NOTE 1 NATURE OF BUSINESS

Ottawa Savings Bancorp, Inc. (the Company) is the federally chartered savings and loan holding company of Ottawa Savings Bank (the Bank) and was formed upon completion of the Bank's reorganization from a mutual to stock form of organization on July 11, 2005.

The Bank is a community and customer oriented savings bank. The Bank's business has historically consisted of attracting deposits from the general public and using those funds to originate one-to-four family residential loans, consumer loans and other loans. The Bank completed its plan of conversion on July 11, 2005, upon which the Bank converted from an Illinois-chartered mutual savings bank to a federally-chartered mutual savings bank. The Bank completed its reorganization on that same date, pursuant to which the Bank converted from a federally-chartered mutual savings bank to a federally-chartered stock savings bank, all of the outstanding stock of which was issued to Ottawa Savings Bancorp, Inc. As part of the reorganization, Ottawa Savings Bancorp, Inc. issued 1,001,210 shares to the public and 1,223,701 shares to Ottawa Savings Bancorp, MHC.

NOTE 2 BASIS OF PRESENTATION

The consolidated financial statements presented in this quarterly report include the accounts of the Company and the Bank. The consolidated financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and predominant practices followed by the financial services industry, and are unaudited. In the opinion of the Company's management, all adjustments, consisting of normal recurring adjustments, which the Company considers necessary to fairly state the Company's financial position and the results of operations and cash flows have been recorded. The interim financial statements should be read in conjunction with the audited financial statements and accompanying notes of the Company for the year ended December 31, 2006. The results of the Company's operations for any interim period are not necessarily indicative of the results of the Company's operations for any other interim period or for a full fiscal year.

NOTE 3 USE OF ESTIMATES

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect amounts reported in the consolidated financial statements. Changes in these estimates and assumptions are considered reasonably possible and may have a material impact on the consolidated financial statements and, thus, actual results could differ from the amounts reported and disclosed herein.

At March 31, 2007, there were no material changes in the Company's significant accounting policies or critical accounting estimates from those disclosed in the Form 10-KSB filed with the Securities and Exchange Commission in March 2007.

NOTE 4 CRITICAL ACCOUNTING POLICIES

We consider accounting policies involving significant judgments and assumptions by management that have, or could have, a material impact on the carrying value of certain assets or income to be critical accounting policies. We consider the allowance for loan losses, market value of investment securities available for sale and the liability for post-retirement benefits to be our critical accounting policies.

OTTAWA SAVINGS BANCORP, INC.

Allowance for Loan Losses. The allowance for loan losses is an amount necessary to absorb known or inherent losses that are both probable and reasonably estimable and is established through a provision for loan losses charged to earnings. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance. The allowance for loan losses is evaluated on a regular basis by management and is based upon management's periodic review of the collectibility of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect each borrower's ability to repay, estimated value of any underlying collateral and prevailing economic conditions. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

Market value of investment securities available for sale. Market values for investment securities are provided monthly by a third party service provider. Management is also responsible for evaluating all investments with unrealized losses on a regular basis to determine whether investments with unrealized losses should be written down to realizable amounts. Management evaluates securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) our intent and ability to retain our investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value.

Liability for post retirement benefits. The liability for post retirement benefits was estimated based upon an actuarial report obtained by Company management from an experienced, third party actuary. Assumptions used by the actuary in the calculation include discount rates, current and future health care costs, life expectancies, and employee years of service.

NOTE 5 EARNINGS PER SHARE

Basic earnings per share is based on net income divided by the weighted average number of shares outstanding during the period, including allocated and committed-to-be-released ESOP shares and vested stock awards. Diluted earnings per share show the dilutive effect, if any, of additional common shares issuable under stock options and awards. The Company had no common stock equivalents as of March 31, 2006.

NOTE 6 EMPLOYEE STOCK OWNERSHIP PLAN

On July 11, 2005, the Company adopted an employee stock ownership plan (ESOP) for the benefit of substantially all employees. The ESOP borrowed \$763,140 from the Company and used those funds to acquire 76,314 shares of the Company's stock in the initial public offering at a price of \$10.00 per share.

Shares purchased by the ESOP with the loan proceeds are held in a suspense account and are allocated to ESOP participants on a pro rata basis as principal and interest payments are made by the ESOP to the Company. The loan is secured by shares purchased with the loan proceeds and will be repaid by the ESOP with funds from the Company's discretionary contributions to the ESOP and earnings on the ESOP assets. Annual principal payments of approximately \$50,876, plus interest at 6.25%, are to be made by the ESOP.

As shares are released from collateral, the Company will report compensation expense equal to the current market price of the shares, and the shares will become outstanding for earnings-per-share (EPS) computations. Dividends on allocated ESOP shares reduce retained earnings; dividends on unallocated ESOP shares reduce accrued interest.

A terminated participant or the beneficiary of a deceased participant who received a distribution of employer stock from the ESOP has the right to require the Company to purchase such shares at their fair market value any time within 60 days of the distribution date. If this right is not exercised, an additional 60 day exercise period is available in the year following the year in which the distribution is made and begins after a new valuation of the stock has been determined and communicated to the participant or beneficiary. At March 31, 2007, 11,447 shares at a fair value of \$13.25 have been classified as mezzanine capital.

The following table reflects the status of the shares held by the plan:

	March 31, 2007	December 31, 2006
Shares allocated	11,447	10,176
Unallocated shares	64,867	66,138

(continued)

The unrealized losses at March 31, 2007 relate principally to interest rates relative to the market. In analyzing an issuer's financial condition, management considers whether the securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have occurred, and industry analysts' reports. As management has the ability to hold debt securities until maturity, or for the foreseeable future if classified as available for sale, no declines are deemed to be other than temporary.

NOTE 8 ASSET QUALITY

The following is a summary of information pertaining to impaired and non-accrual loans:

	At March 31, 2007	At December 31, 2006
Impaired loans with a valuation allowance	\$ 5,671	\$ 7,134
Total impaired loans	\$ 5,671	\$ 7,134
Valuation allowance related to impaired loans	\$ 1,425	\$ 1,736
Total non-accrual loans	\$ 1,074,367	\$ 1,069,954
Total loans past due ninety days or more and still accruing interest	\$ 99,687	\$ 44,859

On the basis of management's review of its assets at March 31, 2007 and December 31, 2006, we had classified \$539,746 and \$927,769, respectively, of our assets as special mention and \$445,893 and \$1,301,719, respectively, of our assets as substandard and \$1,736 and \$1,904, respectively, of our assets as doubtful.

The loan portfolio is reviewed on a regular basis to determine whether any loans require classification in accordance with applicable regulations. Not all non-performing assets are classified assets.

Following is a summary of activity in the allowance for loan losses for the three months ended March 31, 2007 and 2006.

	2007	2006
Balance at beginning of year	\$ 419,685	\$ 390,994
Provision credited to income	(1,181,160)	(1,307,778)
Loans charged off	(6,495)	(25,636)
Recoveries of loans previously charged off	1,184,193	1,310,162
Balance at end of period	\$ 416,223	\$ 367,742

NOTE 9 STOCK COMPENSATION

The total stock-based compensation expense was approximately \$40,000 for the three months ended March 31, 2007 and none for the same period in 2006. In accordance with Statement of Financial Accounting Standards (SFAS) No. 123(R), compensation expense is recognized on a straight-line basis over the grantees' vesting period or to the grantees' retirement eligible date, if earlier. For the three months ended March 31, 2007, the Company did not issue any grants.

NOTE 10 RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

The Company adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes - an interpretation of FASB No. 109* (FIN 48), effective January 1, 2007. No adjustment was recognized for uncertain tax positions. The Company is subject to U.S. Federal income taxes, as well as State of Illinois income taxes. Tax years ending December 31, 2003 through December 31, 2006 remain open to examination by these jurisdictions. The Company recognizes interest and penalties related to tax positions in income tax expense. At March 31, 2007, there was no accrual for uncertain tax positions or related interest.

NOTE 11 RECENT ACCOUNTING DEVELOPMENTS

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. This Statement defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. It clarifies that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts. This Statement does not require any new fair value measurements, but rather, it provides enhanced guidance to other pronouncements that require or permit assets or liabilities to be measured at fair value. This Statement is effective for fiscal years beginning after November 15, 2007, with earlier adoption permitted. The Company is currently evaluating the impact that the adoption of this Statement will have on its financial position, results of operation and cash flows.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities - Including an amendment of FASB Statement No. 115*, which provides all entities, including not-for-profit organizations, with an option to report selected financial assets and liabilities at fair value. The objective of the Statement is to improve financial reporting by providing entities with the opportunity to mitigate volatility in earnings caused by measuring related assets and liabilities differently without having to apply the complex provisions of hedge accounting. Certain specified items are eligible for the irrevocable fair value measurement option as established by Statement No. 159. Statement No. 159 is effective as of the beginning of an entity's first fiscal year beginning after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007 provided the entity also elects to apply the provisions of Statement No. 157, *Fair Value Measurements*. The Company is currently evaluating the impact that the adoption of this Statement will have on its financial position, results of operation and cash flows.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Management's discussion and analysis of the financial condition and results of operations is intended to assist in understanding the financial condition and results of operations of Ottawa Savings Bancorp, Inc. The information contained in this section should be read in conjunction with the Unaudited Consolidated Financial Statements and footnotes appearing in Part I, Item 1 of this document.

FORWARD-LOOKING INFORMATION

Statements contained in this report that are not historical facts may constitute forward-looking statements (within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended), which involve significant risks and uncertainties. The Company intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and is including this statement for purposes of invoking these safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe future plans, strategies and expectations of the Company, are generally identifiable by the use of the words believe, expect, intend, anticipate, estimate, project, plan, or similar expressions. The Company's predict results or the actual effect of future plans or strategies is inherently uncertain and actual results may differ from those predicted. The Company undertakes no obligation to update these forward-looking statements in the future. The Company cautions readers of this report that a number of important factors could cause the Company's actual results subsequent to March 31, 2007 to differ materially from those expressed in forward-looking statements. Factors that could cause actual results to differ from those predicted and could affect the future prospects of the Company include, but are not limited to, fluctuations in market rates of interest and loan and deposit pricing, changes in the securities or financial market, a deterioration of general economic conditions either nationally or in our market areas, delays in obtaining the necessary regulatory approvals, our ability to consummate proposed transactions in a timely manner, legislative or regulatory changes that adversely affect our business, adverse developments or changes in the composition of our loan or investment portfolios, significant increases in competition, changes in real estate values, difficulties in identifying attractive acquisition opportunities or strategic partners to complement our Company's approach and the products and services the Company offers, the possible dilutive effect of potential acquisitions or expansion, and our ability to raise new capital as needed and the timing, amount and type of such capital raises. These risks and uncertainties should be considered in evaluating forward-looking statements.

GENERAL

During the period from March 2000 until April 2004, as part of our investment activities, the Bank purchased loan participations from Commercial Loan Corporation of Oak Brook, Illinois (CLC). In April 2004, the Bank was informed by its regulators, the FDIC and Illinois Office of Banks and Real Estate (OBRE), that CLC had misappropriated funds from loans it was servicing for others. At that time, the Bank had 39 outstanding loan participations with CLC in the aggregate amount of approximately \$15.0 million. In May 2004, CLC filed for bankruptcy protection under Chapter 11 of the U.S. Bankruptcy Code. In December 2004, CLC's remaining assets were transferred to the CLC Creditors Trust.

In December 2004, the Bank received a payment of \$5.6 million in cash and loans from the CLC Creditors Trust. This payment included \$784,000 in residential condominium loans, \$2.5 million in commercial real estate loans, \$518,000 in commercial lines of credit, \$153,000 in residential real estate loans and \$1.6 million in cash. Although the Bank has retained certain unsecured claims against the CLC Creditors Trust, the Bank has charged off the remaining \$9.5 million of the Bank's investment in the CLC loan participations. The Bank's financial results reflect these losses in the years in which they occurred. In October 2005, March 2006 and March 2007, the Company received net settlements of \$190,000, \$1.3 million and \$1.2 million, respectively, from the CLC Creditors Trust on previously charged-off loan participations with CLC. Any future recoveries of amounts previously charged off will be recorded as a recovery to the allowance for loan losses.

COMPARISON OF FINANCIAL CONDITION AT MARCH 31, 2007 AND DECEMBER 31, 2006

The Company's total assets increased \$3.2 million, or 1.60%, to \$208.1 million at March 31, 2007, from \$204.9 million at December 31, 2006. The increase reflects an increase in loans including loans held for sale of \$3.0 million, an increase in securities available for sale of \$1.4 million, an increase in non-marketable securities of \$138,000 and an increase in other assets of \$68,000, offset by decreases in cash and due from banks of \$627,000 and deferred tax assets of \$598,000.

Cash and cash equivalents decreased \$627,000, or 6.02%, to \$9.8 million at March 31, 2007 from \$10.4 million at December 31, 2006. The decrease in cash is primarily due to the purchase of securities available for sale, and loan originations, partially offset by funds received as deposits and the \$1.2 million recovery from the CLC Creditors Trust on previously charged off loan participations.

Securities available for sale increased \$1.4 million, or 3.78%, to \$38.2 million at March 31, 2007 from \$36.8 million at December 31, 2006. The increase was primarily the result of \$4.5 million in purchases, offset by maturities and pay-downs of \$3.2 million.

Non-marketable equity securities are equity securities for which sales prices are not currently available on a national securities exchange or in the over-the-counter market. The Company holds Federal Home Loan Bank (FHLB) stock, Bankers Bank of Wisconsin stock, and stock in the Upper Illinois River Valley Development Corporation (U.I.R.V.D.C). Non-marketable equity securities increased \$138,000, or 5.76%, to \$2.5 million at March 31, 2007, from \$2.4 million at December 31, 2006, due to the purchase of Bankers Bank of Wisconsin stock.

Loans including loans held for sale increased \$3.0 million, or 2.09%, to \$145.5 million at March 31, 2007, from \$142.5 million at December 31, 2006. The increase in loans was primarily due to the origination of 1-4 family loans and the purchase of non-residential loans, offset by pay-offs on multi-family purchased loans.

The deferred tax asset decreased \$598,000, or 39.20%, to \$928,000 at March 31, 2007, from \$1.5 million at December 31, 2006. The decrease is primarily due to tax carry-forwards from prior year losses applied against current income taxes, and changes in deferred taxes on available for sale securities.

Other assets comprised primarily of prepaid expenses, deferred director compensation, and auto loan repossessions increased \$68,000, or 9.68%, to \$774,000 at March 31, 2007, from \$706,000 at December 31, 2006. The increase is due to an increase in auto loan repossessions totaling \$30,000, pre-payments to the FDIC and OTS of approximately \$20,000, and insurance pre-payments of \$18,000.

Total deposits increased \$2.6 million, or 1.45%, to \$185.5 million at March 31, 2007, from \$182.9 million at December 31, 2006. The increase reflects the addition of new accounts and deposits to existing accounts, offset by a slight decrease in non-interest bearing checking accounts.

Other liabilities decreased \$497,000, or 21.43%, to \$1.8 million at March 31, 2007, from \$2.3 million at December 31, 2006. The decrease was primarily due to an outstanding payable at December 31, 2006 of \$487,000 to complete the purchase of MRP shares, which was made during the first quarter of 2007.

Equity increased \$1.1 million, or 5.56%, to \$20.5 million at March 31, 2007, from \$19.4 million at December 31, 2006. This increase in equity reflects net income for the three months ended March 31, 2007 of \$991,000 and a decrease in other comprehensive loss of \$102,000 for the same period, due to increases in the market value of the available for sale securities portfolio as compared to the prior year, offset by dividends of \$46,000 paid to stockholders.

COMPARISON OF RESULTS OF OPERATION FOR THE THREE MONTHS ENDED MARCH 31, 2007 AND 2006

Net Income. The Company had net income of \$991,000 for the three months ended March 31, 2007, compared to net income of \$999,000 for the three months ended March 31, 2006.

Interest and Dividend Income. Interest and dividend income increased \$523,000, or 21.59%, to \$2.9 million for the three months ended March 31, 2007, from \$2.4 million for the three months ended March 31, 2006. This increase in interest and dividend income was primarily due to an increase in the average yield on interest earning assets to 6.08% from 5.73%, and an increase of \$24.5 million in average interest earning assets to \$193.7 million from \$169.2 million for the three months ended March 31, 2007, compared to the same period in 2006. The increase in the average yield was due to increased market rates. The increase in average interest earning assets was due to increases in average loans, average securities and average interest earning deposits, offset by a decrease in average non-marketable equity securities.

Interest Expense. Interest expense increased \$565,000, or 42.86%, to \$1.9 million for the three months ended March 31, 2007, from \$1.3 million for the three months ended March 31, 2006. This increase in interest expense reflects an increase of \$22.8 million in average deposits, and an increase in the cost of deposits to 4.12% from 3.29% for the three months ended March 31, 2007, compared to the same period in 2006. The increase in average deposits and the increase in the cost of deposits were primarily due to increased market rates resulting in additional funds placed in certificates of deposit, offset by decreases in savings and interest bearing checking accounts.

Net Interest Income. Net interest income decreased \$42,000, or 3.75%, to \$1.1 million for the three months ended March 31, 2007, from \$1.1 million for the three months ended March 31, 2006 due to a decrease in interest rate spread.

Provision for Loan Losses. Management recorded a negative loss provision of \$1.2 million for the three months ended March 31, 2007, compared to a negative loss provision of \$1.3 million for the three months ended March 31, 2006. In each period, the negative loss provision was due to recoveries from the CLC Creditors Trust on previously charged off loans. Based on a general review of the loans that were in the loan portfolio at March 31, 2007 and 2006, management believes that the allowance is maintained at a level that represents its best estimate of inherent losses in the loan portfolio that were both probable and reasonably estimable.

Other Income. Other income increased \$27,000, or 71.83%, to \$64,000 for the three months ended March 31, 2007, from \$37,000 for the three months ended March 31, 2006. The increase was primarily the result of increases in customer service fees. Customer service fees increased \$17,000, or 50.26%, to \$51,000 for the three months ended March 31, 2007 from \$34,000 for the three months ended March 31, 2006 primarily due to an increase in the amount the Company charges for overdrafts. The Company also recognized an increase of \$8,000, or 128.15% in the origination of mortgage servicing rights, net of amortization, which was the result of increased loan sales.

Other Expenses. Other expenses decreased \$126,000, or 14.33%, to \$751,000 for the three months ended March 31, 2007 from \$877,000 for the three months ended March 31, 2006. The decrease was primarily due to decreases in compensation and benefits, professional and legal fees and other expenses. For the three month period ended March 31, 2007, salaries and employee benefits decreased \$55,000, or 12.69% to \$378,000 from \$433,000 for the three month period ended March 31, 2006. The decrease in salaries and employee benefits was the result of the Company not accruing for its employee incentive plan, which as of March 31, 2007 has not been approved by the Company's board and decreases in the cost of the Defined Benefit Retirement Plan, offset by the addition of compensation expense for the Management Recognition Plan (MRP) stock awards and the Recognition and Retention Plan (RRP) stock options. Legal and professional expenses decreased \$34,000, or 38.55%, to \$54,000 for the three months ended March 31, 2007 from \$88,000 for the three months ended March 31, 2006 as a result of reduced time spent by outside legal and audit professionals on the preparation and review of the Company's annual report and the Company's decision to change its legal counsel. Other expenses decreased \$30,000, or 22.70% to \$103,000 for the three months ended March 31, 2007 from \$134,000 for the three months ended March 31, 2006, primarily due to a \$12,000 decrease in supervisory fees.

Income Taxes. Income tax expense was \$567,000 for the three months ended March 31, 2007, compared to an income tax expense of \$575,000 for the same period in 2006. The income tax expense is a direct result of the pre tax income for the applicable period. The effective tax rates for the three months ended March 31, 2007 and 2006 were 36.39% and 36.53%, respectively.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity. Liquidity management for the Bank is measured and monitored on both a short- and long-term basis, allowing management to better understand and react to emerging balance sheet trends. After assessing actual and projected cash flow needs, management seeks to obtain funding at the most economical cost to the Bank. Our primary sources of funds are deposits, amortization, prepayments and maturities of outstanding loans and mortgage-backed and related securities, and other short term investments, and funds provided from operations. While scheduled payments from amortization of loans and mortgage-backed related securities and maturing investment securities and short term investments are relatively predictable sources of funds, deposit flows and loan prepayments are greatly influenced by general interest rates, economic conditions and competition. We invest excess funds in short-term interest-earning assets, which enable us to meet lending requirements. We utilize Federal Home Loan Bank advances as needed. There were no Federal Home Loan Bank advances at March 31, 2007 or at December 31, 2006.

At March 31, 2007 the Bank had outstanding commitments to originate \$3.7 million in loans, unfunded lines of credit of \$9.1 million, unfunded commitments on construction loans of \$3.1 million, and unfunded standby letters of credit of \$1.8 million. In addition, as of March 31, 2007, the total amount of certificates of deposit that were scheduled to mature in the following 12 months was \$123.7 million. The Bank believes that it has adequate resources to fund all of its commitments and that it can adjust the rate on certificates of deposit to retain deposits in changing interest rate environments. If the Bank requires funds beyond its internal funding capabilities, advances from the Federal Home Loan Bank of Chicago are available as an additional source of funds. As of March 31, 2007, the Bank had \$46.9 million of available credit from the Federal Home Loan Bank of Chicago.

From December 31, 2006 through March 31, 2007, we received proceeds of \$3.3 million from maturities, calls and paydowns of available for sale and held to maturity securities. These proceeds were primarily used to purchase securities available for sale.

Capital. The Bank is required to maintain regulatory capital sufficient to meet Tier 1 leverage, Tier 1 risk-based and total risk-based capital ratios of at least 4.0%, 4.0% and 8.0%, respectively. The Bank exceeded each of its capital requirements with ratios at March 31, 2007 of 9.42%, 17.26% and 17.63%, respectively, and with ratios at December 31, 2006 of 8.59%, 15.92%, and 16.30%, respectively.

OFF-BALANCE SHEET ARRANGEMENTS

In the normal course of operations, we engage in a variety of financial transactions that, in accordance with generally accepted accounting principles, are not recorded in our financial statements. These transactions involve, to varying degrees, elements of credit, interest rate and liquidity risk. Such transactions are used primarily to manage customers' requests for funding and take the form of loan commitments and lines of credit.

For the three months ended March 31, 2007, we did not engage in any off-balance sheet transactions reasonably likely to have a material effect on our financial condition, results of operations or cash flows.

ITEM 3. CONTROLS AND PROCEDURES

Controls and Procedures

As of the end of the period covered by this report, the Company carried out an evaluation under the supervision and with the participation of the Company's principal executive officer and principal financial officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on this evaluation, the Company's principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information to be included in the Company's periodic SEC reports. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

In addition, there have been no changes in the Company's internal control over financial reporting during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
