Earnings Forecasts for Next Fiscal Year

Nomura provides investment, financing and related services in the capital markets on a global basis. In the global capital markets there exist uncertainties due to, but not limited to, economic and market conditions. Nomura, therefore, does not present earnings forecasts.

(2) Analysis of Financial Position

Total assets as of March 31, 2010, were 32.2 trillion yen, an increase of 7.4 trillion yen compared to March 31, 2009, reflecting primarily the increase in Securities purchased under agreements to resell and Trading assets. Total liabilities as of March 31, 2010 were 30.1 trillion yen, an increase of 6.8 trillion yen compared to March 31, 2009, mainly due to increase in Trading liabilities and Securities sold under agreements to repurchase. Total equity as of March 31, 2010 was 2.1 trillion yen, an increase of 581.5 billion yen compared to March 31, 2009 reflecting primarily the issuance of stocks.

Cash and cash equivalents as of March 31, 2010, increased by 407.1 billion yen compared to March 31, 2009. Cash flows from operating activities for the year ended March 31, 2010 were outflows of 1,500.8 billion yen due to increase in Trading assets. Cash flows from investing activities for the year ended March 31, 2010 were outflows of 269.6 billion yen due mainly to increase in Loans receivable at banks. Cash flows from financing activities for the year ended March 31, 2010 were inflows of 2,176.5 billion yen due primarily to proceeds received from issuances of new shares and Long-term borrowings.

(3) Nomura s Capital Management Capital Management Policy

Nomura seeks to enhance shareholder value by capturing business opportunities as they develop. To achieve this goal, Nomura maintains sufficient capital to support its business. Nomura reviews its sufficiency of capital as appropriate, taking into consideration economic risks inherent in its businesses, regulatory requirements, and maintenance of a sufficient debt rating for a global financial institution.

Nomura believes that raising corporate value over the long term and paying dividends is essential to rewarding shareholders. Nomura will strive to pay stable dividends using a consolidated payout ratio of 30 percent as a key indicator.

Dividend payments will be determined taking into account a comprehensive range of factors such as the tightening of Basel regulations and other changes to the regulatory environment as well as the company s consolidated financial performance.

The payment frequency is semi-annual (record dates: September 30 and March 31) in principle. Pursuant to Article 459 of Companies Act of Japan, in its Articles of Incorporation, Nomura established the capability to declare dividends from retained earnings by decision of the Board of Directors based on the record dates of June 30, September 30, December 31, and March 31 of each year.

Nomura paid 4.0 yen of dividends for the first half and will pay 4.0 yen for the second half dividend in line with its dividend policy for the fiscal year ended March 31, 2010.

As for retained earnings, Nomura intends to invest in business areas where high profitability and growth may reasonably be expected, including development and expansion of infrastructure, to maximize value for shareholders.

Nomura will also consider the option of implementing a share repurchase program in order to respond flexibly to changes in the management environment and raise shareholder value. Any decision on establishing such a program will be disclosed in a timely manner and the program implemented in accordance with company policy. Nomura didn t repurchase any during the fiscal year ended March 31, 2010.

2. Organizational Structure

This section is omitted as there are no major changes in Business Overview - Organizational Structure and Subsidiaries and Affiliates since the most recent Nomura Holdings, Inc. s Annual Securities Report Pursuant to the Financial Instruments and Exchange Act for The Fiscal Year Ended March 31, 2009 annual report was filed on June 30, 2009.

3. Corporate Goals and Principles

(1) Fundamental Management Policy

Nomura Group is committed to a management vision of firmly establishing ourselves as a globally competitive financial services group. We will seek to realize this vision and increase shareholder value by strengthening our base in the Japanese securities businesses, developing world-class businesses in other regions, and consolidating our comprehensive global strength.

We will establish our new growth model by working with our clients, providing them with the best solutions, and realizing the expansion of our business in new domains. Our management target is to maintain an average consolidated return on shareholders equity (ROE) of 10% to 15% over the medium to long term. However, we cannot deny that the capital requirements that are under consideration by Basel Committee on Banking Supervision or other financial regulators may impact us.

In addition, we put high priority on compliance with applicable laws, regulations and proper corporate behavior, and we build compliance into our daily business operations.

(2) Structure of Business Operations

In April 2010, we established the Wholesale Division, encompassing the Global Markets Division, the Investment Banking Division, and the Merchant Banking Division, to promote seamless coordination between the wholesale businesses and provide our clients with high value-added services tailored to their needs. We are organized around three globally-linked divisions (Retail Division, Wholesale Division, and Asset Management Division) under a unified strategy, rather than individual legal entities. We will strive to achieve a higher level of specialization in each division, advance and progress our business in each area, and maximize the collective strength of the Nomura Group by enhancing cross-divisional collaboration.

8

(3) Management Challenges and Strategies

The global economic downturn, triggered by the turmoil in financial markets, came to an end in Spring 2009 through execution of economic stimulus plans and inventory rebuilding in many countries. Emerging markets are helping the global economy move gradually toward normality. In this environment, we plan to address the needs of our clients globally by taking advantage of our considerably-strengthened business platform and to strategically allocate management resources in order to grow our client base and improve our market share. In addition, we will continue to proceed with our plans to reduce costs by reengineering businesses to fit the market environment and increase operational efficiency. We will also implement the following initiatives:

[Retail Division]

We will continue to enhance our products and service offerings, which are provided through direct contacts, online or via call centers to accommodate increasingly sophisticated and diverse client needs. We aim to continue being a trusted partner to our clients by providing world-class products and services that meet their individual needs.

[Wholesale Division]

Global Markets will enhance our product development expertise to be the product supply hub for Nomura. We will focus on delivering high value-added products and solutions to our clients by leveraging our global trading infrastructure and making full use of our strengthened business franchise. In Fixed Income, we will strengthen not only our global marketing structure but also our trading and product development capabilities. In Equities, we aim to establish ourselves as a world-class liquidity provider.

In Investment Banking, we are expanding our M&A advisory and corporate financing advisory businesses by providing high value-added solutions to meet the individual needs of each client. With a strengthened business franchise in Asia and Europe, we aim to enhance our presence as a global investment bank headquartered in Asia that provides world-class services, while continuing to build our business in Japan.

In Merchant Banking, we remain focused on increasing the enterprise value of the companies in which we invest, and achieving optimal or immediate returns on investment by continually weighing exit strategy options. With the continued instability in the global investment environment, we are taking a more cautious approach to new investments.

[Asset Management Division]

We aim to increase our world-class competitive advantage in Japan and the rest of Asia by aggressively expanding our investment management and product delivery capabilities globally. We intend to increase assets under management from both individual and institutional investors and expand our client base by providing clients in Japan with a diverse range of global investment opportunities and by meeting international investors demand for investment opportunities in Asia.

In implementing the initiatives outlined above, we will enhance collaboration between the divisions. We aim to bring together the collective strengths of our domestic and international operations to realize our management objectives and maximize shareholder value by enhancing profitability across our businesses, while helping to strengthen the global financial and capital markets.

In addition, we are working to further enhance our management system, which supports continued growth.

The regulatory environment which surrounds global financial institutions has been changing. We will respond quickly to such changes while building a financial base that enables client-focused business expansion.

At the same time, we understand that it is necessary to further strengthen our global risk management systems. By adopting a proactive, rather than a reactive, risk management approach, top management has been directly engaged in risk management-related decision-making. We will continue to strengthen this type of system.

As our business becomes increasingly international, we recognize the growing importance of compliance. In addition to complying with laws and regulations, we view compliance in a wider context, and will further enhance Nomura group s overall compliance system.

(5) Note with respect to the assumption as a going concern (UNAUDITED) Not applicable.

(6) Note to the Consolidated Financial Statements (UNAUDITED) Summary of accounting policies

The consolidated financial information herein has been prepared in accordance with Nomura s accounting policies which are disclosed in the notes of Nomura Holdings, Inc. s Annual Securities Report (the annual report filed in Japan on June 30, 2009) and Form 20-F (the annual report filed with the U.S. Securities and Exchange Commission on June 30, 2009) for the year ended March 31, 2009.

Presentations of significant changes in accounting principles are as follows:

FASB Accounting Standards Codification

Effective July 1, 2009, Nomura adopted Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) or Codification). The Codification became the sole source of authoritative generally accepted accounting principles (GAAP) for the financial statements issued for the interim and annual periods ending after September 15, 2009. Also effective July 1, 2009, any changes to the Codification are communicated by the FASB through an Accounting Standards Update (ASU). Accordingly, all GAAP references are now updated in accordance with ASC and ASU.

Accounting for Determining Whether an Instrument (or Embedded Feature) Is Indexed to an Entity s Own Stock

Effective April 1, 2009, Nomura adopted ASC 815-40, *Derivatives and Hedging - Contracts in Entity s Own Equity*, that provides guidance how to determine if certain instruments (or embedded features) are considered indexed to an entity s own stock. ASC 815-40 amends the existing guidance for determining whether a price adjustment mechanism included in an equity-linked financial instrument (or embedded feature) needs to be bifurcated and classified as an asset or liability and be subject to profit or loss recognition based its fair value.

Upon adoption of ASC 815-40, Nomura made certain reclassification adjustments to the beginning balances of Long-term borrowings, Additional paid-in-capital, Retained earnings, and Other assets - Other in order to bifurcate Nomura s call option attached unsecured convertible bonds (the bonds), because the certain clauses contained in the bonds were not deemed as indexed to Nomura s own stock pursuant to ASC 815-40.

Accounting for Business Combinations

On April 1, 2009, Nomura adopted the amended accounting principles related to business acquisitions (issued in December 2007) incorporated in ASC 805, Business Combinations ,. Nomura adopted ASC 805 for business combinations for which the acquisition date is on or after April, 2009.

15

Accounting for Noncontrolling Interests

Nomura adopted the updated guidance for accounting and reporting of noncontrolling interests in financial statements, included in ASC 810-10, *Consolidation - Overall*, on April 1, 2009. In accordance with this standard, it is applied prospectively from the beginning of the fiscal year in which it is initially applied. However, an exception is that it is applied retrospectively for all periods presented for comparison for presentation and disclosure requirements. Certain reclassifications of previously reported amounts have been made to conform to the current year presentation.

Measuring liabilities at fair value

Effective October 1, 2009, Nomura adopted ASU No. 2009-05 *Measuring Liabilities at Fair Value* (ASU 2009-05). ASU 2009-05 provides valuation methods and hierarchy and clarifies that restrictions preventing the transfer of a liability should not be considered as a separate input or adjustment in the measurement of fair value.

Valuation methodology for investment in certain entities that calculate net asset value per share

Effective October 1, 2009, Nomura adopted ASU No. 2009-12 Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) (ASU 2009-12). ASU 2009-12 permits measurement of fair value of an investment in hedge fund, private equity fund, and other fund on the basis of net asset value per share as a practical expedient, excluding certain situations such as when the investment is probable of being sold at amount different from net asset value per share. ASU2009-12 also provides clarity around how such investments should be classified in the fair value hierarchy.
