and the guarantees thereof,

which have not been registered under the Securities Act of 1933, of

Beazer Homes USA, Inc.

We will exchange all original notes that are validly tendered and not withdrawn before the end of the exchange offer for an equal principal amount of new notes that we have registered under the Securities Act of 1933.

This exchange offer expires at 5:00 p.m., New York City time, on January 11, 2013, unless extended.

No public market exists for the original notes or the new notes. We do not intend to list the new notes on any securities exchange or to seek approval for quotation through any automated quotation system.

See Risk Factors beginning on page 9 for a discussion of the risks that holders should consider prior to making a decision to exchange original notes for new notes.

The notes will be our senior secured obligations and will rank equally in right of payment with all of our existing and future senior obligations, senior to all of our existing and future subordinated indebtedness and effectively subordinated to our existing and future first-priority secured indebtedness, including indebtedness under the revolving credit facility (as defined herein) to the extent of the value of the assets securing such indebtedness. The notes and related guarantees will be structurally subordinated to all indebtedness and other liabilities of all of our subsidiaries that do not guarantee the notes. The notes and the guarantees will be secured by (subject to certain exceptions and permitted liens) substantially all the tangible and intangible assets of ours and the guarantors, but excluding in any event the capital stock of any subsidiary or other affiliate held by us or any guarantor. The notes and the guarantees will be effectively subordinated to our revolving credit facility to the extent of the value of the assets securing such facility on a first-priority basis. The notes and the guarantees will be subject to an intercreditor agreement with the lenders under the revolving credit facility. See Description of the Notes Security Intercreditor Agreement.

Each broker-dealer that receives new notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such new notes. A broker-dealer who acquired original notes as a result of market-making or other trading activities may use this prospectus, as supplemented or amended from time to time, in connection with any resales of the new notes.

The date of this prospectus is December 12, 2012

The Exchange Offer

The Exchange Offer

We are offering to exchange up to \$300,000,000 aggregate principal amount of our new 6.625% Senior Secured Notes due 2018 (the new notes) for up to \$300,000,000 aggregate principal amount of our original 6.625% Senior Secured Notes due 2018 (the original notes), which are currently outstanding. Original notes may only be exchanged in a minimum principal amount of \$2,000 and \$1,000 principal increments above such minimum. In order to be exchanged, an original note must be properly tendered and accepted. All original notes that are validly tendered and not validly withdrawn prior to the expiration of the exchange offer will be exchanged.

Resales Without Further Registration

Based on interpretations by the staff of the Securities and Exchange Commission (the SEC) in several no action letters issued to third parties, we believe that the new notes issued pursuant to the exchange offer may be offered for resale, resold or otherwise transferred by you without compliance with the registration and prospectus delivery provisions of the Securities Act of 1933 (the Securities Act) provided that:

you are acquiring the new notes issued in the exchange offer in the ordinary course of your business;

Table of Contents

you have not engaged in, do not intend to engage in, and have no arrangement or understanding with any person to participate in, the distribution of the new notes issued to you in the exchange offer in violation of the provisions of the Securities Act; and

you are not our affiliate, as defined under Rule 405 of the Securities Act.

Each broker-dealer that receives new notes for its own account in exchange for original notes, where such original notes were acquired by such broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of such new notes.

The letter of transmittal states that, by so acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of new notes received in exchange for original notes where such original notes were acquired by such broker-dealer as a result of market-making activities or other trading activities. We have agreed to use our reasonable best efforts to make this prospectus, as amended or supplemented, available to any broker-dealer for a period of 210 days after the date of this prospectus for use in connection with any such resale. See Plan of Distribution.

Expiration Date 5:00 p.m., New York City time, on January 11, 2013, unless we extend the exchange offer.

Accrued Interest on the New Notes and Original Notes The new notes will bear interest from July 18, 2012 or the last interest payment date on which interest was paid on the original notes surrendered in exchange therefor. Holders of original notes that are accepted for exchange will be deemed to have waived the right to receive any payment in respect of interest on such original notes accrued to the date of issuance of the new notes.

Conditions to the Exchange Offer The exchange offer is subject to certain customary conditions which we may waive. See The Exchange Offer Conditions.

Procedures for Tendering Original Notes Each holder of original notes wishing to accept the exchange offer must complete, sign and date the letter of transmittal, or a facsimile of the letter of transmittal; or if the original notes are tendered in accordance with the book-entry procedures described in this prospectus, the tendering holder must transmit an agent's message to the exchange agent at the address listed in this prospectus. You must mail or otherwise deliver the required documentation together with the original notes to the exchange agent.

Summary of Terms of New Notes

The exchange offer constitutes an offer to exchange up to \$300,000,000 aggregate principal amount of the new notes for up to an equal aggregate principal amount of the original notes. The new notes will be obligations of Beazer Homes evidencing the same indebtedness as the original notes, and will be entitled to the benefit of the same indenture. The form and terms of the new notes are substantially the same as the form and terms of the original notes except that the new notes have been registered under the Securities Act. See Description of the Notes.

Freely Transferable The new notes will be freely transferable under the Securities Act by holders who are not restricted holders. Restricted holders are restricted from transferring the new notes without compliance with the registration and prospectus delivery requirements of the Securities Act. The new notes will be identical in all material respects (including interest rate, maturity and restrictive covenants) to the original notes, with the exception that the new notes will be registered under the Securities Act. See The Exchange Offer Terms of the Exchange Offer.

Registration Rights The holders of the original notes currently are entitled to certain registration rights pursuant to the registration rights agreement entered into on the issue date of the original notes by and among Beazer Homes, the subsidiary guarantors named therein and the initial purchasers named therein, including the right to cause Beazer Homes to register the original notes for resale under the Securities Act if the Exchange Offer is not consummated prior to the exchange offer termination date. However, pursuant to the registration rights agreement, such registration rights will expire upon consummation of the exchange offer. Accordingly, holders of original notes who do not exchange their original notes for new notes in the exchange offer will not be able to reoffer, resell or otherwise dispose of their original notes unless such original notes are subsequently registered under the Securities Act or unless an exemption from the registration requirements of the Securities Act is available.

Maturity April 15, 2018.

Interest Payment Dates April 15 and October 15, commencing on October 15, 2012. Interest will accrue from the date it was most recently paid on the original notes.

Table of Contents

our existing and future material restricted subsidiaries, including substantially all of our existing subsidiaries, subject to customary release provisions.

Collateral

The new notes and related guarantees will be secured by (subject to certain exceptions and permitted liens) substantially all the tangible and intangible assets of ours and the guarantors, but excluding certain excluded assets.

For more details, see the section "Description of the Notes - Security."

Intercreditor Agreement

The new notes will be expressly junior in priority to the liens that secure our first-priority obligations. As of the issue date of the new notes, the obligations under the revolving credit facility will constitute the only first-priority obligations. The indenture permits certain additional obligations to be incurred and to constitute first-priority obligations. Pursuant to the intercreditor agreement, the liens securing the notes may not be enforced at any time when obligations secured by first-priority liens are outstanding, except for certain limited exceptions. The holders of the priority liens will receive all proceeds from any realization on the collateral or from the collateral or proceeds thereof in any insolvency or liquidation proceeding until the obligations secured by the priority liens are paid in full.

Sharing of Liens

In certain circumstances, we may secure specified indebtedness permitted to be incurred under the indenture governing the notes by granting liens upon any or all of the collateral securing the notes, including on an equal basis with the first-priority liens securing the revolving credit facility, on a *pari passu* basis with the notes or on a junior basis.

Ranking

The new notes and the guarantees will be our and the guarantors' senior secured obligations. The indebtedness evidenced by the new notes and the guarantees will:

rank senior in right of payment to any of our and the guarantors' existing and future subordinated indebtedness;

rank equally in right of payment with all of our and the guarantors' existing and future senior indebtedness, including our outstanding senior notes and our revolving credit facility;

be secured equally to our and the guarantors' obligations under any other *pari passu* lien obligations incurred after the issue date to the extent of the collateral;

be effectively subordinated to our and the guarantors' obligations under our revolving credit facility and any other debt incurred after the issue date that has a first-priority security interest in the collateral (or that has a security interest in assets that do not constitute collateral), in each case to the extent of the collateral or such other assets; and

Table of Contents

be structurally subordinated to all existing and future indebtedness and other liabilities of our non-guarantor subsidiaries (other than indebtedness and liabilities owed to us or one of our guarantor subsidiaries).

The indenture governing the notes permits additional indebtedness or other obligations to be secured by the collateral (i) on a lien priority basis prior or *pari passu* with the notes, in each case subject to certain limitations and (ii) on a junior priority basis relative to the notes, without regard to any such limitations.

As of September 30, 2012, we and the guarantors had approximately \$8.8 million of indebtedness outstanding secured by non-cash assets that are not part of the collateral.

In addition, as of September 30, 2012, our non-guarantor subsidiaries had outstanding indebtedness and other liabilities (excluding intercompany obligations) of \$2.0 million.

Optional Redemption

Prior to July 15, 2015, we may redeem the notes, in whole or in part, at a price equal to 100% of the principal amount thereof plus the make-whole premium described under Description of the Notes Optional Redemption.

We may also redeem any of the notes at any time on or after July 15, 2015, in whole or in part, at the redemption prices described under Description of the Notes Optional Redemption, plus accrued and unpaid interest, if any, to the date of redemption.

In addition, prior to July 15, 2015, we may redeem up to 35% of the aggregate principal amount of the notes issued under the indenture at a redemption price of 106.625% plus accrued and unpaid interest with the net proceeds of certain equity offerings, provided at least 65% of the aggregate principal amount of the notes originally issued remain outstanding immediately after such redemption.

Change of Control; Asset Sale

Upon a change of control, we will be required to make an offer to purchase each holder's notes at a price of 101% of the principal amount thereof, plus accrued and unpaid interest, if any, to the date of purchase. See Description of the Notes Mandatory Offers to Purchase the Notes and Certain Covenants Change of Control.

If we sell assets under certain circumstances, we will be required to make an offer to purchase the notes at their face amount, plus accrued and unpaid interest to the purchase date. See Description of the Notes Mandatory Offers to Purchase the Notes and Certain Covenants Limitations on Asset Sales.

Certain Covenants

The indenture governing the notes contains covenants that will, among other things, limit our ability and the ability of our restricted subsidiaries to:

incur additional indebtedness or issue certain preferred shares;

Table of Contents

create liens on certain assets to secure debt;

pay dividends or make other equity distributions;

purchase or redeem capital stock;

make certain investments;

sell assets; and

consolidate, merge, sell or otherwise dispose of all or substantially all of our assets.

These limitations will be subject to a number of important qualifications and exceptions. See [Description of the Notes](#) [Certain Covenants](#).

Absence of a Public Market

The new notes will be a new issue for which there will not initially be a market. Accordingly, we cannot assure you as to the development or liquidity of any market for the new notes.

Risk Factors

You should carefully consider the information under [Risk Factors](#) beginning on page 9 of this prospectus and all other information included or incorporated by reference in this prospectus prior to making a decision to exchange original notes for new notes.

For additional information regarding the notes, see the [Description of the Notes](#) section of this prospectus.

(1) Statement of operations data is from continuing operations. Gross profit includes inventory impairments and lot options abandonments of \$49.6 million, \$32.5 million and \$12.2 million for the fiscal years ended September 30, 2010, 2011 and 2012. Loss from continuing operations includes a gain (loss) on extinguishment of debt of \$43.9 million, \$(2.9) million and \$(45.1) million for the fiscal years ended September 30, 2010, 2011 and 2012. The aforementioned impairment and abandonment charges were primarily related to the deterioration of the homebuilding environment over the past few years.

(2) A home is included in backlog after a sales contract is executed and prior to the transfer of title to the purchaser. Because the closings of pending sales contracts are subject to contingencies, it is possible that homes in backlog will not result in closings.

(3) A home is included in closings when title is transferred to the buyer. Revenue and cost of sales for a house are generally recognized at the date of closing.

(4) Interest incurred is expensed or, if qualified, capitalized to inventory and subsequently amortized to cost of sales as homes sales are closed.

Edgar Filing: PARAGON TILE LLC - Form 424B3

- (5) Earnings consist of (i) income (loss) before income taxes from continuing operations, (ii) amortization of previously capitalized interest and (iii) fixed charges, exclusive of capitalized interest cost. Fixed charges consist of (i) interest incurred, (ii) amortization of deferred loan costs and debt discount and (iii) that portion of operating lease rental expense (33%) deemed to be representative of interest. Earnings for the fiscal years ended September 30, 2010, 2011 and 2012 were insufficient to cover fixed charges by \$16 million, \$71 million and \$41 million, respectively.

RISK FACTORS

An investment in the new notes offered hereby involves a high degree of risk. You should carefully consider the following risk factors before you decide whether to invest in the new notes. We urge you to carefully read this prospectus and the documents incorporated by reference herein. You should review all of the risks attendant to being an investor in the new notes prior to making an investment decision. The following is not intended as, and should not be construed as, an exhaustive list of relevant risk factors. There may be other risks that a prospective investor should consider that are relevant to its own particular circumstances or generally. You should also consider the risks, uncertainties and assumptions discussed under the caption "Risk Factors" included in our most recent Annual Report on Form 10-K, which is incorporated by reference in this prospectus, as updated by our subsequent filings under the Securities Exchange Act of 1934, as amended (the "Exchange Act").

Risks Related to the Notes and the Exchange Offer

Certain of our existing debt instruments, including the indenture governing the notes, impose significant restrictions and obligations on us that could adversely affect our liquidity, limit our growth and make it more difficult for us to satisfy our debt obligations.

Certain of our secured and unsecured indebtedness and revolving credit and letter of credit facilities, including the indenture governing the notes, impose certain restrictions and obligations on us. Under certain of these instruments, we must comply with defined covenants which limit our ability to, among other things, incur additional indebtedness, engage in certain asset sales, make certain types of restricted payments, engage in transactions with affiliates and create liens on our assets. Failure to comply with certain of these covenants could result in an event of default under the applicable instrument. Any such event of default could negatively impact other covenants or lead to cross defaults under certain of our other debt. There can be no assurance that we will be able to obtain any waivers or amendments that may become necessary in the event of a future default situation without significant additional cost or at all.

As of September 30, 2012, we had total outstanding indebtedness of approximately \$1.5 billion, net of unamortized discount of approximately \$3.1 million and unamortized accretion of \$49.2 million. This total indebtedness includes \$227.4 million related to our cash secured term loan. Our substantial indebtedness could have important consequences to us and the holders of our securities, including, among other things:

causing us to be unable to satisfy our obligations under our debt agreements;

making us more vulnerable to adverse general economic and industry conditions;

making it difficult to fund future working capital, land purchases, acquisitions, share repurchases, general corporate purposes or other purposes; and

causing us to be limited in our flexibility in planning for, or reacting to, changes in our business.

In addition, subject to restrictions in our existing debt instruments and the indenture governing the notes, we may incur additional indebtedness. If new debt is added to our current debt levels, the related risks that we now face could intensify. Our growth plans and our ability to make

Edgar Filing: PARAGON TILE LLC - Form 424B3

payments of principal or interest on, or to refinance, our indebtedness, will depend on our future operating performance and our ability to enter into additional debt and/or equity financings. If we are unable to generate sufficient cash flows in the future to service our debt, we may be required to refinance all or a portion of our existing debt, to sell assets or to obtain additional financing. We may not be able to do any of the foregoing on terms acceptable to us, if at all.

Despite our substantial indebtedness, we may still be able to incur significantly more debt. This could intensify the risks described herein.

We and our subsidiaries may be able to incur substantial indebtedness in the future. Although the terms of certain of the agreements governing our indebtedness contain restrictions on our ability to incur additional

Table of Contents

indebtedness, these restrictions are subject to a number of important qualifications and exceptions, and the indebtedness incurred in compliance with these restrictions could be substantial. If we incur any additional secured debt that ranks equally with the notes offered hereby, the holders of that debt will be entitled to share ratably with the holders of the notes in any proceeds distributed in connection with any bankruptcy, liquidation, reorganization or similar proceedings. This may have the effect of reducing the amount of proceeds to you. If new debt is added to our current debt levels, the related risks that we now face could intensify.

We may not be able to generate sufficient cash to service all of our indebtedness, and may be forced to take other actions to satisfy our obligations under our indebtedness that may not be successful.

Our ability to satisfy our debt obligations will depend upon, among other things: our future financial and operating performance, which will be affected by prevailing economic conditions and financial, business, regulatory and other factors, many of which are beyond our control. In addition, as of September 30, 2012, \$369.1 million of our existing senior notes had a maturity date (or put right) earlier than the maturity date of the notes offered hereby, and we will be required to repay or refinance such indebtedness prior to when the notes offered hereby come due.

We cannot assure you that our business will generate cash flow from operations in an amount sufficient to fund our liquidity needs. If our cash flows and capital resources are insufficient to service our indebtedness, we may be forced to reduce or delay capital expenditures, sell assets, seek additional capital or restructure or refinance our indebtedness, including the notes. These alternative measures may not be successful and may not permit us to meet our scheduled debt service obligations. Our ability to restructure or refinance our debt will depend on the condition of the capital markets and our financial condition at such time. Any refinancing of our debt could be at higher interest rates and may require us to comply with more onerous covenants, which could further restrict our business operations. In addition, the terms of existing or future debt agreements may restrict us from adopting some of these alternatives. In the absence of such operating results and resources, we could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our debt service and other obligations. We may not be able to consummate those dispositions for fair market value or at all. Furthermore, any proceeds that we could realize from any such dispositions may not be adequate to meet our debt service obligations then due.

Repayment of our debt, including required principal and interest payments on the notes, is dependent in part on cash flow generated by our subsidiaries.

Our subsidiaries own a significant portion of our assets and conduct a significant portion of our operations. Accordingly, repayment of our indebtedness, including the notes, is dependent, to a significant extent, on the generation of cash flow by our subsidiaries and their ability to make such cash available to us, by dividend, debt repayment or otherwise. Our subsidiaries may not be able to, or may not be permitted to, make distributions to enable us to make payments in respect of our indebtedness, including the notes. Each subsidiary is a distinct legal entity with no obligation to provide us with funds for our repayment obligations, and, under certain circumstances, legal and contractual restrictions may limit our ability to obtain cash from our subsidiaries. While the indenture governing the notes limits the ability of our subsidiaries to incur consensual restrictions on their ability to pay dividends or make other intercompany payments to us, these limitations are subject to certain qualifications and exceptions. In the event that we do not receive distributions from our subsidiaries, we may be unable to make required principal and interest payments on our indebtedness, including the notes.

If we default on our obligations to pay our other indebtedness, we may not be able to make payments on the notes.

Any default under the agreements governing our indebtedness that is not waived by the required lenders, and the remedies sought by the holders of such indebtedness, could leave us unable to pay principal, premium, if any, or interest on the notes and could substantially decrease the

market value of the notes. If we are unable to

Table of Contents

generate sufficient cash flow and are otherwise unable to obtain funds necessary to meet required payments of principal, premium, if any, or interest on our indebtedness, or if we otherwise fail to comply with the various covenants, including financial and operating covenants, in the instruments governing our indebtedness, we could be in default under the terms of the agreements governing such indebtedness. In the event of such default, the holders of such indebtedness could elect to declare all the funds borrowed thereunder to be due and payable, together with accrued and unpaid interest, the lenders under our revolving credit facility could elect to terminate their commitments, cease making further letters of credit or loans available and institute foreclosure proceedings against our assets, and we could be forced into bankruptcy or liquidation.

If our operating performance declines, we may in the future need to seek waivers from the required lenders under our revolving credit facility to avoid being in default. If we breach our covenants under the revolving credit facility and seek a waiver, we may not be able to obtain a waiver from the required lenders. If this occurs, we would be in default under our revolving credit facility, the lenders could exercise their rights as described above, and we could be forced into bankruptcy or liquidation.

Certain other secured indebtedness, including any obligations under our revolving credit facility, will be effectively senior to the notes to the extent of the value of the collateral.

Our revolving credit facility is secured by a first-priority lien on the collateral. In addition, the indenture governing the notes permits us to incur additional indebtedness secured on a first-priority basis by the collateral in the future up to an aggregate amount equal to the greater of \$200 million or 15% of our consolidated tangible assets. The first-priority liens on the collateral are higher in priority as to the collateral than the second-priority liens securing the notes and the guarantees. The notes and the related guarantees are secured, subject to permitted liens, by a second-priority lien on the collateral. As a result, upon any distribution to our creditors, liquidation, reorganization or similar proceedings, or following acceleration of any of our indebtedness or an event of default under our indebtedness and enforcement of the collateral, holders of the indebtedness under our revolving credit facility and any other indebtedness collateralized by a first-priority lien in the collateral are entitled to receive proceeds from the realization of value of the collateral to repay such indebtedness in full before the holders of the notes are entitled to any recovery from such collateral.

Accordingly, holders of the notes are only entitled to receive proceeds from the realization of value of the collateral after all indebtedness and other obligations under our revolving credit facility and any other obligations secured by first-priority liens on the collateral are repaid in full. As a result, the notes are effectively junior in right of payment to indebtedness under our revolving credit facility and any other indebtedness collateralized by a first-priority lien in the collateral, to the extent of the realizable value of such collateral.

In addition, the collateral securing the notes will be subject to liens permitted under the terms of the indenture governing the notes and the intercreditor agreement, whether arising before or after the date the new notes are issued. The existence of any permitted liens could adversely affect the value of the collateral securing the notes as well as the ability of the collateral agent to realize or foreclose on such collateral.

The notes are structurally subordinated to all liabilities of our subsidiaries that are not guarantors.

The notes are structurally subordinated to indebtedness and other liabilities of our non-guarantor subsidiaries and joint ventures, and the claims of creditors of these subsidiaries and joint ventures, including trade creditors, have priority as to the assets of these subsidiaries and joint ventures. In the event of a bankruptcy, liquidation, reorganization or similar proceeding of any non-guarantor subsidiaries and joint ventures, these entities will pay the holders of their debts, holders of preferred equity interests and their trade creditors before they will be able to distribute any of their assets to us. As of September 30, 2012, our non-guarantor subsidiaries had liabilities (excluding intercompany liabilities) of \$2.0 million. In addition, the indenture governing the notes permits, subject to certain limitations, these subsidiaries and joint ventures to incur

additional indebtedness and does not contain any limitation on the amount of other liabilities, such as trade payables, that may be incurred by

Table of Contents

these entities. See note 15 to the audited consolidated financial statements for the year ended September 30, 2012, incorporated by reference in this prospectus, for financial information regarding our non-guarantor subsidiaries.

The indenture governing the notes, our revolving credit facility and the indentures governing our other outstanding notes contain significant operating and financial restrictions which may limit our and our subsidiary guarantors' ability to operate our and their businesses.

The indenture governing the notes, our revolving credit facility and the indentures governing our other outstanding notes contain significant operating and financial restrictions on us and our subsidiaries. These restrictions limit our and our subsidiaries' ability to, among other things (not all restrictions are included in each indenture, including the indenture governing the notes):

incur additional indebtedness or issue certain preferred shares;

create liens on certain assets to secure debt;

pay dividends or make other equity distributions;

purchase or redeem capital stock;

make certain investments;

sell assets;

agree to restrictions on the ability of restricted subsidiaries to make payments to us;

consolidate, merge, sell or otherwise dispose of all or substantially all of our assets; and

engage in transactions with affiliates.

These restrictions could limit our and our subsidiaries' ability to finance our and their future operations or capital needs, make acquisitions or pursue available business opportunities. In addition, our revolving credit facility requires us to maintain specified financial ratios and to satisfy certain financial covenants. We may be required to take action to reduce our debt or act in a manner contrary to our business objectives to meet these ratios and satisfy these covenants. Events beyond our control, including changes in economic and business conditions in the markets in which we operate, may affect our ability to do so. We may not be able to meet these ratios or satisfy these covenants and we cannot assure you that the lender under our revolving credit facility will waive any failure to do so. A breach of any of the covenants in, or our inability to maintain the required financial ratios under, our debt could result in a default under such debt, which could lead to that debt becoming immediately due and payable and, if such debt is secured, foreclosure on our assets that secure that obligation. A default under a debt instrument could, in turn, result in default under other obligations and result in other creditors accelerating the payment of other obligations and foreclosing on assets securing such debt, if any. Any such defaults could materially impair our financial conditions and liquidity.

The holders of the notes will not have the benefit of title insurance or surveys with respect to all of the real property collateral.

We are not required to obtain title insurance or surveys on real properties in cases where we are not required to do so under our revolving credit facility. In cases where we are required to obtain title insurance with respect to any real property collateral under our revolving credit facility, we may satisfy our obligations under the notes by delivery of title insurance with respect to such real property collateral in an aggregate amount of coverage limited to the aggregate principal amount of the notes, which coverage may be allocated to the properties pro rata based on their respective values (or we may deliver other title insurance coverage pursuant to other arrangements that would be commercially reasonable under the circumstances). See [Description of the Notes](#) [Security](#) [Further Assurances](#).

Table of Contents

Title insurance policies (or endorsements to existing title policies) were not delivered as of the closing date of the offering of the original notes and we will not deliver surveys at all, which will preclude identification of a title defect in the collateral consisting of real property and coverage of losses resulting from any such defect.

In cases where we are required to obtain new title insurance with respect to any real property collateral under our revolving credit facility, we intend to obtain an endorsement to existing title insurance policies or new title insurance policies where required to insure the priority of each of the mortgage liens securing the notes and the guarantees. None of the title insurance policies were delivered on the issue date of the original notes and, as a result, none of the mortgage liens were insured at the time of the issuance of the original notes, and such mortgage liens may be subject to encumbrances that are not permitted encumbrances. Additionally, because we will not be delivering surveys and because some title insurance policies (or endorsements) were not delivered until after the closing date of the offering of the original notes we cannot be certain that prior or existing encumbrances on the real property will not interfere with its use and/or operation. In the absence of a title insurance policy and survey, any mortgage or mortgage modification, delivered may contain errors included in the applicable title or legal description attached to the mortgage or mortgage modification, and we may learn of such errors only following receipt of such title insurance policy or not at all. Any such errors may interfere with the creation of valid liens on the real property collateral. In addition, if a title defect results in a loss, we cannot assure you that any title insurance proceeds received by us will be sufficient to satisfy all obligations, including the notes.

As a result of the foregoing, we cannot assure you that, among other things, (i) the real property encumbered by each mortgage securing the notes and the guarantees includes all of the property owned by us and the guarantors that such mortgage was intended to encumber, (ii) we own the rights to the owned properties that we purport to own in each such mortgage and that our title to such owned real property is not encumbered by liens other than liens permitted by the notes indenture, and (iii) there are no encroachments, adverse possession claims, zoning or other restrictions with respect to such owned real properties.

If we are unable to resolve defects raised in connection with any title insurance policies or otherwise, such mortgages and title insurance policies will be subject to those issues, which defects may have a significant adverse effect on the value of the collateral or any recovery under any title insurance policies.

Security over certain collateral was not in place by the closing date of the offering of the original notes or was not perfected or a valid lien created on such date, which increases the risk that the mortgages or other security interests may be avoidable in bankruptcy.

Certain security interests, including mortgages on the real property collateral securing the notes and the guarantees, were not in place by the closing date of the offering of the original notes and were not perfected or had a valid lien created on such date. If the grantor of any security interest obtained after the closing date of the offering of the original notes were to become the subject of a bankruptcy proceeding after the closing date of the offering of the original notes, any mortgages or security interest in other collateral delivered after such closing date would face a risk of being avoided as a preference under Title 11 of the U.S. Bankruptcy Code if certain events or circumstances exist or occur, including if the grantor is insolvent at the time the security is granted, the security documents would permit you to receive greater recovery than if the security had not been given and, in each case, a bankruptcy proceeding in respect of the grantor is commenced within 90 days following the grant of the liens or security interests (or, in certain circumstances, a period longer than 90 days). If the grant of any such mortgage or other security interest is avoided as a preference, you would lose the benefit of that mortgage or security interest.

There are certain categories of property that are excluded from the collateral.

Certain categories of assets are excluded from the collateral. For example, the collateral does not include:

pledges of stock of subsidiaries or other affiliates;

Table of Contents

real or personal property where the cost of obtaining a security interest or perfection thereof exceeds its benefits;

real property subject to a lien securing indebtedness incurred for the purpose of financing the acquisition thereof;

real property located outside of the United States;

unentitled land;

real property which is leased or held for the purpose of leasing to unaffiliated third parties;

any real property in a community under development with a dollar amount of investment as of the most recent month-end (determined in accordance with GAAP) of less than \$2.0 million or with less than 10 lots remaining;

up to \$25.0 million of assets received in certain asset dispositions or asset swaps or exchanges made in accordance with the indenture;

assets with respect to which any applicable law or contract prohibits the creation or perfection of security interests therein; and

cash, cash equivalents, deposit accounts and securities accounts (except to the extent any of the foregoing constitutes proceeds of collateral).

In addition, we and the guarantors are not required to execute or deliver any control agreements with respect to any deposit account or securities account. See Description of the Notes Security. If an event of default occurs and the notes are accelerated, the notes and the guarantees will rank equally with the holders of other unsubordinated and unsecured indebtedness of the relevant entity with respect to such excluded property.

The lien ranking provisions of the intercreditor agreement limit the rights of holders of the notes with respect to the collateral, even during an event of default.

The rights of the holders of the notes with respect to the collateral are substantially limited by the terms of the lien ranking agreements set forth in the intercreditor agreement, even during an event of default. Under the intercreditor agreement, at any time that obligations having the benefit of higher priority liens on collateral are outstanding, any actions that may be taken with respect to (or in respect of) such collateral, including the ability to cause the commencement of enforcement proceedings against such collateral and to control the conduct of such proceedings, and the approval of amendments to, releases of such collateral from the lien of, and waivers of past defaults under, such documents relating to such collateral, are at the direction of the holders of the obligations secured by the first-priority liens, and the holders of the notes secured by lower priority liens may be adversely affected. See Description of the Notes Security and Description of the Notes Amendment, Supplement and Waiver. In the event the holders of the indebtedness secured by first-priority liens decide not to proceed against the collateral, the only remedy available to the holders of the notes would be to sue for payment on the notes and the related guarantees. The intercreditor agreement contains certain provisions benefiting holders of indebtedness under our revolving credit facility and our future first lien debt, including provisions prohibiting the trustee and the notes collateral agent from objecting following the filing of a bankruptcy petition to a number of important matters regarding the collateral and the financing to be provided to us. After such filing, the value of this collateral could materially deteriorate and holders of the notes would be unable to raise an objection. In addition, the right of holders of obligations secured by first-priority liens to foreclose upon and sell such collateral upon the occurrence of an event of default also would be subject to limitations under applicable bankruptcy laws if we or any of our subsidiaries become subject to a bankruptcy proceeding.

The value of the collateral securing the notes may not be sufficient to satisfy our obligations under the notes.

No appraisal of the value of the collateral was made in connection with the offering of the original notes or has been made in connection with the exchange offer. The fair market value of the collateral is subject to

Table of Contents

fluctuations based on factors that include, among others, the condition of the homebuilding industry, our ability to implement our business strategy, the ability to sell the collateral in an orderly sale, general economic conditions and similar factors. The amount to be received upon a sale of the collateral would be dependent on numerous factors, including, but not limited to, the actual fair market value of the collateral at such time, the timing and the manner of the sale and the availability of buyers. By its nature, portions of the collateral may be illiquid and may have no readily ascertainable market value. In the event of a foreclosure, liquidation, bankruptcy or similar proceeding, the collateral may not be sold in a timely or orderly manner and the proceeds from any sale or liquidation of this collateral may not be sufficient to pay our obligations under the notes.

To the extent that pre-existing liens, liens permitted under the indenture and other rights, including liens on excluded assets, such as those securing purchase money obligations and capital lease obligations granted to other parties (in addition to the holders of obligations secured by first-priority liens), encumber any of the collateral securing the notes and the guarantees, those parties have or may exercise rights and remedies with respect to the collateral that could adversely affect the value of the collateral and the ability of the notes collateral agent, the trustee under the indenture or the holders of the notes to realize or foreclose on the collateral.

The collateral currently secures the revolving credit facility on a first priority basis. In addition, the indenture governing the notes permits us to issue additional secured debt, including debt secured equally and ratably by the collateral. This would reduce amounts payable to holders of the notes from the proceeds of any sale of the collateral and thereby dilute their rights to the collateral. There may not be sufficient collateral to pay off any additional obligations under our revolving credit facility or any additional notes we may issue together with the notes. Consequently, in the event of our, or our subsidiary guarantors', bankruptcy, insolvency, liquidation, dissolution, reorganization, or similar proceeding, liquidating the collateral securing the notes and the guarantees may not result in proceeds in an amount sufficient to pay any amounts due under the notes after also satisfying the obligations to pay any creditors with prior liens. If the proceeds of any sale of collateral are not sufficient to repay all amounts due on the notes, the holders of the notes (to the extent not repaid from the proceeds of the sale of the collateral) would have only an unsecured, unsubordinated claim against our and the subsidiary guarantors' remaining assets.

We, in most cases, have control over the collateral, and the sale of particular assets by us could reduce the pool of assets securing the notes and the guarantees.

The collateral documents allow us to remain in possession of, retain exclusive control over, freely operate, and collect, invest and dispose of any income from, the collateral securing the notes and the guarantees.

In addition, we are not required to comply with all or any portion of Section 314(d) of the Trust Indenture Act of 1939, as amended (the "Trust Indenture Act"), if we reasonably determine, in good faith based on advice of counsel, that, under the terms of that Section and/or any interpretation or guidance as to the meaning thereof of the SEC and its staff, including "no action" letters or exemptive orders, all or such portion of Section 314(d) of the Trust Indenture Act is inapplicable to the released collateral. For example, so long as no default or event of default under the indenture would result therefrom and such transaction would not violate the Trust Indenture Act, we may, among other things, without any release or consent by the trustee, conduct ordinary course activities with respect to collateral, such as selling, factoring, abandoning or otherwise disposing of collateral. With respect to such releases, we must deliver to the trustee and notes collateral agent, within 15 days of June 30 and December 31, an officer's certificate to the effect that all releases and withdrawals during the preceding six-month period in which no release or consent of the notes collateral agent was obtained occurred in the ordinary course of our business and that all of the proceeds were used as permitted by the indenture. See "Description of the Notes - Security - Compliance with Trust Indenture Act."

Table of Contents

There are circumstances other than repayment or discharge of the notes under which the collateral securing the notes and guarantees will be released automatically, without your consent or the consent of the trustee.

Under various circumstances, all or a portion of the collateral may be released, including, without limitation:

to enable the sale, transfer or other disposal of such collateral in a transaction not prohibited under the indenture or the revolving credit facility, including the sale of any entity in its entirety that owns or holds such collateral; and

with respect to collateral held by a guarantor, upon the release of such guarantor from its guarantee.

In addition, upon the release of collateral securing first-priority obligations in connection with foreclosure of or other exercise of remedy with respect to such collateral, such collateral shall, subject to the intercreditor agreement, automatically be released and shall no longer secure the notes.

In addition, the guarantee of a subsidiary guarantor will be released in connection with a sale of such subsidiary guarantor in a transaction not prohibited by the indenture.

The indenture also permits us to designate one or more of our restricted subsidiaries that is a guarantor of the notes as an unrestricted subsidiary. If we designate a subsidiary guarantor as an unrestricted subsidiary, all of the liens on any collateral owned by such subsidiary or any of its subsidiaries and any guarantees of the notes by such subsidiary or any of its subsidiaries will be released under the indenture but, under certain circumstances, not under the revolving credit facility. Designation of an unrestricted subsidiary will reduce the aggregate value of the collateral securing the notes to the extent that liens on the assets of the unrestricted subsidiary and its subsidiaries are released. In addition, the creditors of the unrestricted subsidiary and its subsidiaries will have a senior claim on the assets of such unrestricted subsidiary and its subsidiaries. See Description of the Notes.

The collateral is subject to casualty risks, which may limit your ability to recover as a secured creditor for losses to the collateral, and which may have an adverse impact on our operations and results.

We intend to maintain insurance or otherwise insure against hazards in a manner appropriate and customary for our business. There are, however, certain losses, including losses resulting from terrorist acts, that may be either uninsurable or not economically insurable, in whole or in part. Insurance proceeds may not compensate us fully for our losses. If there is a complete or partial loss of any of the pledged collateral, the insurance proceeds may not be sufficient to satisfy all of the secured obligations, including the notes and the guarantees.

The collateral is subject to condemnation risks, which may limit your ability to recover as a secured creditor for losses to the collateral consisting of mortgaged properties, and which may have an adverse impact on our operations and results.

Edgar Filing: PARAGON TILE LLC - Form 424B3

It is possible that all or a portion of the real property collateral securing the notes and the guarantees may become subject to a condemnation proceeding. In such event, we may be compensated for any complete or partial loss of property but it is possible that such compensation will be insufficient to fully compensate us for our losses. In addition, a complete or partial condemnation may interfere with our ability to use and operate all or a portion of the affected real property collateral, which may have an adverse impact on our operations and results.

Federal and state environmental laws may decrease the value of the collateral securing the notes and may result in you being liable for environmental cleanup costs at our facilities.

The notes and guarantees are secured by liens on real property that may be subject to both known and unforeseen environmental risks, and these risks may reduce or eliminate the value of the real property pledged as collateral for the notes or adversely affect the ability of the debtor to repay the notes. See Risk Factors We may incur additional operating expenses due to compliance programs or fines, penalties and remediation costs

pertaining to environmental regulation within our markets and Business Government Regulation and Environmental Matters in our Annual Report on Form 10-K for the year ended September 30, 2011 which is incorporated by reference herein.

Moreover, under some federal and state environmental laws, a secured lender may in some situations become subject to its debtor's environmental liabilities, including liabilities arising out of contamination at or from the debtor's properties. Such liability can arise before foreclosure, if the secured lender becomes sufficiently involved in the management of the affected facility. Similarly, when a secured lender forecloses and takes title to a contaminated facility or property, the lender could become subject to such liabilities, depending on the circumstances. Before taking some actions, the collateral agent for the notes may request that you provide for its reimbursement for any of its costs, expenses and liabilities. Cleanup costs could become a liability of the collateral agent for the notes, and, if you agreed to provide for the collateral agent's costs, expenses and liabilities, you could be required to help repay those costs. You may agree to indemnify the collateral agent for the notes for its costs, expenses and liabilities before you or the collateral agent knows what those amounts ultimately will be. If you agreed to this indemnification without sufficient limitations, you could be required to pay the collateral agent an amount that is greater than the amount you paid for the notes. In addition, rather than acting through the collateral agent, you may in some circumstances act directly to pursue a remedy under the indenture. If you exercise that right, you could be considered to be a lender and be subject to the risks discussed above.

The rights of holders of notes to the collateral securing the notes may be adversely affected by the failure to perfect security interests in the collateral and other issues generally associated with the realization of security interests in collateral.

Applicable law requires that a security interest in certain tangible and intangible assets can only be properly perfected and its priority retained through certain actions undertaken by the secured party. The liens in the collateral securing the notes may not be perfected with respect to the claims of notes if the notes collateral agent has not been able to take the actions necessary to perfect any of these liens. In addition, applicable law requires that certain property and rights acquired after the grant of a general security interest, such as real property, can only be perfected at the time such property and rights are acquired and identified and additional steps to perfect in such property and rights are taken. We and the guarantors have limited obligations to perfect the security interest of the holders of notes in specified collateral. There can be no assurance that the trustee or the notes collateral agent will monitor, or that we will inform such trustee or notes collateral agent of, the future acquisition of property and rights that constitute collateral, and that the necessary action will be taken to properly perfect the security interest in such after-acquired collateral. Our failure to meet our obligations to inform the trustee or notes collateral agent of the future acquisition of property or rights that constitute collateral may constitute a breach under the indenture, which may result in the acceleration of our obligations under the notes. However, acceleration of such obligations in such situation may not provide an adequate remedy to you if the value of the collateral is impaired by the failure to perfect the security interest in, or create a valid lien with respect to, such after-acquired collateral. Neither the trustee nor the notes collateral agent has any obligation to monitor the acquisition of additional property or rights that constitute collateral or the perfection of any security interest. Such failure may result in the loss of the security interest in the collateral or the priority of the security interest in favor of notes against third parties. In addition, the security interest of the notes collateral agent will be subject to practical challenges generally associated with the realization of security interests in collateral. For example, the notes collateral agent may need to obtain the consent of third parties and make additional filings to obtain or enforce a security interest. If the notes collateral agent is unable to obtain these consents or make these filings, the security interests may be invalid and the holders will not be entitled to the collateral or any recovery with respect thereto. We cannot assure you that the notes collateral agent will be able to obtain any such consent. We also cannot assure you that the consents of any third parties will be given when required to facilitate a foreclosure on such assets. Accordingly, the notes collateral agent may not have the ability to foreclose upon those assets and the value of the collateral may significantly decrease.

Table of Contents

In the event of our bankruptcy, the ability of the holders of the notes to realize upon the collateral will be subject to certain bankruptcy law limitations.

The ability of holders of the notes to realize upon the collateral will be subject to certain bankruptcy law limitations in the event of our bankruptcy. Under applicable U.S. federal bankruptcy laws, secured creditors are prohibited from, among other things, repossessing their security from a debtor in a bankruptcy case without bankruptcy court approval and may be prohibited from retaining security repossessed by such creditor prior to bankruptcy without bankruptcy court approval. Moreover, applicable federal bankruptcy laws generally permit the debtor to continue to use collateral even though the debtor is in default under the applicable debt instruments, provided that the secured creditor receives adequate protection for the interest in the collateral.

The secured creditor is entitled to adequate protection to protect the value of the secured creditor's interest in the collateral as of the commencement of the bankruptcy case, but the adequate protection actually provided to a secured creditor may vary according to the circumstances. Adequate protection may include an equity cushion (i.e., the fair market value of the collateral exceeds the amount of the obligations owed to the secured creditors), cash payments or the granting of additional security if and at such times as the court, in its discretion and at the request of such creditor, determines after notice and a hearing that the collateral has diminished or may be diminished in value as a result of the imposition of the automatic stay of repossession of such collateral or the debtor's use, sale or lease of such collateral during the pendency of the bankruptcy case. In view of the lack of a precise definition of the term adequate protection and the broad discretionary powers of a U.S. bankruptcy court, we cannot predict whether or when the trustee under the indenture for the notes could foreclose upon or sell the collateral or whether or to what extent holders of notes would be compensated for any delay in payment or loss of value of the collateral through the requirement of adequate protection.

In the event of a bankruptcy of us or any of the guarantors, holders of the notes may be deemed to have an unsecured claim to the extent that our obligations in respect of the notes exceed the fair market value of the collateral securing the notes.

In any bankruptcy proceeding with respect to us or any of the guarantors, it is possible that the bankruptcy trustee, the debtor-in-possession or competing creditors will assert that the fair market value of the collateral with respect to the notes on the date of the bankruptcy filing was less than the then-current principal amount and accrued and unpaid interest of the notes. Upon a finding by the bankruptcy court that the notes are under-collateralized, the claims in the bankruptcy proceeding with respect to the notes would be bifurcated between a secured claim in an amount equal to the value of the collateral and an unsecured claim with respect to the remainder of its claim which would not be entitled to the benefits of security in the collateral.

Other consequences of a finding of under-collateralization would be, among other things, a lack of entitlement on the part of the notes to receive post-petition interest and a lack of entitlement on the part of the unsecured portion of the notes to receive adequate protection under federal bankruptcy laws. In addition, if any payments of post-petition interest had been made at any time prior to such a finding of under-collateralization, those payments could be recharacterized by the bankruptcy court as a reduction of the principal amount of the secured claim with respect to the notes.

Federal and state statutes allow courts, under specific circumstances, to void a guarantor's guarantee and pledge securing such guarantee and require note holders to return payments received in respect thereof.

If any guarantor becomes a debtor in a case under the U.S. Bankruptcy Code or encounters other financial difficulty, under federal or state fraudulent transfer law, a court may void, subordinate or otherwise decline to enforce such guarantor's guarantee or such guarantor's pledge of

Edgar Filing: PARAGON TILE LLC - Form 424B3

assets securing the guarantee. A court might do so if it found that when such guarantor issued the guarantee or one or more of the guarantors made its pledge, or in some states when payments became due under the guarantee, the guarantors received less than reasonably equivalent value or fair consideration and either:

was insolvent or rendered insolvent by reason of such incurrence;

Table of Contents

was left with inadequate capital to conduct its business; or

believed or reasonably should have believed that it would incur debts beyond its ability to pay.

The court might also void a guarantee or a related pledge by a guarantor, without regard to the above factors, if the court found that the applicable guarantor made its pledge (or guarantee, if applicable) with actual intent to hinder, delay or defraud its creditors.

A court would likely find that a guarantor did not receive reasonably equivalent value or fair consideration for its guarantee or its pledge securing the guarantee, if such guarantor did not substantially benefit directly or indirectly from the issuance of the notes. If a court were to void the issuance of the notes or any pledge (or guarantee, if applicable) you may no longer have any claim directly against the applicable guarantor. Sufficient funds to repay the notes may not be available from other sources, including the remaining obligors, if any. In addition, the court might direct you to repay any amounts that you already received from a guarantor.

The measures of insolvency for purposes of these fraudulent transfer laws will vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred and upon the valuation assumptions and methodology applied by the court. Generally, however, a guarantor would be considered insolvent if:

the sum of its debts, including contingent liabilities, was greater than the fair saleable value of all of its assets;

if the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or

it could not pay its debts as they become due.

On the basis of historical financial information, recent operating history and other factors, we believe that each guarantor, after giving effect to its guarantee and related pledge and rights of contribution it has against other guarantors, will not be insolvent, will not have unreasonably small capital for the business in which it is engaged and will not have incurred debts beyond its ability to pay such debts as they mature. We cannot assure you, however, as to what standard a court would apply in making these determinations or that a court would agree with our conclusions in this regard. The guarantees could be subject to the claim that, since the guarantees and grant of security were incurred for our benefit, and only indirectly for the benefit of the other guarantors, the obligations of the guarantors thereunder were incurred for less than reasonably equivalent value or fair consideration.

Certain of our subsidiaries are not subject to the restrictive covenants in the indenture governing the notes.

Certain of our subsidiaries are not subject to the restrictive covenants in the indenture governing the notes. This means that these entities are able to engage in many of the activities that we and our restricted subsidiaries are prohibited from doing, such as incurring substantial additional debt, securing assets in priority to the claims of the holders of the notes, paying dividends, making investments, selling substantial assets and entering into mergers or other business combinations. These actions could be detrimental to our ability to make payments of principal and interest when due and to comply with our other obligations under the notes, and could reduce the amount of our assets that would be available to satisfy your claims should we default on the notes. In addition, the initiation of bankruptcy or insolvency proceedings or the entering of a judgment against

Edgar Filing: PARAGON TILE LLC - Form 424B3

these subsidiaries, or their default under their other credit arrangements, will not result in a cross-default on the notes.

We may not be able to repurchase the notes upon a change of control.

Upon the occurrence of certain specific kinds of change of control events, we will be required to offer to repurchase all outstanding notes at 101% of the principal amount thereof plus, without duplication, accrued and

Table of Contents

unpaid interest and additional interest, if any, to the date of repurchase. However, it is possible that we will not have sufficient funds at the time of the change of control to make the required repurchase of all notes delivered by holders seeking to exercise their repurchase rights, particularly as that change of control may trigger a similar repurchase requirement for, or result in an event of default under or the acceleration of, other indebtedness, or that restrictions in our revolving credit facility will not allow such repurchases. Any failure by us to repurchase the notes upon a change of control would result in an event of default under the indenture and may also constitute a cross-default on other indebtedness existing at that time. In addition, certain important corporate events, such as leveraged recapitalizations that would increase the level of our indebtedness, would not constitute a Change of Control under the indenture. See Description of the Notes Certain Covenants Change of Control.

The liens granted by us and certain of our existing and future subsidiaries on substantially all of our assets, subject to certain exceptions, which secure the notes, may prevent us from obtaining additional financing in the future or make the terms of securing such additional financing more onerous to us.

The notes are secured by liens granted by us and certain of our existing and future subsidiaries on substantially all of our assets, subject to certain exceptions. While the terms or availability of additional capital is always uncertain, should we need to obtain additional financing in the future, because of the liens on such assets, it may be even more difficult for us to do so. Lenders from whom, in the future, we may seek to obtain additional financing may be reluctant to loan us funds due to their inability to collateralize all of our assets. Alternatively, if we are able to raise additional financing in the future, the terms of any such financing may be onerous to us. This potential inability to obtain borrowings or our obtaining borrowings on unfavorable terms could negatively impact our operations and impair our ability to maintain sufficient working capital.

The market value of the notes may be exposed to substantial volatility.

A number of factors, including factors specific to us and our business, financial condition and liquidity, the price of our common stock, economic and financial market conditions, interest rates, unavailability of capital and financing sources, volatility levels and other factors could lead to a decline in the value of the notes and a lack of liquidity in any market for the notes. Our existing senior notes are thinly traded, and because the notes offered hereby similarly may be thinly traded, it may be difficult to sell or accurately value the notes. Moreover, if one or more of the rating agencies rates the notes and assigns a rating that is below the expectations of investors, or lowers its or their rating(s) of the notes, the price of the notes would likely decline.

An active trading market may not develop for the new notes.

There is no established public trading market for the notes, and an active trading market may not develop. We do not intend to apply for the notes to be listed on any securities exchange. As a result, there may be limited liquidity of any trading market that does develop for the notes. In addition, the liquidity of the trading market in the notes and the market prices quoted for the notes may be adversely affected by changes in the overall market for this type of security and by changes in our financial performance or prospects or in the prospects for companies in our industry generally. As a consequence, an active trading market may not develop for the notes, holders of notes may not be able to sell their notes, or, even if they can sell their notes, they may not be able to sell them at an acceptable price.

The liquidity of any trading market that develops for the notes may be adversely affected by future repurchases by us of notes through exchange offers, open market repurchases, privately negotiated transactions or otherwise.

Edgar Filing: PARAGON TILE LLC - Form 424B3

We have in the past repurchased our securities and may in the future repurchase the notes, through exchange offers, open market repurchase, privately negotiated transactions or otherwise. If a significant percentage of the notes were repurchased or exchanged in any such transaction, the liquidity of the trading market for the notes, if any, may be substantially reduced. Any notes repurchased or exchanged will reduce the amount of notes

Table of Contents

outstanding. As a result, the notes may trade at a discount to the price at which they would trade if the applicable transaction was not consummated, subject to prevailing interest rates, the market for similar securities and other factors. A smaller outstanding amount of the notes may also make the trading prices of the notes more volatile. If a portion of the notes were repurchased or exchanged in the future, there might not be an active market in the notes and the absence of an active market could adversely affect your ability to trade the notes and the prices at which the notes may be traded.

If you fail to exchange your original notes, you will face restrictions that will make the sale or transfer of your original notes more difficult.

If you do not exchange your original notes for new notes in the exchange offer, you will continue to be subject to the restrictions on transfer of your original notes described in the legend on your original notes. In general, you may only offer or sell the original notes if they are registered under the Securities Act and applicable state securities laws, or offered and sold under an exemption from those requirements. To the extent other original notes are tendered and accepted in the exchange offer and you elect not to exchange your original notes, the trading market, if any, for your original notes would be adversely affected because your original notes will be less liquid than the new notes. See The Exchange Offer Consequences of Failure to Exchange.

Some holders that exchange their original notes may be required to comply with registration and prospectus delivery requirements in connection with the sale or transfer of their new notes.

If you exchange your original notes in the exchange offer for the purpose of participating in a distribution of the new notes, you may be deemed to have received restricted securities and, if so, will be required to comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction. If you are required to comply with the registration and prospectus delivery requirements, then you may face additional burdens on the transfer of your notes and could incur liability for failure to comply with applicable requirements.

THE EXCHANGE OFFER

Terms of the Exchange Offer

Purpose of the Exchange Offer

We sold \$300,000,000 in principal amount of the original notes on July 18, 2012, in a transaction exempt from the registration requirements of the Securities Act. The initial purchasers of the original notes subsequently resold the original notes in reliance on Rule 144A and Regulation S under the Securities Act.

In connection with the sale of original notes to the initial purchasers pursuant to a purchase agreement, dated July 11, 2012, among us and the initial purchasers named therein, the holders of the original notes became entitled to the benefits of a registration rights agreement dated July 18, 2012 among us, the guarantors named therein and the initial purchasers named therein.

The registration rights agreement provides that, unless the exchange offer would violate applicable law or any applicable interpretation of the staff of the SEC, we:

will file an exchange offer registration statement for the notes with the SEC;

will use our commercially reasonable efforts to cause the SEC to declare the exchange offer registration statement effective under the Securities Act;

will use our commercially reasonable efforts to, on or prior to 180 days after July 18, 2012, complete the exchange of the new notes for all original notes tendered prior thereto in the exchange offer; and

will keep the registered exchange offer open for not less than 20 business days (or longer if required by applicable law or otherwise extended by us, at our option) after the date notice of the registered exchange offer is mailed to the holders of the original notes.

The exchange offer being made by this prospectus, if consummated within the required time periods, will satisfy our obligations under the registration rights agreement.

Upon the terms and subject to the conditions set forth in this prospectus and in the accompanying letter of transmittal, we will accept all original notes properly tendered and not withdrawn prior to the expiration date. We will issue \$1,000 principal amount of new notes in exchange for each \$1,000 principal amount of outstanding original notes accepted in the exchange offer. Holders may tender some or all of their original notes pursuant to the exchange offer in denominations of \$2,000 and multiples of \$1,000 in excess thereof.

Edgar Filing: PARAGON TILE LLC - Form 424B3

Based on no-action letters issued by the staff of the SEC to third parties we believe that holders of the new notes issued in exchange for original notes may offer for resale, resell and otherwise transfer the new notes, other than any holder that is an affiliate of ours within the meaning of Rule 405 under the Securities Act, without compliance with the registration and prospectus delivery provisions of the Securities Act. This is true as long as (i) the new notes are acquired in the ordinary course of the holder's business, (ii) the holder is not engaging in or intending to engage in a distribution of the new notes, and (iii) the holder has no arrangement or understanding with any person to participate in the distribution of the new notes. A broker-dealer that acquired original notes directly from us cannot exchange the original notes in the exchange offer. Any holder who tenders in the exchange offer for the purpose of participating in a distribution of the new notes cannot rely on the no-action letters of the staff of the SEC and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

Each broker-dealer that receives new notes for its own account in exchange for original notes, where such original notes were acquired by such broker-dealer as a result of market-making or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of such new notes. See [Plan of Distribution](#) for additional information.

Table of Contents

We will accept validly tendered original notes promptly following the expiration of the exchange offer by giving written notice of the acceptance of such notes to the exchange agent. The exchange agent will act as agent for the tendering holders of original notes for the purposes of receiving the new notes from the issuer and delivering new notes to such holders.

If any tendered original notes are not accepted for exchange because of an invalid tender or the occurrence of the conditions set forth under The Exchange Offer Conditions without waiver by us, certificates for any such unaccepted original notes will be returned, without expense, to the tendering holder of any such original notes promptly after the expiration date or the termination of the exchange offer, as applicable.

Holders of original notes who tender in the exchange offer will not be required to pay brokerage commissions or fees or, subject to the instructions in the letter of transmittal, transfer taxes with respect to the exchange of original notes, pursuant to the exchange offer. We will pay all charges and expenses, other than certain applicable taxes in connection with the exchange offer. See The Exchange Offer Fees and Expenses.

Shelf Registration Statement

Pursuant to the registration rights agreement, we have agreed to file a shelf registration statement if:

we are not permitted to file the exchange offer registration statement or consummate the exchange offer because the exchange offer is not permitted by applicable law or SEC policy;

the exchange offer is not consummated within 180 days after the issue date of the original notes; or

any holder (other than the initial purchasers) is prohibited by law or the applicable interpretations of the SEC from participating in the exchange offer.

A holder that sells original notes pursuant to the shelf registration statement generally must be named as a selling securityholder in the related prospectus and must deliver a prospectus to purchasers, because a seller will be subject to civil liability provisions under the Securities Act in connection with these sales. A seller of the original notes also will be bound by applicable provisions of the applicable registration rights agreement, including indemnification obligations. In addition, each holder of original notes must deliver information to be used in connection with the shelf registration statement and provide comments on the shelf registration statement in order to have its original notes included in the shelf registration statement and benefit from the provisions regarding any liquidated damages in the registration rights agreement.

We have agreed to file a shelf registration statement with the SEC as promptly as practicable, but in any event within 45 days after being so required, and thereafter use our commercially reasonable efforts to cause a shelf registration statement to be declared effective by the SEC within 90 days after being so required (provided that in no event shall such effectiveness be required prior to 180 days following the issue date of the original notes). In addition, we agreed to use our commercially reasonable efforts to keep that shelf registration statement continually effective, supplemented and amended for a period of two years following the date the shelf registration statement is declared effective (or for a period of one year from the date the shelf registration statement is declared effective and such shelf registration statement is filed at the request of the initial purchasers), or such shorter period which terminates when all notes covered by that shelf registration statement have been sold under it.

Additional Interest in Certain Circumstances

If any of the following, each a registration default, occurs:

the exchange offer is not completed on or before the 180th calendar day following the issue date of the original notes or, if that day is not a business day, then the next succeeding day that is a business day; or

Table of Contents

the shelf registration statement is required to be filed but is not filed or declared effective within the time periods required by the registration rights agreement or is declared effective but thereafter ceases to be effective or usable (subject to certain exceptions),

the interest rate borne by the notes as to which the registration default has occurred will be increased by 0.25% per annum upon the occurrence of a registration default. This rate will continue to increase by 0.25% each 90-day period that the liquidated damages (as defined below) continue to accrue under any such circumstance. However, the maximum total increase in the interest rate will in no event exceed one percent (1.0%) per annum. We refer to this increase in the interest rate on the notes as liquidated damages. Such interest is payable in addition to any other interest payable from time to time with respect to the notes in cash on each interest payment date to the holders of record for such interest payment date. After the cure of registration defaults, the accrual of liquidated damages will stop and the interest rate will revert to the original rate.

Under certain circumstances, we may delay the filing or the effectiveness of the exchange offer or the shelf registration and shall not be required to maintain its effectiveness or amend or supplement it for a period of up to 60 days during any 12-month period. Any delay period will not alter our obligation to pay liquidated damages with respect to a registration default.

The sole remedy available to the holders of the original notes will be the immediate increase in the interest rate on the original notes as described above. Any amounts of additional interest due as described above will be payable in cash on the same interest payment dates as the original notes.

Expiration Date; Extensions; Amendment

We will keep the exchange offer open for not less than 20 business days, or longer if required by applicable law, after the date on which notice of the exchange offer is mailed to the holders of the original notes. The term *expiration date* means the expiration date set forth on the cover page of this prospectus, unless we extend the exchange offer, in which case the term *expiration date* means the latest date to which the exchange offer is extended.

In order to extend the expiration date, we will notify the exchange agent of any extension by written notice and will issue a public announcement of the extension, each prior to 9:00 a.m., New York City time, on the next business day after the previously scheduled expiration date. Any such announcement will include the number and principal amount of original notes tendered for exchange as of such date.

We reserve the right:

to delay accepting any original notes and to extend the exchange offer or to terminate the exchange offer and not accept original notes not previously accepted if any of the conditions set forth under *Conditions* shall have occurred and shall not have been waived by us, if permitted to be waived by us, by giving written notice of such delay, extension or termination to the exchange agent; or

to amend the terms of the exchange offer in any manner deemed by us to be advantageous to the holders of the original notes. (We are required to extend the offering period for certain types of changes in the terms of the exchange offer, for example, a change in the consideration offered or percentage of original notes sought for tender.)

Edgar Filing: PARAGON TILE LLC - Form 424B3

All conditions set forth under The Exchange Offer Conditions must be satisfied or waived prior to the expiration date.

Any delay in acceptance, extension, termination or amendment will be followed as promptly as practicable by written notice. If the exchange offer is amended in a manner determined by us to constitute a material change, we will promptly disclose such amendment in a manner reasonably calculated to inform the holders of the original notes of such amendment. In the event of a material change in the exchange offer, including the waiver of a material condition by us, we will extend the exchange offer, if necessary, so that at least five business days remain prior to the expiration date following the notice of the material change.

Table of Contents

Without limiting the manner in which we may choose to make a public announcement of any extension, amendment or termination of the exchange offer, we will not be obligated to publish, advertise, or otherwise communicate any such announcement, other than by making a timely release to an appropriate news agency.

Exchange Offer Procedures

To tender in the exchange offer, a holder must complete, sign and date the letter of transmittal, or a facsimile thereof, have the signatures on the letter of transmittal guaranteed if required by instruction 2 of the letter of transmittal, and mail or otherwise deliver the letter of transmittal or such facsimile or an agent's message in connection with a book entry transfer, together with the original notes and any other required documents. To be validly tendered, such documents must reach the exchange agent before 5:00 p.m., New York City time, on the expiration date. Delivery of the original notes may be made by book-entry transfer in accordance with the procedures described below. Confirmation of such book-entry transfer must be received by the exchange agent prior to the expiration date.

The term "agent's message" means a message, transmitted by a book-entry transfer facility to, and received by, the exchange agent, forming a part of a confirmation of a book-entry transfer, which states that such book-entry transfer facility has received an express acknowledgment from the participant in such book-entry transfer facility tendering the original notes that such participant has received and agrees to be bound by the terms of the letter of transmittal and that we may enforce such agreement against such participant.

The tender by a holder of original notes will constitute an agreement between such holder and us in accordance with the terms and subject to the conditions set forth in this prospectus and in the letter of transmittal.

Delivery of all documents must be made to the exchange agent at its address set forth below. Holders may also request their respective brokers, dealers, commercial banks, trust companies or nominees to effect such tender for such holders.

Each broker-dealer that receives new notes for its own account in exchange for original notes, where such original notes were acquired by such broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of such new notes. See "Plan of Distribution."

The method of delivery of original notes and the letter of transmittal and all other required documents to the exchange agent is at the election and risk of the holders. Instead of delivery by mail, it is recommended that holders use an overnight or hand delivery service. In all cases, sufficient time should be allowed to assure timely delivery to the exchange agent before 5:00 p.m., New York City time, on the expiration date. No letter of transmittal or original notes should be sent to us.

Only a holder of original notes may tender original notes in the exchange offer. The term "holder" with respect to the exchange offer means any person in whose name original notes are registered or any other person who has obtained a properly completed bond power from the registered holder.

Edgar Filing: PARAGON TILE LLC - Form 424B3

Any beneficial holder whose original notes are registered in the name of its broker, dealer, commercial bank, trust company or other nominee and who wishes to tender should contact such registered holder promptly and instruct such registered holder to tender on its behalf. If such beneficial holder wishes to tender on its own behalf, such registered holder must, prior to completing and executing the letter of transmittal and delivering its original notes, either make appropriate arrangements to register ownership of the original notes in such holder's name or obtain a properly completed bond power from the registered holder. The transfer of record ownership may take considerable time.

Signatures on a letter of transmittal or a notice of withdrawal, must be guaranteed by an eligible guarantor institution within the meaning of Rule 17Ad-15 under the Exchange Act unless the original notes are tendered:

by a registered holder who has not completed the box entitled Special Issuance Instructions or Special Delivery Instructions on the letter of transmittal; or

Table of Contents

for the account of an eligible guarantor institution.

In the event that signatures on a letter of transmittal or a notice of withdrawal are required to be guaranteed, such guarantee must be by an eligible guarantor institution.

If a letter of transmittal is signed by a person other than the registered holder of any original notes listed therein, such original notes must be endorsed or accompanied by appropriate bond powers and a proxy which authorizes such person to tender the original notes on behalf of the registered holder, in each case signed as the name of the registered holder or holders appears on the original notes.

If a letter of transmittal or any original notes or bond powers are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity, such persons should so indicate when signing, and unless waived by us, evidence satisfactory to us of their authority so to act must be submitted with such letter of transmittal.

All questions as to the validity, form, eligibility, including time of receipt, and withdrawal of the tendered original notes will be determined by us in our reasonable discretion, which determination will be final and binding, provided, however, that such determination may be challenged in a court of competent jurisdiction. We reserve the absolute right to reject any and all original notes not properly tendered or any original notes our acceptance of which, in the opinion of our counsel, would be unlawful. We also reserve the absolute right to waive any irregularities or defects as to the original notes. If we waive any condition of the notes for any note holder, we will waive such condition for all note holders. Our interpretation of the terms and conditions of the exchange offer, including the instructions in the letter of transmittal, will be final and binding on all parties, provided, however, that such determination may be challenged in a court of competent jurisdiction. Unless waived, any defects or irregularities in connection with tenders of original notes must be cured within such time as we shall determine. None of us, the exchange agent or any other person shall be under any duty to give notification of defects or irregularities with respect to tenders of original notes, nor shall any of them incur any liability for failure to give such notification. Tendere of original notes will not be deemed to have been made until such irregularities have been cured or waived. Any original notes received by the exchange agent that are not properly tendered and as to which the defects or irregularities have not been cured or waived will be returned by the exchange agent to the tendering holders of original notes without cost to such holder, unless otherwise provided in the relevant letter of transmittal, promptly following the expiration date.

In addition, we reserve the absolute right in our sole discretion to:

purchase or make offers for any original notes that remain outstanding subsequent to the expiration date or, as set forth under The Exchange Offer Conditions, to terminate the exchange offer in accordance with the terms of the registration rights agreement; and

to the extent permitted by applicable law, purchase original notes in the open market, in privately negotiated transactions or otherwise.

The terms of any such purchases or offers may differ from the terms of the exchange offer.

By tendering, each holder will represent to us that, among other things:

Edgar Filing: PARAGON TILE LLC - Form 424B3

such holder or other person is not our affiliate, as defined under Rule 405 of the Securities Act, or, if such holder or other person is such an affiliate, will comply with the registration and prospectus delivery requirements of the Securities Act to the extent applicable;

the new notes acquired pursuant to the exchange offer are being obtained in the ordinary course of business of such holder or other person;

neither such holder or other person has any arrangement or understanding with any person to participate in the distribution of such new notes in violation of the Securities Act; and

neither such holder nor such other person is engaged in or intends to engage in a distribution of the new notes.

Table of Contents

We understand that the exchange agent will make a request promptly after the date of this prospectus to establish accounts with respect to the original notes at The Depository Trust Company (DTC) for the purpose of facilitating the exchange offer, and subject to the establishment of such accounts, any financial institution that is a participant in DTC 's system may make book-entry delivery of original notes by causing DTC to transfer such original notes into the exchange agent 's account with respect to the original notes in accordance with DTC 's procedures for such transfer. Although delivery of the original notes may be effected through book-entry transfer into the exchange agent 's account at DTC, a letter of transmittal properly completed and duly executed with any required signature guarantee, or an agent 's message in lieu of a letter of transmittal, and all other required documents must in each case be transmitted to and received or confirmed by the exchange agent at its address set forth below on or prior to the expiration date, or, if the guaranteed delivery procedures described below are complied with, within the time period provided under such procedures. Delivery of documents to DTC does not constitute delivery to the exchange agent.

Guaranteed Delivery Procedures

Holders who wish to tender their original notes and:

whose original notes are not immediately available; or

who cannot deliver their original notes, the letter of transmittal or any other required documents to the exchange agent prior to 5:00 p.m., New York City time, on the expiration date of the exchange offer; or

who cannot complete the procedures for delivery by book-entry transfer prior to 5:00 p.m., New York City time, on the expiration date of the exchange offer,

may effect a tender if:

the tender is made by or through an eligible guarantor institution ;

prior to 5:00 p.m., New York City time, on the expiration date of the exchange offer, the exchange agent receives from such eligible guarantor institution a properly completed and duly executed Notice of Guaranteed Delivery, by facsimile transmission, mail or hand delivery, setting forth the name and address of the holder of the original notes, the certificate number or numbers of such original notes and the principal amount of original notes tendered, stating that the tender is being made thereby, and guaranteeing that, within three business days after the expiration date, a letter of transmittal, or facsimile thereof or agent 's message in lieu of such letter of transmittal, together with the certificate(s) representing the original notes to be tendered in proper form for transfer and any other documents required by the letter of transmittal will be deposited by the eligible guarantor institution with the exchange agent; and

a properly completed and duly executed letter of transmittal (or facsimile thereof) together with the certificate(s) representing all tendered original notes in proper form for transfer or an agent 's message in the case of delivery by book-entry transfer and all other documents required by the letter of transmittal are received by the exchange agent within three business days after the expiration date.

Withdrawal of Tenders

Edgar Filing: PARAGON TILE LLC - Form 424B3

Except as otherwise provided in this prospectus, tenders of original notes may be withdrawn at any time prior to 5:00 p.m., New York City time, on the expiration date.

To withdraw a tender of original notes in the exchange offer, a written or facsimile transmission notice of withdrawal must be received by the exchange agent at its address set forth in this prospectus prior to 5:00 p.m., New York City time, on the expiration date. Any such notice of withdrawal must:

specify the name of the depositor, who is the person having deposited the original notes to be withdrawn;

Table of Contents

identify the original notes to be withdrawn, including the certificate number or numbers and principal amount of such original notes or, in the case of original notes transferred by book-entry transfer, the name and number of the account at DTC to be credited;

be signed by the depositor in the same manner as the original signature on the letter of transmittal by which such original notes were tendered, including any required signature guarantees, or be accompanied by documents of transfer sufficient to have the trustee with respect to the original notes register the transfer of such original notes into the name of the depositor withdrawing the tender; and

specify the name in which any such original notes are to be registered, if different from that of the depositor.

All questions as to the validity, form and eligibility, including time of receipt, of such withdrawal notices will be determined by us in our reasonable discretion, and our determination shall be final and binding on all parties, provided, however, that such determination may be challenged in a court of competent jurisdiction. Any original notes so withdrawn will be deemed not to have been validly tendered for purposes of the exchange offer and no new notes will be issued with respect to the original notes withdrawn unless the original notes so withdrawn are validly retendered. Any original notes which have been tendered but which are not accepted for exchange will be returned to its holder without cost to such holder promptly after withdrawal, rejection of tender or termination of the exchange offer. Properly withdrawn original notes may be retendered by following one of the procedures described above under *The Exchange Offer Exchange Offer Procedures* at any time prior to the expiration date.

Conditions

Notwithstanding any other term of the exchange offer, we will not be required to accept for exchange, or exchange, any new notes for any original notes, and may terminate or amend the exchange offer before the expiration date, if:

in the opinion of our counsel, the exchange offer or any part thereof contemplated herein violates any applicable law or interpretation of the staff of the SEC;

any action or proceeding shall have been instituted in any court or by any governmental agency which might materially impair our ability to proceed with the exchange offer or any material adverse development shall have occurred in any such action or proceeding with respect to us;

any governmental approval has not been obtained, which approval we shall deem necessary for the consummation of the exchange offer as contemplated hereby;

any cessation of trading on any securities exchange, or any banking moratorium, shall have occurred, as a result of which we are unable to proceed with the exchange offer; or

a stop order shall have been issued by the SEC or any state securities authority suspending the effectiveness of the registration statement or proceedings shall have been initiated for that purpose.

If any of the foregoing conditions exist, we may, in our reasonable discretion:

Edgar Filing: PARAGON TILE LLC - Form 424B3

refuse to accept any original notes and return all tendered original notes to the tendering holders promptly following the expiration date or the termination of the exchange offer, as applicable;

extend the exchange offer and retain all original notes tendered prior to the expiration of the exchange offer, subject, however, to the rights of holders who tendered such original notes to withdraw their tendered original notes; or

waive such condition, if permissible, with respect to the exchange offer and accept all properly tendered original notes which have not been withdrawn. If such waiver constitutes a material change to the exchange offer, we will promptly disclose such waiver by means of a prospectus supplement that will be distributed to the holders, and we will extend the exchange offer, if necessary, so that at least five business days remain prior to the expiration date following the date of such prospectus supplement.

Consequences of Failure to Exchange

Holders of original notes who are eligible to participate in the exchange offer but who do not tender their original notes will not have any further registration rights, and their original notes will continue to be subject to restrictions on transfer of the original notes as described in the legend on the original notes as a consequence of the issuance of the original notes under exemptions from, or in transactions not subject to, the registration requirements of the Securities Act and applicable state securities laws. In general, the original notes may not be offered or sold, unless registered under the Securities Act, except under an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws.

Regulatory Approvals

We do not believe that the receipt of any material federal or state regulatory approval will be necessary in connection with the exchange offer, other than the effectiveness of the exchange offer registration statement under the Securities Act.

Other

Participation in the exchange offer is voluntary and holders of original notes should carefully consider whether to accept the terms and conditions of this exchange offer. Holders of the original notes are urged to consult their financial and tax advisors in making their own decisions on what action to take with respect to the exchange offer.

Neither our affiliates nor the affiliates of the guarantors have any interest, direct or indirect, in the exchange offer.

USE OF PROCEEDS

This exchange offer is intended to satisfy our obligations to register an exchange offer of the new notes for the original notes required by the registration rights agreement entered into in connection with the offering of the original notes. We will not receive any cash proceeds from the issuance of the new notes. In consideration for issuing the new notes, we will receive the outstanding original notes in like principal amount, the terms of which are identical in all material respects to the terms of the new notes, except as otherwise described herein. The original notes surrendered in exchange for the new notes will be retired and cancelled and cannot be reissued.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth information regarding our ratio of earnings to fixed charges for each of the periods shown. For purposes of calculating this ratio, (i) earnings consist of income (loss) from continuing operations before provision (benefit) for income taxes and fixed charges and (ii) fixed charges consist of interest expense and imputed interest on our lease obligations.

(a) Earnings for the fiscal years ended September 30, 2008, 2009, 2010, 2011 and 2012 were insufficient to cover fixed charges by \$523 million, \$37 million, \$16 million, \$71 million, and \$41 million, respectively.

Revolving Credit Facility In September 2012, we amended and expanded our Revolving Credit Facility from \$22 million to \$150 million. The amended three-year amended Revolving Credit Facility provides for future working capital and letter of credit needs collateralized by substantially all of the Company's personal property (excluding cash and cash equivalents) and real property. This facility is subject to various financial, collateral-based and negative covenants with which we are required to comply. As of September 30, 2012, we were in compliance with all such covenants. We have elected to cash collateralize all letters of credit; however, as of September 30, 2012, we have pledged approximately \$0.9 billion of inventory assets to our Senior Revolving Credit Facility to collateralize potential future borrowings or letters of credit. The Revolving Credit Facility contains certain covenants, including negative covenants and financial maintenance covenants, with which we are required to comply. Subject to our option to cash collateralize our obligations under the Revolving Credit Facility upon certain conditions, our obligations under the Revolving Credit Facility are secured by liens on substantially all of our personal property and a significant portion of our owned real properties. There were no outstanding borrowings under the Revolving Credit Facility as of September 30, 2012 or September 30, 2011.

We have entered into stand-alone, cash-secured letter of credit agreements with banks to maintain our pre-existing letters of credit and to provide for the issuance of new letters of credit. The letter of credit arrangements combined with our Revolving Credit Facility provide a total letter of credit capacity of approximately \$220.0 million. As of September 30, 2012 and September 30, 2011, we have letters of credit outstanding of \$24.7 million and \$28.9 million, respectively, which are secured by cash collateral in restricted accounts. The Company may enter into additional arrangements to provide additional letter of credit capacity.

Senior Notes The majority of our Senior Notes are unsecured or secured obligations ranking *pari passu* with all other existing and future senior indebtedness. Substantially all of our significant subsidiaries are full and unconditional guarantors of the Senior Notes and are jointly and severally liable for obligations under the Senior Notes and the Revolving Credit Facility. Each guarantor subsidiary is a 100% owned subsidiary of Beazer Homes. As of September 30, 2012, we were in compliance with all covenants under our Senior Notes.

The indentures under which the Senior Notes were issued contain certain restrictive covenants, including limitations on payment of dividends. At September 30, 2012, under the most restrictive covenants of each indenture, no portion of our retained earnings was available for cash dividends or for share repurchases. The indentures provide that, in the event of defined changes in control or if our consolidated tangible net worth falls below a specified level or in certain circumstances upon a sale of assets, we are required to offer to repurchase certain specified amounts of outstanding Senior Notes. Specifically, certain indentures require us to offer to purchase 10% of the original amount of the Senior Notes at par if our consolidated tangible net worth (defined as stockholders' equity less intangible assets) is less than \$85 million at the end of any two consecutive fiscal quarters. If triggered and fully subscribed, this could result in our having to purchase \$62.5 million of notes, based on the original amounts of the applicable notes; however, this amount may be reduced by certain Senior Note repurchases (potentially at less than par) made after the triggering date. As of September 30, 2012, our consolidated tangible net worth was \$236.2 million.

In July 2012, we called for redemption of all \$250 million outstanding of our 12% senior secured notes due 2017. Cash used for this redemption, including payment of accrued interest and the contractual call premium was approximately \$280 million. We recorded a \$42.4 million pre-tax loss on debt extinguishment (including write-off of unamortized discount and debt issuance costs) related to the redemption of the 12% senior secured notes due 2017.

In November 2010, we issued \$250 million aggregate principal amount of 9 ¹/₈% Senior Notes due May 15, 2019 in a private placement. Interest on these notes is payable semi-annually in cash in arrears, commencing on May 15, 2011. These notes are unsecured and rank equally with our unsecured indebtedness. We may, at our option, redeem the 9 ¹/₈% Senior Notes in whole or in part at any time at specified redemption prices which

Table of Contents

include a make whole provision through May 15, 2014. During fiscal year 2011, we exchanged substantially all of the \$250 million 9 1/8% Senior Notes due 2019 for notes that were publicly traded and registered under the Securities Act of 1933.

During fiscal 2012, we redeemed or repurchased in open market transactions \$15.0 million of our 9 1/8% Senior Notes due 2019 for an aggregate purchase price of \$14.6 million, plus accrued and unpaid interest. These transactions resulted in a gain on debt extinguishment of \$30,000, net of unamortized discounts and debt issuance costs. During fiscal 2011, we redeemed or repurchased in open market transactions, \$209.5 million principal amount of our Senior Notes (\$164.5 million of 6 1/2% Senior Notes due 2013, \$37.0 million of 6 7/8% Senior Notes due 2015 and \$8.0 million of 8 1/8% Senior Notes due 2016). The aggregate purchase price was \$210.0 million in 2011, plus accrued and unpaid interest as of the purchase date. The redemption/repurchase of the notes resulted in a \$2.9 million pre-tax loss on extinguishment of debt, net of unamortized discounts and debt issuance costs related to these notes. All Senior Notes redeemed/repurchased by the Company were canceled.

Senior Notes: Tangible Equity Units In July 2012, we issued 4.6 million 7.50% tangible equity units (TEUs), which were comprised of prepaid stock purchase contracts and senior amortizing notes. As the two components of the TEUs are legally separate and detachable, we have accounted for the two components as separate items for financial reporting purposes and valued them based on their relative fair value at the date of issuance. The amortizing notes are unsecured senior obligations and rank equally with all of our other unsecured indebtedness. Outstanding notes pay quarterly installments of principal and interest through maturity. The prepaid stock purchase contracts were originally accounted for as equity (additional paid in capital) at the initial fair value of these contracts based on the relative fair value method. The prepaid stock purchase contracts related to these July 2012 TEUs are scheduled to be settled in Beazer Homes common stock on July 15, 2015.

In May 2010, we issued 3.0 million 7.25% TEUs (the 2010 TEUs). In March 2012, we exchanged 2.8 million shares of our common stock for 2.8 million 2010 TEUs (comprised of prepaid stock purchase contracts and \$7.2 million of senior amortizing notes). Since our offer to convert the 2010 TEUs included a premium share component and was not pursuant to the instrument's original conversion terms, we accounted for the exchange as an induced conversion of the 2010 TEUs. We compared the fair value of the common stock issued to the fair value of the 2010 TEU instruments at the date of acceptance in order to determine the premium of the consideration. This premium was then allocated between the debt and equity components of the 2010 TEUs based on each component's relative fair value. The difference between the implied fair value of the amortizing notes (including the premium allocation) and the carrying value of the amortizing notes was recognized as a loss on extinguishment of debt and totaled approximately \$0.7 million. The remaining related prepaid stock purchase contracts issued May 2010 will be settled in Beazer Homes common stock on August 15, 2013.

Mandatory Convertible Subordinated Notes On January 12, 2010, we issued \$57.5 million aggregate principal amount of 7 1/2% Mandatory Convertible Subordinated Notes due 2013 (the Mandatory Convertible Subordinated Notes). Interest on the Mandatory Convertible Subordinated Notes is payable quarterly in cash in arrears. Holders of the Mandatory Convertible Subordinated Notes have the right to convert their notes, in whole or in part, at any time prior to maturity, into shares of our common stock at a fixed conversion rate of 1.0870 shares per \$25 principal amount of notes.

During the quarter ended March 31, 2012, we exchanged 2.2 million shares of our common stock for \$48.1 million of our Mandatory Convertible Subordinated Notes. Since our offer to convert these notes included a premium share component, we accounted for the exchange as an induced conversion of these notes. We recognized a \$2.0 million inducement expense equal to the fair value of the premium shares issued based on our common stock price as of the date of acceptance. This expense is included in loss on extinguishment of debt for the fiscal year ended September 30, 2012.

At maturity, the remaining \$9.4 million of outstanding notes will automatically convert into the Company's common stock at a defined conversion rate which will range from 0.8909 to 1.0870 (the initial conversion rate)

Table of Contents

shares per \$25 principal amount of notes based on the then current price of the common stock. The securities are subordinated to nonconvertible debt, the conversion feature is non-detachable and there are no beneficial conversion features associated with this debt. If our consolidated tangible net worth is less than \$85 million as of the last day of a fiscal quarter, the Company has the right to require holders to convert all of the notes then outstanding for shares of our common stock at the maximum conversion rate plus a conversion premium as described in the agreement.

Junior Subordinated Notes On June 15, 2006, we completed a private placement of \$103.1 million of unsecured junior subordinated notes which mature on July 30, 2036, are redeemable at par and pay a fixed rate of 7.987% for the first ten years ending July 30, 2016. Thereafter, the securities have a floating interest rate equal to three-month LIBOR plus 2.45% per annum, resetting quarterly. These notes were issued to Beazer Capital Trust I, which simultaneously issued, in a private transaction, trust preferred securities and common securities with an aggregate value of \$103.1 million to fund its purchase of these notes. The transaction is treated as debt in accordance with GAAP. The obligations relating to these notes and the related securities are subordinated to the Revolving Credit Facility and the Senior Notes.

On January 15, 2010, we completed an exchange of \$75 million of our trust preferred securities issued by Beazer Capital Trust I for a new issue of \$75 million of junior subordinated notes due July 30, 2036 issued by the Company (the New Junior Notes). The exchanged trust preferred securities and the related junior subordinated notes issued in 2006 were cancelled effective January 15, 2010. The material terms of the New Junior Notes are identical to the terms of the original trust securities except that when the New Junior Notes change from a fixed rate to a variable rate in August 2016, the variable rate is subject to a floor of 4.25% and a cap of 9.25%. In addition, the Company now has the option to redeem the New Junior Notes beginning on June 1, 2012 at 75% of par value and beginning on June 1, 2022, the redemption price of 75% of par value will increase by 1.785% per year.

The aforementioned exchange has been accounted for as an extinguishment of debt as there has been a significant modification of cash flows and, as such, the New Junior Notes were recorded at their estimated fair value at the exchange date. Over the remaining life of the New Junior Notes, we will increase their carrying value until this carrying value equals the face value of the notes. As of September 30, 2012, the unamortized accretion was \$49.2 million and will be amortized over the remaining life of the notes.

As of September 30, 2012, we were in compliance with all covenants under our Junior Notes.

Cash Secured Loans In November 2010, we entered into two separate loan facilities which allowed for borrowings through May 2011 up to a combined commitment of \$275 million. Borrowing under the cash secured loan facilities are considered refinancing indebtedness under certain of the Company's existing indentures and debt covenants. However, because the loans are fully collateralized by cash equal to the loan amount, the loans do not provide liquidity to the Company.

The loans mature in November 2017, however, the lenders of these facilities may put the outstanding loan balances to the Company at the two or four year anniversaries of the loan. Borrowings under the facilities are fully secured by cash held by the lender or its affiliates. This secured cash is reflected as restricted cash on our consolidated balance sheet as of September 30, 2012. We borrowed \$32.6 million at inception of the loans. As previously indicated and in order to protect financing capacity available under our covenant refinancing basket related to previous or future debt repayments, we borrowed an additional \$214.8 million under the cash secured loan facilities in May 2011. The cash secured loan has an interest rate equivalent to LIBOR plus 0.4% per annum which is paid every three months following the effective date of each borrowing.

During the quarter ended September 30, 2012, we repaid \$20 million of the cash secured term loan and amended the cash secured loan facilities to allow additional borrowings up to a combined commitment of \$275 million through March 2013. We also restructured the date of which the

lenders may put the outstanding loan balance to November 2014, removing the original put at the second anniversary of the loan.

Other Secured Notes Payable We periodically acquire land through the issuance of notes payable. As of September 30, 2012, we had outstanding notes payable of \$8.8 million, primarily related to land acquisitions. These notes payable expire during 2012 and had a weighted average fixed rate of 3.79% at September 30, 2012. These notes are secured by the real estate to which they relate.

The agreements governing these secured notes payable contain various affirmative and negative covenants. There can be no assurance that we will be able to obtain any future waivers or amendments that may become necessary without significant additional cost or at all. In each instance, however, a covenant default can be cured by repayment of the indebtedness.

DESCRIPTION OF THE NOTES

Definitions for certain defined terms may be found under **Certain Definitions** appearing below. References in this **Description of the Notes** to the **Company** refer to Beazer Homes USA, Inc. only and not to any of its subsidiaries unless the context otherwise requires, and references to the **Notes** in this section are references to the outstanding 6.625% Senior Secured Notes due 2018 and the exchange 6.625% Senior Secured Notes due 2018 offered hereby, collectively.

The Notes are issued as a series of securities under an Indenture dated as of July 18, 2012 (the **Indenture**), among the Company, the Subsidiary Guarantors, U.S. Bank National Association, as trustee (the **Trustee**), and Wilmington Trust, National Association (as successor by merger to Wilmington Trust FSB), as collateral agent (the **Notes Collateral Agent**). The following summaries of certain provisions of the Indenture, Security Documents and Intercreditor Agreement do not purport to be complete and are subject to, and are qualified in their entirety by reference to, all the provisions of the Indenture, Security Documents and Intercreditor Agreement, including the definitions of certain terms therein. Wherever particular sections or defined terms of the Indenture not otherwise defined herein are referred to, such sections or defined terms shall be incorporated herein by reference. A copy of the Indenture, Security Documents and Intercreditor Agreement is available to any holder of the Notes upon request to the Company.

General

The Notes are senior secured obligations of the Company. The principal amount of the Notes now outstanding is \$300.0 million. The Company may issue additional Notes (**Additional Notes**) from time to time subject to the limitations set forth under **Certain Covenants** **Limitations on Additional Indebtedness**. The Notes and any Additional Notes subsequently issued under the Indenture will be treated as a single class for all purposes under the Indenture. Unless the context requires otherwise, references to **Notes** for all purposes of the Indenture and this **Description of the Notes** include any Additional Notes that are actually issued. The Notes are guaranteed by each of the Subsidiary Guarantors pursuant to the guarantees (the **Subsidiary Guarantees**) described below.

The Notes bear interest at the rate of 6.625% per annum from the Issue Date or, if interest has already been paid, from the date it was most recently paid, payable on April 15 and October 15 of each year, commencing on October 15, 2012, to holders of record (the **Holder**) at the close of business on April 1 or October 1, as the case may be, immediately preceding the respective interest payment date. The Notes will mature on April 15, 2018. Interest is computed on the basis of a 360-day year of twelve 30-day months.

Principal, premium, if any, and interest on the Notes is payable, and the Notes may be presented for registration of transfer or exchange, at the offices of the Trustee. At the option of the Company, payment of interest may be made by check mailed to the Holders of the Notes at their respective addresses set forth in the register of Holders; *provided* that all payments of principal, premium, if any, and interest with respect to Notes represented by one or more permanent global notes registered in the name of or held by DTC or its nominee will be made by wire transfer of immediately available funds to the accounts specified by the Holder or Holders thereof. The Company may require payment of a sum sufficient to cover any transfer tax or other governmental charge payable in connection with certain transfers or exchanges of the Notes. Initially, the Trustee will act as the Paying Agent and the Registrar under the Indenture. The Company may subsequently act as the Paying Agent and/or the Registrar and the Company may change any Paying Agent and/or any Registrar without prior notice to the Holders.

to the Notes (or to all senior indebtedness) and *pari passu* in right of payment with all existing and future Indebtedness of the Company that is not so subordinated, (y) effectively senior to all unsecured Indebtedness to the extent of the value of the Collateral and (z) effectively junior to any obligations of the Company that are either (i) secured by a Lien on the Collateral that is senior or prior to the Liens securing the Notes, including the First Priority Liens securing obligations under the Revolving Credit Facility, and potentially any Permitted Liens or (ii) secured by assets that are not part of the Collateral, in each case to the extent of the value of the assets securing such obligations.

The Subsidiary Guarantees are senior secured obligations of the Subsidiary Guarantors and rank (x) senior in right of payment to all existing and future Indebtedness of the Subsidiary Guarantors that is, by its terms, expressly subordinated in right of payment to the Subsidiary Guarantees (or to all senior indebtedness) and *pari passu* in right of payment with all existing and future Indebtedness of the Subsidiary Guarantors that is not so subordinated, (y) effectively senior to all unsecured Indebtedness of the Subsidiary Guarantors to the extent of the value of the Collateral and (z) effectively junior to any obligations of any Subsidiary Guarantor that are either (i) secured by a Lien on the Collateral that is senior or prior to the Liens securing the Subsidiary Guarantees, including the First Priority Liens securing obligations under the Revolving Credit Facility, and potentially any Permitted Liens or (ii) secured by assets that are not part of the Collateral, in each case, to the extent of the value of the assets securing such obligations.

As of September 30, 2012, after giving effect to the issuance of the original notes and the redemption of the 2017 notes with the proceeds therefrom, the Company and the Subsidiary Guarantors had approximately \$8.8 million of Indebtedness outstanding secured by non-cash assets that are not part of the Collateral, no Indebtedness outstanding secured on a *pari passu* basis with the Notes and no First Priority Obligations.

In addition, the Notes and the Subsidiary Guarantees are structurally subordinated to all existing and future liabilities of the Company's Subsidiaries that do not guarantee the Notes. As of September 30, 2012, the Company's non-guarantor Subsidiaries had approximately \$2.0 million of liabilities (excluding intercompany obligations) in the aggregate.

Security

The Notes and the Subsidiary Guarantees are secured by substantially all of the assets of the Company and the Subsidiary Guarantors (other than the Excluded Property (as defined herein)), which is referred to herein as the Collateral. The Collateral initially consisted of the First Priority Collateral, as to which holders of First Priority Obligations (which, as of the Issue Date, consisted of obligations under the Revolving Credit Facility) had a first-priority security interest and the Holders of the Notes and holders of any future Other Pari Passu Lien Obligations will have a second-priority security interest (subject to Permitted Liens). The Revolving Credit Facility currently provides the Company the option of having all or a portion of the collateral thereunder released and replaced with cash collateral. In the event any First Priority Collateral is so released, the Holders of the Notes and holders of any future Other Pari Passu Lien Obligations will have a first-priority security interest in such Collateral (subject to Permitted Liens), unless and until the Company incurs any other First Priority Obligations secured by such Collateral on a first-priority basis.

The Company and the Subsidiary Guarantors are able to incur additional Indebtedness in the future which could share in all or part of the Collateral. The amount of all such additional Indebtedness is limited by the covenants disclosed under Certain Covenants Limitations on Liens and Certain Covenants Limitations on Additional Indebtedness. Under certain circumstances the amount of such additional secured Indebtedness could be significant.

Certain security interests in the Collateral, including all of the mortgages on the real property collateral, were not in place on the date of the Indenture or were not perfected on the date of the Indenture. The Company and the Subsidiary Guarantors agreed to do or cause to be done all

acts and things that may be required, including

Table of Contents

obtaining any required consents from third parties, to have all security interests in the Collateral duly created and enforceable and perfected, to the extent required by the Security Documents, promptly following the date of the Indenture, but in any event no later than 90 days thereafter. See Risk Factors Risks Related to the Notes and the Exchange Offer Security over certain collateral was not in place by the closing date of the offering of the original notes or was not perfected or a valid lien created on such date, which increases the risk that the mortgages or other security interests may be avoidable in bankruptcy.

Collateral

The Collateral has been pledged as collateral to the Notes Collateral Agent for the benefit of the Trustee, the Notes Collateral Agent and the Holders of the Notes. The Notes and Subsidiary Guarantees are secured by second-priority security interests in the First Priority Collateral and first-priority security interests in the Notes Collateral, in each case subject to certain Permitted Liens and encumbrances described in the Security Documents. The Collateral generally consists of the following assets of the Company and the Subsidiary Guarantors, in each case other than assets that constitute Excluded Property:

real properties owned by the Company and the Subsidiary Guarantors;

all accounts;

all inventory and equipment;

all patents, trademarks and copyrights;

all general intangibles, instruments, books and records and supporting obligations related to the foregoing and proceeds of the foregoing; and

substantially all of the other tangible and intangible assets of the Company and the Subsidiary Guarantors.

As of September 30, 2012, owned real properties with an aggregate Book Value of approximately \$0.9 billion were included in the collateral securing the Revolving Credit Facility.

Except as provided in the Intercreditor Agreement, Holders will not be able to take any enforcement action with respect to the First Priority Collateral so long as any First Priority Obligations are outstanding.

As set out in more detail below, upon an enforcement event or insolvency proceeding, proceeds from the First Priority Collateral will be applied first to satisfy First Priority Obligations and then to satisfy obligations on the Notes. In addition, the Indenture permits the Company and the Subsidiary Guarantors to create additional Liens under specified circumstances, including certain additional senior Liens on the First Priority Collateral. See the definition of Permitted Liens.

After-Acquired Property

If property (other than Excluded Property) is acquired by the Company or a Subsidiary Guarantor that is not automatically subject to a perfected security interest under the Security Documents or a Restricted Subsidiary becomes a Subsidiary Guarantor, or property that was Excluded Property ceases to be Excluded Property, then the Company or such Subsidiary Guarantor will, as soon as practical (but in any event within 60 days) after such property's acquisition or it no longer being Excluded Property, provide security over such property (or, in the case of a new Subsidiary Guarantor, all of its assets except Excluded Property) in favor of the Notes Collateral Agent and deliver certain certificates and opinions in respect thereof as required by the Indenture or the Security Documents; *provided* that the failure to deliver mortgages (and related documents) with respect to any real property within any such 60-day period shall not constitute a default under the Indenture until such time as the aggregate Book Value of real properties for which mortgages (and related documents) have not been delivered within such 60-day periods (and remain undelivered at the time of determination) exceeds \$25.0 million.

Information Regarding Collateral

The Company will furnish to the Trustee and the Notes Collateral Agent, with respect to the Company or any Subsidiary Guarantor, written notice of any change (within 10 days following such change) in such Person's (i) legal name, (ii) jurisdiction of organization or formation, (iii) identity or corporate structure or (iv) organizational identification number. The Company also agrees promptly to notify the Notes Collateral Agent if any material portion of the Collateral is damaged, destroyed or condemned.

On or prior to December 31 of each year (beginning with December 31, 2013), the Company shall deliver to the Trustee and Notes Collateral Agent a certificate of an authorized officer setting forth the information required pursuant to the schedules required by the Security Documents or confirming that there has been no change in such information since the date of the prior certificate (or the Issue Date in the case of the first such certificate).

Further Assurances

The Company and the Subsidiary Guarantors shall execute any and all further documents, financing statements, agreements and instruments, and take all further action that may be required under applicable law, or that the Notes Collateral Agent may reasonably request, in order to grant, preserve, protect and perfect the validity and priority of the security interests and Liens created or intended to be created by the Security Documents in the Collateral unless such actions are not required by the Security Documents. Such security interests and Liens will be created under the Security Documents and other security agreements, mortgages, deeds of trust and other instruments and documents in form and substance reasonably satisfactory to the Notes Collateral Agent, and the Company shall deliver or cause to be delivered to the Notes Collateral Agent all such instruments and documents (including certificates, legal opinions and lien searches) as the Notes Collateral Agent shall reasonably request to evidence compliance with this covenant; *provided* that with respect to any real property Collateral that secures First Priority Obligations, (x) the Company and the Subsidiary Guarantors shall not be required to deliver or cause to be delivered any such instruments and documents to the extent not required to be delivered to the applicable First Priority Collateral Agent for the benefit of the First Priority Secured Parties, (y) to the extent any title insurance policies are delivered to the applicable First Priority Collateral Agent with respect to any real property Collateral, the Company and the Subsidiary Guarantors may deliver title insurance policies to the Notes Collateral Agent in respect of such real property Collateral in an aggregate amount of coverage limited to the aggregate principal amount of the Notes, which amount of coverage may be allocated proportionately among the properties comprising such real property Collateral according to the respective individual values of such real properties (or the Company and the Subsidiary Guarantors may deliver other title insurance coverage pursuant to other arrangements that would be commercially reasonable under the circumstances taking into account the costs associated therewith and the benefits afforded thereby, including pursuant to all pro tanto endorsements and similar arrangements), and (z) to the extent a survey is delivered to the applicable First Priority Collateral Agent with respect to any real property Collateral, the Company and the Subsidiary Guarantors may deliver a copy of such survey to the Notes Collateral Agent and will otherwise use commercially reasonable efforts to ensure that the title insurance policy issued to the Notes Collateral Agent with respect to such real property contains substantially the same survey coverage as that provided to such First Priority Collateral Agent under its title insurance policy relating to such real property; and *provided, further*, that with respect to any real property Collateral that does not secure any First Priority Obligations, the Company and the Subsidiary Guarantors shall be required to deliver or cause to be delivered to the Notes Collateral Agent a mortgage, deed of trust or similar instrument with respect to such property but shall not be required to deliver or cause to be delivered any title insurance policies, surveys, appraisals or environmental reports relating thereto.

Security Documents and Certain Related Intercreditor Provisions

The Company, the Subsidiary Guarantors, the Notes Collateral Agent and/or the Trustee have entered into one or more Security Documents creating and establishing the terms of the security interests and Liens that secure the Notes and the Subsidiary Guarantees. These security

interests and Liens will secure the payment and

performance when due of all of the Obligations of the Company and the Subsidiary Guarantors under the Notes, the Indenture, the Subsidiary Guarantees and the Security Documents, as provided in the Security Documents. The attachment and perfection of the security interests granted to the Notes Collateral Agent in the Collateral Agreement in those items of non-real property Collateral which are of a type such that a security interest therein may be perfected by the filing of Uniform Commercial Code financing statements in the offices of the Secretary of State of the respective jurisdictions of organization of the Company and the Subsidiary Guarantors, or the filing of security agreements with respect to certain intellectual property in the U.S. Patent and Trademark Office or Copyright Office, as applicable, was completed on the Issue Date or promptly thereafter upon acceptance of such financing statements and security agreements for filing in such offices. The First Priority Collateral Agents and holders of First Priority Obligations secured by First Priority Collateral are referred to collectively as **First Priority Secured Parties**. The Trustee, Notes Collateral Agent, each Holder, each other holder of, or obligee in respect of, any Obligations in respect of the Notes outstanding at such time are referred to collectively as the **Noteholder Secured Parties**. The Obligations in respect of the Notes constitute claims separate and apart from (and of a different class from) the First Priority Obligations and are junior to the First Priority Liens with respect to the First Priority Collateral. In certain states, mortgages may be granted solely to a single collateral agent, which holds such mortgages for the benefit of the holders of the First-Priority Liens and the Second Priority Liens.

Intercreditor Agreement

On the Issue Date, the Company, the Subsidiary Guarantors, the Notes Collateral Agent and the First Priority Collateral Agent with respect to the Revolving Credit Facility entered into a joinder to the Intercreditor Agreement. Although the Holders of the Notes and the holders of First Priority Obligations are not party to the Intercreditor Agreement, by their acceptance of the Notes and First Priority Obligations, respectively, they will each agree to be bound thereby. The Indenture provides that the Intercreditor Agreement may be amended from time to time without the consent of the Holders or the holders of First Priority Obligations to add other parties holding Other Pari Passu Lien Obligations or other First Priority Obligations, in each case to the extent permitted to be incurred under the Indenture and other applicable agreements. See Amendment, Supplement and Waiver.

The aggregate amount of the obligations secured by the First Priority Collateral may, subject to the limitations set forth in the Indenture, be increased. A portion of the obligations secured by the First Priority Collateral consists or may consist of Indebtedness that is revolving in nature, and the amount thereof that may be outstanding at any time or from time to time may be increased or reduced and subsequently reborrowed and such obligations may, subject to the limitations set forth in the Indenture, be increased, extended, renewed, replaced, restated, supplemented, restructured, repaid, refunded, refinanced or otherwise amended or modified from time to time, all without affecting the subordination of the Liens held by the Noteholder Secured Parties (relative to those of the First Priority Secured Parties) or the provisions of the Intercreditor Agreement defining the relative rights of the parties thereto. The Lien priorities provided for in the Intercreditor Agreement shall not be altered or otherwise affected by any amendment, modification, supplement, extension, increase, replacement, renewal, restatement or refinancing of either the obligations secured by the First Priority Collateral or the obligations secured by the Notes Collateral, by the release of any Collateral or of any guarantees securing any secured obligations or by any action that any representative or secured party may take or fail to take in respect of any Collateral. Notwithstanding any failure by any First Priority Secured Party or Noteholder Secured Party to perfect its security interests in the Collateral or any avoidance, invalidation or subordination by any third party or court of competent jurisdiction of the security interests in the Collateral granted to the First Priority Secured Parties or the Noteholder Secured Parties, the priority and rights with respect to the Collateral as between the First Priority Secured Parties and the Noteholder Secured Parties, as among the First Priority Secured Parties and as between the Noteholder Secured Parties and the holders of Other Pari Passu Lien Obligations, are, in each case, as set forth in the Intercreditor Agreement.

Each Security Document contains a provision that the Liens created thereby and the exercise of rights and remedies thereunder are subject to the provisions of the Intercreditor Agreement and, in the event of any conflict between the terms of the Intercreditor Agreement and the terms of such Security Document, the terms of the Intercreditor Agreement shall govern and control.

Table of Contents

All rights, interests, agreements and obligations of the First Priority Collateral Agents and the Notes Collateral Agent, respectively, under the Intercreditor Agreement shall remain in full force and effect irrespective of: (i) any lack of validity or enforceability of any First Priority Documents or any operative agreement evidencing or governing the obligations that are secured by Second Priority Liens; (ii) except as otherwise expressly set forth in the Intercreditor Agreement, any change in the time, manner or place of payment of, or in any other terms of, all or any of the First Priority Obligations or the obligations that are secured by Second Priority Liens, or any amendment or waiver or other modification, including any increase in the amount thereof, whether by course of conduct or otherwise, of the terms of any First Priority Document or any operative agreement evidencing or governing the obligations that are secured by Second Priority Liens; (iii) except as otherwise expressly set forth in the Intercreditor Agreement, any exchange, release, avoidance, invalidation, subordination or non-perfection of any security interest in any Collateral, or any amendment, waiver or other modification, whether in writing or by course of conduct or otherwise, of all or any of the First Priority Obligations or the obligations that are secured by Second Priority Liens or any guaranty thereof; (iv) the commencement of any insolvency or liquidation proceeding in respect of the Company or any Subsidiary Guarantor; or (v) any other circumstances which otherwise might constitute a defense available to, or a discharge of, the Company or any Subsidiary Guarantor.

Control Over Collateral and Enforcement of Liens

Pursuant to the terms of the Intercreditor Agreement, prior to the Discharge of First Priority Obligations with respect to any First Priority Collateral, the applicable First Priority Collateral Agent has the exclusive right to control the time and method by which the security interests in such First Priority Collateral are enforced, including, without limitation, following the occurrence of an Event of Default under the Indenture. Prior to the Discharge of First Priority Obligations with respect to any First Priority Collateral, the Noteholder Secured Parties are not permitted to enforce their security interests in such First Priority Collateral even if any Event of Default under the Indenture has occurred and the Notes have been accelerated except (a) in any insolvency or liquidation proceeding, solely as necessary to file a proof of claim or statement of interest or, subject to the terms of the Intercreditor Agreement, protect their security interests with respect to the Obligations under the Notes and Subsidiary Guarantees or (b) certain protective actions in order to prove, preserve, perfect or protect (but not enforce) their security interests and rights in, and the perfection and priority of their Liens on, such First Priority Collateral.

Any proceeds from any First Priority Collateral received in any insolvency or liquidation proceeding or pursuant to any enforcement of remedies against the First Priority Collateral will be applied to repay the applicable First Priority Obligations in full (including any post-petition interest thereon and a requirement to cash collateralize letters of credit at up to 105% of the face amount thereof) until the Discharge of First Priority Obligations has occurred prior to being applied to the repayment of any Obligations owing to the Noteholder Secured Parties and the holders of the Other Pari Passu Lien Obligations.

After the Discharge of First Priority Obligations with respect to any First Priority Collateral, the Notes Collateral Agent will distribute all cash proceeds (after payment of the costs of enforcement and collateral administration, including any amounts owed to the Trustee in its capacity as Trustee or the Notes Collateral Agent in its capacity as Notes Collateral Agent) of such First Priority Collateral received by it under the Security Documents for the ratable benefit of the Noteholder Secured Parties.

None of the Collateral was or will be appraised in connection with the issuance of the Notes. The aggregate Book Value of the owned real property included as Collateral as of September 30, 2012 was approximately \$0.9 billion, which does not include the impact of inventory investments, home deliveries or impairments thereafter. The fair market value of the Collateral is subject to fluctuations based on factors that include, among others, the condition of the homebuilding industry, the Company's ability to implement its business strategy, the ability to sell the Collateral in an orderly sale, general economic conditions, the availability of buyers and similar factors. The amount to be received upon a sale of the Collateral would be dependent on numerous factors, including but

Table of Contents

not limited to the actual fair market value of the Collateral at such time and the timing and the manner of the sale. By its nature, portions of the Collateral may be illiquid and may have no readily ascertainable market value. Likewise, there can be no assurance that the Collateral will be saleable, or, if saleable, that there will not be substantial delays in its liquidation. In the event of a foreclosure, liquidation, bankruptcy or similar proceeding, the proceeds from any sale or liquidation of the Collateral may not be sufficient to pay the Company's Obligations under the Notes. In addition, the fact that the First Priority Secured Parties will receive proceeds from enforcement of the First Priority Collateral before Noteholder Secured Parties, and that other Persons may have first-priority Liens in respect of assets subject to Permitted Liens, could have a material adverse effect on the amount that would be realized upon a liquidation of the Collateral. Accordingly, proceeds of any sale of the Collateral pursuant to the Indenture and the related Security Documents following an Event of Default may not be sufficient to satisfy, and may be substantially less than, amounts due under the Notes.

If the proceeds of the Collateral were not sufficient to repay all amounts due on the Notes, the Holders of the Notes (to the extent not repaid from the proceeds of the sale of the Collateral) would have only an unsecured claim against the remaining assets of the Company and the Subsidiary Guarantors. To the extent that Liens (including Permitted Liens), rights or easements granted to third parties encumber assets located on property owned by the Company or the Subsidiary Guarantors, including the Collateral, such third parties may exercise rights and remedies with respect to the property subject to such Liens that could adversely affect the value of the Collateral and the ability of the Notes Collateral Agent, the Trustee or the Holders of the Notes to realize or foreclose on Collateral.

The Intercreditor Agreement provides that, as between collateral agents in whose favor equal priority Liens have been granted on the applicable Collateral for the benefit of holders of different series of Indebtedness (e.g., the Notes Collateral Agent and the collateral agent for any Other Pari Passu Lien Obligations as to their respective Liens on the Notes Collateral), the Applicable Authorized Representative has the right to direct foreclosures and take other actions with respect to the applicable Collateral and the other collateral agent has no right to take actions with respect to such Collateral. The Applicable Authorized Representative shall be the collateral agent representing the series of Indebtedness with the greatest outstanding aggregate principal amount.

No Duties of First Priority Collateral Agent

The Intercreditor Agreement provides that no First Priority Secured Party will generally have any duties or other obligations to any Noteholder Secured Party with respect to the First Priority Collateral, other than, with respect to a First Priority Collateral Agent, serving as gratuitous bailee for the benefit of the Notes Collateral Agent with respect to certain First Priority Collateral to the extent that possession or control thereof is taken to perfect a Lien thereon. The duties or responsibilities of a First Priority Collateral Agents shall be limited solely to holding such Collateral as bailee and delivering such Collateral to the Notes Collateral Agent upon a Discharge of First Priority Obligations. No First Priority Collateral Agent shall, by reason of so acting, have a fiduciary relationship in respect of the Notes Collateral Agent or any other Noteholder Secured Party. In addition, the Intercreditor Agreement further provides that, until the Discharge of First Priority Obligations with respect to any First Priority Collateral, the applicable First Priority Collateral Agent is entitled, for the benefit of the applicable First Priority Secured Parties, to sell, transfer or otherwise dispose of or deal with such First Priority Collateral without regard to any security interest that are junior relative to those of the applicable First Priority Secured Parties therein or any rights to which any Noteholder Secured Party would otherwise be entitled as a result of such junior-priority security interest. Without limiting the foregoing, the Notes Collateral Agent has agreed in the Intercreditor Agreement that no First Priority Secured Party will have any duty or obligation first to marshal or realize upon the First Priority Collateral, or to sell, dispose of or otherwise liquidate all or any portion of the First Priority Collateral, in any manner that would maximize the return to the Noteholder Secured Parties, notwithstanding that the order and timing of any such realization, sale, disposition or liquidation may affect the amount of proceeds actually received by the Noteholder Secured Parties from such realization, sale, disposition or liquidation.

The Notes Collateral Agent has agreed in the Intercreditor Agreement for the Noteholder Secured Parties, that the Noteholder Secured Parties will waive any claim that may be had against any First Priority Secured Party

arising out of (i) any actions which any First Priority Secured Party takes or omits to take (including, actions with respect to the creation, perfection or continuation of Liens on any First Priority Collateral, actions with respect to the foreclosure upon, sale, release or depreciation of, or failure to realize upon, any of the First Priority Collateral and actions with respect to the collection of any claim for all or any part of the First Priority Obligations from any account debtor, guarantor or any other party) or the valuation, use, protection or release of any security for such First Priority Obligations, (ii) any election by any First Priority Secured Party, in any proceeding instituted under Title 11 of the United States Code (the **Bankruptcy Code**) of the application of Section 1111(b) of the Bankruptcy Code or (iii) any borrowing of, or grant of a security interest or administrative expense priority under Sections 363 and 364 of the Bankruptcy Code to the Company or any of its Subsidiaries as debtors-in-possession. Except as otherwise expressly required by the TIA, the Trustee will generally not have any duties or other obligations to any Noteholder Secured Party with respect to the Collateral and will not be liable by reason of any act or omission of the Notes Collateral Agent.

No Interference; Payment Over; Reinstatement

The Notes Collateral Agent has agreed in the Intercreditor Agreement for the Noteholder Secured Parties, that prior to the Discharge of First Priority Obligations with respect to any First Priority Collateral:

it will not challenge or question in any proceeding the validity or enforceability of any first-priority security interest in such First Priority Collateral, the validity, attachment, perfection or priority of any Lien held by any applicable First Priority Secured Party, or the validity or enforceability of the priorities, rights or duties established by or other provisions of the Intercreditor Agreement;

it will not take or cause to be taken any action the purpose or intent of which is, or could be, to interfere, hinder or delay, in any manner, whether by judicial proceedings or otherwise, any sale, transfer or other disposition of such First Priority Collateral by any applicable First Priority Secured Party;

it will have no right to (A) direct any First Priority Secured Party to exercise any right, remedy or power with respect to such First Priority Collateral or (B) consent to the exercise by any First Priority Secured Party of any right, remedy or power with respect to such First Priority Collateral;

it will not institute any suit or assert in any suit, bankruptcy, insolvency or other proceeding any claim against any First Priority Secured Party seeking damages from or other relief by way of specific performance, instructions or otherwise with respect to, and no First Priority Secured Party will be liable for, any action taken or omitted to be taken by any First Priority Secured Party with respect to such First Priority Collateral in accordance with the terms of the Intercreditor Agreement;

it will not object to any waiver or forbearance by the applicable First Priority Collateral Agent from or in respect of bringing or pursuing any foreclosure proceeding or action or any other exercise of any rights or remedies relating to such First Priority Collateral;

it will not seek, and will waive any right, to have such First Priority Collateral or any part thereof marshaled upon any foreclosure or other disposition of such First Priority Collateral; and

it will not attempt, directly or indirectly, whether by judicial proceedings or otherwise, to challenge the enforceability of any provision of the Intercreditor Agreement;

provided, that nothing in the Intercreditor Agreement shall be deemed to waive any rights granted under applicable law that the Notes Collateral Agent may have on behalf of the holders of the Notes to a commercially reasonable disposition of the Collateral.

If any First Priority Secured Party is required in any insolvency or liquidation proceeding or otherwise to turn over or otherwise pay to the estate of the Company or any Subsidiary Guarantor (or any trustee, receiver or similar person therefor), because the payment of such amount was declared to be fraudulent or preferential in any respect or for any other reason (any such amount, a **Recovery**), whether received as proceeds of security, enforcement of any right of setoff or otherwise, then as among the parties to the Intercreditor Agreement, the

Table of Contents

applicable First Priority Obligations shall be deemed to be reinstated to the extent of such Recovery and to be outstanding as if such payment had not occurred and such holder of First Priority Obligations shall be entitled to a reinstatement of First Priority Obligations with respect to all such recovered amounts and shall have all rights under the Intercreditor Agreement. If the Intercreditor Agreement was terminated (in whole or in part) prior to such Recovery, the Intercreditor Agreement shall be reinstated in full force and effect, and such prior termination shall not diminish, release, discharge, impair or otherwise affect the obligations of the parties thereto. Any First Priority Collateral received by a Noteholder Secured Party prior to the time of such Recovery shall be deemed to have been received prior to the Discharge of First Priority Obligations with respect to such First Priority Collateral and subject to the provisions of the immediately following paragraph.

The Notes Collateral Agent has agreed in the Intercreditor Agreement for the Noteholder Secured Parties that if any Noteholder Secured Party obtains possession of the First Priority Collateral or realizes any proceeds or payment in respect of the First Priority Collateral, pursuant to any Security Document or by the exercise of any rights available to it under applicable law or in any bankruptcy, insolvency or similar proceeding or through any other exercise of remedies, at any time prior to the Discharge of First Priority Obligations with respect to such First Priority Collateral, then it will hold such First Priority Collateral, proceeds or payment in trust for the applicable First Priority Secured Parties and transfer such First Priority Collateral, proceeds or payment, as the case may be, to the applicable First Priority Collateral Agent. The Notes Collateral Agent has further agreed in the Intercreditor Agreement for the Noteholder Secured Parties that if, at any time, all or part of any payment with respect to any First Priority Obligations secured by any First Priority Collateral previously made shall be Recovered from a First Priority Secured Party, then the Notes Collateral Agent will promptly pay over to the applicable First Priority Collateral Agent any payment received by it (and not otherwise Recovered from it) in respect of any such First Priority Collateral and shall promptly turn any such First Priority Collateral then held by it over to the applicable First Priority Collateral Agent, and the provisions set forth in the Intercreditor Agreement will be reinstated as if such payment had not been made, until the Discharge of First Priority Obligations with respect to such First Priority Collateral; *provided*, that in order to exercise its rights under this provision, the First Priority Collateral Agent shall have first defended itself and the holders of the First Priority Obligations against any such Recovery actions.

Agreements With Respect to Bankruptcy or Insolvency Proceedings

If any First Priority Collateral Agent consents to financing (**DIP Financing**) to be provided by one or more lenders (the **DIP Lenders**) under Section 364 of the Bankruptcy Code which is to be secured by any First Priority Collateral or the use of cash collateral representing proceeds of First Priority Collateral under Section 363 of the Bankruptcy Code, the Notes Collateral Agent has agreed in the Intercreditor Agreement for the Noteholder Secured Parties, that it will raise no objection to any such financing or to the Liens on such First Priority Collateral securing the same (**DIP Financing Liens**) or to any use of cash collateral that constitutes First Priority Collateral, unless such DIP Financing, DIP Financing Liens or use of cash collateral is not permitted under the applicable First Priority Documents so long as:

(i) either (x) all DIP Financing Liens are senior to, or rank *pari passu* with, the Liens of the applicable First Priority Secured Parties in such First Priority Collateral (in which case, the Notes Collateral Agent will agree for the Noteholder Secured Parties, to subordinate the Liens of the Noteholder Secured Parties in such First Priority Collateral to the First Priority Liens in such First Priority Collateral and the DIP Financing Liens) or (y) the Liens of the Notes Collateral Agent are not subordinated to such DIP Financing Liens;

(ii) the Noteholder Secured Parties retain liens on all such First Priority Collateral, including proceeds thereof arising after the commencement of such proceeding, with the same priority as existed prior to the commencement of the case under the Bankruptcy Code, subject to any super-priority ranking of liens in favor of the DIP Lenders as provided above and any carve out for administrative expenses agreed to by the applicable First Priority Collateral Agent;

(iii) the terms of such DIP Financing or use of cash collateral do not require the Company or any Subsidiary Guarantor to seek approval for any plan of reorganization that is a Non-Conforming Plan of Reorganization; and

Table of Contents

(iv) the terms of such DIP Financing do not require any Noteholder Secured Parties to extend additional credit or incur any monetary obligations in connection with such DIP Financing without the consent of such Noteholder Secured Parties.

Nothing in the Indenture or the Intercreditor Agreement will be deemed to preclude the Noteholder Secured Parties (or any of them) from offering competing DIP Financing secured by Liens subordinate to the First Priority Liens.

The Notes Collateral Agent has agreed in the Intercreditor Agreement for each of the Noteholder Secured Parties that they will:

(i) not object to or oppose a sale or other disposition of any First Priority Collateral (or any portion thereof) under Section 363 of the Bankruptcy Code if the applicable First Priority Secured Parties shall have consented to such sale or disposition of such First Priority Collateral and the proceeds of such sale or disposition are applied in accordance with the Intercreditor Agreement. Notwithstanding the foregoing, the Intercreditor Agreement shall not be construed to prohibit the Noteholder Secured Parties from exercising a credit bid under Section 363(k) of the Bankruptcy Code in a sale or other disposition of any First Priority Collateral under Section 363 of the Bankruptcy Code; *provided* that in connection with and immediately after giving effect to any such sale pursuant to such credit bid under Section 363(k) of the Bankruptcy Code there occurs a Discharge of First Priority Obligations with respect to such First Priority Collateral;

(ii) not object to or otherwise contest (or support any other Person contesting), any motion for relief from the automatic stay or from any injunction against foreclosure or enforcement in respect of any First Priority Collateral made by the applicable First Priority Secured Parties;

(iii) until the Discharge of First Priority Obligations with respect to any First Priority Collateral, not seek (or support any other Person seeking) relief from the automatic stay or any other stay in any insolvency or liquidation proceeding in respect of such First Priority Collateral, without the prior written consent of the applicable First Priority Collateral Agent;

(iv) not object to, or otherwise contest (or support any Person contesting), (a) any request by any of the First Priority Secured Parties for adequate protection on account of any applicable First Priority Collateral or (b) any objection by any of the First Priority Secured Parties to any motion, relief, action or proceeding based on the applicable First Priority Collateral Agent's or such holder of First Priority Obligations' claiming a lack of adequate protection with respect to such First Priority Collateral;

(v) until the Discharge of First Priority Obligations with respect to any First Priority Collateral, not assert or enforce (or support any Person asserting or enforcing) any claim under Section 506(c) of the Bankruptcy Code senior to or *pari passu* with the Liens on such First Priority Collateral securing the applicable First Priority Obligations for costs or expenses of preserving or disposing of any such First Priority Collateral; and

(vi) not oppose or otherwise contest (or support any other Person contesting) any lawful exercise by the First Priority Secured Parties of the right to credit bid under Section 363(k) of the Bankruptcy Code at any sale of First Priority Collateral.

In addition, no Noteholder Secured Party will file or prosecute in any insolvency or liquidation proceeding any motion for adequate protection (or any comparable request for relief) based upon its respective security interests in any First Priority Collateral, except that:

(i) any of them may freely seek and obtain adequate protection of their interests that is junior to the protection provided to the First Priority Obligations, including relief granting a junior Lien co-extensive in all respects with, but subordinated to, all Liens granted in the insolvency or liquidation proceeding to, or for the benefit of, the holders of the applicable First Priority Obligations on the same basis as Second Priority Liens under the Intercreditor Agreement (and the Intercreditor Agreement provides that the applicable First Priority Secured Parties will not object to the granting of such junior Lien); and

Table of Contents

(ii) any of them may freely seek and obtain any relief upon a motion for adequate protection (or any comparable relief), without any condition or restriction whatsoever, at any time after the Discharge of First Priority Obligations with respect to such First Priority Collateral.

Without limiting the generality of any provisions of the Intercreditor Agreement, any vote to accept and any other act to support the confirmation or approval of any Non-Conforming Plan of Reorganization shall be inconsistent with and, accordingly, a violation of the terms of the Intercreditor Agreement.

The Notes Collateral Agent has agreed in the Intercreditor Agreement for the Noteholder Secured Parties that (a) the Noteholder Secured Parties claims against the Company and the Subsidiary Guarantors in respect of the First Priority Collateral constitute junior secured claims separate and apart (and of a different class) from the senior secured claims of the holders of First Priority Obligations against the Company and the Subsidiary Guarantors in respect of the First Priority Collateral, (b) the First Priority Obligations include all interest that accrues after the commencement of any insolvency or liquidation proceeding of the Company or any Subsidiary Guarantor at the rate provided for in the applicable First Priority Documents, regardless of whether a claim for post-petition interest is allowed or allowable in any such insolvency or liquidation proceeding and (c) the Intercreditor Agreement constitutes a subordination agreement under Section 510 of the Bankruptcy Code.

Insurance

Until written notice by the applicable First Priority Collateral Agent to the Trustee that the Discharge of First Priority Obligations with respect to any First Priority Collateral has occurred, as between such First Priority Collateral Agent, on the one hand, and the Noteholder Secured Parties, on the other hand, only such First Priority Collateral Agent will have the right (subject to the rights of the Company and the Subsidiary Guarantors under the applicable First Priority Documents) to adjust or settle any insurance policy or claim covering or constituting such First Priority Collateral in the event of any covered loss thereunder and to approve any award granted in any condemnation or similar proceeding affecting such First Priority Collateral. To the extent that an insured loss covers or constitutes both First Priority Collateral and Notes Collateral, then the applicable First Priority Collateral Agents and the Notes Collateral Agent will work jointly and in good faith to collect, adjust or settle (subject to the rights of the Company and the Subsidiary Guarantors under the applicable First Priority Documents and the Notes) under the relevant insurance policy.

Refinancings of the First Priority Obligations and the Notes

The First Priority Obligations and the obligations under the Indenture and the Notes may be refinanced or replaced, in whole or in part, in each case, without notice to, or the consent (except to the extent a consent is otherwise required to permit the refinancing transaction under the applicable First Priority Documents, the Indenture or the Security Documents) of any First Priority Secured Party or any Noteholder Secured Party, all without affecting the Lien priorities provided for in the Intercreditor Agreement; *provided, however*, that the holders of any such refinancing or replacement Indebtedness (or an authorized agent or trustee on their behalf) bind themselves in writing to the terms of the Intercreditor Agreement pursuant to such documents or agreements (including amendments or supplements to the Intercreditor Agreement) as any First Priority Collateral Agent or Notes Collateral Agent, as the case may be, shall reasonably request and in form and substance reasonably acceptable to such First Priority Collateral Agent or Notes Collateral Agent, as the case may be.

In addition, if at any time in connection with or after the Discharge of First Priority Obligations with respect to any First Priority Collateral, the Company enters into any refinancing of the First Priority Obligations secured by such First Priority Collateral on a first-priority basis which qualifies as Permitted Liens under clause (xi) of the definition thereof, then such Discharge of First Priority Obligations shall automatically be deemed not to have occurred for all purposes of the Intercreditor Agreement and the Indenture, and the obligations under such refinancing shall

Edgar Filing: PARAGON TILE LLC - Form 424B3

automatically be treated as First Priority Obligations for all purposes of the Intercreditor Agreement, including for purposes of the Lien priorities and rights in respect of such First Priority Collateral set forth therein.

Table of Contents

In connection with any refinancing or replacement contemplated by the foregoing, the Intercreditor Agreement may be amended at the request and sole expense of the Company, and without the consent of any Holder of Notes, (a) to add parties (or any authorized agent or trustee thereof) providing any such refinancing or replacement Indebtedness in compliance with the applicable First Lien Documents and the Indenture, (b) to establish that Liens on any Notes Collateral securing such refinancing or replacement Indebtedness shall have the same priority (or junior priority) as the Liens on any Notes Collateral securing the Indebtedness being refinanced or replaced and (c) to establish that the Liens on any First Priority Collateral securing such refinancing or replacement indebtedness shall have the same priority (or junior priority) as the Liens on any First Priority Collateral securing the Indebtedness being refinanced or replaced, all on the terms provided for herein immediately prior to such refinancing or replacement.

Subject to the terms of the Security Documents, the Company and the Subsidiary Guarantors have the right to remain in possession and retain exclusive control of the Collateral, to freely operate the Collateral and to collect, invest and dispose of any income therefrom. See Risk Factors Risks Related to the Notes and the Exchange Offer We, in most cases, have control over the collateral, and the sale of particular assets by us could reduce the pool of assets securing the notes and the guarantees.

Release of Collateral

The Company and the Subsidiary Guarantors will be entitled to the releases of property and other assets included in the Collateral from the Liens securing the Notes under any one or more of the following circumstances:

to enable the disposition of such property or assets to the extent not prohibited under the covenant described under Limitation on Asset Sales ;

with respect to any property or assets constituting Collateral, when such property or asset constitutes Excluded Property;

in the case of a Subsidiary Guarantor that is released from its Subsidiary Guarantee, the release of the property and assets of such Subsidiary Guarantor; or

as described under Amendment, Supplement and Waiver below.

In addition, with respect to any First Priority Collateral, and notwithstanding the existence of any Event of Default but subject to the Intercreditor Agreement, the second-priority lien on such First Priority Collateral securing the Notes shall also terminate and be released automatically to the extent the First Priority Liens on such First Priority Collateral are released by the applicable First Priority Collateral Agent in connection with the foreclosure of, or other disposition in connection with the exercise of remedies with respect to, such First Priority Collateral by such First Priority Collateral Agent (except with respect to any proceeds of such sale, transfer or disposition that remain after satisfaction in full of the applicable First Priority Obligations). The Notes Collateral Agent shall, at no cost to the Notes Collateral Agent, promptly execute and deliver such release documents and instruments and shall take such further actions as any First Priority Collateral Agent shall reasonably request to evidence any release of the second-priority lien as described above.

The security interests in all Collateral securing the Notes and Subsidiary Guarantees also will be released upon (i) payment in full of the principal of, together with accrued and unpaid interest on, the Notes and all other Obligations under the Indenture, the Subsidiary Guarantees and the Security Documents that are due and payable at or prior to the time such principal, together with accrued and unpaid interest, are paid or (ii) a legal defeasance or covenant defeasance under the Indenture or a discharge of the Indenture, in each case as described under Discharge

and Defeasance of Indenture.

Compliance with Trust Indenture Act

The Indenture provides that the Company will comply with the provisions of TIA § 314 to the extent applicable. To the extent applicable, the Company will cause TIA § 313(b), relating to reports, TIA § 314(b),

Table of Contents

relating to opinions, and TIA § 314(d), relating to the release of property or securities subject to the Lien of the Security Documents, to be complied with. Any certificate or opinion required by TIA § 314(d) shall be made by an officer or legal counsel, as applicable, of the Company, except in cases where TIA § 314(d) requires that such certificate or opinion be made by an independent Person, which Person will be an independent engineer, appraiser or other expert selected by or reasonably satisfactory to the Trustee. Notwithstanding anything to the contrary in this paragraph, the Company will not be required to comply with all or any portion of TIA § 314(d) if it reasonably determines in good faith based on the advice of counsel that under the terms of TIA § 314(d) or any interpretation or guidance as to the meaning thereof of the SEC and its staff, including no action letters or exemptive orders, all or any portion of TIA § 314(d) is inapplicable to any release or series of releases of Collateral.

Without limiting the generality of the foregoing, certain no action letters issued by the SEC have permitted an indenture qualified under the Trust Indenture Act to contain provisions permitting the release of collateral from Liens under such indenture in the ordinary course of the issuer's business without requiring the issuer to provide certificates and other documents under Section 314(d) of the Trust Indenture Act. The Company and the Subsidiary Guarantors may, subject to the provisions of the Indenture, among other things, without any release or consent by the Noteholder Secured Parties, conduct ordinary course activities with respect to the Collateral, including, without limitation:

selling or otherwise disposing of, in any transaction or series of related transactions, any property subject to the Lien of the Security Documents that has become worn out, defective, obsolete or not used or useful in the business;

abandoning, terminating, canceling, releasing or making alterations in or substitutions of any leases or contracts subject to the Lien of the Indenture or any of the Security Documents;

surrendering or modifying any franchise, license or permit subject to the Lien of the Security Documents that it may own or under which it may be operating;

altering, repairing, replacing, changing the location or position of and adding to its structures, machinery, systems, equipment, fixtures and appurtenances;

granting a license of any intellectual property;

selling, transferring or otherwise disposing of inventory, including dispositions of real estate assets in bulk and sales of parcels of land, in the ordinary course of the Company's or any Subsidiary's Real Estate Business as determined in good faith by the Company;

collecting accounts receivable in the ordinary course of business (as determined in good faith by the Company) as permitted by the covenant described under Limitations on Asset Sales ;

making cash payments (including for the repayment of Indebtedness or interest) from cash that is at any time part of the Collateral in the ordinary course of business (as determined in good faith by the Company) that are not otherwise prohibited by the Indenture and the Security Documents; and

abandoning any intellectual property that is no longer used or useful in the Company's business,

provided that the Company and the Subsidiary Guarantors must, to the extent required by applicable SEC interpretations, deliver to the Notes Collateral Agent and Trustee, semi-annually within 15 days following each June 30 and December 31, an Officer's Certificate to the effect that

Edgar Filing: PARAGON TILE LLC - Form 424B3

all releases and withdrawals during the preceding six-month period in which no release or consent of the Notes Collateral Agent was obtained occurred in the ordinary course of their business and that all of the proceeds were used as permitted by the Indenture.

No Impairment of the Security Interests

Neither the Company nor any of the Subsidiary Guarantors is permitted to take any action, or knowingly or negligently omit to take any action, which action or omission might or would have the result of materially impairing the security interest with respect to the Collateral for the benefit of the Notes Collateral Agent, the Trustee and the Holders of the Notes.

Table of Contents

The Indenture provides that any release of Collateral in accordance with the provisions of the Indenture and the Security Documents will not be deemed to impair the security under the Indenture, and that any engineer, appraiser or other expert may rely on such provision in delivering a certificate requesting release so long as all other provisions of the Indenture with respect to such release have been complied with.

Optional Redemption

The Company may redeem all or any portion of the Notes at any time and from time to time on or after July 15, 2015 and prior to maturity at the following redemption prices (expressed in percentages of the principal amount thereof) together, in each case, with accrued and unpaid interest to the date fixed for redemption, if redeemed during the 12-month period beginning on July 15 of each year indicated below:

Year	Percentage
2015	103.313%
2016	101.656%
2017 and thereafter	100.000%

In addition, on or prior to July 15, 2015, the Company may, at its option, redeem up to 35% of the aggregate principal amount of Notes issued under the Indenture with the net proceeds of an Equity Offering at 106.625% of the principal amount thereof plus accrued and unpaid interest, if any, to the date fixed for redemption; *provided*, that at least 65% of the aggregate principal amount of the Notes originally issued under the Indenture remain outstanding after such redemption. Notice of any such redemption must be given within 60 days after the date of the closing of the relevant Equity Offering.

Prior to July 15, 2015, the Company may at its option redeem the Notes, in whole or in part, at a redemption price equal to 100% of the principal amount of the Notes to be redeemed plus the Applicable Premium as of, and accrued and unpaid interest to, the redemption date (subject to the right of Holders on the relevant record date to receive interest due on the relevant interest payment date). Notice of such redemption must be sent to each Holder not less than 30 nor more than 60 days prior to the redemption date.

Applicable Premium means, with respect to a Note at any redemption date, the greater of (i) 1.00% of the principal amount of such Note and (ii) the excess of (A) the present value at such redemption date of (1) the redemption price of such Note on July 15, 2015 (such redemption price being described in the first paragraph of this Optional Redemption section exclusive of any accrued interest) plus (2) all required remaining scheduled interest payments due on such Note through July 15, 2015 (but excluding accrued and unpaid interest to the redemption date), computed using a discount rate equal to the Treasury Rate plus 0.50% per annum, over (B) the principal amount of such Note on such redemption date.

Mandatory Offers to Purchase the Notes

The Indenture requires the Company:

(i) to offer to purchase all of the outstanding Notes upon a Change of Control of the Company; or

(ii) to offer to purchase a portion of the outstanding Notes using Net Proceeds neither used to repay certain Indebtedness nor used or invested as provided in the Indenture.

See Certain Covenants Change of Control and Limitations on Asset Sales.

None of the provisions relating to an offer to purchase is waivable by the Board of Directors of the Company. If an offer to purchase upon a Change of Control or otherwise were to be required, there can be no assurance that the Company would have sufficient funds to pay the purchase price for all Notes that the Company is required to purchase. In addition, the Company's ability to finance the purchase of Notes may be limited by the terms of its then existing borrowing agreements. Failure by the Company to purchase the Notes when required will result in an Event of Default with respect to the Notes.

If an offer is made to purchase Notes as a result of a Change of Control or otherwise, the Company will comply with applicable law, including, without limitation, Section 14(e) under the Exchange Act and Rule 14e-1 thereunder, if applicable.

The Change of Control feature of the Notes may in certain circumstances make more difficult or discourage a takeover of the Company and, thus, the removal of incumbent management. The Change of Control feature, however, is not the result of management's knowledge of any specific effort to obtain control of the Company by means of a merger, tender offer, solicitation or otherwise, or part of a plan by management to adopt a series of anti-takeover provisions.

The Subsidiary Guarantees

Each of the existing and future Subsidiary Guarantors shall (so long as it remains a Subsidiary of the Company) fully and unconditionally guarantee, subject to customary release provisions, on a joint and several basis, all of the Company's obligations under the Notes, including its obligations to pay principal, premium, if any, and interest with respect to the Notes. Each of the Subsidiary Guarantees are senior secured obligations of the applicable Subsidiary Guarantor. The Indenture provides that the obligations of each Subsidiary Guarantor are limited to the maximum amount which, after giving effect to all other contingent and fixed liabilities of such Subsidiary Guarantor and after giving effect to any collections from or payments made by or on behalf of any other Subsidiary Guarantor in respect of the obligations of such other Subsidiary Guarantor under its Subsidiary Guarantee or pursuant to its contribution obligations under the Indenture, will result in the obligations of such Subsidiary Guarantor under its Subsidiary Guarantee not constituting a fraudulent conveyance or fraudulent transfer or obligation under federal or state law. However, there can be no assurance that this provision will be effective to ensure that any Subsidiary Guarantee does not constitute a fraudulent conveyance or fraudulent transfer obligation under applicable law. Each Subsidiary Guarantor that makes a payment or distribution

Edgar Filing: PARAGON TILE LLC - Form 424B3

under a Subsidiary Guarantee shall be entitled to a contribution from each other Subsidiary Guarantor in an amount *pro rata*, based on the net assets of each Subsidiary Guarantor, determined in accordance with GAAP. Except as provided in Certain Covenants below, the Company is not restricted from selling or otherwise disposing of any of the Subsidiary Guarantors.

The Indenture provides that each existing and future Restricted Subsidiary (other than, in the Company's discretion, any Restricted Subsidiary the assets of which have a Book Value of not more than \$5.0 million) be a Subsidiary Guarantor and, at the Company's discretion, any Unrestricted Subsidiary may be a Subsidiary Guarantor.

The Indenture provides that if all or substantially all of the assets of any Subsidiary Guarantor, or all (or a portion sufficient to cause such Subsidiary Guarantor to no longer be a Subsidiary of the Company) of the

Capital Stock of any Subsidiary Guarantor, is sold (including by consolidation, merger, issuance or otherwise) or disposed of (including by liquidation, dissolution or otherwise) by the Company or any of its Subsidiaries, or, unless the Company elects otherwise, if any Subsidiary Guarantor is designated an Unrestricted Subsidiary in accordance with the terms of the Indenture, then such Subsidiary Guarantor (in the event of a sale or other disposition of all of the Capital Stock of such Subsidiary Guarantor or a designation as an Unrestricted Subsidiary) or the Person acquiring such assets (in the event of a sale or other disposition of all or substantially all of the assets of such Subsidiary Guarantor) shall be deemed automatically and unconditionally released and discharged from any of its obligations under the Indenture without any further action on the part of the Trustee or any Holder of the Notes, subject in each case to compliance with the covenants sets forth below under Certain Covenants-Limitations on Asset Sales and Certain Covenants-Limitations on Mergers and Consolidations, as applicable.

of interest on or principal of any such U.S. Government Obligation held by such custodian for the account of the holder of a depository receipt; *provided* that (except as required by law) such custodian is not authorized to make any deduction from the amount payable to the holder of such depository receipt from any amount received by the custodian in respect of the U.S. Government Obligation or the specific payment of interest on or principal of the U.S. Government Obligation evidenced by such depository receipt.

Weighted Average Life to Maturity means, when applied to any Indebtedness or portion thereof, at any date, the number of years obtained by dividing (i) the sum of the products obtained by multiplying (a) the amount of each then remaining installment, sinking fund, serial maturity or other required payment of principal, including, without limitation, payment at final maturity, in respect thereof, by (b) the number of years (calculated to the nearest one-twelfth) that will elapse between such date and the making of such payment by (ii) the sum of all such payments described in clause (a) above.

Wholly Owned Subsidiary of any Person means (i) a Subsidiary of which 100% of the Common Equity (except for directors' qualifying shares or certain minority interests owned by other Persons solely due to local law requirements that there be more than one stockholder, but which interest is not in excess of what is required for such purpose) is owned directly by such Person or through one or more other Wholly Owned Subsidiaries of such Person, or (ii) any entity other than a corporation in which such Person, directly or indirectly, owns all of the Common Equity of such entity.

Certain Covenants

The following is a summary of certain covenants that are contained in the Indenture. Such covenants are applicable (unless waived or amended as permitted by the Indenture) so long as any of the Notes are outstanding or until the Notes are defeased pursuant to provisions described under Discharge and Defeasance of Indenture.

Limitations on Asset Sales.

The Indenture provides that the Company will not, and will not cause or permit any Restricted Subsidiary to, make any Asset Sale unless:

(a) the Company (or such Restricted Subsidiary, as the case may be) receives consideration at the time of such Asset Sale at least equal to the Fair Market Value thereof; and

(b) not less than 70% of the consideration received by the Company (or such Restricted Subsidiary, as the case may be) is in the form of cash, Cash Equivalents and Marketable Securities (excluding Marketable Securities of the Company).

The amount of (i) any Indebtedness (other than any Subordinated Indebtedness) of the Company or any Restricted Subsidiary that is actually assumed by the transferee in such Asset Sale and (ii) the Fair Market Value of any property or assets (including Capital Stock of any Person that will be a Restricted Subsidiary following receipt thereof) received that are used or useful in a Real Estate Business (*provided* that (except for Designated Excluded Assets) to the extent that the assets disposed of in such Asset Sale were Collateral, such property or assets are pledged as

Edgar Filing: PARAGON TILE LLC - Form 424B3

Collateral under the Security Documents substantially simultaneously with such sale, with the Lien on such Collateral securing the Notes being of the same priority with respect to the Notes as the Lien on the assets disposed of), shall be deemed to be consideration required by clause (b) above for purposes of determining the percentage of such consideration received by the Company or the Restricted Subsidiaries. Any Marketable Securities received as consideration in connection with an Asset Sale shall be converted into cash or Cash Equivalents within 180 days of receipt of such Marketable Securities.

The Net Proceeds of an Asset Sale shall, within one year, at the Company's election:

(i) be used by the Company or a Restricted Subsidiary to invest in assets (including Capital Stock of any Person that is or will be a Restricted Subsidiary following investment therein) used or useful in the business of the Company and the Restricted Subsidiaries; *provided* that (except for Designated Excluded

Table of Contents

Assets) to the extent that the assets disposed of in such Asset Sale were Collateral, such assets are pledged as Collateral under the Security Documents with the Lien on such Collateral securing the Notes being of the same priority with respect to the Notes as the Lien on the assets disposed of;

(ii) be used to permanently prepay or permanently repay any (1) Indebtedness (or cash collateralize letters of credit) constituting First Priority Obligations (and, in the case of revolving obligations, to permanently reduce commitments with respect thereto) to the extent the assets sold were First Priority Collateral or (2) Indebtedness which had been secured by the assets sold in the relevant Asset Sale or other Indebtedness that is not subordinated in right of payment to the Notes or Subsidiary Guarantees, to the extent the assets sold were not Collateral (and, in the case of revolving obligations, to permanently reduce commitments with respect thereto); or

(iii) be applied to make an offer to purchase (in accordance with the terms set forth in the Indenture) Notes and, if the Company or a Restricted Subsidiary elects or is required to do so, offer to purchase, repay or redeem Other Pari Passu Lien Obligations (to the extent the assets sold were Collateral) on a *pro rata* basis if the amount available for such purchase, repayment or redemption is less than the aggregate amount of (i) the principal amount of the Notes tendered in such offer to purchase and (ii) the lesser of the principal amount, or accreted value, of such other Other Pari Passu Lien Obligations or other Indebtedness, as applicable, plus, in each case accrued interest to the date of repayment, purchase or redemption at 100% of the principal amount or accreted value thereof, as the case may be, plus accrued and unpaid interest, if any, to the date of repurchase or repayment.

The amount of such Net Proceeds neither used to repay the Indebtedness described above nor used or invested as set forth in the preceding paragraph constitutes **Excess Proceeds**. Notwithstanding the above, any Asset Sale that is subject to the Limitations on Mergers and Consolidations covenant set forth in the Indenture will not be subject to the Limitations on Asset Sales covenant set forth in the Indenture.

The Indenture provides that, when the aggregate amount of Excess Proceeds equals \$25,000,000 or more, the Company will so notify the Trustee in writing by delivery of an Officer's Certificate and will offer to purchase from all Holders (and, if the Company or a Restricted Subsidiary is required to do so, offer to purchase, repay or redeem Other Pari Passu Lien Obligations (to the extent the assets sold were Collateral) (an **Excess Proceeds Offer**), and will purchase from Holders and holders of any such Other Pari Passu Lien Obligations on a pro rata basis, accepting such Excess Proceeds Offer on the date fixed for the closing of such Excess Proceeds Offer (the **Asset Sale Offer Date**), the maximum principal amount (in \$2,000 minimum denominations or in integral multiples of \$1,000 in excess thereof) of Notes (and such Other Pari Passu Lien Obligations) plus accrued and unpaid interest thereon, if any, to the Asset Sale Offer Date that may be purchased and paid, as the case may be, out of the Excess Proceeds, at an offer price (the **Asset Sale Offer Price**) in cash in an amount equal to 100% of the principal amount thereof (or, if less, the accreted value) plus accrued and unpaid interest, if any, to the Asset Sale Offer Date, in accordance with the procedures set forth in the Indenture. To the extent that the aggregate amount of Notes (and such Other Pari Passu Lien Obligations) tendered pursuant to an Excess Proceeds Offer is less than the Excess Proceeds relating thereto, then the Company may use such Excess Proceeds, or a portion thereof, for general corporate purposes in the business of the Company and its Restricted Subsidiaries existing on the date of the Indenture. Upon completion of an Excess Proceeds Offer, the amount of Excess Proceeds will be reset at zero.

The Indenture also provides that, notwithstanding the foregoing, to the extent the Company or any of its Restricted Subsidiaries receives securities or other noncash property or assets as proceeds of an Asset Sale, the Company will not be required to make any application of such noncash proceeds required by this covenant until it receives cash or cash equivalent proceeds from a sale, repayment, exchange, redemption or retirement of or extraordinary dividend or return of capital on such noncash property. Any amounts deferred pursuant to the preceding sentence will be applied in accordance with this covenant (within the time periods set forth in this covenant as if the date of such receipt was the date of an Asset Sale) when cash or cash equivalent proceeds are thereafter received from a sale, repayment, exchange, redemption or retirement of or extraordinary dividend or return of capital on such noncash property.

Table of Contents

Pending any such application under this covenant, Net Proceeds may be used to temporarily reduce Indebtedness or otherwise be invested in any manner not prohibited by the Indenture.

The Company will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase of the Notes pursuant to an Excess Proceeds Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Company will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in the Indenture by virtue thereof.

Limitations on Restricted Payments

The Indenture provides that the Company will not, and will not cause or permit any of its Restricted Subsidiaries to, make any Restricted Payment, directly or indirectly, after the date of the Indenture if at the time of such Restricted Payment:

(i) the amount of such proposed Restricted Payment (the amount of such Restricted Payment, if other than in cash, will be determined in good faith by a majority of the disinterested members of the Board of Directors of the Company), when added to the aggregate amount of all Restricted Payments (excluding Restricted Payments permitted by clauses (ii), (iii), (iv), (vi) and (vii) of the next succeeding paragraph) declared or made after the Issue Date exceeds the sum of:

(1) \$200.0 million, plus

(2) 50% of the Company's Consolidated Net Income accrued during the period (taken as a single period) commencing on the first day of the fiscal quarter in which the Covenant Trigger Date occurs and ending on the last day of the fiscal quarter immediately preceding the fiscal quarter in which the Restricted Payment is to occur (or, if such aggregate Consolidated Net Income is a deficit, minus 100% of such aggregate deficit), plus

(3) the net cash proceeds derived from the issuance and sale of Capital Stock of the Company and its Restricted Subsidiaries (or any capital contribution to the Company or a Restricted Subsidiary) that is not Disqualified Stock (other than a sale to, or a contribution by, a Subsidiary of the Company) after the Issue Date, plus

(4) 100% of the principal amount of, or, if issued at a discount, the accreted value of, any Indebtedness of the Company or a Restricted Subsidiary which is issued (other than to a Subsidiary of the Company) after the Issue Date that is converted into or exchanged for Capital Stock of the Company that is not Disqualified Stock, plus

(5) 100% of the aggregate amounts received by the Company or any Restricted Subsidiary from the sale, disposition or liquidation (including by way of dividends) of any Investment (other than to any Subsidiary of the Company and other than to the extent sold, disposed of or liquidated with recourse to the Company or any of its Subsidiaries or to any of their respective properties or assets) but only to the extent (x) not included in clause (2) above and (y) that the making of such Investment constituted a permitted Investment or Restricted Investment, plus

Edgar Filing: PARAGON TILE LLC - Form 424B3

(6) 100% of the principal amount of, or if issued at a discount, the accreted value of, any Indebtedness or other obligation that is the subject of a guarantee by the Company which is released (other than due to a payment on such guarantee) after the Issue Date, but only to the extent that such guarantee constituted a permitted Restricted Payment, plus

(7) with respect to any Unrestricted Subsidiary that is redesignated as a Restricted Subsidiary in accordance with the definition of Unrestricted Subsidiary (so long as the designation of such Subsidiary as an Unrestricted Subsidiary was treated as a Restricted Payment made after the Issue Date, and only to the extent not included in clause (2) above), an amount equal to the lesser of (x) the proportionate interest of the Company or a Restricted Subsidiary in an amount equal to the excess of

Table of Contents

(I) the total assets of such Subsidiary, valued on an aggregate basis at the lesser of Book Value and Fair Market Value thereof, over (II) the total liabilities of such Subsidiary, determined in accordance with GAAP, and (y) the amount of the Restricted Payment deemed to be made upon such Subsidiary's designation as an Unrestricted Subsidiary; or

(ii) the Company would be unable to incur \$1.00 of additional Indebtedness under the Consolidated Fixed Charge Coverage Ratio contained in the Limitations on Additional Indebtedness covenant set forth in the Indenture; or

(iii) a Default or Event of Default has occurred and is continuing or occurs as a consequence thereof.

Notwithstanding the foregoing, the provisions of the Limitation on Restricted Payments covenant set forth in the Indenture do not prevent:

(i) the payment of any dividend within 60 days after the date of declaration thereof if the payment thereof would have complied with the limitations of the Indenture on the date of declaration;

(ii) the purchase, repayment, redemption, repurchase, defeasance or other acquisition or retirement of shares of the Company's Capital Stock or the Company's or a Restricted Subsidiary's Indebtedness for, or out of the net proceeds of a substantially concurrent sale (other than a sale to a Subsidiary of the Company) of, other shares of its Capital Stock (other than Disqualified Stock), *provided* that the proceeds of any such sale will be excluded in any computation made under clause (3) above;

(iii) the purchase, repayment, redemption, repurchase, defeasance or other acquisition or retirement for value of Indebtedness, including premium, if any, with the proceeds of Refinancing Indebtedness;

(iv) payments or distributions pursuant to or in connection with a merger, consolidation or transfer of assets that complies with the provisions of the Indenture applicable to mergers, consolidations and transfers of all or substantially all of the property and assets of the Company or any Subsidiary Guarantor;

(v) any purchase, redemption, retirement or other acquisition for value of Capital Stock of the Company or any Subsidiary held by officers or employees or former officers or employees of the Company or any Subsidiary (or their estates or beneficiaries under their estates) not to exceed \$500,000 in any calendar year and \$5.0 million in the aggregate since the Issue Date;

(vi) repurchases of Capital Stock deemed to occur upon the exercise of stock options, warrants or similar instruments if such Capital Stock represents a portion of the exercise price of such options, warrants or similar instruments;

(viii) the payment of dividends on Preferred Stock and Disqualified Stock up to an aggregate amount of \$10.0 million in any fiscal year; *provided* that immediately after giving effect to any declaration of such dividend, the Company could incur at least \$1.00 of Indebtedness under the Consolidated Fixed Charge Coverage Ratio contained in the Limitations on Additional Indebtedness covenant set forth in the Indenture;

(ix) payments not to exceed \$40.0 million in the aggregate for the purchase, repayment, redemption, repurchase, defeasance or other acquisition or retirement for value of the Company's junior subordinated notes due July 30, 2036 (or the related trust preferred securities issued by Beazer Homes Capital Trust I), as such securities may be amended or modified from time to time; or

(x) other Restricted Payments made after the Issue Date in an amount not to exceed \$50.0 million in the aggregate.

Limitations on Additional Indebtedness

The Indenture provides that the Company will not, and will not cause or permit any of its Restricted Subsidiaries, directly or indirectly, to, Incur any Indebtedness including Acquired Indebtedness; *provided* that the Company and the Subsidiary Guarantors may Incur Indebtedness, including Acquired Indebtedness, if, after giving effect thereto and the application of the proceeds therefrom, either (i) the Company's Consolidated Fixed Charge Coverage Ratio on the date thereof would be at least 2.0 to 1.0 or (ii) the ratio of Adjusted Indebtedness of the Company and the Restricted Subsidiaries to Adjusted Consolidated Tangible Net Worth is less than 7.5 to 1.

Notwithstanding the foregoing, the provisions of the Indenture do not prevent:

(i) the Company or any Restricted Subsidiary from Incurring (A) Refinancing Indebtedness or (B) Non-Recourse Indebtedness;

(ii) the Company from Incurring Indebtedness evidenced by the Notes;

(iii) the Company or any Subsidiary Guarantor from Incurring Indebtedness under Credit Facilities not to exceed the greater of \$250.0 million and 15% of Consolidated Tangible Assets;

(iv) any Subsidiary Guarantee of Indebtedness of the Company under the Notes or any Exchange Notes issued in exchange therefor;

(v) the Company and its Restricted Subsidiaries from Incurring Indebtedness under any deposits made to secure performance of tenders, bids, leases, statutory obligations, surety and appeal bonds, progress statements, government contracts and other obligations of like nature (exclusive of the obligation for the payment of borrowed money);

(vi) any Subsidiary Guarantor from guaranteeing Indebtedness of the Company or any other Subsidiary Guarantor, or the Company from guaranteeing Indebtedness of any Subsidiary Guarantor, in each case permitted to be Incurred under the Indenture (other than Non-Recourse Indebtedness);

(vii)(a) any Restricted Subsidiary from Incurring Indebtedness owing to the Company or any Subsidiary Guarantor that is both a Wholly Owned Subsidiary and a Restricted Subsidiary; *provided* that

(I) such Indebtedness is subordinated to any Subsidiary Guarantee of such Restricted Subsidiary, if any, and

Edgar Filing: PARAGON TILE LLC - Form 424B3

(II) such Indebtedness shall only be permitted pursuant to this clause (vii)(a) for so long as the Person to whom such Indebtedness is owing is the Company or a Subsidiary Guarantor that is both a Wholly Owned Subsidiary and a Restricted Subsidiary, and

(b) the Company from Incurring Indebtedness owing to any Subsidiary Guarantor that is both a Wholly Owned Subsidiary and a Restricted Subsidiary; *provided* that

(I) such Indebtedness is subordinated to the Company's obligations under the Notes and the Indenture, and

(II) such Indebtedness shall only be permitted pursuant to this clause (vii)(b) for so long as the Person to whom such Indebtedness is owing is a Subsidiary Guarantor that is both a Wholly Owned Subsidiary and a Restricted Subsidiary;

(viii) the Company and any Restricted Subsidiary from Incurring Indebtedness under Capitalized Lease Obligations or purchase money obligations, in each case Incurred for the purpose of acquiring or financing all or any part of the purchase price or cost of construction or improvement of property or equipment used in the business of the Company or such Restricted Subsidiary, as the case may be, in an aggregate amount at any time outstanding not to exceed \$50.0 million;

(ix) the Company or any Restricted Subsidiary from Incurring obligations for, pledge of assets in respect of, and guaranties of, bond financings of political subdivisions or enterprises thereof in the ordinary course of business (as determined in good faith by the Company);

Table of Contents

(x) the Company or any Restricted Subsidiary from incurring Indebtedness owed to a seller of entitled land, lots under development or finished lots under the terms of which the Company or such Restricted Subsidiary, as obligor, is required to make a payment upon the future sale of such land or lots; and

(xi) the Company or any Restricted Subsidiary from Incurring Indebtedness in an aggregate principal amount at any time outstanding not to exceed \$100.0 million.

The Company shall not, and the Company will not cause or permit any Subsidiary Guarantor that is a Restricted Subsidiary to, directly or indirectly, in any event Incur any Indebtedness that purports to be by its terms (or by the terms of any agreement governing such Indebtedness) subordinated to any other Indebtedness of the Company or of such Subsidiary Guarantor, as the case may be, unless such Indebtedness is also by its terms (or by the terms of any agreement governing such Indebtedness) made expressly subordinated to the Notes or the Subsidiary Guarantee of such Subsidiary Guarantor, as the case may be, at least to the same extent and in the same manner as such Indebtedness is subordinated to such other Indebtedness of the Company or such Subsidiary Guarantor, as the case may be.

For purposes of determining compliance with this Limitations on Additional Indebtedness covenant, in the event an item of Indebtedness meets the criteria of more than one of the types of Indebtedness described in the above clauses of this covenant, the Company, in its sole discretion, shall classify such item of Indebtedness in any manner that complies with this covenant and may from time to time reclassify such item of Indebtedness in any manner in which such item could be Incurred at the time of such reclassification.

Change of Control

The Indenture provides that, following the occurrence of any Change of Control, the Company will so notify the Trustee in writing by delivery of an Officers Certificate and will offer to purchase (a **Change of Control Offer**) from all Holders, and will purchase from Holders accepting such Change of Control Offer on the date fixed for the closing of such Change of Control Offer (the **Change of Control Payment Date**), the outstanding principal amount of Notes at an offer price (the **Change of Control Price**) in cash in an amount equal to 101% of the aggregate principal amount thereof plus accrued and unpaid interest, if any, to the Change of Control Payment Date in accordance with the procedures set forth in the Change of Control covenant of the Indenture.

In addition, the Indenture provides that, within 30 days after the date on which a Change of Control occurs, the Company (with Notice to the Trustee) or the Trustee at the Company's request (and at the expense of the Company) will send or cause to be sent to all Persons who were Holders on the date of the Change of Control at their respective addresses appearing in the Security Register, a notice of such occurrence and of such Holder's rights arising as a result thereof. Such notice shall specify, among other items, the Change of Control Payment Date, which shall be no earlier than 45 days nor later than 60 days from the date such notice is sent.

The Indenture also provides that:

(a) In the event of a Change of Control Offer, the Company will only be required to accept Notes in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

Edgar Filing: PARAGON TILE LLC - Form 424B3

(b) Not later than one Business Day after the Change of Control Payment Date in connection with which the Change of Control Offer is being made, the Company will (i) accept for payment Notes or portions thereof tendered pursuant to the Change of Control Offer, (ii) deposit with the Paying Agent money sufficient, in immediately available funds, to pay the purchase price of all Notes or portions thereof so accepted and (iii) deliver to the Paying Agent an Officers Certificate identifying the Notes or portions thereof accepted for payment by the Company. The Paying Agent will promptly mail or deliver to Holders of Notes so accepted payment in an amount equal to the Change of Control Price of the Notes purchased from each such Holder, and the Company will execute and, upon receipt of an Officer s Certificate of the Company, the Trustee will promptly authenticate and mail or deliver to such Holder a new Note equal in principal amount to any unpurchased portion of the Note surrendered. Any Notes not so accepted will be

Table of Contents

promptly mailed or delivered by the Paying Agent at the Company's expense to the Holder thereof. The Company will publicly announce the results of the Change of Control Offer promptly after the Change of Control Payment Date.

(c) Any Change of Control Offer will be conducted by the Company in compliance with applicable law, including, without limitation, Section 14(e) of the Exchange Act and Rule 14e-1 thereunder.

The Company may enter into other arrangements or incur other indebtedness with similar change of control obligations. There can be no assurance that sufficient funds will be available at the time of a Change of Control to make any required repurchases. The Company's failure to make any required repurchases in the event of a Change of Control Offer will create an Event of Default under the Indenture.

No quantitative or other established meaning has been given to the phrase "all or substantially all" (which appears in the definition of Change of Control) by courts which have interpreted this phrase in various contexts.

In interpreting this phrase, courts make a subjective determination as to the portion of assets conveyed, considering such factors as the value of the assets conveyed and the proportion of an entity's income derived from the assets conveyed. Accordingly, there may be uncertainty as to whether a Holder of Notes can determine whether a Change of Control has occurred and exercise any remedies such Holder may have upon a Change of Control. In addition, in a recent decision, the Chancery Court of Delaware raised the possibility that a change of control as a result of a failure to have "continuing directors" comprising a majority of the Board of Directors may be unenforceable on public policy grounds.

Limitations on Liens

The Indenture provides that the Company will not, and will not permit any of its Restricted Subsidiaries to, create, incur, assume or suffer to exist any Liens, other than Permitted Liens, on any of its or their assets, property, income or profits therefrom, except, in the case of any asset or property not part of the Collateral, any Lien if the Notes are equally and ratably secured with (or on a senior basis to, if such Lien secures subordinated indebtedness) the obligations secured by such Lien.

Any Lien created for the benefit of the Holders of the Notes pursuant to the preceding paragraph shall provide by its terms that such Lien shall be automatically and unconditionally released and discharged upon the release and discharge of the Lien securing such other obligations, which release and discharge in the case of any sale of any such asset or property shall not affect any Lien that the Notes Collateral Agent may have on the proceeds of such sale.

Limitations on Mergers and Consolidations

The Indenture provides that neither the Company nor any Subsidiary Guarantor will consolidate or merge with or into, or sell, lease, convey or otherwise dispose of all or substantially all of its assets (including, without limitation, by way of liquidation or dissolution), or assign any of its obligations under the Notes, the Guarantees or the Indenture (as an entirety or substantially in one transaction or series of related transactions), to any Person (in each case other than with the Company or another Wholly Owned Restricted Subsidiary) unless:

(i) the Person formed by or surviving such consolidation or merger (if other than the Company or such Subsidiary Guarantor, as the case may be), or to which such sale, lease, conveyance or other disposition or assignment will be made (collectively, the **Successor**), is a solvent corporation or other legal entity organized and existing under the laws of the United States or any state thereof or the District of Columbia, and the Successor assumes by supplemental indenture in a form reasonably satisfactory to the Trustee all of the obligations of the Company or such Subsidiary Guarantor, as the case may be, under the Notes or such Subsidiary Guarantor's Subsidiary Guarantee, as the case may be, and the Indenture; and

Table of Contents

(ii) immediately after giving effect to such transaction, no Default or Event of Default has occurred and is continuing.

The foregoing provisions shall not apply to a transaction involving the consolidation or merger of a Subsidiary Guarantor with or into another Person, or the sale, lease, conveyance or other disposition of all or substantially all of the assets of such Subsidiary Guarantor, that results in such Subsidiary Guarantor being released from its Subsidiary Guarantee as provided under *The Subsidiary Guarantees* above.

No quantitative or other established meaning has been given to the phrase *all or substantially all* by courts which have interpreted this phrase in various contexts. In interpreting this phrase, courts make a subjective determination as to the portion of assets conveyed, considering such factors as the value of the assets conveyed and the proportion of an entity's income derived from the assets conveyed. Accordingly, there may be uncertainty as to whether a Holder of Notes can determine whether the Company has sold, leased, conveyed or otherwise disposed of all or substantially all of its assets and exercise any remedies such Holder may have upon the occurrence of any such transaction.

Perfection of Certain Security Interests Post-Closing

Certain security interests in the Collateral, including those described under *Security*, will not be in place on the date of the Indenture or will not be perfected on the date of the indenture. See *Risk Factors* *Risks Related to the Notes and the Exchange Offer* *Security over certain collateral was not in place by the closing date of the offering of the original notes or was not perfected or a valid lien created on such date, which increases the risk that the mortgages or other security interests may be avoidable in bankruptcy.* The Company and the Subsidiary Guarantors will use their respective commercially reasonable efforts to perfect on the date of the Indenture the security interests in the Collateral in favor of the Notes Collateral Agent that are created on the date of the Indenture, but to the extent any such security interests cannot be perfected by such date, the Company and the Subsidiary Guarantors will agree to do or cause to be done all acts and things that may be required, including obtaining any required consents from third parties, to have all security interests in the Collateral duly created and enforceable and perfected, to the extent required by the Security Documents, promptly following the date of the Indenture, but in any event no later than 90 days thereafter, and as further set forth in *Security* *Further Assurances* .

Events of Default

The following are Events of Default under the Indenture:

(i) the failure by the Company to pay interest on any Note when the same becomes due and payable and the continuance of any such failure for a period of 30 days;

(ii) the failure by the Company to pay the principal or premium of any Note when the same becomes due and payable at maturity, upon acceleration or otherwise (including the failure to make payment pursuant to a Change of Control Offer or an Excess Proceeds Offer);

(iii) the failure by the Company or any of its Subsidiaries to comply with any of its agreements or covenants in, or provisions of, the Notes, the Subsidiary Guarantees, the Indenture or any of the Security Documents and such failure continues for the period and after the notice specified

(iv) the acceleration of any Indebtedness (other than Non-Recourse Indebtedness) of the Company or any of its Subsidiaries that has an outstanding principal amount of \$25.0 million or more in the aggregate;

(v) the failure by the Company or any of its Subsidiaries to make any principal or interest payment in respect of Indebtedness (other than Non-Recourse Indebtedness) of the Company or any of its Subsidiaries with an outstanding aggregate amount of \$25.0 million or more within five days of such principal or interest payment becoming due and payable (after giving effect to any applicable grace period set forth in the

Table of Contents

documents governing such Indebtedness); *provided*, that if such failure to pay shall be remedied, waived or extended, then the Event of Default hereunder shall be deemed likewise to be remedied, waived or extended without further action by the Company;

(vi) a final judgment or judgments that exceed \$25.0 million or more in the aggregate, for the payment of money, having been entered by a court or courts of competent jurisdiction against the Company or any of its Subsidiaries and such judgment or judgments is not satisfied, stayed, annulled or rescinded within 60 days of being entered;

(c) orders the liquidation of the Company or any Material Subsidiary and the order or decree remains unstayed and in effect for 60 days;

(ix) any Subsidiary Guarantee ceases to be in full force and effect (other than in accordance with the terms of such Subsidiary Guarantee and the Indenture) or is declared null and void and unenforceable or found to be invalid or any Subsidiary Guarantor denies its liability under its Subsidiary Guarantee (other than by reason of release of a Subsidiary Guarantor from its Subsidiary Guarantee in accordance with the terms of the Indenture and the Subsidiary Guarantee); or

Edgar Filing: PARAGON TILE LLC - Form 424B3

(x)(a) the Liens created by the Security Documents shall at any time not constitute a valid and perfected Lien on any material portion of the Collateral intended to be covered thereby (to the extent perfection by filing, registration, recordation or possession is required by the Indenture or the Security Documents) other than in accordance with the terms of the relevant Security Document and the Indenture and other than the satisfaction in full of all Obligations under the Indenture or the release or amendment of any such Lien in accordance with the terms of the Indenture or the Security Documents, or, except for expiration in accordance with its terms or amendment, modification, waiver, termination or release in accordance with the terms of the Indenture and the relevant Security Document, any of the Security Documents shall for whatever reason be terminated or cease to be in full force and effect, or (b) the enforceability thereof shall be contested by the Company or any Subsidiary Guarantor.

A Default as described in sub-clauses (iii) and (x)(a) above will not be deemed an Event of Default until the Trustee notifies the Company, or the Holders of at least 25% in principal amount of the then outstanding Notes notify the Company and the Trustee, of the Default and the Company does not cure the Default (1) within 60 days after receipt of the notice of a Default under sub-clause (iii) above or (2) within 30 days after receipt of the notice of a Default under sub-clause (x)(a) above. The notice must specify the Default, demand that it be remedied and state that the notice is a Notice of Default. If such a Default is cured within such time period, it ceases.

If an Event of Default (other than an Event of Default specified in sub-clauses (vii) and (viii) above) shall have occurred and be continuing under the Indenture, the Trustee by notice to the Company, or the Holders of at least 25% in principal amount of the Notes then outstanding by notice to the Company and the Trustee, may

declare all Notes to be due and payable immediately. Upon such declaration of acceleration, the amounts due and payable on the Notes, as determined pursuant to the provisions of the Acceleration section of the Indenture, will be due and payable immediately. If an Event of Default with respect to the Company specified in sub-clauses (vii) and (viii) above occurs, such an amount will ipso facto become and be immediately due and payable without any declaration, notice or other act on the part of the Trustee and the Company or any Holder. The Holders of a majority in principal amount of the Notes then outstanding by written notice to the Trustee and the Company may waive such Default or Event of Default (other than any Default or Event of Default in payment of principal or interest) on the Notes under the Indenture. Holders of a majority in principal amount of the then outstanding Notes may rescind an acceleration and its consequence (except an acceleration due to nonpayment of principal or interest on the Notes) if the rescission would not conflict with any judgment or decree and if all existing Events of Default have been cured or waived.

The Holders may not enforce the provisions of the Indenture, the Notes or the Subsidiary Guarantees except as provided in the Indenture. Subject to certain limitations, Holders of a majority in principal amount of the Notes then outstanding may direct the Trustee in its exercise of any trust or power; *provided, however*, that such direction does not conflict with the terms of the Indenture. The Trustee may withhold from the Holders notice of any continuing Default or Event of Default (except any Default or Event of Default in payment of principal or interest on the Notes or that resulted from the failure to comply with the covenant entitled Change of Control) if the Trustee determines that withholding such notice is in the Holders' interest.

The Company is required to deliver to the Trustee a quarterly statement regarding compliance with the Indenture, and include in such statement, if any Officer of the Company is aware of any Default or Event of Default, a statement specifying such Default or Event of Default and what action the Company is taking or proposes to take with respect thereto. In addition, the Company is required to deliver to the Trustee prompt written notice of the occurrence of any Default or Event of Default and any other development, financial or otherwise, which might materially affect its business, properties or affairs or the ability of the Company to perform its obligations under the Indenture.

Reports

The Indenture provides that, as long as any of the Notes are outstanding, the Company will deliver to the Trustee and mail to each Holder within 15 days after the filing of the same with the SEC copies of the quarterly and annual reports and of the information, documents and other reports with respect to the Company and the Subsidiary Guarantors, if any, which the Company and the Subsidiary Guarantors may be required to file with the SEC pursuant to Section 13 or 15(d) of the Exchange Act. The Indenture will further provide that, notwithstanding that neither the Company nor any of the Subsidiary Guarantors may be required to remain subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, the Company will continue to file with the SEC and provide the Trustee and Holders with such annual and quarterly reports and such information, documents and other reports with respect to the Company and the Subsidiary Guarantors as are required under Sections 13 and 15(d) of the Exchange Act. If filing of documents by the Company with the SEC as aforementioned in this paragraph is not permitted under the Exchange Act, the Company shall promptly upon written notice supply copies of such documents to any prospective Holder. The Company and each Subsidiary Guarantor will also comply with the other provisions of Section 314(a) of the Trust Indenture Act. For the avoidance of doubt, this covenant shall not require the Company to file any such reports, information or documents with the SEC within any specified time period and the obligation to deliver such reports, information or documents to the Trustee and Holders shall only arise after (and only to the extent) such reports, information or documents are filed with the SEC.

Discharge and Defeasance of Indenture

The Company and the Subsidiary Guarantors may discharge their obligations under the Notes, the Subsidiary Guarantees, the Indenture and the Security Documents and cause the release of all Liens on the

Table of Contents

Collateral granted under the Security Documents by irrevocably depositing in trust with the Trustee money or U.S. Government Obligations sufficient to pay principal of, premium and interest on the Notes to maturity or redemption and the Notes mature or are to be called for redemption within one year, subject to meeting certain other conditions.

The Indenture permits the Company and the Subsidiary Guarantors to terminate all of their respective obligations under the Indenture with respect to the Notes and the Subsidiary Guarantees and under the Security Documents and cause the release of all Liens on the Collateral granted under the Security Documents, other than the obligation to pay interest on and the principal of the Notes and certain other obligations (**legal defeasance**), at any time by:

(1) depositing in trust with the Trustee, under an irrevocable trust agreement, cash or U.S. Government Obligations in an amount sufficient to pay principal of, premium and interest on the Notes to their maturity or redemption, as the case may be, and

(2) complying with certain other conditions, including delivery to the Trustee of an opinion of counsel or a ruling received from the Internal Revenue Service, to the effect that Holders will not recognize income, gain or loss for federal income tax purposes as a result of the Company's exercise of such right and will be subject to federal income tax on the same amount and in the same manner and at the same times as would have been the case otherwise, which opinion of counsel is based upon a change in the applicable federal tax law since the Issue Date.

In addition, the Indenture permits the Company and the Subsidiary Guarantors to terminate all of their obligations under the Indenture with respect to certain covenants and Events of Default specified in the Indenture, and the Subsidiary Guarantees and the Liens on the Collateral granted under the Security Documents will be released (**covenant defeasance**), at any time by:

(1) depositing in trust with the Trustee, under an irrevocable trust agreement, cash or U.S. Government Obligations in an amount sufficient to pay principal of, premium and interest on the Notes to their maturity or redemption, as the case may be, and

(2) complying with certain other conditions, including delivery to the Trustee of an opinion of counsel or a ruling received from the Internal Revenue Service, to the effect that Holders will not recognize income, gain or loss for federal income tax purposes as a result of the Company's exercise of such right and will be subject to federal income tax on the same amount and in the same manner and at the same times as would have been the case otherwise.

Notwithstanding the foregoing, no discharge, legal defeasance or covenant defeasance described above will affect the following obligations to, or rights of, the Holders of the Notes:

rights of registration of transfer and exchange of Notes;

rights of substitution of mutilated, defaced, destroyed, lost or stolen Notes;

Edgar Filing: PARAGON TILE LLC - Form 424B3

rights of Holders of the Notes to receive payments of principal thereof, premium, if any, and interest thereon, upon the original due dates therefor, but not upon acceleration;

rights, obligations, duties and immunities of the Trustee;

rights of Holders of Notes that are beneficiaries with respect to property so deposited with the Trustee payable to all or any of them; and

obligations of the Company to maintain an office or agency in respect of the Notes.

The Company or the Subsidiary Guarantors may exercise the legal defeasance option with respect to the Notes notwithstanding the prior exercise of the covenant defeasance option with respect to the Notes. If the Company or the Subsidiary Guarantors exercise the legal defeasance option with respect to the Notes, payment of

the Notes may not be accelerated due to an Event of Default with respect to the Notes. If the Company or the Subsidiary Guarantors exercise the covenant defeasance option with respect to the Notes, payment of the Notes may not be accelerated due to an Event of Default with respect to the covenants to which such covenant defeasance is applicable. However, if acceleration were to occur by reason of another Event of Default, the realizable value at the acceleration date of the cash and U.S. Government Obligations in the defeasance trust could be less than the principal of, premium, if any, and interest then due on the Notes, in that the required deposit in the defeasance trust is based upon scheduled cash flow rather than market value, which will vary depending upon interest rates and other factors.

Transfer and Exchange

A Holder will be able to transfer or exchange Notes only in accordance with the provisions of the Indenture. The Registrar may require a Holder, among other things, to furnish appropriate endorsements and transfer documents, and to pay any taxes and fees required by law or permitted by the Indenture.

Amendment, Supplement and Waiver

Subject to certain exceptions, the Indenture, the Notes or the Security Documents may be amended or supplemented with the consent (which may include consents obtained in connection with a tender offer or exchange offer for Notes) of the Holders of at least a majority in principal amount of the Notes then outstanding, and any existing Default or Event of Default (other than any continuing Default or Event of Default in the payment of interest on or the principal of the Notes) under, or compliance with any provision of, the Indenture or any Security Document may be waived with the consent (which may include consents obtained in connection with a tender offer or exchange offer for Notes) of the Holders of a majority in principal amount of the Notes then outstanding. Without the consent of any Holder, the Company, the Subsidiary Guarantors and the Trustee may amend the Indenture, the Notes or the Security Documents or waive any provision thereof to cure any ambiguity, defect or inconsistency; to comply with the Limitations on Mergers and Consolidations section set forth in the Indenture; to provide for uncertificated Notes in addition to or in place of certificated Notes; to provide for any Subsidiary Guarantee of the Notes; to add security to or for the benefit of the Notes and, in the case of the Security Documents, to or for the benefit of the other secured parties named therein or holders of Other Pari Passu Lien Obligations or to confirm and evidence the release, termination or discharge of any Subsidiary Guarantee of or Lien securing the Notes when such release, termination or discharge is permitted by the Indenture and the Security Documents; to add covenants or new events of default for the protection of the Holders of the Notes; to make any change that does not adversely affect the legal rights under the Indenture of any Holder; or to comply with or qualify the Indenture under the Trust Indenture Act.

Without the consent of each Holder affected, the Company may not:

(i) reduce the amount of Notes whose Holders must consent to an amendment, supplement or waiver;

(ii) reduce the rate of or change the time for payment of interest, including default interest, on any Note;

(iii) reduce the principal of or change the fixed maturity of any Note or alter the provisions with respect to redemption under the Optional Redemption section set forth in the Indenture;

Edgar Filing: PARAGON TILE LLC - Form 424B3

(iv) make any Note payable in money other than that stated in the Note;

(v) make any change in the Waiver of Past Defaults and Compliance with Indenture Provisions, Rights of Holders to Receive Payment or, in part, the With Consent of Holders sections set forth in the Indenture;

(vi) modify the ranking or priority of the Notes or any Subsidiary Guarantee;

(vii) modify any of the provisions with respect to mandatory offers to repurchase Notes pursuant to the Limitations on Asset Sales or Change of Control covenants set forth in the Indenture after the obligation to make such mandatory offer to repurchase has arisen;

(viii) release any Subsidiary Guarantor from any of its obligations under its Subsidiary Guarantee or the Indenture otherwise than in accordance with the terms of the Indenture; or

(ix) waive a continuing Default or Event of Default in the payment of principal of or interest on the Notes.

In addition, without the consent of the Holders of $66\frac{2}{3}\%$ of the principal amount of the Notes then outstanding, the Company may not effect a release of all or substantially all of the Collateral other than pursuant to the terms of the Security Documents or as otherwise permitted by the Indenture.

The right of any Holder to participate in any consent required or sought pursuant to any provision of the Indenture (and the obligation of the Company to obtain any such consent otherwise required from such Holder) may be subject to the requirement that such Holder shall have been the Holder of record of any Notes with respect to which such consent is required or sought as of a date identified by the Trustee in a notice furnished to Holders in accordance with the terms of the Indenture.

The Intercreditor Agreement may be amended from time to time with the consent of certain parties thereto. In addition, the Intercreditor Agreement and Security Documents may be amended from time to time at the sole request and expense of the Company, and without the consent of any First Priority Collateral Agent or the Notes Collateral Agent (A) to add other parties (or any authorized agent thereof or trustee therefor) holding First Priority Obligations or Other Pari Passu Lien Obligations that are incurred in compliance with the First Priority Documents, the Indenture and the Security Documents, (B) to establish that the Liens on any First Priority Collateral securing any such First Priority Obligations shall be senior under the Intercreditor Agreement to the Liens on such First Priority Collateral securing the Obligations under the Indenture, the Notes and the Subsidiary Guarantees on the terms provided for in the Intercreditor Agreement in effect immediately prior to such amendment and (C) to establish that the Liens on any Notes Collateral securing any such Other Pari Passu Lien Obligations shall be pari passu under the Intercreditor Agreement with the Liens on such Notes Collateral securing the Obligations under the Indenture, the Notes and the Subsidiary Guarantees on the terms provided for in the Intercreditor Agreement in effect immediately prior to such amendment.

No Personal Liability of Incorporators, Shareholders, Officers, Directors or Employees

The Indenture provides that no recourse for the payment of the principal of, premium, if any, or interest on any of the Notes, or for any claim based thereon or otherwise in respect thereof, and no recourse under or upon any obligation, covenant or agreement of the Company or any Subsidiary Guarantor in the Indenture or in any of the Notes or because of the creation of any Indebtedness represented thereby, shall be had against any incorporator, shareholder, officer, director, employee or controlling person of the Company, any Subsidiary Guarantor or any successor Person thereof. Each Holder, by accepting such Notes, waives and releases all such liability.

Concerning the Trustee

The Indenture contains certain limitations on the rights of the Trustee, should it become a creditor of the Company, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee will be permitted to engage in other transactions; however, if it acquires any conflicting interest (as defined in the Indenture), it must eliminate such conflict within 90 days, apply to the SEC for permission to continue as trustee (if the Indenture has been qualified under the TIA) or resign.

Subject to the provisions of the Intercreditor Agreement and the Security Documents, the Holders of a majority in principal amount of the then outstanding Notes have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee, subject to certain exceptions. The

Table of Contents

Indenture provides that in case an Event of Default occurs and is not cured, the Trustee will be required, in the exercise of its power, to use the degree of care of a prudent person in similar circumstances in the conduct of his own affairs. Subject to such provisions, the Trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request of any Holder, unless such Holder shall have offered to the Trustee security and indemnity satisfactory to the Trustee.

Governing Law

The Indenture, the Notes and the Subsidiary Guarantees will be governed by the laws of the State of New York.

BOOK-ENTRY SETTLEMENT AND CLEARANCE

Except as set forth below or in the Description of the Notes, the new notes will be issued in registered, global form (the Global Notes) in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess of \$2,000. Notes will be issued at the closing of this exchange offer.

Except as set forth below, the Global Notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the Global Notes may not be exchanged for definitive notes in registered certificated form (Certificated Notes) except in the limited circumstances described below. See Exchange of Global Notes for Certificated Notes. Except in the limited circumstances described below, owners of beneficial interests in the Global Notes will not be entitled to receive physical delivery of notes in certificated form.

Transfers of beneficial interests in the Global Notes will be subject to the applicable rules and procedures of DTC and its direct or indirect participants (including, if applicable, those of Euroclear and Clearstream, Luxembourg), which may change from time to time.

The notes may be presented for registration of transfer and exchange at the corporate trust office of the notes trustee.

Depository Procedures

The following description of the operations and procedures of DTC, Euroclear and Clearstream, Luxembourg is provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to changes by them. Neither we, the trustee, the notes collateral agent nor the paying agent take any responsibility for these operations and procedures and urge investors to contact the system or their participants directly to discuss these matters.

DTC has advised us that DTC is a limited-purpose trust company organized under the laws of the State of New York, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participating organizations (collectively, the Participants) and to facilitate the clearance and settlement of transactions in those securities between the Participants through electronic book entry changes in accounts of its Participants. The Participants include securities brokers and dealers (including the initial purchasers), banks, trust companies, clearing corporations and certain other organizations. Access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Participant, either directly or indirectly (collectively, the Indirect Participants). Persons who are not Participants may beneficially own securities held by or on behalf of DTC only through the Participants or the Indirect Participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the Participants and Indirect Participants.

DTC has also advised us that, pursuant to procedures established by it:

Edgar Filing: PARAGON TILE LLC - Form 424B3

upon deposit of the Global Notes, DTC will credit the accounts of the Participants designated by the initial purchasers with portions of the principal amount of the Global Notes; and

ownership of these interests in the Global Notes will be shown on, and the transfer of ownership of these interests will be effected only through, records maintained by DTC (with respect to the Participants) or by the Participants and the Indirect Participants (with respect to other owners of beneficial interests in the Global Notes).

Table of Contents

Investors in the Global Notes who are Participants may hold their interests therein directly through DTC. Investors in the Global Notes who are not Participants may hold their interests therein indirectly through organizations (including Euroclear and Clearstream, Luxembourg) that are Participants. All interests in a Global Note, including those held through Euroclear or Clearstream, Luxembourg, may be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream, Luxembourg may also be subject to the procedures and requirements of such systems. The laws of some states require that certain persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a Global Note to such persons will be limited to that extent. Because DTC can act only on behalf of Participants, which in turn act on behalf of Indirect Participants and certain banks, the ability of a person having beneficial interests in a Global Note to pledge such interests to persons that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

Except as described below, owners of interests in the Global Notes will not have notes registered in their names, will not receive physical delivery of notes in certificated form and will not be considered the registered owners or holders thereof under the indenture for any purpose.

Payments in respect of the principal of, and interest and premium, if any, and additional interest, if any, on a Global Note registered in the name of DTC or its nominee will be payable to DTC in its capacity as the registered holder under the indenture. Under the terms of the indenture, we and the trustee will treat the persons in whose names the notes, including the Global Notes, are registered as the owners of the notes for the purpose of receiving payments and for all other purposes. Consequently, neither we, the trustee, the paying agent, nor any agent of ours or the trustee has or will have any responsibility or liability for:

any aspect of DTC's records or any Participant's or Indirect Participant's records relating to, or payments made on account of, beneficial ownership interests in the Global Notes or for maintaining, supervising or reviewing any of DTC's records or any Participant's or Indirect Participant's records relating to the beneficial ownership interests in the Global Notes; or

any other matter relating to the actions and practices of DTC or any of its Participants or Indirect Participants.

DTC has advised us that its current practice, upon receipt of any payment in respect of securities such as the notes (including principal and interest), is to credit the accounts of the relevant Participants with the payment on the payment date unless DTC has reason to believe that it will not receive payment on such payment date. Each relevant Participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal amount of the relevant security as shown on the records of DTC. Payments by the Participants and the Indirect Participants to the beneficial owners of notes will be governed by standing instructions and customary practices and will be the responsibility of the Participants or the Indirect Participants and will not be our responsibility or the responsibility of DTC or the trustee. Neither we nor the trustee will be liable for any delay by DTC or any of the Participants or the Indirect Participants in identifying the beneficial owners of the notes, and we and the trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Except for trades involving only participants in Euroclear and Clearstream, Luxembourg, interests in the Global Notes will trade in DTC's Same-Day Funds Settlement System and secondary market trading activity in such interests will therefore settle in immediately available funds, subject in all cases to the rules and procedures of DTC and its participants.

Transfers between the Participants will be effected in accordance with DTC's procedures and will be settled in same-day funds, and transfers between participants in Euroclear and Clearstream, Luxembourg will be effected in the ordinary way in accordance with their respective rules and operating procedures.

Table of Contents

Cross-market transfers between the Participants, on the one hand, and Euroclear or Clearstream, Luxembourg participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, Luxembourg, as the case may be, by its respective depository. However, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, Luxembourg, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines (Brussels time) of such system. Euroclear or Clearstream, Luxembourg, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant Global Note from DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream, Luxembourg participants may not deliver instructions directly to the depositories for Euroclear or Clearstream, Luxembourg.

DTC has advised us that it will take any action permitted to be taken by a holder of notes only at the direction of one or more Participants to whose account DTC has credited the interests in the Global Notes and only in respect of such portion of the aggregate principal amount of the notes as to which such Participant or Participants has or have given such direction. However, if there is an event of default under the notes, DTC reserves the right to exchange the Global Notes for notes in certificated form and to distribute such notes to its Participants.

Although DTC, Euroclear and Clearstream, Luxembourg have agreed to the foregoing procedures to facilitate transfers of interests in the Global Notes among participants in DTC, Euroclear and Clearstream, Luxembourg, they are under no obligation to perform or to continue to perform such procedures, and may discontinue such procedures at any time. Neither we nor the trustee nor any paying agent nor the initial purchasers nor any of our or their agents will have any responsibility for the performance by DTC, Euroclear or Clearstream, Luxembourg or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Exchange of Global Notes for Certificated Notes

A Global Note is exchangeable for Certificated Notes in registered form if:

DTC (1) notifies us that it is unwilling or unable to continue as depository for the Global Notes or (2) has ceased to be a clearing agency registered under the Exchange Act and, in either case, we fail to appoint a successor depository; or

we, at our option, notify the trustee in writing that we elect to cause the issuance of the notes in certificated form (provided that under current industry practices, DTC would notify Participants of our determination, but would only withdraw beneficial interests from a Global Note at the request of Participants); or

there has occurred and is continuing a default or an event of default with respect to the notes.

In addition, beneficial interests in a Global Note may be exchanged for Certificated Notes upon prior written notice given to the trustee by or on behalf of DTC in accordance with the indenture. In all cases, Certificated Notes delivered in exchange for any Global Note or beneficial interests in Global Notes will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depository (in accordance with its customary procedures).

Same Day Settlement and Payment

Edgar Filing: PARAGON TILE LLC - Form 424B3

We will make payments in respect of the new notes represented by the Global Notes (including principal, premium, if any, interest and Additional Interest, if any) by wire transfer of immediately available funds to the accounts specified by DTC or its nominee. We will make all payments of principal, interest and premium, if any,

Table of Contents

and additional interest, if any, with respect to Certificated Notes by wire transfer of immediately available funds to the accounts specified by the holders of the Certificated Notes or, if no such account is specified, by mailing a check to each such holder's registered address. The new notes represented by the Global Notes are expected to be eligible to trade in DTC's Same-Day Funds Settlement System, and any permitted secondary market trading activity in such notes will, therefore, be required by DTC to be settled in immediately available funds. We expect that secondary trading in any Certificated Notes will also be settled in immediately available funds.

Because of time-zone differences, credits of interests in the Global Notes received in Clearstream, Luxembourg or Euroclear as a result of a transaction with a DTC Participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits or any transactions involving interests in such Global Notes settled during such processing will be reported to the relevant Clearstream, Luxembourg or Euroclear participants on such business day. Cash received in Clearstream, Luxembourg or Euroclear as a result of sales of interests in the Global Notes by or through a Clearstream, Luxembourg participant or a Euroclear Participant to a DTC Participant will be received with value on the DTC settlement date but will be available in the relevant Clearstream, Luxembourg or Euroclear cash account only as of the business day following settlement in DTC.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE EXCHANGE OFFER

The following discussion is a summary of material U.S. Federal income tax consequences of the exchange offer to holders of original notes. The summary below is based upon the Internal Revenue Code of 1986, as amended (the Code), regulations of the Treasury Department, administrative rulings and pronouncements of the Internal Revenue Service and judicial decisions as of the date hereof, all of which are subject to change, possibly with retroactive effect. This summary does not address all of the U.S. Federal income tax consequences that may be applicable to particular holders, including, among others, dealers in securities, financial institutions, insurance companies and tax-exempt organizations. In addition, this summary does not consider the effect of any foreign, state, local, gift, estate or other tax laws that may be applicable to a particular holder. This summary applies only to a holder that acquired original notes at original issue for cash and holds such original notes as a capital asset within the meaning of Section 1221 of the Code.

The exchange of original notes for new notes in the exchange offer will not constitute a taxable event to holders for U.S. Federal income tax purposes. Consequently, no gain or loss will be recognized by a holder upon receipt of a new note, the holder's holding period for the new note will include the holder's holding period for the original note exchanged therefor, and the holder's basis in the new note will be the same as the holder's basis in the original note immediately before the exchange.

Persons considering the exchange of original notes for new notes should consult their own tax advisors concerning the U.S. Federal income tax consequences to them in light of their particular situations as well as any consequences arising under the laws of any other taxing jurisdiction.

PLAN OF DISTRIBUTION

If you wish to exchange your original notes in the exchange offer, you will be required to make representations to us as described in The Exchange Offer Exchange Offer Procedures in this prospectus and in the letter of transmittal. In addition, each broker-dealer that receives new notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such new notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of new notes received in exchange for original notes where such original notes were acquired as a result of market-making activities or other trading activities. We have agreed to use our reasonable best efforts to make this prospectus, as amended or supplemented, available to any broker-dealer for a period of 210 days after the date of this prospectus for use in connection with any such resale.

We will not receive any proceeds from any sale of new notes by broker-dealers. New notes received by broker-dealers for their own account pursuant to the exchange offer may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the new notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to such prevailing market prices or negotiated prices. Any such resale may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer or the purchasers of any such new notes. Any broker-dealer that resells new notes that were received by it for its own account pursuant to the exchange offer and any broker or dealer that participates in a distribution of such new notes may be deemed to be an underwriter within the meaning of the Securities Act and any profit on any such resale of new notes and any commission or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. Further, any broker-dealer who holds original notes acquired for its own account as a result of market-making activities or other trading activities, and who receives new notes in the exchange offer, may also be an underwriter within the meaning of the Securities Act and is required to deliver a prospectus in connection with any resale of the new notes. The letter of transmittal states that, by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act.

A broker-dealer that acquired original notes directly from us cannot exchange the original notes in the exchange offer. Any holder who tenders in the exchange offer for the purpose of participating in a distribution of the new notes cannot rely on the no-action letters of the staff of the SEC and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

For a period of 210 days after the date of this prospectus, we will promptly send additional copies of this prospectus and any amendment or supplement to this prospectus to any broker-dealer that requests such documents in the letter of transmittal. We have agreed to pay all expenses incident to the exchange offer, including the expenses of one counsel for the holders of the original notes, other than commissions or concessions of any brokers or dealers, and will indemnify the holders of the original notes, including any broker-dealers, against certain liabilities, including liabilities under the Securities Act.
