As of December 31, 2006, approximately 3.6 million of the Company's issued and outstanding ADSs had been repurchased for an aggregate purchase consideration of US\$60.1 million (including transaction costs) pursuant to the share repurchase program announced on August 29, 2006.

Total cash and time deposit balance was RMB3.9 billion (US\$504.6 million) at December 31, 2006, compared to RMB3.4 billion (US\$418.5 million) at December 31, 2005.

William Ding, Chief Executive Officer and Director of NetEase stated, "Overall, we were satisfied with the results of the fourth quarter, and pleased with the strong growth rates in total revenues, online game revenues and net profit achieved for fiscal year 2006. We also made significant progress during the year with regard to our games and game upgrades under development. Tianxia II is on schedule for open beta testing beginning March 1, which we expect will be followed closely by its commercial launch. The testing process for Tianxia II has proceeded smoothly and without interruption, and we are confident in the market potential and player appeal of this next generation online 3D game. During the fourth quarter in 2006, we also made substantial progress with Westward Journey III which will enter internal closed beta testing during the second quarter of this year followed by open beta testing in the third quarter. In addition, the latest expansion pack for Fantasy Westward Journey was released late last month.

We are equally enthusiastic about our portal strategy in 2006," Mr. Ding continued. "Our online communities on our portals, 30-plus million active email users, number one free email ranking in China, and growing blog community are all highly valuable assets.

Fourth Quarter Financial Results

Total revenues for the fourth quarter ended December 31, 2006 were RMB540.3 million (US\$69.2 million) compared with RMB571.9 million (US\$72.4 million) for the third quarter of 2006, representing a decrease of 5.5%. Total revenues increased 10.9% from RMB487.3 million (US\$60.4 million) for the fourth quarter of 2005.

Revenues from online games were RMB451.6 million (US\$57.9 million) for the fourth quarter of 2006, representing a decrease of 3.5% from RMB467.9 million (US\$59.2 million) for the third quarter of 2006 and an increase of 12.6% over RMB400.9 million (US\$49.7 million) for the fourth quarter of 2005.

Table of Contents

Revenues from advertising services were RMB72.1 million (US\$9.2 million) for the fourth quarter of 2006, representing a decrease of 13.5% from RMB83.4 million (US\$10.5 million) for the third quarter of 2006 and an increase of 4.3% over RMB69.1 million (US\$8.6 million) for the fourth quarter of 2005.

Revenues from wireless value-added services and others were RMB16.6 million (US\$2.1 million) for the fourth quarter of 2006, representing a decrease of 19.4% from RMB20.6 million (US\$2.6 million) for the third quarter of 2006 and a decrease of 3.5% from RMB17.2 million (US\$2.1 million) for the fourth quarter of 2005.

GAAP gross profit for the fourth quarter of 2006 was RMB456.7 million (US\$58.5 million), compared to RMB448.1 million (US\$56.7 million) for the third quarter of 2006 and RMB386.2 million (US\$47.9 million) for the same period last year. The Company's non-GAAP gross profit in the fourth quarter was RMB460.4 million (US\$59.0 million), representing an increase of 1.8% over the previous quarter's non-GAAP gross profit of RMB452.3 million (US\$57.2 million), and an increase of 19.2% over non-GAAP gross profit of RMB386.2 million (US\$47.9 million) for the corresponding period a year ago. The non-GAAP financial measures included in this release exclude the effect of certain non-cash, share based compensation expenses. The reconciliation of GAAP measures with non-GAAP measures for gross profit, operating expenses, net profit and net profit per ADS is set forth in the Company's unaudited financial information below.

Total GAAP gross margin for the fourth quarter of 2006 was 82.4%, compared to 81.7% for the third quarter of 2006 and 82.6% for the same period last year. Total non-GAAP gross margin for the fourth quarter was 83.1% compared with non-GAAP gross margin of 82.5% for the preceding quarter and 82.6% for the same period last year. The increase was primarily attributable to the increase in the gross margin for online games for the reason explained below.

GAAP gross margin for the online game business for the fourth quarter of 2006 was 90.3%, compared to 89.4% for the third quarter of 2006 and 89.4% for the same period last year. Non-GAAP gross margin for the online game business for the fourth quarter of 2006 was 90.6% compared with non-GAAP gross margin of 89.7% for the preceding quarter and 89.4% for the fourth quarter of 2005. The increase was primarily due to a one-time business tax refund of RMB35.5 million (US\$4.5 million) which was approved by the relevant local tax bureau in the fourth quarter of 2006.

GAAP gross margin for the advertising business for the fourth quarter of 2006 was 50.5%, compared to 56.1% for the third quarter of 2006 and 62.9% for the same period last year. Non-GAAP gross margin for the online advertising business for the fourth quarter of 2006 was 53.1% compared to non-GAAP gross margin of 58.9% for the preceding quarter and 62.9% for the fourth quarter of 2005. The quarter-over-quarter decrease was primarily due to the seasonal decline in advertising services revenue in the fourth quarter while costs remained relatively stable. The year-over-year decrease was primarily due to the increase in salaries and other benefits paid to content editors and the increased costs associated with the Company's online advertising business so as to enhance the content and attractiveness of the NetEase websites.

GAAP gross loss margin for the wireless value-added services and others business for the fourth quarter of 2006 was 18.9%, compared to gross profit margin of 3.4% for the third quarter of 2006 and gross loss margin of 1.3% for the same period last year. Non-GAAP gross loss margin for the wireless value-added services and others business for the fourth quarter of 2006 was 14.6%

Table of Contents

compared with non-GAAP gross profit margin of 7.6% for the preceding quarter and gross loss margin of 1.3% for the fourth quarter of 2005. The decline in gross margin was mainly due to the full quarter impact of the implementation of a new requirement from mobile operators that customers provide double confirmations to order SMS monthly subscriptions and the further strengthening of billing policies and procedures of certain provincial mobile network operators. The year-over-year decrease was primarily due to increased server depreciation costs associated with the Company's free email services and redundancy costs paid to staff in rationalizing the wireless value-added services business.

Total GAAP operating expenses for the fourth quarter of 2006 were RMB123.9 million (US\$15.9 million), compared to RMB131.5 million (US\$16.6 million) for the third quarter of 2006 and RMB94.9 million (US\$11.8 million) for the same period last year. Total non-GAAP operating expenses for the fourth quarter of 2006 were RMB104.5 million (US\$13.4 million), compared with RMB109.7 million (US\$13.9 million) for the preceding quarter and RMB94.9 million (US\$11.8 million) for the same period last year. The decrease in non-GAAP operating expenses in comparison to the preceding quarter was primarily due to lower marketing expenses resulting from the completion of a substantial marketing campaign launched in the third quarter. The decrease was partially off-set by a higher provision for doubtful debts of RMB1.6 million (US\$0.2 million). The year-over-year increase was primarily due to a one-time write-off of RMB11.6 million (US\$1.4 million) in software cost for the Company's licensed online 3D game, Fly for Fun, and increased research and development expenses associated with increased staffing for the enhancement of existing products and for the development of new products.

As a result of the translation of foreign currency denominated assets and liabilities into Renminbi in accordance with applicable accounting standards, the Company recorded a foreign exchange gain of RMB1.3 million (US\$172,000) in the fourth quarter of 2006, compared to a foreign exchange gain of RMB219,000 (US\$28,000) in the preceding quarter. The Company recorded RMB1.9 million (US\$0.2 million) in foreign exchange loss in the fourth quarter of 2005.

GAAP net profit for the fourth quarter totaled RMB320.2 million (US\$41.0 million), compared to RMB314.8 million (US\$39.8 million) for the third quarter of 2006 and RMB276.7 million (US\$34.3 million) for the same period last year. Non-GAAP net profit for the fourth quarter totaled RMB343.3 million (US\$44.0 million), a 0.7% increase over the previous quarter's non-GAAP net profit of RMB340.8 million (US\$43.1 million) and a 24.1% increase over non-GAAP net profit of RMB276.7 million (US\$34.3 million) for the fourth quarter of 2005. NetEase reported GAAP basic and diluted earnings per ADS of US\$0.32 and US\$0.30 for the fourth quarter of 2006, respectively, which includes the impact of approximately US\$3.0 million, or US\$0.02 per ADS, in non-cash, share-based compensation costs. The Company reported GAAP basic and diluted earnings per ADS of US\$0.31 and US\$0.29 for the third quarter of 2006, and US\$0.27 and US\$0.25 for the fourth quarter of 2005, respectively.

Table of Contents

Non-GAAP net profit in fiscal 2006 was RMB1,344.1 million (US\$172.2 million) or basic and diluted earnings per ADS of US\$1.23 and US\$1.14, respectively, compared to RMB932.0 million (US\$115.5 million) or basic and diluted earnings per ADS of US\$0.90 and US\$0.82, respectively, for fiscal 2005.

Cash flow generated from operating activities was approximately RMB531.5 million (US\$68.1 million), compared to RMB344.5 million (US\$43.6 million) for the preceding quarter and RMB220.3 million (US\$27.3 million) for the fourth quarter of 2005.

The share repurchase program will end on March 4, 2007.

Non-GAAP Disclosure

To supplement the unaudited consolidated financial statements presented in accordance with the U.S. GAAP, NetEase's management uses non-GAAP measures of gross margin, gross profit, operating expenses, net profit and net profit per ADS, which are adjusted from results based on GAAP to exclude the compensation cost of share-based awards granted to employees under Statement of Financial Accounting Standard 123R, effective from January 1, 2006. The non-GAAP financial measures, by excluding the non-cash, stock-based compensation costs, are provided to enhance the investors' overall understanding of NetEase's current financial performance and prospects for the future. These measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, GAAP results.

Reconciliations of NetEase's non-GAAP financial measures to unaudited Condensed Consolidated Statements of Operations are set forth at the end of this release.

NetEase's management believes that excluding the share-based compensation expense from its GAAP financial measures of gross margin, gross profit, operating expenses, net profit and net profit per American Depositary Share are useful for itself and investors, because it makes a more meaningful comparison of NetEase's current operating results to those periods prior to the adoption of Statement of Financial Accounting Standard 123R and improves readers' understanding of NetEase's performance.
