If such a dismissal results in the number of independent directors of the Company falling below that required to form quorum as described in the Guiding Opinions and in the Articles of Association, the Company shall fill the vacancy in the manner as specified in the Articles of Association.

As required by the *Notice on Issues Relating to the Carrying out of the Special Activity of Strengthening the Corporate Governance of Listed Companies* (Zheng Jian Gong Si Zi, [2007] No. 28) of China Securities Regulatory Commission (CSRC) and the *Notice on the Special Activity of Corporate Governance for Listed Companies in Shanghai Jurisdiction* (Hu Zheng Jiang Gong Si Zi [2007] No. 39) of the CSRC Shanghai Regulatory Bureau, Sinopec Shanghai Petrochemical Company Limited (Sinopec Shanghai or the Company) carried out the special activity of corporate governance from April to October of 2007.

I. Process

1. Phase I: Internal Corporate Audit

Sinopec Shanghai conducted an internal corporate audit from April to June 2007, focusing particular attention on its corporate governance. Relevant documents promulgated by the CSRC and the CSRC Shanghai Regulatory Bureau were carefully reviewed by the Company and relied upon for the establishment of the Leading Group of Sinopec Shanghai for the Special Activity of Strengthening Corporate Governance. The leadership of the Leading Group was made up of the Board Chairman, acting as chief; the director and chief financial officer, as deputy chiefs; and also incorporated the independent directors, certain members of the Board of Supervisors and the leaders of related departments. The Company drew up a *Working Plan for the Special Activity of Corporate Governance* and took action to implement such Plan. The functional departments thoroughly conducted individual internal audits to identify problems and deficiencies by reviewing each of the one-hundred internal audit items listed in Document No. 28. By the end of June, the *Internal Audit Report and Remedial Plan of Sinopec Shanghai for the Special Governance Activity* was completed and was subsequently submitted to the Board of Directors for review.

On July 12, 2007, the *Internal Audit Report and Remedial Plan of Sinopec Shanghai in Connection with the Special Governance Activity* was reviewed and adopted at the 21st meeting of the Fifth Board of Directors.

2. Phase II: Public Appraisal and On Site Inspection

From July through September 2007, Sinopec Shanghai carried out public appraisals and on-site inspections in relation to the Special Activity of Corporate Governance. On July 13, 2007, the Company published the *Internal Audit Report and Rectification Plan of Sinopec Shanghai in Connection with the Special Governance Activity* in the China Securities Journal, Shanghai Securities News, and posted it on both the Shanghai Stock Exchange (www.sse.com.cn) and its own website and also submitted it to the CSRC Shanghai Regulatory Bureau.

Commencing July 15, 2007, the Company began to accept the comments and criticism of investors and the general public regarding its existing corporate governance structure via specially designated hotlines, fax numbers and email addresses.

On September 24, 2007, the CSRC Shanghai Regulatory Bureau conducted a special examination of the Company's corporate governance structure, focusing on its management systems, the minutes of its Shareholders, Board of Directors, and Board of Supervisors' meetings as well as its financial data from the past three years. On October 10, 2007, the Company received a *Notice on the Governance Status and Remedial Action of Sinopec Shanghai Petrochemical Company Limited* (Hu Zheng Jian Gong Si Zi [2007] No. 406) issued by the CSRC Shanghai Regulatory Bureau. On October 15, the Company received the *Appraisal of the Corporate Governance Structure of Sinopec Shanghai* issued by the Shanghai Stock Exchange.

3. Phase III: Rectifications and Improvement

Sinopec Shanghai implemented remedial measures and adopted improvements in connection with the Special Activity of Corporate Governance during the month of October 2007. The Company used the comments, criticism and suggestions received from regulatory authorities, investors and the public in shaping and deciding upon each remedial measure to be adopted.

By mid-October 2007, the *Report of Sinopec Shanghai on Remedial Measures Related to the Special Activity of Corporate Governance* was completed and was subsequently submitted to the 24th meeting of the Fifth Board of Directors for their review.

II. Rectification Results

1. Rectification of Problems Found in Self-check

The following are the main issues related to the Company's corporate governance structure that were identified during the self-examination:

- (1) The Company has not yet formulated corporate governance structures such as the working rules for the general manager or a working system for independent directors.

Explanation and Remedial Action: After its shares were listed on the market in 1993, the Company formulated and

Table of Contents

adopted Procedural Rules for the Working Meetings of the General Manager, Procedural Rules for Joint Party-Administrative Meetings as well as some other rules and regulations. The Articles of Association also contain explicit provisions on the roles of the general manager and independent directors. With these provisions in place, the Company failed to adopt separate Working Rules for the General Manager or a Working System for Independent Directors. As a result of the internal audit, the Company has now deemed the adoption of such measures necessary in order to further improve its corporate governance system to ensure compliance with relevant regulations. In September, the Company drafted Working Rules for the General Manager, a Working System for Independent Directors and a Working System for Investor Relationships, which were internally examined and reviewed by attorneys. In October 2007, drafts of such measures were submitted to the 24th meeting of the Fifth Board of Directors for their review and adoption in order to achieve implementation.

(2) Needed Share Reform:

Explanation and Remedial Action: Initially in October 2006, the Company started the share reform required by the CSRC; however, the reform plan was not adopted by the required two-thirds of the A-shareholders resulting in no reform occurring during 2006. In order to accomplish reform in this area as quickly as possible, promote the healthy development of the Company and achieve harmony in the interests of all shareholders, the Company is in active communication with its controlling shareholder China Petroleum & Chemical Corporation (Sinopec) urging it to initiate share reform. Since share reform may only be proposed by the majority shareholder, such reform has not yet been adopted, and there are no specific plans for adoption of such measures, but the Company will continue to urge the majority shareholder to adopt such reform at the earliest time possible.

2. Rectification of Problems Found in the On-Site Inspection by CSRC Shanghai Regulatory Bureau

During its on-site inspection, the CSRC Shanghai Regulatory Bureau pointed out the following problems with the corporate governance structure of Sinopec Shanghai:

- (1) Share Reform: after the first reform plan was vetoed at the shareholders meeting held on November 8, 2006, no second reform procedure was initiated by the Company.

Explanations and Remedial Actions: Identical with those found in Section II. 1. (2).

- (2) The Standardization of Operations: The Company has not yet adopted Working Rules for the General Manager or a Working System for the Independent Directors.

Explanation and Remedial Action: After its shares were listed on the market in 1993, the Company formulated and adopted Procedural Rules for the Working Meetings of the General Manager, Procedural Rules for Joint Party

-Administrative Meetings as well as some other rules and regulations. The Articles of Association also contain explicit provisions on the roles of the general manager and independent directors. With these provisions in place, the Company failed to adopt separate Working Rules for the General Manager or a Working System for Independent Directors. As a result of the internal audit, the Company has now deemed the adoption of such measures necessary in order to further improve its corporate governance system to ensure compliance with relevant regulations. In September, the Company drafted Working Rules for the General Manager, a Working System for Independent Directors and a Working System for Investor Relationships, which were internally examined and reviewed by attorneys. In October 2007, drafts of such measures were submitted to the 24th meeting of the Fifth Board of Directors for their review and adoption in order to achieve implementation.

- (3) Independence: Some products that are produced by Sinopec Yizheng Chemical Fiber Co., Ltd. (Sinopec Yizheng) which is under the control of Sinopec, which is also the Company's controlling shareholder, are also produced by the Company and therefore constitute same-industry competition against the Company.

Explanation and Remedial Action: In keeping with its own developmental strategy, Sinopec, the controlling shareholder of the Company, has intensified the centralization of control over its procurement of materials and the sales of its products in order to prevent its subsidiaries, branch companies and affiliated enterprises from competing against each other within the same-industry, and to strengthen its overall price negotiating capabilities, as well as to consolidate and expand its share of the market. As a result of active communication and coordination between the Company and its controlling shareholder, Sinopec, products of the Company which constitute same-industry competition with Sinopec Yizheng (also controlled by Sinopec), will be shifted into the same sales channel as that used by Sinopec Yizheng, the Sino Chemical Sales Branch Company, thus avoiding future internal competition within the same-industry.

3. Appraisal Opinions of Shanghai Stock Exchange on the Corporate Governance of the Company

On October 15, 2007, the Department of Listed Companies of the Shanghai Stock Exchange issued an Appraisal Opinion on the Corporate Governance Status of Sinopec Shanghai, offering the following regulatory suggestions on how the Company should improve its governance structure: The Company should take advantage of the opportunity posed by the current special activity being conducted to enhance the governance structure of listed companies in order to perfect the Company's systems of internal information disclosure and control, standardize the conducting of shareholders and Board of Directors, raise the awareness of directors (including independent directors) regarding their respective duties and in order to actively work for the enhancement of its corporate governance as required by relevant laws, regulations and standards, including Company Law, Securities Law, Measures for Administration of Information Disclosure of Listed Companies and the Rules Governing the Listing of Stocks.

4. Investors and Public Comments on the Corporate Governance of the Company

On July 13, 2007 the Company published its Internal Audit Report and the Remedial Action Plan for Sinopec Shanghai for the Special Governance Activity on the website of the Shanghai Stock Exchange (www.sse.com.cn). In order to encourage comment from investors and the general public, the Company set up hotlines, as well as special fax numbers and email addresses. As of September 30, 2007, no comments regarding its corporate governance status had been received.

In summary, Sinopec Shanghai has achieved some success in enhancing its corporate governance via the Special Activity of Corporate Governance; efforts have been taken to instill in the directors, supervisors and senior executives of the Company new insight into the importance and necessity of adopting a proper governance system; and the internal structure of the Company has achieved further improvement and standardization. Sinopec Shanghai will continue to take advantage of this opportunity in order to further strengthen its corporate governance structure and to ensure its growth in a regulation-compliant, healthy and sustainable manner.
