly available information concerning PECO II that GBQ believed to be relevant to its analysis, including:

our Annual Reports on Form 10-K for the fiscal years ended December 31, 2000 through 2004 and our Quarterly Report on Form 10-Q for the quarter ended June 30, 2005;

drafts of the Asset Purchase Agreement, the Warrant and the Supply Agreement;

financial and operating information with respect to the business, operations and prospects of PECO II furnished to GBQ by us;

a review of the historical market prices and trading volume of our publicly traded common stock, an analysis of our shareholder profile and the number of our shareholders, and a review of publicly available news articles and press releases relating to Delta and our Company;

a comparison of the historical financial results and present financial condition of our Company with those of other companies that GBQ deemed relevant to PECO II and Delta; and

various PECO II management-prepared documents, lists and schedules, such as customer lists, competitor lists, sales forecasts and margin estimates.

In addition, GBQ had discussions with our management concerning our business, operations, assets, liabilities, financial condition and prospects.

In arriving at its opinion, GBQ assumed and relied upon the accuracy and completeness of the financial and other information used by GBQ without assuming any responsibility for independent verification of that information. GBQ further relied upon the assurances of our management that they were not aware of any facts or circumstances that would make that information inaccurate or misleading. In arriving at its opinion, GBQ did not conduct a physical inspection of our properties and facilities and did not make or obtain any evaluations or appraisals of our assets or liabilities. The October Opinion necessarily was based upon market, economic and other conditions as they existed on, and could be evaluated as of, the date of the October Opinion.

In arriving at its opinion, GBQ also considered the issuance of the Primary Shares and Warrant Shares and the dilutive effect such shares would have on our shareholders. According to GBQ, our existing shareholders would hold a smaller percentage of the total issued and outstanding shares of our capital stock as a result of the issuance of the Primary Shares and Warrant Shares; however, the addition of the Delta Business Assets to be acquired under the Asset Purchase Agreement would increase our value as of the closing by an amount commensurate with the value of the consideration paid by us pursuant to the Asset Purchase Agreement, approximately \$8.9 million, assuming all of the Primary Shares and Warrant Shares are issued. As GBQ indicated that the value of the consideration to be paid by PECO for the Delta Business Assets pursuant to the Asset Purchase Agreement was in the lower range of its concluded range of value for the Delta Business Assets, GBQ did not believe there would necessarily be a dilutive effect to the share price of our capital stock and, consequently, to our shareholders, solely as a result of the issuance of the Primary Shares and Warrant Shares.

Edgar Filing: PECO II INC - Form DEF 14A

At the September 30, 2005 meeting of our Board of Directors, GBQ made a presentation of certain financial analyses of the transactions contemplated by the Asset Purchase Agreement.

The following is a summary of the material valuation, financial and comparative analyses in the presentation that was delivered to our Board of Directors by GBQ on September 30, 2005.

Table of Contents

Valuation of the Delta Business Assets

In valuing the Delta Business Assets, GBQ used two valuation methods: the Discounted Cash Flow Method and the Guideline Public Company Method.

Discounted Cash Flow Method

The discounted cash flow method is based on the theory that the total value of a business is the present value of its projected future cash flows, plus the present value of the terminal value. GBQ analyzed Delta's sales and operating profits under two operating scenarios for the Delta Business Assets to be acquired by us pursuant to the Asset Purchase Agreement:

- a High scenario assuming high growth in revenue, steady gross margins and operating expenses growing at the same rate as revenues; and

- a Low scenario assuming moderate growth in revenue, relatively constant operating margins, and operating expenses growing at the same rate as revenues.

Management provided GBQ with annual projections for the Delta Business Assets under both scenarios for the years ended December 31, 2006 through 2009. Both scenarios reflected Delta's projected cash flows from PECO II's standpoint assuming certain cost savings from the acquisition of the business. As a result, the indicated values from the Discounted Cash Flow Method were on a strategic basis.

Under the High scenario, revenue and operating income for the business was projected to total \$26.9 million (a compound annual growth rate of 20.5% over 2004 revenue) and \$4.3 million, respectively, by 2009. Gross margins were projected to remain constant at 23.3%. Operating expenses were projected to total \$800,000 in 2005 and \$1.2 million in 2006. Beyond 2006, operating expenses were forecasted to grow at the same rate as revenue.

Under the Low scenario, revenue and operating income for the business was projected to total \$16.1 million (a compound annual growth rate of 9.2% over 2004 revenue) and \$2.6 million, respectively, by 2009. Gross margins were projected to remain constant at 23.3%. Operating expenses were projected to total \$800,000 in 2005 and grow at the same rate as revenue for every year thereafter.

The cash flows, as well as the terminal value, were discounted to the net present value utilizing a weighted average cost of capital and a terminal value capitalization rate. The weighted average cost of capital or required rate of return was derived by determining the appropriate required returns on equity and debt under an appropriate capital structure. Utilizing the capital asset pricing model (CAPM), the cost of equity was calculated to be 23.00%. Utilizing a long-term interest rate of 7.59% and a tax rate of 40%, the post-tax cost of debt was calculated to be 4.55%. GBQ used an industry based capital structure of 80% equity and 20% debt to determine the appropriate weighting between the cost of equity and the cost of debt. As a result, the weighted average cost of capital was calculated to be 19.0%. The terminal value was calculated by GBQ dividing the terminal cash flow by the discount rate less the Company's long-term projected growth rate of 5%, providing a terminal capitalization rate of 14%.

Edgar Filing: PECO II INC - Form DEF 14A

Utilizing the financial projections of both scenarios and the required rate of return GBQ suggested to our Board of Directors that a fair value of the Delta Business Assets to be acquired by us pursuant to the Asset Purchase Agreement was \$8.0 to \$13.6 million.

Guideline Public Company Method

The Guideline Public Company method relies on the principle of substitution, whereby a prudent buyer would pay no more for a property that it would cost to acquire a substitute property with the same utility. In other words, this method estimates value through analysis of similar public companies. GBQ completed an extensive review of publicly available information and held discussions with our management to identify comparable public companies (i.e., companies with an underlying similarity of relevant investment characteristics, such as markets, products, growth, or other pertinent factors).

Table of Contents

Although no single public company was found to be directly comparable to the Delta Business Assets to be acquired from Delta in terms of size, products, and markets served, GBQ identified six publicly-traded companies operating primarily in the telecommunications electronic component industry for use in its analysis: Vicor Corporation, Wireless Facilities, Inc., Applied Innovation Inc., Artesyn Technologies, Inc., Power-One, Inc., and Ault, Inc. In applying the Guideline Public Company Method, GBQ reviewed and considered various pricing relationships among the guideline companies based on their historical (2004 and five-year weighted average) and projected (2005 and 2006) revenue and their total invested capital (market value of equity plus debt minus cash and equivalents, or TIC) as of September 21, 2005. An overview of these valuation multiples is provided in the table below:

	<u>Low</u>	<u>Median</u>	<u>Mean</u>	<u>High</u>
% TIC / 5-Year Wtd. Avg. Revenue	31.1%	101.1%	125.3%	295.3%
% TIC / 2004 Revenue	34.7%	105.9%	126.4%	294.9%
% TIC / 2005 Revenue	81.4%	101.0%	141.2%	281.6%
% TIC / 2006 Revenue	71.1%	89.2%	123.4%	244.0%

To determine the appropriate multiples to apply to the Delta Business Assets to be acquired by us, GBQ considered any discernable risk and return characteristics relative to the guideline companies, including size, growth, cost structures, profitability, return on investment, liquidity and leverage. The specific multiple ranges selected by GBQ included:

	Selected Multiple		
	<u>Range</u>		
% TIC / 5-Year Wtd. Avg. Revenue	60.0%	to	90.0%
% TIC / 2004 Revenue	60.0%	to	90.0%
% TIC / 2005 Revenue	50.0%	to	80.0%
% TIC / 2006 Revenue	40.0%	to	70.0%

The multiples selected by GBQ in the table above were then multiplied by the TIC for each measurement period to provide a range of total invested capital. GBQ then averaged these numbers to arrive at a business enterprise value of the Delta Business Assets of \$6,600,000 to \$10,600,000.

In addition, the range of values from the Guideline Public Company Method did not incorporate the strategic synergies expected to be obtained by us as a result of consummating the transactions contemplated by the Asset Purchase Agreement. Accordingly, GBQ informed our Board of Directors that it was appropriate to consider applying an acquisition premium to the indicated range of values. GBQ reviewed *Mergerstat Review* which tracks publicly announced formal transfers of ownership of at least 10% of a company's equity. According to these studies, the medium premium paid for controlling interests relative to non-controlling interests in publicly-traded companies ranged from 23.4% to 43.5% over the past 24 years, with a median premium of 31.8%. These studies indicated that smaller transactions generally featured larger acquisition premiums, although transactions under \$25.0 million had a medium premium of 21.4% in 2004. GBQ applied an acquisition premium of 20% to the indicated values from the Guideline Public Company Method. Accordingly, applying the selected ranges and acquisition premium, GBQ suggested a fair value of \$7.9 to \$12.7 million for the Delta Business Assets to be acquired by us pursuant to the Asset Purchase Agreement.

GBQ Conclusion of Delta Business Valuation

Edgar Filing: PECO II INC - Form DEF 14A

According to GBQ, the results of the Discounted Cash Flow Method and the Guideline Public Company Method suggested a fair value of \$7.9 million to \$13.6 million for the Delta Business Assets to be acquired by us pursuant to the Asset Purchase Agreement.

Valuation of PECO II

Shares of our common stock are not covered by Wall Street analysts and therefore have little public following. As of September 21, 2005 (the date GBQ valued our shares for this presentation), our trading price of

Table of Contents

\$1.27 per share corresponded with a market capitalization of \$28.5 million. To assess the reasonableness of our current market capitalization, GBQ performed an independent valuation analysis of our common stock using valuation techniques including the Discounted Cash Flow Method, the Guideline Public Company Method, and the Net Asset Value Method.

In connection with the Discounted Cash Flow Method, GBQ noted that we had not achieved a profit from operations since 2000 and our cash flows had been erratic and unpredictable. In addition, our operating performance was closely tied to the capital expenditure forecasts of the telecommunications industry. Projections provided by our management included:

consolidated pro forma monthly projections for fiscal 2006 Income Statement, Balance Sheet, and Cash Flow Statement;

pro forma monthly projections for fiscal 2006 by reporting unit (product and service units) Income Statement, Balance Sheet, and Cash Flow Statement;

consolidated pro forma quarterly projections for fiscal 2006 and 2007 Income Statement, Balance Sheet, and Cash Flow Statement; and

consolidated pro forma annual projections for fiscal 2008, 2009, 2010, and 2011 Income Statement, Balance Sheet, and Cash Flow Statement.

Management projected revenue increasing to \$66.2 million by 2009, or a compound annual growth rate of 16.0% from 2004 revenue. Gross margins were projected to fluctuate between 23.1% and 26.0%. Operating expenses were projected to total \$11.3 million in 2005 and grow at a modest rate for every year thereafter. Depreciation was forecasted to outpace capital additions in the near future.

Utilizing our management's financial projections and a required rate of return of 19.0% (derived in the same fashion as in GBQ's valuation of the Delta Business Assets), GBQ suggested a fair value of \$0.98 per share for PECO II common stock.

In connection with the Guideline Public Company Method, GBQ completed an exhaustive review of publicly available information and held discussions with our management to identify comparable public companies. The six publicly-traded companies identified and the pricing multiples analyzed in valuing the Delta Business Assets in connection with the Guideline Public Company Method for the Delta Business Assets were used in GBQ's analysis of us. The following table outlines the multiple ranges selected by GBQ in their valuation of PECO II:

	Selected Multiple Range	
% TIC / 2004 Revenue	45.0%	to 75.0%
% TIC / 2005 Revenue	45.0%	to 75.0%
% TIC / 2006 Revenue	30.0%	to 60.0%

In applying the selected multiple ranges under the Guideline Public Company Method, GBQ suggested a fair value of \$0.97 to \$1.52 per share for our common stock.

Edgar Filing: PECO II INC - Form DEF 14A

In connection with the Net Asset Value Method, all of our business assets and liabilities were identified and restated to fair value either collectively or discretely. GBQ used the reported book value of our common stock as a proxy for net asset value and suggested a fair value of \$1.60 per share for our common stock.

Based on the Discounted Cash Flow, Guideline Public Company and Net Asset Value Methods, GBQ determined that the current trading price of \$1.27 per share for our common stock was in the range of fair value of \$0.97 to \$1.60 per share for our common stock.

Value of Consideration to be Paid by PECO II

Based on the number of Primary Shares to be issued to Delta and a current market value of \$1.27 per share as of September 21, 2005 (the date GBQ valued our shares for this presentation), GBQ indicated that we would be issuing approximately \$6.02 million of our common stock to Delta.

Table of Contents

In valuing the Warrant, GBQ utilized the Black-Scholes Option Pricing Model (BSOPM). The BSOPM is an arbitrage pricing model that was developed using the premise that if two assets have identical payoffs, they must have identical prices to prevent arbitrage. The BSOPM calculates the price of a traditional call option by analyzing the volatility and opportunity cost of investing in the underlying asset.

The following is a listing of the six variables used in the BSOPM and GBQ's input for each variable:

underlying asset price \$1.27 per share per current market price;

strike price \$2.00;

remaining time to maturity 2.5 years (30 months);

risk-free rate of return GBQ utilized a 3.96% risk free rate of return based on the yields of 2- and 3-year (consistent with the investment time horizon) Treasury bonds;

dividend yield 0.0%; and

annual stock volatility GBQ analyzed the historical 1-, 2-, and 3-year annualized stock volatility of PECO II and the aforementioned six guideline public companies in arriving at an estimated volatility of 60.0%.

Following an adjustment for dilution that would occur when the Warrant is exercised and Warrant Shares are issued, the GBQ assumptions suggested a market value of \$0.22 per share for each Warrant Share. Based on the initial consideration of Primary Shares and fully diluted shares outstanding of 39.26 million (post-exercise of the Warrant), we would be issuing the Warrant on approximately 12.93 million shares. As a result, GBQ suggested the total value of the Warrant issued to Delta to be estimated at \$2.83 million.

Accordingly, GBQ suggested that the market value of the total consideration to be paid to Delta by us for the purchase of the Delta Business Assets pursuant to the Asset Purchase Agreement was estimated to be \$8.9 million. This market value was in the lower range of the estimated value GBQ believed may be added to PECO II as a result of our purchase of the Delta Business Assets, being valued in a range of \$7.9 million to \$13.6 million. This wide range of estimated value of the Delta Business Assets was derived from the High scenario or aggressive forecast of future performance and Low scenario or conservative forecast of future performance provided to GBQ by our management.

The consideration to be offered to our shareholders by virtue of our Company entering into the Asset Purchase Agreement and consummating the transactions contemplated thereby were determined through arms'-length negotiations between Delta and us and were approved by our Board of Directors. GBQ did not recommend any specific price per share or other form of consideration to our Company or that any specific price per share or other form of consideration constituted the only appropriate consideration for the acquisition. The October Opinion was one of many factors taken into consideration by our Board of Directors in making its determination to approve the Asset Purchase Agreement. The analysis of GBQ summarized above should not be viewed as determinative of the opinion of our Board of Directors with respect to the value of our Company or whether our Board of Directors would have been willing to agree to a different price per share or other forms of consideration.

Edgar Filing: PECO II INC - Form DEF 14A

Our Board of Directors selected GBQ as its financial advisor because of GBQ's reputation as a recognized financial advisory firm with substantial experience in transactions similar to the transactions contemplated by the Asset Purchase Agreement. As part of its financial advisory business, GBQ is continually engaged in the valuation of businesses and their securities in connection with acquisitions and valuations for corporate and other purposes.

Pursuant to an engagement letter between PECO II and GBQ, we agreed to pay a fee which was payable upon delivery of the October Fairness Opinion. We agreed to pay GBQ a fee of \$50,000 plus reimbursement of its reasonable out of pocket expenses incurred in connection with the engagement. In addition, we agreed to indemnify GBQ and its related parties from and against certain liabilities, including liabilities under the federal securities laws.

Update of Fairness Opinion of Our Financial Adviser

In late November 2005, we determined that certain of the forecasting assumptions utilized by our management in evaluating the value of the Delta Business Assets and relied upon by GBQ in connection with its

Table of Contents

determination of the fair range of consideration to be paid by us in exchange for the value of the Delta Business Assets as set forth in GBQ's October Opinion needed to be updated. Delta's updated 2006 business plan was adjusted to reflect projected revenue of \$14 million, due in part to Delta's delay in the implementation of a new product line and an anticipated decrease in the revenues to be generated under the Supply Agreement. In addition, since the announcement of the transaction, PECO II's common stock price had substantially increased, impacting the value of the consideration to be paid to Delta for the Delta Business Assets through the issuance of the Primary Shares and the Warrant. In late November and December 2005, our management conferred with our legal counsel to discuss whether the transactions contemplated by the Asset Purchase Agreement remained in the best interests of our Company and its shareholders considering the changes in the forecasting assumptions from the valuation of the Delta Business Assets and the recent increase in the trading range of PECO II's common stock.

On October 13, 2005, when GBQ rendered its October Fairness Opinion, the closing price of PECO II's common stock on Nasdaq was \$1.16 per share. Subsequent to October 13, 2005, PECO II's stock price increased significantly. From October 14, 2005 through December 12, 2005, PECO II's stock generally traded on Nasdaq at prices between \$1.38 and \$1.83 per share, on significantly higher volume.

In view of these recent developments, at a meeting on December 13, 2005, our Board of Directors conferred with our management and our independent legal counsel to determine whether the transactions contemplated by the Asset Purchase Agreement remained in the best interests of PECO II and its shareholders. The Board discussed whether the value of the Primary Shares and the Warrant currently exceeded the valuation range of the Delta Business Assets set by GBQ in its October Opinion and whether the Board may still rely on such valuation range in light of the recent developments with respect to forecasting the value of the Delta Business Assets and the increase in PECO II's common stock price. Our Board of Directors established a special committee to consult with GBQ to determine whether the valuation range in its October Opinion had changed materially since GBQ had rendered its fairness opinion in October 2005 and, if so, whether the consideration to be received by our shareholders would be fair, from a financial point of view, at the time of our Board's recommendation to our shareholders.

On January 17, 2006, GBQ orally confirmed its oral opinion to our special committee and by delivery of an updated written fairness opinion (the January Opinion). On January 17, 2006, our Board subsequently reviewed the January Opinion. GBQ has consented to our use of its January Opinion in this proxy statement.

The full text of GBQ's January Opinion is attached as Appendix G to this proxy statement. The updated opinion outlines the procedures followed, revised assumptions, if any, made, matters considered and qualifications and limitations on the review undertaken by GBQ in rendering its updated opinion. The description of the January Opinion set forth below is qualified in its entirety by reference to the January Opinion. We urge you to read the entire opinion carefully in connection with your consideration of the four proposals.

The January Opinion was provided for the information and assistance of our Board of Directors in connection with its consideration of the impact of developments between the date of the Asset Purchase Agreement and its recommendations set forth in this proxy statement to determine whether the transactions contemplated by the Asset Purchase Agreement are fair as of the date of this proxy statement. The January Opinion is an update of the October Opinion, taking into account revised assumptions that were not known as of the date of the October Opinion, developments subsequent to the October Opinion that could have a material affect on the valuation range set forth therein, and certain synergies specific to PECO II arising from the transaction that will benefit PECO II but were not quantified in the October Opinion. The January Opinion quantified these synergies because GBQ, in considering the impact of the developments since the October Opinion, believed it appropriate to value the synergies that PECO II is bringing to the transaction.

As with the October Opinion, the January Opinion does not address any other aspect of the transaction and is not intended to be and does not constitute a recommendation to any shareholder of our Company as to how that

shareholder should vote with respect to the proposed amendment to the Amended and Restated Code of

Table of Contents

Regulations to opt out of the Ohio Control Share Acquisition Act, the issuance of the Primary Shares, the issuance of the Warrant or the Warrant Shares or the proposal to allow our Board of Directors to adjourn the special meeting to solicit additional proxies if there are not sufficient votes at the special meeting to approve the proposals. GBQ was not requested to opine as to, and the January Opinion does not address, our underlying business decision to proceed with or effect the transactions contemplated by the Asset Purchase Agreement, nor does the January Opinion address the relative merits of the transactions contemplated by the Asset Purchase Agreement compared to any other business strategies or alternatives that might be available to us.

In updating the October Opinion, GBQ reviewed and analyzed the following primary sources of information concerning PECO II that GBQ believed to be relevant to its analysis, including:

the elimination of the High operating scenario and Low operating scenario for the Delta Business Assets due to reliance on our updated forecast scenario of Delta's projected revenues for the Delta Business Assets;

improved gross margins on our manufactured products anticipated to be derived from Delta's competitively superior customer supply agreements;

our adjustment to the residual value of PECO II by virtue of our ability to utilize net operating loss carryforwards on a more accelerated time table if the transaction were to close; and

our increase in cash, reduction of debt, reduction in non-operating assets and increase in interest income as the result of our sale of two real estate properties.

In addition, GBQ had discussions with our management concerning developments since the date of the October Opinion that have had an impact on our business, and the operations, assets, liabilities, financial condition and prospects of the Delta Business Assets to be acquired by us.

In arriving at the January Opinion, GBQ assumed and relied upon the accuracy and completeness of the financial and other information used by GBQ without assuming any responsibility for independent verification of that information. GBQ further relied upon the assurances of our management that they were not aware of any facts or circumstances that would make that information inaccurate or misleading. In arriving at its opinion, GBQ did not conduct a physical inspection of our properties and facilities and did not make or obtain any evaluations or appraisals of our assets or liabilities. GBQ's opinion necessarily was based upon market, economic and other conditions as they existed on, and could be evaluated as of, the date of the January Opinion.

At the January 17, 2005 meeting of our special committee, and at the January 17, 2005 meeting of our Board of Directors, GBQ made a presentation of its updated financial analyses of the transactions contemplated by the Asset Purchase Agreement.

The following is a summary of the updated material valuation, financial and comparative analyses in the presentation that was delivered by GBQ to our special committee and considered by our Board of Directors in connection with the January Opinion.

Discounted Cash Flow Method

GBQ considered the projections of our management's best estimate of the Delta Business Assets' business prospects for the fiscal years ending December 2006 through December 2009, which were extended out one year based on an extrapolation of operating trends. GBQ analyzed the resulting indicated values from the Discounted Cash Flow Method in the January Opinion on a strategic basis, taking into account certain synergies specific to PECO II, including anticipated improvement in cash flows from savings related to Delta's overhead costs, improved gross margins on PECO II manufactured products from competitively superior customer supply agreements, and more immediate use of PECO II's net operating loss carryforward. Based on the forecasted profitability of PECO II, GBQ determined that the acquisition of the Delta Business Assets would allow PECO II to realize tax savings from the net operating loss carryforward on a more accelerated timetable.

Table of Contents

Management projected revenue and operating income for the business increasing to \$19.6 million (a compound annual growth rate of 12.2% over 2005 estimated revenue) and \$4.5 million, respectively, by 2009. Gross margins were projected to improve to 30.4% in 2006, 32.8% in 2007, 32.3% in 2008, 31.8% in 2009, and 32.0% in 2010, including a 15% reduction in material purchasing costs for PECO II. Operating expenses were projected to total \$800,000 in 2005 and \$1.2 million in 2006. Beyond 2006, operating expenses were forecasted to grow at a rate of 8.9% of revenue by 2010.

The cash flows, as well as the terminal value, were discounted to the net present value utilizing a weighted average cost of capital and a terminal value capitalization rate. The weighted average cost of capital or required rate of return was derived by determining the appropriate required returns on equity and debt under an appropriate capital structure. Utilizing the CAPM, the cost of equity was calculated to be 23.02%. Utilizing a long-term interest rate of 7.61% and a tax rate of 40%, the post-tax cost of debt was calculated to be 4.57%. GBQ used an industry based capital structure of 90% equity and 10% debt to determine the appropriate weighting between the cost of equity and the cost of debt. The applied capital structure shifted between the October Opinion and the January Opinion in favor of a higher equity weighting based on movement of the capital structures of the guideline public companies. As a result, the weighted average cost of capital was calculated to be 21.0%. The terminal value was calculated by GBQ dividing the terminal cash flow by the discount rate less the Company's long-term project growth rate of 5%, providing a terminal capitalization rate of 16%.

In addition, based on the forecasted profitability of PECO II, the addition of the Delta Business Assets would allow PECO II to realize tax savings from its net operating loss carryforward at an accelerated pace. Utilizing the weighted average cost of capital of 21.0%, GBQ calculated the present value of the Delta Business Assets to PECO II's net operating loss carryforward usage to be approximately \$7.0 million.

Utilizing the revised financial projections, the required rate of return, and the present value of PECO II's net operating loss carryforward, GBQ suggested to our Board of Directors that a revised fair value of the Delta Business Assets to be acquired by us pursuant to the Asset Purchase Agreement is \$19.3 to \$23.9 million.

Guideline Public Company Method

The Guideline Public Company Method was updated to January 11, 2006 for the January Opinion. GBQ reviewed and considered various pricing relationships among the guideline companies based on their historical (2004 and five-year weighted average) and projected (2005 and 2006) revenue and their total invested capital (market value of equity plus debt minus cash and equivalents or "TIC") as of January 11, 2006. An overview of these valuation multiples is provided in the table below:

	Low	Median	Mean	High
% TIC / 5-Year Wtd. Avg. Revenue	28.2%	131.0%	146.4%	355.6%
% TIC / 2004 Revenue	30.5%	115.9%	146.3%	355.2%
% TIC / 2005 Revenue	91.2%	145.4%	180.0%	338.2%
% TIC / 2006 Revenue	82.4%	129.2%	158.1%	291.5%

The specific multiple ranges selected by GBQ included:

	Selected Multiple		
	Range		
	<hr/>		
% TIC / 5-Year Wtd. Avg. Revenue	60.0%	to	90.0%
% TIC / 2004 Revenue	70.0%	to	100.0%
% TIC / 2005 Revenue	65.0%	to	95.0%
% TIC / 2006 Revenue	60.0%	to	90.0%

The multiples selected by GBQ in the table above were then multiplied by the TIC for each measurement period to provide a range of total invested capital. GBQ then averaged these numbers to arrive at a business enterprise value of the Delta Business Assets of \$7,800,000 to \$11,500,000.

Table of Contents

GBQ applied an acquisition premium of 20% to the indicated values of the Guideline Public Company Method to reflect anticipated synergies, including the approximately \$7.0 million present value of the PECO II net operating loss carryforward. Based on this new analysis, GBQ's application of the Guideline Public Company Method suggested a strategic equity value of \$16.4 to \$20.8 million for the Delta Business Assets.

GBQ Conclusion of Delta Business Valuation

According to GBQ, the results of the updated Discounted Cash Flow Method and the Guideline Public Company Method suggests a fair value of \$16.4 million to \$23.9 million for the Delta Business Assets to be acquired by us pursuant to the Asset Purchase Agreement.

Valuation of PECO II

In connection with the updated Discounted Cash Flow Method for the January Opinion, GBQ noted that PECO II's operations have improved since our largest historical net loss in fiscal year 2002. GBQ also considered projections of management's best estimate of our business prospects for the fiscal years ending December 2006 through December 2011. The specific set of projections provided by our management to GBQ included:

consolidated pro forma monthly projections for fiscal 2006 Income Statement, Balance Sheet, and Cash Flow Statement;

pro forma monthly projections for fiscal 2006 by reporting unit (product and service units) Income Statement, Balance Sheet, and Cash Flow Statement;

consolidated proforma quarterly projections for fiscal 2006 and 2007 Income Statement, Balance Sheet, and Cash Flow Statement; and

consolidated pro forma annual projections for fiscal 2008, 2009, 2010, and 2011 Income Statement, Balance Sheet, and Cash Flow Statement.

Management projected revenue increasing to \$62.4 million by 2009, or a compound annual growth rate of 12.0% from 2004 revenue. Gross margins were projected to improve to 25.2% by 2007. Operating expenses were projected to total \$12.3 million in 2006 and grow at a modest rate for every year thereafter. Depreciation was forecasted to outpace capital additions in the near future.

The projections relied on by GBQ reflect PECO II's prospects as well as GBQ's analysis of the present value of PECO II's net operating loss carryforward assuming the transactions contemplated by the Asset Purchase Agreement do not close. Utilizing these projections, a required rate of return of 21% (derived in the same fashion as in GBQ's valuation of the Delta Business Assets), and adjusting for nonoperating assets, GBQ's application of the Discounted Cash Flow Method suggests a fair value of \$0.94 per share for PECO II's common stock.

In connection with the Guideline Public Company Method, the following table outlines the multiple ranges selected by GBQ:

	Selected Multiple		
	Range		
	<hr/>		
% TIC / 2004 Revenue	60%	to	90%
% TIC / 2005 Revenue	50%	to	80%
% TIC / 2006 Revenue	40%	to	70%

GBQ's updated application of the Guideline Public Company Method suggested a fair value of \$1.45 to \$1.97 per share for PECO II's common stock.

GBQ assumed certain upward and downward adjustments to reflect the fair values of PECO II's assets and liabilities in connection with the updated Net Asset Value Method, suggesting a fair value of \$1.49 per share for PECO II's common stock.

Table of Contents

GBQ noted that our common stock price has increased approximately 58% since October 13, 2005, the date we announced the transaction. GBQ's analysis suggests that a majority of the advancement of our market value relates to investors' reactions to the transactions contemplated by the Asset Purchase Agreement as well as general increases in market values. GBQ noted that deducting the anticipated synergies from the transaction from our actively traded per share price of \$1.83 is representative of the theoretical stock price of PECO II common stock and is within the central area of GBQ's concluded value range for our per share value.

Value of Consideration to be Paid by PECO II

Based on the number of Primary Shares to be issued to Delta and a current market value of \$1.83 per share as of January 11, 2006 (the date GBQ valued our shares for its January presentation), GBQ indicated that we would be issuing approximately \$8.67 million of our common stock to Delta.

In valuing the Warrant, GBQ updated its Black-Scholes Option Pricing Model (BSOPM) to utilize a \$1.83 per share per current market price for our common stock, a 4.39% risk free rate of return based on the yields of 2- and 3-year (consistent with the investment time horizon) Treasury bonds, and annual stock volatility of 55%.

As a result, GBQ suggested the total value of the Warrant issued to Delta to be estimated at \$5.45 million.

Accordingly, GBQ suggested that the market value of the total consideration to be paid to Delta by us for the purchase of the Delta Business Assets pursuant to the Asset Purchase Agreement is estimated to be \$14.1 million. This market value is lower than the range of the fair value of consideration PECO II will receive, being valued in a range of \$16.4 million to \$23.9 million.

Pursuant to a modification to our original engagement letter between PECO II and GBQ, we agreed to pay an additional fee of \$40,000 plus reimbursement of its reasonable out of pocket expenses incurred in connection with the update to the October Fairness Opinion.

Governmental and Third Party Approvals

Delta has agreed to use its reasonable commercial efforts to obtain the necessary third party consents to the assignment of the business supply agreements to and the assumption by us of such contracts to complete the transactions contemplated by the Asset Purchase Agreement. The approval or consent of any governmental authority is not required to consummate the transactions contemplated by the Asset Purchase Agreement.

Table of Contents

provided, however, that in the event that, prior to the approval of the proposals listed in this proxy statement, we received an unsolicited, bona fide Acquisition Proposal that our Board of Directors has in good faith concluded is reasonably likely to result in a Superior Offer (as defined below) and we have otherwise complied with our non-solicitation obligations discussed above, nothing contained in the Asset Purchase Agreement prevents us from:

providing information in response to a request therefor by a person who has made such an unsolicited bona fide written Acquisition Proposal, provided that such person is a party to a confidentiality agreement with us, and we give Delta notice of such event and furnish Delta with the same information;

engaging in any negotiations or discussions with any person who has made such an unsolicited bona fide written Acquisition Proposal, provided we give Delta notice of our intention to enter into such negotiations; or

approving or recommending such an unsolicited bona fide Acquisition Proposal to our shareholders, if and only to the extent that we terminate the Asset Purchase Agreement in a manner whereby we:

notify Delta three business days prior to terminating the Asset Purchase Agreement that we have received a Superior Offer, attaching the then current version of the Superior Offer,

afford Delta a reasonable opportunity to make a revised offer, and

For purposes of the Asset Purchase Agreement, Acquisition Proposal means any offer or proposal or public announcement of a proposal or plan, relating to any transaction or series of related transactions involving:

any purchase from our Company or acquisition by any person or group (as defined under Section 13(d) of the Exchange Act and the rules and regulations thereunder) of more than a 15% interest in our total outstanding voting securities or any of our subsidiaries, directly or indirectly, or any tender offer or exchange offer that if consummated would result in any person or group beneficially owning 15% or more of our total outstanding voting securities or any of our subsidiaries, directly or indirectly, or any merger, consolidation, business combination or similar transaction involving us or any of our subsidiaries; or

any sale, lease (other than in the ordinary course of business), exchange, transfer, license (other than in the ordinary course of business), acquisition or disposition of more than 15% of our assets (including our subsidiaries taken as a whole).

For purposes of the Asset Purchase Agreement, Superior Offer means an unsolicited, bona fide written offer made by a third party to acquire, directly or indirectly, pursuant to a tender offer, exchange offer, merger, consolidation or other business combination, all or substantially all of our assets or a majority of the total outstanding voting securities of our Company and as a result of which our shareholders immediately preceding such transaction would hold less than 50% of the equity interests in the surviving or resulting entity of such transaction or any direct or indirect parent or subsidiary thereof, on terms that our Board of Directors has in good faith concluded:

to be more favorable to our shareholders (in their capacities as shareholders) than the terms provided pursuant to the Asset Purchase Agreement;

the conditions to the consummation of which are reasonably capable of being satisfied; and

financing for which, to the extent such offer is conditioned thereon, is then committed or in the good faith judgment of our Board of Directors reasonably available.

Conditions to the Closing

The Asset Purchase Agreement provides that the respective obligations of Delta and our Company to effect the transactions contemplated by the Asset Purchase Agreement are subject to the satisfaction or waiver on or prior to the closing date of each of the following conditions:

the approval of the amendment to our Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act by the affirmative vote of a majority of the outstanding shares of our common stock;

approval of the issuance to Delta of the Primary Shares at the closing by the affirmative vote of a majority of the votes cast by our shareholders voting, in person or by proxy, at the special meeting;

approval of the issuance of the Warrant and the issuance of the Warrant Shares thereunder by the affirmative vote of a majority of the votes cast by our shareholders voting, in person or by proxy, at the special meeting;

the Primary Shares and Warrant Shares shall have been authorized for listing on Nasdaq, subject to official notice of issuance;

all applicable waiting periods (and any extensions thereof) under any applicable antitrust laws shall have expired or otherwise been terminated and all approvals required under applicable antitrust laws shall have been obtained; and

no governmental entity shall have enacted, issued, promulgated, enforced or entered any law, rule, regulation, judgment, decree, executive order or award which is then in effect and has the effect of making the transactions contemplated by the Asset Purchase Agreement illegal or otherwise prohibiting consummation of the transactions contemplated by the Asset Purchase Agreement.

Our obligations to effect the transactions contemplated by the Asset Purchase Agreement are subject to the satisfaction or waiver on or prior to the closing date of the following additional conditions:

the representations and warranties of Delta contained in the Asset Purchase Agreement being true and correct at and as of the closing date as if made at and as of such date, except where the failure to be true and correct would not have a Material Adverse Effect on the Business; and

the performance by Delta, in all material respects, of its obligations contained in the Asset Purchase Agreement.

Termination

The Asset Purchase Agreement provides that it may be terminated and the transactions contemplated thereby abandoned at any time prior to the closing:

by mutual consent;

by either Delta or us, if the other party materially breaches any representation, warranty or covenant contained in the Asset Purchase Agreement, which breach would cause a material adverse effect, subject to a right to cure;

by either Delta or us, if the closing shall not have occurred on or before March 31, 2006;

by either Delta or us, if a governmental entity has issued an order, decree or ruling or taken any other action (including the failure to have taken an action), in any case having the effect of permanently restraining, enjoining or otherwise prohibiting the transactions contemplated by the Asset Purchase Agreement, which order, decree, ruling or other action is final and nonappealable;

by Delta, if (at any time prior to approval of the various matters subject to the required vote of our shareholders at the special meeting) a Triggering Event (as defined below) with respect to our Company shall have occurred;

by us if we receive a Superior Offer and we afford Delta a reasonable opportunity to make a revised offer, along with payment of a \$500,000 termination fee;

by either Delta or us, if the

amendment to our Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act,

the issuance of the Primary Shares, and

the issuance of the Warrant and the underlying Warrant Shares thereunder to Delta are not approved by our shareholders by reason of the failure to obtain the required vote at the special meeting; and

by us if Delta's financial statements required to be delivered prior to the closing reflect information that was not previously made available to us and would cause a Material Adverse Effect on the Business.

For the purposes of the Asset Purchase Agreement, a Triggering Event means if:

our Board of Directors or any committee thereof shall for any reason have withdrawn or shall have amended or modified in a manner adverse to Delta, its unanimous recommendation to our shareholders to vote in favor of the proposals set forth herein;

we failed to include such unanimous recommendation in this proxy statement;

our Board of Directors or any committee thereof shall have approved or recommended any Acquisition Proposal; or

a tender or exchange offer relating to our securities shall have been commenced by a person unaffiliated with us and our Board of Directors did not timely send to our shareholders a statement disclosing that our Board of Directors recommends rejection of such tender or exchange offer.

Expenses and Termination Fee

If the transactions contemplated hereby are not consummated, except as set forth below, all fees and expenses incurred in connection with this Agreement and the transactions contemplated hereby shall be paid by the party incurring such expenses.

Table of Contents

If the transactions contemplated by the Asset Purchase Agreement are consummated, we will pay:

up to \$100,000 of the fees and expenses incurred by Delta (including attorneys' fees and accountant fees) in connection with its negotiation, execution and delivery of the Asset Purchase Agreement, plus

one-half of the fees and expenses incurred by Delta (including fees incurred by Delta's auditor) in connection with the preparation and delivery of financial statements to be delivered to us prior to the closing.

In the event that the Asset Purchase Agreement is terminated by us, due to our receiving a Superior Offer, or by Delta, if a Triggering Event occurs, we will pay Delta a termination fee equal to \$500,000.

Dilution to Our Shareholders; Ownership of PECO II after the Acquisition

If the transactions contemplated by the Asset Purchase Agreement are consummated, you will incur immediate and substantial dilution. Currently, 21,954,741 shares of our common stock are issued and outstanding. We will issue the Primary Shares to Delta, representing 4,740,375 shares of common stock without par value, at the closing pursuant to the Asset Purchase Agreement. Pursuant to the Warrant to be issued to Delta at the closing, Delta will have the right to purchase Warrant Shares, at an exercise price of \$2.00 per share and exercisable immediately upon issuance and for a period of 30 months after the closing, that will allow Delta to purchase that number of additional shares of our common stock without par value that, when aggregated with the Primary Shares, will represent 45% of our issued and outstanding capital stock measured as of five business days prior to the exercise date of the Warrant. By way of example, assuming we had 26,335,418 shares of common stock issued and outstanding after the issuance of the Primary Shares, the number of Warrant Shares eligible for purchase by Delta would be 12,928,297. As a result, we would have 39,263,715 issued and outstanding shares of common stock, resulting in Delta owning 45% of our issued and outstanding capital stock.

Amendment

Subject to applicable law, the Asset Purchase Agreement may be amended by Delta and us at any time before or after approval of the various proposals by our shareholders at the special meeting; provided, after any such approval by our shareholders, no amendment shall be made which by law or in accordance with the rules of any relevant stock exchange requires further approval by our shareholders, without such further shareholder approval.

The Voting Agreement

Concurrently with the execution of the Asset Purchase Agreement, we also entered into the Voting Agreement with Delta and certain of our significant shareholders to be effective as of closing, whereby Delta and each such shareholder (collectively, the Voting Agreement Shareholders) have agreed to vote all of the shares of our common stock beneficially owned by such Voting Agreement Shareholder at any PECO II shareholder meeting or by any consensual action:

Edgar Filing: PECO II INC - Form DEF 14A

in favor of electing, in the case of Delta, the individual designated by Delta to stand for election to serve on our Board of Directors;
and

in favor of electing, in the case of PECO II, the individuals nominated by our Board of Directors to stand for election to serve on our Board of Directors.

In addition, the Voting Agreement provides that during the term of the agreement, Delta shall have the right to designate a representative to serve as a board observer and attend all meetings of our Board of Directors, subject to the right of our Board of Directors to exclude the board observer from any meeting under certain circumstances.

Table of Contents

The Voting Agreement terminates upon the earlier of:

the written agreement of Delta and us;

the date Delta, or any of its affiliates (other than PECO II), no longer holds shares of our common stock or rights to purchase such shares, representing at least 5% of our outstanding voting stock;

the date Delta (alone, or together with any of its affiliates (other than PECO II)) holds 45% or greater of our then issued and outstanding voting capital stock; and

the consummation of:

any tender offer, exchange offer, merger, consolidation or other business combination of PECO II the result of which is that PECO II shareholders (other than Delta and its affiliates in the case of a tender offer) immediately preceding such transaction hold less than 50% of the equity interests in the surviving or resulting entity of such transaction (or any direct or indirect parent or subsidiary thereof), or

the sale of all or substantially all of our assets.

There is no shared voting power pursuant to the terms of the Voting Agreement.

Because Delta will not receive any shares of our capital stock until the closing of the transactions and currently has no pecuniary interest in any of our shares, the term of the Voting Agreement begins on the closing date when the Primary Shares will be issued to Delta pursuant to the Asset Purchase Agreement. The significant shareholders who are Voting Agreement Shareholders are:

directors Matthew P. Smith, James L. Green, E. Richard Hottenroth, Trygve A. Ivesdal, Eugene V. Smith, George J. Dallas, Mark R. McBride, R. Louis Schneeberger, and Thomas R. Thomsen;

certain affiliates of Messrs. Smith (Linda H. Smith, Ashwood I, LLC, and Ashwood II, LLC) and Green (Green Family Trust 03/16/1995, Green Family Trust 03/16/1995, Jim Green & Mary Green TR UA 05/09/01 Green Charitable Trust, and Jim Green & Mary Green TR UA 05/09/01 Green Charitable Trust); and

Ms. Sandra Frankhouse, our Chief Financial Officer, Treasurer and Secretary, and Mr. Miles McIntosh, our Vice President of Power Systems.

Collectively, the Voting Agreement Shareholders beneficially own 6,750,358 shares, or 30.2%, of our capital stock as of September 30, 2005.

A copy of the Voting Agreement is attached hereto as Appendix D and is incorporated herein by reference.

Certain conflicts of interest between our shareholders and our directors, executive officers and Delta may exist as a result of the Voting Agreement. Delta receives the right, as a result of the issuance of the Primary Shares and the purchase rights under the Warrant, to have its designee appointed by our Board of Directors on the closing date to fill our existing Class II director vacancy and to have its designee named for election to our Board of Directors as part of our management slate and to be included in all of our proxy materials relating to the election of our directors during the term of the Voting Agreement. As a result of the Voting Agreement Shareholders agreeing to vote all of the shares of our capital stock beneficially owned by them as necessary to elect and maintain in office Delta's designee to our Board of Directors, it is unlikely that the Delta designee will fail to serve as a member of our Board of Directors during the term of the Voting Agreement. Similarly, because Delta has agreed to vote all of the shares of our capital stock beneficially owned by it, which may, as a result of the issuance of the Primary Shares at the closing and the exercise thereafter of its purchase rights under the Warrant to acquire the Warrant Shares, result in Delta beneficially owning up to 45% of our issued and outstanding shares of capital stock, it is unlikely that the designees to our Board chosen by our Board of Directors and named for election as part of our management slate will fail to serve as members of our Board of Directors during the term of the Voting Agreement.

The Supply Agreement

As a condition to the consummation of the transactions contemplated by the Asset Purchase Agreement, at the closing, we will enter into a supply agreement (the Supply Agreement) with DEI (an affiliate of Delta), pursuant to which DEI will grant to us the right to purchase and incorporate DEI modules into our systems and to market, promote, sell and distribute DEI modules, PECO systems and/or DEI systems to our customers in the U.S. and Canadian markets. The rights described above shall be exclusive to us for a period of 24 months from the closing of the transactions contemplated by the Asset Purchase Agreement. The term of the Supply Agreement is 30 months. The Supply Agreement also provides that DEI and our Company expect to engage in joint exploration and discussions with respect to system-level design and component-level design.

In connection with approving the transactions contemplated by the Asset Purchase Agreement, our Board of Directors considered the benefits of entering into the Supply Agreement. Our Board of Directors considered that the Supply Agreement will provide us with access to DEI s manufacturing capabilities, which is expected to reduce our costs of goods sold, and we will gain access to new customers in addition to new markets with existing customers.

A copy of the form of Supply Agreement may be found as Exhibit A to the Asset Purchase Agreement, which is attached hereto as Appendix B.

The Support Agreement and Irrevocable Proxy

Simultaneous with the execution of the Asset Purchase Agreement, Messrs. Matthew P. Smith and James L. Green, and their respective affiliates (Linda H. Smith, Ashwood I, LLC, and Ashwood II, LLC, in the case of Mr. Smith, and Green Family Trust 03/16/1995, Green Family Trust 03/16/1995, Jim Green & Mary Green TR UA 05/09/01 Green Charitable Trust, and Jim Green & Mary Green TR UA 05/09/01 Green Charitable Trust, in the case of Mr. Green) executed a support agreement and irrevocable proxy (the Support Agreement), under which each such person agreed, severally and not jointly, to vote all of the shares of our common stock beneficially owned by such persons at any PECO II shareholders meeting or by any consensual action:

in favor of the proposal to opt out of the Ohio Control Share Acquisition Act;

in favor of the issuance of the Primary Shares and the Warrant;

in favor of the other transactions contemplated by the Asset Purchase Agreement and in favor of any other matter that could reasonably be expected to facilitate consummation of the transactions contemplated by the Assert Purchase Agreement;

against any change in a majority of the members of our Board of Directors; and

against any other action that would impede, interfere with, delay, postpone or materially adversely affect the closing of the transactions contemplated by the Asset Purchase Agreement.

Edgar Filing: PECO II INC - Form DEF 14A

Messrs. Smith and Green, and their respective affiliates, also granted an irrevocable proxy to two of Delta's designees to vote all of the shares of our common stock beneficially owned by such persons in accordance with the five bullet points above.

A copy of the Support Agreement and Irrevocable Proxy is attached hereto as Appendix E and is incorporated herein by reference.

The Registration Rights Agreement

As a condition to the consummation of the transactions contemplated by the Asset Purchase Agreement, at the closing, we will enter into a registration rights agreement (the "Registration Rights Agreement") with Delta

Table of Contents

under which we will be obligated to file a shelf registration statement to cover the potential resale by Delta of the Primary Shares and the Warrant Shares. We will be obligated to keep the shelf registration statement continuously effective until either all the Primary Shares and Warrant Shares have been sold pursuant to Rule 144 or pursuant to an effective registration statement, or may be sold without volume restrictions pursuant to Rule 144.

Interests of Certain Persons In Matters To Be Voted On

Our directors and certain of our officers may have interests different from our shareholders which may constitute a conflict of interest. Each director, except for Mr. Heindel, and Ms. Frankhouse and Mr. McIntosh, are parties to the Voting Agreement, which will be effective as of the closing, pursuant to which they have agreed to vote their shares of our capital stock to elect (and to maintain in office) Delta's designee to our Board of Directors during the term of the Voting Agreement. Pursuant to the terms of the Voting Agreement, Delta has agreed to vote its shares of our capital stock to elect (and to maintain in office) our designees to our Board of Directors as we may designate from time to time as part of our management slate and included in our proxy materials. Therefore, our shareholders will have limited opportunities to take action that would result in the replacement of one of our directors if either of our directors and officers or Delta determine to vote otherwise. Delta has also agreed not to bring any proposal before our shareholders the intent of which would be to remove from our Board of Directors without cause any of our designees to the Board. PECO II has similarly agreed not to bring any proposal before our shareholders the intent of which would be to remove from our Board of Directors without cause Delta's designee to the Board. Our current Board of Directors benefits from the Voting Agreement in that the terms of the Voting Agreement make it more difficult for our shareholders to bring a proposal to change the composition of our Board of Directors.

As of September 30, 2005, our directors and officers who are Voting Agreement Shareholders beneficially own in the aggregate 6,750,358 shares of our capital stock, constituting in the aggregate 30.2% of the voting power of our capital stock. Assuming Delta exercises all of its rights to acquire the Warrant Shares during the term of the Warrant, Delta will beneficially own approximately 17,668,672 shares of our capital stock, constituting 45% of the voting power of our capital stock.

Two of our directors may have interests different from our shareholders and which may constitute a conflict of interest. Messrs. Matthew P. Smith and James L. Green are parties to the Support Agreement, pursuant to which they have agreed with us and Delta, at our special meeting of shareholders, to vote the shares of our capital stock beneficially owned by them in favor of the proposal to amend our Second Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act, to vote in favor of the issuance of the Primary Shares to Delta, to vote in favor of the issuance of the Warrant and the issuance of the Warrant Shares pursuant to Delta's purchase rights thereunder, and to vote in favor of any other matter that could reasonably be expected to facilitate the consummation of the transactions contemplated by the Asset Purchase Agreement. Messrs. Smith and Green irrevocably appointed Delta, through its designees, as its proxy and sole attorney-in-fact to vote such shares of our capital stock at the special shareholders meeting in favor of the above proposals.

As of September 30, 2005, Mr. Smith beneficially owns 3,000,857 shares and Mr. Green beneficially owns 2,504,344 shares of our capital stock, representing 13.8% and 11.5%, respectively, of the voting power of our capital stock. As a result, as of the date hereof, 25.3% of the aggregate voting power of PECO II will vote in favor of each of the proposals set forth in this proxy statement.

Mr. Green's shares of our capital stock are deemed to be interested shares under the Ohio Control Share Acquisition Act and are ineligible for purposes of voting in favor of the proposals set forth in this proxy statement unless our shareholders agree to the proposed amendment to our Amended and Restated Code of Regulations to opt out of the Ohio Control Share Acquisition Act. Thus, our officers and directors benefit from the Support Agreement by virtue of the fact that the voting power evidenced by the Support Agreement is material to obtaining at the special meeting the necessary percentage of votes required to approve the various proposals set forth in this proxy statement.

Proposal 1

**Amendment to the Amended and Restated Code of Regulations of PECO II, Inc. to Opt Out of the Ohio
Control Share Acquisition Act**

Proposal 1 is to approve and adopt an amendment to the Amended and Restated Code of Regulations of PECO II, Inc., providing that the Ohio Control Share Acquisition Act shall not apply to acquisitions of its equity securities.

Overview

Our Board of Directors has approved a resolution to amend our Amended and Restated Code of Regulations, which, if adopted, would make an Ohio anti-takeover statute, referred to herein as the Ohio Control Share Acquisition Act, inapplicable to the acquisition of our Company's equity securities. The full text of the proposed amendment is contained in Article X of our proposed Second Amended and Restated Code of Regulations, attached hereto as Appendix A. Article X is the only proposed amendment to our Amended and Restated Code of Regulations. Our Board of Directors unanimously recommends a vote for the proposed amendment.

Reasons for the Proposed Amendment

The adoption of the proposed amendment will facilitate the consummation of the transactions contemplated by the Asset Purchase Agreement. Without the amendment, the granting of the irrevocable proxy under the Support Agreement to the Delta designees to vote the 2,504,344 shares of our common stock beneficially owned by James L. Green, our Chairman, representing approximately 11.5% of our issued and outstanding capital stock as of September 30, 2005, in favor of the proposals to be voted on by the shareholders at the special meeting will deem such shares to be interested shares under the Ohio Control Share Acquisition Act and, accordingly, such shares may not be counted for purposes of voting at the special shareholders meeting. The Support Agreement was negotiated by Delta and us as part of the overall negotiations of the transactional documents and the execution of the Support Agreement by us, and Messrs. Smith and Green was an inducement for Delta to enter into the Asset Purchase Agreement. While we have called this special meeting, at which our shareholders will consider, among other things, the issuance of the Primary Shares and the issuance of the Warrant and underlying Warrant Shares, special meetings of shareholders required by the Ohio Control Share Acquisition Act are subject to certain procedures, including proxy counting requirements, that are complex, time consuming and, in this instance, not beneficial to the interests of our Company or our shareholders, including our unaffiliated shareholders, because we cannot complete the asset purchase if the Ohio Control Share Acquisition Act is applicable. If our shareholders do not approve Proposal 1, a condition to the closing of the transactions contemplated by the Asset Purchase Agreement will not be met and Delta may terminate the Asset Purchase Agreement.

In addition, with respect to the proposed transactions contemplated by the Asset Purchase Agreement and the absence of an opt out of the Ohio Control Share Acquisition Act, we will be required to follow certain complex statutory procedures that will ultimately serve to delay and increase the cost of the acquisition. Among these procedures is the requirement for an additional special meeting of shareholders at which the shareholders would be asked to approve the issuance of the Warrant Shares at such time or times that Delta may exercise its purchase rights. During our negotiations, Delta indicated it would not enter into the Asset Purchase Agreement if we were required to obtain shareholder approval each time Delta exercised its purchase rights under the Warrant to acquire Warrant Shares in amounts that exceeded the applicable threshold under the Ohio Control Share Acquisition Act.

Even if we were to obtain shareholder approval in connection with the Ohio Control Share Acquisition Act each time Delta exercised its purchase rights under the Warrant if an applicable threshold was exceeded, all of

Table of Contents

the approved transactions must be consummated within 12 months of shareholder approval; thus, we would be unable to issue a warrant to Delta with a term longer than 12 months without obtaining subsequent shareholder approval. Thus, we need the amendment to allow us to issue the Warrant without subsequent shareholder approval.

Summary of the Ohio Control Share Acquisition Act

In November 1982, the Ohio General Corporation Law was amended to include the Control Share Acquisition Act, which requires that control share acquisitions be approved by shareholders of an issuing public corporation.

The Ohio Control Share Acquisition Act gives shareholders who are not holders of interested shares a veto power over certain acquisitions of shares of an issuing public corporation. If the proposed amendment to our Amended and Restated Code of Regulations is adopted, you are waiving this veto power for future transactions involving PECO II. An issuing public corporation is a corporation with 50 or more shareholders that has in Ohio:

its principal place of business;

its principal executive offices;

assets having substantial value; or

a substantial percentage of its assets.

It also must not have a valid close corporation agreement in place.

Under the Ohio Control Share Acquisition Act, a control share acquisition is a direct or indirect acquisition by any person or entity of such number of voting shares of a corporation which, when added to those shares which the person or entity already owns or with respect to which the person or entity may exercise or direct the exercise of the voting power, would give the person or entity voting power within any of the following ranges:

one-fifth or more but less than one-third of such voting power;

one-third or more but less than a majority of such voting power; or

a majority or more of such voting power.

Edgar Filing: PECO II INC - Form DEF 14A

A person or entity who proposes to make a control share acquisition must provide notice of the proposal to the corporation in accordance with specific requirements. The board of directors must then call a special meeting of the shareholders within 50 days for the purpose of voting on the proposed control share acquisition. A quorum for this meeting is achieved only if there is present at the meeting, in person or by proxy, a majority of the voting power of the corporation in the election of directors, and a majority of the portion of such voting power excluding the voting power of interested shares.

Interested shares are those shares of the corporation in respect of which any of the following persons may exercise or direct the exercise of the voting power of the corporation in the election of directors:

the acquiring person;

any officer of the corporation elected or appointed by the directors of the corporation; or

any employee of the corporation who is also a director of the corporation.

Interested shares include any shares of the corporation acquired, directly or indirectly, by any person from the holder or holders thereof for a valuable consideration during the period beginning with the date of the first

Table of Contents

public disclosure of a proposed control share acquisition of the corporation or any proposed merger, consolidation, or other transaction that would result in a change in control of the corporation or in the sale of all or substantially all of its assets, and ending on the date of any special meeting of the corporation's shareholders held thereafter for the purpose of voting on a control share acquisition proposed by an acquiring person if either of the following applies: the aggregate consideration paid or given by the person who acquired the shares, and any other persons acting in concert with him, for all such shares exceeds \$250,000, or the number of shares acquired by the person who acquired the shares, and any other persons acting in concert with him, exceeds one-half of one percent of the outstanding shares entitled to vote in the election of directors.

A proposed control share acquisition may be consummated only if, at a special meeting of the shareholders at which at least a majority of the voting power is represented in person or by proxy, the acquisition is approved by both holders of a majority of the voting power of the corporation in the election of directors represented at the meeting by person or by proxy, and holders of a majority of the portion of such voting power excluding the voting power of interested shares. A proposed control share acquisition which receives approval in the manner described must be consummated, in accordance with the terms so authorized, no later than 360 days following shareholder authorization of the control share acquisition. The Ohio Control Share Acquisition Act does not apply to a corporation whose articles of incorporation or code of regulations provides that it does not apply.

Potential Benefits of the Ohio Control Share Acquisition Act

Even though shareholder rights advocates often express the view that state takeover statutes, such as the Ohio Control Share Acquisition Act, are contrary to shareholder interests, the Ohio Control Share Acquisition Act was adopted by the Ohio General Assembly to address serious issues. The primary purpose was to require any person seeking to obtain ownership or voting rights with respect to a substantial block of shares to provide the corporation with detailed information regarding the potential share acquisition and to present the acquisition to shareholders for approval at a special meeting. With respect to transactions which are in the best interests of a public company, the Ohio Control Share Acquisition Act, together with federal proxy rules, assures that shareholders will be given adequate notice and opportunity to review the transaction and consent to the resulting effects of the acquisition. This process was intended to prevent the unfettered ability of a single holder to obtain a substantial block of shares, which could result in significant changes in corporate circumstances, and to avoid the coercive environment which the legislature found was often present in tender offers. The Ohio General Assembly further limited the coercive nature of the shareholder vote by not permitting the proposed acquirer to vote on the transaction. Since the potential acquirer can solicit proxies at the mandatory special shareholders meeting to approve the proposed transaction, there is a check on the power of a company's board or management to entrench itself by using the Ohio Control Share Acquisition Act as a defensive tool. If you vote in favor of Proposal 1 and permit the Company to opt out of the statute, the potential benefits of the Ohio Control Share Acquisition Act will not be available to the Company or its shareholders.

Vote Required

The affirmative vote of the holders of a majority of the outstanding shares of our common stock is required to approve this proposal.

Our Board of Directors Unanimously Recommends a Vote FOR Proposal 1.

Proposal 2

The Issuance of the Primary Shares

Description of the Asset Purchase

On October 13, 2005, we entered into an Asset Purchase Agreement with Delta pursuant to which we will acquire assets that relate to Delta's Telecom Power Division, consisting of the exclusive rights to business supply

agreements with wireline and wireless communications providers and related inventory, and will assume the liabilities associated therewith of Delta's U.S. and Canadian service provider business, in exchange for the issuance to Delta of the Primary Shares and the issuance of the Warrant and the underlying Warrant Shares.

Description of the Primary Shares to be Issued

Pursuant to the terms of the Asset Purchase Agreement, at the closing we will issue to Delta 4,740,375 shares of common stock without par value, free and clear of any encumbrance by us and with no restriction on the voting rights or transfer thereof except as provided for by applicable law, the Voting Agreement and Registration Rights Agreement set forth as exhibits to the Asset Purchase Agreement. There are no preemptive rights with respect to the Primary Shares. We currently have issued and outstanding 21,954,741 shares of our 50,000,000 authorized shares of common stock. The issuance of the Primary Shares and the Warrant Shares will have the effect of diluting your ownership in our Company by virtue of holding a smaller percentage of the total issued and outstanding shares of our capital stock. The addition of the Delta Business Assets to be acquired under the Asset Purchase Agreement, however, will increase the value of our Company. Therefore, we believe any dilutive effect to our existing shareholders will be offset by the increased value of PECO II.

Vote Required

The affirmative vote of the holders of a majority of the shares of our common stock voting in person or by proxy at the special meeting is required to approve this proposal.

Our Board of Directors Unanimously Recommends a Vote FOR the Issuance of the Primary Shares.

Proposal 3

The Issuance of the Warrant and the Underlying Warrant Shares

Description of the Asset Purchase

On October 13, 2005, we entered into an Asset Purchase Agreement with Delta pursuant to which we will acquire assets that relate to Delta's Telecom Power Division, consisting of the exclusive rights to business supply agreements with wireline and wireless communications providers and related inventory, and will assume the liabilities associated therewith of Delta's U.S. and Canadian service provider business, in exchange for the issuance to Delta of the Primary Shares and the issuance of the Warrant and the underlying Warrant Shares.

Description of the Warrant and Warrant Shares to be Issued

Pursuant to the terms of the Asset Purchase Agreement and the Warrant, at the closing we will issue to Delta a Warrant to purchase that number of Warrant Shares which, when aggregated with the Primary Shares, will permit Delta to acquire up to 45% of our issued and outstanding capital stock measured as of five business days prior to the date of exercise of the Warrant.

The formula for determining the number of Warrant Shares is: (i) the quotient of (A) the Outstanding Shares (as defined below) minus the Primary Shares issued at closing, divided by (B) 0.55, minus (ii) the Outstanding Shares (rounded to the nearest whole share). Currently, we anticipate the maximum number of Warrant Shares to be issued under the Warrant is approximately 12,928,297; however, if we issue additional shares of our common stock, this number will increase. The exercise price under the Warrant is \$2.00 per share, and the Warrant is exercisable immediately upon issuance for a term of 30 months from the issuance date of the Warrant. The Warrant is subject to customary adjustments for subdivisions, combinations and certain issuances, reclassifications, reorganizations and consolidations. The issuance of any Warrant Shares will have the effect of

Table of Contents

diluting your ownership in our Company. We currently have issued and outstanding 21,954,741 shares of our 50,000,000 authorized shares of common stock. The issuance of the Primary Shares and the Warrant Shares will have the effect of diluting your ownership in our Company by virtue of holding a smaller percentage of the total issued and outstanding shares of our capital stock. The addition of the Delta Business Assets to be acquired under the Asset Purchase Agreement, however, will increase the value of our Company. Therefore, we believe any dilutive effect to our existing shareholders will be offset by the increased value of PECO II.

For purposes of the Warrant, the term **Outstanding Shares** means all issued and outstanding shares of our capital stock measured as of the date that is five days before the date of exercise of the Warrant.

Vote Required

The affirmative vote of the holders of a majority of our shares common stock voting in person or by proxy at the special meeting is required to approve this proposal.

Our Board of Directors Unanimously Recommends a Vote FOR the Issuance of the Warrant and the Warrant Shares.

Proposal 4

Permission of Board of Directors to Adjourn Special Meeting

Proposal to Permit Adjournment of Special Meeting

The proposals set forth in this proxy statement are conditions precedent to the closing of the transactions contemplated by the Asset Purchase Agreement. Our Board of Directors believes each of the proposals are in the best interest of our Company and our shareholders. Accordingly, our Board of Directors is seeking shareholder approval to adjourn the special meeting, if necessary, to solicit additional proxies because there are not sufficient votes available at the special meeting to approve the proposals set forth in the proxy statement.

Vote Required

The affirmative vote of the holders of a majority of the shares of PECO II common stock voting in person or by proxy at the special meeting is required to approve this proposal.

Our Board of Directors Unanimously Recommends a Vote FOR the Proposal to Allow the Board to Adjourn the Special Meeting.

Section 1. Meetings of Shareholders

(a) *Annual Meeting.* The annual meeting of Shareholders of this Corporation, for the election of Directors, the consideration of financial statements for the most recently concluded fiscal year and other reports, and the transaction of such other business as may properly be brought before such meeting, shall be held at such date after the annual financial statements of the Corporation have been prepared as the Board of Directors shall determine from time to time. Upon due notice there may also be considered and acted upon at an annual meeting any matter which could properly be considered and acted upon at a special meeting, in which case and for which purpose the annual meeting shall also be considered as, and shall be, a special meeting. In the event that the annual meeting is not held or if Directors are not elected thereat, a special meeting may be called and held for that purpose.

(b) *Special Meeting.* Special meetings of the Shareholders may be held on any business day when called at any time by (i) the Chairman of the Board, (ii) the President, (iii) the Directors, by action at a meeting, or a majority of the Directors acting without a meeting, or (iv) the holders of one-half or more of the outstanding shares of the Corporation entitled to vote thereat. All notices with respect to any shares to which persons are entitled by joint or common ownership may be given to that one of such persons who is named first upon the books of this Corporation, and notice so given shall be sufficient notice to all the holders of such shares.

(3) Waiver. Notice of any meeting, however, may be waived in writing by any Shareholder either before or after any meeting of Shareholders, or by attendance at such meeting without protest prior to the commencement thereof.

(e) Shareholders Entitled to Notice and to Vote. If a record date shall not be fixed or the books of the Corporation shall not be closed against transfers of shares pursuant to statutory authority, the record date for the determination of Shareholders entitled to vote at any meeting of Shareholders shall be the date next preceding the day on which notice is given or the date next preceding the day on which the meeting is held, as the case may be, and only Shareholders of record as of the close of business on such record date shall be entitled to vote at such meeting. Such record date shall continue to be the record date for all adjournments of such meeting unless a new record date shall be fixed and notice thereof and of the date of the adjourned meeting be given to all Shareholders entitled to notice in accordance with the new record date so fixed.

At any meeting of Shareholders, the holders of shares entitling them to exercise a majority of the voting power of the Corporation, present in person or by proxy, shall constitute a quorum for such meeting; provided, however, that no action required by law, the Articles of Incorporation or this Code of Regulations to be authorized or taken by the holders of a designated proportion of the shares of the Corporation may be authorized or taken by a lesser proportion. The Shareholders present in person or by proxy, whether or not a quorum be present, may adjourn the meeting from time to time without notice other than by announcement at the meeting.

(g) Organization of Meetings.

(1) Presiding Officer. The Chairman of the Board, or, in his or her absence, the President, or in the absence of both of them, a Vice President of the Corporation shall call all meetings of the Shareholders to order and shall act as Chairman thereof. For purposes of the foregoing, the date on which the Corporation first mailed its proxy materials to Shareholders will be the date so described in such proxy materials.

To be in the proper written form, a Shareholder's notice to the Secretary must set forth as to each matter such Shareholder proposes to bring before the annual meeting (i) a description in reasonable detail of the business desired to be brought before the annual meeting and the reasons for conducting such business at the annual meeting, (ii) the name and record address of such Shareholder, (iii) the class or series and number of shares of capital stock of the Corporation which are owned beneficially or of record by such Shareholder, (iv) a description of all arrangements or understandings between such Shareholder and any other person or persons (including their names) in connection with the proposal of such business by such Shareholder and any material interest of such Shareholder in such business, and (v) a representation that such Shareholder intends to appear in person or by proxy at the annual meeting to bring such business before the meeting. Notwithstanding the foregoing provisions of this Code of Regulations, a Shareholder must also comply with all the applicable requirements of the Securities and Exchange Act of 1934, as amended, and the rules and regulations thereunder with respect to the matters set forth in this Section 1(i) of Article II. Nothing in this Section 1(e) of Article II will be deemed to affect any rights of Shareholders to request inclusion of proposals in the proxy statement of the Corporation pursuant to Rule 14a-8 under the Securities and Exchange Act of 1934, as amended.

If the Chairman of an annual meeting determines that business was not properly brought before the annual meeting in accordance with the foregoing procedures, the Chairman will declare to the meeting that the business was not properly brought before the meeting and such business will not be transacted.

(j) Voting. Except as provided by law or in the Articles of Incorporation, every Shareholder entitled to vote shall be entitled to cast one vote on each proposal submitted to the meeting for each share held of record by him or her on the record date for the determination of the Shareholders entitled to vote at the meeting. At any meeting at which a quorum is present, all questions and business which may come before the meeting shall be determined by a majority of votes cast, except when a greater proportion is required by law, the Articles of Incorporation or this Code of Regulations.

(k) Proxies. A person who is entitled to attend a Shareholders' meeting, to vote thereat, or to execute consents, waivers and releases, may be represented at such meeting or vote thereat, and execute consents, waivers and releases, and exercise any of his or her rights, by proxy or proxies appointed by a writing signed by such person, or by his or her duly authorized attorney, or appointed by a verifiable communication authorized by the person, or his or her duly authorized attorney, as provided by the laws of the State of Ohio.

(B) Any person who proposes to make a control share acquisition shall deliver an acquiring person statement to the issuing public corporation at the issuing public corporation's principal executive offices. Such acquiring person statement shall set forth all of the following:

(1) The identity of the acquiring person;

(2) A statement that the acquiring person statement is given pursuant to this section;

(3) The number of shares of the issuing public corporation owned, directly or indirectly, by the acquiring person;

Subject to division (C)(2) of this section, unless the acquiring person and the issuing public corporation agree in writing to another date, such special meeting of shareholders shall be held within fifty days after receipt by the issuing public corporation of the acquiring person statement. If the acquiring person so requests in writing at the time of delivery of the acquiring person statement, such special meetings shall be held no sooner than thirty days after receipt by the issuing public corporation of the acquiring person statement. Subject to division (C)(2) of this section, such special meeting of shareholders shall be held no later than any other special meeting of shareholders that is called, after receipt by the issuing public corporation of the acquiring person statement, in compliance with this section or section 1701.76, 1701.78, 1701.781 [1701.78.1], 1701.79, 1701.791 [1701.79.1], 1701.801 [1701.80.1], or 1701.83 of the Revised Code.

Edgar Filing: PECO II INC - Form DEF 14A

The notice shall include or be accompanied by both of the following:

(1) A copy of the acquiring person statement delivered to the issuing public corporation pursuant to this section;

(2) A statement by the issuing public corporation, authorized by its directors, of its position or recommendation, or that it is taking no position or making no recommendation, with respect to the proposed control share acquisition.

(E) The acquiring person may make the proposed control share acquisition if both of the following occur:

A quorum shall be deemed to be present at the special meeting if at least a majority of the voting power of the issuing public corporation in the election of directors is represented at the meeting in person or by proxy.

(2) The acquisition is consummated, in accordance with the terms so authorized, no later than three hundred sixty days following shareholder authorization of the control share acquisition.

ARTICLE II

THE TRANSACTION

2.1 *The Transaction.*

(a) On the Closing Date and effective as of the Closing, upon the terms and subject to the conditions of this Agreement, Seller shall sell, convey, assign, transfer and deliver to Buyer, and Buyer shall purchase from Seller, all of Seller's right, title and interest in and to the Business Assets, in exchange for: (1) 4,740,375 shares of Buyer's common stock, free and clear of any Buyer Encumbrance and with no restriction on the voting rights or transfer thereof (other than pursuant to applicable Law and as set forth in the Voting Agreement and Registration Rights Agreement) (the **Shares**); and (2) a warrant, in substantially the form attached hereto as *Exhibit F* (the **Warrant**), to purchase that number of shares of Buyer's common stock (the **Warrant Shares**) that is determined by application of the following formula: (x) *the quotient of* (i) the Outstanding Shares *minus* the Shares, *divided by* (ii) 0.55, *minus* (y) the Outstanding Shares, and (z) rounded to the nearest whole share; and (3) the assumption by Buyer of the Assumed Liabilities.

In this example, the number of Warrant Shares would be 12,928,297, representing, when aggregated with the Shares, forty-five percent (45%) of the Company's issued and outstanding capital stock on a pro-forma basis (*i.e.* accounting for the issuance of the Shares and the Warrant Shares).

The Closing Inventory Valuation Statement will be prepared in the format and in accordance with the principles and methodologies set forth on *Schedule 2.9*.

(c) The Closing Inventory Valuation Statement shall be final and binding on each of the Parties hereto unless Buyer objects and delivers a written notice of disagreement to Seller within ten (10) business days after delivery of the Closing Inventory Valuation Statement. Such notice of disagreement shall specify the item or items in dispute and shall state the amount, if any, of any adjustment that Buyer believes should be made to the Closing Inventory Value or the calculation of the Inventory Adjustment Amount, as the case may be.

(d) Notwithstanding anything to the contrary set forth in this Agreement, in the event of a disagreement over the Closing Inventory Value or the calculation of the Inventory Adjustment Amount, as the case may be, Buyer and Seller shall use commercially reasonable efforts to resolve their dispute, but if a final resolution thereof is not obtained within fifteen (15) business days of delivery of the Buyer's written notice of disagreement (or such longer period of time as may be agreed to in writing by the Parties), Buyer and Seller shall promptly retain a mutually agreeable, nationally recognized independent accounting firm (the ***Independent Accountant***) to resolve any remaining disputes regarding the Closing Inventory Valuation Statement. The Independent Accountant shall determine, based solely on the provisions of this Agreement and the presentations by Buyer and Seller and their respective representatives, and not by independent review, only the appropriate amount, inclusion or omission of the disputed items, and shall modify the Closing Inventory Value or the calculation of the Inventory Adjustment Amount, as the case may be, to conform to its determination within thirty (30) days after it has been engaged. In resolving any disputed item, the Independent Accountant: (x) shall limit its review to matters specifically set forth in the notice of disagreement as a disputed item, (y) shall further limit its review to whether the Closing Inventory Value or the Inventory Adjustment Amount, as the case may be, is mathematically accurate and has been prepared in accordance with the principles and methodologies set forth in this *Section 2.9(d)* and *Schedule 2.9* with respect to the preparation of the Closing Inventory Value or Inventory Adjustment Amount, as the case may be, and (z) shall not assign a value to any item greater than the greatest value for such item claimed by any Party or less than the smallest value for such item claimed by any other Party. The determination of the Independent Accountant shall be final, conclusive and binding on the Parties and shall not be subject to appeal. In the event the dispute is resolved in (i) Buyer's favor, Seller shall pay the fees and expenses of the Independent Accountant, or (ii) Seller's favor, Buyer shall pay the fees and expenses of the Independent Accountant. The Closing Inventory Valuation Statement, if not objected to by Buyer pursuant to *Section 2.9(c)*, or, if required, as adjusted by the Parties or by the Independent Accountant, as applicable, shall be deemed to be the ***Closing Inventory Valuation Statement*** for all purposes under this Agreement.

(e) Buyer and Seller shall cooperate and assist in the preparation of the Closing Inventory Valuation Statement and in the conduct of the reviews referred to in *Section 2.9(d)*, including making available during normal business hours to the extent reasonably necessary, relevant books, records, work papers and personnel.

All references to Inventory Adjustment Amount in this paragraph shall mean the Inventory Adjustment Amount reflected on the Closing Inventory Valuation Statement.

(h) Any payment required to be made by Buyer pursuant to *Section 2.9(f)* shall be delivered to Seller within ten (10) business days after the Closing Inventory Valuation Statement is finalized (including upon resolution by Buyer and Seller of any disagreements or delivery of the determination of the arbitrator, if required, all as contemplated by *Section 2.9(d)*) by wire transfer in immediately available funds to an account designated by Seller.

Buyer and Seller shall not take any action with respect to the accounting books and records relating to the Inventory that would obstruct or prevent the preparation of the Closing Inventory Valuation Statement. 5.10 *Seller Exclusivity*. Seller agrees that during the Restricted Period neither it nor any of its subsidiaries nor any of their respective officers or directors, and that Seller shall use commercially reasonable efforts to cause its and its subsidiaries' agents and representatives (including any attorney or accountant retained by it or any of its subsidiaries) other employees and affiliates (each a *Seller Representative*) not to, directly or indirectly, (a) solicit, initiate, encourage or knowingly facilitate any proposal or offer from any third party concerning any sale or other disposition of the Business Assets (other than as permitted by *Section 5.4*) (a *Seller Acquisition Proposal*) or (b) participate or engage in any discussions or negotiations (and, as of the date hereof, Seller shall immediately cease any discussions or negotiations that are ongoing) regarding, or furnish to any Person any non-public information with respect to, or facilitate in any other manner any effort or attempt by any third party in connection with a Seller Acquisition Proposal. A sale will be deemed to take place when a unit of Product is removed from the Consignment Inventory. A Product unit becomes mature when such Product unit has remained in the Consignment Inventory for sixty (60) days from date of its receipt into the Consignment Warehouse, or ninety (90) days from date of the unit of Product being shipped from a DEI facility, whichever is sooner. Unless otherwise instructed in writing by PECO, DEI shall select the carrier. All freight, insurance and other shipping expenses, as well as any special packing expense, shall be paid by PECO. Notwithstanding the passage of title under this Section 3.3, DEI retains and PECO grants a purchase-money first-position security interest in each of the Products for the amount of the purchase price of the Products, and in any proceeds from PECO's resale of the Products, until the full invoice amount for such Product has been paid in full to DEI. Upon DEI's request, PECO will sign any documentation reasonably required by DEI to perfect such security interest. PECO will insure such Consignment Inventory against loss, theft, and damage under a policy naming DEI as an additional insured.

3.5 Inspection. PECO will perform inspection of Products purchased from DEI depending on, but not limited to, Product complexity, Product performance history, risk of nonconforming material, direct ship to stock status of DEI, each according to PECO quality procedures. DEI will be notified as soon as reasonably practicable, normally within three (3) Business Days of receipt (but in any event no more than fifteen (15) Business Days (provided that, with respect to Consignment Inventory, such period shall commence on removal from inventory rather than upon receipt) of any nonconforming material found in any Products, whether in receiving inspection or any point within the manufacturing process. If nonconforming material is identified in a Product, PECO will notify DEI in writing regarding any Products that materially fail to meet DEI's published Product specifications. Depending on various factors, including but not limited to PECO Customer demand or complexity of repairs, PECO and DEI will jointly decide the best method to resolve the nonconformance which may include a return of the Products to DEI, repairs by PECO, or some form of both. If PECO desires to return Products to DEI, PECO shall request from DEI a return material authorization (a RMA), either by e-mail, mail or telefax following a proper explanation of the rejection. Returns shall be performed in accordance with DEI's RMA procedure. Rejected goods should be returned freight prepaid to DEI within ten business days of rejection and receipt from DEI of a return authorization. As promptly as possible, but not later than sixty (60) days after receipt by DEI of properly rejected Products, DEI shall, at its option and expense, either repair or replace such Products. The party shipping Products pursuant to this Section 3.5 shall bear the entire risk of loss for Products during shipment. Any insurance proceeds payable in respect to any loss for any Products to the extent of any loss incurred during shipment shall be paid to the party bearing the risk of loss for such Products to the extent of the loss incurred. 8.3 DEI Personnel. DEI shall second two (2) DEI employees (Secured Employees) to PECO to aid in the Joint Cooperation during the Exclusivity Period (the Joint Cooperation Services). Said Secured Employees' job duties shall consist of performing services for PECO as directed by PECO and PECO shall provide day-to-day direction to said Secured Employees with respect to the Joint Cooperation Services. PECO shall, to the fullest extent permitted by applicable law, indemnify and hold harmless the DEI Indemnitees from and against all taxes, losses, damages, liabilities, costs and expenses, including attorneys' fees and other legal expenses (collectively Losses) claimed by said Secured Employees or by a third-party governmental entity as a result of any claims arising from or relating to, in any way, PECO's work environment and/or its day-to-day direction of said Secured Employees (including, but not limited to, compliance with any and all health, safety and employment laws related thereto) during the Exclusivity Period. DEI shall, to the fullest extent permitted by applicable law, indemnify and hold harmless PECO and any of its officers, directors, employees, agents, investors, shareholders, administrators, affiliates, divisions, related companies, subsidiaries, predecessor and

successor corporations, and assigns (the PECO Indemnitees) from and against all Losses claimed by said Secunded Employees or by a third-party governmental entity as a result of any claims arising from or relating to, in any way, the overall control and management of said Secunded Employees, including the compensation, evaluation, discipline and/or termination of said Secunded Employees (including, but not limited to, compliance with any and all wage and hour laws related thereto) during the Exclusivity Period.

8.4 Adherence to Rules. Each party will ensure that all of its personnel and subcontractors working on the other party's premises follow the host party's guidelines, policies and instructions while on the host party's premises, including confidentiality and security procedures.

9. IP OWNERSHIP.

9.1 Pre-Existing Technology. Each party shall retain sole ownership of its Technology independently developed prior to the Effective Date.

9.2 Joint Technology. Unless otherwise agreed pursuant to a separate Joint Development Agreement entered into pursuant to Section 8.2, all Technology (other than DEI Technology and Secunded Employee Technology) created jointly by employees or agents of DEI and employees or agents of PECO (Joint Technology) shall be owned jointly by DEI and PECO. Subject to the foregoing, joint ownership will provide each party with an undivided interest in such Joint Technology with the power to license, enforce and otherwise exploit it without the consent of and without accounting to the other party, and each party hereby waives any right it may have under the laws of any country to require such consent or accounting. The parties shall mutually agree on the terms and conditions related to the prosecution and maintenance of any patents, patent applications, copyright registrations and other intellectual property protections related to the Joint Technology.

9.3 Secunded Employee Technology. All Technology that is created solely by the Secunded Employees during the performance of tasks assigned to the Secunded Employees by PECO or that results from the Secunded Employees' use of property, equipment, or premises owned, leased or contracted for by PECO (Secunded Employee Technology) is subject to the following ownership provisions:

9.3.1 All Secunded Employee Technology relating to the Modules or the manufacture or use thereof (including all modifications, enhancements, extensions, and upgrades of and/or to Modules), and all Intellectual Property Rights therein (collectively, Module Technology), shall be owned by DEI. Accordingly, PECO hereby agrees to assign (or cause to be assigned) and does hereby irrevocably assign fully to DEI all Module Technology and any and all Intellectual Property Rights throughout the world therein or pertaining to the manufacture or use thereof.

9.3.2 PECO covenants to DEI that it will not initiate any litigation against DEI, the DEI Indemnitees, or any of DEI's or DEI Indemnitees customers or entities in their distribution channels (any of the foregoing, a DEI Party), asserting that a DEI Party is a direct or contributory infringer of any patents or patent applications claiming inventions within the Secunded Employee Technology or the manufacture or use thereof.

9.3.3 Except as set forth in Section 9.3.1, PECO shall retain all of its right, title and interest in and to Secunded Employee Technology, including all Intellectual Property Rights therein. Accordingly, DEI hereby agrees to assign (or cause to be assigned) and does hereby irrevocably assign fully to PECO all Secunded Employee Technology and any and all Intellectual Property Rights throughout the world therein (subject to Section 9.3.1). Additionally, DEI shall execute and deliver, from time to time, such documents and perform such acts as may be necessary or convenient to effectuate and perfect the assignments contemplated herein, and will cooperate with and assist PECO in every proper way (at the expense of PECO) in obtaining and from time to time enforcing such Intellectual Property Rights within the Secunded Employee Technology in any and all countries.

9.3.4 PECO shall execute and deliver, from time to time, such documents and perform such acts as may be necessary or convenient to effectuate and perfect the assignments contemplated herein, and will

cooperate with and assist DEI in every proper way (at the expense of DEI) in obtaining and from time to time enforcing Intellectual Property Rights within the Module Technology in any and all countries. Notwithstanding anything to the contrary stated herein, during and after the term of this Agreement, each party shall have the right to use without liability or restriction the Residuals from the Secured Employee Technology. The term Residuals shall mean trade secret rights in information disclosed in nontangible form (i.e., not in written or other documentary form, including tape or disk) which is retained in memory by the Secured Employees, including ideas, concepts, know-how, or techniques contained therein.

9.4 Reservation of Rights/Ownership. Except as expressly provided herein, all present and future trademarks and trade names, logos, patents, copyrights, and other identifying material or Intellectual Property Rights of either party shall remain the exclusive property of such party and no rights to such trademarks, trade names, logos, patents, copyrights and other identifying material or Intellectual Property Rights shall vest in the other party because of this Agreement. The Products are offered for sale and are sold by DEI subject in every case to the condition that such sale does not convey any license, expressly or by implication, to manufacture, duplicate or otherwise copy or reproduce any of the Products. PECO shall take appropriate steps with its PECO Customers, as DEI may request, to inform them of and assure compliance with the restrictions contained in this Section.

9.5 Non-Exclusive License. DEI hereby grants to PECO a nonexclusive, fully paid up, royalty-free license, under DEI's (and its Affiliates') rights in the Supply Records (as defined in **Exhibit F** hereto), to use, reproduce, distribute, digitally transmit and display tangible manifestations of the Supply Records, and to confidentially disclose tangible manifestations of the Supply Records, including the right to sub-license for use, solely in support of PECO's performance of its rights and obligations hereunder.

10. WARRANTIES AND DISCLAIMERS.

10.1 General Warranty. Each party hereby represents and warrants to the other that (i) such party has the right, power and authority to enter into this Agreement and to fully perform all of its obligations, including the granting of licenses, hereunder; (ii) entering into this Agreement does not violate any agreement or obligation existing between such party and any third party; and (iii) such party has and will maintain with all of its employees written agreements sufficient to enable such party to perform its obligations hereunder with confidentiality terms at least as restrictive as those provided herein.

10.2 Product Warranty. DEI shall provide PECO with its standard one (1)-year warranty for the Products. PECO may repair Products pursuant to the Repair Services Agreement contemplated in Section 6.2. Upon PECO's request, on a PECO Customer-by-PECO Customer basis, DEI will negotiate in good faith with PECO to provide PECO with a warranty that is coterminous with the warranty provided by PECO to such PECO Customer.

10.3 Notification and Remedy. With respect to any warranty, PECO will immediately notify DEI in writing if it becomes aware, during the warranty period, that a Product fails to conform to the warranty. Upon its verification of any claim of defect or nonconformity of a unit of the Products during the Term, DEI will use commercially reasonable efforts to either, at its option, (i) repair the Product or have PECO repair the Product, at a mutually agreed cost, or (ii) provide a replacement thereof to the extent necessary to honor DEI's warranty. The foregoing states DEI's sole liability for any failure of the Products to conform to each warranty.

10.4 Recalls. If DEI decides to recall, replace or take other action with respect to any Products, it will notify PECO by rapid means of communication and PECO shall immediately cease sales of any units of Product in its possession or control, which are subject to the action until the course of action to be taken has been determined. The reasonable and justifiable costs of recovering Product in the field and its replacement

in any action affecting a Product will be borne by DEI.

10.5 Disclaimer. DEI DOES NOT MAKE ANY WARRANTY TO PECO, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, WITH RESPECT TO PRODUCTS, SPECIFICATIONS, SUPPORT, SERVICE OR ANY OTHER MATERIALS CONTEMPLATED HEREUNDER, AND DEI SPECIFICALLY DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT, AND FITNESS FOR A PARTICULAR PURPOSE.

11. LIMITATION OF LIABILITY. NOTWITHSTANDING ANYTHING TO THE CONTRARY HEREIN, TO THE EXTENT ALLOWED BY LAW, THE LIABILITY OF DEI TO ANY PERSON WITH RESPECT TO THE PRODUCTS AND/OR THE RELATIONSHIP DESCRIBED IN THIS AGREEMENT, WHETHER BASED ON CONTRACT, INCLUDING BREACH OF WARRANTY, NEGLIGENCE, STRICT LIABILITY OR OTHER TORT THEORY, SHALL IN NO EVENT EXCEED THE AMOUNT OF MONEY PAID TO DEI PURSUANT TO THIS AGREEMENT PRIOR TO THE EVENT OR CIRCUMSTANCES GIVING RISE TO SUCH LIABILITY, AND IN THE CASE OF LIABILITY RELATING TO ANY ALLEGEDLY DEFECTIVE OR INFRINGING UNIT OF PRODUCTS, SHALL, UNDER ANY LEGAL OR EQUITABLE THEORY, BE FURTHER LIMITED TO REPLACEMENT OF THE UNIT, OR IF IMPRACTICAL, RETURN OF THE PURCHASE PRICE PAID BY PECO FOR SUCH UNIT. DEI SHALL IN NO EVENT BE LIABLE TO ANY PERSON FOR ANY LOST PROFITS, LOST DATA, COST OF PROCUREMENT OF SUBSTITUTE GOODS, OR FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE OR CONSEQUENTIAL DAMAGES, EVEN IF DEI HAS BEEN INFORMED OF THE POSSIBILITY THEREOF AND NOTWITHSTANDING THE FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY STATED HEREIN. THE PARTIES AGREE THAT THIS SECTION REPRESENTS A REASONABLE ALLOCATION OF RISK.

12. CONFIDENTIAL INFORMATION.

12.1 Confidential Information. Except to the extent expressly authorized by this Agreement or otherwise agreed in writing, the parties agree that the receiving party shall keep confidential and shall not publish or otherwise disclose or use for any purpose other than as provided for in this Agreement any Confidential Information of the other party. *Confidential Information* means (i) information disclosed in tangible form that is marked confidential or with other similar designation to indicate its confidential or proprietary nature, or (ii) information disclosed orally, where such information is either (A) of the type usually considered confidential or proprietary in the disclosing party's industry or (B) otherwise indicated to be confidential or proprietary by the disclosing party at the time of the initial disclosure thereof and confirmed in writing as confidential or proprietary by the disclosing party within thirty (30) days after such disclosure. Subject to the provisions of Sections 8 and 9, the parties agree that the following shall be considered the Confidential Information of a disclosing party without the requirement that such information be designated as in writing as Confidential or with some other similar designation by the disclosing party: knowledge and information that may be learned or obtained by a receiving party, its agents, servants or employees with respect to the conduct and details of the disclosing party's business, including but not limited to, product sales or other financial information, all aspects of the technology for manufacture of the Products, the processes, formulas, machinery, equipment, utensils and arts of manufacture used by a party and its designs or methods of manufacture, as well as its trade secrets and customer lists. Notwithstanding the foregoing, Confidential Information shall not include information that, in each case as demonstrated by written documentation: (i) was already or becomes lawfully known to the receiving party, other than under an obligation of confidentiality, at the time of disclosure; (ii) was generally available to the public or otherwise part of the public domain at the time of its disclosure to the receiving party or became generally available to the public or otherwise part of the public domain after its disclosure and other than through any act or omission of the receiving party in breach of this Agreement; or (iii) was developed by the receiving party without reference to any information or materials disclosed or provided by the disclosing party.

12.2 Confidentiality of Agreement. PECO agrees that the terms and conditions of this Agreement shall be treated as the Confidential Information of DEI; provided that PECO may disclose the terms and conditions of this Agreement: (i) to legal counsel; (ii) in confidence, and as necessary to its accountants, banks, and financing sources and their advisors; (iii) in connection with evaluation of a potential merger of PECO, except where the

Table of Contents

party that would be merging with or acquiring PECO is a competitor of DEI; (iv) in confidence, and to legal counsel in connection with the enforcement of this Agreement or rights under this Agreement, or (v) as advisable or required in connection with any government or regulatory filings, including without limitation filings with the Securities and Exchange Commission and its counterparts in other jurisdictions.

12.3 Compelled Disclosure. Nothing in Section 12.1 or Section 12.2 will prevent disclosure of either or both the terms and conditions of this Agreement or of the receiving party's Confidential Information generally if, in the opinion of the receiving party's legal counsel, such disclosure is required to be made in a judicial, administrative or governmental proceeding pursuant to a subpoena, deposition, interrogatory, civil investigative demand or similar process or order. In that event, however, the receiving party shall provide notice to the disclosing party (unless notice is prohibited by order, subpoena or law) before disclosing any of the Confidential Information. In making such disclosure, the receiving party may disclose only that portion of the Confidential Information required to be disclosed and shall use reasonable efforts to obtain assurance that confidential treatment will be accorded the information. The receiving party is not, however, under any obligation to seek a protective order.

13. INSURANCE. To the extent that PECO is required to carry insurance with respect to agreements with PECO Customers, then PECO shall provide comparable insurance to DEI, including naming DEI as an additional insured.

14. PECO STATUS. For the purpose of carrying out this Agreement, PECO shall be and act as independent contractor and not as an agent or employee of DEI and shall not have the power to bind, and agrees not to attempt to bind, DEI to any contract without prior written approval thereof from DEI.

15. ASSIGNMENT. PECO may not assign, transfer, subdivide or otherwise deal with any obligations or benefit under this Agreement, through operation of law or otherwise, without the prior written consent of DEI. Any attempted assignment in violation of this Section shall be null and void.

16. TERM AND TERMINATION.

16.1 Term. The term of this Agreement shall commence on the Effective Date and shall remain in effect for thirty (30) months thereafter, subject to early termination pursuant to Sections 16.2 and 16.3 below (the "Term"). This Agreement may be renewed for an agreed upon term by mutual written agreement of the parties.

16.2 Termination for Change of Control. In the event that PECO undergoes a Change of Control, DEI may thereafter in its sole discretion terminate this Agreement immediately upon written notice to PECO. The term "Change of Control" with respect to an entity means the occurrence of one or more of the following: (i) the acquisition by any person (or related group of persons), whether by tender or exchange offer made directly to the stockholders, open market purchases or any other transaction or series of transactions, of more than fifty percent (50%) of the capital stock entitled to elect the members of the board of directors or other analogous governing body of such entity; (ii) a merger or consolidation in which such entity is not the surviving entity, except for a transaction in which the securities of such entity immediately prior to consummation of such merger or consolidation are converted by means of such merger or consolidation into securities representing more than fifty percent (50%) of the total combined voting power of the surviving entity; or (iii) any reverse merger in which such entity is the surviving entity but in which the securities of such entity immediately prior to consummation of such reverse merger represent less than fifty percent (50%) of the total combined voting power of such entity's capital stock outstanding immediately after consummation of such merger.

16.3 Termination by Either Party. Either party may terminate this Agreement prior to its expiration and upon thirty (30) days written notice if: (a) a party breaches any material term of this Agreement and the breaching party has not cured the breach within such thirty (30) day period; (b) a party is the subject of a liquidation or insolvency, or the filing of bankruptcy, or similar proceeding(s) (provided that in the case of involuntary proceedings, such proceedings are not dismissed within sixty (60) days of filing); or (c) the other party ceases to actively engage in business.

C-58

Table of Contents**16.4 Effect of Termination.**

16.4.1 If proper notice of termination is given for any reason, DEI shall be entitled to reject or cancel without liability all or part of any previously accepted Orders received from PECO after such notice, but prior to the effective date of termination. Notwithstanding any credit terms made available to PECO prior to that time, any shipments during said period shall be paid for by wire transfer prior to such shipment. Upon termination of this Agreement, the due date of all invoices for Product shall automatically be accelerated so that they shall become due and payable on the effective date of termination, even if longer terms have been provided previously.

16.4.2 All rights and licenses of PECO hereunder shall automatically be terminated except that PECO may continue only to sell, in accordance with normal business practice and the terms of this Agreement, Products previously shipped to it by DEI as set forth in Section 16.4.2 above.

16.4.3 Each party shall, within thirty (30) days of the effective date of termination, return to the other party all of the other party's Confidential Information then in a party's possession, custody or control.

16.4.4 Upon the termination of this Agreement in accordance with its terms, except for obligations incurred prior to the effective date of termination, neither party shall have any obligation to the other party, or to any employee, agent or representative of a party, for compensation or for damages of any kind, whether on account of loss by a party, or by such employee agent or representative of present or prospective sales, investments, compensation or goodwill; provided, however, that nothing in this section shall relieve PECO of any liability for willful misconduct, gross negligence, or breach of contract. Each party, for itself and on behalf of each of its employees, agents and representatives, hereby waives any rights which may be granted to it or them under the laws and regulations of the Territory or otherwise which are not granted to it or them by this Agreement. Without limiting the generality of the foregoing, PECO understands and acknowledges that any contract or other arrangements it enters into with any third parties with respect to Product will be subject and subordinate to the rights of termination set forth in this Agreement; provided, however, DEI's obligation pursuant to Section 3.2.2 shall not be superseded or terminated by virtue of the termination of this Agreement upon (i) this Agreement's natural expiration or (ii) DEI's material breach. PECO will indemnify and hold the DEI Indemnitees harmless from any and all liability, loss, damages, costs or expenses incurred by DEI in connection with claims by any such third party made because of the termination of this Agreement.

16.5 Survival. Upon any termination or expiration of this Agreement the provisions of Sections 1, 2.2, 3.2.2 (subject to Section 16.4.4 above), 3.3, 3.4, 5.4, 5.7, 7.2, 9, 10.1, 10.2 (only with respect to the first and third sentences, and only for so long as a warranty period extends beyond the Term (provided that the obligation to negotiate as set forth in the third sentence shall not survive)), 10.3 (only for so long as a warranty period extends beyond the Term), 10.4, 10.5, 11, 14, 16.4, 16.5, 18 and 19, and all payment obligations incurred prior to the effective date of such termination or expiration (and all related payment provisions) shall survive. All other provisions of this Agreement shall terminate.

17. EVENTS BEYOND CONTROL. The obligations of either party to perform under this Agreement shall be excused if such failure to perform or any delay is caused by matters such as acts of God, strikes, civil commotion, riots, war, revolution, acts of governments, lack of adequate production capacity, failure or delay in plant start up, breakdown of machinery, shortage of raw materials, equipment, fuel, transportation, or containers, or any other cause whether similar or dissimilar to those enumerated that are reasonably beyond the control of the party obligated to perform. Upon the occurrence of such an event, the duties and obligations of the parties shall be suspended for the duration of the event preventing proper performance under this Agreement; provided however that if such suspension shall occur, the parties shall meet and attempt to arrive at a mutually acceptable compromise within the spirit and intent of this Agreement, and if such a reasonable compromise cannot be reached in good faith, then either party may terminate this Agreement upon thirty (30) days written notice.

19.1 Discussions. In the eighteenth (18th) month of the Term of this Agreement, the parties agree to negotiate in good faith, for a period not to exceed 30 days, a possible extension of the Term and/or the duration of the exclusivity of the rights granted in Section 2.1.1, it being understood that neither party shall be obligated to modify or amend this Agreement.

19.2 Necessary Actions. Each party agrees to perform any further acts and execute and deliver any and all further documents and/or instruments which may be reasonably necessary to carry out the provisions of this Agreement and the transactions contemplated hereby.

19.3 Waiver; Amendment. The failure of either party to enforce its rights under this Agreement at any time for any period shall not be construed as a waiver of such rights. Further, no changes or modifications or waivers can be made to this Agreement unless evidenced in writing and signed for on behalf of both parties.

Edgar Filing: PECO II INC - Form DEF 14A

19.4 Severability. If any provision of this Agreement shall be determined to be unenforceable, all other provisions shall remain in full force and effect and the affected provision shall be construed so as to be enforceable to the maximum extent possible.

Shareholder agrees to permit the Company to publish and disclose in all documents and schedules filed with the SEC, and any press release or other disclosure document that the Company determines to be necessary, such Shareholder's identity and beneficial ownership of Company Shares and the nature of such Shareholder's commitments, arrangements and understandings under this Agreement.

(e) *Survival*. Shareholder agrees that the foregoing representations, warranties and covenants shall be continuing representations, warranties and covenants by Shareholder during the term of this Agreement, and Shareholder shall use its commercially reasonable efforts to take all actions as shall from time to time be necessary to cure any breach or violation thereof.

2. *Voting Agreement.*

(a) Each Significant Holder hereby agrees with the Company and Seller that, at any meeting of the Company's shareholders, however called (including at any adjournment or postponement thereof) and in any consensual action by the Company's shareholders, each Significant Holder shall vote the Company Shares beneficially owned by such Significant Holder, whether heretofore owned or hereafter acquired: (i) in favor of the Opt-Out Proposal, the Issuance Proposal and the other transactions contemplated by the Asset Agreement and in favor of any other matter that could reasonably be expected to facilitate the consummation of the transactions contemplated by the Asset Agreement; and (ii) against (a) any Acquisition Proposal, (b) any change in a majority of the individuals who, as of the date hereof, constitute the Company's board of directors (a ***Change in Directors***), or (c) any other action which is intended, or could reasonably be expected, to impede, interfere with, delay, postpone or materially adversely affect the consummation of the transactions contemplated by the Asset Agreement (an ***Adverse Transaction***). Each Significant Holder shall not enter into any agreement or understanding with any Person the effect of which would be violative of the provisions and agreements contained herein.

(b) For purposes of this Agreement, a Significant Holder shall be deemed to ***beneficially own*** or to have acquired ***beneficial ownership*** of a security if such Significant Holder directly or indirectly has such ownership, control or power to (i) vote or direct the voting with respect to such security, or (ii) dispose or to direct the disposition of such security. Company Shares beneficially owned by any Significant Holder shall include securities beneficially owned by all other Persons with whom a Significant Holder would constitute a group as within the meaning of Section 13(d)(3) of the Exchange Act, other than parties to this Agreement.

3. *Irrevocable Proxy.*

(a) Each Significant Holder hereby irrevocably (to the fullest extent permitted by applicable Law) constitutes and appoints Seller, which shall act by and through Austin Tseng and Yao C.H. Chou (each, a ***Proxy Holder***), or either of them, with full power of substitution and resubstitution, as its true and lawful proxy and sole attorney-in-fact to vote at any meeting (and any adjournment or postponement thereof) of the Company's shareholders and in any consensual action by the Company's shareholders, and to exercise all other voting and related rights with respect to (to the full extent that such Significant Holder is entitled to do so), all Company Shares beneficially owned by such Significant Holder as of the date of such meeting or the taking of any action: (i) in favor of the approval of the Opt-Out Proposal, the Issuance Proposal and the other transactions contemplated by the Asset Agreement and in favor of any other matter that could reasonably be expected to facilitate the consummation of the transactions contemplated by the Asset Agreement, and (ii) against any Acquisition Proposal, Change in Directors or Adverse Transaction. Such proxy shall be limited strictly to the power to vote the Company Shares in the manner set forth in the preceding sentence and shall not extend to any other matters.

(b) The proxy and power of attorney granted herein shall be irrevocable (to the fullest extent permitted by applicable Law) during the term of this Agreement, shall be deemed to be coupled with an interest sufficient in law to support an irrevocable proxy and, upon execution of this Agreement, shall revoke all prior proxies granted by any Significant Holder that conflict with the proxy granted herein. Significant Holder shall not grant any proxy to any Person which conflicts with the proxy granted herein, and any attempt to do so shall be void. The power of attorney granted herein is a durable power of attorney and shall survive the death or incapacity of any Significant Holder.

(c) If any Significant Holder fails for any reason to vote his or her Company Shares in accordance with the requirements of Section 2(a) hereof, then the Proxy Holder shall have the right to vote the Company Shares in accordance with the provisions of this Section 3. The vote of the Proxy Holder shall control in any conflict between his or her vote of such Company Shares and a vote by any Significant Holder of such Company Shares.

5. *Other Covenants, Representations and Warranties.* Each Significant Holder hereby severally and not jointly represents and warrants to the Company and Seller as follows:

(a) *Ownership of Company Shares.* As of the date hereof, each Significant Holder is the beneficial owner of the number of Company Shares set forth opposite such Significant Holder's name on *Exhibit A* hereto (representing all Company Shares beneficially owned by such Significant Holder), which Company Shares are free and clear of any liens, adverse claims, charges, security interests, pledges or options, proxies, voting trusts or any other encumbrances. With respect to each Significant Holder, *Exhibit A* also sets forth all options, warrants and other derivative securities convertible into or exercisable for shares of Company capital stock held by such Significant Holder as of the date hereof.

(b) *Power; Binding Agreement.* Each Significant Holder has sole voting power with respect to the matters set forth in Section 2(a) hereof with respect to all of his or her Company Shares except in the cases of shared voting power noted in *Exhibit A* with no limitations, qualifications or restrictions on such rights. Each Significant Holder has the legal capacity, power and authority to enter into and perform all of its obligations under this Agreement. The execution, delivery and performance of this Agreement by such Significant Holder will not violate any agreement or any court order to which such Significant Holder is a party or is subject including, without limitation, any voting agreement or voting trust. This Agreement has been duly and validly executed and delivered by each Significant Holder.

(c) *Restriction on Transfer, Proxies and Non-Interference.* Except as expressly contemplated by this Agreement, the Significant Holders shall not, directly or indirectly: (i) offer for sale, sell, transfer, tender, pledge, encumber, assign or otherwise dispose of, or enter into any contract, option or other arrangement or understanding with respect to or consent to the offer for sale, sale, transfer, tender, pledge, encumbrance, assignment or other disposition of (any of the foregoing, a **Transfer**), any or all of the Company Shares or any interest therein; (ii) grant any proxies or powers of attorney or deposit any Company Shares into a voting trust or enter into a voting agreement, in any such case that conflicts with Significant Holder's obligations hereunder, with respect to any Company Shares; or (iii) take any action that would make any representation or warranty of such Significant Holder contained herein untrue or incorrect or have the effect of preventing or disabling Significant Holder from performing any of Significant Holder's obligations under this Agreement.

(d) *Permitted Transfers.* Notwithstanding Section 5(c), each Significant Holder shall have the right to Transfer Company Shares (x) to the extent the transferee shall, as a condition to such transfer, execute an agreement to be bound by the terms and conditions of this Agreement, which agreement must be countersigned and accepted by each of the Company and Seller, or (y) pursuant to the terms of a Rule 10b5-1 trading plan adopted prior to the date of this Agreement.

(e) *Stop Transfer.* Each Significant Holder hereby covenants to the Company and Seller that such Significant Holder shall not request that the Company register the transfer (book-entry or otherwise) of any certificate or uncertificated interest representing any Company Shares, unless such transfer is made in accordance with the terms of this Agreement.

(f) *Quorum.* Each Significant Holder further agrees that at any meeting of the Company shareholders, such holder shall, or shall cause the holder of record on any applicable record date to, appear at such meeting or otherwise cause the Company Shares to be counted as present thereat for purposes of establishing a quorum.

(g) *Disclosure.* Each Significant Holder agrees to permit Company and Seller to publish and disclose in all documents and schedules filed with the SEC, and any press release or other disclosure document that Company or Seller, in its sole discretion, determines to be necessary or desirable in connection with the

(h) *Reliance by the Company and Seller.* Each Significant Holder understands and acknowledges that the Company and Seller are entering into the Asset Agreement in reliance upon Significant Holder's execution and delivery of this Agreement and the accuracy of the representations and warranties made by such Significant Holder herein.

6. *Company Shares.* In the event of a stock dividend or distribution, or any change in the Company capital stock by reason of any stock dividend, split-up, recapitalization, combination, exchange of shares or the like, the term **Company Shares** shall be deemed to refer to and include the Company Shares as well as all such stock dividends and distributions and any shares into which or for which any or all of the Company Shares may be changed or exchanged. If so requested by Seller, Significant Holder agrees that the Company Shares shall bear a legend stating that such Company Shares are subject to this Agreement.

7. *Termination.* This Agreement shall terminate upon the earliest to occur of: (a) the termination of the Asset Agreement in accordance with its terms; *provided, however,* that in the event the Asset Purchase Agreement is terminated by Buyer pursuant to Section 7.1(g) thereof, this Agreement shall remain in full force and effect for a period of six (6) months following the date of any such termination, and (b) the Closing Date. Upon the termination of this Agreement, this Agreement shall forthwith become null and void, and there shall be no liability on the part of any party hereto, except (i) that the provisions of this Section 7 and the provisions of Section 9 shall survive the termination of this Agreement and (ii) nothing herein shall relieve any party from liability for any willful breach hereof.

8. *No Ownership Interest.* Nothing contained in this Agreement shall be deemed to vest in Seller any direct or indirect ownership of any Company Shares. All rights, ownership and economic benefits of and relating to the Company Shares shall remain vested in and belong to the respective Significant Holder.

9. *Miscellaneous.*

(a) *Entire Agreement.* This Agreement constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all other prior agreements and understandings, both written and oral, among the parties with respect to the subject matter hereof.

(b) *Certain Events.* Each Significant Holder agrees that this Agreement and the obligations hereunder shall attach to the Company Shares and shall be binding upon any Person to which legal or beneficial ownership of any Company Shares shall pass, whether by operation of law or otherwise. Notwithstanding any transfer of Company Shares, the transferor shall remain liable for the performance of all of its obligations under this Agreement.

(c) *Assignment.* With respect to any Significant Holder, this Agreement shall not be assigned by operation of law or otherwise without the prior written consent of Seller; and with respect to the Company and Seller, this Agreement shall not be assigned by operation of law or otherwise without the prior written consent of the other party; *provided, however,* that Seller may, in its sole discretion, assign its rights and obligations hereunder to any affiliate of Seller. Subject to the foregoing, this Agreement and all of the provisions hereof shall be binding upon and inure to the benefit of the parties hereto and their respective successors and permitted assigns.

(d) *Amendments, Waivers, Etc.* This Agreement may not be amended, changed, supplemented, waived or otherwise modified or terminated, except upon the execution and delivery of a written agreement executed by the parties hereto.

GBQ Consulting LLC (GBQ) understands that the Board of Directors of PECO II, Inc. (Peco or the Company) has proposed the acquisition of the Delta Telecom Power North American Division (the Division) of the Delta Group (Delta), for consideration to Delta that includes: (a) an 18% ownership interest in the resulting combined entity and (b) warrants that provide Delta the right to purchase up to a 45% ownership interest in the resulting combined entity over a 30-month time period and at an agreed-upon price of \$2.00 per share (the Proposed Transaction).

conducted such other studies, analyses, and inquiries as we deemed necessary in arriving at our Opinion.

In addition, we visited the Company's headquarters and manufacturing facilities located in Galion, Ohio and held discussions with certain members of senior management concerning the Company's history, operations, financial condition, industry, and future prospects.

Our Opinion is premised on the assumption that the assets, liabilities, financial condition, and prospects of the Company as of the date of this letter have not changed materially since June 30, 2005, the date of the most recent financial statements made available to us. In rendering our Opinion, we have assumed and relied upon the accuracy and completeness, without independent verification, of all information that was publicly available or that was furnished to us, either verbally or in writing, by the Company. Moreover, we have assumed, without independent verification, that our discussions with management regarding financial projections reflect management's best currently available estimate of the future financial results and condition of the Company, and we have relied upon such projections in arriving at our Opinion. We have not been engaged to assess the reasonableness or achievability of such forecasts and projections or the assumptions upon which they were based and express no view as to the forecasts, projections, or assumptions.

We have not made or obtained any evaluations or appraisals of the assets or liabilities of the Company. Our Opinion is necessarily based on business, economic, market, and other conditions as they exist and can be evaluated by us at the date of this letter. It should be noted that although subsequent developments may affect this Opinion, we do not have any obligation to update, revise, or reaffirm our Opinion. We reserve the right, however, to withdraw, revise, or modify our Opinion based upon additional information which may be provided to or obtained by us after the issuance of the Opinion which suggests, in our judgment, a material change in the assumptions upon which our Opinion is based.

The Board of Directors has not requested that we solicit, nor have we solicited, any third-party indications of interest for the acquisition of all or any part of the Company. Further, we were not requested to consider, and our Opinion does not address, the merits of the contemplated Proposed Transaction relative to any alternative business strategies that may exist for the Company or the effect of any other transactions in which the Company might engage, nor do we offer any opinion as to the material terms of the Proposed Transaction.

We understand that management of the Company is unaware of any current or prospective offers to purchase the Company or its assets from a third-party strategic or financial acquirer.

We are acting as independent financial advisor to the Board of Directors in connection with the Proposed Transaction and will receive a fee for our services. However, our compensation for providing financial advisory services to the Board of Directors is neither based nor contingent on the results of our engagement. Further, none of our employees who worked on this engagement has any known financial interest in the assets or equity of the Company or the outcome of our engagement. In addition, the Company has agreed to indemnify us for certain liabilities arising out of our engagement.

It is understood that this Opinion was prepared at the request of the Board of Directors for its confidential use and may not be reproduced, disseminated, quoted, or referred to at any time in any manner or for any purpose without our prior written consent, except as required by applicable securities laws. Notwithstanding anything to the contrary, the Company may reproduce this letter in its entirety in any filing with the Securities and Exchange Commission required to be made by the Company in respect of the Proposed Transaction pursuant to the Securities Act of 1933 or the Securities Exchange Act of 1934.

PART I

ITEM I BUSINESS

All references to we, us, our, PECO II, or the Company in this Annual Report on Form 10-K mean PECO II, Inc.

PECO II, Inc. was organized in 1988 for the purpose of acquiring the assets of ITT's communications power product business. In August 2000, we completed an initial public offering of 5,750,000 of our common shares, resulting in net proceeds to us of \$78.3 million. We made two strategic acquisitions in 2001 to expand our engineering and installation, or E&I, service capabilities. In June 2001, we acquired Thornton Communications and in August 2001, we acquired JNB Communications. Our corporate offices are located at 1376 State Route 598, Galion, Ohio 44833, and our telephone number is (419) 468-7600.

We offer solutions to our telecommunication customers' cost, quality, productivity and capacity challenges by providing on-site E&I systems integration, installation, maintenance and monitoring services and by designing, manufacturing and marketing communications specific power products. The products we offer include power systems, power distribution equipment and systems integration products. Our power systems provide a primary supply of power to support the infrastructure of communications service providers, including local exchange carriers, long distance carriers, wireless service providers, internet service providers and broadband access providers. Our power distribution equipment directs this power to specific customer communications equipment. Our systems integration business provides complete built-to-order communications systems assembled and installed pursuant to customer specifications and incorporating other manufacturers' products. Our operations are organized within two segments: services and products. You can find more information regarding our two business segments, including information in Note 2 to our consolidated financial statements, which may be found in Item 8 of this Annual Report on Form 10-K.

Market Overview

We participate in the global telecommunication market place (wireline & wireless), with the majority of our current revenue being generated in North America. The North American market consists of multiple segments that include Regional Bell Operating Companies (RBOCs), Independent Telephone Companies, Inter-exchange Carriers/Competitive Access Providers, Wireless, Cable TV, Private Network/Enterprise, and Government.

Wireline companies, including the RBOCs and Independent Telephone Companies, continue to upgrade their respective networks to meet the evolving needs of the local service area. Traditionally, they provided basic dial tone within a major metropolitan area. Over the past several years they have expanded their product set to include high-speed data access solutions such as DSL. Most are currently implementing, or have an initiative to offer next generation high-speed data/video offerings (FTTN or fiber to the node and FTTP or fiber to the premise) in order to compete against the cable companies and hybrid service offerings from local wireless providers.

Inter-exchange Carriers/Competitive Access Providers are experiencing tremendous pressure to identify their fit within the global telecommunication network. The Inter-exchange Carrier provides a connection between two parties outside an immediate serving area. Competitive Access Providers came into play after the Telecom Act of 1996 enabled local service competition within a given wire-line market. Over the years, many of the Competitive Access Providers and Inter-exchange Carriers have merged or formed a partnership to compete against the incumbent telephone company of a given area. Recent regulatory changes have increased the competitive pressure and have created

Edgar Filing: PECO II INC - Form DEF 14A

significant infrastructure write-offs and M&A activity in these sectors.

Wireless providers continue to build and expand at the highest rate. Mergers and acquisitions in 2004 resulted in four large North America organizations competing for the largest growth sector among individual subscribers. In 2004, wireless subscribers passed the number of wireline subscribers. Wireless providers will

H-3

Table of Contents

continue to invest in infrastructure to move closer to their subscriber base, fill coverage gaps, and add traffic capacity, as well as upgrade facilities to provide the latest subscribers services via high speed wireless technologies such as EVDO, or Evolution Version Data Only, HSPA, or High Speed Packet Access, and UMTS, or Universal Mobile Telecommunications System.

Cable TV companies have traditionally offered video services to their subscriber base, however in the past several years they have expanded to offer high speed data access that competes with the incumbent telephone company's DSL service. New high-speed data/video infrastructure build are underway to offer VOIP, or Voice Over Internet Protocol, service and protect their market from the new video and data offerings currently planned by the incumbent telephone company in an area.

The Private Network/Enterprise market has traditionally been focused at providing in building dial tone services to commercial organizations. Though growth in these commercial organizations is not forecasted to increase in the coming years, the services required of commercial organizations is expanding due to the new product enhancements available in the last several years. Some of these enhancements include in-building wireless, video conferencing, web page commerce, as well as support infrastructure to maintain these services during any critical power failures.

The Government market is undergoing continued changes, especially as a result of the terrorist attacks of 2001. Communication infrastructure redesign is currently underway on a federal, state, and local basis. The timeframe of the current Homeland Security communication infrastructure build is expected to continue for the next several years.

Our Business Strategy

Our customers have an incentive to add value to their product and make it more attractive to their customers by installing the feature and productivity rich technology that has recently been developed. They also need to add capacity and area coverage to increase market share. Their objectives demand quick solutions and flexibility from their CAPEX suppliers offering an opportunity for a nimble supplier. To meet this challenge and grow our business, we will continue to build our turnkey solution capabilities.

Key elements of our strategy include:

1. ***Continued development of our core power systems products:*** Newly developed power products provide more efficient power in less space, greater distribution flexibility and more effective control systems. Modular designs match the customer's systems requirements with the capability to retain investment value as requirements change. Time to market is a built in by-product of these new products and has resulted in several new product wins in 2004.
2. ***Development of small power systems for imbedded or cabinet based power systems.***
3. ***Development of cabinet based solutions:*** This includes systems integration capabilities for cabinet or shelter based power systems.
4. ***Improved monitoring and record data base products:*** New and expanded PowerPro® db software and NetMax monitoring systems offer integrated solutions to wireline and wireless customers. Services include auditing, developing, maintaining and monitoring

Edgar Filing: PECO II INC - Form DEF 14A

capital equipment and capital equipment records.

5. **Enhanced value added services:** Base station radio and network systems integration, installation and upgrades and temporary employee services. Some of these functions may be provided through b+w II, our joint venture with b+w Electronic System, GmbH & Co. KG in Germany.

PECO II offers solutions rather than components. We seek to create deeper customer relationships, generate longer-term market opportunities and enhance our total value to our customers. Our sales and marketing efforts

H-4

Table of Contents

focus on developing supplier relationships and agreements with key customers through the five key strategies indicated above. Our customers have broad product requirements and desire a limited number of vendors and we meet that demand by offering a broad line of products and services. Our factory is the systems integrator of these products.

We have reorganized our Services Operations with strategically located Project Managers who are the face of PECO II to the customer and are responsible for insuring a satisfactory customer experience. They assist in selling and are responsible for profitably managing their business segment.

Business Segments

Our operations are organized within two segments: products and services.

Products

During 2004, we introduced two new modular power system product families primarily targeted to the wireless, cabinet and outside plant customer applications. Through the development of these two system families, we have the building blocks to configure multiple power plants ranging from fifty to six hundred amps to meet a variety of customer applications including outdoor cabinets, wireless cell sites, small central office, broadband, cable, and others. Thirty-two development projects were completed to enhance existing product lines. These developments have provided us with product building blocks to easily expand power system offerings in 2005.

Our focus for 2005 and beyond is to design fully integrated power and distribution systems to meet a broad range of market needs. This is accomplished by maintaining a *building-block product architecture* that has the flexibility to provide custom features to meet a specific customer application while maintaining streamlined high volume manufacturing. The thrust is to imbed low cost and reduced size world-scale power components into power systems that are already through or in the customer's product approval stage. This will offer our customers better value while maintaining backward compatibility and forward interchangeability. Many of these changes were in effect early in 2004.

Utilizing state-of-art technology, we design, manufacture and install complete power systems to meet individual communications customer requirements. We build systems from standard building blocks (i.e., rectifiers, distribution, monitoring, etc.) as defined below.

<u>Product Category</u>	<u>Purpose</u>	<u>Range of Products</u>
Power Plants	Manage, monitor, protect, distribute and store energy in rechargeable batteries to be used in the event of an alternating current, or AC, input failure.	Over 15 models engineered for use in a wide number of applications, including central office, cellular, fiber optic, microwave carrier systems, mobile radio, private branch exchanges, local and wide area networks and Internet systems. Capacities range from 3 to 10,000 Amperes.
Rectifiers	Convert incoming AC power to DC power.	

Over 13 models including rectifiers designed for larger applications as well as compact hot swappable modular switchmode rectifiers designed to be added or replaced without powering down the system.

H-5

Table of Contents

<u>Product Category</u>	<u>Purpose</u>	<u>Range of Products</u>
Power distribution and measurement equipment	Directs, measures or distributes power from a centralized power plant to various loads or end uses.	We offer a wide range of products ranging from large battery distribution fuse boards, which provide intermediate distribution in applications where large power feeds from a power plant need to be split into smaller distributions, to smaller distribution circuits cabled directly to the load. The family includes several products designed specifically for the co-location market and including DC power measurement equipment.
Converter plants	Converts one form of DC power to another form of DC power.	Various models available utilizing modular converter that provide 48V-12V, 24V-48V, 48V-24V and 48V-130V conversions.
Inverters	Convert power from a DC to AC power suitable for end-use applications.	Various models, including 1,200 watt modular hot swappable and redundant systems and up to 28,800 watt inverters systems.
Monitoring	Monitors	Monitoring of various telecom components, primarily power components. One primary model is available and can be stacked to enhance features and expansion.

Power Distribution and Measurement Equipment. Power distribution and measurement equipment is a component of a power system, but we also offer this equipment as a separate product line. Effective distribution, control and measurement of power is becoming increasingly important as recent regulatory changes require large established service providers to permit emerging communications service providers to operate, or co-locate, on their premises. As part of this co-location requirement, established service providers must provide power to emerging communications service providers. We offer a wide variety of power distribution and measurement equipment to direct power from the host carrier's power plant to accomplish this task.

Services

We have begun to re-direct our efforts toward a service environment on several fronts. Historically, a majority of our activity has been in support of our products in the field and it has only been when the customer has needed us. Vertical selling has only recently become part of our sales and services focus. Starting with equipment audits, grounding studies and power plant preventative maintenance programs, we develop customer relationships and other revenue channels within a given site. From this customer service base many services can be offered to our customers, with the potential to generate significant revenue. Our services and programs include:

preventative maintenance programs;

power evaluation programs;

power thermal tests;

remote site enclosure maintenance;

generator set maintenance and support. ;

H-6

Table of Contents

refurbish and upgrade programs;

inventory and site record programs;

project management; and

program management.

These services and programs can be applied to our power or competitive vendors' power products. This is a large untapped business providing recurring revenue. Calibration and update services will be needed more and more as systems (including our own) become more sophisticated with remote monitoring and recording devices. We are presently providing battery replacement services for regular battery replacement.

Marketing and Sales

We participate in the North American market place through channels such as direct sales, Value Added Resellers (VAR), and distribution. Direct sales people are located throughout the United States in order to call directly on all tier one PECO II customers, as well as provide local sales support to our tier one VARs. Our current tier one customer base includes all the RBOCs, along with the leading North American Wireless, Inter-exchange, Independent Telephone, and Cable TV carriers. In addition to the current active customer base, direct sales people are also assigned to prospective strategic customers.

VARs are utilized as both a channel to tier two and three customers, as well as to supplement the account penetration in regions where our coverage may be limited. Ninety percent of all international sales efforts are originated and executed by local VARs within the target country. In the fourth quarter of 2004, we added a new VAR to focus on the Government market segment. VARs have a long historical and successful relationship with us, contributing 12% of our revenue in 2004.

Distributors are utilized to support the local needs of our customer base as required. This channel supports small local carriers and installation groups who have established purchasing practices with the local branch.

Marketing/Business Development is located at our headquarters in Ohio, and is responsible for all pricing, promotion, and the coordination of all next generation product and service offerings. We identify product needs from the market place through feedback from our customers, our sales personnel, in house engineering staff, and service program managers, as well as our strategic partners. We actively participate in industry trade shows as required to communicate to our target market.

Customers

We continue the long history of being a class A supplier to the leading North American Telecommunication marketplaces. Our hybrid portfolio of customer solutions allows us to participate in capital deployment projects with all the North American telecommunication market segments

Edgar Filing: PECO II INC - Form DEF 14A

such as RBOCs, Independent Telephone Operators, Inter-exchange Carriers, Competitive Access Providers, Original Equipment Manufacturers, Wireless, Cable TV, and Government.

In 2004, the tier one wireless carriers provided us with over 55% of our revenue. The major portion of this revenue came from manufactured products (Power Systems and Outside Plant Cabinets), however an increased demand was placed on our services portfolio (Engineering, Installation, Maintenance Contracts, Site Audits, and Training). Companies utilizing our solution portfolio in this segment include Nextel, Verizon Wireless, and Cingular.

The RBOCs made up 11% of our 2004 revenue, with a very heavy emphasis on our services offerings. We are currently selling to all of the RBOCs (BellSouth, SBC, Verizon, and Qwest).

The Independent Telephone Company market made up 9% of our 2004 revenue, and included a healthy mix of services along with our traditional manufactured products.

H-7

Table of Contents

The remaining revenue comes from a large number of other customers that can be classified as Competitive Access Providers, Inter-exchange Carriers, Government, Original Equipment Manufacturers, Cable TV, as well as international partners/service providers. Some of the customers who make up this group include Sprint Long Distance, MCI, Level 3, Time Warner Telephone, and IBM.

Backlog

As of December 31, 2004, the unshipped customer order backlog totaled \$4.5 million, compared to \$2.1 million as of December 31, 2003. The entire December 31, 2004 backlog is expected to be shipped in 2005.

Operations and Quality Control

We strive to deliver our products on time and defect-free, using processes that are designed with employee involvement and focused manufacturing cell principles. Our facility in Galion, Ohio is ISO9001 certified for quality assurance in design and manufacturing. TL9000 is a specific set of requirements for the telecommunications industry that is based on ISO9001 and developed by the Quest Forum.

Process and organization improvements for 2004 include organizing a Business Development team which encompasses order entry, application engineering, quotations for products and services, engineering development project management, web page development and maintenance, trade shows, marketing materials, and other customer service activities. The focus of this team is to ensure that we provide our customers with the highest quality and on time service that they have come to expect from us.

As a result of the new building block architecture for our power systems, which was partially completed in 2004, our cross-functional Business Team has successfully implemented manufacturing build plans for our standard products. The Business Team activities coupled with lean manufacturing practices is facilitating improved response to short-term delivery requirements that our customers need to expand their services rapidly. This will continue to be a focus of the operations team in 2005 to win new market share by providing even better service to existing customers.

Our customers increasingly require that their equipment meet or exceed established international safety and quality standards. These include the Underwriters Laboratories, Canadian Safety Agency, European Conformity and the Network Equipment Building Standard and we meet these standards.

We manufacture and assemble our products primarily at one regional operational center located in Galion, Ohio.

We possess valuable customer relationships, product knowledge and systems integration and services capabilities. Much of this resides in our human resources in management, services, marketing and engineering. We maintain the concept that people, both customers and employees, are the most important part of our business.

Edgar Filing: PECO II INC - Form DEF 14A

Temporary employees, partnerships and subcontractors, are utilized in services operations allowing stability and flexibility in responding to fluctuating customer demands. Customer relationships are at both the ground level where services are provided and at the executive level where trust, economy and scope are essential.

Common data processing, telecommunications and accounting systems located in Galion, Ohio provide transparency within operational and administrative functions.

Research, Development and Engineering

New systems solutions for the communications market is a primary focus of all our development activities. We have expanded our development activities in 2004 to include new product offerings to bring total system solutions to our customers beyond the power system components. Investing in new technologies and their application has always been a core focus and we will continue this in 2005.

Patents and Trademarks

We use a combination of patents, trade secrets, trademarks, copyrights and nondisclosure agreements to protect our proprietary rights. Currently, we have ten patents issued in the United States. Of the patents issued, three protect technology related to the development of our Valve regulated lead acid battery Management System, or VMS. Four protect technology related to the development of our newer rectifier. The remaining three patents issued protect technology related to our inverter modules.

We cannot assure that any new patents will be issued, that we will continue to develop proprietary products or technologies that are patentable, that any issued patent will provide us with any competitive advantages or will not be challenged by third parties or that the patents of others will not have a material adverse effect on our business and operating results.

We received the official trademark from the United States Department of Commerce Patent and Trademark Office for the registration of the trademark PECO II.

Suppliers and Raw Materials

The raw materials used in our business consist mainly of commodities including aluminum and copper, and electrical components like circuit breakers and capacitors. Copper, one of our basic raw materials, has a history of price volatility. If the price of copper were to rise significantly in the future, some of our contracts permit us to adjust the price of our products to recover all or a portion of our increased costs.

We currently have a contract with an Asian vendor for commodity power equipment and rectifiers. We are redesigning existing equipment to accommodate these commodity items. This will further reduce our product costs, making us more cost competitive in the marketplace.

Competition

The global market place is served by a number of local and global DC Power organizations. These organizations can be broken down into full service providers, discount vendors, as well as new age vendors. In North America, we are considered one of three Full Service Vendors, along with Emerson/Marconi and Tyco. Telecom carriers who utilize these full service vendors are looking for organizations that have a complete product portfolio, installation and services capabilities, as well as efficient and competitive cost structures. The full service vendors maintain the majority of the market share of the traditional telephone carrier organizations such RBOCs, Inter-exchange Carriers, as well as the large incumbent telephone organizations. In addition to the traditional carriers, these full service organizations also dominate the large tier 1 wireless providers. Participating as a full service DC power vendor generally requires a long history of top customer relationships, as well as a large embedded base.

In addition to the full service vendors, the North American market place is also made up of OEM DC power organizations, as well as local and regional niche players. The OEM DC power organizations generally have strong relationships with the top radio manufacturers and integration organizations, which allows them to participate in the wireless market place via indirect channels. These organizations generally compete on

price alone, or have a unique offering for a particular application.

Environmental Matters

We are subject to comprehensive and changing foreign, federal, state and local environmental requirements, including those governing discharges to the air and water, the handling and disposal of solid and hazardous wastes and the remediation of contamination associated with releases of hazardous substances. We believe that we are in compliance with current environmental requirements. Nevertheless, we use hazardous substances in our operations and, as is the case with manufacturers in general, if releases of hazardous substances occur on or from our properties, we may be held liable and may be required to pay the cost of remedying the condition. The amount of any resulting liability could be material.

Edgar Filing: PECO II INC - Form DEF 14A

On August 17, 2000, the SEC declared effective a Registration Statement on Form S-1 (File No. 333-37566) filed by us in connection with an initial public offering of our common shares.

From the date of receipt of the proceeds through December 31, 2004, of the \$78.3 million in net proceeds, \$14.4 million was used to repay bank indebtedness, \$5.2 million was used in connection with the acquisitions of Thornton Communications and JNB Communications, \$16.7 million was used for capital expenditures, excluding the purchase of the Denver regional service center in February 2001 which is being financed through industrial revenue bonds, \$9.7 million has been restricted by the Company's bank to secure outstanding borrowings, and approximately \$22.6 million was used for general working capital purposes. The remaining Cash equivalents consist of commercial paper and state and municipal securities that are readily convertible into cash and have original maturities of three months or less.

ITEM 6 SELECTED FINANCIAL DATA

The selected data in this section should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations, the consolidated financial statements and notes to consolidated financial statements. We derived the statement of operations data for the five years ended December 31, 2004 and balance sheet data as of December 31, 2004, 2003, 2002, 2001, and 2000, from the audited financial statements.

ITEM 7 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read this discussion together with the consolidated financial statements and other financial information elsewhere in this Form 10-K.

Overview

PECO II, Inc. was organized in 1988 for the purpose of acquiring the assets of ITT's communications power product business. Today, we provide solutions to our telecommunications customers through a variety of products and services in order to meet their cost, quality, productivity and capacity challenges. As part of this process, we design and manufacture communications specific power products. We also provide on-site E&I, systems integration, installation, maintenance, and monitor services to our customers. Our power systems provide a primary supply of power to support the infrastructure of communications service providers, including local exchange carriers, long distance carriers, wireless service providers, internet service providers and broadband access providers. Our power distribution equipment directs this power to specific customer communications equipment. Our systems integration business provides complete built-to-order communications systems assembled and installed pursuant to customer specifications and incorporating other manufacturers' products.

The United States appears to be lagging in the global race to introduce Third Generation, or 3G, wireless and broadband technology and services and there is pent-up consumer demand for these new capabilities that the industry is struggling to provide. This has created a very dynamic CAPEX environment as our customers rush to install these new technologies and compete for market share. The global telecommunications recession that began in year 2000 appears to be over as trends indicate an increase in CAPEX spending. At the same time, pressed by huge capital requirements and a need for scale, the industry is turning to consolidation and creating market discontinuities. The Cingular/ATT Wireless merger disrupted CAPEX spending while system integration plans were developed. As a CAPEX provider, we were adversely affected by their intermediate term investment delays. Year 2005 has already seen a merger announcement between NEXTEL and Sprint, which may result in discontinuities well into 2005. These unstable market conditions caused uneven and unpredictable quarterly operating results for us in 2004 and may cause uneven and unpredictable results in the future, which may adversely affect our business, operating results, and financial condition. At the same time, this same environment may open doors for new products and creates tremendous opportunities for market share growth for a nimble solution provider. We are positioning ourselves to take advantage of these opportunities.

In 2004, one of our major priorities was to reduce and control inventory and inventory associated risk while maintaining the flexibility to provide fast response for our customers. This company-wide effort included the development of flexible, modular, power products, integrated supply chain relationships with both customers and vendors, and lean manufacturing techniques. Unfortunately, inventories increased by \$1.5 million, primarily as a result of a significant customer postponing shipment until the first quarter of 2005, but we were able to improve our on time delivery performance.

An integral part of this effort was to align the business with current market conditions and work toward positive cash flow. We integrated all financial activity into one IT system, improved operational control and further ramped down our general and administrative expenses. We conserved capital and offered surplus facilities for sale. We continue to work on our business model to provide shareholder value in the current environment while improving our products and customer relationships.

We developed new products and product cost reductions both to improve margins and better align products with our customers' needs. We focused sales operations and key national account structure on the wireless sector and the wireline broadband markets. We increased the customer base through customer supply agreements and new product design wins in 2004 and will continue this effort in 2005.

Table of Contents

Our customer base has not been fundamentally impacted as a result of recent consolidation in the telecommunication industry and has actually improved over the past year, while the service segment was impacted by the loss of one customer. The loss of any significant customer continues to be a risk for us. In any given quarter, it is typical for us to have three customers that can account for over 10% of our revenues. The loss of any one of these would have a detrimental financial impact on the operations of the Company.

Critical Accounting Policies Accounting

Our significant accounting policies are described in Note 1 to the Consolidated Financial Statements. The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. These estimates and assumptions are based on management's judgment and available information and consequently, actual results could be different from these estimates.

In response to the SEC's Release No. 33-8040, Cautionary Advice Regarding Disclosure about Critical Accounting Policies, we consider certain accounting policies related to revenue recognition, inventory valuation and impairment of long lived assets to be critical policies due to the estimation processes involved in each.

Revenue Recognition

In December of 2003, the SEC issued Staff Accounting Bulletin (SAB) No. 104, Revenue Recognition, which supercedes SAB No. 101, Revenue Recognition in Financial Statement. SAB No. 104's primary purpose is to rescind accounting guidance contained in SAB No. 101 related to multiple element revenue arrangements, supercede as a result of the issuance of EITF 00-21, Revenue Arrangements with Multiple Deliverables. The issuance of SAB No. 104 reflects the concepts contained in EITF 00-21. The issuance of SAB No. 104 did not have a material impact on our results of operations, financial position or cash flows.

Revenue is recognized in accordance with SAB No. 104. Revenues are recognized when customer orders are completed and shipped. Sales of equipment where we also perform installation are deferred until installation is complete. Revenues on engineering and installation contracts and the costs for services performed are recorded as the work progresses on a percentage of completion basis. Accruals for the cost of product warranties are maintained for anticipated future claims.

Impairment of Long Lived Assets

An annual review of goodwill is prepared as of October 31 of each year. An independent third party performed the review of goodwill that is attributed to our service segment as of October 31, 2004. The review resulted in a \$6.0 million impairment and was primarily the result of the loss of a significant service customer. An independent third party performed a review as of October 31, 2003 and determined that there was no further impairment of goodwill for 2003 above the initial impairment of \$5.7 million that was recorded in the second quarter of 2003, which was the result of continued revenue decline in our service segment. There were two valuations performed in 2003, the first was the request of new management coming in at the end of May 2003 in order to get a sense of the current condition of the company and the second was to conform with the annual valuation period.

Edgar Filing: PECO II INC - Form DEF 14A

Our assessment of goodwill is based on the requirements of Statement of Financial Accounting Standard (SFAS) No. 142, Goodwill and Other Intangible Assets, which requires management to estimate the fair value of our Company and its reporting units. Determination of fair value is dependent upon many factors including management's estimate of future cash flows, appropriate discount rates, identification and evaluation of comparable businesses and amounts paid in market transactions for the sale of comparable businesses. For goodwill, any one of a number of future events, including a continued telecommunication industry downturn, could cause us to conclude that impairment indicators exist and the carrying value of these assets cannot be recovered.

Table of Contents*Inventory Valuation*

Inventories are stated at the lower of cost or market, with cost determined by the first-in, first-out method. Inventory costs consist of purchased product, internal and external manufacturing costs, and freight. We sell our products as component replacement parts or on a build to-order basis that ships to the customer upon completion.

We continually review the inventory for obsolescence or excessive quantities and accrue accordingly. At a minimum, all part numbers are reviewed quarterly. Should a part number have no usage for a year, we will reserve 100% of the standard cost for those part numbers which will reduce the total gross inventory value. In addition, we review for excesses and reserve a percentage as appropriate of standard costs for any excesses that are greater than the last twelve month usage or two times future six month requirements, whichever is greater.

Net Sales. Net sales declined \$7.0 million, or 18.2%, to \$31.6 million for the year ended December 31, 2004 from \$38.6 million for the year ended December 31, 2003. We believe this decline primarily was attributable to our customers being slow to react to their announced increases in CAPEX spending in the first two quarters of 2004.

Net sales in our product segment increased by \$579 thousand, which occurred in the third quarter of 2004, with the result being \$21.1 million for the year ended December 31, 2004 as compared to \$20.5 million for year

H-15

Table of Contents

ended December 31, 2003. We are beginning to see a slight upward trend in the product segment as our customers have increased their CAPEX spending and the increase has reached the power product level in our customer's procurement process. As of December 31, 2004, our product backlog, which represents total dollar volume of firm sales orders not yet recognized as revenue, had increased to \$3.5 million from \$596 thousand at December 31, 2003.

Net sales in our service segment decreased by \$7.6 million, resulting in \$10.5 million for year ended December 31, 2004 as compared with \$18.1 million for year ended December 31, 2003. This decrease was due to the loss of a customer as a result of local service competition that is cropping up across the country. As of December 31, 2004, our service backlog, which represents total dollar volume of firm sales orders not yet recognized as revenue, had decreased to \$1.0 million from \$1.6 million at December 31, 2003.

Gross Margin. Gross margin dollars increased \$19.5 million to a positive margin of \$4.1 million in 2004 as compared to a negative margin of \$15.4 million in 2003. Gross margin as a percentage of net sales increased to a positive 13.0% in 2004 compared to a negative 39.8% in 2003.

The product gross margin increased to a positive \$3.4 million in 2004 as compared to 2003 which had a negative \$12.1 million. This increase is attributable primarily to increased product sales volume, a focus on product cost reductions, and increased absorption. We did not recognize any impairment in 2004, while 2003's gross margin reflected an \$8.6 million inventory impairment charge along with a \$3.3 million machinery and equipment impairment charge. Gross margin as a percentage of product sales increased to 16.1% in 2004 compared to a negative 59.3% in 2003, which includes impairments.

The service segment gross margin increased to a positive \$714 thousand in 2004 as compared with the 2003 negative gross margin of \$3.2 million. Our new project management structure for services positively impacted the 2004 gross margin along with the loss of a customer mentioned in the net sales comparison above. Service gross margin as a percentage of sales is a positive 6.8% in 2004 as compared to a negative 17.8% in 2003.

Research, Development and Engineering. Research, development and engineering expense decreased to \$3.0 million in 2004 from \$3.8 million in 2003, representing a decrease of \$830 thousand. In prior periodic reports on Form 10-K, we have measured R&D expenditures as a percentage of total sales. Ideally, R&D should be compared to product sales only and we have included this change for 2004 and will continue going forward. As a percentage of net sales, research, development and engineering expense decreased to 14.0% in 2004 from 18.5% in 2003. This percentage decrease is largely the result of the continued effort to reduce expenses along with the more efficient design of flexible, modular power. This modularity concept is starting to show some financial results. Fourth quarter 2004 research, development, and engineering expenses were \$772 thousand, compared to \$708 thousand in the fourth quarter 2003. This represents a 9.0% increase.

Selling, General and Administrative. Selling, general and administrative expense decreased to \$8.0 million in 2004 from \$10.4 million in 2003, representing a decrease of \$2.4 million. As a percentage of net sales, selling, general and administrative expense decreased to 25.2% in 2004 from 26.8% in 2003. This percentage decrease was a result of the continued effort to align expenses to revenue by way of cost cutting efforts.

Interest Income. Interest income, net, was \$149 thousand in 2004 compared to \$91 thousand in 2003. The increase in interest income, net, in the current year was due primarily to the increase in interest rates over the course of the year.

Edgar Filing: PECO II INC - Form DEF 14A

Income Taxes. As a result of our significant operating losses in 2004 and 2003, we determined a valuation allowance for our net deferred tax assets was required. As such, our effective income tax rate was 3.6% in 2004, compared to an effective rate of 0.1% in 2003.

H-16

Table of Contents**Year Ended December 31, 2003 Compared to Year Ended December 31, 2002**

Net Sales. Net sales declined \$23.5 million, or 37.8%, to \$38.6 million for the year ended December 31, 2003 from \$62.1 million for the year ended December 31, 2002. This decline was primarily due to the continued industry downturn in 2003.

Net sales in our product segment was decreased by \$9.5 million, resulting in \$20.5 million for year ended December 31, 2003 as compared with \$29.9 million for year ended December 31, 2002. At December 31, 2003, our product sales backlog, which represents total dollar volume of firm sales orders not yet recognized as revenue, had declined to \$596 thousand from \$1.3 million at December 31, 2002. We do not anticipate this decline going forward as year-end is typically a budgeting period for our customer base and our customer's field personnel are awaiting the CAPEX numbers for their region in the upcoming year.

Net sales of our services segment was a decrease of \$14 million, resulting in \$18.1 million for year ended December 31, 2003. Again, this decline was due to the industry downturn. As of December 31, 2003, our services sales backlog, which represents total dollar volume of firm sales orders not yet recognized as revenue, was \$1.6 million as compared with \$2.6 million at December 31, 2002.

Gross Margin. Gross margin dollars decreased \$1.3 million to a negative margin of \$15.4 million in 2003 as compared to a negative margin of \$14.1 million in 2002. Gross margin as a percentage of net sales declined to a negative 39.8% in 2003 compared to a negative 22.7% in 2002.

The product gross margin decreased to a negative \$12.1 million in 2003 as compared to 2002 which had a negative gross margin of \$14.4 million. Gross margin as a percentage of product sales declined to negative 59.3% in 2003 as compared to a negative 48.1% in 2002. The negative gross margin is attributed primarily to the lower sales volume due to the continuing downturn in the communications industry, which significantly increased our unabsorbed capacity. In addition, in the second quarter of 2003, the current fair value of machinery and equipment was reviewed and determined that it was impaired per SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. As a result, an impairment of \$3.3 million was recognized and is included in the gross margin. The Company also recognized an \$8.6 million inventory impairment in the second quarter of 2003 as compared with an \$8.0 million impairment in the third quarter of 2002. The focus on cost cutting measures and the elimination of facilities have had an impact resulting in a positive gross margin in the fourth quarter of 2003.

The service gross margin decreased to a negative \$3.2 million in 2003 as compared to a positive gross margin of \$290 thousand in 2002. Gross margin as a percentage of service sales declined to negative 17.8% in 2003 as compared with a positive 0.1% in 2002.

Research, Development and Engineering. Research, development and engineering expense decreased to \$3.8 million in 2003 from \$9.7 million in 2002, representing a decrease of \$5.9 million. As a percentage of net product sales, research, development and engineering expense decreased to 18.5% in 2003 from 32.5% in 2002. This percentage decrease was largely the result of the continued effort to align costs with the lower sales volume in the last half of 2003. Fourth quarter 2003 research, development, and engineering expenses were \$708,000, compared to \$1.5 million in the fourth quarter 2002. This represents a 53.9% decrease.

Selling, General and Administrative. Selling, general and administrative expense decreased to \$10.4 million in 2003 from \$21.3 million in 2002, representing a decrease of \$10.9 million. As a percentage of net sales, selling, general and administrative expense decreased to 26.8% in 2003 from 34.2% in 2002. The product segment also abandoned certain manufacturing software during the fourth quarter of 2002, which resulted in a \$2.4 million charge. Excluding the afore mentioned non-recurring item, 2002 selling, general and administrative expense was \$18.9

million as compared to \$10.4 million in 2003.

H-17

Table of Contents

Interest Income. Interest income, net, was \$91,000 in 2003 compared to \$308,000 in 2002. The decrease in interest income, net, in the current year was due primarily to the increased use of cash for operations and less cash available for investment purposes as well as lower interest rates.

Income Taxes. As a result of our significant operating losses in 2003 and 2002, we determined a valuation allowance for our net deferred tax assets was required. As such, our effective income tax rate was 0.1% in 2003, compared to a benefit of 14.8% in 2002.

Liquidity and Capital Resources

Our primary liquidity needs for the foreseeable future will be for working capital and operations. As of December 31, 2004, available cash and cash equivalents approximated \$9.7 million.

Working capital was \$23.8 million at December 31, 2004, which represented a working capital ratio of 2.5 to 1, compared to \$28.1 million at December 31, 2003. Our investment in inventories and accounts receivables was \$15.8 million and \$14.5 million at December 31, 2004 and 2003, respectively. Our capital expenditures were \$0.2 million, \$0.3 million, and \$0.9 million in 2004, 2003, and 2002, respectively. Our budgeted capital expenditures for 2005 are \$0.6 million as we remain focused on conserving cash. Accounts receivable days sales outstanding stood at 61 days at December 31, 2004, as compared to 57 days at December 31, 2003. At December 31, 2004 inventory days on hand were 188 days, as compared to 150 days on hand at December 31, 2003.

Cash flows used by operating activities were \$5.7 million in 2004, an increase of \$3.9 million, from cash flows used by operating activities of \$1.8 million in 2003. This use of cash was primarily the result of operating losses and the increase in inventory, offset by the reductions in accounts receivable and the sale of assets recognized in 2003.

In August 2001, we entered into adjustable rate industrial revenue bonds for \$6.5 million from the County of Arapahoe, Colorado in connection with the opening of our Denver service center. The \$2.0 million Series A Bonds bear interest at 2.2% at December 31, 2004. The \$4.5 million Series B Bonds bear interest at 2.55% at December 31, 2004. We intend to sell the Denver, Colorado facility and pay off these bonds, as we signed a purchase agreement in March 2003. The purchase agreement has been extended per the request of the potential buyer, as the buyer is currently negotiating a lease of the entire facility with a potential tenant. The building continues to be marketed by our realtors. As a result, the Denver facilities and the related bonds will remain classified as a current asset and current liability, respectively in the accompanying consolidated financial statements.

In September 2001, the Board of Directors authorized the repurchase of up to one million common shares in the open market or in private transactions. As of December 31, 2001, we had acquired 408,000 shares at a cost of \$1.6 million. During the second quarter of 2002, we acquired 181,112 shares at a cost of \$600,000. On July 26, 2002, the Board approved a one million share increase in the program. During the third quarter of 2002, we acquired 795,600 shares at a cost of \$1.5 million, and in the fourth quarter of 2002, we acquired 1,000 shares at a cost of \$1,470. As of December 31, 2004, we had repurchased a total of 1,385,712 shares at an average price of \$2.70 per share. If we decide to repurchase additional shares going forward, we will request authorization from the board. There were no additional shares repurchased in 2004 or 2003.

We have signed an agreement with National City Bank to provide all banking services and a \$3.5 million line of credit. As collateral for the line of credit, the Company established a \$3.5 million deposit account with the bank. The Company continues to maintain a pledge account at

Edgar Filing: PECO II INC - Form DEF 14A

Huntington National Bank (HNB) as collateral for the industrial revenue bonds, as described above. The balance of the restricted cash at HNB is \$6.2 million.

We do not currently plan to pay dividends.

We believe that cash and cash equivalents, anticipated cash flow from operations, and our credit facilities will be sufficient to fund our working capital and capital expenditure requirements for at least the next 12 months.

We have capital lease agreements for computer, machinery and office equipment that expire through 2007. Future minimum annual lease payments required during the years ending in 2005 through 2007 are \$121,000, \$121,000, and \$389,000, respectively.

We have operating leases covering certain office facilities, and equipment that expire at various dates through 2009. Impact of New Accounting Standards

In November 2004, the Financial Accounting Standards Board (FASB) issued Statement No. 151, Inventory Costs, an amendment to Accounting Research Bulletin No. 43, Chapter 4, Inventory Pricing. This statement clarifies that abnormal amounts of idle facility expense, freight, handling costs and wasted material should be recognized as current period charges. The provisions of this statement become effective for fiscal years beginning after June 15, 2005. The statement is not expected to have a material effect on the Company's financial position, results of operations or cash flow.

Edgar Filing: PECO II INC - Form DEF 14A

In December 2004, FASB issued Statement No. 123R, Share Based Payment, a revision of Statement No. 123, Accounting for Stock Based Compensation: and superseding APB Opinion No. 25, Accounting for Stock Issued to Employees. Statement 123R requires the Company to expense grants made under the stock option and employee stock purchase plans. Statement 123R is effective for the first interim or annual period beginning after July 15, 2005. Upon adoption of Statement 123R, amounts previously disclosed under Statement No. 123 will be recorded in the consolidated statement of operations. Consistent with the provisions of the new standard, the Company intends to adopt Statement 123R in the third quarter of 2005. The Company currently measures compensation costs related to its share-based awards under APB 25, as allowed by Statement 123. Information about the fair value of stock options under the Black Scholes model and its proforma impact on the Company's net loss and loss per share can be found in Note 1 to the financial statements.

PECO II, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except for share and per share data)

1. Summary of Significant Accounting Policies

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of PECO II, Inc. (the Company), and its wholly owned subsidiaries. All significant intercompany transactions have been eliminated in consolidation.

Nature of Business

The Company provides engineering and installation on-site services and designs; manufactures and markets communications power systems and equipment; and offers systems integration products and related services for the communications industry. The Company operates in two business segments: product and services. The products and services offered include power systems, power distribution equipment, engineering and installation services, and system integration products.

Cash and Cash Equivalents

Cash equivalents consist of commercial paper and state and municipal securities that are readily convertible into cash and have original maturities of three months or less. At December 31, 2004 and 2003, the Company had cash equivalents of \$9,691 and \$15,264, respectively.

Restricted Cash

At December 31, 2004, our restricted cash was \$9,722. This restricted cash total consists of collateral for the \$3.5 million line of credit from National City Bank and a deposit account at Huntington National Bank as collateral for the industrial revenue bonds for \$6.2 million and a letter of credit for an IBM operating lease.

Allowance for Doubtful Accounts

The Company grants credit on open accounts to its customers, substantially all of whom are in the telecommunication industry. Due to the nature of its customer base, the Company's historical credit risk has been low. The Company generally requires payment within thirty days from delivery and has not provided extended payment terms under any type of vendor financing arrangements. However, the Company does establish allowances against accounts receivable for potentially uncollectible amounts. The Company estimates necessary allowances based on its analysis of customers' outstanding receivables at the individual invoice level, the customers' payment history and any other known factors concerning their current financial condition and ability to pay. After the Company has exhausted its collection efforts and determined that amounts are uncollectible at the individual invoice level, such amounts are charged off against the allowance. Accounts receivable are net of the allowance for doubtful accounts of \$68 and \$576 at December 31, 2004 and 2003, respectively.

Inventories

Inventories are stated at the lower of cost or market with cost determined by the first-in, first-out method. Inventory costs consist of purchased product, internal and external manufacturing costs, and freight.

Property and Equipment

Property and equipment are stated at cost, net of accumulated depreciation. Property and equipment under capital leases are stated at the lower of the present value of minimum lease payments at the beginning of the lease

Table of Contents**PECO II, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In thousands, except for share and per share data)**

term or fair value at the inception of the lease. Expenditures for improvements that extend the useful life of property and equipment are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred.

Depreciation is calculated using the straight-line method over the estimated useful lives of the assets. The estimated useful lives used for computing depreciation for financial statement purposes are:

	<u>Years</u>
Land improvements	15
Buildings and building improvements	20 to 40
Machinery and equipment	5 to 10
Furniture and fixtures	4 to 7

Equipment under capital leases is amortized using the straight-line method over the shorter of the lease terms or the estimated useful lives of the assets. Depreciation for the years ended December 31, 2004, 2003, and 2002, is \$1,578, \$2,234, and \$3,799, respectively.

Assets Held for Sale

In March of 2003, the Company listed the new corporate headquarters shell and new manufacturing facility in Galion, Ohio for sale. An impairment charge of \$1,096 was recognized in 2003 to reflect the assets held for sale at their estimated realizable values based upon market conditions. On December 31, 2003, it was determined that these buildings will probably not sell until the four-lane highway extension of U.S. 30 within a half mile of the facility is completed, which is expected in 2005. The buildings were reclassified to property and equipment at December 31, 2003 and depreciation expense was adjusted accordingly. The Company continues to market the buildings.

During the fourth quarter of 2002, the Company listed the Denver, Colorado facility for sale. The land, building and building improvements have been classified as assets held for sale beginning as of December 31, 2002. The Company recorded an asset impairment charge in 2002 of \$2.0 million to reflect the assets held for sale at their estimated realizable values based upon market conditions.

In March 2004, we signed a sale agreement related to our Denver, Colorado facility. The buyer requested the purchase agreement to be extended as they are negotiating with a potential tenant toward finalization of a lease. When the terms of the lease agreement are agreed upon, the potential buyer is expected to complete the sale. Meanwhile, our realtors continue to market the building in lieu of the absence of a final sale.

Goodwill

An annual review of goodwill is prepared as of October 31 of each year. An independent third party perfected the review of goodwill that is attributed to the Company's service segment as of October 31, 2004. The review resulted in \$6.0 million impairment. There were two valuations performed in 2003, the first was at the request of new management as of May 2003 to get a sense of the current condition of the Company, and the second was to conform with the annual valuation period. An independent third party performed a review as of October 31, 2003 and determined that there was no further impairment of good for 2003 about the initial impairment of \$5.7 million that was recorded in the second quarter of 2003, which was the result of continued revenue decline in our service segment. The aggregate total of impairment for years 2004 and 2003 is \$11.7 million.

PECO II, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(In thousands, except for share and per share data)

The Company's assessment of goodwill is based on the requirements of Statement of Financial Accounting Standard (SFAS) No. 142, Goodwill and Other Intangible Assets, which requires management to estimate the fair value of the Company and its reporting units. Determination of fair value is dependent upon many factors including management's estimate of future cash flows, appropriate discount rates, identification and evaluation of comparable businesses and amounts paid in market transactions for the sale of comparable businesses. For goodwill, any one of a number of future events, including a continued telecommunication industry downturn, could cause the Company to conclude that impairment indicators exist and the carrying value of these assets cannot be recovered.

Other Accrued Expenses

Other accrued expenses at December 31, 2004 and 2003 consist of the following:

	<u>December 31,</u>	
	<u>2004</u>	<u>2003</u>
Litigation accrual	\$ 2,883	\$ 2,909
Taxes, other than income taxes	949	1,333

Other	574	713
	<u> </u>	<u> </u>
Total	\$ 5,255	\$ 6,030
	<u> </u>	<u> </u>

Warranties

The Company records a liability for an estimate of costs that it expects to incur under its basic limited warranty when revenue is recognized. Factors affecting the Company's warranty liability include the number of units sold and historical and anticipated rates of claims and costs per claim. The Company periodically assesses the adequacy of its warranty liability based on changes in these factors.

The changes in the Company's accrued product warranty costs are as follows:

Research and Product Development Costs

Expenses associated with the development of new products and changes to existing products are charged to expense as incurred.

Investment in Joint Venture

In May 2004, PECO II Global Services, Inc. (PGS), a wholly owned subsidiary of PECO II, Inc., formed a joint venture with b+w Electronics Systems Verwaltung-GmbH (BWESV), a German corporation. The new joint venture, name b+w II, Inc., is 50 percent owned by PGS and 50 percent owned by BWESV. This joint venture represents progress in the Company's efforts to establish worldwide relationships in pursuit of specially selected projects associated with system and service opportunities in the telecommunications sector. This investment is accounted for under the equity method. Under this method, the investment is initially recorded at cost and is adjusted for contributions and distributions and the Company's share of earnings or losses.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities, and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date.

Impairment or Disposal of Long-Lived Assets

We account for long-lived assets in accordance with the provisions of SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. This Statement requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

Financial Instruments

Financial instruments held by the Company include cash and cash equivalents, trade accounts receivable, accounts payable, borrowings under lines of credit and long-term debt. The Company does not hold or issue financial instruments for trading purposes. All financial instruments are considered to have a fair value, which approximates carrying value at December 31, 2004 and 2003. Financial instruments that potentially subject the Company to concentration of credit risk consist of trade accounts receivable. Trade accounts receivable due from three customers at December 31, 2004 and 2003 was \$3,264 and \$3,090, respectively, which accounted for 56.6% and 51.8% of total accounts receivable due at these dates.

Stock-Based Compensation

The Company has two stock-based employee compensation plans, which are described more fully in Note 10. The Company accounts for employee and director stock option grants under its stock option plans and for

stock purchases under its employee stock purchase plan in accordance with the intrinsic value-based method of accounting prescribed by Accounting Principles Board (or APB) Opinion No. 25, Accounting for Stock Issued to Employees, and related Interpretations. Under APB Opinion No. 25, no compensation costs have been recognized in the consolidated financial statements for stock option grants or for shares purchased under the employee stock purchase plan. Stock expense in 2002 is the result of stock options issued prior to the Company's IPO in August 2000 with an exercise price below the underlying stock's market price. The following table illustrates the effect on net loss and loss per share if the Company had applied the fair value recognition provisions of FASB Statement 123, Accounting for Stock-Based Compensation, using the assumptions described in Note 10, to its stock-based employee plans.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Estimates are used for, but not limited to, the accounting for doubtful accounts, inventory obsolescence, depreciation and amortizations, sales returns, warranty costs, taxes and contingencies. Actual results could differ from those estimates.

Liquidity

The consolidated financial statements have been prepared on a going-concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. The Company sustained net losses of \$12,270 in 2004, \$36,367 in 2003 and \$41,703 in 2002 and at December 31, 2004 had a retained deficit of \$74,597. The Company utilized \$5,666 of cash for operating activities in 2004 and \$1,753 in 2003. As of December 31, 2004, the Company has \$19,445 of cash of which \$9,722 is restricted for its outstanding industrial revenue bonds and as collateral on the Company's line of credit agreement. The Company signed a conventional loan with National City Bank as of October 18, 2004. The agreement is for a \$3.5 million line of credit and a \$3.5 million deposit account as collateral for the line of credit. There was an outstanding balance of \$992 on this line of credit as of December 31, 2004. Additionally, management continues to pursue the sale of the Denver, Colorado facility and has extended the purchase agreement with a potential buyer.

Based on available funds, current plans and increasingly opportunistic business conditions, management believes that the Company's available cash, borrowings and amounts generated from operations, will be sufficient to meet the Company's cash requirements for the next 12 months. The assumptions underlying this belief include, among other things, that there will be no material adverse developments in the business or market in general. There can be no assurances however that those assumed events will occur. If management's plans are not achieved, there may be further negative effects on the results of operations and cash flows, which could have a material adverse effect on the Company.

Reclassifications

Certain amounts in the prior year financial statements have been reclassified to conform to the current year presentation.

2. Segment Information

In accordance with the requirements of SFAS No. 131, Disclosures About Segments of an Enterprise and Related Information, the Company has identified two reportable segments: product and service. These two segments reflect the organization used by our management for internal reporting. The product segment consists of manufacturing operations and the production of power plants, rectifiers and power distribution equipment. The service segment consists primarily of telecommunications contract, engineering, and installation services.

The accounting policies of the segments are the same as those described in Note 1. Revenue and costs are recognized for contract engineering and installation as the work progresses on a percentage of completion basis.

Earnings of industry segments exclude interest income and expense and provision or benefit for income taxes on our consolidated statements of operations.

Identifiable assets consist of cash, plant and equipment used in the operations of the segment as well as inventory, receivables and other assets directly related to the segment. The Company has no significant assets located outside of the United States.

3. Loss Per Share

Basic loss per share is calculated using the weighted-average number of common shares outstanding during the periods. Diluted loss per share is calculated using the weighted-average number of common and common equivalent shares outstanding during the periods. Due to the Company's net loss for twelve months ended December 31, 2004, 2003, and 2002, no common equivalent shares were included in the calculation of diluted loss per share for either period because their effect would have been anti-dilutive. The Company's weighted-average number of options which were in-the-money and, therefore, potentially dilutive for the twelve months ended December 31, 2004, 2003, and 2002 were 777,500, 530,000, and 0, respectively.

Stock options which were out-of-the-money and, therefore, were anti-dilutive under the treasury stock method have also been excluded from the calculation of diluted loss per share. The Company's stock options outstanding at December 31, 2004, 2003, and 2002 which were excluded because they were out-of-the-money were 1,259,987, 1,048,286, and 1,410,340, respectively.

4. Goodwill

In the fourth quarter of 2004, management adjusted a tax contingency accrual associated with the acquisition of Thornton Communications Co. by \$81. In accordance with generally accepted accounting principles, this amount was recorded as an adjustment to goodwill.

As of October 31, 2004, the Company had an independent third party review goodwill. It was determined the goodwill was impaired and resulted in an impairment write down of \$5,987.

In aggregate, there has been \$13,522 of impairment losses recognized that consists of \$11,687 for service and \$1,835 for product.

As of October 31, 2003, the Company had an independent third party perform a review and determined that there was no further impairment.

As of June 30, 2003, the Company had an independent third party review goodwill attributed to the service segment. The result was a \$5,700 impairment. An annual review of goodwill is further required at the end of October each year.

Edgar Filing: PECO II INC - Form DEF 14A

When FASB issued SFAS No. 141, Business Combinations and SFAS No 142 Goodwill and Other Intangible Assets, our statements required modifications relative to our accounting for goodwill and other intangible assets. This resulted in an impairment charge of \$1,835 associated with goodwill which was recognized in the first quarter of 2002 as a cumulative effect of an accounting change. However, the impairment test for the service reporting unit acquired in 2001 indicated that there was no impairment as of June 30, 2002.

On January 1, 2002, the Company adopted SFAS No. 142, Goodwill and Other Intangible Assets, which states that goodwill is the excess of cost of an acquired entity over the amounts specifically assigned to assets acquired and liabilities assumed in purchase accounting for business combinations. Effective January 1, 2002, with the adoption of SFAS No. 142, the company ceased goodwill and certain intangible asset amortization. As a result of this adoption, the carrying value of the remaining goodwill was tested for impairment annually or between annual tests if an event occurs or circumstances change that would indicate the carrying amount may be impaired.

As of January 1, 2002, the carrying value of goodwill was \$15,377 and was assigned to the product (\$1,835) and the service (\$13,542) reporting units.

Table of Contents**PECO II, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In thousands, except for share and per share data)**

On August 7, 2001, the Company acquired the assets of JNB Communications Inc., a South Carolina-based provider of telecommunications installation services for \$1,800. The investment in excess of the fair market value of assets purchased was approximately \$1,800.

On June 6, 2001, the Company acquired all of the common stock of Thornton Communications Co., Inc. of Bristol, Tennessee, a telecommunications provider of contract and engineering, furnishing and installation services for approximately \$13,000, of which \$3,400 was cash and the remaining consideration was 886,000 shares of the Company's common stock at \$10.76 per share. The investment in excess of the fair market value of assets purchased was approximately \$12,400.

Impairment testing for goodwill is done at a reporting unit level. Currently, the Company has identified two reporting units (product and services) under the criteria set forth by SFAS No. 142. An impairment loss may be recognized when the carrying amount of the reporting unit's net assets exceeds the estimated fair value of the reporting unit.

The Company's assessment of goodwill is based on the requirements of SFAS No. 142, which requires management to estimate the fair value of the company and its reporting units. Determination of fair value is dependent upon many factors including management's estimate of future cash flows, appropriate discount rates, identification and evaluation of comparable businesses and amounts paid in market transactions for the sale of comparable businesses. For goodwill, any one of a number of future events, including a continued telecommunication industry downturn, could cause the Company to conclude that impairment indicators exist and the carrying value of these assets cannot be recovered.

In connection with the sale, the Company has agreed to leaseback 25,000 square feet of this facility through August 31, 2006. This transaction resulted in a gain of \$280 that was deferred and will be recognized over the term of the lease. The sale of the Nashua, New Hampshire facility also resulted in the payoff of the \$3,500 state of New Hampshire industrial revenue bonds and the release of \$3,100 of restricted cash.

7. Asset Impairment Charges

In the second quarter of 2003, machinery and equipment was reviewed, under the guidelines of SFAS No. 144. It was determined that the current fair value was impaired, and an impairment of \$3,300 was recognized. During 2004, the Company again performed an evaluation of its existing operations and determined there was no further impairment.

8. Lease Commitments

9. Contingencies

The Company is a party to legal proceedings and litigation, which have arisen in the ordinary course of business or assumed in connection with an acquisition. Although the outcome of such items cannot be determined, management believes the amount of additional costs in excess of recorded amounts should not materially affect the financial position or results of operations of the Company.

10. Stock Option Plans

In June 2000, the 2000 Performance Plan was adopted and approved by our shareholders for the issuance of up to 2,500,000 common shares. In addition, the Company has two nonqualified stock option plans for employees, adopted in 1995 and 1997, and each plan reserved 2,500,000 shares of the Company's stock for issuance. The shares authorized under the 1995 stock option plan are expired and unissuable. The shares authorized under the 1997 stock option plan have been granted, with 36,200 options remaining issuable until May 8, 2005. These plans provide for awarding stock options to employees and contain provisions under which employees may be granted stock options in lieu of a portion of their compensation, subject to the discretion of the Compensation Committee of the Board of Directors. Options are granted at the fair market value of the Company's common stock at the date of grant, generally vest over three to four years, and must be exercised within five years from the grant date. At the May 2004 annual meeting, shareholders voted to approve an amendment to the 2000 Performance Plan (as amended, the 2000 Plan), which would provide for the issuance of up to an additional 2,500,000 common shares.

At December 31, 2004, the Company has federal tax loss carryforwards of \$37,851. The federal tax loss carryforwards expire in 2022 through 2024. The Company also has federal tax credit carryforwards of approximately \$827.

The Company periodically reviews the need for a valuation allowance against certain deferred tax assets and recognizes these assets to the extent that realization is more likely than not. As a result of operating losses during 2004, 2003 and 2002, trends and forecasted earnings, management determined that it is more likely than not that some portion or all of its net deferred tax asset may not be recognized and a valuation allowance was required for deferred tax assets. During 2004, management adjusted deferred tax asset values, which impacted the valuation allowance with

no impact to operating loss for 2004.

ITEM 9A CONTROLS AND PROCEDURES

Overview

In connection with the preparation of this Annual Report on Form 10-K, we have identified a material weakness in our internal control over financial reporting. As defined by the Public Company Accounting Oversight Board (PCAOB) in Auditing Standard No. 2, a material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected.

The identified material weakness in our internal control over financial reporting relates to insufficient controls over the identification of relevant revenue recognition issues in our contracts with our customers and resulted in adjustments being recorded in our financial statements for the year ended December 31, 2004. Our management discussed the material weakness with our independent registered public accounting firm, KPMG LLP, and the Audit Committee of our Company's Board of Directors on March 25, 2005.

Disclosure Controls and Procedures

Edgar Filing: PECO II INC - Form DEF 14A

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports we file or submit under the Securities Exchange Act of 1934, as amended (the Exchange Act) is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding disclosure. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has performed an evaluation of our disclosure controls and procedures as of December 31, 2004, the end of the period covered by this Annual Report on Form 10-K. Based on that evaluation, which included the matters discussed above, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were not effective as of the end of the period covered by this Annual Report on Form 10-K.

Remediation

We are in the process of improving our internal controls by establishing additional policies and enhancing the procedures that we will follow with respect to the identification of relevant revenue recognition issues in our

contracts with our customers. As part of this process, our management intends to hire an external consultant to assist in reviewing and testing our internal controls. Additional work is needed to fully remedy this material weakness and we intend to continue our efforts to fully remedy this situation; however, we cannot assure you when the material weakness identified above will be corrected.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal controls over financial reporting during our fourth quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.
