Item 1.01 Entry into a Material Definitive Agreement.

On January 8, 2010, Sorrento Therapeutics, Inc. (Sorrento) entered into a license agreement (the License Agreement) with The Scripps Research Institute (TSRI). Under the License Agreement, TSRI granted Sorrento an exclusive, worldwide license to certain TSRI patent rights and materials based on quorum sensing for the prevention and treatment of Staphylococcus aureus (Staph) infections, including Methicillin-resistant Staph (MRSA). In consideration for the license, Sorrento issued TSRI a warrant and agreed to pay TSRI a nominal annual royalty, a running royalty based on any sales of licensed products by Sorrento or its affiliates and a royalty for any revenues generated by Sorrento through its sublicense of patent rights and materials licensed from TSRI under the License Agreement. The License Agreement requires Sorrento to indemnify TSRI for certain breaches of the agreement and other matters customary for license agreements. The parties may terminate the License Agreement at any time by mutual agreement. In addition, Sorrento may terminate the License Agreement by giving 60 days notice to TSRI and TSRI may terminate the License Agreement immediately in the event of certain breaches of the agreement by Sorrento or upon Sorrento s failure to undertake certain activities in furtherance of commercial development goals. Unless terminated by Sorrento or TSRI, the term of the License Agreement will continue until the final expiration of all claims covered by the patent rights licensed by Sorrento under the agreement.
