PROXY STATEMENT

2007 Annual Meeting of Stockholders

To Be Held on May 16, 2007

We are furnishing this Proxy Statement in connection with the solicitation of proxies by our Board of Directors for use at our 2007 Annual Meeting of Stockholders on Wednesday, May 16, 2007, at 12:00 noon, Chicago time, at the Wyndham O Hare Hotel, 6810 North Mannheim Road, Rosemont, Illinois 60018. We are mailing this Proxy Statement and the accompanying materials to our stockholders beginning on or about April 16, 2007.

In this Proxy Statement, we, us, our or the Company refers to Stericycle, Inc.

GENERAL

Stock

Our authorized capital stock consists of common stock, par value \$0.01 per share (common stock), and preferred stock, par value \$0.01 per share (preferred stock). As of March 19, 2007, the record date for the Annual Meeting, we had 44,330,553 shares of common stock outstanding. We did not have any shares of preferred stock outstanding.

Stockholders Entitled To Vote

Only holders of our common stock who were stockholders of record at the close of business on the record date of March 19, 2007 are entitled to notice of and to vote their shares of record at the Annual Meeting. Each outstanding share of common stock is entitled to one vote.

Quorum

Holders of a majority of the outstanding shares of common stock entitled to vote at the Annual Meeting who are present in person or represented by proxy will constitute a quorum to conduct business at the meeting. The inspectors of election appointed at the meeting will determine the existence of a quorum and tabulate the votes cast at the meeting.

Voting

The eight directors to be elected at the Annual Meeting (Item 1) will be elected by a plurality of the votes cast by stockholders present in person or represented by proxy, entitled to vote and voting. The proposal to amend our certificate of incorporation to increase our authorized shares of common stock from 80,000,000 shares to 120,000,000 shares (Item 2) will require for approval the affirmative vote of holders of a majority of the shares of our common stock outstanding as of the record date. Each other matter to be voted on at the Annual Meeting (for example, Item 3) will require for approval the affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote.

A stockholder may withhold authority to vote for one or more nominees for director and may abstain from voting on one or more of the other matters to be voted on at the Annual Meeting. Shares for which authority is withheld or that a stockholder abstains from voting will be counted for purposes of determining whether a

Table of Contents

quorum is present. Shares for which authority is withheld will have no effect on the voting for the election of directors (which, as noted, requires a plurality of the votes cast). Shares that a stockholder abstains from voting will be included in the total of votes cast and will have the effect of votes against the matter in question.

If a broker or nominee indicates on a proxy card that it does not have discretionary authority to vote on a particular matter, the shares will be taken into account in determining whether a quorum is present (if the shares are voted on any other matter) but will not be included in the total of votes cast and thus will have no effect on the outcome of voting on the matter.

Telephone and Internet Voting

Stockholders whose shares are registered in their names directly with our stock registrar and transfer agent, LaSalle Bank, N.A., may vote their shares telephonically, by calling (866) 540-5760, or via the internet, by going to www.proxyvoting.com/srcl/. Stockholders whose shares are registered in the name of a brokerage firm, bank or other nominee may be able to vote their shares telephonically or via the internet. You should check the information provided by your broker, bank or other nominee to see what options, if any, are available to you.

Proxies

If a stockholder properly completes and returns the accompanying proxy card, the shares of stock represented by the proxy will be voted as the stockholder directs. **If no directions are given, the persons appointed as proxy holders will vote the shares in accordance with the recommendations of our Board of Directors, i.e.,** they will vote the shares *for* the election of the nominees for director described in this proxy statement (Item 1), *for* the proposal to amend our certificate of incorporation to increase our authorized shares of common stock from 80,000,000 shares to 120,000,000 shares (Item 2), and *for* ratification of the appointment of Ernst & Young LLP as our independent public accountants for 2007 (Item 3).

A stockholder may revoke a proxy at any time before it is voted by filing a signed notice of revocation with the Secretary of the Company or by returning a properly completed proxy card bearing a later date. In addition, a stockholder may revoke a proxy by attending the Annual Meeting in person and requesting to vote. Attendance at the meeting in person will not, by itself, revoke the proxy.

Committees of the Board

Our Board of Directors has standing Compensation, Audit and Nominating and Governance Committees. All of the members of each committee are outside directors who are independent under the applicable listing standards of the National Association of Securities Dealers, Inc. (NASD)

Compensation Committee

The Compensation Committee makes recommendations to the full Board of Directors concerning the base salaries and cash bonuses of our executive officers and reviews our employee compensation policies generally. The Committee also administers our stock option plans as they apply to our executive officers.

Table of Contents

Audit Committee

The Audit Committee assists the Board of Directors in fulfilling its oversight responsibilities relating to the integrity of our financial statements, the qualifications and experience of our independent accountants, the performance of our internal audit function and our independent accountants, and our compliance with legal and regulatory requirements.

Nominating and Governance Committee

The Nominating and Governance Committee identifies and evaluates possible nominees for election to the Board of Directors and recommends to the full Board a slate of nominees for election at the annual meeting of stockholders. The Committee also recommends to the full Board director assignments to the Board's committees. In addition, the Committee develops, recommends to the full Board and oversees the implementation of our corporate governance policies and practices.

The Committee considers a variety of factors in evaluating any candidate for selection as a nominee for election as a director. These factors include the candidate's personal qualities, including, in particular, the candidate's probity, independence of judgment and analytical skills, and the candidate's professional experience, educational background, knowledge of our business and health care services generally, and experience serving on the boards of other public companies. The Committee has not established any minimum qualifications that a candidate must possess. In determining whether to recommend an incumbent director for re-election, the Committee also considers the director's preparation for and participation in meetings of the Board of Directors and the committee or committees of the Board on which he serves.

In identifying potential candidates for selection in the future as nominees for election as directors, the Committee will rely on suggestions and recommendations from the full Board, management, stockholders and others and, when appropriate, may retain a search firm for assistance. The Committee will consider candidates proposed by stockholders and will evaluate any candidate proposed by a stockholder on the same basis that it evaluates any other candidate. Any stockholder who wants to propose a candidate should submit a written recommendation to the Committee indicating the candidate's qualifications and other relevant biographical information and providing preliminary confirmation that the candidate would be willing to serve as a director. See Communications with the Board.

Policy on Related Party Transactions

In February 2007, the Board of Directors adopted a written policy requiring certain transactions with related parties to be approved in advance by the Audit Committee. For purposes of this policy, a related party includes any director or executive officer or an immediate family member of any director or executive officer. The transactions subject to review include any transaction, arrangement or relationship (or any series of similar transactions, arrangements and relationships.) in which (i) we or one of our subsidiaries will be a participant, (ii) the aggregate amount involved exceeds \$100,000 and (iii) a related party will have a direct or indirect interest. The standards to be applied by the Audit Committee in reviewing transactions with related parties include the benefits to us of the proposed transaction, the potential effect of the proposed transaction on the director's independence (if the related party is a director), and the terms of the proposed transaction and whether those terms are comparable to the terms available to an unrelated third party or to employees generally.

There were no transactions during 2006 that would have required the prior approval of the Audit Committee if the Board's policy on related party transactions had been in place during the year.

AUDIT COMMITTEE REPORT

Under the Audit Committee's charter, the Audit Committee of the Board of Directors assists the Board in fulfilling its oversight responsibilities relating to the integrity of the Company's financial statements, the qualifications and experience of Company's independent accountants, the performance of the Company's internal audit function and independent accountants, and the Company's compliance with applicable legal and regulatory requirements. The Committee's charter is available on the Company's website, www.stericycle.com, under About Us/Corporate Governance. The current members of the Committee, who served during 2006, are Messrs. Dammeyer (Chair), Patience, Reusché and Schuler.

In regard to our role, we note that it is the responsibility of the Company's management to prepare financial statements in accordance with accounting principles generally accepted in the United States, and that it is the responsibility of the Company's independent public accountants to audit those financial statements. The Committee's responsibility is one of oversight, and we do not provide expert or other special assurance regarding the Company's financial statements or the quality of the audits performed by the Company's independent public accountants.

In carrying out our oversight responsibility, we review and discuss with both management and the Company's independent public accountants all quarterly and annual financial statements prior to their issuance. We reviewed and discussed with both management and Ernst & Young LLP the quarterly and annual financial statements for the fiscal year ended December 31, 2006. Our reviews and discussions with Ernst & Young LLP included executive sessions without the presence of the Company's management. They also included discussions of the matters required to be discussed pursuant to Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended, of the Auditing Standards Board of the American Institute of Certified Public Accountants, including the quality of the Company's accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the Company's financial statements. We also discussed with Ernst & Young LLP matters relating to their independence, including a review of their audit and non-audit fees and the disclosures that Ernst & Young LLP made to the Committee pursuant to Independence Standard No. 1, *Independence Discussions with Audit Committees*, as amended, of the Independence Standards Board.

In addition, we continued to monitor the scope and adequacy of the Company's internal controls, including staffing levels and requirements, and we reviewed programs and initiatives to strengthen the effectiveness of the Company's internal controls and steps taken to implement recommended improvements.

On the basis of these reviews and discussions, we recommended to the Board of Directors that the Board approve the inclusion of the Company's audited financial statements in the Company's annual report on Form 10-K for the year ended December 31, 2006 for filing with the U.S. Securities and Exchange Commission.

COMPENSATION DISCUSSION AND ANALYSIS

Our executive compensation policies have three objectives:

to attract, motivate and retain highly qualified executive officers

to make a substantial portion of their compensation dependent on the Company's attainment of a measurable performance target

to structure a substantial portion of their compensation so that they benefit only if all of our stockholders benefit

Our compensation program for executive officers consists of cash compensation and long-term incentive compensation. Cash compensation is paid in the form of a base salary and a cash bonus, and long-term incentive compensation is paid in the form of stock options.

We favor cash bonuses and stock options as the principal components of our executive officers' compensation because they provide incentives to improve our operating performance and thereby create value for all of our stockholders. We do not have a fixed allocation among the three components of our executive officers' compensation. The relative amounts of our executive officers' salaries, bonuses and stock options varies to some extent from year to year.

Compensation Decisions

Decisions relating to the compensation of our executive officers are made by the Compensation Committee of our Board of Directors. Decisions of the Committee relating to executive officers' base salaries and cash bonuses are subject to the review and approval of the full Board; decisions of the Committee relating to executive officers' stock options are reviewed by the full Board but are not subject to the Board's approval.

Compensation decisions are made annually at the regular meeting of the Compensation Committee during the first quarter of year, most commonly in February, when the results of our prior year's performance are available internally and can be taken into account by the Committee in determining the executive officers' cash bonuses for the prior year and their base salaries and bonus percentages for the current year. The Committee believes that incentives are likely to have a greater effect on performance the sooner they are communicated and accordingly determines bonus percentages and annual option grants as early in the year as practicable. The Committee's decisions are made without regard to our anticipated earnings or other announcements.

Our President and Chief Executive Officer makes recommendations to the Committee regarding the compensation of the other executive officers, but management does not otherwise participate in the Committee's decisions.

Base Salaries

Base salaries are intended to provide a regular source of income to our executive officers. The Compensation Committee reviews officers' base salaries each year, but it has not changed the base salaries of Messrs. Miller, Kogler and ten Brink since April 2003 or those of Messrs. Foss and Sacranie since they joined us in February and May 2003, respectively. The base salaries of our executive officers for 2006 remain unchanged for 2007.

Bonuses

We maintain a bonus program for our executive officers that is intended to provide them with a short-term incentive and reward for improvements in our operating performance as measured by our adjusted earnings.

Table of Contents

Under our bonus program, our executive officers are eligible each year for a cash bonus equal to a specified percentage of their base salaries. For 2006, these percentages were 115% for Mr. Miller, 65% for Mr. Kogler, 65% for Mr. ten Brink, 60% for Mr. Foss and 60% for Mr. Sacranie, and for 2007, they are 125% for Mr. Miller, 75% for Mr. Kogler, 75% for Mr. ten Brink, 70% for Mr. Foss and 70% for Mr. Sacranie.

Bonuses are payable to our executive officers if we attain our target EBITDA (earnings before interest, taxes depreciation and amortization) for the year, subject to discretionary adjustments by the Compensation Committee. Our target EBITDA is the EBITDA shown in our final operating plan and budget for the year as approved by our Board of Directors during the first quarter of the year. Bonuses are paid during the first quarter of the following year after a meeting of the Compensation Committee to make its decisions once our final results for the prior year are known.

The measurement of EBITDA that we use in our operating plan and budget for purposes of the bonus program reflects various adjustments and is also subject to any additional adjustments that the Compensation Committee considers appropriate to refine EBITDA as an internal measure of operating performance.

If we exceed our target EBITDA for the bonus year, the bonuses payable to our executive officers will be increased on the basis of the extent to which we have done so, subject to a limit of 150% of the bonus otherwise payable. For 2006, we exceeded our target EBITDA by a sufficient margin to trigger this 150% limit.

If we fail to attain our target EBITDA for the bonus year, our executive officers are not assured of any bonuses. In these circumstances, the Compensation Committee may decide in its discretion either that no bonuses are warranted or that it would be appropriate to award on the basis of individual merit cash bonuses of some order of magnitude smaller than the cash bonuses that would have been paid if we had attained our target EBITDA.

Bonus Conversion Program

We maintain a bonus conversion program for our executive officers and other management employees allowing them to convert all or a portion of their bonuses into stock options. The program is intended to enable our executive officers and other participants to trade current compensation for the possibility of greater wealth in the future if our stock continues to perform well.

Under this program, a participant may irrevocably elect in advance of any bonus award to forego some portion or all of any bonus otherwise payable to him or her and receive instead an immediately vested nonstatutory stock option at an exercise price per share equal to the closing price of a share of our common stock on the bonus award date. The number of shares for which an option is granted is determined by dividing (i) a specified multiple of the amount of the cash bonus that the participant elected to forego by (ii) the average closing price of our common stock during the year for which the bonus is payable. Our Board of Directors fixed the multiple at three for 2006 and has continued the same multiple for 2007.

Two of our executive officers participated in this program in respect of their bonuses for 2006 payable in February 2007. Mr. Miller elected to forego \$179,345 of his cash bonus and received instead an option for 8,173 shares, and Mr. Foss elected to forego \$45,000 of his cash bonus and received instead an option for 2,051 shares. These options have an exercise price per share of \$77.13, which was the closing price of our stock on the option grant date (February 6, 2007).

Stock Options

We use stock options as a major component of the compensation of our executive officers because of the incentives that stock options provide. Our stock options are always granted at the closing price of our stock on the date of the grant, and thus the value to our executive officers of their stock options depends entirely on the

Table of Contents

subsequent growth in value of our stock. The executive officers' stock options accordingly provide an incentive to high levels of performance contributing to our overall success as reflected in the market price of our stock, to the benefit not just of our executive officers but to that of all of our stockholders.

The Compensation Committee determines the number of shares for which stock options are granted to our executive officers, taking into account (i) our operating performance, (ii) prior grants to our executive officers, (iii) stock option grants and compensation practices at other companies with which members of the Committee are familiar and (iv) the goal of limiting stock option grants to executive officers and employees generally to no more than 10% of our fully-diluted shares over a trailing five-year period (thus averaging dilution of no more than 2% a year).

The exercise price per share of an option granted under one of our stock option plans may not be less than the closing price of a share of our common stock on the date of the option grant. The maximum term of an option may not exceed 10 years, and an option may be exercised only when it is vested and only while the executive officer or other employee remains an employee of ours and for a limited period following the termination of his or her employment.

Options granted to executive officers and employees generally vest over five years at the rate of 20% of the option shares on each of the first five anniversaries of the option grant date. (As noted, options granted under our bonus conversion program are immediately vested.) Options also become exercisable upon the option holder's death or upon a change in control.

We have two stock option plans under which new stock options may be granted: (i) the 2005 Incentive Stock Plan, which our stockholders approved in April 2005, and (ii) the 2000 Nonstatutory Stock Option Plan, which our Board of Directors adopted in February 2000. In addition, there are stock options outstanding under our 1997 Stock Option Plan, which expired in January 2007, and under our 1995 Incentive Compensation Plan, which expired in July 2005. The 2005 plan authorizes awards of stock options and stock appreciation rights for a total of 2,400,000 shares, and the 2000 plan authorizes grants of stock options and awards of stock appreciation rights for a total of 3,500,000 shares.

The 2005 plan provides for the grant of nonstatutory stock options and incentive stock options intended to qualify under section 422 of the Internal Revenue Code as well as the award of stock appreciation rights (which we have never granted), and the 2000 plan provides for the grant of nonstatutory stock options. The 2005 plan authorizes awards to our officers, directors, employees and consultants, and the 2000 Plan authorizes option grants to our employees and consultants but not to our officers and directors.

As of December 31, 2006, 1,753,416 shares were available for future option grants under the 2005 plan and 191,894 shares were available for future option grants under the 2000 plan.

Employee Stock Purchase Plan

We maintain an employee stock purchase plan (the "ESPP"), which our stockholders approved in 2001. The ESPP authorizes 300,000 shares of our common stock to be purchased by qualifying employees at a 15% discount from the market price of the stock through payroll deductions during two six-month offerings each year. A qualifying employee who elects to participate in an offering is granted an option on the first day of the offering for a number of shares equal to the employee's payroll deductions under the ESPP during the offering period (which may not exceed \$5,000) divided by the option price per share. The option price per share is the lower of 85% of the closing price of a share of our common stock on the first trading day of the offering period or 85% of the closing price on the last trading day of the offering period. Every employee who has

Edgar Filing: STERICYCLE INC - Form DEF 14A

completed one year's employment as of the first day of an offering and who is a full-time employee, or a part-time employee who customarily works at least 20 hours per week, is eligible to participate in the offering.

During 2006, Mr. Miller purchased 182 shares under the ESPP, Mr. ten Brink purchased 140 shares and Mr. Foss purchased 188 shares.

Table of Contents

401(k) Plan

We maintain a 401(k) plan in which employees who have completed six months employment are eligible to participate. We have discretion under the plan to make matching contributions of a percentage of the participants own contributions to the plan as the Board of Directors determines each year. For 2006, we made a matching contribution of 50% of the first 5% of compensation that each participant contributed to the plan, up to a maximum matching contribution of \$1,500. These matching contributions included the maximum matching contribution for each of Messrs. Miller, Kogler, ten Brink, Foss and Sacranie.

Retirement Plans and Deferred Compensation Arrangements

We do not maintain any other qualified plan (for example, a qualified defined benefit pension plan), nor have we adopted any nonqualified retirement or deferred compensation plan or arrangement.

Perquisites and Personal Benefits

We do not provide any perquisites or personal benefits to our executive officers, with the exception that in the past we have paid or reimbursed Mr. Miller for premiums on personal life insurance and disability insurance. In 2006, we paid insurance premiums of \$10,217 for him. Mr. Miller has waived any entitlement to future premium payments or reimbursements.

Employment Agreements

We have not entered into written employment agreements with any of our executive officers. All of our executive officers have entered into confidentiality, nonsolicitation and noncompetition agreements with us.

Termination and Change-in-Control Payments

We have not entered into salary continuation, severance or similar agreements or arrangements with any of our executive officers providing for payments upon or in connection with a termination of employment or a change in control.

Stock Ownership Requirements

Under a policy adopted by our Board of Directors in November 2006, all executive officers are required to hold a minimum position in our stock. An executive officer with less than five years service as an executive officer must have a position equal to three times his base salary, and

Edgar Filing: STERICYCLE INC - Form DEF 14A

an executive officer with five or more years of service must have a position equal to five times his base salary.

An executive officer's stock ownership position is measured by the value of our common stock that he owns directly and indirectly and the in-the-money value of the vested and unvested stock options that he holds. An executive officer who does not satisfy the applicable minimum stock ownership requirement may not sell any shares of our stock, with the exception that the officer may engage in a cashless exercise of an option and sell a number of shares sufficient to pay the exercise price of the option shares and the related taxes. An executive officer who satisfies the applicable minimum stock ownership requirement may not sell any shares if, as a result, he would then violate the applicable minimum stock ownership requirement.

All of our executive officers satisfy the applicable minimum stock ownership requirement.

Options granted starting in 2005 generally vest at the rate of 20% of the option shares on each of

the first five anniversaries of the option grant date. Options granted pursuant to our bonus conversion program are immediately vested.

The following table provides information about option exercises by the named executive officers during 2006. We have not awarded shares of restricted stock, restricted stock units or similar rights to any of our executive officers, and accordingly no such shares, units or rights vested during 2006:

- (1) The information in this column is provided on an aggregate basis, and includes shares acquired and concurrently sold to pay the exercise price in a cashless exercise of an option through a broker. Mr. Miller exercised 11 options during 2006. He paid the exercise price of options for 134,840 shares in cash or by delivery of shares of our common stock that he already owned and did cashless exercises through a broker of options for 86,875 shares in which sufficient option shares were sold to pay the exercise price concurrently with the exercise of the options. Mr. Kogler exercised five options during 2006. He paid the exercise price of options for 3,007 shares in cash or by delivery of shares of our common stock that he already owned and did cashless exercises through a broker of options for 11,446 shares. Mr. ten Brink exercised two options during 2006, for both of which he paid the exercise price in cash or by delivery of shares of our common stock that he already owned.
- (2) The information in this column is provided on an aggregate basis. The value realized on the exercise of an option was determined by multiplying the number of shares for which the option was exercised by the difference between (i) either the closing price of our common stock on the date of exercise, in the case of payment of the exercise price in cash or by delivery of shares of our common stock, or the sales price, in the case of a cashless exercise of the option, and (ii) the exercise price per share of the option

- (1) The amounts in this column represent the expense that we recognized in 2006 for accounting purposes in accordance with FAS 123R in respect of stock options that we granted in 2006 and in prior years. The assumptions made in the valuation of these stock options are described at the end of Note 11, Stock Based Compensation, to our consolidated financial statements included in our annual report on Form 10-K for the year ended December 31, 2006 (available at www.stericycle.com).

Table of Contents

As of December 31, 2006, each of our outside directors held options for the following number of shares of our common stock: Mr. Schuler, 45,738 shares; Mr. Dammeyer, 18,860 shares; Mr. Hall, 15,259 shares; Dr. Lord, 20,206 shares; Mr. Patience, 45,738 shares; Mr. Reusché, 18,860 shares; and Mr. Vardy, 26,304 shares. Dr. Wilkerson has assigned all of his options to Galen Advisors, LLC, which held options for 40,760 shares as of December 31, 2006.

- (2) Mr. Miller is our President and Chief Executive Officer and receives no additional compensation for his services as a director.
- (3) Mr. Hall was elected a director in August 2006.
- (4) The amount in the column for Option Award includes the expense that we recognized in 2006 in respect of the additional option that we granted to Dr. Lord as a new director upon his election to the Board in August 2004.

Compensation in 2006

We did not pay any fees or other cash compensation to our directors who served during 2006 or provide them with any perquisites or other personal benefits. We granted an option for 3,874 shares to each of our outside directors elected at the 2006 Annual Meeting in May (all of our directors except Mr. Hall, who was elected by the Board in August) for their services as directors. The number of option shares was determined by dividing \$225,000 by the average closing price of a share of our common stock during the 12-month period ending on the last trading day prior to the 2006 Annual Meeting (\$58.09). The exercise price per share was the closing price of our common stock on the day of the Annual Meeting (\$65.75), and the option vests on the first anniversary of the meeting (May 3, 2007).

New Plan of Compensation

In August 2006, the Board of Directors adopted a new compensation plan for our outside directors. Under this plan as amended by the Board in November 2006, each director's annual compensation for his services will be \$125,000. The Board will review and update this amount annually based on informal surveys of outside director compensation. Subject to the election by an eligible director to receive up to 50% of his annual compensation in cash, the normal form of payment of a director's annual compensation will be a stock option reflecting a conversion of the cash compensation. This option will be granted upon reelection as a director at the annual meeting of stockholders each year.

The option will be for a number of shares equal to the quotient obtained by dividing (i) 3 times the amount of cash compensation to be converted into an option by (ii) the average closing price of our stock during the period from the prior year's annual meeting through the last trading day before the current annual meeting. The exercise price of the option will be the closing price on the day of the annual meeting, and the option will vest on the day of the next annual meeting. Any portion of a director's annual compensation that he elects to receive in cash will be paid in arrears at the same time that the portion converted into an option vests (i.e., on the day of the next annual meeting of stockholders).

Stock Ownership Requirements

Under the new plan of compensation, all directors are required to hold a minimum position in our stock. For a director with less than five years service, he must have a position equal to three times his current annual compensation, or \$375,000. For a director with five or more years of service, he must have a position equal to five times his current annual compensation, or \$625,000. A director's ownership position is measured by

Edgar Filing: STERICYCLE INC - Form DEF 14A

the value of our common stock that he owns directly and indirectly and the in-the-money value of the vested and unvested stock options that he holds.

A director who satisfies the minimum ownership requirement may elect to receive up to 50% of his annual compensation in cash. A director who does not satisfy the minimum ownership requirement must receive his

Table of Contents

annual compensation in the normal form of payment as a stock option. A director who does not satisfy the applicable minimum ownership requirement may not sell any shares of our stock, with the exception that the director may engage in a cashless exercise of an option and sell a number of shares sufficient to pay the exercise price of the option shares and the related taxes.

All of our directors satisfy the applicable minimum stock ownership requirement.

Meeting and Other Fees

Under the new plan of compensation, as in the past, directors will not be paid separate fees for attending meetings of the Board of Directors or its committees. No additional fees or compensation will be paid to the Chairman of the Board for his service as chairman. The chairman of the Audit Committee will be paid a fee of \$10,000 per year for his service as chairman, and the chairman of the Compensation Committee will be paid a fee of \$5,000 per year for his service as chairman.

The fees to the chairmen of the Audit and Compensation Committees will be paid by adding each chairman's fee to and treating it as a part of his annual compensation as a director, with the effect of making 50% of each chairman's fee eligible to be received in cash (if the chairman satisfies the applicable minimum ownership requirement) and converting the balance of the fee (or the entire fee, if the chairman does not satisfy the minimum ownership requirement) into an option.

Option Grants to New Directors

The new plan of compensation provides that a new director will receive two stock options upon joining the Board. The first option, for joining the Board, will be for a number of shares equal to the quotient obtained by dividing (i) six times the amount of the directors' current cash compensation by (ii) the average closing price of our common stock during the 12-month period ending on the last trading day before the director's election to the Board. The exercise price of the option will be the closing price on the day of the director's election, and one-fifth of the option shares will vest on each of the first five anniversaries of the director's election.

The new director will also receive an option reflecting his annual compensation as a director. If the new director is elected at an annual meeting, he will receive the same option that the other directors elected at the annual meeting receive. If the new director is elected by the Board to fill a vacancy, the option will be for a number of shares equal to a pro rata portion of the quotient obtained by dividing (i) three times the amount of the directors' current cash compensation by (ii) the average closing price of our common stock during the 12-month period ending on the last trading day immediately before the director's election to the Board. The exercise price of the option will be the closing price on the day of the director's election, and the option will vest on the day of the next annual meeting of stockholders.

**PROPOSAL TO AMEND OUR CERTIFICATE OF INCORPORATION
TO INCREASE OUR AUTHORIZED SHARES OF COMMON STOCK
FROM 80,000,000 SHARES TO 120,000,000 SHARES**

Stockholders are being asked to approve an amendment to our amended and restated certificate of incorporation, as amended (our certificate of incorporation) to increase our authorized shares of common stock from 80,000,000 shares to 120,000,000 shares.

In February 2007, our Board of Directors unanimously approved a proposed amendment to our certificate of incorporation to increase our authorized shares of common stock from 80,000,000 shares to 120,000,000 shares and directed that the proposed amendment be submitted to a vote of our stockholders at the Annual Meeting. A copy of the proposed amendment, marked to show the changes that would be made to the existing provision, appears as **Exhibit A** to this Proxy Statement. Under the proposed amendment, each additional authorized share of common stock would have the same rights and privileges as each currently authorized share of common stock.

The proposed amendment requires the approval of our stockholders by the affirmative vote of holders of a majority of the shares of our common stock outstanding as of the record date (March 19, 2007).

Shares Outstanding and Reserved for Issuance

As of December 31, 2006, we had 44,251,965 shares of our common stock issued and outstanding. In addition, we had reserved 3,518,655 shares for issuance upon the exercise of outstanding stock options, 1,949,510 shares for issuance upon the exercise of stock options authorized to be granted but not yet granted under our stock option plans, 196,277 shares reserved for issuance under our employee stock purchase plan, and 11,000 shares reserved for issuance upon the exercise of outstanding common stock purchase warrants.

Accordingly, as of December 31, 2006, we had a total of 49,927,407 shares of our common stock issued and outstanding or reserved for issuance.

Reason for Proposed Amendment

Our Board of Directors has approved the proposed amendment because the Board has discussed the possibility of authorizing a 2-for-1 stock split if we had a sufficient number of authorized shares of common stock to permit the split. As matters stand, we do not.

Edgar Filing: STERICYCLE INC - Form DEF 14A

The Board of Directors has merely considered the possibility of authorizing a 2-for-1 stock split. The Board has not determined that a 2-for-1 or other stock split would be in the Company's best interest or the best interest of our stockholders, and it has not authorized a stock split. If the proposed amendment is approved by our stockholders, the Board may authorize a 2-for-1 stock split or other stock split, or it may decide that a stock split, either on a 2-for-1 basis or any other basis, is not in the Company's best interest or the best interest of our stockholders.

Possible Abandonment of Proposed Amendment

If the proposed amendment is approved by our stockholders but our Board of Directors decides not to authorize a stock split, the Board will abandon the proposed amendment even though it has been approved by the stockholders. If the proposed amendment is approved by our stockholders and we have not filed it with the Secretary of State of the State of Delaware by December 31, 2007, the Board of Directors will be considered to have abandoned the proposed amendment. If the proposed amendment is abandoned, it may not be filed to amend our certificate of incorporation unless stockholder approval is once again obtained.

Other Factors To Consider

Aside from a possible 2-for-1 or other stock split, or in connection with our existing stock option plans and employee stock purchase plan, we do not have any current plans or intentions for the issuance or use of a material number of shares of our common stock.

Table of Contents

If any of the additional authorized shares of common stock were to be issued other than in connection with a stock split, the issuance could have a dilutive effect on our earnings per share of common stock and on the voting power and equity interests of holders of our common stock at the time that the additional authorized shares are issued.

Although not a factor in the Board's decision to propose the increase in our authorized shares of common stock, one of the effects of the increase could be to enable the Board to make more difficult or discourage attempts by third parties to gain control of the Company by means of a merger, tender offer, proxy contest or other means, and thus enable the Board to protect the continuity of the incumbent directors and officers.

Current holders of our stock do not have preemptive rights to subscribe for or purchase any shares of our authorized common stock.

The Board of Directors recommends that stockholders vote FOR approval of the proposal to amend our certificate of incorporation to increase our authorized shares of common stock from 80,000,000 shares to 120,000,000 shares.
