CONSOLIDATED FINANCIAL RESULTS

FOR THE FISCAL THIRD QUARTER AND

THE NINE MONTHS ENDED DECEMBER 31, 2008

Tokyo, January 30, 2009 Honda Motor Co., Ltd. today announced its consolidated financial results for the fiscal third quarter and the fiscal nine months ended December 31, 2008.

Honda's consolidated net income for the fiscal third quarter ended December 31, 2008 totaled JPY 20.2 billion (USD 222 million), a decrease of 89.9% from the same period in 2007. Basic net income per common share for the quarter amounted to JPY 11.16 (USD 0.12), a decrease of JPY 99.09 from JPY 110.25 for the corresponding period last year. One Honda American Depository Share represents one common share.

Consolidated net sales and other operating revenue (herein referred to as revenue) for the quarter amounted to JPY 2,533.2 billion (USD 27,829 million), a decrease of 16.8% from the same period in 2007, primarily due to decreased revenue in the automobile business and currency translation effects, although unit sales in motorcycle business increased. Honda estimates that if calculated at the same exchange rate as the corresponding period in 2007, revenue for the quarter would have decreased by approximately 4.4%.

Consolidated operating income for the quarter totaled JPY 102.4 billion (USD 1,125 million), a decrease of 62.9%, due primarily to increased raw material costs, fixed costs per unit as a result of reduced production and SG&A expenses and the negative impact of currency effects caused by the appreciation of the Japanese yen.

Consolidated income before income taxes, minority interest and equity in income of affiliates for the quarter totaled JPY 86.7 billion (USD 953 million), a decrease of 66.7% from the same period in 2007.

Equity in income of affiliates amounted to JPY 30.7 billion (USD 338 million) for the quarter, a decrease of 1.6% from the corresponding period last year.

Operating income was JPY 25.2 billion (USD 277 million), a decrease of 16.9% from the same period last year, due mainly to increased raw material costs and the negative impact of currency effects caused by the appreciation of the Japanese yen, more than offsetting the positive impact of increased revenue, model mix, etc., continuing cost reduction efforts and decreased SG&A expenses.

* Of the net sales of Honda-brand motorcycle products that are manufactured and sold by overseas affiliates accounted for under the equity method, those with respect to which parts for manufacturing were not supplied from Honda or its subsidiaries are not included in net sales and other operating revenue, in conformity with U.S. generally accepted accounting principles. Honda's automobile unit sales totaled 940 thousand units, a decrease of 5.1% for the same period last year. In Japan, unit sales amounted to 135 thousand units, a decrease of 6.9% from the same period last year. Revenue from sales to external customers decreased 19.4% to JPY 1,974.2 billion (USD 21,688 million) from the same period in 2007, due mainly to the negative currency translation effects and decreased overseas unit sales, particularly in North America. In Japan, unit sales totaled 110 thousand units, a decrease of 10.6% from the same period last year. The Company reported operating loss of JPY 2.8 billion (USD 31 million), a decrease of JPY 5.0 billion from the same period in 2007. This was primarily due to the negative impact of decreased revenue, model mix etc., negative currency effects caused by the appreciation of the Japanese yen and increased R&D expenses of other businesses, which more than offset decreased SG&A expenses.

This announcement contains forward-looking statements as defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements are based on management's assumptions and beliefs taking into account information currently available to it. Therefore, please be advised that Honda's actual results could differ materially from those described in these forward-looking statements as a result of numerous factors, including general economic conditions in Honda's principal markets and foreign exchange rates between the Japanese yen and the U.S. dollar, the Euro and other major currencies, as well as other factors detailed from time to time. The various factors for increases and decreases in income have been classified in accordance with a method that Honda considers reasonable.

1. Changes in significant subsidiaries for the three months ended December 31, 2008 (i.e. changes in specific subsidiaries that caused a change in the scope of consolidated financial statements)

None

2. Accounting policies specifically applied for quarterly consolidated financial statements

(a) Income taxes

Honda computes nine months income tax expense (benefit) by multiplying reasonably estimated annual effective tax rate, which includes the effects of deferred taxes, by year-to-date income before income taxes, minority interest and equity in income of affiliates for the nine months ended December 31, 2008. If a reliable estimate cannot be made, Honda utilizes the actual year-to-date effective tax rate.

3. Changes in accounting procedures for consolidated quarterly financial results

(a) Fair value measurements

Honda adopted Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements effective April 1, 2008. This statement defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction, and emphasizes that a fair value measurement should be determined based on the assumptions that market participants would use in pricing an asset or liability.

In February 2008, FASB issued FASB staff position (FSP) No. FAS 157-2 Effective date of FASB statement No. 157 . This FSP delays the effective date for SFAS No. 157, for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). The adoption of this statement does not have a material impact on the Company's consolidated financial position or results of operations.

The Company has omitted disclosures required by this statement.

(b) The fair value option for financial assets and financial liabilities

The Statement of Financial Accounting Standards (SFAS) No. 159, The Fair Value Option for Financial Assets and Financial Liabilities including an amendment of SFAS No. 115 has been effective since April 1, 2008. This statement permits entities to choose to measure at fair value many financial instruments and certain other items that are not currently required to be measured at fair value. Subsequent changes in fair value for designated items will be required to be reported in earnings in the current period. Honda has not elected the fair value option during the nine months ended December 31, 2008. Accordingly, the adoption of this statement has no impact on the Company's consolidated financial position or results of operations.

[9] Income Tax Expense

Due to the decrease in the amount of foreign tax credit carryforwards expected to be utilized in the future years, Honda has recorded a valuation allowance for the related deferred tax asset as of December 31, 2008. Honda records deferred tax liabilities for undistributed earnings of foreign subsidiaries and joint ventures. As the amount of foreign tax credit expected to be utilized upon the receipt of dividends from these foreign subsidiaries and joint ventures has also been decreased, Honda has recorded additional deferred tax liabilities for undistributed earnings of foreign subsidiaries and joint ventures as of December 31, 2008. Due primarily to these accounting treatments, the effective tax rates of Honda for the three months and nine months periods ended December 31, 2008 differ from Honda's statutory income tax rate, which is 40% for the fiscal year ending March 31, 2009.
