This code of ethics is incorporated in our Code of Business Conduct and Ethics that applies to all of our officers, directors, and employees. A copy of our Code of Business Conduct and Ethics is available on our website at <http://www.bitstream.com>. Board of Directors - Board Leadership Structure and Role in Risk Oversight

Structure

Our Board of Directors currently consists of six members and we have two nominees who will bring the total to eight members whose terms come up for reelection annually at our Annual Meeting. The members of the Board serve until their successors have been elected and qualified, or until the earlier of their death, resignation or removal.

Our board of directors is currently comprised of five independent directors and one employee director. The two additional nominees are independent directors. Ms. Chagnon, our employee director, has been a member of the Board of Directors since May 2003 and has served as our president and chief executive officer since October 2003.

We believe that our board leadership structure is optimal for the Company because our Chairman of the Board is, based upon his years of industry experience and his former role as chief executive officer of the Company, uniquely able to provide strategic guidance to and oversight of our president and chief executive officer. As our lead director, Mr. Ying also serves as a liaison between the board of directors and our chief executive officer.

Our board conducts an annual self-evaluation in order to determine whether it and its committees are functioning effectively. As part of this self-evaluation, the board evaluates whether the current leadership structure continues to be optimal for the Company and its stockholders.

Risk Oversight

Our board of directors has oversight of our risk management program working directly with our senior management, who are responsible for our internal risk management. The Audit Committee has oversight responsibility for our risk identification and prioritization process and our Sarbanes-Oxley Act of 2002 compliance program. The Compensation Committee has oversight of risk considerations with respect to our compensation programs, including working directly with senior management to determine whether such programs improperly encourage management to take risks relating to the business and/or whether risks arising from our compensation programs are reasonably likely to have a material adverse effect on the Company. The Company's senior management, subject to board oversight, is responsible for ensuring that our risk management program, comprised of strategic, operational, financial and legal risk identification and prioritization, is reflected in the Company's policies and actions. The Company's senior management, subject to board oversight, is also responsible for day-to-day risk management and implementation of Company policies, with monitoring and testing of Company-wide policies and procedures overseen by our audit committee. Our board of directors believes that this shared oversight is appropriate for the Company.

Each committee conducts an annual assessment to determine whether it has sufficient information, resources and time to fulfill its obligations and whether it is performing its obligations. Under the Board's Corporate Governance Guidelines, each committee may retain experts to assist it in carrying out its responsibilities. The Board of Directors has determined that each of the members of the Audit Committee, Compensation Committee, and the Nominating and Corporate Governance Committee are independent as required by applicable laws and regulations, and the NASDAQ listing standards.

The Board and executive management believe that good corporate governance is important to ensure that we are managed for the long-term benefit of our stockholders. The Board and executive management team have been reviewing and will continue to review our corporate governance policies and practices for compliance with applicable regulations and will continue to compare those policies and practices to those suggested by various authorities in corporate governance and the practices of other public companies.

The Audit Committee reviews our accounting practices, internal accounting controls and financial results and oversees the engagement of our independent registered public accountants. The Audit Committee also oversees management's performance of its duties with respect to maintaining the integrity of our accounting and financial reporting and our systems of internal controls, the performance and qualifications of the independent accountants (including the independent accountant's independence), and our compliance with legal and regulatory requirements. The Audit Committee establishes procedures, as required under applicable law, for the receipt, retention and treatment of complaints received by us regarding accounting, internal accounting controls and the confidential and anonymous submission by employees and others regarding questionable or possibly fraudulent actions or activities. The Board of Directors, based on the recommendation of the Audit Committee, has designated David Lubrano as the audit committee financial expert. During 2009, the members of this committee were David Lubrano, serving as Chairperson, George Beitzel and Amos Kaminski.

The Compensation Committee establishes salaries, incentives and other forms of compensation for our directors, officers and other employees. The Compensation Committee also administers our benefit plans and administers the issuance of stock options and other awards under our Stock Plans to all our employees and directors, including the members of such committee. The committee also reviews, and recommends to the full Board, the compensation and benefits for non-employee Directors. During 2009, the members of this committee were George Beitzel, serving as Chairperson, Amos Kaminski and David Lubrano.

The Nominating and Corporate Governance Committee provides oversight and guidance to the Board of Directors to ensure that the membership, structure, policies, and practices of the Board and its committees facilitate the effective exercise of the Board's role in the governance of the Company. The committee reviews and evaluates the policies and practices with respect to the size, composition, independence and functioning of the Board and its committees and reflects those policies and practices in corporate governance guidelines, and evaluates the qualifications of, and recommends to the full Board, candidates for election as Directors. During 2009, the members of this committee were Amos Kaminski, serving as Chairperson, George Beitzel, David Lubrano and Charles Ying.

ITEM 11. Executive Compensation

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Philosophy

Bitstream's executive compensation program is intended to attract and retain highly-qualified senior managers by providing compensation opportunities that reflect our business results and the individual executive's performance. During the year ended December 31, 2009, we used salary, stock options and restricted stock awards, to meet these goals. We believe that these compensation opportunities will motivate management's efforts by ensuring that the rewards received by our executives are consistent with the achievement of our business objectives and with the value added by management to the stockholders' interests. Our compensation program provides for base salaries that reflect such factors as level of responsibility, internal fairness and external competitiveness. We also believe that a substantial portion of each of our executive's compensation should be in the form of an incentive bonus. Receipt of this bonus is contingent upon our achievement of target levels of sales and earnings, strategic acquisitions and other initiatives, introduction of innovative products and services, and the achievement of and progress toward other significant annual financial and operational objectives as determined by the Compensation Committee. In general, the cash compensation of our executive officers approximates the average of compensation paid to executives of appropriate comparable companies who occupy positions of similar responsibilities. Our compensation program also provides long-term incentive opportunities in the form of stock options, restricted stock and other forms of equity compensation that strengthen the mutuality of economic interest between management and our stockholders and encourage management continuity. During the year ended December 31, 2009, we made awards under our 2006 Incentive Compensation Plan to our executive officers. These awards included restricted stock awards that vest over five-year periods and stock options to purchase shares that vest over a four-year period.

Table of Contents

The following is a discussion of each element of our executive compensation program, including a description of the decisions and actions taken by the Compensation Committee with respect to the 2009 compensation for the Chief Executive Officer (the CEO) and all executive officers as a group.

Management Compensation Program

Overview

Compensation of our executive officers in the year ended December 31, 2009 (as reflected in the tables that follow with respect to the Named Executive Officers) consisted of the following elements: base salary, the opportunity for an annual incentive bonus, and stock option grants and restricted stock awards under our 2006 Incentive Compensation Plan. Total annual cash compensation for each executive officer varies each year based on our achievement of our annual objectives and the individual's performance.

Base Salary

With respect to determining the base salary of each of the executive officers, the Compensation Committee takes into consideration a variety of factors, including the executive's level of responsibility and individual performance, the salaries of similar positions in comparable companies and our financial and operational performance in relation to our objectives and our competitive standing. We review the results of various industry salary surveys to ensure our understanding of competitive compensation levels and practices in the marketplace. From time to time, we utilize the services of GK Partners, a recognized, independent external consulting firm to determine marketplace compensation values and practices, and to assess the reasonableness of our overall compensation program. No specific peer group benchmarking activities were performed by the independent consultant during 2009.

Annual Incentive Compensation

Our compensation philosophy includes granting annual cash bonuses reflecting the Company's performance and individual executive performance. We maintain discretion to vary overall cash compensation for a given year by varying the size of the cash bonus based on corporate performance and individual performance. These cash bonuses reflect a material part of the overall compensation, with target payments ranging from 50%-100% of salary, depending upon executive position and overall company performance, and subject to the Compensation Committee's discretion to award bonuses greater or lower than the target if they deem it appropriate. Because we believe that senior executives can have the greatest impact on the Company's overall success, we typically set bonus targets as a higher percentage of base salaries for our most highly paid executives.

Our annual incentive bonus to our executive officers (including the Named Executive Officers) is based on the achievement of objective, financial and operational performance targets and the discretion of the Compensation Committee. These targets may include sales volume, net operating income, accomplishment of certain strategic business initiatives and other performance objectives as may be determined annually. In determining individual incentive bonus awards, the accountability of executive officers and their individual contributions towards the attainment of these objectives are considered. In determining awards for the most recent performance year, we considered new product development, management of corporate expenses, and cash equivalents on hand, as well as earnings level achieved during this challenging economic climate. After considering these factors and others, we determined that no cash bonuses would be awarded. The calculation of our financial and operational performance with respect to the determination of these incentive bonus awards, if any, is made as soon as is practicable after the completion of our fiscal year.

Long-Term Incentive Awards

In addition to cash compensation, the Compensation Committee and the Board believe that providing executive officers with stock ownership opportunities aligns the interests of the executives with other stockholders and encourages the executives' long-term retention. The long-term incentive element of our management compensation program has historically been in the form of stock option grants. The 2006 Incentive Compensation Plan, which was adopted on April 14, 2006 and approved by the stockholders on June 1, 2006, authorizes a committee of two or more directors designated

Table of Contents

by the Board, currently the Compensation Committee, to grant Options, Restricted Stock, Stock granted as a bonus or in lieu of another award, Other Stock-Based Awards, Performance Awards or Annual Incentive Awards for up to 2,000,000 shares of Class A Common Stock. Awards are typically granted annually, although supplemental awards are granted occasionally. All options granted in fiscal 2009 were subject to a four-year vesting provision and all restricted stock awards in fiscal 2009 were subject to a five-year vesting provision. We make awards based upon each executive's relative position, responsibilities and performance over the previous year and the executive officer's anticipated future performance, potential and responsibilities. We also review prior awards to each executive, including the number of shares that continue to be subject to vesting under their respective outstanding awards, in setting the size of awards to be granted to the executive officers. On August 19, 2009, the Board awarded Incentive Stock Options (ISOs) to purchase 30,000 shares of Class A Common Stock to Anna Chagnon and 15,000 shares of Class A Common Stock to each of John Collins, James Dore, Sampo Kaasila, and Costas Kitsos. Such options have an exercise price equal to the fair market value of the Class A Common Stock of the Company on the date of grant as reported on NASDAQ, are exercisable for ten years and vest in one-fourth increments on each of the first, second, third and fourth anniversaries of the date of the grant. In addition, on August 19, 2009, the Board made restricted stock awards of 5,000 shares of Class A Common Stock of the Company to each of John Collins, James Dore, Sampo Kaasila, and Costas Kitsos and 10,000 shares to Anna Chagnon. Such stock awards vest in one-fifth increments on each of the first, second, third, fourth, and fifth anniversaries of the date of the grant.

The Incentive Compensation Plan is intended to create opportunities for executive officers and other key employees of the Company to acquire a proprietary interest in the Company to align their interests with those of the Company's stockholders. In addition, the vesting provisions of such awards (which limit the exercisability of stock options and the receipt of restricted stock for certain periods of time) encourage the continued service and stability of the management team.

Post Employment Benefits

Our executives have severance agreements that provide them with severance payments and benefits in the event we terminate their employment without cause or the executive officer terminates employment for good reason, following a defined Change in Control of the Company. See Potential Payments upon Termination following a Change-in-Control for a discussion of the terms of these agreements, including the definitions of cause and good reason. Severance agreements for our executive officers provide security for executives against sudden or arbitrary termination following a Change in Control and help attract and retain key employees by providing competitive arrangements. The provisions of each severance agreement are determined by the Compensation Committee based on current market trends and practices.

Individual Performance

Anna M. Chagnon has served as our Chief Executive Officer since October 2003. Effective March 1, 2008, Ms. Chagnon's salary was increased from \$275,000 to \$300,000. For 2009, Ms. Chagnon target bonus was 67% of salary. The Compensation Committee, without Ms. Chagnon's participation, evaluates Ms. Chagnon's performance (and determines her bonus) by reviewing the Company's overall revenue growth and operating profit, the performance of Ms. Chagnon's management team, and the Company's success in achieving the goals contained in the Company's budget for the year. This year, the Compensation Committee determined that based on the Company's performance, no bonuses would be paid to the members of the executive team including Ms. Chagnon, despite her guiding the Company through challenging economic times, managing expenses and our cash position, and helping to consummate several key new business relationships. Ms. Chagnon is eligible to participate in the same executive compensation programs in which our other executive-level employees participate. Her total annual compensation for 2009 (including compensation derived from salary and annual incentive bonus) was determined by the Compensation Committee in consideration of the same performance criteria used to establish pay levels for all other executive-level employees. The Compensation Committee has determined that Ms. Chagnon's salary is at or below the median salary of Chief Executive Officers in a selected group of comparable companies. On August 19, 2009, Ms. Chagnon was granted a stock option under our 2006 Incentive Compensation Plan for 30,000 shares of our common stock at a price per share of \$5.39 and awarded restricted stock of 10,000 shares of our common stock as part of the annual grant process described above. The stock options vest over four years at a rate of 25% on the first, second, third and fourth anniversary of the grant, and the restricted stock vests over five years at a rate of 20% on the first, second, third, fourth, and fifth anniversary of the grant.

Ms. Chagnon manages our named executive officers (NEOs), other than herself. Ms. Chagnon reviews the NEO's performance against operating and strategic goals set for that executive during the previous year; she then further assesses each NEO's individual performance by measuring the NEO's contribution to the Company's consolidated results and the Company's success in achieving the goals contained in the Company's budget for the year. Based on this assessment, Ms. Chagnon then recommends to the Compensation Committee what percentage of the target bonus award available to the NEOs each of the NEOs should receive. The Compensation Committee either accepts Ms. Chagnon's recommended bonus for each NEO, or suggests other factors or outcomes. After these deliberations, the Compensation Committee determines and approves a bonus for each such executive. For 2009, Ms. Chagnon set the target bonus for the other NEOs at approximately 50% of their respective annual salary or \$90,000 to each of John Collins, Sampo Kaasila, and Costas Kitsos and \$92,500 to James Dore. Based upon the Company's financial results during a year with very challenging economic conditions, the Compensation Committee decided not to award and cash bonuses to the NEOs for the 2009 fiscal year.
