Cautionary Note on Forward-Looking Statements

Certain statements in this presentation may constitute forward-looking statements within the meaning of Federal securities laws, and are subject to a variety of uncertainties, unknown risks and other factors concerning the Company's operations and business environment. Actual results could cause actual results to differ materially from those suggested by these forward-looking statements and that could adversely affect the Company's financial performance include the following: demand in the industries into which Ferro sells its products may be unpredictable; changes in demand by consumer spending; Ferro's ability to successfully implement its value creation strategy; Ferro's ability to successfully implement cost saving initiatives, including its restructuring programs, and produce the desired results, including projected savings; restrictive covenants in credit facilities could affect its strategic initiatives and liquidity; Ferro's ability to access capital markets, borrowings, or financing; and the Company's efforts to improve operating margins through sales growth, price increases, productivity gains, and improve

availability of reliable sources of energy and raw materials at a reasonable cost; currency conversion rates and economic, social and political conditions around the world; Ferro's presence in certain geographic regions, including Latin America and Asia-Pacific, where operations are conducted in a lawful manner; increasingly aggressive domestic and foreign governmental regulations on hazardous materials and regulations affecting the environment; Ferro's ability to successfully introduce new products or enter into new growth markets; sale of products into highly competitive markets; or no redundancy for certain of the Company's manufacturing facilities and possible interruption of operations at those facilities; future acquisitions or dispositions, or successfully integrate future acquisitions; competitive factors, including intense price competition; ability to protect its intellectual property or to successfully resolve claims of infringement brought against the Company; management of operating and administrative expenses; Ferro's multi-jurisdictional tax structure; the impact of the Company's performance on its ability to raise capital; assets; the effectiveness of strategies to increase Ferro's return on capital; the impact of operating hazards and investments made in the environment, health and safety regulations; stringent labor and employment laws and relationships with the Company's employees; requirements to fund employee benefit costs, especially post-retirement costs; implementation of new business processes and information systems; impact of interruption, damage to, failure, or compromise of the Company's information systems; manufacture and sale of products in a competitive industry; exposure to lawsuits in the normal course of business; risks and uncertainties associated with intangible assets, including goodwill impairment and other charges described in this press release; Ferro's borrowing costs could be affected adversely by interest rate fluctuations; Company's assets by its lenders affect its ability to dispose of property and businesses; Ferro may not pay dividends on its common stock in the future; and other factors affecting the Company's business that are beyond its control, including disasters, accidents, and government actions. The risks and uncertainties identified above are not the only risks the Company faces. Additional risks and uncertainties not presently known or that it currently believes to be immaterial also may adversely affect the Company. Should any known or unknown risks and uncertainties, or actual events, these developments could have material adverse effects on our business, financial condition and results of operations. This presentation contains time-sensitive information that reflects management's best analysis only as of the date of this release. We do not undertake any obligation to publicly update or revise any forward-looking statements to reflect future events, information or circumstances after the date of this presentation. Additional information regarding these risks can be found in our Annual Report on Form 10-K for the year ended December 31, 2012.

Non-GAAP Financial Measures

This presentation includes certain non-U.S. GAAP financial measures. The calculation of these measures, and a reconciliation of these non-GAAP comparable measures calculated in accordance with U.S. generally accepted accounting principles (GAAP), can be found on the

2013 Guidance

Adjusted earnings per share for 2013 are expected to be in the range of \$0.25 to \$0.30 per diluted share

We expect the first quarter of 2013 to be the lowest earnings quarter (\$0.02 -

\$0.05/share) due to the timing

of the cost savings programs rollout

Adjusting for the impact of the Solar Pastes transaction and foreign currencies, sales growth is expected to be approximately 2%

For the year, cash flow is expected to be neutral

15

2015 Targets

Top line sales growth 4% per annum

Gross profit as percent of sales > 21%

SG&A expense as percent of sales < 13%

EBITDA margin of approximately 11%

Maintenance CAPEX of \$25 million

EPS of \$0.75 -

\$0.85

Note: Sales = value added sales

Ferro Q4 2012 Financial Overview

Sales decline driven by EMS, primarily solar
pastes and metal powders and flakes

Value added sales declined in all segments

Weakness in Europe adversely impacted

Coatings and Color & Glass

SG&A includes pension mark-to-market
adjustments of \$27M and \$52M in 2012 and

2011

Excluding pension, SG&A reduced partially due

to lower variable selling costs, reduced
compensation expenses and lower professional
fees
