**Operating loss increased year-on-year by RMB10.6 million to RMB19.9 million**, driven primarily by greater service development, and sales and marketing expenses.

**Net loss from continuing operations increased year-on-year by RMB8.1 million to RMB15.5 million**, driven primarily by greater service development, and sales and marketing expenses, and a RMB8.1 million decrease in interest income offset by a RMB8.7 million decrease in foreign currency exchange losses when compared to the prior year quarter.

**Cash, cash equivalents and short-term investment** as of September 30, 2008 were **RMB1.02 billion** (USD\$150.5 million).

We achieved several key milestones in the third quarter including improving the call centre service to the highest standard in the China online travel industry and the continuous improvement of the online booking experience said Guangfu Cui, Chief Executive Officer of eLong.

Although we expect the near term environment to be challenging, we believe we are making the right strategic moves and we will continue to set our company on a path to long-term growth.

In light of the current environment, we intend to balance prudent expense management against investments for growth in 2009, and are taking steps to streamline our costs, said Chris Chan, Chief Financial Officer of eLong. We believe that our increased but focused investment in marketing, technology, and our product competitiveness will pay off over time while the reduced cost base relative to the business growth opportunity will help protect the bottom line and drive a higher efficiency.

## Business Results

### Hotel

Hotel commissions increased 1% for the third quarter of 2008 when compared to the prior year quarter, primarily due to higher room volume which was offset by lower commission per room night. Room nights booked through eLong increased 4% year-on-year to 1,050,000, while commission per room night of RMB62 was lower than the commission per room night of RMB 64 in the prior year quarter.

### Air

Air ticketing commissions increased 28% for the third quarter of 2008, driven by a 31% year-on-year increase in air segments to 484,000, and an increase of 66 basis points in the average percent commission to 5.4%, offset partially by a lower average ticket price, which decreased by 14% to RMB764 when compared to the prior year quarter.

### Profitability

Gross margin in the third quarter was 71% compared to 74% in the prior year quarter driven primarily by the higher growth of lower margin air revenue relative to hotel revenue and the lower average ticket price compared to the prior year quarter.

Operating expenses for the third quarter of 2008 and 2007 were as follows (*figures in RMB 000 s; some numbers may not add due to rounding*):

	Q3 2008	% Net Revenues	Q3 2007	% Net Revenues	Y/Y Growth
Service development	14,155	17%	12,196	15%	16%
Sales and marketing	50,654	60%	36,858	47%	37%
General and administrative	13,849	16%	18,277	23%	-24%
Amortization of intangibles	217		265		-18%
Write-down of property and equipment and intangibles	510	1%			
<b>Total operating expenses</b>	<b>79,385</b>	<b>94%</b>	<b>67,596</b>	<b>85%</b>	<b>17%</b>

Total operating expenses increased 17% for the third quarter of 2008 compared to the third quarter of 2007. Operating expenses were 94% of net revenues, an increase of 9 percentage points compared to the prior year quarter.

Service development expense is composed of expenses related to technology and our product offering, including our website, platforms and other related system development. Service development expense increased 16% over the prior year quarter, mainly driven by increased investment in platform enhancements. Service development expense increased by 141 basis points to 17% of net revenues when compared to the same quarter last year.

Sales and marketing expense for the third quarter 2008 increased 37% over the prior year quarter, mainly driven by the brand awareness and consumer promotion marketing campaign which began in July, higher sales commissions, and increased online marketing expense. Sales and marketing expense increased by 13 percentage points to 60% of net revenues when compared to the same quarter last year.

General and administrative expense for the third quarter 2008 decreased 24% over the prior year quarter, mainly driven by decreases in external consulting fees. General and administrative expense as a percentage of net revenues, decreased by 7 percentage points year-on-year, to 16% in the third quarter.

Other income, which represents interest income, foreign exchange losses and other income/expense, was RMB1.4 million in the third quarter of 2008, primarily due to interest income of RMB6.3 million in the third quarter of 2008. This interest income was offset by the foreign currency exchange loss of RMB5.0 million resulting from the appreciation of the Renminbi against the US dollar during the quarter.

Net loss for the third quarter 2008 increased by RMB8.1 million over the prior year quarter to RMB15.5 million.

Our basic and diluted loss per ADS for the third quarter of 2008 was RMB0.62 compared to a basic and diluted loss per ADS of RMB0.30 in the prior year quarter.

### **Business Outlook**

eLong expects net revenues, net of business tax and surcharges, for the fourth quarter of 2008 to be within the range of RMB83 million to RMB92 million, or an increase of 1% to 12% compared to the fourth quarter of 2007.

### **Notes to the Unaudited Interim Consolidated Financial Statements**
