[Reason for selection as outside director nominee]

Mr. Miyahara was selected as an outside director nominee, since he can be expected to reinforce the functional aspects of the Company's Board of Directors by supervising the execution of duties by Executive Officers and others from an independent perspective based on his rich experience and insight as the top executive of a major global company.

It has been three years since he assumed office as the Company's outside Director.

* NEC, where Mr. Kenji Miyahara is serving as an outside director, announced on September 21, 2007, that it was not able to complete the additional analysis on revenue recognition, which was required of NEC in the course of an audit of the consolidated financial statements for fiscal 2005, and is consequently not able to submit the annual report on said fiscal year and subsequent fiscal years to the U.S. Securities and Exchange Commission (the SEC). NEC entered into a settlement agreement with the SEC on this matter in June 2008, and the SEC issued an order stipulating that (i) NEC shall cease and desist in the future from violating the relevant U.S. laws and regulations, which the SEC found that NEC had violated, and (ii) the registration in the United States of securities issued by NEC shall be revoked. Mr. Miyahara, who is regularly expressing his views at NEC's Board of Directors meetings from such perspectives as ensuring the appropriateness of financial reporting, reinforcing compliance structures, including information disclosure, and reinforcing the risk management structure, deliberated on measures to be taken, information disclosure policies, and other matters upon receipt of reports on the subsequent status of the situation and the like, and made various recommendations, expressed his views, and otherwise provided input for the further enhancement of NEC's internal control system.

Report on the 141st Business Term

(For the period from April 1, 2009 to March 31, 2010)

Hitachi, Ltd.

Table of Contents

1. Business Report (from April 1, 2009 to March 31, 2010)

(1) Business Overview and Results of Hitachi Group

Business Results

Although the deterioration of the Japanese economy was brought under control during the period under review, it did not lead to a full-fledged recovery, due in part to stagnant capital expenditure and sluggish consumer spending resulting from the worsening of employment and income situations. Global economic conditions remained harsh with the U.S. and European economies remaining weak, despite the Chinese economy entering the recovery phase led mainly by domestic demand.

To report on the consolidated business result of the Hitachi Group in this harsh economic environment, the revenues for the year ended March 31, 2010 decreased by 10% from the preceding fiscal year to JPY8,968.5 billion. Operating income increased by 59% from the preceding fiscal year to JPY202.1 billion, due mainly to solid performance in the fields of social infrastructure, such as power systems, and high functional materials and components, as well as the significant improvement in the profitability of the automotive products business and the consumer business centered around flat-panel TV, owing to the promotion of business structural reform. Net loss attributable to Hitachi, Ltd. amounted to JPY106.9 billion, which was a considerable improvement attributable mainly to decreases in expenses related to business structural reform and revaluation loss on deferred tax assets compared with the preceding fiscal year.

Regrettably, a decision has been made to forgo the payment of year-end dividends to our shareholders as a result of careful consideration, taking into account the Group's performance during the period under review.

The Company intends to continue to devote its efforts to an early improvement of its performance and dividend payments in order to meet shareholder expectations.

Measures Taken

In order to survive global competition and achieve new growth, the Hitachi Group is promoting the strengthening of the Social Innovation Business which provides highly sophisticated social infrastructure utilizing information and telecommunication systems technology.

During the period under review, the Company conducted tender offers for the shares of the five listed subsidiaries (Hitachi Information Systems, Ltd., Hitachi Software Engineering Co., Ltd., Hitachi Systems & Services, Ltd., Hitachi Plant Technologies, Ltd. and Hitachi Maxell, Ltd.) playing primary roles in the information & telecommunication systems business, the social infrastructure business and the lithium ion batteries business, which are the core of the Social Innovation Business, in order to further strengthen the business structure through converting these companies into wholly owned subsidiaries.

Additionally, the Company System was introduced as a measure to enhance competitiveness by establishing a structure, wherein the focus of consolidated business management is placed on a total of approximately 40 companies, including the in-house companies and Group companies. Further, public offering was also made in December 2009 in order to raise funds for investments for strengthening the Social Innovation Business and to reinforce the financial base.

As of April 1, 2010, Takashi Kawamura assumed office as Chairman and Hiroaki Nakanishi assumed office as President. Further understanding and support of the shareholders would be appreciated as the Group endeavors to enhance its corporate value.

Table of Contents

Results by Business Segment

[Information & Telecommunication Systems]

Revenues and operating income decreased by 12% and 32%, respectively, from the preceding fiscal year, due primarily to the poor performance of both the software & services and the hardware businesses due mainly to the cutback in IT investments in the stagnant Japanese economy.

[Power Systems]

Revenues increased by 2% from the preceding fiscal year and operating income improved significantly, owing mainly to the solid performance of the thermal power systems for overseas market.

[Social Infrastructure & Industrial Systems]

While revenues decreased by 6% from the preceding fiscal year as a result of stagnant capital investment, operating income increased by 22%, due to successful cost reduction measures.

[Electronic Systems & Equipment]

In spite of an increase in revenues by 2% from the preceding fiscal year, operating loss was posted due mainly to a decline in the profitability of Hitachi High-Technologies Corporation.

[Construction Machinery]

Revenues and operating income decreased by 19% and 66%, respectively, from the preceding fiscal year as a result of a downturn in the demand for construction machinery.

[High Functional Materials & Components]

While revenues fell by 20% from the preceding fiscal year, operating income increased by 76% owing to a significant improvement in the performance of Hitachi Chemical Co., Ltd.

[Automotive Systems]

Revenues decreased by 6% from the preceding fiscal year. Operating loss was posted again this fiscal year, which was a significant improvement from the preceding fiscal year.

[Components & Devices]

Revenues and operating income decreased by 23% and 80%, respectively, from the preceding fiscal year.

[Digital Media & Consumer Products]

Revenues decreased by 16% from the preceding fiscal year. Operating loss was posted again this fiscal year, which was a significant improvement from the preceding fiscal year.

[Financial Services]

Revenues and operating income increased by 5% and 28%, respectively, from the preceding fiscal year.

[Others]

Revenues and operating income decreased by 8% and 21%, respectively, from the preceding fiscal year.

(9) Problems Facing Hitachi Group

The Company will seek to achieve strong growth through the following strategies in order to improve earnings and drive growth going forward, recognizing the increasing demand for infrastructure in emerging countries and measures regarding global environmental issues, among others, primarily in advanced countries as a golden opportunity for business.

Emphasis will be placed on the Social Innovation Business in allocating business resources. That is, the Hitachi Group will make collective efforts to achieve social innovation through the fusion of the information & telecommunication systems business and the social infrastructure business.

The Hitachi Group will leverage its superior environmental technology to contribute to the preservation of global environment through providing products and services that reduce environmental load.

Global expansion of the Social Innovation Business will be vigorously promoted. Efforts will be made to further cooperation with partners and to localize operations in order to address customer needs. Further, diverse human capital will be secured from various regions for development.

Further, the Company, which marked its 100th anniversary in 2010, will engage in the following strategies in order to achieve the revival of a strong Hitachi as it heads into the next 100 years.

Edgar Filing: HITACHI LTD - Form 6-K

The Company will adhere to the founding principle of contributing to society through technology in conducting the research and development of cutting-edge technology and utilizing intellectual property rights.

Businesses will be restructured as necessary from the perspectives of profitability and synergy with the Social Innovation Business, the possibilities of which include withdrawals from and sales of businesses, in order to continue to optimize the business portfolio.

Efforts will be made to strengthen the management base by continuing to reduce costs, mainly through the reduction of fixed and material costs, as well as to improve cash flows mainly by reducing inventories and quickly collecting accounts receivables.

Hitachi will rigidly adhere to manufacturing principles that yield high quality in order to provide customers with safe and reliable products.

Hitachi will affirm the importance of living up to the trust placed in it by society and emphasize the importance of sticking to the straight and narrow, so as to eliminate any violations of laws and enhance the value of Hitachi brand.

3) Compensation for Directors and Executive Officers

Policy on the Determination of Compensation of Directors and Executive Officers

[Method of Determination of Policy]

The Company's Compensation Committee sets forth the policy on the determination of the amount of compensation, etc. of each Director and Executive Officer pursuant to applicable provisions of the Companies Act concerning companies with the Committee System.

[Summary of Policy]

(i) Matters relating to both Directors and Executive Officers

Compensation will be commensurate with the ability required of, and the responsibilities to be borne by, the Company's Directors and Executive Officers, taking into consideration compensation packages at other companies.

(ii) Matters relating to Directors

Compensation for Directors will consist of a monthly salary and a year-end allowance.

Monthly salary will be decided by making adjustments to basic salary that reflect full-time or part-time status, committee membership and position.

Year-end allowance will be a pre-determined amount equivalent to about twenty percent of the Director's annual income based on monthly salary, although this amount may be reduced depending on Company performance.

A Director concurrently serving as an Executive Officer will not be paid compensation as a Director.

(iii) Matters relating to Executive Officers

Compensation for Executive Officers will consist of a monthly salary and a performance-linked component.

Monthly salary will be decided by adjusting a basic amount set in accordance with the relevant position to reflect the results of an assessment.

The performance-linked component will be set within a range equivalent to about thirty percent of the Executive Officer's annual income, adjusted based on Company and individual performance.

(iv) Miscellaneous

It was decided at the Compensation Committee meetings held on December 18, 2007 and March 26, 2008 that the compensation structure for Directors and Executive Officers will be re-examined starting with the compensation for fiscal 2008 and that the retirement allowance will be abolished. The payment of retirement allowance to Directors and Executive Officers due to the abolition of the retirement allowance system will be in an amount determined by the Compensation Committee at the time of the retirement of a relevant Director or Executive Officer.

Total Amount of Compensation to and the Number of Directors and Executive Officers in Fiscal 2009

	Number	Amount (millions of yen)
Directors	11	246
(Outside Directors)	(5)	(87)
Executive Officers	28	1,076
Total	39	1,322

- Notes:
1. The number of Directors indicated excludes the four Directors who serve concurrently as Executive Officers.
 2. The compensation to Directors includes the monthly salary of one Director, who retired due to expiration of his term of office at the close of the 140th Ordinary General Meeting of Shareholders held on June 23, 2009, for his term of office of this year.
 3. The compensation to Executive Officers includes the monthly salary of one Executive Officer, who retired on June 23, 2009, for his term of office of this year.
 4. In addition to the above, there are retirement allowance of JPY1 million for one Director who will be retiring as of June 29, 2010, and of JPY250 million for the five Executive Officers who retired as of March 31, 2010.
 5. The amount of compensation to 13 Directors in the preceding fiscal year was JPY410 million (of which JPY95 million was for the five outside Directors), and the amount to the 26 Executive Officers was JPY1,135 million.

5) **Dismissal and non-retention policy on accounting auditors**

Dismissal

- (i) In the event an accounting auditor, which is an auditing firm, is ordered by the Prime Minister of Japan to suspend its operation related to the audit of financial statements, in whole or in part, or to dissolve the firm pursuant to Article 34-21, Paragraph 2 of the Certified Public Accountant Act, the accounting auditor shall automatically resign, since said order constitutes a cause for disqualification as accounting auditor provided for in Article 337, Paragraph 3, Item 1 of the Companies Act.
- (ii) In addition to (i) above, in the event the Audit Committee determines that the causes provided for in Articles 340, Paragraph 1, Item 1 or 2 of the Companies Act apply to an accounting auditor, due to such reasons as that it can reasonably be expected that the Prime Minister of Japan shall issue an order to suspend operations, in whole or in part, or to dissolve the firm, the Audit Committee shall determine the contents of the agenda on the dismissal of the accounting auditor to be submitted to the general meeting of shareholders.
- (iii) In the event significant adverse effects on the audit of financial statements are reasonably expected in the case of (ii) above, the Audit Committee shall dismiss the accounting auditor by unanimity. Should this occur, the Audit Committee member

Edgar Filing: HITACHI LTD - Form 6-K

selected by the Audit Committee shall give a report on the dismissal of the accounting auditor and the reason therefor at the first general meeting of shareholders to be convened after said dismissal.

Non-retention

- (i) In the event individuals selected by an accounting auditor, which is an auditing firm, from among its employees to perform their duties as accounting auditors are found to fall under any or all of the items under Article 340, Paragraph 1 of the Companies Act or breach the obligation(s) of CPAs provided for in the Certified Public Accountant Act, should said auditing firm fail to select promptly individuals to perform their duties as accounting auditors in the place of the former, the Audit Committee shall determine the contents of the agenda item on the non-retention of the accounting auditor to be submitted to the general meeting of shareholders.

- (ii) In the event it is determined that an adequate performance of duties cannot be ensured with respect to the matters related to the performance of duties by accounting auditors provided for in the Regulations of Companies Financial Statements, the Audit Committee shall determine the contents of the agenda item on the non-retention of the accounting auditor to be submitted to the general meeting of shareholders.

(15) Policy on Determination of Distribution of Surplus etc.

The Company views enhancement of the long-term and overall interests of shareholders as an important management objective. The industrial sector encompassing energy, information systems, social infrastructure and other primary businesses of the Company is undergoing rapid technological innovation and changes in market structure. This makes vigorous upfront investment in R&D and plant and equipment essential for securing and maintaining market competitiveness and improving profitability. Dividends are therefore decided based on medium-to-long term business plans with an eye to ensuring the availability of internal funds for reinvestment and the stable growth of dividends, with appropriate consideration of a range of factors, including the Company's financial condition, results of operations and dividend payout ratio.

The Company believes that the repurchase of its shares should be undertaken, when necessary, as part of its policy on distribution to shareholders to complement the dividend payout. In addition, the Company will repurchase its own shares on an ongoing basis in order to flexibly implement a capital strategy, including business restructuring, to maximize shareholder value so far as consistent with the dividend policy. Such action will be taken by the Company after considering its future capital requirement under its business plans, market conditions and other relevant factors.

(16) Summary of Resolution of Board of Directors on Enhancing Structures and Other Things to Ensure Adequacy of Business Operations

- 1) Board of Directors Office (the Office) shall be established specifically to assist with the duties of each Committee and the Board of Directors and staffed with personnel who are not subject to orders and instructions of Executive Officers.
- 2) In order to ensure the independence of the Office personnel from Executive Officers, the Audit Committee shall be informed in advance of planned transfers of the Office personnel.
- 3) Executive Officers and employees shall report without delay to the members of the Audit Committee significant matters affecting the whole Company, results of internal audits, and the implementation status of reporting under the internal reporting system.
- 4) In order to ensure the effectiveness of audits by the Audit Committee, standing Committee member(s) shall be appointed to the Audit Committee, and activity plans of the Audit Committee shall be prepared in coordination with the audit plans of Internal Auditing Office.
- 5) A reporting system to Directors shall be established to ensure that the execution of duties by Executive Officers is in compliance with laws, regulations, and the Articles of Incorporation.
- 6) Information pertaining to the execution of duties by Executive Officers shall be prepared and maintained in accordance with internal rules.
- 7) A structure shall be established in which each relevant department shall establish regulations and guidelines, conduct training, prepare and distribute manuals, and carry out other such measures with respect to various risks. Efforts shall be made to identify possible new risks through such things as progress reports on business operations and, should it become necessary to respond to a new risk, an Executive Officer responsible for responding thereto shall be appointed promptly.
- 8) Efficient performance of duties shall be ensured through the following business management systems.

Edgar Filing: HITACHI LTD - Form 6-K

The Senior Executive Committee shall be established in order to deliberate on and facilitate the formulation of decisions based on due consideration of diverse factors regarding important issues that affect the Company and/or the Hitachi Group.

Based on the management policy, medium-term business plans and annual budgets, on which performance management is based, shall be prepared in order to operate business in a planned and efficient manner.

Internal audits shall be conducted by Internal Auditing Office to monitor and identify the status of business operations and to facilitate improvements.

The Audit Committee shall receive the audit plans of the accounting auditors in advance, and the prior approval of the Audit Committee shall be required with respect to the fees to be paid to and non-audit services to be requested of the accounting auditors.

Documented business processes shall be executed, and internal and external auditors shall examine said processes in order to ensure the reliability of financial reports.

Table of Contents

- 9) Continuous maintenance of a legal and regulatory compliance structure shall be ensured through the following business management systems.

Internal audits shall be conducted, and various committees shall be established for legal and regulatory compliance activities. Furthermore, an internal reporting system shall be established and education on legal and regulatory compliance shall be provided.

Various corporate rules and regulations shall be established, and efforts shall be made to ensure that the employees are aware of the internal control systems overall and that the systems are effective.

- 10) The following measures shall be effected to ensure the adequacy of business operations within the Hitachi Group.

Such fundamental policies as the emphasis of the social responsibilities of business enterprises shall be shared with the Group companies.

A group-wide policy for compliance with applicable laws and regulations shall be established as necessary.

Internal audits of Company departments and Group companies shall be conducted periodically, and Directors and Corporate Auditors shall be sent from the Company to Group companies. Each company shall execute documented business processes on matters that should be reflected in financial reports, and Corporate Auditors and others shall examine said processes.

A structure for the adequate and efficient conduct of business operations common to Group companies shall be established.

The policy on transactions within the Hitachi Group is to trade fairly based on market prices.

(17) Fundamental Policy on the Conduct of Persons Influencing Decision on the Company's Financial and Business Policies

The Group invests a great deal of business resources in fundamental research and in the development of market-leading products and businesses that will bear fruit in the future, and realizing the benefits from these management policies requires that they be continued for a set period of time. For this purpose, the Company keeps its shareholders and investors well informed of not just the business results for each period but also of the Company's business policies for creating value in the future.

The Company does not deny the significance of the vitalization of business activities and performance that can be brought about through a change in management control, but it recognizes the necessity of determining the impact on company value and the interests of all shareholders of the buying activities and buyout proposals of parties attempting to acquire a large share of stock of the Company or a Group company by duly examining the business description, future business plans, past investment activities, and other necessary aspects of such a party.

There is no party that is currently attempting to acquire a large share of the Company's stocks nor is there a specific threat, neither does the Company intend to implement specified so-called anti-takeover measures in advance of the appearance of such a party, but the Company does understand that it is one of the natural duties bestowed upon it by the shareholders and investors to continuously monitor the state of trading of the Company's stock and then to immediately take what the Company deems to be the best action in the event of the appearance of a party attempting to purchase a large share of the Company's stock. In particular, together with outside experts, the Company will evaluate the buyout proposal of the party and hold negotiations with the buyer, and if the Company deems that said buyout will not maintain the Company's value and is not in the best interest of the shareholders, then the Company will quickly determine the necessity, content, etc., of specific countermeasures and prepare to implement them. The same response will also be taken in the event a party attempts to acquire a large percentage of the shares of a Group company.

5. Notes to Consolidated Financial Statements

(Notes on Important Matters for Basis of Presentation of Consolidated Financial Statements)

1. Basis of presentation

The consolidated financial statements presented herein, under Article 3, Paragraph 1 of the Supplementary Provisions of the Regulations of Companies Financial Statements (Ordinance of the Ministry of Justice No. 46 of 2009), have been prepared in conformity with accounting principles generally accepted in the United States. However, under the above provision, some descriptions and notes required under the accounting principles generally accepted in the United States are omitted.

The Company adopted the Accounting Standards Codification (hereinafter ASC) of the U.S. Financial Accounting Standards Board during fiscal 2009. The ASC, published as official accounting principles generally accepted in the United States, does not make changes to the traditional accounting standards. With the exception of the manner of reference to the accounting standards applied, the adoption thereof did not affect on the Company's financial statement.

2. Inventories

Finished goods, semi-finished goods and work-in-process: Lower of cost or market. Cost is determined by the specific identification method or the moving average method.

Raw materials: Lower of cost or market. Cost is generally determined by the moving average method.

3. Investments in securities

The Company accounts for investments in securities in accordance with the provision of ASC 320 Investments - Debt and Equity Securities.

Held-to-maturity securities: Amortized cost.

Trading securities: Fair value, with unrealized gains and losses included in earnings. Cost is determined by the moving average method.

Available-for-sale securities: Fair value, with unrealized gains and losses reported in other comprehensive income. Cost is determined by the moving average method.

4. Depreciation of fixed assets

Property, plant and equipment: Principally depreciated by the declining-balance method, except for some assets which are depreciated by the straight-line method.

Software for internal use: Capitalized and amortized on a straight-line basis over their estimated useful lives.

Selling, leasing, or otherwise marketing software: Depreciated based on expected gross revenues ratably.

5. Goodwill and other intangible assets

The Company accounts for goodwill and other intangible assets in accordance with ASC 350 Intangibles - Goodwill and Other. Goodwill and intangible assets with indefinite useful lives are no longer amortized, but instead are tested for impairment at least annually in accordance with the provisions of the ASC. Intangible assets with finite useful lives are amortized over their respective estimated useful lives and are tested for

Edgar Filing: HITACHI LTD - Form 6-K

impairment in accordance with the provisions of ASC 360 Property, Plant and Equipment concerning impairment or disposal of long-lived assets.

6. Allowances

Allowance for doubtful receivables

Estimated uncollectible amounts are accounted for based mainly on the current economic conditions, inherent risks, the financial position of the relevant debtor and the past record.

Retirement and severance benefits

ASC 715 Compensation Retirement Benefits is applied. Unrecognized prior service benefits & cost and actuarial gain or loss, which are posted under other total comprehensive loss are amortized by the straight-line method over the average remaining service years of active employees.

7. Consumption tax is accounted for based on the tax segregated method, under which consumption tax is excluded from presentation of revenues, cost of sales and expenses.

8. Changes in Accounting Principles

Effective April 1, 2009, the Company adopted the provisions of ASC 805 Business Combinations. All recognizable assets, assumed liabilities, and noncontrolling interests of a company acquired in a business combination are posted on the consolidated balance sheet at the fair value as of the date of acquisition. The adoption thereof did not have a significant effect on the financial position or the business results of the Company as of April 1, 2009.

Effective April 1, 2009, the Company adopted the provisions of ASC 810 Consolidation concerning noncontrolling interests, resulting in the inclusion of noncontrolling interests in Stockholders equity. Transactions relating to changes in a parent's ownership interests in subsidiaries, which do not result in the exclusion of the relevant subsidiaries from the scope of consolidation, are accounted for as capital transactions in the consolidated statement of stockholders equity.

9. Special purpose companies subject to disclosure

The Company and some of its subsidiaries are securitizing lease, accounts and other receivables for the purpose of diversifying funding for stable procurement of capital.

Special purpose companies established in the Caymans by a number of subsidiaries are used for a part of said securitization, with the Company and some of its subsidiaries receiving capital procured by qualified special purpose companies through the issuance of commercial paper or the borrowing of money, backed by the assets transferred. In some cases, subordinated rights on the transferred assets may be retained, or said assets may be repurchased under certain terms and conditions. The Company and some of its subsidiaries retain the obligation to provide services, and a number of subsidiaries are engaged in the business primarily of advancing money to qualified special purpose companies in connection with the outsourcing of clerical services.

As of March 31, 2010, there are three special purpose companies with which there are transactions or transaction balance. The combined total assets of the three qualified special purpose companies as of March 31, 2010 are JPY 117,159 million. These qualified special purpose companies are also engaged in the purchase of accounts receivable and the like from customers other than the Company and its subsidiaries. Neither the Company nor its subsidiaries hold share(s), with voting rights, of or have sent a Director to any of the qualified special purpose companies.

The transaction volumes between the qualified special purpose companies, and Hitachi and its subsidiaries for the year ended March 31, 2010 are as follows.

(Notes on Financial Instruments)

1. Status of Financial Instruments

The Company and its subsidiaries, in an endeavor to optimize the capital efficiency of their business activities through efficient management of operating funds, include highly liquid short-term investments, which mature within three months of the date of acquisition and pose little risk of fluctuation in value, in cash equivalents as immediately available financial resources.

Credit risk on customer credit risk regarding receivables is managed based mainly on the current economic conditions, inherent risks, the financial position of the relevant customer and the past record.

Investments in available-for-sale securities mainly comprise equity securities, which are managed by constantly tracking the market value in the case of listed stocks and the financial position of the entity subject to investment in the case of unlisted stocks.

Short-term and long-term debts were used mainly to fund business operations and capital expenditures.

As regards derivatives, foreign currency and interest rate risks are managed by constantly measuring and assessing the net exposures thereto, as well as by examining effective hedging relationships. Further, derivatives are not held for investment purposes as a matter of basic policy.

Subordinated interests retained in securitizations are partial interests in receivables, which were securitized for the purpose of diversifying the means of procuring capital, retained by the Company and subsidiaries pursuant to the agreement with the assignee of said receivables.

2. Market Value, etc. of Financial Instruments

Information on the estimated fair value of financial instruments held by the Company and its subsidiaries as of March 31, 2010 is as follows:

Consolidated Balance Sheet		
	Amount	Estimated Fair Value
	(Millions of yen)	(Millions of yen)
Available-for-sale securities		
Short-term investment	53,575	53,575
Investments and loans receivable	200,326	200,326
Derivatives (assets)	26,880	26,880
Subordinated interests retained in securitizations	115,417	115,417
Long-term debts	1,915,692	1,954,713
Derivatives (liabilities)	15,135	15,135

The premises and methods for estimating fair values are as follows:

Cash and cash equivalents, receivables, short-term debts, payables:

The consolidated balance sheet amounts approximate the estimated fair values due to their short maturity.

Available-for-sale securities:

The market value of the relevant available-for-sale security or the market value of an available-for-sale security similar thereto is mainly used as the estimated fair value. On the rare occasion that a key indicator for the measurement of the relevant fair value is not observable, pertinent information provided by financial institutions is verified mainly by the income approach or the market approach for use as the estimated fair value. Since fair value measurement involves excessive cost in the case of unlisted stocks, due to the absence of market values therefore, fair value estimates are not provided for such stocks as a general rule. The consolidated balance sheet amount for such unlisted stocks as of March 31, 2010 was JPY48,222 million.

Derivatives:

The market rate of respective derivatives is used as the estimated fair value.

Subordinated interests retained in securitizations:

The present value of future cash flows from subordinated interests retained mainly in securitization of leases subject to relatively long original contracts is used as the estimated fair value.

Long-term debts:

The market value of the relevant debt or the present value of future cash flows based on the interest rate applicable to an additional debt of the same form is used as the estimated fair value.

(Notes on Important Accounting Policy)

1. Inventories

Finished goods, semi-finished goods and work in process: Stated at cost. Cost is determined by the specific identification method or the moving average method. (The figures shown in the Balance Sheet have been calculated in accordance with the write-down approach based on decline in profitability.)

Raw materials: Stated at cost. Cost is determined by the moving average method. (The figures shown in the Balance Sheet have been calculated in accordance with the write-down approach based on decline in profitability.)

2. Securities

Affiliated companies common stock and investments in affiliated companies are stated at cost. Cost is determined by the moving average method.

Other securities which had readily determinable fair values are stated at fair value. The difference between acquisition cost and carrying cost of other securities is recognized in Unrealized holding gains on securities. The cost of other securities sold is computed based on the moving average method.

Other securities which did not have readily determinable fair values are stated at cost determined by the moving average method.

3. Derivatives

Derivatives are stated at fair value.

4. Depreciation of tangible fixed assets (excluding lease assets)

Buildings: Straight-line method.

Other tangible fixed assets: Declining-balance method.

5. Depreciation of intangible fixed assets (excluding lease assets)

Selling, leasing, or otherwise marketing software: Depreciated based on expected gross revenues ratably.

Other intangible fixed assets: Straight-line method.

6. Depreciation of lease assets

Financial leases other than those that are deemed to transfer the ownership of the leased property to the lessee: Depreciation is calculated by the straight-line method with no residual value, using the lease term as useful life.

Of the financial leases other than those that are deemed to transfer the ownership of the leased property to the lessee, leases commencing on or before March 31, 2008 are accounted for based on accounting methods applied to ordinary lease transactions.

7. Allowances

Allowance for doubtful receivables:

Estimated uncollectible amounts are accounted for based on loan loss ratios in the case of general receivables and based on case-by-case examination of collectibility in the case of specific receivables including doubtful receivables.

Warranty reserve:

In order to prepare for expenditures related to after-sales product services, estimated in-warranty service costs are accounted for based on past records.

Reserve for loss on construction contracts:

In order to provide for losses relating to construction contracts and made-to-order software, an estimated loss for subsequent fiscal years is accounted for.

Accrued pension liability:

Accrued pension liability is provided for employees' retirement and severance benefits. Such liability is determined based on projected benefit obligation and expected plan assets as of March 31, 2009.

Prior service cost is amortized by the straight-line method over the estimated average remaining service years of employees. Unrecognized actuarial gain or loss is amortized by the straight-line method over the estimated average remaining service years of employees from the next fiscal year.

Reserve for loss on repurchasing computers:

Projected loss on previously rented computers being returned is accounted for based on past records.

Reserve for retirement benefits for senior executives:

In order to provide for the payment of retirement benefits to senior executives, corporate officers, and the like, the Company accounted for the amount of payment required as of the end of this fiscal year according to the stipulations in the Company's internal rules.

Decisions were made at the Compensation Committee meetings held on December 18, 2007 and March 26, 2008 to abolish the retirement allowance system and to pay the retirement allowance for the applicable period to senior executives, corporate officers, and the like at the time of their retirement, subject to resolutions of the Compensation Committee following decisions on their retirement.

Reserve for loss on guarantees:

In order to provide for losses relating to guarantees, an estimated loss is accounted for in view of the financial conditions and the like of the parties guaranteed.

Reserve for loss on business of affiliated companies:

In order to provide for losses relating to the business of affiliated companies, the amount the Company is expected to bear in excess of the amounts invested in, loaned to, and guarantees for such companies is accounted for.

Table of Contents

8. Accounting standard for income and expenses

Accounting standard for income on construction contracts and made-to-order software

Income is accounted for on the percentage of completion basis for progress made by the end of the relevant fiscal year, if said progress is deemed certain to yield results (as a general rule, the estimated percentage of progress is obtained by the cost-to-cost method). Income is accounted for on the completion basis in all other cases.

(Changes in accounting policy)

Effective April 1, 2009, the Company adopted the Accounting Standard for Construction Contracts (ASBJ Statement No. 15 dated December 27, 2007) and Guidance on Accounting Standard for Construction Contracts (ASBJ Guidance No. 18 dated December 27, 2007). The adoption thereof had minimal effect on the revenues, operating income, ordinary income, and net loss before income taxes, since the Company has traditionally accounted for the progress made on construction contracts and made-to-order software by the end of the relevant fiscal year on the percentage of completion basis, should said progress be deemed certain to yield results. The estimated loss on construction contracts and made-to-order software in subsequent fiscal years, which had heretofore been included in accrued expenses (balance as of March 31, 2009 JPY21,424 million), is posted as reserve for loss on construction contracts effective April 1, 2009.

9. Consumption tax

Consumption tax is accounted for based on the tax segregated method, under which consumption tax is excluded from presentation of revenues, cost of sales and expenses.

10. Hedge accounting

Deferral hedge accounting is employed.

(Notes on Accounting for Deferred Taxes)

The major cause of deferred tax liabilities was unrealized holding gains on securities.

(Notes on Leased Fixed Assets)

In addition to the capitalized fixed assets, as significant equipment, the Company utilizes power generation equipment under lease arrangements.

We have audited the consolidated balance sheet, the consolidated statement of operations, the consolidated statement of stockholders' equity, and the notes to the consolidated financial statements of Hitachi, Ltd. for the business year ended March 31, 2010 for the purpose of reporting under Article 444, Paragraph 4 of the Companies Act. Management of the Company is responsible for preparing such consolidated financial statements and our responsibility is to express our opinion thereon from an independent standpoint.

Our audit was conducted in accordance with auditing standards generally accepted in Japan. The auditing standards require us to obtain reasonable assurance whether any material misstatement exists in the consolidated financial statements or not. Our audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. Our audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We consider that as a result of our audit, we have obtained reasonable basis for expressing our opinion. The auditing procedures also include those considered necessary for the subsidiaries.

In our opinion, the consolidated financial statements referred to above presented fairly, in every significant aspect, the financial position and the results of operations of the Company and its consolidated subsidiaries for the period of the consolidated financial statements in accordance with the accounting principles generally accepted in the United States, pursuant to the provision of Article 3, Paragraph 1 of the Supplementary Provisions of the Regulations of Companies' Financial Statements (Ordinance of the Ministry of Justice No. 46 of 2009) (See Item 1 of the Notes concerning Important Matters for Basis of Presentation of Consolidated Financial Statements in the Notes to Consolidated Financial Statements).

Additional Information

As indicated in 8. Changes in Accounting Principles of Notes on Important Matters for Basis of Presentation of Consolidated Financial Statements in Notes to the Consolidated Financial Statements, the Company adopted the provisions of ASC 810 Consolidation concerning noncontrolling interests of the Federal Accounting Standards Board, effective April 1, 2009.

We have no interest in the Company which should be disclosed pursuant to the provision of the Certified Public Accountants Act.

AUDIT REPORT ON CONSOLIDATED FINANCIAL STATEMENTS

We, the Audit Committee of the Company, audited the consolidated financial statements of the Company (the consolidated balance sheet, the consolidated statement of operations, the consolidated statement of stockholders equity, and the notes to consolidated financial statements) during the 141st business term (from April 1, 2009 to March 31, 2010). We hereby report as follows on the method and result thereof:

1. Method of Audit

We received reports from the Executive Officers and others in accordance with the audit policy, assignment of audit duties, etc., as determined by the Audit Committee, on the consolidated financial statements, and requested explanations as necessary. Further, we monitored and examined whether the Accounting Auditors maintained their independence and performed their auditing duties adequately, as well as received reports from the Accounting Auditors on the performance status of their duties, and requested explanations as necessary. We also received a notice from the Accounting Auditors to the effect that structures for ensuring that duties are appropriately performed (matters stipulated in each item under Article 131 of the Regulations of Companies Financial Statements) were being developed pursuant to the Quality Management Standards for Auditing (Business Accounting Council, October 28, 2005) and requested explanations as necessary.

We examined the consolidated financial statements for this business term in accordance with the foregoing method.

2. Result of Audit

We are of the opinion that the method and result of the audit made by the Company s Accounting Auditors, Ernst & Young ShinNihon LLC, are appropriate.

AUDIT REPORT

We, the Audit Committee of the Company, audited the performance by Directors and Executive Officers of their duties during the 141st business term (from April 1, 2009 to March 31, 2010). We hereby report as follows on the method and results thereof:

1. Method of Audit

We monitored and examined the contents of the resolutions of the Board of Directors concerning the matters as listed in Article 416, Paragraph 1, Item 1 (*ro*) and (*ho*) of the Companies Act and the status of the systems (internal control systems) established thereunder, and in accordance with the audit policy, assignment of audit duties, etc., as determined by the Audit Committee and in collaboration with the relevant departments, attended important meetings, received reports or heard from the Directors, Executive Officers, etc. on matters concerning the execution of their duties, inspected important decision documents, etc., made investigation into the state of activities and property at the head office and principal business offices of the Company. We examined the contents of the fundamental policy on the conduct of persons influencing decision on the Company's financial and business policies set forth in the business report giving due consideration to such things as the circumstances of deliberations by the Board of Directors and others. As regards subsidiaries, we sought to communicate and exchange information with the Directors, Executive Officers, Auditors, and others of the subsidiaries, and received reports on their business operations as necessary.

Further, we monitored and examined whether the Accounting Auditors maintained their independence and performed their auditing duties adequately, as well as received reports from the Accounting Auditors on the performance status of their duties and requested explanations as necessary. We also received a notice from the Accounting Auditors to the effect that structures for ensuring that duties are appropriately performed (matters stipulated in each item under Article 131 of the Regulations of Companies' Financial Statements) were being developed pursuant to the Quality Management Standards for Auditing (Business Accounting Council, October 28, 2005) and requested explanations as necessary.

We examined the business reports, the unconsolidated financial statements (the unconsolidated balance sheet, the unconsolidated statement of operations, the unconsolidated statement of changes in stockholders' equity etc., and the notes to unconsolidated financial statements), and their supporting schedules for this business term in accordance with the foregoing method.

2. Results of Audit

(1) Results of Audit on Business Report etc.

We are of the opinion:

- 1) that the business report and its supporting schedules fairly present the state of the Company in accordance with the laws, regulations and the Articles of Incorporation;
- 2) that, in connection with the performance by Directors and Executive Officers of their duties, no dishonest act or material fact of violation of laws, regulations or the Articles of Incorporation exists;
- 3) that the contents of the resolution by the Board of Directors concerning internal control systems are appropriate. Further, there is nothing to note with respect to the performance by Directors and Executive Officers of their duties related to said internal control systems;
- 4)

Edgar Filing: HITACHI LTD - Form 6-K

that the fundamental policy on the conduct of persons influencing decision on the Company's financial and business policies set forth in the business report are appropriate.

FOR IMMEDIATE RELEASE

**Hitachi and Mitsubishi Heavy Industries Agree in Principle to
Cooperate in Railway Systems for Overseas Markets**

Tokyo, June 22, 2010 Hitachi, Ltd. (NYSE:HIT / TSE:6501) and Mitsubishi Heavy Industries, Ltd. (MHI) today announced that they have entered into a basic agreement to work cooperatively in the field of intra-city railway systems for overseas markets, with the goals of strengthening competitiveness in global markets and expanding business as a result. Hitachi and MHI find overseas intra-city railway systems are the area where the two companies can demonstrate their competitiveness most, thus they decide to work together ranging from marketing to construction, installation and maintenance in the field.

Social infrastructure such as power systems and railway systems, is expected to expand as a market, particularly in emerging countries. Even in developed nations and regions, which already have a certain level of social infrastructure, there is demand for upgrading social infrastructure supported by advanced information and telecommunications systems.

Railway systems, which are a form of green mobility, are winning increasing recognition as a means of transporting large volumes of passengers and freight with a small environmental impact. As a consequence of this, there are active moves in a host of regions around the world, including Europe, Asia, the Middle East, North America, and Central and South America, to build new railway systems or extend existing ones, or make systems faster with improved railcars and systems. The overseas railway systems market is thus continuing to grow.

Today's agreement seeks to capitalize on these sorts of market trends. Hitachi and MHI will work together as appropriate in a broad range of fields in overseas intra-city railway system projects, ranging from marketing to design, manufacturing, procurement, engineering, construction, installation, maintenance and development. With their complementary product lineups, Hitachi and MHI will respond to various railway system needs in the urban transportation field. The mixed product lineups include conventional commuter trains for subways and other systems; new transportation systems such as automated people movers (APM) and light rail transit (LRT); and monorails.

Table of Contents

- 2 -

Hitachi and MHI each boast advanced product lineups, technologies and know-how concerning entire railway systems, as well as their individual constituent elements, including railcars, signaling systems, telecommunications, power systems and tracks. Above all else, the two companies have earned the trust of markets, Hitachi for its railway systems hardware and software development capabilities, and system engineering strengths, and MHI for its technological development capabilities, overseas project record, plant engineering know-how, and wide range of partnerships.

Under this agreement, Hitachi and MHI aim to leverage each other's experience and expertise to actively develop the railway systems business overseas.
