NTT DoCoMo, Inc.

Earnings Release for the Three Months Ended June 30, 2006

Consolidated financial results of NTT DoCoMo, Inc. and its subsidiaries (collectively we or DoCoMo) for the three months ended June 30, 2006 (April 1, 2006 to June 30, 2006), are summarized as follows.

<< Highlights of Financial Results >>

For the three months ended June 30, 2006, operating revenues were ¥1,218.6 billion (up 2.7% compared to the same period of the prior year), operating income was ¥272.7 billion (down 5.2% compared to the same period of the prior year), income before income taxes was ¥274.4 billion (down 22.4% compared to the same period of the prior year) and net income was ¥163.5 billion (down 21.3% compared to the same period of the prior year).

Earnings per share were ¥ 3,684.23 and EBITDA margin* was 36.5%, down 1.8 points compared to the same period of the prior year.

-
Notes:

1. Consolidated financial statements in this release are unaudited.
2. Amounts in this release are rounded off.

* EBITDA and EBITDA margin, as we use them, are different from EBITDA as used in Item 10(e) of Regulation S-K and may not be comparable to similarly titled measures used by other companies. For an explanation of our definition of EBITDA, see the reconciliations to the most directly comparable financial measures calculated and presented in accordance with GAAP on page 16.

Table of Contents<< Comment from Masao Nakamura, President and CEO >>

In the first quarter of the fiscal year ending March 31, 2007, we achieved solid results in our business operations. Our cellular churn rate was 0.64%, 0.16 points lower compared to the same period of the prior year, and we secured the largest market share of net additional subscribers, owing to the addition of new models to our handset lineup and the brisk growth of pake-hodai flat-rate subscribers after making more billing plans available to subscribers earlier this year. We have also moved forward in migrating existing subscribers to the FOMA network, successfully growing the number of FOMA subscribers to more than half of our total cellular subscribers. As a consequence, operating income for the first quarter reached ¥272.7 billion, making a favorable progress toward our full-year forecast.

In view of the scheduled introduction of Mobile Number Portability system this fall, we will continue our endeavors to reinforce our overall competitiveness by improving every aspect of our business, including our billing plans, handsets lineup, network quality and after-sales support. As for the services we offer, following the launch of the Chaku-Uta Full , full music track downloading service in June, we plan to start a new service dubbed Music Channel a service that allows users to download music programs of high sound quality in conjunction with the introduction of High Speed Downlink Packet Access (HSDPA) this summer, in an effort to enrich our music-related offerings. We also plan to respond proactively to users' growing needs for search engines of information sites.

The subscriber base of DCMX credit payment service, commenced in the first quarter, already exceeded 300,000 as of June 30, 2006, delivering tangible results toward our goal to create new revenue sources. The uptake of i-channel service has also grown remarkably, acquiring over 4.0 million subscribers in 10 months after its service launch. We aim to boost the usage of subscribers even further by promoting various services such as i-channel going forward.

In order to react swiftly to the changes in our business environment, we, as always, will strive to respond earnestly to customers' voices, strengthen our competitiveness by enhancing existing services and introducing attractive new services, and thereby solidify our business foundation.

Table of Contents**1. Business Overview**

(1) Operating revenues totaled ¥1,218.6 billion (up 2.7% compared to the same period of the prior year).

Cellular (FOMA+mova) services revenues increased to ¥1,065.4 billion (up 3.5% compared to the same period of the prior year). Despite the negative impact on revenues from our strategic billing arrangements, the acquisition of new subscribers and lowered churn rate, which resulted from our continued implementation of customer-oriented operations, delivered positive impacts on our operating revenues.

Voice revenues from FOMA services increased to ¥409.2 billion (up 78.9% compared to the same period of the prior year) and packet communications revenues from FOMA services increased to ¥215.0 billion (up 83.9% compared to the same period of the prior year) owing to a significant increase in the number of FOMA services subscribers to 26.22 million (up 91.2% compared to the same period of the prior year), which resulted from the release of new handsets such as the FOMA902i/702i series, further enhancement of our network quality, and increase in the number of billing plans that can be combined with pake-hodai, our flat-rate packet billing plan for unlimited i-mode usage.

Equipment sales totaled ¥123.6 billion (down 2.9% compared to the same period of the prior year). While the number of handset sold increased due to steady migration of subscribers from mova to FOMA services, the amount accounted for as sales revenue per handset decreased.

<Breakdown of operating revenues>	Billions of yen			
	(UNAUDITED)		(UNAUDITED)	
	Three months ended	Three months ended	Increase	
	June 30, 2006	June 30, 2005	(Decrease)	
Wireless services	¥ 1,094.9	¥ 1,059.8	¥ 35.2	3.3%
Cellular (FOMA+mova) services revenues	1,065.4	1,029.0	36.4	3.5
- Voice revenues	764.1	761.7	2.4	0.3
Including: FOMA services	409.2	228.8	180.5	78.9
- Packet communications revenues	301.4	267.3	34.1	12.7
Including: FOMA services	215.0	116.9	98.1	83.9
PHS services revenues	7.0	12.4	(5.5)	(44.0)
Other revenues	22.5	18.3	4.2	23.1
Equipment sales	123.6	127.3	(3.7)	(2.9)
Total operating revenues	¥ 1,218.6	¥ 1,187.1	¥ 31.5	2.7%

Notes:

- Cellular (FOMA+mova) services revenues reflect the impact of including the portion of Nikagetsu Kurikoshi (2-months carry over) allowances that are projected to expire.
- Voice revenues include data communications revenues through circuit switching system.

Edgar Filing: NTT DOCOMO INC - Form 6-K

(2) Operating expenses were ¥945.8 billion (up 5.2% compared to the same period of the prior year).

Personnel expenses were ¥62.9 billion (up 1.4% compared to the same period of the prior year). The number of employees as of June 30, 2006 was 22,217.

Non-personnel expenses increased to ¥609.3 billion (up 7.6% compared to the same period of the prior year) mainly due to an increase in cost of equipment sold, reflecting the increased number of handsets sold, and an increase in our after-sales service expenses, such as provision of free-of-charge battery packs and warranty services for handsets.

Depreciation and amortization increased by 2.3% to ¥169.3 billion compared to the same period of the prior year due to an increase in capital expenditures for reinforcement of our FOMA network.

Table of Contents

<Breakdown of operating expenses>	Billions of yen			
	(UNAUDITED)	(UNAUDITED)	Increase	
	Three months ended	Three months ended	(Decrease)	
	June 30, 2006	June 30, 2005		
Personnel expenses	¥ 62.9	¥ 62.0	¥ 0.9	1.4%
Non-personnel expenses	609.3	566.2	43.1	7.6
Depreciation and amortization	169.3	165.5	3.8	2.3
Loss on disposal of property, plant and equipment and intangible assets	4.3	2.8	1.5	52.2
Communication network charges	90.7	93.7	(3.0)	(3.2)
Taxes and public dues	9.3	9.2	0.1	1.2
Total operating expenses	¥ 945.8	¥ 899.5	¥ 46.4	5.2%

Notes:

For the period starting from April 1, 2006, the amount of impairment loss related to PHS assets, which was separately stated in the past, is included in Depreciation and amortization. As the result thereof, certain reclassifications are made to the operating results for the three months ended June 30, 2005.

- (3) Operating income decreased to ¥272.7 billion (down 5.2% compared to the same period of the prior year). Income before income taxes decreased to ¥274.4 billion (down 22.4% compared to the same period of the prior year), due to the impact of a gain on sale of Hutchison 3G UK Holdings Limited shares (¥62.0 billion) recorded in the same period of the prior year.
- (4) Net income was ¥163.5 billion (down 21.3% compared to the same period of the prior year).

2. Segment Information

- (1) Mobile phone business

Operating revenues were ¥1,202.5 billion and operating income was ¥278.9 billion.

Cellular (FOMA) services

Beginning in May 2006, we released our high-end models, the FOMA 902iS series handsets, all of which are equipped with a pre-installed application software for our DCMX mobile credit service, enhanced security and music player function. We also launched optional services to the compatible handsets including; Data Security Services which enable subscribers to store their phonebook list on DoCoMo's network, Omakase Lock which enables users to lock their lost handsets by remote control through our call center or website, Chaku-moji which enables a caller to transmit a message that is displayed on the receiver's screen until the call is answered, and Chaku-Uta Full which enables users to download

Edgar Filing: NTT DOCOMO INC - Form 6-K

full music tracks from i-mode sites. In June 2006, we also released the FOMA SO902iWP+ , the first waterproof handset for FOMA. In May 2006, we released our standard model the FOMA SO702i , which is a compact handset with changeable front and rear covers. In June we released the FOMA D702iBCL , a camera-less handset for corporate users. Beginning in April 2006, we released a simple and compact handset series called SIMPURE , which are equipped with basic features and compatible with our international roaming-out service WORLD WING . The number of FOMA services subscribers increased steadily and reached 26.22 million as of June 30, 2006.

Voice ARPU, packet ARPU and aggregate ARPU of cellular (FOMA) services were ¥5,420, ¥2,880 and ¥8,300, respectively.

Cellular (mova) services

In April 2006, we released the mova P506iC II which is compatible with Osai-fu-Keitai *. Due to continuous progress in the migration of subscribers from mova services to FOMA services, the number of mova subscribers decreased to 25.46 million as of June 30, 2006.

Voice ARPU, i-mode ARPU and aggregate ARPU of cellular (mova) services were ¥4,460, ¥1,080 and ¥5,540, respectively.

* *Osai-fu-Keitai* refers to mobile phones equipped with a contactless IC card, as well as the useful function and services enabled by the IC card. With this function, a mobile phone can be utilized as electronic money, a credit card, an electronic ticket, a membership card, an airline ticket, among other things.

The aggregate number of FOMA and mova services subscribers increased to 51.67 million. In June 2006, FOMA service surpassed mova service in the number of subscribers.

Voice ARPU, packet ARPU and aggregate ARPU of cellular (FOMA+mova) services were ¥4,930, ¥1,970 and ¥6,900, respectively.

Churn rate for cellular (FOMA+mova) services for the three months ended June 30, 2006 was 0.64%, a decrease of 0.16 points compared to the same period of the prior year.

Table of Contents

i-mode services

The number of subscribers using i-mode-FeliCa compatible handsets reached approximately 13.80 million as of June 30, 2006. The total number of i-mode services subscribers reached 46.82 million as of June 30, 2006.

As for the global development, in June 2006, we agreed with Hutchison Telephone Company Limited (HTCL), a mobile operator in Hong Kong, that HTCL will introduce i-mode services in Hong Kong and Macau. The i-mode services are rolled out in 15 countries and areas including Japan as of June 30, 2006, and the number of i-mode services subscribers of all foreign carriers increased steadily.

International services

In June 2006, we lowered our tariffs and handset rental fees for WORLD WALKER, our international roaming-out service for mova users, and integrated the service brand name to WORLD WING, the service brand name for our international roaming-out service for FOMA users. As of June 30, 2006, we expanded the service area of international roaming-out services for voice calls and SMS to 136 countries and areas; for packet communications to 77 countries and areas; and for videophone calls to 25 countries and areas.

Note:

ARPU: Average monthly revenue per unit

Average monthly revenue per unit, or ARPU, is used to measure average monthly operating revenues attributable to designated services on a per user basis. ARPU is calculated by dividing various revenue items included in operating revenues from our wireless services, such as monthly charges, voice transmission charges and packet transmission charges, from designated services which are incurred consistently each month, by number of active subscribers to the relevant services. Accordingly, the calculation of ARPU excludes revenues that are not representative of monthly average usage such as activation fees. We believe that our ARPU figures provide useful information to analyze the average usage of our subscribers and the impacts of changes in our billing arrangements. The revenue items included in the numerators of our ARPU figures are based on our U.S. GAAP results of operations. This definition applies to all ARPU figures hereinafter. See page 15 for the details of the calculation methods.

<Number of subscribers by services>	Thousand subscribers			
	June 30, 2006	March 31, 2006	Increase (Decrease)	
Cellular (FOMA) services	26,217	23,463	2,753	11.7%
Cellular (mova) services	25,456	27,680	(2,225)	(8.0)
i-mode services	46,823	46,360	463	1.0

Note:

Number of i-mode subscribers as of June 30, 2006 = Cellular (FOMA) i-mode subscribers (25,511 thousand) + Cellular (mova) i-mode subscribers (21,312 thousand)

Number of i-mode subscribers as of March 31, 2006 = Cellular (FOMA) i-mode subscribers (22,914 thousand) + Cellular (mova) i-mode subscribers (23,446 thousand)

Table of Contents

(2) PHS business

Operating revenues were ¥7.1 billion and operating loss was ¥2.3 billion.

In January 2006, we decided to terminate our PHS services during the three months ending December 31, 2007. We are continuously engaged in the campaign for migration of current PHS subscribers to FOMA services.

PHS ARPU was ¥3,170.

Note:

See page 15 for the details of the ARPU calculation methods.

<Number of subscribers>	Thousand subscribers			
	June 30, 2006	March 31, 2006	Increase (Decrease)

PHS business operating income (loss)	(2.3)	(0.9)	(1.4)	(162.8)

(3) Miscellaneous businesses

Operating revenues were ¥9.0 billion and operating loss was ¥3.9 billion.

In order to further promote convenience of our Osaifu-Keitai handsets, we launched DCMX consumer credit services via the iD platform, which we established for mobile credit transactions. In April 2006, we first launched DCMX mini, which offers a monthly credit line of ¥10,000 with simple application procedures on i-mode. In May 2006, we launched DCMX, which allows

Edgar Filing: NTT DOCOMO INC - Form 6-K

users a higher credit line. With DCMX service, members can earn DoCoMo points based on their credit usage and apply for revolving or installment payment. The number of DCMX and DCMX mini members surpassed 300,000 as of June 30, 2006. We will continue to increase the number of shops and other sites equipped with ID compatible readers/writers.

In our public wireless LAN service, the number of our domestic hot spots increased to 1,284 as of June 30, 2006.

In April 2005, we decided to terminate Quickcast services on March 31, 2007.

<Operating results>	Billions of yen			
	(UNAUDITED)			
	Three months ended			
	June 30, 2006	(UNAUDITED) Three months ended June 30, 2005		Increase (Decrease)
Miscellaneous businesses operating revenues	¥ 9.0	¥ 7.9	¥ 1.1	14.4%
Miscellaneous businesses operating income (loss)	(3.9)	(0.4)	(3.5)	(793.6)

3. Capital Expenditures

Total capital expenditures were ¥214.7 billion.

For reinforcement of our competitiveness prior to the introduction of the Mobile Number Portability, we expanded the coverage areas of FOMA services, improved network quality, and reinforced our FOMA network to meet the increase in traffic demand. We also continued our efforts to make capital expenditures more efficient and less costly by saving on equipment purchase costs and improving our design and construction process. Total capital expenditures during the three months ended June 30, 2006 increased by 1.9% compared to the same period of the prior year.

<Breakdown of capital expenditures>	Billions of yen			
	(UNAUDITED)			
	Three months ended

Other (including information systems)	27.1	25.0	2.1	8.3
Total capital expenditures	¥ 214.7	¥ 210.7	¥ 4.0	1.9%

Table of Contents**4. Cash Flow Conditions**

Net cash provided by operating activities was ¥98.4 billion (down 69.9% compared to the same period of the prior year). Net cash provided by operating activities decreased mainly owing to an increase in the payment of income taxes to ¥218.6 billion from ¥56.2 billion in the same period of the prior year, when deferred tax assets from the impairment of our investment in AT&T Wireless Services, Inc. were realized.

Net cash used in investing activities was ¥264.6 billion (up 87.4% compared to the same period of the prior year). Net cash used in investing activities increased mainly due to increases in acquisitions of property, plant and equipment and non-current investments, and decreases in inflow of cash from sales of non-current investments and net-inflow of cash from investments with original maturities of longer than 3 months for cash management purpose.

Net cash used in financing activities was ¥282.4 billion (up 314.7% compared to the same period of the prior year). Net cash used in financing activities increased mainly due to increases in repayments of outstanding debt, repurchasing of our own stock, and payment of dividend. We repurchased ¥50.0 billion of our own stock in the stock market during the three months ended June 30, 2006.

Free cash flows were negative ¥166.2 billion. Free cash flows excluding changes in investments for cash management purpose were negative ¥165.9 billion.

Year ended March 31, 2006	13,491.28 (yen)		13,491.28(yen)					

Notes: 1. The weighted average number of shares outstanding: For the three months ended June 30, 2006: 44,381,601 shares
For the three months ended June 30, 2005: 46,242,384 shares
For the fiscal year ended March 31, 2006: 45,250,031 shares

Edgar Filing: NTT DOCOMO INC - Form 6-K

2. Percentage for operating revenues, operating income, income before income taxes and net income in the above tables represents changes compared to the corresponding previous period.

(2) Consolidated Financial Position

	(Millions of yen, except per share amounts)			
	<u>Total Assets</u>	<u>Shareholders Equity</u>	<u>Equity Ratio (Ratio of Shareholders Equity to Total Assets)</u>	<u>Shareholders Equity per Share</u>
June 30, 2006	6,022,271	4,065,546	67.5%	91,999.59(yen)
June 30, 2005	6,212,590	4,029,498	64.9%	87,275.57(yen)
March 31, 2006	6,365,257	4,052,017	63.7%	91,109.33(yen)

Note: The number of shares outstanding as of June 30, 2006 and 2005, and March 31, 2006 were 44,190,915, 46,169,825 and 44,474,227, respectively.

(3) Consolidated Cash Flows

	(Millions of yen)			
	<u>Cash Flows from Operating Activities</u>	<u>Cash Flows from Investing Activities</u>	<u>Cash Flows from Financing Activities</u>	<u>Cash and Cash Equivalents at End of Period</u>
Three months ended June 30, 2006	98,381	(264,584)	(282,441)	391,992
Three months ended June 30, 2005	326,334	(141,159)	(68,100)	890,676
Year ended March 31, 2006	1,610,941	(951,077)	(590,621)	840,724

3. Consolidated Financial Results Forecasts for the Fiscal Year Ending March 31, 2007 (April 1, 2006 - March 31, 2007)

	(Millions of yen)		
	<u>Income before</u>		
	<u>Operating Revenues</u>	<u>Income Taxes</u>	<u>Net Income</u>
Year ending March 31, 2007	4,838,000	815,000	488,000

(Reference) Expected Earnings per Share: 10,972.65 yen

Notes: 1. There has been no change in our forecasts for the fiscal year ending March 31, 2007 since we announced the forecasts on April 28, 2006.

2. With regard to the above forecasts, please refer to page 17.

* Consolidated financial statements are unaudited.

Notes to Unaudited Consolidated Financial Statements

The accompanying unaudited consolidated financial statements of NTT DoCoMo, Inc. and its subsidiaries (collectively DoCoMo) has been prepared in accordance with accounting principles generally accepted in the United States of America.

The followings are explanations regarding the adoption of new accounting standards in the three months ended June 30, 2006 and the summary of revenue recognition.

1. Adoption of new accounting standards

Inventory Pricing

Effective April 1, 2006, DoCoMo adopted Statement of Financial Accounting Standards (SFAS) No. 151, Inventory Costs -an amendment of Accounting Research Bulletin (ARB) No. 43, Chapter 4 issued by the Financial Accounting Standards Board (FASB). SFAS No. 151 amends the guidance in ARB No. 43, Chapter 4, Inventory Pricing , to clarify the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage). ARB No. 43, Chapter 4 previously stated that such costs might be so abnormal as to require treatment as current period charges. SFAS No. 151 requires that those items be recognized as current-period charges regardless of whether they meet the criterion of so abnormal . In addition, SFAS No. 151 requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. The adoption of SFAS No. 151 did not have any impact on DoCoMo s results of operations and financial position.

Exchanges of Non-monetary Assets

Effective April 1, 2006, DoCoMo adopted SFAS No. 153, Exchanges of Non-monetary Assets -an amendment of Accounting Principles Board (APB) Opinion No. 29 issued by the FASB. The amendment eliminates the exception for non-monetary exchanges of similar productive assets and replaces it with a general exception for exchanges of non-monetary assets that do not have commercial substance. The adoption of SFAS No. 153 did not have any impact on DoCoMo s results of operations and financial position.

Accounting Changes and Error Corrections

Effective April 1, 2006, DoCoMo adopted SFAS No. 154, Accounting Changes and Error Corrections -a replacement of APB Opinion No. 20 and the FASB statement No. 3 issued by the FASB. SFAS No. 154 replaces APB Opinion No. 20 (APB No. 20), Accounting Changes , and SFAS No. 3, Reporting Accounting Changes in Interim Financial Statements , and changes the requirements for the accounting for and reporting of a change in accounting principle. APB No. 20 previously required that most voluntary changes in accounting principle be recognized by including in net income of the period of the change the cumulative effect of changing to the new accounting principle. SFAS No. 154 requires retrospective application to prior periods financial statements of changes in accounting principle. The adoption of SFAS No. 154 did not have any impact on DoCoMo s results of operations and financial position. DoCoMo will continue to apply the requirements of SFAS No. 154 to any future accounting changes and error corrections.

Table of Contents

2. Summary of revenue recognition

Base monthly service charges and airtime charges are recognized as revenues as service is provided to the subscribers. DoCoMo's monthly rate plans for cellular (FOMA and mova) services generally include a certain amount of allowances (free minutes and/or packets), and the used amount of the allowances is subtracted from total usage in calculating the airtime revenue from a subscriber for the month. Prior to November 2003, the total amount of the base monthly charges was recognized as revenues in the month they were charged as the subscribers could not carry over the unused allowances to the following months. In November 2003, DoCoMo introduced a billing arrangement, called Nikagetsu Kurikoshi (two-month carry over), in which the unused allowances are automatically carried over up to the following two months. In addition, DoCoMo introduced an arrangement which enables the unused allowances offered in and after December 2004 that have been carried over for two months to be automatically used to cover the airtime and/or packet fees exceeding the allowances of the other lines in the Family Discount group, a discount billing arrangement for families with between two and ten DoCoMo subscriptions. Until the year ended March 31, 2006, DoCoMo had deferred revenues based on the portion of all unused allowances at the end of the period. The deferred revenues are recognized as revenues as the subscribers make calls or data communications, similar to the way airtime revenues are recognized, or as the allowance expires. As DoCoMo developed sufficient empirical evidence to reasonably estimate the portion of allowance that will be forfeited as unused, DoCoMo started to recognize the revenue attributable to such forfeited allowances ratably as the remaining allowances are utilized, effective April 1, 2006. The effect of this accounting change was not material for DoCoMo's results of operations and financial position.

Certain commissions paid to purchasers (primarily agent resellers) are recognized as a reduction of revenue upon delivery of the equipment to the purchasers (primarily agent resellers) in accordance with Emerging Issues Task Force Issue No. 01-09, Accounting for Consideration Given by a Vendor to a Customer (Including a Reseller of the Vendor's Products).

Non-recurring upfront fees such as activation fees are deferred and recognized as revenues over the estimated average period of the customer relationship for each service. The related direct costs are deferred only to the extent of the upfront fee amount and are amortized over the same period.

Aggregate ARPU (FOMA+mova)	40 yen	30 yen	50 yen	60 yen
Aggregate ARPU (FOMA)	70 yen	60 yen	70 yen	80 yen
Aggregate ARPU (mova)	30 yen	20 yen	20 yen	40 yen

*

Edgar Filing: NTT DOCOMO INC - Form 6-K

Please refer to the attached sheet (P.15) for an explanation of the methods used to calculate ARPU, and the number of active subscribers used in calculating ARPU, MOU and Churn Rate.

- (1) Source for other cellular telecommunications operators: Data announced by Telecommunications Carriers Association
- (2) Data are calculated including Communication Module Service subscribers.
- (3) Data are calculated excluding Communication Module Services-related revenues and Communication Module Services subscribers.
- (4) Inclusive of circuit-switched data communications
- (5) MOU (Minutes of Usage): Average communication time per one month per one user
- (6) Sum of FOMA handsets and mova handsets
- (7) The number of i-menu Sites charged per view are added to the existing number of i-menu Sites charged with fixed monthly fee.
- (8) Not inclusive of data communication time via @FreeD service
- (9) Percentage of data traffic to total outbound call time
- (10) Included in total cellular subscribers
- (11) Included in FOMA subscribers
- (12) Included in mova subscribers

Table of Contents

(APPENDIX 2)

ARPU Calculation Methods

1. ARPU (Average monthly revenue per unit)*¹

i) ARPU (FOMA + mova)

Aggregate ARPU (FOMA+mova)=Voice ARPU (FOMA+mova) + Packet ARPU (FOMA+mova)

Voice ARPU (FOMA+mova) : Voice ARPU (FOMA+mova) Related Revenues (monthly charges, voice transmission charges) / No. of active cellular phone subscribers (FOMA+mova)

Packet ARPU (FOMA+mova) : {Packet ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges)+ i-mode ARPU (mova) Related Revenues (monthly charges, packet transmission charges)}/ No. of active cellular phone subscribers (FOMA+mova)

i-mode ARPU (FOMA+mova) ^{*2} : i-mode ARPU (FOMA+mova) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA+mova)

ARPU generated purely from i-mode (FOMA+mova) ^{*3} : i-mode ARPU (FOMA+mova) Related Revenues (monthly charges, packet transmission charges) / No. of active i-mode subscribers (FOMA+mova)

ii) ARPU (FOMA)

Aggregate ARPU (FOMA)=Voice ARPU (FOMA) + Packet ARPU (FOMA)

Voice ARPU (FOMA) : Voice ARPU (FOMA) Related Revenues (monthly charges, voice transmission charges) / No. of active cellular phone subscribers (FOMA)

Packet ARPU (FOMA) : Packet ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA)

i-mode ARPU^{*2} (FOMA) : i-mode ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA)

ARPU generated purely from i-mode (FOMA)^{*3} : i-mode ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges) / No. of active i-mode subscribers (FOMA)

iii) **ARPU (mova)**

Aggregate ARPU (mova)=Voice ARPU (mova) + i-mode ARPU (mova)

Voice ARPU (mova) : Voice ARPU (mova) Related Revenues (monthly charges, voice transmission charges) / No. of active cellular phone subscribers (mova)

i-mode ARPU (mova)^{*2} : i-mode ARPU (mova) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (mova)

ARPU generated purely from i-mode (mova)^{*3} : i-mode ARPU (mova) Related Revenues (monthly charges, packet transmission charges) / No. of active i-mode subscribers (mova)

iv) **ARPU (PHS)**

ARPU (PHS) : ARPU (PHS) Related Revenues (monthly charges, voice transmission charges) / No. of active PHS subscribers

2. Active Subscribers Calculation Methods

No. of active subscribers used in ARPU/MOU/Churn Rate calculations are sum of No. of active subscribers^{*4} for each month.

*1 Communication Module service subscribers and the revenues thereof are not included in the ARPU and MOU calculations.

*2 The denominator used in calculating i-mode ARPU (FOMA+mova, FOMA, mova) is the aggregate number of cellular subscribers to each service (FOMA+mova, FOMA, mova, respectively), regardless of whether i-mode service is activated or not.

Edgar Filing: NTT DOCOMO INC - Form 6-K

*3 ARPU generated purely from i-mode (FOMA+mova, FOMA, mova) is calculated using only the number of active i-mode subscribers as a denominator.

*4 active subscribers = (No. of subscribers at the end of previous month + No. of subscribers at the end of current month) / 2

Table of Contents

(APPENDIX 3)

**Reconciliations of the Disclosed Non-GAAP Financial Measures to
the Most Directly Comparable GAAP Financial Measures**

1. EBITDA and EBITDA margin

	Billions of yen	
	Three months ended	Three months ended
	June 30, 2006	June 30, 2005
a. EBITDA	¥ 445.0	¥ 455.0
Depreciation and amortization	(169.3)	(165.5)
Losses on sale or disposal of property, plant and equipment	(3.0)	(1.9)
Operating income	272.7	287.6
Other income (expense)	1.7	65.8
Income taxes	(110.7)	(144.8)
Equity in net income (losses) of affiliates	(0.1)	(0.8)
Minority interests in consolidated subsidiaries	(0.0)	0.0
b. Net income	163.5	207.9
c. Total operating revenues	1,218.6	1,187.1
EBITDA margin (=a/c)	36.5%	38.3%
Net income margin (=b/c)	13.4%	17.5%

Note: EBITDA and EBITDA margin, as we use them, are different from EBITDA as used in Item 10(e) of regulation S-K and may not be comparable to similarly titled measures used by other companies.

2. Free cash flows excluding changes in investments for cash management purpose

	Billions of yen	
	Three months ended	Three months ended
	June 30, 2006	June 30, 2005
Free cash flows excluding changes in investments for cash management purpose	¥ (165.9)	¥ 135.2

Edgar Filing: NTT DOCOMO INC - Form 6-K

Changes in investments for cash management purpose	(0.4)	50.0
Free cash flows	(166.2)	185.2
Net cash used in investing activities	(264.6)	(141.2)
Net cash provided by operating activities	98.4	326.3

Note: Changes in investments for cash management purpose were derived from purchases, redemption at maturity and disposals of financial instruments held for cash management purpose with original maturities of longer than three months.

Special Note Regarding Forward-Looking Statements

This Earnings Release contains forward-looking statements such as forecasts of results of operations, management strategies, objectives and plans, forecasts of operational data such as expected number of subscribers, and expected dividend payments. All forward-looking statements that are not historical facts are based on management's current plans, expectations, assumptions and estimates based on the information currently available. Some of the projected numbers in this report were derived using certain assumptions that are indispensable for making such projections in addition to historical facts. These forward-looking statements are subject to various known and unknown risks, uncertainties and other factors that could cause our actual results to differ materially from those contained in or suggested by any forward-looking statement. Potential risks and uncertainties include, without limitation, the following:

As competition in the market is expected to become more fierce due to changes in the business environment caused by the introduction of Mobile Number Portability and new market entrants, competition from other cellular service providers or other technologies could limit our acquisition of new subscribers, retention of existing subscribers and average revenue per unit (ARPU), or may lead to an increase in our costs and expenses.

The new services and usage patterns introduced by our corporate group may not develop as planned, which could limit our growth.

The introduction or change of various laws or regulations or the application of such laws and regulations to our corporate group may adversely affect our financial condition and results of operations.

Limitations in the amount of frequency spectrum or facilities made available to us could negatively affect our ability to maintain and improve our service quality and level of customer satisfaction.

The W-CDMA technology that we use for our 3G system and/or mobile multimedia services may not be introduced by other overseas operators, which could limit our ability to offer international services to our subscribers.

Our domestic and international investments, alliances and collaborations may not produce the returns or provide the opportunities we expect.

As electronic payment capability and many other new features are built into our cellular phones, and services of parties other than those belonging to our corporate group are provided through our cellular handsets, potential problems resulting from malfunctions, defects, or missing of handsets or imperfection of services provided by such other parties may arise, which could have an adverse effect on our financial condition and results of operations.

Social problems that could be caused by misuse or misunderstanding of our products and services may adversely affect our credibility or corporate image.

Inadequate handling of subscriber information by our corporate group or contractors may adversely affect our credibility or corporate image.

Owners of intellectual property rights that are essential for our business execution may not grant us the right to license or otherwise use such intellectual property rights on acceptable terms or at all, which may limit our ability to offer certain technologies, products and/or services, and we may also be held liable for damage compensation if we infringe the intellectual property rights of others.

Edgar Filing: NTT DOCOMO INC - Form 6-K

Earthquakes, power shortages, malfunctioning of equipment, and software bugs, computer viruses, cyber attacks, hacking, unauthorized access and other problems could cause systems failures in the networks required for the provision of service, disrupting our ability to offer services to our subscribers and may adversely affect our credibility or corporate image.

Concerns about wireless telecommunications health risks may adversely affect our financial condition and results of operations.

Our parent company, Nippon Telegraph and Telephone Corporation (NTT), could exercise influence that may not be in the interests of our other shareholders.

meaning
of
Section
27A
of
the
U.S.
Securities
Act
of
1933 and
Section 21E of the U.S. Securities Act of 1934. Statements made
in this presentation with respect to DoCoMo's plans, objectives, projected
financials, operational figures, beliefs and other statements that are not historical facts are forward-looking statements about the
performance of DoCoMo which are based on management's expectations, assumptions, estimates, projections and beliefs in light of
information currently available to it. These forward-looking statements, such as statements regarding the introduction of new products and
services, the termination or suspension of existing services, financial and operational forecasts, dividend payments, the growth of the Japanese
market and the ubiquitous services market, the growth of data usage, the growth of DoCoMo's cellular phone business, the migration
to DoCoMo's 3G services and associated improvements in 3G services, improvements in 3G and 2G coverage area, the potential of
Japanese credit card business and DoCoMo's credit business, and management's goals are subject to various risks and uncertainties
which may cause actual results to be materially different from and worse than as described in the forward-looking statements. Potential risks

Return to Shareholders

Returning profits to shareholders is considered one of the most important issues in our corporate agenda

-

Dividend per share: 4,000 yen

(Maintain the same dividend level as FY ended Mar. 31, 2006, when it was doubled from the previous fiscal year)

-

Repurchase of own shares:

Study to repurchase up to 1.4 million shares for up to 250 billion yen

(Treasury shares kept in excess of 5% of total issued shares are planned for cancellation)

once a year)
FY ending Mar. 31, 2007 (Planned)

Definition and Calculation Methods of MOU and ARPU

u MOU(Minutes of usage): Average communication time per one month per one user.

u ARPU(Average

monthly Revenue Per Unit):

Average monthly revenue per unit, or ARPU, is used to measure average monthly operating revenues attributable to designated basis. ARPU is calculated by dividing various revenue items included in operating revenues from our wireless services, such as transmission charges and packet transmission charges, from designated services which are incurred consistently each month, by subscribers to the relevant services. Accordingly, the calculation of ARPU excludes revenues that are not representative of mo

as

activation

fees.

We

believe

that

our

ARPU

figures

provide

useful

u Number of active subscribers used in ARPU and MOU calculations are as follows:

e
Quarterly data: sum of No. of active subscribers in each month * of the current quarter

e
Half-year
data:

sum
of
No.

of
active
subscribers
in
each
month *

of
the
current
half

e
Full-year data: sum of No. of active subscribers in each month * of the current fiscal year

*

No. of active subscribers in each month : (No. of subs at end of previous month+No. of subs at end of current month)/2

w The revenues and no. of subscribers of Communication Module Service are not included in the above calculation

Note:

Changes in investments for cash management purpose were derived from purchases, redemption at maturity and disposals of fi
 held for cash management purpose with original maturities of longer than three months.

Changes in investments for cash management purpose

Free cash flows

Net cash used in investing activities

Net cash provided by operating activities

Other income (expense)

Income taxes

Equity in net losses of affiliates

Free cash flows excluding changes in investments for cash management purpose

Net income margin (=b/c)

EBITDA and EBITDA margin, as we use them, are different from EBITDA as defined in Item 10(e) of regulation S-K and many similarly titled measures used by other companies.

Minority interests in consolidated subsidiaries

b. Net income

c. Total operating revenues

EBITDA margin (=a/c)

Depreciation and amortization

Losses on sale or disposal of property, plant and equipment

Operating income
