CATHAY GENERAL BANCORP AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. Business

Cathay General Bancorp (the Bancorp) is the holding company for Cathay Bank (the Bank and, together, the Company), six limited partnerships investing in affordable housing investments in which the Bank is the sole limited partner, and GBC Venture Capital, Inc. The Bancorp also owns 100% of the common stock of five statutory business trusts created for the purpose of issuing capital securities. The Bank was founded in 1962 and offers a wide range of financial services. As of March 31, 2011, the Bank operated twenty branches in Southern California, eleven branches in Northern California, eight branches in New York State, three branches in Illinois, three branches in Washington State, two branches in Texas, one branch in Massachusetts, one branch in New Jersey, one branch in Hong Kong, and a representative office in Shanghai and in Taipei. Deposit accounts at the Hong Kong branch are not insured by the Federal Deposit Insurance Corporation (the FDIC).

2. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the interim periods presented are not necessarily indicative of the results that may be expected for the year ending December 31, 2011. For further information, refer to the audited consolidated financial statements and footnotes included in the Company s Annual Report on Form 10-K for the year ended December 31, 2010.

The preparation of the condensed consolidated financial statements in accordance with GAAP requires management of the Company to make a number of estimates and assumptions relating to the reported amount of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. The most significant estimates subject to change are the allowance for loan losses, goodwill impairment, and other-than-temporary impairment.

3. Recent Accounting Pronouncements

The FASB issued ASU 2010-06 *Improving Disclosures about Fair Value Measurements* in January 2010 to improve disclosure requirements related to ASC Topic 820. ASU 2010-06 requires an entity to report separately significant transfers in and out of Level 1 and Level 2 fair value measurements and to explain the transfers. It also requires an entity to present separately information about purchases, sales, issuances, and settlements for Level 3 fair value measurements. ASU 2010-06 is effective for fiscal years beginning after December 15, 2010. Adoption of ASU 2010-06 did not have a significant impact on the Company s consolidated financial statements.

Table of Contents

The FASB issued ASU 2010-20 *Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses* in July 2010 to provide disclosures that facilitate financial statement users' evaluation of (i) the nature of credit risk inherent in the entity's portfolio of financing receivables, (ii) how that risk is analyzed and assessed in arriving at the allowance for credit losses, and (iii) the changes and reasons for those changes in the allowance for credit losses. An entity should provide disclosures on two levels of disaggregation—portfolio segment and class of financing receivable. The disclosure requirements include, among other things, a roll-forward schedule of the allowance for credit losses as well as information about modified, impaired, non-accrual and past due loans and credit quality indicators. ASU 2010-20 was effective for the entity's financial statements as of December 31, 2010, as related to end of a reporting period disclosure requirement. Disclosures that relate to activity during a reporting period is required for the entity's financial statements that include periods beginning on or after January 1, 2011. See Note 7 to these condensed consolidated financial statements for the required disclosures at March 31, 2011.

The FASB issued ASU 2010-28 *When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts* in December 2010. ASU 2010-28 modifies Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. In determining whether it is more likely than not that a goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating that an impairment may exist such as if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. ASU 2010-28 was effective on December 15, 2010. Adoption of ASU 2010-28 did not have a significant impact on the Company's consolidated financial statements.

In April 2011, the FASB issued ASU 2011-02 *A Creditor's Determination of Whether a Restructuring Is a Troubled Debt Restructuring*. ASU 2011-02 clarifies the guidance on creditor's evaluation of whether a restructuring constitutes a troubled debt restructuring. A restructuring constitutes a troubled debt restructuring if it meets both of the following criteria: (a) the restructuring constitutes a concession; and (b) the debtor is experiencing financial difficulties. ASU 2011-02 will be effective for interim and annual periods after June 15, 2011, and will be applied retrospectively to restructurings occurring on or after January 1, 2011. Adoption of ASU 2011-02 is not expected to have a significant impact on the Company's consolidated financial statements.

4. Earnings/Loss per Share

Basic earnings per share exclude dilution and is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock and resulted in the issuance of common stock that then shared in earnings. Potential dilution is excluded from computation of diluted per-share amounts when a net loss from operation exists.

Outstanding stock options with anti-dilutive effect were not included in the computation of diluted earnings per share. The following table sets forth loss per common stock share calculations:
