Corporate Governance and Nominating Committee

Summary of responsibilities. The responsibilities of the Corporate Governance and Nominating Committee (the Governance Committee) which held six (6) meetings in 2006, include (i) developing and recommending to the Board a set of corporate governance standards in the form of a corporate governance policy for the Company, (ii) maintaining, and monitoring compliance with, the corporate governance policy, (iii) monitoring the process of assessing the effectiveness of the Board and its committees, and (iv) identifying individuals qualified to become Board members and recommending to the Board director nominees for election at the annual meeting of shareholders or those necessary to fill existing vacancies on the Board. Additionally, the Governance Committee is responsible for monitoring and safeguarding the independence of the Board, monitoring and overseeing senior management succession, and reviewing all related party transactions while monitoring compliance with the Company's related party transaction policy and procedures. All members of this committee are independent within the meaning of NASDAQ listing standards. The Governance Committee has a written charter. For a further description of the Governance Committee's powers, duties and responsibilities, please refer to the committee's charter which may be found on the Company's website at www.dennys.com.

Corporate Governance Policy and Practice. The Board and management clearly recognize the importance of a firm commitment to key corporate governance standards. Consequently, it is the goal of the Board and management to develop and adhere to a set of standards, that not only complies to the letter with all applicable regulatory guidance, but implements "best practices" of corporate governance.

The Governance Committee, during 2005, completed a thorough review of the Company's governance practices as compared to current governance best practices which resulted in a revision and restatement of the Company's corporate governance policy. The corporate governance policy is posted on the Company's website at www.dennys.com.

Director Nominations Policy and Process. The Governance Committee will consider director-nominees recommended by stockholders. A stockholder who wishes to recommend a person or persons for consideration as a nominee for election to the Board must send a written notice to the committee by mail addressed to the attention of the Secretary of Denny's Corporation at the corporate address set forth above. The written notice must set forth (i) the name of each person whom the stockholder recommends be considered as a nominee, (ii) a business address and telephone number for each nominee (e-mail address is optional), and (iii) biographical information regarding each nominee, including the person's employment and other relevant experience. To be

Table of Contents

considered by the committee, a stockholder recommendation must be received no later than the 120th calendar day before the first anniversary date of Denny's Corporation's proxy statement prepared in connection with the previous year's annual meeting.

The Governance Committee believes that a nominee recommended for a position on the Board must meet the following minimum qualifications:

he or she must be 21 years of age;

he or she must have experience in a position with a high degree of responsibility in a business or other organization;

he or she must be able to read and understand basic financial statements;

he or she must possess integrity and have high moral character;

he or she must be willing to apply sound, independent business judgment;

he or she must have sufficient time to devote to being a member of the Board; and

he or she must be fluent in the English language.

Annually, the Governance Committee will identify the areas of expertise or skill needed on the Board for the upcoming Board term. The Governance Committee will identify potential nominees for director from (1) the slate of current directors, (2) referrals from professional search firms, typically in those instances when the committee identifies a needed skill or expertise not possessed by the current slate of directors, and (3) recommendations from stockholders.

The committee will evaluate a potential nominee by considering whether the potential nominee meets the minimum qualifications identified by the committee, as well as considering the following factors:

whether the potential nominee has leadership, strategic, or policy setting experience in a complex organization, including any scientific, governmental, educational, or other non-profit organization;

whether the potential nominee has experience and expertise that is relevant to the Company's business including any specialized business experience, technical expertise, or other specialized skills, and whether the potential nominee has knowledge regarding issues affecting the Company;

whether the potential nominee is highly accomplished in his or her respective field;

whether the potential nominee has high ethical character and a reputation for honesty, integrity, and sound business judgment;

Edgar Filing: DENNYS CORP - Form DEF 14A

whether the potential nominee is independent, as defined by listing standards, whether he or she is free of any conflict of interest or the appearance of any conflict of interest, and whether he or she is willing and able to represent the interests of all Denny's Corporation stockholders; and

any factor affecting the ability or willingness of the potential nominee to devote sufficient time to the Board's activities and to enhance his or her understanding of the Company's business.

Additionally, with respect to an incumbent director whom the Governance Committee is considering as a potential nominee for re-election, the committee will review and consider the incumbent director's service during his or her term, including the number of meetings attended, level of participation, and overall contribution to the Company. The manner in which the committee evaluates a potential nominee will not differ based on whether the potential nominee is recommended by a stockholder.

The Company did not pay any fee to a third party to identify or evaluate or assist in identifying or evaluating potential nominees for director to present to stockholders for election at the 2007 Annual Meeting. The Governance Committee did not receive, by December 22, 2006 (the 120th calendar day before the first

anniversary of the date of release of the 2007 proxy statement), any recommended nominee from a stockholder who beneficially owns more than 5% of Common Stock or from a group of stockholders who beneficially own, in the aggregate, more than 5% of the Common Stock.

Lead Director; Board Meeting Information

In addition to the above-mentioned committee assignments and roles, in January 1999 the Board began appointing, from among its members, a Lead Director. The Lead Director role was designed generally to include regularly meeting by telephone with the Chief Executive Officer to discuss the financial and operational status of the Company and staying abreast of Company issues in a more in-depth manner than required of other Board members. In 2002, with the appointment of an independent director as the Company's Chairman of the Board of Directors, the Board determined that there would not be a need to designate a Lead Director so long as the Chairman of the Board was an independent director.

During 2006, there were nine (9) meetings of the Board. Each director attended at least 75% of the meetings of the Board (and, as applicable, committees thereof) during 2006.

Communications Between Security Holders and Board of Directors

The process for security holders of Denny's Corporation to send communications to the Board is as follows. Security holders may send written communications to the Board or any one or more of the individual members of the Board by directing such communication to the Secretary of Denny's Corporation by mail in the care of the Secretary, at our principal executive offices, or by e-mail to rparish@dennys.com. All written communications will be compiled by the Secretary and promptly submitted to the individual directors being addressed or to the Chair of the committee whose areas of responsibility includes the specific topic addressed by such communication, or in all other cases, to the Chairman of the Board.

Board Member Attendance at Annual Meetings of Stockholders

It is the policy of Denny's Corporation that all of the members of the Board and all nominees for election to the Board at the annual meeting of stockholders attend such meeting except in cases of extraordinary circumstances. All current directors attended last year's annual meeting of stockholders.

Director Compensation

For a description of the compensation of the directors, please see the Director Compensation Table and the narrative description following it, on page 31.

Table of Contents**SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

As a result of the adoption of the Sarbanes-Oxley Act of 2002, and related regulations proposed and adopted by the SEC, and by each national securities exchange, audit committees of public companies are formally charged with the responsibility for the appointment, compensation, retention and oversight of the independent registered public accounting firm that serves as the Company's independent auditor. The Audit Committee takes this responsibility very seriously and for the year 2007, the Audit Committee has selected KPMG as the independent registered public accounting firm of the Company. This selection is submitted for ratification of and approval by the stockholders at this Annual Meeting. Representatives of KPMG are expected to attend the Annual Meeting. They will have an opportunity to make a statement, if they so desire, and to respond to appropriate questions. If the stockholders do not ratify this selection, other independent registered public accounting firms will be considered by the Audit Committee.

2006 Audit Information

KPMG served as the Company's independent registered public accounting firm to audit the Company's financial statements for the fiscal years ended December 28, 2005 and December 27, 2006. The fees billed in the fiscal years ended December 28, 2005 and December 27, 2006 for KPMG's services to the Company were:

	Year ended December 28, 2005	Year ended December 27, 2006
Audit Fees	\$ 550,000	\$ 585,000
Audit-Related Fees	39,000	60,000
Tax Fees	14,650	
All Other Fees		
Total Fees	\$ 603,650	\$ 645,000

In the above table, in accordance with applicable SEC rules:

audit fees are fees billed by the independent registered public accounting firm for professional services for the audit of the annual Consolidated Financial Statements included in the Company's Form 10-K and review of the Condensed Consolidated Financial Statements included in the Company's Form 10-Qs, or for services that are normally provided by the independent registered public accounting firm in connection with statutory and regulatory filings or engagements, including comfort letters, consents, registration statements, statutory audits and reports on internal controls required by the Sarbanes Oxley Act of 2002;

audit-related fees are fees billed by the independent registered public accounting firm for assurance and related services that are reasonably related to the performance of the audit or review of the financial statements, and generally include fees for audits of the Company's employee benefit plans and audit or attest services not required by statute or regulation;

Edgar Filing: DENNYS CORP - Form DEF 14A

tax fees are fees billed by the independent registered public accounting firm for professional services for tax compliance, tax advice, and tax planning; and

all other fees are fees billed by the independent registered public accounting firm to the Company for any services not included in the first three categories above.

The Audit Committee has considered and determined that the services for which audit related fees and tax fees were billed were compatible with KPMG maintaining its independence.

Audit Committee's Pre-approval Policies and Procedures

It is the policy of the Audit Committee to pre-approve all audit and permitted non-audit services proposed to be performed by the Company's independent registered public accounting firm. The process for such

Table of Contents

pre-approval is typically as follows. Audit Committee pre-approval is sought at one of the committee's regularly scheduled meetings following the presentation of information at such meeting detailing the particular services proposed to be performed. Additionally, the Chair of the Audit Committee has been delegated the authority by the committee to pre-approve, where necessary, such services requiring pre-approval in between regularly scheduled committee meetings. The Chair will report any such decisions at the committee's next scheduled meeting. None of the services described above were approved by the Audit Committee pursuant to the exception provided by Rule 2-01(c)(7)(i)(C) under Regulation S-X.

STOCKHOLDER PROPOSAL

The stockholder proposal, which follows, is a verbatim submission by People for the Ethical Treatment of Animals (PETA) of 501 Front Street, Norfolk, Virginia 25310 (who has notified us that it owns 2,200 shares of our common stock), for consideration by our stockholders. All statements therein are the sole responsibility of PETA.

Report on Controlled-Atmosphere Killing

RESOLVED, in order to advance the interests of our company and the welfare of animals killed for its restaurants, shareholders request that the board of directors issue a report to shareholders on the feasibility of requiring its suppliers to phase in controlled-atmosphere killing (CAK), the least cruel form of poultry slaughter available. This report should be prepared by the end of November 2007 at a reasonable cost and should omit proprietary information.

Supporting Statement

Every chicken sold by Denny's is killed using the electric immobilization process, which involves dumping and shackling live birds, shocking them in an electrified water bath, slitting their throats, and defeathering them in tanks of scalding-hot water. Electric immobilization lowers product quality and is cruel:

Birds suffer broken bones, bruising, and hemorrhaging when they are dumped and shackled, which lowers meat quality.

Birds flap about, and many miss the stun baths entirely; those who are shocked are merely immobilized and still feel pain afterward. Many birds also miss the killing blades. This means that live birds enter the scalding tanks, which decreases yield because these birds are condemned. It also increases contamination (live birds defecate in tanks). According to the U.S. Department of Agriculture (USDA) Food Safety and Inspection Service, "[P]oultry products are more likely to be adulterated if they are produced from birds [who] have not been treated humanely" (70 Fed. Reg. 56624).

Workers handle live birds at every stage. Consequently, abuse has been documented at the plants of America's top poultry suppliers including one where workers were found stomping on live birds, spitting tobacco in their eyes, and spray-painting their faces.

CAK is USDA-approved and improves product quality, yield, and animal welfare:

With CAK, birds are placed in chambers while they are still in their transport crates, where their oxygen is replaced with inert gasses (i.e., argon and nitrogen), efficiently and gently putting them to sleep.

CAK improves product quality by lowering rates of broken bones, bruising, and contamination; increases shelf life by slowing down the decaying process; eliminates the possibility that conscious birds will be scalded to death (which would decrease contamination and increase yield); and eliminates the possibility of workers abusing the animals, since birds are dead before being handled.

Table of Contents

Every published review of CAK including one conducted by McDonald's concludes that it is superior to electric immobilization with regard to animal welfare, as do top animal welfare scientists and meat-industry advisors like Dr. Temple Grandin and Dr. Ian Duncan.

Denny's has stated that it believes that CAK has the potential to become a viable method of poultry slaughter . . . for all Denny's suppliers. Despite this and even though CAK improves product quality and the treatment of animals and is a matter of significant social and public policy Denny's has yet to produce a report on the feasibility of requiring its suppliers to adopt the technology. Clearly, it is in the company's best interests that shareholders vote for this resolution.

**BOARD OF DIRECTORS STATEMENT
IN OPPOSITION TO THE STOCKHOLDER PROPOSAL**

The Board recommends that stockholders reject PETA's stockholder proposal. The Board believes that this proposal is not in the best interest of our stockholders and opposes it for the following reasons.

PETA has introduced stockholder proposals regarding the humane treatment of animals at the annual meetings of numerous corporations in the last several years. While we consider the humane treatment of chickens important, we believe PETA's proposal is singularly focused on PETA's specific agenda rather than on the interests of our stockholders generally.

Our first priority has always been the safety and quality of the food that we serve in our restaurants. We also are committed to the humane treatment of animals. Although we do not own, raise, transport or process livestock, we take seriously our responsibility as a purchaser and we assist our chicken suppliers in their ongoing consideration of CAK. Our management is committed to monitoring CAK technology developments and to reviewing research reports published by reputable scientific organizations and industry leaders in this regard. To this end, we have discussed and continue to discuss CAK and the humane treatment of chickens with our suppliers.

We have a long-standing policy with respect to the humane treatment of animals and of working with our suppliers to ensure humane animal handling and care. In 2004, we formed an animal welfare task force. We are committed to continuing to stay abreast of CAK technology and communicating with our suppliers about this and other best practices and emerging technologies. There is currently no chicken supplier that utilizes CAK that can provide portion-controlled, sliced chicken product to meet our restaurants' specifications. Nevertheless, as more studies are conducted and new procedures become available, we, together with our suppliers, will continue to consider and discuss the feasibility of different slaughter techniques including controlled atmosphere killing.

We believe that handling chickens in a humane manner, and preventing neglect or abuse, is the right thing to do. We work hard to be a good corporate citizen and believe in good animal handling practices. We believe that the proposed report is unnecessary and would not result in any additional benefit to our stockholders. The proposed report would be costly and time-intensive, and is duplicative of our existing initiatives and efforts of others with more direct influence and greater purchasing impact.

Board Recommendation

The Board of Directors recommends that you vote AGAINST this proposal.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The following discussion provides an overview and analysis of our compensation objectives and policies for our executive officers and the material compensation decisions we made for 2006 with respect to our executive officers. This information should be read in the conjunction with the compensation tables, related narratives and notes contained later in this proxy statement. Specifically, this discussion will focus on the compensation awarded to, earned by, and paid to the following individuals, whom we refer to as our named executive officers:

Nelson J. Marchioli, our President and Chief Executive Officer;

F. Mark Wolfinger, our Executive Vice President, Growth Initiatives and Chief Financial Officer;

Rhonda J. Parish, our Executive Vice President, Chief Legal Officer and Secretary;

Margaret L. Jenkins, our Senior Vice President, Marketing and Chief Marketing Officer; and

Janis S. Emplit, our Senior Vice President, Company Operations.

Compensation Philosophy/Objective/Design

The compensation programs for our named executive officers have been developed under the oversight and direction of the Compensation and Incentives Committee of the Board with the goal of designing an overall compensation program that attracts, motivates and retains top quality leadership talent while ensuring their interests are sufficiently aligned with the interests of our shareholders.

Integral to this design goal was the objective to develop for our executive officers a compensation package that (i) compensates for day-to-day responsibilities, (ii) rewards, on an annual basis, the achievement of key performance goals deemed critical to the Company's overall success, (iii) rewards for the long-term success of the Company in a manner that is directly linked to shareholder value creation, and (iv) provides health care and financial security benefits to our executive officers similar to those provided for all employees. To accomplish this four-pronged objective, we utilized in 2006 the following elements of executive compensation (i) base salary, (ii) quarterly/annual cash incentive bonus, (iii) long-term equity incentives, and (iv) certain benefits and perquisites. Each of these compensation elements are described and analyzed in further detail below.

Use of Market Data and Peer Groups Source of Data

Edgar Filing: DENNYS CORP - Form DEF 14A

To assist in evaluating and determining competitive levels of compensation for each element of pay, the Compensation Committee relies upon various sources of data prepared and collected by its compensation consultant, Hewitt Associates, which includes:

Proxy data collected and analyzed from a peer group of 20 restaurant companies operating in the family dining and quick service segments. This restaurant peer group consisted of the following companies:

Applebee's International, Inc.
Bob Evans Farms, Inc.
Brinker International Inc.
CBRL Group, Inc.
CKE Restaurants, Inc.
Darden Restaurants, Inc.
Domino's Pizza, Inc.

Friendly Ice Cream Corp.
Frisch's Restaurants, Inc.
IHOP Corp.
Jack in the Box, Inc.
Landry's Restaurants, Inc.
McDonald's Corporation
Outback Steakhouse Inc.

RARE Hospitality International, Inc.
Ruby Tuesday, Inc.
Ryan's Restaurant Group, Inc.
Steak 'N Shake Company
Wendy's International, Inc.
Yum! Brands, Inc.

Table of Contents

Published surveys from the Chain Restaurant Compensation Association (covering the chain restaurant industry) and Mercer HR Consulting (covering the hospitality and retail industries) which provided information on base salary, total cash (base salary and bonus) and total direct compensation (base salary, bonus and long-term incentives).

Data on long-term incentive opportunities in the hospitality, restaurant and retail industries from a database maintained by the Committee's compensation consultant, Hewitt Associates.

The Company strives to provide pay opportunities (e.g., base salary, target bonus and long-term incentive awards) that are at approximately the competitive median (i.e., 50th percentile) of its restaurant peer group. Company incentive plans are designed to have significant differentiation in payouts based on performance. As a result, actual compensation payouts are intended to be market-appropriate given our performance for that year or period.

Base Salary

In General. The objective of base salary is to compensate the executive officer for day-to-day responsibilities and sustained performance relative to his or her position through a competency-based program designed to (i) be competitive, (ii) recognize the ability, accomplishments and contributions of the individual, and (iii) be affordable.

How Amounts are Determined. In March 2006, median base salary levels were developed from the restaurant peer group for each named executive officer on a rank-order basis and, where possible, a position-specific basis. Actual 2006 base salary determinations took into account this information as well as (i) existing base salary levels, (ii) experience and time in position, (iii) individual performance and (iv) incumbent history with the Company. Pursuant to his employment agreement dated May 11, 2005 (see Employment Agreements for additional information), Mr. Marchioli's base salary was originally scheduled to be \$700,000 for 2006, increasing to \$750,000 on January 1, 2007. However, the Compensation Committee determined based upon the above referenced salary determination factors (particularly his performance level as demonstrated by his leadership of the Company during a difficult operating environment) to accelerate his salary increase to \$750,000 effective in March 2006 as opposed to January 1, 2007. Base salaries of the other named executive officers (excluding Mr. Wolfinger) were increased for 2006 in the amount of two percent based upon the factors set forth above.

In addition to the above referenced base salary determinations, Mr. Wolfinger received a salary increase of seven percent as a result of his promotion to Executive Vice President and the related expansion of his job responsibilities in connection with the Company's organizational restructuring in October 2006.

Quarterly/Annual Cash Incentive Bonus

In General. With the goal of rewarding the achievement during the year of key performance goals deemed critical to the Company's overall success, the Compensation Committee adopted the Denny's 2006 Corporate Incentive Program (the 2006 Incentive Program), a variable pay component for executives structured around performance, contribution and affordability, as part of named executive officers' compensation packages for 2006.

What the Pay Element Rewards. The 2006 Incentive Program was designed to promote teamwork while striving for the alignment of corporate, unit and individual goals by creating incentives for executives targeted toward increased Company productivity and profitability.

How Target Bonuses Were Determined. Under the 2006 Incentive Program, which is offered to substantially all non-restaurant Denny's employees including the named executive officers pursuant to the Denny's Corporation 2004 Omnibus Incentive Compensation Plan (the Denny's 2004 Omnibus Plan), a participant is eligible to earn a target bonus award (Target Award) equal to a percentage of his or her base

Table of Contents

salary, depending on the group classification assigned to such participant. Target Awards for each of the named executive officers, which range from 65% to 100% of base salary, are provided in the 2006 Grants of Plan-Based Awards Table on page 24 of this proxy statement.

In January 2006, each named executive officer's proposed Target Award plus base salary was compared to published median survey. Actual 2006 target bonus determinations took into account this information as well as (i) existing target opportunities, (ii) experience and time in position, (iii) individual performance and (iv) incumbent history with the Company.

Performance Goals for 2006 Bonuses. Target Awards under the 2006 Incentive Program are earned by participants based on the achievement of certain pre-established quarterly and annual performance goals. The amount of actual bonus earned may range from 50% of the Target Award, if certain threshold goals are met, to 100% of the Target Award, if all targeted goals are met. Performance goals, which were based on seven (7) performance categories, for 2006 were as follows:

(i) Company Same Store Sales (C S S S) under which participants earn up to 10% of their Target Awards, payable on a quarterly basis (or accumulatively on an annual basis);

(ii) Franchise Same Store Sales (F S S S) under which participants earn up to 10% of their Target Awards, payable on a quarterly basis (or accumulatively on an annual basis);

(iii) Company Store Customer Count (C S C C) under which participants earn up to 15% of their Target Awards, payable on a quarterly basis (or accumulatively on an annual basis);

(iv) Adjusted EBITDA (defined as earnings before interest, taxes, depreciation, amortization, gains, other non-operating expense, share-based compensation, impairment and restructuring), under which participants earn up to 20% of their Target Award, payable on an annual basis;

(v) Adjusted EBITDA Margin Percentage (defined as Adjusted EBITDA divided by total operating revenue), under which participants earn up to 10% of their Target Award, payable on an annual basis;

(vi) Cash Flow under which participants earn up to 10% of their Target Award, payable on an annual basis; and

(vii) Department Objectives which are set for each department based on stated criteria for up to five objectives directly linked to the Company's overall objectives, and under which participants may earn up to 25% of their Target Awards, payable on an annual basis. Each named executive officer's department objectives were the objectives determined for the Company department within which he or she worked. The objectives among the various Company departments were typically targeted to reward results beyond the normal scope of job responsibilities in line with the strategic objectives of the Company.

Edgar Filing: DENNYS CORP - Form DEF 14A

In addition, participants in the 2006 Incentive Program, including the named executive officers, are eligible to share in an Over-Performance Payout (OP Payout), which is a bonus pool that will be created if Denny s exceeds the annual targeted EBITDA amount. The amount of the OP Payout is equal to 25% of the amount by which EBITDA for the year exceeds the targeted EBITDA. Each participant receives a pro rata percentage of any OP Payout, based on the amount of the participant s Target Award earned for the year, not to exceed 100% of the participant s Target Award otherwise earned for the year.

Specific performance targets of the 2006 Incentive Program were determined by aligning these targets with the Company s 2006 Business Plan. We believe these target levels were aggressive but achievable if our senior management team implemented our business plan. The OP Payout targets were designed to reward exceptional performance and were not easily attainable. By linking to the 2006 Business Plan, the 2006 Incentive Program further aligned the individual goals of the named executives with the performance goals of the Company.

Table of Contents

Payouts for 2006 Performance. Management's assessment of 2006 performance achievement relative to the identified criteria was reviewed with the Compensation Committee preliminarily on January 23, 2007 and with final results on February 12, 2007.

Based upon the 2006 performance, 55.6% of the total possible target awards and no OP Payouts were paid out for participants under the 2006 Incentive Program. Of the 55.6% payout, 22.93% represents payouts for achievement of the 2006 Department Objectives described further above.

Actual payouts received by each named executive officer as a result of the performance achieved are provided in the Summary Compensation Table on page 22.

Long-Term Equity Incentive Compensation

In General. A key component of the total compensation package of our executive officers is a long-term equity incentive program that is designed to meet the following objectives:

- (i) Reward long-term Company profitability and growth,
- (ii) Promote increased shareholder value and the alignment of our executives' interests with the interests of our shareholders,
- (iii) Be competitive with market practice,
- (iv) Promote stock ownership among executives,
- (v) Encourage a long-term perspective among executive officers,
- (vi) Provide an incentive for executives to remain with the Company, and
- (vii) Be affordable from an economic and accounting perspective.

To accomplish these objectives in 2006, a long-term incentive program was developed for our executive officers consisting of stock options, performance shares and performance units awarded under the Denny's 2004 Omnibus Plan. Prior to 2006, Denny's granted performance-accelerated restricted stock units to its executive officers, some of which are still outstanding and are discussed below.

How Total Long-Term Incentive Grant Amounts Were Determined. The Committee reviewed two sets of market data to determine competitive levels of long-term incentive opportunities: 1) proprietary Hewitt data for the hospitality, retail and restaurant industries and 2) restaurant peer group proxy data. Award sizes were set conservatively to be at approximately the median of the hospitality, retail and restaurant data (which was lower than the peer group proxy data), but consideration will be given to the peer group proxy data in determining future award sizes.

Stock Options

What the Element Rewards. Stock options reward common stock price increases over the market price on date of grant, over a 10-year term, and reward continued tenure over a 3-year vesting term.

Why the Company Uses the Element. Stock options are included in the long-term incentive program because they represent performance-based compensation and align executives' interests with those of stockholders in a way that focuses on share price appreciation while encouraging retention.

Table of Contents

Timing of Grants. Stock awards for 2006 were granted at the Compensation Committee's regularly scheduled meeting on March 14, 2006. Typically, annual equity awards are made at the second regularly scheduled committee meeting of the year which falls in between the Company's quarterly earnings releases. As with all equity awards, the Company does not have a practice or policy of coordinating the timing of equity awards with the release of material non-public information.

2006 Option Grants. Stock options granted to the named executive officers are set forth in the 2006 Grants of Plan-Based Awards Table on page 24. In addition to the broad-based annual stock option awards granted on March 14, 2006, the Committee approved a special award to Ms. Jenkins on January 13, 2006, based on its desire, upon the recommendation of the Company's Chief Executive Officer, to increase Ms. Jenkins' total option level to the level of other senior officers at Denny's.

Long-Term Growth Incentive Program

In General. On March 14, 2006, the Compensation and Incentives Committee approved and adopted a long-term growth incentive program (LTGI Program), in which selected members of management, including the Company's executive officers, were selected to participate. Under the LTGI Program, which is offered pursuant to the Denny's 2004 Omnibus Plan, performance shares and performance units can be earned at 0% to 200% of a target award depending on achievement of specified performance goals for 2006 and continued employment through the payout date.

Target awards are denominated one-half in performance shares and one-half in performance units. Earned performance shares will be paid in shares of common stock of the Company and earned performance units will be paid in cash. Pro rata amounts can be earned for certain qualifying employment terminations occurring prior to the payout date. One-half of the shares earned and paid must be held by participants until termination of their employment from the Company. Target awards for each of the named executive officers, which range from 55% to 85% of base salary based on the median data referenced above, are provided in the 2006 Grants of Plan-Based Awards Table on page 24.

What the Element Rewards. The 2006 LTGI program measures corporate performance over a one-year period from January 1, 2006 through December 31, 2006. It rewards for achievement of goals regarding systemwide revenues and cash flow available to pay debt, as well as continued tenure over a three-year period (the one-year performance period plus a two-year vesting period).

Why the Company Uses the Element. The program:

(i) Rewards for long-term growth and profitability by linking directly to the company's three-year strategic plan through the use of one-year targets,

(ii) Further aligns the interests of our executives with the interests of our shareholders by requiring that one-half of the annual LTGIP awards be denominated in Denny's performance shares and paid out in stock,

Edgar Filing: DENNYS CORP - Form DEF 14A

(iii) Promotes stock ownership by requiring that one-half of performance shares earned be held by participants until termination of their employment from the Company, and

(iv) Has a retentive effect on executives in that the awards contain a three-year performance/vesting period.

Goals for 2006. Two performance goals existed under the LTGI Program for 2006: (i) targeted 2006 Systemwide Revenues, and (ii) targeted 2006 Cash Flow to Pay Down Debt. Each goal was equally weighted and offered opportunities to earn awards ranging from 50% of a participant's target award if a threshold performance level is achieved to 200% of a participant's target award, if an outstanding performance level is achieved.

Table of Contents

Specific target levels were determined by aligning the targets with the Company's strategic plan. We believe that the targets levels were aggressive but achievable if we successfully implemented our business plan. The maximum or outstanding performance levels were designed to award exceptional performance and were not easily attainable.

The amount earned at the end of the one-year performance period may be more or less than the target based upon corporate performance measured during 2006. Target amounts lead to actual payouts based on the two performance goals described above. The two results are summed to calculate the total amount earned under the plan.

2006 Performance Results and Earning of Awards. For 2006, the Company achieved the following performance levels:

- (i) For Systemwide Revenues, the threshold performance level was not achieved generating a 0% of target earning, and
- (ii) For Cash Flow Available to Pay Down Debt, an outstanding performance level was achieved generating a 200% of target earning.

The above combined results earned an overall payout of 100% of the target number of performance shares and performance units. Payouts of these awards are contingent upon continued employment through the vesting period and will be set forth in the Company's 2007 Summary Compensation Table.

Performance-Accelerated Restricted Stock

In General. In 2004, the Company adopted the 2004 Total Shareholder Return Program (the 2004 TSR Program), pursuant to which awards of performance-accelerated restricted stock units (RSUs) were granted to its executives (including each of the named executive officers except Mr. Wolfinger, who was not employed at time of grant). The RSUs vest after five years of continued employment with the Company. Earning of awards can be accelerated based on relative total shareholder return performance versus the restaurant peer group as follows:

- (i) Up to one-third of the RSUs could be earned and vested on each of June 30, 2005, 2006 and 2007, based on the Company's total shareholder return compared with the restaurant peer group over the 12-month period preceding the applicable vesting date.
- (ii) Awards not earned in the appropriate period may carry forward to the next year and be earned then if cumulative performance would provide that result.
- (iii) Carryover amounts could be earned based on performance during the Alternative Performance Period as shown below.

Edgar Filing: DENNYS CORP - Form DEF 14A

Amount of the Initial Grant	Single Year Performance	Alternative Performance
that May Be Earned	Period for that Year's 1/3	Period for Carryover Amount
Up to 1/3	July 2004 - June 2005	
Up to 2/3 total	July 2005 - June 2006	July 2004 - June 2006
Up to 100% total	July 2006 - June 2007	July 2004 - June 2007

Vested RSUs are settled 50% on the one-year anniversary of the vesting date and 50% on the two-year anniversary of the vesting date, and are paid one-half in cash and one-half in stock.

Award Granted to Mr. Wolfinger Upon Hire. Upon his employment on October 3, 2005, Mr. Wolfinger was granted an award of RSUs under the 2004 TSR program under the same terms as described above except that the accelerated performance-based vesting was adjusted as follows: up to one-third of the RSUs may be earned in each of 2006, 2007, and 2008, based on the Company's total shareholder return compared with a peer group over an October 1, 2005 to June 30, 2006 time frame for 2006 and a July-to-June time frame for 2007 and 2008.

Table of Contents

Why the Company Uses the Element. The program was developed at the time of the 2004 recapitalization of the Company in an effort to further align management's interests with those of shareholders and dispel investor fears of excessive dilution. It also served to retain a stable management group in order to continue progress toward a turnaround.

Certain Benefits and Perquisites

In General. Company executives are eligible to participate in qualified and non-qualified retirement and savings plans, as well as various other benefit plans intended to provide a safety net of coverage against various events, such as death, disability and retirement. Named executive officers also receive certain perquisites believed to be competitive and either business-related or otherwise in the Company's best interest. These benefits are described below.

Retirement and Savings Plans

Pension Plan. In light of the fact that the Company's Pension Plan (i.e., the Advantica Pension Plan) was frozen for participation purposes after December 31, 1999 and for benefit accrual purposes after December 31, 2004, only two named executive officers (Ms. Parish and Ms. Emplit) have accrued pension benefits which are held under an ancillary non-qualified plan due to the limits on benefits and compensation under the Internal Revenue Code of 1986, as amended (the Code).

Deferred Compensation Plan/401(k) Plan. As a result of the IRS limits mentioned above, participation in a non-qualified deferred compensation plan is offered to certain management level employees including the named executive officers. Under this deferred compensation plan, participants are allowed to (i) defer up to 50% of one's annual salary and 100% of one's annual incentive bonus on a pre-tax basis, and (ii) receive from the Company a match of up to three percent of an individual's compensation. The three percent match corresponds to the three percent match offered by the Company to all employees eligible to participate in the Company's 401(k) plan. Executive officers are eligible to participate in the Company's 401(k) Plan, but due to the above referenced IRS limit, are not eligible to receive the Company matching contribution of three percent under the 401(k) Plan.

Other Benefits. In addition to the above referenced benefit plans, the named executive officers are eligible to participate in a wide range of health and welfare plans such as medical, life insurance, short-term and long-term disability, accidental death, vision care and dental on the same basis as all other salaried employees.

Perquisites. Certain perquisites are offered to executive officers including the named executive officers. These perquisites, which include car allowances, financial planning and investment services and executive physicals, were determined to be beneficial to the Company and executive alike in that they were of the type we believe encourage and aid the executive in the performance of his or her duties while presenting a minimal cost to the Company.

Post-Termination Payments

In General. The named executive officers, to varying degrees, by contract, have been extended certain post-termination benefits which may include salary and bonus continuation, health and welfare continuation and acceleration of certain long-term incentive awards in the event of death or disability, severance, and post change-in-control severance benefits. For more information regarding these specific agreement provisions for each named executive officer, please see the Summary of Termination Payments and Benefits on page 30.

Why the Company Uses the Element. The purpose of such provisions is to protect plan participants from events outside their control, treat plan participants in a manner consistent with the culture of the Company, and protect against disruption in the event of a change in control.

Table of Contents

What the Element Rewards. Post-termination payments are provided to the named executive officers to promote continued commitment to the Company in the face of change or financial hardship. Each named executive officer is provided different consideration based on (i) economic condition of the Company when hired or promoted, (ii) individual negotiations based on previous employment situation, (iii) level of position and importance to the organization and (iv) common practices in the market at time of negotiation. The amounts and lengths of time these post termination benefits are to be made by the Company vary based upon the executive's position, level of accountability and ability to influence Company results.

With respect to the post change in control severance benefits, the events that trigger payment include involuntary termination without cause and the limited ability by the executive to terminate service after a breach of contract or job demotion. With respect to Mr. Marchioli, although these benefits are not eligible for any tax gross-up, a protective benefit cutback provision does apply to prevent any excise taxes imposed on such payments to cause the executive's total after tax payments to be less than what he would have netted, had his total benefits been less than three times his historic taxable compensation.

Accounting and Tax Treatment Impact

With respect to Section 162(m) of the Code and underlying regulations pertaining to the deductibility of compensation to certain executive officers in excess of \$1 million, the Compensation Committee has adopted a policy to comply with such limitations, to the extent practicable, including its presentation of the Company's underlying incentive compensation plan (i.e., the 2004 Omnibus Plan) to the stockholders for prior approval. However, the Compensation Committee has also determined that some flexibility is required, notwithstanding these statutory and regulatory provisions, in negotiating and implementing the Company's incentive compensation programs. It has, therefore, retained the discretion to award some bonus payments based on non-quantitative performance objectives and other criteria which it may determine, in its discretion, from time to time.

Summary Compensation Table

The following Summary Compensation Table sets forth, for the Company's last completed fiscal year, the compensation provided by the Company to any individual serving the Company at any time during 2006 as its Chief Executive Officer or Chief Financial Officer as well as the three most highly compensated executive officers, other than the Chief Executive Officer and Chief Financial Officer, who were serving as executive officers at the end of 2006 (the named executive officers).

The Company advanced funds to a third-party relocation company that purchased Mr. Wolfinger's home in 2006. The home is still on the market for sale, and until the home is sold, the aggregate incremental cost of the purchase to the Company cannot be determined. [See the description of Mr. Wolfinger's employment letter for a further description of the Company's relocation program.]

Employment Agreements

Mr. Marchioli's 2006 compensation was governed by his employment agreement with the Company dated May 11, 2005 (the 2005-2007 Marchioli Employment Agreement) which had an original term from May 11, 2005 to December 31, 2007.

Under the 2005-2007 Marchioli Employment Agreement, Mr. Marchioli is paid by the Company an annual base salary (for additional information regarding the amount of Mr. Marchioli's base salary, see the Compensation Discussion and Analysis) and an annual bonus at a rate of 100% of his annual base salary if the Company and Mr. Marchioli achieve budgeted financial and other performance targets established by the Compensation Committee of the Board. Also, to the extent the Compensation Committee provides additional over-performance incentive targets in the Company's annual incentive bonus plan for employees, Mr. Marchioli is entitled to participate fully in and receive the full benefits for achieving such over-performance incentive targets. Additionally, during his employment term, Mr. Marchioli will receive an annual car allowance and will be entitled to participate in all of the Company's benefits plans applicable to senior officers as well as be reimbursed for all normal and reasonable expenses incurred in connection with his employment responsibilities.

On November 10, 2006, the 2005-2007 Marchioli Employment Agreement was amended to extend its term to May 20, 2009 and to permit the Compensation Committee to review Mr. Marchioli's base salary on an annual basis and to increase such base salary if such increase is warranted based upon the annual review by the Compensation Committee of his performance. With the exception of certain adjustments to the provisions governing payment upon termination of employment (discussed in further detail under Summary of Termination Payments and Benefits on page 30), all other provisions of the 2005-2007 Marchioli Employment Agreement (as summarized above) continue in effect through the amended term end date of May 20, 2009.

Additionally, Mss. Parish, Jenkins and Emplit and Mr. Wolfinger are parties to separate letter agreements with the Company which govern payments to them upon termination of employment. For further information regarding the material terms of these agreements, see Summary of Termination Payments and Benefits on page 30. Also, under Mr. Wolfinger's agreement he was entitled to receive relocation assistance and participate in the Company's relocation assistance program which included a guaranteed buy-out of his primary residence in Florida. See the footnotes to the Summary Compensation Table on page 22 for additional information.

Table of Contents**Pension Benefits Table**

The following table sets forth information with respect to each Company plan that provides for payments or other benefits to named executive officers at, following, or in connection with retirement.

<u>Name</u>	<u>Plan Name(1)</u>	<u>Number of Years Credited Service</u>	<u>Present Value of Accumulated Benefit(2)</u>
Nelson J. Marchioli	n/a		\$
F. Mark Wolfinger	n/a		\$
Rhonda J. Parish	The Advantica Pension Plan	9	\$ 300,551
Margaret L. Jenkins	n/a		\$
Janis S. Emplit	The Advantica Pension Plan	8	\$ 167,396

(1) The Advantica Pension Plan (the Pension Plan), is a tax qualified defined benefit retirement plan maintained by Denny's. The Pension Plan is noncontributory and covers a limited number of employees of Denny's, Inc. In 1999, the Pension Plan was amended to effect the following changes (1) no new participants were allowed into the plan after December 31, 1999; (2) all future pension benefit accruals for highly compensated employees were earned beginning January 1, 2000 under a non-qualified ancillary plan; and (3) all benefit accruals earned under the plan and ancillary plan were frozen as of December 31, 2004. Participants in the Pension Plan and ancillary plan, therefore, are limited to those employees who, on or prior to December 31, 1999, had attained the age of 21 and had completed one thousand hours of service, and no participant accrues any benefit after December 31, 2004. As a result of the above limitations, Mss. Emplit and Parish are the only named executive officers who participate in the Pension Plan and ancillary plan.

(2) Of the amounts in this column, \$36,657 and \$17,861 represent the amounts of the present value of accumulated benefits in the Pension Plan for Ms. Parish and Ms. Emplit respectively, and \$263,894 and \$149,535 represents the amounts of the present value of accumulated benefits in the ancillary plan for Ms. Parish and Ms. Emplit respectively.

The three percent match corresponds to the three percent match offered by the Company to all employees eligible to participate in the Company's 401(k) plan.

Also, amounts reflected for the named executive officers (where applicable) in the Pension Benefits Table on page 28 and the Nonqualified Deferred Compensation Table on page 29 are excluded from this table.

- (1) Each non-employee director of Denny's Corporation in 2006 received a \$45,000 annual cash retainer (paid in equal installments on a quarterly basis). Additionally, the Chair of the Audit Committee received additional compensation annually of \$20,000 and the Chair of the Corporate Governance Committee and the Compensation Committee each received additional compensation annually of \$15,000 for their service as the committee chair. Rather than the \$45,000 annual cash retainer paid to other directors, the Chair of the Board received in 2006 \$100,000 for service as of the Board's Chair.
- (2) In 2006, Ms. Farris and Mr. Hill each received, in addition to their annual cash retainer as a non-employee director, \$15,000 for their service as the committee chairs of the Compensation and Corporate Governance committees, respectively. In 2006, Ms. Smithart-Oglesby and Mr. Marks each served portions of the year as the Chair of the Audit Committee and thus their totals reflect a pro-rata share of the Audit Committee Chair fee. Additionally in 2006, Ms. Smithart-Oglesby and Mr. Marks each served portions of the year as the Chair of the Board and thus their totals reflect a pro-rata share of the Board Chair fee.

Table of Contents

- (3) As an employee of Denny's, Mr. Marchioli did not receive a separate cash retainer for his service as a director in 2006. (See the Summary Compensation Table on page 22 for Mr. Marchioli's total 2006 compensation).
- (4) The amounts in this column reflect the compensation expense recognized by the Company for financial statement reporting purposes related to the award of deferred stock units (DSUs) to directors pursuant to our 2004 Omnibus Incentive Plan. Details on the assumptions made in the valuation of these awards can be found in Note 16 to the Consolidated Financial Statements in our Form 10-K filed on March 9, 2007. Under the current director compensation package, each director receives an annual award of 8,100 DSUs in addition to receiving DSUs for participation in any unscheduled, specially-called meeting (i.e., any meeting called in addition to the typically five regularly scheduled board and committee meetings). The number of deferred stock units earned by directors for specially-called meetings is determined on a quarterly basis using a rate of \$1,000 for attendance in person and \$500 for telephonic participation and is calculated by dividing the total dollar value earned for such meeting attendance for the quarter by the closing price of the Common Stock on the last day of the quarter. The aggregate number of deferred stock units held as of December 27, 2006 for Mss. Farris and Lauderback, Messrs. Marks, Montelongo, Nasella and Shepherd and Ms. Smithart-Oglesby were 27,297, 9,401, 26,437, 9,913, 17,667, 27,829 and 27,183, respectively. Mr. Hill did not hold any units as of year-end as they were converted to shares of stock upon his resignation from the Board during 2006.
- (5) The amounts in this column reflect the compensation expense recognized by the Company for financial statement reporting purposes related to stock options awarded to non-employee directors under the 2004 Omnibus Incentive Plan pursuant to our director compensation package. Details on the assumptions made in the valuation of these awards can be found in Note 16 to the Consolidated Financial Statements in our Form 10-K filed on March 9, 2007. Under the current Denny's director compensation package, a Denny's non-employee director receives an annual grant of options to purchase 18,900 shares of Common Stock. The aggregate number of stock options held as of December 27, 2006 for Mss. Farris and Messrs. Marks and Shepherd were 77,700, for Ms. Lauderback and Mr. Montelongo 18,900, for Mr. Nasella 37,800 and Ms. Smithart-Oglesby 56,700.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers, directors and persons who own more than ten percent (10%) of the Common Stock to file reports of initial ownership and changes in their ownership of the Common Stock with the SEC. Additionally, SEC regulations require that the Company identify any individuals for whom one of the referenced reports was not filed on a timely basis during the most recent fiscal year or prior fiscal years. With the exception of the Forms 4 described immediately below, to the Company's knowledge (based solely on review of reports furnished to it and written representations that no other reports were required during and with respect to the fiscal year ended December 27, 2006) the Company's officers, directors and 10% stockholders complied with their Section 16(a) filing requirements for such year. Forms 4 filed March 16, 2006 for Mss. Jenkins and Parish and Mr. Wolfinger were timely filed but inadvertently underreported the number of shares of Common Stock underlying their annual stock option awards (dated March 14, 1006). These Forms 4 were subsequently amended on April 16, 2006 to accurately reflect the amount of the stock option awards.

RELATED PARTY TRANSACTIONS

Early in 2007, the Company entered into a franchise transaction with Craig Herman, a former executive officer of Denny's who retired from the Company effective October 31, 2006, whereby Mr. Herman acquired from the Company, for approximately \$1.85 million, the right to operate as a franchisee four restaurant units previously operated by the Company.

The above referenced transaction was approved pursuant to a written policy and procedures maintained by the Company for the review, approval or ratification of related party transactions. Pursuant to such policy and procedures, the Company will enter into or ratify transactions with related parties (as the term is defined in Item 404 of Regulation S-K) only when the Board, acting through the Governance Committee determines that the related party transaction in question is in, or is not inconsistent with, the best interests of the Company and its stockholders, including but not limited to situations where the Company may obtain products or services of a nature, quantity or quality, or on other terms, that are not readily available from alternative sources or when the Company provides or receives products or services to or from a related party on an arm's length basis on terms comparable to those provided to unrelated third parties or on terms comparable to those provided to employees generally. Accordingly, the Governance Committee shall review the material facts of all proposed related party transactions that require approval and either approve or disapprove of the entry into the related party transaction. If advance Governance Committee approval of a related party transaction is not feasible, then the related party transaction shall be considered and, if the Governance Committee determines it to be appropriate, ratified at the committee's next regularly scheduled meeting. In determining whether to approve or ratify a related party transaction, the Governance Committee will take into account, among other factors it deems appropriate, whether the related party transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances and the extent of the related party's interest in the transaction.

OTHER MATTERS

Expenses of Solicitation

The Company will pay the costs of solicitation of proxies, including the cost of assembling and mailing this proxy statement and the material enclosed herewith. In addition to the use of the mails, proxies may be solicited personally, by telephone or facsimile or by corporate officers and employees of the Company without additional compensation. The Company intends to request brokers and banks holding stock in their names or in the names of nominees to solicit proxies from their customers who own such stock, where applicable, and will reimburse them for their reasonable expenses of mailing proxy materials to their customers.

Discretionary Proxy Voting

In the event that any matters other than those referred to in the accompanying notice should properly come before and be considered at the Annual Meeting, it is intended that proxies in the accompanying form will be voted thereon in accordance with the judgment of the person or persons voting such proxies.

2008 Stockholder Proposals

In order for stockholder proposals intended to be presented at the year 2008 Annual Meeting of Stockholders (the "2008 Annual Meeting") to be eligible for inclusion in the proxy statement and the form of proxy for such meeting, they must be received by the Company at the corporate address set forth above no later than December 22, 2007. Regarding stockholder proposals intended to be presented at the year 2008 Annual Meeting but not included in the proxy statement, pursuant to the Denny's Corporation Bylaws, written notice of such proposals, to be timely, must be received by the Company no more than 90 days and no less than 60 days prior to the meeting. However, in the event that less than 70 days public notice of the date of the meeting is given, notice of such a stockholder proposal, to be timely, must be received not later than the close of business on the 10th day following the day on which the public notice of meeting was made. All such proposals for which timely notice is not received in the manner described above will be ruled out of order at the meeting, resulting in the proposal's underlying business not being eligible for transaction at the meeting.

Electronic Access to Future Proxy Materials and Annual Reports

Most stockholders may elect to view future proxy statements and annual reports over the Internet instead of receiving paper copies in the mail. If you are a stockholder of record, you can choose this option for future proxy statements and annual reports by marking the appropriate box on your proxy card or by following the instructions provided for you if you vote over the Internet or by telephone. If you hold Common Stock through a bank, broker or other holder of record, please refer to the information provided by that entity for instructions on how to elect to view future proxy statements and annual reports over the Internet.

Edgar Filing: DENNYS CORP - Form DEF 14A

If you choose to view future proxy statements and annual reports only over the Internet, next year you will receive a proxy card in the mail with instructions containing the Internet address of those materials. Your choice will remain in effect indefinitely until you give notification otherwise by following the instructions to be provided.
