BANCFIRST CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(1) GENERAL

The accompanying consolidated financial statements include the accounts of BancFirst Corporation, Century Life Assurance Company, Council Oak Partners, LLC, Wilcox Jones & McGrath, Inc., and BancFirst and its subsidiaries (the Company). The operating subsidiaries of BancFirst are Council Oak Investment Corporation, BancFirst Agency, Inc., Lenders Collection Corporation, BancFirst Community Development Corporation, Council Oak Real Estate, Inc. and PremierSource LLC. PremierSource LLC was sold in August 2006 and Century Life Assurance Company was sold effective October 2006. All significant intercompany accounts and transactions have been eliminated. Assets held in a fiduciary or agency capacity are not assets of the Company and, accordingly, are not included in the consolidated financial statements.

The unaudited interim financial statements contained herein reflect all adjustments which are, in the opinion of management, necessary to provide a fair statement of the financial position and results of operations of the Company for the interim periods presented. All such adjustments are of a normal and recurring nature. There have been no significant changes in the accounting policies of the Company since December 31, 2006, the date of the most recent annual report.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States inherently involves the use of estimates and assumptions that affect the amounts reported in the financial statements and the related disclosures. These estimates relate principally to the determination of the allowance for loan losses, income taxes and the fair values of financial instruments. Such estimates and assumptions may change over time and actual amounts realized may differ from those reported.

(2) RECENT ACCOUNTING PRONOUNCEMENTS

In June 2006, the FASB issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement No. 109. This interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. This interpretation is expected to increase the relevance and comparability in financial reporting of income taxes because all tax positions accounted for in accordance with Statement 109 will be evaluated for recognition, derecognition, and measurement using consistent criteria. Finally, the disclosure provisions of this interpretation will provide more information about the uncertainty in income tax assets and liabilities. This interpretation is effective for fiscal years beginning after December 15, 2006 and earlier adoption is encouraged. The Company adopted this new standard effective January 1, 2007. The Company has evaluated the effect of this pronouncement and determined that the adoption of this interpretation did not have a material effect on the Company's consolidated financial statements.

In September 2006, the FASB issued FAS No. 157 (FAS 157), Fair Value Measurements. FAS 157 is effective for all financial statements issued for fiscal years beginning after November 15, 2007. FAS 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Adoption of FAS 157 is not expected to have a material impact on the Company's results of operations or financial condition.

In February 2007, the FASB issued FAS No. 159 (FAS 159), The Fair Value Option for Financial Assets and Financial Liabilities, including an amendment of FASB Statement No. 115. FAS 159 allows entities to irrevocably elect fair value as the initial and subsequent measurement attribute for certain financial assets and financial liabilities that are not otherwise required to be measured at fair value, with changes in fair value recognized in earnings as they occur. FAS 159 also requires entities to report those financial assets and financial liabilities measure at fair value in a manner that separates those reported fair values from the carrying amounts of similar assets and liabilities measured using another measurement attribute on the face of the statement of financial position. Lastly, FAS 159 establishes presentation and disclosure requirements designed to improve comparability between entities that elect different

measurement attributes for similar assets and liabilities. FAS 159 is effective for fiscal years beginning after November 15, 2007, with early adoption permitted if an entity also early adopts the provisions of FAS 157. The Company has not yet determined if, or to what extent, the Company will elect to use the fair value option to value financial assets and liabilities or the impact that the implementation of FAS 159 will have on the Company's consolidated financial statements.

(3) RECENT DEVELOPMENTS; MERGERS, ACQUISITIONS AND DISPOSALS

In August 2006, the Company completed the acquisition of First Bartlesville Bank (First Bartlesville), Bartlesville, Oklahoma for cash of approximately \$5.6 million. First Bartlesville had total assets of approximately \$46.6 million. As a result of the acquisition, First Bartlesville became a wholly-owned subsidiary of BancFirst Corporation and was merged into BancFirst in December 2006. The acquisition was accounted for as a purchase. Accordingly, the effects of the acquisition are included in the Company's consolidated financial statements from the date of the acquisition forward. The acquisition did not have a material effect on the results of operations of the Company for 2006 or 2007.

On September 6, 2006, the Company entered into an agreement to sell its 75% ownership in Century Life Assurance Company (Century Life) to American Underwriters Life Insurance Company. The Company decided to sell this subsidiary as the product line was not strategic for the Company. The effective date of the sale was October 1, 2006. Century Life reported approximately \$945,000 of revenues and \$111,000 of net income for the third quarter of 2006, and the Company reported a pre-tax gain on the sale approximating \$640,000 during the fourth quarter of 2006. The resulting gain on the sale and the loss of future earnings from operating Century Life did not have a significant impact on the results of the Company's operations for 2006 or 2007.

In November 2006, the Company announced its intent to exercise the optional prepayment terms of its 9.65% Junior Subordinated Debentures. The securities were redeemed effective January 15, 2007 for a redemption price equal to 104.825% of the aggregate \$25,000,000 liquidation amount of the trust securities plus all accrued and unpaid interest to the redemption date. As a result of the prepayment, the Company incurred a loss of approximately \$1.2 million after taxes at the time of the redemption. The loss reflects the premium paid and the acceleration of the unamortized issuance costs.

During the first quarter of 2007 the Company entered into an agreement to acquire Armor Assurance Company (Armor), an insurance agency in Muskogee, Oklahoma for cash of approximately \$3.3 million and a \$372,000 note payable in three equal annual installments. The transaction was consummated in April 2007. Armor had total assets of approximately \$364,000. As a result of the acquisition, Armor was merged with the Company's existing property casualty agency, Wilcox & Jones, to form Wilcox, Jones & McGrath. The acquisition was accounted for as a purchase. Accordingly, the effects of the acquisition are included in the Company's consolidated financial statements from the date of the acquisition forward. The acquisition did not have a material effect on the results of operations of the Company for 2007.

In June 2007, the Company entered into an agreement to sell one of its investments held by Council Oak Investment Corporation, a wholly-owned subsidiary of BancFirst, that resulted in a one-time gain of approximately \$7.8 million. The transaction was consummated on August 1, 2007 and included in noninterest income securities transactions in the third quarter of 2007. The Company made a \$1 million contribution to its charitable foundation with the funds from the gain. This one-time gain, net of related expenses, income taxes and the contribution had a net income effect of approximately \$3.9 million.

In July 2007, the Company was awarded and received the \$3.1 million bond claim by their fidelity bond carrier for the \$3.3 million cash shortfall that was reported in the second quarter of 2005. See Note 14 Commitments and Contingent Liabilities for further details.

The Company held 174 and 150 debt securities available for sale that had unrealized gains as of September 30, 2007 and 2006, respectively. These securities had a market value totaling approximately \$222.0 million and \$88.2 million, respectively, and unrealized gains totaling approximately \$4.1 million and \$1.4 million, respectively. The Company also held 137 and 180 debt securities available for sale that had unrealized losses at September 30, 2007 and 2006, respectively. These securities had a market value totaling \$205.1 million and \$293.1 million and unrealized losses totaling \$1.7 million and \$5.3 million, respectively. These unrealized losses occurred due to increases in interest rates and spreads and not as a result of a decline in credit quality. The Company has both the intent and ability to hold these debt securities until the unrealized losses are recovered.

The Company's loans are mostly to customers within Oklahoma and over half of the loans are secured by real estate. Credit risk on loans is managed through limits on amounts loaned to individual borrowers, underwriting standards and loan monitoring procedures. The amounts and types of collateral obtained to secure loans are based upon the Company's underwriting standards and management's credit evaluation. Collateral varies, but may include real estate, equipment, accounts receivable, inventory, livestock and securities. The Company's interest in collateral is secured through filing mortgages and liens, and in some cases, by possession of the collateral. The amount of estimated loss due to credit risk in the Company's loan portfolio is provided for in the allowance for loan losses. The amount of the allowance required to provide for all existing losses in the loan portfolio is an estimate based upon evaluations of loans, appraisals of collateral and other estimates which are subject to rapid change due to changing economic conditions and the economic prospects of borrowers. It is reasonably possible that a material change could occur in the estimated allowance for loan losses in the near term.

Changes in the allowance for loan losses are summarized as follows (**dollars in thousands**):

(8) STOCKHOLDER EQUITY

The Company is subject to risk-based capital guidelines issued by the Board of Governors of the Federal Reserve System. These guidelines are used to evaluate capital adequacy and involve both quantitative and qualitative evaluations of the Company's assets, liabilities, and certain off-balance-sheet items calculated under regulatory practices. Failure to meet the minimum capital requirements can initiate certain mandatory or discretionary actions by the regulatory agencies that could have a direct material effect on the Company's consolidated financial statements. The required minimums and the Company's respective ratios are shown below. The reduction in the ratios from December 31, 2006 was related to the early redemption of the trust preferred securities.

	Minimum Required	September 30, 2007	December 31, 2006

As of September 30, 2007 and 2006, and December 31, 2006, BancFirst was considered to be well capitalized . There are no conditions or events since the most recent notification of the Company's capital category that management believes would change its category.

In September 2007, the Company completed a modified Dutch Auction self-tender offer and purchased 539,453 shares of its common stock for the maximum offer price of \$45.00 per share. Cash on hand was used to pay for the purchase of the stock.

(9) STOCK REPURCHASE PLAN

In November 1999, the Company adopted a new Stock Repurchase Program (the SRP) authorizing management to repurchase up to 600,000 shares of the Company's common stock. The SRP was amended in May 2001, August of 2002, and September of 2007 to increase the shares authorized to be purchased by 555,832 shares, 364,530 shares and 366,948 shares, respectively. The SRP may be used as a means to increase earnings per share and return on equity, to purchase treasury stock for the exercise of stock options or for distributions under the Deferred Stock Compensation Plan, to provide liquidity for optionees to dispose of stock from exercises of their stock options, and to provide liquidity for shareholders wishing to sell their stock. The timing, price and amount of stock repurchases under the SRP may be determined by management and must be approved by the Company's Executive Committee. At September 30, 2007 there were 600,000 shares remaining that could be repurchased under the SRP. Below is a summary of the shares repurchased under the program.

(10) SHARE-BASED COMPENSATION

BancFirst Corporation adopted a nonqualified incentive stock option plan (the BancFirst ISOP) in May 1986. In May 2006, the Company amended the BancFirst ISOP to increase the number of shares to be issued under the plan to 2,500,000. At September 30, 2007, 92,160 shares were available for future grants. The BancFirst ISOP will terminate December 31, 2011. The options are exercisable beginning four years from the date of grant at the rate of 25% per year for four years. Options granted prior to 1996 expire at the end of eleven years from the date of the grant. Options granted after January 1, 1996 expire at the end of fifteen years from the date of grant. Options outstanding as of September 30, 2007 will become exercisable through the year 2014. The option price must be no less than 100% of the fair market value of the stock relating to such option at the date of grant.

In June 1999, the Company adopted the BancFirst Corporation Non-Employee Directors' Stock Option Plan (the BancFirst Directors' Stock Option Plan). Each non-employee director is granted an option for 10,000 shares. In May 2006, the Company amended the BancFirst Directors' Stock Option Plan to increase the number of shares to be issued under the plan to 180,000 shares. At September 30, 2007, 35,000 shares were available for future grants. The options are exercisable beginning one year from the date of grant at the rate of 25% per year for four years, and expire at the end of fifteen years from the date of grant. Options outstanding as of September 30, 2007 will become exercisable through the year 2011. The option price must be no less than 100% of the fair value of the stock relating to such option at the date of grant.

Below is a summary of the activity under both the BancFirst ISOP and the BancFirst Directors' Stock Option Plan (**dollars in thousands, except per share data**):

Below is additional information regarding options granted and options exercised under both the BancFirst ISOP and the BancFirst Directors Stock Option Plan (**dollars in thousands, except per share data**):

	Three Months Ended		Nine Months Ended	
	September 30, 2007	September 30, 2006	September 30, 2007	September 30, 2006

Cash received from options exercised	328	386	488	1,480
Tax benefit realized from options exercised	166	322	316	1,178

Effective January 1, 2006 the Company adopted, on a modified prospective basis, the fair value provisions of FAS 123R. The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model and is based on certain assumptions including risk-free rate of return, dividend yield, stock price volatility, and the expected term. The fair value of each option is expensed over its vesting period.

For the three months ended September 30, 2007 and 2006, the Company recorded share-based employee compensation expense of approximately \$184,000 and \$150,000, respectively, net of tax and approximately \$557,000 and \$442,000 for the nine months ended September 30, 2007 and 2006, respectively.

The Company will continue to amortize the remaining fair value of these stock options of approximately \$3.2 million, net of tax, over the remaining vesting period of approximately seven years. Share-based employee compensation expense under the fair value method was measured using the following assumptions for the options granted:

	Three Months Ended	
	September 30, 2007	September 30, 2006
Risk-free interest rate	4.90%	4.95%
Dividend yield	1.50%	2.00%
Stock price volatility	28.52%	25.38%
Expected term	10 Yrs	10 Yrs

The risk-free interest rate is determined by reference to the spot zero-coupon rate for the U.S. Treasury security with a maturity similar to the expected term of the options. The dividend yield is the expected yield for the expected term. The stock price volatility is estimated from the recent historical volatility of the Company's stock. The expected term is estimated from the historical option exercise experience.

(11) COMPREHENSIVE INCOME

The only component of comprehensive income reported by the Company is the unrealized gain or loss on securities available for sale. The amount of this unrealized gain or loss, net of tax, has been presented in the statement of income for each period as a component of other comprehensive income. Below is a summary of the tax effects of this unrealized gain or loss.

(13) SEGMENT INFORMATION

The Company evaluates its performance with an internal profitability measurement system that measures the profitability of its business units on a pre-tax basis. The four principal business units are metropolitan banks, community banks, other financial services, and executive, operations and support. Metropolitan and community banks offer traditional banking products such as commercial and retail lending, and a full line of deposit accounts. Metropolitan banks consist of banking locations in the metropolitan Oklahoma City and Tulsa areas. Community banks consist of banking locations in communities throughout Oklahoma. Other financial services are specialty product business units including guaranteed small business lending, guaranteed student lending, residential mortgage lending, trust services, securities brokerage, electronic banking and insurance. The executive, operations and support groups represent executive management, operational support and corporate functions that are not allocated to the other business units.

The results of operations and selected financial information for the four business units are as follows (**dollars in thousands**):

The financial information for each business unit is presented on the basis used internally by management to evaluate performance and allocate resources. The Company utilizes a transfer pricing system to allocate the benefit or cost of funds provided or used by the various business units. Certain revenues related to other financial services are allocated to the banks whose customers receive the services and, therefore, are not reflected in the income for other financial services. Certain services provided by the support group to other business units, such as item processing, are allocated at rates approximating the cost of providing the services. Eliminations are adjustments to consolidate the business units and companies.

(14) COMMITMENTS AND CONTINGENT LIABILITIES

In the second quarter of 2005, the Company reported a \$3.3 million cash shortfall at one of its branches. The Company notified its fidelity bond carrier of the pending claim and that a thorough investigation would ensue. Based on the facts available at the time and outside consultation, the Company recorded as an expense its deductible on the coverage of \$250 thousand and a receivable for the bond claim of approximately \$3 million during the second quarter.

During the third quarter of 2005, it became apparent that the Company's investigation was going to take much longer than management and the Company's consultant originally expected. Specifically, the time frame for ongoing criminal investigation of the matter and the possibility of litigation amongst the parties had created uncertainty as to the timing of any recovery under the fidelity bond. While management still expected a significant recovery under its fidelity bond coverage, the amount and timing of the recovery was no longer reasonably estimable. As a result, the Company believed it was prudent to write off, and recognize as an expense, the \$3 million bond claim receivable.

In July 2007, the fidelity bond carrier awarded the Company the \$3.1 million bond claim. The recovery was included in other non-interest income during the third quarter of 2007.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

SUMMARY

Net income for the third quarter of 2007 was \$16.9 million, compared to \$12.7 million for the third quarter of 2006. Diluted net income per share was \$1.06, compared to \$0.79 for the third quarter of 2006. For the first nine months of 2007, net income was \$41.5 million, compared to \$35.8 million for the first nine months of 2006. Diluted net income per share for the first nine months of 2007 was \$2.62 compared to \$2.23 for the first nine months of 2006.

Total assets at September 30, 2007 increased to \$3.5 billion, up \$128 million from December 31, 2006 and up \$122 million from September 30, 2006. Total loans at September 30, 2007 increased to \$2.40 billion, up \$74.4 million from December 31, 2006 and up \$67.1 million from September 30, 2006. Total deposits at September 30, 2007 were \$3.12 billion, up \$145.5 million from December 31, 2006 and up \$152.7 million from September 30, 2006. Stockholders' equity was \$359 million at September 30, 2007, up \$11 million from December 31, 2006 and up \$24 million compared to September 30, 2006.

In September 2007, the Company completed a modified Dutch Auction self-tender offer and purchased 539,453 shares of its common stock for the maximum offer price of \$45.00 per share. Cash on hand was used to pay for the purchase of the stock.

In July 2007, the Company was awarded and received the \$3.1 million bond claim by their bond carrier for the \$3.3 million cash shortfall that was reported in the second quarter of 2005. See Note 14 Commitments and Contingent Liabilities for further details.

In June 2007, the Company entered into an agreement to sell one of its investments held by Council Oak Investment Corporation, a wholly-owned subsidiary of BancFirst, that resulted in a one-time gain of approximately \$7.8 million. The transaction was consummated on August 1, 2007 and included in noninterest income securities transactions in the third quarter of 2007. The Company made a \$1 million contribution to its charitable foundation with the funds from the gain. This one-time gain, net of related expenses, income taxes and the contribution had a net income effect of approximately \$3.9 million.

During the first quarter of 2007 the Company entered into an agreement to acquire Armor Assurance Company (Armor), an insurance agency in Muskogee, Oklahoma for cash of approximately \$3.3 million and a \$372,000 note payable in three equal annual installments. The transaction was consummated in April 2007. Armor had total assets of approximately \$364,000. As a result of the acquisition, Armor was merged with the Company's existing property casualty agency, Wilcox & Jones, to form Wilcox, Jones & McGrath. The acquisition was accounted for as a purchase. Accordingly, the effects of the acquisition are included in the Company's consolidated financial statements from the date of the acquisition forward. The acquisition did not have a material effect on the results of operations of the Company for 2007.

In November 2006, the Company announced its intent to exercise the optional prepayment terms of its 9.65% Junior Subordinated Debentures. The securities were redeemed effective January 15, 2007 for a redemption price equal to 104.825% of the aggregate \$25,000,000 liquidation amount of the trust securities plus all accrued and unpaid interest to the redemption date. As a result of the prepayment, the Company incurred a loss of approximately \$1.2 million after taxes at the time of the redemption. The loss reflects the premium paid and the acceleration of the unamortized issuance costs.

On September 6, 2006, the Company entered into an agreement to sell its 75% ownership in Century Life Assurance Company (Century Life) to American Underwriters Life Insurance Company. The Company decided to sell this subsidiary as the product line was not strategic for the Company. The effective date of the sale was October 1, 2006. Century Life reported approximately \$945,000 of revenues and \$111,000 of net income for the third quarter of

2006, and the Company reported a pre-tax gain on the sale approximating \$640,000 during the fourth quarter of 2006. The resulting gain on the sale and the loss of future earnings from operating Century Life did not have a significant impact on the results of the Company's operations for 2006 or 2007.

In August 2006, the Company completed the acquisition of First Bartlesville Bank (First Bartlesville), Bartlesville, Oklahoma for cash of approximately \$5.6 million. First Bartlesville had total assets of approximately \$46.6 million. As a result of the acquisition, First Bartlesville became a wholly-owned subsidiary of BancFirst Corporation and was merged into BancFirst in December 2006. The acquisition was accounted for as a purchase. Accordingly, the effects of the acquisition are included in the Company's consolidated financial statements from the date of the acquisition forward. The acquisition did not have a material effect on the results of operations of the Company for 2006 or 2007.

RESULTS OF OPERATIONS

Third Quarter

Net interest income for the third quarter of 2007 was \$37.0 million, up \$565,000 from the third quarter of 2006. The net interest spread for the second quarter decreased 28 basis points to 3.48%, while the net interest margin decreased 22 basis points to 4.55% due to higher rates on deposits relative to rates on earning assets. Competitive pressure for deposits has not allowed the Company to reprice deposit products to the full effect of interest rate declines. The Company's average earning assets reached \$3.2 billion during the third quarter, an increase of \$24.4 million over September 30 a year ago. Most of the growth in earning assets was in Federal Funds Sold, up \$138.9 million, while loans grew \$34.5 million from the third quarter of 2006. The growth in loans and earning assets was supported by deposit growth of \$192 million from customer relationships. The loan loss provision was \$2.2 million, up \$1.9 million from the same period a year ago as a result of growth in loans combined with identified weaknesses in certain credits. Net loan charge-offs were \$988,000 for the third quarter of 2007, compared to \$63,000 for the third quarter of 2006. While total nonperforming and restructured loans increased to \$15.2 million from \$10.5 million a year ago, nonperforming loans, 0.46% of assets, and net charge-offs, 0.17% of loans, remained at relatively low levels.

Noninterest income totaled \$26.8 million was up \$11.3 million over the same period a year ago. Included in this quarter's noninterest income was a one-time gain of \$7.8 million on the sale of an investment and a \$3.1 million recovery on an insurance claim that was fully expensed in 2005. Noninterest expenses were \$35.2 million, an increase of \$3.6 million or 11.26%. Noninterest expense included a one-time \$1 million donation to the Company's charitable foundation and approximately \$800,000 of expenses related to the investment gain. Recurring noninterest expenses were up due to the Company's branch expansion program. Income tax expense increased \$2.2 million compared to the third quarter of 2006. The effective tax rate on income before taxes was 35.7%, compared to 36.2% for the third quarter of 2006.

Year-To-Date

Net interest income for the first nine months of 2007 was \$110.8 million, up \$4.0 million over the first nine months of 2006. While the net interest spread for the nine months of 2007 decreased 26 basis points to 3.60%, the net interest margin only decreased 13 basis points to 4.65% due to the higher interest rate environment. While average earning assets increased by \$193.5 million between the first nine months of 2007 and the first nine months of 2006, average loans increased by \$27.4 million in the same period while Federal Funds Sold increase an average of \$159.3 million. The increase in average earning assets was substantially funded by an increase in total average deposits of approximately \$174.2 million between the first nine months of 2007 and the first nine months of 2006. The increase in earning assets in lower yielding Federal Funds Sold combined with higher costs of funds compressed our net interest spread while the rising rate environment during this time helped support our net interest margin with only a slight decrease.

The Company provided \$2.3 million for loan losses in the first nine months of 2007, compared to \$1.9 million for the same period of 2006. The increase in the provision for loan losses is a result of loan growth partially offset by the company's high credit quality. Net charge-offs were \$1.2 million for the first nine months of 2007 compared to \$951,000 for the same period a year ago. The net charge-offs represent an annualized rate of 0.07% of average total loans for the first nine months of 2007 versus 0.05% for the first nine months of 2006.

Noninterest income of \$55.9 million for the first nine months of 2007 increased \$12.3 million compared to the same period in 2006. Included in this quarter's noninterest income was a one-time gain of \$7.8 million on the sale of an investment and a \$3.1 million recovery on an insurance claim that was fully expensed in 2005. Noninterest expense increased \$7.5 million to \$100.2 million compared to the first nine months of 2006. Noninterest expense included a one-time \$1 million donation to the Company's charitable foundation and approximately \$800,000 of expenses related to the investment gain. Recurring noninterest expenses were up approximately \$600,000 due to the Company's branch expansion program. Income tax expense increased \$2.7 million compared to the first nine months of 2006. The effective tax rate on income before taxes remained consistent at 35.3% compared to 35.7% for the first nine months of 2006.

FINANCIAL POSITION

The aggregate of cash and due from banks, interest-bearing deposits with banks, and federal funds sold increased \$196.9 million from December 31, 2006, and decreased \$6.2 million from September 30, 2006. The increase from December 31, 2006 to September 30, 2007 resulted from a growth in federal funds sold of approximately \$264.0 million. The decrease from June 30, 2007 to June 30, 2006 resulted from the decrease in interest-bearing deposits of approximately \$12.0 million as a result of the modified Dutch Auction self-tender offer.

Total securities increased \$31.6 million compared to December 31, 2006 and \$41.9 million compared to September 30, 2006. The size of the Company's securities portfolio is a function of liquidity management and excess funds available for investment. The Company has maintained a short maturity on its securities portfolio to manage rate exposure and to provide funds for loan growth. The net unrealized gain on securities available for sale, before taxes, was \$5.2 million at the end of the third quarter of 2007, compared to an unrealized gain of \$154,000 at December 31, 2006 and an unrealized loss of \$1.9 million at September 30, 2006. The average taxable equivalent yield on the securities portfolio for the third quarter of 2007 increased to 4.47% from 4.53% for the same quarter of 2006.

Total loans increased \$74.4 million from December 31, 2006, and increased \$67.1 million from September 30, 2006. The allowance for loan losses increased \$1.1 million from year-end 2006 and decreased \$160,000 from the third quarter of 2006. The allowance as a percentage of total loans was 1.20%, 1.19% and 1.24% at September 30, 2007, December 31, 2006 and September 30, 2006, respectively. The allowance to nonperforming and restructured loans at the same dates was 190.20%, 231.41% and 276.91%, respectively.

Nonperforming and restructured loans totaled \$15.2 million at September 30, 2007, compared to \$12.0 million at December 31, 2006 and \$10.5 million at September 30, 2006. The ratio of nonperforming and restructured loans to total loans for the same periods was 0.63%, 0.51% and 0.45%, respectively. The level of nonperforming loans and loan losses may rise over time as a result of economic and credit cycles.

Total deposits increased by \$145 million compared to December 31, 2006, and by \$153 million compared to September 30, 2006. The Company's deposit base continues to be comprised substantially of core deposits, with large denomination certificates of deposit being only 9.18% of total deposits at September 30, 2007, compared to 8.70% at December 31, 2006 and 8.97% at September 30, 2006.

Short-term borrowings decreased \$6.9 million from December 31, 2006, and \$21.0 million from September 30, 2006. Fluctuations in short-term borrowings are a function of federal funds purchased from correspondent banks, customer demand for repurchase agreements and liquidity needs of the bank.

Long-term borrowings decreased \$430,000 from year-end 2006 and \$1.1 million from the third quarter of 2006. The Company uses these borrowings primarily to match-fund, long-term fixed rate loans.

Stockholders' equity increased \$11 million from year-end 2006 and \$24 million from the third quarter of 2006, due to accumulated earnings offset by dividends and the modified Dutch Auction self-tender offer. Average stockholders' equity to average assets for the third quarter of 2007 was 10.21%, compared to 9.54% for the third quarter of 2006. The Company's leverage ratio and total risk-based capital ratio were 9.67% and 13.56%, respectively, at September 30, 2007, well in excess of the regulatory minimums.

In September 2007, the Company completed a modified Dutch Auction self-tender offer and purchased 539,453 shares of its common stock for the maximum offer price of \$45.00 per share. Cash on hand was used to pay for the purchase of the stock.
