PRESIDENT'S LETTER

ING Risk Managed Natural Resources Fund (the Fund) is a non-diversified, closed-end management investment company whose shares are traded on the New York Stock Exchange under the symbol IRR. The Fund's investment objective is total return through a combination of current income, realized capital gains and capital appreciation.

The Fund will seek to achieve its investment objective by investing in a portfolio of equity securities of companies in the energy and natural resources industries and by employing an integrated options collar strategy. The Fund's collar strategy seeks to reduce the volatility of total returns relative to the natural resources equity sector and to help the Fund achieve its investment objective by seeking to generate capital gains in declining markets from the purchase of put options and premiums from writing call options.

For the year ended February 29, 2012, the Fund made quarterly distributions totaling \$1.42 per share, characterized as \$0.41 per share return of capital and \$1.01 per share net investment income.

Based on net asset value (NAV), the Fund provided a total return of (5.00)% for the year ended February 29, 2012. This NAV return reflects a decrease in the Fund's NAV from \$15.34 on February 28, 2011 to \$13.12 on February 29, 2012. Based on its share price as of

February 29, 2012, the Fund provided a total return of (14.51)% for the year ended February 29, 2012.⁽²⁾ This share price return reflects a decrease in the Fund's share price from \$16.24 on February 28, 2011 to \$12.50 on February 29, 2012.

The global equity markets have witnessed a challenging and turbulent period. Please read the Market Perspective and Portfolio Managers Report for more information on the market and the Fund's performance.

At ING our mission is to help you grow, protect and enjoy your wealth. We seek to assist you and your financial advisor by offering a range of global investment solutions. We invite you to visit our website at www.inginvestment.com. Here you will find information on our products and services, including current market data and fund statistics on our open- and closed-end funds. You will see that we offer a broad variety of equity, fixed income and multi-asset funds that aim to fulfill a variety of investor needs.

We thank you for trusting ING Funds with your investment assets, and we look forward to serving you in the months and years ahead.

Sincerely,

Shaun Mathews

President and Chief Executive Officer

The views expressed in the President's Letter reflect those of the President as of the date of the letter. Any such views are subject to change at any time based upon market or other conditions and ING Funds disclaims any responsibility to update such views. These views may not be relied on as investment advice and because investment decisions for an ING Fund are based on numerous factors, may not be relied on as an indication of investment intent on behalf of any ING Fund. Reference to specific company securities should not be construed as recommendations or investment advice. International investing does pose special risks including currency fluctuation, economic and political risks not found in investments that are solely domestic.

For more complete information, or to obtain a prospectus for any ING Fund, please call your Investment Professional or the fund's Shareholder Service Department at (800) 992-0180 or log on to www.inginvestment.com. The prospectus should be read carefully before investing. Consider the fund's investment objectives, risks, charges and expenses carefully before investing. The prospectus contains this information and other information about the fund. Check with your Investment Professional to determine which funds are available for sale within their firm. Not all funds are available for sale at all firms.

- (1) Total investment return at net asset value has been calculated assuming a purchase at net asset value at the beginning of each period and a sale at net asset value at the end of each period and assumes reinvestment of dividends, capital gain distributions, and return or capital distributions/allocations, if any, in accordance with the provisions of the Fund's dividend reinvestment plan. Total investment return at net asset value is not annualized for periods less than one year.
- (2) Total investment return at market value measures the change in the market value of your investment assuming reinvestment of dividends, capital gain distributions, and return of capital distributions/allocations, if any, in accordance with the provisions of the Fund's dividend reinvestment plan. Total investment return at market value is not annualized for period less than one year.

MARKET PERSPECTIVE: YEAR ENDED FEBRUARY 29, 2012

By the half way point in our fiscal year, global equities, in the form of the MSCI World IndexSM measured in local currencies including net reinvested dividends, were down more than 11%. The slump continued in September before better news from the U.S. drove a rebound in October, which held to year-end and gathered new strength in the first two months of 2012. For the whole tumultuous fiscal year the MSCI World IndexSM lost just 1.57% (The MSCI World IndexSM returned (1.69)% for the year ended February 29, 2012, measured in U.S. dollars.)

In our semi-annual report we described how the domestic economy seemed to be on the brink of another recession and according to many commentators it was all about jobs. Healthy employment conditions, it was said, boost wages, consumer confidence, spending, house prices, and ultimately investment and Gross Domestic Product (GDP) itself. While the cause and effect relationships are arguably more complex, the fact remained that the most recent reports had shown no jobs created at all in August, the unemployment rate at 9.1%, GDP meandering up at a rate of 1.3% (quarter-over-quarter, annualized), wages & salaries and retail sales flat and home prices falling.

Markets were greatly relieved therefore, when more positive data started to emerge in October. The employment report showed 103,000 new jobs created in September, with upward revisions of 99,000 to the prior two months. Improvement continued into 2012 and by February the Bureau of Labor Statistics was reporting 243,000 jobs created in January, with a three-month average of 201,000 and the unemployment rate down to 8.3%. On the last day of February, the Commerce Department's news release showed a much improved fourth quarter 2011 GDP growth rate of 3.0% and an acceleration in the growth of wages & salaries to 5.2% over the fourth quarter of 2010.

Not all economic statistics were favorable as the fiscal year ended. Retail sales were still sluggish and home prices still falling. But a return to recession, feared just a few months earlier, was now out of the question.

The euro zone's sovereign debt crisis continued to move markets. Greece sought to restructure its debt which stands at about 160% of GDP. Much of this debt, as well as the bonds of the much larger Italy and Spain, is held by European banks. Concern deepened into a crisis in confidence, threatening to paralyze the banking system and trip the region back into recession. In August, the European Central Bank (ECB) started to buy Italian and Spanish bonds, a role it was never meant to play. By October, French and German leaders Sarkozy and Merkel were pledging, yet again, to deliver a comprehensive plan to address the crisis.

In the end, the plan amounted to very little. The agreement, struck at yet another summit of European Union leaders on December 11, included legally enforceable restrictions on budget deficits: a baby step towards closer fiscal union. But it provided no lender of last resort to governments, nor measures to promote growth and liberalize markets.

A second bailout package for Greece was finally approved on February 21st, involving 130 billion in new funds, spending cuts, asset sales and lay-offs. Private sector lenders to Greece

would take a 75% reduction in the value of their holdings. The ECB would lend to banks for three years at an interest rate of just 1%, and by the end of our fiscal year banks had borrowed more than 1 trillion.

This bought time, but investors were under no illusions that the problems had been solved.

In U.S. fixed income markets the Barclays Capital U.S. Aggregate Bond Index of investment grade bonds rose 8.37% in the fiscal year. Both the corporate investment grade bond and Treasury sub-indices outperformed; the former were seen as good value while Treasuries were supported during periods of risk-aversion. Agency mortgage backed securities underperformed, especially in the second half, on fears that measures to help the mortgage market would lead to a high volume of early repayments.

U.S. equities, represented by the S&P 500[®] Index including dividends, rose by 5.12%, thanks to a 22% surge after September, as the perceived risk of recession eased. Despite this, the price/earnings ratio for the index at fiscal year-end, as calculated by Standard and Poor's based on 2011 earnings, was still just 14.2. The 40-quarter average ratio through December 2011 was 17.85. Whether this implies good value however, depends

Edgar Filing: ING Risk Managed Natural Resources Fund - Form N-CSR

on the sustainability of earnings, and earnings estimates have been falling.

In currency markets the euro zone's problems finally took their toll on the euro, which dropped sharply after October, before recovering. The U.S. dollar appreciated 2.36% over the fiscal year. Dollar demand also affected the pound, the dollar gaining 1.66%. But the dollar lost 1.43% against the yen, despite Bank of Japan intervention, as that currency repeatedly breached post-war high levels.

In international markets, the MSCI Japan® Index fell 11.24% in the fiscal year. The economy contracted in four quarters out of the last five, weighed down by ten consecutive monthly trade deficits, as it struggled to recover from natural disasters, and burdened by a strong yen. The MSCI Europe ex UK® Index lost 9.58%, relieved at the better data from the US but still depressed by the recessionary threat of the sovereign debt crisis, with unemployment perched at 10.6%, a euro-era high. The MSCI UK® Index added 1.60%. GDP fell 0.2% in the fourth quarter from the third, in the face of weak euro zone demand and fiscal austerity at home. But surprisingly, good purchasing managers' indices suggested that a return to technical recession might yet be avoided.

Parentheses denote a negative number.

Past performance does not guarantee future results. The performance quoted represents past performance. Investment return and principal value of an investment will fluctuate, and shares, when redeemed, may be worth more or less than their original cost. The Fund's performance is subject to change since the period's end and may be lower or higher than the performance data shown. Please call (800) 992-0180 or log on to www.inginvestment.com to obtain performance data current to the most recent month end.

Market Perspective reflects the views of ING's Chief Investment Risk Officer only through the end of the period, and is subject to change based on market and other conditions.

Table of Contents**BENCHMARK DESCRIPTIONS**

Index	Description
MSCI World Index SM	An unmanaged index that measures the performance of over 1,400 securities listed on exchanges in the U.S., Europe, Canada, Australia, New Zealand and the Far East.
Barclays Capital U.S. Aggregate Bond Index	An unmanaged index of publicly issued investment grade U.S. Government, mortgage-backed, asset-backed and corporate debt securities.
S&P 500 [®] Index	An unmanaged index that measures the performance of securities of approximately 500 large-capitalization companies whose securities are traded on major U.S. stock markets.
MSCI Japan [®] Index	A free float-adjusted market capitalization index that is designed to measure developed market equity performance in Japan.
MSCI Europe ex UK [®] Index	A free float-adjusted market capitalization index that is designed to measure developed market equity performance in Europe, excluding the UK.
MSCI UK [®] Index	A free float-adjusted market capitalization index that is designed to measure developed market equity performance in the UK.
S&P North American Natural Resources Sector Index	An unmanaged market-capitalization-weighted index of 112 stocks designed to measure the performance of companies in the natural resources sector, which includes energy, precious metals, timber and other sub-sectors.
Energy Select Sector Index [®]	A modified market capitalization-based index intended to track the movements of companies that are components of the S&P 500 [®] Index and are involved in the development or production of energy products. Energy companies in the Index develop and produce crude oil and natural gas and provide drilling and other energy related services.
Materials Select Sector Index [®]	A modified market capitalization-based index intended to track the movements of companies that are components of the S&P 500 [®] Index and are involved in materials. Materials include integrated steel product, chemicals, fibers, paper and gold.

as of February 29, 2012

(as a percentage of net assets)

Energy	79.2%
Materials	19.1%
Options on Indices	1.3%
Assets in Excess of Other Liabilities*	0.4%
Net Assets	100.0%

* Includes short-term investments.

Portfolio holdings are subject to change daily.

ING Risk Managed Natural Resources Fund (the Fund) seeks total return through a combination of current income, realized capital gains and capital appreciation. The Fund is managed by Paul Zemsky, Joseph Bassett, John Bailey, Jody I. Hrazanek and Frank van Etten, Portfolio Managers, ING Investment Management Co. LLC the Sub-Adviser.*

Under normal market conditions, the Fund seeks to achieve its investment objective by investing at least 80% of its managed assets in the equity securities of, or derivatives linked to the equity securities of, companies that are primarily engaged in owning or developing energy, other natural resources and basic materials, or supplying

goods and services to such companies (Natural Resources Companies). Equity securities held by the Fund could include common stocks, preferred shares, convertible securities, warrants and depository receipts. The Fund may also invest in exchange traded funds (ETFs) comprised primarily of Natural Resources Companies. Additionally, the Fund employs an integrated options collar strategy which seeks to partially reduce the exposure of the Fund to declines in the value of the energy and natural resources securities in its portfolio and helps the Fund achieve its investment objective by seeking to generate capital gains in declining markets from employing put spreads and generating premiums from writing call options.

Equity Portfolio Construction: In order to implement the Fund's collar strategy, the Fund employs a risk-managed style on a portion of the underlying equity portfolio. Approximately 70% of the value of the equity portfolio is invested in securities in the energy and materials indices in which the Fund's collar strategy is implemented and the portfolio weights for these stocks generally reflect index weights. When selecting equity investments for the remaining 30% of the Fund, the Sub-Adviser uses fundamental and quantitative research provided by its analysts. The Sub-Adviser normally seeks to identify securities of companies that it believes to be undervalued relative to the value of the energy and natural resources assets they hold or their business fundamentals and outlook. The Sub-Adviser believes that the best investment candidates are those that feature superior capital allocation, strong competitive position and operations in industries with robust demand. Furthermore, the Sub-Adviser favors companies that can grow their production rather than those that simply rely upon strengthening commodity prices to improve their earnings outlooks. In constructing the portfolio, the Sub-Adviser takes into account the objectives of the Fund's collar strategy and the instruments through which it is implemented. Under normal market conditions, the Fund generally holds approximately 80-130 equity securities in its portfolio.

Collar Strategy: Under normal market conditions, the Fund seeks to manage risk by employing an integrated options collar strategy. The Fund's collar strategy includes: employing put spreads by purchasing and selling put options and writing call options on energy and materials

Edgar Filing: ING Risk Managed Natural Resources Fund - Form N-CSR

indices (Resource Indices) and/or ETFs, correlated with

the Fund's portfolio, or securities held in the Fund's portfolio.

The Fund typically creates a put spread position by purchasing put options approximately 5% out-of-the-money usually on a three-month basis and for an amount approximating 100% of the value of the Fund's underlying assets while simultaneously, selling put options approximately 10-20% out-of-the-money and the same maturity and amount. The Fund retains the flexibility to create put spreads for an amount approximating 0-100% of the value of the Fund's underlying assets.

The Fund usually also writes call options at-the-money or near to-the-money, usually on a one-month basis and for an amount equal to 40-100% of the value of the Fund's underlying assets.

Top Ten Holdings

as of February 29, 2012

(as a percentage of net assets)

ExxonMobil Corp.	12.6%
Chevron Corp.	10.1%
Schlumberger Ltd.	5.1%
ConocoPhillips	3.3%

Halliburton Co.	2.7%
Freeport-McMoRan Copper & Gold, Inc.	2.3%
EOG Resources, Inc.	2.2%

Portfolio holdings are subject to change daily.

Table of Contents**PORTFOLIO MANAGERS REPORT****ING RISK MANAGED NATURAL RESOURCES FUND**

The Fund's collar strategy seeks to partially reduce the exposure of the Fund to declines in the value of energy and natural resources securities in its portfolio, while simultaneously generating capital gains in declining markets from employing put spreads and premiums from writing call options to help the Fund achieve its total return investment objective. Purchased put options may be financed by a portion of the premiums received by the Fund from the sale of call and put options. The Fund may employ put spreads and write call options on Resource Indices and/or ETFs including, but not limited to the Energy Select Sector Index[®] and the Materials Select Sector Index[®] (each a Sector Index and collectively, the Sector Indices), and/or the Energy Select Sector SPDR[®] Fund and the Materials Select Sector SPDR[®] Fund (each a SPDR[®] Fund and collectively, the SPDR[®] Funds). The collar strategy may be executed primarily in over-the-counter markets with major international banks, broker dealers and financial institutions. Under certain market conditions, the Fund may deviate from its collar strategy and may elect not to employ put spreads or sell calls.

Performance: Based on net asset value (NAV) as of February 29, 2012, the Fund provided a total return of (5.00)% for the year. This NAV return reflects a decrease in the Fund's NAV from \$15.34 on February 28, 2011 to \$13.12 on February 29, 2012. Based on its share price as of February 29, 2012, the Fund provided a total return of (14.51)% for the year. This share price return reflects a decrease in the Fund's share price from \$16.24 on February 28, 2011 to \$12.50 on February 29, 2012. The reference index, a composite of 80% Energy Select Sector Index[®] (IXE) and 20% Materials Select Sector Index[®] (IXB) returned (2.99)% for the reporting period. The portfolio is designed to generally participate in only a part of an upside of the market and help protect against part of the downside. During the year, the Fund made quarterly total distributions totaling \$1.42 per share, characterized as \$0.41 per share return of capital and \$1.01 per share net investment income. As of February 29, 2012, the Fund had 22,766,049 shares outstanding.

Equity Portfolio: To implement the collar strategy effectively, the Fund employs a risk-managed style in a portion of the underlying equity portfolio. To reduce basis risk between the portfolio and the collar, the portfolio generally holds the securities in the energy and materials indices in which the collar is implemented and the portfolio weights for stocks reflect index weights. These securities generally represent 70% of the value of the equity portfolio.

The actively managed equity portion of the strategy underperformed its reference index. The majority of underperformance came from security selection within energy. The three biggest detractors were the Fund's underweight of Exxon Mobil Corp., its off-index position in Suncor Energy Inc. and its underweight of Chevron Corp. Suncor was unfavorable in the first half of the year; we have since sold this position. Also hurting results was an underweight in ConocoPhillips, during the middle of the year when the shares performed well.

The three biggest contributors were an off-index position in PetroHawk Energy Corp., and underweights of Baker Hughes Inc. and Peabody Energy Corp. The Fund's position in Halliburton Co. also contributed.

Options Portfolio: For the period, the Fund's collar strategy had a slightly negative impact on relative returns. The Fund purchases put options and writes call options on the XLE and XLB ETFs to implement its collar (previous to July 2011, IXE and IXB were the underlying indices to the options). During the period, the Fund generally held put options against 100% of the value of the underlying equity portfolio, with strike prices roughly 5% out of the money and expiration dates of about three months at inception. The Fund typically wrote calls on 50-70% of the value of the underlying equity portfolio. These options were generally at or near the money and had expirations of about one month at inception.

The Fund's collar strategy seeks to exploit the high volatility of the natural resources sector—it attempts to protect the portfolio from large NAV declines while seeking to generate premiums and retain some potential for upside appreciation. This strategy added value during the middle part of the period as the puts protected the Fund from the equity market declines over the summer, but these gains were offset by losses in the latter part of the period when the equity markets rallied. As a result, some of the put options declined in value and some of the call options expired in the money.

Outlook and Current Strategy: In our view, demand for oil and gas will continue to grow as increasing demand among developing nations offsets slowing demand in the developed world. The supply of these resources is constrained and the new sources of supply are costlier to exploit. We believe that the indiscriminate sell-off has resulted in undervalued companies with improved business models, stronger customer bases, pronounced competitive advantages and sturdier returns through an economic cycle. We are positioning the Fund to benefit from what we see as industry trends—more resilient, oil-directed drilling activity onshore and offshore; globalization of natural gas markets; and modernization of drilling equipment.

In the non-energy or basic materials component we like exposure to iron ore, given the degree of consolidation among the top three producers in that market. We are cautious about mining companies for quarterly results: we believe byproduct credits will decline, increasing operating costs;

Edgar Filing: ING Risk Managed Natural Resources Fund - Form N-CSR

what is more, free cash flow use for acquisitions may be received poorly.

* Effective December 1, 2011, David Powers was removed as a portfolio manager to the Fund.

Portfolio holdings and characteristics are subject to change and may not be representative of current holdings and characteristics. The outlook for this Fund is based only on the outlook of its portfolio managers through the end of this period, and may differ from that presented for other ING Funds. Performance data represents past performance and is no guarantee of future results. Past performance is not indicative of future results. The indices do not reflect fees, brokerage commissions, taxes or other expenses of investing. Investors cannot invest directly in an index.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Shareholders and Board of Trustees

ING Risk Managed Natural Resources Fund

We have audited the accompanying statement of assets and liabilities, including the summary portfolio of investments, of ING Risk Managed Natural Resources Fund as of February 29, 2012, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the five-year period then ended and the period from October 24, 2006 (commencement of operations) to February 28, 2007. These financial statements and financial highlights are the responsibility of management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of February 29, 2012, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of ING Risk Managed Natural Resources Fund as of February 29, 2012, and the results of its operations, the changes in its net assets, and the financial highlights for the periods specified in the first paragraph above, in conformity with U.S. generally accepted accounting principles.

(1) Commencement of operations.

(2) Net asset value at beginning of period reflects the deduction of the sales load of \$0.90 per share and offering costs of \$0.04 per share paid by the shareholder from the \$20.00 offering price.

(3) Total investment return at net asset value has been calculated assuming a purchase at net asset value at the beginning of each period and a sale at net asset value at the end of each period and assumes reinvestment of dividends, capital gain distributions, and return of capital distributions/allocations, if any, in accordance with the provisions of the dividend reinvestment plan. Total investment return at net asset value is not annualized for periods less than one year.

(4) Total investment return at market value measures the change in the market value of your investment assuming reinvestment of dividends, capital gain distributions, and return of capital distributions/allocations, if any, in accordance with the provisions of the Fund's dividend reinvestment plan. Total investment return at market value is not annualized for periods less than one year.

(5) Annualized for periods less than one year.

* Calculated using average number of shares outstanding throughout the period.

** Impact of waiving the advisory fee for the ING Institutional Prime Money Market Fund holding has less than 0.005% impact on the expense ratio and net investment income ratio.

NOTES TO FINANCIAL STATEMENTS AS OF FEBRUARY 29, 2012

NOTE 1 ORGANIZATION

ING Risk Managed Natural Resources Fund (the Fund) is a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund is organized as a Delaware statutory trust.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies are consistently followed by the Fund in the preparation of its financial statements, and such policies are in conformity with U.S. generally accepted accounting principles (GAAP) for investment companies.

A. Security Valuation. All investments in securities are recorded at their estimated fair value, as described below. Investments in equity securities traded on a national securities exchange are valued at the last reported sale price. Securities reported by NASDAQ are valued at the NASDAQ official closing prices. Securities traded on an exchange or NASDAQ for which there has been no sale and equity securities traded in the over-the-counter-market are valued at the mean between the last reported bid and ask prices. All investments quoted in foreign currencies will be valued daily in U.S. dollars on the basis of the foreign currency exchange rates prevailing at that time. Debt securities with more than 60 days to maturity are valued using matrix pricing methods determined by an independent pricing service which takes into consideration such factors as yields, maturities, liquidity, ratings and traded prices in similar or identical securities. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of fair market value obtained from yield data relating to investments or securities with similar characteristics. Investments in open-end mutual funds are valued at the net asset value. Investments in securities of sufficient credit quality maturing 60 days or less from date of acquisition are valued at amortized cost which approximates fair value.

Securities and assets for which market quotations are not readily available (which may include certain restricted securities that are subject to limitations as to their sale) are valued at their fair values, as defined by the 1940 Act, and as determined in good faith by or under the supervision of the Fund's Board of Trustees (Board), in accordance with methods that are specifically authorized by the Board. Securities traded on exchanges, including foreign exchanges, which close

earlier than the time that the Fund calculates its net asset value (NAV) may also be valued at their fair values, as defined by the 1940 Act and as determined in good faith by or under the supervision of the Board, in accordance with methods that are specifically authorized by the Board. The value of a foreign security traded on an exchange outside the United States is generally based on its price on the principal foreign exchange where it trades as of the time the Fund determines its NAV or if the foreign exchange closes prior to the time the Fund determines its NAV, the most recent closing price of the foreign security on its principal exchange. Trading in certain non-U.S. securities may not take place on all days on which the NYSE Euronext (NYSE) is open. Further, trading takes place in various foreign markets on days on which the NYSE is not open. Consequently, the calculation of the Fund's NAV may not take place contemporaneously with the determination of the prices of securities held by the Fund in foreign securities markets. Further, the value of the Fund's assets may be significantly affected by foreign trading on days when a shareholder cannot purchase or redeem shares of the Fund. In calculating the Fund's NAV, foreign securities denominated in foreign currency are converted to U.S. dollar equivalents. If an event occurs after the time at which the market for foreign securities held by the Fund closes but before the time that the Fund's NAV is calculated, such event may cause the closing price on the foreign exchange to not represent a readily available reliable market value quotation for such securities at the time the Fund determines its NAV. In such a case, the Fund will use the fair value of such securities as determined under the Fund's valuation procedures. Events after the close of trading on a foreign market that could require the Fund to fair value some or all of its foreign securities include, among others, securities trading in the U.S. and other markets, corporate announcements, natural and other disasters, and political and other events. Among other elements of analysis in the determination of a security's fair value, the Board has authorized the use of one or more independent research services to assist with such determinations. An independent research service may use statistical analyses and quantitative models to help determine fair value as of the time the Fund calculates its NAV. There can be no assurance that such models accurately reflect the behavior of the applicable markets or the effect of the behavior of such markets on the fair value of securities, or that such markets will continue to behave in a fashion that is consistent with such models. Unlike the closing price of a security on an

Table of Contents

NOTES TO FINANCIAL STATEMENTS AS OF FEBRUARY 29, 2012 (CONTINUED)

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

exchange, fair value determinations employ elements of judgment. Consequently, the fair value assigned to a security may not represent the actual value that the Fund could obtain if it were to sell the security at the time of the close of the NYSE. Pursuant to procedures adopted by the Board, the Fund is not obligated to use the fair valuations suggested by any research service, and valuation recommendations provided by such research services may be overridden if other events have occurred or if other fair valuations are determined in good faith to be more accurate. Unless an event is such that it causes the Fund to determine that the closing prices for one or more securities do not represent readily available reliable market value quotations at the time the Fund determines its NAV, events that occur between the time of the close of the foreign market on which they are traded and the close of regular trading on the NYSE will not be reflected in the Fund's NAV.

Options that are traded over-the-counter will be valued using one of three methods: (1) dealer quotes; (2) industry models with objective inputs, or (3) by using a benchmark arrived at by comparing prior-day dealer quotes with the corresponding change in the underlying security. Exchange traded options will be valued using the last reported sale. If no last sale is reported, exchange traded options will be valued using an industry accepted model such as Black Scholes. Options on currencies purchased by the Fund are valued using industry models with objective inputs at their last bid price in the case of listed options or at the average of the last bid prices obtained from dealers in the case of over-the-counter options.

Fair value is defined as the price that the Fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. Each investment asset or liability of the Fund is assigned a level at measurement date based on the significance and source of the inputs to its valuation. Quoted prices in active markets for identical securities are classified as Level 1, inputs other than quoted prices for an asset or liability that are observable are classified as Level 2 and unobservable inputs, including the sub-adviser's judgment about the assumptions that a market participant would use in pricing an asset or liability are classified as Level 3. The inputs used for valuing securities are not necessarily an indication of the risks associated with investing in those securities. Short-term securities of

sufficient credit quality which are valued at amortized cost, which approximates fair value, are generally considered to be Level 2 securities under applicable accounting rules. A table summarizing the Fund's investments under these levels of classification is included following the Summary Portfolio of Investments.

For the year ended February 29, 2012, there have been no significant changes to the fair valuation methodologies.

B. Security Transactions and Revenue Recognition. Security transactions are recorded on the trade date. Realized gains or losses on sales of investments are calculated on the identified cost basis. Interest income is recorded on the accrual basis. Premium amortization and discount accretion are determined using the effective yield method. Dividend income is recorded on the ex-dividend date, or in the case of some foreign dividends, when the information becomes available to the Fund.

C. Foreign Currency Translation. The books and records of the Fund are maintained in U.S. dollars. Any foreign currency amounts are translated into U. S. dollars on the following basis:

(1) Market value of investment securities, other assets and liabilities at the exchange rates prevailing at the end of the day.

(2)

Edgar Filing: ING Risk Managed Natural Resources Fund - Form N-CSR

Purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

Although the net assets and the market values are presented at the foreign exchange rates at the end of the day, the Fund does not isolate the portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gains or losses from investments. For securities, which are subject to foreign withholding tax upon disposition, liabilities are recorded on the Statement of Assets and Liabilities for the estimated tax withholding based on the securities current market value. Upon disposition, realized gains or losses on such securities are recorded net of foreign withholding tax. Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, the difference between the amounts of dividends, interest, and foreign

Table of Contents

NOTES TO FINANCIAL STATEMENTS AS OF FEBRUARY 29, 2012 (CONTINUED)

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities other than investments in securities at period end, resulting from changes in the exchange rate. Foreign security and currency transactions may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include, but are not limited to, revaluation of currencies and future adverse political and economic developments which could cause securities and their markets to be less liquid and prices more volatile than those of comparable U. S. companies and U.S. government securities.

D. Distributions to Shareholders. The Fund intends to make quarterly distributions from its cash available for distribution, which consists of the Fund's dividends and interest income after payment of Fund expenses, net option premiums and net realized and unrealized gains on investments. At least annually, the Fund intends to distribute all or substantially all of its net realized capital gains. Distributions are recorded on the ex-dividend date. Distributions are determined annually in accordance with federal tax principles, which may differ from U.S. generally accepted accounting principles for investment companies.

The tax treatment and characterization of the Fund's distributions may vary significantly from time to time depending on whether the Fund has gains or losses on the call options written on its portfolio versus gains or losses on the equity securities in the portfolio. Each quarter, the Fund will provide disclosures with distribution payments made that estimate the percentages of that distribution that represent net investment income, other income or capital gains, and return of capital, if any. The final composition of the tax characteristics of the distributions cannot be determined with certainty until after the end of the Fund's tax year, and will be reported to shareholders at that time. A significant portion of the Fund's distributions may constitute a return of capital. The amount of quarterly distributions will vary, depending on a number of factors. As portfolio and market conditions change, the rate of dividends on the common shares will change. There can be no assurance that the Fund will be able to declare a dividend in each period.

E. Federal Income Taxes. It is the policy of the Fund to comply with the requirements of subchapter M of the Internal Revenue Code that are applicable to regulated investment companies and to distribute substantially all of its net investment income and any net realized capital gains to its shareholders. Therefore, a federal income tax or excise tax provision is not required. Management has considered the sustainability of the Fund's tax positions taken on federal income tax returns for all open tax years in making this determination.

F. Use of Estimates. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

G. Risk Exposures and the use of Derivative Instruments. The Fund's investment objectives permit the Fund to enter into various types of derivatives contracts, including, but not limited to, forward foreign currency exchange contracts and purchased and written options. In doing so, the Fund will employ strategies in differing combinations to permit it to increase or decrease the level of risk, or change the level or types of exposure to market risk factors. This may allow the Fund to pursue its objectives more quickly and efficiently, than if it were to make direct purchases or sales of securities capable of affecting a similar response to market factors.

Market Risk Factors. In pursuit of its investment objectives, the Fund may seek to use derivatives to increase or decrease its exposure to the following market risk factors:

Credit Risk. Credit risk relates to the ability of the issuer to meet interest and principal payments, or both, as they come due. In general, lower-grade, higher-yield bonds are subject to credit risk to a greater extent than lower-yield, higher-quality bonds.

Edgar Filing: ING Risk Managed Natural Resources Fund - Form N-CSR

Equity Risk. Equity risk relates to the change in value of equity securities as they relate to increases or decreases in the general market.

Foreign Exchange Rate Risk. Foreign exchange rate risk relates to the change in U.S. dollar value of a security held that is denominated in a foreign currency. The U.S.

Table of Contents

NOTES TO FINANCIAL STATEMENTS AS OF FEBRUARY 29, 2012 (CONTINUED)

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

dollar value of a foreign currency denominated security will decrease as the dollar appreciates against the currency, while the U.S. dollar value will increase as the dollar depreciates against the currency.

Interest Rate Risk. Interest rate risk refers to the fluctuations in value of fixed-income securities resulting from the inverse relationship between price and yield. For example, an increase in general interest rates will tend to reduce the market value of already issued fixed-income investments, and a decline in general interest rates will tend to increase their value. In addition, debt securities with longer durations, which tend to have higher yields, are subject to potentially greater fluctuations in value from changes in interest rates than obligations with shorter durations.

Risks of Investing in Derivatives. The Fund's use of derivatives can result in losses due to unanticipated changes in the market risk factors and the overall market. In instances where the Fund is using derivatives to decrease, or hedge, exposures to market risk factors for securities held by the Fund, there are also risks that those derivatives may not perform as expected resulting in losses for the combined or hedged positions.

The use of these strategies involves certain special risks, including a possible imperfect correlation, or even no correlation, between price movements of derivative instruments and price movements of related investments. While some strategies involving derivative instruments can reduce the risk of loss, they can also reduce the opportunity for gain or even result in losses by offsetting favorable price movements in related investments or otherwise, due to the possible inability of the Fund to purchase or sell a portfolio security at a time that otherwise would be favorable or the possible need to sell a portfolio security at a disadvantageous time because the Fund is required to maintain asset coverage or offsetting positions in connection with transactions in derivative instruments. Additional associated risks from investing in derivatives also exist and potentially could have significant effects on the valuation of the derivative and the Fund. Associated risks are not the risks that the Fund is attempting to increase or decrease exposure to, per its investment objectives, but are the additional risks from investing in derivatives. Examples of these associated risks are liquidity risk, which is the risk that the Fund will not be able to sell the derivative in the open market in a timely manner, and counterparty credit risk, which is

the risk that the counterparty will not fulfill its obligation to the Fund. Associated risks can be different for each type of derivative and are discussed by each derivative type in the following notes.

Counterparty Credit Risk and Credit Related Contingent Features. Certain derivative positions are subject to counterparty credit risk, which is the risk that the counterparty will not fulfill its obligation to the Fund. The Fund's derivative counterparties are financial institutions who are subject to market conditions that may weaken their financial position. The Fund intends to enter into financial transactions with counterparties that it believes to be creditworthy at the time of the transaction. To reduce this risk, the Fund generally enters into master netting arrangements, established within the Fund's International Swap and Derivatives Association, Inc. (ISDA) Master Agreements (Master Agreements). These agreements are with select counterparties and they govern transactions, including certain over-the-counter (OTC) derivative and forward foreign currency contracts, entered into by the Fund and the counterparty. The Master Agreements maintain provisions for general obligations, representations, agreements, collateral, and events of default or termination. The occurrence of a specified event of termination may give a counterparty the right to terminate all of its contracts and affect settlement of all outstanding transactions under the applicable Master Agreement.

The Fund may also enter into collateral agreements with certain counterparties to further mitigate credit risk associated with OTC derivative and forward foreign currency contracts. Subject to established minimum levels, collateral is generally determined based on the net aggregate unrealized gain or loss on contracts with a certain counterparty. Collateral pledged to the Fund is held in a segregated account by a third-party agent and can be in the form of cash or debt securities issued by the U.S. government or related agencies.

Edgar Filing: ING Risk Managed Natural Resources Fund - Form N-CSR

The Fund's maximum risk of loss from counterparty credit risk on OTC derivatives is generally the aggregate unrealized gain in excess of any collateral pledged by the counterparty to the Fund. For purchased OTC options, the Fund bears the risk of loss in the amount of the premiums paid and the change in market value of the options should the counterparty not perform under the contracts. As of February 29, 2012, the total fair value of purchased OTC options subject to counterparty credit risk was \$3,882,880. The counterparty did not post any collateral to the Fund at period end. There were no credit events during the

Table of Contents

NOTES TO FINANCIAL STATEMENTS AS OF FEBRUARY 29, 2012 (CONTINUED)

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

year ended February 29, 2012 that triggered any credit related contingent features.

The Fund's master agreements with derivative counterparties have credit related contingent features that if triggered would allow its derivatives counterparties to close out and demand payment or additional collateral to cover their exposure from the Fund. Credit related contingent features are established between the Fund and its derivatives counterparties to reduce the risk that the Fund will not fulfill its payment obligations to its counterparties. These triggering features include, but are not limited to, a percentage decrease in the Fund's net assets and or a percentage decrease in the Fund's NAV, which could cause the Fund to accelerate payment of any net liability owed to the counterparty. The contingent features are established within the Fund's Master Agreements.

Written options by the Fund do not give rise to counterparty credit risk, as written options obligate the Fund to perform and not the counterparty. As of February 29, 2012, the total value of written OTC call options subject to Master Agreements in a liability position was \$2,914,315. If a contingent feature had been triggered, the Fund could have been required to pay this amount in cash to its counterparties. The Fund did not hold or post collateral for its open written OTC call options at year end. There were no credit events during the year ended February 29, 2012 that triggered any credit related contingent features.

H. Options Contracts. The Fund may purchase put and call options and may write (sell) put options and covered call options. The premium received by the Fund upon the writing of a put or call option is included in the Statement of Assets and Liabilities as a liability which is subsequently marked-to-market until it is exercised or closed, or it expires. The Fund will realize a gain or loss upon the expiration or closing of the option contract. When an option is exercised, the proceeds on sales of the underlying security for a written call option or purchased put option or the purchase cost of the security for a written put option or a purchased call option is adjusted by the amount of premium received or paid. The risk in writing a call option is that the Fund gives up the opportunity for profit if the market price of the security increases and the option is exercised. The risk in buying an option is that the Fund pays a premium whether or not the option is exercised. Risks may also arise from an illiquid

secondary market or from the inability of counterparties to meet the terms of the contract.

Under normal market conditions, the Fund seeks to manage risk by employing an integrated options collar strategy. The Fund's collar strategy includes: employing put spreads by purchasing and selling put options and writing call options on energy and materials indices (Resource Indices) and/or ETFs, correlated with the Fund's portfolio, or securities held in the Fund's portfolio. The Fund typically creates a put spread position by purchasing put options approximately 5% out-of-the-money usually on a three-month basis and for an amount approximating 100% of the value of the Fund's underlying assets while simultaneously, selling put options approximately 10-20% out-of-the-money and the same maturity and amount. The Fund retains the flexibility to create put spreads for an amount approximating 0-100% of the value of the Fund's underlying assets. The Fund usually also writes call options at-the-money or near to-the-money, usually on a one-month basis and for an amount equal to 40-100% of the value of the Fund's underlying assets.

During the year ended February 29, 2012, the Fund utilized the collar strategy. Please refer to Note 6 for the volume of both purchased and written option activity for the year ended February 29, 2012.

I. Forward Foreign Currency Contracts. The Fund may enter into forward foreign currency contracts primarily to hedge against foreign currency exchange rate risks on its non-U.S. dollar denominated investment securities. When entering into a forward foreign currency contract, the Fund agrees to receive or deliver a fixed quantity of foreign currency for an agreed-upon price on an agreed future date. These contracts are valued daily and the Fund's net equity therein, representing unrealized gain or loss on the contracts as measured by the difference between the forward foreign exchange rates at the dates of entry into the contracts and the forward rates at the reporting date, is included in the statement of

Edgar Filing: ING Risk Managed Natural Resources Fund - Form N-CSR

assets and liabilities. Realized and unrealized gains and losses on forward foreign currency contracts are included on the Statement of Operations. These instruments involve market and/or credit risk in excess of the amount recognized in the statement of assets and liabilities. Risks arise from the possible inability of counterparties to meet the terms of their contracts and from movement in currency and securities values and interest rates.

Table of Contents

NOTES TO FINANCIAL STATEMENTS AS OF FEBRUARY 29, 2012 (CONTINUED)

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

For the year ended February 29, 2012, the Fund has entered into forward foreign currency contracts with the obligation to sell specified foreign currencies in the future at a currently negotiated forward rate in order to increase or decrease exposure to foreign exchange rate risk. During the year ended February 29, 2012, the Fund used forward foreign currency contracts to hedge its investments in non-U.S. dollar denominated equity securities in an attempt to decrease the volatility of the Fund's NAV.

During the year ended February 29, 2012, the Fund had an average contract amount on forward foreign currency contracts sold of \$655,711.

J. Indemnifications. In the normal course of business, the Fund may enter into contracts that provide certain indemnifications. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, based on experience, management considers the risk of loss from such claims remote.

NOTE 3 INVESTMENT MANAGEMENT AND ADMINISTRATIVE FEES

ING Investments, LLC ("ING Investments" or the "Investment Adviser"), an Arizona limited liability company, is the Investment Adviser of the Fund. The Fund pays the Investment Adviser for its services under the investment management agreement ("Management Agreement"), a fee, payable monthly, based on an annual rate of 1.00% of the Fund's average daily managed assets. For purposes of the Management Agreement, managed assets are defined as the Fund's average daily gross asset value, minus the sum of the Fund's accrued and unpaid dividends on any outstanding preferred shares and accrued liabilities (other than liabilities for the principal amount of any borrowings incurred, commercial paper or notes issued by the Fund and the liquidation preference of any outstanding preferred shares). As of February 29, 2012, there were no preferred shares outstanding.

The Investment Adviser entered into a sub-advisory agreement ("Sub-Advisory Agreement") with ING Investment Management Co. LLC ("ING IM"). Subject to policies as the Board or the Investment Adviser might determine, ING IM manages the Fund's assets in accordance with the Fund's investment objectives, policies and limitations.

ING Funds Services, LLC (the "Administrator") serves as Administrator to the Fund. The Fund pays the Administrator for its services a fee based on an annual rate of 0.10% of the Fund's average daily managed assets. The Investment Adviser, ING IM, and the Administrator are indirect, wholly-owned subsidiaries of ING Groep N.V. ("ING Groep"). ING Groep is a global financial institution of Dutch origin offering banking, investments, life insurance and retirement services.

ING Groep has adopted a formal restructuring plan that was approved by the European Commission in November 2009 under which the ING life insurance businesses, including the retirement services and investment management businesses, which include the Adviser and its immediate affiliates, would be separated from ING Groep by the end of 2013. To achieve this goal, in a series of announcements beginning November 2010, ING Groep announced that it plans to pursue transactions to restructure certain businesses, including an initial public offering for its U.S. based insurance, retirement services, and investment management operations; and other transactions, which could include an initial public offering or other type of transaction, for its European based insurance and investment management operations and Asian based insurance and investment management operations. There can be no assurance that all or part of the restructuring plan will be carried out.

The restructuring plan and the uncertainty about its implementation, whether implemented through the planned public offerings or through other means, in whole or in part, may be disruptive to the businesses of ING entities, including the ING entities that service the Fund, and may cause, among other things, interruption or reduction of business and services, diversion of management's attention from day-to-day operations, and loss of key employees or customers. A failure to complete the offerings or other means of implementation on favorable terms could have a material adverse impact on the operations of the businesses subject to the restructuring plan. The restructuring plan may result in the Investment Adviser's

Edgar Filing: ING Risk Managed Natural Resources Fund - Form N-CSR

loss of access to services and resources of ING Groep, which could adversely affect its businesses and profitability. In addition, the divestment of ING businesses, including the Investment Adviser, may potentially be deemed a change of control of each entity. A change of control would result in the termination of the Fund's advisory and sub-advisory agreements, which would trigger the necessity for new agreements that would require approval of the board,

Table of Contents

NOTES TO FINANCIAL STATEMENTS AS OF FEBRUARY 29, 2012 (CONTINUED)

NOTE 3 INVESTMENT MANAGEMENT AND ADMINISTRATIVE FEES (continued)

and may trigger the need for shareholder approval. Currently, the Investment Adviser does not anticipate that the restructuring will have a material adverse impact on the Fund or its operations and administration.

NOTE 4 OTHER TRANSACTIONS WITH AFFILIATED AND RELATED PARTIES

As of February 29, 2012, the Fund had the following amounts recorded as payable to affiliates on the accompanying Statement of Assets and Liabilities:

Fund	Accrued Investment Management Fees	Accrued Administrative Fees	Total
Risk Managed Natural Resources	\$ 235,873	\$ 23,587	\$ 259,460

The Fund has adopted a Deferred Compensation Plan (the Plan), which allows eligible non-affiliated trustees as described in the Plan to defer the receipt of all or a portion of the trustees fees payable. Amounts deferred are treated as though invested in various notional funds advised by ING Investments until distribution in accordance with the Plan.

NOTE 5 PURCHASES AND SALES OF INVESTMENT SECURITIES

The cost of purchases and proceeds from sales of investments for the year ended February 29, 2012, excluding short-term securities, were \$90,330,479 and \$120,301,728, respectively.

NOTE 6 PURCHASED AND WRITTEN OPTIONS

Transactions in both purchased and written options for the year ended February 29, 2012 were as follows:

Transactions in purchased OTC put options on indices were as follows:

	Number of Contracts	Cost
Balance at 02/28/11	552,264	\$ 8,928,592
Options Purchased	14,816,628	61,920,226
Options Expired	(7,472,003)	(34,871,153)
Options Exercised		
Options Terminated in Closing Sell Transactions	(2,897,771)	(24,584,233)
Balance at 02/29/12	4,999,118	\$ 11,393,432

Transactions in written OTC call options on indices were as follows:

Edgar Filing: ING Risk Managed Natural Resources Fund - Form N-CSR

	Number of Contracts	Premiums Received
Balance at 02/28/11	367,932	\$ 5,134,618
Options Written	25,588,663	51,136,563
Options Expired	(15,087,263)	(37,509,041)
Options Exercised		
Options Terminated in Closing Purchase Transactions	(7,521,296)	(14,741,660)
Balance at 02/29/12	3,348,036	\$ 4,020,480

NOTE 7 CONCENTRATION OF INVESTMENT RISKS

All mutual funds involve risk some more than others and there is always the chance that you could lose money or not earn as much as you hope. The Fund's risk profile is largely a factor of the principal securities in which it invests and investment techniques that it uses. For more information regarding the types of securities and investment techniques that may be used by the Fund and its corresponding risks, see the Fund's most recent Prospectus and/or the Statement of Additional Information.

Foreign Securities and Emerging Markets. The Fund makes significant investments in foreign securities and may invest up to 20% of its managed assets, measured at the time of investment, in securities issued by companies located in countries with emerging markets. Investments in foreign securities may entail risks not present in domestic investments. Since investments in securities are denominated in foreign currencies, changes in the relationship of these foreign currencies to the U.S. dollar can significantly affect the value of the investments and earnings of the Fund. Foreign investments may also subject the Fund to foreign government exchange restrictions, expropriation, taxation or other political, social or economic developments, as well as from movements in currency, security value and interest rates, all of which could affect the market and/or credit risk of the investments. The risks of investing in foreign securities can be intensified in the case of investments in issuers located in countries with emerging markets.

Leverage. Although the Fund has no current intention to do so, the Fund is authorized to utilize leverage through the issuance of preferred shares and/or borrowings, including the issuance of debt securities. The Fund also may enter into a working capital facility to facilitate its collar strategy. In the event that the Fund determines in the future to utilize investment leverage, there can be no assurance that such a

Table of Contents

NOTES TO FINANCIAL STATEMENTS AS OF FEBRUARY 29, 2012 (CONTINUED)

NOTE 7 CONCENTRATION OF INVESTMENT RISKS (continued)

leveraging strategy will be successful during any period in which it is employed.

Non-Diversified and Natural Resources Companies. The Fund may be subject to large price volatility due to non-diversification and concentration in Natural Resources Companies. Securities of such companies may be subject to broad price fluctuations, reflecting volatility of energy and basic materials prices and possible instability of supply of various natural resources. Because many Natural Resources Companies have significant operations in many countries worldwide, the Fund's portfolio will be more exposed than a more diversified portfolio to unstable political, social and economic conditions, including expropriation and disruption of licenses or operations. This means that the Fund's portfolio of Natural Resources Companies may be more exposed to price volatility, liquidity and other risks that accompany an investment in equities of foreign companies than portfolios of international equities generally.

NOTE 8 CAPITAL SHARES

Transactions in capital shares and dollars were as follows:

Year or period ended	Reinvestment of distributions #	Net increase in shares outstanding #	Reinvestment of distributions (\$)	Net increase (\$)
2/29/2012	76,576	76,576	1,126,032	1,126,032
2/28/2011	156,652	156,652	2,346,205	2,346,205

NOTE 9 FEDERAL INCOME TAXES

The amount of distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles for investment companies. These book/tax differences may be either temporary or permanent. Permanent differences are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences are not reclassified. Key differences include the treatment of short-term capital gains, foreign currency transactions, income from passive foreign investment companies (PFICs) and wash sale deferrals. Distributions in excess of net investment income and/or net realized capital gains for tax purposes are reported as return of capital.

The following permanent tax differences have been reclassified as of the Fund's tax year ended December 31, 2011:

Paid-in Capital ⁽¹⁾	Undistributed Net Investment Income	Accumulated Net Realized Gains/ (Losses)
\$ (21,757,256)	\$ 21,689,375	\$ 67,881

⁽¹⁾ \$21,757,256 relates to distributions in excess of net investment income taxed as ordinary income due to current year earnings and profits.

Edgar Filing: ING Risk Managed Natural Resources Fund - Form N-CSR

Dividends paid by the Fund from net investment income and distributions of net realized short-term capital gains are, for federal income tax purposes, taxable as ordinary income to shareholders. Under certain conditions, federal tax regulations may also cause some or all of the return of capital to be taxed as ordinary income.

The tax composition of dividends and distributions as of the Fund's most recent tax year-ends were as follows:

	Tax Year Ended December 31, 2011		Tax Year Ended December 31, 2010
Ordinary Income		Return of Capital	
	\$23,028,322	\$ 9,235,445	\$ 2,818,572
			\$ 30,415,292

The tax-basis components of distributable earnings and the expiration dates of the capital loss carryforwards which may be used to offset future realized capital gains for federal income tax purposes as of the tax year ended December 31, 2011 were:

Unrealized Appreciation/ (Depreciation)		Short-term Capital Loss Carryforwards	Expiration
	\$20,922,883	\$ (46,776,520)	2017
		(5,692,716)	2018
		\$ (52,469,236)	

The Fund's major tax jurisdictions are federal and Arizona. The earliest tax year that remains subject to examination by these jurisdictions is 2007.

As of February 29, 2012, no provision for income tax is required in the Fund's financial statements as a result of tax positions taken on federal and state income tax returns for open tax years. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state department of revenue.

The Regulated Investment Company Modernization Act of 2010 (the Act) was enacted on December 22, 2010. The Act makes changes to several tax rules impacting

Table of Contents

NOTES TO FINANCIAL STATEMENTS AS OF FEBRUARY 29, 2012 (CONTINUED)

NOTE 9 FEDERAL INCOME TAXES (continued)

the Fund. In general, the provisions of the Act were effective for the Fund's tax year ended December 31, 2011. Although the Act provides several benefits, including the unlimited carryforward of future capital losses, there may be a greater likelihood that all or a portion of the Fund's pre-enactment capital loss carryforwards may expire without being utilized due to the fact that post-enactment capital losses are required to be utilized before pre-enactment capital loss carryforwards.

NOTE 10 OTHER ACCOUNTING PRONOUNCEMENTS

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04 Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements . ASU No. 2011-04 amends FASB ASC Topic 820, Fair Value Measurements and Disclosures, to establish common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with GAAP and the International Financial Reporting Standards (IFRSs). The ASU is effective prospectively for interim and annual periods

beginning after December 15, 2011. As of February 29, 2012, management of the Portfolios is currently assessing the potential impact to financial statement disclosure that may result from adopting this ASU.

NOTE 11 SUBSEQUENT EVENTS

Dividends: Subsequent to February 29, 2012, the Fund made a distribution of:

Per Share Amount	Declaration Date	Payable Date	Record Date
\$0.330	3/15/2012	4/16/2012	4/4/2012

Each quarter, the Fund will provide disclosures with distribution payments made that estimate the percentages of that distribution that represent net investment income, capital gains, and return of capital, if any. A significant portion of the quarterly distribution payments made by the Fund may constitute a return of capital.

The Fund has evaluated events occurring after the Statement of Assets and Liabilities date (subsequent events) to determine whether any subsequent events necessitated adjustment to or disclosure in the financial statements. Other than the above, no such subsequent events were identified.

Positions In Purchased Options	\$ 3,294,874	\$	\$	\$	\$	\$	\$	\$ (3,294,874)	\$
Total Investments, at value	\$ 3,294,874	\$	\$	\$	\$	\$	\$	\$ (3,294,874)	\$
Liabilities Table									
Other Financial Instruments*:									
Written options	(6,633,292)							6,633,292	
Total Liabilities	\$ (6,633,292)	\$	\$	\$	\$	\$	\$	\$ 6,633,292	\$

As of February 29, 2012, the net change in unrealized appreciation or depreciation on Level 3 investments still held at year end and included in the change in net assets was \$0.

Transfers in or out of Level 3 represent either the beginning value (for transfers in), or the ending value (for transfers out) of any security or derivative instrument where a change in the pricing level occurred from the beginning to the end of the period. It is the policy of the Fund to recognize transfers at the end of the reporting period.

[^] See Note 2, Significant Accounting Policies in the Notes to Financial Statements for additional information.

⁺ Other Financial Instruments are derivatives not reflected in the Portfolio of Investments and may include open forward foreign currency contracts, equity forwards, futures, swaps, and written options. Forward foreign currency contracts, equity forwards and futures are valued at the unrealized gain (loss) on the instrument. Swaps and written options are valued at the fair value of the instrument.

[#] The earlier close of the foreign markets gives rise to the possibility that significant events, including broad market moves, may have occurred in the interim and may materially affect the value of those securities. To account for this, the Portfolio may frequently value many of its foreign equity securities using fair value prices based on third party vendor modeling tools to the extent available. Accordingly, a significant portion of the Portfolio's investments are categorized as Level 2 investments.

There were no significant transfers between Level 1 and 2 during the year ended February 29, 2012.

TAX INFORMATION (UNAUDITED)

Dividends and distributions paid during the tax year ended December 31, 2011 were as follows:

Fund Name	Type	Per Share Amount	
ING Risk Managed Natural Resources Fund	NII	\$	1.0128
	ROC	\$	0.4062

NII - Net investment income

ROC - Return of capital

Of the ordinary distributions made during the tax year ended December 31, 2011, 19.83% qualifies for the dividends received deduction (DRD) available to corporate shareholders.

For the tax year ended December 31, 2011, 21.97% of ordinary income dividends paid by the Fund are designated as qualifying dividend income (QDI) subject to reduced income tax rates for individuals.

Above figures may differ from those cited elsewhere in this report due to differences in the calculation of income and gains under U.S. generally accepted accounting principles (book) purposes and Internal Revenue Service (tax) purposes.

Shareholders are strongly advised to consult their own tax advisers with respect to the tax consequences of their investments in the Fund. In January, shareholders, excluding corporate shareholders, receive an IRS 1099-DIV regarding the federal tax status of the dividends and distributions they received in the calendar year.

Table of Contents**TRUSTEE AND OFFICER INFORMATION (UNAUDITED)**

The business and affairs of the Trust are managed under the direction of the Trust's Board. A Trustee who is not an interested person of the Trust, as defined in the 1940 Act, is an independent trustee (Independent Trustee). The Trustees and Officers of the Trust are listed below. (1) The Board is divided into three classes, with the term of one class expiring at each annual meeting of each Fund. At each annual meeting, one class of Trustees is elected to a three-year term and serves until their successors are duly elected and qualified. The tenure of each Trustee is subject to the Board's retirement policy, which states that each duly elected or appointed Trustee who is an Independent Trustee shall retire from service as a Trustee at the conclusion of the first regularly scheduled meeting of the Board that is held after the Trustee reaches the age of 72. A unanimous vote of the Board may extend the retirement date of a Trustee for up to one year. An extension may be permitted if the retirement would trigger a requirement to hold a meeting of shareholders of the Funds, under applicable law, whether for purposes of appointing a successor to the Trustee or if otherwise necessary under applicable law, in which case the extension would apply until such time as the shareholder can be held or is no longer needed.

(2) Except for Mr. Mathews and for the purposes of this table ING Fund Complex means the following investment companies: ING Asia Pacific High Dividend Equity Income Fund; ING Emerging Markets High Dividend Equity Fund; ING Emerging Markets Local Bond Fund; ING Equity Trust; ING Funds Trust; ING Global Equity Dividend and Premium Opportunity Fund; ING Global Advantage and Premium Opportunity Fund; ING Infrastructure, Industrials and Materials Fund; ING International High Dividend Equity Income Fund; ING Investors Trust; ING Mayflower Trust; ING Mutual Funds; ING Partners, Inc.; ING Prime Rate Trust; ING Risk Managed Natural Resources Fund; ING Senior Income Fund; ING Separate Portfolios Trust; ING Variable Insurance Trust; and ING Variable Products Trust. For Mr. Mathews, the ING Fund Complex also includes the following investment companies: ING Balanced Portfolio, Inc.; ING Intermediate Bond Portfolio; ING Money Market Portfolio; ING Series Fund, Inc.; ING Strategic Allocation Portfolios, Inc.; ING Variable Funds; and ING Variable Portfolios, Inc. Therefore, for the purposes of this table with reference to Mr. Mathews, Fund Complex includes these investment companies. The number of funds in the ING Fund Complex is as of March 31, 2012.

(3)

Edgar Filing: ING Risk Managed Natural Resources Fund - Form N-CSR

Messrs. Crispin and Matthews are deemed Interested Persons of the Trust because of their current or prior affiliation with ING Groep, N.V., the parent corporation of the Investment Adviser(s) and the Distributor.

ADVISORY CONTRACT APPROVAL DISCUSSION (UNAUDITED)

BOARD CONSIDERATION AND RE-APPROVAL OF INVESTMENT ADVISORY AND SUB-ADVISORY CONTRACTS

Section 15(c) of the Investment Company Act of 1940, as amended (the 1940 Act) provides that, after an initial period, the existing investment advisory and sub-advisory contracts for the ING Risk Managed Natural Resources Fund (the Fund) will remain in effect only if the Board of Trustees (the Board) of the Fund, including a majority of Board members who have no direct or indirect interest in the advisory and sub-advisory contracts, and who are not interested persons of the Fund, as such term is defined under the 1940 Act (the Independent Trustees), annually review and approve them. Thus, at a meeting held on November 17, 2011, the Board, including a majority of the Independent Trustees, considered whether to renew the investment advisory contract (the Advisory Contract) between ING Investments, LLC (the Adviser) and the Fund and the sub-advisory contract (Sub-Advisory Contract) with ING Investment Management Co. LLC (the Sub-Adviser).

The Independent Trustees also held separate meetings on October 12 and November 15, 2011 to consider the renewal of the Advisory and Sub-Advisory Contracts. As a result, subsequent references herein to factors considered and determinations made by the Independent Trustees include, as applicable, factors considered and determinations made on those earlier dates by the Independent Trustees.

At its November 17, 2011 meeting, the Board voted to renew the Advisory and Sub-Advisory Contracts for the Fund. In reaching these decisions, the Board took into account information furnished to it throughout the year at regular meetings of the Board and the Board's committees, as well as information prepared specifically in connection with the annual renewal process. Determinations by the Independent Trustees also took into account various factors that they believed, in light of the legal advice furnished to them by K&L Gates LLP (K&L Gates), their independent legal counsel, and their own business judgment, to be relevant. Further, while the Board considered at the same meeting the advisory contracts and sub-advisory contracts that were subject to renewal for the funds under its jurisdiction, the Trustees considered each Portfolio's advisory and sub-advisory relationships separately.

Provided below is an overview of the Board's contract approval process in general, as well as a discussion of certain specific factors that the Board considered at its renewal meeting. While the Board gave its attention to

the information furnished at the request of the Independent Trustees that was most relevant to its considerations, discussed below are a number of the primary factors relevant to the Board's consideration as to whether to renew the Advisory and Sub-Advisory Contracts for the one-year period ending November 30, 2012. Each Board member may have accorded different weight to the various factors in reaching his or her conclusions with respect to the Fund's advisory and sub-advisory arrangements.

Overview of the Contract Renewal and Approval Process

The Board follows a structured process pursuant to which it seeks and considers relevant information when it decides whether to approve new or existing advisory and sub-advisory arrangements for the investment companies in the ING Fund complex under its jurisdiction, including the Fund's existing Advisory and Sub-Advisory Contracts. Among other actions, the Independent Trustees of the Board: retain the services of independent consultants with experience in the mutual fund industry to assist the Independent Trustees in working with the personnel employed by the Adviser or its affiliates who administer the Fund (Management) to identify the types of information presented to the Board to inform its deliberations with respect to advisory and sub-advisory relationships and to help evaluate that information; evaluate industry best practices in regards to the consideration of investment advisory and sub-advisory contracts; established a specific format in which certain requested information is provided to the Board; and determine the process for reviewing such information in connection with advisory and sub-advisory contract renewals and approvals. The result is a process (the Contract Review Process) employed by the Board and its Independent Trustees to review and analyze information in connection with the annual renewal of the ING Funds' advisory and sub-advisory contracts, as well as the review and approval of new advisory and sub-advisory relationships.

Since the Contract Review Process was first implemented, the Board's membership has changed substantially through periodic retirements of some Trustees and the appointment and election of new Trustees. In addition, the Independent Trustees have reviewed and refined the renewal and approval process at least annually in order to request additional information from Management and address certain unique characteristics

Edgar Filing: ING Risk Managed Natural Resources Fund - Form N-CSR

related to the introduction of new ING Funds.

Table of Contents

ADVISORY CONTRACT APPROVAL DISCUSSION (UNAUDITED) (CONTINUED)

The Board has established two Investment Review Committees (each, an IRC), which meet independently and, at times, jointly, and a Contracts Committee. Among other matters, the Contracts Committee provides oversight with respect to the contracts renewal and approval process, and the Fund is assigned to the IRCs jointly which provides oversight regarding, among other matters, the investment performance of the Adviser and Sub-Adviser, as well as the oversight by the Adviser of the performance of the Sub-Adviser. The IRCs may apply a heightened level of scrutiny in cases where performance has lagged a portfolio's relevant benchmark and/or selected peer group of investment companies (Selected Peer Groups).

The type and format of the information provided to the Board or to legal counsel for the Independent Trustees in connection with the contract approval and renewal process has been codified in the ING Funds' 15(c) Methodology Guide. This Guide was developed under the direction of the Independent Trustees and sets out a blueprint pursuant to which the Independent Trustees request certain information that they deem important to facilitate an informed review in connection with initial and annual approvals of advisory and sub-advisory contracts.

Management provides certain of the information requested by the 15(c) Methodology Guide in Fund Analysis and Comparison Tables (FACT sheets) prior to the Independent Trustees' review of advisory and sub-advisory arrangements (including the Fund's Advisory and Sub-Advisory Contracts). The Independent Trustees previously retained an independent firm to verify and test the accuracy of certain FACT sheet data for a representative sample of funds in the ING Fund complex. In addition, the Contracts Committee routinely employs the services of an independent consultant to assist in its review and analysis of, among other matters, the 15(c) Methodology Guide, the content and format of the FACT sheets, and Selected Peer Groups to be used by the Fund for certain comparison purposes during the renewal process. As part of an ongoing process, the Contracts Committee recommends or considers recommendations from Management for refinements to the 15(c) Methodology Guide and other aspects of the review process, and the Board's IRCs review benchmarks used to assess the performance of funds in the ING Fund complex.

The Board employed its process for reviewing contracts when considering the renewals of the Fund's Advisory and Sub-Advisory Contracts that would be effective

through November 30, 2012. Set forth below is a discussion of many of the Board's primary considerations and conclusions resulting from this process.

Nature, Extent and Quality of Service

In determining whether to approve the Advisory and Sub-Advisory Contracts for the Fund for the year ending November 30, 2012, the Independent Trustees received and evaluated such information as they deemed necessary regarding the nature, extent and quality of services provided to the Fund by the Adviser and Sub-Adviser. This included information regarding the Adviser and Sub-Adviser provided throughout the year at regular meetings of the Board and its committees, as well as information furnished in connection with the contract renewal meetings.

The materials requested by the Independent Trustees and provided to the Board, K&L Gates and/or independent consultants that assist the Independent Trustees prior to the November 17, 2011 Board meeting included, among other information, the following items for the Fund: (1) FACT sheets that provided information regarding the performance and expenses of the Fund and other similarly managed funds in its Selected Peer Group, as well as information regarding the Fund's investment portfolio, objective and strategies; (2) reports providing risk and attribution analyses of the Fund; (3) the 15(c) Methodology Guide, which describes how the FACT sheets were prepared, including the manner in which the Fund's benchmark and Selected Peer Group were selected and how profitability was determined; (4) responses from the Adviser and Sub-Adviser to a series of questions posed by K&L Gates on behalf of the Independent Trustees; (5) copies of the forms of Advisory and Sub-Advisory Contracts; (6) copies of the Forms ADV for the Adviser and Sub-Adviser; (7) financial statements for the Adviser and Sub-Adviser; (8) a draft of a narrative summary addressing key factors the Board customarily considers in evaluating the renewals of the ING Funds (including the Fund's) advisory contracts and sub-advisory contracts, including a written analysis for the Fund of how performance, fees and expenses compare to its Selected Peer Group and/or designated benchmark(s); (9) independent analyses of Fund performance by the Fund's Chief Investment Risk Officer; and (10) other information relevant to the Board's evaluations.

Edgar Filing: ING Risk Managed Natural Resources Fund - Form N-CSR

The Board also noted that ING Groep, N.V. (ING Groep) the ultimate parent company of the Adviser

Table of Contents

ADVISORY CONTRACT APPROVAL DISCUSSION (UNAUDITED) (CONTINUED)

and Sub-Adviser, has announced plans for the separation of its U.S.-based insurance, retirement services and investment management operations, which include the Adviser and Sub-Adviser, into an independent, standalone company by the end of 2013. In addition ING Groep also announced that it will pursue an initial public offering for its European based insurance and investment management operations and explore options other than an initial public offering for its Asian insurance and investment management operations. The Board further noted that this separation may result in the Adviser and Sub-Adviser's loss of access to the services and resources of their current ultimate parent company, which could adversely affect their businesses and profitability. The Board recognized that, if the separation plans are deemed to be a change of control, the investment advisory and sub-advisory agreements for the Fund would terminate and trigger the necessity for new agreements, which would require the approval of the Board and, potentially, the shareholders of a Fund. The Board also recognized that there can be no assurance that the separation plan will be carried out. The Board considered the potential effects of the separation on the Fund and the Adviser and Sub-Adviser, including its ability prior to, during and after the separation to perform the same level of service to the Fund as the Adviser and Sub-Adviser currently provide. In this regard, the Board noted that the Adviser and Sub-Adviser did not currently anticipate that the separation would have a material adverse impact on the Fund or their operations and administration.

The Fund's common shares were used for purposes of certain comparisons to the funds in its Selected Peer Group. Common shares were selected because they are the only Fund class issued and outstanding. The common shares were compared to the analogous class of shares for each fund in the Selected Peer Group. The mutual funds included in the Fund's Selected Peer Group were selected based upon criteria designed to mirror the Fund share class being compared to the Selected Peer Group.

In arriving at its conclusions with respect to the Advisory Contract, the Board was mindful of the manager-of-managers platform of the ING Funds that has been developed by the Adviser. The Board recognized that the Adviser is responsible for monitoring the investment program and performance of the Sub-Adviser under this manager-of-managers arrangement. The Board also considered the techniques and resources that the Adviser has developed to provide ongoing oversight of the nature and quality of

the services the Sub-Adviser provides to the Fund and the Sub-Adviser's compliance with applicable laws and regulations. The Board noted that to assist in the selection and monitoring of the Sub-Adviser, the Adviser has developed an oversight process formulated by its Manager Research & Selection Group (MRSG), which analyzes both qualitative (such as in-person meetings and telephonic meetings with sub-advisers and research on sub-advisers) and quantitative information (such as performance data, portfolio data and attribution analysis) about the Sub-Adviser and the Fund. The Board recognized that the MRSG also typically provides in-person reports to the IRCs at their meetings prior to any Sub-Adviser presentations. In addition, the Board noted that the MRSG prepares periodic due diligence reports regarding the Sub-Adviser based on on-site visits and information and analysis which team members use to attempt to gain and maintain an in-depth understanding of the Sub-Adviser's investment process and to try to identify issues that may be relevant to the Sub-Adviser's services to the Fund and/or its performance. The Board also noted that the MRSG provides written reports on these due diligence analyses to the pertinent IRC. The Board noted the resources that the Adviser and Management has committed to its services as a manager-of-managers, including resources for reporting to the Board and the IRCs to assist them with their assessment of the investment performance of the Fund on an on-going basis throughout the year. This includes the appointment of a Chief Investment Risk Officer and his staff, who report directly to the Board and who have developed attribution analyses and other metrics used by the IRCs to analyze the key factors underlying investment performance for the funds in the ING Fund complex.

The Board also considered the techniques that the Adviser has developed to screen and perform due diligence on new sub-advisers if and when the Adviser recommends to the Board a new sub-adviser to manage an ING Fund.

The Board also considered that in the course of monitoring performance of the Sub-Adviser, the MRSG has developed, based on guidance from the IRCs, a methodology for comparing performance of the Fund to a Selected Peer Group. The Board also recognized that the MRSG provides the IRCs with regular updates on the Fund and alerts the IRCs to potential issues as they arise. The Board also noted that the Adviser regularly monitors performance, personnel, compliance and myriad other issues that may arise on a day-to-day basis with regards to the Sub-Adviser and noted that, if

Table of Contents

ADVISORY CONTRACT APPROVAL DISCUSSION (UNAUDITED) (CONTINUED)

issues are identified either through formal or informal processes, they are brought before the IRCs and the Board for consideration and action and the Adviser consistently makes its resources available to the Board and the Committees to assist with addressing any issues that arise.

The Board noted that the Fund also benefits from the services of the Adviser's Investment Risk Management Department (the IRMD), under the leadership of the Chief Investment Risk Officer, the costs of which are shared by the Fund and the Adviser. The Board noted that the IRMD regularly presents written materials and reports to the IRCs that focus on the investment risks of the Fund. The Board also noted that the IRMD provides the IRCs with analyses that are developed to assist the IRCs in identifying trends in Fund performance and other areas over consecutive periods. The Board noted that the services provided by the IRMD are meant to provide an additional perspective for the benefit of the Committees, which may vary from the perspective of the MRSG.

The Board also noted the techniques used by the Adviser to monitor the performance of the Sub-Adviser and the proactive approach that the Adviser, working in cooperation with the IRCs, has taken to advocate or recommend, when it believed appropriate, changes designed to assist in improving the Fund's performance.

In considering the Fund's Advisory Contract, the Board also considered the extent of benefits provided to the Fund's shareholders, beyond advisory services, from being part of the ING family of funds. This includes, in most cases, the right to exchange or transfer investments, without a sales charge, between the same class of shares of such funds or among ING Funds available on a product platform, and the wide range of ING Funds available for exchange or transfer. The Board also took into account the Adviser's ongoing efforts to reduce the expenses of the ING Funds through renegotiated arrangements with the ING Funds' service providers. In addition, the Board considered the efforts of the Adviser and the expenses that it incurred in recent years to help make the ING Fund complex more balanced and efficient by the launch of new investment products and the combinations of similar funds.

Further, the Board received periodic reports showing that the investment policies and restrictions for the Fund were consistently complied with and other periodic reports covering matters such as compliance by Adviser and Sub-Adviser personnel with codes of ethics.

The Board considered reports from the Fund's Chief Compliance Officer (CCO) evaluating whether the regulatory compliance systems and procedures of the Adviser and Sub-Adviser are reasonably designed to assure compliance with the federal securities laws, including those related to, among others, late trading and market timing, best execution, fair value pricing, proxy voting and trade allocation practices. The Board also took into account the CCO's annual and periodic reports and recommendations with respect to service provider compliance programs. In this regard, the Board also considered the policies and procedures developed by the CCO in consultation with the Board's Compliance Committee that guide the CCO's compliance oversight function.

The Board reviewed the level of staffing, quality and experience of the Fund's portfolio management team. The Board took into account the respective resources and reputations of the Adviser and Sub-Adviser, and evaluated the ability of the Adviser and the Sub-Adviser to attract and retain qualified investment advisory personnel. The Board also considered the adequacy of the resources committed to the Fund (and other relevant funds in the ING Fund complex) by the Adviser and Sub-Adviser, and whether those resources are commensurate with the needs of the Fund and are sufficient to sustain appropriate levels of performance and compliance needs. In this regard, the Board considered the financial stability of the Adviser and the Sub-Adviser.

Based on their deliberations and the materials presented to them, the Board concluded that the advisory and related services provided by the Adviser and Sub-Adviser are appropriate in light of the Fund's operations, the competitive landscape of the investment company business, and investor needs, and that the nature and quality of the overall services provided by the Adviser and the Sub-Adviser were appropriate.

Fund Performance

In assessing the advisory and sub-advisory relationships for the Fund, the Board placed emphasis on the investment returns of the Fund. While the Board considered the performance reports and discussions with portfolio managers at Board and committee meetings during the year,

Edgar Filing: ING Risk Managed Natural Resources Fund - Form N-CSR

particular attention in assessing performance was given to the FACT sheets furnished in connection with the renewal process. The FACT sheet prepared for the Fund included its investment performance compared to the Fund s

Table of Contents

ADVISORY CONTRACT APPROVAL DISCUSSION (UNAUDITED) (CONTINUED)

Morningstar category median and/or Lipper category median, Selected Peer Group and primary benchmark. The FACT sheet performance data was as of June 30, 2011. In addition, the Board also considered at its November 17, 2011 meeting certain additional data regarding performance and Fund asset levels as of October 31, 2011.

The Fund's performance was compared to its Morningstar category median and average, as well as its primary benchmark, a broad-based securities market index that appears in the Fund's shareholder report. With respect to Morningstar quintile rankings, the first quintile represents the highest (best) performance and the fifth quintile represents the lowest performance. The Fund's management fee and expense ratio were compared to the fees and expense ratios of the funds in its Selected Peer Group.

In considering whether to approve the renewal of the Advisory and Sub-Advisory Contracts for the Fund, the Board considered that, based on performance data for the periods ended June 30, 2011: (1) the Fund underperformed its Morningstar category median for all periods presented; (2) the Fund outperformed its primary benchmark for all periods presented, with the exception of the year-to-date and one-year periods, during which it underperformed; and (3) the Fund is ranked in the third quintile of its Morningstar category for the three-year period, the fourth quintile for the most recent calendar quarter and the fifth (lowest) quintile for the year-to-date and one-year periods.

Economies of Scale

When evaluating the reasonableness of advisory fee rates, the Board also considered whether economies of scale likely will be realized by the Adviser and Sub-Adviser as the Fund grows larger and the extent to which any such economies are reflected in contractual fee rates. The Board noted that the Fund, as a closed-end fund, generally does not issue new shares and is less likely to realize economies of scale from additional share purchases. In this regard, the Board considered that the Fund does not have advisory fee breakpoints. In the case of sub-advisory fees, the Board considered that breakpoints would inure to the benefit of the Adviser. In this connection, the Board considered the extent to which economies of scale could be realized through such fee waivers, expense reimbursements or other expense reductions. In evaluating fee breakpoint arrangements and economies of scale, the Independent Trustees also considered prior periodic management reports, industry information on this topic and the Fund's investment performance.

Information Regarding Services to Other Clients

The Board requested and considered information regarding the nature of services and fee rates offered by the Adviser and Sub-Adviser to other clients, including other registered investment companies and relevant institutional accounts. When fee rates offered to other clients differed materially from those charged to a Fund, the Board considered any underlying rationale provided by the Adviser or Sub-Adviser for these differences. The Board also noted that the fee rates charged to the Fund and other institutional clients of the Adviser or Sub-Adviser (including other investment companies) may differ materially due to, among other reasons: differences in services; different regulatory requirements associated with registered investment companies, such as Fund, as compared to non-registered investment company clients; market differences in fee rates that existed when a Fund first was organized; differences in the original sponsors of the Fund that now are managed by the Adviser; investment capacity constraints that existed when certain contracts were first agreed upon or that might exist at present; and different pricing structures that are necessary to be competitive in different marketing channels.

Fee Rates and Profitability

The Board reviewed and considered the contractual investment advisory fee rate, combined with the administrative fee rate, payable by the Fund to the Adviser. The Board also considered the contractual sub-advisory fee rate payable by the Adviser to the Sub-Adviser for sub-advisory services for the Fund, including the portion of the contractual advisory fees that are paid to the Sub-Adviser, as compared to the portion retained by the Adviser. In addition, the Board considered fee waivers and expense limitations applicable to the fees payable by the Fund.

The Board considered: (1) the fee structure of the Fund as it relates to the services provided under the contracts; and (2) the potential fall-out benefits to the Adviser and the Sub-Adviser and their respective affiliates from their association with the Fund. The Board separately determined

Edgar Filing: ING Risk Managed Natural Resources Fund - Form N-CSR

that the fees payable to the Adviser and the fees payable to the Sub-Adviser are reasonable for the services that each performs, which were considered in light of the nature and quality of the services that each has performed and is expected to perform.

In considering the fees payable under the Advisory and Sub-Advisory Contracts for the Fund, the Board took

Table of Contents

ADVISORY CONTRACT APPROVAL DISCUSSION (UNAUDITED) (CONTINUED)

into account the factors described above and also considered: (1) the fairness of the compensation under an Advisory Contract with a level fee rate that does not include breakpoints; and (2) the pricing structure (including the expense ratio to be borne by shareholders) of the Fund, as compared to its Selected Peer Group, including that: (a) the management fee (inclusive of a 0.10% administration fee) for the Fund is above the median and the average management fees of the funds in its Selected Peer Group; and (b) the expense ratio for the Fund is below the median and the average expense ratios of the funds in its Selected Peer Group.

In analyzing this fee data, the Board took into account Management's representations that closed-end funds have unique distribution characteristics and their pricing structures are highly driven by the market and competitive environment at the time of their initial offering when their fee structures were established.

In analyzing the profitability of the Adviser and Sub-Adviser in connection with their services to the Fund, the Board considered information on revenues, costs and profits realized by the Adviser and Sub-Adviser which was prepared by Management in accordance with the allocation methodology (including stated assumptions) contained in the 15(c) Methodology Guide. In analyzing the profitability of the Adviser in connection with its services, the Board took into account the sub-advisory fee rate payable by the Adviser to the Sub-Adviser. In addition, the Board considered information that it requested and was provided by Management with respect to the profitability of service providers affiliated with the Adviser. In this regard, the Board also noted that the Adviser (and not the Fund) pays the sub-advisory fees earned by the Sub-Adviser.

Although the 15(c) Methodology Guide establishes certain standards for profit calculation, the Board recognized that profitability analysis on a client-by-client basis is not an exact science and there is no uniform methodology within the asset management industry for determining profitability for this purpose.

In this context, the Board realized that Management's calculations regarding its costs incurred in establishing the infrastructure necessary for the Fund's operations may not be fully reflected in the expenses allocated to the Fund in determining profitability, and that the information presented may not portray all of the costs borne by the Adviser and Management or capture their entrepreneurial risk associated with offering and managing a mutual fund complex in the current regulatory and market environment. In addition, the Board recognized that the use of different methodologies for purposes of calculating profit data can give rise to dramatically different profit and loss results.

In making its determinations, the Board based its conclusions as to the reasonableness of the advisory and sub-advisory fees of the Adviser and Sub-Adviser primarily on the factors described for the Fund herein. At the request of the Board, the Adviser has from time to time agreed to implement remedial actions regarding certain ING Funds. These remedial actions have included, among others: reductions in fee rates; changes in sub-advisers or portfolio managers; and strategy modifications.

Conclusion

After its deliberation, the Board reached the following conclusions: (1) the Fund's management fee rate is reasonable in the context of all factors considered by the Board; (2) the Fund's expense ratio is reasonable in the context of all factors considered by the Board; (3) the Fund's performance is reasonable in the context of all factors considered by the Board; and (4) the sub-advisory fee rate payable by the Adviser to the Sub-Adviser is reasonable in the context of all factors considered by the Board. Based on these conclusions and other factors, the Board voted to renew the Advisory and Sub-Advisory Contracts for the Fund for the year ending November 30, 2012. During this renewal process, different Board members may have given different weight to different individual factors and related conclusions.

SHAREHOLDER MEETING INFORMATION (UNAUDITED)

An annual meeting of shareholders of the ING Risk Managed Natural Resources Fund was held June 30, 2011, at the offices of ING Funds, 7337 East Doubletree Ranch Road, Scottsdale, AZ 85258.

Proposal:

- 1 To elect four members of the Board of Trustees to represent the interests of the holders of Common Shares of the Fund, with all four individuals to serve as Class II Trustees, for a term of three-years, and until the election and qualification of their successors.

	Proposal*	Shares voted			Total Shares Voted
		Shares voted for	against or withheld	Shares abstained	
Class II Trustees	J. Michael Earley	20,965,091.662	522,010.036		21,487,101.698
	Patrick W. Kenny	20,961,906.662	525,195.036		21,487,101.698
	Shaun P. Mathews	21,049,527.184	437,574.514		21,487,101.698
	Roger B. Vincent	21,048,828.783	438,272.915		21,487,101.698

* Proposal Passed

ADDITIONAL INFORMATION (UNAUDITED)

During the period, there were no material changes in the Fund's investment objective or policies that were not approved by the shareholders or the Fund's charter or by-laws or in the principal risk factors associated with investment in the Fund. Strategy changes during the period are listed below. Effective December 1, 2011, David Powers is no longer responsible for the day-to-day management of the Fund's portfolio.

During the fiscal year, the Fund reduced its quarterly distribution from \$0.363 to \$0.330 per quarter, commencing with the distribution paid on January 17, 2012.

In order to implement the Fund's collar strategy, the Fund employs a risk-managed style on a portion of the underlying equity portfolio. Approximately 70% of the value of the equity portfolio is invested in securities in the energy and materials indices in which the Fund's collar strategy is implemented and the portfolio weights for these stocks generally reflect index weights.

The Fund's collar strategy seeks to create a put spread position by purchasing put options approximately 5% out-of-the-money usually on a three month basis and for an amount approximating 100% of the value of the Fund's underlying assets while simultaneously, selling put options approximately 10-20% out-of-the-money and the same maturity and amount. The Fund retains the flexibility to create put spreads for an amount approximating 0-100% of the value of the Fund's underlying assets.

The Fund usually also writes call options at-the-money or near to-the-money, usually on a one-month basis and for an amount equal to 40-100% of the value of the Fund's underlying assets.

The Fund may lend portfolio securities in an amount equal to up to 33 1/3% of its managed assets to broker dealers or other institutional borrowers, in exchange for cash collateral and fees. The fund may use the cash collateral in connection with the Fund's investment program as approved by the Adviser, including generating cash to cover collateral posting requirements. Although the Fund has no current intention to do so, it may use the cash collateral to generate additional income. The use of cash collateral in connection with the Fund's investment program may have a leveraging effect on the Fund, which would increase the volatility of the Fund and could reduce its returns and/or cause a loss.

The Fund intends to engage in lending portfolio securities only when such lending is secured by cash or other permissible collateral in an amount at least equal

to the market value of the securities loaned. The Fund will maintain cash, cash equivalents or liquid securities holdings in an amount sufficient to cover its repayment obligation with respect to the collateral marked to market on a daily basis.

Securities lending involves the risks of delay in recovery or even loss of rights in the securities loaned if the borrower of the securities falls financially. Loans will be made only to organizations whose credit quality or claims paying ability is considered by the Sub-Adviser to be at least investment grade. The financial condition of the borrower will be monitored by the Adviser on an ongoing basis. The Fund will not lend portfolio securities subject to a written American style covered call option contract. The Fund may lend portfolio securities subject to a written European style covered call option contract as long as the lending period is less than or equal to the term of the covered call option contract.

Dividend Reinvestment Plan

Unless the registered owner of Common Shares elects to receive cash by contacting Computershare Shareowner Services LLC (the Plan Agent), all dividends declared on Common Shares of the Fund will be automatically reinvested by the Plan Agent for shareholders in additional Common Shares of the Fund through the Fund's Dividend Reinvestment Plan (the Plan). Shareholders who elect not to participate in the Plan will receive all dividends and other distributions in cash paid by check mailed directly to the shareholder of record (or, if the Common Shares are held in street or other nominee name, then to such nominee) by the Plan Agent. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Agent prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional Common Shares of the Fund for you. If

Edgar Filing: ING Risk Managed Natural Resources Fund - Form N-CSR

you wish for all dividends declared on your Common Shares of the Fund to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Agent will open an account for each Common Shareholder under the Plan in the same name in which such Common Shareholder's Common Shares are registered. Whenever the Fund declares a dividend or other distribution (together, a Dividend) payable in

Table of Contents

ADDITIONAL INFORMATION (UNAUDITED) (CONTINUED)

cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Shares. The Common Shares will be acquired by the Plan Agent for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Shares from the Fund (Newly Issued Common Shares) or (ii) by purchase of outstanding Common Shares on the open market (Open-Market Purchases) on the NYSE or elsewhere. Open-market purchases and sales are usually made through a broker affiliated with the Plan Agent.

If, on the payment date for any Dividend, the closing market price plus estimated brokerage commissions per Common Share is equal to or greater than the net asset value per Common Share, the Plan Agent will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per Common Share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common Share on the payment date. If, on the payment date for any Dividend, the net asset value per Common Share is greater than the closing market value plus estimated brokerage commissions, the Plan Agent will invest the Dividend amount in Common Shares acquired on behalf of the participants in Open-Market Purchases. In the event of a market discount on the payment date for any Dividend, the Plan Agent will have until the last business day before the next date on which the Common Shares trade on an ex-dividend basis or 30 days after the payment date for such Dividend, whichever is sooner (the Last Purchase Date), to invest the Dividend amount in Common Shares acquired in Open-Market Purchases.

The Fund pays quarterly Dividends. Therefore, the period during which Open-Market Purchases can be made will exist only from the payment date of each Dividend through the date before the next ex-dividend date, which typically will be approximately ten days.

If, before the Plan Agent has completed its Open-Market Purchases, the market price per common share exceeds the net asset value per Common Share, the average per Common Share purchase price paid by the Plan Administrator may exceed the net asset value of

the Common Shares, resulting in the acquisition of fewer Common Shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Agent is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Agent will cease making Open-Market Purchases and will invest the un-invested portion of the Dividend amount in Newly Issued Common Shares at the net asset value per common share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per Common Share, the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

The Plan Agent maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common Shares in the account of each Plan participant will be held by the Plan Agent on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Agent will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of Common Shares certified from time to time by the record shareholder's name and held for the account of beneficial owners who participate in the Plan.

There will be no brokerage charges with respect to Common Shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. Participants that request a partial or full sale of shares through the Plan Agent are subject to a \$15.00 sales fee and a \$0.10 per share brokerage commission on purchases or sales, and may be subject to certain other service charges.

Edgar Filing: ING Risk Managed Natural Resources Fund - Form N-CSR

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants

Table of Contents

ADDITIONAL INFORMATION (UNAUDITED) (CONTINUED)

with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All questions concerning the Plan should be directed to the Fund's Shareholder Service Department at (800) 992-0180.

KEY FINANCIAL DATES CALENDAR 2012 DISTRIBUTIONS:

Declaration Date	Ex-Dividend Date	Payable Date
March 15, 2012	April 2, 2012	April 16, 2012
June 15, 2012	July 2, 2012	July 16, 2012
September 17, 2012	October 1, 2012	October 15, 2012
December 17, 2012	December 27, 2012	January 15, 2013

Record date will be two business days after each Ex-Dividend Date. These dates are subject to change.

Stock Data

The Fund's common shares are traded on the NYSE (Symbol: IRR).

Repurchase of Securities by Closed-End Companies

In accordance with Section 23(c) of the 1940 Act, and Rule 23c-1 under the 1940 Act the Fund may from time

to time purchase shares of beneficial interest of the Fund in the open market, in privately negotiated transactions and/or purchase shares to correct erroneous transactions.

Number of Shareholders

The approximate number of record holders of Common Stock as of February 29, 2012 was 20,772, which does not include beneficial owners of shares held in the name of brokers or other nominees.

Certifications

In accordance with Section 303A.12 (a) of the New York Stock Exchange Listed Company Manual, the Fund's CEO submitted the Annual CEO Certification on July 29, 2011 certifying that he was not aware, as of that date, of any violation by the Fund of the NYSE's Corporate governance listing standards. In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules, the Fund's principal executive and financial officers have made quarterly certifications, included in filings with the SEC on Forms N-CSR and N-Q, relating to, among other things, the Fund's disclosure controls and procedures and internal controls over financial reporting.

Item 2. Code of Ethics.

As of the end of the period covered by this report, Registrant had adopted a code of ethics, as defined in Item 2 of Form N-CSR, that applies to the Registrant's principal executive officer and principal financial officer. There were no amendments to the Code during the period covered by the report. The Registrant did not grant any waivers, including implicit waivers, from any provisions of the Code during the period covered by this report. The code of ethics is filed herewith pursuant to Item 10 (a)(1), Exhibit 99.CODE ETH.

Item 3. Audit Committee Financial Expert.

The Board of Trustees has determined that J. Michael Earley, Peter S. Drotch and Colleen Baldwin are audit committee financial experts, as defined in Item 3 of Form N-CSR. Mr. Earley, Mr. Drotch and Ms. Baldwin are independent for purposes of Item 3 of Form N-CSR.

Item 4. Principal Accountant Fees and Services.

- (a) **Audit Fees:** The aggregate fees billed for professional services rendered by KPMG LLP (KPMG), the principal accountant for the audit of the registrant's annual financial statements, for services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for the fiscal year was \$22,800 for year ended February 29, 2012 and \$22,300 for year ended February 28, 2011.
- (b) **Audit-Related Fees:** The aggregate fees billed in each of the last two fiscal years for assurance and related services by KPMG that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of this item were \$2,400 for the year ended February 29, 2012 and \$2,150 for the year ended February 28, 2011.
- (c) **Tax Fees:** The aggregate fees billed for professional services rendered by KPMG for tax compliance, tax advice, and tax planning was \$7,595 in the year ended February 29, 2012 and \$7,654 in the year ended February 28, 2011. Such services include review of excise distribution calculations (if applicable), preparation of the Funds' federal, state and excise tax returns, tax services related to mergers and routine consulting.
- (d) **All Other Fees:** NONE.
- (e)(1) **Audit Committee Pre-Approval Policies and Procedures**

Table of Contents

AUDIT AND NON-AUDIT SERVICES

PRE-APPROVAL POLICY

I. Statement of Principles

Under the Sarbanes-Oxley Act of 2002 (the Act), the Audit Committee of the Board of Directors or Trustees (the Committee) of the ING Funds (each a Fund, collectively, the Funds) set out on Exhibit A to this Audit and Non-Audit Services Pre-Approval Policy (Policy) is responsible for the oversight of the work of the Funds' independent auditors. As part of its responsibilities, the Committee must pre-approve the audit and non-audit services performed by the auditors in order to assure that the provision of these services does not impair the auditors' independence from the Funds. The Committee has adopted, and the Board has ratified, this Policy, which sets out the procedures and conditions under which the services of the independent auditors may be pre-approved.

Under Securities and Exchange Commission (SEC) rules promulgated in accordance with the Act, the Funds may establish two different approaches to pre-approving audit and non-audit services. The Committee may approve services without consideration of specific case-by-case services (general pre-approval) or it may pre-approve specific services (specific pre-approval). The Committee believes that the combination of these approaches contemplated in this Policy results in an effective and efficient method for pre-approving audit and non-audit services to be performed by the Funds' independent auditors. Under this Policy, services that are not of a type that may receive general pre-approval require specific pre-approval by the Committee. Any proposed services that exceed pre-approved cost levels or budgeted amounts will also require the Committee's specific pre-approval.

For both types of approval, the Committee considers whether the subject services are consistent with the SEC's rules on auditor independence and that such services are compatible with maintaining the auditors' independence. The Committee also considers whether a particular audit firm is in the best position to provide effective and efficient services to the Funds. Reasons that the auditors are in the best position include the auditors' familiarity with the Funds' business, personnel, culture, accounting systems, risk profile, and other factors, and whether the services will enhance the Funds' ability to manage and control risk or improve audit quality. Such factors will be considered as a whole, with no one factor being determinative.

The appendices attached to this Policy describe the audit, audit-related, tax-related, and other services that have the Committee's general pre-approval. For any service that has been approved through general pre-approval, the general pre-approval will remain in place for a period 12 months from the date of pre-approval, unless the Committee determines that a different period is appropriate. The Committee will annually review and pre-approve the services that may be provided by the independent auditors without specific pre-approval. The Committee will revise the list of services subject to general pre-approval as appropriate. This Policy does not serve as a delegation to Fund management of the Committee's duty to pre-approve services performed by the Funds' independent auditors.

Table of Contents

II. Audit Services

The annual audit services engagement terms and fees are subject to the Committee's specific pre-approval. Audit services are those services that are normally provided by auditors in connection with statutory and regulatory filings or engagements or those that generally only independent auditors can reasonably provide. They include the Funds' annual financial statement audit and procedures that the independent auditors must perform in order to form an opinion on the Funds' financial statements (*e.g.*, information systems and procedural reviews and testing). The Committee will monitor the audit services engagement and approve any changes in terms, conditions or fees deemed by the Committee to be necessary or appropriate.

The Committee may grant general pre-approval to other audit services, such as statutory audits and services associated with SEC registration statements, periodic reports and other documents filed with the SEC or issued in connection with securities offerings.

The Committee has pre-approved the audit services listed on Appendix A. The Committee must specifically approve all audit services not listed on Appendix A.

III. Audit-related Services

Audit-related services are assurance and related services that are reasonably related to the performance of the audit or the review of the Funds' financial statements or are traditionally performed by the independent auditors. The Committee believes that the provision of audit-related services will not impair the independent auditors' independence, and therefore may grant pre-approval to audit-related services. Audit-related services include accounting consultations related to accounting, financial reporting or disclosure matters not classified as audit services; assistance with understanding and implementing new accounting and financial reporting guidance from rulemaking authorities; agreed-upon or expanded audit procedures relating to accounting and/or billing records required to respond to or comply with financial, accounting or regulatory reporting matters; and assistance with internal control reporting requirements under Form N-SAR or Form N-CSR.

The Committee has pre-approved the audit-related services listed on Appendix B. The Committee must specifically approve all audit-related services not listed on Appendix B.

IV. Tax Services

The Committee believes the independent auditors can provide tax services to the Funds, including tax compliance, tax planning, and tax advice, without compromising the auditors' independence. Therefore, the Committee may grant general pre-approval with respect to tax services historically provided by the Funds' independent auditors that do not, in the Committee's view, impair auditor independence and that are consistent with the SEC's rules on auditor independence.

The Committee will not grant pre-approval if the independent auditors initially recommends a transaction the sole business purpose of which is tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related regulations. The Committee may consult outside counsel to determine that tax planning and reporting positions are consistent with this Policy.

Table of Contents

The Committee has pre-approved the tax-related services listed on Appendix C. The Committee must specifically approve all tax-related services not listed on Appendix C.

V. Other Services

The Committee believes it may grant approval of non-audit services that are permissible services for independent auditors to a Fund. The Committee has determined to grant general pre-approval to other services that it believes are routine and recurring, do not impair auditor independence, and are consistent with SEC rules on auditor independence.

The Committee has pre-approved the non-audit services listed on Appendix D. The Committee must specifically approve all non-audit services not listed on Appendix D.

A list of the SEC's prohibited non-audit services is attached to this Policy as Appendix E. The SEC's rules and relevant guidance should be consulted to determine the precise definitions of these impermissible services and the applicability of exceptions to certain of the SEC's prohibitions.

VI. Pre-approval of Fee levels and Budgeted Amounts

The Committee will annually establish pre-approval fee levels or budgeted amounts for audit, audit-related, tax and non-audit services to be provided to the Funds by the independent auditors. Any proposed services exceeding these levels or amounts require the Committee's specific pre-approval. The Committee considers fees for audit and non-audit services when deciding whether to pre-approve services. The Committee may determine, for a pre-approval period of 12 months, the appropriate ratio between the total amount of fees for the Fund's audit, audit-related, and tax services (including fees for services provided to Fund affiliates that are subject to pre-approval), and the total amount of fees for certain permissible non-audit services for the Fund classified as other services (including any such services provided to Fund affiliates that are subject to pre-approval).

VII. Procedures

Requests or applications for services to be provided by the independent auditors will be submitted to management. If management determines that the services do not fall within those services generally pre-approved by the Committee and set out in the appendices to these procedures, management will submit the services to the Committee or its delatee. Any such submission will include a detailed description of the services to be rendered. Notwithstanding this paragraph, the Committee will, on a quarterly basis, receive from the independent auditors a list of services provided for the previous calendar quarter on a cumulative basis by the auditors during the Pre-Approval Period.

Table of Contents

VIII. Delegation

The Committee may delegate pre-approval authority to one or more of the Committee's members. Any member or members to whom such pre-approval authority is delegated must report any pre-approval decisions, including any pre-approved services, to the Committee at its next scheduled meeting. The Committee will identify any member to whom pre-approval authority is delegated in writing. The member will retain such authority for a period of 12 months from the date of pre-approval unless the Committee determines that a different period is appropriate. The period of delegated authority may be terminated by the Committee or at the option of the member.

IX. Additional Requirements

The Committee will take any measures the Committee deems necessary or appropriate to oversee the work of the independent auditors and to assure the auditors' independence from the Funds. This may include reviewing a formal written statement from the independent auditors delineating all relationships between the auditors and the Funds, consistent with Independence Standards Board No. 1, and discussing with the auditors their methods and procedures for ensuring independence.

Effective April 23, 2008, the KPMG LLP (KPMG) audit team for the ING Funds accepted the global responsibility for monitoring the auditor independence for KPMG relative to the ING Funds. Using a proprietary system called Sentinel, the audit team is able to identify and manage potential conflicts of interest across the member firms of the KPMG International Network and prevent the provision of prohibited services to the ING entities that would impair KPMG independence with the respect to the ING Funds. In addition to receiving pre-approval from the ING Funds Audit Committee for services provided to the ING Funds and for services for ING entities in the Investment Company Complex, the audit team has developed a process for periodic notification via email to the ING Funds' Audit Committee Chairpersons regarding requests to provide services to ING Groep NV and its affiliates from KPMG offices worldwide. Additionally, KPMG provides a quarterly summary of the fees for services that have commenced for ING Groep NV and Affiliates at each Audit Committee Meeting.

Last Approved: November 17, 2011

Report of Independent Registered Public Accounting Firm

The Shareholders and Board of Trustees

ING Risk Managed Natural Resources Fund

We have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the statement of assets and liabilities, including the summary portfolio of investments, of ING Risk Managed Natural Resources Fund as of February 29, 2012, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the five-year period then ended and for the period October 24, 2006 (commencement of operations) to February 28, 2007 and have issued our unqualified report thereon dated April 26, 2012 (which report and financial statements are included in Item 1 of this Certified Shareholder Report on Form N-CSR). In connection with our audits of the aforementioned financial statements and financial highlights, we also audited the related portfolio of investments included in Item 6 of this Form N-CSR. The portfolio of investments is the responsibility of management. Our responsibility is to express an opinion on the portfolio of investments based on our audits.

In our opinion, the portfolio of investments, when considered in relation to the basic financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

ING FUNDS

PROXY VOTING PROCEDURES AND GUIDELINES

Effective Date: July 10, 2003

Revision Date: March 8, 2012

I. INTRODUCTION

The following are the Proxy Voting Procedures and Guidelines (the Procedures and Guidelines) of the ING Funds set forth on *Exhibit 1* attached hereto and each portfolio or series thereof, except for any Sub-Adviser-Voted Series identified on *Exhibit 1* and further described in Section III below (each non-Sub-Adviser-Voted Series hereinafter referred to as a Fund and collectively, the Funds). The purpose of these Procedures and Guidelines is to set forth the process by which each Fund subject to these Procedures and Guidelines will vote proxies related to the equity assets in its investment portfolio (the portfolio securities). The term proxies as used herein shall include votes in connection with annual and special meetings of equity stockholders but not those regarding bankruptcy matters and/or related plans of reorganization. The Procedures and Guidelines have been approved by the Funds Boards of Trustees/Directors (each a Board and collectively, the Boards), including a majority of the independent Trustees/Directors² of the Board. These Procedures and Guidelines may be amended only by the Board. The Board shall review these Procedures and Guidelines at its discretion, and make any revisions thereto as deemed appropriate by the Board.

II. COMPLIANCE COMMITTEE

The Boards hereby delegate to the Compliance Committee of each Board (each a Committee and collectively, the Committees) the authority and responsibility to oversee the implementation of these Procedures and Guidelines, and where applicable, to make determinations on behalf of the Board with respect to the voting of proxies on behalf of each Fund. Furthermore, the Boards hereby delegate to each Committee the authority to review and approve material changes to proxy voting procedures of any Fund's investment adviser (the Adviser). The Proxy Voting Procedures of the Adviser (the Adviser Procedures) are attached hereto as *Exhibit 2*. Any determination regarding the voting of proxies of each Fund

¹ Reference in these Procedures to one or more Funds shall, as applicable, mean those Funds that are under the jurisdiction of the particular Board or Compliance Committee at issue. No provision in these Procedures is intended to impose any duty upon the particular Board or Compliance Committee with respect to any other Fund.

² The independent Trustees/Directors are those Board members who are not interested persons of the Funds within the meaning of Section 2(a)(19) of the Investment Company Act of 1940.

Effective Date: 07/10/03

Revision Date: 03/08/12

Table of Contents

that is made by a Committee, or any member thereof, as permitted herein, shall be deemed to be a good faith determination regarding the voting of proxies by the full Board. Each Committee may rely on the Adviser through the Agent, Proxy Coordinator, and/or Proxy Group (as such terms are defined for purposes of the Adviser Procedures) to deal in the first instance with the application of these Procedures and Guidelines. Each Committee shall conduct itself in accordance with its charter.

III. DELEGATION OF VOTING AUTHORITY

Except as otherwise provided for herein, the Board hereby delegates to the Adviser to each Fund the authority and responsibility to vote all proxies with respect to all portfolio securities of the Fund in accordance with then current proxy voting procedures and guidelines that have been approved by the Board. The Board may revoke such delegation with respect to any proxy or proposal, and assume the responsibility of voting any Fund proxy or proxies as it deems appropriate. Non-material amendments to the Procedures and Guidelines may be approved for immediate implementation by the President or Chief Financial Officer of a Fund, subject to ratification at the next regularly scheduled meeting of the Compliance Committee.

A Board may elect to delegate the voting of proxies to the Sub-Adviser of a portfolio or series of the ING Funds. In so doing, the Board shall also approve the Sub-Adviser's proxy policies for implementation on behalf of such portfolio or series (a Sub-Adviser-Voted Series). Sub-Adviser-Voted Series shall not be covered under these Procedures and Guidelines but rather shall be covered by such Sub-Adviser's proxy policies, provided that the Board, including a majority of the independent Trustees/Directors¹, has approved them on behalf of such Sub-Adviser-Voted Series, and ratifies any subsequent changes at the next regularly scheduled meeting of the Compliance Committee and the Board.

When a Fund participates in the lending of its securities and the securities are on loan at record date, proxies related to such securities will not be forwarded to the Adviser by the Fund's custodian and therefore will not be voted. However, the Adviser shall use best efforts to recall or restrict specific securities from loan for the purpose of facilitating a material vote as described in the Adviser Procedures.

Funds that are funds-of-funds will echo vote their interests in underlying mutual funds, which may include ING Funds (or portfolios or series thereof) other than those set forth on *Exhibit 1* attached hereto. This means that, if the fund-of-funds must vote on a proposal with respect to an underlying investment company, the fund-of-funds will vote its interest in that underlying fund in the same proportion all other shareholders in the investment company voted their interests.

A fund that is a feeder fund in a master-feeder structure does not echo vote. Rather, it passes votes requested by the underlying master fund to its shareholders. This means that, if the feeder fund is solicited by the master fund, it will request instructions from its own shareholders, either directly or, in the case of an insurance-dedicated Fund, through an insurance product or retirement plan, as to the manner in which to vote its interest in an underlying master fund.

¹ The independent Trustees/Directors are those Board members who are not interested persons of the Funds within the meaning of Section 2(a)(19) of the Investment Company Act of 1940.

Table of Contents

When a Fund is a feeder in a master-feeder structure, proxies for the portfolio securities owned by the master fund will be voted pursuant to the master fund's proxy voting policies and procedures. As such, and except as otherwise noted herein with respect to vote reporting requirements, feeder Funds shall not be subject to these Procedures and Guidelines.

IV. APPROVAL AND REVIEW OF PROCEDURES

Each Fund's Adviser has adopted proxy voting procedures in connection with the voting of portfolio securities for the Funds as attached hereto in *Exhibit 2*. The Board hereby approves such procedures. All material changes to the Adviser Procedures must be approved by the Board or the Compliance Committee prior to implementation; however, the President or Chief Financial Officer of a Fund may make such non-material changes as they deem appropriate, subject to ratification by the Board or the Compliance Committee at its next regularly scheduled meeting.

V. VOTING PROCEDURES AND GUIDELINES

The Guidelines that are set forth in *Exhibit 3* hereto specify the manner in which the Funds generally will vote with respect to the proposals discussed therein.

Unless otherwise noted, the defined terms used hereafter shall have the same meaning as defined in the Adviser Procedures

A. Routine Matters

The Agent shall be instructed to submit a vote in accordance with the Guidelines where such Guidelines provide a clear policy (*e.g.*, For, Against, Withhold, or Abstain) on a proposal. However, the Agent shall be directed to refer any proxy proposal to the Proxy Coordinator for instructions as if it were a matter requiring case-by-case consideration under circumstances where the application of the Guidelines is unclear, it appears to involve unusual or controversial issues, or an Investment Professional (as such term is defined for purposes of the Adviser Procedures) recommends a vote contrary to the Guidelines.

B. Matters Requiring Case-by-Case Consideration

The Agent shall be directed to refer proxy proposals accompanied by its written analysis and voting recommendation to the Proxy Coordinator where the Guidelines have noted "case-by-case" consideration.

Upon receipt of a referral from the Agent, the Proxy Coordinator may solicit additional research from the Agent, Investment Professional(s), as well as from any other source or service.

Table of Contents

Except in cases in which the Proxy Group has previously provided the Proxy Coordinator with standing instructions to vote in accordance with the Agent's recommendation, the Proxy Coordinator will forward the Agent's analysis and recommendation and/or any research obtained from the Investment Professional(s), the Agent, or any other source to the Proxy Group. The Proxy Group may consult with the Agent and/or Investment Professional(s), as it deems necessary.

The Proxy Coordinator shall use best efforts to convene the Proxy Group with respect to all matters requiring its consideration. In the event quorum requirements cannot be timely met in connection with a voting deadline, it shall be the policy of the Funds to vote in accordance with the Agent's recommendation, unless the Agent's recommendation is deemed to be conflicted as provided for under the Adviser Procedures, in which case no action shall be taken on such matter (*i.e.*, a Non-Vote).

1. **Within-Guidelines Votes:** Votes in Accordance with a Fund's Guidelines and/or where applicable, Agent Recommendation
In the event the Proxy Group, and where applicable, any Investment Professional participating in the voting process, recommend a vote Within Guidelines, the Proxy Group will instruct the Agent, through the Proxy Coordinator, to vote in this manner, except that the Proxy Coordinator may first consult with a Fund's Compliance Committee as described in Section V.B.5. below. Except as provided for herein, no Conflicts Report (as such term is defined for purposes of the Adviser Procedures) is required in connection with Within-Guidelines Votes.

2. **Non-Votes:** Votes in Which No Action is Taken
The Proxy Group may recommend that a Fund refrain from voting under circumstances including, but not limited to, the following: (1) if the economic effect on shareholders' interests or the value of the portfolio holding is indeterminable or insignificant, *e.g.*, proxies in connection with fractional shares, securities no longer held in the portfolio of an ING Fund or proxies being considered on behalf of a Fund that is no longer in existence; or (2) if the cost of voting a proxy outweighs the benefits, *e.g.*, certain international proxies, particularly in cases in which share blocking practices may impose trading restrictions on the relevant portfolio security. In such instances, the Proxy Group may instruct the Agent, through the Proxy Coordinator, not to vote such proxy. The Proxy Group may provide the Proxy Coordinator with standing instructions on parameters that would dictate a Non-Vote without the Proxy Group's review of a specific proxy.

Reasonable efforts shall be made to secure and vote all other proxies for the Funds, but, particularly in markets in which shareholders' rights are limited, Non-Votes may also occur in connection with a Fund's related inability to timely access ballots or other proxy information in connection with its portfolio securities.

Table of Contents

Non-Votes may also result in certain cases in which the Agent's recommendation has been deemed to be conflicted, as described in V.B. above and V.B.4. below.

3. **Out-of-Guidelines Votes:** Votes Contrary to Procedures and Guidelines, or Agent Recommendation, where applicable, Where No Recommendation is Provided by Agent, or Where Agent's Recommendation is Conflicted

If the Proxy Group recommends that a Fund vote contrary to the Guidelines, or the recommendation of the Agent, where applicable, if the Agent has made no recommendation on a matter and the Procedures and Guidelines are silent, or the Agent's recommendation on a matter is deemed to be conflicted as provided for under the Adviser Procedures, the Proxy Coordinator will then request that all members of the Proxy Group, including any members who abstained from voting on the matter or were not in attendance at the meeting at which the relevant proxy is being considered, and each Investment Professional participating in the voting process complete a Conflicts Report (as such term is defined for purposes of the Adviser Procedures). As provided for in the Adviser Procedures, the Proxy Coordinator shall be responsible for identifying to Counsel potential conflicts of interest with respect to the Agent.

If Counsel determines that a conflict of interest appears to exist with respect to the Agent, any member of the Proxy Group, or the participating Investment Professional(s), the Proxy Coordinator will then contact the Compliance Committee(s) and forward to such Committee(s) all information relevant to their review, including the following materials or a summary thereof: the applicable Procedures and Guidelines, the recommendation of the Agent, where applicable, the recommendation of the Investment Professional(s), where applicable, any resources used by the Proxy Group in arriving at its recommendation, the Conflicts Report and any other written materials establishing whether a conflict of interest exists, and findings of Counsel (as such term is defined for purposes of the Adviser Procedures). Upon Counsel's finding that a conflict of interest exists with respect to one or more members of the Proxy Group or the Advisers generally, the remaining members of the Proxy Group shall not be required to complete a Conflicts Report in connection with the proxy.

If Counsel determines that there does not appear to be a conflict of interest with respect to the Agent, any member of the Proxy Group, or the participating Investment Professional(s), the Proxy Coordinator will instruct the Agent to vote the proxy as recommended by the Proxy Group.

A vote that is contrary to the Agent's recommendation, but is based on input from an Investment Professional provided in connection with a Guideline requiring

Table of Contents

case-by-case review while specifying that primary consideration will be given to such input, shall be not be deemed an Out-of-Guidelines Vote if the Investment Professional completes and returns a Conflicts Report and Counsel determines that no conflict of interest appears to be present. The Proxy Group shall not be required to complete a Conflicts Report in connection with such votes.

4. Referrals to a Fund's Compliance Committee

A Fund's Compliance Committee may consider all recommendations, analysis, research and Conflicts Reports provided to it by the Agent, Proxy Group and/or Investment Professional(s), and any other written materials used to establish whether a conflict of interest exists, in determining how to vote the proxies referred to the Committee. The Committee will instruct the Agent through the Proxy Coordinator how to vote such referred proposals.

The Proxy Coordinator shall use best efforts to timely refer matters to a Fund's Committee for its consideration. In the event any such matter cannot be timely referred to or considered by the Committee, it shall be the policy of the Funds to vote in accordance with the Agent's recommendation, unless the Agent's recommendation is conflicted on a matter, in which case no action shall be taken on such matter (*i.e.*, a Non-Vote).

The Proxy Coordinator will maintain a record of all proxy questions that have been referred to a Fund's Committee, as well as all applicable recommendations, analysis, research, Conflicts Reports and vote determinations.

5. Consultation with a Fund's Compliance Committee

The Proxy Coordinator may consult with the Chair of a Fund's Compliance Committee for guidance on behalf of the Committee if application of the Procedures and Guidelines is unclear or in connection with any unusual or controversial issue or a recommendation received from an Investment Professional. The Chair may consider all recommendations, analysis, research, or Conflicts Reports provided by the Agent, Proxy Group, and/or Investment Professional(s). The Chair may provide guidance or direct the Proxy Coordinator to refer the proposal(s) to the full Compliance Committee. The guidance of the Chair, or the Committee, as applicable, shall be given primary consideration by the Proxy Group in making a vote determination.

The Proxy Coordinator will maintain a record of all proxy questions that have been referred to the Chair or Committee for guidance, as well as all applicable recommendations, analysis, research, Conflicts Reports and vote determinations.

Table of Contents

VI. CONFLICTS OF INTEREST

In all cases in which a vote has not been clearly determined in advance by the Procedures and Guidelines or for which the Proxy Group recommends an Out-of-Guidelines Vote, and Counsel has determined that a conflict of interest appears to exist with respect to the Agent, any member of the Proxy Group, or any Investment Professional participating in the voting process, the proposal shall be referred to the Fund's Committee for determination so that the Adviser shall have no opportunity to exercise voting discretion over a Fund's proxy in a situation in which the Adviser or certain other related parties or the Agent may be deemed to have a conflict of interest. In the event a member of a Fund's Committee believes he/she has a conflict of interest that would preclude him/her from making a voting determination in the best interests of the beneficial owners of the applicable Fund, such Committee member shall so advise the Proxy Coordinator and recuse himself/herself with respect to determinations regarding the relevant proxy.

VII. REPORTING AND RECORD RETENTION

A. Reporting by the Funds

Annually in August, each Fund will post its proxy voting record, or a link thereto, for the prior one-year period ending on June 30th on the ING Funds website. The proxy voting record for each Fund will also be available on Form N-PX in the EDGAR database on the SEC's website. For any Fund that is a feeder in a master/feeder structure, no proxy voting record related to the portfolio securities owned by the master fund will be posted on the ING Funds website or included in the Fund's Form N-PX; however, a cross-reference to the master fund's proxy voting record as filed in the SEC's EDGAR database will be included in the Fund's Form N-PX and posted on the ING Funds website. If any feeder fund was solicited for vote by its underlying master fund during the reporting period, a record of the votes cast by means of the pass-through process described in Section III above will be included on the ING Funds website and in the Fund's Form N-PX.

B. Reporting to a Fund's Compliance Committee

At each regularly scheduled meeting, the Committee will receive a report from the Proxy Coordinator indicating each proxy proposal, or a summary of such proposals, that was (1) voted Out-of-Guidelines, including any proposals voted Out-of-Guidelines pursuant to special circumstances raised by an Investment Professional; (2) voted Within Guidelines in cases in which an Investment Professional's recommendation was not adopted by the Proxy Group; or (3) referred to the Committee for determination in accordance with Section V hereof. Such report shall indicate the name of the issuer, the substance of the proposal, a summary of the Investment Professional's recommendation, where applicable and the reasons for voting, or recommending, an Out-of-Guidelines Vote or, in the case of (2) above, a Within-Guidelines Vote.

PROXY VOTING PROCEDURES

I. INTRODUCTION

ING Investments, LLC, ING Investment Management Co. LLC and Directed Services LLC (each an Adviser and collectively, the Advisers) are the investment advisers for the registered investment companies and each series or portfolio thereof (each a Fund and collectively, the Funds) comprising the ING family of funds. As such, the Advisers have been delegated the authority to vote proxies with respect to securities for certain Funds over which they have day-to-day portfolio management responsibility.

The Advisers will abide by the proxy voting guidelines adopted by a Fund s respective Board of Directors or Trustees (each a Board and collectively, the Boards) with regard to the voting of proxies unless otherwise provided in the proxy voting procedures adopted by a Fund s Board.

In voting proxies, the Advisers are guided by general fiduciary principles. Each must act prudently, solely in the interest of the beneficial owners of the Funds it manages. The Advisers will not subordinate the interest of beneficial owners to unrelated objectives. Each Adviser will vote proxies in the manner that it believes will do the most to maximize shareholder value.

The following are the Proxy Voting Procedures of ING Investments, LLC, ING Investment Management Co. LLC and Directed Services LLC (the Adviser Procedures) with respect to the voting of proxies on behalf of their client Funds as approved by the respective Board of each Fund.

Unless otherwise noted, best efforts shall be used to vote proxies in all instances.

Effective Date: 07/10/03

II. ROLES AND RESPONSIBILITIES

A. Proxy Coordinator

The Proxy Coordinator identified in *Appendix I* will assist in the coordination of the voting of each Fund's proxies in accordance with the ING Funds Proxy Voting Procedures and Guidelines (the Procedures or Guidelines and collectively the Procedures and Guidelines). The Proxy Coordinator is authorized to direct the Agent to vote a Fund's proxy in accordance with the Procedures and Guidelines unless the Proxy Coordinator receives a recommendation from an Investment Professional (as described below) to vote contrary to the Guidelines. In such event, and in connection with proxy proposals requiring case-by-case consideration (except in cases in which the Proxy Group has previously provided the Proxy Coordinator with standing instructions to vote in accordance with the Agent's recommendation), the Proxy Coordinator will call a meeting of the Proxy Group (as described below).

Responsibilities assigned herein to the Proxy Coordinator, or activities in support thereof, may be performed by such members of the Proxy Group or employees of the Advisers' affiliates as are deemed appropriate by the Proxy Group.

Unless specified otherwise, information provided to the Proxy Coordinator in connection with duties of the parties described herein shall be deemed delivered to the Advisers.

B. Agent

An independent proxy voting service (the Agent), as approved by the Board of each Fund, shall be engaged to assist in the voting of Fund proxies for publicly traded securities through the provision of vote analysis, implementation, recordkeeping, and disclosure services. The Agent is Institutional Shareholder Services Inc., a subsidiary of MSCI Inc. The Agent is responsible for coordinating with the Funds' custodians to ensure that all proxy materials received by the custodians relating to the portfolio securities are processed in a timely fashion. To the extent applicable, the Agent is required to vote and/or refer all proxies in accordance with these Adviser Procedures. The Agent will retain a record of all proxy votes handled by the Agent. Such record must reflect all the information required to be disclosed in a Fund's Form N-PX pursuant to Rule 30b1-4 under the Investment Company Act. In addition, the Agent is responsible for maintaining copies of all proxy statements received by issuers and to promptly provide such materi
