This presentation contains statements concerning NSTAR's expectations, beliefs, plans, objectives, goals, strategies, assumptions and other statements that are not historical facts. These statements are forward-looking statements

within the meaning of the Private Securities Litigation Reform Act of 1995. In some cases, a listener or reader can identify the forward-looking statements through the use of words or phrases such as estimate, expect, anticipate, intend, plan, forecast, should, could, and other similar expressions. Forward-looking statements are based on the current expectations

assumptions or projections of management and are not guarantees of future performance. These expectations, estimates, assumptions or projections may vary materially from actual results. Accordingly, any such statements are qualified in their entirety by reference to the accompanying financial statements and are accompanied

by, the following important factors that could cause our actual results to differ materially from those contained in our forward-looking statements, including, but not limited to, actions or inaction of local, state and federal regulatory and taxing bodies; changes in business and economic conditions, including their impact on interest rates, bad debt expense and demand for our products and changes in weather patterns; changes in laws, regulations or regulatory policy; changes in levels and timing of capital expenditures; disruptions in the capital

Other risk factors are detailed from time to time in our reports to the Securities and Exchange Commission (SEC). Any forward-looking statement speaks only as of the date on which such statement is made, and we understand our obligation to update the information contained in any forward-looking statements to reflect developments or circumstances occurring after the statement is made or to reflect the occurrence of unanticipated events.

This presentation references actual and projected EPS by business. EPS by business is a non-GAAP (not determined using generally accepted accounting principles) measure that is calculated by dividing the net income or loss attributable to controlling interest by the number of shares of common stock outstanding.

addition, our 2011 earnings guidance excludes certain non-recurring charges related to merger costs we expect to incur during a non-GAAP financial measure. Management believes that these non-GAAP financial measurements are useful to investors to actual and projected financial performance and contribution of NU's businesses. Non-GAAP financial measures should not be alternatives to NU consolidated net income attributable to controlling interests or EPS determined in accordance with GAAP and NU's operating performance.

Information Concerning Forward-Looking Statements Relating to the NU NSTAR Merger
In
addition
to
historical
information,

this
communication
may
contain
a
number
of
forward-looking
statements
as
defined
in
the

intend,
plan,
believe,
and
words
and
terms
of
similar substance used in connection with any discussion of future plans, actions, or events identify forward-looking statements.
Forward-looking statements relating to the proposed merger include, but are not limited to: statements about the benefits of the
proposed merger involving NSTAR and Northeast Utilities, including future financial and operating results; NSTAR's and Northeast
Utilities
plans, objectives, expectations and intentions; the expected timing of completion of the transaction; and other statements
relating to the merger that are not historical facts. Forward-looking statements involve estimates, expectations and projections

Important factors could cause actual results to differ materially from those indicated by such forward-looking statements. With

to
the
proposed
merger,
these
factors
include,
but
are
not
limited

to:
the
risk
that
NSTAR
or
Northeast
Utilities

may
be
unable
to

governmental and regulatory approvals required for the merger, or required governmental and regulatory approvals may delay
merger

or
result
in
the
imposition
of
conditions
that
could
reduce
the

anticipated
benefits
from
the
merger
or
cause
the
parties
to
abandon the merger; the risk that a condition to closing of the merger may not be satisfied; the length of time necessary to consummate
the proposed merger; the risk that the businesses will not be integrated successfully; the risk that the cost savings and any other
synergies from the transaction may not be fully realized or may take longer to realize than expected; disruption from the transaction
making it more difficult to maintain relationships with customers, employees or suppliers; the diversion of management time or
related
issues;
the
effect
of
future
regulatory
or
legislative
actions
on
the
companies;
and
the
risk
that
the
credit
