PROXY STATEMENT

2008 ANNUAL MEETING OF STOCKHOLDERS

Corcept Therapeutics Incorporated (the "Company") is furnishing this Proxy Statement and the enclosed proxy in connection with the solicitation of proxies by the Board of Directors of the Company (the "Board") for use at the Annual Meeting of Stockholders to be held on June 10, 2008 at 10:00 a.m. local time, at the Company's headquarters located at 149 Commonwealth Drive, Menlo Park, California 94025 and at any adjournments thereof (the "Annual Meeting"). These materials are being mailed to stockholders on or about May 10, 2008.

Only holders of the Company's common stock as of the close of business on April 24, 2008 (the "Record Date") are entitled to vote at the Annual Meeting. Stockholders who hold shares of the Company's common stock in "street name" may vote at the Annual Meeting only if they hold a valid proxy from their broker. As of the Record Date, there were 48,473,164 shares of common stock outstanding.

A majority of the outstanding shares of common stock entitled to vote at the Annual Meeting must be present in person or by proxy in order for there to be a quorum at the meeting. Stockholders of record who are present at the meeting in person or by proxy and who abstain from voting, including brokers holding customers' shares of record who cause abstentions to be recorded at the meeting, will be included in the number of shares present at the meeting for purposes of determining whether a quorum is present.

Each stockholder of record is entitled to one vote at the Annual Meeting for each share of common stock held by such stockholder on the Record Date. Stockholders do not have cumulative voting rights. Stockholders may vote their shares by using the proxy card enclosed with this Proxy Statement. All proxy cards received by the Company which are properly signed and have not been revoked will be voted in accordance with the instructions contained in the proxy cards. If a signed proxy card is received which does not specify a vote or an abstention, the shares represented by that proxy card will be voted for the nominees to the Board listed on the proxy card and in this Proxy Statement and for the ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2008. The Company is not aware, as of the date hereof, of any matters to be voted upon at the Annual Meeting other than those stated in this Proxy Statement and the accompanying Notice of Annual Meeting of Stockholders. If any other matters are properly brought before the Annual Meeting, the enclosed proxy card gives discretionary authority to the persons named as proxies to vote the shares represented by the proxy card in their discretion.

Under Delaware law and the Company's Amended and Restated Certificate of Incorporation and Bylaws, if a quorum exists at the Annual Meeting, (a) the nominees for director who receive the greatest number of votes cast will be elected to the Board and (b) the proposal to ratify the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2008 will be approved if it receives the affirmative vote of the majority of the shares of common stock present or represented and entitled to vote at the Annual Meeting. Abstentions and broker non-votes will have no impact on the election of directors since they have not been cast in favor of or against any nominee, nor will they have any effect on the proposal to ratify the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2008, because approval of that proposal is based solely on the number of votes actually cast.

A stockholder of record may revoke a proxy at any time before it is voted at the Annual Meeting by (a) delivering a proxy revocation or another duly executed proxy bearing a later date to the Secretary of the Company at 149 Commonwealth Drive, Menlo Park, California 94025 or (b) attending the Annual Meeting and voting in person. Attendance at the Annual Meeting will not revoke a proxy unless the stockholder actually votes in person at the meeting.

The proxy card accompanying this Proxy Statement is solicited by the Board. The Company will pay all of the costs of soliciting proxies. In addition to solicitation by mail, officers, directors and employees of the Company may solicit proxies personally, or by telephone, without receiving additional compensation. The Company, if requested, will pay brokers, banks and other fiduciaries that hold shares of common stock for beneficial owners for their reasonable out-of-pocket expenses of forwarding these materials to stockholders.

DIRECTOR NOMINATION

The information below describes the criteria and process that the Nominating and Corporate Governance Committee uses to evaluate candidates to the Board.

Nominating and Corporate Governance Committee. The Company's Nominating and Corporate Governance Committee currently consists of Joseph C. Cook, Jr. (Chairman), Alix Marduel, M.D. and James N. Wilson. The Nominating and Corporate Governance Committee held one meeting in 2007 to consider the slate of nominees for the 2007 Annual Meeting and one meeting in late 2007 and one meeting in early 2008 to consider the slate for the 2008 Annual Meeting. The Nominating and Corporate Governance Committee is responsible for identifying individuals qualified to serve as members of the Board of the Company, recommending to the independent members of the Board nominees for election as directors of the Company and providing oversight with respect to corporate governance and ethical conduct. The Board has determined that Mr. Cook and Dr. Marduel are independent directors for NASDAQ purposes. Although Mr. Wilson is an employee of the Company and therefore not an independent director for Nasdaq purposes, the Company's director nomination process meets applicable Nasdaq requirements because the Company's director nominees are selected by the independent members of the Board. The Nominating and Corporate Governance Committee has a written charter, a copy of which was filed as Appendix C of the Company's Definitive Proxy Statement for the 2007 Annual Meeting of Stockholders.

The information below describes the criteria and process that the Nominating and Corporate Governance Committee uses to evaluate candidates to the Board.

Board Membership Criteria. The Nominating and Corporate Governance Committee is responsible for assessing the appropriate balance of experience, skills and characteristics required of the Board. Nominees for director are selected on the basis of depth and breadth of experience, knowledge, integrity, ability to make independent analytical inquiries, understanding of the Company's business environment, the willingness to devote adequate time to Board duties, the interplay of the candidate's experience and skills with those of other Board members, and the extent to which the candidate would be a desirable addition to the Board and any Committees of the Board. In addition, the Nominating and Corporate Governance Committee seeks to ensure that at least a majority of the directors are independent under the rules of the Nasdaq Stock Market, that the Audit Committee and Compensation Committee are each composed entirely of independent directors, and that members of the Audit Committee possess such accounting and financial expertise as the principal stock exchange or quotation service on which the Company's shares are listed or quoted require.

Stockholders Proposals for Nominees. The Nominating and Corporate Governance Committee will consider written proposals from stockholders for nominees for director. Any such nominations should be submitted to the Nominating and Corporate Governance Committee c/o the Secretary of the Company and should include (at a minimum) the following information: (a) all information relating to such nominee that is required to be disclosed pursuant to Regulation 14A under the Securities Exchange Act of 1934 (as amended, the Exchange Act) (including such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected); (b) the name(s) and address(es) of the stockholder(s) making the nomination and the number of shares of the Company's common stock which are owned beneficially and of record by such stockholder(s); and (c) appropriate biographical information and a statement as to the qualifications of the nominee, and should be submitted in the time frame described in the Bylaws of the Company and under the caption, **STOCKHOLDER PROPOSALS** below.

Process for Identifying and Evaluating Nominees. The Nominating and Corporate Governance Committee initiates the process for identifying and evaluating nominees to the Board by identifying a slate of candidates who meet the criteria for selection as nominees and have the specific qualities or skills being sought based on input from members of the Board, management and, if the Nominating and Corporate Governance Committee deems appropriate, a third-party search firm. In addition, the Company has agreed to take all necessary steps to have one designee of Longitude Venture Partners, L.P., one of our significant stockholders, nominated for election to our Board, subject to compliance with relevant Nasdaq Stock Market rules and regulations and approval of the nominee by the Nominating and Corporate Governance Committee. Candidates, including candidates proposed by Longitude Venture Partners, L.P., are evaluated by the Nominating and Corporate Governance Committee on the basis of the factors described above under *Board Membership Criteria*.

With respect to candidates for initial election to the Board, the Nominating and Corporate Governance Committee also reviews biographical information and qualifications and checks the candidates' references. Qualified candidates are interviewed by at least one member of the Nominating and Corporate Governance Committee. Serious candidates meet, either in person or by telephone, with all members of the Nominating and Corporate Governance Committee and as many other members of the Board as practicable.

Using the input from interviews and other information obtained, the Nominating and Corporate Governance Committee evaluates which of the prospective candidates is qualified to serve as a director and whether the committee should recommend to the independent members of the Board that the Board nominate, or elect to fill a vacancy with, a prospective candidate. Candidates recommended by the Nominating and Corporate Governance Committee are presented to the independent members of the Board for selection as nominees to be presented for the approval of the stockholders or for election to fill a vacancy. The Nominating and Corporate Governance Committee expects that a similar process will be used to evaluate nominees recommended by stockholders.

Nominees to the Board of Directors for the Annual Meeting. The nominees for the Annual Meeting were recommended for selection by the Nominating and Corporate Governance Committee and were selected by the independent members of the Board. Edward E. Penhoet does not currently serve on the Board, but has been nominated for election to the Board to fill the vacancy created by Alix Marduel, M.D. Mr. Penhoet was recommended for consideration as a nominee by an independent director of the Board. Dr. Marduel and Mr. Singer are not being nominated for re-election to the Board in 2008.

Non-employee directors receive a director fee from the Company for their services as members of the Board in the amount of \$15,000 per year. Members of the Audit Committee receive an additional \$10,000 per year. New directors receive an initial stock option grant of 70,000 shares of the Company's common stock in connection with their initial election to the Board. The initial director options will vest with respect to 25% of the shares on the first anniversary of the date of the grant and, thereafter, at the rate of 2.0834% per month, until fully vested. Non-employee directors who are reelected at the Annual Shareholder Meeting each receive a stock option grant that vests over the one year term as director at the rate of 8.3334% per month from the date of the Annual Meeting until fully vested. The chairmen of the Audit Committee and the Compensation Committee each receive an additional grant of 15,000 shares of the Company's common stock with a similar one-year vesting provision.

BOARD MEETINGS AND COMMITTEES

The Board met eleven times during fiscal 2007; five of them telephonically, and took action via unanimous written consent once. The Audit Committee met five times and the Compensation Committee met three times. The Nominating and Corporate Governance Committee met twice during fiscal 2007. Each member of the Board attended 75% or more of the total number of Board meetings and meetings of Board committees on which such Board member served, other than David Singer who attended 55% of the Board meetings, and 80% of Audit Committee meetings.

In addition to the Nominating and Corporate Governance Committee, which is described above, the Board has standing Audit and Compensation Committees.

Audit Committee. The Audit Committee currently consists of David L. Mahoney (Chairman), Joseph C. Cook, Jr. and David B. Singer. The Board has determined that all members of the Audit Committee are independent directors under the rules of the Nasdaq Stock Market and each of them is able to read and understand fundamental financial statements. The Board has determined that David L. Mahoney qualifies as an "Audit Committee financial expert" as defined by the rules of the Securities and Exchange Commission (the "SEC"). The purpose of the Audit Committee is to oversee the accounting and financial reporting processes of the Company and audits of its financial statements. The responsibilities of the Audit Committee include appointing and providing the compensation of the independent accountants to conduct the annual audit of the Company's accounts, reviewing the scope and results of the independent audits, reviewing and evaluating internal accounting policies, and approving all professional services to be provided to the Company by its independent accountants. The Audit Committee has a written charter, a copy of which is attached hereto as Appendix A.

Compensation Committee. The Compensation Committee currently consists of G. Leonard Baker, Jr. (Chairman), James A. Harper, David L. Mahoney and Alix Marduel, M.D. The Board has determined that all members of the Compensation Committee are independent directors under the rules of the Nasdaq Stock Market. The Compensation Committee administers the Company's benefit plans, reviews and administers all compensation arrangements for executive officers, and establishes and reviews general policies relating to the compensation and benefits of the Company's officers and employees. The Compensation Committee has a written charter, a copy of which was filed as Appendix B to the Company's Definitive Proxy Statement for the 2007 Annual Meeting of Stockholders. Pursuant to the Compensation Committee's charter, the Compensation Committee may delegate its authority and responsibilities as it deems proper to members of the Compensation Committee or to a subcommittee.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Compensation Objectives

For Joseph K. Belanoff, M.D., our Chief Executive Officer, Robert L. Roe, M.D., our President and Anne LeDoux, our Vice President and Controller (Chief Accounting Officer), our named executive officers (NEOs) compensation is intended to be performance-based, with the exception of such NEOs' base salary. The Compensation Committee believes that compensation paid to NEOs should be closely aligned with the performance of the Company on both a short-term and long-term basis, linked to specific, measurable results intended to create value for stockholders, and that such compensation should assist the Company in attracting and retaining key executives critical to its long-term success.

In establishing compensation for executive officers, the following are the Compensation Committee's objectives:

- Attract and retain individuals of superior managerial talent;
- Ensure senior officer compensation is aligned with the Company's corporate strategies, business objectives and the long-term interests of the Company's stockholders;
-

Edgar Filing: CORCEPT THERAPEUTICS INC - Form DEF 14A

Increase the incentive to achieve key strategic and financial performance measures by linking incentive award opportunities to the achievement of performance goals in these areas; and

- Align officer and shareholder interests, as well as promote retention of key people, by providing a portion of total compensation opportunities for senior management in the form of direct ownership in the Company through stock options.

The Company's overall compensation program is structured to attract, motivate and retain highly qualified executive officers by paying them competitively, consistent with the Company's success and their contribution to that success. The Company believes compensation should be structured to ensure that a portion of compensation opportunity will be directly related to Company stock performance and other factors that directly and indirectly influence stockholder value. Accordingly, the Company sets goals designed to link each NEO's compensation to the Company's performance, such as the attainment of clinical goals and meeting agreed upon financial targets.

The Company provides a base salary to our executive officers. Additionally, consistent with our performance-based philosophy, the Company reserves the largest potential compensation awards for performance- and incentive-based programs for the Company's senior executive management team, comprised of the Chief Executive Officer, President and Chief Accounting Officer. Such programs include stock options grants, designed to provide compensation opportunities if milestones that increase the value of the Company, such as positive results in clinical trials, are attained. Incentive-based programs provide compensation in the form of both cash and equity, to reward for both short-term and long-term performance of the Company. The Compensation Committee allocates total compensation between cash and equity compensation based on the Compensation Committee members' knowledge of compensation practices in the biotechnology and specialty pharmaceutical industries. The balance between equity and cash compensation among members of the senior executive management team, all three of whom are NEOs, is evaluated annually to align the interests of management with stockholders through both short and long term incentives.

The Chairman of the Board and the members of the Compensation Committee are seasoned executives of, consultants to or venture capitalists with investments in the biotechnology and specialty pharmaceutical industry. Collectively they have served as board and compensation committee members of many public and privately held companies including Amylin Pharmaceuticals, Inc., NuGen Technologies, Inc., Neurex Corporation, Praecis Pharmaceuticals, Inc., Tercica, Inc., and Zymogenetics Inc. As a result of this extensive involvement in the compensation of executives in these and other companies, the Chairman of the Board and the members of the Compensation Committee collectively have developed a clear understanding and knowledge of the compensation structures that are necessary to attract, motivate and retain management talent.

Determination of Compensation

The Compensation Committee is provided with the primary authority to determine and recommend the compensation awards available to the Company's executive officers for approval by the Board of Directors. Based on the Compensation Committee members' collective understanding of compensation practices in similar companies in the biotechnology and specialty pharmaceutical industry, the Company's executive compensation package consists of the following elements, in addition to the employee benefit plans in which all employees may participate:

- Base salary: compensation for ongoing performance throughout the year.
- Periodic performance-based cash compensation: awards to recognize and reward achievement of performance goals.
- Long-term performance-based equity incentive program: equity compensation to provide an incentive to the NEOs to manage the Company from the perspective of an owner with an equity stock in the business.
- Severance and change of control benefits: remuneration paid to executives in the event of a change of control of the Company or involuntary employment termination.

To aid the Compensation Committee in making its determination, our Chief Executive Officer provides recommendations annually to the Compensation Committee regarding the compensation of all other executive officers. Each NEO in turn, participates in an annual performance review with our Chief Executive Officer to provide input about their individual contributions to the Company's success for the period being assessed. The overall performance of our senior executive management team is reviewed annually by the Compensation Committee.

The Company sets base salary structures and any grants of stock options based on the Compensation Committee members' collective understanding of compensation practices in the biotechnology and specialty pharmaceutical industry and such members' experiences as seasoned executives, consultants, board and compensation committee members, or investors in similar biotechnology and specialty pharmaceutical industry companies.

Tax Considerations

A goal of the Compensation Committee is to comply with the requirements of Internal Revenue Code Section 162(m) of the Internal Revenue Code of 1986, as amended (Section 162 (m) limits the tax deductibility by the Company of annual compensation in excess of \$1,000,000 paid to our Chief Executive Officer and any of our three other most highly compensated executive officers, other than our Chief Financial Officer. However, performance-based compensation that has been approved by our stockholders is excluded from the \$1,000,000 limit if, among other requirements, the compensation is payable only upon the attainment of pre-established, objective performance goals and the committee of our Board of Directors that establishes such goals consist only of outside directors. All members of the Compensation Committee qualify as outside directors.

While the tax impact of any compensation arrangement is one factor to be considered, such impact is evaluated in light of the Compensation Committee's overall compensation philosophy and objectives. The Compensation Committee will consider ways to maximize the deductibility of executive compensation, while retaining the discretion it deems necessary to compensate officers in a manner commensurate with performance and the competitive environment for executive talent. From time to time, the Compensation Committee may award compensation to our executive officers which is not fully deductible if it determines that such award is consistent with its philosophy and is in our and our stockholders' best interests.

Certain option grants made under our equity plans are intended to be structured so that any compensation deemed paid upon the exercise of those options will qualify as performance-based compensation that is not subject to the \$1,000,000 limitation.

Elements of Executive Compensation

BASE COMPENSATION

The Company pays base salaries to provide fixed compensation based on the Compensation Committee's assessment of competitive market practices. Due to the Compensation Committee's collective experience with similar companies in the biotechnology and specialty pharmaceutical industry, the Compensation Committee has intricate knowledge and understanding of what the industry demands in order to motivate and retain our executive officers. The Company provides each NEO with a base salary that was established by extensive negotiations with each NEO when such individual first joined the Company as an employee or was promoted to the position of executive officer. Base salaries have not changed in 2007 as compared to 2006 other than for annual cost of living adjustments of 4% per year that were approved by the Compensation Committee and applied equally to all employees. While base salaries are not considered by the Internal Revenue Service to constitute performance-based compensation, each year the Compensation Committee reviews the CEO's base salary to determine if a change is appropriate based on Company performance, such as the Company's progress on research and development programs. Similarly, the CEO reviews the base salary of the other NEOs and has the ability to propose a change in base salary based on performance to the Compensation Committee. Other than the annual cost of living increases that the Compensation Committee has approved, no formulaic base salary increases are provided to the NEOs.

PERFORMANCE-BASED COMPENSATION

Performance Goals and Periodic Performance-Based Cash Compensation

The Company structures its compensation programs to reward executive officers based on the Company's performance. This allows executive officers to receive bonus compensation in the event certain specified corporate performance measures are achieved. To date, the Company has not instituted an annual performance-based cash compensation or annual performance-based equity compensation program because the Compensation Committee believes that the compensation objective to ensure that executive officers' compensation is aligned with the Company's corporate strategies, business objectives and the long-term interests of the Company's stockholders is achieved when milestone successes are met, such as meeting the predetermined endpoints in the Company's clinical trials. The achievement of these milestones does not necessarily correspond with annual performance periods.

Performance-based cash compensation has been awarded in past years primarily to recognize the attainment of certain accomplishments of value enhancing milestones such as successful financing transactions and positive results in clinical trials. The Compensation Committee believes that performance-based compensation should be based on achievement of certain milestone successes, such as the attainment of predetermined end-points in the Company's clinical trials, successful financing transactions and commencement of certain clinical trials. For 2007, the Compensation Committee performed a retrospective assessment of performance during the year and recommended to the Board of Directors the payment of a 25% bonus of actual 2007 salary earned (adjusted for any partial year employees) to each employee of the Company at December 31, 2007, including the officers. This recommendation was approved by the Board of Directors at their meeting in December 2007. This bonus was paid in January 2008.

Long-Term Performance-Based Equity Incentive Program

The Company's executive officers, along with all of the Company's employees, are eligible to participate in the Company's awarding of stock options under its 2004 Equity Incentive Plan. As discussed above, the Company believes, with its performance-based approach to compensation, that equity ownership in the Company is important to tie the ultimate level of an executive officer's compensation to the performance of the Company's stock and stockholder gains while creating an incentive for sustained growth. The Company has, thus far, only used stock options as the long-term performance-based equity incentive vehicle because the Compensation Committee believes that stock options maximize executive officers' incentive to increase the Company's stock price and maximize stockholder value (i.e. there is no financial gain to an executive officer unless our stock price appreciates.)

Equity compensation in the form of incentive or non-qualified stock options is awarded by the Compensation Committee from time to time. The size and the timing of each grant is based on a number of factors, including the executive officer's salary, such executive officer's contributions to the achievement of the Company's financial and strategic objectives, the value of the stock option at the time of grant, the possible value of the option if the Company achieves its objectives and industry practices and norms from the collective knowledge of the Compensation Committee as seasoned executives of, consultants to, board and compensation members of, and venture capitalists with investments in similar companies in the industry. The relative weight given to each of these factors varies among individuals at the Compensation Committee's discretion. There is no set formula for the granting of stock options to individual executives and employees. Grants also may be made following a significant change in job responsibility or in recognition of a significant achievement. In April 2007, Dr. Belanoff, Dr. Roe and Ms. LeDoux were granted stock options for 1,000,000, 700,000 and 125,000 shares, respectively. The amounts of these stock option grants were awarded in recognition of each individual's outstanding performance and determined by the Compensation Committee through its collective understanding of compensation practices in the biotechnology and specialty pharmaceutical industry.

Stock options granted to NEOs under the various stock plans generally have a four or five-year vesting schedule in order to provide an incentive for continued employment and generally expire ten years from the date of the grant. This provides a reasonable time frame in which to provide the executive officer with the possibility of price appreciation of the Company's shares. The exercise price of options granted under the stock plans is 100% of the fair market value of the underlying stock on the date of grant.

The Company grants all stock option awards based on the fair market as of the date of grant. The Company does not have a policy of granting stock option awards at other than the fair market value. The exercise price for stock option grants is determined by looking at the fair market value of the last quoted price per share on the Nasdaq Capital Market on the date of grant. The Company does not have a policy and does not intend to have a policy or practice to select option grant dates for executive officers in coordination with the release of material non-public information.

DEFINED CONTRIBUTION PLANS

The Company has a Section 401(k) Savings/Retirement Plan (the "401(k) Plan") to cover eligible employees of the Company and any designated affiliate. The 401(k) Plan permits eligible employees of the Company to defer up to 100% of their annual compensation, subject to certain limitations imposed by the Internal Revenue Code. The employees' elective deferrals are immediately vested and non-forfeitable upon contribution to the 401(k) Plan. The Company currently makes no matching contributions to the 401(k) Plan. Employees of the Company are eligible to participate in the 401(k) Plan on the first day of the month coinciding with or immediately following the first day of employment.

SEVERANCE AND CHANGE IN CONTROL ARRANGEMENTS

On July 24, 2007, the Company entered into Severance and Change in Control Agreements with each of its executive officers: Joseph K. Belanoff, M.D., Chief Executive Officer; Robert L. Roe, M.D., President; and Anne M. LeDoux, Chief Accounting Officer. The terms of the agreements are identical. The agreements provide that, if employment is terminated without cause or for good reason regardless of whether it is in connection with a change in control, the executive will be eligible for 12 months of his or her then current base salary and continued health insurance coverage for this same period. In addition, the agreements provide for the full vesting of all outstanding equity awards in the event the executive's employment is terminated without cause or for good reason within 18 months following a change in control. The agreement with Dr. Roe supersedes his prior agreement with the Company. The other officers did not have prior employment or severance agreements.

On July 24, 2007, the Company also entered into a Severance and Change in Control Agreement with James N. Wilson, Chairman of the Board of Directors. The agreement with Mr. Wilson provides that if his employment or service on the Board terminates involuntarily without cause or good reason within eighteen months of a change in control all of his outstanding equity awards shall become fully vested. Mr. Wilson did not have a prior severance agreement.

These severance and change in control arrangements are designed to retain these executives in these key positions as the Company competes for talented executives in the marketplace where such protections are commonly offered. These arrangements provide benefits to encourage the executives to continue to provide necessary or desirable service to the company during a change in control and to ease the transition of the executives due to an unexpected employment termination by the Company due to changes in the Company's employment needs.

OTHER ELEMENTS OF COMPENSATION AND PERQUISITES

Medical Insurance. The Company, at its sole cost, provides to each employee (including each NEO), and his or her spouse and children such health, dental and optical insurance as the Company may from time to time

make available to its other employees of the same level of employment. Such insurance programs are part of an overall broad-based total compensation program designed to facilitate the Company's ability to attract and retain employees as the Company competes for talented individuals in the marketplace where such benefits are commonly offered.

Life and Disability Insurance. The Company provides each employee (including each NEO) such disability and/or life insurance as the Company in its sole discretion may from time to time make available to its other employees of the same level of employment. Such insurance programs are part of an overall broad-based total compensation program designed to facilitate the Company's ability to attract and retain employees as the Company competes for talented individuals in the marketplace where such benefits are commonly offered.

POLICIES WITH RESPECT TO EQUITY COMPENSATION AWARDS

The Company grants all stock option awards based on the fair market value as of the date of grant. The Company does not have a policy of granting stock option awards at other than the fair market value. The exercise price for stock option grants is determined by looking at the fair market value of the last quoted price per share on the Nasdaq Global Market on the date of grant. The Company does not have a policy and does not intend to have a policy or practice to select option grant dates for executive officers in coordination with the release of material non-public information.

The following tables and descriptive materials set forth information concerning compensation earned for services rendered to the Company by its Chief Executive Officer (the CEO), Chief Financial Officer (the CFO), Chief Accounting Officer (the CAO) and the Company's other executive officer for fiscal year 2007 whose salary and bonus for the fiscal year 2007 exceeded \$100,000. The data for the Chief Financial Officer is included for 2006 and through mid-April 2007, at which time Mr. Kurland resigned. Collectively, together with the CEO and CAO, these are the named executive officers for the respective years.
