**Item 8.01. Other Events.**

In response to recent publicity regarding stock option grant practices and in connection with the review of the Company's financial statements for the second quarter of 2006, the Company recently commenced a review of the documentation and procedures for all stock option awards made by the Company under the Company's 1996 Stock Option Plan, 1997 Directors' Stock Plan and 2006 Incentive Compensation Plan (collectively, the Plans) since the inception of the Plans and a review of the accounting treatment of such awards. This internal review is ongoing.

As a preliminary matter, the Company believes it may need to record additional non-cash charges for stock based compensation expense for certain prior periods, but is unable at this time to determine the amount of such charges, the resulting tax impact of such action, whether such additional charges would be material and/or whether previously filed financial statements would need to be restated. In light of this, the Company's audit committee has formed a special subcommittee comprised solely of independent directors to conduct a thorough review of the Company's stock option grant program, the accounting treatment thereof and the public disclosures related thereto. The independent committee intends to retain independent outside counsel to assist it in conducting this review.

The Company has notified the staff of the Securities and Exchange Commission and the New York Stock Exchange of these matters.
