- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

**Item 8.01 Other Events.**

Consolidated Edison, Inc.'s utility subsidiaries, Consolidated Edison Company of New York, Inc. ( CECONY ) and Orange and Rockland Utilities, Inc. ( O&R ), have restored electric service to all of their customers whose service was interrupted by Hurricane Sandy and whose equipment can accept service. CECONY and O&R estimate, on a preliminary basis, their response and restoration costs for Hurricane Sandy (and a subsequent Nor'easter) to be \$350 million to \$450 million and \$75 million to \$100 million, respectively. The primary basis for these preliminary estimates is the experience of CECONY and O&R with Hurricane Irene. These preliminary estimates do not include the costs that will continue to be incurred to inspect and assess the condition of the energy systems of CECONY and O&R, and to repair them to their normal operating condition. These preliminary estimates are forward-looking statements that reflect expectations and not facts. Actual results may differ materially from those expectations because of factors such as those identified in reports Consolidated Edison, Inc. and CECONY have filed with the Securities and Exchange Commission.

On November 13, 2012, CECONY determined to defer until a more appropriate time the electric, gas and steam rate filings it was preparing to file in November 2012 with the New York State Public Service Commission ( NYSPSC ). CECONY's current electric rate plan covers the three-year period ending March 31, 2013. CECONY's current gas and steam rate plans cover the three-year period ending September 30, 2013. CECONY understands that base rates determined pursuant to the current rate plans and other provisions of the rate plans would continue in effect until new rate plans are effective. Either the company or the NYSPSC can initiate a proceeding for a new rate plan. A new rate plan filed by the company would take effect in approximately 11 months unless prior to such time the NYSPSC adopts a rate plan.

On November 13, 2012, the Governor of New York established a commission to review actions taken by New York utilities relating to emergency weather events, including Hurricanes Sandy and Irene and Tropical Storm Lee, and to make recommendations regarding, among other things, the oversight, management and legal framework governing power delivery services in New York.

**SIGNATURES**
