Bennett Environmental Inc. Announces Settlement with Ontario

Securities Commission

Agreement Does Not Include Penalty, Calls for Review of Disclosure

Practices

Oakville, Ontario, June 20, 2006 Bennett Environmental Inc. (TSX:BEV, AMEX:BEL) announced today that the Ontario Securities Commission has approved a Settlement Agreement that resolves, fully and finally, the inquiry initiated on July 25, 2004.

Under the terms of the Agreement, the Company will not pay a penalty. It has agreed to retain an independent third party, approved by the OSC Staff, to review the Company's disclosure and reporting practices and procedures as well as to implement any recommendations made by the independent third party and approved by Staff.

The OSC began an investigation following a Bennett Environmental announcement on July 22, 2004 that the Company did not expect to receive the quantity of contaminated soil from a New Jersey subcontract it had originally estimated in a June 2003 news release. On July 24, 2004, the Board of Directors formed a Special Committee of independent directors to investigate, among other things, the facts regarding the subcontract.

The Settlement Agreement does not resolve to the continuing OSC investigation of Bennett Environmental's former Chairman, President and Chief Executive Officer John A. Bennett, former Chief Financial Officer Richard L. Stern, or Robert A. Griffiths, former Vice President, United States Sales. Mr. Bennett resigned as Chairman and the other two executives left the Company within a month of the creation of the Special Committee.

In recommending the Settlement Agreement, OSC Staff noted that Bennett Environmental, its employees and advisors have been exceptionally cooperative with Staff at every stage and have assisted Staff in gathering the facts that gave rise to this proceeding and that the Company's cooperation has assisted Staff in its review and analysis of the facts and has been instrumental in the expeditious resolution of this matter.

David A. Williams, Chairman of the Board of Directors of Bennett Environmental, said: "The OSC approval of this Settlement Agreement concludes two years of extraordinary efforts by the Board and current senior management. From the outset, the Company cooperated fully in this matter. Over the past two years, led by the Board and

management, the Company has transformed its corporate culture and operations. It has adopted a new Code of Conduct and Business Ethics and a separate Code that focuses on transactions with agencies of the United States government. The Company now has in place new management, new financial planning procedures and a new disclosure policy which will be evaluated by an independent expert approved by the Commission. All of these initiatives reflect the Company's commitment to best business practices and to maintaining candid and constructive relationships with regulators and investors. We are pleased to put this matter behind us and to focus on the Company's future.

For more information about the settlement agreement between the Commission and Bennett Environmental, please visit the Commission's website at <http://www.osc.gov.on.ca>.
