

DOVER MOTORSPORTS INC
Form 10-Q
November 09, 2006

United States
Securities and Exchange Commission

Washington, D.C. 20549

Form 10-Q

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended September 30, 2006

Commission file number 1-11929

Dover Motorsports, Inc.

(Exact name of registrant as specified in its charter)

Delaware
(State or Other Jurisdiction

of Incorporation)

1131 North DuPont Highway, Dover, Delaware 19901

(Address of principal executive offices)

(302) 674-4600

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

51-0357525
(I.R.S. Employer

Identification No.)

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-Q

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, accelerated filer or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer
Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of October 31, 2006, the number of shares of each class of the registrant's common stock outstanding is as follows:

Common Stock -	16,309,584 shares
Class A Common Stock -	19,809,975 shares

DOVER MOTORSPORTS, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1 Basis of Presentation

References in this document to the Company, we, us and our mean Dover Motorsports, Inc. and/or its wholly owned subsidiaries, as appropriate.

The accompanying consolidated financial statements have been prepared in compliance with Rule 10-01 of Regulation S-X and U.S. generally accepted accounting principles, but do not include all of the information and disclosures required for audited financial statements. These consolidated statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's latest Annual Report on Form 10-K filed on March 13, 2006. In the opinion of management, these consolidated statements include all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the results of operations, financial position and cash flows for the interim periods presented. Operating results for the three and nine-month periods ended September 30, 2006 are not necessarily indicative of the results that may be expected for the year ending December 31, 2006 due to the seasonal nature of the Company's business.

NOTE 2 Business Operations

Dover Motorsports, Inc. is a public holding company that is a leading marketer and promoter of motorsports entertainment in the United States. Its motorsports subsidiaries operate four motorsports tracks in three states and the Company promoted 15 major events during 2006 under the auspices of three of the premier sanctioning bodies in motorsports - the National Association for Stock Car Auto Racing (NASCAR), the Indy Racing League (IRL) and the National Hot Rod Association (NHRA). The Company owns and operates Dover International Speedway in Dover, Delaware; Gateway International Raceway near St. Louis, Missouri; Memphis Motorsports Park in Memphis, Tennessee; and Nashville Superspeedway near Nashville, Tennessee.

In 2006, the Company promoted the following major events:

2 NASCAR NEXTEL Cup Series events;

6 NASCAR Busch Series, Grand National Division events;

4 NASCAR Craftsman Truck Series events;

1 IRL event; and

2 NHRA national events.

All of the major events listed above were promoted by the Company during the first nine months of 2006, with the exception of a NASCAR Busch Series event at our Memphis facility, which was promoted in October 2006.

Additionally, the Company promoted a NASCAR Busch East Series event at Dover International Speedway in connection with its September NASCAR event weekend.

NOTE 3 Impairment Charges

Approximately one-third of our revenues is derived from the broadcast rights received through the arrangements that NASCAR has made with various broadcast media. On October 3, 2006, the Company received a letter from NASCAR in which NASCAR informed it of the amount of live broadcast revenue the industry expects to receive for each of the eight years beginning with the 2007 season under agreements that

NASCAR has reached with its various broadcast partners.

In the letter, NASCAR informed the Company that industry live broadcast revenue in 2007 will be \$505,000,000 for the NASCAR NEXTEL Cup Series, NASCAR Busch Series and NASCAR Craftsman Truck Series as compared with industry live broadcast revenue of approximately \$576,000,000 in 2006. The average for the new eight-year contract is \$560,000,000, a 40% increase over the average for the current six-year contract of \$400,000,000.

For the 2007 season, NASCAR will allocate the live broadcast revenue as follows: \$473,437,500 or 93.75% to the NASCAR NEXTEL Cup Series; \$29,037,500 or 5.75% to the NASCAR Busch Series; and \$2,525,000 or 0.50% to the NASCAR Craftsman Truck Series. The allocation for 2007 is not significantly different than it was for the six years in the current contract. NASCAR reserves the right in its sole discretion to make changes to this allocation in future years.

Management anticipated that the new contract would include an allocation of more of the broadcast revenue from the NASCAR NEXTEL Cup Series to the NASCAR Busch Series. The cash flows of the Company's three Midwest facilities, consisting of Nashville Superspeedway, Memphis Motorsports Park and Gateway International Raceway, are dependent upon sponsorship, admissions and the live broadcast revenue, and more specifically on the NASCAR Busch Series. Based on the fact that the allocation of live broadcast revenue for the NASCAR Busch Series was less than anticipated, we concluded that it was necessary for the Company to review the long-lived assets of each of its three Midwest facilities for impairment in accordance with Financial Accounting Standards Board (FASB) Statement No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. In accordance with FASB Statement No. 144, the recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the estimated undiscounted future cash flows expected to be generated by the asset. As a result of the recoverability test, the Company concluded that the carrying amount of each of its Midwest facilities exceeded the undiscounted cash flows.

If the carrying amount of the asset exceeds its fair value, then an impairment charge is recognized by the amount in which the carrying amount of the asset exceeds its fair value. Fair value of the asset is determined primarily by the estimated fair market values derived from outside independent valuations of the assets. The valuation methodology employed by our outside valuation consultants consisted of the cost approach, which gives specific consideration to the value of the land plus contributory value to the improvements. The long-lived assets deemed to be impaired consisted of track facilities. Based upon the cost approach utilized for the valuations, there is an assumption that these three facilities will continue to operate as racetracks and our intention is to continue operating them. These facilities have generated negative cash flows for several years and we expect that these negative cash flows will continue for the near future at a declining rate as we review the operations at these facilities and consider alternatives to reduce operating expenses and increase revenues. Based on the results of this analysis, the Company recorded non-cash impairment charges to write-down the carrying value of long-lived assets at its Midwest facilities to fair value, as follows.

	Carrying Value of	Fair Value of	Non-Cash
	Long-Lived Assets	Long-Lived Assets	Impairment Charges
Nashville	\$ 73,670,000	\$ 57,500,000	\$ 16,170,000
Memphis	20,582,000	12,700,000	7,882,000
Gateway	54,557,000	17,200,000	37,357,000
Total	\$ 148,809,000	\$ 87,400,000	\$ 61,409,000

The Company accounts for its goodwill in accordance with the provisions of FASB Statement No. 142, *Goodwill and Other Intangible Assets*. Goodwill is not amortized but is subject to an annual (or under certain circumstances more frequent) impairment test based on its estimated fair value. Based on the factors noted above related to the long-lived assets impairment, the Company completed an assessment of goodwill for potential impairment and determined that there is an impairment loss related to the goodwill balance of \$2,487,000 that is associated with its Midwest operations. As a result of this analysis, the Company also recorded, as of September 30, 2006, a non-cash impairment charge of \$2,487,000 to write-down to zero the carrying value of its goodwill.

Additionally, in October 2006 the Company authorized the sale of its corporate aircraft. The Company entered into an agreement of sale on October 27, 2006 that indicated that the fair value of the aircraft was less than its carrying value of \$4,792,000. As a result, the Company recorded a non-cash impairment charge of \$722,000 as of September 30, 2006. The Company anticipates the sale of its aircraft to be completed in the fourth quarter of 2006.

NOTE 4 Discontinued Operation

On June 10, 2005, the Company completed the sale of substantially all of the assets used by its wholly owned subsidiary Midwest Racing, Inc. f/k/a Grand Prix Association of Long Beach, Inc. (Midwest Racing) for \$15,132,000, net of transaction costs, resulting in a pre-tax gain on the sale of \$5,143,000. These assets were used to promote Midwest Racing's temporary circuit motorsports events and in its grandstand rental business. In accordance with FASB Statement No. 144, the results of operations for all of Midwest Racing's temporary circuit motorsports events and its grandstand rental business are reported as a discontinued operation and accordingly, the accompanying consolidated financial statements have been reclassified to report separately the assets, liabilities and operating results of this discontinued operation.

The following are the summarized results of operations for Midwest Racing's temporary circuit motorsports events and grandstand rental business:

	Nine Months Ended	
	September 30, 2005	
Revenues	\$	8,101,000
Loss from operations before income tax benefit	\$	(968,000)
Income tax benefit on operations	\$	338,000
Gain on sale, net of income taxes of \$3,912,000	\$	1,231,000
Earnings from discontinued operation	\$	601,000

The major classes of liabilities of the discontinued operation in the balance sheet are as follows:

	September 30, 2006	December 31, 2005
Accounts payable	\$	\$ 35,000
Accrued liabilities	103,000	109,000
Current liabilities of discontinued operation	\$ 103,000	\$ 144,000

As a result of the sale, the Company no longer promotes temporary circuit motorsports events and is no longer in the grandstand rental business.

For the nine months ended September 30, 2005, the Company has separately disclosed the operating and investing portions of the cash flows attributable to its discontinued operation, which were previously reported on a combined basis as a single amount.

NOTE 5 Summary of Significant Accounting Policies

Basis of consolidation and presentation The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. Intercompany transactions and balances have been eliminated.

Derivative instruments and hedging activities The Company is subject to interest rate risk on the variable component of the interest rate under its revolving credit agreement. Effective October 21, 2005, the Company entered into a \$37,500,000 interest rate swap agreement. The notional amount of the swap agreement decreased to \$30,000,000 on November 1, 2006, and decreases to \$20,000,000 on November 1, 2007 and to \$10,000,000 on November 1, 2008. The agreement terminates on November 1, 2009. The interest rate swap is being accounted for in accordance with the provisions of FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended by Statement Nos. 137, 138 and 149 and related interpretations. The Company has designated the interest rate swap as a cash flow hedge. Changes in the fair value of the effective portion of the interest rate swap are recognized in other comprehensive income (loss) until the hedged item is recognized in earnings. See NOTE 6 Indebtedness and NOTE 9 Financial Instruments for further discussion.

Property and equipment Property and equipment is stated at cost. Depreciation is provided for financial reporting purposes using the straight-line method. Accumulated depreciation was \$70,213,000 and \$63,159,000 as of September 30, 2006 and December 31, 2005, respectively.

Impairment of long-lived assets The Company evaluates its long-lived assets other than goodwill in accordance with the provisions of FASB Statement No. 144. Long-lived assets other than goodwill are assessed for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable. See NOTE 3 Impairment Charges for further discussion.

Revenue recognition The Company classifies its revenues as admissions, event-related, broadcasting and other. Admissions revenue includes ticket sales for all Company events. Event-related revenue includes amounts received from sponsorship fees; luxury suite rentals; hospitality tent rentals and catering; concessions and souvenir sales and vendor commissions for the right to sell concessions and souvenirs at our facilities; sales of programs; track rentals and other event-related revenues. Broadcasting revenue includes rights fees obtained for television and radio broadcasts of events held at the Company's speedways and ancillary rights fees. Other revenue includes other miscellaneous revenues.

Revenues pertaining to specific events are deferred until the event is held. Concession revenue from concession stand sales and sales of souvenirs are recorded at the time of sale. Revenues and related expenses from barter transactions in which the Company receives advertising or other goods or services in exchange for sponsorships of motorsports events are recorded at fair value in accordance with Emerging Issues Task Force (EITF) Issue No. 99-17, *Accounting for Advertising Barter Transactions*. Barter transactions accounted for \$600,000 and \$1,073,000, and \$589,000 and \$1,265,000 of total revenues for the three and nine-month periods ended September 30, 2006 and 2005, respectively.

We derive a substantial portion of our motorsports revenues from admissions and event-related revenue attributable to six NASCAR-sanctioned events at Dover, Delaware which are currently held in June and September.

Under the terms of the Company's sanction agreements, NASCAR retains 10% of the gross broadcast rights fees allocated to each NASCAR NEXTEL Cup Series or NASCAR Busch Series event as a component of its sanction fees and remits the remaining 90% to the event promoter, which the Company records as revenue. The event promoter is required to pay 25% of the gross broadcast rights fees to the event as part of the awards to the competitors, which the Company records as operating expenses.

Expense recognition Certain direct expenses pertaining to specific events, including prize and point fund monies and sanction fees paid to various sanctioning bodies, including NASCAR, advertising and other expenses associated with the promotion of our racing events are deferred until the event is held, at which point they are expensed.

The cost of non-event related advertising, promotion and marketing programs are expensed as incurred.

Advertising expenses were \$1,378,000 and \$2,594,000, and \$1,257,000 and \$2,469,000 for the three and nine-month periods ended September 30, 2006 and 2005, respectively.

Earnings per share Weighted average shares used in computing basic and diluted earnings per share (EPS) are as follows:

	Three Months Ended		Nine Months Ended	
	September 30, 2006	September 30, 2005	September 30, 2006	September 30, 2005
Basic EPS	36,003,000	39,407,000	36,033,000	39,851,000
Effect of dilutive securities		249,000		160,000
Diluted EPS	36,003,000	39,656,000	36,033,000	40,011,000

Dilutive securities include stock options and nonvested stock awards.

For the three and nine-month periods ended September 30, 2006, options to purchase 847,640 and 886,211 shares of common stock, respectively, were outstanding but not included in the computation of diluted EPS because the Company had a net loss and all outstanding options would have been anti-dilutive. In addition, as a result of the net loss for the three and nine-month periods ended September 30, 2006, 283,000 and 307,345 shares of nonvested stock awards, respectively, were not included in the computation of diluted EPS as they would also have been anti-dilutive. For the three and nine-month periods ended September 30, 2005, options to purchase 328,363 and 395,188 shares of common stock, respectively, were outstanding but not included in the computation of diluted EPS because the options' exercise prices were greater than the average market price of the common stock during the period.

Accounting for stock-based compensation Prior to January 1, 2006, the Company accounted for its stock-based compensation expense in accordance with Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations, pursuant to which the Company recognized compensation expense for its nonvested stock awards over the vesting period equal to the fair market value of the stock on the grant date. The Company was not required to recognize compensation expense related to its stock options as all options granted had an exercise price equal to the market value of the underlying common stock on the grant date.

Effective January 1, 2006, the Company adopted FASB Statement No. 123 (Revised 2004), *Share-Based Payment*. Statement No. 123R revises FASB Statement No. 123, *Accounting for Stock-Based Compensation*, and supercedes APB Opinion No. 25 and related interpretations. Statement No. 123R requires recognition of the cost of employee services received in exchange for an award of equity instruments in the financial statements over the period the employee is required to perform the services. The Company adopted Statement No. 123R using the modified prospective method. Under this method, the Company is required to record compensation expense for all awards granted after the date of adoption and for the unvested portion of previously granted awards that remain outstanding at the date of adoption. The Company calculates compensation expense for its stock options based upon the fair value at the grant date using the Black-Scholes option-pricing model. The modified prospective approach does not allow for the restatement of prior period amounts.

The Company recorded total stock-based compensation expense of \$79,000 and \$314,000, and \$45,000 and \$156,000 as general and administrative expenses for the three and nine-month periods ended September 30, 2006 and 2005, respectively. Total stock-based compensation expense of \$153,000 and \$531,000 would have been recorded as general and administrative expenses for the three and nine-month periods ended September 30, 2005, had the Company been subject to reporting under Statement No. 123R during that period. The Company's earnings before income taxes and net earnings for the three and nine-month periods ended September 30, 2006 were \$33,000 and \$144,000 lower than they would have been pursuant to the Company's previous accounting method for stock-based compensation, respectively. The Company recorded income tax benefits of \$20,000 and \$69,000, and \$17,000 and \$62,000 for the three and nine-month periods ended September 30, 2006 and 2005, respectively, related to its nonvested stock awards. The adoption of Statement No. 123R had no impact on basic and diluted earnings per share for the three and nine-month periods ended September 30, 2006.

Prior to the adoption of Statement No. 123R, the Company presented all tax benefits of deductions resulting from the vesting of nonvested stock awards and exercise of stock options as operating cash flows. Statement No. 123R requires the cash flows resulting from the tax benefits from tax deductions in excess of the compensation cost recognized for nonvested stock awards and options (Excess Tax Benefits) to be classified as financing cash flows. The adoption of Statement No. 123R had an immaterial effect on cash flows for the three and nine-month periods ended September 30, 2006.

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-Q

The following table illustrates the effect on net earnings and net earnings per common share if the Company had applied the fair-value recognition provisions of Statement No. 123R to stock-based employee compensation related to its stock options:

	Three Months Ended September 30, 2005	Nine Months Ended September 30, 2005
Net earnings, as reported	\$ 6,772,000	\$ 11,174,000
Add: Stock-based employee compensation expense included in reported net earnings, net of related tax effects	27,000	93,000
Deduct: Total stock-based employee compensation expense determined under fair-value based method for all awards, net of related tax effects	(136,000)	(469,000)
Pro forma net earnings	\$ 6,663,000	\$ 10,798,000
Net earnings per common share:		
Basic as reported	\$ 0.17	\$ 0.28
Basic pro forma	\$ 0.17	\$ 0.27
Diluted as reported	\$ 0.17	\$ 0.28
Diluted pro forma	\$ 0.17	\$ 0.27

The Company has a 1996 stock option plan (the 1996 Plan) which provided for the grant of stock options to its officers and key employees. Under the 1996 Plan, option grants had to have an exercise price of not less than 100% of the fair market value of the underlying shares of common stock at the date of the grant. Stock options for 804,596 shares of common stock were outstanding under the 1996 Plan as of September 30, 2006. The options have eight-year terms and generally vest equally over a period of six years from the date of grant. On December 12, 2005, the Company's Compensation and Stock Incentive Committee of the Board of Directors approved the accelerated vesting of unvested stock options held by the Company's employees with an exercise price of \$7.00 or higher, excluding those held by the Company's President and Chief Executive Officer. This accelerated vesting affected options for approximately 104,000 shares of the Company's common stock, all of which had exercise prices in excess of their market prices. The Company's Board of Directors has frozen the 1996 Plan and no additional option grants may be made under the 1996 Plan.

In April 2004, the Company established the 2004 Stock Incentive Plan (the 2004 Plan) which provides for the grant of up to 1,500,000 shares of our common stock to our officers and key employees through stock options and/or awards, such as nonvested stock awards, valued in whole or in part by reference to our common stock. The nonvested stock vests an aggregate of twenty percent each year beginning on the second anniversary date of the grant. The aggregate market value of the nonvested stock at the date of issuance is being amortized on a straight-line basis over the six-year service period. No stock options have been granted under the 2004 Plan. As of September 30, 2006, there were 1,195,243 shares available for granting options or stock awards under the 2004 Plan.

Stock Options

Stock option activity for the nine months ended September 30, 2006 was as follows:

	Number of Shares	Weighted Average Exercise Price	Weighted Remaining Contractual Term (in yrs)	Aggregate Intrinsic Value
Outstanding at December 31, 2005	917,087	\$ 5.72		
Forfeited	(54,000)	\$ 5.72		

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-Q

Expired	(58,491)	\$	6.63		
Outstanding at September 30, 2006	804,596	\$	5.66	2.9	\$ 259,498
Exercisable at September 30, 2006	625,404	\$	5.87	2.7	\$ 150,187

Nonvested stock option activity for the nine months ended September 30, 2006 was as follows:

	Number of	Weighted Average Grant Date
	Shares	Fair Value
Nonvested at December 31, 2005	294,825	\$ 3.27
Vested	(99,633)	\$ 3.77
Forfeited	(16,000)	\$ 2.27
 Nonvested at September 30, 2006	 179,192	 \$ 3.08

The Company recorded compensation expense of \$33,000 and \$144,000 related to stock options for the three and nine-month periods ended September 30, 2006. As of September 30, 2006, there was \$280,000 of total unrecognized compensation cost related to nonvested stock options granted to employees under the Company's stock incentive plans. That cost is expected to be recognized over a weighted-average period of 2.2 years.

Nonvested Stock Awards

Nonvested stock activity for the nine months ended September 30, 2006 was as follows:

	Number of	Weighted Average Grant Date
	Shares	Fair Value
Nonvested at December 31, 2005	212,000	\$ 5.01
Granted	120,000	\$ 6.25
Vested	(20,600)	\$ 4.16
Forfeited	(28,400)	\$ 5.61
 Nonvested at September 30, 2006	 283,000	 \$ 5.54

The Company recorded compensation expense of \$46,000 and \$170,000 related to nonvested stock awards for the three and nine-month periods ended September 30, 2006. As of September 30, 2006, there was \$1,259,000 of total deferred compensation cost related to nonvested stock awards granted to employees under the Company's stock incentive plans. That cost is expected to be recognized over a weighted-average period of 4.6 years.

Use of estimates The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements In June 2006, the FASB issued Interpretation No. 48 (FIN 48), *Accounting for Uncertainty in Income Taxes*. FIN 48 prescribes detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. Tax positions must meet a more-likely-than-not recognition threshold at the effective date to be recognized upon the adoption of FIN 48 and in subsequent periods. FIN 48 will be effective for fiscal years beginning after December 15, 2006 and the provisions of FIN 48 will be applied to all tax positions

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-Q

under Statement No. 109 upon initial adoption. The cumulative effect of applying the provisions of this interpretation will be reported as an adjustment to the opening balance of retained earnings for that fiscal year. The Company is currently evaluating the potential impact of FIN 48 on its consolidated financial statements.

In June 2006, the EITF issued EITF 06-3, *How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement (That Is, Gross versus Net Presentation)* to clarify diversity in practice on the presentation of different types of taxes in the financial statements. The Task Force concluded that, for taxes within the scope of the issue, a company may adopt a policy of presenting taxes either gross within revenue or net. That is, it may include charges to customers for taxes within revenues and the charge

for the taxes from the taxing authority within cost of sales, or, alternatively, it may net the charge to the customer and the charge from the taxing authority. If taxes subject to EITF 06-3 are significant, a company is required to disclose its accounting policy for presenting taxes and the amounts of such taxes that are recognized on a gross basis. The guidance in this consensus is effective for the first interim reporting period beginning after December 15, 2006. The Company will adopt EITF 06-3 as of January 1, 2007. The adoption of EITF 06-3 is not expected to have an impact on our consolidated financial statements.

In September 2006 the FASB issued Statement No. 157, *Fair Value Measurements*, which establishes a framework for measuring fair value and expands disclosures about fair value measurements. Statement No 157 applies under other accounting pronouncements that require or permit fair value measurements and, accordingly, Statement No. 157 does not require any new fair value measurements. Statement No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company will adopt Statement No. 157 as of January 1, 2008. The adoption of Statement No. 157 is not expected to have a significant impact on our consolidated financial statements.

In September 2006, the FASB issued Statement No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans—an amendment of FASB Statements No. 87, 88, 106 and 132(R)*, which requires an employer to (a) recognize in its statement of financial position an asset for a plan's overfunded status or a liability for a plan's underfunded status, (b) measure a plan's assets and its obligations that determine its funded status as of the end of the employer's fiscal year, and (c) recognize changes in the funded status of a defined postretirement plan in the year in which the changes occur (reported in comprehensive income). The requirement to recognize the funded status of a benefit plan and the disclosure requirements are effective as of the end of the fiscal year ending after December 15, 2006. The requirement to measure the plan assets and benefit obligations as of the date of the employer's fiscal year-end statement of financial position is effective for fiscal years ending after December 15, 2008. The adoption of this new accounting pronouncement will have an impact on our consolidated balance sheet; however, we cannot yet determine the amount of the impact. The adoption of Statement No. 158 will not have an impact on our 2006 consolidated statement of earnings or cash flows.

In September 2006, the SEC issued Staff Accounting Bulletin (SAB) No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements*, which provides interpretive guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a current year misstatement. The SEC staff believes that registrants should quantify errors using both a balance sheet and an income statement approach and evaluate whether either approach results in a misstatement that, when all relevant quantitative and qualitative factors are considered, is material and therefore must be quantified. The Company will adopt SAB No. 108 during the quarter ended December 31, 2006. The adoption of SAB No. 108 is not expected to have an impact on our consolidated financial statements.

NOTE 6 Indebtedness

Long-term debt consists of the following:

	September 30,	December 31,
	2006	2005
Notes payable to banks	\$ 43,000,000	\$ 49,100,000
SWIDA bonds	4,905,000	5,778,000
	47,905,000	54,878,000
Less current portion	(695,000)	(875,000)
	\$ 47,210,000	\$ 54,003,000

At September 30, 2006, the Company and all of its wholly owned subsidiaries, as co-borrowers, are parties to a \$73,000,000 unsecured revolving credit agreement, as amended effective May 8, 2006, with a bank group that expires July 1, 2008. Provisions of the credit agreement adjust it to \$65,000,000 on July 1, 2007. The facility provides for seasonal funding needs, capital improvements, letter of credit requirements and other general corporate purposes. Interest is based, at the Company's option, upon LIBOR plus a margin that varies between 125 and 200 basis points depending on the ratio of funded debt to earnings before interest, taxes, depreciation and amortization (the leverage ratio) or the base rate (the greater of the prime rate or the federal funds rate plus 0.5%) plus a margin that varies between -50 and +25 basis points depending on the leverage ratio, except that the base rate option is not available for

the portion of indebtedness equal to the notional amount under the interest rate swap agreement described below. The terms of the credit facility contain certain covenants including minimum tangible net worth, fixed charge coverage and maximum funded debt to earnings before interest, taxes, depreciation and amortization (EBITDA). The credit facility also provides that a default by the Company or any of its wholly owned subsidiaries under any other loan agreement would constitute a default under this credit facility.

As a result of recording the non-cash impairment charges for long-lived assets and goodwill, the Company would not have been in compliance with the minimum tangible net worth covenant as of September 30, 2006, but on November 8, 2006, the Company and its bank group amended the credit agreement to reduce the minimum tangible net worth covenant effective for the September 30, 2006 period and for all subsequent periods through the end of the agreement. As a result of the amendment, the Company was in compliance with the minimum tangible net worth covenant, and remained in compliance with all other covenants, as of September 30, 2006.

Material adverse changes in the Company's results of operations could impact its ability to maintain financial ratios necessary to satisfy these requirements. There was \$43,000,000 outstanding under the facility at September 30, 2006, at a weighted average interest rate of 6.7%. After consideration of stand-by letters of credit outstanding, borrowings of \$6,106,000 were available pursuant to the facility at September 30, 2006. Based on operating results to date and projected future results, the Company is expected to be in compliance with all of the covenants for all measurement periods over the next twelve months.

Effective October 21, 2005, the Company entered into an interest rate swap agreement that effectively converts \$37,500,000 of its variable-rate debt to a fixed-rate basis, thereby hedging against the impact of potential interest rate changes on future interest expense. The notional amount of the swap agreement decreased to \$30,000,000 on November 1, 2006, and decreases to \$20,000,000 on November 1, 2007 and to \$10,000,000 on November 1, 2008. The agreement terminates on November 1, 2009. Under this agreement, the Company pays a fixed interest rate of 4.74%. In return, the issuing lender refunds to the Company the variable-rate interest paid to the bank group under its revolving credit agreement on the same notional principal amount, excluding the margin that varies between 125 and 200 basis points depending on the leverage ratio.

In 1996, the Company's wholly owned subsidiary, Midwest Racing, entered into an agreement (the SWIDA loan) with Southwestern Illinois Development Authority (SWIDA) to receive the proceeds from the Taxable Sports Facility Revenue Bonds, Series 1996 (Gateway International Motorsports Corporation Project), a Municipal Bond Offering, in the aggregate principal amount of \$21,500,000, of which \$4,905,000 was outstanding at September 30, 2006. SWIDA loaned all of the proceeds from the Municipal Bond Offering to Midwest Racing for the purpose of the redevelopment, construction and expansion of Gateway International Raceway (Gateway), and the proceeds of the SWIDA loan were irrevocably committed to complete construction of Gateway, to fund interest, to create a debt service reserve fund and to pay for the cost of issuance of the bonds. The repayment terms and debt service reserve requirements of the bonds issued in the Municipal Bond Offering correspond to the terms of the SWIDA loan. The loan is being amortized through February 2014.

The Company has established certain restricted cash funds to meet debt service as required by the SWIDA loan, which are held by the trustee (BNY Trust Company of Missouri). At September 30, 2006, \$4,215,000 of the Company's cash balance was restricted by the SWIDA loan and is appropriately classified as a non-current asset in the accompanying consolidated balance sheet. The SWIDA loan is secured by a first mortgage lien on all the real property owned and a security interest in all property leased by Gateway. Also, the SWIDA loan is unconditionally guaranteed by Midwest Racing. The SWIDA loan bears interest at varying rates ranging from 8.75% to 9.25% with an effective rate of approximately 9%. Interest expense related to the SWIDA loan was \$112,000 and \$343,000, and \$407,000 and \$1,223,000 for the three and nine-month periods ended September 30, 2006 and 2005, respectively. On October 6, 2005, Midwest Racing redeemed \$11,908,000 of the outstanding SWIDA loan for \$14,587,000 (including a \$2,676,000 premium to the bondholders), plus accrued interest. The Company wrote-off \$495,000 of deferred bond costs as a result of the redemption. The redemption resulted in a loss on extinguishment of debt of \$3,174,000. An existing stand-by letter of credit was reduced to \$1,467,000 as a result of the redemption, which is secured by a trust deed on the Company's facilities in Memphis, Tennessee, and is available to satisfy debt service reserve fund obligations. In addition, a portion of the property taxes to be paid by Gateway (if any) to the City of Madison Tax Incremental Fund have been pledged to the annual retirement of debt and payment of interest.

NOTE 7 Pension Plans

The Company maintains a non-contributory tax qualified defined benefit pension plan. All of the Company's full time employees are eligible to participate in the qualified plan. Benefits provided by the Dover Motorsports, Inc. qualified pension plan are based on years of service and employees' remuneration over their employment with the Company. Pension costs are funded in accordance with the provisions of the Internal Revenue Code. The Company also maintains a non-qualified, non-contributory defined benefit pension plan for certain employees. This excess plan provides benefits that would otherwise be provided under the qualified pension plan but for maximum benefit and compensation limits applicable under federal tax law. The cost associated with the excess plan is determined using the same actuarial methods and assumptions as those used for the Company's qualified pension plan.

The components of net periodic pension cost are as follows:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2006	2005	2006	2005
Service cost	\$ 79,000	\$ 96,000	\$ 293,000	\$ 274,000
Interest cost	73,000	74,000	239,000	219,000
Expected return on plan assets	(102,000)	(83,000)	(284,000)	(234,000)
Recognized net actuarial loss	30,000	23,000	76,000	68,000
Net amortization	5,000	6,000	17,000	18,000
	\$ 85,000	\$ 116,000	\$ 341,000	\$ 345,000

The Company contributed \$750,000 to its pension plans during the first nine months of 2006, of which \$250,000 was contributed during the three-month period ended September 30, 2006. The Company expects to contribute \$1,000,000 to its plans for the year ended December 31, 2006.

NOTE 8 Stockholders' Equity

Changes in the components of stockholders' equity are as follows:

			(Accumulated	Accumulated		
	Class A	Additional	Deficit)	Other		
	Common	Common	Retained	Comprehensive	Deferred	
	Stock	Stock	Capital	Earnings	Loss	Compensation
Balance at December 31, 2005	\$ 1,650,000	\$ 1,992,000	\$ 101,757,000	\$ 9,453,000	\$ (737,000)	\$ (838,000)
Reclassification of deferred compensation upon adoption of Statement No. 123R			(838,000)			838,000
Net loss				(30,539,000)		
Dividends paid, \$0.045 per share				(1,637,000)		
Issuance of nonvested stock awards, net of forfeitures	9,000		(9,000)			
Stock-based compensation			314,000			
Excess tax benefit on stock awards			16,000			
Repurchases and retirement of common stock	(22,000)		(1,119,000)			
Change in fair value of interest rate swap, net of income taxes of \$70,000					102,000	
Other			(10,000)			

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-Q

Balance at September 30, 2006	\$ 1,637,000	\$ 1,992,000	\$ 100,111,000	\$ (22,723,000)	\$ (635,000)	\$
--------------------------------------	--------------	--------------	----------------	-----------------	--------------	----

On August 5, 2005, the Company's Board of Directors authorized the Company to commence a tender offer to purchase up to 1,706,543 shares of its common stock and up to 2,323,019 shares of its Class A common stock at a fixed price of \$7.00 per share. The offer expired on September 8, 2005. The Company purchased 1,706,543 shares of its common stock and 2,311,960 shares of its Class A common stock for \$28,518,000, including expenses, in connection with the tender offer.

On October 25, 2006, the Company's Board of Directors declared a quarterly cash dividend on both classes of common stock of \$0.015 per share. The dividend is payable on December 10, 2006 to shareholders of record at the close of business on November 10, 2006.

On July 28, 2004, the Company's Board of Directors authorized the repurchase of up to 2,000,000 shares of the Company's outstanding common stock. The purchases may be made in the open market or in privately negotiated transactions as conditions warrant. The repurchase authorization does not obligate the Company to acquire any specific number of shares and may be suspended at any time. During the nine months ended September 30, 2006, the Company purchased and retired 215,393 shares of its outstanding common stock pursuant to this plan at an average purchase price of \$5.11 per share, not including nominal brokerage commissions. No repurchases were made during the nine months ended September 30, 2005. At September 30, 2006, the Company had remaining repurchase authority of 1,784,607 shares.

During the first nine months of 2006, the Company purchased and retired 4,843 shares of its outstanding common stock at an average purchase price of \$6.03 per share. These purchases were made from employees and were not pursuant to the aforementioned repurchase plan.

On October 16, 2006, the Company purchased and retired 150,000 shares of its outstanding common stock pursuant to the above plan at an average purchase price of \$5.40 per share, not including nominal brokerage commissions.

NOTE 9 Financial Instruments

At September 30, 2006, there was \$43,000,000 outstanding under the Company's revolving credit agreement. The credit agreement bears interest at the Company's option, upon LIBOR plus a margin that varies between 125 and 200 basis points depending on the leverage ratio or the base rate (the greater of the prime rate or the federal funds rate plus 0.5%) plus a margin that varies between -50 and +25 basis points depending on the leverage ratio. Therefore, the Company is subject to interest rate risk on the variable component of the interest rate. The Company's risk management objective is to lock in the interest cash outflows on a portion of its debt. Effective October 21, 2005, the Company entered into a \$37,500,000 interest rate swap agreement effectively converting this portion of the outstanding borrowings under the revolving credit agreement to fixed-rate securities, thereby hedging against the impact of potential interest rate changes on future interest expense. The notional amount of the swap agreement decreased to \$30,000,000 on November 1, 2006, and decreases to \$20,000,000 on November 1, 2007 and to \$10,000,000 on November 1, 2008. The agreement terminates on November 1, 2009. The amount of the variable-rate debt designated as the hedged item will equal the amount of the swap over its term. Under this agreement, the Company pays a fixed interest rate of 4.74%. In return, the issuing lender refunds to the Company the variable-rate interest paid to the bank group under its revolving credit agreement on the same notional principal amount, excluding the margin that varies between 125 and 200 basis points depending on the leverage ratio. At September 30, 2006, the interest rate swap had a fair value of \$172,000. The borrowings under the Company's revolving credit agreement bear interest at the variable rate described above and therefore approximate fair value at September 30, 2006.

The carrying amount of financial instruments reported in the balance sheet for current assets and current liabilities approximates their fair value because of the short maturity of these instruments.

At September 30, 2006 and December 31, 2005, the Company's long-term debt had carrying values of \$4,905,000 and \$5,778,000, respectively, and estimated fair values of \$6,009,000 and \$7,078,000, respectively. The fair values were determined based on recent arms-length transactions.

NOTE 10 Related Party Transactions

During the three and nine-month periods ended September 30, 2006 and 2005, Dover Downs Gaming & Entertainment, Inc. (Gaming), a company related through common ownership, allocated costs of \$396,000 and \$1,226,000, and \$382,000 and \$1,233,000, respectively, to the Company for certain administrative and operating services. Additionally, the Company allocated costs of \$22,000 and \$95,000, and \$18,000 and \$62,000, respectively, to Gaming for the three and nine-month periods ended September 30, 2006 and 2005. The allocations were based on an analysis of each company's share of the costs. In connection with the Company's 2006 and 2005 NASCAR event weekends at Dover International Speedway, Gaming provided certain services, primarily catering, for which the Company was invoiced \$500,000 and \$961,000, and \$465,000 and \$910,000, during the three and nine-month periods ended September 30, 2006 and 2005, respectively. The Company invoiced Gaming \$149,000 and \$289,000, and \$121,000 and \$260,000 during the three and nine-month periods ended September 30, 2006, respectively, for tickets purchased to the 2006 and 2005 events and other event related items. As of September 30, 2006, the Company's consolidated balance sheet includes a \$32,000 payable to Gaming for the aforementioned items. The Company has since settled the payable in the fourth quarter of 2006. The net costs incurred by each company for these services are not necessarily indicative of the costs that would have been incurred if the companies had been unrelated entities and/or had otherwise independently managed these functions; however, management believes that these costs are reasonable.

Use by Gaming of the Company's 5/8-mile harness racing track is under an easement granted by the Company which does not require the payment of any rent. Under the terms of the easement, Gaming has exclusive use of the harness track during the period beginning November 1 of each year and ending April 30 of the following year, together with set up and tear down rights for the two weeks before and after such period. The harness track is located on property owned by the Company and is on the inside of its one-mile motorsports superspeedway. Gaming's indoor grandstands are used by the Company at no charge in connection with its motorsports events. The Company also leases its principal executive office space from Gaming. Various easements and agreements relative to access, utilities and parking have also been entered into between the Company and Gaming relative to their respective Dover, Delaware facilities.

Henry B. Tippie, Chairman of the Company's Board of Directors, controls in excess of fifty percent of the voting power of the Company. This means that Mr. Tippie has the ability to determine the outcome of the election of directors at the Company and to determine the outcome of many significant corporate transactions, many of which only require the approval of a majority of the Company's voting power.

Mr. Tippie's voting control with respect to the Company emanates from his direct and indirect holdings of Common Stock and Class A Common Stock, from his status as executor of the estate of John W. Rollins, the Company's largest stockholder, and from certain shares as to which he has voting rights pursuant to a voting agreement with R. Randall Rollins, one of our directors. As of September 30, 2006, Mr. Tippie has control over approximately 52.3% of the voting power of the Company. Mr. Tippie also controls in excess of fifty percent of the voting power of Gaming.

Patrick J. Bagley, Kenneth K. Chalmers, Denis McGlynn, Jeffrey W. Rollins, John W. Rollins, Jr., R. Randall Rollins and Henry B. Tippie are all Directors of the Company and Gaming. Denis McGlynn is the President and Chief Executive Officer of both companies and Klaus M. Belohoubek is the Senior Vice President - General Counsel and Secretary of both companies.

NOTE 11 Commitments and Contingencies

In September 1999, the Sports Authority of the County of Wilson (Tennessee) issued \$25,900,000 in Variable Rate Tax Exempt Infrastructure Revenue Bonds, Series 1999, to acquire, construct and develop certain public infrastructure improvements which benefit the operation of Nashville Superspeedway, of which \$23,500,000 was outstanding at September 30, 2006. Principal payments range from \$500,000 in September 2006 to \$1,600,000 in 2029 and are payable solely from sales taxes and incremental property taxes generated from the facility. These bonds are direct obligations of the Sports Authority and are therefore not recorded on the accompanying consolidated balance sheet. If the sales taxes and incremental property taxes are insufficient for the payment of principal and interest on the bonds, the Company would become responsible for the difference. In the event the

Company was unable to make the payments, they would be made pursuant to a \$23,894,000 irrevocable direct-pay letter of credit issued by the existing bank group. The Company is exposed to fluctuations in interest rates for these bonds. A significant increase in interest rates could result in the Company being responsible for debt service payments not covered by the sales and incremental property taxes generated from the facility.

The Company believes that the sales taxes and incremental property taxes generated from the facility will continue to satisfy the necessary debt service requirements of the bonds. As of September 30, 2006 and December 31, 2005, \$744,000 and \$734,000, respectively, was available in the sales and incremental property tax fund maintained by the Sports Authority to pay the remaining principal and interest due under the bonds. During the first nine months of 2006, \$1,117,000 was paid by the Company into the sales and incremental property tax fund and \$1,107,000 was deducted from the fund for principal and interest payments and to reimburse the Company for fees associated with maintaining the letter of credit. If the debt service is not satisfied from the sales and incremental property taxes generated from the facility, the bonds would become a liability of the Company. If we fail to maintain the letter of credit that secures the bonds or we allow an uncured event of default to exist under our reimbursement agreement relative to the letter of credit, the bonds would be immediately redeemable.

The Company has employment, severance and noncompete agreements with certain of its officers and directors under which certain change of control, severance and noncompete payments and benefits might become payable but only in the event of a change in control of the Company, defined to include a tender offer or the closing of a merger or similar corporate transactions. In the event of such a change in control of the Company and the subsequent termination of employment of all employees covered under these agreements, the maximum contingent liability would be \$6,416,000.

The Company is also a party to ordinary routine litigation incidental to its business. Management does not believe that the resolution of any of these matters is likely to have a material adverse effect on our results of operations, financial condition or cash flows.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion is based upon and should be read in conjunction with the consolidated financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q.

The Company classifies its revenues as admissions, event-related, broadcasting and other. Admissions revenue includes ticket sales for all Company events. Event-related revenue includes amounts received from sponsorship fees; luxury suite rentals; hospitality tent rentals and catering; concessions and souvenir sales and vendor commissions for the right to sell concessions and souvenirs at our facilities; sales of programs; track rentals and other event-related revenues. Broadcasting revenue includes rights fees obtained for television and radio broadcasts of events held at the Company's speedways and ancillary rights fees. Other revenue includes other miscellaneous revenues.

Revenues pertaining to specific events are deferred until the event is held. Concession revenue from concession stand sales and sales of souvenirs are recorded at the time of sale. Revenues and related expenses from barter transactions in which the Company receives advertising or other goods or services in exchange for sponsorships of motorsports events are recorded at fair value in accordance with Emerging Issues Task Force (EITF) Issue No. 99-17, *Accounting for Advertising Barter Transactions*. Barter transactions accounted for \$600,000 and \$1,073,000, and \$589,000 and \$1,265,000 of total revenues for the three and nine-month periods ended September 30, 2006 and 2005, respectively.

Expenses that are not directly related to a specific event are recorded as incurred. Expenses that specifically relate to an event are deferred until the event is held, at which time they are expensed. Our expenses include prize and point fund monies and sanction fees paid to various sanctioning bodies, including NASCAR, labor, advertising, cost of goods sold for merchandise and souvenirs, and other expenses associated with the promotion of our racing events.

Results of Operations

Three Months Ended September 30, 2006 vs. Three Months Ended September 30, 2005

Admissions revenue was \$17,437,000 in the third quarter of 2006 as compared to \$18,427,000 in the third quarter of 2005. The Company promoted seven major events during the third quarter of 2006 and 2005. The \$990,000 decrease resulted from lower admissions revenue at five of the seven major events promoted by the Company in the third quarter of 2006 as compared to the same period in the prior year, primarily due to a decrease in attendance.

Event-related revenue was \$11,497,000 in the third quarter of 2006 as compared to \$12,625,000 in the third quarter of 2005. The \$1,128,000 decrease was primarily due to the lack of a title sponsor for the Company's September NEXTEL Cup Series event at Dover International Speedway.

Broadcasting revenue was \$13,453,000 in the third quarter of 2006 as compared to \$11,618,000 in the third quarter of 2005. The increase resulted primarily from higher television broadcasting rights related to the Company's NASCAR sanctioned events promoted during the third quarter of 2006. Pursuant to the terms of the Company's sanction agreements, NASCAR retains 10% of the gross broadcast rights fees allocated to each NASCAR NEXTEL Cup Series or NASCAR Busch Series event as a component of its sanction fees and remits the remaining 90% to the event promoter, which the Company records as revenue.

Operating and marketing expenses were \$24,095,000 in the third quarter of 2006 as compared to \$23,436,000 in the third quarter of 2005. The \$659,000 increase primarily related to higher operating and marketing expenses at the Company's major motorsports events, most notably an increase in contractually specified sanction fees and purse expenses.

During the third quarter of 2006, the Company reviewed the long-lived assets of each of its three Midwest facilities for impairment. Based on the results of this analysis, the Company recorded non-cash impairment charges of \$16,170,000, \$7,882,000 and \$37,357,000 to write-down the carrying value of long-lived assets at its Nashville, Memphis and Gateway facilities, respectively, to fair value. Based on the factors related to the long-lived assets impairment, the Company completed an assessment of goodwill for potential impairment and has determined that there is an impairment loss related to the goodwill balance of \$2,487,000 that is associated with the Midwest operations. As a result of this analysis, the Company recorded a non-cash impairment charge of \$2,487,000 to write-down to zero the carrying value of its goodwill. Additionally, the Company entered into an agreement of sale on October 27, 2006 that indicated that the fair value of its corporate aircraft was less than its carrying value of \$4,792,000. As a result, the Company recorded a non-cash impairment charge of \$722,000 as of September 30, 2006, to write-down the carrying amount of its corporate aircraft to fair value.

General and administrative expenses were \$3,224,000 in the third quarter of 2006 as compared to \$3,324,000 in the third quarter of 2005. The \$100,000 decrease resulted primarily from lower wages and benefits costs, and a reduction in real estate taxes at the Company's Nashville Superspeedway facility. Partially offsetting these decreases was an increase in stock-based compensation expense from the adoption of FASB Statement No. 123R effective January 1, 2006.

Depreciation and amortization expense remained consistent between the third quarter of 2006 and the third quarter of 2005 at \$2,392,000 and \$2,386,000, respectively.

Net interest expense was \$935,000 in the third quarter of 2006 as compared to \$740,000 in the third quarter of 2005. The increase resulted from the Company's higher average outstanding borrowings on its credit facilities during the third quarter of 2006 as compared to the third quarter of 2005 used to primarily fund our self tender in the third quarter of 2005.

The loss from continuing operations before income tax benefit was \$52,823,000 in the third quarter of 2006 as compared to earnings from continuing operations before income tax expense of \$12,936,000 in the third quarter of 2005. The loss resulted from the aforementioned non-cash impairment charges of \$64,618,000. Excluding the non-cash impairment charges, the Company's adjusted earnings from continuing operations before income tax expense were \$11,795,000 in the third quarter of 2006.

Loss from continuing operations before income tax benefit	\$ (52,823,000)
Non-cash impairment charges	64,618,000
Adjusted earnings from continuing operations before income tax expense	\$ 11,795,000

The Company's adjusted earnings from continuing operations before income tax expense for the third quarter of 2006 were lower than its earnings from continuing operations before income tax expense from the same period in the prior year as a result of lower admissions and event related revenue, higher operating and marketing expenses and higher net interest expense. These items were partially offset by the higher television broadcasting rights related to the Company's NASCAR sanctioned events promoted during the third quarter of 2006, as well as lower general and administrative expenses.

The Company's effective income tax rates related to continuing operations for the third quarter ended September 30, 2006 and 2005 were 34.7% and 47.6%, respectively. The decrease in the effective income tax rate from the comparable period in the prior year is due primarily to the fact that the recording of the non-cash impairment charges during the third quarter resulted in minimal state income tax benefit based upon the valuation allowances that the Company has recorded in connection with state net operating loss carryforwards.

Nine Months Ended September 30, 2006 vs. Nine Months Ended September 30, 2005

Admissions revenue was \$34,135,000 in the first nine months of 2006 as compared to \$36,383,000 in the first nine months of 2005. The Company promoted fourteen major events during the first nine months of 2006 and 2005. The \$2,248,000 decrease resulted from lower admissions revenue at nine of the fourteen major events promoted by the Company in the first nine months of 2006 as compared to the same period in the prior year, primarily due to a decrease in attendance.

Event-related revenue was \$24,304,000 in the first nine months of 2006 as compared to \$25,444,000 in the first nine months of 2005. The \$1,140,000 decrease was primarily due to the lack of a title sponsor for the Company's September NEXTEL Cup Series event at Dover International Speedway.

Broadcasting revenue was \$29,697,000 in the first nine months of 2006 as compared to \$25,619,000 in the first nine months of 2005. The increase resulted primarily from higher television broadcasting rights related to the Company's NASCAR sanctioned events promoted during the first nine months of 2006. Pursuant to the terms of the Company's sanction agreements, NASCAR retains 10% of the gross broadcast rights fees allocated to each NASCAR NEXTEL Cup Series or NASCAR Busch Series event as a component of its sanction fees and remits the remaining 90% to the event promoter, which the Company records as revenue.

Operating and marketing expenses were \$49,585,000 in the first nine months of 2006 as compared to \$48,366,000 in the first nine months of 2005. The \$1,219,000 increase primarily related to higher operating and marketing expenses at the Company's major motorsports events, most notably an increase in contractually specified sanction fees and purse expenses.

During the third quarter of 2006, the Company reviewed the long-lived assets of each of its three Midwest facilities for impairment. Based on the results of this analysis, the Company recorded non-cash impairment charges of \$16,170,000, \$7,882,000 and \$37,357,000 to write-down the carrying value of long-lived assets at its Nashville, Memphis and Gateway facilities, respectively, to fair value. Based on the factors related to the long-lived assets impairment, the Company completed an assessment of goodwill for potential impairment and has determined that there is an impairment loss related to the goodwill balance of \$2,487,000 that is associated with the Midwest operations. As a result of this analysis, the Company recorded a non-cash impairment charge of \$2,487,000 to

write-down to zero the carrying value of its goodwill. Additionally, the Company entered into an agreement of sale on October 27, 2006 that indicated that the fair value of its corporate aircraft was less than its carrying value of \$4,792,000. As a result, the Company recorded a non-cash impairment charge of \$722,000 as of September 30, 2006, to write-down the carrying amount of its corporate aircraft to fair value.

General and administrative expenses were \$9,416,000 in the first nine months of 2006 as compared to \$9,714,000 in the first nine months of 2005. The \$298,000 decrease resulted primarily from lower wages and benefits costs and investor relations expenses, and a reduction in real estate taxes at the Company's Nashville Superspeedway facility. Partially offsetting these decreases was an increase in stock-based compensation expense from the adoption of FASB Statement No. 123R effective January 1, 2006.

Depreciation and amortization expense remained consistent between the first nine months of 2006 and the first nine months of 2005 at \$7,172,000 and \$7,053,000, respectively.

Net interest expense was \$3,198,000 in the first nine months of 2006 as compared to \$2,417,000 in the first nine months of 2005. The increase resulted from the Company's higher average outstanding borrowings on its credit facilities during the first nine months of 2006 as compared to the first nine months of 2005 used to primarily fund our self tender in the third quarter of 2005.

The loss from continuing operations before income tax benefit was \$45,744,000 in the first nine months of 2006 as compared to earnings from continuing operations before income tax expense of \$20,199,000 in the first nine months of 2005. The loss resulted from the aforementioned non-cash impairment charges of \$64,618,000. Excluding the non-cash impairment charges, the Company's adjusted earnings from continuing operations before income tax expense were \$18,874,000 in the first nine months of 2006.

Loss from continuing operations before income tax benefit	\$ (45,744,000)
Non-cash impairment charges	64,618,000
Adjusted earnings from continuing operations before income tax expense	\$ 18,874,000

The Company's adjusted earnings from continuing operations before income tax expense for the first nine months of 2006 were lower than its earnings from continuing operations before income tax expense from the same period in the prior year as a result of lower admissions and event related revenue, higher operating and marketing expenses and higher net interest expense. These items were partially offset by the higher television broadcasting rights related to the Company's NASCAR sanctioned events promoted during the first nine months of 2006, as well as lower general and administrative expenses.

The Company's effective income tax rates related to continuing operations for the nine months ended September 30, 2006 and 2005 were 33.2% and 47.7%, respectively. The decrease in the effective income tax rate from the comparable period in the prior year is due primarily to the fact that the recording of the non-cash impairment charges during the third quarter resulted in minimal state income tax benefit based upon the valuation allowances that the Company has recorded in connection with state net operating loss carryforwards.

Liquidity and Capital Resources

The Company's operations are seasonal in nature with a majority of its motorsports events occurring during the second and third quarters. However, the Company's cash flows from operating activities are more evenly spread throughout the year, primarily due to the impact of advance ticket sales and other event-related cash receipts, such as sponsorship and luxury suite rentals. The non-cash impairment charges recorded by the Company in the third quarter of 2006 had no impact on its liquidity and the Company expects no impact on its liquidity for the year ended December 31, 2006 as a result of recording these charges. As discussed in NOTE 3 Impairment Charges of the consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q, the cost approach utilized for the valuation of our Midwest facilities long-lived assets assumed that these three facilities will continue to operate as racetracks and our intention is to continue operating them. These facilities generated negative cash flows for several years and we expect that these negative cash flows will continue for the near future at a declining

rate as we review the operations at these facilities and consider alternatives to reduce operating expenses and increase revenues.

Net cash provided by operating activities of continuing operations was \$14,172,000 for the nine months ended September 30, 2006 as compared to \$16,591,000 for the nine months ended September 30, 2005. The decrease was primarily due to working capital changes, deferred income taxes, as well as, the timing of invoicing to and receipts from customers, partially offset by the timing of invoicing from and payments to vendors.

Net cash used in investing activities of continuing operations was \$3,985,000 for the nine months ended September 30, 2006 as compared to net cash provided by investing activities of continuing operations of \$6,904,000 for the nine months ended September 30, 2005. Capital expenditures were \$2,970,000 in the first nine months of 2006, down from \$8,582,000 in the first nine months of 2005. The 2006 additions related primarily to preliminary architectural and engineering work for new luxury skybox suites and the renovation of other fan amenities at the Dover facility and major equipment purchases at most of our facilities. The 2005 additions related primarily to the purchase of property adjacent to our Dover facility and the installation of SAFER barriers at the Company's tracks. Proceeds from the sale of assets of our Midwest Racing subsidiary, net of transaction costs, were \$15,132,000 in the first nine months of 2005.

Net cash used in financing activities of continuing operations was \$9,906,000 for the nine months ended September 30, 2006 as compared to \$18,784,000 for the nine months ended September 30, 2005. The Company made net repayments on its outstanding line of credit of \$6,100,000 during the first nine months of 2006 as compared to net borrowings of \$11,600,000 during the same period in the prior year primarily to fund stock repurchases under our self tender of \$28,518,000. The Company paid \$1,637,000 in quarterly cash dividends for the nine months ended September 30, 2006 as compared to \$1,411,000 for the nine months ended September 30, 2005. During the nine months ended September 30, 2006, the Company purchased and retired 220,236 shares of its outstanding common stock at an average purchase price of \$5.13 per share, not including nominal brokerage commissions.

On October 16, 2006, the Company purchased and retired 150,000 shares of its outstanding common stock pursuant to the above plan at an average purchase price of \$5.40 per share, not including nominal brokerage commissions.

On October 25, 2006, the Company's Board of Directors declared a quarterly cash dividend on both classes of common stock of \$0.015 per share. The dividend is payable on December 10, 2006 to shareholders of record at the close of business on November 10, 2006.

At September 30, 2006, the Company and all of its wholly owned subsidiaries, as co-borrowers, are parties to a \$73,000,000 unsecured revolving credit agreement, as amended effective May 8, 2006, with a bank group that expires July 1, 2008. Provisions of the credit agreement adjust it to \$65,000,000 on July 1, 2007. The facility provides for seasonal funding needs, capital improvements, letter of credit requirements and other general corporate purposes. Interest is based, at the Company's option, upon LIBOR plus a margin that varies between 125 and 200 basis points depending on the ratio of funded debt to earnings before interest, taxes, depreciation and amortization (the leverage ratio) or the base rate (the greater of the prime rate or the federal funds rate plus 0.5%) plus a margin that varies between -50 and +25 basis points depending on the leverage ratio, except that the base rate option is not available for the portion of indebtedness equal to the notional amount under the interest rate swap agreement described below. The terms of the credit facility contain certain covenants including minimum tangible net worth, fixed charge coverage and maximum funded debt to earnings before interest, taxes, depreciation and amortization (EBITDA). The credit facility also provides that a default by the Company or any of its wholly owned subsidiaries under any other loan agreement would constitute a default under this credit facility.

As a result of recording the non-cash impairment charges for long-lived assets and goodwill, the Company would not have been in compliance with the minimum tangible net worth covenant as of September 30, 2006, but on November 8, 2006, the Company and its bank group amended the credit agreement to reduce the minimum tangible net worth covenant effective for the September 30, 2006 period and for all subsequent periods through the end of the agreement. As a result of the amendment, the Company was in compliance with the minimum tangible net worth covenant, and remained in compliance with all other covenants, as of September 30, 2006.

Material adverse changes in the Company's results of operations could impact its ability to maintain financial ratios necessary to satisfy these requirements. There was \$43,000,000 outstanding under the facility at September 30, 2006, at a weighted average interest rate of 6.7%. After consideration of stand-by letters of credit outstanding, borrowings of \$6,106,000 were available pursuant to the facility at September 30, 2006. Based on operating results to date and projected future results, the Company is expected to be in compliance with all of the covenants for all measurement periods over the next twelve months.

Under the terms of the Company's sanction agreements, NASCAR retains 10% of the gross broadcast rights fees allocated to each NASCAR NEXTEL Cup Series or NASCAR Busch Series event as a component of its sanction fees and remits the remaining 90% to the event promoter, which the Company records as revenue. In accordance with the sanction agreements, NASCAR remits one-third of the broadcast rights fees to the Company 30 days prior to an event and the remaining two-thirds within 30 days after an event. On October 24, 2006, the Company received \$7,811,000 from NASCAR related to television broadcast rights fees in connection with its September 2006 NASCAR event weekend at Dover International Speedway, the majority of which the Company used to pay down amounts outstanding on its line of credit.

Industry-wide live broadcast revenue will be approximately 12% lower in 2007 than it was in 2006. Although the Company does not yet have its 2007 sanction agreements from NASCAR, it expects a similar percentage reduction in its live broadcast revenues in 2007, which will have some impact on its liquidity in the form of lower cash receipts from broadcasting.

Effective October 21, 2005, the Company entered into an interest rate swap agreement that effectively converts \$37,500,000 of its variable-rate debt to a fixed-rate basis, thereby hedging against the impact of potential interest rate changes. The notional amount of the swap agreement decreased to \$30,000,000 on November 1, 2006, and decreases to \$20,000,000 on November 1, 2007 and to \$10,000,000 on November 1, 2008. The agreement terminates on November 1, 2009. Under this agreement, the Company pays a fixed interest rate of 4.74%. In return, the issuing lender refunds to the Company the variable-rate interest paid to the bank group under its revolving credit agreement on the same notional principal amount, excluding the margin that varies between 125 and 200 basis points depending on the leverage ratio.

Cash provided by operating activities, less maintenance of a dividend, if any, is expected to generate between \$15,000,000-\$18,000,000 in excess cash in 2006. Based on current business conditions, the Company expects to spend approximately \$6,000,000-\$8,000,000 on capital expenditures during 2006. These expenditures primarily relate to the construction of new luxury skybox suites and renovations to existing skybox suites at the Dover facility and other fan amenities. On May 24, 2006, the Company announced plans for a five-year capital improvement project, referred to as the Monster Makeover, that will provide new offerings and upgraded amenities for fans, competitors and the media. The project is expected to take five years to complete at an estimated total cost of approximately \$25,000,000, of which \$920,000 was spent as of September 30, 2006. Additionally, the Company contributed \$750,000 to its pension plans during the first nine months of 2006, of which \$250,000 was contributed during the three-month period ended September 30, 2006. The Company expects to contribute \$1,000,000 to its plans for the year ended December 31, 2006. We expect continued cash flows from operating activities and funds available from our credit agreement to provide for our working capital needs and capital spending requirements at least through the next twelve months, as well as any cash dividends our Board of Directors may declare, and also provide for our long-term liquidity.

Related Party Transactions

See NOTE 10 Related Party Transactions of the consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q.

Contractual Obligations

During the fourth quarter of 2006, the Company is scheduled to promote a NASCAR Busch Series event which requires the payment of approximately \$1,425,000 for contractual sanction fees and purses to the sanctioning body. This same agreement requires the sanctioning body to pay to the Company approximately \$700,000 for television broadcast rights fees during the fourth quarter of 2006.

In September 1999, the Sports Authority of the County of Wilson (Tennessee) issued \$25,900,000 in Variable Rate Tax Exempt Infrastructure Revenue Bonds, Series 1999, to acquire, construct and develop certain public infrastructure improvements which benefit the operation of Nashville Superspeedway, of which \$23,500,000 was outstanding at September 30, 2006. Principal payments range from \$500,000 in September 2006 to \$1,600,000 in 2029 and are payable solely from sales taxes and incremental property taxes generated from the facility. These bonds are direct obligations of the Sports Authority and are therefore not recorded on the Company's consolidated balance sheet. If the sales taxes and incremental property taxes are insufficient for the payment of principal and interest on the bonds, the Company would become responsible for the difference. In the event the Company was unable to make the payments, they would be made pursuant to a \$23,894,000 irrevocable direct-pay letter of credit issued by the existing bank group.

The Company believes that the sales taxes and incremental property taxes generated from the facility will continue to satisfy the necessary debt service requirements of the bonds. As of September 30, 2006 and December 31, 2005, \$744,000 and \$734,000, respectively, was available in the sales and incremental property tax fund maintained by the Sports Authority to pay the remaining principal and interest due under the bonds. During the first nine months of 2006, \$1,117,000 was paid by the Company into the sales and incremental property tax fund and \$1,107,000 was deducted from the fund for principal and interest payments and to reimburse the Company for fees associated with maintaining the letter of credit. If the debt service is not satisfied from the sales and incremental property taxes generated from the facility, the bonds would become a liability of the Company. If we fail to maintain the letter of credit that secures the bonds or we allow an uncured event of default to exist under our reimbursement agreement relative to the letter of credit, the bonds would be immediately redeemable.

In 1996, the Company's wholly owned subsidiary, Midwest Racing, entered into an agreement with SWIDA to receive the proceeds from the Taxable Sports Facility Revenue Bonds, Series 1996 (Gateway International Motorsports Corporation Project), a Municipal Bond Offering, in the aggregate principal amount of \$21,500,000, of which \$4,905,000 was outstanding at September 30, 2006. SWIDA loaned all of the proceeds from the Municipal Bond Offering to Midwest Racing for the purpose of the redevelopment, construction and expansion of Gateway, and the proceeds of the SWIDA loan were irrevocably committed to complete construction of Gateway, to fund interest, to create a debt service reserve fund and to pay for the cost of issuance of the bonds. The repayment terms and debt service reserve requirements of the bonds issued in the Municipal Bond Offering correspond to the terms of the SWIDA loan. The loan is being amortized through February 2014.

The Company has established certain restricted cash funds to meet debt service as required by the SWIDA loan, which are held by the trustee (BNY Trust Company of Missouri). At September 30, 2006, \$4,215,000 of the Company's cash balance was restricted by the SWIDA loan and is appropriately classified as a non-current asset in the Company's consolidated balance sheet. The SWIDA loan is secured by a first mortgage lien on all the real property owned and a security interest in all property leased by Gateway. Also, the SWIDA loan is unconditionally guaranteed by Midwest Racing. The SWIDA loan bears interest at varying rates ranging from 8.75% to 9.25% with an effective rate of approximately 9%. Interest expense related to the SWIDA loan was \$112,000 and \$343,000, and \$407,000 and \$1,223,000 for the three and nine-month periods ended September 30, 2006 and 2005, respectively. On October 6, 2005, Midwest Racing redeemed \$11,908,000 of the outstanding SWIDA loan for \$14,587,000 (including a \$2,676,000 premium to the bondholders), plus accrued interest. The Company wrote-off \$495,000 of deferred bond costs as a result of the redemption. The redemption resulted in a loss on extinguishment of debt of \$3,174,000. An existing stand-by letter of credit was reduced to \$1,467,000 as a result of the redemption, which is secured by a trust deed on the Company's facilities in Memphis, Tennessee, and is available to satisfy debt service reserve fund obligations. In addition, a portion of the property taxes to be paid by Gateway (if any) to the City of Madison Tax Incremental Fund have been pledged to the annual retirement of debt and payment of interest.

Critical Accounting Policies

The accounting policies described below are those the Company considers critical in preparing its consolidated financial statements. These policies include significant estimates made by management using information available at the time the estimates are made. However, as described below, these estimates could change materially if different information or assumptions were used.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating losses. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment date. The Company records a valuation allowance to reduce its deferred tax assets to the amount that is more likely than not to be realized. Currently, the Company maintains a valuation allowance, which increased by \$2,551,000 in the third quarter of 2006 to \$6,532,000, on deferred tax assets related to certain state net operating loss carry-forwards. The Company has considered ongoing prudent and feasible tax planning strategies in assessing the need for a valuation allowance. In the event the Company were to determine that it would be able to realize all or a portion of these deferred tax assets, an adjustment to the valuation allowance would increase earnings in the period such determination was made. Likewise, should the Company determine that it would not be able to realize all or a portion of its remaining deferred tax assets in the future, an adjustment to the valuation allowance would be charged to earnings in the period such determination was made.

Property and Equipment

Property and equipment are recorded at cost. Depreciation is provided for financial reporting purposes using the straight-line method over estimated useful lives ranging from 5 to 10 years for furniture, fixtures and equipment and up to 40 years for facilities. These estimates require assumptions that are believed to be reasonable. The Company performs reviews for impairment of long-lived assets whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. An impairment loss is measured as the amount by which the carrying amount of the asset exceeds its fair value. Generally, fair value is determined using valuation techniques such as the present value of future cash flows and the use of outside independent valuations, as appropriate. See NOTE 3 Impairment Charges of the consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for further discussion.

Recent Accounting Pronouncements

See NOTE 5 Summary of Significant Accounting Policies of the consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for a description of recent accounting pronouncements including the respective expected dates of adoption and effects on results of operations, financial condition and cash flows.

Factors That May Affect Operating Results; Forward-Looking Statements

In addition to historical information, this Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, relating to our financial condition, profitability, liquidity, resources, business outlook, proposed acquisitions, market forces, corporate strategies, consumer preferences, contractual commitments, legal matters, capital requirements and other matters. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements. To comply with the terms of the safe harbor, we note that a variety of factors could cause our actual results and experience to differ substantially from the anticipated results or other expectations expressed in our forward-looking statements. When words and expressions such as: believes, expects, anticipates, estimates, plans, intends, objectives, goals, aims, projects, forecasts, possible, seeks, may, could, enable or similar words or expressions are used in this document, as well as statements containing phrases such as in our view, there can be no assurance, although no assurance can be given or there is no way to anticipate with certainty, forward-looking statements are being made.

Various risks and uncertainties may affect the operation, performance, development and results of our business and could cause future outcomes to differ materially from those set forth in our forward-looking statements, including the following factors:

stability and viability of sanctioning bodies;

success of or changes in our growth strategies;

development and potential acquisition of new facilities;

anticipated trends in the motorsports industry;

patron demographics;

obtaining favorable contracts relative to sponsorships, event sanctions and broadcast rights;

relationships with sanctioning bodies, sponsors, broadcast media, drivers and teams;

general market and economic conditions, including consumer and corporate spending sentiment;

ability to finance future business requirements;

the availability of adequate levels of insurance;

ability to successfully integrate acquired companies and businesses;

management retention and development;

changes in Federal, state and local laws and regulations, including environmental regulations;

the effect of weather conditions on outdoor event attendance;

military or other government actions;

availability of air travel; and

national or local catastrophic events.

We undertake no obligation to publicly update or revise any forward-looking statements as a result of future developments, events or conditions. New risk factors emerge from time to time and it is not possible for us to predict all such risk factors, nor can we assess the impact of all such risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ significantly from those forecast in any forward-looking statements. Given these risks and uncertainties, stockholders should not overly rely or attach undue weight to our forward-looking statements as an indication of our actual future results.

Our Relationships With and the Success of Various Sanctioning Bodies Is Vital To Our Success In Motorsports

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-Q

Our continued success in motorsports is dependent upon the success of various governing bodies of motorsports that sanction national racing events and our ability to secure favorable contracts with and maintain a good working relationship with these sanctioning bodies, including NASCAR, IRL and NHRA. Sanctioning bodies regularly issue and award sanctioned events and their issuance depends, in large part, on maintaining good working relationships with the sanctioning bodies. Many events are sanctioned on an annual basis with no contractual obligation to renew, including our agreements with NASCAR. By awarding a sanctioned event or a series of sanctioned events, the sanctioning bodies do not warrant, nor are they responsible for, the financial success of any sanctioned event. Our success is directly tied to our ability to negotiate favorable terms to our sanction agreements, including the amount of the sanction fee and purse, and our ability to continue to derive economic benefits from such agreements, such as our share of live broadcast revenues.

Our ability to obtain additional sanctioned events in the future and to negotiate favorable terms to our sanction agreements and the success of a particular sanctioning body in attracting drivers and teams, signing series sponsors and negotiating favorable television and/or radio broadcast rights is dependent on many factors which are largely

outside of our control. As our success depends on the terms of our sanction agreements and the success of each event or series that we are promoting, a material change in the terms of a sanction agreement or a material adverse effect on a sanctioning body, such as the loss or defection of top drivers, the loss of significant series sponsors, or the failure to obtain favorable broadcast coverage or to properly advertise the event or series could result in a reduction in our revenues from live broadcast coverage, admissions, luxury suite rentals, sponsorships, hospitality, concessions and merchandise, which could have a material adverse effect on our business, financial condition and results of operations.

We Rely On Sponsorship Contracts To Generate Revenues

We receive a portion of our annual revenues from sponsorship agreements, including the sponsorship of our various events and our permanent venues, such as title, official product and promotional partner sponsorships, billboards, signage and skyboxes. Loss of our title sponsors or other major sponsorship agreements or failure to secure such sponsorship agreements in the future could have a material adverse effect on our business, financial condition and results of operations.

We are in negotiations with various potential sponsors for our 2007 events, including title sponsors for our two NASCAR NEXTEL Cup Series events at Dover International Speedway.

Our Motorsports Events Face Intense Competition For Attendance, Television Viewership And Sponsorship

We compete with other auto speedways for the patronage of motor racing spectators as well as for promotions and sponsorships. Moreover, racing events sanctioned by different organizations are often held on the same dates at different tracks. The quality of the competition, type of racing event, caliber of the event, sight lines, ticket pricing, location and customer conveniences, among other things, distinguish the motorsports facilities. In addition, all of our events compete with other sports and recreational events scheduled on the same dates. As a result, our revenues and operations are affected not only by our ability to compete in the motorsports promotion market, but also by the availability of alternative spectator sports events, forms of entertainment and changing consumer preferences.

The Sales Tax And Property Tax Revenues To Service The Revenue Bonds For Infrastructure Improvements At Nashville May Be Inadequate

In September 1999, the Sports Authority of the County of Wilson (Tennessee) issued \$25,900,000 in revenue bonds to build local infrastructure improvements which benefit the operation of Nashville Superspeedway, of which \$23,500,000 was outstanding on September 30, 2006. Debt service on the bonds is payable solely from sales taxes and incremental property taxes generated from the facility. As of September 30, 2006 and December 31, 2005, \$744,000 and \$734,000, respectively, was available in the sales and incremental property tax fund maintained by the Sports Authority to pay the remaining principal and interest due under the bonds. During the first nine months of 2006, \$1,117,000 was paid by the Company into the sales and incremental property tax fund and \$1,107,000 was deducted from the fund for principal and interest payments and to reimburse the Company for fees associated with maintaining the letter of credit. These bonds are direct obligations of the Sports Authority and are therefore not recorded on our consolidated balance sheet. In the event the sales taxes and incremental property taxes are insufficient to cover the payment of principal and interest on the bonds, the Company would become responsible for the difference. In the event the Company was unable to make the payments, they would be made under a \$23,894,000 irrevocable direct-pay letter of credit issued by the existing bank group pursuant to a reimbursement and security agreement under which we have agreed to reimburse the banks for drawings made under the letter of credit. Such an event could have a material adverse effect on our business, financial condition and results of operations.

The Seasonality Of Our Motorsports Events Increases The Variability Of Quarterly Earnings

Our business has been, and is expected to remain, seasonal given that it depends on our outdoor events for a substantial portion of revenues. We derive a substantial portion of our motorsports revenues from admissions and event-related revenue attributable to six NASCAR-sanctioned events at Dover, Delaware which are currently held in June and September. This has been offset to some degree by our other motorsports events, but quarterly earnings will vary.

Our Insurance May Not Be Adequate To Cover Catastrophic Incidents

We maintain insurance policies that provide coverage within limits that are sufficient, in the opinion of management, to protect us from material financial loss incurred in the ordinary course of business. We also purchase special event insurance for motorsports events to protect against race-related liability. However, there can be no assurance that this insurance will be adequate at all times and in all circumstances. If we are held liable for damages beyond the scope of our insurance coverage, including punitive damages, our business, financial condition and results of operations could be materially and adversely affected.

Bad Weather Can Have An Adverse Financial Impact On Our Motorsports Events

We sponsor and promote outdoor motorsports events. Weather conditions affect sales of tickets, concessions and souvenirs, among other things at these events. Although we sell many tickets well in advance of the outdoor events and these tickets are issued on a non-refundable basis, poor weather conditions may adversely affect additional ticket sales and concessions and souvenir sales, which could have an adverse effect on our business, financial condition and results of operations.

We do not currently maintain weather-related insurance for major events. Due to the importance of clear visibility and safe driving conditions to motorsports racing events, outdoor racing events may be significantly affected by weather patterns and seasonal weather changes. Any unanticipated weather changes could impact our ability to stage events. This could have a material adverse effect on our business, financial condition and results of operations.

Postponement And/Or Cancellation Of Major Motorsports Events Could Adversely Affect Us

If one of our events is postponed because of weather or other reasons such as, for example, the general postponement of all major sporting events in this country following the September 11, 2001 terrorism attacks, we could incur increased expenses associated with conducting the rescheduled event, as well as possible decreased revenues from tickets, food, drinks and merchandise at the rescheduled event. If such an event is cancelled, we could incur the expenses associated with preparing to conduct the event as well as losing the revenues, including live broadcast revenues associated with the event.

If a cancelled event is part of the NASCAR NEXTEL Cup Series or NASCAR Busch Series, we could experience a reduction in the amount of money received from television revenues for all of our NASCAR-sanctioned events in the series that experienced the cancellation. This would occur if, as a result of the cancellation, and without regard to whether the cancelled event was scheduled for one of our facilities, NASCAR experienced a reduction in broadcast revenues greater than the amount scheduled to be paid to the promoter of the cancelled event.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to financial market risk resulting from changes in interest rates. The Company does not engage in speculative or leveraged transactions, nor hold or issue financial instruments for trading purposes.

At September 30, 2006, there was \$43,000,000 outstanding under the Company's revolving credit agreement. The credit agreement bears interest at the Company's option, upon LIBOR plus a margin that varies between 125 and 200 basis points depending on the leverage ratio or the base rate (the greater of the prime rate or the federal funds rate plus 0.5%) plus a margin that varies between -50 and +25 basis points depending on the leverage ratio. Therefore, the Company is subject to interest rate risk on the variable component of the interest rate. Historically, the Company managed its mix of fixed and variable-rate debt by structuring the terms of its debt agreements. Effective October 21, 2005, the Company entered into a \$37,500,000 interest rate swap agreement effectively converting this portion of the outstanding variable-rate borrowings under the revolving credit agreement to fixed-rate securities, thereby hedging against the impact of potential interest rate changes. Under this agreement, the Company pays a fixed interest rate of 4.74%. In return, the issuing lender refunds to the Company the variable-rate interest paid to the bank group under its revolving credit agreement on the same notional principal amount, excluding the margin that varies between 125 and 200 basis points depending on the leverage ratio. The notional amount of the swap agreement

decreased to \$30,000,000 on November 1, 2006, and decreases to \$20,000,000 on November 1, 2007 and to \$10,000,000 on November 1, 2008. The agreement terminates on November 1, 2009. As of September 30, 2006, the interest rate swap had a fair value of \$172,000. An increase in interest rates of one percent would result in the interest rate swap having a value of approximately \$711,000 at September 30, 2006. A decrease in interest rates of one percent would result in the interest rate swap being reported as a liability of approximately \$383,000 at September 30, 2006. A change in interest rates will have no impact on the interest expense associated with the \$37,500,000 of borrowings under the revolving credit agreement that are subject to the interest rate swap agreement. A change in interest rates of one percent on the outstanding borrowings under the revolving credit agreement at September 30, 2006 not subject to the interest rate swap would cause a change in total annual interest costs of \$55,000. The borrowings under the Company's revolving credit agreement bear interest at the variable rate described above and therefore approximate fair value at September 30, 2006.

At September 30, 2006, the Company's long-term debt had a carrying value of \$4,905,000 and an estimated fair value of \$6,009,000. The fair value was determined based on recent arms-length transactions.

In September 1999, the Sports Authority of the County of Wilson (Tennessee) issued \$25,900,000 in Variable Rate Tax Exempt Infrastructure Revenue Bonds, of which \$23,500,000 was outstanding at September 30, 2006. These bonds are direct obligations of the Sports Authority and are therefore not recorded on the Company's consolidated balance sheet; however, the Company is exposed to market risks related to fluctuations in interest rates for these bonds. A significant change in interest rates could result in the Company being responsible for debt service payments not covered by the sales and incremental property taxes generated from the facility.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We have established disclosure controls and procedures to ensure that material information relating to the Company, including its consolidated subsidiaries, is made known to the officers who certify the Company's financial reports and to other members of senior management and the Board of Directors.

Based on their evaluation as of September 30, 2006 and subject to the need for additional testing as discussed below under the heading *Remediation of Material Weakness in Internal Control*, the Chief Executive Officer and Chief Financial Officer of the Company have concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) are effective to ensure that the information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.

Remediation of Material Weakness in Internal Control

As reported in our 2005 Form 10-K, we determined at the end of 2005 that the Company's policies and procedures did not provide for adequate management oversight and review of the Company's accounting for income taxes in interim periods. This deficiency resulted in errors in the Company's income tax expense in drafts of our interim consolidated financial statements for the second and third quarters of 2005. We determined, at that time, that this was a material weakness in our internal controls despite the fact that the errors made in our draft financial statements were corrected before the financial statements were issued to the public. Since that time, we have accelerated the timing of certain tax review activities during the financial statement closing process and established stronger processes and procedures and documentation standards relative to our income tax provisions, such as the development of a tracking mechanism to ensure that income tax accounting matters are identified and that related analyses, judgments and estimates are appropriately documented and reviewed by senior finance personnel on a timely basis.

We believe we have designed the internal controls necessary to remediate this material weakness; however, we cannot confirm the effectiveness of our enhanced internal controls until we and our independent auditors have conducted sufficient testing. Accordingly, we will continue to monitor the effectiveness of these processes, procedures and controls, and will make any further changes as management determines appropriate.

Changes in Internal Control Over Financial Reporting

Other than as expressly noted above in this Item 4, there were no changes in our internal control over financial reporting during the third quarter of fiscal year 2006 that have materially affected, or that are reasonably likely to materially affect our internal control over financial reporting.

Part II Other Information

Item 1. Legal Proceedings

The Company is a party to ordinary routine litigation incidental to its business. Management does not believe that the resolution of any of these matters is likely to have a material adverse effect on our results of operations, financial condition or cash flows.

Item 1A. Risk Factors

Disclosure regarding the most significant factors that may adversely affect our business, operations, industry or financial position or our future financial performance is set forth under the section entitled, Factors That May Affect Operating Results; Forward-Looking Statements, beginning on page 24.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On July 28, 2004, the Company's Board of Directors authorized the repurchase of up to 2,000,000 shares of the Company's outstanding common stock. The purchases may be made in the open market or in privately negotiated transactions as conditions warrant. The repurchase authorization does not obligate the Company to acquire any specific number of shares and may be suspended at any time. No purchases of the Company's equity securities were made during the three months ended September 30, 2006. At September 30, 2006, the Company had remaining repurchase authority of 1,784,607 shares.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

None.

Item 5. Other Information

None.

Item 6. Exhibits

- 10.1 Amendment No. 7 to the Credit Agreement between Dover Motorsports, Inc., Dover International Speedway, Inc., Gateway International Motorsports Corporation, Gateway International Services Corporation, Memphis International Motorsports Corporation, M & N Services Corp., and Nashville Speedway, USA, Inc. and Mercantile-Safe Deposit and Trust Company, as agent, dated as of November 8, 2006

- 31.1 Certification of Chief Executive Officer pursuant to Rule 13a-14(a)
- 31.2 Certification of Chief Financial Officer pursuant to Rule 13a-14(a)
- 32.1 Certification of Chief Executive Officer Pursuant to 18 U.S.C. Sec. 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- 32.2 Certification of Chief Financial Officer Pursuant to 18 U.S.C. Sec. 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
