**ITEM 8.01 Other Events**

On July 21, 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Act") was enacted. Section 1503 of the Act included new reporting requirements related to mine safety, including disclosing on a Current Report on Form 8-K the receipt of an imminent danger order under Section 107(a) of the Federal Mine Safety and Health Act of 1977 (the "Mine Act") issued by the federal Mine Safety and Health Administration (MSHA).

On September 19, 2011, at approximately 1:55 p.m., MSHA issued an imminent danger order under Section 107(a) of the Mine Act to Excel Mining, LLC (Excel), an operating subsidiary of the Partnership. The order alleged that an hourly employee above ground at Excel's Van Lear Mine was observed welding in an area below the elevated bucket of a piece of mobile equipment. The conditions alleged were immediately abated by Excel and the order was terminated by MSHA. No employees were injured as a result of the conditions alleged and Excel is still in the process of determining whether any of the allegations warrant judicial review.
